Congressional Record

PROCEEDINGS AND DEBATES OF THE 117th CONGRESS, SECOND SESSION

Vol. 168

WASHINGTON, WEDNESDAY, FEBRUARY 2, 2022

No. 21

House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. PERLMUTTER).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
February 2, 2022.

I hereby appoint the Honorable ED PERLMUTTER to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 10, 2022, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

24TH WINTER OLYMPIC GAMES

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Iowa (Mrs. MILLER-MEEKS) for 5 minutes.

Mrs. MILLER-MEEKS. Mr. Speaker, I rise today to speak about an event that many Americans look forward to every 4 years: The Winter Olympics.

In a few days, millions around the world will tune in to watch their country compete in the 24th Winter Olympic Games in Beijing, China. The spirit of the Olympics is one of sportsmanship, friendship, competition, and na-

tional pride for viewers and athletes around the world.

Unfortunately, several years ago the International Olympic Committee selected a host country that is one of the last Communist nations in the world, enslaves workers in sweatshops, forces sterilization upon minority women, punishes those who speak out against the dictatorship, imprisons and murders ethnic minorities, and lied to the world about a global pandemic that has killed millions and changed our lives forever.

Almost every freedom that Americans take for granted is nonexistent under the rule of the Chinese Communist Party. The government has created countless human rights abuses against its people, including the genocide of the Uyghur Muslim population. To this day, they have blocked the rest of the world from learning more about the origins of COVID-19, something that is important for our national security and our public health.

Meanwhile, the majority has thrown away months of bipartisan work and has decided to push another partisan bill that will not pass the Senate or become law in its current form. Included in the so-called America COMPETES Act are several provisions that have nothing to do with China. This bill gives billions to the United Nations Green Climate Fund. It mentions the word "coral" more than the word "China." This bill gives no sanctions, punishment, or funding for an investigation into the Chinese Communist Party's cover-up of the origins of COVID-19.

And hidden on page 1519, this legislation also allows the President to use emergency powers until the President declares the COVID-19 national emergency is over, or September of 2025; coincidentally, after the next Presidential election. The vast majority of the American people believe that COVID is unfortunately going to be

with us for a long time and desire transparent information so that we can learn to live with it and treat it rather than living in perpetual fear. The national emergency should end no later than this year, and Congress should work in a bipartisan way to end unending emergency powers. We should also act to hold China accountable for lying to the world about a global pandemic and for the human rights atrocities they have committed.

The Chinese Government is known to arbitrarily arrest and hold Americans against their will to blackmail our government. The government has a long track record of spying on Americans, placing microphones and cameras wherever they can. They have no concept of privacy and will gladly find a way to collect DNA samples and as much information as possible on our world-class athletes. I believe the overwhelming majority of the Chinese people are just like us, but the actions of their government have given us no reason to trust them.

Going forward, I do not believe that a country with a human rights track record like that of the People's Republic of China should be given the honor of hosting the Olympic Games.

I pray for the safety, health, and success of American athletes, coaches, and support staff during their time abroad and wish them all the best of luck. I know they will make all of us back home proud.

TEACHING HISTORY IN AMERICA

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. GREEN) for 5 minutes.

Mr. GREEN of Texas. Mr. Speaker, and still I rise, a proud African American. I rise today because we are into Black History Month, the second day, and I rise today because I am very much concerned about history in this country. For you see, Mr. Speaker,

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Printed on recycled paper.

H333

there are efforts across the length and breadth of the country to distort history and, in many instances, not to allow it to be taught.

Can you imagine Black history not being taught in this country? That would make Black History Month more important, but my hope is that at some point we don't need Black History Month because history will be taught every day and there won't be a need to accentuate the things that have happened to African Americans in this country. But the notion that we can't teach the true history of what happened to us in the United States of America and what happened to the people in the United States of America is offensive.

And it is not just about African Americans, by the way. It is also about Jewish people, not being able to teach what happened to Jewish people. Can you imagine more than six million people murdered, and we can't teach this in our schools? The number is not known truly. Huge number. And what happened to them? How were they killed? They weren't just murdered in concentration camps. Many of them were murdered in their homes, in their yards, in the ghettos. And that can't be taught?

If we can't teach Black history, we probably won't be able to teach the Trail of Tears and what happened to the indigenous Americans, how they were harmed by virtue of the State itself intentionally causing them to receive certain diseases. We won't be able to teach what happened to the Asians who came to this country, internment camps.

Black History Month is very important to us. We have to have it, but more than have Black History Month, we have got to have the history of what has happened taught because those who don't learn the lessons of history are doomed to repeat the lessons of history.

And finally this: This House needs to go on record. We need to go on record. We need to take a stand. We need to let the world know that we will support the teaching of history in schools. To do anything less is to cause us to be placed in the position of having not lived up to the promises of this country. We should do it. I hope that this House will go on record appropriately doing so.

REMEMBERING THE LIFE OF CHRIS WALSH

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Mrs. KIM) for 5 minutes.

Mrs. KIM of California. Mr. Speaker, I rise today to honor Chris Walsh, who tragically lost his long fight against cancer on January 24, 2022. Chris was a dear friend to all, a devoted husband, a father to two beautiful young girls, a Cal State Fullerton graduate, and hardworking public servant who served the 74th Assembly District of Cali-

fornia in Assemblyman Matt Harper's office, the city of Irvine in Councilman Mike Carroll's office, and most recently California's 39th District in my Placentia district office.

While we remain heartbroken that he was taken from us way too soon, all of us who had the pleasure of knowing him remain inspired by his courage, persistence, and integrity in the face of the worst adversity.

I first met Chris when he was a young, impressive, and ambitious young man interning at the office of Congressman Ed Royce, who I was working for at the time. At the age of 25, he found out that he was diagnosed with a terminal cancer and was told by doctors that perhaps he would maybe have only 2 months to live.

This is daunting news for anyone to hear. However, instead of letting this change the course of his life, he took charge and defied the odds over the next several years, having a productive career, meeting his beautiful wife, Amanda, and having two girls.

Chris was gracious to everyone and lit up every room with his kindness, sense of humor, and charisma. He was always willing to pitch in and help out our team, his friends, and loved ones. He made all of us work harder and brought out the best versions of each of us every day. Without Chris, I would not be here in Congress nor would I be the person that I am today.

Chris would often spend his evenings after work cheering on our Anaheim Angels, and I am comforted in knowing that his loved ones, including his wife, Amanda, and daughters, Amelia and Madeline, will have their guardian angel watching over and protecting them.

Amanda, you know that Chris loved you with all his heart, mind, and soul until he took his last breath. You were the light of his life, and he enjoyed talking about you and your beautiful two girls that you created together. You were his everything, and I want to thank you for loving him the way you did, giving him unconditional love.

Crystal and Mike, as a parent and mom, I feel your pain and the sadness of losing a son. And to Katherine, I am sorry that you lost the only sibling that you had. I want you to know that Chris was not just someone who worked for me. I, too, loved him like my own son.

Crystal, I remember you telling me that minutes after Chris passed how you were holding his hand and praying to God to show you some signs that he would be fine, and you thought you saw Chris smile. Yes, I believe that was a true sign that Chris was smiling because he has arrived at the gate of Heaven, and he is now resting comfortably in the arms of Jesus.

My heart remains with the Walsh family, friends, and relatives as we continue to mourn a life that was taken from us too soon. We are grateful for the positive influence that Chris had on so many of us while he lived a full and productive life.

SUPPORTING AMERICA'S SMALLER BUSINESSES

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Kansas (Ms. DAVIDS) for 5 minutes.

Ms. DAVIDS of Kansas. Mr. Speaker, I rise today as we consider legislation to strengthen supply chains and to stand up for our small businesses. For years, we have been too reliant on goods made in other countries.

The pandemic has exacerbated and exposed that reality. We have seen shortages from personal protective equipment to ventilators and semiconductor chips. Those supply chain weaknesses continue to contribute to rising prices and inflation.

We should be making more in America. We have many small businesses in Kansas and across the country that are willing and able to step up to the plate.

As we take up the America COMPETES Act this week, legislation drafted with both parties and aimed at creating jobs, addressing inflation, and strengthening American manufacturing, it is absolutely essential that we include small and medium manufacturers in our consideration.

In my district, the Kansas Third, we have businesses who pivoted their entire production lines to fill gaps in our medical supply chains, helping protect frontline healthcare workers amid significant shortages in personal protective equipment early in the pandemic. At that time, nurses and hospital staff were having to reuse masks and gowns, putting themselves at incredible risk.

We were slowed by our reliance on foreign-made supplies, and here we had small businesses that were ready to help if we had just given them a chance.

The America COMPETES Act includes a program to build a stable and adaptable supply chain for our national stockpile, one that is flexible enough to react in emergency situations without completely breaking down, as it did before. As we work to build that flexibility, it would be a mistake to shut out the producers we have right here at home.

My amendment is going to ensure that when we are restocking and restructuring our strategic national stockpile that we are working with a range of businesses. It would require that smaller manufacturers get a seat at the table, not just big corporations, because I can tell you from experience that they stand ready to pitch in, ready to train and employ our workers. It is our job to ensure they get the chance to do just that.

The America COMPETES Act is a major opportunity to deal in our domestic industries and workers. It is an opportunity to address root causes of inflation and bring down our costs long term, one particularly important example being incentives for domestic semiconductor manufacturing. And it is an opportunity for us to invest in

our global standing, putting our workers, farmers, manufacturers, and businesses on a level playing field with countries like China and other nations.

I encourage my colleagues to support this amendment and to support small manufacturers.

□ 1015

CHINA'S PANDA PROPAGANDA CAMPAIGN

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from South Carolina (Ms. MACE) for 5 minutes.

Ms. MACE. Mr. Speaker, I rise today to shed a very serious light on what appears to be a seemingly light-hearted subject.

As the world prepares for the Olympic Games, I rise to denounce the Chinese Communist Party and its worldwide panda propaganda campaign.

From the COVID-19 fiasco started in a lab in Wuhan to China's coverup, to the ongoing genocide against the Uyghurs and the repeated and increasingly hostile incursions by Chinese fighter jets over the island of Taiwan, including when a bipartisan delegation visited Taiwan just last November, this administration has decided to answer Chinese aggression with a diplomatic boycott of the Winter Olympic Games. I am sure Chairman Mao is trembling in his Tiananmen mausoleum at the thought of our diplomats staying home.

Well, two can play at this game.

Not many people know the Chinese Communist Party has leveraged the cuddly panda in an effort to soften their image around the world. Indeed, Bing Dwen Dwen, the panda dressed in an astronaut suit, is the official mascot of the Beijing Olympics. His costume is meant to demonstrate their embrace of the future and technology. Or perhaps it is a warm and fuzzy attempt to soften China's ambitions in space.

China claims all pandas the world over belong to China, and they charge zoos a half-million dollars per panda per year for the privilege of loaning these gentle creatures to us. Ultimately, every last panda must be returned to China, property of the Chinese Communist Government.

Every year, millions of Americans enjoy these pandas, not knowing the sinister plot behind their all-too-brief stay here. We should not fund China's panda propaganda campaign.

In the words of Sun Tzu: "Begin by seizing something which your opponent holds dear; then he will be amenable to your will." Let's get serious with our diplomacy and hit China where it hurts. Give freedom to the pandas and allow them to stay here in the United States.

HONORING ROBERT SMALLS

Ms. MACE. Mr. Speaker, America has always been a place known for its citizens and its heroes who have gone

above and beyond. In honor of Black History Month, the State of South Carolina and the First Congressional District in South Carolina has one such hero, a citizen by the name of Robert Smalls. Robert Smalls is the epitome of a true South Carolina hero.

Robert Smalls was born a slave in Beaufort, South Carolina, in 1839. Robert Smalls faced countless afflictions in the early years of his life, but he never gave up. During the Civil War, he hijacked a Confederate ammunition ship and turned it over to the Union Navy, delivering its 17 African-American passengers from slavery to freedom.

Robert Smalls then became the first African American to pilot a U.S. vessel taking the helm of a Union warship in the first battle of Charleston Harbor in 1863.

At the war's conclusion, Robert Smalls received a commission as brigadier general in the South Carolina militia and eventually went on to serve the South Carolina State General Assembly and Senate.

But his tireless work for the people of South Carolina did not end there. Smalls would then go on to serve five terms in the U.S. House of Representatives, from 1874 to 1886, for South Carolina's First Congressional District, the district that I represent today.

So, on behalf of the Lowcountry and the people of the First District, I am deeply honored to offer a bill being considered today in committee that will designate the U.S. post office at 11 Robert Smalls Parkway in Beaufort, South Carolina, as the Robert Smalls Post Office.

HONORING CHRISTOPHER CELIZ

Ms. MACE. Mr. Speaker, I rise today to recognize the bravery and heroism of Sergeant First Class Christopher Celiz, an Army Ranger and proud son of South Carolina who made the ultimate sacrifice for his Nation during his fifth deployment in Afghanistan.

Christopher was born in Charleston in 1986 and graduated from Summerville High School in 2004. After graduating, Christopher joined the United States Army, where he became a well-respected leader among his peers.

During a mission in the Paktia province of Afghanistan, Sergeant Celiz and the First Battalion, 75th Ranger Regiment were taking heavy fire from enemy combatants. When one of his men was hit, Christopher used his own body to shield the wounded soldier as he was being evacuated.

Sergeant Celiz took heavy fire and was wounded multiple times during this moment, but instead of having the evacuation helicopter come back to retrieve him, he instructed the aircraft to leave so his fellow soldier and many other lives could be saved that day.

Christopher's sacrifice is an inspiration to us all. His heroic actions deserve the recognition of our Nation, and I want to thank President Biden for posthumously awarding Sergeant First Class Christopher Celiz with the

Medal of Honor. No one is more deserving.

BIDEN ADMINISTRATION LEADS POSITIVE ECONOMIC RECOVERY

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Texas (Ms. GARCIA) for 5 minutes.

Ms. GARCIA of Texas. Mr. Speaker, I rise today to speak about the continued positive economic recovery led by the Biden administration.

In December, the Texas unemployment rate dropped all the way down to 5 percent compared to 12.9 percent at the height of the pandemic.

Service sector employment is now up above prepandemic levels, but a strong economy for the future is only possible with smart investment today. That is why the benefits the Infrastructure Investment and Jobs Act will bring to my home State of Texas are critically vital. The Infrastructure Investment and Jobs Act is bringing jobs, opportunities, and a better quality of life for Texans.

For Texas, the infrastructure bill means more than \$35 billion in projects alone, and that is just our State. These projects include replacing old lead pipes from schools, increasing broadband access, road and bridge repairs, and the maintenance of ports. And all this means jobs, jobs, and more jobs.

Mr. Speaker, I think it is important to outline some of the biggest provisions for Texans.

First, Texas is expected to receive \$537 million to repair 818 bridges across the State, many in my district. This is huge.

Next, Texas will get about \$1.2 billion for infrastructure development for airports. Airports are critical, not just for travelers, but because they are hubs for workers. And, of course, that means jobs.

And Texas will receive at least \$100 million to help provide broadband internet coverage across the State. These dollars will provide access to at least 1,058,000 Texans who currently lack high-speed internet. Mr. Speaker, every time I go back home to south Texas, I am one of those Texans at my sister's house. She has no high-speed internet.

As we have learned from the pandemic, internet is no longer a luxury; it is a necessity. So this funding is critical.

Mr. Speaker, \$2.9 billion is headed to Texas to improve water infrastructure. This will ensure that clean, safe drinking water is accessible in all communities, in their homes and their schools.

For decades, Texas infrastructure has suffered due to lack of investment. We have seen it plenty of times, especially from last year's electrical grid failure to the damage to pipelines, roads, and bridges due to regrettably more frequent natural disasters.

It is time for Texans to have working infrastructure that protects them, not hurts them.

This law will kickstart new projects, create jobs, and put Texas on the right track. And that, Mr. Speaker, means that working families will have a better quality of life across the State.

JOE BIDEN IS ROOT CAUSE OF SOUTHERN BORDER CRISIS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Mr. Speaker, it has been a year since Joe Biden took office, and the southern border has all but collapsed.

A year has passed, and he still cannot find the elusive root cause of his self-inflicted border crisis. Since he is clearly having some trouble finding the cause, I will save him some time. Joe Biden is the root cause of the border crisis.

The number of illegal crossings at the border has escalated at a faster rate under him than at any time in recent history. Since Joe Biden took office, nearly 2 million illegal immigrants have been apprehended at the southern border.

But wait, there is more.

More illegal immigrants have crossed the southern border in the last 3 months than in all of fiscal year 2020. And now, we have learned that illegals are being funneled to cities across the United States in the dead of night.

That is right. While Americans are asleep, this administration is trying to cover up its own failures. Some of these illegals are known to have criminal records, yet they are being given a free pass.

Across the world, people are watching this unfold. Across the world, people are getting the message that you can waltz into this country illegally with no consequences. Consider the fact that people from 160 different countries are coming to the southern border. It is clear that the message is the wrong one to be sending.

In December, a Saudi Arabian national with ties to known Yemeni terrorists was arrested after he crossed the border wearing a fake paramedic uniform. If he were released into the United States, the consequences would have been disastrous.

Mr. Speaker, instead of securing the southern border and protecting the integrity of our national security, this administration has doubled down on its own failures. Because of this worsening crisis, every State has now become a border State.

Border security is national security. And thanks to Joe Biden and congressional Democrats' open border policies, America has neither.

HELP FOR UKRAINE

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. BERA) for 5 minutes.

Mr. BERA. Mr. Speaker, I rise today to talk about a looming crisis that we see in Eastern Europe.

Last week, as a senior member of the Foreign Affairs Committee, I had a chance to accompany some of my colleagues on a bipartisan delegation to both Brussels and Ukraine.

What I saw when we were in Ukraine, as we met with their senior leaders and President Zelensky, was a country that has resolve. They reminded us that they have been at war with Russia for the last 8 years since Russia invaded Crimea and occupied the Donbas territories. So, this is a country that has been fighting Russia. They are prepared to defend themselves.

When I went out on the streets with my colleagues and talked to ordinary Ukrainian citizens, there is a resolve. They have no intention of living under Soviet rule. They have tasted freedom.

It is important for us as the United States of America to stand with this young democracy. We are the oldest democracy in the world. When I have been asked by the media why the United States should be concerned about what is happening in Eastern Europe, it is because we value the freedoms that we enjoy; we value the liberty; and we value the ability of individual citizens to choose their own path forward. That is what this is about.

When we went to Brussels, we had a chance to meet with our NATO allies, with other members of the European Union. Think about what we accomplished working with those countries in the 75-plus years post-World War II. We created peace on the European Continent after two world wars. We created thriving democracies. We created prosperity. That is what is at risk.

Think about what Mr. Putin wants to do. He wants to reestablish the Soviet Union. He is an autocrat. That is what is at risk in the 21st century.

It is not a given that democracy will win the 21st century. We have to fight for democracy. We have to fight for those liberties. We have to fight for those individuals to choose their path forward.

That is why this is important. That is why it is important for us to stand with the people of Ukraine. That is why it is important for us, along with our European allies and our NATO allies, to stand together and speak with one voice and tell Mr. Putin we are not going back to the Soviet era; we are going forward to a peaceful, prosperous 21st century for all people.

HONORING KEN DUKE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Georgia (Mr. CARTER) for 5 minutes.

Mr. CARTER of Georgia. Mr. Speaker, I rise today to reflect upon the career of Ken Duke, a professor in the College of Pharmacy at the University of Georgia.

Ken has, for 37 years, served our future pharmacists invaluable as they venture into their careers. Ken has helped develop and foster in his stu-

dents a passion for our field that is the distribution of lifesaving medicines.

Ken graduated from the University of Georgia School of Pharmacy in 1977 and began his career at the University of Georgia in 1985. Since that time, Ken has tirelessly and selflessly worked to educate and mentor future pharmacists of America.

Ken's spirit and drive for this occupation is something that he has instilled in his students for nearly four decades. In the later years of his career, Ken served as the acting assistant dean for the Pharmacy College's expansion campus in Savannah, which he helped found.

In his retirement, Ken is excited to be living on the coast and by the water, as well as spending time in Athens for Georgia football games and, hopefully, another Georgia National Championship.

Ken's service has been remarkable. Mr. Speaker, I thank Ken and wish him a blessed retirement.

HONORING JAMES MATHEWS BLITCH, SR.

Mr. CARTER of Georgia. Mr. Speaker, I rise today in memory of Jimmy Blitch, Sr., a veteran and a remarkable Georgian.

Jimmy was born in Savannah in 1933, the eldest of three children, and spent most of his early life in the city, eventually moving to Statesboro to farm Blitch Place, where he found his love for farming.

Jimmy then went on to graduate high school and attend the University of Georgia at only 15 years old, where he graduated with honors. Most 15-year-olds can barely handle the stress of high school, let alone college, but Jimmy was not like most people.

Upon graduating, Jimmy entered the U.S. Army as a marksman, spending his time between Fort Jackson and Fort Benning, eventually being honorably discharged from the service as a second lieutenant.

After returning to his hometown in Statesboro, Jimmy would meet the love of his life, Patricia Brannen, getting married in 1958.

They built their lives on Blitch Place Farms, raising three daughters and a son.

Thankfully, Jimmy was able to see the University of Georgia win their third National Championship before his passing.

A loving father and husband, an outdoorsman, an honorable veteran, and fellow Georgia sports fan, Jimmy is sure to be missed.

□ 1030

RECOGNIZING GRIFF LYNCH AS GEORGIAN OF THE YEAR

Mr. CARTER of Georgia. Mr. Speaker, I rise today to recognize Georgia Ports Authority Executive Director Griff Lynch for being named Georgia Trend's 2022 Georgian of the Year.

Griff is a graduate from Maritime College in New York, which led him to work in the maritime industry for 34 years and eventually our Georgia

ports. Lynch took the helm of our Nation's busiest ports in Savannah and Brunswick, and in doing so, has faced some of the hardest challenges in his career.

With the breakout of COVID-19, the Savannah and Brunswick ports were hit hard. But it was Lynch's steady hand that steered them through these turbulent times. If you got your Christmas gifts on time this year, Griff Lynch probably had something to do with it.

He has overseen multiple expansion and enhancement projects in the area, allowing our ports to stay ahead of the increasing demand. And through Lynch's efforts, our ports have seen a 20 percent increase in volume, meaning nearly 900,000 additional containers are coming to the area. This means more jobs, innovation, and growth for Georgia's First District. His experience, guidance, and ability to push the envelope has made him an excellent leader for our ports and a perfect recipient of the Georgian of the Year Award.

HONORING DR. DUDLEY FLOOD

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. ROSS) for 5 minutes.

Ms. ROSS. Mr. Speaker, I rise today to honor the service and career of Dr. Dudley Flood, a recipient of North Carolina's highest civilian award, the North Carolina Award for Public Service, for his trailblazing leadership in desegregating our State's public schools.

Born in Winton, North Carolina, and a graduate of North Carolina's Central University, Dr. Flood began his career as an educator teaching grade school and eventually becoming a principal.

Following his teaching tenure, Dr. Flood joined the North Carolina Department of Public Instruction, where he made a significant impact during his 21 years of dedicated service. In the years following the landmark 1954 *Brown v. Board of Education* decision, Dr. Flood and the late Gene Causby were tasked with facilitating the desegregation of schools in all 100 counties in North Carolina.

In 1969, Dr. Flood and Mr. Causby began to travel across the State to help desegregate North Carolina school systems. Beyond the assistance they provided in navigating this challenging process, it was the visual of these two men—one Black and one White—working closely together that made a powerful impression on teachers and students alike.

Through his honorable work, Dr. Flood became a State hero and North Carolina became a model for school desegregation. By working to ensure that North Carolina is a place where all students can learn, irrespective of race, Dr. Flood helped bring together starkly divided communities and effectively ushered in a new era for public education in our State.

Dr. Flood retired from public instruction in 1990. Since then, he has served as executive director of the North Carolina Association of School Administrators, taught as a visiting professor at multiple North Carolina colleges and universities, and continued to be active in his community, including with the Flood Group, a group of people who meet from across the State.

Now, 90 years old, Dr. Flood has led an incredible career as a champion for equitable education. Today, his achievements can be seen in schools statewide as children of all races are able to learn and play together and support each other's academic success.

As we begin celebrating Black History Month, I am honored to share his extraordinary legacy with this body. He enhanced the lives of hundreds of thousands North Carolinians through his example and his achievements. The people of our State are forever grateful for his remarkable life and lasting legacy.

AMERICA'S FUTURE DEPENDS ON AGRICULTURE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Kansas (Mr. MANN) for 5 minutes.

Mr. MANN. Mr. Speaker, I rise today to speak about my heroes—America's farmers, ranchers, and agriculture producers. These people are my family, my friends, my neighbors, and my ancestors.

I came to this Congress to defend agriculture because the time I spent on the farm with my father, brother, and grandfather growing up taught me the most important lessons I have ever learned. Agriculture's core values are the same as America's—hard work, self-determination, responsibility, creativity, others before self, and prayer.

Therefore, if America is going to thrive, agriculture must thrive. Of all the hardworking, resilient people in our country, agriculture producers face more challenges and uncertainty than most of us can imagine as they strive to feed, fuel, and clothe our Nation every day.

A late winter snow in Washington, D.C., means a frustrating commute to work. In Kansas—where it is snowing right now—it means essential moisture for the soil, better hopes for the spring, profits that might let you buy the tractor you have been needing for 2 years now, and if there is some money left over, an extra birthday present for your daughter in July.

Kansas' own President Eisenhower said, "Farming looks mighty easy when your plow is a pencil and you are a thousand miles from the corn field." In Congress, we deal with the laws of our land, and that is important, but the farmers are the caretakers of the land itself. American farmers built our history, sustain our present, and secure our future.

In the early 1930s, America was suffering from food insecurity. That is

when Congress woke up, realized that above all other concerns, we need to eat to survive, and drafted the first ever farm bill.

Now, nearly 100 years later, America is the most food-secure country in the world because of the strength of our ag producers. So when Congress gets the opportunity to reauthorize the farm bill every 5 years, we need to think carefully and critically about the extent and nature of our investment in agriculture because it is an investment in both the immediate and the long-term health of our Nation.

Agriculture is also about freedom. It is extremely difficult for a Nation to be free if it relies on another for its food. Therefore, it is essential to America's future that we get ag policy right, so we never ever have to depend on another for our food or our freedom.

Over the next several months, as we gear up for the 2023 reauthorization of the farm bill, I will be standing to share some of my thoughts, ideas, and amendments on that legislation.

On behalf of my constituents and every American farmer, rancher, and ag producer, I want to say unequivocally that I will do everything within my power to ensure that the 2023 farm bill invests powerfully in agriculture. America's future depends on it.

ECONOMIC OUTLOOK OF THE VIRGIN ISLANDS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from the Virgin Islands (Ms. PLASKETT) for 5 minutes.

Ms. PLASKETT. Mr. Speaker, the 2020 election brought with it tremendous opportunities for the territories, particularly, after the devastation of unprecedented natural disasters in our global pandemic.

The American Rescue Plan of 2021 offered tremendous promise of full, robust recovery for our islands. Our island governments will now receive full Federal funding for important workforce development tax credits, like the earned income tax credit, child tax credit, and the child dependent care tax credit. This will be significant relief to budget and revenue offices in the territories.

In the Virgin Islands, my home, the earned income tax credit alone accounts for almost 40 percent of our tax returns in any given year. In addition, each of the territories have received at least \$500 million in State and local government fiscal aid. These funds have broad eligibility, including to provide services threatened by declining revenue; make investments in water, sewer, or broadband infrastructure; support public entities involved in transport of passengers or cargo; special purpose units of local government, or nonprofits that aid the homeless.

The Virgin Islands will also receive investments from the bold Infrastructure Investment and Jobs Act that became law in November. The EPA, FAA,

and the Army Corps of Engineers are agencies providing substantial support.

Much of this funding will take us far, however, aside from supplemental funds made available in the act, in the area of primary formula funds for traditional infrastructure, surface roads and highways, I am afraid the territories remain significantly underfunded or under-included.

The territories have endured severe infrastructure funding cuts since 1998, when the preexisting set-aside formula for the Territorial Highway Program funding was scrapped. Since then, the territorial share of overall Federal highway program funding has progressively declined by 50 percent. These severe cuts have negatively impacted everything from safety to emergency response, law enforcement capabilities, to commerce, to disaster relief management.

The Build Back Better Act would restore the significant equity investment in infrastructure for the territories in the House-passed bill. It contained \$320 million in supplemental funding for the Territorial Highway Program in order to restore the investment in the territories to a similar share of overall Federal highway funding that they once received before 1998. We must continue to fight for those objectives.

The territories will have a hard time competing for any of the billions in funding set up in the Infrastructure Investment and Jobs Act for projects of national significance, or the Rural Surface Transportation Grant program because project eligibility under these new programs is mostly tied to States or projects connected to the National Highway System, which by definition, does not include the territories. That impediment, along with having sufficient private partners to allow us to ramp up, have care, capacity and competence, make it hard for us to go after the competitive grants. The territories will need assistance with vying for the competitive funding that they are eligible for, identifying those programs, and connecting those programs to projects.

The viability and sustainability of energy in the territories is of the utmost importance for the well-being of our rural communities. The territories are not connected to the national grid, and energy costs on our islands are higher than anywhere else in the country. Our geographic locations leave us vulnerable to climate change but also provide opportunities for adoption of innovative energy resources.

We need help from the Department of Energy and Agriculture, and many others, for energy efficiency, energy storage, smart grids, microgrids, as well as renewable energy technical training.

Mr. Speaker, Americans living in the territories live in areas with brownfields and are susceptible to climate change unlike other areas. We are rural-isolated and we have unemployment much higher than others. However, we have geographic strategic ad-

vantages for our country. Our young people disproportionately enter the military because they want to work. They want to be productive. We sit in a vortex of alternative energy raw resources, in a majority minority community.

As it says up here on the wall by Daniel Webster, "Let us develop the resources of our land, call forth its powers. . . ." I am asking my colleagues in Congress to ensure that the territories can do that through this Infrastructure Investment and Jobs Act.

HONORING THE LIFE AND LEGACY OF JAMES ALLAN GUTHRIE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. BABIN) for 5 minutes.

Mr. BABIN. Mr. Speaker, I rise today to honor the life and legacy of my longtime friend and community leader, James Allan Guthrie of Pasadena, Texas, who passed away on December 18, 2021, at the age of 70.

James was born in Houston, Texas, on April 27, 1951, to James and Loretta Guthrie. A devoted member of the Zion Lutheran Church in Pasadena, James was baptized on June 5, 1960, and confirmed on June 6, 1965. He attended Zion Lutheran School in Pasadena, graduated from Lutheran High School in Houston, and went on to study at San Jacinto College. At age 18, James became a real estate broker and he worked alongside his father in that industry for 30 years.

On May 6, 1977, James married the love of his life, Ms. Pamela Ann Rothermel. Last May marked their 44th year of marriage. James and Pam were blessed with a daughter, Moriah Ashlee Guthrie, on October 18, 1984.

□ 1045

James, Pam, and Moriah never missed an opportunity to serve their community. They could often be seen side-by-side at many church, community, and civic functions. James' passion for helping people and supporting his community remained throughout his entire adult life. He served on the following organizations:

Councilman, city of Pasadena, Texas; vice chairman, city of Pasadena's Texas Planning Commission; chairman, Pasadena Chamber of Commerce; board member, San Jacinto College Foundation; board member, Pasadena Independent School District Education Foundation Board; member, Bridge Over Troubled Waters; founding board member, Habitat for Humanity Pasadena; chairman, Pasadena Philharmonic Orchestra; founding board member of the Pasadena Kiwanis Club; board member, Preston Trails Homeowners Association; chairman, Pasadena Salvation Army Advisory Council; chairman, Innovative Alternatives; board member, Pasadena Rotary Club; board member, Pasadena Community Pregnancy Center; board member, Armand Bayou Watershed Partnership;

and board member, Advisory Council of the Methodist Retirement Community—The Crossings. Few have done more than Mr. Guthrie.

Mr. Speaker, it is a privilege to recognize my wonderful friend, James Guthrie, today on the House floor. He was a one-of-a-kind leader in the 36th Congressional District that I have been privileged to represent, who left behind a legacy that will long be remembered.

His loyalty and his friendship will be deeply missed by myself and countless others in our community. My heartfelt prayers remain with his family and friends during this difficult time.

HARDSHIPS OF SMALL BUSINESS OWNERS CONTINUE DURING THE PANDEMIC

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. PHILLIPS) for 5 minutes.

Mr. PHILLIPS. Mr. Speaker, it has been 2 years, image that, since the beginning of the pandemic. Two years marked by hardship that none of us had ever known and hope we never know again. As the world continues to adapt to the challenge, it is my belief that there is light at the end of the tunnel. Yet, as we continue to push toward that optimism, we are reminded every single day that the pandemic is not over. It is not over for us; it is not over for the nurses and doctors who tend to our sick; it is not over for our frontline workers, for teachers, for police, for families, for anyone.

I am here today to speak for a group of Americans who are too often ignored in our pandemic discourse, our Nation's entrepreneurs and small business owners, the bedrock of our economy, particularly those who work in public-facing enterprises, like restaurant owners, gym owners, hospitality owners in the live-events industry. Those whose livelihoods depend on public gathering in person, whether it is to break bread, to work up a sweat, or to enjoy booths that you might see in the Minnesota State Fair, as my friend and colleague, ANGIE CRAIG, would agree is America's finest.

In 2020 and early last year, both parties worked together to pass pandemic aid to help keep the lights on at those businesses. It was an aid that was effective in saving countless jobs, and while not perfect, of course, it did save our country from economic disaster. Unfortunately, for those public-facing industries, that aid has not been enough, not with the rise of the delta variant and then omicron, and potentially future variants that we might face in the future.

Last week, I held a roundtable in Minnesota to hear from entrepreneurs representing those industries in my district. Some had a quarter million dollars in debt, others had lost a quarter million dollars in revenue. Some had taken out government-subsidized emergency loans from the programs

that we in Congress created, but others were left out entirely. They told me that between the pandemic and the supply chain and inflation costs that the pandemic has wrought, that those old relief programs are simply not enough. They need help, and they need it now. It is our job and it is not done yet.

The cost of congressional inaction is real. Small business owners across America are dipping into their personal savings and taking on significant debt. In Minnesota alone, almost 60 percent of restaurants have taken on debt during the pandemic, with an average of over half a million dollars per restaurant. Even in the best of times it is a tough industry, but particularly difficult right now.

We all know what will happen if we don't pass relief soon: many of those restaurants will close and many of their staff will be unemployed. Too many small business owners are simply running out of hope.

That is where we come in. I am encouraged by comments made by the President and lawmakers in both parties that there is an appetite to solve the problem and provide relief. In fact, I secured a commitment from Speaker PELOSI not long ago that a targeted relief package would get a vote on the House floor, which is an important step. We are not at the finish line, my friends, and I implore that we, together, work on such a package.

Small businesses like restaurants, hospitality, gyms, and live events companies, they make up the social, cultural, and the economic fabric of our communities and our entire country. We must fight to ensure that they can keep their doors open.

Mr. Speaker, we must meet the challenge of the moment with urgency and refill the RRF and include hard-hit industries in a future relief package. We must get the job done so that others can keep theirs.

RETURN TO PEACE THROUGH STRENGTH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. PFLUGER) for 5 minutes.

Mr. PFLUGER. Mr. Speaker, I rise today to discuss, unfortunately, yet another crisis. When Russia invaded the Ukraine in 2014, I was actually an Active Duty Air Force officer stationed in Europe in NATO. Assigned to a NATO unit, I saw this firsthand. This is much different.

I just returned from Kyiv where we met with many Ukrainian officials, including the President, the Foreign Minister, and the Defense Minister. While there, we heard a message that was loud and clear. Vladimir Putin is acting now because he senses an environment of weakness. Weakness from this administration in the approach to energy, in their countless failures, including the most tragic of all, the Afghanistan evacuation, and then the

lack of overall commitment to law and order, which can be seen so many places, including our southern border.

All these failures have created this environment of weakness that Putin is now acting on. To make matters worse, European countries are completely beholden and dependent upon Russia for their energy. Over 40 percent of the energy flow is coming from Russia.

Ukrainian officials told me directly that without Nord Stream II, Russia would not be acting out today. This was told to a bipartisan codel that heard this, both Republicans and Democrats alike.

Since the President took office, every policy failure he has steered our country into has signaled not strength but weakness. The President now promises to impose severe sanctions on Russia should they invade the Ukraine. This is not the way that deterrence works. Deterrence happens every day; it happens in every policy action. It doesn't happen after the fact.

Why would Russia expect the Biden administration to respect the borders of the Ukraine when we refuse to secure our own borders here at home? President Zelensky said this, "Border security matters. I will defend the Ukrainian borders." We need a President who is strong, who will not only protect the United States, but also will send a clear message to our allies and partners abroad that law and order will stand, that sovereign borders will be protected.

We need an administration that is capable of standing up to our adversaries. As I said before in this Chamber, we need a President who will choose Midland over Moscow. If President Biden is not going to take action, Congress must. I will be working to impose strong sanctions on the Nord Stream pipeline.

Energy security is national security. The Ukrainian people understand this, the European continent understands this, and the Russians now have a stranglehold on Europe by imposing their will with the Nord Stream projects. We need Democrats and Republicans alike. We were unified on this codel.

Mr. Speaker, I am asking my Democrat colleagues to understand the severity of this problem. In 2022, we have a sovereign country that could be invaded by an aggressor, that aggressor who has been emboldened by an environment of weakness. We must stand strong. So many people, including myself, have served overseas and have done the hard work. It is well past time that we end these crises, that we show strength in the face of an aggressor who would impose their will on the rest of the world and change world order that that greatest generation 80 years ago fought for.

Now is not the time to back down. As Putin goes to China and stands side-by-side with Xi Jinping in these Olympic Games and asks for his blessing to invade a sovereign country, it is time for

all of us to not identify by our parties but to identify as Americans, to come together and be strong on our actions.

HONORING DIANA JONES

Mr. PFLUGER. Mr. Speaker, I rise today to offer my sincere condolences to a public servant of Cresson, Texas. In August 2020, the city of Cresson lost one of its bravest servants, Diana Jones.

Diana was an EMT, a member of the Cresson Volunteer Fire Department for nearly 5 years, and often traveled to California, to the West Coast, to offer her skills in firefighting. Tragically, Diana passed away during one of these firefights.

Last month, the Cresson community voted to name the volunteer fire department's training center the Diana Jones Memorial Training Center. Now all who step foot through that door will feel the sacrifice and the leadership that she has done in honoring her memory.

The Diana Jones Memorial Training Center will forever remind the community of the example she set—learning to better one's self to serve others. Her legacy is continued through her sons as well as the Cresson community. We are proud to honor the life that she dedicated to serving her community.

RECOGNIZING BLACK HISTORY MONTH AND THE GREENSBORO FOUR

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. MANNING) for 5 minutes.

Ms. MANNING. Mr. Speaker, on February 1, 1960, four young Black North Carolina A&T State University students began a revolution with the simple but fiercely significant act of sitting down.

David Richmond, Jibreel Khazan, Joe McNeil, and Franklin McCain, "The Greensboro Four," took their seats at the White-only lunch counter of the Woolworth Department Store in Greensboro, North Carolina. Despite being met with hostility and a store manager who refused them service, the Greensboro Four stayed seated at that counter, refusing to stand until the store closed.

The next day they returned to the Woolworth Store with 25 more students, including Bennett Belles from the neighboring Bennett College, an all-female HBCU. Their movement spread to 55 cities in 13 States. Protest signs read: Support North Carolina Students, in demonstrations outside the South. By the end of 1960, 400 demonstrations had taken place across the country.

By staying seated at that counter, those students inspired the Nation to stand up against the blatantly racist Jim Crow laws of that time.

Mr. Speaker, I am proud to rise today to recognize the Greensboro Four and the courageous students who joined their protest, sparking a national

movement for civil rights. Those students exhibited great bravery in the face of violence from counter protesters. All the while, they remained peaceful and undeterred.

Their peaceful protest left a legacy that shaped the Civil Rights Movement. That sit-in, and hundreds that followed, led to the 1960s Civil Rights Act, a crucial step toward dismantling segregation.

Today, that very Woolworth Building is the location of Greensboro's amazing International Civil Rights Center and Museum, which still contains that lunch counter and enshrines this movement in history, commemorating the actions of the Greensboro Four and all who joined them. That museum was recently denied a shuttered operator grant.

Last year, I joined my fellow North Carolina Representatives, ALMA ADAMS and G.K. BUTTERFIELD, in leading a congressional resolution to honor the Greensboro Four. The resolution encourages all States to teach the history of the Greensboro Four sit-in in their educational curriculum.

I was proud to reintroduce that resolution with Representatives ADAMS and BUTTERFIELD again this year on the 62nd anniversary of the sit-in.

This Black History Month, and all year long, it is vital that we recognize the countless contributions of Black Americans and the work that remains to end racism and ensure equality and justice for all.

□ 1100

I am proud to be the representative of the city of Greensboro and all of North Carolina's Triad Sixth District. I will do everything I can to preserve this history, honor our civil rights heroes, and combat racism and discrimination in all forms.

As we reflect on this event, it is important to recognize that even with the odds stacked against these students, they never lost hope. They saw our Nation broken and segregated. They faced hatred every day, but they persevered and successfully led a movement that changed the Nation.

Today, we draw inspiration and hope from the Greensboro Four.

CHINA COMPETITIVENESS BILL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Mr. BALDERSON) for 5 minutes.

Mr. BALDERSON. Mr. Speaker, I rise today to express my concerns with H.R. 4521. I want to talk for a moment not about China but about Licking County, Ohio, and the district I represent.

Licking County, located on the outskirts of Columbus, was cast into the national spotlight last month when a major U.S. tech company announced an initial \$20 billion investment to build the first phase of what they plan to grow into the world's largest semiconductor manufacturing facility. This investment will put Licking County at

the epicenter of a new silicon heartland and at the forefront of addressing the Nation's semiconductor shortage.

This investment will have an economic ripple effect throughout the region. Indeed, it will benefit our entire country.

Semiconductor chips are crucial components to products Americans use every day, including cars, computers, cell phones, and virtually every electronic device in our homes. Since the early 1990s, the United States' share of semiconductor manufacturing has fallen from 37 percent to just 12 percent today. Asian countries now account for more than 70 percent of semiconductor chip manufacturing globally.

The COVID-19 pandemic and its following supply chain disruptions have brought this issue to the forefront for every American. One concern for Americans in the market for a new car is the empty lots of dealerships as automobile production lines wait for chips from Asia.

Failing to address the shortage of semiconductor chips could have dire consequences for our national security. With production of U.S. military defense systems dependent upon access to these chips, overreliance on foreign countries leaves U.S. national security interests vulnerable, too. We cannot allow ourselves to be held hostage by the imbalance of foreign chip production.

The United States is not alone. Other countries are waking up to this reality, too. As I speak, the European Union is developing CHIPS legislation in an effort to quadruple their production of semiconductor chips by 2030. Falling further behind in chip manufacturing is a national security issue that we just can't afford.

I am honored to represent a community that will soon play a leading role in addressing the global chip shortage and producing these components vital to our modern economy. I am excited that we have an opportunity to help grow U.S. manufacturing of chips to epic proportions with a much-needed investment.

The CHIPS for America Act investment will level the playing field and let U.S. manufacturers compete in this market. But, once again, Democrat leadership is doing it the wrong way.

My constituents, and all Americans, were hopeful that the majority here in Congress had learned from their recent failures about what happens when these packages become too big, too costly, and too partisan. The CHIPS Act presents Congress with a golden opportunity to finally pass a bipartisan, commonsense investment that would bolster American competitiveness on the world stage. Unfortunately, the CHIPS Act constitutes a small fraction of the bill's overall price tag, which is over \$300 billion.

Instead, the House Democrats worked behind closed doors with no Republican input and managed to bury good provisions under a mountain of

unrelated policies that have nothing to do with American competitiveness.

In their hasty attempt at a partisan victory, the Democrats' bill funnels \$8 billion to the unaccountable U.N. Green Climate Fund, which has already given \$100 million to the Chinese Communist Party.

It pours billions of dollars into offshore climate change resiliency programs instead of holding China, the world's worst polluter, accountable for its own destructive emission standards.

It also creates unlimited visas and immigration pathways for Chinese nationals with STEM degrees. This allows the CCP to handpick which Chinese nationals apply for visas and opens the door for CCP to use unlimited visas to encourage espionage and the theft of sensitive technologies.

It also creates climate change officers within the Foreign Service, weakening our diplomats' focus on our core national interests.

In an effort to improve this bill, I offered commonsense amendments to encourage domestic manufacturing of critical products. I also offered amendments to remove the billions of dollars in partisan spending for global green new deal programs and shift focus on what this bill should be about.

Mr. Speaker, the bill before us today is proof House Democrats learned nothing from their disastrous Build Back Better blunder. Rather than allowing American economic competitiveness to be a rallying point for bipartisanship, the majority's all-or-nothing approach makes this yet another missed opportunity.

If this bill advances to conference committee, I am hopeful that the conferees will focus on areas of bipartisan, bicameral agreement like the CHIPS Act. It is past time to bolster this production here at home.

Mr. Speaker, I urge my colleagues to stop with the messaging bills and bring a piece of legislation to the floor that can win strong bipartisan support. Together, we can ensure that the serious business of American competitiveness gets the careful consideration and support it deserves.

COMMEMORATING JAZZ AND FRIENDS NATIONAL DAY OF SCHOOL AND COMMUNITY READINGS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Minnesota (Ms. CRAIG) for 5 minutes.

Ms. CRAIG. Mr. Speaker, today for the Jazz and Friends National Day of School and Community Readings hosted by HRC's Welcoming Schools program, I am going to read from the book "Calvin" written by JR and Vanessa Ford and illustrated by Kayla Harren of Minnesota.

It is critically important to make sure that transgender and nonbinary youth not only feel supported but valued and affirmed for who they are.

I am reading from the book "Calvin."

For as long as I could remember, I knew I was a boy.

I'd draw myself with short hair and a shirt like Papa's. I'd dream about swim trunks like my dad and brother wore.

I didn't tell my family until the night before our summer trip to Gigi and Papa's. I was scared they wouldn't believe me. But I knew it was time to be me.

Whenever I have to do something scary, my dad always says: "Take deep breaths and count down from five."

Breathe in. Breathe out. Five, four, three, two, one.

"I'm not a girl," I told my family.

"I'm a boy—a boy in my heart and in my brain."

"We love you if you are a girl, boy, neither, or both. We love you whoever you are," my dad said.

Later, Dad told me the word for how I felt was transgender. Being transgender means other people think you are one gender, but inside, you know you are a different one.

I wondered how Gigi and Papa would react. As we got closer, I squeezed my stuffed lion to my chest. I had already told my family who I was. Now I needed to tell them my name.

"The same name as your favorite stuffed lion?" Dad asked.

"It's why I named him that. It's always been my name to me."

When we got to Gigi and Papa's, Dad told them my new name. He introduced me.

Our summer trip turned out to be the best ever. At the comic convention, Papa bought me my favorite costume. My favorite superhero signed my poster, using my real name.

At Water World, Gigi bought me and my brother matching swim trunks. Even the water slides felt better in them.

In line for popcorn, I made a new friend. I felt proud to tell him my name. We spent the whole day together.

On the last day of vacation, at the big outlet stores near Gigi and Papa's, I picked out new clothes. That night I gave my family a fashion show.

"You look so handsome," Gigi told me.

School was starting soon, and I knew there was only one more thing I needed to feel like me.

When I looked in the mirror, I finally saw me.

Dad said there were other transgender people in the world, but I didn't know any kids like me at my school—and my school started next week.

Being the only one felt scary.

How would everyone treat me?

What if my friends wouldn't call me "he"?

What if, what if, what if?

The first day of school, I dragged my feet to the door. Breathe in. Breathe out. Five, four, three, two, one.

"Welcome back to school! We're glad you are here!"

When the principal said my name, I felt safe and happy.

Violet skipped up to me, calling out my new name, too.

"You know my name?" I asked.

"Yup! Your dad told my mom you are a boy now."

"I have always been a boy inside. Are we still friends?"

"Yes! Did you bring your jump rope for recess?"

When I stepped inside my classroom, I couldn't believe what I saw. The cubby, the lunch chart, the homework station, and the mailboxes, the name tag on the table, my new name was everywhere, everywhere it should be.

I felt my fears start to go away.

"Welcome back, class! For morning meeting, we'll all share about our summers."

I knew just what I would say when it was my turn.

I stood up proudly to share my summer story. But first, I introduced myself. "Hi," I said. "My name is Calvin, C-a-l-v-i-n."

And I felt my what-ifs melt away.

RECOGNIZING BLACK HISTORY MONTH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Nebraska (Mr. BACON) for 5 minutes.

Mr. BACON. Mr. Speaker, I rise today in recognition of Black History Month and to honor the 15th anniversary of the Empowerment Network, a collaboration of thousands of residents and leaders and hundreds of organizations working to facilitate positive change in Omaha, Nebraska.

Formed in September 2006 and officially launched on April 27, 2007, the network seeks to collectively improve the economic landscape and quality of life for African Americans, North Omaha residents, and citizens of the greater Omaha area. The network is led by their CEO and founder, Willie D. Barney.

Willie Barney was born on May 15, 1968, in Hollandale, Mississippi, but spent his first years between Arcola and Greenville in the Mississippi Delta along Highway 438. He graduated high school from Mount Pleasant, Iowa, attended St. Ambrose University in Davenport, Iowa, and rose to become an executive in the media industry.

He and his wife, Yolanda, were married on June 27, 1998. Born in Tacoma, Washington, and raised in Kansas City, Yolanda also had a very successful career in the media field, working in major cities, including Kansas City, Dallas, and Atlanta. They both left their corporate jobs to become more directly involved in helping to build strong communities and to become entrepreneurs.

The Empowerment Network Collaborative is one of Omaha's catalysts that has helped produce measurable outcomes and results by working together to reduce gun violence, decrease unemployment, improve graduation rates, increase household incomes, and rebuild the historic 24th and Lake District and other areas of North Omaha, including the Omaha 360, Step-Up Omaha, the Village Strategy, and the Cradle to Career.

In addition to Willie's leadership, he and his wife are founders and owners of SMB Enterprises, LLC, a company that provides positive events, media, and entertainment in the greater Omaha area. SMB is the parent company of Revive Omaha Magazine, Revive Black Business Network, and the Revive Center Omaha. They also co-own the new Carver Legacy Center, a Black-owned financial institution.

Willie also serves as the president of WDB Resultants, LLC, a national consulting firm that specializes in strategic planning and marketing, communications, research, community building, and facilitation.

Willie's passion for improving communities is heavily influenced by his late grandmother, Leeanna B. Collins; his mother and stepfather, Betty and Willie Mullen; and his father and stepmother, Willie and Bertha Murry.

He is incredibly thankful and grateful for his wife, son, and daughter and for the influence of his family from Mississippi, friends in Iowa, and partners in Omaha.

Yolanda honors the memory of her late parents, Morris and Mayumi Coppage, through her work ethic and passion for helping others.

Willie and Yolanda are parents to Nehemiah, an aspiring film director studying at the University of Nebraska at Lincoln; and Priscilla, a student at Central High School in Omaha, who plans to graduate in 2025, with keen interest in international business.

Mr. and Mrs. Barney walk in faith and highlight it as one of their most important priorities and the reason for their many blessings. In fact, they are associate ministers at Launch Church International and continue to live a life of purpose and serve the community. They are committed to seeing individuals reach their full potential.

In recognizing Willie Barney and the Empowerment Network, we shine a spotlight on entrepreneurship, hard work, and the will to transcend and achieve success within our communities through unity and collaboration.

Congratulations to Willie and Yolanda Barney, along with the Empowerment Network, on 15 years of service and being a major force for change in our community for the better.

□ 1115

CELEBRATING THE ACCOMPLISHMENTS OF MARGO CARLIN

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Pennsylvania (Ms. SCANLON) for 5 minutes.

Ms. SCANLON. Mr. Speaker, I rise today to celebrate an outstanding female athlete and native of Drexel Hill, Pennsylvania, for her service to our community.

Margo Carlin currently plays field hockey at Boston College, where she has won multiple awards and played in the NCAA Final Four. But her accomplishments go far beyond the field hockey turf.

Last year, after a new rule allowed college athletes to raise money from the use of their names and likenesses, Margo saw an opportunity to make a difference in our community. She used her platform as a college athlete to partner with Covenant House and raised nearly \$30,000 to help that charity house and feed young people who are experiencing homelessness in our area. That successful partnership allowed Covenant House to seek out similar partnerships with athletes in other parts of the country.

Margo's approach to community service is an example of how each of us has the power, with a little creativity, to use our unique talents to make a difference. I am so proud to recognize Margo Carlin today, and I look forward to all she will accomplish in the future.

SUPPORT WORKFORCE TRAINING PROGRAMS

Ms. SCANLON. Mr. Speaker, since coming to Congress, my office has focused on forging closer connections between the jobs that we are developing in our region and the people who live here.

I have been proud to support a number of workforce training programs that bridge that gap, particularly for the jobs that are revitalizing the Philadelphia Shipyard, thanks to a contract we helped secure for the building of five national security multi-mission vessels.

Another sector of our local economy that is going to benefit immensely from investments in workforce training and public-private partnerships is biotech and life sciences.

Last week, the U.S. Economic Development Administration announced that the Wistar Institute in Philadelphia is receiving a STEM Talent Challenge Grant, one of only eight such grants awarded in the entire Nation.

The Wistar Institute will use this grant to support workforce training to address the demand for skilled workers from the life sciences industry which has been growing by leaps and bounds in our region.

For over 20 years, the Wistar Institute has been pioneering workforce training for young people attending high schools and community colleges in our region to enter this exciting field. And I am delighted that this new program is training students from Cheyney University, the oldest HBCU in the country, which is also located in my district.

The Quality Science Pathway Apprenticeship offers an earn-and-learn, hands-on training curriculum, taught by experts to uniquely address the critical need for a highly skilled, quality science labor force based in the Philadelphia region.

For the last decade, our regional economy has been driven by dynamic eds, meds, and tech sectors. Life sciences is a key part of that economy, so I am grateful that the EDA chose to invest in this model program at the Wistar Institute to help people from our region win these critical jobs and the opportunity to have careers in an expanding, in-demand industry.

FIGHTING GUN VIOLENCE IN OUR COUNTRY

Ms. SCANLON. Mr. Speaker, since the onset of the COVID-19 pandemic, we have seen an unprecedented rise in gun violence across the entire country.

While most conversations about gun violence are quickly overwhelmed by extremist rhetoric, one of the strategies to reduce gun violence that has widespread support is to make sure that law enforcement has the resources needed to investigate and clear cases

that get criminals and guns off of the streets. That is why I am proud to support an important piece of legislation introduced by former police chief and our colleague in Congress, Representative VAL DEMINGS.

The VICTIM Act targets resources to the things we know can help reduce gun violence. Grants would support the hiring, training, and retention of detectives and victim services personnel. These grants will also fund training, equipment, and personnel needed to process and analyze evidence in gun crimes.

In Philadelphia, our Police Department would like to use such funding to support a new unit dedicated to investigating non-fatal shootings.

One of the reasons I came to Congress was to fight for an end to gun violence, to protect our children, our families, and our communities.

In our country today, gun violence is hitting ever closer to home. Several of my employees have lost relatives to gun violence. In November, a constituent was killed in a carjacking near his college campus. A month later, I became the victim of carjacking, though I am extremely lucky that no one was injured in my case.

Then, just last week, I found myself embracing a mother devastated by the death of her daughter after she was struck by gunfire at a playground. This has to stop.

There is no one solution. But as a legislator, I want to pass laws to tackle the underlying issues driving this epidemic of violence, as well as providing the means to end it. That means commonsense gun safety reform, resources for law enforcement, support for mental health services, and investments in education and employment opportunities for all Americans.

The VICTIM Act can be an important part of this effort, and I hope we will soon be able to bring it to the floor for a vote.

HONORING THE LEGACY OF MASTER SERGEANT ROBERT MAYNE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CLINE) for 5 minutes.

Mr. CLINE. Mr. Speaker, I rise today to honor the legacy of Master Sergeant Robert Mayne, who impacted lives of countless Lynchburg students throughout his nearly 40-year career at E.C. Glass High School.

Sarge, as he was known to those close to him, joined the military in 1941 and served as a tail gunner in the Martin B-26 bomber, where he flew 70 combat missions. After more than 27 of years of service, he retired from Active Duty in 1968.

That same year, Sarge joined E.C. Glass to teach and lead the school's newly formed Air Force Junior ROTC program. After spearheading the program for 20 years, he continued his work at the high school for another 19 as a special education teacher and as

an assistant to school administrators. Even after retiring in 2007, Sarge continued to serve as a role model, sharing his experiences with students.

Master Sergeant Robert Mayne passed away last week at the age of 98, and our community mourns his loss and thanks him for his many years of service.

AMERICA CONCEDES ACT

Mr. CLINE. Mr. Speaker, I rise today in opposition to the America COMPETES Act, which would more appropriately be called the America concedes act. At 2,900 pages, and with a price tag of \$325 billion, the Democrats' legislation does nothing to counter China's malign actions and, instead, lines the pockets of the country's Communist Party.

The bill appeases Chairman Xi, fails to hold China accountable for its role in the COVID-19 pandemic, and is even being used by the left to push their Green New Deal agenda.

There is \$8 billion for the UN Green Climate Fund, \$2 billion for a new Climate Leadership in International Mitigation, Adaptation, and Technology program, \$2 million in foreign aid for other countries to address climate change, and the list goes on.

In fact, the bill mentions climate change 156 times, and it mentions coral reefs more times than it does China.

This bill is not only weak on China, but it is harmful to the United States, and I urge my colleagues to oppose it.

AMERICA IS COMPETING WITH CHINA

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Mr. RYAN) for 5 minutes.

Mr. RYAN. Mr. Speaker, I rise today in strong support of the COMPETES Act. And quite frankly, I am stunned to hear some of the rhetoric coming from the other side around a bill that finally, after decades, recognizes that we are in a very stiff competition with China, and for the longest time America didn't know it.

China was in this competition. China was doing everything they could to dump steel in our country. They spend 7 to 9 percent of their GDP on infrastructure every year. They got islands in the South China Sea. They told us they weren't going to militarize them; now they have.

They have bases in Africa, long-term raw material contracts in African countries to solidify their control of precious metals so that our phones, our weapons systems, our computers, they have a plan.

This is not complicated. But it is being seen through the prism of our current, broken, insane political system.

And so what we are trying to do here is recognize that they are winning. Seventy percent of chip manufacturing comes out of China. The cargo ships along the California ports, those aren't coming from Kansas. They are coming

from China. Over 50 percent of the electric vehicle market is dominated by China.

And so the thoughtful thing, the smart, strategic thing for us to do in the United States is one, recognize this, and two, make sure we reinvest back into the United States, which is what we did with the bipartisan infrastructure bill.

Twenty Republicans in the Senate, led by Senator PORTMAN from Ohio—who I commend for his leadership—said we have got to rebuild our country. Broadband, infrastructure, bridges are collapsing in Pittsburgh. We have got to fix this stuff.

Workforce development, we have got to plug these communities in, if we are going to win. And so that is what we did in a bipartisan way.

And so the next step is: How do we bring the chip manufacturing back? How do we rebuild the industrial base here in places like Ohio? That means we have to have a strategy that invests into the country. That is what the COMPETES Act does. \$52 billion to move these chip manufacturers back.

And what is stunning to me about how radical the right wing has become in this country, is that this isn't: Oh, we are going to invest this money and maybe we will get a deal; maybe someone will locate in the industrial Midwest. Last week, Intel announced a \$20 billion investment north of Columbus, Ohio, with over 100 suppliers in that State that will benefit from locating there: thousands of construction jobs.

And you know what they said? If we pass the COMPETES Act, if we pass this bill, it is going to become a \$100 billion investment in the Midwest.

And all we are saying is: If there is nothing else we can agree on in the United States Congress, I hope that it is this bill. I hope it is infrastructure. But it is culture war du jour. I mean, what a joke.

China has a 10-year plan, 50-year plan, 100-year plan. We live in a 24-hour news cycle talking about Dr. Seuss, Big Bird, M&Ms, Sponge Bob, and we are getting our clock cleaned.

And this is an attempt, by us, hopefully, in a bipartisan way—doesn't look that way, but hopefully, in a bipartisan way—to actually prepare America, post-pandemic, post-economic collapse, to bring back manufacturing. And it is already happening. This is already happening.

We saw all the leaders in Ohio: Democrat, Republican, Governor DeWine, Lieutenant Governor Husted, JobsOhio, under a Republican Governor, J.P. Nauseef, the Columbus Partnership, Kenny McDonald, the business leaders, everybody, the unions—and this bill creates 1 million union apprentices in the next 5 years to build this stuff.

Wake up. Wake up. We are losing. And this is a step forward for America to start leading the way and leading the country again.

DAMNED IF YOU DO, DAMNED IF YOU DON'T

The SPEAKER pro tempore. The Chair recognizes the gentleman from Alabama (Mr. BROOKS) for 5 minutes.

Mr. BROOKS. Mr. Speaker, COVID-19 originated in the Communist Chinese Party's Wuhan bio-weapons lab, and forces Americans into a damned if you do, damned if you don't choice.

You can refuse to take the COVID-19 vaccine and face the risk of death and debilitating injury when you catch COVID-19. Or you can take the COVID-19 vaccine and face the risk of death or debilitating injury from the vaccine's side effects, as described in a letter by Mary Constance Seibert, who honorably served America in the United States Navy.

Ms. Seibert states: "Dear Congressman Mo BROOKS: This is my explanation and statement regarding the impact of the vaccine that was being given as a result of extreme pressure but now is mandated by the Armed Forces. This has resulted in my partial paralysis that has confined me to a wheelchair.

"On March 22, 2021, I received my second shot of the COVID-19 vaccine supplied by Pfizer. Shortly after, I became sick for a few days, as expected. A few weeks later, I got sick again, and was so ill I was out for 2 weeks. Medical staff were unable to determine what I had caught. I developed ringing in my ears, which I still have.

"After, I started to develop medical problems where muscles would inflame along with severe restless leg syndrome, which sent me screaming from pain in the dead of sleep. I went to physical therapists and Navy doctors alike to no avail to stop it. Shortly proceeding, my knees started to give out, and I'd need—and still need—to pop them to terminate the pain. I also experienced the development of digestive problems like IBS and joints that would become so painful that I would cry from the pain in my hips and feet just from standing for 30 minutes.

"All these symptoms developed in 2 months with no explanation. Eventually, they would level out as I was put into a command to focus on medical problems.

□ 1130

"By May, I started losing vision in my right eye and slight vision in my left. This was accompanied by pain and my vision going from 20/20 in my right eye to 20/25 and from 20/17 in my left eye to 20/20. They assumed I had optic neuritis in my right eye but were wrong and still do not know why the pressure was off in my eye.

"On July 2, I experienced my first painful set of convulsions. They started small but grew as the days went on.

"On July 5, I was sent to the ER as I was no longer functional and the feeling of electricity going through my body would not stop. I went into the ER walking and on July 8, I came out in a wheelchair as I slowly lost my

ability to walk as the days went by and the spasms kept happening. They never did figure out what was wrong with me. I only knew my copper was high, my white blood cells were high, and my inflammation levels were very high, with no explanation. My current symptoms have been trouble breathing, joint pain, migraines, unknown convulsions, vision loss, unsteady gait, vomiting, nausea, mouth ulcers, frequent heavy nose bleeds, tremors, slurred speech, heat aversion, and lack of motor coordination.

"I am now reliant on a wheelchair and now await separation from the military. I have been told there is no other explanation other than a reaction from within my body due to the vaccine."

Let me repeat that.

"I have been told there is no other explanation other than a reaction from within my body due to the vaccine.

"Respectfully submitted, Mary Constance Seibert."

Mr. Speaker, I stand for freedom and liberty and against vaccine mandates because in America, Americans should have the freedom to choose which of two bad COVID-19 options is best for them, vaccination or no vaccination. I stand against dictatorial government vaccine mandates because mandates are the antithesis of the liberty and freedom on which America is based.

DENOUNCEMENT OF DOMESTIC TERRORISM

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Texas (Ms. JACKSON LEE) for 5 minutes.

Ms. JACKSON LEE. Mr. Speaker, sadly I rise to indicate that domestic terrorism is on the rise in America. We have all faced the tragedies of terrorist acts by our fellow Americans, chiefly, of course, the January 6 insurrection, which it is so striking to me that people want to dumb down the language used. It was insurrection by terrorists who happened to be Americans.

We focused on 9/11. The very action of terrorism was associated internationally. I was in this place, in this Capitol on 9/11, in a meeting on 9/11. As we fled this building, clearly looking, as I went to the right to escape what we thought was an imminent attack on this building by foreign terrorists, I could see the building, the black smoke of the plane that had just hit the Pentagon. It is real, and January 6 is real as well.

So it is important that we as Members of Congress address this for the Nation. One, it was real in Colleyville for my fellow Texans as they were attacked in their synagogue, their place of worship. How horrific anti-Semitism is. I stand against it, as I stand against the horrors of representing what critical race theory is, which it is not in any way an attempt to create racist divide. It is a college phenomenon. It is a higher-grad phenomenon. It is not teaching our elementary school children about George Washington Carver

or the history of African Americans or slavery or the importance of passing H.R. 40, the commission to study slavery and develop reparations, not anything that is going to not stand on its own about the wonderment of our history and acknowledging the original sin.

Mr. Speaker, I rise today to speak of the dastardly behavior of the numbers of historically Black colleges in this month who have now received bomb threats. This is not something to take lightly. It is not something to ignore. It is not something that we, as Members of Congress, parents, who can understand the frightening prospect of parents who send their children to school, just as it was certainly frightening to have two officers in the Virginia college shot dead.

We don't know what the facts are in that, but certainly that is an extreme action—to shoot dead. One of the witnesses said that when the officer was down, this perpetrator shot them dead blank, again. How outrageous. What could it be? I speculate we don't know what it is.

As we are in the midst of a hearing with Homeland Security, I call upon Homeland Security and those reinforced entities dealing with social media. I also think the FBI should specifically focus on domestic terrorism with a more enhanced and reinforced section of agents that are dealing both with social media but, also, dealing more vigorously with an action that seems to be a collective action.

So I want to put into the RECORD, tragically, the following colleges: Rust College, Tougaloo College, Jackson State, Alcorn State, Mississippi Valley State, Fort Valley State, Spelman, Morgan State, Coppin State, Harris-Stowe State University, Kentucky State, Xavier University, Philander Smith College, Edward Waters University, Howard University, the University of the District of Columbia.

Mr. Speaker, I include in the RECORD this article from the Washington Post.

[From the Washington Post]

FEAR, ANXIETY FOLLOW THIRD WAVE OF BOMB THREATS TARGETING HBCUS

(By Lauren Lumpkin and Susan Svrluga)

For the third time in just a month, Howard University warned its campus on Tuesday of a bomb threat. Each time, a law enforcement search found no sign of the threatened explosives.

But as students spilled out of academic buildings and headed to their next classes, or lined up for burritos at a nearby Chipotle, the campus was still on edge.

"Most of us are feeling anxiety," said Troix McClendon, a 19-year-old freshman. "There's not really a lot of information."

The bomb threats at Howard are part of a wave to hit historically Black colleges and universities (HBCUs) this year. On Jan. 4, at least eight HBCUs were threatened. On Monday, at least six were.

Tuesday's threats, most coming early in the morning on the first day of Black History Month, broadened and deepened the sense of unease: At least 16 universities closed or swept their campuses. In all, more than two dozen have faced similar threats this year.

No bombs were found, and law enforcement agencies did not identify possible motives. But the threats weigh heavily on many, particularly given the emotional attachment and deep loyalty many students, faculty, staff and alumni feel for the campuses—a haven, a calling, a family.

"February 1st, it's a moment when we usually celebrate the innovation and the resilience of our people, and now to be faced with an issue of this kind at our HBCUs nationwide, we want our community to know that we're standing together," said Tashni-Ann Dubroy, Howard's executive vice president and chief operating officer.

The university in the District has increased the police presence on campus, reminded students of the safety resources on campus and offered support, Dubroy said.

The FBI has said it is working with law enforcement partners to address potential threats, according to the agency, and it asked the public to report anything suspicious to law enforcement immediately.

The Bureau of Alcohol, Tobacco, Firearms and Explosives also is aware of bomb threats received by some HBCUs, Carolyn Gwathmey, a spokeswoman for the agency, said in a written statement. "We take all potential threats seriously and we regularly work with our law enforcement partners to determine the threat credibility."

She said it could not comment on the specific details at this time because it is a fluid situation with ongoing investigations.

The threats in the past month have touched some of the country's most iconic schools, such as Howard and Spelman College, as well as regional institutions all across the country, triggering cancellations, lockdowns and fear.

On Tuesday, the schools targeted included: Rust College, Tougaloo College, Jackson State University and Alcorn State University in Mississippi, as well as Mississippi Valley State University; Fort Valley State University and Spelman College in Georgia; Morgan State University and Coppin State University in Maryland; Harris-Stowe State University in Missouri; Kentucky State University; Xavier University of Louisiana; Philander Smith College in Arkansas; Edward Waters University in Florida; Howard University and the University of the District of Columbia.

"We stand in solidarity with our historically Black institutions," Jay A. Perman, chancellor of the University System of Maryland—which includes Coppin State and Bowie State, another school targeted by a threat this week—said Tuesday in a written statement.

He added: "Knowing that their strength is our strength, and that their power—on display like never before—will not be diminished by cowardly acts meant to menace and harm and intimidate. If the intent of these threats was to restrict access to our historically Black institutions—to restrict access to higher education itself—it will fail. If it was meant to sow division, it will fail. If it was meant to terrorize students and communities of color, it will fail."

At the University of the District of Columbia on Tuesday, officials cleared a threat placed about 3:20 a.m. and opened the campus.

Xavier University of Louisiana evacuated the area of the threat and issued a shelter-in-place order for students living on campus, according to Patrice Bell, the school's vice president and chief of staff, until it was cleared to reopen by law-enforcement officials.

Tougaloo College, one of several HBCUs threatened Tuesday in Mississippi, received a call about 4:20 a.m. that brought FBI and other law enforcement to sweep campuses.

Even after the threat was found to be unsubstantiated, the campus remained in virtual mode for students, faculty and staff on Tuesday, with college officials pledging to remain vigilant. Mississippi Valley State University locked down after a threat was received through its guardhouse.

Philander Smith College, in Arkansas, lifted its lockdown and resumed classes and operations at noon Tuesday. Kentucky State University issued an all-clear Tuesday and planned to resume normal operations and classes Wednesday.

Morgan State University was also targeted. Leaders received the threat around 4:50 a.m. and issued a shelter-in-place order. Classes went virtual and employees were told to work from home.

"My main concern is my students' mental health. As college students, we already have so much mentally to deal with," said Jamera Forbes, a senior at Morgan State and student body president. "We've tried to push through and overcome so much with covid over the years, and we're just trying to get back to a norm."

At Howard, freshman Jalen McKinney, 18, said the threats are making him worried, but some on campus seem less concerned.

"People are kind of brushing it off because it didn't happen," McKinney said. D.C. and university police performed a sweep after the threat was made about 2:55 a.m. "But at the same time, it could happen."

An expert in campus security was reassuring about the potential danger.

"I've always subscribed to the theory that bombers bomb and threateners threaten," said Robert Mueck, director of public safety at St. John's College and a member of the International Association of Campus Law Enforcement Administrators' Domestic Preparedness Committee. Calling in a bomb threat is "more of a nuisance crime," he said, "like back in high school, kids pulling a fire alarm to get out of an exam."

Of course, he said, officials cannot ignore it—they must ensure there is no explosive.

But Mueck cautioned against overreactions by college officials, because the warnings, building closures and lockdowns are disruptive and alarming.

These particular threats are troubling, though, he said, because they appear to be targeting HBCUs, and might be motivated by bias. The menace is there: "It's almost like reaching out and saying, 'We can get you,'" he said.

While law enforcement have not identified suspects or named their motives, the recent threats evoked the long history of intimidation and violence against Black schools, said Greg E. Carr, chair of Howard's Afro-American studies department and associate professor of African studies.

"There is this deep-seated racial insecurity that has historically come from segments of White populations that feel that somehow the self-improvement of Black folks will cost them something, either in prestige or social position," Carr said. "Whether any of these threats would manifest into anything tangible or not, it's just the idea that 'Ya'll are a little too big for your britches.'"

As officials continue to monitor the situation, students and faculty are hoping to get back to business.

"Our response has been, historically, to simply redouble our efforts," Carr said. "The intimidation never works."

Ms. JACKSON LEE. Mr. Speaker, my real point is that we need to get serious about domestic terrorism. The lives lost through domestic terrorism is compelling and increasing. Until we get serious about the actions of the Oath Keepers and the boogaloo boys

and the Nazi wearers and proponents, in light of the First Amendment, which as a member of the Committee on the Judiciary I highly respect, we are losing lives. Our children are in jeopardy. Misrepresentation is occurring about innocent discussion about race and history. Let us put that kind of attack aside. Let us find a way to deal with domestic terrorism to save lives in America.

Mr. Speaker, I hope that I will draw upon my colleagues. I will be introducing legislation, as I have done, on dealing with this idea of bomb threats to universities in this instance, bomb threats to historically Black colleges last week and coming into this week. God knows what will be next. I pray for their safety, as I do all students and all Americans. We must stand against domestic terrorism.

HONORING THE CAREER OF MIKE LAPLANT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Washington (Mr. NEWHOUSE) for 5 minutes.

Mr. NEWHOUSE. Mr. Speaker, I rise today to honor the service of two outstanding cultural leaders in Washington State.

First, I want to thank Mr. Mike LaPlant. For years Mike has been a fierce champion of agriculture in Washington, serving as the president of the Washington State Farm Bureau since 2011. Washington State is home to one of the most robust and vibrant agricultural industries in the country. With over 300 different crops and virtually every type of livestock raised in our State, the hardworking men and women who make the industry run face challenges as diverse as they are.

That is why it is so important that they have solid, experienced, and servant-minded people working to raise their voices. Not only has Mike been a strong advocate for the industry in Washington State and beyond, but he has been a valuable partner in my work on behalf of the farmers, ranchers, and growers in my district. He has my thanks for his years of leadership and my best wishes for the next chapter in his life.

I also recently had the opportunity to meet with Mike's successor as Farm Bureau president, Rosella Mosby. Rosella, like Mike, will be an effective voice for Washington State agriculture. I look forward to a continued partnership with the bureau under her leadership.

Mr. Speaker, on behalf of all central Washingtonians, I say congratulations to Rosella and thank you to Mike.

HONORING THE CAREER OF CHIEF KEN HOHENBERG

Mr. NEWHOUSE. Mr. Speaker, I rise today to honor the career of one of my constituents, longtime chief of the Kennewick Police Department, Ken Hohenberg, and to congratulate him on concluding 40 years of service to his badge and to his community.

Chief Hohenberg is the city of Kennewick's longest serving employee, having joined the force in 1978. Back then, Kennewick had just over 20,000 residents. Although the town has changed a lot over the years and now has over 80,000 people, Chief Hohenberg's commitment to protecting his community has never wavered. Through good times and bad, economic downturns, and social unrest, Chief Hohenberg has spent the last four decades putting himself in harm's way for the good of his friends and neighbors. We owe a debt of gratitude to all men and women who don a badge and a uniform. Chief Hohenberg stands out as a shining example of what it means to serve and protect.

Mr. Speaker, on behalf of the people of central Washington, I extend my sincere gratitude and best wishes to Chief Hohenberg. Thank you for your service, Chief.

HONORING CONGRESSIONAL AWARD WINNER CARA ELZIE

Mr. NEWHOUSE. Mr. Speaker, I rise today to congratulate one of my constituents, Cara Elzie of Yakima, on earning the Congressional Award silver medal. Cara served her community, spending over 420 hours with the 4-H group called Youth Advocates for Health which engages with young people to teach the importance of healthy living. Cara's efforts helped reach over 1,500 young people in Yakima County through various events. She committed herself to personal development, spending more than 300 hours learning about journalism through her work as a journalist and photographer for the Yakima Herald-Republic's Unleashed program.

Cara also improved her musical talents by practicing the guitar and piano for over 750 hours. She dedicated herself to personal fitness by working on her goals for more than 450 hours, with an emphasis on yoga. Finally, Cara completed five expeditions, traveling to new places as far away and diverse as Boston, Scotland, London, Spain, and Italy. In each location she learned about history and immersed herself in different cultures.

Mr. Speaker, I commend Cara for all her hard work. I congratulate her on this remarkable achievement and wish her the very best of luck in her future endeavors. She truly represents the best of our region and is a source of hope for the future.

HONORING CONGRESSIONAL APP CHALLENGE WINNERS

Mr. NEWHOUSE. Mr. Speaker, I rise today to commemorate the accomplishments of three of my young constituents: Andrew Modine, Torin Rauch, and Tyler Iverson of the West Valley Innovation Center.

These three students won the 2021 Central Washington Congressional App Challenge with their app, Beating Heart Health, which aims to promote teen health and wellness by offering tools to practice and improve mindfulness and healthy sleep habits.

On Monday, I got to see the West Valley Skills Center where Andrew, Torin, and Tyler developed their winning app. I am very pleased to see the work going on. Cultivating robust STEM education opportunities for our students is critical to ensuring the United States remains a competitive leader in the global economy. The app challenge is one way we can foster a passion for STEM among our young people and help them become the innovators and industry leaders of tomorrow.

Mr. Speaker, I congratulate Andrew, Torin, and Tyler on their achievement and offer my thanks to West Valley educators for all of their hard work.

HONORING THE LIFE OF EILEEN REED

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. FITZPATRICK) for 5 minutes.

Mr. FITZPATRICK. Mr. Speaker, it is with great sadness that I rise today to pay tribute to the life and legacy of a very respected member of our beloved Bucks County community, Eileen Reed.

Born in Macon, Georgia, as an Army child, Eileen often relocated before eventually settling in our beloved Bucks County, Pennsylvania. Eileen enjoyed a long, successful career with New Jersey Bell Telephone, AT&T, and Lucent Technologies, before retiring in July 2000 to devote more time to her two granddaughters.

Eileen was a lifelong learner with a keen interest in understanding the detail of exactly how things worked, especially in technology. Our community will remember Eileen for her strong passion and commitment to a number of local and national political, social, and charitable organizations.

Mr. Speaker, the story of how I met Eileen is she was actually a protestor outside of my office who I got to know. I invited her up to my office and quickly saw her passion, her intellect, and her love for our country. Eileen taught me a lot. She taught our staff a lot. There is no question that Bucks County is missing a very, very special person today without Eileen in it.

Mr. Speaker, on behalf of myself, my family, and our entire staff, we send our deepest condolences to Eileen's family and all who knew and loved her. Eileen will be deeply missed and remembered for her love and devotion to her family, her friends, and her community.

□ 1145

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 11 o'clock and 45 minutes a.m.), the House stood in recess.

□ 1200

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

We draw near to You this day, O God, in deepest reverence. For You alone are God, the creator of the universe, the giver of our lives.

Holy are You, the Lord of hosts. The Earth is filled with Your glory. You are both transcendent and imminent, above and around us, among and within us.

In Your magnificent presence, we are in awe to stand before You, vulnerable before Your power, undeserving of Your regard.

Humbly, then, we offer ourselves to You, confiding in Your mercy, hopeful for Your grace, finding in You our refuge and strength.

Touch our unclean lips with Your purifying word, that we would be cleansed of our wrongdoing and redeemed of our unworthiness.

Send us forth and we will serve You with gratitude for our healing and wholeness. May we give our time and effort to Your service and live our lives in faithfulness to you.

In your sovereign name we pray.
Amen.

THE JOURNAL

The SPEAKER. Pursuant to section 11(a) of House Resolution 188, the Journal of the last day's proceedings is approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from North Carolina (Mr. MURPHY) come forward and lead the House in the Pledge of Allegiance.

Mr. MURPHY of North Carolina led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

HONORING GARY BEIKIRCH

(Mr. MORELLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORELLE. Madam Speaker, I rise in recognition of a Rochester, New York, legend and beloved veteran, Gary Beikirch, who sadly passed away December 26 at the age of 74.

With little regard for his own safety, Sergeant Beikirch's conspicuous gallantry and intrepidity in action at the risk of his life, above and beyond the call of duty, earned him the prestigious Medal of Honor in 1973.

Sergeant Beikirch's story of selfless valor is so revered in Rochester that our Vietnam Veterans Memorial at Highland Park bears his name.

Sergeant Beikirch went on to become a pastor and beloved school counselor whose presence, empathy, and service will impact our community for generations to come.

I close with the words of General George Patton: "It is foolish and wrong to mourn the men who died. Rather, we should thank God that such men lived."

I thank God for the life of Gary Beikirch.

BIDEN'S YEAR ONE DISASTER

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, Biden took office only a year ago, and under a one-party Democrat rule, America is experiencing unprecedented adversity.

Today, jobs are being destroyed, and we face crises in energy, education, crime, national security, the border, and more.

Bidenflation is at the highest in 40 years, resulting in real wage decreases with job destruction.

Energy independence has been replaced by energy dependence, raising gas prices by 50 percent.

Remote learning is catastrophic for students and teachers.

Defunding police leads to homicide rates at record highs.

National security is endangered from feeble responses to China, Iran, Putin, and terrorists.

Two million illegal aliens, including murderous terrorists, have crossed into America.

Today is a tragic, historical landmark as our children are burdened by a \$30 trillion debt.

America needs new positive leadership.

In conclusion, the Democrat elite think they are smarter than everyone and believe Democrat voters and Democrat media are ignorant to accept \$5 trillion cost zero dollars.

MAKE MORE THINGS IN AMERICA

(Mr. PAPPAS asked and was given permission to address the House for 1 minute.)

Mr. PAPPAS. Madam Speaker, as an original cosponsor of the Homeland Procurement Reform Act, I am grateful that this legislation has been included in the America COMPETES Act. I will offer an amendment later today that strengthens provisions that support domestic manufacturing and American small businesses.

It is of the utmost importance for our economic and national security interests that we make more things in America. That should be a priority when it comes to purchases made by the Department of Homeland Security for protective equipment for frontline personnel. Purchasing more of these items from qualified American small businesses would be a win for workers and companies that manufacture their products here in the United States.

Small businesses receive less than 26 percent of Federal Government contracts. My amendment will help close that procurement gap and at the same time create good-paying jobs, support domestic manufacturing, and strengthen our supply chains.

I urge my colleagues to support this amendment and the America COMPETES Act.

HONORING DR. DONALD H. TUCKER

(Mr. MURPHY of North Carolina asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of North Carolina. Madam Speaker, I rise today to honor the life and legacy of my friend, Dr. Donald H. Tucker of Greenville, North Carolina.

An altruistic and humble husband, father, and friend, Dr. Tucker was considered by many to be the gateway to healthcare in eastern North Carolina.

Dr. Tucker completed his undergraduate and medical studies at Duke University, and following completion of his residency in internal medicine at Cornell, he then returned to Duke for a cardiology fellowship.

Dr. Tucker then would serve as the director of the cardiopulmonary catheterization lab at the Portsmouth, Virginia, naval hospital, earning the rank of lieutenant commander.

Dr. Tucker then returned home to Greenville and eventually opened up a multispecialty physician clinic called Quadrangle Physicians, which eventually turned into Physicians East, the largest multispecialty private group in eastern North Carolina.

Dr. Tucker was a pillar of our community, a leader in his church and multiple charitable organizations, and a leader who helped bring a medical school to rural eastern North Carolina. Dr. Tucker advocated for all those around him and unfailingly strived to advance the well-being of our State and community.

Madam Speaker, I was honored to know Dr. Tucker as a friend and physician colleague. I ask that everyone today please join me in honoring the incredible life of Dr. Donald Tucker.

SPREADING GOOD NEWS

(Mr. CARTWRIGHT asked and was given permission to address the House for 1 minute.)

Mr. CARTWRIGHT. Madam Speaker, over the last 2 months since we passed the Infrastructure Investment and Jobs

Act, House Democrats have been spreading the good news.

In fact, we have had over 1,000 events across this Nation where House Democrats bring home to Americans what we have done with the Infrastructure Investment and Jobs Act, strengthening our water systems and sewer systems, rebuilding our roads and our bridges.

We just had a catastrophic bridge failure in Pittsburgh that brings home the need to do these things.

Expanding broadband internet into the rural places that need them the most, this is a wonderful thing that is highlighting the fact that Democrats delivered with the Infrastructure Investment and Jobs Act.

That is not the wonder, Madam Speaker. The wonder in all of this is that we had 200 House Republicans voting no, voting against investing in America and helping our companies and our country compete with China, Europe, and places abroad.

They voted no. They voted against infrastructure, and they need to explain why.

HONORING TERRY HORN

(Mr. RUTHERFORD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUTHERFORD. Madam Speaker, I rise today to congratulate Uncle Sam, also known as Pastor Terry Horn, on his longstanding and excellent work serving the children of our northeast Florida community.

Pastor Terry and his wife, Cynthia, run an organization called Metro City Kids, which teaches hope, healing, and patriotism to at-risk youth in inner-city Jacksonville. They teach a faith-based program that is focused on Biblical truths, moral values, good manners, and citizenship.

Uncle Sam and Cynthia are truly making a difference.

In fact, after the first 5 years in ministry in Jacksonville's public housing, juvenile crime, according to the Jacksonville Sheriff's Office, dropped 40 percent on those properties where they minister.

Thank you to Uncle Sam for making northeast Florida a safer and happier place for our youth.

DEMOCRATS FIGHT FOR THE PEOPLE

(Mr. LIEU asked and was given permission to address the House for 1 minute.)

Mr. LIEU. Madam Speaker, Democrats are fighting for the people.

Along with President Biden, we enacted the American Rescue Plan and the infrastructure law. That has resulted in the fastest GDP economic growth in nearly four decades, the lowest unemployment rate in five decades, and the fastest 1-year job creation in U.S. history.

Growth is up. Wages are up. Unemployment is down.

And Democrats recently completed over 1,200 events to highlight the infrastructure law, a law that is going to rebuild roads, bridges, highways, airports, and ports; get lead out of our water; put broadband everywhere from rural areas to inner cities and everywhere in between; and create good-paying union jobs, jobs that cannot be outsourced.

These 1,200 events are also a reminder that 200 Republicans voted no on this infrastructure law. That is the difference.

HONORING ROY BUOL

(Mrs. HINSON asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. HINSON. Madam Speaker, I rise today to recognize and honor one of Dubuque, Iowa's most respected citizens and a fixture in the community, Mayor Roy Buol.

Serving 10 years on the city council and 16 years as mayor, Roy dedicated the last 26 years to shaping the vibrant community of Dubuque.

Roy's leadership and his contributions transformed Dubuque into the "Masterpiece of the Mississippi" and have allowed this community to flourish.

Dubuque truly is a great place to live, work, and raise a family.

Mayor Buol's service to Dubuque is a reminder that effective leadership begins with understanding the community and is best carried out through partnerships and collaboration.

I know I speak for many when I say thank you, Mayor Buol, for your service.

FOOD IS A NATIONAL SECURITY ISSUE

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Madam Speaker, I rise to speak on behalf of the America COMPETES Act of 2022, which makes a critical \$45 billion investment in supply chain resiliency—critical.

Farmers in my district have suffered from a backlog seen in American ports and harbors. The California Farm Bureau estimates that in a 4-month period last year, California agriculture exports fell by \$2 billion—important and significant.

Food, I believe, is a national security issue. This supply chain crisis hurts farmers and only increases food insecurity and prices for those in need; i.e., the American consumer.

That is why I am cosponsoring an amendment in the COMPETES Act that requires the Secretary of Agriculture and Assistant Secretary of supply chain resilience and crisis response to monitor food and agriculture supply

chains and provide Congress with their findings so that we can protect and improve our critical supply chain in this country.

Our country must ensure that we have safeguards in place to keep our supply chains strong, which contributes to success on the global economic stage.

HONORING RAYMOND WASHBURN

(Mrs. BICE of Oklahoma asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BICE of Oklahoma. Madam Speaker, I rise today to honor the life of one of my constituents, Raymond Washburn, who passed away on January 16.

On the horrific day in 1995 when a truck bomb blew up the Alfred P. Murrah Federal Building in Oklahoma City, killing 168 people and injuring hundreds more, Mr. Washburn was operating the snack bar he owned on the fourth floor. He not only set himself free from the rubble but was able to navigate and rescue five people from the disaster. What is notable: Mr. Washburn was blind.

Mr. Washburn is a true American hero and will be remembered for the incredible selflessness, integrity, and bravery he displayed by saving lives on that terrible day and for his remarkable contributions to the visually impaired community in Oklahoma.

Though this brave man will be deeply missed, there is no doubt his legacy will live on. Mr. Washburn's story and the way he lived his life should stand as an inspiration to Oklahomans and Americans across the country.

I am thinking of and praying for Mr. Washburn's family and loved ones, that they may find comfort in their loss.

□ 1215

SECURITY OF OUR SOUTHERN BORDER

(Mrs. MILLER of Illinois asked and was given permission to address the House for 1 minute.)

Mrs. MILLER of Illinois. Madam Speaker, the Biden administration wants to defend Ukraine's border but doesn't want to protect our own; leaving our southern border exposed to an invasion coordinated by drug cartels and human traffickers.

I visited the border with President Trump and saw firsthand how Biden's border policies have contributed to a crime wave and a drug overdose epidemic. I supported Articles of Impeachment for President Biden because he is intentionally violating our immigration laws and the security of our border, jeopardizing Americans' lives for political purposes.

If President Biden is actually worried about the threat posed by Russia, why isn't he concerned that in December 2,000 Russian nationals illegally crossed America's southern border?

My constituents miss President Trump and his policies that put America first.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

TOM KILDUFF EULOGY

(Mrs. BOEBERT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOEBERT. Madam Speaker, I rise to honor the life of my friend, Tom Kilduff.

Tom was a man of grit and glory, whose great sense of humor and love for America will be greatly missed. Tom gave so much to his country, most notably his service in the Marine Corps. Tom once told me that the Army told him to be all that he could be, so he became a marine.

Tom completed three tours in Vietnam where he distinguished himself as a man of valor, sacrifice, and also a really great shot, earning the USMC Rifle Expert Shooter's Badge and Pistol Sharpshooter Badge, the Bronze Star, and the Purple Heart. Upon returning home, he married his wife, Jeannie, and raised three beautiful daughters and had seven grandchildren.

Meeker, Colorado, is a better place because of Tom. We will surely miss his love of country, passion for the great outdoors, hanging out at Meeker's coffee shop—or the Shell gas station, as others may call it—and, of course, seeing him along with his precious dog, Sarge, following close behind.

Semper fi, Tom.

CHIPS ACT

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Madam Speaker, I rise today in solidarity with our brothers and sisters of the United Auto Workers as well as America's auto manufacturers.

Every day, nearly a million hard-working Americans go to work on factory floors across our country building the finest vehicles in the world, but our workers and manufacturers cannot compete on the global stage without a robust inventory of the semiconductor chips that help power the auto industry.

The CHIPS Act will invest \$2 billion to turbocharge domestic production of legacy auto chips and unleash America's 21st century innovation. The CHIPS Act will support good-paying jobs for the American middle class, including tens of thousands of auto workers across Ohio at Jeep, Ford, and GM.

Intel just announced a \$20 billion investment in semiconductor factories in Ohio, but that is just the beginning. Let's revitalize America's manufacturing might, re-shore production here in the United States, and create thou-

sands of new living-wage jobs for our workers and families.

Madam Speaker, it is time to pass the CHIPS Act and move America forward by freeing us from foreign chip domination.

LUNAR NEW YEAR

(Mrs. KIM of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. KIM of California. Madam Speaker, I rise today to join my community in celebrating Lunar New Year.

Madam Speaker, 2022 is the year of the Tiger, which represents, strength, passion, bravery, and courage. These are qualities we have seen in our communities every day.

While this past year brought new challenges, I know through the strength and drive of the Tiger, we will face these challenges head-on. And as someone who was born in the year of the Tiger and as a proud Tiger mom, my hope is to embody this courage and persistence every day as I fight for communities to receive the proper services and support that we need to come back stronger than ever.

In Congress, I will continue to promote policies to help Americans succeed and achieve their dream.

Happy New Year.

PROVIDING FOR CONSIDERATION OF H.R. 3485, GLOBAL RESPECT ACT; PROVIDING FOR CONSIDERATION OF H.R. 4445, ENDING FORCED ARBITRATION OF SEXUAL ASSAULT AND SEXUAL HARASSMENT ACT OF 2021; PROVIDING FOR CONSIDERATION OF H.R. 4521, BIOECONOMY RESEARCH AND DEVELOPMENT ACT OF 2021; AND FOR OTHER PURPOSES

Ms. ROSS. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 900 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 900

Resolved, That upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 3485) to impose sanctions on foreign persons responsible for violations of internationally recognized human rights against lesbian, gay, bisexual, transgender, queer and intersex (LGBTQI) individuals, and for other purposes. All points of order against consideration of the bill are waived. In lieu of the amendment in the nature of a substitute recommended by the Committee on Foreign Affairs now printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-30 shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any further amendment thereto, to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the

chair and ranking minority member of the Committee on Foreign Affairs or their respective designees; (2) the further amendments described in section 2 of this resolution; (3) the amendments en bloc described in section 3 of this resolution; and (4) one motion to recommit.

SEC. 2. After debate pursuant to the first section of this resolution, each further amendment printed in part A of the report of the Committee on Rules accompanying this resolution not earlier considered as part of amendments en bloc pursuant to section 3 of this resolution shall be considered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, may be withdrawn by the proponent at any time before the question is put thereon, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 3. It shall be in order at any time after debate pursuant to the first section of this resolution for the chair of the Committee on Foreign Affairs or his designee to offer amendments en bloc consisting of further amendments printed in part A of the report of the Committee on Rules accompanying this resolution not earlier disposed of. Amendments en bloc offered pursuant to this section shall be considered as read, shall be debatable for 20 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Foreign Affairs or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 4. All points of order against the further amendments printed in part A of the report of the Committee on Rules or amendments en bloc described in section 3 of this resolution are waived.

SEC. 5. Upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 4445) to amend title 9 of the United States Code with respect to arbitration of disputes involving sexual assault and sexual harassment. All points of order against consideration of the bill are waived. In lieu of the amendment in the nature of a substitute recommended by the Committee on the Judiciary now printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-29 shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any amendment thereto, to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on the Judiciary or their respective designees; (2) the further amendment printed in part B of the report of the Committee on Rules accompanying this resolution, if offered by the Member designated in the report, which shall be in order without intervention of any point of order, shall be considered as read, shall be separately debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for division of the question; and (3) one motion to recommit.

SEC. 6. Upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 4521) to provide for a coordinated Federal research initiative to ensure continued United States leadership in engineering biology. All points of order against consideration of the bill are waived. In lieu of the amendment in the nature of a substitute recommended by the Committee on Science,

Space, and Technology now printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-31, modified by the amendment printed in part C of the report of the Committee on Rules accompanying this resolution, shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any further amendment thereto, to final passage without intervening motion except: (1) two hours of debate equally divided and controlled by the chair and ranking minority member of the Committee on Science, Space, and Technology or their respective designees; (2) the further amendments described in section 7 of this resolution; (3) the amendments en bloc described in section 8 of this resolution; and (4) one motion to recommit.

SEC. 7. After debate pursuant to section 6 of this resolution, each further amendment printed in part D of the report of the Committee on Rules not earlier considered as part of amendments en bloc pursuant to section 8 of this resolution shall be considered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, may be withdrawn by the proponent at any time before the question is put thereon, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 8. It shall be in order at any time after debate pursuant to section 6 of this resolution for the chair of the Committee on Science, Space, and Technology or her designee to offer amendments en bloc consisting of further amendments printed in part D of the report of the Committee on Rules accompanying this resolution not earlier disposed of. Amendments en bloc offered pursuant to this section shall be considered as read, shall be debatable for 20 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Education and Labor or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 9. All points of order against the further amendments printed in part D of the report of the Committee on Rules or amendments en bloc described in section 8 of this resolution are waived.

SEC. 10. House Resolution 188, agreed to March 8, 2021 (as most recently amended by House Resolution 860, agreed to January 11, 2022), is amended by striking “February 4, 2022” each place it appears and inserting (in each instance) “April 1, 2022”.

SEC. 11. Notwithstanding clause 8 of rule XX, further proceedings on a vote by the yeas and nays on the question of adoption of a motion that the House suspend the rules offered on the legislative day of February 1, 2022 may be postponed through the legislative day of March 3, 2022.

The SPEAKER pro tempore (Ms. CRAIG). The gentlewoman from North Carolina is recognized for 1 hour.

Ms. ROSS. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentlewoman from Minnesota (Mrs. FISCHBACH), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Madam Speaker, in a moment I will ask to amend the rule to make a tech-

nical correction regarding en bloc debate time.

AMENDMENT OFFERED BY MS. ROSS

Ms. ROSS. Madam Speaker, I ask unanimous consent to amend the pending resolution with an amendment that I have placed at the desk.

The SPEAKER pro tempore. The clerk will report the amendment.

The Clerk read as follows:

In section 8, strike “Education and Labor” and insert “Science, Space, and Technology”.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from North Carolina?

There was no objection.

The SPEAKER pro tempore. The resolution is amended.

GENERAL LEAVE

Ms. ROSS. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from North Carolina?

There was no objection.

□ 1230

Ms. ROSS. Madam Speaker, the Rules Committee met and reported a rule, House Resolution 900, providing for the consideration of three measures: H.R. 3485, the Global Respect Act, under a structured rule. The rule provides 1 hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Foreign Affairs, makes in order six amendments, provides en bloc authority to Chairman MEEKS, and provides one motion to recommit.

The rule further provides for consideration of H.R. 4445, the Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act, under a structured rule. This rule provides 1 hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on the Judiciary. It makes in order one amendment, and provides for one motion to recommit. The rule also provides for consideration of H.R. 4521, the America COMPETES Act, under a structured rule. The rule provides 2 hours of debate equally divided and controlled by the chair and ranking minority member of the Committee on Science, Space, and Technology, makes in order 261 amendments, provides en bloc authority to Chairwoman JOHNSON, and provides one motion to recommit.

Finally, the rule provides recess instructions, suspension authority, and same day authority through April 1, 2022, and provides that requested roll call votes on suspension bills considered on February 1, 2022, may be postponed through March 3, 2022.

Madam Speaker, I rise today in support of the three bills we will consider under this rule: H.R. 4521, the America COMPETES Act; H.R. 4445, the Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act; and H.R. 3485, the Global Respect Act.

H.R. 4521 will make historic investments to advance the production of American-made semiconductors, tackle supply chain vulnerabilities, and turbocharge America's scientific research and technological leadership.

Our Nation has long been a global leader in science and technology, propelled by companies and universities like the ones in my district that perform cutting-edge research every single day.

Maintaining this position requires significant investment and cooperation across the government and private sector.

This bill will increase funding for the National Science Foundation. It will support the work of the Department of Energy's Office of Science in fighting climate change. It will empower the next generation of STEM teachers, researchers, and scientists of all backgrounds.

Our legislation will also establish a new office at the Department of Commerce charged with leading a government-wide effort to strengthen supply chains, invest \$52 billion to support American semiconductor manufacturing, and bolster our domestic solar manufacturing capacity.

In addition, H.R. 4521 will reaffirm American leadership abroad by reasserting our commitment to protect human rights and strengthen international trade laws to protect American workers and businesses from unfair trade practices.

I am proud to have led a number of bipartisan bills included in this legislation that will fund research activities, facilitate public-private partnerships to grow clean energy technologies, and mandate the development of a national science and technology strategy.

At a time when America faces unprecedented international competition, H.R. 4521 will reinforce our Nation's global leadership in science, technology, and innovation. I am thrilled we are bringing it to the House floor.

Madam Speaker, I also rise in support of H.R. 4445. Too often in our country today businesses use mandatory arbitration clauses to cover up sexual assault and harassment in the workplace.

Forced arbitration has a chilling effect on the ability of survivors to speak out, allowing businesses to take legal action against employees simply for seeking justice that was not provided during the arbitration process.

Last year, the House Judiciary Committee heard testimony from women in a variety of disciplines who have faced persistent harassment and abuse at their jobs. These women bravely recounted both the appalling behavior they experienced and how forced arbitration kept them from speaking out about their experiences and aiding others.

I am grateful to these women for their courage in shining a light on this abuse. Unfortunately, countless other women in our country are still silenced by mandatory arbitration.

When mandatory arbitration processes are used to preserve the reputations of companies, rather than to provide due process to employees facing mistreatment, Congress has a duty to step in. I am glad we are doing that by taking up this bill today.

Finally, I rise in support of H.R. 3485. Today, 68 countries, more than one-third of the United Nation member states, still criminalize same-sex relations. In nine countries, same-sex relations are punishable by death. That is a human rights violation.

In the United States, freedom is the foundation of our democracy, and the liberty to love whomever we choose without concern for retaliation or violence is safeguarded by our Constitution.

Denying the right of entry to foreign nationals who violate the human rights of LGBTQ people sends a clear message that hate has no home in the United States.

It is time to pass all three of these bills.

Madam Speaker, I reserve the balance of my time.

Mrs. FISCHBACH. Madam Speaker, I thank the representative from North Carolina (Ms. ROSS) for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Madam Speaker, today we are being asked to discuss House Resolution 4445, a bill that will do nothing to bring justice to victims of sexual harassment, and it could be argued that it would make the process worse. We are also discussing H.R. 3485, a duplicative messaging bill on human rights. The most bizarre bill we are looking at today is the American Concedes Act.

This is yet another bill that was thrown together behind closed doors and with no bipartisan input, and now we are expected to hastily dig through this lengthy document on short notice. Luckily, it does not take long to see all that is wrong with this bill.

We are supposed to believe the intention of the bill is to counter China's economic aggression, but it does not even contain the word "China" in the title. This bill is actually just a long list of Progressive dream policies that have nothing to do with China at all. To illustrate, the words "coral reef" appears more times in this legislation than China does.

What is worse is that that bill contains certain policies that would help China because it will hurt American companies. The bill's \$52 billion in subsidies for the semiconductor industry would allow for a chip company working with the Chinese Communist Party to be eligible for those funds. The bill that supposedly combats China's economic aggression could actually send taxpayer funds to subsidize CCP's semiconductor industry.

We could pass meaningful export and control policies. We could impose sanctions on the United Front Work Department, or even start with funding existing sanction enforcement at the

Office of the Foreign Asset Control in the Treasury.

We could completely ban Federal funding for colleges and universities that host Confucius Institutes. Instead, we are here to consider a bill that may actually be more detrimental for America than it is for China. I have to highlight some of the contradictions in this bill that so perfectly sum up the hypocrisy of the House Democrats and the administration.

This bill includes the Reclaiming the Solar Supply Chain Act of 2021. My colleagues claim this will decrease energy reliance on China and will be better for the environment by subsidizing solar panel manufacturing. However, the left is also attacking domestic production of the minerals required to make these panels.

We saw this just last week when the Biden administration canceled leases for a Minnesota company mining for critical minerals vital to domestic production of solar panels. The result is the U.S. is being forced to outsource these materials to China. China, who is the largest emitter of greenhouse gases in the world and uses inhumane labor practices. How can we reclaim the solar supply chain while outsourcing these very jobs to China?

This bill also requires U.S. implementation of the Paris Climate Agreement, but does not require the same of China. Another provision that makes it harder for American businesses to compete with unregulated Chinese competitors.

This bill reflects the patterns of this administration. They claim we need to address climate change now, but then delay compliance with the renewable fuel standard that provides lower-emission fuel for our vehicle fleet. They cancel our domestic pipeline construction while allowing our adversaries to keep theirs. They don't mind activities that hurt the environment as long as the U.S. is keeping it in someone else's backyard, all while forcing American businesses to follow their restrictions.

The majority of Americans agree, China is our biggest threat. We need good legislation to counter that threat. This bill proves the Democrats do not take this threat seriously.

It has taken any decent policy options on the subject and buried them in a poison bills trying to push policy to cater to their Progressive base. We need to put forward a real bill that has gone through the appropriate committee process to include Republican input. Only then will we have legislation that deals with these issues seriously.

Madam Speaker, I reserve the balance of my time.

Ms. ROSS. Madam Speaker, I yield 3 minutes to the gentleman from New York (Mr. MORELLE), a distinguished member of the Rules Committee.

Mr. MORELLE. Madam Speaker, I want to thank my friend and Rules Committee colleague, Ms. ROSS, for yielding time and for her leadership on this important issue.

Madam Speaker, I rise in support of the rule that will advance the America COMPETES Act, an historic package of long overdue legislative actions to strengthen our supply chain and make bold investments supporting manufacturing right here at home where it matters most.

There is so much in this legislative package that I am proud to deliver for my constituents back home in Rochester, New York, specifically the provision to boost regional innovation hubs and regional innovation.

I am proud that language in H.R. 4521 will create regional technology and innovation hubs like those envisioned in my legislation, the Innovation Centers Acceleration Act.

Since early 2020, I have had the honor of leading the effort for legislation that would dedicate serious Federal investment into our Nation's innovation efforts. In fact, the Rochester area was identified by the Brookings Institute as one of the top regions in the country for group opportunity, and it is no secret why.

With cutting-edge universities and research facilities, combined with a robust manufacturing infrastructure, access to shipping routes and a highly specialized workforce, Rochester is ready. We just need the investment to help expand on a wider scale.

This initiative will incentivize collaborative partnerships between local governments, colleges and universities, private industry, non-profits and community organizations to promote and support regional technology and innovation hubs in cities like Rochester.

Significant and sustained innovation investment is needed to drive economic recovery and build resiliency, and the America COMPETES Act puts us on track to just that.

Now is the time to boldly invest in innovation and scientific research to advance America's competitiveness against China and reestablish our Nation as the global leader of innovation.

By investing and enacting the America COMPETES Act, we reaffirm our leadership around the world by strengthening diplomacy, promoting human rights, and bolstering economic engagement.

Madam Speaker, I urge my colleagues to vote "yes" on the rule and the underlying bill.

Mrs. FISCHBACH. Madam Speaker, I yield 4 minutes to the gentleman from Texas (Mr. BURGESS).

Mr. BURGESS. Madam Speaker, we had a colleague several years ago, Jim McDermott from Washington State, a Democrat. The Republicans were in the majority. Republicans, during the week of April 15, wanted to put forward a bill on the floor of the House but didn't quite have it together, so they put together a sense of Congress resolution on fundamental tax reform.

□ 1245

I will never forget Dr. McDermott in the well of the House, thundering against Republicans:

You want tax reform, and this is the best you can do, a sense of Congress resolution?

Why don't you just send a get-well card to the IRS?

Madam Speaker, let me tell you something: Republicans on the Energy and Commerce Committee have been agitating, asking, and trying to work with Federal agencies to get answers on the origin of the coronavirus and answers on the origin of the pandemic. So, here we have the China bill before us today, ironically, on Groundhog's Day, but here is the China bill, and by golly, we are going to get to the bottom of the coronavirus pandemic.

What do we get? We get section 30219B, "Report on origins of the COVID-19 pandemic."

Now, what does the next line say? "Sense of Congress. It is the sense of Congress that," blah, blah, blah.

In other words, no force of law, no teeth, no requirement of any Federal agency to do anything, no requirement really for even a real investigation, which is what honestly we need.

We are sitting on the eve of Olympic Games that are going to be held in Communist China, and we don't have answers for what caused this pandemic. We are going to have a moment of silence later this week—appropriately so, another milestone of lives lost—but we don't know about the origins of this virus.

Let me tell you something else, Madam Speaker. Last night in the Rules Committee, I tried to get one of Dr. Wenstrup's very thoughtful amendments included. He has an amendment that says that this gain-of-function research that was carried out might be pretty dangerous; we need to think about where it is conducted; and we shouldn't use United States taxpayer dollars to fund this research in countries that are our adversaries.

I offered that amendment on behalf of Dr. Wenstrup, and every Democrat member of the Rules Committee said: Oh, it is good with us. You go ahead and send those dollars over there and do this research.

We have this new W visa for startups that is language in the bill. There is no language about protecting American jobs, but we are going to give jobs to other people.

We are already funding the U.N. Green Climate Fund for \$100 million directly to China, and this bill gives them another \$8 billion for that same purpose.

Madam Speaker, \$3 billion for a slush fund for solar manufacturing—some of us have been in this body long enough to remember some unpleasant activity with that in a stimulus bill in 2009.

This bill supposedly provides over \$300 billion in new spending. And I say "supposedly" because no one knows. No one really knows. We have heard this bill in the Rules Committee, not in the authorization committees, but in the Rules Committee with no CBO score. We are flying blind.

We are approving this 3,000-page bill today having had it for a little less

than 72 hours. As you can see from the start of this, Madam Speaker, the language is still being hammered out. It wasn't quite right as it came to the floor last night from the Rules Committee.

This is a bad idea. We ought to take our time and do it right because this is important, and people do want us to do this right.

It does appear that, right now, the Democratic leadership of this House is more concerned with politics than policy, and that is so unfortunate because we have an opportunity here to actually do something right.

Ms. ROSS. Madam Speaker, I yield 3 minutes to the gentlewoman from Pennsylvania (Ms. SCANLON), who is another distinguished member of the Rules Committee.

Ms. SCANLON. Madam Speaker, I thank my colleague from the Rules Committee for yielding.

Madam Speaker, I rise in strong support of today's rule. The America COMPETES Act is a bold and important bill that would help make our economy more competitive, more dynamic, and more prosperous as we confront the challenges of the 21st century.

This bill provides a long-overdue investment in our Nation's leading research and development institutions, which will deliver huge benefits to the region I represent. It will fund innovations and breakthroughs to ensure that the United States leads the world in advancements in artificial intelligence, cybersecurity, computing, and biomedical research.

The America COMPETES Act also provides a targeted program of policies to address our short- and long-term supply chain challenges. These policies will help to lower inflation, promote domestic manufacturing, encourage businesses to reshore jobs, and insulate our economy from the supply chain disruptions we are seeing right now.

Internationally, the America COMPETES Act will improve our relationships with our allies and partners in the Americas, Europe, Africa, and Asia, fostering closer political and economic ties and countering China's growing influence abroad.

All in all, the America COMPETES Act is a sound investment in our Nation's future, and I hope that the House and Senate can quickly work out their differences so that we can send a final bill to President Biden's desk soon.

Madam Speaker, I also want to highlight two amendments that I have offered to help shape the America COMPETES Act. One of those amendments would provide grants to institutions of higher education to create innovative, research-focused education centers for STEM students. These centers would provide students with course-based research experiences across STEM disciplines and education levels, and they would work to reduce the barriers that minority and low-income students face in participating in STEM education in order to reduce attrition rates and in-

crease diversity in the STEM workforce.

My other amendment deals with the regional technology and innovation hub program created by the America COMPETES Act, which would provide cities and towns with funding to increase jobs and training opportunities in R&D, tech, and manufacturing. My amendment would clarify the program's designation process so that cities like Philadelphia can compete fairly for these vital Federal resources.

I am proud to contribute these amendments to the bill, and I urge all of my colleagues to vote "yes" on the rule and the underlying legislation.

Mrs. FISCHBACH. Madam Speaker, I yield 2½ minutes to the gentleman from Pennsylvania (Mr. RESCHENTHALER), who is an esteemed member of the Rules Committee.

Mr. RESCHENTHALER. Madam Speaker, I thank my good friend and fellow Rules Committee member, Mrs. FISCHBACH, for the generosity with the time.

Madam Speaker, the Chinese Communist Party is the single greatest threat to freedom and democracy in the United States and around the world. For too long, China has stolen American intellectual property, violated international trade laws, exported illicitentanyl into our communities, and committed heinous human rights abuses.

Just in the last 2 years, China has dismantled Hong Kongers' civil liberties; they have increased their military buildup; and they have suppressed information about the origins of COVID-19.

Yet, House Democrats put forward a bill today that mentions coral reefs and climate change more than it mentions China. In Biden's own Statement of Administration Policy for this bill, the word "China" is nowhere to be found. This is laughable.

Clearly, calling this bill tough on China is a joke. In fact, under H.R. 4521, China itself is eligible to receive American taxpayer dollars through a "green climate" slush fund. The slush fund this bill creates actually gives money to China. It is laughable.

China has committed the worst climate change violations in the world. They are the world's greatest single polluter. China emits more greenhouse gases than all the developed nations combined. If you took the emissions from the United States, Japan, and all the European Union, Madam Speaker, that combined still doesn't reach the levels that China emits, yet China is eligible for the green climate slush fund this bill creates.

It is seriously a joke. You can't make it up, Madam Speaker.

Last Congress, Republicans on the China Task Force, which I was lucky enough to be a part of, put forward a blueprint to address the generational threat that is posed by the CCP.

I hope my colleagues across the aisle—the liberals across the aisle and

the leftists across the aisle—will work with Republicans. I hope they will look at what we produced on the China Task Force and actually get serious about holding China accountable.

It is time we advanced the ideas that we have in the China Task Force. The idea is to actually protect Americans and hold the CCP accountable for their malign behavior.

Ms. ROSS. Madam Speaker, I yield 3 minutes to the gentlewoman from California (Ms. MATSUI).

Ms. MATSUI. Madam Speaker, I rise today in support of the rule providing for consideration of the America COMPETES Act. As the lead House Democrat on two important provisions, I am glad that we are advancing a bill that would create jobs and support innovation for years to come.

Almost 2 years ago, I joined a bipartisan group in the House and Senate to introduce the CHIPS for America Act. This bill established a road map for reasserting American leadership in the strategically important semiconductor industry. Since then, two things have occurred: The CHIPS Act was signed into law as part of last year's defense bill, and the need to fund it has only grown more severe as the global semiconductor shortage has dragged on.

Thankfully, the America COMPETES Act includes the full \$52 billion we need to comprehensively implement the CHIPS Act. This funding is about more than any one specific technology or industry. It is about securing a fundamental building block of the 21st century economy.

Unfortunately, we have all seen the devastating consequences of this global semiconductor shortage: Factories have closed. Workers have been laid off. And prices have gone up.

We cannot afford to wait any longer to get this funding into the economy, supporting new American manufacturing capacity. This funding is bipartisan; it is supported by the Biden administration; it will help workers; and it will increase our national security. It should be passed immediately.

I am also glad to see the \$1.5 billion included to support next-generation telecommunications networks by encouraging deployment of Open RAN technology. As an original cosponsor of the USA Telecommunications Act, I know this funding will support more durable supply chains and create opportunities for American companies to grow.

I thank Chairman MCGOVERN and Secretary Raimondo for their tireless work on this bill and look forward to supporting it on the floor later this week.

Mrs. FISCHBACH. Madam Speaker, I yield 2 minutes to the gentlewoman from California (Mrs. KIM), who is my fellow freshman.

Mrs. KIM of California. Madam Speaker, I would like to thank my esteemed colleague from Minnesota for yielding.

Madam Speaker, I rise today in opposition to the rule and the underlying

legislation, the so-called America COMPETES Act.

I have worked tirelessly with my colleagues to produce thoughtful, bipartisan STEM bills that could have been considered through a committee conference tomorrow. Instead of working on a comprehensive and bipartisan strategy to counter the CCP, Speaker PELOSI released a bill that was written behind closed doors less than a week ago that is nearly 3,000 pages and mentions, as you have heard over and over from my colleagues, the words “coral reefs” more than the word “China.”

The bill also puts \$8 billion in a U.N. climate slush fund that we have zero oversight over and that China has already taken \$100 million from.

The CCP's goal is to become the world's top economic superpower by the year 2025 and has made clear that their goal is to surpass the United States in science and technology. The reality is that they are winning. They are outspending us on research and development. They are producing more STEM graduates than us. And by 2025, they will graduate twice as many STEM Ph.D.s as we do.

The way to ensure future United States leadership and counter China is by working together, not by ramming partisan bills through Congress.

The CCP is watching us. Speaker PELOSI's conceded act plays right into our adversaries' hands.

Madam Speaker, I urge a “no” vote.

Ms. ROSS. Madam Speaker, I yield 2 minutes to the gentlewoman from Delaware (Ms. BLUNT ROCHESTER).

Ms. BLUNT ROCHESTER. Madam Speaker, I thank my colleague for yielding.

Madam Speaker, I rise today in support of the rule, to voice my strong support of the America COMPETES Act, and to highlight pivotal supply chain provisions that I worked on with Representatives MALINOWSKI and KINZINGER.

As I have traveled Delaware over the last summer, speaking to businesses and constituents, I heard a lot about three things: workforce, inflation, and supply chains. The provisions we are discussing today would tackle all three, ensuring that the manufacturing of critical components of goods we rely on every day are brought back home, creating good-paying union jobs.

At a time when Americans are facing rising prices and manufacturers are struggling to obtain the raw materials they need to produce consumer products, we must act.

These provisions are the solution to strengthening our supply chains while preventing these disruptions from impacting us again in the future. And that is why I am so proud that these provisions enjoy support from key stakeholder groups, from the United Steelworkers to the National Association of Manufacturers.

Let's work together to support American jobs, maintain our national security, and lower the price of consumer goods. Let's pass this bill.

□ 1300

Mrs. FISCHBACH. Madam Speaker, if we defeat the previous question, I will offer an amendment to the rule allowing for the immediate consideration of H.R. 6184, the HALT Fentanyl Act.

I ask unanimous consent to insert the text of my amendment in the RECORD, along with any extraneous materials, immediately prior to the vote on the previous question.

The SPEAKER pro tempore (Mrs. LEE of Nevada). Is there objection to the request of the gentlewoman from Minnesota?

There was no objection.

Mrs. FISCHBACH. Madam Speaker, I yield myself such time as I may consume.

Over 100,000 people died from fentanyl overdoses in a 1-year span, according to the CDC. That is a 30 percent increase from the year before. I think we can all agree that something must be done to put a stop to this heartbreaking epidemic.

Fentanyl has been temporarily classified as a schedule I substance. This classification strengthens law enforcement's ability to prosecute fentanyl traffickers, and the DEA reports that it has acted as an effective deterrent. The temporary classification is set to expire on February 18, 2022.

The HALT Fentanyl Act would make the schedule classification permanent and would also promote research by removing regulation to streamline the research process. We should do everything we possibly can to put an end to the devastation caused by fentanyl in this country. And the HALT Fentanyl Act is one piece of the puzzle that could make a real difference.

To further explain this amendment, I yield 3 minutes to the gentleman from Virginia (Mr. GRIFFITH), the author of the bill.

Mr. GRIFFITH. Madam Speaker, I rise to oppose the previous question so we can immediately consider my bill, H.R. 6148, the Halt All Lethal Trafficking of Fentanyl Act.

Every Member of this body knows someone who has been affected by the drug overdose epidemic plaguing our country. We recently learned from the Centers for Disease Control and Prevention that between May 2020 and April 2021, more than 100,000 overdose deaths occurred in the United States, an increase of nearly 30 percent over the previous year.

These record numbers are due, in large part, to the increasing presence of fentanyl and fentanyl analogs, which are approximately 100 times more potent than morphine and 50 times more potent than heroin.

Because fentanyl has a proven medical use, it is considered a schedule II narcotic, but illicit derivations of fentanyl, also called fentanyl analogs, or fentanyl-related substances, do not tend to demonstrate medical value. Right now, they are considered schedule I substances, but only because of a temporary scheduling order which expires on February 18 of this year.

My bill aims to curb overdose deaths by permanently scheduling fentanyl analogs as schedule I substances. This will strengthen law enforcement's ability to prosecute fentanyl traffickers and act as a deterrent.

The HALT Fentanyl Act also promotes research by removing barriers to that research. In committee, we heard there are as many as 4,800 analogs. Our experts at NIH, FDA, and other agencies, have studied roughly 30, 30 of those 4,800 analogs, less than 1 percent of the potential fentanyl analogs.

By encouraging research of schedule I substances like fentanyl analogs, we can better understand how these substances work and how we can prevent potentially harmful impact in the future.

Time is running out. The cartels in China and Mexico know how to play games with these fentanyl analogs. Congress must act to pass the HALT Fentanyl Act before February 18 of this year. It must be done.

Ms. ROSS. Madam Speaker, I yield 2 minutes to the gentlewoman from Illinois (Mrs. BUSTOS).

Mrs. BUSTOS. Madam Speaker, I rise today in favor of the rule, which provides for consideration of my bill, the Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act.

This bill would simply void forced arbitration provisions as they apply to sexual assault and harassment claims, giving survivors the choice of how to pursue justice. It would allow sexual assault or harassment survivors to discuss their cases publicly if they would choose. And it would eliminate institutional protection for harassers and abusers.

The rule also includes an amendment I co-led with Ranking Member KEN BUCK of Colorado. This amendment was negotiated in good faith with Democrats and with Republicans to address concerns as my bill was debated in committee. We promised them that we would work together to address those issues, and we did.

My bill has the support of Democrats and Republicans. It has support in the House and in the Senate. And passing the rule is the next step toward sending this bill to the President of the United States and having it become the law of the land. I urge my colleagues to support the rule.

Mrs. FISCHBACH. Madam Speaker, I yield 4 minutes to the gentlewoman from Florida (Mrs. CAMMACK).

Mrs. CAMMACK. Madam Speaker, I rise today to oppose the previous question so that we can immediately consider H.R. 6184, the HALT Fentanyl Act.

Unless you have been living under a rock, you know that we are in what many are calling the third wave of the American opioid epidemic which has taken hundreds of thousands of lives.

In fact, the leading cause of death in America today for folks between the ages of 18 and 45 is fentanyl. It is not COVID. It is not climate change. No, it

is fentanyl. And we know for a fact that every single Member of this Chamber represents districts that are being significantly impacted by the gross influx of narcotics in our communities.

You know, last March, I stood here on this very floor next to my husband's SWAT vest as our colleagues on the left worked to defund, and ultimately did defund our police. I stated then that Members of Congress should be required to do ride-alongs with local law enforcement so that they may see firsthand the very dangerous challenges that our law enforcement officers face on a daily basis. To date, not a single one has taken me up on that challenge.

However, I have done several ride-alongs, as well as three trips to the southwest border. Had our Democrat colleagues taken me up on our ride-along challenge they would have seen firsthand the drugs that are free-flowing across the southwest border, courtesy of trafficker-in-chief Biden, into our communities.

It is not hard to find examples of this. In fact, here is one from my own backyard, Marion County, Florida. This brick of fentanyl was found just last year. Months after this very drug bust, I took my local sheriffs to the southwest border to see firsthand for themselves the crisis unfolding there.

It was on this trip that a Homeland Security Investigations agent took one look at this photo and said, you know, that is a product of a border cartel: 984 grams of fentanyl—984 grams of fentanyl. That is enough to kill a half a million people. That is what this brick was that was found in Marion County, Florida, that came from the border.

So while I am incredibly grateful to our law enforcement officers, and proud of Sheriff Billy Woods and his entire department in Marion County for their incredible work on this case, it must be recognized that no single department can stop the tidal wave of drugs coming across the border.

It is a fact that we cannot defend our hometowns if we cannot defend the homeland, and that is why border security is so important.

To my colleagues on the left, you can pretend that there is no crisis on the border, but we know, and you know that is a lie.

You can look the other way as mothers and fathers and families are grieving from family members falling victim to the addiction of fentanyl; many who have succumbed.

You can lie to yourselves, but you can't lie to the American people any longer.

Today is an opportunity for us all to take a stand against the horrific opioid epidemic that has gripped our Nation. We have the opportunity to take a stand for families who have painfully suffered at the hands of fentanyl's vise grip.

Today is an opportunity to put people above politics. This bill will make

the emergency class-wide scheduling order for fentanyl-related substances permanent. That is why this is so important. That is why this is above politics and a political agenda.

I commend the great work that my friend, the gentleman from Virginia, has done on this important work. And I urge my colleagues to defeat the previous question so that we can immediately consider his bill, the HALT Fentanyl Act.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

Ms. ROSS. Madam Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Madam Speaker, this is reminiscent of more than a decade and a half ago, but it means that it is long overdue for us to now start anew with the America COMPETES Act, H.R. 4521.

Let me, first of all, say that in the passage of legislation, isn't it exciting that we have a bipartisan infrastructure bill that will match very nicely along with the America COMPETES Act and, as well, we will pass the Build Back Better Act, that has a sizeable proportion of broadband and many other aspects dealing with climate.

So I rise today to support H.R. 4521 for a number of reasons, but I will put in the forefront the idea that it will promote around the world America's values of justice and competitiveness, equality and, yes, human rights. And all the nations that pretend to be competitive, but yet do not have the aspect of compassion and laws that the United States has will be in the back seat, and we will be in the front seat.

Let me, first of all, say that we are bringing relief to all the folks that are trying to get their automobiles; \$45 billion in the American fund for chips that will incentivize private sector investments and continued American leadership in semiconductor fabrication, and will address simply the supply chain disruption, and ensure that more semiconductors are produced here at home.

There are also jobs for my inner-city young people, my rural young people.

I was at TRRX in the city of Houston, and we were looking at—a truck driver talked to me and said, I stopped driving trucks. I had health issues, and I am now dealing with technology training that they are giving in at-risk communities.

Strengthening the supply chain with \$45 billion to improve the Nation's supply chain and national security by preventing the shortages of critical goods and ensuring that more of these goods are made right.

And advancing what is very important to me, having served on the Science Committee, NASA is in my backyard, the Johnson Space Center, and I am excited about what we have been able to do over the decades. But

now we will be able to focus on scientific research, technology and innovation and excellence. That creates jobs.

Madam Speaker, I rise with enthusiasm to support H.R. 4521. Let's compete. Let's show our values. Let's train, and let's make money. Make it in America.

Madam Speaker, as a senior member of the House and the Committee on Homeland Security, and as Chair of the Judiciary Subcommittee on Crime, Terrorism, and Homeland Security, I rise in strong support of the Rule governing debate of Rules Committee Print 117–31 and H.R. 4521, the America Creating Opportunities for Manufacturing Pre-Eminence in Technology and Economic Strength or “America COMPETES Act of 2022,” as well as the underlying legislation.

I also support the Rule as it pertains to H.R. 3485—Global Respect Act H.R. 4445—Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act of 2021, both of which I strongly support on the merits.

Madam Speaker, the America COMPETES Act of 2022 is a bold legislative package that makes transformational new investments in research, innovation and American manufacturing that will ensure that America can outcompete any nation in the world, now and for decades to come.

The package will accelerate production of critical semiconductor chips, strengthen the supply chain to make more goods in America, turbocharge our research capacity to lead the technologies of the future, and advance our global competitiveness, while supporting strong labor standards and human rights, among other key provisions.

The America COMPETES Act of 2022 is a bold, comprehensive package to strengthen America's competitiveness, which includes the “Creating the CHIPS for America Fund,” providing \$52 billion to incentivize private-sector investments and continue American leadership in semiconductor fabrication, helping address supply chain disruptions and ensure that more semiconductors are produced here at home.

The legislation strengthening the supply chain and American manufacturing by authorizing \$45 billion to improve our nation's supply chains and strengthen our economy and national security by preventing shortages of critical goods and ensuring that more of these goods are made right here in the United States.

The America COMPETES Act of 2022 advances American scientific research, technology, and innovation excellence by making major new solutions-driven investments in every aspect of innovation and scientific research, making the kind of investments that will lead to breakthrough discoveries.

I am particularly pleased that the America COMPETES Act will help maintain and secure America's global competitiveness and leadership through economic development diplomacy, human rights, and partnering with allies by including numerous provisions to strengthen and promote America's leadership around the globe, including in such areas as investing in partnerships and alliances, investing in standing up for America's values, expanding our investments in diplomacy, and promoting human rights.

Madam Speaker, the United States has long been a beacon of excellence in science and technology in the world.

I have worked hard on the COMPETES Act over time to make sure that this legislation includes provisions that stimulates government reinvestment in the private sector; and reimagining of the Federal government's approach to innovation that ignites and excites new ideas that ensure that the United States remains the leader in innovation globally.

The need to reinvest in and reimagine our approach to science and innovation has become a national imperative so I am very pleased that the legislation before us retains provisions I sponsored that were included when the America COMPETES Act was previously passed.

One of those provisions, which is incorporated in RCP 117–31 addresses the STEM education gap for K–12 students by creating State and regional workshops to train K–12 teachers in project-based science and technology learning, allowing them to provide instruction in initiating robotics and other STEM competition team development programs.

Another provision included in the legislation requires the National Science Foundation (NSF) to report on the economic and ethnic breakdown of “Science Technology Engineering and Mathematics” (STEM) industry internship program recipients.

Facilitating links between institutes of higher education and the private sector is vital to ensuring that education enables a skilled and relevant workforce.

Such links are especially important for minorities and under-served communities because these students often lack alternative avenues to connect their education with an industry.

Internship experience is an increasingly vital component of a successful resume, yet the unpaid nature of internships is cost-prohibitive for many people.

Mandating that the National Science Foundation report on the economic and ethnic breakdown of STEM program recipients will help ensure that minorities and economically-disadvantaged students have adequate access to internships that bridge STEM academia and industry.

I am hopeful this data will provide evidence of robust participation by minority and economically-disadvantaged students; however, if such students are not fully participating, these reporting requirements will provide Congress with the data it needs to facilitate broader participation.

Now is the time to recommit to boldly and strategically investing in our nation's future—to promote America's economic strength, the well-being of our communities, our national security and our leadership in the world. This transformative legislation will ensure that America can out-compete any nation, for decades to come.

Madam Speaker, I also support the provisions of the rule governing debate of H.R. 4445, the Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act of 2021, bipartisan and bicameral legislation that empowers survivors of sexual assault and sexual harassment by giving them a choice to go to court instead of being forced into arbitration.

This legislation would amend the Federal Arbitration Act for disputes involving sexual assault and sexual harassment in order to stop employers and businesses from forcing employees and customers out of the court system and into arbitration.

It would ensure that predispute arbitration clauses and waivers of the right to bring joint actions in cases of sexual assault or sexual harassment would not be valid or enforceable for cases that are filed under Federal, Tribal, or State law.

Under current law, many employment and other contracts require binding arbitration for a wide range of matters before a dispute arises, which denies survivors the ability to decide whether to pursue their claim with the procedural protections provided by courts, and silences victims of abuse by forcing them into a confidential dispute forum without the right to appeal.

More than 60 million Americans are subject to mandatory arbitration clauses in the workplace, often without realizing it until they come forward to bring a claim against their employer.

The Report of the Co-Chairs of the U.S. Equal Employment Opportunity Commission's Select Task Force on the Study of Harassment in the Workplace notes that between 50–75 percent of women have faced some form of unwanted or unwelcome sexual harassment in the workplace.

Additionally, contracts for services may include mandatory arbitration clauses in the fine print that shield companies and businesses from being held publicly accountable for the harm caused.

I support this necessary legislation because it advances efforts to prevent and address sexual harassment and sexual assault, strengthen rights, protect victims, and promote access to justice.

Finally, I strongly support H.R. 3485 the Global Respect Act, which would mandate the listing of, and visa restrictions on foreign persons responsible for or complicit in human rights violations against lesbian, gay, bisexual, transgender, queer, and intersex (LGBTQI+) persons.

In the face of rising violence targeting LGBTQI+ persons around the world, the Administration recognizes that LGBTQI+ persons face serious and unique threats to their safety due to their sexual orientation, gender identity, gender expression, or sex characteristics.

While many countries have made tremendous strides in embracing equality for LGBTQI+ community members, other countries remain stagnant or, worse, are undertaking steps to further marginalize or harm LGBTQI+ community members.

That is why I support H.R. 3485, a bipartisan bill, which requires the Administration to provide Congress with a list of foreign individuals found responsible for human rights violations against LGBTQI+ persons abroad, and equally important, mandates that individuals included on this list are ineligible for visas to, or entry into, the United States.

Madam Speaker, I strongly support this legislation and urge all Members to join me in voting for the rule governing debate of RCP 117–31, the America COMPETES Act of 2022, H.R. 4445, the Ending Forced Arbitration of Sexual Assault and Sexual Harassment Act of 2021, and H.R. 3485, the Global Respect Act.

Mrs. FISCHBACH. Madam Speaker, I reserve the balance of my time.

Ms. ROSS. Madam Speaker, I yield 3 minutes to the gentlewoman from Connecticut (Ms. DELAURO), the distinguished chairwoman of the Committee on Appropriations.

Ms. DELAURO. Madam Speaker, the America COMPETES Act is a historic package. It makes strategic investments to strengthen supply chains, protect our national security, and bolster our economic competitiveness. It gives us the tools to fight for jobs here at home, protect our critical supply chains, while addressing key trade challenges that we face.

It recognizes the need to bring back American manufacturing and fights for good-paying jobs that cannot be outsourced. It appropriates billions for critically needed semiconductors and billions to address broken supply chains; doubling down on our commitment for American-made innovation to prevent future shortages and disruptions.

We need to be a nation once again that builds and not a nation that just consumes. We need to create our own supply chains and not be dependent on others.

It protects American workers from foreign countries with unfair practices by including a robust renewal of the Trade Adjustment Assistance program that supports American workers who have lost their jobs because of trade practices by other countries.

□ 1315

Madam Speaker, it puts an end to China's export of goods to us valued below \$800 to avoid paying import duties and often to avoid screening to determine whether those goods are made with forced labor.

It includes the National Critical Capabilities Defense Act that I introduced last year. That establishes a screening process that protects critical supply chains and our manufacturing capacity. It is a process that reviews our overseas investments to make sure that we are not giving up or offshoring critical capabilities, safeguarding our workers, detecting supply chain vulnerabilities, and ensuring that they stay here in America.

It includes provisions I have championed for years, language from my bipartisan Civics Secures Democracy Act that will foster our next generation of leaders.

The bill gives the FDA the mandatory recall authority it needs to protect families from the risks posed by unsafe drugs.

It includes a bipartisan amendment that I have to end the factory farming of mink that threatens public health as we continue fighting against COVID-19.

Madam Speaker, I look forward to voting in favor of this bill. I urge my colleagues to do the same. It is time that America takes that leadership again, produces what it needs, and protects our workers, our society, and all the industry that is attuned to that as well.

Mrs. FISCHBACH. Madam Speaker, I am prepared to close unless the gentleman from North Carolina (Ms. ROSS) has other speakers.

Ms. ROSS. Madam Speaker, I do have a few more minutes to share some in-

formation about the America COMPETES Act. Then I would be prepared to close.

Mrs. FISCHBACH. Madam Speaker, I reserve the balance of my time.

Ms. ROSS. Madam Speaker, I yield myself such time as I may consume.

In addition to having the privilege of serving on the Rules Committee, I also serve on the House Committee on Science, Space, and Technology, which, as a freshman, I can tell you is probably the most bipartisan place in this entire Congress. It is also a privilege to represent the science and technology area of this country in the Research Triangle Park.

I must share information about the work that the Science Committee has done on this bill. The Science Committee bills included in the America COMPETES Act are strongly bipartisan. Every one of these bills either passed the House floor under suspension or passed through the House Committee on Science, Space, and Technology favorably.

The House is ushering in a bold and prosperous future for American science and innovation with a suite of bills, including the National Science Foundation for the Future Act, the Department of Energy Science for the Future Act, and the National Institute of Standards and Technology for the Future Act.

The Science Committee provisions included in the America COMPETES Act were built from the ground up with rigorous deliberation and input from the scientific community, industry, and other stakeholders on what they needed most to succeed in the 21st century. These provisions will ensure that the United States is well equipped to compete globally in science and innovation. These provisions will help build a strong and diverse STEM workforce ready to address our greatest scientific and societal challenges.

Our future prosperity depends on what we do now to nurture the STEM talent in our country. From clean energy technologies to emissions measurement, with the bold funding for science and innovation included in these provisions, we will be able to address a climate crisis head-on. These provisions will strengthen American manufacturing, bolster our national security, and enhance our semiconductor manufacturing capabilities.

The United States has long been a beacon of excellence in science and innovation. We must invest in our Nation's future, and now is the time. The United States has endless potential to compete globally in science and innovation. The America COMPETES Act provides the critical resources and tools we need to achieve that, not just today but for the next generation.

Madam Speaker, I reserve the balance of my time.

Mrs. FISCHBACH. Madam Speaker, I yield myself the balance of my time.

Madam Speaker, this bill is another attempt to force the far-left agenda.

Only this time, the Democrats are using the very real threats we are facing from China in order to do it. Rather than focus attention on real action that can be taken against China, this bill has been pumped full of policies around climate change and other progressive dreams.

My colleagues on the other side of the aisle need to open their eyes to the reality of the threat that China poses and not use important pieces of legislation to push their agenda.

Madam Speaker, I oppose the rule and the underlying bills, and I ask Members to do the same. I yield back the balance of my time.

Ms. ROSS. Madam Speaker, I yield myself the balance of my time.

Madam Speaker, I would like to add to the comments that I made about the Committee on Science, Space, and Technology.

Our chair, EDDIE BERNICE JOHNSON, will be retiring at the end of this session. The contributions that she has made to this Congress and to the State of Texas have been extraordinary.

I have an "amen" from our colleague from Texas (Ms. JACKSON LEE).

The gentlewoman from Texas (Ms. JOHNSON) has been a model of civility and bipartisanship on that committee. This bill, the America COMPETES Act, will just be a crown jewel in her legacy.

Madam Speaker, now is the time for Congress to take comprehensive action to strengthen our supply chain, support American manufacturing, and invest in innovation and scientific research. H.R. 4521 will accomplish these goals, bolster American semiconductor manufacturing, advance clean energy technology, and reaffirm our leadership on the global stage. Our workers, businesses, research institutions, and constituents are depending on us to pass the America COMPETES Act.

Madam Speaker, we also must pass H.R. 4445. As long as forced arbitration remains an option, businesses will be able to abuse this mechanism to put profits over people and silence survivors of sexual assault and harassment.

Our laws should end practices that enable the abuse of working women. Ending mandatory arbitration for sexual harassment and assault is a just way to put an end to one of these practices.

Finally, we must pass H.R. 3485. Our support of LGBTQ rights must not stop at our border. The global LGBTQ community deserves the full support of American diplomacy.

The Global Respect Act enshrines our commitment to equality in our foreign policy, and I am proud to support this bill.

The material previously referred to by Mrs. FISCHBACH is as follows:

AMENDMENT TO HOUSE RESOLUTION 900

At the end of the resolution, add the following:

SEC. 12. Immediately upon adoption of this resolution, the House shall proceed to the consideration in the House of the bill (H.R.

6184) to amend the Controlled Substances Act with respect to the scheduling of fentanyl-related substances, and for other purposes. All points of order against consideration of the bill are waived. The bill shall be considered as read. All points of order against provisions in the bill are waived. The previous question shall be considered as ordered on the bill and on any amendment thereto to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce; and (2) one motion to recommit.

SEC. 13. Clause 1(c) of rule XIX shall not apply to the consideration of H.R. 6184.

Ms. ROSS. Madam Speaker, I yield back the balance of my time, and I move the previous question on the resolution, as amended.

The SPEAKER pro tempore. The question is on ordering the previous question on the resolution, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mrs. FISCHBACH. Madam Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 219, nays 205, not voting 9, as follows:

The SPEAKER pro tempore. Without
objection, the resignation is accepted.
There was no objection.

RESIGNATION AS MEMBER OF
COMMITTEE ON VETERANS' AF-
FAIRS

The SPEAKER pro tempore laid be-
fore the House the following resigna-
tion as a member of the Committee on
Veterans' Affairs:

HOUSE OF REPRESENTATIVES,

February 1, 2022.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington, DC.

DEAR SPEAKER PELOSI: I write today to re-
quest to be removed from the House Vet-
erans Affairs Committee to allow the newly
elected Representative from Florida's 20th
Congressional District, Sheila Cherfilus-
McCormick, to serve on this committee. I
know that Rep. Cherfilus-McCormick will
bring a fresh and unique perspective to this
committee's work and our country's veteran
population will be better served because of
it.

It has been an honor to serve on this criti-
cally important committee to try and im-
prove the lives of our nation's veterans.
Thank you for your consideration.

Sincerely,

ANTHONY G. BROWN.

The SPEAKER pro tempore. Without
objection, the resignation is accepted.
There was no objection.

ELECTING MEMBERS TO CERTAIN
STANDING COMMITTEES OF THE
HOUSE OF REPRESENTATIVES

Mr. JEFFRIES. Mr. Speaker, by di-
rection of the Democratic Caucus, I
offer a privileged resolution and ask
for its immediate consideration.

The Clerk read the resolution, as fol-
lows:

H. RES. 902

Resolved, That the following named Mem-
ber be, and is hereby, elected to the fol-
lowing standing committees of the House of
Representatives:

COMMITTEE ON EDUCATION AND LABOR: Mrs.
Cherfilus-McCormick, to rank immediately
after Mr. Bowman.

COMMITTEE ON VETERANS AFFAIRS: Mrs.
Cherfilus-McCormick, to rank immediately
after Mr. Mrvan.

Mr. JEFFRIES (during the reading).
Madam Speaker, I ask unanimous con-
sent that the resolution be considered
as read and printed in the RECORD.

The SPEAKER pro tempore. Is there
objection to the request of the gen-
tleman from New York?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on
the table.

REMOVAL OF NAME OF MEMBER
AS COSPONSOR OF H.R. 1440

Ms. TENNEY. Mr. Speaker, I hereby
remove my name as a cosponsor of H.R.
1440.

RESIGNATION AS MEMBER OF
COMMITTEE ON EDUCATION AND
LABOR

The SPEAKER pro tempore laid be-
fore the House the following resigna-
tion as a member of the Committee on
Education and Labor:

HOUSE OF REPRESENTATIVES,

Washington, DC, February 1, 2022.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington DC.

DEAR SPEAKER PELOSI: I am writing to re-
quest that I be removed from the House Edu-
cation and Labor Committee to allow newly
elected Representative Cherfilus-McCormick
from Florida to serve on this important
Committee. I am confident that Ms.
Cherfilus-McCormick will be a great addition
and valued member of the Committee.

It was an honor to return to the Education
and Labor Committee for part of my last
term in Congress and to again have the op-
portunity to directly work on issues so criti-
cally important to my Congressional Dis-
trict.

The SPEAKER pro tempore. The gentleman's request is accepted.

BIOECONOMY RESEARCH AND DEVELOPMENT ACT OF 2021

Ms. JOHNSON of Texas. Mr. Speaker, pursuant to House Resolution 900, I call up the bill (H.R. 4521) to provide for a coordinated Federal research initiative to ensure continued United States leadership in engineering biology, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 900, in lieu of the amendment in the nature of a substitute recommended by the Committee on Science, Space, and Technology, printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-31, modified by the amendment printed in part C of House Report 117-241 is adopted and the bill, as amended, is considered read.

The text of the bill, as amended, is as follows:

H.R. 4521

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “America Creating Opportunities for Manufacturing, Pre-Eminence in Technology, and Economic Strength Act of 2022” or the “America COMPETES Act of 2022”.

SEC. 2. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

Sec. 1. Short title.

Sec. 2. Table of contents.

DIVISION A—CREATING HELPFUL INCENTIVES TO PRODUCE SEMICONDUCTORS (CHIPS) FOR AMERICA FUND

Sec. 10001. Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Fund.

Sec. 10002. Semiconductor incentives.

DIVISION B—RESEARCH AND INNOVATION

TITLE I—DEPARTMENT OF ENERGY SCIENCE FOR THE FUTURE

Sec. 10101. Mission of the Office of Science.

Sec. 10102. Basic energy sciences program.

Sec. 10103. Biological and environmental research.

Sec. 10104. Advanced scientific computing research program.

- Sec. 20211. National manufacturing advisory council.
 Sec. 20212. Availability of Travel Promotion Fund for Brand USA.
 Sec. 20213. Collection, verification, and disclosure of information by online marketplaces to inform consumers.

TITLE III—ENERGY

- Sec. 20301. Strategic transformer reserve and resilience program.
 Sec. 20302. Solar component manufacturing supply chain assistance.

TITLE IV—MEDICAL PRODUCT SUPPLY CHAIN IMPROVEMENTS

Subtitle A—Medical Product Innovation, Transparency, and Safety

- Sec. 20401. National Centers of Excellence in Advanced and Continuous Pharmaceutical Manufacturing.
 Sec. 20402. Notification, nondistribution, and recall of drugs.
 Sec. 20403. Reporting requirement for drug manufacturers.
 Sec. 20404. Enhanced penalties for false information and records destruction.

Subtitle B—Strengthening America's Strategic National Stockpile

- Sec. 20411. Reimbursable transfers.
 Sec. 20412. Equipment maintenance.
 Sec. 20413. Supply chain flexibility manufacturing pilot.
 Sec. 20414. GAO study on the feasibility and benefits of a user fee agreement.
 Sec. 20415. Grants for State strategic stockpiles.
 Sec. 20416. Action reporting.
 Sec. 20417. Improved, transparent processes.
 Sec. 20418. Authorization of appropriations.

DIVISION D—COMMITTEE ON FOREIGN AFFAIRS

- Sec. 30000. Short title.
 Sec. 30001. Definitions.
 Sec. 30002. Findings.
 Sec. 30003. Statement of policy.
 Sec. 30004. Sense of Congress.
 Sec. 30005. Rules of construction.

TITLE I—INVESTING IN AMERICAN COMPETITIVENESS

Subtitle A—Science and Technology

- Sec. 30101. Authorization to assist United States companies with global supply chain diversification and management.
 Sec. 30102. Report on national technology and industrial base.

Subtitle B—Global Infrastructure and Energy Development

- Sec. 30111. Appropriate committees of Congress defined.
 Sec. 30112. Sense of Congress on international quality infrastructure investment standards.
 Sec. 30113. Supporting economic independence from the People's Republic of China.
 Sec. 30114. Strategy for advanced and reliable energy infrastructure.
 Sec. 30115. Report on the People's Republic of China's investments in foreign energy development.

Subtitle C—Economic Diplomacy and Leadership

- Sec. 30121. Findings on regional economic order.
 Sec. 30122. Report on entrenching American economic diplomacy in the Indo-Pacific.
 Sec. 30123. Sense of Congress on the need to bolster American leadership in the Asia Pacific Economic Cooperation.
 Sec. 30124. Strategy on deterrence of economic coercion.
 Sec. 30125. Sense of Congress on digital technology issues.
 Sec. 30126. Digital dialogue and cooperation.
 Sec. 30127. Digital connectivity and cybersecurity partnership.
 Sec. 30128. Sense of Congress on ideological competition.

Subtitle D—Financial Diplomacy and Leadership

- Sec. 30131. Findings on Chinese financial industrial policy.
 Sec. 30132. Report on importance of American financial strength for global leadership.

- Sec. 30133. Review of Chinese companies on United States capital markets.

- Sec. 30134. Report on the implications of changes to cross-border payment and financial messaging systems.

TITLE II—INVESTING IN ALLIANCES AND PARTNERSHIPS

Subtitle A—Strategic and Diplomatic Matters

- Sec. 30201. Appropriate committees of Congress defined.
 Sec. 30202. United States commitment and support for allies and partners in the Indo-Pacific.
 Sec. 30203. Boosting Quad cooperation.
 Sec. 30204. Establishment of Quad Intra-Parliamentary Working Group.
 Sec. 30205. Statement of policy on cooperation with ASEAN.
 Sec. 30206. Young Southeast Asian Leaders Initiative.
 Sec. 30207. Sense of Congress on engagement with G7 and G20 countries.
 Sec. 30208. Enhancing the United States-Taiwan partnership.
 Sec. 30209. Taiwan diplomatic review.
 Sec. 30210. Taiwan Peace and Stability Act.
 Sec. 30211. Taiwan International Solidarity Act.

- Sec. 30212. Taiwan Fellowship Program.
 Sec. 30213. Increasing Department of State personnel and resources devoted to the Indo-Pacific.

- Sec. 30214. Report on bilateral efforts to address Chinese fentanyl trafficking.
 Sec. 30215. Facilitation of increased equity investments under the Better Utilization of Investments Leading to Development Act of 2018.

- Sec. 30216. Expanding investment by United States International Development Finance Corporation for vaccine manufacturing.

- Sec. 30217. Ensuring United States diplomatic posts align with American strategic national security and economic objectives.

- Sec. 30218. Authorization of appropriations for the Fulbright-Hays Program.

- Sec. 30219. Supporting independent media and countering disinformation.

- Sec. 30219A. Global Engagement Center.

- Sec. 30219B. Report on origins of the COVID-19 pandemic.

- Sec. 30219C. Extension of Asia Reassurance Initiative Act of 2018.

- Sec. 30219D. China Watcher Program.

- Sec. 30219E. Liu Xiaobo Fund for Study of the Chinese Language.

- Sec. 30219F. Oversight of funds made available through the American Rescue Plan Act of 2021.

- Sec. 30219G. Requirements relating to vaccine branding.

Subtitle B—International Security Matters

- Sec. 30221. Appropriate committees of Congress.
 Sec. 30222. Additional funding for international military education and training in the Indo-Pacific.

- Sec. 30223. Statement of policy on maritime freedom of operations in international waterways and airspace of the Indo-Pacific and on artificial land features in the South China Sea.

- Sec. 30224. Report on capability development of Indo-Pacific allies and partners.

- Sec. 30225. Statement of policy regarding the threat posed by the Chinese Communist Party to the North Atlantic Treaty Organization.

- Sec. 30226. Identification of PLA-supported institutions.

Subtitle C—Multilateral Strategies to Bolster American Power

- Sec. 30231. Findings on multilateral engagement.

- Sec. 30232. *Statement of policy on America's multilateral engagement.*
- Sec. 30233. *Support for Americans at the United Nations.*
- Sec. 30234. *Junior professional officers.*
- Sec. 30235. *Report on American employment in international organizations.*

Subtitle D—Regional Strategies to Bolster American Power

- Sec. 30241. *Statement of policy on cooperation with allies and partners around the world.*

PART 1—WESTERN HEMISPHERE

- Sec. 30242. *Sense of Congress regarding United States-Canada relations.*
- Sec. 30243. *Sense of Congress regarding China's arbitrary imprisonment of Canadian citizens.*
- Sec. 30244. *Strategy to enhance cooperation with Canada.*
- Sec. 30245. *Strategy to strengthen economic competitiveness, governance, human rights, and the rule of law in Latin America and the Caribbean.*
- Sec. 30246. *Engagement in international organizations and the defense sector in Latin America and the Caribbean.*
- Sec. 30247. *Defense cooperation in Latin America and the Caribbean.*
- Sec. 30248. *Engagement with civil society in Latin America and the Caribbean regarding accountability, human rights, and the risks of pervasive surveillance technologies.*
- Sec. 30249. *Caribbean energy initiative as alternative to China's Belt and Road Initiative.*
- Sec. 30250. *United States-Caribbean Resilience Partnership.*
- Sec. 30251. *Countering China's educational and cultural diplomacy in Latin America.*
- Sec. 30252. *Narcotics trafficking in Latin America and the Caribbean.*

PART 2—TRANSATLANTIC RELATIONSHIPS

- Sec. 30255. *Sense of Congress on transatlantic relationships.*
- Sec. 30256. *Strategy to enhance transatlantic cooperation with respect to the People's Republic of China.*
- Sec. 30257. *Enhancing transatlantic cooperation on promoting private sector finance.*
- Sec. 30258. *Report and briefing on cooperation between China and Iran and between China and Russia.*

PART 3—SOUTH AND CENTRAL ASIA

- Sec. 30261. *Sense of Congress on South and Central Asia.*
- Sec. 30262. *Strategy to enhance cooperation with South and Central Asia.*
- Sec. 30263. *Indian Ocean region strategic review.*

PART 4—AFRICA

- Sec. 30271. *Assessment of political, economic, and security activity of the People's Republic of China in Africa.*
- Sec. 30272. *Increasing the competitiveness of the United States in Africa.*
- Sec. 30273. *Digital security cooperation with respect to Africa.*
- Sec. 30274. *Support for Young African Leaders Initiative.*
- Sec. 30275. *Africa broadcasting networks.*
- Sec. 30276. *Africa energy security and diversification.*

PART 5—MIDDLE EAST AND NORTH AFRICA

- Sec. 30281. *Strategy to counter Chinese influence in, and access to, the Middle East and North Africa.*
- Sec. 30282. *Sense of Congress on Middle East and North Africa engagement.*
- Sec. 30283. *Sense of Congress on People's Republic of China-Iran relationship.*

PART 6—ARCTIC REGION

- Sec. 30285. *Arctic diplomacy.*
- Sec. 30286. *Statement of policy regarding observer status for Taiwan on the Arctic Council.*

PART 7—OCEANIA

- Sec. 30291. *Statement of policy on United States engagement in Oceania.*
- Sec. 30292. *Oceania strategic roadmap.*
- Sec. 30293. *Oceania Security Dialogue.*
- Sec. 30294. *Oceania Peace Corps partnerships.*

PART 8—PACIFIC ISLANDS

- Sec. 30295. *Short title.*
- Sec. 30296. *Findings.*
- Sec. 30297. *Statement of policy.*
- Sec. 30298. *Definition.*
- Sec. 30299. *Authority to consolidate reports; form of reports.*
- Sec. 30299A. *Diplomatic presence in the Pacific Islands.*
- Sec. 30299B. *Coordination with regional allies and partners.*
- Sec. 30299C. *Climate resilient development in the Pacific Islands.*
- Sec. 30299D. *International law enforcement academy for the Pacific Islands.*
- Sec. 30299E. *Security assistance for the Pacific Islands.*
- Sec. 30299F. *Countering transnational crime.*
- Sec. 30299G. *Emergency preparedness initiative for the Pacific Islands.*
- Sec. 30299H. *Peace Corps in the Pacific Islands.*

TITLE III—INVESTING IN OUR VALUES

- Sec. 30301. *Sense of Congress on the continued violation of rights and freedoms of the people of Hong Kong.*
- Sec. 30302. *Authorization of appropriations for promotion of democracy in Hong Kong.*
- Sec. 30303. *Hong Kong people's freedom and choice.*
- Sec. 30304. *Export prohibition of munitions items to the Hong Kong police force.*
- Sec. 30305. *Sense of Congress on treatment of Uyghurs and other ethnic minorities in the Xinjiang Uyghur Autonomous Region.*
- Sec. 30306. *Uyghur human rights protection.*
- Sec. 30307. *Removal of members of the United Nations Human Rights Council that commit human rights abuses.*
- Sec. 30308. *Policy with respect to Tibet.*
- Sec. 30309. *United States policy and international engagement on the succession or reincarnation of the Dalai Lama and religious freedom of Tibetan Buddhists.*
- Sec. 30310. *Development and deployment of internet freedom and Great Firewall circumvention tools for the people of Hong Kong.*
- Sec. 30311. *Authorization of appropriations for protecting human rights in the People's Republic of China.*
- Sec. 30312. *Modifications to and reauthorization of sanctions with respect to human rights violations.*
- Sec. 30313. *Sense of Congress condemning anti-Asian racism and discrimination.*
- Sec. 30314. *Annual reporting on censorship of free speech with respect to international abuses of human rights.*
- Sec. 30315. *Policy toward the XXIV Olympic Winter Games and the XIII Paralympic Winter Games.*
- Sec. 30316. *Review and controls on export of items with critical capabilities to enable human rights abuses.*
- Sec. 30317. *Sense of Congress on commercial export control policy.*
- Sec. 30318. *Imposition of sanctions with respect to systematic rape, coercive abortion, forced sterilization, or involuntary contraceptive implantation in the Xinjiang Uyghur Autonomous Region.*

- Sec. 30319. *Sense of Congress regarding censorship of political speech.*

- Sec. 30320. *Report on manner and extent to which the Government of China exploits Hong Kong to circumvent United States laws and protections.*

- Sec. 30321. *Sense of Congress regarding annual Country Reports on Human Rights Practices.*

- Sec. 30322. *Sense of Congress regarding press freedom in the People's Republic of China.*

- Sec. 30323. *United States Special Envoy for Xinjiang Province.*

- Sec. 30324. *China Censorship Monitor and Action Group.*

- Sec. 30325. *Public disclosure on BIS licensing information.*

TITLE IV—INVESTING IN OUR ECONOMIC STATECRAFT

- Sec. 30401. *Sense of Congress regarding the People's Republic of China's industrial policy.*

- Sec. 30402. *Economic defense response teams.*

- Sec. 30403. *Countering overseas kleptocracy.*

- Sec. 30404. *Annual report on Chinese surveillance companies.*

TITLE V—ENSURING STRATEGIC SECURITY

- Sec. 30501. *Cooperation on a strategic nuclear dialogue.*

- Sec. 30502. *Report on United States efforts to engage the People's Republic of China on nuclear issues and ballistic missile issues.*

- Sec. 30503. *Countering the People's Republic of China's proliferation of ballistic missiles and nuclear technology to the Middle East.*

TITLE VI—INVESTING IN A SUSTAINABLE FUTURE

- Sec. 30601. *Ensuring national security and economic priorities with the People's Republic of China and other countries account for environmental issues and climate change.*

- Sec. 30602. *Enhancing security considerations for global climate disruptions.*

- Sec. 30603. *Balancing accountability and cooperation with China.*

- Sec. 30604. *Promoting responsible development alternatives to the People's Republic of China's Belt and Road Initiative.*

- Sec. 30605. *Using climate diplomacy to better serve national security and economic interests.*

- Sec. 30606. *Driving a global climate change resilience strategy.*

- Sec. 30607. *Addressing international climate change mitigation, adaptation, and security.*

- Sec. 30608. *Reducing the negative impacts from black carbon, methane, and high-GWP hydrofluorocarbons.*

- Sec. 30609. *Building United States economic growth and technological innovation through the Green Climate Fund.*

- Sec. 30610. *Ensuring a whole-of-government response to climate action.*

- Sec. 30611. *Working with international partners to reduce deforestation.*

- Sec. 30612. *Controlling the export of electronic waste to protect United States supply chains.*

DIVISION E—COMMITTEE ON OVERSIGHT AND REFORM

- Sec. 40101. *Federal Rotational Cyber Workforce Program.*

- Sec. 40102. *AI in counterterrorism oversight enhancement.*

DIVISION F—COMMITTEE ON HOMELAND SECURITY

- Sec. 50101. *Homeland procurement reform.*

Sec. 50102. DHS software supply chain risk management.

Sec. 50103. Department of Homeland Security Mentor-Protégé Program.

Sec. 50104. Unmanned aerial security.

DIVISION G—COMMITTEE ON FINANCIAL SERVICES

TITLE I—U.S. POLICY ON WORLD BANK GROUP AND ASIAN DEVELOPMENT BANK LOANS TO CHINA

Sec. 60101. U.S. policy on World Bank Group and Asian Development Bank Loans to China.

TITLE II—PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS

Sec. 60201. Findings.

Sec. 60202. Prohibitions or conditions on certain transmittals of funds.

TITLE III—U.S. STOCK EXCHANGE TRADING PROHIBITION FOR 2 CONSECUTIVE AUDITOR NON-INSPECTION YEARS

Sec. 60301. Trading prohibition for 2 consecutive non-inspection years.

TITLE IV—COMBATING WILDLIFE TRAFFICKING FINANCING AND PROCEEDS STUDY ACT

Sec. 60401. Findings.

Sec. 60402. Study.

TITLE V—STUDY ON CHINESE SUPPORT FOR AFGHAN ILLICIT FINANCE

Sec. 60501. Study on Chinese support for Afghan illicit finance.

TITLE VI—U.S. POLICY ON MULTILATERAL DEVELOPMENT BANK CO-FINANCING ARRANGEMENTS WITH CHINA'S INFRASTRUCTURE BANK

Sec. 60601. U.S. policy on co-financing arrangements at the multilateral development banks.

TITLE VII—CHINA FINANCIAL THREAT MITIGATION

Sec. 60701. China financial threat mitigation.

TITLE VIII—SUPPORT FOR DEBT RELIEF FOR DEVELOPING COUNTRIES

Sec. 60801. Support for international initiatives to provide debt relief to developing countries with unsustainable levels of debt.

TITLE IX—SECURING AMERICA'S VACCINES FOR EMERGENCIES

Sec. 60901. Short title.

Sec. 60902. Securing essential medical materials.

Sec. 60903. Investment in supply chain security.

TITLE X—COVID-19 EMERGENCY MEDICAL SUPPLIES ENHANCEMENT

Sec. 61001. Short title.

Sec. 61002. Determination on emergency supplies and other public health emergencies.

Sec. 61003. Exercise of title I authorities in relation to contracts by State, local, or Tribal governments.

Sec. 61004. Engagement with the private sector.

Sec. 61005. Enhancement of supply chain production.

Sec. 61006. Enhanced reporting during COVID-19 emergency.

Sec. 61007. Report on activities involving small business.

Sec. 61008. Definitions.

DIVISION H—COMMITTEE ON NATURAL RESOURCES

TITLE I—ILLEGAL FISHING AND FORCED LABOR PREVENTION

Sec. 70101. Definitions.

Sec. 70102. Authorization of appropriations.

Subtitle A—Combating Human Trafficking Through Seafood Import Monitoring

Sec. 70111. Definitions.

Sec. 70112. Expansion of Seafood Import Monitoring Program to all species.

Sec. 70113. Enhancement of Seafood Import Monitoring Program Automated Commercial Environment Message Set.

Sec. 70114. Additional data requirements for Seafood Import Monitoring Program data collection.

Sec. 70115. Import audits.

Sec. 70116. Availability of fisheries information.

Sec. 70117. Authority to hold fish products.

Sec. 70118. Report on seafood import monitoring.

Sec. 70119. Authorization of appropriations.

Subtitle B—Strengthening International Fisheries Management to Combat Human Trafficking

Sec. 70121. Denial of port privileges.

Sec. 70122. Identification and certification criteria.

Sec. 70123. Illegal, unreported, or unregulated fishing defined.

Sec. 70124. Equivalent conservation measures.

Sec. 70125. Regulations.

Subtitle C—Maritime Awareness

Sec. 70131. Automatic identification system requirements.

TITLE II—DRIFTNET MODERNIZATION AND BYCATCH REDUCTION

Sec. 70201. Definition.

Sec. 70202. Findings and policy.

Sec. 70203. Transition program.

Sec. 70204. Exception.

Sec. 70205. Fees.

TITLE III—MARINE MAMMAL RESEARCH AND RESPONSE

Sec. 70301. Data collection and dissemination.

Sec. 70302. Stranding or entanglement response agreements.

Sec. 70303. Unusual mortality event activity funding.

Sec. 70304. Liability.

Sec. 70305. National Marine Mammal Tissue Bank and tissue analysis.

Sec. 70306. Marine Mammal Rescue and Response Grant Program and Rapid Response Fund.

Sec. 70307. Health MAP.

Sec. 70308. Reports to Congress.

Sec. 70309. Authorization of appropriations.

Sec. 70310. Definitions.

Sec. 70311. Study on marine mammal mortality.

TITLE IV—REAUTHORIZATION OF CORAL REEF CONSERVATION ACT OF 2000

Sec. 70401. Reauthorization of Coral Reef Conservation Act of 2000.

Sec. 70402. Modification to section 204 of the Coral Reef Conservation Act of 2000.

TITLE V—UNITED STATES CORAL REEF TASK FORCE

Sec. 70501. Establishment.

Sec. 70502. Duties.

Sec. 70503. Membership.

Sec. 70504. Responsibilities of Federal agency members.

Sec. 70505. Working groups.

Sec. 70506. Definitions.

TITLE VI—DEPARTMENT OF THE INTERIOR CORAL REEF AUTHORITIES

Sec. 70601. Coral reef conservation and restoration assistance.

TITLE VII—SUSAN L. WILLIAMS NATIONAL CORAL REEF MANAGEMENT FELLOWSHIP

Sec. 70701. Definitions.

Sec. 70702. Establishment of fellowship program.

Sec. 70703. Fellowship awards.

Sec. 70704. Authorization of appropriations.

TITLE VIII—BUY AMERICAN SEAFOOD

Sec. 70801. Sense of Congress.

Sec. 70802. Caught in the USA.

TITLE IX—INSULAR AFFAIRS

Sec. 70901. Ocean and Coastal Mapping Integration Act.

TITLE X—STUDIES AND REPORTS

Sec. 71001. Deep sea mining.

Sec. 71002. National Academies assessment of oceanic blue carbon.

TITLE XI—MISCELLANEOUS

Sec. 71101. Law enforcement attache deployment.

Sec. 71102. Lacey Act amendments.

Sec. 71103. Shark fin sales elimination.

DIVISION I—COMMITTEE ON THE JUDICIARY

TITLE I—SUBCOMMITTEE ON COURTS, INTELLECTUAL PROPERTY, AND THE INTERNET

Sec. 80101. Basic Research.

Sec. 80102. Collection of demographic information for patent inventors.

Sec. 80103. Stopping harmful offers on platforms by screening against fakes in e-commerce.

TITLE II—SUBCOMMITTEE ON ANTITRUST, COMMERCIAL AND ADMINISTRATIVE LAW

Sec. 80201. Premerger notification filing fees.

Sec. 80202. Authorization of appropriations.

TITLE III—IMMIGRATION PROVISIONS

Sec. 80301. W visas.

Sec. 80302. Start-up entities; nonimmigrant entrepreneurs and employees.

Sec. 80303. Doctoral stem graduates.

Sec. 80304. Conforming amendments.

Sec. 80305. Rulemaking.

DIVISION J—COMMITTEE ON EDUCATION AND LABOR

TITLE I—NATIONAL APPRENTICESHIP ACT OF 2022

Sec. 90101. Short title.

Sec. 90102. Effective date.

Sec. 90103. Amendment.

Sec. 90104. Conforming amendments.

TITLE II—ELEMENTARY AND SECONDARY EDUCATION

Sec. 90201. Postsecondary stem pathways grants.

Sec. 90202. Improving access to elementary and secondary computer science education.

TITLE III—HIGHER EDUCATION

Sec. 90301. Reauthorization of international education programs under title VI of the Higher Education Act of 1965.

Sec. 90302. Confucius Institutes.

Sec. 90303. Sustaining the Truman Foundation and the Madison Foundation.

Sec. 90304. Disclosures of foreign gifts and contracts at institutions of higher education.

TITLE IV—IMPACT ACT

Sec. 90401. Telecommunications workforce training grant program.

DIVISION K—MATTERS RELATING TO TRADE

Sec. 100001. Short title.

TITLE I—TRADE ADJUSTMENT ASSISTANCE

Sec. 101001. Short title.

Sec. 101002. Application of provisions relating to trade adjustment assistance.

Subtitle A—Trade Adjustment Assistance for Workers

Sec. 101101. Filing petitions.

Sec. 101102. Group eligibility requirements.

Sec. 101103. Application of determinations of eligibility to workers employed by successors-in-interest.

Sec. 101104. Provision of benefit information to workers.

Sec. 101105. Qualifying requirements for workers.

Sec. 101106. Modification to trade readjustment allowances.

- Sec. 101107. Automatic extension of trade readjustment allowances.
 Sec. 101108. Employment and case management services.
 Sec. 101109. Training.
 Sec. 101110. Job search, relocation, and child care allowances.
 Sec. 101111. Agreements with States.
 Sec. 101112. Reemployment trade adjustment assistance program.
 Sec. 101113. Extension of trade adjustment assistance to public agency workers.
 Sec. 101114. Definitions.
 Sec. 101115. Subpoena power.

Subtitle B—Trade Adjustment Assistance for Firms

- Sec. 101201. Petitions and determinations.
 Sec. 101202. Approval of adjustment proposals.
 Sec. 101203. Technical assistance.
 Sec. 101204. Definitions.
 Sec. 101205. Plan for sustained outreach to potentially-eligible firms.

Subtitle C—Trade Adjustment Assistance for Communities and Community Colleges

- Sec. 101301. Trade adjustment assistance for communities.
 Sec. 101302. Trade adjustment assistance for community colleges and career training.

Subtitle D—Trade Adjustment Assistance for Farmers

- Sec. 101401. Definitions.
 Sec. 101402. Group eligibility requirements.
 Sec. 101403. Benefit information to agricultural commodity producers.
 Sec. 101404. Qualifying requirements and benefits for agricultural commodity producers.

Subtitle E—Authorizations of Appropriations and Other Matters

- Sec. 101501. Extension of trade adjustment assistance program.
 Sec. 101502. Applicability of trade adjustment assistance provisions.

Subtitle F—Health Care Tax Credit

- Sec. 101601. Permanent credit for health insurance costs.

TITLE II—IMPROVEMENTS TO TRADE REMEDIES LAWS

Subtitle A—Successive Investigations

- Sec. 102001. Establishment of special rules for determination of material injury in the case of successive antidumping and countervailing duty investigations.
 Sec. 102002. Initiation of successive antidumping and countervailing duty investigations.
 Sec. 102003. Issuance of determinations with respect to successive antidumping and countervailing duty investigations.

Subtitle B—Responding to Market Distortions

- Sec. 102101. Addressing cross-border subsidies in countervailing duty investigations.
 Sec. 102102. Modification of definition of ordinary course of trade to specify that an insufficient quantity of foreign like products constitutes a situation outside the ordinary course of trade.
 Sec. 102103. Modification of adjustments to export price and constructed export price with respect to duty drawback.
 Sec. 102104. Modification of determination of constructed value to include distortions of costs that occur in foreign countries.
 Sec. 102105. Special rules for calculation of cost of production and constructed value to address distorted costs.

Subtitle C—Preventing Circumvention

- Sec. 102201. Modification of requirements in circumvention inquiries.

- Sec. 102202. Requirement of provision by importer of certification by importer or other party.
 Sec. 102203. Clarification of authority for Department of Commerce regarding determinations of class or kind of merchandise.
 Sec. 102204. Asset requirements applicable to nonresident importers.

Subtitle D—Countering Currency Undervaluation

- Sec. 102301. Investigation or review of currency undervaluation under countervailing duty law.
 Sec. 102302. Determination of benefit with respect to currency undervaluation.

Subtitle E—Preventing Duty Evasion

- Sec. 102401. Limitation on protest against decisions of U.S. Customs and Border Protection of claims of evasion of antidumping and countervailing duty orders.
 Sec. 102402. Procedures for investigating claims of evasion of safeguard actions.
 Sec. 102403. Application of provisions relating to certain proprietary information.

Subtitle F—General Provisions

- Sec. 102501. Application to Canada and Mexico.
 Sec. 102502. Repeal of the Softwood Lumber Act of 2008.
 Sec. 102503. Repeal of enforcement actions relating to cheese subject to an in-quota rate of duty.
 Sec. 102504. Effective date.

TITLE III—IMPORT SECURITY AND FAIRNESS ACT

- Sec. 103001. Short title.
 Sec. 103002. Additional exceptions to exemptions for de minimis treatment under the Tariff Act of 1930.
 Sec. 103003. Additional administrative provisions relating to de minimis treatment under the Tariff Act of 1930.
 Sec. 103004. Effective date.

TITLE IV—NATIONAL CRITICAL CAPABILITIES REVIEWS

- Sec. 104001. National critical capabilities reviews.

TITLE V—MODIFICATION AND EXTENSION OF GENERALIZED SYSTEM OF PREFERENCES

- Sec. 105001. Modification and extension of Generalized System of Preferences.
 Sec. 105002. United States International Trade Commission study.

TITLE VI—REAUTHORIZATION OF THE AMERICAN MANUFACTURING COMPETITIVENESS ACT OF 2016 AND OTHER MATTERS

- Sec. 106001. Reauthorization of american manufacturing competitiveness act of 2016.
 Sec. 106002. Limitation on duty suspensions or reductions for finished goods.
 Sec. 106003. Sense of Congress on United States commitment to the World Trade Organization.
 Sec. 106004. Authority of U.S. Customs and Border Protection to consolidate, modify, or reorganize Customs revenue functions.

TITLE VII—TEMPORARY DUTY SUSPENSIONS AND REDUCTIONS

- Sec. 107001. Reference.

Subtitle A—New Duty Suspensions and Reductions

- Sec. 107101. Shelled pine nuts.
 Sec. 107102. Licorice extract.
 Sec. 107103. Refined Carrageenan.
 Sec. 107104. Irish dairy chocolate crumb.
 Sec. 107105. Pepperoncini, preserved in vinegar.
 Sec. 107106. Coconut water in PET bottles.

- Sec. 107107. 9,11-Octadecadienoic acid.
 Sec. 107108. Liquid galacto-oligosaccharides.
 Sec. 107109. Beverage containing coconut water.
 Sec. 107110. Animal feed additive containing guanidinoacetic acid.
 Sec. 107111. Tungsten concentrate.
 Sec. 107112. Piperylene.
 Sec. 107113. Normal paraffin M (alkanes C10–C14).
 Sec. 107114. Neodymium (Nd) metal.
 Sec. 107115. Praseodymium (Pr) metal.
 Sec. 107116. Heavy rare earth metals, dysprosium (Dy) metal and terbium (Tb) metal.
 Sec. 107117. Scandium crystal.
 Sec. 107118. Hexafluorotitanic acid.
 Sec. 107119. Silica gel cat litter with tray.
 Sec. 107120. Dioxosilane spherical particles (mean particle size 0.046–0.054 mm).
 Sec. 107121. Silica gel cat litter.
 Sec. 107122. Sulfuryl dichloride.
 Sec. 107123. FS-10D acicular electroconductive tin oxide.
 Sec. 107124. Certain potassium fluoride.
 Sec. 107125. Other potassium fluoride.
 Sec. 107126. LiPF₆.
 Sec. 107127. LiPO₂F₂.
 Sec. 107128. Ammonium fluoroborate.
 Sec. 107129. Sodium tetrafluoroborate.
 Sec. 107130. Ferric chloride.
 Sec. 107131. Ferrous chloride.
 Sec. 107132. Cupric chloride dihydrate.
 Sec. 107133. Copper chloride anhydrous.
 Sec. 107134. Manganese chloride anhydrous.
 Sec. 107135. Manganese chloride tetrahydrate.
 Sec. 107136. Reducing agent.
 Sec. 107137. Manganese carbonate.
 Sec. 107138. Potassium tetraborate.
 Sec. 107139. Potassium pentaborate.
 Sec. 107140. Ammonium thiocyanate.
 Sec. 107141. Modified amine complex of boron trifluoride.
 Sec. 107142. Trichlorosilane.
 Sec. 107143. 1,3-Dichloropropene.
 Sec. 107144. Hexafluoroisobutylene (HFIB).
 Sec. 107145. 1,1,1,2,2,3,3,4,4,5,5,6,6-Tridecafluoro-8-iodooctane.
 Sec. 107146. Ethyl benzyl chloride.
 Sec. 107147. Perfluoroalkyl sulfonate.
 Sec. 107148. D-Mannitol.
 Sec. 107149. 3,3,4,4,5,5,6,6,7,7,8,8,8-Tridecafluorooctan-1-ol.
 Sec. 107150. Phenyl isopropanol.
 Sec. 107151. Hydroxytyrosol.
 Sec. 107152. 1,6-Dihydroxynaphthalene.
 Sec. 107153. Antioxidant for plastics and rubber.
 Sec. 107154. Toluhydroquinone (THQ).
 Sec. 107155. 1,1,1-Tris(4-hydroxyphenyl)ethane.
 Sec. 107156. mPEG6-mesylate.
 Sec. 107157. Monoethylene glycol dimethyl ether.
 Sec. 107158. Diethylene glycol dimethyl ether.
 Sec. 107159. Diethylene glycol dibutyl ether.
 Sec. 107160. Tetraethylene glycol dimethyl ether.
 Sec. 107161. Glycol diether.
 Sec. 107162. Diglycidyl resorcinol ether.
 Sec. 107163. Allyl glycidyl ether.
 Sec. 107164. Vinylcyclohexane monoxide.
 Sec. 107165. Technical grade of butyl glycidyl ether.
 Sec. 107166. Aliphatic glycidyl ether.
 Sec. 107167. Diglycidyl ether of 1,4-butanediol.
 Sec. 107168. Technical grade of the glycidyl ether of cyclohexane dimethanol.
 Sec. 107169. Glycidyl ester of neodecanoic acid.
 Sec. 107170. Cumaldehyde.
 Sec. 107171. Cyprinal.
 Sec. 107172. Sodium o-formylbenzenesulfonate.
 Sec. 107173. Acetylacetone.
 Sec. 107174. Acetyl propionyl.
 Sec. 107175. Alpha ionone.
 Sec. 107176. 2,3,4,5-Tetramethylcyclopent-2-enone.
 Sec. 107177. Menthone.

- Sec. 107178. L-Carvone.
 Sec. 107179. Benzoin.
 Sec. 107180. Methyl cyclopentenolone.
 Sec. 107181. 2,4-Dihydroxy-1,5-dibenzoylbenzene.
 Sec. 107182. Difluorobenzophenone (DFBP).
 Sec. 107183. PTMI.
 Sec. 107184. Metrafenone.
 Sec. 107185. Hexachloracetone.
 Sec. 107186. Fire suppression agent.
 Sec. 107187. D(+)-10-Camphor sulfonic acid.
 Sec. 107188. Benzyl acetate.
 Sec. 107189. Propylene glycol diacetate.
 Sec. 107190. Isopropenyl acetate.
 Sec. 107191. Diacetin.
 Sec. 107192. Cocoamine.
 Sec. 107193. Caprylic acid 98%.
 Sec. 107194. Fine zinc myristate powder.
 Sec. 107195. Fine magnesium myristate powder.
 Sec. 107196. Dipentaerythrityl hexahydroxystearate/hexastearate/hexarosinate.
 Sec. 107197. Polyglyceryl-2 triisostearate.
 Sec. 107198. Neopentyl glycol diethylhexanoate.
 Sec. 107199. Isononyl isononate.
 Sec. 107200. Acetyl chloride.
 Sec. 107201. Potassium sorbate.
 Sec. 107202. Vinyl chloroformate.
 Sec. 107203. Permethrin.
 Sec. 107204. Sodium benzoate.
 Sec. 107205. Benzoic acid, flake.
 Sec. 107206. Diethylene glycol dibenzoate.
 Sec. 107207. Methyl benzoate.
 Sec. 107208. M-Nitrobenzoic acid sodium salt.
 Sec. 107209. p-Nitrobenzoic acid.
 Sec. 107210. 4-tert Butylbenzoic acid.
 Sec. 107211. Sodium adipate.
 Sec. 107212. Dimethyl sebacate (DMS).
 Sec. 107213. Dodecanedioic acid.
 Sec. 107214. Polyhydroxystearic acid of low acid value.
 Sec. 107215. Undecanedioic acid.
 Sec. 107216. Hexadecanedioic acid.
 Sec. 107217. Tetradecanedioic acid.
 Sec. 107218. Pentadecanedioic acid.
 Sec. 107219. Tridecanedioic acid.
 Sec. 107220. Methyl 1-(methoxycarbonyl)cyclopropanecarboxylate (CPDM).
 Sec. 107221. Calcium HHPA.
 Sec. 107222. Diethyl phthalate.
 Sec. 107223. Ammonium lactate.
 Sec. 107224. Triethyl 2-hydroxypropane-1,2,3-tricarboxylate.
 Sec. 107225. Diisostearyl malate.
 Sec. 107226. Salicylic acid.
 Sec. 107227. Hexyl salicylate.
 Sec. 107228. Alpha-ketoglutaric acid.
 Sec. 107229. MCPB herbicide.
 Sec. 107230. 2,4-D Butoxyethylester.
 Sec. 107231. 2-(2,4-Dichlorophenoxy)acetic acid.
 Sec. 107232. Diglycolic acid 98%.
 Sec. 107233. Tri-iso-butyl phosphate (TiBP).
 Sec. 107234. Trimethylphosphite.
 Sec. 107235. Organic phosphite.
 Sec. 107236. Diethyl sulfate.
 Sec. 107237. Diethyl carbonate.
 Sec. 107238. Ethyl methyl carbonate.
 Sec. 107239. Tetradecoxycarbonyloxy tetradecyl carbonate.
 Sec. 107240. Dicetyl peroxydicarbonate.
 Sec. 107241. Tetraethyl silicate.
 Sec. 107242. tert-Octylamine.
 Sec. 107243. Octadecylamine.
 Sec. 107244. N'-(3-Aminopropyl)-N'-dodecylpropane-1,3-diamine.
 Sec. 107245. 1,10-Diaminododecane.
 Sec. 107246. 1,5-Pentanediamine.
 Sec. 107247. Dicyclohexylamine.
 Sec. 107248. Amantadine hydrochloride 99%.
 Sec. 107249. N,N-Dimethylaniline.
 Sec. 107250. Paranitroaniline (PNA).
 Sec. 107251. Dicloran.
 Sec. 107252. N,N-Dimethyl-p-toluidine.
 Sec. 107253. Pendimethalin technical.
 Sec. 107254. Benzyl dimethylamine.
 Sec. 107255. Diphenyl diphenylene diamine.
 Sec. 107256. Curative for epoxy resin systems.
 Sec. 107257. TFMB.
 Sec. 107258. S-N-Alkyl-anilin.
 Sec. 107259. p-Cresidine.
 Sec. 107260. Iminodiacetic acid.
 Sec. 107261. 11 Aminoundecanoic acid.
 Sec. 107262. L-Ornithine L-aspartate.
 Sec. 107263. Iron sodium DTPA.
 Sec. 107264. Iron glycinate complex.
 Sec. 107265. Copper glycinate complex.
 Sec. 107266. Zinc glycinate complex.
 Sec. 107267. Manganese glycinate complex.
 Sec. 107268. Iron sodium EDDHA.
 Sec. 107269. DMF-DMA.
 Sec. 107270. Mixtures of DMSO and tetrabutyl ammonium fluoride.
 Sec. 107271. Betaine.
 Sec. 107272. Prolonium chloride in aqueous solution.
 Sec. 107273. N,N-Dimethylacetamide.
 Sec. 107274. N,N-Dimethylformamide.
 Sec. 107275. DAAM.
 Sec. 107276. L-Alanyl L-glutamine.
 Sec. 107277. Granular acrylamido-tert-butyl sulfonic acid (ATBS).
 Sec. 107278. Glycyl-L-glutamine hydrate.
 Sec. 107279. Noviflumuron.
 Sec. 107280. Propanil technical.
 Sec. 107281. Hexaflumuron.
 Sec. 107282. Stabilizer for plastics and rubber.
 Sec. 107283. 2-Amino-5-chloro-N,3-dimethylbenzamide.
 Sec. 107284. Glycyl-L-tyrosine dihydrate.
 Sec. 107285. L-Alanyl-L-tyrosine.
 Sec. 107286. Enzalutamide ITS-2.
 Sec. 107287. 4-Bromo-2-fluoro-N-methylbenzamide.
 Sec. 107288. N-Boc-1-aminocyclobutanecarboxylic acid.
 Sec. 107289. N'-(1,3-dimethylbutylidene)-3-hydroxy-2-naphthohydrazide (BMH) (oil treated).
 Sec. 107290. Guanidine sulfamate.
 Sec. 107291. Liquid, blocked cycloaliphatic diamine used as crosslinker for polyisocyanate resins.
 Sec. 107292. 3,4-Difluorobenzonitrile.
 Sec. 107293. 2-Amino-5-cyano-N,3-dimethylbenzamide.
 Sec. 107294. TFMPA.
 Sec. 107295. Dimethyl 2,2'-Azobisisobutyrate.
 Sec. 107296. Antioxidant/metal deactivator.
 Sec. 107297. Benzyl carbazate.
 Sec. 107298. Benzene-1,3-dicarbohydrazide.
 Sec. 107299. Input for resins, coatings, and other products.
 Sec. 107300. Aldicarb.
 Sec. 107301. Flubendiamide.
 Sec. 107302. Benzobicyclon.
 Sec. 107303. Diphenylsulfone (DPS).
 Sec. 107304. Phenolic antioxidant.
 Sec. 107305. Phenolic antioxidant and heat stabilizer.
 Sec. 107306. Phenylchlorothioformate (PTCFM).
 Sec. 107307. Methylene bis thiocyanate.
 Sec. 107308. Oxamyl.
 Sec. 107309. L-Cystine.
 Sec. 107310. L-Cysteine.
 Sec. 107311. N,N'-Bis-L-alanyl-L-cystine.
 Sec. 107312. Lubricant additive.
 Sec. 107313. Sodium benzenesulfinate.
 Sec. 107314. Thio-ether based co-stabilizer for plastics.
 Sec. 107315. L-Cysteine hydrate hydrochloride.
 Sec. 107316. Dimercaprol.
 Sec. 107317. Monoammonium salt of glyphosate.
 Sec. 107318. THPC.
 Sec. 107319. Flame retardant for textiles.
 Sec. 107320. Glyphosate.
 Sec. 107321. Ethephon.
 Sec. 107322. Benzene phosphinic acid.
 Sec. 107323. HEDP.
 Sec. 107324. Trimethylchlorosilane.
 Sec. 107325. Chloro-(chloromethyl)-dimethylsilane.
 Sec. 107326. Silicone for electronics cleaners.
 Sec. 107327. Silicon carrier fluid for active lotions, creams.
 Sec. 107328. Vinyltrimethoxysilane.
 Sec. 107329. n-Octyltriethoxysilane.
 Sec. 107330. Dimethylbis(s-butylamino)silane.
 Sec. 107331. Aqueous solution of potassium methyl silicate.
 Sec. 107332. Octyltrimethoxysilane.
 Sec. 107333. Octyltriethoxysilane.
 Sec. 107334. Methyltris(sec-butylamino)silane.
 Sec. 107335. Methyltris(methylethylketoximino)silane (MOS).
 Sec. 107336. Heptamethyltrisiloxane.
 Sec. 107337. Tetramethyldisiloxane.
 Sec. 107338. Dimethylchlorosilane.
 Sec. 107339. Dichloromethylsilane.
 Sec. 107340. Tris(TFP)-methylcyclo-trisiloxane DR.
 Sec. 107341. Tetravinyltetramethyl cyclotetrasiloxane.
 Sec. 107342. Divinyltetramethyldisiloxane.
 Sec. 107343. Input for plant protection agent.
 Sec. 107344. Strawberry furanone.
 Sec. 107345. Emamectin benzoate.
 Sec. 107346. Gibberellic acid.
 Sec. 107347. Rose oxide.
 Sec. 107348. Vinylene carbonate.
 Sec. 107349. Kasugamycin technical.
 Sec. 107350. 2H-Cyclododec[b]pyran.
 Sec. 107351. Bixafen.
 Sec. 107352. Fluxapyroxad.
 Sec. 107353. 3,5 Dimethylpyrazole.
 Sec. 107354. Pyraclostrobin.
 Sec. 107355. Imidazolidinyl urea.
 Sec. 107356. Allantoin.
 Sec. 107357. Emulsifiable concentrate of Imazalil fungicide.
 Sec. 107358. Technical cyazofamid fungicide.
 Sec. 107359. Imazalil sulfate.
 Sec. 107360. 1,2-Dimethylimidazole.
 Sec. 107361. 2-Methylimidazole flakes.
 Sec. 107362. Diazolidinyl urea.
 Sec. 107363. 1-(2-Aminoethyl)imidazolidin-2-one (AEEU).
 Sec. 107364. Zinc pyrrithione.
 Sec. 107365. Technical Pyriofenone fungicide.
 Sec. 107366. Picoxystrobin.
 Sec. 107367. Triclopyr BEE.
 Sec. 107368. Imazapyr.
 Sec. 107369. Tetraniliprole.
 Sec. 107370. Cyantraniliprole.
 Sec. 107371. Chlorantraniliprole.
 Sec. 107372. Chlorpyrifos.
 Sec. 107373. Technical Cyclaniliprole insecticide.
 Sec. 107374. Regorafenib.
 Sec. 107375. N-Butyl-TAD.
 Sec. 107376. Hindered amine light stabilizer and phenolic antioxidant.
 Sec. 107377. 4-Hydroxy-TEMPO.
 Sec. 107378. 2,2,6,6-tetramethylpiperidin-4-ol (TMP).
 Sec. 107379. 5-Bromo-2-(3-chloropyridin-2-yl)pyrazole-3-carboxylic acid.
 Sec. 107380. 2-Chloro-5-(trifluoromethyl)pyridine.
 Sec. 107381. Picarbutrol.
 Sec. 107382. 5-amino-3-(trifluoromethyl)picolinonitrile (T3630).
 Sec. 107383. Dextromethorphan hydrobromide.
 Sec. 107384. Ipflufenquin.
 Sec. 107385. THQ.
 Sec. 107386. Pyrrithiobac sodium.
 Sec. 107387. Larotrectinib sulfate.
 Sec. 107388. Ibrutinib.
 Sec. 107389. Orthosulfamuron.
 Sec. 107390. 5-Bromopyrimidine.
 Sec. 107391. Butylthion.
 Sec. 107392. P-1062.
 Sec. 107393. Carfentrazone Technical.
 Sec. 107394. UV absorber 928.
 Sec. 107395. UV absorber for industrial coatings.
 Sec. 107396. Uniconazole-P.
 Sec. 107397. VcMMAE.
 Sec. 107398. UVA 360.
 Sec. 107399. Trofinetide.
 Sec. 107400. Flurazole.
 Sec. 107401. Oxathiapiprolin.
 Sec. 107402. Certain antimicrobial.

- Sec. 107403. Rubber accelerator.
 Sec. 107404. 2-Amino benzothiazole.
 Sec. 107405. Technical Isofetamid fungicide.
 Sec. 107406. Clomazone Technical.
 Sec. 107407. NEM salt.
 Sec. 107408. AMTC wet cake.
 Sec. 107409. Photoinitiator 369.
 Sec. 107410. Isatoic anhydride.
 Sec. 107411. Oclacitinib maleate.
 Sec. 107412. Thien carbazole-methyl.
 Sec. 107413. Penoxsulam technical herbicide.
 Sec. 107414. Ethyl 2-sulfamoylbenzoate.
 Sec. 107415. Sulfosulfuron.
 Sec. 107416. Pyrimisulfan.
 Sec. 107417. Purified steviol glycoside, rebaudioside A.
 Sec. 107418. Glucosylated steviol glycosides.
 Sec. 107419. Hydroxypropyl gamma cyclodextrin.
 Sec. 107420. Hydroxypropylated beta cyclodextrin.
 Sec. 107421. Methyl beta cyclodextrin.
 Sec. 107422. 2'-Fucosyllactose.
 Sec. 107423. Ascorbyl glucoside.
 Sec. 107424. Dimethylamine borane (DMAB).
 Sec. 107425. Elderberry extract concentrate.
 Sec. 107426. Disperse Yellow 241.
 Sec. 107427. Disperse Orange.
 Sec. 107428. Mixtures of Disperse Yellow FD11843 and acetic acid.
 Sec. 107429. Disperse Blue 54.
 Sec. 107430. Mixtures of several disperse dyes.
 Sec. 107431. Mixtures of 4 disperse blue dyes.
 Sec. 107432. Mixtures of 4 dyes.
 Sec. 107433. Disperse Red 86.
 Sec. 107434. Disperse Violet 1.
 Sec. 107435. Disperse Blue 60.
 Sec. 107436. Mixtures of Disperse Orange 29, Disperse Red 167:1, and Disperse Blue 56.
 Sec. 107437. Disperse Yellow 54.
 Sec. 107438. Acid Violet 48.
 Sec. 107439. Acid Blue 280.
 Sec. 107440. Acid Brown 282.
 Sec. 107441. Acid Red 131.

 Sec. 107520. Solvent Orange 115.
 Sec. 107521. Specialty dyes.
 Sec. 107522. Solvent Green 3.
 Sec. 107523. Solvent Blue 36.
 Sec. 107524. Mixtures of Solvent Green 3.
 Sec. 107525. Solvent Red 52.
 Sec. 107526. Solvent Red 149.
 Sec. 107527. Solvent Red 207.
 Sec. 107528. Solvent Violet 14.
 Sec. 107529. Solvent Yellow 179.
 Sec. 107530. Solvent Yellow 131.
 Sec. 107531. Hogen Blue XB-20.
 Sec. 107532. Solvent Yellow 104.
 Sec. 107533. Combination of Fluorescent Brighteners 367 and 371.
 Sec. 107534. Fluorescent Brightener CBS-X.
 Sec. 107535. Optical Brightener SWN.
 Sec. 107536. C.I. Fluorescent Brightener 199:1.
 Sec. 107537. Fluorescent Brightener 368.
 Sec. 107538. 1,4-Bis(2-cyanostyryl)benzene.
 Sec. 107539. Certain manufacturing inputs.
 Sec. 107540. Cerium sulfide pigments.
 Sec. 107541. Matte pearlescent pigments.
 Sec. 107542. Angle-dependent interference pigments.
 Sec. 107543. Inorganic Lumilux.
 Sec. 107544. Ribbon/Matrix Resin.
 Sec. 107545. Bonding agent 2005.
 Sec. 107546. Fluoropolymer resin.
 Sec. 107547. Zirconium 12 paint drier.
 Sec. 107548. Zirconium 24 paint drier.
 Sec. 107549. Drier accelerators.
 Sec. 107550. Lemon oil.
 Sec. 107551. Sulfonic acids, C14-17-sec-alkane, sodium salt.
 Sec. 107552. Potassium ethyl octylphosphonate.
 Sec. 107553. Intermediate in the production of industrial lubricants.
 Sec. 107554. Polyether dispersant.
 Sec. 107555. D-Glucopyranose.
 Sec. 107556. 2-Dodecoxy-6-(hydroxymethyl)oxane-3,4,5-triol.
 Sec. 107557. Mixtures of certain C12-14-alkyl ethers.
 Sec. 107558. Manufacturing chemical.
 Sec. 107559. Nonionic surfactant.
 Sec. 107560. Chemical used in textile manufacturing.
 Sec. 107561. Ethoxylated tristyrilphenol phosphate potassium salt.
 Sec. 107562. Sodium polycarboxylate, aqueous solution.
 Sec. 107563. Aqueous emulsion of a mixture of amine soaps and miscellaneous other additives.
 Sec. 107564. Aqueous dispersion of a mixture of fatty amine and amide soaps and miscellaneous other additives.
 Sec. 107565. Aqueous dispersion of a mixture of fatty amine and amide soaps and miscellaneous other additives.
 Sec. 107566. Photographic gelatin.
 Sec. 107567. Ice fountains (class 1.4G).
 Sec. 107568. Magic candles containing magnesium powder.
 Sec. 107569. Party snappers (Class 1.4G).
 Sec. 107570. Penpyroximate 5SC.
 Sec. 107571. Pyrifluquinazon 20SC.
 Sec. 107572. Imidacloprid and Muscalure formulations.
 Sec. 107573. Formulations of acephate and bifenthrin.
 Sec. 107574. Fipronil.
 Sec. 107575. Aluminum phosphide.
 Sec. 107576. Magnaphos formulations.
 Sec. 107577. Formulated oxamyl.
 Sec. 107578. Formulated fungicides.
 Sec. 107579. Certain fungicides.
 Sec. 107580. Prothioconazole, Flupyrim, and Trifloxystrobin fungicides.
 Sec. 107581. Prothioconazole, Metalaryl, and Tebuconazole fungicides.
 Sec. 107582. Mancozeb and Chlorothalonil formulations.
 Sec. 107583. Mixtures of Picarbutrox and application adjuvants.
 Sec. 107584. Mixtures of Tetraconazole and application adjuvants.
 Sec. 107585. Mancozeb and Azoxystrobin formulations.
 Sec. 107586. Mixtures of Cymoxanil and fumed dioxosilane.
 Sec. 107587. Microthiol formulations.
 Sec. 107588. Formulations of thien carbazole-methyl, Iodosulfuron-methyl-sodium, and dicamba.
 Sec. 107589. Thien carbazole-methyl, Isoxadifenethyl, and Tembotrione herbicides.
 Sec. 107590. Herbicides used on grasses.
 Sec. 107591. Thien carbazole-methyl, Isoxaflutole, and Cyprosulfamide herbicides.
 Sec. 107592. Thien carbazole-methyl and Iodosulfuron-methylsodium herbicides.
 Sec. 107593. Thien carbazole-methyl and Mefenpyr-diethyl herbicides.
 Sec. 107594. Thifensulfuron-methyl and Tribenuron-methyl formulations.
 Sec. 107595. Tribenuron-methyl formulations.
 Sec. 107596. Chlorsulfuron and metsulfuron-methyl formulations.
 Sec. 107597. Thifensulfuron-methyl and Fluroxypyr formulations.
 Sec. 107598. Acifluorfen formulations.
 Sec. 107599. S-Metolachlor and Mestriane herbicides.
 Sec. 107600. Metribuzin formulations.
 Sec. 107601. Pendimethaline and Metribuzine formulations.
 Sec. 107602. Formulations of S-Metolachlor and Metribuzin.
 Sec. 107603. Thifensulfuron-methyl and Tribenuron-methyl formulations.
 Sec. 107604. Metsulfuron-methyl formulations.
 Sec. 107605. Chlorimuron-ethyl formulations.
 Sec. 107606. Mixtures of Bromoxynil octanoate and Bromoxynil heptanoate.
 Sec. 107607. Sulfometuron-methyl and Metsulfuron-methyl formulations.
 Sec. 107608. Chlorimuron-ethyl and Tribenuron-methyl formulations.
 Sec. 107609. Formulations containing Tiafenacil.
 Sec. 107610. Diuron 80.
 Sec. 107611. Flazasulfuron herbicides.
 Sec. 107612. Thifensulfuron-methyl formulations.

- Sec. 107613. Herbicide for farm and ranch use.
 Sec. 107614. Propanil formulations.
 Sec. 107615. Thifensulfuron formulations.
 Sec. 107616. Tolpyralate and Nicosulfuron herbicides.
 Sec. 107617. Mixtures of magnesium salts and application adjuvants.
 Sec. 107618. Nisin formulations.
 Sec. 107619. Certain fixatives.
 Sec. 107620. Fuel oil additives: cold flow improvers containing poly(ethylene-co-ethenyl acetate).
 Sec. 107621. Fuel oil additives: cold flow improvers containing fumarate vinyl acetate co-polymer.
 Sec. 107622. Crude oil additives: cold flow improvers containing fumarate vinyl acetate copolymer.
 Sec. 107623. Pour point depressants.
 Sec. 107624. Fuel oil additives: cold flow improvers containing poly(ethylene-co-ethenyl acetate and vinyl 2-ethyl hexanoate).
 Sec. 107625. Poly(isobutylene) hydroformylation products.
 Sec. 107626. Input for rubber products.
 Sec. 107627. Mixtures of oligomers as general antioxidants for rubber tires.
 Sec. 107628. Benzene, 2,4-diisocyanato-1,3,5-tris(1-methylethyl)-, homopolymer.
 Sec. 107629. Aromatic amine antioxidants.
 Sec. 107630. Antioxidant blends.
 Sec. 107631. Antioxidant blends to protect polymers.
 Sec. 107632. Synthetic hydrotalcite coated with fatty acid and magnesium stearate.
 Sec. 107633. Silica scorch retarders and polymerization inhibitors.
 Sec. 107634. Synthetic hydrotalcite.
 Sec. 107635. Light stabilizers for construction products.
 Sec. 107636. Light stabilizer for plastics.
 Sec. 107637. Preparations of bis(2,4-dichlorobenzoyl) peroxide 50 percent paste.
 Sec. 107638. Distilled tall oils.
 Sec. 107639. Pyridine, alkyl derivatives.
 Sec. 107640. Polyisocyanate crosslinking agents.
 Sec. 107641. Bonding agent mixtures.
 Sec. 107642. Liquid, chemically modified amine complex of boron trifluoride.
 Sec. 107643. Phthalocyanine derivative.
 Sec. 107644. Mixtures of Cocamidopropyl betaine, glycol distearate, Laureth-4, and water.
 Sec. 107645. Mixtures of tall oil mono-, di-, and triglycerides.
 Sec. 107646. Tallow-bis(2-hydroxyethyl) amines.
 Sec. 107647. Additive mixtures for metalworking fluids.
 Sec. 107648. Naphthenic acids.
 Sec. 107649. Hydroxytyrosol powders.
 Sec. 107650. Secondary alcohol ethoxylates.
 Sec. 107651. Ethylene glycol dimerate.
 Sec. 107652. Two-part liquid silicone kits.
 Sec. 107653. Hydrophobic precipitated silica.
 Sec. 107654. Silane, trimethoxyoctyl-, hydrolysis products.
 Sec. 107655. 1,1,1-Trimethyl-N-(trimethylsilyl)silaname hydrolysis products.
 Sec. 107656. Waterborne epoxy curing agents.
 Sec. 107657. Preparations based on 1-phenylicosane-1,3-dione.
 Sec. 107658. Mixtures of 2-Mercaptopropionic acid, methyl ester, O-ethyl dithiocarbonate.
 Sec. 107659. Epoxy curing agents.
 Sec. 107660. Aliphatic amine curing agents.
 Sec. 107661. Non-halogenated flame retardants.
 Sec. 107662. Ligaphob N 90.
 Sec. 107663. Organomodified siloxane.
 Sec. 107664. Methyl palmitate-stearate, hydrogenerated.
 Sec. 107665. Olfine EI1010.
 Sec. 107666. Certain non-halogenated flame retardants.
 Sec. 107667. Flame retardants.
 Sec. 107668. Preparations based on acetyl hexapeptide-8 and pentapeptide-18.
 Sec. 107669. Lithium silicon oxide.
 Sec. 107670. Branched olefin from propylene polymerization.
 Sec. 107671. Polypropylene pellets.
 Sec. 107672. Propylene-ethylene copolymer.
 Sec. 107673. Ethylene-propylene copolymers.
 Sec. 107674. Benzene alkylated with polypropylene.
 Sec. 107675. Chlorinated polyolefin.
 Sec. 107676. Adsorbent resin.
 Sec. 107677. Vinyl chloride-hydroxypropyl acrylate copolymer.
 Sec. 107678. Vinyl chloride ethylene copolymer with hydrophobic properties.
 Sec. 107679. Fluids with boiling points above 170 °C.
 Sec. 107680. Formulations of functionalized perfluoropolyether.
 Sec. 107681. Perfluoropolyether-urethane acrylate.
 Sec. 107682. PVDF homopolymer/PVDF/CTFE copolymer mixtures.
 Sec. 107683. Chemically modified PVDF.
 Sec. 107684. Fluoropolymer, fluoroethylene-alkyl vinyl ether alternative copolymers.
 Sec. 107685. Copolymer of vinyl acetate and higher vinyl esters.
 Sec. 107686. Food-grade vinyl acetate copolymer.
 Sec. 107687. Vinyl chloride ethylene with enhanced properties.
 Sec. 107688. Vinyl acetate ethylene copolymer with enhanced properties.
 Sec. 107689. Food-grade polyvinyl acetate homopolymers.
 Sec. 107690. Acrylic acid/vinylsulphonate random copolymers.
 Sec. 107691. Poly(methyl methacrylate) microspheres.
 Sec. 107692. Methyl methacrylate crosspolymer microspheres.
 Sec. 107693. Styrene acrylate copolymer with enhanced properties.
 Sec. 107694. Copolymer for dental use.
 Sec. 107695. Vinyl phosphonic acid, acrylic acid copolymer, 20 percent solution in water.
 Sec. 107696. Polyacrylate 33.
 Sec. 107697. AA/AMPS copolymer.
 Sec. 107698. Flocculant dry polyacrylamides.
 Sec. 107699. Sorbitol, propylene oxide, ethylene oxide polymer.
 Sec. 107700. Trimethoxysilylpropylcarbamate-terminated polyether.
 Sec. 107701. Dimethoxy(methyl)silylmethylcarbamate-terminated polyether.
 Sec. 107702. Curing agent is used in two- or three-parts epoxy systems.
 Sec. 107703. Polyethylene glycol 450.
 Sec. 107704. Medicinal intermediate for investigational use.
 Sec. 107705. Aqueous solutions of carboxylic acid-copolymer-salt in water.
 Sec. 107706. Aqueous solutions of a modified polymer bearing hydrophilic and hydrophobic groups.
 Sec. 107707. Dimethylamine/epichlorohydrin/ethylenediamine copolymer.
 Sec. 107708. Linear hydroxyl-terminated aliphatic polycarb diol.
 Sec. 107709. Short hollow PET fibers.
 Sec. 107710. Polytetrahydrofuran.
 Sec. 107711. Crystalline polyesters.
 Sec. 107712. Liquid crystal polymers.
 Sec. 107713. Branched polyesters.
 Sec. 107714. High molecular weight co-polyester.
 Sec. 107715. High molecular weight co-polyester.
 Sec. 107716. Polyester-polyamide dispersants.
 Sec. 107717. Nylon-12 micro-spheres.
 Sec. 107718. Short nylon-66 fibers.
 Sec. 107719. Short nylon 6 fibers, colored.
 Sec. 107720. Short triangular nylon 6 fibers.
 Sec. 107721. Short star-shaped nylon 6 fibers.
 Sec. 107722. Short heart-shaped nylon 6 fibers.
 Sec. 107723. PA510 polymer compounds.
 Sec. 107724. MXD6 polymer compounds.
 Sec. 107725. PA10T polymer compounds.
 Sec. 107726. PA10T/10I polymer compounds.
 Sec. 107727. Polyurethane aqueous resins.
 Sec. 107728. Aqueous resin.
 Sec. 107729. Aliphatic polyisocyanate.
 Sec. 107730. IPDI and HDI based aliphatic polyisocyanate.
 Sec. 107731. HDI/Trimethylol hexyllactone crosspolymer micro-spheres.
 Sec. 107732. HDI/PPG/Polycaprolactone crosspolymer micro-spheres.
 Sec. 107733. Aromatic isocyanate prepolymer.
 Sec. 107734. Blocked polyisocyanate containing solvent.
 Sec. 107735. Polyisocyanate adduct for powder coatings.
 Sec. 107736. Blocked polyisocyanate for use in can and coil applications.
 Sec. 107737. Polydimethylsiloxane.
 Sec. 107738. Silicone resins.
 Sec. 107739. Methoxyfunctional methyl-phenyl polysiloxane.
 Sec. 107740. Hydrogen polysiloxane.
 Sec. 107741. Methyl silicone resins.
 Sec. 107742. Epoxy functional polydimethylsiloxane.
 Sec. 107743. Polymethylhydrogensiloxane.
 Sec. 107744. Vinyl terminated siloxanes.
 Sec. 107745. Silicone hybrid resin (solvent free).
 Sec. 107746. Hydrogenated polycyclopentadiene resin.
 Sec. 107747. Water dispersable HDI based polyisocyanate.
 Sec. 107748. Cyanate ester resins for high-end electronic, aerospace, and industrial applications.
 Sec. 107749. Polyethyleneimine, component used in manufacturing medical devices.
 Sec. 107750. Polyhexanide.
 Sec. 107751. Ethylene-norbornene copolymer.
 Sec. 107752. Cellulose powder.
 Sec. 107753. Polymaltotriose.
 Sec. 107754. Chitosan.
 Sec. 107755. Plastic drinking straws.
 Sec. 107756. Garden hoses.
 Sec. 107757. Plastic fittings of perfluoroalkoxy.
 Sec. 107758. Low density polyethylene (LDPE) sheeting.
 Sec. 107759. Biaxially oriented dielectric polypropylene film.
 Sec. 107760. Biaxially oriented polypropylene (BOPP) capacitor-grade film.
 Sec. 107761. Polyester capacitor-grade film.
 Sec. 107762. Acid form membranes.
 Sec. 107763. Melamine resin foam.
 Sec. 107764. Infant bathtubs and basins, of plastics.
 Sec. 107765. Boxes, cases, crates, and similar articles of plastics.
 Sec. 107766. Nozzles, black, of polypropylene.
 Sec. 107767. Tip/cap combinations of polyethylene.
 Sec. 107768. Bottles made of LDPE.
 Sec. 107769. Plastic nasal irrigator caps for neti pots.
 Sec. 107770. Toy character bottle toppers.
 Sec. 107771. Melamine platters, other than those presented in sets.
 Sec. 107772. Melamine plates, other than those presented in sets.
 Sec. 107773. Melamine bowls not presented in sets.
 Sec. 107774. Melamine trays not presented in sets.
 Sec. 107775. Plastic measuring cups and spoons in sets.
 Sec. 107776. Liquid measuring cups.
 Sec. 107777. Self-anchoring beverage containers.
 Sec. 107778. PVC infant bathtub mats.
 Sec. 107779. Reversible playmats.
 Sec. 107780. Hangers.
 Sec. 107781. Infant bath rinsing cups.
 Sec. 107782. Bathtub spout covers.
 Sec. 107783. Infant teethingers.
 Sec. 107784. Lighted dog fetch toys.

- Sec. 107785. Certain thermoplastic nylon 3-gang switch wallplates.
- Sec. 107786. Manual plastic disposable cutlery dispensers.
- Sec. 107787. Ear bulb syringes of clear silicone.
- Sec. 107788. PVC inflatable pillows.
- Sec. 107789. Self-inflatable queen air mattresses.
- Sec. 107790. Plastic clip fasteners.
- Sec. 107791. Self-venting spouts for diesel exhaust fluid.
- Sec. 107792. Plastic pet carriers.
- Sec. 107793. Plastic mixing tips.
- Sec. 107794. Cable ties of plastics.
- Sec. 107795. Flexible camera mountings.
- Sec. 107796. Three-piece camera mount sets.
- Sec. 107797. Magnetic swivel clips for cameras.
- Sec. 107798. Helmet camera mounts.
- Sec. 107799. Short extension poles for use with cameras.
- Sec. 107800. Long extension poles for cameras.
- Sec. 107801. Swivel mounts for cameras.
- Sec. 107802. Tripod camera mounts.
- Sec. 107803. Bulk hydraulic hoses.
- Sec. 107804. Brake hydraulic hoses.
- Sec. 107805. Bulk fabric/metal-reinforced rubber hoses.
- Sec. 107806. Disposable gloves.
- Sec. 107807. Reusable gloves.
- Sec. 107808. Dog and cat apparel.
- Sec. 107809. Polycarbonate vanity cases.
- Sec. 107810. Aluminum vanity cases.
- Sec. 107811. Suitcases with outer surface of aluminum with built-in zipper locks.
- Sec. 107812. Laminated recycled reusable shopping tote bags.
- Sec. 107813. Reusable shopping style tote bags.
- Sec. 107814. Waterproof tote bags.
- Sec. 107815. Waterproof duffle bags.
- Sec. 107816. Waterproof zippered bags, without handles, of plastic sheeting.
- Sec. 107817. Waterproof backpacks.
- Sec. 107818. Waterproof waist packs.
- Sec. 107819. Guitar cases.
- Sec. 107820. Jewelry boxes.
- Sec. 107821. Silicone rubber camera cases with straps.
- Sec. 107822. Leather gloves with flip mitts for hunting.
- Sec. 107823. Men's leather gloves valued at \$18 or more per pair.
- Sec. 107824. Belts of calf skin.
- Sec. 107825. Bamboo engineered flooring: 12.5–12.9 mm thick.
- Sec. 107826. Bamboo engineered flooring: 14.1–14.5 mm thick.
- Sec. 107827. Bamboo engineered flooring: 15.7–16.1 mm thick.
- Sec. 107828. Strand bamboo flooring: 12.5–12.9 mm thick.
- Sec. 107829. Strand bamboo flooring: 14.1–14.5 mm thick.
- Sec. 107830. Strand bamboo flooring: 10.9–11.3 mm thick.
- Sec. 107831. Chopsticks made of bamboo.
- Sec. 107832. Drying racks of wood.
- Sec. 107833. Bamboo skewers.
- Sec. 107834. Wood blinds with louvered slats.
- Sec. 107835. 100 percent cotton woven crimped unbleached fabric.
- Sec. 107836. Woven fabrics of cotton, containing 85 percent or more by weight of cotton, not more than 200 grams per square meter.
- Sec. 107837. 100 percent cotton woven bleached fabric pieces, open weave.
- Sec. 107838. Incontinence underpad fabrics of cotton.
- Sec. 107839. Woven fabrics of cotton with an average yarn number between 55 and 60.
- Sec. 107840. Woven fabric of cotton of yarn number 69 or higher.
- Sec. 107841. Woven fabrics of cotton with an average yarn number exceeding 68.
- Sec. 107842. Incontinence underpad fabrics, cotton, plain weave, of yarn number 42 or lower.
- Sec. 107843. Incontinence underpad fabrics, cotton, plain weave, of yarn number between 43 and 68.
- Sec. 107844. Incontinence underpad fabrics, bleached.
- Sec. 107845. Incontinence underpad fabrics, printed.
- Sec. 107846. Untwisted filament polyvinyl alcohol yarn, measuring 1,100 to 1,330 decitex.
- Sec. 107847. Untwisted filament polyvinyl alcohol yarn.
- Sec. 107848. Polypropylene (PP) monofilament.
- Sec. 107849. Acrylic fiber tow with an average decitex of 0.9.
- Sec. 107850. Black polyester bi-component fibers.
- Sec. 107851. Acrylic staple fibers with an average decitex of 2.2, fiber length of 100 mm.
- Sec. 107852. Modacrylic staple fibers not processed for spinning.
- Sec. 107853. Short polypropylene fibers.
- Sec. 107854. Polyoxadiazole fibers.
- Sec. 107855. Artificial staple fibers of viscose rayon, 38–42 mm in length.
- Sec. 107856. Artificial fibers of viscose rayon for the manufacture of feminine hygiene products.
- Sec. 107857. Flame retardant rayon fibers, measuring 4.78 decitex.
- Sec. 107858. Flame retardant rayon fibers, measuring 4.55 decitex.
- Sec. 107859. Flame retardant rayon fibers, measuring 4.4 decitex.
- Sec. 107860. Other flame retardant rayon fibers.
- Sec. 107861. Cellulosic man-made viscose rayon staple fibers, measuring 1.3–1.5 decitex.
- Sec. 107862. Viscose rayon staple fibers, measuring 1.5–1.67 decitex, with a fiber length of 38–42 mm.
- Sec. 107863. Cellulosic man-made viscose rayon staple fibers, measuring 1.67–2 decitex.
- Sec. 107864. Viscose rayon staple fibers, measuring 1–2 decitex, with a fiber length of 4–8 mm.
- Sec. 107865. Viscose staple fibers used in textile, medical, or hygiene applications.
- Sec. 107866. Viscose rayon staple fibers, measuring 1.51–2 decitex, with a fiber length of 8–16 mm.
- Sec. 107867. Viscose rayon staple fibers, measuring 1–1.5 decitex, with a fiber length of 8–16 mm.
- Sec. 107868. Flame retardant viscose rayon staple fibers, with a decitex of 4.7 mm and a fiber length of 51–60 mm.
- Sec. 107869. Viscose rayon staple fibers for nonwoven production.
- Sec. 107870. Black viscose rayon staple fibers.
- Sec. 107871. Acrylic or modacrylic staple fibers with a decitex of 3–5.6.
- Sec. 107872. Made up hand-cast string-drawn fishing nets.
- Sec. 107873. Knitted carpets containing 75 percent or more of cotton, with a rubber backing.
- Sec. 107874. Knitted carpets containing 75 percent or more by weight of polyester, with a rubber backing.
- Sec. 107875. Faux leather fabrics.
- Sec. 107876. Grass catcher bags.
- Sec. 107877. Oxygenation membrane capillary material.
- Sec. 107878. Textile knitted fabrics composed of micromodal and elastane.
- Sec. 107879. Textile technical knitted fabrics combining technical cotton and elastane.
- Sec. 107880. Textile knit fabrics of modal, cashmere, and spandex.
- Sec. 107881. Women's and girls' dresses, knitted or crocheted, of synthetic fibers infused with minerals.
- Sec. 107882. Women's and girls' skirts and divided skirts of synthetic fibers infused with minerals.
- Sec. 107883. Women's and girls' knit cardigans or pullovers containing 70 percent or more of silk.
- Sec. 107884. Men's and boys' knit cardigans or pullovers of linen.
- Sec. 107885. Babies' knit sweaters, pullovers, sweatshirts, waistcoats (vests), and cardigans, of artificial fibers.
- Sec. 107886. Women's and girls' tops, knitted or crocheted, of man-made fibers infused with minerals.
- Sec. 107887. Men's and boy's tops, knitted or crocheted, of man-made fibers infused with minerals.
- Sec. 107888. Men's 3 mm wetsuits.
- Sec. 107889. Men's 5.5 and 6.5 mm wetsuits.
- Sec. 107890. Men's 3.5 mm wetsuits.
- Sec. 107891. Men's 4.5 mm wetsuits.
- Sec. 107892. Women's 3 mm wetsuits.
- Sec. 107893. Women's 3.5 mm wetsuits.
- Sec. 107894. Women's 4.5 mm wetsuits.
- Sec. 107895. Women's 5.5 and 6.5 mm wetsuits.
- Sec. 107896. Insulated handmuffs of knit polyester.
- Sec. 107897. Men's stockingfoot wader bottom subassemblies, of compressed neoprene.
- Sec. 107898. Men's stockingfoot wader bottom subassemblies, of non-compressed neoprene.
- Sec. 107899. Fishing wader pocket pouch assemblies.
- Sec. 107900. Martial arts uniforms.
- Sec. 107901. Women's or girls' linen woven blouses, shirts and shirt-blouses, and sleeveless tank styles.
- Sec. 107902. Women's or girls' linen woven washsuits, sunsuits, or one-piece playsuits.
- Sec. 107903. Women's or girls' linen woven coveralls or jumpsuits.
- Sec. 107904. Women's shawls and similar goods, 100 percent silk.
- Sec. 107905. Winter cycling gloves.
- Sec. 107906. Lock pocket tents.
- Sec. 107907. Dark room tents.
- Sec. 107908. Bi-component microfiber tube mop refills.
- Sec. 107909. Microfiber duster refills.
- Sec. 107910. RFID mop pads.
- Sec. 107911. Microfiber cleaning cloths.
- Sec. 107912. Microfiber mop pads.
- Sec. 107913. Golf bag body flats.
- Sec. 107914. Bathtub elbow rests.
- Sec. 107915. Door swings.
- Sec. 107916. Under bed restraints.
- Sec. 107917. Bath kneeler.
- Sec. 107918. Two-piece camera mount kits.
- Sec. 107919. Sleeve covers.
- Sec. 107920. Men's cycling shoes valued over \$18 per pair.
- Sec. 107921. Women's cycling shoes valued over \$16 per pair.
- Sec. 107922. Men's golf shoes with outers and uppers of rubber or plastics, valued over \$20 per pair.
- Sec. 107923. Golf shoes other than for men, with outers and uppers of rubber or plastics, valued over \$20 per pair.
- Sec. 107924. Winter cycling boots for men.
- Sec. 107925. Winter cycling boots for women.
- Sec. 107926. Children's footwear valued over \$15 per pair.
- Sec. 107927. Women's protective active footwear, valued over \$25 per pair, 15.35–25.4 cm in height.
- Sec. 107928. Cheer shoes covering the ankle.
- Sec. 107929. Sideline cheer shoes.
- Sec. 107930. Men's athletic footwear, valued under \$9 per pair.
- Sec. 107931. Athletic footwear for women, valued not over \$9 per pair.
- Sec. 107932. Athletic footwear for children, valued not over \$8 per pair.
- Sec. 107933. Men's golf shoes, with outer soles and uppers of rubber or plastics, not covering the ankle, valued \$15 per pair or over.
- Sec. 107934. Golf shoes other than for men, with outer soles and uppers of rubber or plastics, not covering the ankle, valued \$15 per pair or over.

- Sec. 107935. Men's rubber/plastic footwear, valued not over \$5 per pair.
- Sec. 107936. Women's rubber/plastic footwear, valued not over \$6 per pair.
- Sec. 107937. Cheer shoes with sole less than 12 mm.
- Sec. 107938. Men's golf shoes with outers and uppers of rubber or plastics, valued over \$19 per pair.
- Sec. 107939. Golf shoes other than for men, outer soles and uppers of rubber or plastics, valued over \$19 per pair.
- Sec. 107940. Men's golf shoes, outer soles of rubber, plastics, leather or composition leather and uppers of leather (except pigskin uppers).
- Sec. 107941. Women's leather footwear, lined with pigskin with zipper, valued \$47–\$60 per pair.
- Sec. 107942. Women's leather footwear, lined with pigskin, valued \$31–\$40 per pair.
- Sec. 107943. Women's slip-on cow/calf hair footwear, valued \$50–\$60 per pair.
- Sec. 107944. Women's leather footwear lined with sheepskin.
- Sec. 107945. Women's leather slip-on footwear lined with sheep leather.
- Sec. 107946. Women's leather slip-on footwear lined with pigskin.
- Sec. 107947. Women's leather footwear, lined with pigskin, valued \$21–\$27 per pair.
- Sec. 107948. Women's footwear with leather uppers, lined with pigskin, closed toe or heel with functional zippers on sides.
- Sec. 107949. Women's footwear with leather uppers, lined with pigskin with adjustable laces.
- Sec. 107950. Competitive cheer shoes with leather uppers.
- Sec. 107951. Women's footwear with leather uppers, with strap and buckle, valued \$27–\$40 per pair.
- Sec. 107952. Children's leather upper athletic footwear, valued not over \$9 per pair.
- Sec. 107953. Men's athletic type footwear with uppers of textile materials of vegetable fibers and outer soles of rubber or plastic with textile flocking.
- Sec. 107954. Athletic footwear for men, with a bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107955. Athletic footwear for women, with a bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107956. Athletic footwear for children, bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107957. Athletic footwear for men, valued over \$6.50 but not over \$9 per pair.
- Sec. 107958. Athletic footwear for children, valued over \$6.50 but not over \$9 per pair.
- Sec. 107959. Cheer shoes with uppers of textile materials.
- Sec. 107960. Women's footwear with textile uppers and 50 percent or more of the surface area of which is leather.
- Sec. 107961. Women's footwear with textile uppers, open toes or heels, valued \$15–\$30 per pair.
- Sec. 107962. Men's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107963. Women's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107964. Children's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107965. Oxford-style work footwear with steel safety toe and static dissipating protection.
- Sec. 107966. Oxford footwear with textile uppers and composite toe, valued over \$20 per pair.
- Sec. 107967. Men's mid-cut footwear with a textile upper and a protective toe cap.
- Sec. 107968. Women's footwear with leather soles and textile uppers, open toes or heels, valued \$12–\$24 per pair.
- Sec. 107969. Footwear for women valued over \$20 but not over \$24 per pair.
- Sec. 107970. Women's footwear with leather soles and textile uppers, valued \$15–\$20 per pair.
- Sec. 107971. Women's footwear with leather soles and textile uppers, valued \$20–\$25 per pair.
- Sec. 107972. Women's footwear with cork soles and textile uppers.
- Sec. 107973. Men's footwear with felt soles, not covering the ankle, valued \$20 per pair or higher.
- Sec. 107974. Women's and girls' footwear with cork uppers, valued less than \$25 per pair.
- Sec. 107975. Women's footwear with cow/calf hair uppers, valued \$35–\$40 per pair, covering the ankle.
- Sec. 107976. Women's footwear with cow/calf hair uppers, valued \$35–\$40 per pair, not covering the ankle.
- Sec. 107977. Women's footwear with cow/calf hair uppers, valued \$19–\$25 per pair.
- Sec. 107978. Women's footwear with cow/calf hair uppers, valued \$50–\$55 per pair.
- Sec. 107979. Women's footwear, leather soles and rubber/plastic uppers, valued \$16–\$18 per pair.
- Sec. 107980. Women's footwear with cow/calf hair uppers, valued \$19–\$34 per pair.
- Sec. 107981. Footwear for women, valued over \$50 but not over \$60 per pair.
- Sec. 107982. Calf hair upper footwear.
- Sec. 107983. Gaiters of man-made fibers.
- Sec. 107984. Hats of vegetable fibers.
- Sec. 107985. Hairnets.
- Sec. 107986. Cotton knit hats, valued \$8 or less.
- Sec. 107987. Babies' woven cotton hats.
- Sec. 107988. Hats of man-made fiber, valued \$5–\$25.
- Sec. 107989. Waterproof and insulated hats with ear flaps, valued over \$15.
- Sec. 107990. Fishing wading staffs.
- Sec. 107991. Plastic plants for aquariums, not glued or bound.
- Sec. 107992. Natural stone ledger tile of sandstone.
- Sec. 107993. Marble mosaic and pebble tiles.
- Sec. 107994. Natural stone limestone tiles.
- Sec. 107995. Natural stone marble tiles.
- Sec. 107996. Waterjet natural stone mosaic tile.
- Sec. 107997. Marble entertaining and serveware.
- Sec. 107998. Articles of marble for kitchen and dining room.
- Sec. 107999. Natural stone ledger tiles of travertine.
- Sec. 108000. Travertine decorative tile.
- Sec. 108001. Limestone decorative tiles.
- Sec. 108002. Blank, embossed, and printed stoneware coaster disks and trivets.
- Sec. 108003. Rolled green glass sheets.
- Sec. 108004. Framed rear-view mirrors.
- Sec. 108005. Wall mirrors, unframed.
- Sec. 108006. Wall mirrors, framed.
- Sec. 108007. Stemware (crystalline) drinking glasses valued over \$0.30 but not over \$3 each, other than those presented in sets.
- Sec. 108008. Double-walled insulated glass tumblers.
- Sec. 108009. Diamond-shaped stemmed wine glasses.
- Sec. 108010. Twisted-center stemless wine glass.
- Sec. 108011. Crystalline drinking glasses, without stems, not in sets.
- Sec. 108012. Double-walled insulated glass bowls.
- Sec. 108013. Leaf-shaped glass decanters.
- Sec. 108014. Set of four appetizer plates made of glass with steel caddy holder, valued at \$2 each.
- Sec. 108015. Spice rack with glass jars and wooden lids valued not over \$3 each.
- Sec. 108016. Glass lens blanks for infrared applications.
- Sec. 108017. Hair accessories of glass beads, imitation pearls, and imitation stones, valued less than \$7.
- Sec. 108018. Filter bags with acid-resistant coating, of woven fiberglass laminated to ePTFE, weighing at least 325 g/m² but not over 350 g/m².
- Sec. 108019. Fiberglass replacement wicks for outdoor garden torch.
- Sec. 108020. Filter bags of woven fiberglass fabric laminated to an ePTFE, with a polytetrafluoroethylene coated backing, not acid resistant, weighing at least 721 g/m² but not over 771 g/m².
- Sec. 108021. Silver catalyst.
- Sec. 108022. Silver round blanks.
- Sec. 108023. Ferrobore alloy.
- Sec. 108024. Cast iron nonmalleable threaded main body combo castings for residential fuel oil tanks.
- Sec. 108025. Cast iron nonmalleable threaded vent caps for residential fuel oil tanks.
- Sec. 108026. Cast iron nonmalleable threaded bushings for residential fuel oil tanks.
- Sec. 108027. Cast iron nonmalleable threaded tank adapters for residential fuel oil tanks.
- Sec. 108028. Cast iron nonmalleable threaded fill alarm main body for residential fuel oil tanks.
- Sec. 108029. Cast iron nonmalleable threaded fill box caps for residential fuel oil tanks.
- Sec. 108030. Cast iron nonmalleable threaded leg flanges for residential fuel oil tanks.
- Sec. 108031. Portable gas cooking stoves.
- Sec. 108032. Portable outdoor cookers.
- Sec. 108033. Self-anchored beverage containers.
- Sec. 108034. Stainless steel handmade kitchen sinks.
- Sec. 108035. Loose frame baskets.
- Sec. 108036. Two-story fire escape ladders.
- Sec. 108037. Three-story fire escape ladders.
- Sec. 108038. Work support stands of steel.
- Sec. 108039. Locking fixtures of iron or steel.
- Sec. 108040. Stainless steel phone handle-and-stand accessories.
- Sec. 108041. Circular and S-shaped stainless steel carabiners.
- Sec. 108042. Pieces of refined unwrought copper cathode 99.9999 percent pure.
- Sec. 108043. Ultra-thin and wide-width aluminum foil.
- Sec. 108044. Etched capacitor aluminum foil of a thickness 0.018–0.126 mm.
- Sec. 108045. Stove top coffee makers.
- Sec. 108046. Aluminum shower caddies.
- Sec. 108047. Step stools of aluminum.
- Sec. 108048. Aluminum ladders.
- Sec. 108049. Circular and S-shaped aluminum carabiners.
- Sec. 108050. Stationary sprinklers of zinc.
- Sec. 108051. Tungsten waste and scrap.
- Sec. 108052. Cobalt alloys.
- Sec. 108053. Certain gallium (Ga).
- Sec. 108054. Niobium (columbium) rings no thicker than 20 mm.
- Sec. 108055. Tungsten secondary raw material.
- Sec. 108056. Gear-driven bolt cutters and pipe cutters.
- Sec. 108057. Rotary cutters.
- Sec. 108058. Food graters.
- Sec. 108059. Hand tools for applying plastic clip fasteners to garments.
- Sec. 108060. Steel workstations with vises adjustable by foot pedal.

- Sec. 108061. Fixed carbide cutter and roller cone drill bits.
- Sec. 108062. Rotary food graters.
- Sec. 108063. Coffee presses.
- Sec. 108064. Vacuum insulated coffee servers with a brew-through lid.
- Sec. 108065. Vacuum insulated coffee servers with no lid.
- Sec. 108066. Vacuum insulated coffee servers with fitted hinged lid.
- Sec. 108067. Commercial vacuum insulated coffee servers with sight gauge.
- Sec. 108068. Commercial vacuum insulated coffee servers with plastic base.
- Sec. 108069. Commercial vacuum insulated coffee servers with plastic base and stand.
- Sec. 108070. Craft knives with fixed pen-like or retractable blades.
- Sec. 108071. Craft knives.
- Sec. 108072. Blades for craft knives with non-fixed blades.
- Sec. 108073. Ergonomic pinking shears.
- Sec. 108074. Spring-action scissors.
- Sec. 108075. Electronic locks for lockers.
- Sec. 108076. Luggage locks of base metal, packaged for retail sale.
- Sec. 108077. Key-operated door handles, push-pull-rotate.
- Sec. 108078. Vent mounted magnetic mobile phone holder for automobiles.
- Sec. 108079. Dash mounted magnetic mobile phone holder for automobiles.
- Sec. 108080. Windshield mounted magnetic mobile phone holder for automobiles.
- Sec. 108081. Steel latches with plastic plungers.
- Sec. 108082. Non-key-operated door handles.
- Sec. 108083. Curtain rings.
- Sec. 108084. Brackets.
- Sec. 108085. Curtain rods.
- Sec. 108086. Curtain rod hardware.
- Sec. 108087. Curtain tiebacks.
- Sec. 108088. Curtain rod finials.
- Sec. 108089. Curved shower rods.
- Sec. 108090. Shower hooks and rings.
- Sec. 108091. Straight shower rods.
- Sec. 108092. Steel window rods.
- Sec. 108093. Antitheft steel cases with digital locks.
- Sec. 108094. Stainless steel hose kits.
- Sec. 108095. Stainless steel hoses.
- Sec. 108096. Wrist watch strap buckles not over 18 mm.
- Sec. 108097. Wrist watch strap buckles over 18 mm.
- Sec. 108098. Used cylinder heads.
- Sec. 108099. Cylinder heads used solely or principally with certain engines.
- Sec. 108100. Engine blocks.
- Sec. 108101. Swirler assemblies for turbines.
- Sec. 108102. Barrels for fuel mixing.
- Sec. 108103. Injector assemblies for certain turbines.
- Sec. 108104. Stem assemblies for certain turbines.
- Sec. 108105. Tip assemblies for non-gas turbines.
- Sec. 108106. High pressure fuel pumps.
- Sec. 108107. Dry scroll vacuum pumps 364x333x485 mm.
- Sec. 108108. Dry scroll vacuum pumps 297x260x420 mm.
- Sec. 108109. Dry scroll vacuum pumps 254x260x420 mm.
- Sec. 108110. Dry scroll vacuum pumps 181x140x358 mm.
- Sec. 108111. Turbomolecular vacuum pumps.
- Sec. 108112. Rotary vane vacuum pumps valued over \$500 each.
- Sec. 108113. Vacuum diffusion pumps valued over \$900 each.
- Sec. 108114. Hand- or foot-operated air pumps.
- Sec. 108115. Roof vent fans.
- Sec. 108116. 12-Amp corded electric leaf blowers.
- Sec. 108117. Cordless battery powered leaf blowers not exceeding 20 volts.
- Sec. 108118. Cordless battery powered leaf blowers between 20 and 60 V.
- Sec. 108119. Fan assemblies for cab climate systems.
- Sec. 108120. Aquarium air pumps.
- Sec. 108121. Heat pumps for residential use.
- Sec. 108122. Heat pumps (outdoor units) for split air conditioner systems.
- Sec. 108123. High-wall indoor units.
- Sec. 108124. Single-zone outdoor units.
- Sec. 108125. Mini heat pumps for split air conditioner systems.
- Sec. 108126. Multi-zone outdoor unit ductless systems.
- Sec. 108127. Indoor units of split air conditioner systems.
- Sec. 108128. Ductless 18000 BTU heat pumps, single zone inverter.
- Sec. 108129. Single-phase heat pump.
- Sec. 108130. Steel vacuum pitchers with plastic hinged lid.
- Sec. 108131. Oil filters.
- Sec. 108132. Battery powered nasal irrigators.
- Sec. 108133. Struts to absorb vibration.
- Sec. 108134. Table saws (25.4 cm.), operable corded and cordless.
- Sec. 108135. Sliding miter saws (25.4 cm) with laser, corded and cordless.
- Sec. 108136. Electromechanical rotary hammers, corded and cordless.
- Sec. 108137. Electromechanical hammer impact drivers, corded and cordless.
- Sec. 108138. Rotary hammer drill tools with self-contained electric motor.
- Sec. 108139. Drill driver tools with self-contained electric motor.
- Sec. 108140. Extruders.
- Sec. 108141. Three-dimensional drawing pens.
- Sec. 108142. Professional grade three-dimensional drawing pens.
- Sec. 108143. Electric multi-functional blower vacuums.
- Sec. 108144. Autosamplers (multisamplers) for liquid chromatographs.
- Sec. 108145. Autosamplers (vialsamplers) for liquid chromatographs.
- Sec. 108146. Hydraulic hammer assembly.
- Sec. 108147. Segmented bladder-operated molds, with more than 25-inch rim diameter.
- Sec. 108148. Used valves for directional control.
- Sec. 108149. Keg spears with pressure release valves.
- Sec. 108150. Multiport distribution controllers.
- Sec. 108151. Subsea modular trees.
- Sec. 108152. Flow selector unit-multi-port 6-branch engine crankshafts.
- Sec. 108153. Engine crankshafts.
- Sec. 108154. Turbocharger journal bearings.
- Sec. 108155. Mid-range bearing housings.
- Sec. 108156. Heavy duty bearing housings.
- Sec. 108157. Fixed ration gear boxes.
- Sec. 108158. Track drive gear boxes.
- Sec. 108159. Swing bearing assembly.
- Sec. 108160. Gears for use in machinery or within engines.
- Sec. 108161. 14Y stepper motors.
- Sec. 108162. Air door actuators.
- Sec. 108163. Servo motors.
- Sec. 108164. DC brushed rhombic winding NdFeB magnet motors, with output under 18.65 W.
- Sec. 108165. DC brushed rhombic winding NdFeB magnet motors.
- Sec. 108166. DC brushed rhombic winding Al-NiCo magnet motors, with output under 18.65 W.
- Sec. 108167. DC brushless rhombic winding NdFeB magnet motors, with output under 18.65 W.
- Sec. 108168. DC brushed rhombic winding NdFeB magnet motors, with output over 18.65 but not over 37.5 W.
- Sec. 108169. DC brushed rhombic winding Al-NiCo magnet motors, with output over 18.65 W but not over 37.5 W.
- Sec. 108170. DC brushless slotless rhombic winding NdFeB magnet motors output over 18.65 W but not over 37.5 W.
- Sec. 108171. DC brushed rhombic winding NdFeB magnet motors output over 37.5 W but not over 74.6 W.
- Sec. 108172. DC brushless slotless rhombic winding NdFeB magnet motors output over 37.5 W but not over 74.6 W.
- Sec. 108173. Motors.
- Sec. 108174. DC motors of an output exceeding 74.6 W but not exceeding 735 W.
- Sec. 108175. DC motors, of an output exceeding 74.6 W but not exceeding 735 W.
- Sec. 108176. DC brushed rhombic winding NdFeB magnet motors output over 74.6 W but not over 735 W.
- Sec. 108177. DC brushless slotless rhombic winding NdFeB magnet motors output over 74.6 W but not over 735 W.
- Sec. 108178. DC motors of an output exceeding 750 W but not exceeding 14.92 kW.
- Sec. 108179. DC electric motor for non-aircraft gas turbines.
- Sec. 108180. AC alternators.
- Sec. 108181. AC alternators with copper windings.
- Sec. 108182. Wound stators and rotor assemblies.
- Sec. 108183. Rotors.
- Sec. 108184. Stators for washing machines, with a 27-tooth design.
- Sec. 108185. Stators for washing machines, with an 18-tooth design.
- Sec. 108186. Rotors for washing machines, with a height of 60.8 mm.
- Sec. 108187. Rotors for washing machines, with a height of 49 mm.
- Sec. 108188. 6 V lead-acid storage batteries.
- Sec. 108189. 12 V lead-acid storage batteries, used for the auxiliary source of power.
- Sec. 108190. Lead-acid storage batteries, used for wheelchairs.
- Sec. 108191. 12 V lead-acid storage batteries, rated at less than 15 ampere-hours.
- Sec. 108192. 12 V lead-acid storage batteries, rated at 15 ampere-hours or more.
- Sec. 108193. Cell box assemblies, weighing 15 kg or more but not over 18 kg.
- Sec. 108194. Cell box assemblies, weighing 30 kg or more but not over 36 kg.
- Sec. 108195. Cell box assemblies, weighing 36 kg or more but not over 49 kg.
- Sec. 108196. Cell box assemblies NX.
- Sec. 108197. Food processors with a capacity greater than 2.9 liters but not exceeding 3.1 liters.
- Sec. 108198. Food processors with a capacity greater than 1.6 liters but not exceeding 2.2 liters.
- Sec. 108199. Cordless hand blenders.
- Sec. 108200. Cordless hand mixers.
- Sec. 108201. Corded hand blenders.
- Sec. 108202. Burr coffee grinders.
- Sec. 108203. Electric food processors with bowl scraper.
- Sec. 108204. Electric food processors with snap-locking lid.
- Sec. 108205. Electric juice extractors.
- Sec. 108206. Electric drink mixers.
- Sec. 108207. Spiralizing food processors with a capacity equal to or greater than 2.36 liters but not exceeding 2.64 liters.
- Sec. 108208. Spiralizing food processors with a capacity equal to or greater than 2.83 liters but not exceeding 3.07 liters.
- Sec. 108209. Dicing food processors.
- Sec. 108210. Compact food processor with smoothie function.
- Sec. 108211. Juice extractors.
- Sec. 108212. Integrated baby food making systems.
- Sec. 108213. Electric juice mixers and grinders.
- Sec. 108214. Ultrasonic humidifiers.
- Sec. 108215. Automatic litterboxes, valued no more than \$100.
- Sec. 108216. Electric toothbrushes.
- Sec. 108217. Ultrasonic cool/warm mist humidifiers with aromatherapy.
- Sec. 108218. 2-in-1 can opener.

- Sec. 108219. Food spiralizing devices.
 Sec. 108220. Ceramic bowls.
 Sec. 108221. Food grinders for certain electromechanical stand food mixers.
 Sec. 108222. Pasta press extruders for certain stand food mixers.
 Sec. 108223. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 4.2 liters but not exceeding 4.8 liters.
 Sec. 108224. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 2.8 liters but not exceeding 3.4 liters.
 Sec. 108225. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 5.6 liters but not exceeding 8.6 liters.
 Sec. 108226. Pasta rollers and cutters for stand food mixers.
 Sec. 108227. Glass bowls for certain electromechanical stand food mixers.
 Sec. 108228. Body trimmers for detailed hair trimming.
 Sec. 108229. Hair clipper sets.
 Sec. 108230. Rechargeable trimmers for trimming human hair.
 Sec. 108231. PCB assemblies for clippers and trimmers.
 Sec. 108232. LED bicycle wheel spoke lights.
 Sec. 108233. Bicycle rear lights.
 Sec. 108234. Portable electric lamps.
 Sec. 108235. Space heaters.
 Sec. 108236. Microwave ovens with capacity not exceeding 22.5 liters.
 Sec. 108237. Microwave ovens with capacity exceeding 22.5 liters but not exceeding 31 liters.
 Sec. 108238. Low-profile microwave ovens with electronic opening mechanism and integral range hood.
 Sec. 108239. Low-profile microwave ovens with push button opening mechanism and integral range hood.
 Sec. 108240. Low-profile microwave ovens with electronic opening mechanism and without a range hood.
 Sec. 108241. Searing grills.
 Sec. 108242. Automatic drip coffee makers.
 Sec. 108243. Espresso machines.
 Sec. 108244. Coffee makers with dishwasher safe removable parts.
 Sec. 108245. Single-service coffee makers with milk frothers.
 Sec. 108246. Electric coffee makers with dual dispensers.
 Sec. 108247. Electric coffee makers for brewing capsules.
 Sec. 108248. Automatic or manual pour over coffee makers.
 Sec. 108249. Removable reservoir coffeemakers.
 Sec. 108250. Single serve coffee makers.
 Sec. 108251. 2-way coffee makers with a 12-cup carafe and a pod brewer.
 Sec. 108252. Rapid cold brew and hot coffee makers.
 Sec. 108253. Electric kettles.
 Sec. 108254. Electric toasters with even-toast feature.
 Sec. 108255. Electric toasters with 6.5 inch slots.
 Sec. 108256. Electric toasters with 37 mm wide slots, with an under-base cord wrap.
 Sec. 108257. 2- and 4-slot toasters, not having a button to keep toaster contents warm after toasting.
 Sec. 108258. 2-slot toasters, with a button to keep toaster content warm after toasting.
 Sec. 108259. Electric toasters with double-slice slots.
 Sec. 108260. Electric toasters with 37 mm wide slots, with a retractable cord.
 Sec. 108261. Electric pressure cookers rated more than 800 W but not more than 1,000 W, with a capacity of not less than 5 liters.
 Sec. 108262. Electric pressure cookers rated more than 1,200 W but not more than 1,400 W, with a capacity of less than 5 liters.
 Sec. 108263. Electric pressure cookers rated more than 1,000 W but not more than 1,200 W, with a capacity of less than 5 liters.
 Sec. 108264. Contoured heating pads.
 Sec. 108265. Slow cookers with non-stick ceramic coated stoneware.
 Sec. 108266. Heating pads.
 Sec. 108267. Programmable slow cookers with digital display.
 Sec. 108268. 8-Quart electric slow cookers.
 Sec. 108269. Programmable slow cookers.
 Sec. 108270. Electric slow cookers with locking lid.
 Sec. 108271. Double flip waffle makers with removable grids.
 Sec. 108272. Ice cream waffle cone and bowl makers.
 Sec. 108273. Electric breakfast sandwich makers.
 Sec. 108274. Pressure cookers.
 Sec. 108275. 10-quart programmable slow cookers.
 Sec. 108276. Polished stainless steel 1.5-quart tea kettles.
 Sec. 108277. Egg bite makers.
 Sec. 108278. Vacuum steel insulated coffee carafes, of a kind used with deep ultraviolet lithography machines.
 Sec. 108279. Vacuum steel insulated carafes for household coffee machines, of a kind used with deep ultraviolet lithography machines.
 Sec. 108280. Vacuum steel bodies with inner and outer steel layers.
 Sec. 108281. Lamp-holder housings of plastic.
 Sec. 108282. 660 W, 125 V, lamp-holder with two 15 amp outlets.
 Sec. 108283. Combination duplex receptacle/outlet and USB charger, 15–20 amp, 125 V.
 Sec. 108284. Range and dryer receptacles.
 Sec. 108285. Residential grade receptacles.
 Sec. 108286. Residential and commercial USB receptacles.
 Sec. 108287. Power strips.
 Sec. 108288. Surge protectors.
 Sec. 108289. Programmable controllers for architectural lighting.
 Sec. 108290. Electronic modular control panels for generators.
 Sec. 108291. Power distribution modules and programmable controllers.
 Sec. 108292. Glass capacitive touchscreen assemblies with LCD.
 Sec. 108293. Lamps containing deuterium gas without radio-frequency identification (RFID).
 Sec. 108294. Lamps containing deuterium gas with radio-frequency identification (RFID).
 Sec. 108295. Fiber channel coaxial cables of silver-plated copper conductors and expanded ePTFE dielectrics.
 Sec. 108296. Insulated coaxial cables, of a kind used with deep ultraviolet lithography machines.
 Sec. 108297. Coaxial cables insulated with ePTFE, vapor sealed, of a kind used with deep ultraviolet lithography machines.
 Sec. 108298. Coaxial cables insulated with ePTFE, non-vapor sealed, of a kind used with deep ultraviolet lithography machines.
 Sec. 108299. Low speed automotive ethernet USB harnesses.
 Sec. 108300. High speed autolink cable USB harnesses.
 Sec. 108301. Insulated electric conductors, of a kind used with extreme ultraviolet lithography machines.
 Sec. 108302. Insulated electric conductors, of a kind used with deep ultraviolet lithography machines.
 Sec. 108303. Insulated electric conductors, of a kind used with optical instruments.

 Sec. 108309. Suspension system stabilizer bars.
 Sec. 108310. Tie rod assemblies.
 Sec. 108311. Used axle housings.
 Sec. 108312. Used parts for power trains.
 Sec. 108313. Front windshield covers.
 Sec. 108314. Expansion chambers.
 Sec. 108315. Bicycle racks for car roofs.
 Sec. 108316. High pressure fuel injector rails.
 Sec. 108317. Stand-up bicycles, having both wheels exceeding 63.5 cm in diameter.
 Sec. 108318. Elliptical cycles, with wheels not exceeding 63.5 cm in diameter.
 Sec. 108319. Bicycle frames, other than of steel, valued \$600 or less.
 Sec. 108320. Internal gear bicycle hubs, other than two or three speeds.
 Sec. 108321. Bicycle pedals other than clipless pedals.
 Sec. 108322. Clipless bicycle pedals and parts thereof.
 Sec. 108323. Carbon fiber bicycle seatposts.
 Sec. 108324. Bicycle handlebar tape, other than silicon or leather tape.
 Sec. 108325. Trailer cycles.
 Sec. 108326. Dropper seatposts.
 Sec. 108327. Bicycle fenders.
 Sec. 108328. Bicycle handlebars.
 Sec. 108329. Multi-functional steel carts.
 Sec. 108330. Non-mechanically propelled industrial hand truck.
 Sec. 108331. Moving dollies.
 Sec. 108332. Paragliders, paraglider wings and paraglider harnesses.
 Sec. 108333. Sailing catamarans and power catamarans.
 Sec. 108334. Projection lenses.
 Sec. 108335. Mounted optical lenses.
 Sec. 108336. Objective lenses for broadcast cameras.
 Sec. 108337. Objective lenses for cinema cameras.
 Sec. 108338. Magnifying spectacles.
 Sec. 108339. LCD television panel assemblies, with a video display measuring over 175.26 cm.
 Sec. 108340. LCD television panel assemblies, with a video display measuring over 149.86 cm but not over 175.26 cm.
 Sec. 108341. LCD television panel assemblies, with a video display measuring over 139.7 cm but not over 149.86 cm.
 Sec. 108342. LCD television panel assemblies, with a video display measuring over 137.16 cm but not over 139.7 cm.
 Sec. 108343. Housings designed for infrared lenses.
 Sec. 108344. Electronic temperature indicators, weighing 14.2 g.
 Sec. 108345. Electronic temperature indicators, weighing 64.4 g.
 Sec. 108346. Electronic temperature indicators, weighing 430 g.
 Sec. 108347. Global cargo trackers, weighing 660 g.
 Sec. 108348. Temperature data monitors, weighing 115 g.
 Sec. 108349. Temperature data monitors, weighing 138.9 g.
 Sec. 108350. Temperature data monitors, weighing 133.2 g.
 Sec. 108351. Parts and accessories of bicycle speedometers.
 Sec. 108352. Wired remote controllers.

- Sec. 108353. Analog/digital wrist watches.
 Sec. 108354. Mechanical wrist watches.
 Sec. 108355. Mechanical wrist watches with leather or other band.
 Sec. 108356. Analog pocket watches.
 Sec. 108357. Projection alarm clocks, non-atomic.
 Sec. 108358. Projection atomic alarm clocks.
 Sec. 108359. Analog wall clocks without thermometer, hygrometer, or barometer gauges.
 Sec. 108360. Analog clocks with thermometer and hygrometer.
 Sec. 108361. Atomic analog wall clocks.
 Sec. 108362. Atomic digital clocks.
 Sec. 108363. Analog kitchen timers.
 Sec. 108364. Wrist watch movements having over one jewel and less than 7 jewels.
 Sec. 108365. Watch movements having over 7 jewels and under 17 jewels.
 Sec. 108366. Watch cases or "bodies" over 41 mm in diameter.
 Sec. 108367. Watch cases or "bodies" not over 41 mm in diameter.
 Sec. 108368. Watch case bezels, backs, and centers.
 Sec. 108369. Watch case parts.
 Sec. 108370. Stainless steel watch bracelets.
 Sec. 108371. Watch dials.
 Sec. 108372. Watch crowns.
 Sec. 108373. Watch hands.
 Sec. 108374. Acoustic guitars.
 Sec. 108375. Console digital pianos.
 Sec. 108376. Grand digital pianos.
 Sec. 108377. Electronic 61-key keyboards.
 Sec. 108378. Electric guitars and acoustic/electric guitars.
 Sec. 108379. Memory foam travel pillows.
 Sec. 108380. Lighting for wall installation.
 Sec. 108381. Decorative bathroom fan assemblies (lighting fixtures) assemblies.
 Sec. 108382. Metal household floor lamps.
 Sec. 108383. Solar powered pathway lights, each measuring between 36.8 cm and 42 cm in height.
 Sec. 108384. Solar powered pathway lights, each measuring between 45 cm and 48 cm in height.
 Sec. 108385. Exterior exit viewing lights, dual beam.
 Sec. 108386. LED flameless candles.
 Sec. 108387. Aquarium LED light strands.
 Sec. 108388. LED light modules for bathroom fans/lights.
 Sec. 108389. Aquarium LED light sticks.
 Sec. 108390. Aquarium LED light strips.
 Sec. 108391. Decorative votive candle holders.
 Sec. 108392. Candle jar shades.
 Sec. 108393. Non-electrical lighting.
 Sec. 108394. Outdoor garden or patio torches of bamboo construction.
 Sec. 108395. Outdoor garden or patio torches of non-bamboo construction.
 Sec. 108396. Indoor oil lamps with base of glass or metal.
 Sec. 108397. Outdoor garden torches for tabletop use.
 Sec. 108398. Glass lens arrays for spotlights.
 Sec. 108399. Lamp shades.
 Sec. 108400. Galvanized steel LED downlight housing frames.
 Sec. 108401. Aluminum cylinders for LED lighting fixtures.
 Sec. 108402. Galvanized steel brackets and plates for LED lighting fixtures.
 Sec. 108403. Aluminum LED downlight reflectors.
 Sec. 108404. Outdoor garden torch replacement canisters.
 Sec. 108405. Iris subassemblies for moving lights.
 Sec. 108406. Zoom modules for automated moving lights.
 Sec. 108407. Golf club heads for fairway woods.
 Sec. 108408. Golf club shafts for putters.
 Sec. 108409. Steel golf club shafts, other than for putters.
 Sec. 108410. Golf club shaft assemblies.
 Sec. 108411. Graphite driver golf club shafts, extra stiff flex.
 Sec. 108412. Graphite hybrid golf club shafts, extra stiff flex.
 Sec. 108413. Graphite irons golf club shafts, extra stiff flex.
 Sec. 108414. Graphite driver golf club shafts, regular, senior, adult, or ladies flex.
 Sec. 108415. Graphite golf club driver shafts, stiff flex.
 Sec. 108416. Graphite hybrid golf club shafts, regular, senior, adult, or ladies flex.
 Sec. 108417. Graphite hybrid golf club shafts, stiff flex.
 Sec. 108418. Graphite irons golf club shafts, regular, senior, adult, or ladies flex.
 Sec. 108419. Graphite irons golf club shafts, stiff flex.

 Sec. 108421. Pickleballs.
 Sec. 108422. Exercise cycles.
 Sec. 108423. Stationary trainers.
 Sec. 108424. Multimodality fitness equipment, without integrated contact grip heart rate monitor.
 Sec. 108425. Multimodality fitness equipment with integrated power sensor to measure the user's upper body power input.
 Sec. 108426. Parts and accessories for treadmills.
 Sec. 108427. Parts and accessories for ellipticals.
 Sec. 108428. Parts and accessories for stationary exercise cycles.
 Sec. 108429. Parts and accessories for weight training equipment.
 Sec. 108430. Parts and accessories for certain exercise equipment machines.
 Sec. 108431. Lateral elliptical machines.
 Sec. 108432. Adjustable-weight kettlebells.
 Sec. 108433. Adjustable-weight barbell.
 Sec. 108434. Exercise cycles with dual-position handgrips.
 Sec. 108435. Exercise cycles with single handgrips.
 Sec. 108436. Upright exercise cycles.
 Sec. 108437. Recumbent exercise cycles with touchscreen consoles.
 Sec. 108438. Leaning exercise cycles.
 Sec. 108439. Rod gyms, with vertical bench.
 Sec. 108440. Rod and resistance gyms, with flat benches.
 Sec. 108441. Foldable treadmills, with LCD consoles with control keypads.
 Sec. 108442. Foldable treadmills, with touchscreen consoles measuring 44.5 cm or less.
 Sec. 108443. Indoor cycling machines with wireless data touchscreen displays.
 Sec. 108444. Indoor cycling machines with LCD consoles and two water bottle holders.
 Sec. 108445. Indoor cycling machines with LCD consoles and single water bottle holder.
 Sec. 108446. Recumbent elliptical machines.
 Sec. 108447. Fitness equipment combining the functions of an elliptical and a stair stepper, weight over 90 kgs.
 Sec. 108448. Foldable treadmills with touchscreen console greater than 44.4 cm.
 Sec. 108449. Interactive indoor cycling exercise cycles.
 Sec. 108450. Multimodality fitness equipment, with integrated contact grip heart rate monitors.
 Sec. 108451. Fishing reels valued not over \$2.70 each, pre-spoiled, with rod and fishing line.
 Sec. 108452. Fishing reels valued not over \$2.70 each.
 Sec. 108453. Hard artificial crankbaits.
 Sec. 108454. Collapsible big game decoys.
 Sec. 108455. Vacuum steel hinged lid pitchers, not exceeding 1 liter.
 Sec. 108456. Vacuum insulated drinkware having a capacity exceeding 1 liter but not exceeding 2 liters.
 Sec. 108457. Vacuum insulated drinkware having a capacity exceeding 2 liters but not exceeding 4 liters.
 Sec. 108458. Vacuum glass lined steel coffee servers over 2 liters.
 Sec. 108459. Vacuum glass lined steel coffee servers over 2 liters with lever dispensing.
 Subtitle B—Existing Duty Suspensions and Reductions
 Sec. 108460. Extension of certain existing duty suspensions and reductions and other modifications.
 Subtitle C—Effective Date and Technical Corrections Authority
 Sec. 108461. Effective date.
 Sec. 108462. Authority to make technical and conforming changes.
- DIVISION L—COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE**
 Sec. 110001. Recompete pilot program.
- DIVISION A—CREATING HELPFUL INCENTIVES TO PRODUCE SEMICONDUCTORS (CHIPS) FOR AMERICA FUND**
SEC. 10001. CREATING HELPFUL INCENTIVES TO PRODUCE SEMICONDUCTORS (CHIPS) FOR AMERICA FUND.
- (a) CHIPS FOR AMERICA FUND.—
 (1) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the "Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Fund" (referred to in this subsection as the "Fund") for the Secretary of Commerce to carry out sections 9902 and 9906 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283). Amounts in the Fund to carry out section 9906 of Public Law 116–283 shall be transferred to and merged with accounts within the Department of Commerce to be used for such purposes.
 (2) APPROPRIATION.—
 (A) In addition to amounts otherwise available for such purposes, there is appropriated to the Fund established in subsection (a)(1), out of amounts in the Treasury not otherwise appropriated—
 (i) for fiscal year 2022, \$24,000,000,000, to remain available until expended, of which \$19,000,000,000 shall be for section 9902 of Public Law 116–283, \$2,000,000,000 shall be for subsection (c) of section 9906 of Public Law 116–283, \$2,500,000,000 shall be for subsection (d) of section 9906 of Public Law 116–283, and \$500,000,000 shall be for subsections (e) and (f) of section 9906 of Public Law 116–283;
 (ii) for fiscal year 2023, \$7,000,000,000 to remain available until expended, of which \$5,000,000,000 shall be for section 9902 of Public Law 116–283 and \$2,000,000,000 shall be for subsections (c), (d), (e), and (f) of section 9906 of Public Law 116–283;
 (iii) for fiscal year 2024, \$6,300,000,000, to remain available until expended, of which \$5,000,000,000 shall be for section 9902 of Public Law 116–283 and \$1,300,000,000 shall be for subsections (c), (d), (e), and (f) of section 9906 of Public Law 116–283;
 (iv) for fiscal year 2025, \$6,100,000,000, to remain available until expended, of which \$5,000,000,000 shall be for section 9902 of Public Law 116–283 and \$1,100,000,000 shall be for subsections (c), (d), (e), and (f) of section 9906 of Public Law 116–283;
 (v) for fiscal year 2026, \$6,800,000,000, to remain available until expended, of which \$5,000,000,000 shall be for section 9902 of Public Law 116–283 and \$1,800,000,000 shall be for subsections (c), (d), (e), and (f) of section 9906 of Public Law 116–283.
 (B) The Secretary of Commerce may use—
 (i) up to \$6,000,000,000 of the amounts made available for fiscal year 2022 for section 9902 of

Public Law 116-283 for the cost of direct loans and loan guarantees, as authorized by section 9902 of Public Law 116-283, provided that—

(I) such costs, including the cost of modifying such loans and loan guarantees shall be as defined in section 502 of the Congressional Budget Act of 1974; and

(II) these funds are available to subsidize gross obligations for the principal amount of direct loans and total loan principal, any part of which is to be guaranteed, not to exceed \$75,000,000,000; and

(ii) up to 2 percent of the amounts made available in each fiscal year for salaries and expenses, administration, and oversight purposes to carry out sections 9902, 9904 and 9906 of Public Law 116-283, of which \$5,000,000 in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Department of Commerce to oversee expenditures from the Fund. The requirement to transfer and merge funds for carrying out section 9906 of Public Law 116-283 shall not apply to amounts used pursuant to this provision.

(3) ASSISTANCE FOR MATURE TECHNOLOGY NODES.—

(A) Of the amount available in fiscal year 2022 to implement section 9902 of Public Law 116-283, \$2,000,000,000 shall be to provide Federal financial assistance to covered entities to incentivize investment in facilities and equipment in the United States for the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes.

(B) In addition to the procedures, eligibility, and considerations for review specified in subsection 9902(a)(2) of Public Law 116-283, in order for an entity to qualify to receive Federal financial assistance under this paragraph, the covered entity shall—

(i) provide equipment or materials for the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes in the United States; or

(II) fabricate, assemble using advanced packaging, or test semiconductors at mature technology nodes in the United States; and

(ii) commit to using any Federal financial assistance received under this section to increase the production of semiconductors at mature technology nodes.

(C) In addition to the considerations described in subsection 9902(a)(2)(C) of Public Law 116-283, in granting Federal financial assistance under this paragraph, the Secretary may consider whether a covered entity produces or supplies equipment or materials used in the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes that are necessary to support a critical manufacturing industry.

(D) In awarding Federal financial assistance to covered entities under this paragraph, the Secretary shall give priority to covered entities that support the resiliency of semiconductor supply chains for critical manufacturing industries in the United States.

(E) In this paragraph, the term “critical manufacturing industry”—

(i) means an industry that is assigned a North American Industry Classification System code beginning with 31, 32, or 33, and for which the industry components that are assigned a North American Industry Classification System code beginning with the same 4 digits as the industry—

(I) manufacture primary products and parts, the sum of which account for not less than 5 percent of the manufacturing value added by industry gross domestic product of the United States; and

(II) employ individuals for primary products and parts manufacturing activities that, combined, account for not less than 5 percent of manufacturing employment in the United States; and

(ii) may include any other manufacturing industry designated by the Secretary based on the

relevance of the manufacturing industry to the national and economic security of the United States, including the impacts of job losses.

(F) In this paragraph, the term “mature technology node” has the meaning given the term by the Secretary of Commerce.

(4) ALLOCATION AUTHORITY.—

(A) SUBMISSION OF COST ESTIMATES.—The President shall submit to Congress detailed account, program, and project allocations of the full amount made available under subsection (a)(2)—

(i) for fiscal years 2022 and 2023, not later than 90 days after the date of enactment of this Act; and

(ii) for each subsequent fiscal year through 2026, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code.

(B) ALTERNATE ALLOCATION.—

(i) IN GENERAL.—The Committees on Appropriations of the House of Representatives and the Senate may provide for alternate allocation of amounts made available under subsection (a)(2), including by account, program, and project.

(ii) ALLOCATION BY PRESIDENT.—

(I) NO ALTERNATE ALLOCATIONS.—If Congress has not enacted legislation establishing alternate allocations, including by account, program, and project, by the date on which the Act making full-year appropriations for the Department of Commerce, Justice, Science, and Related Agencies for the applicable fiscal year is enacted into law, only then shall amounts made available under subsection (a)(2) be allocated by the President or apportioned or allotted by account, program, and project pursuant to title 31, United States Code.

(II) INSUFFICIENT ALTERNATE ALLOCATION.—If Congress enacts legislation establishing alternate allocations, including by account, program, and project, for amounts made available under subsection (a)(2) that are less than the full amount appropriated under that subsection, the difference between the amount appropriated and the alternate allocation shall be allocated by the President and apportioned and allotted by account, program, and project pursuant to title 31, United States Code.

(b) CHIPS FOR AMERICA DEFENSE FUND.—

(I) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the “Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Defense Fund” (referred to in this subsection as the “Fund”) to provide for research, development, test and evaluation, workforce development, and other requirements that are unique to the Department of Defense and the intelligence community, including those requirements that are necessary to carry out section 9903(b) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283). Amounts in the Fund shall be transferred to and merged with accounts within the Department of Defense to be used for such purposes. Amounts in the Fund or transferred to and merged with accounts within the Department of Defense may not be used for construction of facilities.

(2) APPROPRIATION.—In addition to amounts otherwise available for such purposes, there is appropriated to the Fund established in subsection (b)(1), out of amounts in the Treasury not otherwise appropriated—

(A) for fiscal year 2022, \$400,000,000, to remain available until September 30, 2022;

(B) for fiscal year 2023, \$400,000,000, to remain available until September 30, 2023;

(C) for fiscal year 2024, \$400,000,000, to remain available until September 30, 2024;

(D) for fiscal year 2025, \$400,000,000, to remain available until September 30, 2025; and

(E) for fiscal year 2026, \$400,000,000, to remain available until September 30, 2026.

(3) ALLOCATION AUTHORITY.—

(A) SUBMISSION OF COST ESTIMATES.—The President shall submit to Congress detailed ac-

count, program element, and project allocations of the full amount made available under subsection (b)(2)—

(i) for fiscal years 2022 and 2023, not later than 90 days after the date of enactment of this Act; and

(ii) for each subsequent fiscal year through 2026, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code.

(B) ALTERNATE ALLOCATION.—

(i) IN GENERAL.—The Committees on Appropriations of the House of Representatives and the Senate may provide for alternate allocation of amounts made available under subsection (b)(2), including by account, program element, and project.

(ii) ALLOCATION BY PRESIDENT.—

(I) NO ALTERNATE ALLOCATIONS.—If Congress has not enacted legislation establishing alternate allocations, including by account, program element, and project, by the date on which the Act making full-year appropriations for the Department of Defense for the applicable fiscal year is enacted into law, only then shall amounts made available under subsection (b)(2) be allocated by the President or apportioned or allotted by account, program element, and project pursuant to title 31, United States Code.

(II) INSUFFICIENT ALTERNATE ALLOCATION.—If Congress enacts legislation establishing alternate allocations, including by account, program element, and project, for amounts made available under subsection (b)(2) that are less than the full amount appropriated under that subsection, the difference between the amount appropriated and the alternate allocation shall be allocated by the President and apportioned and allotted by account, program element, and project pursuant to title 31, United States Code.

(c) CHIPS FOR AMERICA INTERNATIONAL TECHNOLOGY SECURITY AND INNOVATION FUND.—

(I) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the “Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America International Technology Security and Innovation Fund” (referred to in this subsection as the “Fund”) to provide for international information and communications technology security and semiconductor supply chain activities, including to support the development and adoption of secure and trusted telecommunications technologies, secure semiconductors, secure semiconductors supply chains, and other emerging technologies and to carry out sections 9905 and 9202(a)(2) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283), as appropriate. Amounts in the Fund shall be transferred by the Secretary of State to accounts within the Department of State, the United States Agency for International Development, the Export-Import Bank, and the United States International Development Finance Corporation, as appropriate, to be used for such purposes and under the terms and conditions of the account to which transferred.

(2) APPROPRIATION.—

(A) In addition to amounts otherwise available for such purposes, there is appropriated to the Fund established in subsection (c)(1), out of amounts in the Treasury not otherwise appropriated—

(i) for fiscal year 2022, \$100,000,000, to remain available until September 30, 2026;

(ii) for fiscal year 2023, \$100,000,000, to remain available until September 30, 2027;

(iii) for fiscal year 2024, \$100,000,000, to remain available until September 30, 2028;

(iv) for fiscal year 2025, \$100,000,000, to remain available until September 30, 2029; and

(v) for fiscal year 2026, \$100,000,000, to remain available until September 30, 2030.

(B) In carrying out this subsection, the Secretary of State may use up to \$5,000,000 of the amounts made available in each fiscal year for the Fund for salaries and expenses, administration, and oversight purposes, of which \$500,000

in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Department of State to oversee expenditures under the Fund.

(3) ALLOCATION AUTHORITY.—

(A) SUBMISSION OF COST ESTIMATES.—The President shall submit to Congress detailed account, program, project, and activity allocations of the full amount made available under subsection (c)(2)–

(i) for fiscal years 2022 and 2023, not later than 90 days after the date of enactment of this Act; and

(ii) for each subsequent fiscal year through 2026, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code.

(B) ALTERNATE ALLOCATION.—

(i) IN GENERAL.—The Committees on Appropriations of the House of Representatives and the Senate may provide for alternate allocation of amounts made available under subsection (c)(2), including by account, program, project, and activity.

(ii) ALLOCATION BY PRESIDENT.—

(1) NO ALTERNATE ALLOCATIONS.—If Congress has not enacted legislation establishing alternate allocations, including by account, program, project, and activity, by the date on which the Act making full-year appropriations for the Department of State, Foreign Operations, and Related Programs for the applicable fiscal year is enacted into law, only then shall amounts made available under subsection (c)(2) be allocated by the President or apportioned or allotted by account, program, project, and activity pursuant to title 31, United States Code.

(II) INSUFFICIENT ALTERNATE ALLOCATION.—If Congress enacts legislation establishing alternate allocations, including by account, program, project, and activity, for amounts made available under subsection (c)(2) that are less than the full amount appropriated under that subsection, the difference between the amount appropriated and the alternate allocation shall be allocated by the President and apportioned and allotted by account, program, project, and activity pursuant to title 31, United States Code.

(d) SEQUESTRATION.—Section 255(g)(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting after “Continuing Fund, Southwestern Power Administration (89–5649–0–2–271).” the following:

“Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Fund.

“Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Defense Fund.

“Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America International Technology Security and Innovation Fund.”

(e) STATUTORY PAYGO SCORECARDS.—The budgetary effects of this section shall not be entered on either PAYGO scorecard maintained pursuant to section 4(d) of the Statutory Pay-As-You-Go Act of 2010.

SEC. 10002. SEMICONDUCTOR INCENTIVES.

(a) DEFINITIONS.—Section 9901 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended—

(1) in paragraph (2)—

(A) by inserting “production,” before “or research and development”; and

(B) by striking “of semiconductors.” and inserting “of semiconductors, materials used to manufacture semiconductors, or semiconductor manufacturing equipment.”;

(2) by redesignating paragraphs (4), (5), (6), (7), (8), and (9) as paragraphs (5), (6), (7), (8), (10), and (11), respectively;

(3) by inserting after paragraph (3) the following:

“(4) The term ‘critical manufacturing industry’—

“(A) means an industry—

“(i) that is assigned a North American Industry Classification System code beginning with 31, 32, or 33; and

“(ii) for which the industry components that are assigned a North American Industry Classification System code beginning with the same 4 digits as the industry—

“(I) manufacture primary products and parts, the sum of which account for not less than 5 percent of the manufacturing value added by industry gross domestic product of the United States; and

“(II) employ individuals for primary products and parts manufacturing activities that, combined, account for not less than 5 percent of manufacturing employment in the United States; and

“(B) may include any other manufacturing industry designated by the Secretary based on the relevance of the manufacturing industry to the national and economic security of the United States, including the impacts of job losses.”; and

(4) by inserting after paragraph (8), as so redesignated, the following:

“(9) The term ‘mature technology node’ has the meaning given the term by the Secretary.”.

(b) SEMICONDUCTOR PROGRAM.—Section 9902 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended—

(1) in subsection (a)(1)—

(A) by striking “for semiconductor fabrication” and inserting “for the fabrication”;;

(B) by inserting “production,” before “or research and development”; and

(C) by striking the period at the end and inserting “of semiconductors, materials used to manufacture semiconductors, or semiconductor manufacturing equipment.”; and

(2) in subsection (a)(2)—

(A) in subparagraph (B)(ii)—

(i) in subclause (III), by striking “and” at the end;

(ii) in subclause (IV), by striking the period at the end and inserting “and”; and

(iii) by adding at the end the following:

“(V) determined—

“(aa) the type of semiconductor technology the covered entity will produce at the facility described in clause (i); and

“(bb) the customers to which the covered entity plans to sell the semiconductor technology described in item (aa).”;

(B) in subparagraph (C)—

(i) in clause (i)—

(I) in subclause (II), by striking “is in the interest of the United States” and inserting “is in the economic and national security interests of the United States”; and

(II) in subclause (III), by striking “and” at the end;

(ii) in clause (ii)(IV), by striking “and” at the end;

(iii) by redesignating clause (iii) as clause (iv); and

(iv) by inserting after clause (ii) the following:

“(iii) the Secretary shall consider the type of semiconductor technology produced by the covered entity and whether that semiconductor technology advances the economic and national security interests of the United States; and”;

(C) by redesignating subparagraph (D) as subparagraph (E); and

(D) by inserting after subparagraph (C) the following:

“(D) PRIORITY.—In awarding Federal financial assistance to covered entities under subsection (a), the Secretary shall give priority to ensuring that a covered entity receiving financial assistance will—

“(i) manufacture semiconductors necessary to address gaps and vulnerabilities in the domestic supply chain across a diverse range of technology and process nodes; and

“(ii) provide a secure supply of semiconductors necessary for the national security, manufacturing, critical infrastructure, and technology leadership of the United States and other essential elements of the economy of the United States.”;

(3) in paragraph (4)(A), by striking “used for semiconductors” and inserting “used for the purposes”; and

(4) by adding at the end the following:

“(d) SENSE OF CONGRESS.—It is the sense of Congress that, in carrying out subsection (a), the Secretary should allocate funds in a manner that—

“(1) strengthens the security and resilience of the semiconductor supply chain, including by mitigating gaps and vulnerabilities;

“(2) provides a supply of secure semiconductors relevant for national security;

“(3) strengthens the leadership of the United States in semiconductor technology;

“(4) grows the economy of the United States and supports job creation in the United States; and

“(5) improves the resiliency of the semiconductor supply chains of critical manufacturing industries.

“(e) ADDITIONAL ASSISTANCE FOR MATURE TECHNOLOGY NODES.—

“(1) IN GENERAL.—The Secretary shall establish within the program established under subsection (a) an additional program that provides Federal financial assistance to covered entities to incentivize investment in facilities and equipment in the United States for the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes.

“(2) ELIGIBILITY AND REQUIREMENTS.—In order for an entity to qualify to receive Federal financial assistance under this subsection, the covered entity shall—

“(A) submit an application under subsection (a)(2)(A);

“(B) meet the eligibility requirements under subsection (a)(2)(B);

“(C)(i) provide equipment or materials for the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes in the United States; or

“(ii) fabricate, assemble using advanced packaging, or test semiconductors at mature technology nodes in the United States;

“(D) commit to using any Federal financial assistance received under this section to increase the production of semiconductors at mature technology nodes; and

“(E) be subject to the considerations described in subsection (a)(2)(C).

“(3) PROCEDURES.—In granting Federal financial assistance to covered entities under this subsection, the Secretary may use the procedures established under subsection (a).

“(4) CONSIDERATIONS.—In addition to the considerations described in subsection (a)(2)(C), in granting Federal financial assistance under this subsection, the Secretary may consider whether a covered entity produces or supplies equipment or materials used in the fabrication, assembly, testing, or advanced packaging of semiconductors at mature technology nodes that are necessary to support a critical manufacturing industry.

“(5) PRIORITY.—In awarding Federal financial assistance to covered entities under this subsection, the Secretary shall give priority to covered entities that support the resiliency of semiconductor supply chains for critical manufacturing industries in the United States.

“(6) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this subsection \$2,000,000,000, which shall remain available until expended.

“(f) CONSTRUCTION PROJECTS.—Section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply to a construction project that receives financial assistance from the Secretary under this section.”.

(c) ADVANCED MICROELECTRONICS RESEARCH AND DEVELOPMENT.—Section 9906 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended by adding at the end the following:

“(h) **INFRASTRUCTURE GRANTS.**—Section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply to a construction project that receives financial assistance from the Secretary under this section.”.

(d) **LOAN GUARANTEE AUTHORITIES.**—Section 9902 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended by adding at the end the following:

“(d) **LOANS AND LOAN GUARANTEES.**—Subject to the requirements of subsection (a) of this section, the Secretary of Commerce is authorized to make or guarantee loans to covered entities as financial assistance under this section. Loans made or guaranteed under this section will be on such terms and conditions as the Secretary may prescribe.”.

(e) **ADMINISTRATIVE CHANGES.**—Section 9906 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended—

(1) in subsection (c)(1) by adding at the end the following: “The Secretary may make financial assistance awards in support of the center.”;

(2) in subsection (c)(2)(B) by inserting “and capitalize” before “an investment fund”;

(3) in subsection (d) by—

(A) striking “the Manufacturing USA institute” and inserting “a Manufacturing USA institute”;

(B) adding to the end the following: “The Director may make financial assistance awards in support of the Program.”; and

(4) in subsection (f) by—

(A) striking “a Manufacturing USA Institute” and inserting “one or more Manufacturing USA Institutes”;

(B) striking “is focused on semiconductor manufacturing” and inserting “are focused on semiconductor manufacturing”;

(C) inserting “The Secretary may also provide financial assistance to any Manufacturing USA institute for work related to semiconductor manufacturing.” after “focused on semiconductor manufacturing.”; and

(D) striking “Such institute may emphasize” and inserting “Such institutes may emphasize”.

(f) **ADDITIONAL AUTHORITIES.**—The William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended by adding at the end the following:

“SEC. 9909. ADDITIONAL AUTHORITIES.

“In carrying out the responsibilities of the Department of Commerce under this Act, the Secretary of Commerce may—

“(1) enter into agreements, including contracts, grants and cooperative agreements, and other transactions as may be necessary and on such terms as the Secretary considers appropriate;

“(2) make advance payments under agreements and other transactions authorized by paragraph (1) without regard to section 3324 of title 31, United States Code;

“(3) include a clause that requires a person or other entity to make payments to the Department of Commerce as a condition for receiving support through an award of assistance or other transaction, and any funds received shall be credited to and merged with the account from which such support was made;

“(4) procure temporary and intermittent services of experts and consultants in accordance with section 3109 of title 5, United States Code;

“(5) notwithstanding section 3104 of title 5, United States Code, or the provisions of any other law relating to the appointment, number, classification, or compensation of employees, make appointments of scientific, engineering, and professional personnel, and fix the basic pay of such personnel at a rate to be determined by the Secretary at rates not in excess of the highest total annual compensation payable at the rate determined under section 104 of title 3,

United States Code, except that the Secretary shall appoint not more than 25 personnel under this paragraph; and

“(6) with the consent of another Federal agency, enter into an agreement with that Federal agency to utilize, with or without reimbursement, any service, equipment, personnel, or facility of that Federal agency.”.

(g) **CONFORMING AMENDMENT.**—The analysis for the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended by adding after the item relating to section 9908 the following:

“9909. Additional authorities.”.

DIVISION B—RESEARCH AND INNOVATION
TITLE I—DEPARTMENT OF ENERGY
SCIENCE FOR THE FUTURE

SEC. 10101. MISSION OF THE OFFICE OF SCIENCE.

Section 209 of the Department of Energy Organization Act (42 U.S.C. 7139) is amended by adding at the end the following:

“(d) **USER FACILITIES.**—The Director shall carry out the construction, operation, and maintenance of user facilities to support the mission described in subsection (c). As practicable, these facilities shall serve the needs of the Department, industry, the academic community, and other relevant entities for the purposes of advancing the missions of the Department, improving the competitiveness of the United States, protecting public health and safety, and addressing other national priorities including emergencies.

“(e) **COORDINATION.**—

“(1) **IN GENERAL.**—The Secretary—

“(A) shall ensure the coordination of the Office of Science with the other activities of the Department;

“(B) shall support joint activities among the programs of the Department;

“(C) shall coordinate with other relevant Federal agencies in supporting advancements in related research areas as appropriate; and

“(D) may form partnerships to enhance the utilization of and ensure access to user facilities by other Federal agencies.

“(2) **OFFICE OF SCIENCE.**—The Director—

“(A) shall ensure the coordination of programs and activities carried out by the Office of Science; and

“(B) shall direct all programs which have not recently completed a future planning roadmap consistent with the funding of such programs authorized under the America COMPETES Act of 2022 to complete such a roadmap.”.

SEC. 10102. BASIC ENERGY SCIENCES PROGRAM.

(a) **DEPARTMENT OF ENERGY RESEARCH AND INNOVATION ACT.**—Section 303 of the Department of Energy Research and Innovation Act (42 U.S.C. 18641) is amended—

(1) by redesignating subsections (a) through (e) as subsections (c) through (g), respectively; and

(2) by inserting before subsection (c), as so redesignated, the following:

“(a) **PROGRAM.**—As part of the activities authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), the Director shall carry out a research and development program in basic energy sciences, including materials sciences and engineering, chemical sciences, physical biosciences, geosciences, and other disciplines, to understand, model, and control matter and energy at the electronic, atomic, and molecular levels in order to provide the foundations for new energy technologies, address scientific grand challenges, and support the energy, environment, and national security missions of the Department.

“(b) **SUSTAINABLE CHEMISTRY.**—In carrying out chemistry-related research and development activities under this section, the Director shall prioritize research and development of sustainable chemistry to support clean, safe, and economic alternatives and methodologies to traditional chemical products and processes.”;

(3) in subsection (d), as so redesignated—

(A) in paragraph (3)—

(i) subparagraph (C), by striking “and” at the end;

(ii) by redesignating subparagraph (D) as subparagraph (E); and

(iii) by inserting after subparagraph (C) the following:

“(D) autonomous chemistry and materials synthesis and characterization facilities that leverage advances in artificial intelligence; and”;

and

(B) by adding at the end the following:

“(4) **ADVANCED PHOTON SOURCE UPGRADE.**—

“(A) **DEFINITIONS.**—In this paragraph:

“(i) **FLUX.**—The term ‘flux’ means the rate of flow of photons.

“(ii) **HARD X-RAY.**—The term ‘hard x-ray’ means a photon with energy greater than 20 kiloelectron volts.

“(B) **IN GENERAL.**—The Secretary shall provide for the upgrade to the Advanced Photon Source described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, titled ‘Report on Facility Upgrades’, including the development of a multibend achromat lattice to produce a high flux of coherent x-rays within the hard x-ray energy region and a suite of beamlines optimized for this source.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before March 31, 2026.

“(D) **FUNDING.**—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph \$101,000,000 for fiscal year 2022 and \$56,000,000 for fiscal year 2023.

“(5) SPALLATION NEUTRON SOURCE PROTON POWER UPGRADE.—

“(A) **IN GENERAL.**—The Secretary shall provide for the proton power upgrade to the Spallation Neutron Source.

“(B) **PROTON POWER UPGRADE DEFINED.**—For the purposes of this paragraph, the term ‘proton power upgrade’ means the Spallation Neutron Source power upgrade described in—

“(i) the publication titled ‘Facilities for the Future of Science: A Twenty-Year Outlook’, published by the Office of Science of the Department of Energy in December, 2003;

“(ii) the publication titled ‘Four Years Later: An Interim Report on Facilities for the Future of Science: A Twenty-Year Outlook’, published by the Office of Science of the Department of Energy in August, 2007; and

“(iii) the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, titled ‘Report on Facility Upgrades’.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before July 30, 2028, with the option for early operation in 2025.

“(D) **FUNDING.**—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph \$49,800,000 for fiscal year 2022.

“(6) SPALLATION NEUTRON SOURCE SECOND TARGET STATION.—

“(A) **IN GENERAL.**—The Secretary shall provide for a second target station for the Spallation Neutron Source.

“(B) **SECOND TARGET STATION DEFINED.**—For the purposes of this paragraph, the term ‘second target station’ means the Spallation Neutron Source second target station described in—

“(i) the publication titled ‘Facilities for the Future of Science: A Twenty-Year Outlook’, published by the Office of Science of the Department of Energy in December, 2003;

“(ii) the publication titled ‘Four Years Later: An Interim Report on Facilities for the Future

of Science: A Twenty-Year Outlook', published by the Office of Science of the Department of Energy in August, 2007; and

“(iii) the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, titled ‘Report on Facility Upgrades’.

“(C) START OF OPERATIONS.—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the second target station under this paragraph occurs before December 31, 2033, with the option for early operation in 2029.

“(D) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the activities under this paragraph, including construction—

“(i) \$70,000,000 for fiscal year 2022;

“(ii) \$127,000,000 for fiscal year 2023;

“(iii) \$204,000,000 for fiscal year 2024;

“(iv) \$279,000,000 for fiscal year 2025; and

“(v) \$300,000,000 for fiscal year 2026.

“(7) ADVANCED LIGHT SOURCE UPGRADE.—

“(A) DEFINITIONS.—In this paragraph:

“(i) FLUX.—The term ‘flux’ means the rate of flow of photons.

“(ii) SOFT X-RAY.—The term ‘soft x-ray’ means a photon with energy in the range from 50 to 2,000 electron volts.

“(B) IN GENERAL.—The Secretary shall provide for the upgrade to the Advanced Light Source described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, titled ‘Report on Facility Upgrades’, including the development of a multibend achromat lattice to produce a high flux of coherent x-rays within the soft x-ray energy region.

“(C) START OF OPERATIONS.—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before September 30, 2029.

“(D) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph—

“(i) \$75,100,000 for fiscal year 2022;

“(ii) \$135,000,000 for fiscal year 2023;

“(iii) \$102,500,000 for fiscal year 2024;

“(iv) \$25,000,000 for fiscal year 2025; and

“(v) \$25,000,000 for fiscal year 2026.

“(8) LINAC COHERENT LIGHT SOURCE II HIGH ENERGY UPGRADE.—

“(A) DEFINITIONS.—In this paragraph:

“(i) HIGH ENERGY X-RAY.—The term ‘high energy x-ray’ means a photon with an energy in the 5 to 13 kiloelectron volt range.

“(ii) HIGH REPETITION RATE.—The term ‘high repetition rate’ means the delivery of x-ray pulses up to 1 million pulses per second.

“(iii) ULTRA-SHORT PULSE X-RAYS.—The term ‘ultra-short pulse x-rays’ means x-ray bursts capable of durations of less than 100 femtoseconds.

“(B) IN GENERAL.—The Secretary shall—

“(i) provide for the upgrade to the Linac Coherent Light Source II facility described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, titled ‘Report on Facility Upgrades’, including the development of experimental capabilities for high energy x-rays to reveal fundamental scientific discoveries; and

“(ii) ensure such upgrade enables the production and use of high energy, ultra-short pulse x-rays delivered at a high repetition rate.

“(C) START OF OPERATIONS.—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before December 31, 2026.

“(D) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph—

“(i) \$106,925,000 for fiscal year 2022;

“(ii) \$125,925,000 for fiscal year 2023;

“(iii) \$115,000,000 for fiscal year 2024;

“(iv) \$89,000,000 for fiscal year 2025; and

“(v) \$49,344,000 for fiscal year 2026.

“(9) CRYOMODULE REPAIR AND MAINTENANCE FACILITY.—

“(A) IN GENERAL.—The Secretary shall provide for the construction of a cryomodule repair and maintenance facility to service the Linac Coherent Light Source II and upgrades to the facility. The Secretary shall consult with the private sector, universities, National Laboratories, and relevant Federal agencies to ensure that this facility has the capability to maintain, repair, and test superconducting radiofrequency accelerator components.

“(B) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the activities under this paragraph—

“(i) \$19,000,000 for fiscal year 2022;

“(ii) \$25,000,000 for fiscal year 2023;

“(iii) \$25,000,000 for fiscal year 2024; and

“(iv) \$17,000,000 for fiscal year 2025.

“(10) NANOSCALE SCIENCE RESEARCH CENTER RECAPITALIZATION PROJECT.—

“(A) IN GENERAL.—The Secretary shall provide for the recapitalization of the Nanoscale Science Research Centers, to include the upgrade of equipment at each Center supported by the Office of Science on the date of enactment of the America COMPETES Act of 2022, to accelerate advances in the various fields of science including nanoscience, materials, chemistry, biology, and quantum information science.

“(B) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the recapitalization under this paragraph—

“(i) \$20,000,000 for fiscal year 2022;

“(ii) \$30,000,000 for fiscal year 2023;

“(iii) \$20,000,000 for fiscal year 2024; and

“(iv) \$20,000,000 for fiscal year 2025.”; and

(4) by adding at the end the following:

“(h) COMPUTATIONAL MATERIALS AND CHEMICAL SCIENCES.—

“(1) IN GENERAL.—The Director shall support a program of research and development for the application of advanced computing practices to foundational and emerging research problems in chemistry and materials science. Research activities shall include—

“(A) chemical catalysis research and development;

“(B) the use of large data sets to model materials phenomena, including through advanced characterization of materials, materials synthesis, processing, and innovative use of experimental and theoretical data;

“(C) co-design of chemical system and chemistry modeling software with advanced computing systems and hardware technologies; and

“(D) modeling of chemical processes, assemblies, and reactions such as molecular dynamics and quantum chemistry, including through novel computing methods.

“(2) COMPUTATIONAL MATERIALS AND CHEMICAL SCIENCES CENTERS.—

“(A) IN GENERAL.—In carrying out the activities authorized under paragraph (1), the Director shall select and establish up to six computational materials and chemical sciences centers to—

“(i) develop open-source, robust, and validated computational codes and user-friendly software, coupled with innovative use of experimental and theoretical data, to enable the design, discovery, and development of new materials and chemical systems; and

“(ii) focus on overcoming challenges and maximizing the benefits of exascale and other high performance computing underpinned by accelerated node technologies.

“(B) SELECTION.—The Director shall select centers under subparagraph (A) on a competitive, merit-reviewed basis. The Director shall consider applications from the National Laboratories, institutes of higher education, multi-institutional collaborations, and other appropriate entities.

“(C) DURATION.—

“(i) A center selected under subparagraph (A) shall receive support for a period of not more than 5 years beginning on the date of establishment of that center, subject to the availability of appropriations.

“(ii) A center already in existence on the date of enactment of the America COMPETES Act of 2022 may continue to receive support for a period of not more than 5 years beginning on the date of establishment of that center.

“(D) RENEWAL.—Upon the expiration of any period of support of a center under this subsection, the Director may renew support for the center, on a merit-reviewed basis, for a period of not more than 5 years.

“(E) TERMINATION.—Consistent with the existing authorities of the Department, the Director may terminate an underperforming center for cause during the performance period.

“(i) MATERIALS RESEARCH DATABASE.—

“(1) IN GENERAL.—The Director shall support the development of a web-based platform to develop and provide access to a database of computed information on known and predicted materials properties and computational tools to accelerate breakthroughs in materials discovery and design.

“(2) PROGRAM.—In carrying out this subsection, the Director shall—

“(A) conduct cooperative research with industry, academia, and other research institutions to advance understanding, prediction, and manipulation of materials and facilitate the design of novel materials;

“(B) develop and maintain data infrastructure at user facilities that generate data to collect, analyze, label, and otherwise prepare the data for inclusion in the database;

“(C) leverage existing high performance computing systems to conduct high throughput calculations, and develop computational and data mining algorithms for the prediction of material properties;

“(D) strengthen the foundation for new technologies and advanced manufacturing; and

“(E) drive the development of advanced materials for applications that span the Department's missions in energy, environment, and national security.

“(3) COORDINATION.—In carrying out this subsection, the Director shall leverage programs and activities across the Department, including computational materials and chemical sciences centers established under subsection (h).

“(4) FUNDING.—Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out activities under this subsection \$10,000,000 for each of the fiscal years 2022 through 2026.

“(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$2,727,705,000 for fiscal year 2022;

“(2) \$2,828,896,600 for fiscal year 2023;

“(3) \$3,019,489,612 for fiscal year 2024;

“(4) \$3,161,698,885 for fiscal year 2025; and

“(5) \$3,291,651,600 for fiscal year 2026.”.

(b) ARTIFICIAL PHOTOSYNTHESIS.—Section 973 of the Energy Policy Act of 2005 (42 U.S.C. 16313) is amended—

(1) in subsection (b), by striking paragraph (4) and inserting:

“(4) FUNDING.—From within funds authorized to be appropriated for Basic Energy Sciences, there are authorized to be appropriated to the Secretary for carrying out activities under this subsection \$50,000,000 for each of fiscal years 2022 through 2026.”; and

(2) in subsection (c), by striking paragraph (4) and inserting:

“(4) FUNDING.—From within funds authorized to be appropriated in section 316 of the Department of Energy Research and Innovation Act, there are authorized to be appropriated to the Secretary for carrying out activities under this

subsection \$50,000,000 for each of fiscal years 2022 through 2026.”.

(c) **ELECTRICITY STORAGE RESEARCH INITIATIVE.**—Section 975 of the Energy Policy Act of 2005 (42 U.S.C. 16315) is amended—

(1) in subsection (b), by striking paragraph (4) and inserting:

“(4) **FUNDING.**—From within funds authorized to be appropriated for Basic Energy Sciences, there are authorized to be appropriated to the Secretary for carrying out activities under this subsection \$50,000,000 for each of fiscal years 2022 through 2026.”;

(2) in subsection (c), by striking paragraph (4) and inserting:

“(4) **FUNDING.**—From within funds authorized to be appropriated in section 316 of the Department of Energy Research and Innovation Act, there are authorized to be appropriated to the Secretary for carrying out activities under this subsection \$50,000,000 for each of fiscal years 2022 through 2026.”; and

(3) in subsection (d), by striking paragraph (4) and inserting:

“(4) **FUNDING.**—From within funds authorized to be appropriated in section 316 of the Department of Energy Research and Innovation Act, there are authorized to be appropriated to the Secretary for carrying out activities under this subsection \$20,000,000 for each of fiscal years 2022 through 2026.”.

SEC. 10103. BIOLOGICAL AND ENVIRONMENTAL RESEARCH.

(a) **PROGRAM; BIOLOGICAL SYSTEMS; BIOMOLECULAR CHARACTERIZATION AND IMAGING SCIENCE.**—Section 306 of the Department of Energy Research and Innovation Act (42 U.S.C. 18644) is amended—

(1) by striking subsection (a) and inserting the following:

“(a) **PROGRAM.**—As part of the duties of the Director authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), and coordinated with the activities authorized under sections 303 and 304 of this Act, the Director shall carry out a program of research and development in the areas of biological systems science and climate and environmental science, including subsurface science, relevant to the development of new energy technologies and to support the energy, environmental, and national security missions of the Department.

“(b) **BIOLOGICAL SYSTEMS.**—The Director shall carry out research and development activities in genomic science including fundamental research on plants and microbes to increase systems-level understanding of the complex biological systems, which may include activities to—

“(1) accelerate breakthroughs and new knowledge that would enable the cost-effective, sustainable production of—

“(A) biomass-based liquid transportation fuels;

“(B) bioenergy; and

“(C) biobased materials from renewable biomass;

“(2) improve fundamental understanding of plant and microbial processes impacting the global carbon cycle, including processes for removing carbon dioxide from the atmosphere, through photosynthesis and other biological processes, for sequestration and storage;

“(3) understand the microbiome mechanisms used to transform, immobilize, or remove contaminants from subsurface environments;

“(4) develop the computational approaches and integrated platforms for open access collaborative science;

“(5) leverage tools and approaches across the Office of Science to expand research to include novel processes, methods, and science to develop bio-based chemicals, polymers, inorganic materials, including research to—

“(A) advance biosystems design research to advance the understanding of how CRISPR tools and other gene editing tools and technologies work in nature, in the laboratory, and in practice;

“(B) deepen genome-enabled knowledge of root architecture and growth in crops, including trees; and

“(C) develop biosystems design methods and tools to increase the efficiency of photosynthesis in plants; and

“(6) develop other relevant methods and processes as determined by the Director.

“(c) **BIOMOLECULAR CHARACTERIZATION AND IMAGING SCIENCE.**—The Director shall carry out research and development activities in biomolecular characterization and imaging science, including development of integrative imaging and analysis platforms and biosensors to understand the expression, structure, and function of genome information encoded within cells and for real-time measurements in ecosystems and field sites of relevance to the mission of the Department of Energy.”; and

(2) by redesignating subsections (b) through (d) as subsections (d) through (f), respectively.

(b) **BIOENERGY RESEARCH CENTERS.**—Section 977(f) of the Energy Policy Act of 2005 (42 U.S.C. 16317(f)) is amended to read as follows:

“(f) **BIOENERGY RESEARCH CENTERS.**—

“(1) **IN GENERAL.**—In carrying out the program under section 306(a) of the Department of Energy Research and Innovation Act (42 U.S.C. 18644(a)), the Director shall support up to six bioenergy research centers to conduct fundamental research in plant and microbial systems biology, biological imaging and analysis, and genomics, and to accelerate advanced research and development of biomass-based liquid transportation fuels, bioenergy, or biobased materials, chemicals, and products that are produced from a variety of regionally diverse feedstocks, and to facilitate the translation of research results to industry. The activities of the centers authorized under this subsection may include—

“(A) accelerating the domestication of bioenergy-relevant plants, microbes, and associated microbial communities to enable high-impact, value-added coproduct development at multiple points in the bioenergy supply chain;

“(B) developing the science and technological advances to ensure process sustainability is considered in the creation of biofuels and bioproducts from lignocellulose; and

“(C) using the latest tools in genomics, molecular biology, catalysis science, chemical engineering, systems biology, and computational and robotics technologies to sustainably produce and transform biomass into biofuels and bioproducts.

“(2) **SELECTION AND DURATION.**—

“(A) **IN GENERAL.**—A center established under paragraph (1) shall be selected on a competitive, merit-reviewed basis for a period of not more than 5 years, subject to the availability of appropriations, beginning on the date of establishment of that center.

“(B) **APPLICATIONS.**—The Director shall consider applications from National Laboratories, multi-institutional collaborations, and other appropriate entities.

“(C) **EXISTING CENTERS.**—A center already in existence on the date of enactment of the America COMPETES Act of 2022 may continue to receive support for a period of not more than 5 years beginning on the date of establishment of that center.

“(3) **RENEWAL.**—After the end of either period described in paragraph (2), the Director may renew support for the center for a period of not more than 5 years on a merit-reviewed basis. For a center in operation for 10 years after its previous selection on a competitive, merit-reviewed basis, the Director may renew support for the center on a competitive, merit-reviewed basis for a period of not more than 5 years, and may subsequently provide an additional renewal on a merit-reviewed basis for a period of not more than 5 years.

“(4) **TERMINATION.**—Consistent with the existing authorities of the Department, the Director may terminate an underperforming center for cause during the performance period.

“(5) **ACTIVITIES.**—Centers shall undertake research activities to accelerate the production of biofuels and bioproducts from advanced biomass resources by identifying the most suitable species of plants for use as energy crops; and improving methods of breeding, propagation, planting, producing, harvesting, storage and processing. Activities may include the following:

“(A) Research activities to increase sustainability, including—

“(i) advancing knowledge of how bioenergy crop interactions with biotic and abiotic environmental factors influence crop growth, yield, and quality;

“(ii) identifying the most impactful research areas that address the economics of biofuels and bioproducts production; and

“(iii) utilizing multiscale modeling to advance predictive understanding of biofuel cropping ecosystems.

“(B) Research activities to further feedstock development, including lignocellulosic, algal, gaseous wastes including carbon oxides and methane, and direct air capture of single carbon gases via plants and microbes, including—

“(i) developing genetic and genomic tools, high-throughput analytical tools, and biosystems design approaches to enhance bioenergy feedstocks and their associated microbiomes;

“(ii) conducting field testing of new potential bioenergy feedstock crops under environmentally benign and geographically diverse conditions to assess viability and robustness; and

“(iii) developing quantitative models informed by experimentation to predict how bioenergy feedstocks perform under diverse conditions.

“(C) Research activities to improve lignocellulosic deconstruction and separation methods, including—

“(i) developing feedstock-agnostic deconstruction processes capable of efficiently fractionating biomass into targeted output streams;

“(ii) gaining a detailed understanding of plant cell wall biosynthesis, composition, structure, and properties during deconstruction; and

“(iii) improving enzymes and approaches for biomass breakdown and cellulose, hemicellulose, and lignin processing.

“(D) Research activities to improve the feedstock conversion process for advanced biofuels and bioproducts, including—

“(i) developing high-throughput methods to screen or select high-performance microbial strains and communities to improve product formation rates, yields, and selectivity;

“(ii) establishing a broad set of platform microorganisms and microbial communities suitable for metabolic engineering to produce biofuels and bioproducts, as well as high-throughput methods for experimental validation of gene function;

“(iii) developing techniques to enhance microbial robustness for tolerating toxins to improve biofuel and bioproduct yields and to gain a better understanding of the cellular and molecular bases of tolerance for major chemical classes of inhibitors found in these processes;

“(iv) advancing technologies for the use of batch, continuous, as well as consolidated bioprocessing;

“(v) identifying, creating, and optimizing microbial and chemical pathways to produce promising, atom-economical intermediates and final bioproducts from biomass with considerations given to environmentally benign processes;

“(vi) developing high-throughput, real-time, in situ analytical techniques to understand and characterize the pre- and post-bioprocess separation streams in detail;

“(vii) creating methodologies for efficiently identifying viable target molecules, identifying high-value bioproducts in existing biomass streams, and utilizing current byproduct streams;

“(viii) identifying and improving plant feedstocks with enhanced extractable levels of desired bioproducts or bioproduct precursors, including lignin streams; and

“(ix) developing integrated biological and chemical catalytic approaches to valorize and produce a diverse portfolio of advanced fuels and bioproducts.

“(6) **INDUSTRY PARTNERSHIPS.**—Centers shall establish industry partnerships to translate research results to commercial applications.

“(7) **COORDINATION.**—In coordination with the Bioenergy Technologies Office of the Department, the Director shall support interdisciplinary research activities to improve the capacity, efficiency, resilience, security, reliability, and affordability, of the production and use of biofuels and bioproducts, as well as activities to enable positive impacts and avoid the potential negative impacts that the production and use of biofuels and bioproducts may have on ecosystems, people, and historically marginalized communities.”

(c) **LOW-DOSE RADIATION RESEARCH PROGRAM.**—Section 306(e)(8) of the Department of Energy Research and Innovation Act (42 U.S.C. 18644(e)(8)), as redesignated under subsection (a), is amended—

(1) in subparagraph (C), by striking “and”;

(2) in subparagraph (D), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

“(E) \$40,000,000 for fiscal year 2025; and

“(F) \$50,000,000 for fiscal year 2026.”

(d) **LOW-DOSE RADIATION AND SPACE RADIATION RESEARCH PROGRAM.**—Section 306(f) of the Department of Energy Research and Innovation Act (42 U.S.C. 18644(d)), as redesignated under subsection (a), is amended to read as follows:

“(f) **LOW-DOSE RADIATION AND SPACE RADIATION RESEARCH PROGRAM.**—

“(1) **IN GENERAL.**—The Secretary of Energy, in consultation with the Administrator of the National Aeronautics and Space Administration, shall carry out a basic research program on the similarities and differences between the effects of exposure to low-dose radiation on Earth, in low Earth orbit, and in the space environment.

“(2) **PURPOSE.**—The purpose of this program is to accelerate breakthroughs in low-dose and low dose-rate radiation research and development as described in subsection (e) and to inform the advancement of new tools, technologies, and advanced materials needed to facilitate long-duration space exploration.”

(e) **CLIMATE, ENVIRONMENTAL SCIENCE, AND OTHER ACTIVITIES.**—Section 306 of the Department of Energy Research and Innovation Act (42 U.S.C. 18644) is further amended by adding at the end the following:

“(g) **EARTH AND ENVIRONMENTAL SYSTEMS SCIENCES ACTIVITIES.**—

“(1) **IN GENERAL.**—As part of the activities authorized under subsection (a), and in coordination with activities carried out under subsection (b), the Director shall carry out earth and environmental systems science research, in consultation with the National Oceanic and Atmospheric Administration and other relevant agencies, which may include activities to—

“(A) understand, observe, and model the response of Earth’s atmosphere and biosphere to increased concentrations of greenhouse gas emissions and any associated changes in climate, including frequency and intensity of extreme weather events;

“(B) understand the coupled physical, chemical, and biological processes to transform, immobilize, remove, or move carbon, nitrogen, and other energy production-derived contaminants such as radionuclides and heavy metals, and understand the process of sequestration and transformation of these, carbon dioxide, and other relevant molecules in subsurface environments;

“(C) understand, observe, and model the cycling of water, carbon, and nutrients in terrestrial systems and at scales relevant to resources management;

“(D) understand the biological, biogeochemical, and physical processes across the mul-

multiple scales that control the flux of environmentally relevant compounds between the terrestrial surface and the atmosphere; and

“(E) inform potential natural mitigation and adaptation options for increased concentrations of greenhouse gas emissions and any associated changes in climate.

“(2) **PRIORITIZATION.**—In carrying out the program authorized under paragraph (1), the Director shall prioritize—

“(A) the development of software and algorithms to enable the productive application of environmental systems and extreme weather in climate and Earth system prediction models in high-performance computing systems; and

“(B) capabilities that support the Department’s mission needs for energy and infrastructure security, resilience, and reliability.

“(3) **ENVIRONMENTAL SYSTEMS SCIENCE RESEARCH.**—

“(A) **IN GENERAL.**—As part of the activities described in paragraph (1), the Director shall carry out research to advance an integrated, robust, and scale-aware predictive understanding of environmental systems, including the role of hydrobiogeochemistry, from the subsurface to the top of the vegetative canopy that considers effects of seasonal to interannual variability and change.

“(B) **CLEAN WATER AND WATERSHED RESEARCH.**—As part of the activities described in subparagraph (A), the Director shall—

“(i) support interdisciplinary research to significantly advance our understanding of water availability, quality, and the impact of human activity and a changing climate on urban and rural watershed systems, including in freshwater environments;

“(ii) consult with the Interagency Research, Development, and Demonstration Coordination Committee on the Nexus of Energy and Water for Sustainability established under section 1010 of the Energy Act of 2020 (division Z of the Consolidated Appropriations Act, 2021 (Public Law 116–260)) on energy-water nexus research activities; and

“(iii) engage with representatives of research and academic institutions, nonprofit organizations, State, territorial, local, and tribal governments, and industry, who have expertise in technologies, technological innovations, or practices relating to the energy-water nexus, as applicable.

“(C) **COORDINATION.**—

“(i) **DIRECTOR.**—The Director shall carry out activities under this paragraph in accordance with priorities established by the Secretary to support and accelerate the decontamination of relevant facilities managed by the Department.

“(ii) **SECRETARY.**—The Secretary shall ensure the coordination of activities of the Department, including activities under this paragraph, to support and accelerate the decontamination of relevant facilities managed by the Department.

“(4) **CLIMATE AND EARTH MODELING.**—As part of the activities described in paragraph (1), the Director, in collaboration with the Advanced Scientific Computing Research program described in section 304 and other programs carried out by the Department, as applicable, and in consultation with the National Oceanic and Atmospheric Administration and other relevant agencies, shall carry out research to develop, evaluate, and use high-resolution regional climate, global climate, Earth system, and other relevant models to inform decisions on reducing greenhouse gas emissions and the resulting impacts of a changing global climate. Such modeling shall include—

“(A) integrated capabilities for modeling multisectoral interactions, including socioeconomic factors as appropriate, which may include the impacts of climate policies on social and regional equity and well-being, and the interdependencies and risks at the energy-water-land nexus;

“(B) greenhouse gas emissions, air quality, energy supply and demand, and other critical elements; and

“(C) interaction among human and Earth systems informed by interdisciplinary research, including the economic and social sciences.

“(5) **MID-SCALE FUNDING MECHANISM.**—

“(A) **IN GENERAL.**—Any of the activities authorized in this subsection may be carried out by competitively selected mid-scale, multi-institutional research centers in lieu of individual research grants, or large-scale experiments or user facilities.

“(B) **CONSIDERATION.**—The Biological and Environmental Research Advisory Committee shall provide recommendations to the Director on projects most suitable for the research centers described in subparagraph (A).

“(h) **BIOLOGICAL AND ENVIRONMENTAL RESEARCH USER FACILITIES.**—

“(1) **IN GENERAL.**—The Director shall carry out a program for the development, construction, operation, and maintenance of user facilities to enhance the collection and analysis of observational data related to complex biological, climate, and environmental systems.

“(2) **FACILITY REQUIREMENTS.**—To the maximum extent practicable, the user facilities developed, constructed, operated, or maintained under paragraph (1) shall include—

“(A) distributed field research and observation platforms for understanding earth system processes;

“(B) analytical techniques, instruments, and modeling resources for understanding the physical, chemical, and cellular processes of biological and environmental systems;

“(C) integrated high-throughput sequencing, advanced bioanalytic techniques, DNA design and synthesis, metabolomics, and computational analysis; and

“(D) such other facilities as the Director considers appropriate, consistent with section 209 of the Department of Energy Organization Act (42 U.S.C. 7139).

“(3) **EXISTING FACILITIES.**—In carrying out the program established in paragraph (1), the Director is encouraged to evaluate the capabilities of existing user facilities and, to the maximum extent practicable, invest in modernization of those capabilities to address emerging research priorities.

“(4) **USER FACILITIES INTEGRATION AND COLLABORATION PROGRAM.**—

“(A) **IN GENERAL.**—The Director shall support a program of collaboration between user facilities as defined under this subsection to encourage and enable researchers to more readily integrate the tools, expertise, resources, and capabilities of multiple Office of Science user facilities (as described in section 209(d) of the Department of Energy Organization Act (42 U.S.C. 7139)) to further research and advance emerging technologies.

“(B) **ACTIVITIES.**—The program shall advance the integration of automation, robotics, computational biology, bioinformatics, biosensing, cellular platforms and other relevant emerging technologies as determined by the Director to enhance productivity and scientific impact of user facilities.

“(5) **EARTH AND ENVIRONMENTAL SYSTEMS SCIENCES USER FACILITIES.**—

“(A) **IN GENERAL.**—In carrying out the activities authorized under paragraph (1), the Director shall establish and operate user facilities to advance the collection, validation, and analysis of atmospheric data, including activities to advance knowledge and improve model representations and measure the impact of atmospheric gases, aerosols, and clouds on earth and environmental systems.

“(B) **SELECTION.**—The Director shall select user facilities under paragraph (1) on a competitive, merit-reviewed basis. The Director shall consider applications from the National Laboratories, institutes of higher education, multi-institutional collaborations, and other appropriate entities.

“(C) **EXISTING FACILITIES.**—To the maximum extent practicable, the Director shall utilize existing facilities to carry out this subsection.

“(6) COORDINATION.—In carrying out the program authorized in paragraph (1), the Director shall ensure that the Office of Science—

“(A) consults and coordinates with the National Oceanic Atmospheric Administration, the Environmental Protection Agency, the National Aeronautics and Space Administration, the Department of Agriculture, the Department of the Interior, and any other relevant Federal agency on the collection, validation, and analysis of atmospheric data; and

“(B) coordinates with relevant stakeholders, including institutes of higher education, non-profit research institutions, industry, State, territorial, local, and tribal governments, and other appropriate entities to ensure access to the best available relevant atmospheric and historical weather data.

“(i) COASTAL ZONE RESEARCH INITIATIVE.—

“(1) IN GENERAL.—The Director shall carry out a research program, in consultation with the National Oceanic and Atmospheric Administration, to enhance the understanding of coastal ecosystems. In carrying out this program, the Director shall prioritize efforts to enhance the collection of observational data, and shall develop models to analyze the ecological, biogeochemical, hydrological and physical processes that interact in coastal zones.

“(2) NATIONAL SYSTEM FOR COASTAL DATA COLLECTION.—The Director shall establish, in consultation with the National Oceanic and Atmospheric Administration and other relevant agencies, an integrated system of geographically diverse field research sites in order to improve the quantity and quality of observational data, and that encompass the major land water interfaces of the United States, including—

“(A) the Great Lakes region;

“(B) the Pacific coast;

“(C) the Atlantic coast;

“(D) the Arctic; and

“(E) the Gulf coast.

“(3) EXISTING INFRASTRUCTURE.—In carrying out the programs and establishing the field research sites under paragraph (1) and (2), the Secretary shall leverage existing research and development infrastructure supported by the Department, including the Department's existing marine and coastal research lab.

“(4) COORDINATION.—For the purposes of carrying out the programs and establishing the field research sites under the Initiative, the Secretary may enter into agreements with Federal Departments and agencies with complementary capabilities.

“(5) REPORT.—Not less than 2 years after the date of the enactment of the America COMPETES Act of 2022, the Director shall provide to the Committee on Science, Space, and Technology and the Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate a report examining whether the system described in this section should be established as a National User Facility.

“(j) TECHNOLOGY DEVELOPMENT.—The Director shall support a technology research program for the development of instrumentation and other research tools required to meet the missions of the Department and to provide platform technologies for the broader scientific community. Technologies shall include but are not limited to—

“(1) cryo-electron microscopy;

“(2) fabricated ecosystems;

“(3) next generation sensors including quantum sensors for biological integration and bio-production;

“(4) technologies to accelerate data analysis; and

“(5) plant and microbial phenotyping for gene discovery.

“(k) EMERGING TECHNOLOGIES.—

“(1) IN GENERAL.—The Secretary shall establish within the Biological and Environmental Research program an initiative focused on the

development of engineered ecosystems through the application of artificial intelligence, novel sensing capabilities, and other emerging technologies.

“(2) INTERAGENCY COORDINATION.—The Secretary shall coordinate with the Director of the National Science Foundation, the Administrator of the National Oceanic and Atmospheric Administration, the Director of the U.S. Geological Survey, and other relevant officials to avoid duplication of research and observational activities and to ensure that activities carried out under this initiative are complimentary to those currently being undertaken by other agencies.

“(3) REPORT.—Not later than 180 days after the enactment of this Act, the Secretary shall provide a report to the Committee on Science, Space, and Technology of the House, and the Committee on Energy and Natural Resources of the Senate, on the activity mandated in subsection (k).

“(l) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$820,360,000 for fiscal year 2022;

“(2) \$886,385,200 for fiscal year 2023;

“(3) \$956,332,164 for fiscal year 2024;

“(4) \$1,020,475,415 for fiscal year 2025; and

“(5) \$1,099,108,695 for fiscal year 2026.”

SEC. 10104. ADVANCED SCIENTIFIC COMPUTING RESEARCH PROGRAM.

(a) ADVANCED SCIENTIFIC COMPUTING RESEARCH.—Section 304 of the Department of Energy Research and Innovation Act (42 U.S.C. 18642) is amended—

(1) by redesignating subsections (a) through (c) as subsections (b) through (d), respectively; and

(2) by inserting before subsection (b), as so redesignated, the following:

“(a) IN GENERAL.—As part of the activities authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), the Director shall carry out, in coordination with academia and relevant public and private sector entities, a research, development, and demonstration program to—

“(1) steward applied mathematics, computational science, and computer science research relevant to the missions of the Department and the competitiveness of the United States;

“(2) develop modeling, simulation, and other computational tools relevant to other scientific disciplines and to the development of new energy technologies and other technologies;

“(3) advance computing and networking capabilities for data-driven discovery; and

“(4) develop advanced scientific computing hardware and software tools for science and engineering.”

(3) in subsection (c) (as redesignated under paragraph (1))—

(A) by striking “The Director” and inserting the following:

“(1) DIRECTOR.—The Director”; and

(B) by adding at the end the following:

“(2) COORDINATION.—The Under Secretary for Science shall ensure the coordination of the activities of the Department, including activities under this section, to determine and meet the computational and networking research and facility needs of the Office of Science and all other relevant energy technology and energy efficiency programs within the Department and with other Federal agencies as appropriate.”

(4) by amending subsection (d), as so redesignated, to read as follows:

“(d) APPLIED MATHEMATICS AND SOFTWARE DEVELOPMENT FOR HIGH-END COMPUTING SYSTEMS AND COMPUTER SCIENCES RESEARCH.—

“(1) IN GENERAL.—The Director shall carry out activities to develop, test, and support—

“(A) mathematics, statistics, and algorithms for modeling complex systems relevant to the missions of the Department, including on advanced computing architectures; and

“(B) tools, languages, programming environments, and operations for high-end computing

systems (as defined in section 2 of the American Super Computing Leadership Act (15 U.S.C. 5541).

“(2) PORTFOLIO BALANCE.—

“(A) IN GENERAL.—The Director shall maintain a balanced portfolio within the advanced scientific computing research and development program established under section 976 of the Energy Policy Act of 2005 (42 U.S.C. 16316) that supports robust investment in—

“(i) applied mathematical, computational, and computer sciences research needs relevant to the mission of the Department, including foundational areas that are critical to the advancement of energy sciences and technologies and new and emerging computing technologies; and

“(ii) associated high-performance computing hardware and facilities.

“(B) EXASCALE ECOSYSTEM SUSTAINMENT.—

“(i) SENSE OF CONGRESS.—It is the sense of Congress that the Exascale Computing Project has successfully created a broad ecosystem that provides shared software packages, novel evaluation systems, and applications relevant to the science and engineering requirements of the Department, and that such products must be maintained and improved in order that the full potential of the deployed systems can be continuously realized.

“(ii) IN GENERAL.—The Secretary shall seek to sustain and evolve the ecosystem referenced in clause (i) to ensure that the exascale software stack and other research software will continue to be maintained, hardened, and otherwise optimized for long-term use on exascale systems and beyond and reliable availability to the user community.”; and

(5) by inserting after subsection (d) the following:

“(e) NEXT GENERATION COMPUTING PROGRAM.—

“(1) IN GENERAL.—The Secretary shall establish a program to develop and implement a strategy for achieving computing systems with capabilities beyond exascale computing systems. In establishing this program, the Secretary shall—

“(A) maintain foundational research programs in mathematical, computational, and computer sciences focused on new and emerging computing needs within the mission of the Department, including post-Moore's law computing architectures, novel approaches to modeling and simulation, artificial intelligence and scientific machine learning, quantum computing, edge computing, extreme heterogeneity, and distributed high-performance computing;

“(B) retain best practices and maintain support for essential hardware, applications, and software elements of the Exascale Computing Program that are necessary for sustaining the vitality of a long-term capable software ecosystem for exascale and beyond; and

“(C) develop a Department-wide strategy for balancing on-premises and cloud-based computing and scientific data management.

“(2) REPORT.—Not later than one year after the date of the enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, a report on the development and implementation of the strategy outlined in paragraph (1).

“(f) ARCHITECTURAL RESEARCH IN HETEROGENEOUS COMPUTING SYSTEMS.—

“(1) IN GENERAL.—The Secretary shall carry out a program of research and development in heterogeneous and reconfigurable computing systems to expand understanding of the potential for heterogeneous and reconfigurable computing systems to deliver high performance, high efficiency computing for Department of Energy mission challenges. This shall include research and development that explores the convergence of big data analytics, simulations, and artificial intelligence to drive the design of heterogeneous computing system architectures.

“(2) COORDINATION.—In carrying out this program, the Secretary shall ensure coordination between research activities undertaken by the Advanced Scientific Computing Research program and materials research supported by the Basic Energy Sciences program within the Department of Energy Office of Science.

“(g) ENERGY EFFICIENT COMPUTING PROGRAM.—

“(1) IN GENERAL.—The Secretary shall support a program of fundamental research, development, and demonstration of energy efficient computing and data center technologies relevant to advanced computing applications, including high performance computing, artificial intelligence, and scientific machine learning.

“(2) EXECUTION.—

“(A) PROGRAM.—In carrying out the program under paragraph (1), the Secretary shall—

“(i) establish a partnership for National Laboratories, industry partners, and institutions of higher education for codesign of energy efficient hardware, technology, software, and applications across all applicable program offices of the Department, and provide access to energy efficient computing resources to such partners;

“(ii) develop hardware and software technologies that decrease the energy needs of advanced computing practices, including through data center co-design;

“(iii) consider multiple heterogeneous computing architectures in collaboration with the program established under subsection (f) including neuromorphic computing, persistent computing, and ultrafast networking; and

“(iv) provide, as appropriate, on a competitive, merit-reviewed basis, access for researchers from institutions of higher education, National Laboratories, industry, and other Federal agencies to the energy efficient computing technologies developed pursuant to clause (i).

“(B) SELECTION OF PARTNERS.—In selecting participants for the partnership established under subparagraph (A)(i), the Secretary shall select participants through a competitive, merit review process.

“(C) REPORT.—Not later than one year after the date of the enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, a report on—

“(i) the activities conducted under subparagraph (A); and

“(ii) the coordination and management of the program under subparagraph (A) to ensure an integrated research program across the Department.

“(h) ENERGY SCIENCES NETWORK.—

“(1) IN GENERAL.—The Secretary shall provide for upgrades to the Energy Sciences Network user facility in order to meet the research needs of the Department for highly reliable data transport capabilities optimized for the requirements of large-scale science.

“(2) CAPABILITIES.—In carrying out paragraph (1), the Secretary shall ensure the following capabilities:

“(A) To provide high bandwidth scientific networking across the continental United States and the Atlantic Ocean.

“(B) To ensure network reliability.

“(C) To protect the network infrastructure from cyber-attacks.

“(D) To manage transport of exponentially increasing levels of data from the Department's National Laboratories and sites, user facilities, experiments, and sensors.

“(E) To contribute to the integration of heterogeneous computing frameworks and systems.

“(i) COMPUTATIONAL SCIENCE GRADUATE FELLOWSHIP.—

“(1) IN GENERAL.—The Secretary shall support the Computational Science Graduate Fellowship program in order to facilitate collaboration between graduate students and researchers at the National Laboratories, and contribute to the de-

velopment of a diverse and inclusive computational workforce to help advance research in areas relevant to the mission of the Department.

“(2) FUNDING.—From within funds authorized to be appropriated for Advanced Scientific Computing Research Program, there are authorized to be appropriated to the Secretary for carrying out the activities under this section—

“(A) \$21,000,000 for fiscal year 2022;

“(B) \$22,050,000 for fiscal year 2023;

“(C) \$23,152,500 for fiscal year 2024;

“(D) \$24,310,125 for fiscal year 2025; and

“(E) \$25,525,631 for fiscal year 2026.

“(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$1,126,350,000 for fiscal year 2022;

“(2) \$1,222,674,500 for fiscal year 2023;

“(3) \$1,324,320,715 for fiscal year 2024;

“(4) \$1,431,660,115 for fiscal year 2025; and

“(5) \$1,535,090,121 for fiscal year 2026.”.

(b) QUANTUM SCIENCE NETWORK.—

(1) DEFINITIONS.—Section 2 of the National Quantum Initiative Act (15 U.S.C. 8801) is amended—

(A) by redesignating paragraph (7) as paragraph (8); and

(B) by inserting after paragraph (6) the following:

“(7) QUANTUM NETWORK INFRASTRUCTURE.—The term ‘quantum network infrastructure’ means any facility, expertise, or capability that is necessary to enable the development and deployment of scalable and diverse quantum network technologies.”.

(2) DEPARTMENT OF ENERGY QUANTUM NETWORK INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.—(A) Title IV of the National Quantum Initiative Act (15 U.S.C. 8851 et seq.) is amended by adding at the end the following:

“SEC. 403. DEPARTMENT OF ENERGY QUANTUM NETWORK INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

“(a) IN GENERAL.—The Secretary of Energy (referred to in this section as the ‘Secretary’) shall carry out a research, development, and demonstration program to accelerate innovation in quantum network infrastructure in order to—

“(1) facilitate the advancement of distributed quantum computing systems through the internet and intranet;

“(2) improve the precision of measurements of scientific phenomena and physical imaging technologies;

“(3) develop secure national quantum communications technologies and strategies; and

“(4) demonstrate these capabilities utilizing the Department of Energy's Energy Sciences Network User Facility.

“(b) PROGRAM.—In carrying out this section, the Secretary shall—

“(1) coordinate with—

“(A) the Director of the National Science Foundation;

“(B) the Director of the National Institute of Standards and Technology;

“(C) the Chair of the Subcommittee on Quantum Information Science of the National Science and Technology Council established under section 103(a); and

“(D) the Chair of the Subcommittee on the Economic and Security Implications of Quantum Science;

“(2) conduct cooperative research with industry, National Laboratories, institutions of higher education, and other research institutions to facilitate new quantum infrastructure methods and technologies, including—

“(A) quantum-limited detectors, ultra-low loss optical channels, space-to-ground connections, and classical networking and cybersecurity protocols;

“(B) entanglement and hyper-entangled state sources and transmission, control, and measurement of quantum states;

“(C) quantum interconnects that allow short range local connections between quantum processors;

“(D) transducers for quantum sources and signals between optical and telecommunications regimes and quantum computer-relevant domains, including microwaves;

“(E) development of quantum memory buffers and small-scale quantum computers that are compatible with photon-based quantum bits in the optical or telecommunications wavelengths;

“(F) long-range entanglement distribution at both the terrestrial and space-based level using quantum repeaters, allowing entanglement-based protocols between small- and large scale quantum processors;

“(G) quantum routers, multiplexers, repeaters, and related technologies necessary to create secure long-distance quantum communication; and

“(H) integration of systems across the quantum technology stack into traditional computing networks, including the development of remote controlled, high performance, and reliable implementations of key quantum network components by leveraging the expertise, infrastructure and supplemental investments in the Energy Sciences Network User Facility;

“(3) engage with the Quantum Economic Development Consortium (QED-C) to transition component technologies to help facilitate as appropriate the development of a quantum supply chain for quantum network technologies;

“(4) advance basic research in advanced scientific computing, particle and nuclear physics, and material science to enhance the understanding, prediction, and manipulation of materials, processes, and physical phenomena relevant to quantum network infrastructure;

“(5) develop experimental tools and testbeds in collaboration with the Department of Energy's Energy Sciences Network User Facility necessary to support cross-cutting fundamental research and development activities with diverse stakeholders from industry, National Laboratories, and institutions of higher education; and

“(6) consider quantum network infrastructure applications that span the Department of Energy's missions in energy, environment, and national security.

“(c) LEVERAGING.—In carrying out this section, the Secretary shall leverage resources, infrastructure, and expertise across the Department of Energy and from—

“(1) the National Institute of Standards and Technology;

“(2) the National Science Foundation;

“(3) the National Aeronautics and Space Administration;

“(4) other relevant Federal agencies;

“(5) the National Laboratories;

“(6) industry stakeholders;

“(7) institutions of higher education; and

“(8) the National Quantum Information Science Research Centers.

“(d) RESEARCH PLAN.—Not later than 180 days after the date of the enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a 4-year research plan that identifies and prioritizes basic research needs relating to quantum network infrastructure.

“(e) STANDARD OF REVIEW.—The Secretary shall review activities carried out under this section to determine the achievement of technical milestones.

“(f) FUNDING.—Out of funds authorized to be appropriated for the Department of Energy's Office of Science, there shall be made available to the Secretary to carry out the activities under this section, \$100,000,000 for each of fiscal years 2022 through 2026.

“SEC. 404. DEPARTMENT OF ENERGY QUANTUM USER EXPANSION FOR SCIENCE AND TECHNOLOGY PROGRAM.

“(a) IN GENERAL.—The Secretary of Energy (referred to in this section as the ‘Secretary’) shall establish and carry out a program (to be

known as the ‘Quantum User Expansion for Science and Technology program’ or ‘QUEST program’) to encourage and facilitate access to United States quantum computing hardware and quantum computing clouds for research purposes to—

“(1) enhance the United States quantum research enterprise;

“(2) educate the future quantum computing workforce; and

“(3) accelerate the advancement of United States quantum computing capabilities.

“(b) PROGRAM.—In carrying out this section, the Secretary shall—

“(1) coordinate with—

“(A) the Director of the National Science Foundation;

“(B) the Director of the National Institute of Standards and Technology;

“(C) the Chair of the Subcommittee on Quantum Information Science of the National Science and Technology Council established under section 103(a); and

“(D) the Chair of the Subcommittee on the Economic and Security Implications of Quantum Science;

“(2) provide researchers based within the United States with access to, and use of, United States quantum computing resources through a competitive, merit-reviewed process;

“(3) consider applications from the National Laboratories, multi-institutional collaborations, institutions of higher education, industry stakeholders, and any other entities that the Secretary determines are appropriate to provide national leadership on quantum computing related issues; and

“(4) consult and coordinate with private sector stakeholders, the user community, and interagency partners on program development and best management practices.

“(c) LEVERAGING.—In carrying out this section, the Secretary shall leverage resources and expertise across the Department of Energy and from—

“(1) the National Institute of Standards and Technology;

“(2) the National Science Foundation;

“(3) the National Aeronautics and Space Administration;

“(4) other relevant Federal agencies;

“(5) the National Laboratories;

“(6) industry stakeholders;

“(7) institutions of higher education; and

“(8) the National Quantum Information Science Research Centers.

“(d) SECURITY.—In carrying out the activities authorized by this section, the Secretary, in consultation with the Director of the National Science Foundation and the Director of the National Institute of Standards and Technology, shall ensure proper security controls are in place to protect sensitive information, as appropriate.

“(e) FUNDING.—Out of funds authorized to be appropriated for the Department of Energy’s Office of Science, there are authorized to be appropriated to the Secretary to carry out the activities under this section—

“(1) \$30,000,000 for fiscal year 2022;

“(2) \$50,000,000 for fiscal year 2023;

“(3) \$70,000,000 for fiscal year 2024;

“(4) \$90,000,000 for fiscal year 2025; and

“(5) \$100,000,000 for fiscal year 2026.

“(f) EQUITABLE USE OF HIGH-PERFORMANCE COMPUTING CAPABILITIES.—

“(1) SENSE OF CONGRESS.—It is the sense of Congress that machine learning algorithms can exhibit biases that cause harm to historically marginalized communities.

“(2) POLICY.—In leveraging high-performance computing systems for research purposes, including through the use of machine learning algorithms for data analysis, the Secretary shall ensure that such capabilities are employed in a manner that mitigates and, to the maximum extent practicable, avoids harmful algorithmic bias and equitably addresses challenges impacting

different populations, including historically marginalized communities.”.

(B) The table of contents in section 1(b) of the National Quantum Initiative Act is amended by inserting after the item relating to section 402 the following items:

“Sec. 403. Department of energy quantum network infrastructure research and development program.

“Sec. 404. Department of energy quantum user expansion for science and technology program.”.

SEC. 10105. FUSION ENERGY RESEARCH.

(a) FUSION ENERGY RESEARCH.—Section 307 of the Department of Energy Research and Innovation Act (42 U.S.C. 18645) is amended—

(1) in subsection (b)—

(A) in the matter preceding paragraph (1), by striking “As part of” and inserting the following:

“(1) IN GENERAL.—As part of”;

(B) by redesignating—

(i) paragraphs (1) and (2) as subparagraphs (A) and (B), respectively (and by adjusting the margins of such subparagraphs accordingly); and

(ii) in subparagraph (B) (as redesignated by clause (i)), subparagraphs (A) and (B) as clauses (i) and (ii), respectively (and by adjusting the margins of such clauses accordingly); and

(C) by adding at the end the following:

“(2) AUTHORIZATION OF APPROPRIATIONS.—Out of funds authorized to be appropriated under subsection (r), there are authorized to be appropriated to the Secretary to carry out activities described in paragraph (1) \$50,000,000 for each of fiscal years 2022 through 2026.”;

(2) in subsection (d)(3)—

(A) by striking the period at the end and inserting “and \$40,000,000 for fiscal year 2026.”; and

(B) by striking “(o)” and inserting “(r)”;

(3) in subsection (e)(4)—

(A) by striking the period at the end and inserting “and \$75,000,000 for fiscal year 2026.”; and

(B) by striking “(o)” and inserting “(r)”;

(4) in subsection (i)(10)—

(A) in the matter preceding subparagraph (A), by striking “(o)” and inserting “(r)”;

(B) in subparagraph (D), by striking “; and” and inserting a semicolon;

(C) in subparagraph (E), by striking the period at the end and inserting “; and”;

(D) by adding at the end the following:

“(F) \$45,000,000 for fiscal year 2026.”;

(5) in subsection (j)—

(A) by striking “The Director” and all that follows through the period and inserting the following:

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Within 180 days of enactment of the America COMPETES Act of 2022, the Director shall establish at least 2 national teams, including public-private partnerships, that will develop conceptual pilot plant designs and technology roadmaps and lead to an engineering design of a pilot plant that will bring fusion to commercial viability.

“(B) COMPOSITION.—The national teams shall be composed of developers, manufacturers, universities, national laboratories, and engineering, procurement, and construction industries.”; and

(B) by adding at the end the following:

“(2) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out activities described in paragraph (1)—

“(A) \$20,000,000 for fiscal year 2022;

“(B) \$35,000,000 for fiscal year 2023;

“(C) \$50,000,000 for fiscal year 2024;

“(D) \$65,000,000 for fiscal year 2025; and

“(E) \$80,000,000 for fiscal year 2026.”;

(6) in subsection (l)—

(A) by striking “sense of Congress that the United States should support” and inserting “sense of Congress that—”;

“(1) the United States should support”;

(B) in paragraph (1) (as so designated by subparagraph (A) of this paragraph), by striking the period at the end and inserting “; and”;

(C) by adding at the end the following:

“(2) the Director shall incorporate the findings and recommendations of the report of the Fusion Energy Sciences Advisory Committee entitled ‘Powering the Future: Fusion and Plasmas’ and the report of the National Academies of Science, Engineering, and Medicine entitled ‘Bringing Fusion to the U.S. Grid’ into the planning process of the Department, including the development of future budget requests to Congress.”.

(7) by redesignating subsection (o) as subsection (r);

(8) by inserting after subsection (n) the following:

“(o) HIGH-PERFORMANCE COMPUTATION COLLABORATIVE RESEARCH PROGRAM.—

“(1) IN GENERAL.—The Secretary shall carry out a program to conduct and support collaborative research, development, and demonstration of fusion energy technologies, through high-performance computation modeling and simulation techniques, in order to—

“(A) support fundamental research in plasmas and matter at very high temperatures and densities;

“(B) inform the development of a broad range of fusion energy systems; and

“(C) facilitate the translation of research results in fusion energy science to industry.

“(2) COORDINATION.—In carrying out the program under paragraph (1), the Secretary shall coordinate with relevant Federal agencies, and prioritize the following objectives:

“(A) Using expertise from the private sector, institutions of higher education, and the National Laboratories to leverage existing, and develop new, computational software and capabilities that prospective users may use to accelerate research and development of fusion energy systems.

“(B) Developing computational tools to simulate and predict fusion energy science phenomena that may be validated through physical experimentation.

“(C) Increasing the utility of the research infrastructure of the Department by coordinating with the Advanced Scientific Computing Research program within the Office of Science.

“(D) Leveraging experience from existing modeling and simulation entities sponsored by the Department.

“(E) Ensuring that new experimental and computational tools are accessible to relevant research communities, including private sector entities engaged in fusion energy technology development.

“(F) Ensuring that newly developed computational tools are compatible with modern virtual engineering and visualization capabilities to accelerate the realization of fusion energy technologies and systems.

“(3) DUPLICATION.—The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of this program with the activities of—

“(A) other research entities of the Department, including the National Laboratories, the Advanced Research Projects Agency–Energy, the Advanced Scientific Computing Research program; and

“(B) industry.

“(4) HIGH-PERFORMANCE COMPUTING FOR FUSION INNOVATION CENTER.—In carrying out the program under paragraph (1), the Secretary shall, in coordination with the Innovation Network for Fusion Energy, establish and operate a national High-Performance Computing for Fusion Innovation Center (referred to in this subsection as the ‘Center’), to support the program under paragraph (1) by providing, to the extent practicable, a centralized entity for multidisciplinary, collaborative, fusion energy research and development through high performance

computing and advanced data analytics technologies and processes.

“(5) **SELECTION.**—The Secretary shall select the Center under this subsection on a competitive, merit-reviewed basis. The Secretary shall consider applications from National Laboratories, institutions of higher education, multi-institutional collaborations, and other appropriate entities.

“(6) **EXISTING ACTIVITIES.**—The Center may incorporate existing research activities that are consistent with the program described in paragraph (1).

“(7) **DURATION.**—The Center established under this subsection shall receive support for a period of not more than 5 years, subject to the availability of appropriations.

“(8) **RENEWAL.**—Upon the expiration of any period of support of the Center, the Secretary may renew support for the Center, on a merit-reviewed basis, for a period of not more than 5 years.

“(9) **TERMINATION.**—Consistent with the existing authorities of the Department, the Secretary may terminate the Center for cause during the performance period.

“(p) **MATERIAL PLASMA EXPOSURE EXPERIMENT.**—

“(1) **IN GENERAL.**—The Secretary shall construct a Material Plasma Exposure Experiment facility as described in the 2020 publication approved by the Fusion Energy Sciences Advisory Committee titled ‘Powering the Future: Fusion and Plasmas’. The Secretary shall consult with the private sector, universities, National Laboratories, and relevant Federal agencies to ensure that this facility is capable of meeting Federal research needs for steady state, high-heat-flux and plasma-material interaction testing of fusion materials over a range of fusion energy relevant parameters.

“(2) **FACILITY CAPABILITIES.**—The Secretary shall ensure that the facility described in paragraph (1) will provide the following capabilities:

“(A) A magnetic field at the target of 1 Tesla.

“(B) An energy flux at the target of 10 MW/m².

“(C) The ability to expose previously irradiated plasma facing material samples to plasma.

“(3) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before December 31, 2027.

“(4) **FUNDING.**—Out of funds authorized to be appropriated for Fusion Energy Sciences, there are funds authorized to be appropriated to the Secretary for the Office of Fusion Energy Sciences to carry out to completion the construction of the facility under this section:

“(A) \$32,800,000 for fiscal year 2022;

“(B) \$13,400,000 for fiscal year 2023;

“(C) \$12,600,000 for fiscal year 2024; and

“(D) \$400,000 for fiscal year 2025.

“(q) **MATTER IN EXTREME CONDITIONS INSTRUMENT UPGRADE.**—

“(1) **IN GENERAL.**—The Secretary shall provide for the upgrade to the Matter in Extreme Conditions endstation at the Linac Coherent Light Source as described in the 2020 publication approved by the Fusion Energy Sciences Advisory Committee titled ‘Powering the Future: Fusion and Plasmas’. The Secretary shall consult with the private sector, universities, National Laboratories, and relevant Federal agencies to ensure that this facility is capable of meeting Federal research needs for understanding physical and chemical changes to plasmas at fundamental timescales, and explore new regimes of dense material physics, astrophysics, planetary physics, and short-pulse laser-plasma interactions.

“(2) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before December 31, 2028.”; and

(9) in subsection (r), as so redesignated, by striking paragraphs (2) through (5) and inserting the following:

“(2) \$1,002,900,000 for fiscal year 2022;

“(3) \$1,095,707,000 for fiscal year 2023;

“(4) \$1,129,368,490 for fiscal year 2024;

“(5) \$1,149,042,284 for fiscal year 2025; and

“(6) \$1,243,097,244 for fiscal year 2026.”.

(b) **ITER CONSTRUCTION.**—Section 972 of the Energy Policy Act of 2005 (42 U.S.C. 16312) is amended in subsection (c)(3)—

(1) in subparagraph (A), by striking “and” at the end; and

(2) by striking subparagraph (B) and inserting the following:

“(B) \$300,000,000 for fiscal year 2022;

“(C) \$325,000,000 for fiscal year 2023;

“(D) \$350,000,000 for fiscal year 2024;

“(E) \$350,000,000 for fiscal year 2025; and

“(F) \$350,000,000 for fiscal year 2026.”.

SEC. 10106. HIGH ENERGY PHYSICS PROGRAM.

(a) **PROGRAM.**—Section 305 of the Department of Energy Research and Innovation Act (42 U.S.C. 18643) is amended—

(1) by redesignating subsections (b) through (d) as subsections (d) through (f), respectively; and

(2) by inserting the following after subsection (a):

“(b) **PROGRAM.**—As part of the activities authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), the Director shall carry out a research program in elementary particle physics and advanced technology research and development to improve the understanding of the fundamental properties of the universe, including constituents of matter and energy and the nature of space and time.

“(c) **HIGH ENERGY FRONTIER RESEARCH.**—As part of the program described in subsection (b), the Director shall carry out research using high energy accelerators and advanced detectors, including accelerators and detectors that will function as national user facilities, to create and study interactions of elementary particles and investigate fundamental forces.”.

(b) **INTERNATIONAL COLLABORATION.**—Section 305(d) of the Department of Energy Research and Innovation Act (42 U.S.C. 18643(d)), as redesignated under subsection (a), is amended to read as follows:

“(d) **INTERNATIONAL COLLABORATION.**—The Director shall—

“(1) as practicable and in coordination with other appropriate Federal agencies as necessary, ensure the access of United States researchers to the most advanced accelerator facilities and research capabilities in the world, including the Large Hadron Collider;

“(2) to the maximum extent practicable, continue to leverage United States participation in the Large Hadron Collider, and prioritize expanding international partnerships and investments in the Long-Baseline Neutrino Facility and Deep Underground Neutrino Experiment; and

“(3) to the maximum extent practicable, prioritize engagement in collaborative efforts in support of future international facilities that would provide access to the most advanced accelerator facilities in the world to United States researchers.”.

(c) **COSMIC FRONTIER RESEARCH.**—Section 305(f) of the Department of Energy Research and Innovation Act (42 U.S.C. 18645(f)), as redesignated by subsection (a), is amended to read as follows:

“(f) **COSMIC FRONTIER RESEARCH.**—The Director shall carry out research activities on the nature of the primary contents of the universe, including the nature of dark energy and dark matter. These activities shall, to the maximum extent practicable, be consistent with the research priorities identified by the High Energy Physics Advisory Panel or the National Academy of Sciences, and may include—

“(1) collaborations with the National Aeronautics and Space Administration, the National Science Foundation, or international partners on relevant projects; and

“(2) the development of space-based, land-based, water-based, and underground facilities and experiments.”.

(d) **FURTHER ACTIVITIES.**—Section 305 of the Department of Energy Research and Innovation Act (42 U.S.C. 18645) is further amended by adding at the end the following:

“(g) **FACILITY CONSTRUCTION AND MAJOR ITEMS OF EQUIPMENT.**—

“(1) **PROJECTS.**—Consistent with the Office of Science’s project management practices, the Director shall, to the maximum extent practicable, incorporate the findings and recommendations of the 2014 Particle Physics Project Prioritization Panel (P5) report titled ‘Building for Discovery’, and support construction or fabrication of—

“(A) an international Long-Baseline Neutrino Facility based in the United States;

“(B) the Proton Improvement Plan II;

“(C) Second Generation Dark Matter experiments;

“(D) the Legacy Survey of Space and Time camera;

“(E) upgrades to detectors and other components of the Large Hadron Collider; and

“(F) other high priority projects recommended in the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel.

“(2) **LONG-BASELINE NEUTRINO FACILITY.**—

“(A) **IN GENERAL.**—The Secretary shall support construction of a Long-Baseline Neutrino Facility to facilitate the international Deep Underground Neutrino Experiment to examine the fundamental properties of neutrinos, explore physics beyond the Standard Model, and better clarify the existence and nature of antimatter.

“(B) **FACILITY CAPABILITIES.**—The Secretary shall ensure that the facility described in subparagraph (A) will provide, at a minimum, the following capabilities:

“(i) A neutrino beam with wideband capability of 1.2 megawatts (MW) of beam power and upgradable to 2.4 MW of beam power.

“(ii) Three caverns excavated for a 70 kiloton fiducial detector mass and supporting surface buildings and utilities.

“(iii) Cryogenic systems to support neutrino detectors.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this subsection occurs before December 31, 2031.

“(D) **FUNDING.**—Out of funds authorized to be appropriated under subsection (k), there are authorized to be appropriated to the Secretary to carry out construction of the facility under this subsection—

“(i) \$200,000,000 for fiscal year 2022;

“(ii) \$325,000,000 for fiscal year 2023;

“(iii) \$400,000,000 for fiscal year 2024;

“(iv) \$375,000,000 for fiscal year 2025; and

“(v) \$250,000,000 for fiscal year 2026.

“(3) **PROTON IMPROVEMENT PLAN-II ACCELERATOR UPGRADE PROJECT.**—

“(A) **IN GENERAL.**—The Secretary of Energy shall support construction of the Proton Improvement Plan II, an upgrade to the Fermilab accelerator complex identified in the 2014 Particle Physics Project Prioritization Panel (P5) report titled ‘Building for Discovery’, to provide the world’s most intense beam of neutrinos to the international Long Baseline Neutrino Facility as well as abroad range of future high energy physics experiments. The Secretary of Energy shall work with international partners to enable further significant contributions to the capabilities of this project.

“(B) **FACILITY CAPABILITIES.**—The Secretary shall ensure that the facility described in paragraph (1) will provide, at a minimum, the following capabilities:

“(i) A state-of-the-art 800 megaelectron volt (MeV) superconducting linear accelerator.

“(ii) Proton beam power of 1.2 MW at the start of LBNF/DUNE, upgradable to 2.4 MW of beam power.

“(iii) A flexible design to enable high power beam delivery to multiple users simultaneously and customized beams tailored to specific scientific needs.

“(iv) Sustained high reliability operation of the Fermilab accelerator complex.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before December 31, 2028.

“(D) **FUNDING.**—Out of funds authorized to be appropriated under subsection (k), there are authorized to be appropriated to the Secretary to carry out construction of the facility under this subsection—

“(i) \$191,000,000 for fiscal year 2022;

“(ii) \$150,000,000 for fiscal year 2023;

“(iii) \$120,000,000 for fiscal year 2024;

“(iv) \$120,000,000 for fiscal year 2025; and

“(v) \$100,000,000 for fiscal year 2026.

“(4) **COSMIC MICROWAVE BACKGROUND STAGE 4.**—

“(A) **IN GENERAL.**—The Secretary of Energy, in partnership with the Director of the National Science Foundation, shall support construction of the Cosmic Microwave Background Stage 4 project to survey the cosmic microwave background to test theories of cosmic inflation as described in the 2014 Particle Physics Prioritization Panel (P5) report titled ‘Building for Discovery: Strategic Plan for U.S. Particle Physics in the Global Context.’

“(B) **CONSULTATION.**—The Secretary shall consult with the private sector, universities, National Laboratories, and relevant Federal agencies to ensure that this experiment is capable of meeting Federal research needs in accessing the ultra-high energy physics of inflation and important neutrino properties.

“(C) **EXPERIMENTAL CAPABILITIES.**—The Secretary shall ensure to the maximum extent practicable that the facility described in subsection (a) will provide at minimum, 500,000 superconducting detectors deployed on an array of mm wave telescopes with the required range in frequency, sensitivity, and survey speed which will provide sufficient capability to enable an order of magnitude advance in observations of the Cosmic Microwave Background, delivering transformative discoveries in fundamental physics, cosmology, and astrophysics.

“(D) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before December 31, 2030.

“(E) **FUNDING.**—Out of funds authorized to be appropriated under subsection (k), there shall be made available to the Secretary to carry out construction of the facility under this subsection—

“(i) \$37,000,000 for fiscal year 2022;

“(ii) \$50,000,000 for fiscal year 2023;

“(iii) \$70,000,000 for fiscal year 2024;

“(iv) \$80,000,000 for fiscal year 2025; and

“(v) \$90,000,000 for fiscal year 2026.

“(h) **ACCELERATOR AND DETECTOR UPGRADES.**—The Director shall upgrade accelerator facilities and detectors, as necessary and appropriate, to increase beam power, sustain high reliability, and improve precision measurement to advance the highest priority particle physics research programs. In carrying out facility upgrades, the Director shall continue to work with international partners, when appropriate and in the United States’ interest, to leverage investments and expertise in critical technologies to help build and upgrade accelerator and detector facilities in the United States.

“(i) **ACCELERATOR AND DETECTOR RESEARCH AND DEVELOPMENT.**—As part of the program described in subsection (b), the Director shall carry out research and development in particle beam physics, accelerator science and technology, and particle and radiation detection with relevance to the specific needs of the High

Energy Physics program, in coordination with the Accelerator Research and Development program authorized in section 310.

“(j) **UNDERGROUND SCIENCE.**—The Director shall—

“(1) support an underground science program consistent with the missions of the Department and the scientific needs of the High Energy Physics program, including those articulated in the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel, that leverages the capabilities of relevant underground science and engineering facilities; and

“(2) carry out a competitive grant program to award scientists and engineers at institutions of higher education, nonprofit institutions, and National Laboratories to conduct research in underground science and engineering.

“(k) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$1,355,690,000 for fiscal year 2022;

“(2) \$1,517,628,300 for fiscal year 2023;

“(3) \$1,652,112,281 for fiscal year 2024;

“(4) \$1,711,460,141 for fiscal year 2025; and

“(5) \$1,656,012,351 for fiscal year 2026.”

SEC. 10107. NUCLEAR PHYSICS PROGRAM.

(a) **PROGRAM.**—Section 308 of the Department of Energy Research and Innovation Act (42 U.S.C. 18646) is amended—

(1) by redesignating subsection (b) as subsection (d); and

(2) by striking subsection (a) and inserting the following:

“(a) **PROGRAM.**—As part of the activities authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), the Director shall carry out a research program, and support relevant facilities, to discover and understand various forms of nuclear matter.

“(b) **USER FACILITIES.**—

“(1) **FACILITY FOR RARE ISOTOPE BEAMS.**—

“(A) **IN GENERAL.**—The Secretary shall support construction of a Facility for Rare Isotope Beams to advance the understanding of rare nuclear isotopes and the evolution of the cosmos.

“(B) **FUNDING.**—Out of funds authorized to be appropriated under subsection (c), there are authorized to be appropriated to the Secretary to carry out construction of the facility under this subsection \$2,000,000 for fiscal year 2022.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before March 1, 2022.

“(2) **ELECTRON-ION COLLIDER.**—

“(A) **IN GENERAL.**—The Secretary shall support construction of an Electron Ion Collider as described in the 2015 Long Range Plan of the Nuclear Science Advisory Committee and the report from the National Academies of Science, Engineering, and Medicine titled ‘An Assessment of U.S.-Based Electron-Ion Collider Science’, in order to measure the internal structure of the proton and the nucleus and answer fundamental questions about the nature of visible matter.

“(B) **FACILITY CAPABILITY.**—The Secretary shall ensure that the facility meets the requirements in the 2015 Long Range Plan, including—

“(i) at least 70 percent polarized beams of electrons and light ions;

“(ii) ion beams from deuterium to the heaviest stable nuclei;

“(iii) variable center of mass energy from 20 to 140 GeV;

“(iv) high collision luminosity of $10^{33-34} \text{cm}^{-2}\text{s}^{-1}$; and

“(v) the possibility of more than one interaction region.

“(C) **START OF OPERATIONS.**—The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this section occurs before December 31, 2030.

“(D) **FUNDING.**—Out of funds authorized to be appropriated under subsection (c), there are authorized to be appropriated to the Secretary to carry out construction of the facility under this subsection—

“(i) \$101,000,000 for fiscal year 2022;

“(ii) \$155,000,000 for fiscal year 2023;

“(iii) \$250,000,000 for fiscal year 2024;

“(iv) \$300,000,000 for fiscal year 2025; and

“(v) \$305,000,000 for fiscal year 2026.

“(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$780,000,000 for fiscal year 2022;

“(2) \$879,390,000 for fiscal year 2023;

“(3) \$1,025,097,300 for fiscal year 2024;

“(4) \$1,129,354,111 for fiscal year 2025; and

“(5) \$1,192,408,899 for fiscal year 2026.”

SEC. 10108. ACCELERATOR RESEARCH AND DEVELOPMENT.

The Department of Energy Research and Innovation Act (42 U.S.C. 18601 et seq.) is amended by adding after section 309 the following:

“SEC. 310. ACCELERATOR RESEARCH AND DEVELOPMENT.

“(a) **PROGRAM.**—As part of the activities authorized under section 209 of the Department of Energy Organization Act (42 U.S.C. 7139), the Director shall carry out a research program to—

“(1) advance accelerator science and technology relevant to the Department, other Federal agencies, and U.S. industry;

“(2) foster partnerships to develop, demonstrate, and enable the commercial application of accelerator technologies;

“(3) support the development of a skilled, diverse, and inclusive accelerator workforce; and

“(4) provide access to accelerator design and engineering resources.

“(b) **ACCELERATOR RESEARCH.**—In carrying out the program authorized under subsection (a), the Director shall support—

“(1) research activities in cross-cutting accelerator technologies including superconducting magnets and accelerators, beam physics, data analytics-based accelerator controls, simulation software, new particle sources, advanced laser technology, and transformative research; and

“(2) optimal operation of the Accelerator Test Facility.

“(c) **ACCELERATOR DEVELOPMENT.**—In carrying out the program authorized under subsection (a), the Director shall support partnerships to foster the development, demonstration, and commercial application of accelerator technologies including, advanced superconducting wire and cable, superconducting RF cavities, and high efficiency radiofrequency power sources for accelerators.

“(d) **RESEARCH COLLABORATIONS.**—In developing accelerator technologies under the program authorized in subsection (a), the Director shall—

“(1) consider the requirements necessary to support translational research and development for medical, industrial, security, and defense applications; and

“(2) leverage investments in accelerator technologies and fundamental research in particle physics by partnering with institutes of higher education, industry, and other Federal agencies to enable the commercial application of advanced accelerator technologies.

“(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$24,000,000 for fiscal year 2022;

“(2) \$25,680,000 for fiscal year 2023;

“(3) \$27,477,600 for fiscal year 2024;

“(4) \$29,401,032 for fiscal year 2025; and

“(5) \$31,459,104 for fiscal year 2026.”

SEC. 10109. ISOTOPE DEVELOPMENT AND PRODUCTION FOR RESEARCH APPLICATIONS.

The Department of Energy Research and Innovation Act (42 U.S.C. 18601 et seq.) is amended

by adding after section 310 as added by this title, the following:

“SEC. 311. ISOTOPE DEVELOPMENT AND PRODUCTION FOR RESEARCH APPLICATIONS.

“(a) *IN GENERAL.*—The Director—

“(1) shall carry out a program in coordination with other relevant programs across the Department for the production of isotopes, including the development of techniques to produce isotopes, that the Secretary determines are needed for research, medical, industrial, or related purposes, to the maximum extent practicable, in accordance with the 2015 Nuclear Science Advisory Committee ‘Meeting Isotope Needs and Capturing Opportunities For The Future’ report; and

“(2) shall ensure that isotope production activities carried out under the program under this paragraph do not compete with private industry unless the Director determines that critical national interests require the involvement of the Federal Government.

“(b) *AUTHORIZATION OF APPROPRIATIONS.*—There are authorized to be appropriated to carry out the program under this section—

“(1) \$90,000,000 for fiscal year 2022;

“(2) \$96,300,000 for fiscal year 2023;

“(3) \$103,041,000 for fiscal year 2024;

“(4) \$110,253,870 for fiscal year 2025; and

“(5) \$117,971,641 for fiscal year 2026.”.

SEC. 10110. SCIENCE LABORATORIES INFRASTRUCTURE PROGRAM.

(a) *PROGRAM.*—Section 309 of the Department of Energy Research and Innovation Act (42 U.S.C. 18647) is amended by adding at the end the following:

“(c) *APPROACH.*—In carrying out this section, the Director shall utilize all available approaches and mechanisms, including capital line items, minor construction projects, energy savings performance contracts, and utility energy service contracts, as appropriate.

“(d) *MID-SCALE INSTRUMENTATION PROGRAM.*—The Director, in coordination with each of the programs carried out by the Office of Science, shall establish a mid-scale instrumentation program to enable the development and acquisition of novel, state-of-the-art instruments ranging in cost from \$1 million to \$20 million each that would significantly accelerate scientific breakthroughs at user facilities.

“(e) *AUTHORIZATION OF APPROPRIATIONS.*—There are authorized to be appropriated to the Secretary to carry out the activities described in this section \$500,000,000 for each of fiscal years 2022 through 2026.”.

SEC. 10111. INCREASED COLLABORATION WITH TEACHERS AND SCIENTISTS.

(a) *IN GENERAL.*—The Department of Energy Research and Innovation Act (42 U.S.C. 18601 et seq.) is amended by adding after section 311, as added by this title, the following:

“SEC. 312. INCREASED COLLABORATION WITH TEACHERS AND SCIENTISTS.

“The Director shall support the development of a scientific workforce through programs that facilitate collaboration between K–12, university students, early-career researchers, faculty, and the National Laboratories, including through the use of proven techniques to expand the number of individuals from underrepresented groups pursuing and attaining skills or undergraduate and graduate degrees relevant to the Office’s mission.”.

(b) *AUTHORIZATION OF APPROPRIATIONS.*—Section 3169 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381e) is amended—

(1) by striking, “programs”, and inserting “programs, including the NSF INCLUDES National Network,”; and

(2) by striking, “year 1991”, and inserting “years 2022 through 2026”.

(c) *BROADENING PARTICIPATION IN WORKFORCE DEVELOPMENT FOR TEACHERS AND SCIENTISTS.*—

(1) *IN GENERAL.*—The Department of Energy Science Education Enhancement Act (42 U.S.C.

7381 et seq.) is amended by inserting the following sections after section 3167 (42 U.S.C. 7381c–1):

“SEC. 3167A. BROADENING PARTICIPATION FOR TEACHERS AND SCIENTISTS.

“(a) *IN GENERAL.*—The Secretary shall expand opportunities to increase the number and the diversity, equity, and inclusion of highly skilled science, technology, engineering, and mathematics (STEM) professionals working in Department of Energy mission-relevant disciplines and broaden the recruitment pool to increase diversity, including expanded partnerships with Historically Black Colleges, Tribal Colleges, Minority Serving Institutions, emerging research institutions, and scientific societies.

“(b) *PLAN.*—Not later than 1 year after the date of enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources and the Committee on Commerce, Science, and Transportation of the Senate and make available to the public a plan for broadening participation of underrepresented groups in science, technology, engineering, and mathematics in programs supported by the Department programs, including—

“(1) a plan for supporting and leveraging the National Science Foundation INCLUDES National Network;

“(2) metrics for assessing the participation of underrepresented groups in Department programs;

“(3) experienced and potential barriers to broadening participation of underrepresented groups in Department programs, including recommended solutions; and

“(4) any other activities the Secretary finds appropriate.

“(c) *AUTHORIZATION OF APPROPRIATIONS.*—Of the amounts authorized to be appropriated in section 3169 (42 U.S.C. 7381e), at least \$2,000,000 are authorized to be appropriated each fiscal year for the activities described under this subsection.

“SEC. 3167B. EXPANDING OPPORTUNITIES TO INCREASE THE DIVERSITY, EQUITY, AND INCLUSION OF HIGHLY SKILLED SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM) PROFESSIONALS.

“(a) *IN GENERAL.*—The Secretary shall expand opportunities to increase the number and the diversity, equity, and inclusion of highly skilled science, technology, engineering, and mathematics (STEM) professionals working in Department of Energy mission-relevant disciplines and broaden the recruitment pool to increase diversity, including expanded partnerships with minority-serving institutions, non-Research 1 universities, and scientific societies.

“(b) *PLAN AND OUTREACH STRATEGY.*—

“(1) *PLAN.*—Not later than 6 months after the date of enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a 10-year educational plan to fund and expand new or existing programs administered by the Office of Science and sited at the National Laboratories and Department of Energy user facilities to expand educational and workforce opportunities for underrepresented high school, undergraduate, and graduate students as well as recent graduates, teachers and faculty in STEM fields. This may include paid internships, fellowships, temporary employment, training programs, visiting student and faculty programs, sabbaticals, and research support.

“(2) *OUTREACH CAPACITY.*—The Secretary shall include in the plan under paragraph (1) an outreach strategy to improve the advertising, recruitment, and promotion of educational and workforce programs to community colleges, Historically Black Colleges and Universities, Tribal Colleges, Minority Serving Institutions, and emerging research institutions.

“(c) *BUILDING RESEARCH CAPACITY.*—The Secretary shall develop programs that strengthen the research capacity relevant to Office of Science disciplines at emerging research institutions, including minority-serving institutions, tribal colleges and universities, Historically Black Colleges and Universities, and colleges and universities. This may include enabling mutually beneficial and jointly managed partnerships between research-intensive institutions and emerging research institutions, and soliciting research proposals, fellowships, training programs, and research support directly from emerging research institutions.

“(d) *TRAINEESHIPS.*—The Secretary shall establish a university-led Traineeship Program to address workforce training needs in STEM fields relevant to the Department. The focus should be on supporting training and research experiences for underrepresented undergraduate and graduate students and increasing participation from underrepresented populations. The traineeships should include opportunities to build the next-generation workforce in research areas critical to maintaining core competencies across the Office of Science’s programs.

“(e) *EVALUATION.*—The Secretary shall establish key performance indicators to measure and monitor progress of education and workforce programs and expand Departmental activities for data collection and analysis. The Secretary shall submit a report 2 years after the date of enactment of the America COMPETES Act of 2022, and every 2 years thereafter, to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate summarizing progress toward meeting key performance indicators.

“(f) *DEFINITIONS.*—In this section:

“(1) *MINORITY-SERVING INSTITUTION.*—The term ‘minority-serving institution’ includes the entities described in any of paragraphs (1) through (7) of section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067g(a)).

“(2) *HISTORICALLY BLACK COLLEGE AND UNIVERSITIES.*—The term ‘Historically Black Colleges and Universities’ has the meaning given in ‘part B institution’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

“(3) *STEM.*—The term ‘STEM’ means the field or disciplines listed in section 2 of the STEM Education Act of 2015 (42 U.S.C. 6621 note).

“(4) *TRIBAL COLLEGES AND UNIVERSITIES.*—The term ‘Tribal College or University’ has the meaning given in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).”.

(2) *CLERICAL AMENDMENT.*—The table of contents in section 2(b) of the National Defense Authorization Act for Fiscal Year 1991 is amended by inserting after the item relating to section 3167 the following:

“Sec. 3167A. Broadening participation for teachers and scientists.

“Sec. 3167B. Expanding opportunities to increase the diversity, equity, and inclusion of highly skilled science, technology, engineering, and mathematics (STEM) professionals.”.

SEC. 10112. HIGH INTENSITY LASER RESEARCH INITIATIVE; OFFICE OF SCIENCE EMERGING INFECTIOUS DISEASE COMPUTING RESEARCH INITIATIVE; HELIUM CONSERVATION PROGRAM; AUTHORIZATION OF APPROPRIATIONS.

(a) *IN GENERAL.*—The Department of Energy Research and Innovation Act (42 U.S.C. 18601 et seq.) is amended by adding at the end the following:

“SEC. 313. HIGH INTENSITY LASER RESEARCH INITIATIVE.

“(a) *IN GENERAL.*—The Director shall establish a high intensity laser research initiative consistent with the recommendations of the National Academies report, ‘Opportunities in Intense Ultrafast Lasers: Reaching for the Brightest Light’, and the report from the Brightest

Light Initiative workshop on ‘The Future of Intense Ultrafast Lasers in the U.S.’. This initiative should include research and development of petawatt-scale and of high average power laser technologies necessary for future facility needs in discovery science and to advance energy technologies, as well as support for a user network of academic and national laboratory high intensity laser facilities.

“(b) **LEVERAGE.**—The Director shall leverage new laser technologies for more compact, less complex, and low-cost accelerator systems needed for science applications.

“(c) **COORDINATION.**—The Director shall coordinate this initiative among all relevant programs within the Office of Science, and the Under Secretary for Science shall coordinate this initiative with other relevant programs within the Department as well as within other Federal agencies.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—Out of funds authorized to be appropriated for the Office of Science there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

“(1) \$50,000,000 for fiscal year 2022;

“(2) \$100,000,000 for fiscal year 2023;

“(3) \$150,000,000 for fiscal year 2024;

“(4) \$200,000,000 for fiscal year 2025; and

“(5) \$250,000,000 for fiscal year 2026.

“SEC. 314. HELIUM CONSERVATION PROGRAM.

“(a) **IN GENERAL.**—The Secretary shall establish a program to reduce the consumption of helium for Department grant recipients and facilities and encourage helium recycling and reuse. The program shall competitively award grants for—

“(1) the purchase of equipment to capture, reuse, and recycle helium;

“(2) the installation, maintenance, and repair of new and existing helium capture, reuse, and recycling equipment; and

“(3) helium alternatives research and development activities.

“(b) **REPORT.**—In carrying out the program under this section, the Director shall submit to the Committee on Science, Space, and Technology of House of Representatives and the Committee on Energy and Natural Resources of the Senate a report, not later than two years after the date of enactment of the America COMPETES Act of 2022, and every 3 years thereafter, on the purchase of helium as part of research projects and facilities supported by the Department. The report shall include—

“(1) the quantity of helium purchased for projects and facilities supported by Department grants;

“(2) a cost-analysis for such helium;

“(3) the predominant production sources for such helium;

“(4) expected or experienced impacts of helium supply shortages or prices on the research projects and facilities supported by the Department; and

“(5) recommendations for reducing Department grant recipients’ exposure to volatile helium prices.

“(c) **COORDINATION.**—In carrying out the program under this section, the Director shall coordinate with the National Science Foundation and other relevant Federal agencies on helium conservation activities.

“(d) **DURATION.**—The program established under this section shall receive support for a period of not more than 5 years, subject to the availability of appropriations.

“(e) **RENEWAL.**—Upon expiration of any period of support of the program under this section, the Director may renew support for the program for a period of not more than 5 years.

“SEC. 315. OFFICE OF SCIENCE EMERGING INFECTIOUS DISEASE COMPUTING RESEARCH INITIATIVE.

“(a) **IN GENERAL.**—The Secretary, in coordination with the Director of the National Science Foundation, the Secretary of Health and

Human Services, and the Administrator of the National Aeronautics and Space Administration, shall establish within the Office of Science, a cross-cutting research initiative to leverage the Federal Government’s innovative analytical resources and tools, user facilities, and advanced computational and networking capabilities in order to prevent, prepare for, and respond to emerging infectious diseases, including COVID-19. The Secretary shall carry out this initiative through a competitive, merit-reviewed process, and consider applications from National Laboratories, institutions of higher education, multi-institutional collaborations, industry partners and other appropriate entities.

“(b) **ACTIVITIES.**—In carrying out the initiative established under subsection (a), the Secretary shall coordinate with programs across the Office of Science and with relevant Federal agencies to determine a comprehensive set of technical milestones for these research activities and prioritize the following objectives—

“(1) supporting fundamental research and development in advanced analytics, experimental studies, materials synthesis, high-performance computing technologies needed to characterize, model, simulate, and predict complex phenomena and biological materials related to emerging infectious diseases, including COVID-19 challenges, including a focus on testing and diagnostics, experimental data acquisition, sharing and management, advanced manufacturing, and molecular design and modeling;

“(2) using expertise from the private sector, institutions of higher education, and the National Laboratories to develop computational software and capabilities that prospective users may accelerate emerging infectious diseases research and development;

“(3) leveraging the research infrastructure of the Department, including scientific computing user facilities, x-ray light sources, neutron scattering facilities, nanoscale science research centers, and sequencing and bio-characterization facilities by coordinating with the Advanced Scientific Computing Research, Basic Energy Sciences, and Biological and Environmental Research programs within the Office of Science;

“(4) leveraging experience from existing modeling and simulation research and work sponsored by the Department and promoting collaboration and data sharing between National Laboratories, research entities, and user facilities of the Department by providing the necessary access and secure data transfer capabilities; and

“(5) ensuring that new experimental and computational tools are accessible to relevant research communities, including private sector entities to address emerging infectious diseases, including COVID-19 challenges.

“(c) **COORDINATION.**—In carrying out this initiative, the Secretary shall ensure, to the maximum extent practicable, coordination of these activities with the Department of Energy National Laboratories, institutions of higher education, and the private sector.

“(d) **EMERGING INFECTIOUS DISEASES HIGH PERFORMANCE COMPUTING RESEARCH CONSORTIUM.**

“(1) **IN GENERAL.**—The Secretary in coordination with the Director of the National Science Foundation, the Secretary of Health and Human Services, and the Director of the Office of Science and Technology Policy shall establish and operate an Emerging Infectious Diseases High Performance Computing Research Consortium (referred to in this section as the ‘Consortium’), to support the initiative under subsection (a) by providing, to the extent practicable, a centralized entity for multidisciplinary, collaborative, emerging infectious disease research and development through high performance computing and advanced data analytics technologies and processes.

“(2) **MEMBERSHIP.**—The members of such consortium may include representatives from relevant Federal agencies, the private sector, institutions of higher education, which can each

contribute relevant compute time, capabilities, or other resources.

“(3) **ACTIVITIES.**—The Consortium shall—

“(A) match applicants with available Federal and private sector computing resources;

“(B) consider supplemental awards for computing partnerships with Consortium members to qualifying entities on a competitive merit-review basis;

“(C) encourage collaboration and communication among member representatives of the consortium and awardees;

“(D) make available the high-performance computing capabilities, expertise, and user facilities of the Department and the National Laboratories; and

“(E) submit an annual report to the Secretary summarizing the activities of the Consortium, including—

“(i) describing each project undertaken by the Consortium;

“(ii) detailing organizational expenditures; and

“(iii) evaluating contribution to the achievement of technical milestones as determined in subsection (a).

“(4) **COORDINATION.**—The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of the Consortium with the activities of other research entities of the Department, institutions of higher education and the private sector.

“(e) **REPORT.**—Not later than 2 years after the date of enactment of the America COMPETES Act of 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Energy and Commerce of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committee on Commerce, Science, and Transportation of the Senate a report detailing the effectiveness of—

“(1) the interagency coordination between each Federal agency involved in the research initiative carried out under this section;

“(2) the collaborative research achievements of the initiative, including the achievement of the technical milestones determined under subsection (a); and

“(3) potential opportunities to expand the technical capabilities of the Department.

“(f) **FUNDING.**—From within funds authorized to be appropriated for the Department’s Office of Science, there are authorized to be appropriated to the Secretary to carry out the activities under this subsection, \$50,000,000 for fiscal years 2022 and 2023.

“(g) **PROHIBITION.**—

“(1) **IN GENERAL.**—In carrying out this Act, the Secretary may not carry out gain-of-function research of concern.

“(2) **GAIN-OF-FUNCTION RESEARCH DEFINED.**—For the purposes of this subsection, ‘gain-of-function research of concern’ means research activities with the potential to generate pathogens with high transmissibility and high virulence in humans.

“SEC. 316. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Secretary to carry out the activities described in this title—

“(1) \$8,801,915,000 for fiscal year 2022;

“(2) \$9,451,015,300 for fiscal year 2023;

“(3) \$10,160,677,621 for fiscal year 2024;

“(4) \$10,693,625,004 for fiscal year 2025; and

“(5) \$11,145,798,345 for fiscal year 2026.”.

(b) **TABLE OF CONTENTS.**—Section 1(b) of the Department of Energy Research and Innovation Act is amended in the table of contents by inserting after the item relating to section 309 the following:

“Sec. 310. Accelerator research and development.

“Sec. 311. Isotope Development and Production for Research Applications.

“Sec. 312. Increased collaboration with teachers and scientists.

"Sec. 313. High intensity laser research initiative.

"Sec. 314. Helium conservation program.

"Sec. 315. Office of Science Emerging Infectious Disease Computing Research Initiative.

"Sec. 316. Authorization of appropriations."

SEC. 10113. STATE-OWNED ENTERPRISES PROHIBITION.

(a) INNOVATE IN AMERICA.—In carrying out this title or the amendments made by this title, the Secretary may not award a contract, sub-contract, grant, or loan to an entity that—

(1) is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

(A) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this Act;

(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a priority foreign country under subsection (a)(2) of that section; and

(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416); or

(2) is listed pursuant to section 9(b)(3) of the Uyghur Human Rights Policy Act of 2020 (Public Law 116-145).

(b) EXCEPTION.—For purposes of subsection (a), the Secretary may issue a waiver, to be made publicly available, to an entity in which the legal or financial connection to a corporation is a minority relationship or investment.

(c) INTERNATIONAL AGREEMENTS.—This section shall be applied in a manner consistent with the obligations of the United States under international agreements.

SEC. 10114. DETERMINATION OF BUDGETARY EFFECTS.

The budgetary effects of this title, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled "Budgetary Effects of PAYGO Legislation" for this title, submitted for printing in the Congressional Record by the Chairman of the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

TITLE II—NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY FOR THE FUTURE ACT OF 2021

SEC. 10201. DEFINITIONS.

In this title:

(1) DIRECTOR.—The term "Director" means the Director of the National Institute of Standards and Technology.

(2) FRAMEWORK.—The term "Framework" means the Framework for Improving Critical Infrastructure Cybersecurity developed by the National Institute of Standards and Technology and referred to in Executive Order 13800 issued on May 11, 2017 (82 Fed. Reg. 22391 et seq.).

(3) HISTORICALLY BLACK COLLEGES AND UNIVERSITIES.—The term "historically Black colleges and universities" has the same meaning given to the term "part B institutions" in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(4) INSTITUTE.—The term "Institute" means the National Institute of Standards and Technology.

(5) INSTITUTION OF HIGHER EDUCATION.—The term "institution of higher education" has the meaning given such term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(6) INTERNATIONAL STANDARDS ORGANIZATION.—The term "International Standards Organization" has the meaning given such term in section 451 of the Trade Agreements Act of 1979 (19 U.S.C. 2571).

(7) MINORITY SERVING INSTITUTION.—The term "minority-serving institution" means a Hispanic-serving institution, an Alaska Native-serving institution, a Native Hawaiian-serving

institutions, a Predominantly Black Institution, an Asian American and Native American Pacific Islander-serving institution, or a Native American-serving nontribal institution as described in section 371 of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

(8) SECRETARY.—The term "Secretary" means the Secretary of Commerce.

(9) TECHNICAL STANDARDS.—The term "technical standard" has the meaning given such term in section 12(d)(5) of the National Technology Transfer and Advancement Act of 1995.

Subtitle A—Appropriations

SEC. 10211. AUTHORIZATION OF APPROPRIATIONS.

(a) FISCAL YEAR 2022.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$1,409,070,000 for the National Institute of Standards and Technology for fiscal year 2022.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized by paragraph (1)—

(A) \$915,570,000 is authorized to be appropriated for scientific and technical research and services laboratory activities, of which \$9,000,000 is authorized to be appropriated for the Working Capital Fund;

(B) \$22,000,000 is authorized to be appropriated to the Director for the purpose of investigating the building collapse that occurred in Surfside, Florida on June 24, 2021, to understand the source of failure, to provide recommendations for how to rectify any shortcomings in existing building standards in order to prevent future similar disasters, and to inform future building codes for similar structures, in coordination with State and local offices and other Federal agencies as appropriate, consistent with the Institute's responsibilities under the National Construction Safety Team Act of 2002 (Public Law 107-231).

(C) \$140,000,000 is authorized to be appropriated for the construction and maintenance of facilities, of which \$80,000,000 is authorized to be appropriated for Safety, Capacity, Maintenance, and Major Repairs;

(D) \$331,500,000 is authorized to be appropriated for industrial technology services activities, of which \$275,000,000 is authorized to be appropriated for the Manufacturing Extension Partnership program under sections 25 and 26 of the National Institute of Standards and Technology Act (15 U.S.C. 278k and 278l) and \$56,500,000 is authorized to be appropriated for the Network for Manufacturing Innovation Program under section 34 of the National Institute of Standards and Technology Act (15 U.S.C. 278s); and

(b) FISCAL YEAR 2023.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$1,518,800,000 for the National Institute of Standards and Technology for fiscal year 2023.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized by paragraph (1)—

(A) \$979,100,000 is authorized to be appropriated for scientific and technical research and services laboratory activities, of which \$10,000,000 is authorized to be appropriated for the Working Capital Fund;

(B) \$200,000,000 is authorized to be appropriated for the construction and maintenance of facilities, of which \$80,000,000 is authorized to be appropriated for Safety, Capacity, Maintenance, and Major Repairs, including \$20,000,000 for IT infrastructure; and

(C) \$339,800,000 is authorized to be appropriated for industrial technology services activities, of which \$283,300,000 is authorized to be appropriated for the Manufacturing Extension Partnership program under sections 25 and 26 of the National Institute of Standards and Technology Act (15 U.S.C. 278k and 278l) and \$56,500,000 is authorized to be appropriated for the Network for Manufacturing Innovation Program under section 34 of the National Institute of Standards and Technology Act (15 U.S.C. 278s).

(c) FISCAL YEAR 2024.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$1,595,800,000 for the National Institute of Standards and Technology for fiscal year 2024.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized by paragraph (1)—

(A) \$1,047,600,000 is authorized to be appropriated for scientific and technical research and services laboratory activities, of which \$12,000,000 is authorized to be appropriated for the Working Capital Fund;

(B) \$200,000,000 is authorized to be appropriated for the construction and maintenance of facilities, of which \$80,000,000 is authorized to be appropriated for Safety, Capacity, Maintenance, and Major Repairs, including \$20,000,000 for IT infrastructure; and

(C) \$348,200,000 is authorized to be appropriated for industrial technology services activities, of which \$291,700,000 is authorized to be appropriated for the Manufacturing Extension Partnership program under sections 25 and 26 of the National Institute of Standards and Technology Act (15 U.S.C. 278k and 278l) and \$56,500,000 is authorized to be appropriated for the Network for Manufacturing Innovation Program under section 34 of the National Institute of Standards and Technology Act (15 U.S.C. 278s).

(d) FISCAL YEAR 2025.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$1,677,900,000 for the National Institute of Standards and Technology for fiscal year 2025.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized by paragraph (1)—

(A) \$1,120,900,000 is authorized to be appropriated for scientific and technical research and services laboratory activities, of which \$15,000,000 is authorized to be appropriated to the Working Capital Fund;

(B) \$200,000,000 is authorized to be appropriated for the construction and maintenance of facilities, of which \$80,000,000 is authorized to be appropriated for Safety, Capacity, Maintenance, and Major Repairs, including \$20,000,000 for IT infrastructure; and

(C) \$357,000,000 is authorized to be appropriated for industrial technology services activities, of which \$300,500,000 is authorized to be appropriated for the Manufacturing Extension Partnership program under sections 25 and 26 of the National Institute of Standards and Technology Act (15 U.S.C. 278k and 278l) and \$56,500,000 is authorized to be appropriated for the Network for Manufacturing Innovation Program under section 34 of the National Institute of Standards and Technology Act (15 U.S.C. 278s).

(e) FISCAL YEAR 2026.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce \$1,765,400,000 for the National Institute of Standards and Technology for fiscal year 2026.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized by paragraph (1)—

(A) \$1,199,400,000 is authorized to be appropriated for scientific and technical research and services laboratory activities, of which \$18,000,000 is authorized to be appropriated for the Working Capital Fund;

(B) \$200,000,000 is authorized to be appropriated for the construction and maintenance of facilities, of which \$80,000,000 is authorized to be appropriated for Safety, Capacity, Maintenance, and Major Repairs, including \$20,000,000 for IT infrastructure; and

(C) \$366,000,000 is authorized to be appropriated for industrial technology services activities, of which \$309,500,000 is authorized to be appropriated for the Manufacturing Extension Partnership program under sections 25 and 26 of the National Institute of Standards and Technology Act (15 U.S.C. 278k and 278l) and \$56,500,000 is authorized to be appropriated for the Network for Manufacturing Innovation Program under section 34 of the National Institute

of Standards and Technology Act (15 U.S.C. 278s).

Subtitle B—Measurement Research

SEC. 10221. ENGINEERING BIOLOGY AND BIOMETROLOGY.

(a) IN GENERAL.—The Director shall—

(1) support basic measurement science, technology research for engineering biology, biomanufacturing, and biometrology to advance—

(A) measurement technologies to support foundational understanding of the mechanisms of conversion of DNA information into cellular function, including both the natural and engineered production of biomolecules;

(B) technologies for measurement of such biomolecular components and for complex engineered biological systems;

(C) new data tools, techniques, and processes to improve engineering biology, biomanufacturing, and biometrology research; and

(D) all other areas deemed by the Director to be critical to the development and deployment of engineering biology, biomanufacturing and biometrology;

(2) support activities to inform and expand the development of measurements infrastructure needed to develop technical standards to establish interoperability and facilitate commercial development of biomolecular measurement technology and engineering biology applications;

(3) convene industry, institutions of higher education, nonprofit organizations, Federal laboratories, and other Federal agencies engaged in engineering biology research and development to develop coordinated technical roadmaps for authoritative measurement of the molecular components of the cell;

(4) provide access to user facilities with advanced or unique equipment, services, materials, and other resources to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing;

(5) establish or expand collaborative partnerships or consortia with other Federal agencies engaged in engineering biology research and development, institutions of higher education, Federal laboratories, and industry to advance engineering biology applications; and

(6) support graduate and post graduate research and training in biometrology, biomanufacturing, and engineering biology.

(b) DEFINITIONS.—For purposes of this section, the term “Engineering Biology” means the application of engineering design principles and practices to biological systems, including molecular and cellular systems, to advance fundamental understanding of complex natural systems and to enable novel or optimized functions and capabilities.

(c) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to alter the policies, processes, or practices of individual Federal agencies in effect on the day before the date of the enactment of this Act relating to the conduct of biomedical research and advanced development, including the solicitation and review of extramural research proposals.

(d) CONTROLS.—In carrying out activities authorized by this section, the Secretary shall ensure proper security controls are in place to protect sensitive information, as appropriate.

SEC. 10222. GREENHOUSE GAS MEASUREMENT RESEARCH.

(a) GREENHOUSE GAS MEASUREMENT PROGRAM.—

(1) IN GENERAL.—The Director, in consultation with the Administrator of the National Oceanic and Atmospheric Administration and the Administrator of the Environmental Protection Agency, shall carry out a measurement research program to inform the development of best practices, benchmarks, methodologies, procedures, and technical standards for the measurement of greenhouse gas emissions and to assess and improve the performance of greenhouse gas emissions measurement systems.

(2) ACTIVITIES.—In carrying out such a program, the Director may—

(A) conduct research and testing to improve the accuracy, efficacy, and reliability of the measurement of greenhouse gas emissions at a range of scales that covers direct measurement at the component or process level through atmospheric observations;

(B) conduct research to create novel measurement technologies and techniques for the measurement of greenhouse gas emissions;

(C) convene and engage with relevant Federal agencies and stakeholders to establish common definitions and characterizations for the measurement of greenhouse gas emissions, taking into account any existing United States and international technical standards and guidance;

(D) conduct outreach and coordination to share technical expertise with relevant industry and non-industry stakeholders and standards development organizations to assist such entities in the development of best practices and technical standards for greenhouse gas emissions measurements; and

(E) in coordination with the Administrator of the National Oceanic and Atmospheric Administration and the Administrator of the Environmental Protection Agency, develop such standard and reference materials as the Director determines is necessary to further the development of such technical standards, taking into account any existing United States or international standards.

(3) TEST BEDS.—In coordination with the private sector, institutions of higher education, State and local governments, the National Oceanic and Atmospheric Administration, the Environmental Protection Agency, and other Federal agencies, as appropriate, the Director may continue to develop and manage testbeds to advance research and standards development for greenhouse gas emissions measurements.

(4) GREENHOUSE GAS MEASUREMENT CENTER OF EXCELLENCE.—

(A) IN GENERAL.—The Director, in collaboration with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Environmental Protection Agency, and the heads of other Federal agencies, as appropriate, shall award to an institution of higher education or an eligible nonprofit organization (or a consortium thereof), on a merit-reviewed, competitive basis, funds to establish a Center of Excellence in Greenhouse Gas Measurement.

(B) COLLABORATIONS.—The Director shall require, as a condition of receipt of the award under this paragraph, that the activities of the Center of Excellence include collaboration among public and private organizations, including institutions of higher education, nonprofit organizations, private sector entities, and State, tribal, territorial, and local officials.

(C) PURPOSE.—The purpose of the Center of Excellence shall be to—

(i) advance measurement science, data analytics, and modeling at a range of scales that covers direct measurement at the component or process level through atmospheric observations to improve the accuracy of greenhouse gas emissions measurement, validation, and attribution to specific underlying activities and processes;

(ii) test and evaluate the performance of existing capabilities, and inform and improve best practices, benchmarks, methodologies, procedures, and technical standards, for the measurement and validation of greenhouse gas emissions at scales noted in clause (i);

(iii) educate and train students in measurement science, computational science, and systems engineering research relevant to greenhouse gas emissions measurements;

(iv) foster collaboration among academic researchers, private sector stakeholders, and State, Tribal, territorial, and local officials;

(v) support Institute test beds as described in subsection (a)(3); and

(vi) collaborate with other Federal agencies to conduct outreach and coordination to share

technical expertise with relevant public and private sector stakeholders, including State, Tribal, territorial, and local officials, to assist such entities in measuring greenhouse gas emissions.

(D) REQUIREMENTS.—

(i) IN GENERAL.—An institution of higher education or an eligible nonprofit organization (or a consortium thereof) seeking funding under this subsection shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require.

(ii) APPLICATIONS.—Each application made under clause (i) shall include a description of—

(I) how the Center will work with other research institutions, industry partners, and State and local officials to identify research, testing, and technical standards needs relevant to greenhouse gas emissions;

(II) how the Center will promote active collaboration among researchers in multiple disciplines involved in the measurement of greenhouse gas emissions; and

(III) how the Center will share technical expertise with relevant public and private sector stakeholders, including state and local officials, to assist such entities in measuring greenhouse gas emissions.

(iii) SELECTION AND DURATION.—Each Center established under this section is authorized to carry out activities for a period of 5 years, renewable for an additional 5 years at the discretion of the Director, in consultation with other Federal agencies as appropriate.

SEC. 10223. NIST AUTHORITY FOR CYBERSECURITY AND PRIVACY ACTIVITIES.

Section 2 of the National Institute of Standards and Technology Act (15 U.S.C. 272 et seq.) is amended—

(1) in subsection (c)—

(A) in paragraph (16), by striking the period at the end and inserting a semicolon;

(B) by redesignating paragraphs (16) through (27) as paragraphs (21) through (32), respectively; and

(C) by inserting after paragraph (15) the following:

“(16) support information security measures for the development and lifecycle of software and the software supply chain, including development of voluntary, consensus-based technical standards, best practices, frameworks, methodologies, procedures, processes, and software engineering toolkits and configurations;

“(17) support information security measures, including voluntary, consensus-based technical standards, best practices, and guidelines, for the design, adoption and deployment of cloud computing services;

“(18) support research, development, and practical application to improve the usability of cybersecurity processes and technologies;

“(19) facilitate and support the development of a voluntary, consensus-based set of technical standards, guidelines, best practices, methodologies, procedures, and processes to cost-effectively ensure appropriate privacy protections for personally identifiable information in systems, technologies, and processes used by both the public and private sector;

“(20) support privacy measures, including voluntary, consensus-based technical standards, best practices, guidelines, metrology, and testbeds for the design, adoption and deployment of privacy enhancing technologies;”;

(2) in subsection (e)(1)(A)—

(A) in clause (viii), by striking “and” at the end;

(B) by redesignating clause (ix) as clause (xi); and

(C) by inserting after clause (viii) the following:

“(ix) conduct reviews of and create impact metrics for cybersecurity solutions and capabilities developed by the Institute for purposes of improvement;”.

SEC. 10224. SOFTWARE SECURITY AND AUTHENTICATION.

(a) **VULNERABILITIES IN OPEN SOURCE SOFTWARE.**—The Director shall assess and assign severity metrics to identified vulnerabilities with open source software and produce voluntary guidance to assist the entities that maintain open source software repositories to discover and mitigate vulnerabilities.

(b) **ARTIFICIAL INTELLIGENCE-ENABLED DEFENSES.**—The Director shall carry out research and testing to improve the effectiveness of artificial intelligence-enabled cybersecurity, including by generating optimized data sets to train artificial intelligence defense systems and evaluating the performance of varying network architectures at strengthening network security.

(c) **AUTHENTICATION OF INSTITUTE SOFTWARE.**—The Director shall ensure all software released by the Institute is digitally signed and maintained to enable stakeholders to verify its authenticity and integrity upon installation and execution.

(d) **ASSISTANCE TO INSPECTORS GENERAL.**—The Director shall provide technical assistance to improve the education and training of individual Federal agency Inspectors General and staff who are responsible for the annual independent evaluation they are required to perform of the information security program and practices of Federal Agencies under section 3555 of title 44, United States Code.

(e) **SOFTWARE SUPPLY CHAIN SECURITY PRACTICES.**—

(1) **IN GENERAL.**—The Director shall, in coordination with industry, academia, and other Federal agencies, as appropriate, develop a set of security outcomes and practices, including security controls, control enhancements, supplemental guidance, or other supporting information to enable software developers and operators to identify, assess, and manage cyber risks over the full lifecycle of software products.

(2) **OUTREACH.**—The Director shall conduct outreach and coordination activities to share technical expertise with Federal agencies, relevant industry stakeholders, and standards development organizations, as appropriate, to encourage the voluntary adoption of the software lifecycle security practices by Federal agencies and industry stakeholders.

SEC. 10225. DIGITAL IDENTITY MANAGEMENT RESEARCH.

Section 504 of the Cybersecurity Enhancement Act of 2014 (15 U.S.C. 7464) is amended to read as follows:

“SEC. 504. IDENTITY MANAGEMENT RESEARCH AND DEVELOPMENT.

“(a) **IN GENERAL.**—The Director shall carry out a program of research to support the development of voluntary, consensus-based technical standards, best practices, benchmarks, methodologies, metrology, testbeds, and conformance criteria for identity management, taking into account appropriate user concerns—

“(1) to improve interoperability and portability among identity management technologies;

“(2) to strengthen identity proofing and verification methods used in identity management systems;

“(3) to improve privacy protection in identity management systems through authentication and security protocols; and

“(4) to monitor and improve the accuracy, usability, and inclusivity of identity management systems.

“(b) **DIGITAL IDENTITY TECHNICAL ROADMAP.**—The Director, in consultation with other relevant Federal agencies and stakeholders from the private sector, shall develop and maintain a technical roadmap for digital identity management research and development focused on enabling the voluntary use and adoption of modern digital identity solutions that align with the four criteria in subsection (a).

“(c) **DIGITAL IDENTITY MANAGEMENT GUIDANCE.**—

“(1) **IN GENERAL.**—The Director shall develop, and periodically update, in collaboration with other public and private sector organizations, common definitions and voluntary guidance for digital identity management systems.

“(2) **GUIDANCE.**—The Guidance shall—

“(A) align with the four criteria in subsection (a), as practicable;

“(B) provide case studies of implementation of guidance;

“(C) incorporate voluntary technical standards and industry best practices; and

“(D) not prescribe or otherwise require the use of specific technology products or services.

“(3) **CONSULTATION.**—In carrying out this subsection, the Director shall consult with—

“(A) Federal and State agencies;

“(B) industry;

“(C) potential end-users and individuals that will use services related to digital identity verification; and

“(D) experts with relevant experience in the systems that enable digital identity verification, as determined by the Director.”.

SEC. 10226. BIOMETRICS RESEARCH AND TESTING.

(a) **IN GENERAL.**—The Secretary, acting through the Director, shall establish a program to support measurement research to inform the development of best practices, benchmarks, methodologies, procedures, and voluntary, consensus-based technical standards for biometric identification systems, including facial recognition systems, to assess and improve the performance of such systems. In carrying out such program, the Director may—

(1) conduct research to support efforts to improve the performance of biometric identification systems, including in areas related to conformity assessment, image quality and interoperability, contactless biometric capture technologies, and human-in-the-loop biometric identification systems and processes;

(2) convene and engage with relevant stakeholders to establish common definitions and characterizations for biometric identification systems, including accuracy, fairness, bias, privacy, consent, and other properties, taking into account definitions in relevant international technical standards and other publications;

(3) carry out research and testing on a range of biometric modalities, such as fingerprints, voice, iris, face, vein, behavioral biometrics, genetics, multimodal biometrics, and emerging applications of biometric identification technology;

(4) study the use of privacy-enhancing technologies and other technical protective controls to facilitate access to public data sets for biometric research;

(5) conduct outreach and coordination to share technical expertise with relevant industry and non-industry stakeholders and standards development organizations to assist such entities in the development of best practices and voluntary technical standards; and

(6) develop such standard reference artifacts as the Director determines is necessary to further the development of such voluntary technical standards.

(b) **BIOMETRICS VENDOR TEST PROGRAM.**—

(1) **IN GENERAL.**—The Secretary, acting through the Director, shall carry out a test program to provide biometrics vendors the opportunity to test biometric identification technologies across a range of modalities.

(2) **ACTIVITIES.**—In carrying out the program under this subsection, the Director shall—

(A) conduct research and regular testing to improve and benchmark the accuracy, efficacy, and bias of biometric identification systems, including research and testing on demographic variations, capture devices, presentation attack detection, partially occluded or computer generated images, privacy and security designs and controls, template protection, de-identification, and comparison of algorithm, human, and combined algorithm-human recognition capability;

(B) develop an approach for testing software and cloud-based biometrics applications, including remote systems, in Institute test facilities;

(C) establish reference use cases for biometric applications and performance criteria for assessing each use case, including accuracy and bias metrics;

(D) produce public-facing reports of the findings from such testing for a general audience; and

(E) conduct such other activities as deemed necessary by the Director.

SEC. 10227. FEDERAL BIOMETRIC PERFORMANCE STANDARDS.

Section 20 of the National Institute of Standards and Technology Act (15 U.S.C. 278g–3) is amended in subsection (b)—

(1) in paragraph (2), by striking “and” after the semicolon;

(2) in paragraph (3), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(4) performance standards and guidelines for high risk biometric identification systems, including facial recognition systems, accounting for various use cases, types of biometric identification systems, and relevant operational conditions.”.

SEC. 10228. PROTECTING RESEARCH FROM CYBER THEFT.

Section 2(e)(1)(A) of the National Institute of Standards and Technology Act (15 U.S.C. 272(e)(1)(A)), as amended by section 10223(2), is further amended by inserting after clause (ix), as added by section 10223(2)(C), the following:

“(x) consider institutions of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)); and”.

SEC. 10229. DISSEMINATION OF RESOURCES FOR RESEARCH INSTITUTIONS.

(a) **DISSEMINATION OF RESOURCES FOR RESEARCH INSTITUTIONS.**—

(1) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Director shall, using the authorities of the Director under subsections (c)(15) and (e)(1)(A)(ix) of section 2 of the National Institute of Standards and Technology Act (15 U.S.C. 272), as amended by section 10228, disseminate and make publicly available resources to help qualifying institutions identify, assess, manage, and reduce their cybersecurity risk related to conducting research.

(2) **REQUIREMENTS.**—The Director shall ensure that the resources disseminated pursuant to paragraph (1)—

(A) are generally applicable and usable by a wide range of qualifying institutions;

(B) vary with the nature and size of the qualifying institutions, and the nature and sensitivity of the data collected or stored on the information systems or devices of the qualifying institutions;

(C) include elements that promote awareness of simple, basic controls, a workplace cybersecurity culture, and third-party stakeholder relationships, to assist qualifying institutions in mitigating common cybersecurity risks;

(D) include case studies, examples, and scenarios of practical application;

(E) are technology-neutral and can be implemented using technologies that are commercial and off-the-shelf; and

(F) to the extent practicable, are based on international technical standards.

(3) **NATIONAL CYBERSECURITY AWARENESS AND EDUCATION PROGRAM.**—The Director shall ensure that the resources disseminated under paragraph (1) are consistent with the efforts of the Director under section 303 of the Cybersecurity Enhancement Act of 2014 (15 U.S.C. 7451).

(4) **UPDATES.**—The Director shall review periodically and update the resources under paragraph (1) as the Director determines appropriate.

(5) **VOLUNTARY RESOURCES.**—The use of the resources disseminated under paragraph (1) shall be considered voluntary.

(b) **OTHER FEDERAL CYBERSECURITY REQUIREMENTS.**—Nothing in this section may be construed to supersede, alter, or otherwise affect

any cybersecurity requirements applicable to Federal agencies.

(c) DEFINITIONS.—In this section:

(1) QUALIFYING INSTITUTIONS.—The term “qualifying institutions” means institutions of higher education that are classified as either very-high research intensive (R1) or high research intensive (R2) status universities by the Carnegie Classification of Academic Institutions.

(2) RESOURCES.—The term “resources” means guidelines, tools, best practices, technical standards, methodologies, and other ways of providing information.

SEC. 10230. ADVANCED COMMUNICATIONS RESEARCH.

The National Institute of Standards and Technology Act (15 U.S.C. 271 et seq.) is amended—

(1) by redesignating section 35 as section 36; and

(2) by inserting after section 34 the following:

“SEC. 35. ADVANCED COMMUNICATIONS RESEARCH ACTIVITIES.

“(a) ADVANCED COMMUNICATIONS RESEARCH.—

“(1) IN GENERAL.—The Director, in consultation with the Administrator of the National Telecommunications and Information Administration, the Director of the National Science Foundation, and heads of other Federal agencies, as appropriate, shall carry out a program of measurement research for advanced communications technologies.

“(2) RESEARCH AREAS.—Research areas may include—

“(A) radio frequency emissions and interference, including technologies and techniques to mitigate such emissions;

“(B) advanced antenna arrays and artificial intelligence systems capable of operating advanced antenna arrays;

“(C) artificial intelligence systems to enable internet of things networks, immersive technology, and other advanced communications technologies;

“(D) network sensing and monitoring technologies;

“(E) technologies to enable spectrum flexibility and agility;

“(F) optical and quantum communications technologies;

“(G) security of advanced communications systems

“(H) public safety communications;

“(I) resilient internet of things applications for advanced manufacturing; and

“(J) other research areas deemed necessary by the Director.

“(3) TEST BEDS.—In coordination with the Assistant Secretary for Communications and Information, the private sector, and other Federal agencies as appropriate, the Director may develop and manage testbeds for research and development of advanced communications technologies, avoiding duplication of existing testbeds run by other agencies or the private sector.

“(4) OUTREACH.—In carrying out the activities under this subsection, the Director shall seek input from other Federal agencies and from private sector stakeholders, on an ongoing basis, to help inform research and development priorities, including through workshops and other multi-stakeholder activities.

“(5) TECHNICAL ROADMAPS.—In carrying out the activities under this subsection, the Director shall convene industry, institutions of higher education, nonprofit organizations, Federal laboratories, and other Federal agencies engaged in advanced communications research and development to develop, and periodically update, coordinated technical roadmaps for advanced communications research in priority areas, such as those described in paragraph (2).

“(b) NATIONAL ADVANCED SPECTRUM AND COMMUNICATIONS TEST NETWORK.—

“(1) IN GENERAL.—The Director, in coordination with the Administrator of the National Telecommunications and Information Administration and heads of other Federal agencies, as appropriate, shall operate a national network of government, academic, and commercial test capabilities and facilities to be known as the National Advanced Spectrum and Communications Test Network (referred to in this section as “NASCTN”).

“(2) PURPOSES.—NASCTN shall be for the purposes of facilitating and coordinating the use of intellectual capacity, modeling and simulation, laboratory facilities, and test facilities to meet national spectrum interests and challenges, including—

“(A) measurements and analyses of electromagnetic propagation, radio systems characteristics, and operating techniques affecting the utilization of the electromagnetic spectrum in coordination with specialized, related research and analysis performed by other Federal agencies in their areas of responsibility;

“(B) conducting research and analysis in the general field of telecommunications sciences in support of the Institute’s mission and in support of other Government agencies;

“(C) developing methodologies for testing, measuring, and setting guidelines for interference;

“(D) conducting interference tests to better understand the impact of Federal and commercial spectrum activities;

“(E) conducting research and testing to improve spectrum interference tolerance, flexibility, and agility; and

“(F) other activities as deemed necessary by the Director.

SEC. 10231. NEUTRON SCATTERING.

(a) STRATEGIC PLAN FOR THE INSTITUTE NEUTRON REACTOR.—The Director shall develop a strategic plan for the future of the NIST Center for Neutron Research after the current neutron reactor is decommissioned, including—

(1) a succession plan for the reactor, including a roadmap with timeline and milestones;

(2) conceptual design of a new reactor and accompanying facilities, as appropriate; and

(3) a plan to minimize disruptions to the user community during the transition.

(b) COORDINATION WITH THE DEPARTMENT OF ENERGY.—The Secretary, acting through the Director, shall coordinate with the Secretary of Energy on issues related to Federal support for neutron science, including estimation of long-term needs for research using neutron sources, and planning efforts for future facilities to meet such needs.

(c) REPORT TO CONGRESS.—Not later than 18 months after the enactment of this Act, the Director shall submit to Congress the plan required under subsection (a), and shall notify Congress of any substantial updates to such plan in subsequent years.

SEC. 10232. QUANTUM INFORMATION SCIENCE.

(a) IN GENERAL.—The Director shall continue to prioritize and carry out activities authorized in the National Quantum Initiative Act (15 U.S.C. 8801).

(b) QUANTUM RESEARCH.—Section 201(a) of the National Quantum Initiative Act (15 U.S.C. 8831) is amended—

(1) by redesignating paragraphs (3) through (4) as paragraphs (6) through (7); and

(2) by inserting after paragraph (2) the following:

“(3) shall carry out research to facilitate the development and standardization of quantum cryptography and post-quantum classical cryptography;

“(4) shall carry out research to facilitate the development and standardization of quantum networking and communications technologies and applications, including—

“(A) quantum repeater technology;

“(B) quantum network traffic management;

“(C) quantum transduction;

“(D) long baseline entanglement and teleportation; and

“(E) such other technologies, processes, or applications as the Director considers appropriate;

“(5) for quantum technologies deemed by the Director to be at a readiness level sufficient for standardization, shall provide technical review and assistance to such other Federal agencies as the Director considers appropriate for the development of quantum network infrastructure standards;”.

SEC. 10233. ARTIFICIAL INTELLIGENCE.

(a) IN GENERAL.—The Director shall continue to support the development of artificial intelligence and data science, and carry out the activities of the National Artificial Intelligence Initiative Act of 2020 authorized in division E of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283), including through—

(1) expanding the Institute’s capabilities, including scientific staff and research infrastructure;

(2) supporting measurement research and development for advanced computer chips and hardware designed for artificial intelligence systems;

(3) supporting the development of technical standards and guidelines that promote safe and trustworthy artificial intelligence systems;

(4) creating a framework for managing risks associated with artificial intelligence systems; and

(5) developing and publishing cybersecurity tools, encryption methods, and best practices for artificial intelligence and data science.

(b) TESTBEDS.—In coordination with other Federal agencies as appropriate, the private sector, and institutions of higher education, the Director may establish testbeds to examine artificial intelligence and machine learning systems in virtual environments for vulnerabilities that may lead to failure, malfunction, or attacks under a wide range of conditions.

SEC. 10234. SUSTAINABLE CHEMISTRY RESEARCH AND EDUCATION.

In accordance with section 263 of the National Defense Authorization Act for Fiscal Year 2021, the Director shall carry out activities in support of sustainable chemistry, including coordinating and partnering with academia, industry, nonprofits, and other entities in activities to support clean, safe, and economic alternatives, technologies, and methodologies to traditional chemical products and processes.

SEC. 10235. PREMISE PLUMBING RESEARCH.

(a) IN GENERAL.—The Secretary, acting through the Director, shall create a program in consultation with the Environmental Protection Agency, for premise plumbing research, including to—

(1) conduct metrology research on premise plumbing in relation to water safety, security, efficiency, sustainability, and resilience; and

(2) coordinate research activities with academia, the private sector, nonprofits, and other Federal agencies.

(b) DEFINITIONS.—For purposes of this section, the term “premise plumbing” means the water distribution system located within the property lines of a property, including all buildings and permanent structures on such property. Such term includes building supply and distribution pipes, fixtures, fittings, water heaters, water-treating and water-using equipment, and all respective joints, connections, devices, and appurtenances.

Subtitle C—General Activities

SEC. 10241. EDUCATIONAL OUTREACH AND SUPPORT FOR UNDERREPRESENTED COMMUNITIES.

Section 18 of the National Institute of Standards and Technology Act (15 U.S.C. 278g-1) is amended—

(1) in subsection (a), in the second sentence—

(A) by striking “may” and inserting “shall”; and

(B) by striking “academia” and inserting “diverse types of institutions of higher education, including minority-serving institutions and community colleges”; and

(2) in subsection (e)—

(A) in paragraph (4), by striking “and” at the end;

(B) in paragraph (5), by striking the period at the end and inserting “; and”; and

(C) by inserting after paragraph (5) the following:

“(6) conduct outreach to and develop research collaborations with historically Black colleges and universities and minority-serving institutions, including through the recruitment of students and faculty at such institutions to participate in programs developed under paragraph (3);

“(7) conduct outreach to and develop research collaborations with community colleges, including through the recruitment of students and faculty at such institutions to participate in programs developed under paragraph (3);

“(8) carry out other activities to increase the participation of persons historically underrepresented in STEM in the Institute’s programs; and

“(9) conduct outreach to and develop collaborations with nontraditional educational organizations, including those that offer training through non-profit associations and professional associations or professional societies, to engage persons historically underrepresented in STEM through programs developed under this subsection.”.

SEC. 10242. OTHER TRANSACTIONS AUTHORITY.

Section 2(b)(4) of the National Institute of Standards and Technology Act (15 U.S.C. 272(b)(4)) is amended to read as follows:

“(4) to enter into and perform such contracts, including cooperative research and development arrangements and grants and cooperative agreements or other transactions, as may be necessary in the conduct of its work and on such terms as it may deem appropriate, in furtherance of the purposes of this Act;”.

SEC. 10243. REPORT TO CONGRESS ON COLLABORATIONS WITH GOVERNMENT AGENCIES.

Not later than 6 months after the date of the enactment of this Act, the Director shall submit a report to the Committee on Science, Space, and Technology and the Committee on Appropriations of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Appropriations of the Senate describing the Institute’s challenges with respect to collaboration between the Institute and other Federal agencies. The report shall include, at a minimum—

(1) an assessment of the challenges that arise with interagency collaboration, including transfer of funds with a limited period of availability to the Institute and issues with sharing personnel, associates, facilities, and property with collaborating agencies; and

(2) descriptions of projects that were disrupted due to the challenges outlined in paragraph (1).

SEC. 10244. HIRING CRITICAL TECHNICAL EXPERTS.

Section 6 of the National Institute of Standards and Technology Act is amended to read as follows:

“SEC. 6. HIRING CRITICAL TECHNICAL EXPERTS.

“(a) IN GENERAL.—The officers and employees of the Institute, except the director, shall be appointed by the Secretary at such time as their respective services may become necessary.

“(b) HIRING CRITICAL TECHNICAL EXPERTS.—Notwithstanding section 3104 of title 5 or the provisions of any other law relating to the appointment, number, classification, or compensation of employees, the Secretary shall have the authority to make appointments of scientific, engineering, and professional personnel, and to fix the basic pay of such personnel at a rate to be determined by the Secretary at rates not in

excess of the highest total annual compensation payable at the rate determined under section 104 of title 3. The Director shall appoint not more than 15 personnel under this section.

“(c) SUNSET.—The authority under section (b) shall expire on the date that is 5 years after the date of enactment of this section.”.

SEC. 10245. INTERNATIONAL STANDARDS DEVELOPMENT.

(a) INTERNATIONAL STANDARDS ENGAGEMENT.—

(1) IN GENERAL.—The Director shall lead information exchange and coordination among Federal agencies and communication from Federal agencies to the private sector of the United States to ensure effective Federal engagement in the development and use of international technical standards.

(2) REQUIREMENTS.—To support private sector-led engagement and ensure effective Federal engagement in the development and use of international technical standards, the Director shall consider—

(A) the role and needs of the Federal Government with respect to international technical standards;

(B) organizations developing international technical standards of interest to the United States, United States representation and influence in these organizations, and key contributors for technical and leadership expertise in these organizations;

(C) support for persons with domain subject matter expertise, especially from small businesses located in the United States, to influence and engage in technical standards leadership positions, working groups and meetings;

(D) opportunities for partnerships for supporting international technical standards from across the Federal Government, Federally funded research and development centers, university-affiliated research centers, institutions of higher education, industry, industry associations, nonprofit organizations, and other key contributors;

(E) support for activities to encourage the adoption of technical standards developed in the United States to be adopted by international standards organizations; and

(F) other activities determined by the Director to be necessary to support United States participation in international standards development, economic competitiveness, and national security in the development and use of international technical standards.

(b) CAPACITY BUILDING GUIDANCE.—The Director shall support education and workforce development efforts to promote United States participation in international standards organizations. The Director shall—

(1) identify and create, as appropriate, technical standards education and training resources for interested businesses, industry associations, academia, nonprofits, Federal agencies, and other relevant standards contributors, including activities targeted at integrating standards content into undergraduate and graduate curricula in science, engineering, business, public policy, and law;

(2) conduct outreach, including to private sector leaders, to support engagement by more United States stakeholders in international technical standards development; and

(3) other activities deemed necessary by the Director to support increased engagement, influence, and leadership of United States organizations in the development of international technical standards.

(c) CAPACITY BUILDING PILOT PROGRAM.—

(1) IN GENERAL.—The Director, in coordination with the Director of the National Science Foundation, the Administrator of the Small Business Administration and the heads of other relevant Federal agencies, as appropriate, shall establish a 5-year pilot program to award grants, on a merit-reviewed, competitive basis, to private sector entities, institutions of higher education, or nonprofit institutions based in the

United States to support increased participation by small business and academic interests in international standards organizations.

(2) ACTIVITIES.—In carrying out the pilot programs established in subsection (c), the Director shall award competitive, merit-reviewed grants to covered entities to cover the reasonable costs, up to a specified ceiling set by the Director, of activities supporting increased engagement and leadership of employees of small businesses and faculty of institutions of higher education or other nonprofit research institutions with subject matter and technical expertise necessary to be contributors in international standards organizations.

(3) AWARD CRITERIA.—The Director may only provide a grant under this section to an eligible recipient that—

(A) demonstrates deep technical standards expertise;

(B) demonstrates knowledge with the processes of the standards development organization in which the recipient intends to engage using grant funds;

(C) proposes a feasible set of standard deliverables to be completed over the period of the grant;

(D) explains how the recipient will fund the standards work supported by the grant if the grant funds are insufficient to cover all costs of the work; and

(E) commits personnel with appropriate expertise to engage in relevant international organizations responsible for developing technical standards over the period of the grant.

(4) ELIGIBILITY.—A small business concern (as defined in section 3 of the Small Business Act (15 U.S.C. 632) based in the United States, an institution of higher education (as defined by section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002)), or a nonprofit institution as defined in section 4(5) of the Stevenson-Wydler Act (15 U.S.C. 3703) shall be eligible to receive grants under this program.

(5) PRIORITIZATION.—The Director may prioritize grants awarded under this section to eligible recipients for standards development proposals that address clearly defined current or anticipated market needs or gaps that would not be met without the grant.

(6) APPLICATION.—An eligible recipient seeking funding under subsection (c) shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require.

(7) MERIT REVIEW PROCESS.—Not later than 90 days after the enactment of this Act, the Director shall establish a merit review process, including the creation of merit review panels made of experts from government and the private sector, to evaluate the application under paragraph (6) to ensure applications submitted are reviewed in a fair, competitive, transparent, and in-depth manner.

(8) CONSULTATION.—In carrying out the pilot program established under subsection (c), the Director shall consult with other Federal agencies, private sector organizations, institutions of higher education, and nonprofit organizations to help inform the pilot program, including selection criteria, applicant disclosure requirements, grant amount and duration, and the merit review process.

(9) REPORT TO CONGRESS.—The Director shall brief Congress after the second year of the pilot program and each year following that includes the following:

(A) An assessment of the effectiveness of the pilot program for improving the participation of United States small businesses, United States institutions of higher education, or other nonprofit research institutions in international standards organizations, including—

(i) the type of activities supported, including leadership roles;

(ii) the international standards organizations participated in; and

(iii) the technical areas covered by the activities.

(B) If deemed effective, a plan for permanent implementation of the pilot program.

(d) **REAFFIRMING THE IMPORTANCE OF VOLUNTARY CONSENSUS-BASED INTERNATIONAL STANDARDS BODIES.**—To the extent applicable, the Institute, when preparing standards, participating in voluntary consensus standard bodies, and engaging in a standards development process that is open to participation from Chinese firms and state-owned enterprises of the People's Republic of China, the process should include the following attributes that are easily accessible, clear, and unambiguous:

- (1) Transparency.
- (2) Openness.
- (3) Impartiality and Consensus.
- (4) Effectiveness and Relevance.
- (5) Coherence.
- (6) Development Dimension.

SEC. 10246. STANDARD TECHNICAL UPDATE.

(a) **NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY ACT UPDATES.**—The National Institute of Standards and Technology Act (15 U.S.C. 271) is amended—

(1) in section 15—

(A) in subsection (b), by striking the period at the end and inserting a semicolon;

(B) in subsection (g), by striking “and” after the semicolon; and

(C) by striking the period at the end and inserting “;” and (i) the protection of Institute buildings and other plant facilities, equipment, and property, and of employees, associates, or visitors, located therein or associated therewith, notwithstanding any other provision of law, the direction of such of the officers and employees of the Institute as the Secretary deems necessary in the public interest hereafter to carry firearms while in the conduct of their official duties, and the authorization of employees of contractors and subcontractors of the Institute who are engaged in the protection of property owned by the United States, and located at facilities owned by, leased, used or under the control of the United States, to carry firearms while in the conduct of their official duties, and, under regulations prescribed by the Secretary and approved by the Attorney General, the authorization of officers and employees of the Institute and of its contractors and subcontractors authorized to carry firearms hereafter to arrest without warrant for any offense against the United States committed in their presence, or for any felony cognizable under the laws of the United States if they have reasonable grounds to believe that the person to be arrested has committed or is committing such felony, provided that such authority to make arrests may be exercised only while guarding and protecting buildings and other plant facilities, equipment, and property owned or leased by, used or under the control of, the United States under the administration and control of the Secretary.”; and

(2) by amending section 17(a) to read as follows:

“(a) The Secretary is authorized, notwithstanding any other provision of law, to expend such sums, within the limit of appropriated funds, as the Secretary may deem desirable through direct support for activities of international organizations and foreign national metrology institutes with which the Institute cooperates to advance measurement methods, technical standards, and related basic technologies, for official representation, to host official receptions, dinners, and similar events, and to otherwise extend official courtesies, including transportation of foreign dignitaries and representatives of foreign national metrology institutes to and from the Institute, for the purpose of maintaining the standing and prestige of the Department of Commerce and the Institute, through the grant of fellowships or other appropriate form of financial or logistical assistance or support to foreign nationals not in service to the Government of the United States while they are performing scientific or engineering work at the

Institute or participating in the exchange of scientific or technical information at the Institute.”.

(b) **STEVENSON-WYDLER UPDATES.**—Section 17(c)(1) of the Stevenson-Wydlar Technology Innovation Act of 1980 (15 U.S.C. 3711a(c)(1)) is amended—

(1) by moving each of subparagraphs (D) and (E) two ems to the left; and

(2) by adding at the end the following:

“(G) Community.”

(c) **AMERICAN INNOVATION AND COMPETITIVENESS ACT UPDATE.**—Section 113 of the American Innovation and Competitiveness Act (15 U.S.C. 278e note) is repealed.

(d) **CLERICAL AMENDMENT.**—The item relating to section 113 in the table of contents in section 1(b) of the American Innovation and Competitiveness Act is repealed.

(e) **FEDERAL ENERGY MANAGEMENT IMPROVEMENT ACT UPDATE.**—Section 4 of the Federal Energy Management Improvement Act of 1988 (15 U.S.C. 5001) is amended—

(1) by striking “Secretary of Commerce” and “Secretary” each place either such term appears and inserting “Consumer Product Safety Commission”;;

(2) by redesignating the second subsection (c) as subsection (e); and

(3) in subsection (g), by redesignating clauses (i) and (ii) as paragraphs (1) and (2), respectively.

SEC. 10247. GAO STUDY OF NIST RESEARCH SECURITY POLICIES AND PROTOCOLS.

(a) **EVALUATION.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct a study of the Institute's policies and protocols to protect its research and combat undue foreign influence.

(b) **MATTERS TO BE INCLUDED.**—The study conducted under subsection (a) shall include, to the extent practicable, the following:

(1) An analysis of steps taken by the Institute to address foreign threats to Institute-funded research over the previous 5 years.

(2) An analysis of the coordination and engagement between the Department of Commerce's Office of Inspector General, the Department of Commerce's Office of Intelligence, the National Counterintelligence and Security Center of the Office of the Director of National Intelligence, and the Institute in identifying and addressing concerning findings.

(3) An assessment of the Institute's review process for Foreign National associates.

(4) An assessment of the Institute's policies as it relates to employees and associates participating in foreign talent recruitment programs.

(5) An assessment of the Institute's implementation of conflict-of-interest and disclosure policies and requirements, including the disclosure requirements authorized in section 223 of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283).

(6) An assessment of the Institute's, the Department of Commerce's Office of Security, the Department of Commerce's Office of Intelligence, and the Department of Commerce's Office of Inspector General's ability to monitor and enforce conflict-of-interest and disclosure policies and requirements, including the disclosure requirements authorized in section 223 of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283).

(7) An assessment of the Institute's, the Department of Commerce's, and the Department of Commerce's Office of Inspector General's ability to conduct risk assessments of research and development award applications and disclosures to the Institute.

(8) An assessment of the Institute's research security training programs for both internal and externally-supported researchers and associates, including training focused on international collaboration, and international travel, foreign interference, and rules for proper use of funds, disclosure, conflict of commitment, and conflict of interest.

(9) An analysis and summary of incidents of undue foreign influence at Institute-supported research facilities and programs over the past 10 years.

(10) Recommendations for the Institute to bolster its research security policies and protocols.

(11) Other matters the Comptroller General determines appropriate.

(c) **CONGRESSIONAL BRIEFING.**—Not later than 180 days after the date of enactment of this Act, the Comptroller General shall brief the Committee on Science, Space, and Technology and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee of Commerce, Science, and Transportation of the Senate on the findings available from the evaluation conducted under subsection (a).

(d) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Comptroller General shall submit to the congressional committees specified in subsection (c) a report on the findings and recommendations of the evaluation conducted under subsection (a).

SEC. 10248. STANDARDS DEVELOPMENT ORGANIZATION GRANTS.

(a) **NONGOVERNMENTAL STANDARDS DEVELOPMENT ORGANIZATION DEFINED.**—In this section, the term “nongovernmental standards development organization” means a nongovernmental standards development organization (as defined in section 2(e) of the Office of Management and Budget Circular A-119 (relating to Federal participation in the development and use of voluntary consensus standards in conformity assessment activities), or any successor document) that adheres to the American National Standards Institute (ANSI) Essential Requirements for Due Process for American National Standards.

(b) **GRANT AUTHORITY.**—The Secretary of Commerce, acting through the Director, shall establish a competitive program of grants for nongovernmental standards development organizations for the purposes described in subsection (c).

(c) **PURPOSES.**—A grant awarded under subsection (b) shall be used to develop, approve, disseminate, maintain, and review forensic science voluntary consensus standards and best practices that shall be available to the public free of charge.

(d) **ADDITIONAL REQUIREMENTS.**—The Director may promulgate such requirements, guidelines, and procedures as may be necessary to carry out this section.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section \$2,000,000 for each of fiscal years 2022 through 2026.

Subtitle D—Hollings Manufacturing Extension Partnership

SEC. 10251. ESTABLISHMENT OF EXPANSION AWARDS PILOT PROGRAM AS A PART OF THE HOLLINGS MANUFACTURING EXTENSION PARTNERSHIP.

The National Institute of Standards and Technology Act (15 U.S.C. 271 et seq.) is amended by inserting after section 25A (15 U.S.C. 278k-1) the following:

“SEC. 25B. EXPANSION AWARDS PILOT PROGRAM.

“(a) **DEFINITIONS.**—The terms used in this section have the meanings given the terms in section 25.

“(b) **ESTABLISHMENT.**—The Director shall establish as a part of the Hollings Manufacturing Extension Partnership a pilot program of expansion awards among participants described in subsection (c) of this section for the purposes described in subsection (e) of this section.

“(c) **PARTICIPANTS.**—Participants receiving awards under this section shall be Centers, or a consortium of Centers.

“(d) **AWARD AMOUNTS.**—Subject to the availability of appropriations, an award for a recipient under this section shall be in an amount equal to the sum of the following:

“(1) Such amount as the Director considers appropriate as a minimum base funding level for each award under this section.

“(2) Such additional amount as the Director considers in proportion to the manufacturing density of the region of the recipient.

“(3) Such supplemental amounts as the Director considers appropriate.

“(e) PURPOSE OF AWARDS.—An award under this section shall be made for one or more of the following purposes:

“(1) To provide coordinating services on employee engagement, including employee ownership and workforce training, including connecting manufacturers with career and technical education entities, institutions of higher education (including community colleges), workforce development boards, labor organizations, and nonprofit job training providers to develop and support training and job placement services, including apprenticeship and online learning platforms, for new and incumbent workers, programming to prevent job losses when adopting new technologies and processes, and development of employee ownership practices.

“(2) To provide services to improve the resiliency of domestic supply chains and to mitigate vulnerabilities to cyberattacks, including helping to offset the cost of cybersecurity projects for small manufacturers.

“(3) To expand advanced technology services to United States-based small- and medium-sized manufacturers, which may include—

“(A) developing advanced technology demonstration laboratories for training and demonstration in areas of supply chain and critical technology needs, including a focus on the demonstration of technologies developed by companies based in the United States;

“(B) services for the adoption of advanced technologies, including smart manufacturing technologies and practices; and

“(C) establishing partnerships, for the development, demonstration, and deployment of advanced technologies, between United States-based small- and medium-sized manufacturers and—

“(i) national laboratories (as defined in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801));

“(ii) Federal laboratories;

“(iii) Manufacturing USA institutes (as described in section 34(d)); and

“(iv) institutions of higher education.

“(4) To build capabilities across the Hollings Manufacturing Extension Partnership for domestic supply chain resiliency and optimization, including—

“(A) assessment of domestic manufacturing capabilities, expanded capacity for researching and deploying information on supply chain risk, hidden costs of reliance on offshore suppliers, redesigning products and processes to encourage reshoring, and other relevant topics; and

“(B) expanded services to provide industry-wide support that assists United States manufacturers with reshoring manufacturing to strengthen the resiliency of domestic supply chains, including in critical technology areas and foundational manufacturing capabilities that are key to domestic manufacturing competitiveness and resiliency, including forming, casting, machining, joining, surface treatment, and tooling.

“(f) REIMBURSEMENT.—The Director may reimburse Centers for costs incurred by the Centers under this section.

“(g) APPLICATIONS.—Applications for awards under this section shall be submitted in such manner, at such time, and containing such information as the Director shall require in consultation with the Manufacturing Extension Partnership Advisory Board.

“(h) SELECTION.—

“(1) REVIEWED AND MERIT-BASED.—The Director shall ensure that awards under this section are reviewed and merit-based.

“(2) GEOGRAPHIC DIVERSITY.—The Director shall endeavor to have broad geographic diversity among selected proposals.

“(3) CRITERIA.—The Director shall select applications consistent with the purposes identi-

fied pursuant to subsection (e) to receive awards that the Director determines will achieve one or more of the following:

“(A) Improvement of the competitiveness of industries in the region in which the Center or Centers are located.

“(B) Creation of jobs or training of newly hired employees.

“(C) Promotion of the transfer and commercialization of research and technology from institutions of higher education, national laboratories, or other Federally funded research programs, and nonprofit research institutes.

“(D) Recruitment of a diverse manufacturing workforce, including through outreach to underrepresented populations, including individuals identified in section 33 or section 34 of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885a, 1885b).

“(E) Any other result the Director determines will advance the objective set forth in sections 25(c) or 26.

“(i) PROGRAM CONTRIBUTION.—Recipients of awards under this section shall not be required to provide a matching contribution.

“(j) GLOBAL MARKETPLACE PROJECTS.—In making an award under this section, the Director, in consultation with the Manufacturing Extension Partnership Advisory Board and the Secretary, may take into consideration whether an application has significant potential for enhancing the competitiveness of small and medium-sized United States manufacturers in the global marketplace.

“(k) DURATION.—The Director shall ensure that the duration of an award under this section is aligned and consistent with a Center's cooperative agreement established in section 25(e).

“(l) REPORT.—After the completion of the pilot program under subsection (b) and not later than October 1, 2024, the Director shall submit to Congress a report that includes—

“(1) a summary description of what activities were funded and the measurable outcomes of such activities;

“(2) a description of which types of activities under paragraph (1) could be integrated into, and supported under, the program under section 25;

“(3) a description of which types of activities under paragraph (1) could be integrated into, and supported under, the competitive awards program under section 25A; and

“(4) a recommendation, supported by a clear explanation, as to whether the pilot program should be continued.”.

SEC. 10252. UPDATE TO MANUFACTURING EXTENSION PARTNERSHIP.

(a) ACCEPTANCE OF FUNDS.—Section 25(l) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(l)) is amended to read as follows:

“(1) ACCEPTANCE OF FUNDS.—

“(1) IN GENERAL.—In addition to such sums as may be appropriated to the Secretary and Director to operate the Program, the Secretary and Director may also accept funds from other Federal departments and agencies, as well as funds provided by the private sector pursuant to section 2(c)(7) of this Act (15 U.S.C. 272(c)(7)), to be available to the extent provided by appropriations Acts, for the purpose of strengthening United States manufacturing.

“(2) COMPETITIVE AWARDS.—Funds accepted from other Federal departments and agencies and from the private sector under paragraph (1) shall be awarded competitively by the Secretary and by the Director to Manufacturing Extension Partnership Centers, provided that the Secretary and Director may make non-competitive awards, pursuant to this section or section 25A, or as a non-competitive contract, as appropriate, if the Secretary and the Director determine that—

“(A) the manufacturing market or sector targeted is limited geographically or in scope;

“(B) the number of States (or territory, in the case of Puerto Rico) with Manufacturing Exten-

sion Partnership Centers serving manufacturers of such market or sector is five or fewer; and

“(C) such Manufacturing Extension Partnership Center or Centers has received a positive evaluation in the most recent evaluation conducted pursuant to subsection (g).”.

(b) SUPPORTING AMERICAN MANUFACTURING.—Section 25 of the National Institute of Standards and Technology Act (15 U.S.C. 278k) is amended—

(1) in subsection (a)(5)—

(A) by striking “or consortium thereof,”; and

(B) by inserting “or a consortium thereof” before the period at the end of the sentence;

(2) in subsection (c)(4), by inserting “United States-based” before “industrial”;

(3) in subsection (d)—

(A) in paragraph (1), by inserting “at United States-based industrial facilities, including small and medium manufacturing companies” before “based”;

(B) in paragraph (2), by inserting “United States-based” before “companies”; and

(C) in paragraph (3), by inserting “United States-based” before “small”;

(4) in subsection (f)(5)(B)(i), by inserting “in the United States” before the semicolon at the end of the clause; and

(5) in subsection (n)(1)(A), by inserting “United States-based” before “small”.

(c) AMENDING THE MEP COMPETITIVE AWARDS PROGRAM.—Section 25A(c)(2) of the National Institute of Standards and Technology Act (15 U.S.C. 278k-1(c)(2)) is amended by inserting “United States” before “manufacturers”.

SEC. 10253. NATIONAL SUPPLY CHAIN DATABASE.

(a) ESTABLISHMENT OF NATIONAL SUPPLY CHAIN DATABASE.—The Director shall establish and maintain a National Supply Chain Database.

(b) PURPOSE.—The purpose of the National Supply Chain Database shall be to assist the Federal government and industry sectors in minimizing disruptions to the United States supply chain by having an assessment of United States manufacturers' capabilities.

(c) STUDY ON NATIONAL SUPPLY CHAIN DATABASE.—In establishing the National Supply Chain Database, the Director shall consider the findings and recommendations from the study authorized in section 9413 of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283), including measures to secure and protect the National Supply Chain Database from adversarial attacks and vulnerabilities.

(d) DATABASE AND MANUFACTURING EXTENSION PARTNERSHIP.—

(1) IN GENERAL.—The National Supply Chain Database shall be carried out and managed through the Hollings Manufacturing Extension Partnership program and the Director shall ensure that the Hollings Manufacturing Extension Partnership Centers are connected to the National Supply Chain Database.

(2) CAPABILITIES.—The National Supply Chain Database shall be capable of providing a national view of the supply chain and enable authorized database users to determine in near real-time the United States manufacturing capabilities for critical products, including defense supplies, food, and medical devices, including personal protective equipment.

(3) INDIVIDUAL STATE DATABASES.—Each State's supply chain database maintained by the Institute-recognized Manufacturing Extension Partnership Center within the State shall be complementary in design to the National Supply Chain Database.

(e) MAINTENANCE OF NATIONAL SUPPLY CHAIN DATABASE.—The Director, acting through the Hollings Manufacturing Extension Partnership program, shall maintain the National Supply Chain Database as an integration of the State level databases from each State's Manufacturing Extension Partnership Center and may be populated with information from past, current, or potential Center clients.

(f) **EXEMPT FROM PUBLIC DISCLOSURE.**—The National Supply Chain Database and any information related to it not publicly released by the Institute shall be exempt from public disclosure under section 552 of title 5, United States Code, and access to non-public content shall be limited to the contributing company and Manufacturing Extension Partnership Center staff who sign an appropriate non-disclosure agreement.

(g) **AUTHORIZATION OF APPROPRIATIONS.**—Of the funds authorized to the Hollings Manufacturing Extension Partnership Program, \$10,000,000 for each of the fiscal years 2022 through 2026 are authorized to carry out this title.

SEC. 10254. HOLLINGS MANUFACTURING EXTENSION PARTNERSHIP ACTIVITIES.

Section 70924(b) of the Infrastructure Investment and Jobs Act (Public Law 117-58) is amended to read as follows:

“(b) **AUTOMATIC ENROLLMENT IN GSA ADVANTAGE!**—The Administrator of the General Services Administration and the Secretary of Commerce, acting through the Under Secretary of Commerce for Standards and Technology, shall jointly ensure that businesses that participate in the Hollings Manufacturing Extension Partnership may, as the business considers appropriate, enroll in General Services Administration Advantage!.”

TITLE III—NATIONAL SCIENCE FOUNDATION FOR THE FUTURE

SEC. 10301. FINDINGS.

Congress finds the following:

(1) Over the past seven decades, the National Science Foundation has played a critical role in advancing the United States academic research enterprise by supporting fundamental research and education across science and engineering disciplines.

(2) Discoveries enabled by sustained investment in fundamental research and the education of the United States science and engineering workforce have led to transformational innovations and spawned new industries.

(3) While the traditional approach to investment in research has delivered myriad benefits to society, a concerted effort is needed to ensure the benefits of federally funded science and engineering are enjoyed by all Americans.

(4) As countries around the world increase investments in research and STEM education, United States global leadership in science and engineering is eroding, posing significant risks to economic competitiveness, national security, and public well-being.

(5) To address major societal challenges and sustain United States leadership in innovation, the Federal Government must increase investments in research, broaden participation in the STEM workforce, and bolster collaborations among universities, National Laboratories, field stations and marine laboratories, companies, labor organizations, non-profit funders of research, local policymakers, civil societies and stakeholder communities, and international partners.

SEC. 10302. DEFINITIONS.

In this title:

(1) **ACADEMIES.**—The term “Academies” means the National Academies of Sciences, Engineering, and Medicine.

(2) **ARTIFICIAL INTELLIGENCE.**—The term “artificial intelligence” has the meaning given such term in section 5002 of the William M. (MAC) Thornberry National Defense Authorization Act for Fiscal Year 2021.

(3) **AWARDEE.**—The term “awardee” means the legal entity to which Federal assistance is awarded and that is accountable to the Federal Government for the use of the funds provided.

(4) **BOARD.**—The term “Board” means the National Science Board.

(5) **DIRECTOR.**—The term “Director” means the Director of the National Science Foundation.

(6) **EMERGING RESEARCH INSTITUTION.**—The term “emerging research institution” means an

institution of higher education with an established undergraduate student program that has, on average for 3 years prior to the time of application for an award, received less than \$35,000,000 in Federal research funding.

(7) **FEDERAL RESEARCH AGENCY.**—The term “Federal research agency” means any Federal agency with an annual extramural research expenditure of over \$100,000,000.

(8) **FOUNDATION.**—The term “Foundation” means the National Science Foundation.

(9) **HISTORICALLY BLACK COLLEGE AND UNIVERSITY.**—The term “historically Black college and university” has the meaning given the term “part B institution” in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(10) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(11) **LABOR ORGANIZATION.**—The term “labor organization” has the meaning given the term in section 2(5) of the National Labor Relations Act (29 U.S.C. 152(5)), except that such term shall also include—

(A) any organization composed of labor organizations, such as a labor union federation or a State or municipal labor body; and

(B) any organization which would be included in the definition for such term under such section 2(5) but for the fact that the organization represents—

(i) individuals employed by the United States, any wholly owned Government corporation, any Federal Reserve Bank, or any State or political subdivision thereof;

(ii) individuals employed by persons subject to the Railway Labor Act (45 U.S.C. 151 et seq.); or

(iii) individuals employed as agricultural laborers.

(12) **MINORITY-SERVING INSTITUTION.**—The term “minority-serving institution” means a Hispanic-serving institution, an Alaska Native-serving institution, a Native Hawaiian-serving institutions, a Predominantly Black Institution, an Asian American and Native American Pacific Islander-serving institution, or a Native American-serving nontribal institution as described in section 371 of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

(13) **NON-PROFIT ORGANIZATION.**—The term “non-profit organization” means an organization which is described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such code.

(14) **NSF INCLUDES.**—The term “NSF includes” means the initiative carried out under section 10306(c).

(15) **PREK-12.**—The term “preK-12” means pre-kindergarten through grade 12.

(16) **RESEARCH AND DEVELOPMENT AWARD.**—The term “research and development award” means support provided to an individual or entity by a Federal research agency to carry out research and development activities, which may include support in the form of a grant, contract, cooperative agreement, or other such transaction. The term does not include a grant, contract, agreement or other transaction for the procurement of goods or services to meet the administrative needs of a Federal research agency.

(17) **SKILLED TECHNICAL WORK.**—The term “skilled technical work” means an occupation that requires a high level of knowledge in a technical domain and does not require a bachelor’s degree for entry.

(18) **STEM.**—The term “STEM” has the meaning given the term in section 2 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 6621 note).

(19) **STEM EDUCATION.**—The term “STEM education” has the meaning given the term in section 2 of the STEM Education Act of 2015 (42 U.S.C. 6621 note).

(20) **TRIBAL COLLEGE OR UNIVERSITY.**—The term “Tribal College or University” has the meaning given such term in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

SEC. 10303. AUTHORIZATION OF APPROPRIATIONS.

(a) **FISCAL YEAR 2022.**—

(1) **IN GENERAL.**—There are authorized to be appropriated to the Foundation \$12,504,890,000 for fiscal year 2022.

(2) **SPECIFIC ALLOCATIONS.**—Of the amount authorized under paragraph (1)—

(A) \$10,025,000,000 is authorized to be appropriated to carry out research and related activities, of which—

(i) \$55,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program; and

(ii) \$1,400,000,000 is authorized to be appropriated for the Directorate for Science and Engineering Solutions;

(B) \$1,583,160,000 is authorized to be appropriated for education and human resources, of which—

(i) \$73,700,000 is authorized to be appropriated for the Robert Noyce Teacher Scholarship Program;

(ii) \$59,500,000 is authorized to be appropriated for the NSF Research Traineeship Program;

(iii) \$416,300,000 is authorized to be appropriated for the Graduate Research Fellowship Program; and

(iv) \$70,000,000 is authorized to be appropriated for the Cybercorps Scholarship for Service Program;

(C) \$249,000,000 is authorized to be appropriated for major research equipment and facilities construction, of which \$76,250,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program;

(D) \$620,000,000 is authorized to be appropriated for agency operations and award management;

(E) \$4,620,000 is authorized to be appropriated for the Office of the National Science Board; and

(F) \$23,120,000 is authorized to be appropriated for the Office of the Inspector General.

(b) **FISCAL YEAR 2023.**—

(1) **IN GENERAL.**—There are authorized to be appropriated to the Foundation \$14,620,800,000 for fiscal year 2023.

(2) **SPECIFIC ALLOCATIONS.**—Of the amount authorized under paragraph (1)—

(A) \$11,870,000,000 is authorized to be appropriated to carry out research and related activities, of which—

(i) \$60,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program; and

(ii) \$2,300,000,000 is authorized to be appropriated for the Directorate for Science and Engineering Solutions;

(B) \$1,654,520,000 is authorized to be appropriated for education and human resources, of which—

(i) \$80,400,000 is authorized to be appropriated for the Robert Noyce Teacher Scholarship Program;

(ii) \$64,910,000 is authorized to be appropriated for the NSF Research Traineeship Program;

(iii) \$454,140,000 is authorized to be appropriated for the Graduate Research Fellowship Program; and

(iv) \$72,000,000 is authorized to be appropriated for the Cybercorps Scholarship for Service Program;

(C) \$355,000,000 is authorized to be appropriated for major research equipment and facilities construction, of which \$80,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program;

(D) \$710,000,000 is authorized to be appropriated for agency operations and award management;

(E) \$4,660,000 is authorized to be appropriated for the Office of the National Science Board; and

(F) \$26,610,000 is authorized to be appropriated for the Office of the Inspector General.

(c) FISCAL YEAR 2024.—

(1) IN GENERAL.—There are authorized to be appropriated to the Foundation \$15,945,020,000 for fiscal year 2024.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized under paragraph (1)—

(A) \$13,050,000,000 is authorized to be appropriated to carry out research and related activities, of which—

(i) \$70,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program; and

(ii) \$2,900,000,000 is authorized to be appropriated for the Directorate for Science and Engineering Solutions;

(B) \$1,739,210,000 is authorized to be appropriated for education and human resources, of which—

(i) \$87,100,000 is authorized to be appropriated for the Robert Noyce Teacher Scholarship Program;

(ii) \$70,320,000 is authorized to be appropriated for the NSF Research Traineeship Program;

(iii) \$491,990,000 is authorized to be appropriated for the Graduate Research Fellowship Program; and

(iv) \$78,000,000 is authorized to be appropriated for the Cybercorps Scholarship for Service Program;

(C) \$370,000,000 is authorized to be appropriated for major research equipment and facilities construction, of which \$85,000,000 shall be for the Mid-Scale Research Infrastructure Program;

(D) \$750,000,000 is authorized to be appropriated for agency operations and award management;

(E) \$4,700,000 is authorized to be appropriated for the Office of the National Science Board; and

(F) \$31,110,000 is authorized to be appropriated for the Office of the Inspector General.

(d) FISCAL YEAR 2025.—

(1) IN GENERAL.—There are authorized to be appropriated to the Foundation \$17,004,820,000 for fiscal year 2025.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized under paragraph (1)—

(A) \$14,000,000,000 is authorized to be appropriated to carry out research and related activities, of which—

(i) \$75,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program; and

(ii) \$3,250,000,000 is authorized to be appropriated for the Directorate for Science and Engineering Solutions;

(B) \$1,823,470,000 is authorized to be appropriated for education and human resources, of which—

(i) \$93,800,000 is authorized to be appropriated for the Robert Noyce Teacher Scholarship Program;

(ii) \$75,730,000 is authorized to be appropriated for the NSF Research Traineeship Program;

(iii) \$529,830,000 is authorized to be appropriated for the Graduate Research Fellowship Program; and

(iv) \$84,000,000 is authorized to be appropriated for the Cybercorps Scholarship for Service Program;

(C) \$372,000,000 is authorized to be appropriated for major research equipment and facilities construction, of which \$90,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program;

(D) \$770,000,000 is authorized to be appropriated for agency operations and award management;

(E) \$4,740,000 is authorized to be appropriated for the Office of the National Science Board; and

(F) \$34,610,000 is authorized to be appropriated for the Office of the Inspector General.

(e) FISCAL YEAR 2026.—

(1) IN GENERAL.—There are authorized to be appropriated to the Foundation \$17,939,490,000 for fiscal year 2026.

(2) SPECIFIC ALLOCATIONS.—Of the amount authorized under paragraph (1)—

(A) \$14,800,000,000 is authorized to be appropriated to carry out research and related activities, of which—

(i) \$80,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program; and

(ii) \$3,400,000,000 is authorized to be appropriated for the Directorate for Science and Engineering Solutions;

(B) \$1,921,600,000 is authorized to be appropriated for education and human resources, of which—

(i) \$100,500,000 is authorized to be appropriated for the Robert Noyce Teacher Scholarship Program;

(ii) \$81,140,000 is authorized to be appropriated for the NSF Research Traineeship Program;

(iii) \$567,680,000 is authorized to be appropriated for the Graduate Research Fellowship Program; and

(iv) \$90,000,000 is authorized to be appropriated for the Cybercorps Scholarship for Service Program;

(C) \$375,000,000 is authorized to be appropriated for major research equipment and facilities construction, of which \$100,000,000 is authorized to be appropriated for the Mid-Scale Research Infrastructure Program;

(D) \$800,000,000 is authorized to be appropriated for agency operations and award management;

(E) \$4,780,000 is authorized to be appropriated for the Office of the National Science Board; and

(F) \$38,110,000 is authorized to be appropriated for the Office of the Inspector General.

SEC. 10304. STEM EDUCATION.

(a) PREK-12 STEM EDUCATION.—

(1) DECADAL SURVEY OF STEM EDUCATION RESEARCH.—Not later than 45 days after the date of enactment of this Act, the Director shall enter into a contract with the Academies to review and assess the status and opportunities for PreK-12 STEM education research and make recommendations for research priorities over the next decade.

(2) SCALING INNOVATIONS IN PREK-12 STEM EDUCATION.—

(A) IN GENERAL.—The Director shall establish a program to award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to establish no fewer than 3 multidisciplinary Centers for Transformative Education Research and Translation (in this section referred to as “Centers”) to support research and development on widespread and sustained implementation of STEM education innovations.

(B) APPLICATION.—An institution of higher education or non-profit organization (or a consortium of such institutions or organizations) seeking funding under subparagraph (A) shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require. The application shall include, at a minimum, a description of how the proposed Center will—

(i) establish partnerships among academic institutions, local or State education agencies, and other relevant stakeholders in supporting programs and activities to facilitate the widespread and sustained implementation of promising, evidence-based STEM education practices, models, programs, curriculum, and technologies;

(ii) support enhanced STEM education infrastructure, including cyberlearning technologies, to facilitate the widespread adoption of promising, evidence-based practices;

(iii) support research and development on scaling practices, partnerships, and alternative models to current approaches, including approaches sensitive to the unique combinations of capabilities, resources, and needs of varying localities, educators, and learners;

(iv) include a focus on the learning needs of under resourced schools and learners in low-resource or underachieving local education agencies in urban and rural communities and the development of high-quality curriculum that engages these learners in the knowledge and practices of STEM fields;

(v) include a focus on the learning needs and unique challenges facing students with disabilities; and

(vi) support research and development on scaling practices and models to support and sustain highly-qualified STEM educators in urban and rural communities.

(C) ADDITIONAL CONSIDERATIONS.—In awarding a grant under this paragraph, the Director may also consider the extent to which the proposed Center will—

(i) leverage existing collaborations, tools, and strategies supported by the Foundation, including NSF INCLUDES and the Convergence Accelerators;

(ii) support research on and the development and scaling of innovative approaches to distance learning and education for various student populations;

(iii) support education innovations that leverage new technologies or deepen understanding of the impact of technology on educational systems; and

(iv) include a commitment from local or State education administrators to making the proposed reforms and activities a priority.

(D) PARTNERSHIP.—In carrying out the program under subparagraph (A), the Director shall explore opportunities to partner with the Department of Education, including through jointly funding activities under this paragraph.

(E) ANNUAL MEETING.—The Director shall encourage and facilitate an annual meeting of the Centers to foster collaboration among the Centers and to further disseminate the results of the Centers’ activities.

(F) REPORT.—Not later than 5 years after the date of enactment of this Act, the Director shall submit to Congress a report describing the activities carried out pursuant to this paragraph that includes—

(i) a description of the focus and proposed goals of each Center; and

(ii) an assessment of the program’s success in helping to promote scalable solutions in PreK-12 STEM education.

(3) NATIONAL ACADEMIES STUDY.—Not later than 45 days after the date of enactment of this Act, the Director shall enter into an agreement with the Academies to conduct a study to—

(A) review the research literature and identify research gaps regarding the interconnected factors that foster and hinder successful implementation of promising, evidence-based PreK-12 STEM education innovations at the local, regional, and national level;

(B) present a compendium of promising, evidence-based PreK-12 STEM education practices, models, programs, and technologies;

(C) identify barriers to widespread and sustained implementation of such innovations; and

(D) make recommendations to the Foundation, the Department of Education, the National Science and Technology Council’s Committee on Science, Technology, Engineering, and Mathematics Education, State and local educational agencies, and other relevant stakeholders on measures to address such barriers.

(4) SUPPORTING PRE-K-8 INFORMAL STEM OPPORTUNITIES.—Section 3 of the STEM Education Act of 2015 (42 U.S.C. 1862g) is amended by adding at the end the following:

“(c) PRE-K-8 INFORMAL STEM PROGRAM.—

“(1) IN GENERAL.—The Director of the National Science Foundation shall provide grants to institutions of higher education or a non-profit organizations (or a consortia of such institutions or organization) on a merit-reviewed, competitive basis for research on programming that engages students in grades PREK-8, including underrepresented and rural students, in

STEM in order to prepare such students to pursue degrees or careers in STEM.

“(2) USE OF FUNDS.—

“(A) IN GENERAL.—Grants awarded under this section shall be used toward research to advance the engagement of students, including underrepresented and rural students, in grades PREK-8 in STEM through providing before-school, after-school, out-of-school, or summer activities, including in single-gender environments or programming, that are designed to encourage interest, engagement, and skills development for students in STEM.

“(B) PERMITTED ACTIVITIES.—The activities described in subparagraph (A) may include—

“(i) the provision of programming described in such subparagraph for the purpose of research described in such subparagraph;

“(ii) the use of a variety of engagement methods, including cooperative and hands-on learning;

“(iii) exposure of students to role models in the fields of STEM and near-peer mentors;

“(iv) training of informal learning educators, youth-serving professionals, and volunteers who lead informal STEM programs in using evidence-based methods consistent with the target student population being served;

“(v) education of students on the relevance and significance of STEM careers, provision of academic advice and assistance, and activities designed to help students make real-world connections to STEM content;

“(vi) the attendance of students at events, competitions, and academic programs to provide content expertise and encourage career exposure in STEM, which may include the purchase of parts and supplies needed to participate in such competitions;

“(vii) activities designed to engage parents and families of students in grades PREK-8 in STEM;

“(viii) innovative strategies to engage students, such as using leadership skills and outcome measures to impart youth with the confidence to pursue STEM coursework and academic study;

“(ix) coordination with STEM-rich environments, including other nonprofit, nongovernmental organizations, out-of-classroom settings, single-gender environments, institutions of higher education, vocational facilities, corporations, museums, or science centers; and

“(x) the acquisition of instructional materials or technology-based tools to conduct applicable grant activity.

“(3) APPLICATION.—An applicant seeking funding under the section shall submit an application at such time, in such manner, and containing such information as may be required. Applications that include or partner with a nonprofit, nongovernmental organization that has extensive experience and expertise in increasing the participation of students in PREK-8 in STEM are encouraged. The application may include the following:

“(A) A description of the target audience to be served by the research activity or activities for which such funding is sought.

“(B) A description of the process for recruitment and selection of students to participate in such activities.

“(C) A description of how such activity or activities may inform programming that engages students in grades PREK-8 in STEM.

“(D) A description of how such activity or activities may inform programming that promotes student academic achievement in STEM.

“(E) An evaluation plan that includes, at a minimum, the use of outcome-oriented measures to determine the impact and efficacy of programming being researched.

“(4) EVALUATIONS.—Each recipient of a grant under this section shall provide, at the conclusion of every year during which the grant funds are received, an evaluation in a form prescribed by the Director.

“(5) ACCOUNTABILITY AND DISSEMINATION.—

“(A) EVALUATION REQUIRED.—The Director shall evaluate the activities established under this section. Such evaluation shall—

“(i) use a common set of benchmarks and tools to assess the results of research conducted under such grants; and

“(ii) to the extent practicable, integrate the findings of the research resulting from the activity or activities funded through the grant with the current research on serving students with respect to the pursuit of degrees or careers in STEM, including underrepresented and rural students, in grades PREK-8.

“(B) REPORT ON EVALUATIONS.—Not later than 180 days after the completion of the evaluation under subparagraph (A), the Director shall submit to Congress and make widely available to the public a report that includes—

“(i) the results of the evaluation; and

“(ii) any recommendations for administrative and legislative action that could optimize the effectiveness of the program under this section.

“(6) COORDINATION.—In carrying out this section, the Director shall, for purposes of enhancing program effectiveness and avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies.”.

(b) UNDERGRADUATE STEM EDUCATION.—

(1) RESEARCH ON STEM EDUCATION AND WORKFORCE NEEDS.—The Director shall award grants, on a competitive basis, to four-year institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research and development activities to—

(A) encourage greater collaboration and coordination between institutions of higher education and industry to enhance education, foster hands-on learn experiences, and improve alignment with workforce needs;

(B) understand the current composition of the STEM workforce and the factors that influence growth, retention, and development of that workforce;

(C) increase the size, diversity, capability, and flexibility of the STEM workforce; and

(D) increase dissemination and widespread adoption of effective practices in undergraduate education and workforce development.

(2) ADVANCED TECHNOLOGICAL EDUCATION PROGRAM UPDATE.—Section 3(b) of the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862i(b)) is amended to read as follows:

“(b) NATIONAL COORDINATION NETWORK FOR SCIENCE AND TECHNICAL EDUCATION.—The Director shall award grants to institutions of higher education, non-profit organizations, and associate-degree granting colleges (or consortia of such institutions or organizations) to establish a network of centers for science and technical education. The centers shall—

(1) coordinate research, training, and education activities funded by awards under subsection (a) and share information and best practices across the network of awardees;

(2) serve as a national and regional clearinghouse and resource to communicate and coordinate research, training, and educational activities across disciplinary, organizational, geographic, and international boundaries and disseminate best practices; and

(3) develop national and regional partnerships between PreK-12 schools, two-year colleges, institutions of higher education, workforce development programs, labor organizations, and industry to meet workforce needs.”.

(3) INNOVATIONS IN STEM EDUCATION AT COMMUNITY COLLEGES.—

(A) IN GENERAL.—The Director shall award grants on a merit-reviewed, competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to advance research on the nature of learning and teaching at community colleges and to improve outcomes for students who enter the workforce upon completion of their STEM degree or credential or transfer to 4-year institutions, including by—

(i) examining how to scale up successful programs at Community Colleges that are improving student outcomes in foundational STEM courses;

(ii) supporting research on effective STEM teaching practices in community college settings;

(iii) designing and developing new STEM curricula;

(iv) providing STEM students with hands-on training and research experiences, internships, and other experiential learning opportunities;

(v) increasing access to high quality STEM education through new technologies;

(vi) re-skilling or up-skilling incumbent workers for new STEM jobs;

(vii) building STEM career and seamless transfer pathways; and

(viii) developing novel mechanisms to identify and recruit talent into STEM programs, in particular talent from groups historically underrepresented in STEM.

(B) PARTNERSHIPS.—In carrying out activities under this paragraph, the Director shall encourage applications to develop, enhance, or expand cooperative STEM education and training partnerships between institutions of higher education, industry, and labor organizations.

(c) ADVANCED TECHNOLOGICAL MANUFACTURING ACT.—

(1) FINDINGS AND PURPOSE.—Section 2 of the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862h) is amended—

(A) in subsection (a)—

(i) in paragraph (3), by striking “science, mathematics, and technology” and inserting “science, technology, engineering, and mathematics or STEM”;

(ii) in paragraph (4), by inserting “educated” and before “trained”; and

(iii) in paragraph (5), by striking “scientific and technical education and training” and inserting “STEM education and training”; and

(B) in subsection (b)—

(i) in paragraph (2), by striking “mathematics and science” and inserting “STEM fields”; and

(ii) in paragraph (4), by striking “mathematics and science instruction” and inserting “STEM instruction”.

(2) MODERNIZING REFERENCES TO STEM.—Section 3 of the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862i) is amended—

(A) in the section heading, by striking “SCIENTIFIC AND TECHNICAL EDUCATION” and inserting “STEM EDUCATION”;

(B) in subsection (a)—

(i) in the subsection heading, by striking “SCIENTIFIC AND TECHNICAL EDUCATION” and inserting “STEM EDUCATION”;

(ii) in the matter preceding paragraph (1)—

(I) by inserting “and education to prepare the skilled technical workforce to meet workforce demands” before “, and to improve”;

(II) by striking “core education courses in science and mathematics” and inserting “core education courses in STEM fields”;

(III) by inserting “veterans and individuals engaged in” before “work in the home”; and

(IV) by inserting “and on building a pathway from secondary schools, to associate-degree-granting institutions, to careers that require technical training” before “, and shall be designed”;

(iii) in paragraph (1)—

(I) by inserting “and study” after “development”;

(II) by striking “core science and mathematics courses” and inserting “core STEM courses”;

(iv) in paragraph (2), by striking “science, mathematics, and advanced-technology fields” and inserting “STEM and advanced-technology fields”;

(v) in paragraph (3)(A), by inserting “to support the advanced-technology industries that drive the competitiveness of the United States in the global economy” before the semicolon at the end;

(vi) in paragraph (4), by striking “scientific and advanced-technology fields” and inserting “STEM and advanced-technology fields”; and

(vii) in paragraph (5), by striking “advanced scientific and technical education” and inserting “advanced STEM and advanced-technology”;

(C) in subsection (c)—

(i) in paragraph (1)—

(I) in subparagraph (A)—

(aa) in the matter preceding clause (i), by striking “to encourage” and all that follows through “such means as—” and inserting “to encourage the development of career and educational pathways with multiple entry and exit points leading to credentials and degrees, and to assist students pursuing pathways in STEM fields to transition from associate-degree-granting colleges to bachelor-degree-granting institutions, through such means as—”;

(bb) in clause (i), by striking “to ensure” and inserting “to develop articulation agreements that ensure”;

(cc) in clause (ii), by striking “courses at the bachelor-degree-granting institution” and inserting “the career and educational pathways supported by the articulation agreements”;

(II) in subparagraph (B)—

(aa) in clause (i), by inserting “veterans and individuals engaged in” before “work in the home”;

(bb) in clause (iii)—

(AA) by striking “bachelor’s-degree-granting institutions” and inserting “institutions or work sites”;

(BB) by inserting “or industry internships” after “summer programs”;

(cc) by striking the flush text following clause (iv); and

(III) by striking subparagraph (C);

(i) in paragraph (2)—

(I) by striking “mathematics and science programs” and inserting “STEM programs”;

(II) by inserting “and, as appropriate, elementary schools,” after “with secondary schools”;

(III) by striking “mathematics and science education” and inserting “STEM education”;

(IV) by striking “secondary school students” and inserting “students at these schools”;

(V) by striking “science and advanced-technology fields” and inserting “STEM and advanced-technology fields”;

(VI) by striking “agreements with local educational agencies” and inserting “articulation agreements or dual credit courses with local secondary schools, or other means as the Director determines appropriate,”;

(iii) in paragraph (3)—

(I) by striking subparagraph (B);

(II) by striking “shall—” and all that follows through “establish a” and inserting “shall establish a”;

(III) by striking “the fields of science, technology, engineering, and mathematics” and inserting “STEM fields”;

(IV) by striking “; and” and inserting “, including jobs at Federal and academic laboratories.”;

(D) in subsection (d)(2)—

(i) in subparagraph (D), by striking “and” after the semicolon;

(ii) in subparagraph (E), by striking the period at the end and inserting a “; and”;

(iii) by adding at the end the following:

“(F) as appropriate, applications that apply the best practices for STEM education and technical skills education through distance learning or in a simulated work environment, as determined by research described in subsection (f); and”;

(E) in subsection (g), by striking the second sentence;

(F) in subsection (h)(1)—

(i) in subparagraph (A), by striking “2022” and inserting “2026”;

(ii) in subparagraph (B), by striking “2022” and inserting “2026”;

(iii) in subparagraph (C)—

(I) by striking “up to \$2,500,000” and inserting “not less than \$3,000,000”;

(II) by striking “2022” and inserting “2026”;

(G) in subsection (i)—

(i) by striking paragraph (3); and

(ii) by redesignating paragraphs (4) and (5) as paragraphs (3) and (4), respectively; and

(H) in subsection (j)—

(i) by striking paragraph (1) and inserting the following:

“(1) the term advanced-technology includes technological fields such as advanced manufacturing, agricultural-, biological- and chemical-technologies, energy and environmental technologies, engineering technologies, information technologies, micro and nano-technologies, cybersecurity technologies, geospatial technologies, and new, emerging technology areas;”;

(ii) in paragraph (4), by striking “separate bachelor-degree-granting institutions” and inserting “other entities”;

(iii) by striking paragraph (7);

(iv) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively;

(v) in paragraph (7), as redesignated by subparagraph (D), by striking “and” after the semicolon;

(vi) in paragraph (8), as redesignated by subparagraph (D)—

(I) by striking “mathematics, science, engineering, or technology” and inserting “science, technology, engineering, or mathematics”;

(II) by striking the period at the end and inserting “; and”;

(vii) by adding at the end the following:

“(9) the term skilled technical workforce means workers—

“(A) in occupations that use significant levels of science and engineering expertise and technical knowledge; and

“(B) whose level of educational attainment is less than a bachelor degree.”.

(3) AUTHORIZATION OF APPROPRIATIONS.—Section 5 of the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862j) is amended to read as follows:

“SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Director for carrying out sections 2 through 4, \$150,000,000 for fiscal years 2022 through 2026.”.

(d) GRADUATE STEM EDUCATION.—

(1) MENTORING AND PROFESSIONAL DEVELOPMENT.—

(A) MENTORING PLANS.—

(i) UPDATE.—Section 7008 of the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Act (42 U.S.C. 1862o) is amended by—

(I) inserting “and graduate student” after “postdoctoral”;

(II) inserting “The requirement may be satisfied by providing such individuals with access to mentors, including individuals not listed on the grant.” after “review criterion.”.

(ii) EVALUATION.—Not later than 45 days after the date of enactment of this Act, the Director shall enter into an agreement with a qualified independent organization to evaluate the effectiveness of the postdoctoral mentoring plan requirement for improving mentoring for Foundation-supported postdoctoral researchers.

(B) CAREER EXPLORATION.—

(i) IN GENERAL.—The Director shall award grants, on a competitive basis, to institutions of higher education and non-profit organizations (or consortia of such institutions or organizations) to develop innovative approaches for facilitating career exploration of academic and non-academic career options and for providing opportunity-broadening experiences, including work-integrated opportunities, for graduate students and postdoctoral scholars that can then be considered, adopted, or adapted by other institutions and to carry out research on the impact and outcomes of such activities.

(ii) REVIEW OF PROPOSALS.—In selecting grant recipients under this subparagraph, the Director shall consider, at a minimum—

(I) the extent to which the administrators of the institution are committed to making the proposed activity a priority; and

(II) the likelihood that the institution or organization will sustain or expand the proposed activity effort beyond the period of the grant.

(C) DEVELOPMENT PLANS.—The Director shall require that annual project reports for awards that support graduate students and postdoctoral scholars include certification by the principal investigator that each graduate student and postdoctoral scholar receiving substantial support from such award, as determined by the Director, in consultation with faculty advisors, has developed and annually updated an individual development plan to map educational goals, career exploration, and professional development.

(D) PROFESSIONAL DEVELOPMENT SUPPLEMENT.—The Director shall carry out a five-year pilot initiative to award up to 2,500 administrative supplements of up to \$2,000 to existing research grants annually, on a competitive basis, to support professional development experiences for graduate students and postdoctoral researchers who receive a substantial portion of their support under such grants, as determined by the Director. Not more than 10 percent of supplements awarded under this subparagraph may be used to support professional development experiences for postdoctoral researchers.

(E) GRADUATE EDUCATION RESEARCH.—The Director shall award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research on the graduate education system and outcomes of various interventions and policies, including—

(i) the effects of traineeships, fellowships, internships, and teaching and research assistantships on outcomes for graduate students;

(ii) the effects of graduate education and mentoring policies and procedures on degree completion, including differences by—

(I) gender, race and ethnicity, sexual orientation, gender identity, and citizenship; and

(II) student debt load;

(iii) the development and assessment of new or adapted interventions, including approaches that improve mentoring relationships, develop conflict management skills, and promote healthy research teams; and

(iv) research, data collection, and assessment of the state of graduate student mental health and wellbeing, factors contributing to and consequences of poor graduate student mental health, and the development, adaptation, and assessment of evidence-based strategies and policies to support emotional wellbeing and mental health.

(2) GRADUATE RESEARCH FELLOWSHIP PROGRAM UPDATE.—

(A) SENSE OF CONGRESS.—It is the sense of Congress that the Foundation should increase the number of new graduate research fellows supported annually over the next 5 years to no fewer than 3,000 fellows.

(B) PROGRAM UPDATE.—Section 10 of the National Science Foundation Act of 1950 (42 U.S.C. 1869) is amended—

(i) in subsection (a), by inserting “and as will address national workforce demand in critical STEM fields” after “throughout the United States”;

(ii) in subsection (b), by striking “of \$12,000” and inserting “of at least \$16,000”;

(iii) by adding at the end the following:

“(c) OUTREACH.—The Director shall ensure program outreach to recruit fellowship applicants from fields of study that are in areas of critical national need, from all regions of the country, and from historically underrepresented populations in STEM.”.

(C) CYBERSECURITY SCHOLARSHIPS AND GRADUATE FELLOWSHIPS.—The Director shall ensure that students pursuing master’s degrees and

doctoral degrees in fields relating to cybersecurity are considered as applicants for scholarships and graduate fellowships under the Graduate Research Fellowship Program under section 10 of the National Science Foundation Act of 1950 (42 U.S.C. 1869).

(3) STUDY ON GRADUATE STUDENT FUNDING.—

(A) IN GENERAL.—Not later than 45 days after the date of enactment of this Act, the Director shall enter into an agreement with a qualified independent organization to evaluate—

(i) the role of the Foundation in supporting graduate student education and training through fellowships, traineeships, and other funding models; and

(ii) the impact of different funding mechanisms on graduate student experiences and outcomes, including whether such mechanisms have differential impacts on subsets of the student population.

(B) REPORT.—Not later than 1 year after the date of enactment of this Act, the organization charged with carrying out the study under subparagraph (A) shall publish the results of its evaluation, including a recommendation for the appropriate balance between fellowships, traineeships, and other funding models.

(4) FELLOWSHIPS AND TRAINEESHIPS FOR EARLY-CAREER AI RESEARCHERS.—

(A) ARTIFICIAL INTELLIGENCE TRAINEESHIPS.—

(i) IN GENERAL.—The Director shall award grants to institutions of higher education to establish traineeship programs for graduate students who pursue artificial intelligence-related research leading to a masters or doctorate degree by providing funding and other assistance, and by providing graduate students opportunities for research experiences in government or industry related to the students' artificial intelligence studies.

(ii) USE OF FUNDS.—A institution of higher education shall use grant funds provided under clause (i) for the purposes of—

(I) providing traineeships to students who are pursuing research in artificial intelligence leading to a masters or doctorate degree;

(II) paying tuition and fees for students receiving traineeships;

(III) creating and requiring courses or training programs in technology ethics for students receiving traineeships;

(IV) creating opportunities for research in technology ethics for students receiving traineeships;

(V) establishing scientific internship programs for students receiving traineeships in artificial intelligence at for-profit institutions, nonprofit research institutions, or government laboratories; and

(VI) other costs associated with the administration of the program.

(B) ARTIFICIAL INTELLIGENCE FELLOWSHIPS.—The Director shall award fellowships to masters and doctoral students and postdoctoral researchers who are pursuing degrees or research in artificial intelligence and related fields, including in the field of technology ethics. In making such awards, the Director shall conduct outreach, including through formal solicitations, to solicit proposals from students and postdoctoral researchers seeking to carry out research in aspects of technology ethics with relevance to artificial intelligence systems.

(e) STEM WORKFORCE DATA.—

(1) SKILLED TECHNICAL WORKFORCE PORTFOLIO REVIEW.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Director shall conduct a full portfolio analysis of the Foundation's skilled technical workforce investments across all Directorates in the areas of education, research, infrastructure, data collection, and analysis.

(B) REPORT.—Not later than 180 days after the date of the review under subparagraph (A) is complete, the Director shall submit to Congress and make widely available to the public a summary report of the portfolio review.

(2) SURVEY DATA.—

(A) ROTATING TOPIC MODULES.—To meet evolving needs for data on the state of the science and engineering workforce, the Director shall assess, through coordination with other Federal statistical agencies and drawing on input from relevant stakeholders, the feasibility and benefits of incorporating questions or topic modules to existing National Center for Science and Engineering Statistics surveys that would vary from cycle to cycle.

(B) NEW DATA.—Not later than 1 year after the date of enactment of this Act, the Director shall submit to Congress and the Board the results of an assessment, carried out in coordination with other Federal agencies and with input from relevant stakeholders, of the feasibility and benefits of incorporating new questions or topic modules to existing National Center for Science and Engineering Statistics surveys on—

- (i) the skilled technical workforce;
- (ii) working conditions and work-life balance;
- (iii) harassment and discrimination;
- (iv) sexual orientation and gender identity;
- (v) immigration and emigration; and
- (vi) any other topics at the discretion of the Director.

(C) LONGITUDINAL DESIGN.—The Director shall continue and accelerate efforts to enhance the usefulness of National Center for Science and Engineering Statistics survey data for longitudinal research and analysis.

(D) GOVERNMENT ACCOUNTABILITY OFFICE REVIEW.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall submit a report to Congress that—

(i) evaluates Foundation processes for ensuring the data and analysis produced by the National Center for Science and Engineering Statistics meets current and future needs; and

(ii) includes such recommendations as the Comptroller General determines are appropriate to improve such processes.

(f) CYBER WORKFORCE DEVELOPMENT RESEARCH AND DEVELOPMENT.—

(1) IN GENERAL.—The Director shall award grants on a merit-reviewed, competitive basis to institutions of higher education or non-profit organizations (or a consortia of such institutions or organizations) to carry out research on the cyber workforce.

(2) RESEARCH.—In carrying out research pursuant to paragraph (1), the Director shall support research and development activities to—

(A) understand the current state of the cyber workforce, including factors that influence growth, retention, and development of that workforce;

(B) examine paths to entry and re-entry into the cyber workforce;

(C) understand trends of the cyber workforce, including demographic representation, educational and professional backgrounds present, competencies available, and factors that shape employee recruitment, development, and retention and how to increase the size, diversity, and capability of the cyber workforce;

(D) examine and evaluate training practices, models, programs, and technologies; and

(E) other closely related topics as the Director determines appropriate.

(3) REQUIREMENTS.—In carrying out the activities described in paragraph (2), the Director shall—

(A) collaborate with the National Institute of Standards and Technology, including the National Initiative for Cybersecurity Education, the Department of Homeland Security, the Department of Defense, the Office of Personnel Management, and other Federal departments and agencies, as appropriate;

(B) align with or build on the National Initiative on Cybersecurity Education Cybersecurity Workforce Framework wherever practicable and applicable;

(C) leverage the collective body of knowledge from existing cyber workforce development research and education activities; and

(D) engage with other Federal departments and agencies, research communities, and potential users of information produced under this subsection.

(g) FEDERAL CYBER SCHOLARSHIP-FOR-SERVICE PROGRAM.—

(1) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) since cybersecurity risks are constant in the growing digital world, it is critical that the United States stay ahead of malicious cyber activity with a workforce that can safeguard our innovation, research, and work environments; and

(B) Federal investments in the Federal Cyber Scholarship-for-Service Program at the National Science Foundation play a critical role in preparing and sustaining a strong, talented, and much-needed national cybersecurity workforce and should be strengthened.

(2) IN GENERAL.—Section 302(b)(1) of the Cybersecurity Enhancement Act of 2014 (15 U.S.C. 7442(b)(1)) is amended by striking the semicolon at the end and inserting the following “and cybersecurity-related aspects of other related fields as appropriate, including artificial intelligence, quantum computing and aerospace;”.

(h) CYBERSECURITY WORKFORCE DATA INITIATIVE.—The Director, acting through the National Center for Science and Engineering Statistics established in section 505 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p) and in coordination with the Director of the National Institute of Standards and Technology and other appropriate Federal statistical agencies, shall establish a cybersecurity workforce data initiative that—

(1) assesses the feasibility of providing nationally representative estimates and statistical information on the cybersecurity workforce;

(2) utilizes the National Initiative for Cybersecurity Education (NICE) Cybersecurity Workforce Framework (NIST Special Publication 800-181), or other frameworks, as appropriate, to enable a consistent measurement of the cybersecurity workforce;

(3) utilizes and complements existing data on employer requirements and unfilled positions in the cybersecurity workforce;

(4) consults key stakeholders and the broader community of practice in cybersecurity workforce development to determine data requirements needed to strengthen the cybersecurity workforce;

(5) evaluates existing Federal survey data for information pertinent to developing national estimates of the cybersecurity workforce;

(6) evaluates administrative data and other supplementary data sources, as available, to describe and measure the cybersecurity workforce; and

(7) collects statistical data, to the greatest extent practicable, on credential attainment and employment outcomes information for the cybersecurity workforce.

SEC. 10305. BROADENING PARTICIPATION.

(a) PRESIDENTIAL AWARDS FOR EXCELLENCE IN MATHEMATICS AND SCIENCE TEACHING.—

(1) IN GENERAL.—Section 117(a) of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1881b(a)) is amended—

(A) in subparagraph (B)—

(i) by striking “108” and inserting “110”;

(ii) by striking clause (iv);

(iii) in clause (v), by striking the period at the end and inserting “; and”;

(iv) by redesignating clauses (i), (ii), (iii), and (v) as subclauses (I), (II), (III), and (IV), respectively, and moving the margins of such subclauses (as so redesignated) two ems to the right; and

(v) by striking “In selecting teachers” and all that follows through “two teachers—” and inserting the following:

“(C) In selecting teachers for an award authorized by this subsection, the President shall select—

“(i) at least two teachers—”; and
(B) in subparagraph (C), as designated by paragraph (1)(A)(v), by adding at the end the following:

“(ii) at least one teacher—
“(I) from the Commonwealth of the Northern Mariana Islands;
“(II) from American Samoa;
“(III) from the Virgin Islands of the United States; and
“(IV) from Guam.”.

(2) **EFFECTIVE DATE.**—The amendments made by paragraph (1) shall apply with respect to awards made on or after the date of the enactment of this Act.

(b) **ROBERT NOYCE TEACHER SCHOLARSHIP PROGRAM UPDATE.**—

(1) **SENSE OF CONGRESS.**—It is the sense of Congress that over the next five years the Foundation should increase the number of scholarships awarded under the Robert Noyce Teacher Scholarship program established under section 10 of the National Science Foundation Authorization Act of 2002 (42 U.S.C. 1862n–1) by 50 percent.

(2) **OUTREACH.**—To increase the diversity of participants, the Director shall support symposia, forums, conferences, and other activities to expand and enhance outreach to—

(A) historically Black colleges and universities that are part B institutions, as defined in section 322(2) of the Higher Education Act of 1965 (20 U.S.C. 1061(2));

(B) Tribal Colleges or Universities;

(C) Minority serving institutions;

(D) institutions of higher education that are located near or serve rural communities;

(E) labor organizations;

(F) emerging research institutions; and

(G) higher education programs that serve or support veterans.

(c) **NSF INCLUDES INITIATIVE.**—The Director shall award grants and cooperative agreements, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to carry out a comprehensive national initiative to facilitate the development of networks and partnerships to build on and scale up effective practices in broadening participation in STEM studies and careers of groups historically underrepresented in such studies and careers.

(d) **BROADENING PARTICIPATION ON MAJOR FACILITIES AWARDS.**—The Director shall require organizations seeking a cooperative agreement for the management of the operations and maintenance of a Foundation project to demonstrate prior experience and current capabilities in employing best practices in broadening participation in science and engineering and ensure implementation of such practices is considered in oversight of the award.

(e) **PARTNERSHIPS WITH EMERGING RESEARCH INSTITUTIONS.**—The Director shall establish a five-year pilot program to enhance partnerships between emerging research institutions and institutions classified as very high research activity by the Carnegie Classification of Institutions of Higher Education at the time of application. In carrying out this program, the Director shall—

(1) require that each proposal submitted by a multi-institution collaboration for an award, including those under section 10309, that exceeds \$1,000,000, as appropriate, specify how the applicants will support substantive, meaningful, and mutually-beneficial partnerships with one or more emerging research institutions;

(2) require awardees funded under paragraph (1) to direct no less than 25 percent of the total award to one or more emerging research institutions to build research capacity, including through support for faculty salaries and training, field and laboratory research experiences for undergraduate and graduate students, and maintenance and repair of research equipment and instrumentation;

(3) require awardees funded under paragraph (1) to report on the partnership activities as part

of the annual reporting requirements of the Foundation;

(4) solicit feedback on the partnership directly from partner emerging research institutions, in such form as the Director deems appropriate; and

(5) submit a report to Congress after the third year of the pilot program that includes—

(A) an assessment, drawing on feedback from the research community and other sources of information, of the effectiveness of the pilot program for improving the quality of partnerships with emerging research institutions; and

(B) if deemed effective, a plan for permanent implementation of the pilot program.

(f) **TRIBAL COLLEGES AND UNIVERSITIES PROGRAM UPDATE.**—

(1) **IN GENERAL.**—Section 525 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p–13) is amended—

(A) in subsection (a) by—

(i) striking “Native American” and inserting “American Indian, Alaska Native, and Native Hawaiian”;

(ii) inserting “post-secondary credentials and” before “associate’s”; and

(iii) striking “or baccalaureate degrees” and inserting “, baccalaureate, and graduate degrees”;

(B) in subsection (b) by striking “undergraduate”; and

(C) in subsection (c) by inserting “and STEM” after “laboratory”.

(2) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Director to carry out this program \$107,250,000 for fiscal year 2022 through fiscal year 2026.

(g) **DIVERSITY IN TECH RESEARCH.**—The Director shall award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support basic and applied research that yields a scientific evidence base for improving the design and emergence, development and deployment, and management and ultimate effectiveness of organizations of all kinds, including research related to diversity, equity, and inclusion in the technology sector.

(h) **CONTINUING SUPPORT FOR EPSCoR.**—

(1) **SENSE OF CONGRESS.**—

(A) **IN GENERAL.**—It is the sense of Congress that—

(i) since maintaining the Nation’s scientific and economic leadership requires the participation of talented individuals nationwide, EPSCoR investments into State research and education capacities are in the Federal interest and should be sustained; and

(ii) EPSCoR should maintain its experimental component by supporting innovative methods for improving research capacity and competitiveness.

(B) **DEFINITION OF EPSCoR.**—In this subsection, the term “EPSCoR” has the meaning given the term in section 502 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p note).

(2) **UPDATE OF EPSCoR.**—Section 517(f)(2) of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p–9(f)(2)) is amended—

(A) in subparagraph (A), by striking “and” at the end; and

(B) by adding at the end the following:

“(C) to increase the capacity of rural communities to provide quality STEM education and STEM workforce development programming to students, and teachers; and”.

(i) **FOSTERING STEM RESEARCH DIVERSITY AND CAPACITY PROGRAM.**—

(1) **IN GENERAL.**—The Director shall establish a program to make awards on a competitive, merit-reviewed basis to eligible institutions to implement and study innovative approaches for building research capacity in order to engage and retain students from a range of institutions and diverse backgrounds in STEM.

(2) **ELIGIBLE INSTITUTION DEFINED.**—In this subsection the term “eligible institution” means

an institution of higher education that, according to the data published by the National Center for Science and Engineering Statistics, is not, on average, among the top 100 institutions in Federal research and development expenditures during the 3 year period prior to the year of the award.

(3) **PURPOSE.**—The program established in paragraph (1) shall be focused on achieving simultaneous impacts at the student, faculty, and institutional levels by increasing the research capacity at eligible institutions and the number of undergraduate and graduate students pursuing STEM degrees from eligible institutions.

(4) **REQUIREMENTS.**—In carrying out this program, the Director shall—

(A) require eligible institutions seeking funding under this subsection to submit an application to the Director at such time, in such manner, containing such information and assurances as the Director may require. The application shall include, at a minimum a description of how the eligible institution plans to sustain the proposed activities beyond the duration of the grant;

(B) require applicants to identify disciplines and focus areas in which the eligible institution can excel, and explain how the applicant will use the award to build capacity to bolster the institutional research competitiveness of eligible entities to support grants awarded by the Foundation and increase regional and national capacity in STEM;

(C) require the awards funded under this subsection to support research and related activities, which may include—

(i) development or expansion of research programs in disciplines and focus areas in subparagraph (B);

(ii) faculty recruitment and professional development in disciplines and focus areas in subparagraph (B), including for early-career researchers;

(iii) stipends for undergraduate and graduate students participating in research in disciplines and focus areas in subparagraph (B);

(iv) acquisition of instrumentation necessary to build research capacity at an eligible institution in disciplines and focus areas in subparagraph (B);

(v) an assessment of capacity-building and research infrastructure needs;

(vi) administrative research development support; and

(vii) other activities necessary to build research capacity; and

(D) require that no eligible institution should receive more than \$10,000,000 in any single year of funds made available under this section.

(5) **ADDITIONAL CONSIDERATIONS.**—In awarding a grant under this subsection, the Director may also consider—

(A) the extent to which the applicant will support students from diverse backgrounds, including first-generation undergraduate students;

(B) the geographic and institutional diversity of the applying institutions; and

(C) how the applicants can leverage public-private partnerships and existing partnerships with Federal Research Agencies.

(6) **DUPLICATION.**—The Director shall ensure the awards made under this subsection are complementary and not duplicative of existing programs.

(7) **REPORT.**—The Director shall submit a report to Congress after the third year of the program that includes—

(A) an assessment of the effectiveness of the program for growing the geographic and institutional diversity of institutions of higher education receiving research awards from the Foundation;

(B) an assessment of the quality, quantity and geographic and institutional diversity of institutions of higher education conducting Foundation-sponsored research since the establishment of the program in this subsection;

(C) an assessment of the quantity and diversity of undergraduate and graduate students

graduating from eligible institutions with STEM degrees; and

(D) statistical summary data on the program, including the geographic and institutional allocation of award funding, the number and diversity of supported graduate and undergraduate students, and how it contributes to capacity building at eligible entities.

(8) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Director \$150,000,000 for each of the fiscal years 2022 through 2026 to carry out the activities under this subsection.

(j) CAPACITY-BUILDING PROGRAM FOR DEVELOPING UNIVERSITIES.—

(1) IN GENERAL.—The Director shall make awards, on a competitive basis, to eligible institutions described in paragraph (2) to support the mission of the Foundation and to build institutional research capacity at eligible institutions.

(2) ELIGIBLE INSTITUTION.—

(A) IN GENERAL.—To be eligible to receive an award under this subsection, an institution—

(i) shall be—

(I) a historically Black college or university;

(II) a Tribal College or University;

(III) a minority-serving institution; or

(IV) an institution of higher education with an established STEM capacity building program focused on traditionally underrepresented populations in STEM, including Native Hawaiians, Alaska Natives, and Indians; and

(ii) shall have not more than \$50,000,000 in annual federally-financed research and development expenditures for science and engineering as reported through the National Science Foundation Higher Education Research and Development Survey.

(B) PARTNERSHIPS.—An eligible institution receiving a grant under this subsection may carry out the activities of the grant through a partnership with other entities, including community colleges and other eligible institutions.

(3) PROPOSALS.—To receive an award under this subsection, an eligible institution shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require, including a plan that describes how the eligible institution will establish or expand research office capacity and how such award would be used to—

(A) conduct an assessment of capacity-building and research infrastructure needs of an eligible institution;

(B) enhance institutional resources to provide administrative research development support to faculty at an eligible institution;

(C) bolster the institutional research competitiveness of an eligible institution to support grants awarded by the Foundation;

(D) support the acquisition of instrumentation necessary to build research capacity at an eligible institution in research areas directly associated with the Foundation;

(E) increase capability of an eligible institution to move technology into the marketplace;

(F) increase engagement with industry to execute research through the SBIR and STTR programs (as defined in section 9(e) of the Small Business Act (15 U.S.C. 638(e)) and direct contracts at an eligible institution;

(G) provide student engagement and research training opportunities at the undergraduate, graduate, and postdoctoral levels at an eligible institution;

(H) further faculty development initiatives and strengthen institutional research training infrastructure, capacity, and competitiveness of an eligible institution; or

(I) address plans and prospects for long-term sustainability of institutional enhancements at an eligible institution resulting from the award including, if applicable, how the award may be leveraged by an eligible institution to build a broader base of support.

(4) AWARDS.—Awards made under this subsection shall be for periods of 3 years, and may

be extended for periods of not more than 5 years.

(5) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Director \$100,000,000 for each of fiscal years 2022 through 2026 to carry out the activities in this title.

(k) CHIEF DIVERSITY OFFICER OF THE NSF.—

(1) CHIEF DIVERSITY OFFICER.—

(A) APPOINTMENT.—The Director shall appoint a senior agency official within the Office of the Director as a Chief Diversity Officer.

(B) QUALIFICATIONS.—The Chief Diversity Officer shall have significant experience, within the Federal Government and the science community, with diversity- and inclusion-related matters, including—

(i) civil rights compliance;

(ii) harassment policy, reviews, and investigations;

(iii) equal employment opportunity; and

(iv) disability policy.

(C) OVERSIGHT.—The Chief Diversity Officer shall direct the Office of Diversity and Inclusion of the Foundation and report directly to the Director in the performance of the duties of the Chief Diversity Officer under this subsection.

(2) DUTIES.—The Chief Diversity Officer is responsible for providing advice on policy, oversight, guidance, and coordination with respect to matters of the Foundation related to diversity and inclusion, including ensuring the geographic diversity of the Foundation programs. Other duties may include—

(A) establishing and maintaining a strategic plan that publicly states a diversity definition, vision, and goals for the Foundation;

(B) defining a set of strategic metrics that are—

(i) directly linked to key organizational priorities and goals;

(ii) actionable; and

(iii) actively used to implement the strategic plan under paragraph (1);

(C) advising in the establishment of a strategic plan for diverse participation by individuals and institutions of higher education, including community colleges, historically Black colleges and universities, Tribal colleges or universities, minority-serving institutions, institutions of higher education with an established STEM capacity building program focused on traditionally underrepresented populations in STEM, including Native Hawaiians, Alaska Natives, and Indians, and institutions from jurisdictions eligible to participate under section 113 of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1862g);

(D) advising in the establishment of a strategic plan for outreach to, and recruiting from, untapped locations and underrepresented populations;

(E) advising on a diversity and inclusion strategy for the Foundation's portfolio of PreK-12 STEM education focused programs and activities, including goals for addressing barriers to participation;

(F) advising on the application of the Foundation's broader impacts review criterion; and

(G) performing such additional duties and exercise such powers as the Director may prescribe.

(3) FUNDING.—From any amounts appropriated for the Foundation for each of fiscal years 2022 through 2026, the Director shall allocate \$5,000,000 to carry out this subsection for each such year.

SEC. 10306. FUNDAMENTAL RESEARCH.

(a) DEFINITIONS.—In this section:

(1) COVERED INDIVIDUAL.—The term “covered individual” means the principal investigator, co-principal investigators, and any other person at the institution who is responsible for the design, conduct, or reporting of research or educational activities funded or proposed for funding by the Foundation.

(2) FOREIGN COUNTRY OF CONCERN.—The term “foreign country of concern” means the Peo-

ple's Republic of China, the Democratic People's Republic of Korea, the Russian Federation, the Islamic Republic of Iran, or any other country deemed to be a country of concern as determined by the Department of State.

(3) MALIGN FOREIGN GOVERNMENT TALENT RECRUITMENT PROGRAM.—The term “malign foreign government talent recruitment program” means any program or activity that includes compensation, including cash, research funding, honorific titles, promised future compensation, or other types of remuneration, provided by the foreign state or an entity sponsored by the foreign state to the targeted individual in exchange for the individual transferring knowledge and expertise to the foreign country.

(b) BROADER IMPACTS.—

(1) ASSESSMENT.—Not later than 45 days after the date of enactment of this Act, the Director shall enter into an agreement with a qualified independent organization to assess how the Broader Impacts review criterion is applied across the Foundation and make recommendations for improving the effectiveness for meeting the goals established in section 526 of the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Reauthorization Act of 2010 (42 U.S.C. 1862p-14).

(2) ACTIVITIES.—The Director shall award grants on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support activities to increase the efficiency, effectiveness, and availability of resources for implementing the Broader Impacts review criterion, including—

(A) training and workshops for program officers, merit review panelists, grant office administrators, faculty, and students to improve understanding of the goals and the full range of potential broader impacts available to researchers to satisfy this criterion;

(B) repositories and clearinghouses for sharing best practices and facilitating collaboration; and

(C) tools for evaluating and documenting societal impacts of research.

(c) SENSE OF CONGRESS.—It is the sense of Congress that the Director should continue to identify opportunities to reduce the administrative burden on researchers.

(d) RESEARCH INTEGRITY AND SECURITY.—

(1) OFFICE OF RESEARCH SECURITY AND POLICY.—The Director shall maintain a Research Security and Policy office within the Office of the Director with no fewer than 4 full-time equivalent positions, in addition to the Chief of Research Security established in paragraph (2) of this subsection. The functions of the Research Security and Policy office shall be to coordinate all research security policy issues across the Foundation, including by—

(A) consulting and coordinating with the Foundation Office of Inspector General and with other Federal research agencies and intelligence and law enforcement agencies, as appropriate, through the National Science and Technology Council in accordance with the authority provided under section 1746 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92; 42 U.S.C. 6601 note), to identify and address potential security risks that threaten research integrity and other risks to the research enterprise;

(B) serving as the Foundation's primary resource for all issues related to the security and integrity of the conduct of Foundation-supported research;

(C) conducting outreach and education activities for awardees on research policies and potential security risks;

(D) educating Foundation program managers and other directorate staff on evaluating Foundation awards and awardees for potential security risks; and

(E) communicating reporting and disclosure requirements to awardees and applicants for funding.

(2) **CHIEF OF RESEARCH SECURITY.**—The Director shall appoint a senior agency official within the Office of the Director as a Chief of Research Security, whose primary responsibility is to manage the office established under paragraph (1).

(3) **REPORT TO CONGRESS.**—No later than 180 days after the date of enactment of this Act, the Director shall provide a report to the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the House of Representatives, and the Committee on Appropriations of the Senate on the resources and the number of full time employees needed to carry out the functions of the Office established in paragraph (1).

(4) **ONLINE RESOURCE.**—The Director shall develop an online resource hosted on the Foundation's website containing up-to-date information, tailored for institutions and individual researchers, including—

(A) an explanation of Foundation research security policies;

(B) unclassified guidance on potential security risks that threaten scientific integrity and other risks to the research enterprise;

(C) examples of beneficial international collaborations and how such collaborations differ from foreign government interference efforts that threaten research integrity;

(D) promising practices for mitigating security risks that threaten research integrity; and

(E) additional reference materials, including tools that assist organizations seeking Foundation funding and awardees in information disclosure to the Foundation.

(5) **RISK ASSESSMENT CENTER.**—The Director shall enter into an agreement with a qualified independent organization to create a new risk assessment center to—

(A) help the Foundation develop the online resources under paragraph (4); and

(B) help awardees in assessing and identifying issues related to nondisclosure of current and pending research funding, risks to the Foundation merit review process, and other issues that may negatively affect the Foundation proposal and award process due to undue foreign interference.

(6) **RESEARCH GRANTS.**—The Director shall continue to award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research on the conduct of research and the research environment, including research on research misconduct or breaches of research integrity and detrimental research practices.

(7) **AUTHORITIES.**—

(A) **IN GENERAL.**—In addition to existing authorities for preventing waste, fraud, abuse, and mismanagement of federal funds, the Director, acting through the Office of Research Security and Policy and in coordination with the Foundation's Office of Inspector General, shall have the authority to—

(i) conduct risk assessments, including through the use of open-source analysis and analytical tools, of research and development award applications and disclosures to the Foundation, in coordination with the Risk Assessment Center established in paragraph (5);

(ii) request the submission to the Foundation, by an institution of higher education or other organization applying for a research and development award, of supporting documentation, including copies of contracts, grants, or any other agreement specific to foreign appointments, employment with a foreign institution, participation in a foreign talent program and other information reported as current and pending support for all covered individuals in a research and development award application; and

(iii) upon receipt and review of the information provided under clause (ii) and in consultation with the institution of higher education or

other organization submitting such information, initiate the substitution or removal of a covered individual from a research and development award, reduce the award funding amount, or suspend or terminate the award if the Director determines such contracts, grants, or agreements include obligations that—

(I) interfere with the capacity for Foundation-supported activities to be carried out; or

(II) create duplication with Foundation-supported activities.

(B) **LIMITATIONS.**—In exercising the authorities under this paragraph, the Director shall—

(i) take necessary steps, as practicable, to protect the privacy of all covered individuals and other parties involved in the application and disclosure assessments under clause (A)(i);

(ii) endeavor to provide justification for requests for supporting documentation made under clause (A)(ii);

(iii) require that allegations be proven by a preponderance of evidence; and

(iv) as practicable, afford subjects an opportunity to provide comments and rebuttal and an opportunity to appeal before final administrative action is taken.

(8) **MALIGN FOREIGN TALENT RECRUITMENT PROGRAM PROHIBITION.**—

(A) **IN GENERAL.**—Not later than 12 months after the date of enactment of this Act, the Director shall establish a requirement that, as part of an application for a research and development award from the agency—

(i) each covered individual listed on the application for a research and development award certify that they are not an active participant of a malign foreign talent recruitment program from a foreign country of concern and will not be a participant in such a program for the duration of the award; and

(ii) each institution of higher education or other organization applying for such an award certify that each covered individual who is employed by the institution of higher education or other organization has been made aware of the requirement under this subsection.

(B) **INTERNATIONAL COLLABORATION.**—Each policy developed under subparagraph (A) shall not prohibit—

(i) making scholarly presentations regarding scientific information not otherwise controlled under current law;

(ii) participation in international conferences or other international exchanges, partnerships or programs that involve open and reciprocal exchange of scientific information, and which are aimed at advancing international scientific understanding; and

(iii) other international activities deemed appropriate by the Director.

(C) **LIMITATION.**—The policy developed under subparagraph (A) shall not apply retroactively to research and development awards made prior to the establishment of the policy by the Director.

(9) **SECURITY TRAINING MODULES.**—

(A) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Director, in collaboration with the Director of the National Institutes of Health and other relevant Federal research agencies, shall enter into an agreement or contract with a qualified entity for the development of online research security training modules for the research community, including modules focused on international collaboration and international travel, foreign interference, and rules for proper use of funds, disclosure, conflict of commitment, and conflict of interest.

(B) **STAKEHOLDER INPUT.**—Prior to entering into the agreement under clause (A), the Director shall seek input from academic, private sector, intelligence, and law enforcement stakeholders regarding the scope and content of training modules, including the diversity of needs across institutions of higher education and other grantees of different sizes and types, and recommendations for minimizing adminis-

trative burden on institutions of higher education and researchers.

(C) **DEVELOPMENT.**—The Director shall ensure that the entity identified in (A)—

(i) develops modules that can be adapted and utilized across Federal research agencies; and

(ii) develops and implements a plan for regularly updating the modules as needed.

(D) **GUIDELINES.**—The Director, in collaboration with the Director of the National Institutes of Health, shall develop guidelines for institutions of higher education and other organizations receiving Federal research and development funds to use in developing their own training programs to address the unique needs, challenges, and risk profiles of such institutions, including adoption of training modules developed under this paragraph.

(E) **IMPLEMENTATION.**—Drawing on stakeholder input under subparagraph (B), not later than 12 months after the date of enactment of this Act, the Director shall establish a requirement that, as part of an application for a research and development award from the Foundation—

(i) each covered individual listed on the application for a research and development award certify that they have completed research security training that meets the guidelines developed under clause (D) within one year of the application; and

(ii) each institution of higher education or other organization applying for such award certify that each covered individual who is employed by the institution or organization and listed on the application has been made aware of the requirement under this subparagraph.

(10) **RESPONSIBLE CONDUCT IN RESEARCH TRAINING.**—Section 7009 of the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Act (42 U.S.C. 1862o–1) is amended by—

(A) striking “and postdoctoral researchers” and inserting “postdoctoral researchers, faculty, and other senior personnel”; and

(B) by inserting before the period at the end the following “, including mentor training”.

(11) **NATIONAL ACADEMIES GUIDE TO RESPONSIBLE CONDUCT IN RESEARCH.**—

(A) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Director shall enter into an agreement with the Academies to update the report entitled “On Being a Scientist: A Guide to Responsible Conduct in Research” issued by the Academies. The report, as so updated, shall include—

(i) updated professional standards of conduct in research;

(ii) promising practices for preventing, addressing, and mitigating the negative impact of harassment, including sexual harassment and gender harassment as defined in the 2018 Academies report entitled “Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine”; and

(iii) promising practices for mitigating potential security risks that threaten research integrity.

(B) **REPORT.**—Not later than 18 months after the effective date of the agreement under subparagraph (A), the Academies, as part of such agreement, shall submit to the Director and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate the report referred to in such subparagraph, as updated pursuant to such subparagraph.

(e) **RESEARCH ETHICS.**—

(1) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(A) a number of emerging areas of research have potential ethical, social, safety, and security implications that might be apparent as early as the basic research stage;

(B) the incorporation of ethical, social, safety, and security considerations into the research

design and review process for Federal awards, may help mitigate potential harms before they happen;

(C) the Foundation's agreement with the Academies to conduct a study and make recommendations with respect to governance of research in emerging technologies is a positive step toward accomplishing this goal; and

(D) the Foundation should continue to work with stakeholders to understand and adopt policies that promote best practices for governance of research in emerging technologies at every stage of research.

(2) **ETHICS STATEMENTS.**—Drawing on stakeholder input, not later than 18 months after the date of enactment of this Act, the Director shall amend award proposal instructions to include a requirement for an ethics statement to be included as part of any proposal for funding prior to making the award. Such statement shall be considered by the Director in the review of proposals, taking into consideration any relevant input from the peer-reviewers for the proposal, and shall factor into award decisions as deemed necessary by the Director. Such statements may include, as appropriate—

(A) any foreseeable or quantifiable risks to society, including how the research could enable products, technologies, or other outcomes that could intentionally or unintentionally cause significant societal harm;

(B) how technical or social solutions can mitigate such risks and, as appropriate, a plan to implement such mitigation measures; and

(C) how partnerships and collaborations in the research can help mitigate potential harm and amplify potential societal benefits.

(3) **GUIDANCE.**—The Director shall solicit stakeholder input to develop clear guidance on what constitutes a foreseeable or quantifiable risk as described in paragraph (2)(A), and to the extent practicable harmonize this policy with existing ethical policies or related requirements for human subjects.

(4) **RESEARCH.**—The Director shall award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support—

(A) research to assess the potential ethical and societal implications of Foundation-supported research and products or technologies enabled by such research, including the benefits and risks identified pursuant to paragraph (2)(A); and

(B) the development and verification of approaches to proactively mitigate foreseeable risks to society, including the technical and social solutions identified pursuant to paragraph (2)(B).

(5) **ANNUAL REPORT.**—The Director shall encourage awardees to update their ethics statements as appropriate as part of the annual reports required by all awardees under the award terms and conditions.

(f) **RESEARCH REPRODUCIBILITY AND REPLICABILITY.**—Consistent with existing Federal law for privacy, intellectual property, and security, the Director shall facilitate the public access to research products, including data, software, and code, developed as part of Foundation-supported projects.

(1) **DATA MANAGEMENT PLANS.**—

(A) The Director shall require that every proposal for funding for research include a machine-readable data management plan that includes a description of how the awardee will archive and preserve public access to data, software, and code developed as part of the proposed project.

(B) In carrying out the requirement in subparagraph (A), the Director shall—

(i) provide necessary resources, including trainings and workshops, to educate researchers and students on how to develop and review high quality data management plans;

(ii) ensure program officers and merit review panels are equipped with the resources and

training necessary to review the quality of data management plans; and

(iii) ensure program officers and merit review panels treat data management plans as essential elements of grant proposals, where appropriate.

(2) **OPEN REPOSITORIES.**—The Director shall—

(A) coordinate with the heads of other Federal research agencies, and solicit input from the scientific community, to develop and widely disseminate a set of criteria for trusted open repositories, accounting for discipline-specific needs and necessary protections for sensitive information, to be used by federally funded researchers for the sharing of data, software, and code;

(B) work with stakeholders to identify significant gaps in available repositories meeting the criteria developed under subparagraph (A) and options for supporting the development of additional or enhanced repositories;

(C) award grants on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) for the development, upgrades, and maintenance of open data repositories that meet the criteria developed under subparagraph (A);

(D) work with stakeholders and build on existing models, where appropriate, to establish a single, public, web-based point of access to help users locate repositories storing data, software, and code resulting from or used in Foundation-supported projects;

(E) work with stakeholders to establish the necessary policies and procedures and allocate the necessary resources to ensure, as practicable, data underlying published findings resulting from Foundation-supported projects are deposited in repositories meeting the criteria developed under subparagraph (A) at the time of publication;

(F) incentivize the deposition of data, software, and code into repositories that meet the criteria developed under subparagraph (A); and

(G) coordinate with the scientific publishing community to develop uniform consensus standards around data archiving and sharing.

(3) **RESEARCH, DEVELOPMENT, AND EDUCATION.**—The Director shall award grants, on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

(A) support research and development of open source, sustainable, usable tools and infrastructure that support reproducibility for a broad range of studies across different disciplines;

(B) support research on computational reproducibility, including the limits of reproducibility and the consistency of computational results in the development of new computation hardware, tools, and methods; and

(C) support the education and training of students, faculty, and researchers on computational methods, tools, and techniques to improve the quality and sharing of data, code, and supporting metadata to produce reproducible research.

(g) **CLIMATE CHANGE RESEARCH.**—

(1) **IN GENERAL.**—The Director shall award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research to improve our understanding of the climate system and related human and environmental systems.

(2) **USE OF FUNDS.**—Activities funded by a grant under this subsection may include—

(A) fundamental research on climate forcings, feedbacks, responses, and thresholds in the earth system, including impacts on and contributions from local and regional systems;

(B) research on climate-related human behaviors and institutions;

(C) research on climate-related risk, vulnerability, resilience, and adaptive capacity of coupled human-environment systems, including risks to ecosystem stability and risks to vulnerable populations;

(D) research to support the development and implementation of effective strategies and tools

for mitigating and adapting to climate change, including social strategies and research focused on local level forecasting, impacts, and challenges;

(E) research on the design, development, and assessment of effective information and decision-support systems, including understanding and developing effective dissemination pathways;

(F) improved modeling, projections, analyses, and assessments of climate and other Earth system changes;

(G) research to understand the atmospheric processes related to solar radiation management strategies and technologies and examine related economic, geopolitical, societal, environmental, and ethical implications, not including research designed to advance future deployment of these strategies and technologies;

(H) the development of effective strategies for educating and training future climate change researchers, and climate change response and mitigation professionals, in both research and development methods, as well as community engagement and science communication;

(I) the development of effective strategies for public and community engagement in the all stages of the research and development process; and

(J) partnerships with other agencies to address climate related challenges for specific agency missions.

(h) **VIOLENCE RESEARCH.**—

(1) **IN GENERAL.**—The Director shall award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research to improve our understanding of the nature, scope, causes, consequences, prevention, and response to all forms of violence.

(2) **USE OF FUNDS.**—Activities funded by a grant under this subsection may include—

(A) research on the magnitude and distribution of fatal and nonfatal violence;

(B) research on risk and protective factors;

(C) research on the design, development, implementation, and evaluation of interventions for preventing and responding to violence;

(D) research on scaling up effective interventions; and

(E) one or more interdisciplinary research centers to conduct violence research, foster new and expanded collaborations, and support capacity building activities to increase the number and diversity of new researchers trained in cross-disciplinary violence research.

(i) **SOCIAL, BEHAVIORAL, AND ECONOMIC SCIENCES.**—The Director shall—

(1) actively communicate opportunities and solicit proposals for social, behavioral, and economic science researchers to participate in cross-cutting and interdisciplinary programs, including the Convergence Accelerator and agency priority activities, and the Mid-Scale Research Infrastructure program; and

(2) ensure social, behavioral, and economic science researchers are represented on relevant merit review panels for such activities.

(j) **MEASURING IMPACTS OF FEDERALLY FUNDED R&D.**—The Director shall award grants on a competitive, merit-reviewed basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research and development of data, models, indicators, and associated analytical tools to improve our understanding of the impacts of Federally funded research on society, the economy, and the workforce, including domestic job creation.

(k) **FOOD-ENERGY-WATER RESEARCH.**—The Director shall award grants on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

(1) support research to significantly advance our understanding of the food-energy-water system through quantitative and computational

modeling, including support for relevant cyberinfrastructure;

(2) develop real-time, cyber-enabled interfaces that improve understanding of the behavior of food-energy-water systems and increase decision support capability;

(3) support research that will lead to innovative solutions to critical food-energy-water system problems; and

(4) grow the scientific workforce capable of studying and managing the food-energy-water system, through education and other professional development.

(l) **BIOLOGICAL FIELD STATIONS AND MARINE LABORATORIES.**—The Director shall continue to support enhancing, repairing and maintaining research instrumentation, laboratories, telecommunications and housing at biological field stations and marine laboratories.

(m) **SUSTAINABLE CHEMISTRY RESEARCH AND EDUCATION.**—In accordance with section 263 of the National Defense Authorization Act for Fiscal Year 2021, the Director shall carry out activities in support of sustainable chemistry, including—

(1) establishing a program to award grants, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support—

(A) individual investigators and teams of investigators, including to the extent practicable, early career investigators for research and development;

(B) collaborative research and development partnerships among universities, industry, and non-profit organizations; and

(C) integrating sustainable chemistry principles into elementary, secondary, undergraduate, and graduate chemistry and chemical engineering curriculum and research training, as appropriate to that level of education and training; and

(2) incorporating sustainable chemistry into existing Foundation research and development programs.

(n) **RISK AND RESILIENCE RESEARCH.**—The Director shall award grants on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to advance knowledge of risk assessment and predictability and to support the creation of tools and technologies, including advancing data analytics and utilization of artificial intelligence, for increased resilience through—

(1) improvements in our ability to understand, model, and predict extreme events and natural hazards, including pandemics;

(2) the creation of novel engineered systems solutions for resilient complex infrastructures, particularly those that address critical interdependence among infrastructures and leverage the growing infusion of cyber-physical-social components into the infrastructures;

(3) development of equipment and instrumentation for innovation in resilient engineered infrastructures;

(4) multidisciplinary research on the behaviors individuals and communities engage in to detect, perceive, understand, predict, assess, mitigate, and prevent risks and to improve and increase resilience; and

(5) advancements in multidisciplinary wildfire science, including those related to air quality impacts, human behavior, and early detection and warning.

(o) **UAV TECHNOLOGIES.**—The Director shall carry out a program of research and related activities for unmanned aerial vehicle technologies, which may include a prize competition pursuant to section 24 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3719) and support for undergraduate and graduate curriculum development.

(p) **LEVERAGING INTERNATIONAL EXPERTISE IN RESEARCH.**—The Director shall explore and advance opportunities for leveraging international

capabilities and resources that align with the Foundation and United States research community priorities and have the potential to benefit United States prosperity, security, health, and well-being, including through binational research and development organizations and foundations and by sending teams of Foundation scientific staff for site visits of scientific facilities and agencies in other countries.

(q) **BIOLOGICAL RESEARCH COLLECTIONS.**—

(1) **IN GENERAL.**—The Director shall continue to support databases, tools, methods, and other activities that secure and improve existing physical and digital biological research collections, improve the accessibility of collections and collection-related data for research and educational purposes, develop capacity for curation and collection management, and to transfer ownership of collections that are significant to the biological research community, including to museums and universities.

(2) **SPECIMEN MANAGEMENT PLAN.**—In consultation with other relevant Federal research agencies, the Director shall require that every proposal for funding for research that involves collecting or generating specimens include a specimen management plan that includes a description of how the specimens and associated data will be accessioned into and permanently maintained in an established biological collection.

(3) **ACTION CENTER FOR BIOLOGICAL COLLECTIONS.**—The Director shall award grants on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to establish an Action Center for Biological Collections to facilitate coordination and data sharing among communities of practice for research, education, workforce training, evaluation, and business model development.

(r) **CLEAN WATER RESEARCH AND TECHNOLOGY ACCELERATION.**—The Director shall award grants on a competitive, merit-reviewed basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

(1) support transdisciplinary research to significantly advance our understanding of water availability, quality, and dynamics and the impact of human activity and a changing climate on urban and rural water and wastewater systems;

(2) develop, pilot and deploy innovative technologies, systems, and other approaches to identifying and addressing challenges that affect water availability, quality, and security, including through direct engagement with affected communities and partnerships with the private sector, State, territorial, tribal, and local governments, non-profit organizations and water management professionals; and

(3) grow the scientific workforce capable of studying and managing water and wastewater systems, through education, training, and other professional development.

(s) **TECHNOLOGY AND BEHAVIORAL SCIENCE RESEARCH.**—The Director shall award grants on a merit-based, competitive basis for research to—

(1) increase understanding of social media and consumer technology access and use patterns and related psychological and behavioral issues, particularly for adolescents; and

(2) explore the role of social media and consumer technology in rising rates of depressive symptoms, suicidal ideation, drug use, and deaths of despair, particularly for communities experiencing long-term economic distress.

(t) **MANUFACTURING RESEARCH AMENDMENT.**—Section 506(a) of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p-1(a)) is amended—

(1) in paragraph (5), by striking “and” at the end;

(2) in paragraph (6)—

(A) by striking “and” before “virtual manufacturing”; and

(B) by striking the period at the end and inserting “; and artificial intelligence and machine learning;”; and

(3) by adding at the end the following:

“(7) additive manufacturing, including new material designs, complex materials, rapid printing techniques, and real-time process controls; and

“(8) continuous manufacturing of biological products and similar innovative monitoring and control techniques.”.

(u) **CRITICAL MINERALS MINING RESEARCH AND DEVELOPMENT.**—

(1) **IN GENERAL.**—The Director shall award grants, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortium of such institutions or organizations) to support basic research that will accelerate innovation to advance critical minerals mining strategies and technologies for the purpose of making better use of domestic resources and eliminating national reliance on minerals and mineral materials that are subject to supply disruptions.

(2) **USE OF FUNDS.**—Activities funded by a grant under this subsection may include—

(A) advancing mining research and development activities to develop new mapping and mining technologies and techniques, including advanced critical mineral extraction, production, separation, alloying, or processing techniques and technologies that can decrease energy intensity, potential environmental impact and costs of those activities;

(B) conducting long-term Earth observation of reclaimed mine sites, including the study of the evolution of microbial diversity at such sites;

(C) examining the application of artificial intelligence for geological exploration of critical minerals, including what the size and diversity of data sets would be required;

(D) examining the application of machine learning for detection and sorting of critical minerals, including what the size and diversity of data sets would be required;

(E) conducting detailed isotope studies of critical minerals and the development of more refined geologic models;

(F) improved understanding of the geological and geochemical processes through which critical minerals form and are concentrated into economically viable deposits; or

(G) providing training and researcher opportunities to undergraduate and graduate students to prepare the next generation of mining engineers and researchers.

(3) **EXISTING PROGRAMS.**—The Director shall ensure awards made under this subsection are complementary and not duplicative of existing programs across the foundation and Federal Government.

(v) **STUDY OF AI RESEARCH CAPACITY.**—

(1) **IN GENERAL.**—The Director shall conduct a study, or support the development of a study through the Science and Technology Policy Institute or by any other appropriate organization as determined by the Director, on artificial intelligence research capacity at U.S. institutions of higher education.

(2) **STUDY CONTENTS.**—The Director shall ensure that, at a minimum, the study under subsection (a) addresses the following topics:

(A) Which universities are putting out significant peer-reviewed artificial intelligence research, including based on quantity and number of citations.

(B) For each of the universities described in paragraph (1), what specific factors enable their AI research, including computing power, data sets and availability, specialized curriculum, and industry and other partnerships.

(C) How universities not included in paragraph (1) could implement the factors in paragraph (2) to produce AI research, as well as case studies that universities can look to as examples and potential pilot programs that the Federal Government could develop or support to help universities produce AI research.

(3) **WORKSHOPS.**—The Director may support workshops to help inform the study required under this subsection.

(4) **PUBLICATION.**—The Director shall ensure that the study carried out under this subsection is made publicly available not later than 12 months after the date of enactment of this Act.

(w) **ADVANCING IOT FOR PRECISION AGRICULTURE.**—

(1) **NATIONAL SCIENCE FOUNDATION DIRECTIVE ON AGRICULTURAL SENSOR RESEARCH.**—In awarding grants under its sensor systems and networked systems programs, and in consultation with the Secretary of Agriculture, the Director shall include in consideration of portfolio balance research and development on sensor connectivity in environments of intermittent connectivity and intermittent computation—

(A) to improve the reliable use of advance sensing systems in rural and agricultural areas; and

(B) that considers—

(i) direct gateway access for locally stored data;

(ii) attenuation of signal transmission;

(iii) loss of signal transmission; and

(iv) at-scale performance for wireless power.

(2) **UPDATING CONSIDERATIONS FOR PRECISION AGRICULTURE TECHNOLOGY WITHIN THE NSF ADVANCED TECHNICAL EDUCATION PROGRAM.**—Section 3 of the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862i) is amended in subsection (e)(3)—

(A) in subparagraph (C), by striking “and” after the semicolon;

(B) in subparagraph (D), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(E) applications that incorporate distance learning tools and approaches.”

(3) **GAO REVIEW.**—Not later than 18 months after the date of enactment of this Act, the Comptroller General of the United States shall provide—

(A) a technology assessment of precision agriculture technologies, such as the existing use of—

(i) sensors, scanners, radio-frequency identification, and related technologies that can monitor soil properties, irrigation conditions, and plant physiology;

(ii) sensors, scanners, radio-frequency identification, and related technologies that can monitor livestock activity and health;

(iii) network connectivity and wireless communications that can securely support digital agriculture technologies in rural and remote areas;

(iv) aerial imagery generated by satellites or unmanned aerial vehicles;

(v) ground-based robotics;

(vi) control systems design and connectivity, such as smart irrigation control systems;

(vii) Global Positioning System-based applications; and

(viii) data management software and advanced analytics that can assist decision making and improve agricultural outcomes; and

(B) a review of Federal programs that provide support for precision agriculture research, development, adoption, education, or training, in existence on the date of enactment of this Act.

(x) **ASTRONOMY AND SATELLITE CONSTELLATIONS.**—The Director shall support research into and the design, development, and testing of mitigation measures to address the impact of satellite constellations on Foundation scientific programs by—

(1) awarding grants on a competitive basis to support investigations into the impacts of satellite constellations on ground-based optical, infrared, and radio astronomy, including through existing programs such as Spectrum and Wireless Innovation enabled by Future Technologies (SWIFT) and the Spectrum Innovation Initiative;

(2) supporting research on satellite impacts and benefits and mitigation strategies to be car-

ried out at one or more Foundation supported Federally Funded Research and Development Centers or large facilities, as appropriate; and

(3) supporting workshops related to the impact of satellite constellations on scientific research and how those constellations could be used to improve scientific research.

SEC. 10307. RESEARCH INFRASTRUCTURE.

(a) **FACILITY OPERATION AND MAINTENANCE.**—

(1) **IN GENERAL.**—The Director shall continue the Facility Operation Transition pilot program for a total of 5 years.

(2) **COST SHARING.**—The Facility Operation Transition program shall provide funding for 10–50 percent of the operations and maintenance costs for major research facilities that are within the first five years of operation, where the share is determined based on—

(A) the operations and maintenance costs of the major research facility; and

(B) the capacity of the managing directorate or division to absorb such costs.

(3) **REPORT.**—After the fifth year of the pilot program, the Director shall transmit a report to Congress that includes—

(A) an assessment, that includes feedback from the research community, of the effectiveness of the pilot program for—

(i) supporting research directorates and divisions in balancing investments in research grants and funding for the initial operation and maintenance of major facilities;

(ii) incentivizing the development of new world-class facilities;

(iii) facilitating interagency and international partnerships;

(iv) funding core elements of multi-disciplinary facilities; and

(v) supporting facility divestment costs; and

(B) if deemed effective, a plan for permanent implementation of the pilot program.

(b) **REVIEWS.**—The Director shall periodically carry out reviews within each of the directorates and divisions to assess the cost and benefits of extending the operations of research facilities that have exceeded their planned operational lifespan.

(c) **HELIUM CONSERVATION.**—

(1) **MAJOR RESEARCH INSTRUMENTATION SUPPORT.**—

(A) **IN GENERAL.**—The Director shall support, through the Major Research Instrumentation program, proposal requests that include the purchase, installation, operation, and maintenance of equipment and instrumentation to reduce consumption of helium.

(B) **COST SHARING.**—The Director may waive the cost-sharing requirement for helium conservation measures for non-Ph.D.-granting institutions of higher education and Ph.D.-granting institutions of higher education that are not ranked among the top 100 institutions receiving Federal research and development funding, as documented by the National Center for Science and Engineering Statistics.

(2) **ANNUAL REPORT.**—No later than 1 year after the date of enactment of this Act and annually for the subsequent two years, the Director shall submit an annual report to Congress on the use of funding awarded by the Foundation for the purchase and conservation of helium. The report should include—

(A) the volume and price of helium purchased;

(B) changes in pricing and availability of helium; and

(C) any supply disruptions impacting a substantial number of institutions.

(d) **ADVANCED COMPUTING.**—

(1) **COMPUTING NEEDS.**—To gather information about the computational needs of Foundation-funded projects, the Director shall require grant proposals submitted to the Foundation, as appropriate, to include estimates of computational resource needs for projects that require use of advanced computing. The Director shall encourage and provide access to tools that facilitate the inclusion of these measures, including those

identified in the 2016 Academies report entitled “Future Directions for NSF Advanced Computing Infrastructure to Support U.S. Science and Engineering in 2017–2020”.

(2) **REPORTS.**—The Director shall document and publish every two years a summary of the amount and types of advanced computing capabilities that are needed to fully meet the Foundation’s project needs as identified under paragraph (1).

(3) **ROADMAP.**—To set priorities and guide strategic decisions regarding investments in advanced computing capabilities, the Director shall develop, publish, and regularly update a 5-year advanced computing roadmap that—

(A) describes the advanced computing resources and capabilities that would fully meet anticipated project needs, including through investments in the Mid-Scale Research Infrastructure program and the Major Research Equipment and Facilities Construction account;

(B) draws on community input, information contained in research proposals, allocation requests, insights from Foundation-funded cyber-infrastructure operators, and Foundation-wide information gathering regarding community needs;

(C) considers computational needs of planned major facilities;

(D) reflects anticipated technology trends;

(E) informs users and potential partners about future facilities and services;

(F) addresses the needs of groups historically underrepresented in STEM and geographic regions with low availability and high demand for advanced computing resources;

(G) considers how Foundation-supported advanced computing capabilities can be leveraged for activities through the Directorate for Science and Engineering Solutions; and

(H) provides an update to Congress about the level of funding necessary to fully meet computational resource needs for the research community.

(4) **SECURING AMERICAN RESEARCH FROM CYBER THEFT.**—

(A) **NETWORKING AND INFORMATION TECHNOLOGY RESEARCH AND DEVELOPMENT UPDATE.**—Section 101(a)(1) of the High-Performance Computing Act of 1991 (15 U.S.C. 5511) is amended—

(i) by moving the margins of subparagraphs (D) and (J) through (O) two ems to the left;

(ii) by redesignating subparagraphs (J) through (O) as subparagraphs (K) through (P), respectively; and

(iii) by inserting after subparagraph (I) the following:

“(J) provide for improving the security, reliability, and resiliency of computing and networking systems used by institutions of higher education and other nonprofit research institutions for the processing, storage and transmission of sensitive federally funded research and associated data.”

(B) **COMPUTING ENCLAVE PILOT PROGRAM.**—

(i) **IN GENERAL.**—The Director, in consultation with the Director of the National Institute of Standards and Technology and the Secretary of Energy, shall establish a pilot program to award grants to ensure the security of federally-supported research data and to assist regional institutions of higher education and their researchers in compliance with regulations regarding the safeguarding of sensitive information and other relevant regulations and Federal guidelines.

(ii) **STRUCTURE.**—In carrying out the pilot program established pursuant to clause (i), the Director shall select three institutions of higher education from among institutions classified under the Indiana University Center for Postsecondary Research Carnegie Classification as a doctorate-granting university with a very high level of research activity, and with a history of working with secure information for the development, installation, maintenance, or sustainment of secure computing enclaves.

(iii) **REGIONALIZATION.**—

(I) **IN GENERAL.**—In selecting universities pursuant to clause (ii), the Director shall give preference to institutions of higher education with

the capability of serving other regional universities.

(II) **GEOGRAPHIC DISPERSAL.**—The enclaves should be geographically dispersed to better meet the needs of regional interests.

(iv) **PROGRAM ELEMENTS.**—The Director shall work with institutions of higher education selected pursuant to clause (ii) to—

(I) develop an approved design blueprint for compliance with Federal data protection protocols;

(II) develop a comprehensive and confidential list, or a bill of materials, of each binary component of the software, firmware, or product that is required to deploy additional secure computing enclaves;

(III) develop templates for all policies and procedures required to operate the secure computing enclave in a research setting;

(IV) develop a system security plan template; and

(V) develop a process for managing a plan of action and milestones for the secure computing enclave.

(v) **DURATION.**—Subject to other availability of appropriations, the pilot program established pursuant to clause (i) shall operate for not less than 3 years.

(vi) **REPORT.**—

(I) **IN GENERAL.**—The Director shall report to Congress not later than 6 months after the completion of the pilot program under clause (i).

(II) **CONTENTS.**—The report required under subclause (I) shall include—

(aa) an assessment of the pilot program under clause (i), including an assessment of the security benefits provided by such secure computing enclaves;

(bb) recommendations related to the value of expanding the network of secure computing enclaves; and

(cc) recommendations on the efficacy of the use of secure computing enclaves by other Federal agencies in a broader effort to expand security of Federal research.

(vii) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Director, \$38,000,000 for fiscal years 2022 through 2024, to carry out the activities outlined in this section.

(e) **NATIONAL SECURE DATA SERVICE.**—

(I) **IN GENERAL.**—The Director, in consultation with the Chief Statistician of the United States, shall establish a demonstration project to develop, refine and test models to inform the full implementation of the Commission on Evidence-Based Policymaking recommendation for a government-wide data linkage and access infrastructure for statistical activities conducted for statistical purposes, as defined in chapter 35 of title 44, United States Code.

(2) **ESTABLISHMENT.**—Not later than one year after the date of enactment of this Act, the Director shall establish a National Secure Data Service demonstration project. The National Secure Data Service demonstration project shall be—

(A) aligned with the principles, best practices, and priority actions recommended by the Advisory Committee on Data for Evidence Building, to the extent feasible; and

(B) operated directly by or via a contract that is managed by the National Center for Science and Engineering Statistics.

(3) **DATA.**—In carrying out this subsection, the Director shall engage with Federal and State agencies to collect, acquire, analyze, report, and disseminate statistical data in the United States and other nations to support government-wide evidence-building activities consistent with the Foundations for Evidence-Based Policymaking Act of 2018.

(4) **PRIVACY AND CONFIDENTIALITY PROTECTIONS.**—If the Director issues a management contract under paragraph (2), the awardee shall be designated as an “agent” under chapter 35 of title 44, United States Code, subchapter III, section 3561 et seq., with all requirements and obli-

gations for protecting confidential information delineated in the Confidential Information Protection and Statistical Efficiency Act of 2018 and the Privacy Act of 1974.

(5) **TECHNOLOGY AND PRIVACY STANDARDS.**—In carrying out this subsection, the Director shall—

(A) consider application and use of systems and technologies that incorporate protection measures to reasonably ensure confidential data and statistical products are protected in accordance with obligations under chapter 35 of title 44, United States Code, subchapter III, section 3561 et. seq, including systems and technologies that ensure raw data and other sensitive inputs are not accessible to recipients of statistical outputs from the National Secure Data Service demonstration project; and

(B) to the extent feasible, consider applying privacy-enhancing technologies to approved projects when appropriate, or take appropriate measures to minimize re-identification risks consistent with any applicable guidance or regulations issued under chapter 35 of title 44, United States Code, subchapter III, section 3561 et seq.

(6) **TRANSPARENCY.**—The National Secure Data Service established under paragraph (2) shall maintain a public website with up-to-date information on supported projects.

(7) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the National Secure Data Service demonstration project established under paragraph (2) shall submit a report to Congress that includes—

(A) a description of policies for protecting data, consistent with applicable Federal law;

(B) a comprehensive description of all completed or active data linkage activities and projects;

(C) an assessment of the effectiveness of the demonstration project for mitigating risks and removing barriers to a sustained implementation of the National Secure Data Service as recommended by the Commission on Evidence-Based Policymaking; and

(D) if deemed effective by the Director, a plan for scaling up the demonstration project to facilitate data access for evidence building while ensuring transparency and privacy.

(8) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director to carry out this subsection \$9,000,000 for each of fiscal years 2022 through 2026.

SEC. 10308. DIRECTORATE FOR SCIENCE AND ENGINEERING SOLUTIONS.

(a) **ESTABLISHMENT.**—Subject to the availability of appropriated funds, there is established within the Foundation the Directorate for Science and Engineering Solutions to advance research and development solutions to address societal and national challenges for the benefit of all Americans.

(b) **PURPOSE.**—The purpose of the Directorate established under subsection (a) is to support use-inspired research, accelerate the translation of Foundation-supported fundamental research and to advance technologies, facilitate commercialization and use of federally funded research, and expand the pipeline of United States students and researchers in areas of societal and national importance.

(c) **ACTIVITIES.**—The Director shall achieve the purposes described in subsection (b) by awarding financial assistance through the Directorate to—

(1) support transformational advances in use-inspired and translational research through diverse funding mechanisms and models, including convergence accelerators;

(2) translate research into science and engineering innovations, including through developing innovative approaches to connect research with societal outcomes, developing approaches to technology transfer that do not rely only on traditional market and commercialization tools, education and training for students and researchers on engaging with end users and the public, partnerships that facilitate research

uptake, application, and scaling, prototype development, entrepreneurial education, developing tech-to-market strategies, and partnerships that connect research products to businesses, accelerators, and incubators and encourage the formation and growth of new companies;

(3) develop and expand sustainable and mutually-beneficial use-inspired and translational research and development partnerships and collaborations among institutions of higher education, including minority serving institutions and emerging research institutions, non-profit organizations, labor organizations, businesses and other for-profit entities, Federal or State agencies, community organizations, other Foundation directorates, national labs, field stations and marine laboratories, international entities as appropriate, binational research and development foundations and funds, excluding foreign entities of concern, and other organizations;

(4) build capacity for use-inspired and translational research at institutions of higher education, including necessary administrative support;

(5) expand opportunities for researchers to contribute to use-inspired and translational research including through support for workshops and conferences, targeted incentives and training, and multidisciplinary research centers;

(6) support the education, mentoring, and training of undergraduate students, graduate students, and postdoctoral researchers in use-inspired and translational approaches to research and entrepreneurship in key focus areas identified under subsection (g) through scholarships, fellowships, and traineeships;

(7) support translational research infrastructure, including platforms and testbeds, data management and software tools, and networks and communication platforms for interactive and collective learning and information sharing;

(8) identify social, behavioral, and economic drivers and consequences of technological innovations; and

(9) ensure the programmatic work of the Directorate and Foundation incorporates a worker perspective through participation by labor organizations and workforce training organizations.

(d) **ASSISTANT DIRECTOR.**—

(1) **IN GENERAL.**—The Director shall appoint an Assistant Director responsible for the management of the Directorate established under this section.

(2) **TERM LIMIT.**—The Assistant Director appointed under paragraph (1) shall serve a term lasting no longer than 4 years.

(3) **QUALIFICATIONS.**—The Assistant Director shall be an individual, who by reason of professional background and experience, is specially qualified to—

(A) advise the Director on all matters pertaining to use-inspired and translational research, development, and commercialization at the Foundation, including partnership with the private sector and other users of Foundation funded research; and

(B) develop and implement the necessary policies and procedures to promote a culture of use-inspired and translational research within the Directorate and across the Foundation and carry out the responsibilities under paragraph (4).

(4) **RESPONSIBILITIES.**—The responsibilities of the Assistant Director shall include—

(A) advising the Director on all matters pertaining to use-inspired and translational research and development activities at the Foundation, including effective practices for convergence research;

(B) identifying opportunities for and facilitating coordination and collaboration, where appropriate, on use-inspired and translational research, development, commercialization, and societal application activities—

(i) among the offices, directorates, and divisions within the Foundation; and

(ii) between the Foundation and stakeholders in academia, the private sector, including non-

profit entities, labor organizations, Federal or State agencies, and international entities, as appropriate;

(C) ensuring that the activities carried out under this section are not duplicative of activities supported by other parts of the Foundation or other relevant Federal agencies;

(D) approving all new programs within the Directorate;

(E) developing and testing diverse merit-review models and mechanisms for selecting and providing awards for use-inspired and translational research and development at different scales, from individual investigator awards to large multi-institution collaborations;

(F) assessing the success of programs;

(G) administering awards to achieve the purposes described in subsection (b); and

(H) performing other such duties pertaining to the purposes in subsection (b) as are required by the Director.

(5) **RELATIONSHIP TO THE DIRECTOR.**—The Assistant Director shall report to the Director.

(6) **RELATIONSHIP TO OTHER PROGRAMS.**—No other directorate within the Foundation shall report to the Assistant Director.

(e) **ADVISORY COMMITTEE.**—

(1) **IN GENERAL.**—In accordance with the Federal Advisory Committee Act (5 U.S.C. App.) the Director shall establish an advisory committee to assess, and make recommendations regarding, the activities carried out under this section.

(2) **MEMBERSHIP.**—The advisory committee members shall—

(A) be individuals with relevant experience or expertise, including individuals from industry and national labs, educators, academic subject matter experts, including individuals with knowledge of the technical and social dimensions of science and technology, technology transfer experts, labor organizations, and representatives of civil society, community organizations, and other nongovernmental organizations; and

(B) consist of at least 10 members broadly representative of stakeholders, including no less than 3 members from the private sector, none of whom shall be an employee of the Federal Government.

(3) **RESPONSIBILITIES.**—The Committee shall be responsible for—

(A) reviewing and evaluating activities carried out under this section; and

(B) assessing the success of the Directorate in and proposing new strategies for fulfilling the purposes in subsection (b).

(f) **EXISTING PROGRAMS.**—The Convergence Accelerator, the Growing Convergence Research Big Idea, and any other program, at the discretion of the Director, may be managed by the Directorate.

(g) **FOCUS AREAS.**—In consultation with the Assistant Director, the Board, and other Federal agencies and taking into account advice under subsection (e), the Director shall identify, and regularly update, up to 5 focus areas to guide activities under this section. In selecting such focus areas, the Director shall consider the following societal challenges:

(1) Climate change and environmental sustainability.

(2) Global competitiveness and domestic job creation in critical technologies.

(3) Cybersecurity.

(4) National security.

(5) STEM education and workforce.

(6) Social and economic inequality.

(h) **TECHNOLOGY RESEARCH INSTITUTES.**—

(1) **IN GENERAL.**—The Director may award grants and cooperative agreements to institutions of higher education, or consortia thereof, for the planning, establishment, and support of Technology Research Institutes in key technology areas, as determined by the Director.

(2) **USES OF FUNDS.**—Funds awarded under this section may be used by a Technology Research Institute to—

(A) conduct fundamental research to advance innovation in a key technology;

(B) conduct research involving a key technology to solve challenges with social, economic, health, scientific, and national security implications;

(C) further the development, adoption, and commercialization of innovations in key technology focus areas, including through partnership with other Federal agencies and Federal laboratories, industry, including startup companies, labor organizations, civil society organizations, and State, territorial, local, and Tribal governments;

(D) develop and manage multi-user research testbeds and instrumentation for key technologies;

(E) develop and manage an accessible repository, as appropriate, for research data and computational models relevant to the relevant key technology field, consistent with applicable privacy and intellectual property laws;

(F) convene national workshops for researchers and other stakeholders in that technology area;

(G) establish traineeship programs for graduate students who pursue research related to the technology leading to a masters or doctorate degree by providing funding and other assistance, and by providing graduate students opportunities for research experiences in government or industry related to the students' studies in that technology area;

(H) engage in outreach and engagement to broaden participation in technology research and education; and

(I) support such other activities that the Director determines appropriate.

(3) **CONSIDERATIONS.**—In making awards under this section, the Director may consider the extent to which the activities proposed—

(A) have the potential to create an innovation ecosystem, or enhance existing ecosystems, to translate Technology Research Institute research into applications and products, as appropriate to the topic of each Institute;

(B) support transdisciplinary research and development across multiple institutions of higher education and organizations;

(C) support transdisciplinary education activities, including curriculum development, research experiences, and faculty professional development across undergraduate, graduate, and professional academic programs;

(D) involve partnerships with multiple types of institutions, including emerging research institutions, historically Black colleges and universities, Tribal Colleges or Universities, and minority serving institutions, and with other Federal agencies, Federal laboratories, industry, State, territorial, local, and Tribal governments, labor organizations, civil society organizations, and other entities that may use or be affected by the technology; and

(E) include a component that addresses the ethical, societal, safety, and security implications relevant to the application of the technology.

(4) **DURATION.**—

(A) **INITIAL PERIOD.**—An award under this section shall be for an initial period of 5 years.

(B) **RENEWAL.**—An established Technology Institute may apply for, and the Director may grant, extended funding for periods of 5 years on a merit-reviewed basis.

(5) **APPLICATION.**—An institution of higher education or consortia thereof seeking financial assistance under this section shall submit to the Director an application at such time, in such manner, and containing such information as the Director may require.

(6) **COMPETITIVE, MERIT-REVIEW.**—In making awards under the section, the Director shall—

(A) use a competitive, merit review process that includes peer review by a diverse group of individuals with relevant expertise from both the private and public sectors; and

(B) ensure the focus areas of the Institute do not substantially and unnecessarily duplicate the efforts of any other Technology Research

Institute or any other similar effort at another Federal agency.

(7) **COLLABORATION.**—In making awards under this section, the Director may collaborate with Federal departments and agencies whose missions contribute to or are affected by the technology focus area of the institute.

(i) **PLANNING AND CAPACITY BUILDING GRANTS.**—Section 602 of the American Innovation and Competitiveness Act (42 U.S.C. 1862s-9) is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d), the following:

“(e) **PLANNING AND CAPACITY BUILDING GRANTS.**—

“(1) **IN GENERAL.**—Under the program established in section 508 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p-2) and the activities authorized under this section, the Director shall award grants to eligible entities for planning and capacity building at institutions of higher education.

“(2) **ELIGIBLE ENTITY DEFINED.**—In this subsection, the term ‘eligible entity’ means an institution of higher education (or a consortium of such institutions) that, according to the data published by the National Center for Science and Engineering Statistics, is not, on average, among the top 100 institutions in Federal R&D expenditures during the 3 year period prior to the year of the award.

“(3) **USE OF FUNDS.**—In addition to activities listed under subsection (c), an eligible entity receiving a grant under this subsection may use funds to—

“(A) ensure the availability of staff, including technology transfer professionals, entrepreneurs in residence, and other mentors as required to accomplish the purpose of this subsection;

“(B) revise institution policies, including policies related to intellectual property and faculty entrepreneurship, and taking other necessary steps to implement relevant best practices for academic technology transfer;

“(C) develop new local and regional partnerships among institutions of higher education and between institutions of higher education and private sector entities and other relevant organizations with the purpose of building networks, expertise, and other capacity to identify promising research that may have potential market value and enable researchers to pursue further development and transfer of their ideas into possible commercial or other use;

“(D) develop seminars, courses, and other educational opportunities for students, post-doctoral researchers, faculty, and other relevant staff at institutions of higher education to increase awareness and understanding of entrepreneurship, patenting, business planning, and other areas relevant to technology transfer, and connect students and researchers to relevant resources, including mentors in the private sector; and

“(E) create and fund competitions to allow entrepreneurial students and faculty to illustrate the commercialization potential of their ideas.

“(4) **MINIMUM DURATION AND SIZE OF AWARD.**—Grants awarded under this subsection shall be at least 3 years in duration and \$500,000 in total amount.

“(5) **APPLICATION.**—An eligible entity seeking funding under this subsection shall submit an application to the Director of the Foundation at such time, in such manner, and containing such information and assurances as such Director may require. The application shall include, at a minimum, a description of how the eligible entity submitting an application plans to sustain the proposed activities beyond the duration of the grant.

“(6) **AUTHORIZATION OF APPROPRIATIONS.**—From within funds authorized for the Directorate for Science and Engineering Solutions, there are authorized to carry out the activities

under this subsection \$40 million for each of fiscal years 2022 through 2026.”.

(j) **ENTREPRENEURIAL FELLOWSHIPS.**—

(1) **IN GENERAL.**—The Director shall award fellowships to Ph.D.-trained scientists and engineers to help develop leaders capable of maturing promising ideas and technologies from lab to market and forge connections between academic research and government, industry, and finance.

(2) **APPLICATIONS.**—An applicant for a fellowship under this subsection shall submit to the Director an application at such time, in such manner, and containing such information as the Director may require. At a minimum, the Director shall require that applicants—

(A) have completed a doctoral degree in a STEM field no more than 5 years prior to the date of the application; and

(B) have included in the application a letter of support from the intended host institution that describes how the fellow will be embedded in that institution's research environment.

(3) **OUTREACH.**—The Director shall conduct program outreach to recruit fellowship applicants—

(A) from diverse research institutions;

(B) from all regions of the country; and

(C) from groups historically underrepresented in STEM fields;

(4) The Director may enter into an agreement with a third-party entity to administer the fellowships, subject to the provisions of this subsection.

(5) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Director \$100,000,000 for fiscal years 2022 through 2026, to carry out the activities outlined in this subsection.

(k) **LOW-INCOME SCHOLARSHIP PROGRAM.**—

(1) **IN GENERAL.**—The Director shall award scholarships to low-income individuals to enable such individuals to pursue associate, undergraduate, or graduate level degrees in mathematics, engineering, or computer science.

(2) **ELIGIBILITY.**—

(A) **IN GENERAL.**—To be eligible to receive a scholarship under this section, an individual—

(i) must be a citizen of the United States, a national of the United States (as defined in section 1101(a) of title 8), an alien admitted as a refugee under section 1157 of title 8, or an alien lawfully admitted to the United States for permanent residence;

(ii) shall prepare and submit to the Director an application at such time, in such manner, and containing such information as the Director may require; and

(iii) shall certify to the Director that the individual intends to use amounts received under the scholarship to enroll or continue enrollment at an institution of higher education (as defined in section 1001(a) of title 20) in order to pursue an associate, undergraduate, or graduate level degree in mathematics, engineering, computer science, or other technology and science programs designated by the Director.

(B) **ABILITY.**—Awards of scholarships under this section shall be made by the Director solely on the basis of the ability of the applicant, except that in any case in which 2 or more applicants for scholarships are deemed by the Director to be possessed of substantially equal ability, and there are not sufficient scholarships available to grant one to each of such applicants, the available scholarship or scholarships shall be awarded to the applicants in a manner that will tend to result in a geographically wide distribution throughout the United States of recipients' places of permanent residence.

(3) **SCHOLARSHIP AMOUNT AND RENEWAL.**—The amount of a scholarship awarded under this section shall be determined by the Director. The Director may renew scholarships for up to 5 years.

(4) **AUTHORIZATION.**—Of amounts authorized for the Directorate for Science and Engineering Solutions, \$100,000,000 shall be authorized for this program.

(l) **AUTHORITIES.**—In addition to existing authorities available to the Foundation, the Director may exercise the following authorities in carrying out the activities under this section:

(1) **AWARDS.**—In carrying out this section, the Director may provide awards in the form of grants, contracts, cooperative agreements, cash prizes, and other transactions.

(2) **APPOINTMENTS.**—The Director shall have the authority to make appointments of scientific, engineering, and professional personnel for carrying out research and development functions which require the services of specially qualified personnel relating to the focus areas identified under subsection (g) and such other areas of national research priorities as the Director may determine.

(m) **ETHICAL, LEGAL, AND SOCIETAL CONSIDERATIONS.**—The Director shall establish policies regarding engagement with experts in the social dimensions of science and technology and set up formal avenues for public input, as appropriate, to ensure that ethical, legal, and societal considerations are explicitly integrated into the priorities for the Directorate, including the selection of focus areas under subsection (g), the award-making process, and throughout all stages of supported projects.

(n) **REPORTS AND ROADMAPS.**—

(1) **ANNUAL REPORT.**—The Director shall provide to the relevant authorizing and appropriations committees of Congress an annual report describing projects supported by the Directorate during the previous year.

(2) **ROADMAP.**—Not later than 1 year after the date of enactment of this Act, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that the Directorate will use to guide investment decisions over the following 3 years.

(o) **EVALUATION.**—

(1) **IN GENERAL.**—After the Directorate has been in operation for 6 years, the National Science Board shall evaluate how well the Directorate is achieving the purposes identified in subsection (b), including an assessment of the impact of Directorate activities on the Foundation's primary science mission.

(2) **INCLUSIONS.**—The evaluation shall include—

(A) a recommendation on whether the Directorate should be continued or terminated; and

(B) a description of lessons learned from operation of the Directorate.

(3) **AVAILABILITY.**—On completion of the evaluation, the evaluation shall be made available to Congress and the public.

SEC. 10309. ADMINISTRATIVE AMENDMENTS.

(a) **SUPPORTING VETERANS IN STEM CAREERS.**—Section 3(c) of the Supporting Veterans in STEM Careers Act is amended by striking “annual” and inserting “biennial”.

(b) **SUNSHINE ACT COMPLIANCE.**—Section 15 of the National Science Foundation Authorization Act of 2002 is amended—

(1) so that paragraph (3) reads as follows:

“(3) **COMPLIANCE REVIEW.**—The Inspector General of the Foundation shall conduct a review of the compliance by the Board with the requirements described in paragraph (2) as necessary based on a triennial risk assessment. Any review deemed necessary shall examine the proposed and actual content of closed meetings and determine whether the closure of the meetings was consistent with section 552b of title 5, United States Code.”; and

(2) by striking paragraphs (4) and (5) and inserting the following:

“(4) **MATERIALS RELATING TO CLOSED PORTIONS OF MEETING.**—To facilitate the risk assessment required under paragraph (3) of this subsection, and any subsequent review conducted by the Inspector General, the Office of the National Science Board shall maintain the General Counsel's certificate, the presiding officer's statement, and a transcript or recording of any

closed meeting, for at least 3 years after such meeting.”.

(c) **SCIENCE AND ENGINEERING INDICATORS REPORT SUBMISSION.**—Section 4(j)(1) of the National Science Foundation Act of 1950 (42 U.S.C. 1863(j)(1)) is amended by striking “January 15” and inserting “March 15”.

(d) **OTHER REQUIREMENTS.**—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration or repair work assisted in whole or in part under this title shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

TITLE IV—BIOECONOMY RESEARCH AND DEVELOPMENT

SEC. 10401. FINDINGS.

The Congress makes the following findings:

(1) Cellular and molecular processes may be used, mimicked, or redesigned to develop new products, processes, and systems that improve societal well-being, strengthen national security, and contribute to the economy.

(2) Engineering biology relies on a workforce with a diverse and unique set of skills combining the biological, physical, chemical, and information sciences and engineering.

(3) Long-term research and development is necessary to create breakthroughs in engineering biology. Such research and development requires government investment as many of the benefits are too distant or uncertain for industry to support alone.

(4) Research is necessary to inform evidence-based governance of engineering biology and to support the growth of the engineering biology industry.

(5) The Federal Government has an obligation to ensure that ethical, legal, environmental, safety, security, and societal implications of its science and technology research and investment follows policies of responsible innovation and fosters public transparency.

(6) The Federal Government can play an important role by facilitating the development of tools and technologies to further advance engineering biology, including user facilities, by facilitating public-private partnerships, by supporting risk research, and by facilitating the commercial application in the United States of research funded by the Federal Government.

(7) The United States led the development of the science and engineering techniques that created the field of engineering biology, but due to increasing international competition, the United States is at risk of losing its competitive advantage if it does not strategically invest the necessary resources.

(8) A National Engineering Biology Initiative can serve to establish new research directions and technology goals, improve interagency coordination and planning processes, drive technology transfer to the private sector, and help ensure optimal returns on the Federal investment.

SEC. 10402. DEFINITIONS.

In this title:

(1) **BIOMANUFACTURING.**—The term “biomanufacturing” means the utilization of biological systems to develop new and advance existing products, tools, and processes at commercial scale.

(2) **ENGINEERING BIOLOGY.**—The term “engineering biology” means the application of engineering design principles and practices to biological systems, including molecular and cellular systems, to advance fundamental understanding of complex natural systems and to enable novel or optimize functions and capabilities.

(3) **INITIATIVE.**—The term “Initiative” means the National Engineering Biology Research and Development Initiative established under section 10403.

(4) **OMICS.**—The term “omics” refers to the collective technologies used to explore the roles, relationships, and actions of the various types of molecules that make up the cells and systems of an organism and the systems level analysis of their functions.

SEC. 10403. NATIONAL ENGINEERING BIOLOGY RESEARCH AND DEVELOPMENT INITIATIVE.

(a) **IN GENERAL.**—The President, acting through the Office of Science and Technology Policy, shall implement a National Engineering Biology Research and Development Initiative to advance societal well-being, national security, sustainability, and economic productivity and competitiveness through—

(1) advancing areas of research at the intersection of the biological, physical, chemical, data, and computational and information sciences and engineering to accelerate scientific understanding and technological innovation in engineering biology;

(2) advancing areas of biomanufacturing research to optimize, standardize, scale, and deliver new products and solutions;

(3) supporting social and behavioral sciences and economics research that advances the field of engineering biology and contributes to the development and public understanding of new products, processes, and technologies;

(4) improving the understanding of engineering biology of the scientific and lay public and supporting greater evidence-based public discourse about its benefits and risks;

(5) supporting research relating to the risks and benefits of engineering biology, including under subsection (d);

(6) supporting the development of novel tools and technologies to accelerate scientific understanding and technological innovation in engineering biology;

(7) expanding the number of researchers, educators, and students and a retooled workforce with engineering biology training, including from traditionally underrepresented and underserved populations;

(8) accelerating the translation and commercialization of engineering biology and biomanufacturing research and development by the private sector; and

(9) improving the interagency planning and coordination of Federal Government activities related to engineering biology.

(b) **INITIATIVE ACTIVITIES.**—The activities of the Initiative shall include—

(1) sustained support for engineering biology research and development through—

(A) grants to fund the work of individual investigators and teams of investigators, including interdisciplinary teams;

(B) projects funded under joint solicitations by a collaboration of no fewer than two agencies participating in the Initiative; and

(C) interdisciplinary research centers that are organized to investigate basic research questions, carry out technology development and demonstration activities, and increase understanding of how to scale up engineering biology processes, including biomanufacturing;

(2) sustained support for databases and related tools, including—

(A) support for the establishment, curation, and maintenance of curated genomics, epigenomics, and other relevant omics databases, including plant, animal, and microbial databases, that are available to researchers to carry out engineering biology research in a manner that does not compromise national security or the privacy or security of information within such databases;

(B) development of standards for such databases, including for curation, interoperability, and protection of privacy and security;

(C) support for the development of computational tools, including artificial intelligence

tools, that can accelerate research and innovation using such databases; and

(D) an inventory and assessment of all Federal government omics databases to identify opportunities to improve the utility of such databases, as appropriate and in a manner that does not compromise national security or the privacy and security of information within such databases, and inform investment in such databases as critical infrastructure for the engineering biology research enterprise;

(3) sustained support for the development, optimization, and validation of novel tools and technologies to enable the dynamic study of molecular processes in situ, including through—

(A) research conducted at Federal laboratories;

(B) grants to fund the work of investigators at institutions of higher education and other non-profit research institutions;

(C) incentivized development of retooled industrial sites across the country that foster a pivot to modernized engineering biology initiatives; and

(D) awards under the Small Business Innovation Research Program and the Small Business Technology Transfer Program, as described in section 9 of the Small Business Act (15 U.S.C. 638);

(4) support for education and training of undergraduate and graduate students in engineering biology, biomanufacturing, bioprocess engineering, and computational science applied to engineering biology and in the related ethical, legal, environmental, safety, security, and other societal domains;

(5) support for biomanufacturing testbeds, including by repurposing existing facilities such as those in paragraph 3(C), that would enable scale up of laboratory engineering biology research;

(6) activities to develop robust mechanisms for documenting and quantifying the outputs and economic benefits of engineering biology; and

(7) activities to accelerate the translation and commercialization of new products, processes, and technologies by—

(A) identifying precompetitive research opportunities;

(B) facilitating public-private partnerships in engineering biology research and development, including to address barriers to scaling up innovations in engineering biology;

(C) connecting researchers, graduate students, and postdoctoral fellows with entrepreneurship education and training opportunities; and

(D) supporting proof of concept activities and the formation of startup companies including through programs such as the Small Business Innovation Research Program and the Small Business Technology Transfer Program.

(c) **EXPANDING PARTICIPATION.**—The Initiative shall include, to the maximum extent practicable, outreach to primarily undergraduate and minority-serving institutions about Initiative opportunities, and shall encourage the development of research collaborations between research-intensive universities and primarily undergraduate and minority-serving institutions.

(d) **ETHICAL, LEGAL, ENVIRONMENTAL, SAFETY, SECURITY, AND SOCIETAL ISSUES.**—Initiative activities shall take into account ethical, legal, environmental, safety, security, and other appropriate societal issues by—

(1) supporting research, including in the social sciences, and other activities addressing ethical, legal, environmental, and other appropriate societal issues related to engineering biology, including integrating research on such topics with the research and development in engineering biology, and encouraging the dissemination of the results of such research, including through interdisciplinary engineering biology research centers described in subsection (b)(1);

(2) supporting research and other activities related to the safety and security implications of engineering biology, including outreach to increase awareness among Federal researchers

and Federally-funded researchers at institutions of higher education about potential safety and security implications of engineering biology research, as appropriate;

(3) ensuring that input from Federal and non-Federal experts on the ethical, legal, environmental, safety, security, and other appropriate societal issues related to engineering biology is integrated into the Initiative;

(4) ensuring, through the agencies and departments that participate in the Initiative, that public input and outreach are integrated into the Initiative by the convening of regular and ongoing public discussions through mechanisms such as workshops, consensus conferences, and educational events, as appropriate; and

(5) complying with all applicable provisions of Federal law.

SEC. 10404. INITIATIVE COORDINATION.

(a) **INTERAGENCY COMMITTEE.**—The President, acting through the Office of Science and Technology Policy, shall designate an interagency committee to coordinate activities of the Initiative as appropriate, which shall be co-chaired by the Office of Science and Technology Policy. The Director of the Office of Science and Technology Policy shall select an additional co-chairperson from among the members of the Interagency Committee. The Interagency Committee shall oversee the planning, management, and coordination of the Initiative. The Interagency Committee shall—

(1) provide for interagency coordination of Federal engineering biology research, development, and other activities undertaken pursuant to the Initiative;

(2) establish and periodically update goals and priorities for the Initiative;

(3) develop, not later than 12 months after the date of the enactment of this Act, and update every 5 years thereafter, a strategic plan submitted to the Committee on Science, Space, and Technology, the Committee on Agriculture, and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation, the Committee on Agriculture, Nutrition, and Forestry, and the Committee on Health, Education, Labor, and Pensions of the Senate that—

(A) guides the activities of the Initiative for purposes of meeting the goals and priorities established under (and updated pursuant to) paragraph (2); and

(B) describes—

(i) the Initiative's support for long-term funding for interdisciplinary engineering biology research and development;

(ii) the Initiative's support for education and public outreach activities;

(iii) the Initiative's support for research and other activities on ethical, legal, environmental, safety, security, and other appropriate societal issues related to engineering biology including—

(I) an applied biorisk management research plan;

(II) recommendations for integrating security into biological data access and international reciprocity agreements;

(III) recommendations for manufacturing restructuring to support engineering biology research, development, and scaling-up initiatives; and

(IV) an evaluation of existing biosecurity governance policies, guidance, and directives for the purposes of creating an adaptable, evidence-based framework to respond to emerging biosecurity challenges created by advances in engineering biology;

(iv) how the Initiative will contribute to moving results out of the laboratory and into application for the benefit of society and United States competitiveness; and

(v) how the Initiative will measure and track the contributions of engineering biology to United States economic growth and other societal indicators;

(4) develop a national genomic sequencing strategy to ensure engineering biology research

fully leverages plant, animal, and microbe biodiversity, as appropriate and in a manner that does not compromise economic competitiveness, national security, or the privacy or security of human genetic information, to enhance long-term innovation and competitiveness in engineering biology in the United States;

(5) develop a plan to utilize Federal programs, such as the Small Business Innovation Research Program and the Small Business Technology Transfer Program as described in section 9 of the Small Business Act (15 U.S.C. 638), in support of the activities described in section 10403(b)(3); and

(6) in carrying out this section, take into consideration the recommendations of the advisory committee established under section 10405, the results of the workshop convened under section 10406, existing reports on related topics, and the views of academic, State, industry, and other appropriate groups.

(b) **QUINQUENNIAL REPORT.**—Beginning with fiscal year 2022 and ending in fiscal year 2028, not later than 90 days after submission of the President's annual budget request and every fifth fiscal year thereafter, the Interagency Committee shall prepare and submit to the Committee on Science, Space, and Technology and the Committee on Agriculture, House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that includes—

(1) a summarized agency budget in support of the Initiative for the fiscal year to which such budget request applies, for the following 2 fiscal years, for the then current fiscal year, including a breakout of spending for each agency participating in the Program, and for the development and acquisition of any research facilities and instrumentation; and

(2) an assessment of how Federal agencies are implementing the plan described in subsection (a)(3), including—

(A) a description of the amount and number of awards made under the Small Business Innovation Research Program and the Small Business Technology Transfer Program (as described in section 9 of the Small Business Act (15 U.S.C. 638)) in support of the Initiative;

(B) a description of the amount and number of projects funded under joint solicitations by a collaboration of no fewer than 2 agencies participating in the Initiative; and

(C) a description of the effect of the newly funded projects by the Initiative.

(c) **INITIATIVE OFFICE.**—

(1) **IN GENERAL.**—The President shall establish an Initiative Coordination Office, with a Director and full-time staff, which shall—

(A) provide technical and administrative support to the interagency committee and the advisory committee established under section 10405;

(B) serve as the point of contact on Federal engineering biology activities for government organizations, academia, industry, professional societies, State governments, interested citizen groups, and others to exchange technical and programmatic information;

(C) oversee interagency coordination of the Initiative, including by encouraging and supporting joint agency solicitation and selection of applications for funding of activities under the Initiative, as appropriate;

(D) conduct public outreach, including dissemination of findings and recommendations of the advisory committee established under section 10405, as appropriate;

(E) serve as the coordinator of ethical, legal, environmental, safety, security, and other appropriate societal input; and

(F) promote access to, and early application of, the technologies, innovations, and expertise derived from Initiative activities to agency missions and systems across the Federal Government, and to United States industry, including startup companies.

(2) **FUNDING.**—The Director of the Office of Science and Technology Policy, in coordination

with each participating Federal department and agency, as appropriate, shall develop and annually update an estimate of the funds necessary to carry out the activities of the Initiative Coordination Office and submit such estimate with an agreed summary of contributions from each agency to Congress as part of the President's annual budget request to Congress.

(3) **TERMINATION.**—The Initiative Coordination Office established under this subsection shall terminate on the date that is 10 years after the date of the enactment of this Act.

(d) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to alter the policies, processes, or practices of individual Federal agencies in effect on the day before the date of the enactment of this Act relating to the conduct of biomedical research and advanced development, including the solicitation and review of extramural research proposals.

SEC. 10405. ADVISORY COMMITTEE.

(a) **IN GENERAL.**—The agency co-chair of the interagency committee established in section 10404 shall, in consultation with the Office of Science and Technology Policy, designate or establish an advisory committee on engineering biology research and development (in this section referred to as the “advisory committee”) to be composed of not fewer than 12 members, including representatives of research and academic institutions, industry, and nongovernmental entities, who are qualified to provide advice on the Initiative.

(b) **ASSESSMENT.**—The advisory committee shall assess—

(1) the current state of United States competitiveness in engineering biology, including the scope and scale of United States investments in engineering biology research and development in the international context;

(2) current market barriers to commercialization of engineering biology products, processes, and tools in the United States;

(3) progress made in implementing the Initiative;

(4) the need to revise the Initiative;

(5) the balance of activities and funding across the Initiative;

(6) whether the strategic plan developed or updated by the interagency committee established under section 10404 is helping to maintain United States leadership in engineering biology; and

(7) whether ethical, legal, environmental, safety, security, and other appropriate societal issues are adequately addressed by the Initiative.

(c) **REPORTS.**—Beginning not later than 2 years after the date of enactment of this Act, and not less frequently than once every 5 years thereafter, the advisory committee shall submit to the President, the Committee on Science, Space, and Technology and the Committee on Agriculture of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate, a report on—

(1) the findings of the advisory committee's assessment under subsection (b); and

(2) the advisory committee's recommendations for ways to improve the Initiative.

(d) **APPLICATION OF FEDERAL ADVISORY COMMITTEE ACT.**—Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Advisory Committee.

(e) **TERMINATION.**—The advisory committee established under subsection (a) shall terminate on the date that is 10 years after the date of the enactment of this Act.

SEC. 10406. EXTERNAL REVIEW OF ETHICAL, LEGAL, ENVIRONMENTAL, SAFETY, SECURITY, AND SOCIETAL ISSUES.

(a) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Director of the National Science Foundation shall seek to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to conduct a review, and make rec-

ommendations with respect to, the ethical, legal, environmental, safety, security, and other appropriate societal issues related to engineering biology research and development. The review shall include—

(1) an assessment of the current research on such issues;

(2) a description of the research gaps relating to such issues;

(3) recommendations on how the Initiative can address the research needs identified pursuant to paragraph (2); and

(4) recommendations on how researchers engaged in engineering biology can best incorporate considerations of ethical, legal, environmental, safety, security, and other societal issues into the development of research proposals and the conduct of research.

(b) **REPORT TO CONGRESS.**—The agreement entered into under subsection (a) shall require the National Academies of Sciences, Engineering, and Medicine to, not later than 2 years after the date of the enactment of this Act—

(1) submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report containing the findings and recommendations of the review conducted under subsection (a); and

(2) make a copy of such report available on a publicly accessible website.

SEC. 10407. AGENCY ACTIVITIES.

(a) **NATIONAL SCIENCE FOUNDATION.**—As part of the Initiative, the National Science Foundation shall—

(1) support research in engineering biology and biomanufacturing through individual grants, collaborative grants, and through interdisciplinary research centers;

(2) support research on the environmental, legal, ethical, and social implications of engineering biology;

(3) provide support for research instrumentation, equipment, and cyberinfrastructure for engineering biology disciplines, including support for research, development, optimization and validation of novel technologies to enable the dynamic study of molecular processes in situ;

(4) support curriculum development and research experiences for secondary, undergraduate, and graduate students in engineering biology and biomanufacturing, including through support for graduate fellowships and traineeships in engineering biology; and

(5) award grants, on a competitive basis, to enable institutions to support graduate students and postdoctoral fellows who perform some of their engineering biology research in an industry setting.

(b) **DEPARTMENT OF COMMERCE.**—

(1) **NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.**—As part of the Initiative, the Director of the National Institute of Standards and Technology shall—

(A) establish a bioscience research program to advance the development of standard reference materials and measurements and to create new data tools, techniques, and processes necessary to advance engineering biology and biomanufacturing;

(B) provide access to user facilities with advanced or unique equipment, services, materials, and other resources to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing; and

(C) provide technical expertise to inform the potential development of guidelines or safeguards for new products, processes, and systems of engineering biology.

(2) **NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION.**—As part of the initiative, the Administrator of the National Oceanic and Atmospheric Administration shall—

(A) conduct and support research in omics and associated bioinformatic sciences and develop tools and products to improve ecosystem

stewardship, monitoring, management, assessments and forecasts, consistent with the mission of the agency; and

(B) collaborate with other agencies to understand potential environmental threats and safeguards related to engineering biology.

(C) DEPARTMENT OF ENERGY.—As part of the Initiative, the Secretary of Energy shall—

(1) conduct and support research, development, demonstration, and commercial application activities in engineering biology, including in the areas of synthetic biology, advanced biofuel and bioproduct development, biobased materials, and environmental remediation;

(2) support the development, optimization and validation of novel, scalable tools and technologies to enable the dynamic study of molecular processes in situ;

(3) provide access to user facilities with advanced or unique equipment, services, materials, and other resources, including secure access to high-performance computing, as appropriate, to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing; and

(4) strengthen collaboration between the Office of Science and the Energy Efficiency and Renewable Energy Office to help transfer fundamental research results to industry and accelerate commercial applications.

(D) NATIONAL AERONAUTICS AND SPACE ADMINISTRATION.—As part of the Initiative, the National Aeronautics and Space Administration shall—

(1) conduct and support research in engineering biology, including in synthetic biology, and related to Earth and space sciences, aeronautics, space technology, and space exploration and experimentation, consistent with the priorities established in the National Academies' decadal surveys; and

(2) award grants, on a competitive basis, that enable institutions to support graduate students and postdoctoral fellows who perform some of their engineering biology research in an industry setting.

(E) DEPARTMENT OF AGRICULTURE.—As part of the Initiative, the Secretary of Agriculture shall support research and development in engineering biology, including in synthetic biology and biomaterials, through the Agricultural Research Service, the National Institute of Food and Agricultural Programs, and the Office of the Chief Scientist.

(F) ENVIRONMENTAL PROTECTION AGENCY.—As part of the Initiative, the Environmental Protection Agency shall support research on how products, processes, and systems of engineering biology will affect or can protect the environment.

(G) DEPARTMENT OF HEALTH AND HUMAN SERVICES.—As part of the Initiative, the Secretary of Health and Human Services, as appropriate and consistent with activities of the Department of Health and Human Services in effect on the day before the date of the enactment of this Act, shall—

(1) support research and development to advance the understanding and application of engineering biology for human health;

(2) support relevant interdisciplinary research and coordination; and

(3) support activities necessary to facilitate oversight of relevant emerging biotechnologies.

SEC. 10408. RULE OF CONSTRUCTION.

Nothing in this title shall be construed to require public disclosure of information that is exempt from mandatory disclosure under section 552 of title 5, United States Code.

TITLE V—BROADENING PARTICIPATION IN SCIENCE

Subtitle A—STEM Opportunities

SEC. 10501. FINDINGS.

The Congress finds the following:

(1) Many reports over the past decade have found that it is critical to our Nation's economic leadership and global competitiveness that the

United States educates and trains more scientists and engineers.

(2) Research shows that women and minorities who are interested in STEM careers are disproportionately lost at nearly every educational transition and at every career milestone.

(3) The National Center for Science and Engineering Statistics at the National Science Foundation collects, compiles, analyzes, and publishes data on the demographics of STEM degrees and STEM jobs in the United States.

(4) Women now earn nearly 37 percent of all STEM bachelor's degrees, but major variations persist among fields. In 2017, women earned only 20 percent of all bachelor's degrees awarded in engineering and 19 percent of bachelor's degrees awarded in computer sciences. Based on Bureau of Labor Statistics data, jobs in computing occupations are expected to account for nearly 60 percent of the projected annual growth of newly created STEM job openings from 2016 to 2026.

(5) In 2017, underrepresented minority groups comprised 39 percent of the college-age population of the United States, but only 18 percent of students who earned bachelor's degrees in STEM fields. The Higher Education Research Institute at the University of California, Los Angeles, found that, while freshmen from underrepresented minority groups express an interest in pursuing a STEM undergraduate degree at the same rate as all other freshmen, only 22.1 percent of Latino students, 18.4 percent of African-American students, and 18.8 percent of Native American students studying in STEM fields complete their degree within 5 years, compared to approximately 33 percent of White students and 42 percent of Asian students who complete their degree within 5 years.

(6) In some STEM fields, including the computer sciences, women persist at about the same rate through doctorate degrees. In other STEM fields, women persist through doctorate degrees at a lower rate. In mathematics, women earn just 26 percent of doctorate degrees compared with 42 percent of undergraduate degrees. Overall, women earned 38 percent of STEM doctorate degrees in 2016. The rate of minority students earning STEM doctorate degrees in physics is 9 percent, compared with 15 percent for bachelor's degree. Students from underrepresented minority groups accounted for only 11.5 percent of STEM doctorate degrees awarded in 2016.

(7) The representation of women in STEM drops significantly from the doctorate degree level to the faculty level. Overall, women hold only 26 percent of all tenured and tenure-track positions and 27 percent of full professor positions in STEM fields in our Nation's universities and 4-year colleges. Black and Hispanic faculty together hold about 6.8 percent of all tenured and tenure-track positions and 7.5 percent of full professor positions. Many of the numbers in the American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander categories for different faculty ranks were too small for the National Science Foundation to report publicly without potentially compromising confidential information about the individuals being surveyed.

(8) The representation of women is especially low at our Nation's top research universities. Even in the biological sciences, in which women now earn more than 50 percent of the doctorates and passed the 25 percent level 37 years ago, women make up only 25 percent of the full professors at the approximately 100 most research-intensive universities in the United States. In the physical sciences and mathematics, women make up only 11 percent of full professors, in computer sciences only 10 percent, and across engineering fields only 7 percent. The data suggest that approximately 6 percent of all tenure-track STEM faculty members at the most research-intensive universities are from underrepresented minority groups, but in some fields the numbers are too small to report publicly.

(9) By 2050, underrepresented minorities will comprise 52 percent of the college-age popu-

lation of the United States. If the percentage of female students and students from underrepresented minority groups earning bachelor's degrees in STEM fields does not significantly increase, the United States will face an acute shortfall in the overall number of students who earn degrees in STEM fields just as United States companies are increasingly seeking students with those skills. With this impending shortfall, the United States will almost certainly lose its competitive edge in the 21st century global economy.

(10) According to a 2014 Association for Women in Science survey of over 4,000 scientists across the globe, 70 percent of whom were men, STEM researchers face significant challenges in work-life integration. Researchers in the United States were among the most likely to experience a conflict between work and their personal life at least weekly. One-third of researchers surveyed said that ensuring good work-life integration has negatively impacted their careers, and, of researchers intending to leave their current job within the next year, 9 percent indicated it was because they were unable to balance work and life demands.

(11) Female students and students from underrepresented minority groups at institutions of higher education who see few others "like themselves" among faculty and student populations often do not experience the social integration that is necessary for success in all disciplines, including STEM.

(12) One in five children in the United States attend school in a rural community. The data shows that rural students are at a disadvantage with respect to STEM readiness. Among STEM-interested students, 17 percent of students in rural high schools and 18 percent of students in town-located high schools meet the ACT STEM Benchmark, compared with 33 percent of students in suburban high schools and 27 percent of students in urban high schools.

(13) A substantial body of evidence establishes that most people hold implicit biases. Decades of cognitive psychology research reveal that most people carry prejudices of which they are unaware but that nonetheless play a large role in evaluations of people and their work. Unintentional biases and outmoded institutional structures are hindering the access and advancement of women, minorities, and other groups historically underrepresented in STEM.

(14) Workshops held to educate faculty about unintentional biases have demonstrated success in raising awareness of such biases.

(15) In 2012, the Office of Diversity and Equal Opportunity of the National Aeronautics and Space Administration (in this subtitle referred to as "NASA") completed a report that—

(A) is specifically designed to help NASA grant recipients identify why the dearth of women in STEM fields continues and to ensure that it is not due to discrimination; and

(B) provides guidance that is usable by all institutions of higher education receiving significant Federal research funding on how to conduct meaningful self-evaluations of campus culture and policies.

(16) The Federal Government provides 55 percent of research funding at institutions of higher education and, through its grant-making policies, has had significant influence on institution of higher education policies, including policies related to institutional culture and structure.

SEC. 10502. PURPOSES.

The purposes of this subtitle are as follows:

(1) To ensure that Federal science agencies and institutions of higher education receiving Federal research and development funding are fully engaging the entire talent pool of the United States.

(2) To promote research on, and increase understanding of, the participation and trajectories of women, minorities, and other groups historically underrepresented in STEM studies

and careers, including persons with disabilities, older learners, veterans, and rural, poor, and tribal populations, at institutions of higher education and Federal science agencies, including Federal laboratories.

(3) To raise awareness within Federal science agencies, including Federal laboratories, and institutions of higher education about cultural and institutional barriers limiting the recruitment, retention, promotion, and other indicators of participation and achievement of women, minorities, and other groups historically underrepresented in academic and Government STEM research careers at all levels.

(4) To identify, disseminate, and implement best practices at Federal science agencies, including Federal laboratories, and at institutions of higher education to remove or reduce cultural and institutional barriers limiting the recruitment, retention, and success of women, minorities, and other groups historically underrepresented in academic and Government STEM research careers.

(5) To provide grants to institutions of higher education to recruit, retain, and advance STEM faculty members from underrepresented minority groups and to implement or expand reforms in undergraduate STEM education in order to increase the number of students from underrepresented minority groups receiving degrees in these fields.

SEC. 10503. FEDERAL SCIENCE AGENCY POLICIES FOR CAREGIVERS.

(a) OSTP GUIDANCE.—Not later than 6 months after the date of enactment of this Act, the Director, in consultation with relevant agencies, shall provide guidance to each Federal science agency to establish policies that—

(1) apply to all—
(A) research awards granted by such agency; and

(B) principal investigators of such research and their trainees, including postdoctoral researchers and graduate students, who have caregiving responsibilities, including care for a newborn or newly adopted child and care for an immediate family member who is sick or disabled; and

(2) provide—
(A) flexibility in timing for the initiation of approved research awards granted by such agency;

(B) no-cost extensions of such research awards;

(C) grant supplements, as appropriate, to research awards for research technicians or equivalent positions to sustain research activities conducted under such awards; and

(D) any other appropriate accommodations at the discretion of the director of each such agency.

(b) UNIFORMITY OF GUIDANCE.—In providing guidance under subsection (a), the Director shall encourage uniformity and consistency in the policies established pursuant to such guidance across all Federal science agencies.

(c) ESTABLISHMENT OF POLICIES.—Consistent with the guidance under subsection (a), Federal science agencies shall—

(1) maintain or develop and implement policies for individuals described in paragraph (1)(B) of such subsection; and

(2) broadly disseminate such policies to current and potential grantees.

(d) DATA ON USAGE.—Federal science agencies shall—

(1) collect data on the usage of the policies under subsection (c), by gender, at both institutions of higher education and Federal laboratories; and

(2) report such data on an annual basis to the Director in such form as required by the Director.

SEC. 10504. COLLECTION AND REPORTING OF DATA ON FEDERAL RESEARCH GRANTS.

(a) COLLECTION OF DATA.—

(1) IN GENERAL.—Each Federal science agency shall collect, as practicable, with respect to all

applications for merit-reviewed research and development grants to institutions of higher education and Federal laboratories supported by that agency, the standardized record-level annual information on demographics, primary field, award type, institution type, review rating, budget request, funding outcome, and awarded budget.

(2) UNIFORMITY AND STANDARDIZATION.—The Director, in consultation with the Director of the National Science Foundation, shall establish a policy to ensure uniformity and standardization of the data collection required under paragraph (1).

(3) RECORD-LEVEL DATA.—

(A) REQUIREMENT.—Beginning not later than 2 years after the date of the enactment of this Act, and on an annual basis thereafter, each Federal science agency shall submit to the Director of the National Science Foundation record-level data collected under paragraph (1) in the form required by such Director.

(B) PREVIOUS DATA.—As part of the first submission under subparagraph (A), each Federal science agency, to the extent practicable, shall also submit comparable record-level data for the 5 years preceding the date of such submission.

(b) REPORTING OF DATA.—The Director of the National Science Foundation shall publish statistical summary data, as practicable, collected under this section, disaggregated and cross-tabulated by race, ethnicity, gender, and years since completion of doctoral degree, including in conjunction with the National Science Foundation's report required by section 37 of the Science and Technology Equal Opportunities Act (42 U.S.C. 1885d; Public Law 96-516).

SEC. 10505. POLICIES FOR REVIEW OF FEDERAL RESEARCH GRANTS.

(a) IN GENERAL.—Each Federal science agency shall implement the policy recommendations with respect to reducing the impact of implicit bias at Federal science agencies and grantee institutions as developed by the Office of Science and Technology Policy in the 2016 report entitled “Reducing the Impact of Bias in the STEM Workforce” and any subsequent updates.

(b) PILOT ACTIVITY.—In consultation with the National Science Foundation and consistent with policy recommendations referenced in subsection (a), each Federal science agency shall implement a 2-year pilot orientation activity for program officers and members of standing review committees to educate reviewers on research related to, and minimize the effects of, implicit bias in the review of extramural and intramural Federal research grants.

(c) ESTABLISHMENT OF POLICIES.—Drawing upon lessons learned from the pilot activity under subsection (b), each Federal science agency shall maintain or develop and implement evidence-based policies and practices to minimize the effects of implicit bias in the review of extramural and intramural Federal research grants.

(d) ASSESSMENT OF POLICIES.—Federal science agencies shall regularly assess, and amend as necessary, the policies and practices implemented pursuant to subsection (c) to ensure effective measures are in place to minimize the effects of implicit bias in the review of extramural and intramural Federal research grants.

SEC. 10506. COLLECTION OF DATA ON DEMOGRAPHICS OF FACULTY.

(a) COLLECTION OF DATA.—

(1) IN GENERAL.—Not later than 3 years after the date of enactment of this Act, and at least every 5 years thereafter, the Director of the National Science Foundation shall carry out a survey to collect data from grantees on the demographics of STEM faculty, by broad fields of STEM, at different types of institutions of higher education.

(2) CONSIDERATIONS.—To the extent practicable, the Director of the National Science Foundation shall consider, by gender, race, ethnicity, citizenship status, and years since completion of doctoral degree—

(A) the number and percentage of faculty;

(B) the number and percentage of faculty at each rank;

(C) the number and percentage of faculty who are in non tenure-track positions, including teaching and research;

(D) the number and percentage of faculty who are reviewed for promotion, including tenure, and the percentage of that number who are promoted, including being awarded tenure;

(E) faculty years in rank;

(F) the number and percentage of faculty to leave tenure-track positions;

(G) the number and percentage of faculty hired, by rank; and

(H) the number and percentage of faculty in leadership positions.

(b) EXISTING SURVEYS.—The Director of the National Science Foundation, may, in modifying or expanding existing Federal surveys of higher education (as necessary)—

(1) take into account the considerations under subsection (a)(2) by collaborating with statistical centers at other Federal agencies; or

(2) award a grant or contract to an institution of higher education or other nonprofit organization to take such considerations into account.

(c) REPORTING DATA.—The Director of the National Science Foundation shall publish statistical summary data collected under this section, including as part of the National Science Foundation's report required by section 37 of the Science and Technology Equal Opportunities Act (42 U.S.C. 1885d; Public Law 96-516).

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Director of the National Science Foundation \$3,000,000 in each of fiscal years 2022 through 2024 to develop and carry out the initial survey required under subsection (a).

SEC. 10507. CULTURAL AND INSTITUTIONAL BARRIERS TO EXPANDING THE ACADEMIC AND FEDERAL STEM WORKFORCE.

(a) BEST PRACTICES AT INSTITUTIONS OF HIGHER EDUCATION AND FEDERAL LABORATORIES.—

(1) DEVELOPMENT OF GUIDANCE.—Not later than 12 months after the date of enactment of this Act, the Director, in consultation with the interagency working group on inclusion in STEM, shall develop written guidance for institutions of higher education and Federal laboratories on the best practices for—

(A) conducting periodic climate surveys of STEM departments and divisions, with a particular focus on identifying any cultural or institutional barriers to the recruitment, retention, or advancement of women, racial and ethnic minorities, and other groups historically underrepresented in STEM studies and careers; and

(B) providing educational opportunities, including workshops as described in subsection (b), for STEM faculty, research personnel, and administrators to learn about current research on implicit bias in recruitment, evaluation, and promotion of undergraduate and graduate students and research personnel.

(2) EXISTING GUIDANCE.—In developing the guidance under paragraph (1), the Director shall utilize guidance already developed by Federal science agencies.

(3) DISSEMINATION OF GUIDANCE.—Federal science agencies shall broadly disseminate the guidance developed under paragraph (1) to institutions of higher education that receive Federal research funding and Federal laboratories.

(4) ESTABLISHMENT OF POLICIES.—Consistent with the guidance developed under paragraph (1)—

(A) the Director of the National Science Foundation shall develop a policy that—

(i) applies to, at a minimum, doctoral degree granting institutions that receive Federal research funding; and

(ii) requires each such institution, not later than 3 years after the date of enactment of this Act, to report to the Director of the National Science Foundation on activities and policies

developed and implemented based on the guidance developed under paragraph (1); and

(B) each Federal science agency with a Federal laboratory shall maintain or develop and implement practices and policies for the purposes described in paragraph (1) for such laboratory.

(b) **WORKSHOPS TO ADDRESS CULTURAL BARRIERS TO EXPANDING THE ACADEMIC AND FEDERAL STEM WORKFORCE.**—

(1) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Director, in consultation with the interagency working group on inclusion in STEM, shall recommend a uniform policy for Federal science agencies to carry out a program of workshops that educate STEM department chairs at institutions of higher education, senior managers at Federal laboratories, and other federally funded researchers about methods that minimize the effects of implicit bias in the career advancement, including hiring, tenure, promotion, and selection for any honor based in part on the recipient's research record, of academic and Federal STEM researchers.

(2) **INTERAGENCY COORDINATION.**—The Director shall, to the extent practicable, ensure that workshops supported under this subsection are coordinated across Federal science agencies and jointly supported as appropriate.

(3) **MINIMIZING COSTS.**—To the extent practicable, workshops shall be held in conjunction with national or regional STEM disciplinary meetings to minimize costs associated with participant travel.

(4) **PRIORITY FIELDS FOR ACADEMIC PARTICIPANTS.**—In considering the participation of STEM department chairs and other academic researchers, the Director shall prioritize workshops for the broad fields of STEM in which the national rate of representation of women among tenured or tenure-track faculty or nonfaculty researchers at doctorate-granting institutions of higher education is less than 25 percent, according to the most recent data available from the National Center for Science and Engineering Statistics.

(5) **ORGANIZATIONS ELIGIBLE TO CARRY OUT WORKSHOPS.**—A Federal science agency may carry out the program of workshops under this subsection by making grants to organizations made eligible by the Federal science agency and any of the following organizations:

(A) Nonprofit scientific and professional societies and organizations that represent one or more STEM disciplines.

(B) Nonprofit organizations that have the primary mission of advancing the participation of women, minorities, or other groups historically underrepresented in STEM.

(6) **CHARACTERISTICS OF WORKSHOPS.**—The workshops shall have the following characteristics:

(A) Invitees to workshops shall include at least—

(i) the chairs of departments in the relevant STEM discipline or disciplines from doctoral degree granting institutions that receive Federal research funding; and

(ii) in the case of Federal laboratories, individuals with personnel management responsibilities comparable to those of an institution of higher education department chair.

(B) Activities at the workshops shall include research presentations and interactive discussions or other activities that increase the awareness of the existence of implicit bias in recruitment, hiring, tenure review, promotion, and other forms of formal recognition of individual achievement for faculty and other federally funded STEM researchers and shall provide strategies to overcome such bias.

(C) Research presentations and other workshop programs, as appropriate, shall include a discussion of the unique challenges faced by different underrepresented groups, including minority women, minority men, persons from rural and underserved areas, persons with disabilities,

gender and sexual minority individuals, and first generation graduates in research.

(D) Workshop programs shall include information on best practices for mentoring undergraduate, graduate, and postdoctoral women, minorities, and other students from groups historically underrepresented in STEM.

(7) **DATA ON WORKSHOPS.**—Any proposal for funding by an organization seeking to carry out a workshop under this subsection shall include a description of how such organization will—

(A) collect data on the rates of attendance by invitees in workshops, including information on the home institution and department of attendees, and the rank of faculty attendees;

(B) conduct attitudinal surveys on workshop attendees before and after the workshops; and

(C) collect follow-up data on any relevant institutional policy or practice changes reported by attendees not later than 1 year after attendance in such a workshop.

(8) **REPORT TO NSF.**—Organizations receiving funding to carry out workshops under this subsection shall report the data required in paragraph (7) to the Director of the National Science Foundation in such form as required by such Director.

(c) **REPORT TO CONGRESS.**—Not later than 4 years after the date of enactment of this Act, the Director of the National Science Foundation shall submit a report to Congress that includes—

(1) a summary and analysis of the types and frequency of activities and policies developed and carried out under subsection (a) based on the reports submitted under paragraph (4) of such subsection; and

(2) a description and evaluation of the status and effectiveness of the program of workshops required under subsection (b), including a summary of any data reported under paragraph (8) of such subsection.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director of the National Science Foundation \$1,000,000 in each of fiscal years 2022 through 2026 to carry out this section.

SEC. 10508. RESEARCH AND DISSEMINATION AT THE NATIONAL SCIENCE FOUNDATION.

(a) **IN GENERAL.**—The Director of the National Science Foundation shall award research grants and carry out dissemination activities consistent with the purposes of this subtitle, including—

(1) research grants to analyze the record-level data collected under section 10504 and section 10506, consistent with policies to ensure the privacy of individuals identifiable by such data;

(2) research grants to study best practices for work-life accommodation;

(3) research grants to study the impact of policies and practices that are implemented under this subtitle or that are otherwise consistent with the purposes of this subtitle;

(4) collaboration with other Federal science agencies and professional associations to exchange best practices, harmonize work-life accommodation policies and practices, and overcome common barriers to work-life accommodation; and

(5) collaboration with institutions of higher education in order to clarify and catalyze the adoption of a coherent and consistent set of work-life accommodation policies and practices.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director of the National Science Foundation \$5,000,000 in each of fiscal years 2022 through 2026 to carry out this section.

SEC. 10509. RESEARCH AND RELATED ACTIVITIES TO EXPAND STEM OPPORTUNITIES.

(a) **NATIONAL SCIENCE FOUNDATION SUPPORT FOR INCREASING DIVERSITY AMONG STEM FACULTY AT INSTITUTIONS OF HIGHER EDUCATION.**—Section 305 of the American Innovation and Competitiveness Act (42 U.S.C. 1862s-5) is amended—

(1) by redesignating subsections (e) and (f) as subsections (f) and (g), respectively; and

(2) by inserting after subsection (d) the following:

“(e) **SUPPORT FOR INCREASING DIVERSITY AMONG STEM FACULTY AT INSTITUTIONS OF HIGHER EDUCATION.**—

“(1) **IN GENERAL.**—The Director of the Foundation shall award grants to institutions of higher education (or consortia thereof) for the development and assessment of innovative reform efforts designed to increase the recruitment, retention, and advancement of individuals from underrepresented minority groups in academic STEM careers.

“(2) **MERIT REVIEW; COMPETITION.**—Grants shall be awarded under this subsection on a merit-reviewed, competitive basis.

“(3) **USE OF FUNDS.**—Activities supported by grants under this subsection may include—

“(A) institutional assessment activities, such as data analyses and policy review, in order to identify and address specific issues in the recruitment, retention, and advancement of faculty members from underrepresented minority groups;

“(B) implementation of institution-wide improvements in workload distribution, such that faculty members from underrepresented minority groups are not disadvantaged in the amount of time available to focus on research, publishing papers, and engaging in other activities required to achieve tenure status and run a productive research program;

“(C) development and implementation of training courses for administrators and search committee members to ensure that candidates from underrepresented minority groups are not subject to implicit biases in the search and hiring process;

“(D) development and hosting of intra- or inter-institutional workshops to propagate best practices in recruiting, retaining, and advancing faculty members from underrepresented minority groups;

“(E) professional development opportunities for faculty members from underrepresented minority groups;

“(F) activities aimed at making undergraduate STEM students from underrepresented minority groups aware of opportunities for academic careers in STEM fields;

“(G) activities to identify and engage exceptional graduate students and postdoctoral researchers from underrepresented minority groups at various stages of their studies and to encourage them to enter academic careers; and

“(H) other activities consistent with paragraph (1), as determined by the Director of the Foundation.

“(4) **SELECTION PROCESS.**—

“(A) **APPLICATION.**—An institution of higher education (or a consortium of such institutions) seeking funding under this subsection shall submit an application to the Director of the Foundation at such time, in such manner, and containing such information and assurances as such Director may require. The application shall include, at a minimum, a description of—

“(i) the reform effort that is being proposed for implementation by the institution of higher education;

“(ii) any available evidence of specific difficulties in the recruitment, retention, and advancement of faculty members from underrepresented minority groups in STEM academic careers within the institution of higher education submitting an application, and how the proposed reform effort would address such issues;

“(iii) how the institution of higher education submitting an application plans to sustain the proposed reform effort beyond the duration of the grant; and

“(iv) how the success and effectiveness of the proposed reform effort will be evaluated and assessed in order to contribute to the national knowledge base about models for catalyzing institutional change.

“(B) **REVIEW OF APPLICATIONS.**—In selecting grant recipients under this subsection, the Director of the Foundation shall consider, at a minimum—

“(i) the likelihood of success in undertaking the proposed reform effort at the institution of higher education submitting the application, including the extent to which the administrators of the institution are committed to making the proposed reform effort a priority;

“(ii) the degree to which the proposed reform effort will contribute to change in institutional culture and policy such that greater value is placed on the recruitment, retention, and advancement of faculty members from underrepresented minority groups;

“(iii) the likelihood that the institution of higher education will sustain or expand the proposed reform effort beyond the period of the grant; and

“(iv) the degree to which evaluation and assessment plans are included in the design of the proposed reform effort.

“(C) GRANT DISTRIBUTION.—The Director of the Foundation shall ensure, to the extent practicable, that grants awarded under this section are made to a variety of types of institutions of higher education.

“(5) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this subsection \$8,000,000 for each of fiscal years 2022 through 2026.”

(b) NATIONAL SCIENCE FOUNDATION SUPPORT FOR BROADENING PARTICIPATION IN UNDERGRADUATE STEM EDUCATION.—Section 305 of the American Innovation and Competitiveness Act (42 U.S.C. 1862s–5), as amended by subsection (b), is further amended by inserting after subsection (e) the following:

“(f) SUPPORT FOR BROADENING PARTICIPATION IN UNDERGRADUATE STEM EDUCATION.—

“(1) IN GENERAL.—The Director of the Foundation shall award grants to institutions of higher education (or a consortium of such institutions) to implement or expand research-based reforms in undergraduate STEM education for the purpose of recruiting and retaining students from minority groups who are underrepresented in STEM fields.

“(2) MERIT REVIEW; COMPETITION.—Grants shall be awarded under this subsection on a merit-reviewed, competitive basis.

“(3) USE OF FUNDS.—Activities supported by grants under this subsection may include—

“(A) implementation or expansion of innovative, research-based approaches to broaden participation of underrepresented minority groups in STEM fields;

“(B) implementation or expansion of bridge, cohort, tutoring, or mentoring programs, including those involving community colleges and technical schools, designed to enhance the recruitment and retention of students from underrepresented minority groups in STEM fields;

“(C) implementation or expansion of outreach programs linking institutions of higher education and K–12 school systems in order to heighten awareness among pre-college students from underrepresented minority groups of opportunities in college-level STEM fields and STEM careers;

“(D) implementation or expansion of faculty development programs focused on improving retention of undergraduate STEM students from underrepresented minority groups;

“(E) implementation or expansion of mechanisms designed to recognize and reward faculty members who demonstrate a commitment to increasing the participation of students from underrepresented minority groups in STEM fields;

“(F) expansion of successful reforms aimed at increasing the number of STEM students from underrepresented minority groups beyond a single course or group of courses to achieve reform within an entire academic unit, or expansion of successful reform efforts beyond a single academic unit or field to other STEM academic units or fields within an institution of higher education;

“(G) expansion of opportunities for students from underrepresented minority groups to con-

duct STEM research in industry, at Federal labs, and at international research institutions or research sites;

“(H) provision of stipends for students from underrepresented minority groups participating in research;

“(I) development of research collaborations between research-intensive universities and primarily undergraduate minority-serving institutions;

“(J) support for graduate students and postdoctoral fellows from underrepresented minority groups to participate in instructional or assessment activities at primarily undergraduate institutions, including primarily undergraduate minority-serving institutions and 2-year institutions of higher education; and

“(K) other activities consistent with paragraph (1), as determined by the Director of the Foundation.

“(4) SELECTION PROCESS.—

“(A) APPLICATION.—An institution of higher education (or a consortia thereof) seeking a grant under this subsection shall submit an application to the Director of the Foundation at such time, in such manner, and containing such information and assurances as such Director may require. The application shall include, at a minimum—

“(i) a description of the proposed reform effort;

“(ii) a description of the research findings that will serve as the basis for the proposed reform effort or, in the case of applications that propose an expansion of a previously implemented reform, a description of the previously implemented reform effort, including data about the recruitment, retention, and academic achievement of students from underrepresented minority groups;

“(iii) evidence of an institutional commitment to, and support for, the proposed reform effort, including a long-term commitment to implement successful strategies from the current reform beyond the academic unit or units included in the grant proposal;

“(iv) a description of existing or planned institutional policies and practices regarding faculty hiring, promotion, tenure, and teaching assignment that reward faculty contributions to improving the education of students from underrepresented minority groups in STEM; and

“(v) how the success and effectiveness of the proposed reform effort will be evaluated and assessed in order to contribute to the national knowledge base about models for catalyzing institutional change.

“(B) REVIEW OF APPLICATIONS.—In selecting grant recipients under this subsection, the Director of the Foundation shall consider, at a minimum—

“(i) the likelihood of success of the proposed reform effort at the institution submitting the application, including the extent to which the faculty, staff, and administrators of the institution are committed to making the proposed institutional reform a priority of the participating academic unit or units;

“(ii) the degree to which the proposed reform effort will contribute to change in institutional culture and policy such that greater value is placed on faculty engagement in the retention of students from underrepresented minority groups;

“(iii) the likelihood that the institution will sustain or expand the proposed reform effort beyond the period of the grant; and

“(iv) the degree to which evaluation and assessment plans are included in the design of the proposed reform effort.

“(C) GRANT DISTRIBUTION.—The Director of the Foundation shall ensure, to the extent practicable, that grants awarded under this subsection are made to a variety of types of institutions of higher education, including 2-year and minority-serving institutions of higher education.

“(5) EDUCATION RESEARCH.—

“(A) IN GENERAL.—All grants made under this subsection shall include an education research component that will support the design and implementation of a system for data collection and evaluation of proposed reform efforts in order to build the knowledge base on promising models for increasing recruitment and retention of students from underrepresented minority groups in STEM education at the undergraduate level across a diverse set of institutions.

“(B) DISSEMINATION.—The Director of the Foundation shall coordinate with relevant Federal agencies in disseminating the results of the research under this paragraph to ensure that best practices in broadening participation in STEM education at the undergraduate level are made readily available to all institutions of higher education, other Federal agencies that support STEM programs, non-Federal funders of STEM education, and the general public.

“(6) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this subsection \$15,000,000 for each of fiscal years 2022 through 2026.”

SEC. 10510. TRIBAL COLLEGES AND UNIVERSITIES PROGRAM.

(a) GRANTS TO BROADEN TRIBAL COLLEGE AND UNIVERSITY STUDENT PARTICIPATION IN COMPUTER SCIENCE.—Section 525 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p–13) is amended by inserting after subsection (c) the following:

“(d) GRANTS TO BROADEN TRIBAL COLLEGE AND UNIVERSITY STUDENT PARTICIPATION IN COMPUTER SCIENCE.—

“(1) IN GENERAL.—The Director, as part of the program authorized under this section, shall award grants on a competitive, merit-reviewed basis to eligible entities to increase the participation of tribal populations in computer science and computational thinking education programs to enable students to develop skills and competencies in coding, problem-solving, critical thinking, creativity and collaboration.

“(2) PURPOSE.—Grants awarded under this subsection shall support—

“(A) research and development needed to bring computer science and computational thinking courses and degrees to tribal colleges and universities;

“(B) research and development of instructional materials needed to integrate computer science and computational thinking into programs that are culturally relevant to students attending tribal colleges and universities;

“(C) research, development and evaluation of distance education for computer science and computational thinking courses and degree programs for students attending tribal colleges and universities; and

“(D) other activities consistent with the activities described in paragraphs (1) through (4) of subsection (b), as determined by the Director.

“(3) PARTNERSHIPS.—A tribal college or university seeking a grant under this subsection, or a consortia thereof, may partner with an institution of higher education or nonprofit organization with demonstrated expertise in academic program development.

“(4) COORDINATION.—In carrying out this subsection, the Director shall consult and cooperate with the programs and policies of other relevant Federal agencies to avoid duplication with and enhance the effectiveness of the program under this subsection.

“(5) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Director of the Foundation \$2,000,000 in each of fiscal years 2022 through 2026 to carry out this subsection.”

(b) EVALUATION.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Director of the National Science Foundation shall evaluate the grant program authorized under section 525 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p–13), as amended.

(2) REQUIREMENTS.—In conducting the evaluation under paragraph (1), the Director of the

National Science Foundation shall, as practicable—

(A) use a common set of benchmarks and assessment tools to identify best practices and materials developed or demonstrated by the research conducted pursuant to grants programs under section 525 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p-13);

(B) include an assessment of the effectiveness of such grant programs in expanding access to high quality STEM education, research, and outreach at tribal colleges and universities, as applicable;

(C) assess the number of students who participated in such grant programs; and

(D) assess the percentage of students participating in such grant programs who successfully complete their education programs.

(3) REPORT.—Not later than 180 days after the date on which the evaluation under paragraph (1) is completed, the Director of the National Science Foundation shall submit to Congress and make available to the public, a report on the results of the evaluation, including any recommendations for legislative action that could optimize the effectiveness of the grant program authorized under section 525 of the America COMPETES Reauthorization Act of 2010, as amended by subsection (a).

SEC. 10511. REPORT TO CONGRESS.

Not later than 4 years after the date of enactment of this Act, the Director shall submit a report to Congress that includes—

(1) a description and evaluation of the status and usage of policies implemented pursuant to section 10503 at all Federal science agencies, including any recommendations for revising or expanding such policies;

(2) with respect to efforts to minimize the effects of implicit bias in the review of extramural and intramural Federal research grants under section 10505—

(A) what steps all Federal science agencies have taken to implement policies and practices to minimize such effects;

(B) a description of any significant updates to the policies for review of Federal research grants required under such section; and

(C) any evidence of the impact of such policies on the review or awarding of Federal research grants; and

(3) a description and evaluation of the status of institution of higher education and Federal laboratory policies and practices required under section 10507(a), including any recommendations for revising or expanding such policies.

SEC. 10512. MERIT REVIEW.

Nothing in this subtitle shall be construed as altering any intellectual or broader impacts criteria at Federal science agencies for evaluating grant applications.

SEC. 10513. DETERMINATION OF BUDGETARY EFFECTS.

The budgetary effects of this subtitle, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this subtitle, submitted for printing in the Congressional Record by the Chairman of the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

SEC. 10514. DEFINITIONS.

In this subtitle:

(1) DIRECTOR.—The term “Director” means the Director of the Office of Science and Technology Policy.

(2) FEDERAL LABORATORY.—The term “Federal laboratory” has the meaning given such term in section 4 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703).

(3) FEDERAL SCIENCE AGENCY.—The term “Federal science agency” means any Federal agency with an annual extramural research expenditure of over \$100,000,000.

(4) INSTITUTION OF HIGHER EDUCATION.—The term “institution of higher education” has the

meaning given such term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(5) INTERAGENCY WORKING GROUP ON INCLUSION IN STEM.—The term “interagency working group on inclusion in STEM” means the interagency working group established by section 308 of the American Innovation and Competitiveness Act (42 U.S.C. 6626).

(6) STEM.—The term “STEM” means science, technology, engineering, and mathematics, including computer science.

Subtitle B—Rural STEM Education Research SEC. 10521. FINDINGS.

Congress finds the following:

(1) The supply of STEM workers is not keeping pace with the rapidly evolving needs of the public and private sector, resulting in a deficit often referred to as a STEM skills shortage.

(2) According to the Bureau of Labor Statistics, the United States will need one million additional STEM professionals than it is on track to produce in the coming decade.

(3) Many STEM occupations offer higher wages, more opportunities for advancement, and a higher degree of job security than non-STEM jobs.

(4) The 60,000,000 individuals in the United States who live in rural settings are significantly under-represented in STEM.

(5) According to the National Center for Education Statistics, nine million students in the United States—nearly 20 percent of the total K–12 population—attend rural schools, and for reasons ranging from teacher quality to shortages of resources, these students often have fewer opportunities for high-quality STEM learning than their peers in the Nation’s urban and suburban schools.

(6) Rural areas represent one of the most promising, yet underutilized, opportunities for STEM education to impact workforce development and regional innovation, including agriculture.

(7) The study of agriculture, food, and natural resources involves biology, engineering, physics, chemistry, math, geology, computer science, and other scientific fields.

(8) Employment in computer and information technology occupations is projected to grow 11 percent from 2019 to 2029. To help meet this demand, it is important rural students have the opportunity to acquire computing skills through exposure to computer science learning in grades Pre-K through 12 and in informal learning settings.

(9) More than 293,000,000 individuals in the United States use high-speed broadband to work, learn, access healthcare, and operate their businesses, while 19,000,000 individuals in the United States still lack access to high-speed broadband. Rural areas are hardest hit, with over 26 percent of individuals in rural areas in the United States lacking access to high-speed broadband compared to 1.7 percent of individuals in urban areas in the United States.

SEC. 10522. NIST ENGAGEMENT WITH RURAL COMMUNITIES.

(a) MEP OUTREACH.—Section 25 of the National Institute of Standards and Technology Act (15 U.S.C. 278k) is amended—

(1) in subsection (c)—

(A) in paragraph (6), by striking “community colleges and area career and technical education schools” and inserting the following: “secondary schools (as defined in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)), community colleges, and area career and technical education schools, including those in underserved and rural communities,”; and

(B) in paragraph (7)—

(i) by striking “and local colleges” and inserting the following: “local high schools and local colleges, including those in underserved and rural communities,”; and

(ii) by inserting “or other applied learning opportunities” after “apprenticeships”; and

(2) in subsection (d)(3) by striking “, community colleges, and area career and technical education schools,” and inserting the following: “and local high schools, community colleges, and area career and technical education schools, including those in underserved and rural communities,”.

(b) RURAL CONNECTIVITY PRIZE COMPETITION.—

(1) PRIZE COMPETITION.—Pursuant to section 24 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3719), the Secretary of Commerce, acting through the Under Secretary of Commerce for Standards and Technology (referred to in this subsection as the “Secretary”), shall, subject to appropriations, carry out a program to award prizes competitively to stimulate research and development of creative technologies in order to deploy affordable and reliable broadband connectivity to underserved rural communities.

(2) PLAN FOR DEPLOYMENT IN RURAL COMMUNITIES.—Each proposal submitted pursuant to paragraph (1) shall include a plan for deployment of the technology that is the subject of such proposal in an underserved rural community.

(3) PRIZE AMOUNT.—In carrying out the program under paragraph (1), the Secretary may award not more than a total of \$5,000,000 to one or more winners of the prize competition.

(4) REPORT.—Not later than 60 days after the date on which a prize is awarded under the prize competition, the Secretary shall submit to the relevant committees of Congress a report that describes the winning proposal of the prize competition.

(5) CONSULTATION.—In carrying out the program under subsection (a), the Secretary may consult with the heads of relevant departments and agencies of the Federal Government.

SEC. 10523. NITR-D BROADBAND WORKING GROUP.

Title I of the High-Performance Computing Act of 1991 (15 U.S.C. 5511 et seq.) is amended by adding at the end the following:

“SEC. 103. BROADBAND RESEARCH AND DEVELOPMENT WORKING GROUP.

“(a) IN GENERAL.—The Director shall establish a broadband research and development working group to address national research challenges and opportunities for improving broadband access and adoption across the United States.

“(b) ACTIVITIES.—The working group shall identify and coordinate key research priorities for addressing broadband access and adoption, including—

“(1) promising research areas;

“(2) requirements for data collection and sharing;

“(3) opportunities for better alignment and coordination across Federal agencies and external stakeholders; and

“(4) input on the development of new Federal policies and programs to enhance data collection and research.

“(c) COORDINATION.—The working group shall coordinate, as appropriate, with the Rural Broadband Integration Working Group established under section 6214 of the Agriculture Improvement Act of 2018 (Public Law 115–334) and the National Institute of Food and Agriculture of the Department of Agriculture.

“(d) REPORT.—The working group shall report to Congress on their activities as part of the annual report submitted under section 101(a)(2)(D).

“(e) SUNSET.—The authority to carry out this section shall terminate on the date that is 5 years after the date of enactment of the America COMPETES Act of 2022.”.

SEC. 10524. NATIONAL ACADEMY OF SCIENCES EVALUATION.

(a) STUDY.—Not later than 12 months after the date of enactment of this Act, the Director shall enter into an agreement with the National

Academy of Sciences under which the National Academy agrees to conduct an evaluation and assessment that—

(1) evaluates the quality and quantity of current Federal programming and research directed at examining STEM education for students in grades Pre-K through 12 and workforce development in rural areas;

(2) assesses the impact of the scarcity of broadband connectivity in rural communities has on STEM and technical literacy for students in grades Pre-K through 12 in rural areas;

(3) assesses the core research and data needed to understand the challenges rural areas are facing in providing quality STEM education and workforce development; and

(4) makes recommendations for action at the Federal, State, and local levels for improving STEM education for students in grades Pre-K through 12 and workforce development in rural areas.

(b) **REPORT TO DIRECTOR.**—The agreement entered into under subsection (a) shall require the National Academy of Sciences, not later than 24 months after the date of enactment of this Act, to submit to the Director a report on the study conducted under such subsection, including the National Academy's findings and recommendations.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director to carry out this section \$1,000,000 for fiscal year 2022.

SEC. 10525. GAO REVIEW.

Not later than 3 years after the date of enactment of this Act, the Comptroller General of the United States shall conduct a study on the engagement of rural populations in Federal STEM programs and submit to Congress a report that includes—

(1) an assessment of how Federal STEM education programs are serving rural populations;

(2) a description of initiatives carried out by Federal agencies that are targeted at supporting STEM education in rural areas;

(3) an assessment of what is known about the impact and effectiveness of Federal investments in STEM education programs that are targeted to rural areas; and

(4) an assessment of challenges that state and Federal STEM education programs face in reaching rural population centers.

SEC. 10526. CAPACITY BUILDING THROUGH EPSCOR.

Section 517(f)(2) of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p-9(f)(2)) is amended—

(1) in subparagraph (A), by striking “and” at the end; and

(2) by adding at the end the following:

“(C) to increase the capacity of rural communities to provide quality STEM education and STEM workforce development programming to students, and teachers; and”.

SEC. 10527. NATIONAL SCIENCE FOUNDATION RURAL STEM RESEARCH ACTIVITIES.

(a) **PREPARING RURAL STEM EDUCATORS.**—

(1) **IN GENERAL.**—The Director shall provide grants on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or a consortium thereof) for research and development to advance innovative approaches to support and sustain high-quality STEM teaching in rural schools.

(2) **USE OF FUNDS.**—

(A) **IN GENERAL.**—Grants awarded under this section shall be used for the research and development activities referred to in paragraph (1), which may include—

(i) engaging rural educators of students in grades Pre-K through 12 in professional learning opportunities to enhance STEM knowledge, including computer science, and develop best practices;

(ii) supporting research on effective STEM teaching practices in rural settings, including the use of rubrics and mastery-based grading

practices to assess student performance when employing the transdisciplinary teaching approach for STEM disciplines;

(iii) designing and developing pre-service and in-service training resources to assist such rural educators in adopting transdisciplinary teaching practices across STEM courses;

(iv) coordinating with local partners to adapt STEM teaching practices to leverage local natural and community assets in order to support in-place learning in rural areas;

(v) providing hands-on training and research opportunities for rural educators described in clause (i) at Federal Laboratories, institutions of higher education, or in industry;

(vi) developing training and best practices for educators who teach multiple grade levels within a STEM discipline;

(vii) designing and implementing professional development courses and experiences, including mentoring, for rural educators described in clause (i) that combine face-to-face and online experiences; and

(viii) any other activity the Director determines will accomplish the goals of this subsection.

(B) **RURAL STEM COLLABORATIVE.**—The Director may establish a pilot program of regional cohorts in rural areas that will provide peer support, mentoring, and hands-on research experiences for rural STEM educators of students in grades Pre-K through 12, in order to build an ecosystem of cooperation among educators, researchers, academia, and local industry.

(b) **BROADENING PARTICIPATION OF RURAL STUDENTS IN STEM.**—

(1) **IN GENERAL.**—The Director shall provide grants on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or a consortium thereof) for—

(A) research and development of programming to identify the barriers rural students face in accessing high-quality STEM education; and

(B) development of innovative solutions to improve the participation and advancement of rural students in grades Pre-K through 12 in STEM studies.

(2) **USE OF FUNDS.**—

(A) **IN GENERAL.**—Grants awarded under this section shall be used for the research and development activities referred to in paragraph (1), which may include—

(i) developing partnerships with community colleges to offer advanced STEM course work, including computer science, to rural high school students;

(ii) supporting research on effective STEM practices in rural settings;

(iii) implementing a school-wide STEM approach;

(iv) improving the National Science Foundation's Advanced Technology Education program's coordination and engagement with rural communities;

(v) collaborating with existing community partners and networks, such as the cooperative research and extension services of the Department of Agriculture and youth serving organizations like 4-H, after school STEM programs, and summer STEM programs, to leverage community resources and develop place-based programming;

(vi) connecting rural school districts and institutions of higher education, to improve precollegiate STEM education and engagement;

(vii) supporting partnerships that offer hands-on inquiry-based science activities, including coding, and access to lab resources for students studying STEM in grades Pre-K through 12 in a rural area;

(viii) evaluating the role of broadband connectivity and its associated impact on the STEM and technology literacy of rural students;

(ix) building capacity to support extra-curricular STEM programs in rural schools, including mentor-led engagement programs, STEM programs held during nonschool hours, STEM networks, makerspaces, coding activities, and competitions; and

(x) any other activity the Director determines will accomplish the goals of this subsection.

(c) **APPLICATION.**—An applicant seeking a grant under subsection (a) or (b) shall submit an application at such time, in such manner, and containing such information as the Director may require. The application may include the following:

(1) A description of the target population to be served by the research activity or activities for which such grant is sought.

(2) A description of the process for recruitment and selection of students, educators, or schools from rural areas to participate in such activity or activities.

(3) A description of how such activity or activities may inform efforts to promote the engagement and achievement of rural students in grades Pre-K through 12 in STEM studies.

(4) In the case of a proposal consisting of a partnership or partnerships with one or more rural schools and one or more researchers, a plan for establishing a sustained partnership that is jointly developed and managed, draws from the capacities of each partner, and is mutually beneficial.

(d) **PARTNERSHIPS.**—In awarding grants under subsection (a) or (b), the Director shall—

(1) encourage applicants which, for the purpose of the activity or activities funded through the grant, include or partner with a nonprofit organization or an institution of higher education (or a consortium thereof) that has extensive experience and expertise in increasing the participation of rural students in grades Pre-K through 12 in STEM;

(2) encourage applicants which, for the purpose of the activity or activities funded through the grant, include or partner with a consortium of rural schools or rural school districts; and

(3) encourage applications which, for the purpose of the activity or activities funded through the grant, include commitments from school principals and administrators to making reforms and activities proposed by the applicant a priority.

(e) **EVALUATIONS.**—All proposals for grants under subsections (a) and (b) shall include an evaluation plan that includes the use of outcome oriented measures to assess the impact and efficacy of the grant. Each recipient of a grant under this section shall include results from these evaluative activities in annual and final projects.

(f) **ACCOUNTABILITY AND DISSEMINATION.**—

(1) **EVALUATION REQUIRED.**—The Director shall evaluate the portfolio of grants awarded under subsections (a) and (b). Such evaluation shall—

(A) use a common set of benchmarks and tools to assess the results of research conducted under such grants and identify best practices; and

(B) to the extent practicable, integrate the findings of research resulting from the activity or activities funded through such grants with the findings of other research on rural student's pursuit of degrees or careers in STEM.

(2) **REPORT ON EVALUATIONS.**—Not later than 180 days after the completion of the evaluation under paragraph (1), the Director shall submit to Congress and make widely available to the public a report that includes—

(A) the results of the evaluation; and

(B) any recommendations for administrative and legislative action that could optimize the effectiveness of the grants awarded under this section.

(g) **REPORT BY COMMITTEE ON EQUAL OPPORTUNITIES IN SCIENCE AND ENGINEERING.**—

(1) **IN GENERAL.**—As part of the first report required by section 36(e) of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885c(e)) transmitted to Congress after the date of enactment of this Act, the Committee on Equal Opportunities in Science and Engineering shall include—

(A) a description of past and present policies and activities of the Foundation to encourage

full participation of students in rural communities in science, mathematics, engineering, and computer science fields; and

(B) an assessment of trends in participation of rural students in grades Pre-K through 12 in Foundation activities, and an assessment of the policies and activities of the Foundation, along with proposals for new strategies or the broadening of existing successful strategies towards facilitating the goals of this subtitle.

(2) **TECHNICAL CORRECTION.**—

(A) **IN GENERAL.**—Section 313 of the American Innovation and Competitiveness Act (Public Law 114-329) is amended by striking “Section 204(e) of the National Science Foundation Authorization Act of 1988” and inserting “Section 36(e) of the Science and Engineering Equal Opportunities Act”.

(B) **APPLICABILITY.**—The amendment made by paragraph (1) shall take effect as if included in the enactment of section 313 of the American Innovation and Competitiveness Act (Public Law 114-329).

(h) **COORDINATION.**—In carrying out this section, the Director shall, for purposes of enhancing program effectiveness and avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies.

(i) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director—

(1) \$8,000,000 to carry out the activities under subsection (a) for each of fiscal years 2022 through 2026; and

(2) \$12,000,000 to carry out the activities under subsection (b) for each of fiscal years 2022 through 2026.

SEC. 10528. RESEARCHING OPPORTUNITIES FOR ONLINE EDUCATION.

(a) **IN GENERAL.**—The Director shall, subject to appropriations, award competitive grants to institutions of higher education or nonprofit organizations (or a consortium thereof, which may include a private sector partner) to conduct research on online STEM education courses for rural communities.

(b) **RESEARCH AREAS.**—The research areas eligible for funding under this subsection shall include—

(1) evaluating the learning and achievement of rural students in grades Pre-K through 12 in STEM subjects;

(2) understanding how computer-based and online professional development courses and mentor experiences can be integrated to meet the needs of educators of rural students in grades Pre-K through 12;

(3) combining computer-based and online STEM education and training with apprenticeships, mentoring, or other applied learning arrangements;

(4) leveraging online programs to supplement STEM studies for rural students that need physical and academic accommodation; and

(5) any other activity the Director determines will accomplish the goals of this subsection.

(c) **EVALUATIONS.**—All proposals for grants under this section shall include an evaluation plan that includes the use of outcome oriented measures to assess the impact and efficacy of the grant. Each recipient of a grant under this section shall include results from these evaluative activities in annual and final projects.

(d) **ACCOUNTABILITY AND DISSEMINATION.**—

(1) **EVALUATION REQUIRED.**—The Director shall evaluate the portfolio of grants awarded under this section. Such evaluation shall—

(A) use a common set of benchmarks and tools to assess the results of research conducted under such grants and identify best practices; and

(B) to the extent practicable, integrate findings from activities carried out pursuant to research conducted under this section, with respect to the pursuit of careers and degrees in STEM, with those activities carried out pursuant to other research on serving rural students and communities.

(2) **REPORT ON EVALUATIONS.**—Not later than 180 days after the completion of the evaluation under paragraph (1), the Director shall submit to Congress and make widely available to the public a report that includes—

(A) the results of the evaluation; and

(B) any recommendations for administrative and legislative action that could optimize the effectiveness of the grants awarded under this section.

(e) **COORDINATION.**—In carrying out this section, the Director shall, for purposes of enhancing program effectiveness and avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies.

SEC. 10529. DEFINITIONS.

In this subtitle:

(1) **DIRECTOR.**—The term “Director” means the Director of the National Science Foundation established under section 2 of the National Science Foundation Act of 1950 (42 U.S.C. 1861).

(2) **FEDERAL LABORATORY.**—The term “Federal laboratory” has the meaning given such term in section 4 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3703).

(3) **FOUNDATION.**—The term “Foundation” means the National Science Foundation established under section 2 of the National Science Foundation Act of 1950 (42 U.S.C. 1861).

(4) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given such term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(5) **STEM.**—The term “STEM” has the meaning given the term in section 2 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 6621 note).

(6) **STEM EDUCATION.**—The term “STEM education” has the meaning given the term in section 2 of the STEM Education Act of 2015 (42 U.S.C. 6621 note).

Subtitle C—MSI STEM Achievement

SEC. 10531. FINDINGS.

Congress makes the following findings:

(1) Evidence suggests that the supply of STEM workers is not keeping pace with the rapidly evolving needs of the public and private sector, resulting in a deficit often referred to as a STEM skills shortage.

(2) According to the Bureau of Labor Statistics, the United States will need one million additional STEM professionals than it is on track to produce in the coming decade.

(3) STEM occupations offer higher wages, more opportunities for advancement, and a higher degree of job security than non-STEM occupations.

(4) The composition of the STEM workforce does not reflect the current or projected diversity of the Nation, with Hispanics, African Americans, and other racial and ethnic minorities, significantly underrepresented in the STEM workforce compared to their presence in the workforce more generally.

(5) A stronger national commitment to increasing the diversity of the STEM workforce is needed to help address the STEM skills shortage.

(6) According to a 2019 National Academies of Sciences, Engineering, and Medicine report entitled “Minority Serving Institutions: America’s Underutilized Resource for Strengthening the STEM Workforce”, 2- and 4-year minority serving institutions enroll nearly 30 percent of all undergraduate students—a percentage that is expected to grow in the coming years—in the United States higher education system and play a critical role in providing important pathways to STEM-related education, training, and careers for students of color.

(7) HBCUs, TCUs, and MSIs are highly successful at educating underrepresented minority students in STEM fields and can serve as best practice models for other colleges and universities to further expand participation of underrepresented minorities in the STEM workforce.

(8) Increased investment in STEM infrastructure at HBCUs, TCUs, and MSIs has the potential to increase these institutions’ ability to educate even more students in the STEM disciplines.

(9) With the demand for STEM skills exceeding the supply of STEM graduates, success of HBCUs, TCUs, and MSIs in educating and training science and engineering leaders is increasingly important for United States economic growth and competitiveness.

SEC. 10532. GOVERNMENT ACCOUNTABILITY OFFICE REVIEW.

Not later than 3 years after the date of enactment of this Act, the Comptroller General of the United States shall report to Congress—

(1) an inventory of competitive funding programs and initiatives carried out by Federal science agencies that are targeted to HBCUs, TCUs, and MSIs or partnerships with HBCUs, TCUs, and MSIs;

(2) an assessment of Federal science agency outreach activities to increase the participation and competitiveness of HBCUs, TCUs, and MSIs in the funding programs and initiatives identified in paragraph (1); and

(3) recommendations of the Comptroller General to increase the participation of and the rate of success of HBCUs, TCUs, and MSIs in competitive funding programs offered by Federal science agencies.

SEC. 10533. RESEARCH AND CAPACITY BUILDING.

(a) **IN GENERAL.**—The Director of the National Science Foundation shall award grants, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia thereof) to—

(1) conduct research described in subsection (b) with respect to HBCUs, TCUs, and MSIs;

(2) conduct activities described in subsection (c) to build the capacity of HBCUs, TCUs, and MSIs to graduate students who are competitive in attaining and advancing in the STEM workforce;

(3) build the research capacity and competitiveness of HBCUs, TCUs, and MSIs in STEM disciplines; and

(4) identify and broadly disseminate effective models for programs and practices at HBCUs, TCUs, and MSIs that promote the education and workforce preparation of minority students pursuing STEM studies and careers in which such students are underrepresented.

(b) **RESEARCH.**—Research described in this subsection is research on the contribution of HBCUs, TCUs, and MSIs to the education and training of underrepresented minority students in STEM fields and to the meeting of national STEM workforce needs, including—

(1) the diversity with respect to local context, cultural differences, and institutional structure among HBCUs, TCUs, and MSIs and any associated impact on education and research endeavors;

(2) effective practices at HBCUs, TCUs, and MSIs and associated outcomes on student recruitment, retention, and advancement in STEM fields, including the ability for students to compete for fellowships, employment, and advancement in the workforce;

(3) contributions made by HBCUs, TCUs, and MSIs to local, regional, and national workforces;

(4) the unique challenges and opportunities for HBCUs, TCUs, and MSIs in attaining the resources needed for integrating effective practices in STEM education, including providing research experiences for underrepresented minority students;

(5) the access of students at HBCUs, TCUs, and MSIs to STEM infrastructure and any associated outcomes for STEM competency;

(6) models of STEM curriculum, learning, and teaching successful at HBCUs, TCUs, and MSIs for increasing participation, retention, and success of underrepresented minority students; and

(7) successful or promising partnerships between HBCUs, TCUs, and MSIs and other institutions of higher education, private sector and

non-profit organizations, Federal laboratories, and international research institutions.

(c) **CAPACITY BUILDING.**—Activities described in this subsection include the design, development, implementation, expansion, and assessment of—

(1) metrics of success to best capture the achievements of HBCUs, TCUs, and MSIs and students of such institutions to account for institutional context and missions, faculty investment, student populations, student needs, and institutional resource constraints;

(2) enhancements to undergraduate STEM curriculum at HBCUs, TCUs, and MSIs to increase the participation, retention, degree completion, and success of underrepresented students;

(3) professional development programs to increase the numbers and the high-quality preparation of STEM faculty at HBCUs, TCUs, and MSIs, including programs to encourage STEM doctoral students to teach at HBCUs, TCUs, and MSIs; and

(4) mechanisms for institutions of higher education that are not HBCUs, TCUs, or MSIs to partner with HBCUs, TCUs, and MSIs on STEM education, including the facilitation of student transfer, mentoring programs for students and junior faculty, joint research projects, and student access to graduate education.

(d) **RESEARCH EXPERIENCES.**—Grants under this section may fund the development or expansion of opportunities for the exchange of students and faculty to conduct research, including through partnerships with institutions of higher education that are not HBCUs, TCUs, or MSIs, private sector and non-profit organizations, Federal laboratories, and international research institutions.

(e) **PARTNERSHIPS.**—In awarding grants under this section, the Director of the National Science Foundation shall—

(1) encourage HBCUs, TCUs, and MSIs and consortia thereof and partnerships with one or more HBCU, TCU, or MSI, to submit proposals;

(2) require proposals submitted in partnership with one or more HBCU, TCU, or MSI include a plan for establishing a sustained partnership that is jointly developed and managed, draws from the capacities of each institution, and is mutually beneficial; and

(3) encourage proposals submitted in partnership with the private sector, non-profit organizations, Federal laboratories, and international research institutions, as appropriate.

(f) **MSI CENTERS OF INNOVATION.**—Grants under this section may fund the establishment of no more than five MSI Centers of Innovation to leverage successes of HBCUs, TCUs, and MSIs in STEM education and research training of underrepresented minority students as models for other institutions, including both HBCUs, TCUs, and MSIs and institutions of higher education that are not HBCUs, TCUs, or MSIs. Such centers will be located on campuses of selected institutions of higher education and serve as incubators to allow institutions of higher education to experiment, pilot, evaluate, and scale up promising practices.

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Director of the National Science Foundation \$170,000,000 for fiscal year 2022, \$175,000,000 for fiscal year 2023, \$180,000,000 for fiscal year 2024, \$185,000,000 for fiscal year 2025, and \$190,000,000 for fiscal year 2026 to carry out this section.

SEC. 10534. AGENCY RESPONSIBILITIES.

(a) **IN GENERAL.**—In consultation with outside stakeholders and the heads of the Federal science agencies, the Director shall develop a uniform set of policy guidelines for Federal science agencies to carry out a sustained program of outreach activities to increase clarity, transparency, and accountability for Federal science agency investments in STEM education and research activities at HBCUs, TCUs, and MSIs.

(b) **OUTREACH ACTIVITIES.**—In developing policy guidelines under subsection (a) the Director shall include guidelines that require each Federal science agency—

(1) to designate a liaison for HBCUs, TCUs, and MSIs responsible for—

(A) enhancing direct communication with HBCUs, TCUs, and MSIs to increase the Federal science agency's understanding of the capacity and needs of such institutions and to raise awareness of available Federal funding opportunities at such institutions;

(B) coordinating programs, activities, and initiatives while accounting for the capacity and needs of HBCUs, TCUs, and MSIs;

(C) tracking Federal science agency investments in and engagement with HBCUs, TCUs, and MSIs; and

(D) reporting progress toward increasing participation of HBCUs, TCUs, and MSIs in grant programs;

(2) to publish annual forecasts of funding opportunities and proposal deadlines, including for grants, contracts, subcontracts, and cooperative agreements;

(3) to conduct on-site reviews of research facilities at HBCUs, TCUs, and MSIs, as practicable, and make recommendations regarding strategies for becoming more competitive in research;

(4) to hold geographically accessible or virtual workshops on research priorities of the Federal science agency and on how to write competitive grant proposals;

(5) to ensure opportunities for HBCUs, TCUs, and MSIs to directly communicate with Federal science agency officials responsible for managing competitive grant programs in order to receive feedback on research ideas and proposals, including guidance on the Federal science agency's peer review process;

(6) to foster mutually beneficial public-private collaboration among Federal science agencies, industry, Federal laboratories, academia, and nonprofit organizations to—

(A) identify alternative sources of funding for STEM education and research at HBCUs, TCUs, and MSIs;

(B) provide access to high-quality, relevant research experiences for students and faculty of HBCUs, TCUs, and MSIs;

(C) expand the professional networks of students and faculty of HBCUs, TCUs, and MSIs;

(D) broaden STEM educational opportunities for students and faculty of HBCUs, TCUs, and MSIs; and

(E) support the transition of students of HBCUs, TCUs, and MSIs into the STEM workforce; and

(7) to publish an annual report that provides an account of Federal science agency investments in HBCUs, TCUs, and MSIs, including data on the level of participation of HBCUs, TCUs, and MSIs as prime recipients/contractors or subrecipients/subcontractors.

(c) **STRATEGIC PLAN.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Director, in collaboration with the head of each Federal science agency, shall submit to Congress a report containing a strategic plan for each Federal science agency to increase the capacity of HBCUs, TCUs, and MSIs to compete effectively for grants, contracts, or cooperative agreements and to encourage HBCUs, TCUs, and MSIs to participate in Federal programs.

(2) **CONSIDERATIONS.**—In developing a strategic plan under paragraph (1), the Director and each head of each Federal science agency shall consider—

(A) issuing new or expanding existing funding opportunities targeted to HBCUs, TCUs, and MSIs;

(B) modifying existing research and development program solicitations to incentivize effective partnerships with HBCUs, TCUs, and MSIs;

(C) offering planning grants for HBCUs, TCUs, and MSIs to develop or equip grant of-

fices with the requisite depth of knowledge to submit competitive grant proposals and manage awarded grants;

(D) offering additional training programs and individualized and timely guidance to grant officers faculty and postdoctoral researchers at HBCUs, TCUs, and MSIs to ensure they understand the requirements for an effective grant proposal; and

(E) other approaches for making current competitive funding models more accessible for under-resourced HBCUs, TCUs, and MSIs.

(d) **REPORT TO CONGRESS.**—Not later than 2 years after the date of enactment of this Act, and every 5 years thereafter, the Director shall report to Congress on the implementation by Federal science agencies of the policy guidelines developed under this section.

SEC. 10535. DEFINITIONS.

In this subtitle:

(1) **DIRECTOR.**—The term “Director” means the Director of the Office of Science and Technology Policy.

(2) **FEDERAL LABORATORY.**—The term “Federal laboratory” has the meaning given such term in section 4 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703).

(3) **FEDERAL SCIENCE AGENCY.**—The term “Federal science agency” means any Federal agency with an annual extramural research expenditure of over \$100,000,000.

(4) **HBCU.**—The term “HBCU” has the meaning given the term “part B institution” in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(5) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given such term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(6) **MINORITY SERVING INSTITUTION.**—The term “minority serving institution” or “MSI” means Hispanic-Serving Institutions as defined in section 502 of the Higher Education Act of 1965 (20 U.S.C. 1101a); Alaska Native Serving Institutions and Native Hawaiian-Serving Institutions as defined in section 317 of the Higher Education Act of 1965 (20 U.S.C. 1059d); and Predominantly Black Institutions, Asian American and Native American Pacific Islander-Serving Institutions, and Native American-Serving Nontribal Institutions as defined in section 371 of the Higher Education Act of 1965 (20 U.S.C. 1067q(c)).

(7) **STEM.**—The term “STEM” has the meaning given the term in the STEM Education Act of 2015 (42 U.S.C. 1861 et seq.).

(8) **TCU.**—The term “TCU” has the meaning given the term “Tribal College or University” in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

Subtitle D—Combating Sexual Harassment in Science

SEC. 10541. FINDINGS.

Congress makes the following findings:

(1) According to the report issued by the National Academies of Sciences, Engineering, and Medicine in 2018 entitled “Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine”—

(A) sexual harassment is pervasive in institutions of higher education;

(B) the most common type of sexual harassment is gender harassment, which includes verbal and nonverbal behaviors that convey insulting, hostile, and degrading attitudes about members of one gender;

(C) 58 percent of individuals in the academic workplace experience sexual harassment, the second highest rate when compared to the military, the private sector, and Federal, State, and local government;

(D) women who are members of racial or ethnic minority groups are more likely to experience sexual harassment and to feel unsafe at work than White women, White men, or men who are members of such groups;

(E) the training for each individual who has a doctor of philosophy in the science, technology, engineering, and mathematics fields is estimated to cost approximately \$500,000; and

(F) attrition of an individual so trained results in a loss of talent and money.

(2) Sexual harassment undermines career advancement for women.

(3) According to a 2017 University of Illinois study, among astronomers and planetary scientists, 18 percent of women who are members of racial or ethnic minority groups and 12 percent of White women skipped professional events because they did not feel safe attending.

(4) Many women report leaving employment at institutions of higher education due to sexual harassment.

(5) Research shows the majority of individuals do not formally report experiences of sexual harassment due to a justified fear of retaliation or other negative professional or personal consequences.

(6) Reporting procedures with respect to such harassment are inconsistent among Federal science agencies and have varying degrees of accessibility.

(7) There is not adequate communication among Federal science agencies and between such agencies and grantees regarding reports of sexual harassment, which has resulted in harassers receiving Federal funding after moving to a different institution.

SEC. 10542. DEFINITIONS.

In this subtitle:

(1) **ACADEMIES.**—The term “Academies” means the National Academies of Sciences, Engineering, and Medicine.

(2) **DIRECTOR.**—The term “Director” means the Director of the National Science Foundation.

(3) **FEDERAL SCIENCE AGENCY.**—The term “Federal science agency” means any Federal agency with an annual extramural research expenditure of over \$100,000,000.

(4) **FINDING OR DETERMINATION.**—The term “finding or determination” means the final disposition of a matter involving a violation of organizational policies and processes, to include the exhaustion of permissible appeals, or a conviction of a sexual offense in a criminal court of law.

(5) **GENDER HARASSMENT.**—The term “gender harassment” means verbal and nonverbal behaviors that convey hostility, objectification, exclusion, or second-class status about one’s gender, gender identity, gender presentation, sexual orientation, or pregnancy status.

(6) **GRANTEE.**—The term “grantee” means the legal entity to which a grant is awarded and that is accountable to the Federal Government for the use of the funds provided.

(7) **GRANT PERSONNEL.**—The term “grant personnel” means principal investigators, co-principal investigators, postdoctoral researchers and other employees supported by a grant award, cooperative agreement, or contract under Federal law.

(8) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given such term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(9) **SEXUAL HARASSMENT.**—The term “sexual harassment” means conduct that encompasses—

(A) unwelcome sexual advances;

(B) unwanted physical contact that is sexual in nature, including assault;

(C) unwanted sexual attention, including sexual comments and propositions for sexual activity;

(D) conditioning professional or educational benefits on sexual activity; and

(E) retaliation for rejecting unwanted sexual attention.

(10) **STEM.**—The term “STEM” means science, technology, engineering, and mathematics, including computer science.

SEC. 10543. RESEARCH GRANTS.

(a) **IN GENERAL.**—The Director shall establish a program to award grants, on a competitive

basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations)—

(1) to expand research efforts to better understand the factors contributing to, and consequences of, sexual harassment and gender harassment affecting individuals in the STEM workforce, including students and trainees; and

(2) to examine interventions to reduce the incidence and negative consequences of such harassment.

(b) **USE OF FUNDS.**—Activities funded by a grant under this section may include—

(1) research on the sexual harassment and gender harassment experiences of individuals in underrepresented or vulnerable groups, including racial and ethnic minority groups, disabled individuals, foreign nationals, sexual- and gender-minority individuals, and others;

(2) development and assessment of policies, procedures, trainings, and interventions, with respect to sexual harassment and gender harassment, conflict management, and ways to foster respectful and inclusive climates;

(3) research on approaches for remediating the negative impacts and outcomes of such harassment on individuals experiencing such harassment;

(4) support for institutions of higher education to develop, adapt, and assess the impact of innovative, evidence-based strategies, policies, and approaches to policy implementation to prevent and address sexual harassment and gender harassment;

(5) research on alternatives to the hierarchical and dependent relationships, including but not limited to the mentor-mentee relationship, in academia that have been shown to create higher levels of risk for sexual harassment and gender harassment; and

(6) establishing a center for the ongoing compilation, management, and analysis of campus climate survey data.

SEC. 10544. DATA COLLECTION.

Not later than 180 days after the date of enactment of this Act, the Director shall convene a working group composed of representatives of Federal statistical agencies—

(1) to develop questions on sexual harassment and gender harassment in STEM departments to gather national data on the prevalence, nature, and implications of sexual harassment and gender harassment in institutions of higher education; and

(2) to include such questions as appropriate, with sufficient protections of the privacy of respondents, in relevant surveys conducted by the National Center for Science and Engineering Statistics and other relevant entities.

SEC. 10545. RESPONSIBLE CONDUCT GUIDE.

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Director shall enter into an agreement with the Academies to update the report entitled “On Being a Scientist: A Guide to Responsible Conduct in Research” issued by the Academies. The report, as so updated, shall include—

(1) updated professional standards of conduct in research;

(2) standards of treatment individuals can expect to receive under such updated standards of conduct;

(3) evidence-based practices for fostering a climate intolerant of sexual harassment and gender harassment;

(4) methods, including bystander intervention, for identifying and addressing incidents of sexual harassment and gender harassment; and

(5) professional standards for mentorship and teaching with an emphasis on preventing sexual harassment and gender harassment.

(b) **RECOMMENDATIONS.**—In updating the report under subsection (a), the Academies shall take into account recommendations made in the report issued by the Academies in 2018 entitled “Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences,

Engineering, and Medicine” and other relevant studies and evidence.

(c) **REPORT.**—Not later than 18 months after the effective date of the contract under subsection (a), the Academies, as part of such agreement, shall submit to the Director and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate the report referred to in such subsection, as updated pursuant to such subsection.

SEC. 10546. INTERAGENCY WORKING GROUP.

(a) **IN GENERAL.**—The Director of the Office of Science and Technology Policy, acting through the National Science and Technology Council, shall establish an interagency working group for the purpose of coordinating Federal science agency efforts to reduce the prevalence of sexual harassment and gender harassment involving grant personnel. The working group shall be chaired by the Director of the Office of Science and Technology Policy (or the Director’s designee) and shall include a representative from each Federal science agency with annual extramural research expenditures totaling over \$1,000,000,000, a representative from the Department of Education, and a representative from the U.S. Equal Employment Opportunity Commission.

(b) **RESPONSIBILITIES OF WORKING GROUP.**—The interagency working group established under subsection (a) shall coordinate Federal science agency efforts to implement the policy guidelines developed under subsection (c)(2).

(c) **RESPONSIBILITIES OF OSTP.**—The Director of the Office of Science and Technology Policy shall—

(1) not later than 90 days after the date of the enactment of this Act, submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate an inventory of policies, procedures, and resources dedicated to preventing and responding to reports of sexual harassment and gender harassment at Federal agencies that provide legal definitions to which institutions of higher education must comply; and

(2) not later than 6 months after the date on which the inventory is submitted under paragraph (1)—

(A) in consultation with outside stakeholders and Federal science agencies, develop a uniform set of policy guidelines for Federal science agencies; and

(B) submit a report to the committees referred to in paragraph (1) containing such guidelines;

(3) encourage and monitor efforts of Federal science agencies to develop or maintain and implement policies based on the guidelines developed under paragraph (2), including the extent to which Federal science agency policies depart from the uniform policy guidelines;

(4) not later than 1 year after the date on which the inventory under paragraph (1) is submitted, and every 5 years thereafter, the Director of the Office of Science and Technology Policy shall report to Congress on the implementation by Federal science agencies of the policy guidelines developed under paragraph (2); and

(5) update such policy guidelines as needed.

(d) **REQUIREMENTS.**—In developing policy guidelines under subsection (c)(2), the Director of the Office of Science and Technology Policy shall include guidelines that require—

(1) grantees to submit to the Federal science agency or agencies from which the grantees receive funding reports relating to—

(A) administrative action, related to an allegation against grant personnel of any sexual harassment or gender harassment, as set forth in organizational policies or codes of conduct, statutes, regulations, or executive orders, that affects the ability of grant personnel or their trainees to carry out the activities of the grant; and

(B) findings or determinations against grant personnel of sexual harassment or gender harassment, as set forth in organizational policies

or codes of conduct, statutes, regulations, or executive orders, including any findings or determinations related to reports submitted under subparagraph (A) and any disciplinary action that was taken;

(2) the sharing, updating, and archiving of reports of sexual harassment and gender harassment from grantees submitted under paragraph (1)(B) with relevant Federal science agencies on a quarterly basis; and

(3) to the extent practicable, ensure consistency among Federal agencies with regards to the policies and procedures for receiving reports submitted pursuant to paragraph (1), which may include the designation of a single agency to field reports so submitted.

(e) **CONSIDERATIONS.**—In developing policy guidelines under subsection (c)(2), the Director of the Office of Science and Technology Policy shall consider guidelines that require or incentivize—

(1) grantees to periodically assess their organizational climate, which may include the use of climate surveys, focus groups, or exit interviews;

(2) grantees to publish on a publicly available internet website the results of assessments conducted pursuant to paragraph (1), disaggregated by gender and, if possible, race, ethnicity, disability status, and sexual orientation;

(3) grantees to make public on an annual basis the number of reports of sexual harassment and gender harassment at each such institution;

(4) grantees to regularly assess and improve policies, procedures, and interventions to reduce the prevalence of sexual harassment and gender harassment;

(5) each grantee to demonstrate in its proposal for a grant award, cooperative agreement, or contract that a code of conduct is in place for maintaining a healthy and welcoming workplace for grant personnel and their trainees;

(6) the diffusion of the hierarchical and dependent relationships between grant personnel and their trainees;

(7) each grantee and Federal science agency to have in place mechanisms for the re-integration of individuals who have experienced sexual harassment and gender harassment; and

(8) grantees to work to create a climate intolerant of sexual harassment and gender harassment.

(f) **FEDERAL SCIENCE AGENCY IMPLEMENTATION.**—Each Federal science agency shall—

(1) develop or maintain and implement policies with respect to sexual harassment and gender harassment that are consistent with policy guidelines under subsection (c)(2) and that protect the privacy of all parties involved in any report and investigation of sexual harassment and gender harassment, except to the extent necessary to carry out an investigation; and

(2) broadly disseminate such policies to current and potential recipients of research grants, cooperative agreements, or contracts awarded by such agency.

(g) **FERPA.**—The Director of the Office of Science and Technology Policy shall ensure that such guidelines and requirements are consistent with the requirements of section 444 of the General Education Provisions Act (20 U.S.C. 1232g) (commonly referred to as the “Family Educational Rights and Privacy Act of 1974”).

(h) **SUNSET.**—The interagency working group established under subsection (a) shall terminate on the date that is 7 years after the date of the enactment of this Act.

SEC. 10547. NATIONAL ACADEMIES ASSESSMENT.

(a) **IN GENERAL.**—Not later than 3 years after the date of enactment of this Act, the Director shall enter into an agreement with the Academies to undertake a study of the influence of sexual harassment and gender harassment in institutions of higher education on the career advancement of individuals in the STEM workforce. The study shall assess—

(1) the state of research on sexual harassment and gender harassment in such workforce;

(2) whether research demonstrates a change in the prevalence of sexual harassment and gender harassment in such workforce;

(3) the progress made with respect to implementing recommendations promulgated in the Academies consensus study report entitled “Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine”; and

(4) where to focus future efforts with respect to decreasing sexual harassment and gender harassment in such institutions.

SEC. 10548. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Director to carry out this subtitle, \$17,500,000.

TITLE VI—MISCELLANEOUS SCIENCE AND TECHNOLOGY PROVISIONS

Subtitle A—Supporting Early-Career Researchers

SEC. 10601. FINDINGS.

Congress finds the following:

(1) The Nation’s universities and industrial research labs are facing unprecedented budget pressure as part of the COVID-19 health crisis, resulting in considerably fewer openings for research and teaching positions.

(2) Emergency funding is needed to forestall the loss of research talent likely to occur if early-career researchers are forced to seek employment outside of research due to the sharp economic decline caused by the COVID-19 health crisis.

(3) The future of America’s defense will rely on advanced technologies to maintain its military superiority over its rivals, including China. These technologies will require new levels of scientific and engineering aptitude and understanding. Early career researchers will play a critical role in the development of these technologies, and the loss of an entire generation of researchers due to the COVID-19 pandemic will be detrimental to the United States national security.

SEC. 10602. EARLY-CAREER RESEARCH FELLOWSHIP PROGRAM.

(a) **IN GENERAL.**—The Director of the National Science Foundation may establish a 2-year pilot program to award grants to highly qualified early-career investigators to carry out an independent research program at the qualified institution of higher education chosen by such investigator, to last for a period not greater than 2 years.

(b) **SELECTION PROCESS.**—The Director of the National Science Foundation shall select grantees under subsection (a) from among citizens, nationals, and lawfully admitted permanent resident aliens of the United States.

(c) **OUTREACH.**—The Director shall conduct program outreach to recruit fellowship applicants—

(1) from all regions of the country;

(2) from historically underrepresented populations in the fields of science, technology, engineering, and mathematics; and

(3) who graduate from or intend to carry out research at a variety of types of institutions of higher education, including—

(A) Historically Black Colleges and Universities;

(B) Hispanic-Serving Institutions;

(C) Tribal Colleges and Universities; and

(D) institutions of higher education that are not among the top 50 institutions in annual Federal funding for research.

(d) **SPECIAL CONSIDERATION.**—The Director shall give special consideration to an application from an individual who graduated from or is intending to carry out research at an institution of the type listed in subsection (c)(3).

(e) **REPORT.**—Not later than 90 days after the conclusion of the second year of the pilot program, the Director shall submit a report to Congress that includes—

(1) statistical summary data on fellowship awardees disaggregated by race, ethnicity, gender, age, years since completion of doctoral degree, and institution type;

(2) an assessment, drawing on feedback from the research community and other sources of information, of the effectiveness of the pilot program for mitigating the loss of research talent due to the pandemic; and

(3) if determined effective, a plan for permanent implementation of the pilot program.

(f) **QUALIFIED INSTITUTION OF HIGHER EDUCATION DEFINED.**—The term “qualified institution of higher education” has the meaning given the term in section 102 of the Higher Education Act of 1965, except that such term does not include an institution described in subsection (a)(1)(C) of such section.

SEC. 10603. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Director of the National Science Foundation \$250,000,000 for each of fiscal years 2021 through 2022 to carry out the activities in this subtitle.

Subtitle B—National Science and Technology Strategy

SEC. 10611. NATIONAL SCIENCE AND TECHNOLOGY STRATEGY.

Section 206 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6615) is amended to read as follows:

“SEC. 206. NATIONAL SCIENCE AND TECHNOLOGY STRATEGY.

“(a) **IN GENERAL.**—Not later than the end of each calendar year immediately after the calendar year in which a review under section 206b is completed, the Director of the Office of Science and Technology Policy, in consultation with the National Science and Technology Council, shall develop and submit to Congress a comprehensive national science and technology strategy of the United States to meet national research and development objectives for the following 4-year period (in this Act referred to as ‘the national science and technology strategy’).”

“(b) **REQUIREMENTS.**—Each national science and technology strategy required by subsection (a) shall delineate a national science and technology strategy consistent with—

“(1) the recommendations and priorities developed by the review established in section 206b;

“(2) the most recent national security strategy report submitted pursuant to section 1032 of the National Defense Authorization Act for Fiscal Year 2012 (50 U.S.C. 3043);

“(3) other relevant national plans; and

“(4) the strategic plans of relevant Federal departments and agencies.”

“(c) **CONSULTATION.**—The Director shall consult as necessary with the Office of Management and Budget and other appropriate elements of the Executive Office of the President to ensure that the recommendations and priorities delineated in the science and technology strategy are incorporated in the development of annual budget requests.

“(d) **REPORT.**—The President shall submit to Congress each year a comprehensive report on the national science and technology strategy of the United States. Each report on the national science and technology strategy of the United States shall include a description of—

“(1) strategic objectives and priorities necessary to maintain the leadership of the United States in science and technology and to advance science and technology to address societal and national challenges, including near-term, medium-term, and long-term research priorities;

“(2) programs, policies, and activities that the President recommends across all Federal agencies to achieve the strategic objectives in paragraph (1); and

“(3) global trends in science and technology, including potential threats to the leadership of the United States in science and technology and opportunities for international collaboration in science and technology.”

“(e) PUBLICATION.—The Director shall, consistent with the protection of national security and other sensitive matters to the maximum extent practicable, make each report submitted under subsection (d) publicly available on an internet website of the Office.”.

SEC. 10612. QUADRENNIAL SCIENCE AND TECHNOLOGY REVIEW.

The National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6601 et seq.) is amended by inserting after section 206 the following:

“SEC. 206b. QUADRENNIAL SCIENCE AND TECHNOLOGY REVIEW.

“(a) REQUIREMENTS.—

“(1) QUADRENNIAL REVIEWS REQUIRED.—Not later than December 31, 2022, and every 4 years thereafter, the Director of the Office of Science and Technology Policy shall complete a review of the science and technology enterprise of the United States (in this section referred to as the ‘quadrennial science and technology review’).

“(2) SCOPE.—The quadrennial science and technology review shall be a comprehensive examination of the science and technology strategy of the United States, including recommendations for maintaining global leadership in science and technology and advancing science and technology to address the societal and national challenges and guidance on the coordination of programs, assets, capabilities, budget, policies, and authorities across all Federal research and development programs.

“(3) CONSULTATION.—The Director of the Office of Science and Technology Policy shall conduct each quadrennial science and technology review under this subsection in consultation with—

“(A) the National Science and Technology Council;

“(B) the heads of other relevant Federal agencies;

“(C) the President’s Council of Advisors on Science and Technology;

“(D) the National Science Board;

“(E) the National Security Council; and

“(F) other relevant governmental and non-governmental entities, including representatives from industry, institutions of higher education, nonprofit organizations, Members of Congress, and other policy experts.

“(4) COORDINATION.—The Director shall ensure that each quadrennial science and technology review conducted under this section is coordinated with other relevant statutorily required reviews, and to the maximum extent practicable incorporates information and recommendations from existing reviews to avoid duplication.

“(b) CONTENTS.—In each quadrennial science and technology review, the Director shall—

“(1) provide an integrated view of, and recommendations for, science and technology policy across the Federal Government, while considering economic and national security and other societal and national challenges;

“(2) assess and recommend priorities for research, development and demonstration programs to maintain American leadership in science and technology;

“(3) assess and recommend priorities for research, development, and demonstration programs to address societal and national challenges;

“(4) assess the global competition in science and technology and identify potential threats to the leadership of the United States in science and technology and opportunities for international collaboration;

“(5) assess and make recommendations on the science, technology, engineering, mathematics and computer science workforce in the United States;

“(6) assess and make recommendations to improve regional innovation across the United States;

“(7) assess and make recommendations to improve translation of basic research and the en-

hancement of technology transfer of federally funded research;

“(8) assess and identify the infrastructure and tools needed to maintain the leadership of the United States in science and technology and address other societal and national challenges; and

“(9) review administrative or legislative policies that affect the science and technology enterprise and identify and make recommendations on policies that hinder research and development in the United States.

“(c) REPORTING.—

“(1) IN GENERAL.—Not later than December 31 of the year in which a quadrennial science and technology review is conducted, the Director shall submit a report of the review to Congress.

“(2) PUBLICATION.—The Director shall, consistent with the protection of national security and other sensitive matters to the maximum extent possible, make each report submitted under paragraph (1) publicly available on an internet website of the Office of Science and Technology Policy.”.

Subtitle C—Energizing Technology Transfer

SEC. 10621. DEFINITIONS.

In this subtitle:

(1) CLEAN ENERGY TECHNOLOGY.—The term “clean energy technology” means a technology that significantly reduces energy use, increases energy efficiency, reduces greenhouse gas emissions, reduces emissions of other pollutants, or mitigates other negative environmental consequences of energy production, transmission or use.

(2) DEPARTMENT.—The term “Department” means the Department of Energy.

(3) DIRECTOR.—The term “Director” means the Director of each National Laboratory and the Director of each Department of Energy single-purpose research facility.

(4) ECONOMICALLY DISTRESSED AREA.—The term “economically distressed area” has the meaning described in section 301(a) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3161(a)).

(5) GRANT.—The term “grant” means a grant award, cooperative agreement award, or any other financial assistance arrangement that the Secretary of Energy determines to be appropriate.

(6) INSTITUTION OF HIGHER EDUCATION.—The term “institution of higher education” has the meaning given such term in the Higher Education Act of 1965, as amended (20 U.S.C. 1001).

(7) NATIONAL LABORATORY.—The term “National Laboratory” has the meaning given that term in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801).

(8) SECRETARY.—The term “Secretary” means the Secretary of Energy.

PART 1—NATIONAL CLEAN ENERGY TECHNOLOGY TRANSFER PROGRAMS

SEC. 10623. NATIONAL CLEAN ENERGY INCUBATOR PROGRAM.

(a) CLEAN ENERGY INCUBATOR DEFINED.—In this section, the term “clean energy incubator”—

(1) means any entity that is designed to accelerate the commercial application of clean energy technologies by providing—

(A) physical workspace, labs, and prototyping facilities to support clean energy startups or established clean energy companies; or

(B) companies developing such technologies with support, resources, and services, including—

(i) access to business education and counseling;

(ii) mentorship opportunities; and

(iii) other services rendered for the purpose of aiding the development and commercial application of a clean energy technology; and

(2) may include a program within or established by a National Laboratory, an institution of higher education or a State, territorial, local, or tribal government.

(b) PROGRAM ESTABLISHMENT.—Not later than 180 days after the enactment of this Act, the Secretary, acting through the Chief Commercialization Officer established in section 1001(a) of the Energy Policy Act of 2005 (42 U.S.C. 16391(a)), shall establish a Clean Energy Incubator Program (herein referred to as the “program”) to competitively award grants to clean energy incubators.

(c) CLEAN ENERGY INCUBATOR SELECTION.—In awarding grants to clean energy incubators under subsection (b), the Secretary shall, to the maximum extent practicable, prioritize funding clean energy incubators that—

(1) partner with entities that carry out activities relevant to the activities of such incubator and that operate at the local, State, and regional levels;

(2) support the commercial application activities of startup companies focused on physical hardware, computational, or integrated hardware and software technologies;

(3) are located in geographically diverse regions of the United States;

(4) are located in, or partner with entities located in, economically-distressed areas;

(5) support the development of entities focused on expanding clean energy tools and technologies to rural, Tribal, and low-income communities;

(6) support the commercial application of technologies being developed by clean energy entrepreneurs from underrepresented backgrounds; and

(7) have a plan for sustaining activities of the incubator after grant funds received under this program have been expended.

(d) AWARD LIMITS.—The Secretary shall not award more than \$4,000,000 to one or more incubators in one given State, per fiscal year.

(e) DURATION.—Each grant under subsection (b) shall be for a period of no longer than 5 years, subject to the availability of appropriations.

(f) USE OF FUNDS.—An entity receiving a grant under this section may use grant amounts for operating expenses.

(g) RENEWAL.—An award made to a clean energy incubator under this section may be renewed for a period of not more than 3 years, subject to merit review.

(h) EVALUATION.—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation of the program established under this section that includes analyses of the performance of the clean energy incubators.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section \$15,000,000 for each of fiscal years 2022 through 2026.

SEC. 10624. CLEAN ENERGY TECHNOLOGY UNIVERSITY PRIZE COMPETITION.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term “eligible entity” means a nonprofit entity, an institution of higher education, or an entity working with one or more institutes of higher education.

(2) MINORITY-SERVING INSTITUTION.—The term “minority-serving institution” means an institution described in section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

(b) IN GENERAL.—The Secretary shall establish a program, known as the “Clean Energy Technology University Prize”, to award funding for eligible entities to carry out regional and one national clean energy technology prize competitions, under section 24 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3719). In carrying out such prize competitions, students shall compete to develop a business model for furthering the commercial application of an innovative clean energy technology.

(c) TRAINING FUNDING.—In carrying out this program, the Secretary may provide funding to

train participating students in skills needed for the successful commercial application of clean energy technologies, including through virtual training sessions.

(d) **PRIORITIZATION.**—In awarding grants under this section, the Secretary shall prioritize awarding grants to eligible entities that work with students at minority-serving institutions.

(e) **COORDINATION.**—In carrying out this program, the Secretary shall coordinate and partner with other clean energy technology prize competitions. In doing so, the Secretary may develop and disseminate best practices for administering prize competitions under this section.

(f) **REPORT.**—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall report annually on the progress and implementation of the program established under section (b).

(g) **EVALUATION.**—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the long-term outcomes of the program established under this section and the progress towards achieving the purposes of the program in subsection (b).

(h) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities authorized in this section \$1,000,000 for each of fiscal years 2022 through 2026.

SEC. 10625. CLEAN ENERGY TECHNOLOGY TRANSFER COORDINATION.

(a) **IN GENERAL.**—The Secretary, acting through the Chief Commercialization Officer established in section 1001 (a) of the Energy Policy Act of 2005 (42 U.S.C. 16391 (a)), shall support the coordination of relevant technology transfer programs that advance the commercial application of clean energy technologies nationally and across all energy sectors. In particular, the Secretary may support activities to—

(1) facilitate the sharing of information on best practices for successful operation of clean energy technology transfer programs;

(2) coordinate resources and improve cooperation among clean energy technology transfer programs;

(3) facilitate connections between entrepreneurs and start-up companies and the variety of programs related to clean energy technology transfer under the Department; and

(4) facilitate the development of metrics to measure the impact of clean energy technology transfer programs on—

(A) advancing the development, demonstration, and commercial application of clean energy technologies;

(B) increasing the competitiveness of United States in the clean energy sector, including in manufacturing; and

(C) commercial application of clean energy technologies being developed by entrepreneurs from under-represented backgrounds.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities in this section \$3,000,000 for each of fiscal years 2022 through 2026.

PART 2—SUPPORTING TECHNOLOGY DEVELOPMENT AT THE NATIONAL LABORATORIES

SEC. 10626. LAB PARTNERING SERVICE PILOT PROGRAM.

Section 9002 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260) is amended by adding at the end the following:

“(h) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary \$2,000,000 for each of fiscal years 2022 through 2024 to carry out subsections (a), (b), and (c), and \$1,700,000 for each of fiscal years

2022 through 2024 for National Laboratory employees to provide services under subsection (d).”

SEC. 10627. LAB-EMBEDDED ENTREPRENEURSHIP PROGRAM.

(a) **IN GENERAL.**—The Secretary shall competitively award grants to National Laboratories for the purpose of establishing or supporting Lab-Embedded Entrepreneurship Programs.

(b) **PURPOSES.**—The purposes of such programs are to provide entrepreneurial fellows with access to National Laboratory research facilities, National Laboratory expertise, and mentorship to perform research and development and gain expertise that may be required or beneficial for the commercial application of research ideas.

(c) **ENTREPRENEURIAL FELLOWS.**—An entrepreneurial fellow participating in a program described in subsection (a) shall be provided with—

(1) opportunities for entrepreneurial training, professional development, and exposure to leaders from academia, industry, government, and finance who may serve as advisors to or partners of the fellow;

(2) financial and technical support for research, development, and commercial application activities;

(3) fellowship awards to cover costs of living, health insurance, and travel stipends for the duration of the fellowship; and

(4) any other resources determined appropriate by the Secretary.

(d) **PROGRAM ACTIVITIES.**—Each National Laboratory that receives funding under this section shall support entrepreneurial fellows by providing—

(1) access to facilities and expertise within the National Laboratory;

(2) engagement with external stakeholders; and

(3) market and customer development opportunities.

(e) **ADMINISTRATION.**—National Laboratories that receive grants under this section shall prioritize the support and success of the entrepreneurial fellow with regards to professional development and development of a relevant technology.

(f) **PARTNERSHIPS.**—In carrying out a Lab-Embedded Entrepreneurship Program, a National Laboratory may partner with an external entity, including—

(1) a nonprofit organization;

(2) an institution of higher education;

(3) a federally-owned corporation; or

(4) a consortium of 2 or more entities described in paragraphs (1) through (3).

(g) **METRICS.**—The Secretary shall support the development of short-term and long-term metrics to assess the effectiveness of programs receiving a grant under subsection (a) in achieving the purposes of the program in subsection (a).

(h) **EVALUATION.**—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), not later than 3 years after the date of the enactment of this Act, and every 3 years thereafter, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation of the effectiveness of the programs under subsection (a) based on the metrics developed pursuant to subsection (g).

(i) **COORDINATION.**—The Secretary shall oversee the planning and coordination of grants under subsection (a) and shall identify and disseminate best practices for achieving the purposes of subsection (a) to National Laboratories that receive grants under this section.

(j) **INTERAGENCY COLLABORATION.**—The Secretary shall collaborate with other executive branch agencies, including the Department of Defense and other agencies with Federal laboratories, regarding opportunities to partner with National Laboratories receiving a grant under subsection (a).

(k) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the activities authorized in this section \$25,000,000 for each of fiscal years 2022 through 2026.

SEC. 10628. SMALL BUSINESS VOUCHER PROGRAM.

Section 1003 of the Energy Policy Act of 2005 (42 U.S.C. 16393) is amended—

(1) in subsection (a)—

(A) in the matter preceding paragraph (1), by striking “, and may require the Director of a single-purpose research facility,” and inserting “(as defined in section 2) and the Director of each single-purpose research facility”;

(B) in paragraph (1)—

(i) by striking “increase” and inserting “encourage”; and

(ii) by striking “collaborative research,” and inserting “research, development, demonstration, and commercial application activities, including product development,”;

(C) in paragraph (2), by striking “procurement and collaborative research” and inserting “the activities described in paragraph (1)”;

(D) in paragraph (3)—

(i) by inserting “facilities,” before “training”; and

(ii) by striking “procurement and collaborative research activities” and inserting “the activities described in paragraph (1)”;

(E) in paragraph (5), by striking “for the program under subsection (b)” and inserting “and metrics for the programs under subsections (b) and (c)”;

(2) by redesignating subsections (c) and (d) as subsections (d) and (e), respectively;

(3) by inserting after subsection (b) the following:

“(c) **SMALL BUSINESS VOUCHER PROGRAM.**—

“(1) **DEFINITIONS.**—In this subsection:

“(A) **DIRECTOR.**—The term ‘Director’ means—

“(i) the Director of each National Laboratory; and

“(ii) the Director of each single-purpose research facility.

“(B) **NATIONAL LABORATORY.**—The term ‘National Laboratory’ has the meaning given the term in section 2.

“(C) **PROGRAM.**—The term ‘program’ means the program established under paragraph (2).

“(D) **SMALL BUSINESS CONCERN.**—The term ‘small business concern’ has the meaning given such term in section 3 of the Small Business Act (15 U.S.C. 632).

“(2) **ESTABLISHMENT.**—The Secretary, acting through the Chief Commercialization Officer appointed under section 1001(a), and in consultation with the Directors, shall establish a program to provide small business concerns with vouchers under paragraph (3)—

“(A) to achieve the goal described in subsection (a)(1); and

“(B) to improve the products, services, and capabilities of small business concerns in the mission space of the Department.

“(3) **VOUCHERS.**—Under the program, the Directors are authorized to provide to small business concerns vouchers to be used at National Laboratories and single-purpose research facilities for—

“(A) research, development, demonstration, technology transfer, or commercial application activities; or

“(B) any other activities that the applicable Director determines appropriate.

“(4) **EXPEDITED APPROVAL.**—The Secretary, working with the Directors, shall establish a stream-lined approval process for financial assistance agreements signed between—

“(A) small business concerns selected to receive a voucher under the program; and

“(B) the National Laboratories and single-purpose research facilities.

“(5) **COST-SHARING REQUIREMENT.**—In carrying out the program, the Secretary shall require cost-sharing in accordance with section 988.

“(6) REPORT.—In accordance with section 9007 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall report annually on the progress and implementation of the small business voucher program established under this section, including the number and locations of small businesses that received grants under this program.”; and

(4) in subsection (e) (as so redesignated), by striking “for activities under this section” and inserting “for activities under subsection (b)” and inserting before the period at the end “and for activities under subsection (c) \$25,000,000 for each of fiscal years 2022 through 2026”.

SEC. 10629. ENTREPRENEURIAL LEAVE PROGRAM.

(a) IN GENERAL.—The Secretary shall delegate to Directors the authority to carry out an entrepreneurial leave program (referred to in this section as the “program”) to allow National Laboratory employees to take a full leave of absence from their position, with the option to return to that or a comparable position up to 3 years later, or a partial leave of absence, to advance the commercial application of energy and related technologies relevant to the mission of the Department.

(b) TERMINATION AUTHORITY.—Directors shall retain the authority to terminate National Laboratory employees that participate in the program if such employees are found to violate terms prescribed by the National Laboratory at which such employee is employed.

(c) LICENSING.—To reduce barriers to participation in the program, the Secretary shall delegate to the Directors the requirement to establish streamlined mechanisms for facilitating the licensing of technology that is the focus of National Laboratory employees who participate in the program.

(d) REPORT.—In accordance with section 9007 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall report annually on the utilization of this authority at National Laboratories, including the number of employees who participate in this program at each National Laboratory and the number of employees who take a permanent leave from their positions at National Laboratories as a result of participating in this program.

(e) FEDERAL ETHICS.—Nothing in this section shall affect existing Federal ethics rules applicable to Federal personnel.

SEC. 10630. NATIONAL LABORATORY NON-FEDERAL EMPLOYEE OUTSIDE EMPLOYMENT AUTHORITY.

(a) IN GENERAL.—The Secretary shall delegate to Directors of National Laboratories the authority to allow their non-Federal employees—

(1) to engage in outside employment, including start-up companies based on licensing technologies developed at National Laboratories and consulting in their areas of expertise, and receive compensation from such entities; and

(2) to engage in outside activities related to their areas of expertise at the National Laboratory and may allow employees, in their employment capacity at such outside employment, to access the National Laboratories under the same contracting mechanisms as non-Laboratory employees and entities, in accordance with appropriate conflict of interest protocols.

(b) REQUIREMENTS.—If a Director elects to use the authority granted by subsection (a) of this section, the Director, or their designee, shall—

(1) require employees to disclose to and obtain approval from the Director or their designee prior to engaging in any outside employment;

(2) develop and require appropriate conflict of interest protocols for employees that engage in outside employment;

(3) maintain the authority to terminate employees engaging in outside employment if they are found to violate terms, including conflict of interest protocols, mandated by the Director; and

(4) ensure that any such programs or activities are in conformance with the Department’s research security policies, including DOE Order 486.1.

(c) ADDITIONAL RESTRICTIONS.—Employees engaging in outside employment may not—

(1) allow such activities to interfere with or impede their duties at the National Laboratory;

(2) engage in activities related to outside employment using National Laboratory government equipment, property, or resources, unless such activities are performed under National Laboratory contracting mechanisms, such as Cooperative Research and Development Agreements or Strategic Partnership Projects, whereby all conflicts of interest requirements apply; or

(3) use their position at a National Laboratory to provide an unfair competitive advantage to an outside employer or start-up activity.

(d) FEDERAL ETHICS.—Nothing in this section shall affect existing Federal ethics rules applicable to Federal personnel.

PART 3—DEPARTMENT OF ENERGY MODERNIZATION

SEC. 10632. OFFICE OF TECHNOLOGY TRANSITIONS.

Section 1001(a) of the Energy Policy Act of 2005 (42 U.S.C. 16391) is amended by adding at the end the following:

“(6) HIRING AND MANAGEMENT.—To carry out the program authorized in this section, the Under Secretary for Science may appoint personnel using the authorities in section 10636 of the America COMPETES Act of 2022.

“(7) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out the activities authorized in this section \$20,000,000 for each of fiscal years 2022 through 2026.”.

SEC. 10633. MANAGEMENT OF DEMONSTRATION PROJECTS.

(a) MANAGEMENT OF DEPARTMENT OF ENERGY DEMONSTRATION PROJECTS.—The Secretary, shall establish a program to conduct project management and oversight of demonstration projects that receive or are eligible to receive funding from the Department, in coordination with relevant staff from Department program offices, including the Office of Technology Transitions, the Loan Program Office, and all applied program offices. The purposes of this program are to—

(1) conduct evaluation of demonstration project proposals prior to selection of a project for funding;

(2) conduct independent oversight of the execution of a demonstration project once funding has been awarded for such project; and

(3) ensure a balanced portfolio of investments in clean energy technology demonstration projects.

(b) DEMONSTRATION PROJECT MANAGEMENT EMPLOYEES.—

(1) AUTHORITY.—In carrying out the program under subsection (a), the Under Secretary for Science shall appoint at least 4 full time employees to achieve the purposes of the program outlined in subsection (a) in coordination with relevant staff at Department program offices.

(2) HIRING AUTHORITY.—To carry out the program authorized in this section, the Under Secretary for Science may hire personnel using the authorities in section 10636 of this subtitle.

(c) DUTIES.—In carrying out the program in subsection (a), employees under this section shall work with relevant staff from Department program offices to—

(1) evaluate demonstration project proposals, including the scope, technical specifications, maturity of design, funding profile, estimated costs, proposed schedule, proposed technical and financial milestones, and potential for commercial success based on economic and policy projections;

(2) develop independent cost estimates of demonstration project proposals, when appropriate;

(3) recommend to the director of a program office whether to fund a demonstration project proposal;

(4) oversee the execution of the demonstration projects that receive funding from the Department under this section and conduct reviews of ongoing projects, which may include reconciling estimated costs as compared to actual costs and evaluating progress of the project based on the proposed schedule and technical and financial milestones, and provide such reviews to the Secretary; and

(5) assess lessons learned and implement improvements to evaluate and oversee demonstration projects carried out under this section.

(d) ADDITIONAL AUTHORITY.—The Secretary may carry out and manage demonstration projects directly through the program established in subsection (a).

(e) PROJECT TERMINATION.—Should an ongoing demonstration project receive an unfavorable review under subsection (c)(4), the director of a Department program office or their designee may cease funding the demonstration project and reallocate the remaining funds to new or existing demonstration projects carried out by that program office.

(f) COORDINATION.—In establishing and carrying out the program, the Secretary shall coordinate with project management and acquisition management entities within the Department, including the Office of Project Management, and relevant professional organizations in project management, construction, cost estimation, and other relevant fields.

(g) REPORTING.—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall report annually on the utilization of the authority granted under this section, including—

(1) a summary of any demonstration projects currently being carried out under this section; and

(2) the reviews under subsection (c)(4) of any ongoing demonstration projects carried out under this section.

(h) EVALUATION BY COMPTROLLER GENERAL.—Not later than 3 years after the date of the enactment of this Act the Comptroller General shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the operation of the program established under this section, including—

(1) the processes and procedures used to evaluate demonstration project proposals and oversee demonstration projects that receive funding under this section;

(2) any recommended changes to the program, including the structure and the processes and procedures used to evaluate and oversee demonstration projects that receive funding under this section; and

(3) any recommended changes to the structure of this program to improve the success in meeting the program purposes under subsection (a).

SEC. 10634. STREAMLINING PRIZE COMPETITIONS.

(a) REPORTING.—Section 1008 of the Energy Policy Act of 2005 (42 U.S.C. 16396) is amended by adding at the end the following:

“(h) REPORT.—In accordance with section 9007 of Division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260), the Secretary shall report annually on a description of any prize competitions carried out using the authority under this section, the total amount of prizes awarded along with any private sector contributions, the methods used for solicitation and evaluation, and a description of how each prize competition advanced the mission of the Department.”.

(b) TECHNICAL AMENDMENT.—Section 1008 of the Energy Policy Act of 2005 (42 U.S.C. 16396) is amended by redesignating the second subsection (e) (relating to authorization of appropriations) as subsection (f).

SEC. 10635. COST-SHARE WAIVER EXTENSION.

(a) IN GENERAL.—Section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352) is amended

in subsection (b)(4)(B) by striking “this paragraph” and inserting “the America Competes Act of 2022”.

(b) **REPORT.**—Section 108(b) of the Department of Energy Research and Innovation Act is amended in subsection (b) by striking “this Act” each place it appears and inserting “the Energizing Technology Transfer Act”.

SEC. 10636. SPECIAL HIRING AUTHORITY FOR SCIENTIFIC, ENGINEERING, AND PROJECT MANAGEMENT PERSONNEL.

(a) **IN GENERAL.**—The Under Secretary for Science shall have the authority to—

(1) make appointments of not more than 60 scientific, engineering, and professional personnel, without regard to civil service laws, to assist the Department in meeting specific project or research needs;

(2) fix the basic pay of any employee appointed under this section at a rate to be determined by the Under Secretary at rates not in excess of Level II of the Executive Schedule (EX-II) under section 5311 of title 5, United States Code without regard to the civil service laws; and

(3) pay any employee appointed under this section payments in addition to basic pay, except that the total amount of additional payments paid to an employee under this subsection for any 12-month period shall not exceed the lesser of the following amounts:

(A) \$25,000.

(B) The amount equal to 25 percent of the annual rate of basic pay of that employee.

(C) The amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5, United States Code.

(b) **TERM.**—

(1) **IN GENERAL.**—The term of any employee appointed under this section shall not exceed 3 years unless otherwise authorized in law.

(2) **TERMINATION.**—The Under Secretary for Science shall have the authority to terminate any employee appointed under this section at any time based on performance or changing project or research needs of the Department.

SEC. 10637. TECHNOLOGY TRANSFER REPORTS AND EVALUATION.

Section 9007 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116-260) is amended as follows:

“(a) **ANNUAL REPORT.**—As part of the updated technology transfer execution plan required each year under section 1001(h)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16391(g)(2)), the Secretary of Energy (in this section referred to as the ‘Secretary’) shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the progress and implementation of programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act and under sections 10624, 10628, 10629, 10630, 10631, and 10633 of the America COMPETES Act of 2022.

“(b) **EVALUATION.**—Not later than 3 years after the enactment of this Act and every 3 years thereafter the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the extent to which programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act and sections 10623, 10624, 10625, and 10627 of the America COMPETES Act of 2022 are achieving success based on relevant short-term and long-term metrics.”.

Subtitle D—Regional Innovation

SEC. 10641. REGIONAL INNOVATION CAPACITY.

(a) **IN GENERAL.**—The Stevenson-Wydler Technology Innovation Act of 1980 (Public Law 96-480; 15 U.S.C. 3701 et seq.) is amended—

(1) by redesignating section 28 as section 29; and

(2) by inserting after section 27 the following:

“SEC. 28. REGIONAL TECHNOLOGY AND INNOVATION HUB PROGRAM.

“(a) **DEFINITIONS.**—In this section:

“(1) **APPROPRIATE COMMITTEES OF CONGRESS.**—The term ‘appropriate committees of Congress’ means—

“(A) the Committee on Commerce, Science, and Transportation, the Committee on Environment and Public Works, and the Committee on Appropriations of the Senate; and

“(B) the Committee on Science, Space, and Technology and the Committee on Appropriations of the House of Representatives.

“(2) **COOPERATIVE EXTENSION SERVICES.**—The term ‘cooperative extension services’ has the meaning given the term in section 1404 of the Food and Agriculture Act of 1977 (7 U.S.C. 3103).

“(3) **HISTORICALLY BLACK COLLEGES AND UNIVERSITIES.**—The term ‘historically Black colleges and universities’ has the meaning given the term ‘part B institution’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061);

“(4) **LABOR ORGANIZATION.**—The term ‘labor organization’ has the meaning given the term in section 2(5) of the National Labor Relations Act (29 U.S.C. 152(5)), except that such term shall also include—

“(A) any organization composed of labor organizations, such as a labor union federation or a State or municipal labor body; and

“(B) any organization which would be included in the definition for such term under such section 2(5) but for the fact that the organization represents—

“(i) individuals employed by the United States, any wholly owned Government corporation, any Federal Reserve Bank, or any State or political subdivision thereof;

“(ii) individuals employed by persons subject to the Railway Labor Act (45 U.S.C. 151 et seq.); or

“(iii) individuals employed as agricultural laborers.

“(5) **MANUFACTURING EXTENSION CENTER.**—The term ‘manufacturing extension center’ has the meaning given the term ‘Center’ in section 25(a) of the National Institute of Standards and Technology Act (15 U.S.C. 278k(a)).

“(6) **MANUFACTURING USA INSTITUTE.**—The term ‘Manufacturing USA institute’ means a Manufacturing USA institute described in section 34(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278s(d)).

“(7) **MINORITY-SERVING INSTITUTION.**—The term ‘minority-serving institution’ means a Hispanic-serving institution, an Alaska Native-serving institution, a Native Hawaiian-serving institution, a Predominantly Black Institution, an Asian American and Native American Pacific Islander-serving institution, or a Native American-serving nontribal institution as described in section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

“(8) **SITE CONNECTIVITY INFRASTRUCTURE.**—The term ‘site connectivity infrastructure’ means localized driveways and access roads to a facility as well as hookups to the new facility for drinking water, waste water, broadband, and other basic infrastructure services already present in the area.

“(9) **STATE.**—The term ‘state’ has the meaning given such term in section 27(a) of the Stevenson-Wydler Act of 1980 (15 U.S.C. 3722(a)).

“(10) **TRIBAL COLLEGE OR UNIVERSITY.**—The term ‘Tribal College or University’ has the meaning given such term in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

“(11) **VENTURE DEVELOPMENT ORGANIZATION.**—The term ‘venture development organization’ has the meaning given such term in section 27(a) of the Stevenson-Wydler Act of 1980 (15 U.S.C. 3722(a)).

“(12) **COMMUNITY DEVELOPMENT FINANCIAL INSTITUTION.**—The term ‘community development financial institution’ has the meaning given in section 103 of the Community Development Banking and Financial Institutions Act of 1994 (12 U.S.C. 4702).

“(13) **MINORITY DEPOSITORY INSTITUTION.**—The term ‘minority depository institution’ means an entity that is—

“(A) a minority depository institution, as defined in section 308 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 1463 note); or

“(B) considered to be a minority depository institution by—

“(i) the appropriate Federal banking agency; or

“(ii) the National Credit Union Administration, in the case of an insured credit union.

“(b) **REGIONAL TECHNOLOGY AND INNOVATION HUB PROGRAM.**—

“(1) **IN GENERAL.**—Subject to the availability of appropriations, the Secretary shall carry out a program—

“(A) to encourage new and constructive collaboration among local, State, and Federal government entities, institutions of higher education, the private sector, economic development organizations, labor organizations, worker cooperative membership associations, State or local employee ownership and cooperative development centers, nonprofit organizations, and community organizations to promote inclusive regional innovation initiatives;

“(B) to support eligible consortia in the development and implementation of regional innovation strategies;

“(C) to designate eligible consortia as regional technology and innovation hubs and facilitate activities by consortia designated as regional technology and innovation hubs in implementing their regional innovation strategies—

“(i) to enable United States leadership in technology and innovation sectors critical to national and economic security;

“(ii) to support regional economic development and resilience, including in small cities and rural areas, and promote increased geographic diversity of innovation across the United States;

“(iii) to promote the benefits of technology development and innovation for all Americans, including underserved communities and vulnerable communities;

“(iv) to support domestic job creation and broad-based economic growth; and

“(v) to improve the pace of market readiness, industry maturation, and overall commercialization of innovative research;

“(D) to ensure that the regional technology and innovation hubs address the intersection of emerging technologies and either regional challenges or national challenges; and

“(E) to conduct ongoing research, evaluation, analysis, and dissemination of best practices for regional development and competitiveness in technology and innovation.

“(2) **AWARDS.**—The Secretary shall carry out the program required by paragraph (1) through the award of the following:

“(A) Strategy development grants or cooperative agreements to eligible consortia under subsection (e).

“(B) Strategy implementation grants or cooperative agreements to regional technology and innovation hubs under subsection (f).

“(c) **ELIGIBLE CONSORTIA.**—For purposes of this section, an eligible consortium is a consortium that—

“(1) includes 1 or more of each of the following—

“(A) institutions of higher education, which may include Historically Black Colleges and Universities, Tribal Colleges and Universities, and minority-serving institutions;

“(B) State, territorial, local, or Tribal governments or other political subdivisions of a State, including State and local agencies, or a consortia thereof;

“(C) industry or firms in relevant technology or innovation sectors;

“(D) labor organizations or workforce training organizations, which may include State and

local workforce development boards as established under section 101 and 107 of the Workforce Investment and Opportunity Act (29 U.S.C. 3111; 3122); and

“(E) organizations that contribute to increasing the participation of underserved populations in science, technology, innovation, and entrepreneurship; and

“(2) may include 1 or more—

“(A) economic development entities with relevant expertise, including a district organization (as defined in section 300.3 of title 13, Code of Federal Regulations, or successor regulation);

“(B) economic development organizations or similar entities that are focused primarily on improving science, technology, innovation, entrepreneurship, or access to capital;

“(C) venture development organizations;

“(D) worker cooperative membership associations and state or local employee ownership and cooperative development centers;

“(E) financial institutions and investment funds, including community development financial institutions and minority depository institutions;

“(F) elementary schools and secondary schools, including area career and technical education schools (as defined in section 3 of the Carl D. Perkins Career and Technical Education Act of 2006 (29 U.S.C. 2302);

“(G) National Laboratories (as defined in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801));

“(H) Federal laboratories;

“(I) Manufacturing extension centers;

“(J) Manufacturing USA institutes;

“(K) transportation planning organizations;

“(L) a cooperative extension services; and

“(M) organizations that represent the perspectives of underserved communities in economic development initiatives.

“(d) DESIGNATION OF REGIONAL TECHNOLOGY AND INNOVATION HUBS.—

“(1) IN GENERAL.—In carrying out subsection (b)(1)(C), the Secretary shall use a competitive, merit-review process to designate not fewer than 10 eligible consortia as regional technology and innovation hubs.

“(2) GEOGRAPHIC DISTRIBUTION.—In conducting the competitive process under paragraph (1), the Secretary shall ensure geographic distribution in the designation of regional technology and innovation hubs by—

“(A) focusing on localities that are not leading technology centers;

“(B) ensuring that not fewer than one third of eligible consortia designated as regional technology and innovation hubs significantly benefit a rural or other underserved community;

“(C) ensuring that at least one eligible consortium designated as a regional technology and innovation hub is headquartered in a State that is eligible to receive funding from the Established Program to Stimulate Competitive Research of the National Science Foundation; and

“(D) ensuring that at least one eligible consortium designated as a regional technology and innovation hub is headquartered in a region that has a high density of institutions of higher education serving populations historically underrepresented in STEM, including historically Black Colleges and Universities and minority-serving institutions.

“(3) RELATION TO CERTAIN GRANT AWARDS.—The Secretary shall not require an eligible consortium to receive a grant or cooperative agreement under subsection (e) in order to be designated as a regional technology and innovation hub under paragraph (1) of this subsection.

“(e) STRATEGY DEVELOPMENT GRANTS AND COOPERATIVE AGREEMENTS.—

“(1) IN GENERAL.—The Secretary shall use a competitive, merit-review process to award grants or cooperative agreements to eligible consortia for the development of regional innovation strategies.

“(2) NUMBER OF RECIPIENTS.—The Secretary shall award a grant or cooperative agreement

under paragraph (1) to not fewer than 20 eligible consortia.

“(3) GEOGRAPHIC DIVERSITY AND REPRESENTATION.—

“(A) IN GENERAL.—The Secretary shall carry out paragraph (1) in a manner that ensures geographic diversity and representation from communities of differing populations.

“(B) AWARDS TO RURAL COMMUNITIES AND UNDERSERVED COMMUNITIES.—In carrying out paragraph (1), the Secretary shall award not fewer than one-half of the grants and cooperative agreements under such paragraph to eligible consortia that significantly benefit a rural state, rural community, or other underserved community.

“(4) USE OF FUNDS.—The amount of a grant or cooperative agreement awarded under paragraph (1) shall be as follows:

“(A) To coordinate locally defined planning processes, across jurisdictions and agencies, relating to developing a comprehensive regional technology strategy.

“(B) To identify regional partnerships for developing and implementing a comprehensive regional technology strategy.

“(C) To conduct or update assessments to determine regional needs and capabilities.

“(D) To develop or update goals and strategies to implement an existing comprehensive regional plan.

“(E) To identify or implement planning and local zoning and other code changes necessary to implement a comprehensive regional technology strategy.

“(F) To develop or update goals for ensuring that any new regional technology strategy mitigates and does not exacerbate economic or social inequities in a region.

“(5) FEDERAL SHARE.—The Federal share of the cost of an effort carried out using a grant or cooperative agreement awarded under this subsection may not exceed 80 percent—

“(A) where in-kind contributions may be used for all or part of the non-Federal share, but Federal funding from other government sources may not count towards the non-Federal share;

“(B) except in the case of an eligible consortium that represents all or part of a rural or other underserved community, the Federal share may be up to 90 percent of the total cost, subject to subparagraph (A); and

“(C) except in the case of an eligible consortium that is led by a Tribal government, the Federal share may be up to 100 percent of the total cost of the project.

“(f) STRATEGY IMPLEMENTATION GRANTS AND COOPERATIVE AGREEMENTS.—

“(1) IN GENERAL.—The Secretary shall use a competitive, merit-review process to award grants or cooperative agreements to regional technology and innovation hubs for the implementation of regional innovation strategies, including regional strategies for infrastructure and site development, in support of the regional innovation and technology and innovation hub's plans and programs. The Secretary should determine the size and number of awards based on appropriations available to ensure the success of regional technology and innovation hubs as outlined in subsection (h).

“(2) USE OF FUNDS.—Financial assistance awarded under paragraph (1) to a regional technology and innovation hub may be used by the regional technology and innovation hub to support any of the following activities, consistent with the most current regional innovation strategy of the regional technology and innovation hub:

“(A) WORKFORCE DEVELOPMENT ACTIVITIES.—Workforce development activities, including activities relating to the following:

“(i) The creation of partnerships between industry, workforce, nonprofit, and educational institutions to create and align technical training and educational programs.

“(ii) The design, development, and updating of educational and training curriculum tied to demonstrated regional workforce needs.

“(iii) The procurement of facilities and equipment, as required to train a technical workforce.

“(iv) The development and execution of programs to rapidly award certificates or credentials recognized by regional industries or other organizations.

“(v) The matching of regional employers with a potential new entrant, underemployed, underrepresented, or incumbent workforce.

“(vi) The expansion of successful training programs at a scale required by the region served by the regional technology and innovation hub, including through the use of online education and mentoring.

“(vii) The development and expansion of programs with the goal of increasing the participation of persons historically underrepresented in STEM and manufacturing in the workforce development plans of the regional technology and innovation hub.

“(B) BUSINESS AND ENTREPRENEUR DEVELOPMENT ACTIVITIES.—Business and entrepreneur development activities, including activities relating to the following:

“(i) The development and growth of local regional businesses and the training of entrepreneurs.

“(ii) The support of technology commercialization, including funding for activities relevant for advancing high growth potential ventures such as acceleration, incubation and other relevant programming.

“(iii) The development of local and regional capital networks and consortia to attract necessary private funding to businesses and entrepreneurs in the region.

“(iv) The development of local and regional networks for business and entrepreneur mentorship.

“(v) The expansion of employee and worker ownership and participation in business decisionmaking, including through coordination and collaboration with worker cooperative membership associations and existing local and state employee ownership and cooperative development centers, or the creation of such centers where they do not yet exist, in order to provide information, technical assistance, access to financing, and training to startups, contractors, and businesses that are considering employee ownership as a model, and to facilitate the creation of and conversion to employee-owned startups, businesses, and cooperatives.

“(C) TECHNOLOGY DEVELOPMENT AND MATURATION ACTIVITIES.—Technology maturation activities, including activities relating to the following:

“(i) The development and deployment of technologies in sectors critical to the region served by the regional technology and innovation hub or to national and economic security, including industry-university research cooperation, proof of concept, prototype development, and testing.

“(ii) The development of programming to support the creation and transfer of intellectual property into private use, such as through startup creation.

“(iii) The provision of facilities for technology maturation, including incubators for collaborative development of technologies by private sector, academic, nonprofit, and other entities.

“(iv) Activities to provide or ensure access to capital for new business and cooperative formation and business expansion, or preservation of existing businesses through conversion to employee ownership and cooperatives, including by attracting new private, public, and philanthropic investment and by establishing local and regional venture and loan funds, community development financial institutions, and minority depository institutions.

“(D) INFRASTRUCTURE-RELATED ACTIVITIES.—The building of facilities and site connectivity infrastructure necessary to carry out activities described in subparagraphs (A), (B), and (C), including activities relating to the following:

“(i) Establishing a center with required tools and instrumentation for workforce development.

“(ii) Establishing a facility for technology development, demonstration, and testing.

“(iii) Establishing collaborative incubators to support technology commercialization and entrepreneur training.

“(3) TERM.—

“(A) INITIAL PERFORMANCE PERIOD.—The term of an initial grant or cooperative agreement awarded under this subsection shall be for a period that the Secretary deems appropriate for the proposed activities but not less than 2 years.

“(B) SUBSEQUENT PERFORMANCE PERIOD.—The Secretary may renew a grant or cooperative agreement awarded to a regional technology and innovation hub under paragraph (1) for such period as the Secretary considers appropriate, if the Secretary determines that the regional technology and innovation hub has made satisfactory progress towards the metrics agreed to under subsection (j).

“(C) FLEXIBLE APPROACH.—In renewing a grant or cooperative agreement under subparagraph (B), the Secretary and the eligible consortium may agree to new or additional uses of funds in order to meet changes in the needs of the region.

“(4) LIMITATION ON AMOUNT OF AWARDS.—

“(A) INITIAL PERFORMANCE PERIOD.—The amount of an initial grant or cooperative agreement awarded to a regional technology and innovation hub under paragraph (3)(A) shall be no more than \$150,000,000.

“(B) SUBSEQUENT PERFORMANCE PERIOD.—Upon renewal of a grant or cooperative agreement under paragraph (3)(B), the Secretary may award funding in the amount that the Secretary considers appropriate, ensuring that no single regional technology and innovation hub receives more than 15 percent of the aggregate amount of the grants and cooperative agreements awarded under this subsection.

“(5) MATCHING REQUIRED.—

“(A) INITIAL PERFORMANCE PERIOD.—Except in the case of a regional technology and innovation hub described in subparagraph (C), the total amount of all grants awarded to a regional technology and innovation hub under this subsection in phase one shall not exceed 90 percent of the total operating costs of the regional technology and innovation hub during the initial performance period.

“(B) SUBSEQUENT PERFORMANCE PERIOD.—Except in the case of a regional technology and innovation hub described in subparagraph (C), the total amount of all grants awarded to a regional technology and innovation hub in subsequent performance periods shall not exceed 75 percent of the total operating costs of the regional technology and innovation hub in each year of the grant or cooperative agreement.

“(C) RURAL COMMUNITIES OR UNDERSERVED COMMUNITIES AND INDIAN TRIBES.—

“(i) IN GENERAL.—The total Federal financial assistance awarded in a given year to a regional technology and innovation hub under this subsection shall not exceed amounts as follows:

“(I) In the case of a regional technology and innovation hub that primarily serves a rural community or other underserved community, in a fiscal year, 90 percent of the total funding of the regional technology and innovation hub in that fiscal year.

“(II) In the case of a regional technology and innovation hub that is led by a Tribal government, in a fiscal year, 100 percent of the total funding of the regional technology and innovation hub in that fiscal year.

“(ii) MINIMUM THRESHOLD OF RURAL REPRESENTATION.—For purposes of clause (i)(I), the Secretary shall establish a minimum threshold of rural representation and other underserved community representation in the regional technology and innovation hub.

“(D) IN-KIND CONTRIBUTIONS.—For purposes of this paragraph, in-kind contributions may be used for part of the non-Federal share of the total funding of a regional technology and innovation hub in a fiscal year.

“(6) GRANTS FOR INFRASTRUCTURE.—Any grant or cooperative agreement awarded under this subsection to support the construction of facilities and site connectivity infrastructure shall be awarded pursuant to section 201 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3141) and subject to the provisions of such Act, except that subsection (b) of such section and sections 204 and 301 of such Act (42 U.S.C. 3144; 3161) shall not apply.

“(7) RELATION TO CERTAIN GRANT AWARDS.—The Secretary shall not require a regional technology and innovation hub to receive a grant or cooperative agreement under subsection (e) in order to receive a grant or cooperative agreement under this subsection.

“(g) APPLICATIONS.—An eligible consortium seeking designation as a regional technology and innovation hub under subsection (d) or a grant or cooperative agreement under subsection (e) or (f) shall submit to the Secretary an application therefore at such time, in such manner, and containing such information as the Secretary may specify.

“(h) CONSIDERATIONS FOR DESIGNATION AND AWARD OF STRATEGY IMPLEMENTATION GRANTS AND COOPERATIVE AGREEMENTS.—In selecting an eligible consortium that submitted an application under subsection (g) for designation under subsection (d) or for a grant or cooperative agreement under subsection (f), the Secretary shall consider the following:

“(1) The potential of the eligible consortium to advance the research, development, deployment, and domestic manufacturing of technologies in a technology or innovation sector critical to national and economic security.

“(2) The likelihood of positive regional economic effect, including increasing the number of high wage domestic jobs, creating new economic opportunities for economically disadvantaged and underrepresented populations, promoting employee and worker ownership, and advancing models of local and cooperative economic development that build and retain wealth in the region.

“(3) How the eligible consortium plans to integrate with and leverage the resources of 1 or more federally funded research and development centers, National Laboratories, Federal laboratories, Manufacturing USA institutes, Hollings Manufacturing Extension Partnership centers, or other Federal entities.

“(4) How the eligible consortium will engage with the private sector, including small- and medium-sized businesses and cooperatives, and employee-owned businesses and cooperatives, to commercialize new technologies and improve the resiliency and sustainability of domestic supply chains in a technology or innovation sector critical to national and economic security.

“(5) How the eligible consortium will carry out workforce development and skills acquisition programming, including through partnerships with entities that include State and local workforce development boards, institutions of higher education, including community colleges, historically Black colleges and universities, Tribal colleges and universities, and minority-serving institutions, labor organizations, worker cooperative membership associations, state or local employee ownership and cooperative development centers, workforce development programs, and other related activities authorized by the Secretary, to support the development of a skilled technical workforce for the regional technology and innovation hub.

“(6) How the eligible consortium will improve or expand science, technology, engineering, and mathematics education programs and opportunities in the identified region in elementary and secondary school and higher education institutions located in the identified region.

“(7) How the eligible consortium plans to develop partnerships with venture development organizations, community development financial institutions and minority depository institutions, and sources of private investment in sup-

port of private sector activity, including launching new or expanding existing companies.

“(8) How the eligible consortium plans to organize the activities of regional partners across sectors in support of a regional technology and innovation hub.

“(9) How the eligible consortium plans to procure as many goods, services, food, and supplies as is practicable from locally-owned, employee-owned, minority-owned, and women-owned businesses and cooperatives in conducting hub activities, and how individual consortium members, as applicable, plan to do the same.

“(10) How the consortium plans to collaborate with local and community development financial institutions and minority depository institutions to expand the supply of such procurement options, including by creating business plans and plans for financing businesses and cooperatives that do not yet exist, and how the consortium plans to encourage entities created as a result of hub activities to follow such practices.

“(11) How the eligible consortium will ensure that growth in technology and innovation sector produces opportunity across the identified region, including for economically disadvantaged, minority, and rural populations, including consideration of how the eligible consortium takes into account the relevant impact of regional status and plans for—

“(A) available affordable housing stock and housing policies;

“(B) local and regional transportation systems;

“(C) high speed internet access; and

“(D) primary and secondary education.

“(12) How much the regions educational institutions are committed to aligning their activities, including research and education, as appropriate, to a region's economic strengths and areas of focus.

“(13) The likelihood efforts served by the consortium will be sustained once Federal support ends.

“(i) COORDINATION AND COLLABORATION.—

“(1) COORDINATION WITH REGIONAL INNOVATION PROGRAM.—The Secretary shall ensure the activities under this section do not duplicate activities or efforts under section 27.

“(2) COORDINATION AMONG HUBS.—The Secretary shall ensure eligible consortia that receive a grant or cooperative agreement under this section coordinate and share best practices for regional economic development.

“(3) COORDINATION WITH PROGRAMS OF THE NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY.—The Secretary shall coordinate the activities of regional technology and innovation hubs designated under this section, the Hollings Manufacturing Extension Partnership, and the Manufacturing USA Program, as the Secretary considers appropriate, to maintain the effectiveness of a manufacturing extension center or a Manufacturing USA institute.

“(4) COORDINATION WITH DEPARTMENT OF ENERGY PROGRAMS.—The Secretary shall, in collaboration with the Secretary of Energy, coordinate the activities and selection of regional technology and innovation hubs designated under this section, as the Secretaries consider appropriate, to maintain the effectiveness of activities at the Department of Energy and the National Laboratories.

“(5) INTERAGENCY COLLABORATION.—In designating regional technology and innovation hubs under subsection (d) and awarding grants or cooperative agreements under subsection (f), the Secretary—

“(A) shall collaborate with Federal departments and agencies whose missions contribute to the goals of the regional technology and innovation hub, and relevant interagency initiatives such as the Interagency Working Group for Cooperative Development;

“(B) shall consult with the Director of the National Science Foundation for the purpose of ensuring that the regional technology and innovation hubs are aligned with relevant science, technology, and engineering expertise; and

“(C) may accept funds from other Federal agencies to support grants, cooperative agreements, and activities under this section.

“(j) PERFORMANCE MEASUREMENT, TRANSPARENCY, AND ACCOUNTABILITY.—

“(1) METRICS, STANDARDS, AND ASSESSMENT.—For each grant and cooperative agreement awarded under subsection (f) for a regional technology and innovation hub, the Secretary shall—

“(A) in consultation with the regional technology and innovation hub, develop metrics, which may include metrics relating to domestic job creation, patent awards, increases in research funding, business formation and expansion, and participation of individuals or communities historically underrepresented in STEM, to assess the effectiveness of the activities funded in making progress toward the purposes set forth under subsection (b)(1);

“(B) establish standards for the performance of the regional technology and innovation hub that are based on the metrics developed under subparagraph (A); and

“(C) prior to any award made under a subsequence performance period in subsection (f) and every 2 years thereafter until Federal financial assistance under this section for the regional technology and innovation hub is discontinued, conduct an assessment of the regional technology and innovation hub to confirm whether the performance of the regional technology and innovation hub is meeting the standards for performance established under subparagraph (B) of this paragraph.

“(2) FINAL REPORTS BY RECIPIENTS OF STRATEGY IMPLEMENTATION GRANTS AND COOPERATIVE AGREEMENTS.—

“(A) IN GENERAL.—The Secretary shall require each eligible consortium that receives a grant or cooperative agreement under subsection (f) for activities of a regional technology and innovation hub, as a condition of receipt of such grant or cooperative agreement, to submit to the Secretary, not later than 120 days after the last day of the term of the grant or cooperative agreement, a report on the activities of the regional technology and innovation hub supported by the grant or cooperative agreement.

“(B) CONTENTS OF REPORT.—Each report submitted by an eligible consortium under subparagraph (A) shall include the following:

“(i) A detailed description of the activities carried out by the regional technology and innovation hub using the grant or cooperative agreement described in subparagraph (A), including the following:

“(I) A description of each project the regional technology and innovation hub completed using such grant or cooperative agreement.

“(II) An explanation of how each project described in subclause (I) achieves a specific goal under this section in the region of the regional technology and innovation hub with respect to—

“(aa) the resiliency and sustainability of a supply chain;

“(bb) research, development, and deployment of a critical technology;

“(cc) workforce training and development;

“(dd) domestic job creation;

“(ee) entrepreneurship and company formation, including the number of businesses created or preserved through employee ownership and cooperative development;;

“(ff) commercialization;

“(gg) access to private capital; or

“(hh) participation of individuals or communities historically underrepresented in STEM.

“(ii) A discussion of any obstacles encountered by the regional technology and innovation hub in the implementation of the regional technology and innovation hub and how the regional technology and innovation hub overcame those obstacles.

“(iii) An evaluation of the success of the projects of the regional technology and innovation hub using the performance standards and

measures established under paragraph (1), including an evaluation of the planning process and how the project contributes to carrying out the regional innovation strategy of the regional technology and innovation hub.

“(iv) The effectiveness of the regional technology and innovation hub in ensuring that, in the region of the regional technology and innovation hub, growth in technology and innovation sectors produces broadly shared opportunity across the region, including for economic disadvantaged and underrepresented populations and rural areas.

“(v) Information regarding such other matters as the Secretary may require.

“(3) INTERIM REPORTS BY RECIPIENTS OF GRANTS AND COOPERATIVE AGREEMENTS.—In addition to requiring submittal of final reports under paragraph (2)(A), the Secretary may require a regional technology and innovation hub described in such paragraph to submit to the Secretary such interim reports as the Secretary considers appropriate.

“(4) ANNUAL REPORTS TO CONGRESS.—Not less frequently than once each year, the Secretary shall submit to the appropriate committees of Congress an annual report on the results of the assessments conducted by the Secretary under paragraph (1)(C) during the period covered by the report.

“(k) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary—

“(1) \$50,000,000 to award grants and cooperative agreements under subsection (e) for the period of fiscal years 2022 through 2026;

“(2) \$2,000,000,000 to award grants and cooperative agreements under subsection (f) for the period of fiscal years 2022 and 2023; and

“(3) \$4,800,000,000 to award grants and cooperative agreements under subsection (f) for the period of fiscal years 2024 through 2026.

“(l) ADMINISTRATION.—The Secretary may use funds made available to carry out this section for administrative costs under this section.”.

(b) INITIAL DESIGNATIONS AND AWARDS.—

(1) COMPETITION REQUIRED.—Not later than 1 year after the date of the enactment of this section, subject to the availability of appropriations, the Secretary of Commerce shall commence a competition under subsection (d)(1) of section 28 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3723) as added by subsection (a).

(2) DESIGNATION AND AWARD.—Not later than 1 year after the date of the enactment of this section, if the Secretary has received at least 1 application under subsection (g) of section 28 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3723) from an eligible consortium whom the Secretary considers suitable for designation under subsection (d)(1) of such section, the Secretary shall—

(A) designate at least 1 regional technology and innovation hub under subsection (d)(1) of such section; and

(B) award a grant or cooperative agreement under subsection (f)(1) of such section to each regional technology and innovation hub designated pursuant to subparagraph (A) of this paragraph.

SEC. 10642. REGIONAL CLEAN ENERGY INNOVATION PROGRAM.

Subtitle C of title IX of the Energy Independence and Security Act of 2007 is amended by adding at the end the following:

“SEC. 936. REGIONAL CLEAN ENERGY INNOVATION PROGRAM.

“(a) DEFINITIONS.—In this section:

“(1) REGIONAL CLEAN ENERGY INNOVATION PARTNERSHIP.—The term ‘regional clean energy innovation partnership’ means a group of one or more persons, including a covered consortium, who perform a collection of activities that are coordinated by such covered consortium to carry out the purposes of the program under subsection (c) in a region of the United States.

“(2) COVERED CONSORTIUM.—The term ‘covered consortium’ means an individual or group of individuals in partnership with a government entity, including a State, territorial, local, or tribal government or unit of such government, and at least 2 or more of the following additional entities—

“(A) an institution of higher education or a consortium of institutions of higher education;

“(B) a workforce training provider, including vocational schools and community colleges;

“(C) a private sector entity;

“(D) a nonprofit organization;

“(E) a community group;

“(F) a labor organization;

“(G) a National Laboratory;

“(H) a venture development organization;

“(I) a community development financial institution or minority depository institution;

“(J) a worker cooperative membership association or state or local employee ownership or cooperative development center;

“(K) an organization focused on clean energy technology innovation or entrepreneurship;

“(L) a business accelerator or incubator;

“(M) a private sector entity or group of entities, including a trade or industry association;

“(N) an economic development organization;

“(O) a manufacturing facility or organization;

“(P) a clean energy incubator or accelerator;

“(Q) a multi-institutional collaboration; or

“(R) any other entity that the Secretary determines to be relevant.

“(3) PROGRAM.—The term ‘program’ means the Regional Clean Energy Innovation Program authorized in subsection (b).

“(4) INSTITUTION OF HIGHER EDUCATION.—The term ‘institution of higher education’ has the meaning given such term in the Higher Education Act of 1965, as amended (20 U.S.C. 1001).

“(5) NATIONAL LABORATORY.—The term ‘National Laboratory’ has the meaning given that term in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801).

“(b) IN GENERAL.—The Secretary shall establish a Regional Clean Energy Innovation Program, a research, development, demonstration, and commercial application program designed to enhance the economic, environmental, and energy security of the United States and accelerate the pace of innovation of diverse clean energy technologies through the formation or support of regional clean energy innovation partnerships that—

“(1) account for the diverse domestic energy resources available throughout the United States;

“(2) are responsive to the needs of industry, workforce, policy landscape, and clean energy innovation capabilities of the region in which such partnership is located;

“(3) enhance and accelerate clean energy innovation;

“(4) are located in diverse geographic regions of the United States, including United States territories; and

“(5) maximize the opportunities for cooperation between institutes of higher education, industry, State and local governments, and nonprofit research institutions with shared areas of energy expertise.

“(c) PURPOSES OF THE PROGRAM.—The purposes of the Program established under subsection (b) are to—

“(1) improve the competitiveness of United States’ clean energy technology research, development, demonstration, and commercial application; and

“(2) support the development of tools and technologies best suited for use in diverse regions of the United States, including in rural, tribal, and low-income communities.

“(d) REGIONAL CLEAN ENERGY INNOVATION PARTNERSHIPS.—

“(1) IN GENERAL.—The Secretary shall competitively award grants to covered consortia to establish or support regional clean energy innovation partnerships that achieve the purposes of the Program in subsection (c).

“(2) **PERMISSIBLE ACTIVITIES.**—Grants awarded under this subsection shall be used for activities determined appropriate by the Secretary to achieve the purposes of the Program in subsection (c), including—

“(A) facilitating the commercial application of clean energy products, processes, and services, including through research, development, demonstration, or technology transfer;

“(B) planning among participants of a regional clean energy innovation partnership to improve the strategic and cost-effective coordination of the partnership;

“(C) improving stakeholder involvement in the development of goals and activities of a regional clean energy innovation partnership;

“(D) assessing different incentive mechanisms for clean energy development and commercial application in the region;

“(E) hosting events and conferences; and

“(F) establishing and updating roadmaps to measure progress on relevant goals, such as those relevant to metrics developed under subsection (g).

“(3) **APPLICATIONS.**—Each application submitted to the Secretary under paragraph (1) may include—

“(A) a list of members and roles of members of the covered consortia, as well as any other stakeholders supporting the activities of the regional clean energy innovation partnership;

“(B) a description of the proposed outcomes of the regional clean energy innovation partnership;

“(C) an assessment of the relevant clean energy innovation assets needed in a region to achieve proposed outcomes, such as education and training programs, research facilities, infrastructure or site development, access to capital, manufacturing capabilities, or other assets;

“(D) a description of proposed activities that the regional clean energy innovation partnership plans to undertake and how the proposed activities will achieve the purposes described in subsection (c) and the proposed outcomes in subparagraph (B);

“(E) a description of the geographical region that will engage in the regional clean energy innovation partnership;

“(F) a plan for attracting additional funds and identification of funding sources from non-Federal sources to deliver the proposed outcomes of the regional clean energy innovation partnership;

“(G) a plan for partnering and collaborating with community development financial institutions and minority depository institutions, labor organizations and community groups, worker cooperative membership associations, local and state employee ownership and cooperative development centers, and other local institutions in order to promote employee, community, and public ownership in the clean energy sector, and advance models of local economic development that build and retain wealth in the region;

“(H) a plan for sustaining activities of the regional clean energy innovation partnership after funds received under this program have been expended; and

“(I) a proposed budget, including financial contributions from non-Federal sources.

“(4) **CONSIDERATIONS.**—In selecting covered consortia for funding under the Program, the Secretary shall, to the maximum extent practicable—

“(A) give special consideration to applications from rural, tribal, and low-income communities; and

“(B) ensure that there is geographic diversity among the covered consortia selected to receive funding.

“(5) **AWARD AMOUNT.**—Grants given out under this Program shall be in an amount not greater than \$10,000,000, with the total grant award in any year less than that in the previous year.

“(6) **COST SHARE.**—For grants that are disbursed over the course of three or more years, the Secretary shall require, as a condition of re-

ceipt of funds under this section, that a covered consortium provide not less than 50 percent of the funding for the activities of the regional clean energy partnership under this section for years 3, 4, and 5.

“(7) **DURATION.**—Each grant under paragraph shall be for a period of not longer than 5 years.

“(8) **RENEWAL.**—A grant awarded under this section may be renewed for a period of not more than 5 years, subject to a rigorous merit review based on the progress of a regional clean energy innovation partnership towards achieving the purposes of the program in subsection (c) and the metrics developed under subsection (g).

“(9) **TERMINATION.**—Consistent with the existing authorities of the Department, the Secretary may terminate grant funding under this subsection to covered consortia during the performance period if the Secretary determines that the regional clean energy innovation partnership is underperforming.

“(10) **ADMINISTRATIVE COSTS.**—The Secretary may allow a covered consortium that receives funds under this section to allocate a portion of the funding received to be used for administrative or indirect costs.

“(11) **FUNDING.**—The Secretary may accept funds from other Federal agencies to support funding and activities under this section.

“(e) **PLANNING FUNDS.**—The Secretary may competitively award grants in an amount no greater than \$2,000,000 for a period not longer than 2 years to an entity consisting of a government entity, including a State, territorial, local, or tribal government or unit of such government or any entity listed under subsection (a)(2) to plan a regional clean energy innovation partnership or establish a covered consortium for the purpose of applying for funds under subsection (b).

“(f) **INFORMATION SHARING.**—As part of the program, the Secretary shall support the gathering, analysis, and dissemination of information on best practices for developing and operating successful regional clean energy innovation partnerships.

“(g) **METRICS.**—In evaluating a grant renewals under subsection (d)(8), the Secretary shall work with program evaluation experts to develop and make publicly available metrics to assess the progress of a regional clean energy innovation partnership towards achieving the purposes of the program in subsection (c). Such metrics may include—

“(1) the number and quality of—

“(A) new clean energy companies created in the region as a result of activities carried out under the regional clean energy innovation partnership, including those created or preserved through employee ownership and cooperative development;

“(B) new or expanded workforce development or training programs; and

“(C) support services provided to clean energy technology developers in the region;

“(2) changes in clean energy employment in the region as a result of activities carried out under the regional clean energy innovation partnership; and

“(3) the amount of capital investment in clean energy companies in the region as a result of activities carried out under the regional clean energy innovation partnership grant.

“(h) **COORDINATION.**—In carrying out the program, the Secretary shall coordinate with, and avoid unnecessary duplication of, the activities carried out under this section with the activities of—

“(1) other research entities of the Department, including the National Laboratories, the Office of Science, the Advanced Research Projects Agency-Energy, the Office of Technology Transitions, Energy Innovation Hubs, and Energy Frontier Research Centers; and

“(2) relevant programs at other Federal agencies, including—

“(A) the Office of Innovation and Entrepreneurship under the Economic Development Ad-

ministration, including the Regional Innovation Program under section 27 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3722);

“(B) the Hollings Manufacturing Extension Partnership Program under section 25 of the National Institute of Standards and Technology Act (15 U.S.C. 278k);

“(C) the Manufacturing USA Program under section 34 of the National Institute of Standards and Technology Act (15 U.S.C. 278s);

“(D) the Defense Manufacturing Communities Support Program under section 846 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (10 U.S.C. 2501 note);

“(E) the Office of Economic Adjustment at the Department of Defense; and

“(F) Rural Development at the United States Department of Agriculture.

“(i) **CONFLICTS OF INTEREST.**—In carrying out the program, the Secretary shall maintain conflict of interest procedures, consistent with the conflict of interest procedures of the Department.

“(j) **EVALUATION BY COMPTROLLER GENERAL.**—Not later than 3 years after the date of the enactment of the America COMPETES Act of 2022, and again 3 years later, the Comptroller General shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the operation of the program during the most recent 3-year period, including—

“(1) an assessment of the progress made towards achieving the purposes specified in subsection (c) based on the metrics developed under subsection (g);

“(2) the short-term and long-term metrics used to determine the success of the program under subsection (g), and any changes recommended to the metrics used;

“(3) the regional clean energy innovation partnerships established or supported by covered consortia that have received grants under subsection (d); and

“(4) any recommendations on how the program may be improved.

“(k) **NATIONAL LABORATORIES.**—In supporting technology transfer activities at the National Laboratories, the Secretary shall encourage partnerships with entities that are located in the same region or State as the National Laboratory.

“(l) **SECURITY.**—In carrying out the activities under this section, the Secretary shall ensure proper security controls are in place to protect sensitive information, as appropriate.

“(m) **NO FUNDS FOR CONSTRUCTION.**—No funds provided to the Department of Energy under this section shall be used for construction.

“(n) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for each of fiscal years 2022 through 2026.”.

SEC. 10643. CRITICAL TECHNOLOGY AND INNOVATION ANALYTICS PROGRAM.

(a) **IN GENERAL.**—The Secretary of Commerce shall carry out a program of data collection and analysis of technology and innovation sectors critical to realizing national objectives, including national security, economic prosperity, and social welfare.

(b) **PURPOSE.**—The purpose of the program shall be—

(1) To serve as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on the nation's technology, innovation, and advanced manufacturing capacity;

(2) To improve assessment of the nation's research, technology, and manufacturing assistance programs, including the regional innovation programs established in section 27 and 28 of the Stevenson-Wydler Technology Innovation Act of 1980 (Public Law 96-480; 15 U.S.C. 3701 et seq.);

(3) To assess U.S. competitiveness in technology and innovation sectors; and

(4) To support national policy and decision making in both the public and private sectors to ensure United States leadership in technology and innovation sectors critical to national security, economic prosperity and social welfare.

(c) **ACTIVITIES.**—In carrying out this section, the Secretary shall—

(1) collect, acquire, analyze, report, and disseminate data related to critical technology, innovation, and production capacity in the United States and other nations that is relevant and useful to practitioners, researchers, policy-makers, and the public, including data on—

(A) regional technology and innovation capacity, including research and development activity, entrepreneurship, intellectual property generation, company formation, advanced technology capital equipment investment, and technology transfer;

(B) supply chains, including domestic and international production capacity, inter-firm transactions, and resiliency for select end-products and their intermediate inputs;

(C) the skilled technical and production workforce required in different critical technology and innovation sectors;

(D) the participation of individuals and communities historically underrepresented in STEM; and

(E) any other area the Secretary determines appropriate;

(2) request from any person or entity information, data, and reports as may be required to carry out the purposes of this subtitle;

(3) support research using the data it collects, and on methodologies in areas related to the activities carried out under the program; and

(4) Conduct other activities deemed by the Secretary to be critical for the development of analytic capabilities, statistics, datasets, and metrics related to critical technologies and innovation.

(d) **OTHER TRANSACTIONS AUTHORITIES.**—In carrying out this section, the Secretary may enter into and perform such contracts, including cooperative research and development arrangements and grants and cooperative agreements or other transactions, as may be necessary in the conduct of the work of the program and on such terms as the Secretary considers appropriate;

(e) **COORDINATION.**—The Secretary shall collaborate with Federal statistical agencies, as appropriate, to carry out the purposes of this section, including by entering into cooperative data sharing agreements that comply with all laws and regulations applicable to the disclosure and use of data;

(f) **CONSULTATION.**—In conducting the activities required under subsection (c), the Secretary shall solicit input from relevant stakeholders on critical technology and sector needs, practices, and goals related to creating statistics, metrics, data sets, and modeling.

(g) **ADMINISTRATION.**—The Secretary may carry out this program through existing programs and bureaus of the Department of Commerce, as appropriate.

(h) **ACCESS TO FEDERAL DATA.**—In carrying out subsection (c), the Secretary shall be given access to all information, data, or reports that the Secretary determines necessary to carry out this section by any Federal agency upon written request and subject to any statutory or regulatory restrictions. Where practicable, the Secretary should incorporate data collection into existing survey instruments.

(i) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary \$100,000,000 to conduct activities under this section for the period of fiscal years 2022 through 2026.

Subtitle E—Malign Foreign Talent Recruitment Program Prohibition

SEC. 10651. MALIGN FOREIGN TALENT RECRUITMENT PROGRAM PROHIBITION.

(a) **IN GENERAL.**—Not later than 18 months after the date of enactment of this Act, each

Federal research agency shall establish a policy that, as part of a proposal for a research and development award from the agency—

(1) each covered individual listed in the proposal for a research and development award certify that they are not a party to a malign foreign talent recruitment program from a foreign country of concern in their proposal submission and annually thereafter for the duration of the award; and

(2) each institution of higher education or other organization applying for such an award certify that each covered individual who is employed by the institution of higher education or other organization has been made aware of the requirement under this section.

(b) **STAKEHOLDER INPUT.**—In establishing a policy under subsection (a), agencies shall go through a notice and comment process.

(c) **COMPLIANCE WITH EXISTING LAW.**—Each Federal research agency and grantee shall comply with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) in the development and implementation of policies developed under subsection (a).

(d) **INTERNATIONAL COLLABORATION.**—Each policy developed under subsection (a) shall not prohibit—

(1) making scholarly presentations and publishing written materials regarding scientific information not otherwise controlled under current law;

(2) participation in international conferences or other international exchanges, research projects or programs that involve open and reciprocal exchange of scientific information, and which are aimed at advancing international scientific understanding;

(3) advising a foreign student enrolled at the covered individual's institution of higher education or writing a recommendation for such a student, at the student's request; and

(4) other international activities deemed appropriate by the Federal research agency head or their designee.

(e) **LIMITATION.**—The certifications required under subsection (a) shall not apply retroactively to research and development awards made or applied for prior to the establishment of the policy by the Federal research agency.

(f) **DEFINITIONS.**—In this section:

(1) The term “covered individual” means an individual who—

(A) contributes in a substantive, meaningful way to the scientific development or execution of a research and development project proposed to be carried out with a research and development award from a Federal research agency; and

(B) is designated as a covered individual by the Federal research agency concerned.

(2) The term “Federal research agency” means any Federal agency with an annual extramural research expenditure of over \$100,000,000.

(3) The term “foreign country of concern” means the People's Republic of China, the Democratic People's Republic of Korea, the Russian Federation, the Islamic Republic of Iran, or any other country deemed to be a country of concern as determined by the Department of State.

(4) The term “Malign foreign talent program” means any program, position, or activity that includes compensation in the form of cash, research funding, promised future compensation, or things of non de minimis value, directly provided by a foreign country of concern at any level (national, provincial or local) or an entity based in a foreign country of concern, whether or not directly sponsored by the foreign country of concern, to the targeted individual in exchange for the individual—

(A) engaging in the unauthorized transfer of intellectual property, materials, or data products owned by a U.S. entity or developed with a federal research and development award to the government of a foreign country of concern or

an entity based in a foreign country of concern regardless of whether that government or entity provided support for the development of the intellectual property, materials, or data products;

(B) being required to recruit trainees or researchers to enroll in malign foreign talent programs sponsored by a foreign country of concern or an entity based in a foreign country of concern; or

(C) establishing a laboratory and/or company, accepting a faculty position, or undertaking any other employment or appointment in a foreign country of concern or an entity based in a foreign country of concern if such activities are contrary to the standard terms and conditions of a federal research and development award.

(5) The term “research and development award” means support provided to an individual or entity by a Federal research agency to carry out research and development activities, which may include support in the form of a grant, contract, cooperative agreement, or other such transaction. The term does not include a grant, contract, agreement or other transaction for the procurement of goods or services to meet the administrative needs of a Federal research agency.

Subtitle F—Microelectronics Research for Energy Innovation

SEC. 10661. DEFINITIONS.

In this subtitle:

(1) **DEPARTMENT.**—The term “Department” means the Department of Energy.

(2) **HISTORICALLY BLACK COLLEGE AND UNIVERSITY.**—The term “historically Black college and university” has the meaning given the term “part B institution” in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(3) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(4) **MINORITY SERVING INSTITUTION.**—The term “minority serving institution” includes the entities described in any of the paragraphs (1) through (7) of section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

(5) **NATIONAL LABORATORY.**—The term “National Laboratory” has the meaning given the term in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801).

(6) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(7) **SKILLED TECHNICAL WORKFORCE.**—The term “skilled technical workforce” has the meaning given such term in section 4(b) of the Innovations in Mentoring, Training, and Apprenticeships Act (42 U.S.C. 1862p).

(8) **STEM.**—The term “STEM” means the field or disciplines listed in section 2 of the STEM Education Act of 2015 (42 U.S.C. 6621 note).

(9) **TRIBAL COLLEGE AND UNIVERSITY.**—The term “Tribal College and University” has the meaning given in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

SEC. 10662. FINDINGS.

Congress finds that—

(1) the coming end of Moore's Law presents major technological challenges and opportunities for the United States and important implications for national security, economic competitiveness, and scientific discovery;

(2) future progress and innovation in microelectronics, and maintaining a robust domestic microelectronics supply chain, will require an approach that advances relevant materials science, electronic and photonic device technologies, processing and packaging technologies, manufacturing technologies, circuit, chip, and system architecture, and software system and algorithm development in a co-design fashion;

(3) the National Laboratories possess unique technical expertise and user facilities that are essential to overcoming foundational research challenges relevant to the topics described in

paragraph (2), and translating and transferring research outcomes to industry; and

(4) the assets described in paragraph (3) will enable the Department to drive advances in microelectronics that are essential to meeting future needs in areas critical to its missions as well as the future competitiveness of the domestic microelectronics industry, including high-performance computing, emerging data-centric computing approaches, and energy-efficient computing; optical sensors, sources, and wireless networks; and power electronics and electricity delivery systems.

SEC. 10663. MICROELECTRONICS RESEARCH PROGRAM.

(a) **IN GENERAL.**—The Secretary shall carry out a cross-cutting program of research, development, and demonstration of microelectronics relevant to the missions of the Department and in the service of the Nation's global competitiveness in the field of microelectronics. In carrying out this program, the Secretary shall coordinate across all relevant programs and offices of the Department.

(b) **RESEARCH AREAS.**—In carrying out the program under subsection (a), the Secretary shall award financial assistance to eligible entities under subsection (c) to carry out research projects in—

- (1) foundational science areas, including—
 - (A) materials sciences, chemical sciences, and plasma science synthesis, and fabrication;
 - (B) novel microelectronics devices, including emerging memory and storage technologies;
 - (C) diverse computing architectures and paradigms, including analog computing and edge computing;
 - (D) data-driven modeling and simulation;
 - (E) integrated sensing, power harvesting, and communications;
 - (F) component integration and subsystems;
 - (G) photonic integration; and
 - (H) development of co-design frameworks for all stages of microelectronics design, development, fabrication, and application;

(2) cybersecurity by design to result in trusted and resilient microelectronics;

(3) methods for leveraging advanced simulation and artificial intelligence to enhance co-design and discovery in microelectronics;

(4) in consultation with the Director of the National Institute of Standards and Technology, fabrication and processing science and metrology associated with microelectronics manufacturing, including lithography, patterning, surface deposition, etching, and cleaning;

(5) approaches for optimizing system-level energy efficiency of advanced computing systems, the electrical grid, power electronics, and other energy infrastructure;

(6) approaches for enhancing the durability and lifetime of radiation-hardened electronics;

(7) enhancement of microelectronics security, including the development of integrated devices, packages, and thermal management for severe environments and national security; and

(8) in coordination with other relevant initiatives at the Department, methods to improve the lifetime, maintenance, decommissioning, recycling, reuse, and sustainability of microelectronics components and systems, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that are determined to be vulnerable to disruption.

(c) **ELIGIBLE ENTITIES.**—The entities eligible to receive financial assistance under this section include—

- (1) an institution of higher education, including historically Black colleges and universities, Tribal colleges and universities, and minority serving institutions;
- (2) a nonprofit research organization;
- (3) a State research agency;
- (4) a National Laboratory;
- (5) a private commercial entity;
- (6) a partnership or consortium of 2 or more entities described in paragraphs (1) through (5); and

(7) any other entities the Secretary deems appropriate.

(d) **TECHNOLOGY TRANSFER.**—In carrying out the program described in subsection (a), the Secretary, in coordination with the Director of the Office of Technology Transitions, and in consultation with the private sector, shall support translational research and transfer of microelectronics technologies and identify emerging research and development needs of industry and government for the benefit of United States economic competitiveness.

(e) **WORKFORCE DEVELOPMENT.**—In carrying out the program under subsection (a), the Secretary shall support—

(1) workforce development through the existing authorities and mechanisms available to the Department, including internships, fellowships, individual investigator grants, and other activities the Secretary deems appropriate; and

(2) education and outreach activities to disseminate information and promote understanding of microelectronics and related fields among students at K-12, undergraduate, and graduate levels. Such activities may include educational programming with an emphasis on experiential and project-based learning. The Secretary shall consult with the Director of the National Science Foundation on activities carried out this paragraph.

(f) **OUTREACH.**—In carrying out activities under subsection (e), the Secretary shall ensure program outreach to recruit applicants and engage participants from all regions of the country, especially underserved communities and groups historically underrepresented in STEM.

(g) **REPORT.**—Not less than 180 days after the enactment of this Act, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, a report describing the goals, priorities, and anticipated outcomes of the program described in subsection (a).

(h) **FUNDING.**—There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$75,000,000 for fiscal year 2022;
- (2) \$100,000,000 for fiscal year 2023;
- (3) \$100,000,000 for fiscal year 2024;
- (4) \$100,000,000 for fiscal year 2025; and
- (5) \$100,000,000 for fiscal year 2026.

SEC. 10664. MICROELECTRONICS SCIENCE RESEARCH CENTERS.

(a) **IN GENERAL.**—In carrying out the program under section 10663, the Secretary, acting through the Director of the Office of Science, shall establish up to four Microelectronics Science Research Centers (referred to in this section as “Centers”) to conduct mission-driven research to address foundational challenges in the design, development, characterization, prototyping, demonstration, and fabrication of microelectronics and to facilitate the translation of research results to industry.

(b) **ACTIVITIES.**—The activities of the Centers authorized under this section shall include research, development, and demonstration activities for—

(1) accelerating the development of new microelectronics science and technology, including materials, devices, circuits, systems, architectures, fabrication tools, processes, diagnostics, modeling, synthesis, and, in consultation with the National Institute of Standards and Technology, metrology;

(2) advancing the sustainability and energy efficiency of new microelectronics devices, packages, and systems;

(3) application-driven co-design and prototyping of novel devices to facilitate laboratory-to-fabrication transition;

(4) advancing knowledge and experimental capabilities in surface and materials science, plasma science, and computational and theoretical methods, including artificial intelligence, multi-scale co-design, and advanced supercomputing capabilities to invent and manufacture revolutionary microelectronic devices;

(5) creating technology testbeds for prototyping platforms for validation and verification of new capabilities and sharing of ideas, intellectual property, and the unique facilities of the Department;

(6) supporting development of cybersecurity capabilities for computing architectures that measurably improve safety and security, and that are adaptable for existing and future applications; and

(7) supporting long-term and short-term workforce development in microelectronics.

(c) **REQUIREMENTS.**—

(1) **SELECTION AND DURATION.**—The Director of the Office of Science shall select Centers on a competitive, merit-reviewed basis for a period of not more than 5 years, subject to the availability of appropriations, beginning on the date of establishment of that Center.

(2) **APPLICATIONS.**—An eligible applicant under this subsection shall submit to the Director of the Office of Science an application at such time, in such manner, and containing such information as the Director deems appropriate.

(3) **ELIGIBLE APPLICANTS.**—The Director of the Office of Science shall consider applications from—

- (A) National Laboratories;
- (B) institutions of higher education, including historically Black colleges and universities, Tribal colleges and universities, and minority serving institutions;
- (C) private industry;
- (D) research centers;
- (E) consortia of 2 or more of the entities described in subparagraphs (A) through (D); and
- (F) any other entity that the Secretary deems appropriate.

(4) **RENEWAL.**—After the end of either period described in paragraph (1), the Director of the Office of Science may renew support for the Center for a period of not more than 5 years on a merit-reviewed basis. For a Center in operation for 10 years after its previous selection on a competitive, merit-reviewed basis, the Director may renew support for the center on a competitive, merit-reviewed basis for a period of not more than 5 years, and may subsequently provide an additional renewal on a merit-reviewed basis for a period of not more than 5 years.

(5) **TERMINATION.**—Consistent with the existing authorities of the Department, the Director of the Office of Science may terminate an underperforming center for cause during the performance period.

(d) **TECHNOLOGY TRANSFER.**—The Director of the Office of Science, in coordination with the Director of the Office of Technology Transitions, shall implement partnerships with industry groups for the purpose of facilitating the translation and transfer of research results produced by the Centers.

(e) **COORDINATION.**—The Secretary shall—

(1) establish a coordinating network to coordinate cross-cutting research and foster communication and collaboration among the Centers; and

(2) ensure the coordination, and avoid unnecessary duplication, of the activities of each Center with the activities of—

(A) other research entities of the Department, including—

- (i) the Nanoscale Science Research Centers;
- (ii) the National Quantum Information Science Research Centers;
- (iii) the Energy Frontier Research Centers;
- (iv) the Energy Innovation Hubs;
- (v) the National Laboratories; and
- (vi) other offices of the Department;

(B) the National Semiconductor Technology Center authorized in title XCIX of division H of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283);

(C) institutions of higher education;

(D) industry; and

(E) research activities carried out by other Federal agencies.

(f) **WORKFORCE DEVELOPMENT.**—Centers established under this section shall support workforce development through—

(1) incorporation of undergraduate students, postdoctoral fellows, graduate students, and early career researchers, as well as K-12 students through opportunities such as dual-enrollment programs and work-based learning programs, as applicable;

(2) hand-on research and equipment training programs;

(3) technical training and certificate programs for the skilled technical workforce;

(4) facilitation of engagement between academic, industry, and laboratory researchers; and

(5) public outreach activities, including to students at K-12, undergraduate, and graduate levels. Such activities may include educational programming with an emphasis on experiential and project-based learning.

(g) **OUTREACH.**—In carrying out activities under subsection (e), the Director shall ensure program outreach to recruit applicants and engage participants from all regions of the country, especially underserved communities and groups historically underrepresented in STEM.

(h) **INTELLECTUAL PROPERTY.**—The Secretary shall ensure that the intellectual property and value proposition created by the Centers are retained within the United States.

(i) **FUNDING.**—The Secretary shall allocate up to \$25,000,000 for each Center established under this section for each of fiscal years 2022 through 2026, subject to the availability of appropriations.

SEC. 10665. MISCELLANEOUS OTHER REQUIREMENTS.

All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work assisted in whole or in part under the program under sections 10663 and 10664 shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

DIVISION C—ENERGY AND COMMERCE

TITLE I—COMMUNICATIONS AND TECHNOLOGY

SEC. 20101. APPROPRIATIONS FOR WIRELESS SUPPLY CHAIN INNOVATION.

(a) **DIRECT APPROPRIATIONS.**—In addition to amounts otherwise available for such purposes, there is appropriated to the Public Wireless Supply Chain Innovation Fund established under section 9202(a)(1) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283), out of amounts in the Treasury not otherwise appropriated, \$1,500,000,000 for fiscal year 2022, to remain available through September 30, 2031.

(b) **USE OF FUNDS, ADMINISTRATION, AND OVERSIGHT.**—Of the amounts made available under subsection (a)—

(1) not more than 5 percent of the amounts allocated pursuant to subsection (c) in a given fiscal year may be used by the Assistant Secretary of Commerce for Communications and Information to administer the programs funded from the Public Wireless Supply Chain Innovation Fund; and

(2) not less than \$2,000,000 per fiscal year shall be transferred to the Office of Inspector General of the Department of Commerce for oversight related to activities conducted using amounts provided under this section.

(c) **ALLOCATION AUTHORITY.**—

(1) **SUBMISSION OF COST ESTIMATES.**—The President shall submit to Congress detailed account, program, and project allocations of the

amount recommended for allocation in a fiscal year from amounts made available under subsection (a)—

(A) for fiscal years 2022 and 2023, not later than 90 days after the date of enactment of this Act; and

(B) for each subsequent fiscal year through 2031, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code.

(2) **ALTERNATE ALLOCATION.**—

(A) **IN GENERAL.**—The Committees on Appropriations of the House of Representatives and the Senate may provide for alternate allocation of amounts recommended for allocation in a given fiscal year from amounts made available under subsection (a), including by account, program, and project.

(B) **ALLOCATION BY PRESIDENT.**—

(i) **NO ALTERNATE ALLOCATIONS.**—If Congress has not enacted legislation establishing alternate allocations, including by account, program, and project, by the date on which the Act making full-year appropriations for the Departments of Commerce and Justice, Science, and Related Agencies for the applicable fiscal year is enacted into law, only then shall amounts recommended for allocation for that fiscal year from amounts made available under subsection (a) be allocated by the President or apportioned or allotted by account, program, and project pursuant to title 31, United States Code.

(ii) **INSUFFICIENT ALTERNATE ALLOCATION.**—If Congress enacts legislation establishing alternate allocations, including by account, program, and project, for amounts recommended for allocation in a given fiscal year from amounts made available under subsection (a) that are less than the full amount recommended for allocation for that fiscal year, the difference between the amount recommended for allocation and the alternate allocation shall be allocated by the President and apportioned and allotted by account, program, and project pursuant to title 31, United States Code.

(d) **SEQUESTRATION.**—Section 255(g)(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting after “Postal Service Fund (18-4020-0-3-372).” the following:

“Public Wireless Supply Chain Innovation Fund.”

(e) **STATUTORY PAYGO SCORECARDS.**—The budgetary effects of this section shall not be entered on either PAYGO scorecard maintained pursuant to section 4(d) of the Statutory Pay-As-You-Go Act of 2010.

(f) **CONSTRUCTION PROJECTS.**—Section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply to a construction project that receives financial assistance from amounts made available under subsection (a).

(g) **WIRELESS SUPPLY CHAIN INNOVATION AND MULTILATERAL SECURITY CONSTRUCTION PROJECTS.**—Section 9202(a)(1)(B) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283) is amended by adding at the end the following:

“(iii) **CONSTRUCTION PROJECTS.**—Section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply to a construction project that receives financial assistance under this paragraph.”

SEC. 20102. UNDERSTANDING CYBERSECURITY OF MOBILE NETWORKS.

(a) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, the Assistant Secretary, in consultation with the Department of Homeland Security, shall submit to the Committee on Energy and Commerce and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Select Committee on Intelligence of the Senate a report examining the cybersecurity of mobile service networks and the vulnerability of

such networks and mobile devices to cyberattacks and surveillance conducted by adversaries.

(b) **MATTERS TO BE INCLUDED.**—The report required by subsection (a) shall include the following:

(1) An assessment of the degree to which providers of mobile service have addressed, are addressing, or have not addressed cybersecurity vulnerabilities (including vulnerabilities the exploitation of which could lead to surveillance conducted by adversaries) identified by academic and independent researchers, multistakeholder standards and technical organizations, industry experts, and Federal agencies, including in relevant reports of—

(A) the National Telecommunications and Information Administration;

(B) the National Institute of Standards and Technology; and

(C) the Department of Homeland Security, including—

(i) the Cybersecurity and Infrastructure Security Agency; and

(ii) the Science and Technology Directorate.

(2) A discussion of—

(A) the degree to which customers (including consumers, companies, and government agencies) consider cybersecurity as a factor when considering the purchase of mobile service and mobile devices; and

(B) the commercial availability of tools, frameworks, best practices, and other resources for enabling such customers to evaluate cybersecurity risk and price tradeoffs.

(3) A discussion of the degree to which providers of mobile service have implemented cybersecurity best practices and risk assessment frameworks.

(4) An estimate and discussion of the prevalence and efficacy of encryption and authentication algorithms and techniques used in each of the following:

(A) Mobile service.

(B) Mobile communications equipment or services.

(C) Commonly used mobile phones and other mobile devices.

(D) Commonly used mobile operating systems and communications software and applications.

(5) A discussion of the barriers for providers of mobile service to adopt more efficacious encryption and authentication algorithms and techniques and to prohibit the use of older encryption and authentication algorithms and techniques with established vulnerabilities in mobile service, mobile communications equipment or services, and mobile phones and other mobile devices.

(6) An estimate and discussion of the prevalence, usage, and availability of technologies that authenticate legitimate mobile service and mobile communications equipment or services to which mobile phones and other mobile devices are connected.

(7) An estimate and discussion of the prevalence, costs, commercial availability, and usage by adversaries in the United States of cell site simulators (often known as international mobile subscriber identity-catchers) and other mobile service surveillance and interception technologies.

(c) **CONSULTATION.**—In preparing the report required by subsection (a), the Assistant Secretary shall, to the degree practicable, consult with—

(1) the Federal Communications Commission;

(2) the National Institute of Standards and Technology;

(3) the intelligence community;

(4) the Cybersecurity and Infrastructure Security Agency of the Department of Homeland Security;

(5) the Science and Technology Directorate of the Department of Homeland Security;

(6) academic and independent researchers with expertise in privacy, encryption, cybersecurity, and network threats;

(7) participants in multistakeholder standards and technical organizations (including the 3rd Generation Partnership Project and the Internet Engineering Task Force);

(8) international stakeholders, in coordination with the Department of State as appropriate;

(9) providers of mobile service, including small providers (or the representatives of such providers) and rural providers (or the representatives of such providers);

(10) manufacturers, operators, and providers of mobile communications equipment or services and mobile phones and other mobile devices;

(11) developers of mobile operating systems and communications software and applications; and

(12) other experts that the Assistant Secretary considers appropriate.

(d) **SCOPE OF REPORT.**—The Assistant Secretary shall—

(1) limit the report required by subsection (a) to mobile service networks;

(2) exclude consideration of 5G protocols and networks in the report required by subsection (a);

(3) limit the assessment required by subsection (b)(1) to vulnerabilities that have been shown to be—

(A) exploited in non-laboratory settings; or

(B) feasibly and practicably exploitable in real-world conditions; and

(4) consider in the report required by subsection (a) vulnerabilities that have been effectively mitigated by manufacturers of mobile phones and other mobile devices.

(e) **FORM OF REPORT.**—

(1) **CLASSIFIED INFORMATION.**—The report required by subsection (a) shall be produced in unclassified form but may contain a classified annex.

(2) **POTENTIALLY EXPLOITABLE UNCLASSIFIED INFORMATION.**—The Assistant Secretary shall redact potentially exploitable unclassified information from the report required by subsection (a) but shall provide an unredacted form of the report to the committees described in such subsection.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$500,000 for fiscal year 2022. Such amount is authorized to remain available through fiscal year 2023.

(g) **DEFINITIONS.**—In this section:

(1) **ADVERSARY.**—The term “adversary” includes—

(A) any unauthorized hacker or other intruder into a mobile service network; and

(B) any foreign government or foreign non-government person engaged in a long-term pattern or serious instances of conduct significantly adverse to the national security of the United States or security and safety of United States persons.

(2) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information.

(3) **ENTITY.**—The term “entity” means a partnership, association, trust, joint venture, corporation, group, subgroup, or other organization.

(4) **INTELLIGENCE COMMUNITY.**—The term “intelligence community” has the meaning given that term in section 3 of the National Security Act of 1947 (50 U.S.C. 3003).

(5) **MOBILE COMMUNICATIONS EQUIPMENT OR SERVICE.**—The term “mobile communications equipment or service” means any equipment or service that is essential to the provision of mobile service.

(6) **MOBILE SERVICE.**—The term “mobile service” means, to the extent provided to United States customers, either or both of the following services:

(A) Commercial mobile service (as defined in section 332(d) of the Communications Act of 1934 (47 U.S.C. 332(d))).

(B) Commercial mobile data service (as defined in section 6001 of the Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1401)).

(7) **PERSON.**—The term “person” means an individual or entity.

(8) **UNITED STATES PERSON.**—The term “United States person” means—

(A) an individual who is a United States citizen or an alien lawfully admitted for permanent residence to the United States;

(B) an entity organized under the laws of the United States or any jurisdiction within the United States, including a foreign branch of such an entity; or

(C) any person in the United States.

SEC. 20103. INFORMATION AND COMMUNICATION TECHNOLOGY STRATEGY.

(a) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to the Committee on Energy and Commerce and the Permanent Select Committee on Intelligence and the Committee on Foreign Affairs of the House of Representatives and the Committee on Commerce, and Science, and Transportation and the Select Committee on Intelligence and the Committee on Foreign Relations of the Senate a report on the information and communication technology supply chain that—

(1) identifies—

(A) information and communication technology critical to the economic competitiveness of the United States; and

(B) the industrial capacity of—

(i) United States vendors that produce information and communication technology identified under subparagraph (A); and

(ii) trusted information and communication technology vendors that produce information and communication technology identified under subparagraph (A);

(2) assesses the economic competitiveness of vendors described under paragraph (1)(B);

(3) assesses whether, and to what extent, there is a dependence by providers of advanced telecommunications capability in the United States on information and communication technology identified under paragraph (1)(A) that is not trusted;

(4) identifies—

(A) what actions by the Federal Government are needed to support, and bolster the economic competitiveness of, trusted information and communication technology vendors; and

(B) what Federal resources are needed to reduce dependence by providers of advanced telecommunications capability in the United States on companies that—

(i) produce information and communication technology; and

(ii) are not trusted; and

(5) defines lines of effort and assigns responsibilities for a whole-of-Government response to ensuring the competitiveness of the information and communication technology supply chain in the United States.

(b) **WHOLE-OF-GOVERNMENT STRATEGY.**—

(1) **IN GENERAL.**—The Secretary shall develop, on the basis of the report required by subsection (a), a whole-of-Government strategy to ensure the economic competitiveness of trusted information and communication technology vendors that includes—

(A) recommendations on how—

(i) to strengthen the structure, resources, and authorities of the Federal Government to support the economic competitiveness of trusted information and communication technology vendors, including United States vendors that are trusted information and communication technology vendors; and

(ii) the Federal Government can address any barriers to a market-based solution for increasing the economic competitiveness of such information and communication technology vendors;

(B) defined lines of effort and responsibilities for Federal agencies to implement the strategy; and

(C) a description of—

(i) any change to a Federal program, Federal law, or structure of the Federal Government

necessary to implement any recommendation under subparagraph (A); and

(ii) any additional Federal resource necessary to implement any recommendation under subparagraph (A).

(2) **REPORT.**—Not later than 180 days after the submission of the report required by subsection (a), the Secretary shall submit to the Committee on Energy and Commerce and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Select Committee on Intelligence of the Senate a report containing the strategy developed under paragraph (1).

(c) **CONSULTATION REQUIRED.**—In carrying out subsections (a) and (b), the Secretary shall consult with—

(1) a cross-section of trusted information and communication technology vendors; and

(2) the Secretary of State, the Secretary of Homeland Security, the Attorney General, the Director of National Intelligence, the Chair of the Federal Communications Commission and any other head of an agency the Secretary determines necessary.

(d) **DEFINITIONS.**—In this section:

(1) **ADVANCED TELECOMMUNICATIONS CAPABILITY.**—The term “advanced telecommunications capability” has the meaning given that term in section 706 of the Telecommunications Act of 1996 (47 U.S.C. 1302).

(2) **INFORMATION AND COMMUNICATION TECHNOLOGY SUPPLY CHAIN.**—The term “information and communication technology supply chain” means all of the companies that produce information and communication technology.

(3) **INFORMATION AND COMMUNICATION TECHNOLOGY.**—The term “information and communication technology” means a technology (including software), component, or material that enables communications by radio or wire.

(4) **NOT TRUSTED.**—The term “not trusted” means, with respect to a company or information and communication technology, that the company or information and communication technology is determined by the Secretary to pose an unacceptable risk to the national security of the United States, or the security and safety of United States persons, based solely on one or more determination described under paragraphs (1) through (4) of section 2(c) of the Secure and Trusted Communications Networks Act of 2019 (47 U.S.C. 1601(c)).

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce, acting through the Assistant Secretary of Commerce for Communications and Information.

(6) **TRUSTED.**—The term “trusted” means, with respect to a company, that the Secretary has not determined that the company is not trusted.

(7) **TRUSTED INFORMATION AND COMMUNICATION TECHNOLOGY VENDOR.**—The term “trusted information and communication technology vendor” means a company—

(A) that produces information and communication technology; and

(B) that is trusted.

SEC. 20104. OPEN RAN OUTREACH.

(a) **IN GENERAL.**—The Assistant Secretary shall conduct outreach and provide technical assistance to small communications network providers—

(1) to raise awareness regarding the uses, benefits, and challenges of Open RAN networks and other open network architectures; and

(2) regarding participation in the Wireless Supply Chain Innovation Grant Program established under section 9202(a)(1) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283).

(b) **DEFINITIONS.**—In this section:

(1) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information,

acting through the head of the Office of Inter-
net Connectivity and Growth.

(2) **OPEN NETWORK ARCHITECTURE.**—The term “open network architecture” means Open RAN networks and other network elements that follow a set of published open standards for multi-vendor network equipment interoperability, including open core and open transport.

(3) **OPEN RAN NETWORK.**—The term “Open RAN network” means a wireless network that follows the Open Radio Access Network approach to standardization adopted by the O-RAN Alliance, Telecom Infra Project, or Third Generation Partnership Project (3GPP), or any similar set of published open standards for multi-vendor network equipment interoperability.

SEC. 20105. FUTURE NETWORKS.

(a) **ESTABLISHMENT.**—Not later than 120 days after the date of the enactment of this Act, the Commission shall establish a task force to be known as the “6G Task Force”.

(b) **MEMBERSHIP.**—

(1) **APPOINTMENT.**—The members of the Task Force shall be appointed by the Chair.

(2) **COMPOSITION.**—To the extent practicable, the membership of the Task Force shall be composed of the following:

(A) Representatives of companies in the communications industry, except companies that are determined by the Chair to be not trusted.

(B) Representatives of public interest organizations or academic institutions, except public interest organizations or academic institutions that are determined by the Chair to be not trusted.

(C) Representatives of the Federal Government, State governments, local governments, or Tribal Governments, with at least one member representing each such type of government.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than 1 year after the date on which the Task Force is established under subsection (a), the Task Force shall publish in the Federal Register and on the website of the Commission, and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, a report on sixth-generation wireless technology, including—

(A) the status of industry-led standards-setting bodies in setting standards for such technology;

(B) possible uses of such technology identified by industry-led standards-setting bodies that are setting standards for such technology;

(C) any limitations of such technology (including any supply chain or cybersecurity limitations) identified by industry-led standards-setting bodies that are setting standards for such technology; and

(D) how to best work with entities across the Federal Government, State governments, local governments, and Tribal Governments to leverage such technology, including with regard to siting, deployment, and adoption.

(2) **DRAFT REPORT; PUBLIC COMMENT.**—The Task Force shall—

(A) not later than 180 days after the date on which the Task Force is established under subsection (a), publish in the Federal Register and on the website of the Commission a draft of the report required by paragraph (1); and

(B) accept public comments on such draft and take such comments into consideration in preparing the final version of such report.

(d) **DEFINITIONS.**—In this section:

(1) **CHAIR.**—The term “Chair” means the Chair of the Commission.

(2) **COMMISSION.**—The term “Commission” means the Federal Communications Commission.

(3) **NOT TRUSTED.**—

(A) **IN GENERAL.**—The term “not trusted” means, with respect to an entity, that—

(i) the Chair has made a public determination that such entity is owned by, controlled by, or

subject to the influence of a foreign adversary; or

(ii) the Chair otherwise determines that such entity poses a threat to the national security of the United States.

(B) **CRITERIA FOR DETERMINATION.**—In making a determination under subparagraph (A)(ii), the Chair shall use the criteria described in paragraphs (1) through (4) of section 2(c) of the Secure and Trusted Communications Networks Act of 2019 (47 U.S.C. 1601(c)), as appropriate.

(4) **STATE.**—The term “State” has the meaning given such term in section 3 of the Communications Act of 1934 (47 U.S.C. 153).

(5) **TASK FORCE.**—The term “Task Force” means the 6G Task Force established under subsection (a).

SEC. 20106. NTIA POLICY AND CYBERSECURITY COORDINATION.

(a) **OFFICE OF POLICY DEVELOPMENT AND CYBERSECURITY.**—Part A of title I of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 901 et seq.) is amended by adding at the end the following:

“**SEC. 106. OFFICE OF POLICY DEVELOPMENT AND CYBERSECURITY.**

“(a) **ESTABLISHMENT.**—There shall be within the NTIA an office to be known as the Office of Policy Development and Cybersecurity (in this section referred to as the ‘Office’).

“(b) **ASSOCIATE ADMINISTRATOR.**—The head of the Office shall be an Associate Administrator for Policy Development and Cybersecurity (in this section referred to as the ‘Associate Administrator’), who shall report to the Assistant Secretary.

“(c) **DUTIES.**—

“(1) **IN GENERAL.**—The Associate Administrator shall oversee and conduct national communications and information policy analysis and development for the internet and communications technologies.

“(2) **PARTICULAR DUTIES.**—In carrying out paragraph (1), the Office shall—

“(A) develop, analyze, and advocate for market-based policies that promote innovation, competition, consumer access, digital inclusion, workforce development, and economic growth in the communications, media, and technology markets;

“(B) issue studies, as delegated by the Assistant Secretary or required by Congress, on how individuals in the United States access and use the internet, wireline and wireless telephony, mass media, other digital services, and video services;

“(C) coordinate transparent, consensus-based, multistakeholder processes to create guidance or to support the development and implementation of cybersecurity and privacy policies with respect to the internet and other communications networks;

“(D) promote increased collaboration between security researchers and providers of communications services and software system developers;

“(E) perform such duties as the Assistant Secretary considers appropriate relating to the program for preventing future vulnerabilities established under section 8(a) of the Secure and Trusted Communications Networks Act of 2019 (47 U.S.C. 1607(a));

“(F) advocate for policies that promote the security and resilience to cybersecurity incidents of communications networks while fostering innovation, including policies that promote secure communications network supply chains;

“(G) at the direction of the Assistant Secretary, present security of the digital economy and infrastructure and cybersecurity policy efforts before the Commission, Congress, and elsewhere;

“(H) provide advice and assistance to the Assistant Secretary in carrying out the policy responsibilities of the NTIA with respect to cybersecurity policy matters, including the evaluation of the impact of cybersecurity matters pending

before the Commission, other Federal agencies, and Congress;

“(I) in addition to the duties described in subparagraph (H), perform such other duties regarding the policy responsibilities of the NTIA with respect to cybersecurity policy matters as the Assistant Secretary considers appropriate;

“(J) develop policies to accelerate innovation and commercialization with respect to advances in technological understanding of communications technologies;

“(K) identify barriers to trust, security, innovation, and commercialization with respect to communications technologies, including access to capital and other resources, and ways to overcome such barriers;

“(L) provide public access to relevant data, research, and technical assistance on innovation and commercialization with respect to communications technologies, consistent with the protection of classified information;

“(M) strengthen collaboration on and coordination of policies relating to innovation and commercialization with respect to communications technologies, including policies focused on the needs of small businesses and rural communities—

“(i) within the Department of Commerce;

“(ii) between the Department of Commerce and State government agencies, as appropriate; and

“(iii) between the Department of Commerce and the Commission or any other Federal agency the Assistant Secretary determines to be necessary; and

“(N) solicit and consider feedback from small and rural communications service providers, as appropriate.”.

(b) **TRANSITIONAL RULES.**—

(1) **REDESIGNATION OF ASSOCIATE ADMINISTRATOR; CONTINUATION OF SERVICE.**—

(A) **REDESIGNATION.**—The position of Associate Administrator for Policy Analysis and Development at the NTIA is hereby redesignated as the position of Associate Administrator for Policy Development and Cybersecurity.

(B) **CONTINUATION OF SERVICE.**—The individual serving as Associate Administrator for Policy Analysis and Development at the NTIA on the date of the enactment of this Act shall become, as of such date, the Associate Administrator for Policy Development and Cybersecurity.

(2) **NTIA DEFINED.**—In this subsection, the term “NTIA” means the National Telecommunications and Information Administration.

SEC. 20107. AMERICAN CYBERSECURITY LITERACY.

(a) **IN GENERAL.**—The Secretary of Commerce, in consultation with the Director of the Cybersecurity and Infrastructure Security Agency, shall develop and conduct a cybersecurity literacy campaign (which shall be available in multiple languages and formats, if practicable) to increase the knowledge and awareness of the American people of best practices to reduce cybersecurity risks.

(b) **CAMPAIGN.**—To reduce cybersecurity risks, the Secretary of Commerce, in consultation with the Director of the Cybersecurity and Infrastructure Security Agency, shall—

(1) educate the American people on how to prevent and mitigate cyberattacks and cybersecurity risks, including by—

(A) instructing the American people on how to identify—

(i) phishing emails and messages; and

(ii) secure websites;

(B) instructing the American people about the benefits of changing default passwords on hardware and software technology;

(C) encouraging the use of cybersecurity tools, including—

(i) multi-factor authentication;

(ii) complex passwords;

(iii) anti-virus software;

(iv) patching and updating software and applications; and

(v) virtual private networks;
 (D) identifying the devices that could pose possible cybersecurity risks, including—
 (i) personal computers;
 (ii) smartphones;
 (iii) tablets;
 (iv) Wi-Fi routers;
 (v) smart home appliances;
 (vi) webcams;
 (vii) internet-connected monitors; and
 (viii) any other device that can be connected to the internet, including mobile devices other than smartphones and tablets;
 (E) encouraging Americans to—
 (i) regularly review mobile application permissions;

(ii) decline privilege requests from mobile applications that are unnecessary;
 (iii) download applications only from trusted vendors or sources; and
 (iv) consider a product's life cycle and the developer or manufacturer's commitment to providing security updates during a connected device's expected period of use; and
 (F) identifying the potential cybersecurity risks of using publicly available Wi-Fi networks and the methods a user may utilize to limit such risks; and

(2) encourage the American people to use resources to help mitigate the cybersecurity risks identified in this subsection.

SEC. 20108. COMMUNICATIONS SECURITY ADVISORY COUNCIL.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Commission shall establish a council, to advise the Commission on issues including the security, reliability, and interoperability of communications networks.

【(2) EXISTING ADVISORY COMMITTEES.—A Federal advisory committee of the Commission that is operating, on the date of the enactment of this Act, under a charter for the purpose of addressing the issues described in paragraph (1), satisfies the requirements of such paragraph if the membership of such committee complies with subsection (b) or is modified to comply with such subsection not later than 90 days after the date of the enactment of this Act.】

(b) MEMBERSHIP.—

(1) APPOINTMENT.—The members of the council shall be appointed by the Chair.

(2) COMPOSITION.—To the extent practicable, the membership of the council shall be composed of the following:

(A) Representatives of companies in the communications industry, except companies that are determined by the Chair to be not trusted.

(B) Representatives of public interest organizations or academic institutions, except public interest organizations or academic institutions that are determined by the Chair to be not trusted.

(C) Representatives of the Federal Government, State governments, local governments, or Tribal Governments, with at least one member representing each such type of government.

(3) KNOWLEDGE AND EXPERIENCE.—Each member of the council shall have knowledge and experience relevant to the purpose and goals of the council.

(4) TERMS.—

(A) IN GENERAL.—Each member of the council shall be appointed for a term of 2 years, except as provided in subparagraph (B).

(B) VACANCIES.—Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A member may serve after the expiration of that member's term until a successor has taken office.

(c) REPORTS.—

(1) IN GENERAL.—Not later than 2 years after the date on which the council is established under subsection (a), and every 2 years thereafter, the council shall submit to the Chair each

report adopted by the council during the preceding 2-year period, and any report adopted by any working group of the council during such period, including any such report of the council or a working group containing recommendations on ways to increase the security, reliability, and interoperability of communications networks, and on other relevant issues as appropriate.

(2) AVAILABILITY ON COMMISSION WEBSITE.—The Commission shall make each report submitted under paragraph (1) publicly available on the website of the Commission.

(d) DURATION.—Section 14(a)(2)(B) of the Federal Advisory Committee Act (5 U.S.C. App.; relating to the termination of advisory committees) shall not apply to the council.

(e) DEFINITIONS.—In this section:

(1) CHAIR.—The term “Chair” means the Chair of the Commission.

(2) COMMISSION.—The term “Commission” means the Federal Communications Commission.

(3) COUNCIL.—The term “council” means the council established under subsection (a).

(4) NOT TRUSTED.—

(A) IN GENERAL.—The term “not trusted” means, with respect to an entity, that—

(i) the Chair has made a public determination that such entity is owned by, controlled by, or subject to the influence of a foreign adversary; or

(ii) the Chair otherwise determines that such entity poses a threat to the national security of the United States.

(B) CRITERIA FOR DETERMINATION.—In making a determination under subparagraph (A)(ii), the Chair shall use the criteria described in paragraphs (1) through (4) of section 2(c) of the Secure and Trusted Communications Networks Act of 2019 (47 U.S.C. 1601(c)), as appropriate.

(5) STATE.—The term “State” has the meaning given such term in section 3 of the Communications Act of 1934 (47 U.S.C. 153).

SEC. 20109. PROMOTING UNITED STATES WIRELESS LEADERSHIP.

(a) IN GENERAL.—In order to enhance the representation of the United States and promote United States leadership in standards-setting bodies that set standards for 5G networks and for future generations of wireless communications networks, the Assistant Secretary shall, in consultation with the National Institute of Standards and Technology—

(1) equitably encourage participation by companies and a wide variety of relevant stakeholders, but not including any company or relevant stakeholder that the Assistant Secretary has determined to be not trusted, (to the extent such standards-setting bodies allow such stakeholders to participate) in such standards-setting bodies; and

(2) equitably offer technical expertise to companies and a wide variety of relevant stakeholders, but not including any company or relevant stakeholder that the Assistant Secretary has determined to be not trusted, (to the extent such standards-setting bodies allow such stakeholders to participate) to facilitate such participation.

(b) STANDARDS-SETTING BODIES.—The standards-setting bodies referred to in subsection (a) include—

(1) the International Organization for Standardization;

(2) the voluntary standards-setting bodies that develop protocols for wireless devices and other equipment, such as the 3GPP and the Institute of Electrical and Electronics Engineers; and

(3) any standards-setting body accredited by the American National Standards Institute or Alliance for Telecommunications Industry Solutions.

(c) BRIEFING.—Not later than 60 days after the date of the enactment of this Act, the Assistant Secretary shall brief the Committees on Energy and Commerce and Foreign Affairs of the House of Representatives and the Committees on Commerce, Science, and Transportation and

Foreign Relations of the Senate on a strategy to carry out subsection (a).

(d) DEFINITIONS.—In this section:

(1) 3GPP.—The term “3GPP” means the 3rd Generation Partnership Project.

(2) 5G NETWORK.—The term “5G network” means a fifth-generation mobile network as described by 3GPP Release 15 or higher.

(3) ASSISTANT SECRETARY.—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information.

(4) CLOUD COMPUTING.—The term “cloud computing” has the meaning given the term in Special Publication 800-145 of the National Institute of Standards and Technology, entitled “The NIST Definition of Cloud Computing”, published in September 2011, or any successor publication.

(5) COMMUNICATIONS NETWORK.—The term “communications network” means any of the following:

(A) A system enabling the transmission, between or among points specified by the user, of information of the user's choosing.

(B) Cloud computing resources.

(C) A network or system used to access cloud computing resources.

(6) NOT TRUSTED.—The term “not trusted” means, with respect to a company or stakeholder, that the company or stakeholder is determined by the Assistant Secretary to pose a threat to the national security of the United States. In making such a determination, the Assistant Secretary shall rely solely on one or more of the following determinations:

(A) A specific determination made by any executive branch interagency body with appropriate national security expertise, including the Federal Acquisition Security Council established under section 1322(a) of title 41, United States Code.

(B) A specific determination made by the Department of Commerce pursuant to Executive Order No. 13873 (84 Fed. Reg. 22689; relating to securing the information and communications technology and services supply chain).

(C) Whether a company or stakeholder produces or provides covered telecommunications equipment or services, as defined in section 889(f)(3) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232; 132 Stat. 1918).

TITLE II—CONSUMER PROTECTION AND COMMERCE

Subtitle A—Supply Chain Resilience

SEC. 20201. OFFICE OF MANUFACTURING SECURITY AND RESILIENCE.

(a) ESTABLISHMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish a Office of Manufacturing Security and Resilience.

(b) MISSION.—The mission of the Office shall be the following:

(1) Help to promote the leadership of the United States with respect to critical industries and supply chains that—

(A) strengthen the national security of the United States; and

(B) have a significant effect on the economic security of the United States.

(2) Encourage a Governmentwide approach through partnerships and collaboration with the private sector, labor organizations, the governments of countries that are allies or key international partners of the United States, States or political subdivisions thereof, and Tribal governments in order to—

(A) promote the resilience of supply chains; and

(B) identify, prepare for, and respond to supply chain shocks to—

(i) critical industries; and

(ii) supply chains.

(3) Monitor the resilience, diversity, security, and strength of supply chains and critical industries.

(4) Support the availability of critical goods from domestic manufacturers, domestic enterprises, and manufacturing operations in the

United States and in countries that are allies or key international partners.

(5) Assist the Federal Government in preparing for and responding to supply chain shocks, including by improving the flexible manufacturing capacities and capabilities in the United States.

(6) Encourage and incentivize the reduced reliance of domestic entities and domestic manufacturers on critical goods from countries of concern.

(7) Encourage the relocation of manufacturing facilities that manufacture critical goods from countries of concern to the United States and countries that are allies and key international partners to strengthen the resilience, diversity, security, and strength of supply chains.

(8) Support the creation of jobs with competitive wages in the United States manufacturing sector.

(9) Encourage manufacturing growth and opportunities in economically distressed areas and underserved communities.

(10) Promote the health of the economy of the United States and the competitiveness of manufacturing in the United States.

(11) Coordinate executive branch actions necessary to carry out the functions described in paragraphs (1) through (10).

(c) ASSISTANT SECRETARY OF THE OFFICE.—

(1) APPOINTMENT AND TERM.—The head of the Office shall be the Assistant Secretary of Manufacturing Security and Resilience, appointed by the President, by and with the advice and consent of the Senate, for a term of not more than 5 years. The Assistant Secretary of Manufacturing Security and Resilience may function as and be known as the United States Chief Manufacturing Officer.

(2) PAY.—The Assistant Secretary shall be compensated at the rate in effect for level II of the Executive Schedule under section 5313 of title 5, United States Code.

(3) ADMINISTRATIVE AUTHORITIES.—The Assistant Secretary may appoint officers and employees in accordance with chapter 51 and subchapter III of chapter 53 of title 5, United States Code.

SEC. 20202. UNITED STATES STRATEGY TO COUNTER THREATS TO SUPPLY CHAINS.

(a) IN GENERAL.—In accordance with Executive Order 14017 (86 Fed. Reg. 11849 relating to America's supply chains), the Assistant Secretary shall, not later than 1 year after the date of the enactment of this Act, develop and implement a strategy taking a Governmentwide approach to support the resilience, diversity, security, and strength of supply chains.

(b) ELEMENTS.—The strategy required under subsection (a) shall include the following:

(1) A plan to do the following:

(A) Execute a unified national effort to reduce reliance on concentrated supply chains and protect against threats from countries of concern relating to supply chains.

(B) Support sufficient access to critical goods by mitigating supply chain vulnerabilities, including supply chains concentrated in countries of concern.

(C) Collaborate with other relevant Federal agencies to assist allies or key international partners build capacity for manufacturing critical goods.

(D) Incentivize (through grants, loans, loan guarantees, and equity investment authorized under section 20204) and identify other means, as appropriate—

(i) for domestic manufacturers that manufacture critical goods to—

(I) relocate manufacturing facilities, industrial equipment, or operations related to the production of critical goods from countries of concern to the United States or to other allies or key international partners; and

(II) to support manufacturing facilities, industrial equipment, or operations to increase the production of critical goods and meet demand for such goods; and

(ii) for domestic manufacturers that do not manufacture critical goods to make necessary or appropriate modifications to existing manufacturing facilities, industrial equipment, manufacturing technology, or operations in order to manufacture 1 or more critical goods.

(E) Describe the manner and processes through which the Assistant Secretary will implement the program under section 20204, including through consultation with, or requests for information from, the heads of any relevant Federal agencies, including those with jurisdiction over supply chains, for the purposes of ensuring the program authorized under section 20204—

(i) supports the resilience, diversity, security and strength of a supply chain; and

(ii) meets the national security and economic security needs of the United States.

(F) Strengthen and increase trade through new and revised trade agreements and other forms of engagement between the United States and allies or key international partners in order to mitigate—

(i) supply chain vulnerabilities; and

(ii) the effects of supply chain shocks.

(G) Recover from supply chain shocks.

(H) Identify, in coordination with other relevant Federal agencies, actions relating to supply chains with which the United States might—

(i) raise living standards;

(ii) increase employment opportunities;

(iii) address the underlying causes of irregular migration; and

(iv) improve critical industry supply chain response to supply chain shocks.

(I) Protect against supply chain shocks from countries of concern relating to supply chains.

(J) Provide recommendations to effectuate the strategy under this section.

(2) An assessment of the following:

(A) The extent to which any office or bureau within the Department of Commerce that the Assistant Secretary determines has duties, responsibilities, resources, or expertise that support or duplicate the mission of the Office.

(B) The purpose of each office and bureau identified under subparagraph (A).

(C) Whether the Assistant Secretary will coordinate with each such office and bureau in implementing the requirements of this Act.

(D) If the Assistant Secretary makes a positive determination under subparagraph (C), the effectiveness and efficiency of the Assistant Secretary and each such office and bureau at implementing the requirements of this Act.

(3) Recommendations, if applicable and consistent with the objectives of this Act, on consolidating functions amongst the Office and each such office and bureau identified under paragraph (2)(A).

(c) SUBMISSION OF STRATEGY.—

(1) IN GENERAL.—Not later than 450 days after the date of the enactment of this Act, the Assistant Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and publish on the website of the Office, a report containing the strategy developed under this section.

(2) UPDATE.—Not less than once every 4 years after the date on which the strategy is submitted under paragraph (1), the Assistant Secretary shall submit to Congress an update to such strategy.

(3) FORM.—The report submitted under paragraph (1), and any update submitted under paragraph (2), shall be submitted in unclassified form and may include a classified annex.

SEC. 20203. CRITICAL SUPPLY CHAIN MONITORING PROGRAM.

(a) ACTIVITIES.—The Assistant Secretary shall carry out the following activities:

(1) In consultation with the coordination group established under subsection (c)—

(A) map, monitor, and model supply chains, including by—

(i) monitoring the financial and operational conditions of domestic manufacturers and domestic enterprises;

(ii) performing stress tests for critical industries, supply chains, domestic enterprises, and domestic manufacturers;

(iii) monitoring the demand and supply of critical goods and services, industrial equipment, and manufacturing technology; and

(iv) monitoring manufacturing, warehousing, transportation, and distribution; and

(B) identify high priority supply chain gaps and vulnerabilities in critical industries and supply chains that—

(i) exist as of the date of the enactment of this section; or

(ii) are anticipated in the future.

(2) Identify and evaluate the following:

(A) Supply chain shocks that may disrupt, strain, compromise, or eliminate a supply chain.

(B) The manufacturing needs critical to the national security and economic security of the United States.

(C) The diversity, security, reliability, and strength of—

(i) supply chains, including single point of failure, single producer, or consolidated manufacturing; and

(ii) the sources of critical goods, industrial equipment, or manufacturing technology, including those obtained or purchased from a person outside of the United States or imported into the United States.

(D) The availability, capability, and capacity of domestic manufacturers or manufacturers located in countries that are allies or key international partners to serve as a source of a critical good, industrial equipment, or manufacturing technology.

(E) The effect on the economic security of the United States, including jobs and wages, that may result from the disruption, strain, compromise, or elimination of a supply chain.

(F) The effect on the national security of the United States that may result from the disruption, strain, compromise, or elimination of a supply chain.

(G) The state of the manufacturing workforce, including—

(i) the needs of domestic manufacturers; and

(ii) opportunities to create high-quality manufacturing jobs.

(H) Investments in critical goods, industrial equipment, or manufacturing technology from non-Federal sources.

(3) In consultation with the coordination group established under subsection (c), States or political subdivisions thereof, and Tribal governments, and, as appropriate, in cooperation with the governments of countries that are allies or key international partners of the United States, the following:

(A) Identify opportunities to reduce supply chain gaps and vulnerabilities in critical industries and supply chains.

(B) Encourage partnerships between the Federal Government and industry, labor organizations, States and political subdivisions thereof, and territorial, and Tribal governments to better respond to supply chain shocks to critical industries and supply chains and coordinate response efforts.

(C) Encourage partnerships between the Federal Government and the governments of countries that are allies or key international partners of the United States.

(D) Develop or identify opportunities to build the capacity of the United States in critical industries and supply chains.

(E) Develop or identify opportunities to build the capacity of countries that are allies or key international partners of the United States in critical industries and supply chains.

(4) In coordination with the Secretary of State and the United States Trade Representative work with governments of countries that are allies or key international partners of the United States to promote diversified and resilient supply chains that ensure the supply of critical

goods, industrial equipment, and manufacturing technology to the United States and companies of countries that are allies or key international partners of the United States.

(5) Coordinate with other offices and divisions of the Department of Commerce and other Federal agencies to use authorities, as of the date of the enactment of this section, to encourage the resilience of supply chains of critical industries.

(b) **CONTINUOUS MONITORING.**—The Assistant Secretary, in consultation with the head of any relevant Federal agency, including those with jurisdiction over supply chains, shall continuously monitor the resilience, diversity, security, and strength of supply chains.

(c) **COORDINATION GROUP.**—

(1) **IN GENERAL.**—In carrying out the applicable activities under subsection (a), the Assistant Secretary shall establish a unified coordination group led by the Assistant Secretary which shall include private sector partners, labor organizations, and, as appropriate, federally funded research and development centers, to serve as a method for consultation between and among Federal agencies described under subsection (g) to plan for and respond to supply chain shocks and support the resilience, diversity, security, and strength of supply chains.

(2) **IMPLEMENTATION.**—In consultation with the unified coordination group established under paragraph (1), the Assistant Secretary shall do the following:

(A) Acquire on a voluntary basis technical, engineering, and operational supply chain information from the private sector in a manner that ensures any supply chain information provided by the private sector is kept confidential and is exempt from disclosure under section 552(b)(3) of title 5, United States Code (commonly known as the “Freedom of Information Act”).

(B) Study the supply chain information acquired under subparagraph (A) to—

- (i) identify supply chains;
- (ii) assess the resilience of supply chains;
- (iii) identify supply chains vulnerable to disruption, strain, compromise, or elimination; and
- (iv) inform planning.

(C) Convene with relevant private sector entities to share best practices, planning, and capabilities to respond to potential supply chain shocks.

(D) Develop contingency plans and coordination mechanisms to ensure an effective and coordinated response to potential supply chain shocks.

(3) **SUBGROUPS.**—In carrying out the activities described in paragraph (2), the Assistant Secretary may establish subgroups of the unified coordination group established under paragraph (1) led by the head of an appropriate Federal agency.

(4) **INTERNATIONAL COOPERATION.**—The Secretary, in consultation with other relevant Federal agencies, may cooperate with governments of countries that are allies or key international partners of the United States relating to enhancing the security and resilience of supply chains in response to supply chain shocks.

(d) **DESIGNATIONS.**—The Assistant Secretary shall—

(1) not later than 270 days after the date of the enactment of this Act, designate—

- (A) critical industries;
- (B) supply chains; and
- (C) critical goods;

(2) provide for a period of public comment and review in carrying out paragraph (1); and

(3) update the designations made under paragraph (1) not less frequently than once every four years.

(e) **QUADRENNIAL REPORT ON SUPPLY CHAIN RESILIENCE AND DOMESTIC MANUFACTURING.**—

(1) **IN GENERAL.**—Not later than four years after the date on which the final Sectoral Supply Chain Assessments report on supply chains required under section 4(a) of Executive Order 14017 (relating to America’s supply chains) is

submitted, and not later than once every four years thereafter, the Assistant Secretary, in coordination with the head of each relevant Federal agency and relevant private sector entities, labor organizations, States and political subdivisions thereof, and Territorial and Tribal governments, shall submit to the relevant committees of Congress and post on the website of the Assistant Secretary a report on supply chain resilience and domestic manufacturing (in this subsection referred to as the “report”) to strengthen, improve, and preserve the resilience, diversity, security, and strength of supply chains.

(2) **CONTENTS OF REPORT.**—The report shall include the following:

(A) An identification of—

- (i) the critical industries, supply chains, and critical goods designated under subsection (d);
- (ii) supplies that are critical to the crisis preparedness of the United States;
- (iii) substitutes for critical goods, industrial equipment, and manufacturing technology;
- (iv) the matters identified and evaluated pursuant to subsection (a)(2); and
- (v) countries that are critical to addressing international and domestic supply chain weaknesses and vulnerabilities.

(B) A description of—

- (i) the manufacturing base and supply chains in the United States, including the manufacturing base and supply chains for—
- (I) industrial equipment;
- (II) critical goods, including raw materials and semiconductors, that are essential to the production of technologies and supplies for critical industries; and
- (III) manufacturing technology; and
- (ii) the ability of the United States to—
- (I) maintain readiness with respect to preparing for and responding to supply chain shocks; and
- (II) in response to a supply chain shock—
- (aa) surge production in critical industries;
- (bb) surge production of critical goods and industrial equipment; and
- (cc) maintain access to critical goods, industrial equipment, and manufacturing technology.

(C) An assessment and description of—

- (i) demand and supply of critical goods, industrial equipment, and manufacturing technology;
- (ii) production of critical goods, industrial equipment, and manufacturing technology by domestic manufacturers; and
- (iii) the capability and capacity of domestic manufacturers and manufacturers in countries that are allies or key international partners of the United States to manufacture critical goods, industrial equipment, and manufacturing technology.

(D) An identification of defense, intelligence, homeland, economic, domestic labor supply, natural, geopolitical, or other contingencies and other supply chain shocks that may disrupt, strain, compromise, or eliminate a supply chain.

(E) An assessment of—

- (i) the resilience and capacity of the manufacturing base, supply chains, and workforce of the United States and allies and key international partners that can sustain critical industries through a supply chain shock;
- (ii) the flexible manufacturing capacity and capabilities available in the United States in the case of a supply chain shock; and
- (iii) the effect innovation has on domestic manufacturing.

(F) Specific recommendations to improve the security and resilience of manufacturing capacity and supply chains through the following:

- (i) Developing long-term strategies.
- (ii) Increasing visibility into the networks and capabilities of suppliers and domestic manufacturers.
- (iii) Identifying industry best practices.
- (iv) Evaluating how diverse supplier networks, multi-platform and multi-region production capabilities and sources, and integrated global and regional supply chains can—

(I) enhance the resilience of critical industries and manufacturing capabilities in the United States;

(II) support and create jobs in the United States; and

(III) support access of the United States to critical goods during a supply chain shock.

(v) Identifying and mitigating risks, including—

(I) the financial and operational risks of a supply chain;

(II) significant vulnerabilities to supply chain shocks and other emergencies; and

(III) exposure to gaps and vulnerabilities in—

- (aa) domestic capacity or capabilities; and
- (bb) sources of imports needed to sustain critical industries and supply chains.

(vi) Identifying enterprise resource planning systems that are—

- (I) compatible across supply chain tiers; and
- (II) affordable for small and medium-sized businesses.

(vii) Understanding the total cost of ownership, total value contribution, and other best practices that encourage strategic partnerships throughout supply chains.

(viii) Understanding Federal procurement opportunities to increase resilience of supply chains and fill gaps in domestic purchasing of critical goods.

(ix) Identifying policies that maximize job retention and creation in the United States, including workforce development programs.

(x) Identifying opportunities to work with allies or key international partners of the United States to build more resilient critical industry supply chains and mitigate risks.

(xi) Identifying areas requiring further investment in research and development or workforce education.

(xii) Identifying such other services as the Assistant Secretary determines necessary.

(G) Guidance to the National Science Foundation and other relevant Federal agencies with respect to critical goods, industrial equipment, and manufacturing technologies that should be prioritized.

(H) With respect to countries that are allies or key international partners of the United States—

- (i) a review of and, if appropriate, recommendations for expanding the sourcing of critical goods, industrial equipment, and manufacturing technology associated with critical industries from those countries; and
- (ii) a recommendation to coordinate with those countries on—
- (I) sourcing critical goods, industrial equipment, and manufacturing technology; and
- (II) developing, sustaining, and expanding production and availability of supply chains, critical goods, industrial equipment, and manufacturing technology during a supply chain shock.

(I) Recommendations for strengthening the financial and operational health of small and medium-sized businesses in supply chains of the United States and countries that are allies or key international partners of the United States to mitigate risks and ensure diverse and competitive supplier markets that are less vulnerable to failure.

(J) An assessment of policies, rules, and regulations that impact the operating costs of domestic manufacturers and inhibit the ability for domestic manufacturers to compete with global competitors.

(K) Recommendations regarding freight and logistics necessary to support supply chains.

(I) enhance the resilience of critical industries and manufacturing capabilities in the United States;

(II) support and create jobs in the United States; and

(III) support access of the United States to critical goods during a supply chain shock.

(v) Identifying and mitigating risks, including—

(I) the financial and operational risks of a supply chain;

(II) significant vulnerabilities to supply chain shocks and other emergencies; and

(III) exposure to gaps and vulnerabilities in—

- (aa) domestic capacity or capabilities; and
- (bb) sources of imports needed to sustain critical industries and supply chains.

(vi) Identifying enterprise resource planning systems that are—

- (I) compatible across supply chain tiers; and
- (II) affordable for small and medium-sized businesses.

(vii) Understanding the total cost of ownership, total value contribution, and other best practices that encourage strategic partnerships throughout supply chains.

(viii) Understanding Federal procurement opportunities to increase resilience of supply chains and fill gaps in domestic purchasing of critical goods.

(ix) Identifying policies that maximize job retention and creation in the United States, including workforce development programs.

(x) Identifying opportunities to work with allies or key international partners of the United States to build more resilient critical industry supply chains and mitigate risks.

(xi) Identifying areas requiring further investment in research and development or workforce education.

(xii) Identifying such other services as the Assistant Secretary determines necessary.

(G) Guidance to the National Science Foundation and other relevant Federal agencies with respect to critical goods, industrial equipment, and manufacturing technologies that should be prioritized.

(H) With respect to countries that are allies or key international partners of the United States—

- (i) a review of and, if appropriate, recommendations for expanding the sourcing of critical goods, industrial equipment, and manufacturing technology associated with critical industries from those countries; and
- (ii) a recommendation to coordinate with those countries on—
- (I) sourcing critical goods, industrial equipment, and manufacturing technology; and
- (II) developing, sustaining, and expanding production and availability of supply chains, critical goods, industrial equipment, and manufacturing technology during a supply chain shock.

(I) Recommendations for strengthening the financial and operational health of small and medium-sized businesses in supply chains of the United States and countries that are allies or key international partners of the United States to mitigate risks and ensure diverse and competitive supplier markets that are less vulnerable to failure.

(J) An assessment of policies, rules, and regulations that impact the operating costs of domestic manufacturers and inhibit the ability for domestic manufacturers to compete with global competitors.

(K) Recommendations regarding freight and logistics necessary to support supply chains.

(3) **PROHIBITION.**—The report may not include—

- (A) supply chain information that is not aggregated; or
- (B) confidential business information of a private sector entity.

(4) **COLLABORATION.**—The head of any Federal agency with jurisdiction over any supply chain shall collaborate with the Assistant Secretary and provide any information, data, or assistance that the Assistant Secretary determines to be necessary for developing the report.

(5) **FORM.**—The report, and any update submitted thereafter, shall be submitted in unclassified form and may include a classified annex.

(6) **PUBLIC COMMENT.**—The Assistant Secretary shall provide for a period of public comment and review in developing the report.

(f) **REPORT TO CONGRESS.**—Concurrent with the annual submission by the Secretary of the budget under section 1105 of title 31, United States Code, the Secretary shall submit to the relevant committees of Congress and post on the website of the Assistant Secretary a report that contains a summary of the activities required under subsection (a) carried out under this section during the fiscal year covered by the report. Such report shall be submitted in unclassified form and may include a classified annex.

(g) **COORDINATION.**—

(1) **IN GENERAL.**—In implementing the requirements under subsection (e), the Assistant Secretary shall, as appropriate coordinate with—

(A) the heads of appropriate Federal agencies, including—

- (i) the Secretary of State; and
- (ii) the United States Trade Representative; and

(B) the Attorney General and the Federal Trade Commission with respect to—

(i) advice on the design and activities of the unified coordination group described in subsection (c)(1); and

(ii) ensuring compliance with Federal anti-trust law.

(2) **SPECIFIC COORDINATION.**—In carrying out the requirements under this section, with respect to supply chains involving specific sectors, the Assistant Secretary shall, as appropriate, coordinate with—

- (A) the Secretary of Defense;
- (B) the Secretary of Homeland Security;
- (C) the Secretary of the Treasury;
- (D) the Secretary of Energy;
- (E) the Secretary of Transportation;
- (F) the Secretary of Agriculture;
- (G) the Director of National Intelligence;
- (H) the Secretary of Health and Human Services;

- (I) the Small Business Administration;
- (J) the Secretary of Labor; and
- (K) the head of any other relevant Federal agency, as appropriate.

(h) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to require any private entity—

(1) to share information with the Secretary or Assistant Secretary;

(2) to request assistance from the Secretary or Assistant Secretary; or

(3) that requests assistance from the Secretary or Assistant Secretary to implement any measure or recommendation suggested by the Secretary or Assistant Secretary.

(i) **PROTECTIONS.**—

(1) **IN GENERAL.**—Supply chain information that is voluntarily and lawfully submitted by a private entity and accompanied by an express statement described in paragraph (2) of this subsection—

(A) shall be exempt from disclosure under section 552(b)(3) of title 5, United States Code;

(B) shall not be made available by any Federal, State, local, or Tribal authority pursuant to any Federal, State, local, or Tribal law requiring public disclosure of information or records; and

(C) shall not, without the written consent of the person or entity submitting such information, be used directly by the Assistant Secretary, or any other Federal, State, or local authority in any civil enforcement action brought by a Federal, State, or local authority.

(2) **EXPRESS STATEMENT.**—The express statement described in this paragraph, with respect to information or records, is—

(A) in the case of written information or records, a written marking on the information or records substantially similar to the following: “This information is voluntarily submitted to

the Federal Government in expectation of protection from disclosure as provided by the provisions of section 20203(i) of the America COMPETES Act of 2022.”; or

(B) in the case of oral information, a written statement similar to the statement described in subparagraph (A) submitted within a reasonable period following the oral communication.

(3) **INAPPLICABILITY TO SEMICONDUCTOR INCENTIVE PROGRAM.**—This subsection shall not apply to the voluntary submission of supply chain information by a private entity in an application for Federal financial assistance under section 9902 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283).

(j) **NO EFFECT ON DISCOVERY.**—Subject to subsection (i), nothing in this section, nor any rule, regulation, or amendment shall be construed to create a defense to a discovery request, or otherwise limit or affect the discovery of supply chain information from a private entity arising from a cause of action authorized under any under Federal, State, local, or Tribal law.

(k) **CONSISTENCY WITH INTERNATIONAL AGREEMENTS.**—This section shall be applied in a manner consistent with United States obligations under international agreements.

(l) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Assistant Secretary \$500,000,000 for fiscal years 2022 through 2027, to remain available until expended, to carry out this section, of which not more than 2 percent per fiscal year may be used for administrative costs.

SEC. 20204. MANUFACTURING SECURITY AND RESILIENCE PROGRAM.

(a) **IN GENERAL.**—The Assistant Secretary shall support the resilience, diversity, security, and strength of supply chains by providing grants, loans, and loan guarantees for eligible activities to eligible entities.

(b) **APPLICATION.**—The Assistant Secretary may not provide a grant, loan, or loan guarantee under this section to an eligible entity unless the eligible entity submits to the Assistant Secretary an application at such time, in such form, and containing such information as the Assistant Secretary may require, including—

(1) a description of the eligible activity to be carried out with the grant, loan, or loan guarantee;

(2) a description of the supply chain supported by the eligible activity;

(3) an estimate of the total costs of the eligible activity; and

(4) in the case of an application submitted for an eligible activity described in subparagraph (B) or (C) of subsection (c)(2), a description of domestic manufacturing operations for the production of the critical good.

(c) **ELIGIBLE ACTIVITIES.**—

(1) **ACTIVITIES IN THE UNITED STATES.**—The following activities may be carried out with a grant, loan, or loan guarantee under this section:

(A) The development, diversification, preservation, improvement, support, restoration, or expansion of supply chains and the domestic manufacturing of critical goods, industrial equipment, and manufacturing technology, including activities that support any of the following:

(i) The manufacturing of a critical good or industrial equipment in the United States.

(ii) The commercialization, adoption, deployment, or use of manufacturing technology by domestic manufacturers in the United States.

(iii) The design, engineering, construction, expansion, improvement, repair, or maintenance of critical infrastructure or a manufacturing facility in the United States.

(iv) The purchase, lease, acquisition, enhancement, or retrofitting of industrial equipment for use in the United States.

(v) The purchase, lease, or other acquisition of critical goods, industrial equipment, or manufacturing technology from reliable sources.

(vi) The relocation of manufacturing facilities or operations related to the production of a crit-

ical good out of a country of concern and into the United States.

(vii) The modification of manufacturing facilities, industrial equipment, or operations related to the manufacture of critical goods to—

(I) create new capabilities for an eligible entity to manufacture critical goods in the United States;

(II) expand existing operations to increase the manufacture of critical goods in the United States; or

(III) accommodate any manufacturing operations related to critical goods that are being relocated to the United States.

(viii) The development of tools or processes that relate to procuring, transporting, or storing critical goods.

(B) The manufacture or acquisition of a substitute for a critical good, industrial equipment, or manufacturing technology.

(C) The establishment, improvement, development, expansion, or preservation of surge capacity or stockpiling of a critical good or industrial equipment, as appropriate and necessary.

(D) The establishment, improvement, or preservation of diverse, secure, reliable, and strong sources and locations of a critical good in the United States.

(2) **ACTIVITIES RELATING TO ALLIES AND KEY INTERNATIONAL PARTNERS.**—The following activities may be carried out with a loan or loan guarantee under this section:

(A) The design, engineering, construction, expansion, improvement, repair, or maintenance of critical infrastructure or a manufacturing facility in an ally or key international partner.

(B) The relocation of manufacturing facilities or operations related to the production of a critical good out of a country of concern and into an ally or key international partner, with a priority for countries—

(i) in the covered Western Hemisphere countries;

(ii) that are member states of the North Atlantic Treaty Organization (NATO);

(iii) that are designated as a major non-NATO ally pursuant to section 517(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321k(a)); and

(iv) identified under section 20203(e)(2)(A)(v).

(C) The modification of manufacturing facilities, industrial equipment, or operations related to the manufacture of critical goods to—

(i) create new capabilities for an eligible entity to manufacture critical goods in an ally or key international partner;

(ii) expand existing operations to increase the manufacture of critical goods in an ally or key international partner; or

(iii) accommodate any manufacturing operations related to critical goods that are being relocated to an ally or key international partner.

(d) **ELIGIBLE ENTITIES.**—The following entities are eligible to receive grants, loans, and loan guarantees under this section:

(1) A domestic manufacturer.

(2) A domestic enterprise.

(3) A State or a county, city, or other political subdivision of a State.

(4) A Tribal government.

(5) A manufacturing extension center established as part of the Hollings Manufacturing Extension Partnership.

(6) A Manufacturing USA institute as described in section 34(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278s(d)).

(7) An institution of higher education acting as part of a consortium, partnership, or joint venture with another eligible entity described in paragraphs (1) through (6).

(8) A public or private nonprofit organization or association acting as part of a consortium, partnership, or joint venture with another eligible entity described in paragraphs (1) through (6).

(9) A consortium, partnership, or joint venture of two or more eligible entities described under paragraphs (1) through (8).

(e) **REQUIREMENTS.**—The Assistant Secretary may only provide a grant, loan, or loan guarantee to an eligible entity if the Assistant Secretary makes a determination of the following:

(1) The grant, loan, or loan guarantee is for an eligible activity.

(2) Without the grant, loan, or loan guarantee, the eligible entity would not be able to fund or finance the eligible activity under reasonable terms and conditions.

(3) The grant, loan, or loan guarantee is a cost effective, expedient, and practical form of financial assistance for the eligible activity.

(4) There is a reasonable assurance that—

(A) the eligible entity will implement the eligible activity in accordance with the application submitted under subsection (b); and

(B) the eligible activity will support—

(i) the resilience, diversity, security, or strength of a supply chain; and

(ii) the national security or economic security of the United States.

(5) The eligible entity agrees to provide the information required under subsection (m)(3).

(6) For an eligible activity described in subparagraph (B) or (C) of subsection (c)(2), relocation of a manufacturing facility or operations into the United States is uneconomical.

(7) The eligible activity does not support the production of a critical good subject to an antidumping or countervailing duty order imposed by the United States.

(f) **CRITERIA.**—The Assistant Secretary shall establish criteria for the awarding of grants, loans, and loan guarantees that meet the requirements of subsection (e), including the following:

(1) The extent to which the eligible activity supports the resilience, diversity, security, and strength of a supply chain.

(2) The extent to which the eligible activity is funded or financed by non-Federal sources.

(3) The extent to which the grant, loan, or loan guarantee will assist small and medium-sized domestic manufacturers.

(4) The amount of appropriations that are required to fund or finance the grant, loan, or loan guarantee.

(g) **RELOCATION CONSIDERATION.**—In making a determination to provide a loan or loan guarantee to an eligible entity for an eligible activity described in subparagraph (B) or (C) of subsection (c)(2), the Assistant Secretary—

(1) shall—

(A) consult with the Secretary of State and the heads of other relevant Federal agencies, as appropriate; and

(B) to the extent practicable, ensure no single ally or key international partner benefits from an outsized amount of Federal funding provided under this section; and

(2) may take into considerations labor and environmental standards of the ally or key international partner when considering the siting locations for the eligible activity.

(h) **RELOCATION LIMITATIONS.**—As a condition of receiving a loan or loan guarantee for an eligible activity described under subparagraph (B) or (C) of subsection (c)(2), the Assistant Secretary shall prohibit an eligible entity from making capital or labor investments in the manufacturing facility or operation in the country of concern for the duration of the grant, loan, or loan guarantee.

(i) **GRANT COST SHARE.**—

(1) **IN GENERAL.**—The amount of a grant under this section may not exceed 80 percent of the reasonably anticipated costs of the eligible activity for which the grant is made.

(2) **WAIVER.**—Upon providing written justification for a determination made pursuant to this paragraph, which may be submitted with a classified annex to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, the Assistant Secretary may waive the cost share requirement of paragraph (1)—

(A) during a period of national emergency declared by an Act of Congress or the President; and

(B) upon making a determination that a grant is necessary to avert the disruption, strain, compromise, or elimination of a supply chain that would severely affect the national security or economic security of the United States.

(3) **USE OF OTHER FEDERAL ASSISTANCE.**—Federal assistance other than a grant under this section may be used to satisfy the non-Federal share of the cost of the eligible activity.

(j) **LOANS AND LOAN GUARANTEES.**—

(1) **IN GENERAL.**—The Assistant Secretary may enter into an agreement with an eligible entity to make a loan, the proceeds of which shall be used to finance an eligible activity.

(2) **MAXIMUM AMOUNT.**—The amount of a loan under this section may not exceed 80 percent of the reasonably anticipated costs of the eligible activity for which the loan is made.

(3) **WAIVER.**—Upon providing written justification for a determination made pursuant to this paragraph, which may be submitted with a classified annex to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, the Assistant Secretary may waive the requirement of paragraph (2)—

(A) during a period of national emergency declared by an Act of Congress or the President; or

(B) upon making a determination that a loan is necessary to avert the disruption, strain, compromise, or elimination of a supply chain that would severely affect the national security or economic security of the United States.

(4) **LOAN GUARANTEES.**—

(A) **IN GENERAL.**—The Assistant Secretary may provide a loan guarantee to a lender in lieu of making a loan under this section.

(B) **TERMS.**—The terms of a loan guarantee provided under this section shall be consistent with the terms established in this subsection for a loan.

(k) **MANUFACTURING INVESTMENT COMPANIES.**—

(1) **IN GENERAL.**—The Assistant Secretary may provide a loan or loan guarantee to a manufacturing investment company.

(2) **EQUITY CAPITAL.**—A manufacturing investment company shall use the proceeds of a loan or loan guarantee provided under this subsection to provide a source of equity capital for eligible entities to carry out eligible activities.

(3) **APPLICATION.**—The Assistant Secretary may not provide a loan or loan guarantee to a manufacturing investment company unless the manufacturing investment company submits to the Assistant Secretary an application at such time, in such form, and containing such information as the Assistant Secretary may require, which shall include the following:

(A) A plan describing how the manufacturing investment company intends to provide equity capital to eligible entities to support the resilience, diversity, security, and strength of supply chains.

(B) Information regarding the relevant qualifications and general reputation of the management of the manufacturing investment company.

(C) A description of how the manufacturing investment company intends to address the unmet capital needs of eligible entities.

(D) A description of whether and to what extent the manufacturing investment company meets the criteria established under paragraph (4).

(E) For a manufacturing investment company seeking to provide equity capital for an eligible activity described in subparagraph (B) or (C) of subsection (c)(2), a description of domestic manufacturing operations for the production of the critical good.

(4) **CRITERIA.**—The Secretary shall establish criteria for the awarding of a loan or loan guarantee under this subsection to a manufacturing investment company, including the following:

(A) The extent to which the equity capital to be provided under paragraph (2) will support the resilience, diversity, security, and strength of supply chains.

(B) The extent to which the plan submitted under paragraph (3)(A) will be funded or financed by non-Federal sources.

(C) The extent to which the manufacturing investment company will assist small and medium-sized domestic manufacturers.

(D) The amount of appropriations that are required to fund or finance the loan or loan guarantee.

(5) **REQUIREMENTS.**—As a condition for providing a loan or loan guarantee under this subsection, the Assistant Secretary shall require a manufacturing investment company to certify the following:

(A) The equity capital is for an eligible activity.

(B) Without the equity capital, the eligible entity would not be able to fund or finance the eligible activity under reasonable terms and conditions.

(C) The equity capital is a cost effective, expedient, and practical form of financial assistance for the eligible activity.

(D) There is a reasonable assurance that—

(i) the eligible entity will implement the eligible activity; and

(ii) the eligible activity will support—

(I) the resilience, diversity, security, or strength of a supply chain; and

(II) the national security or economic security of the United States.

(E) The manufacturing investment company will provide the information required under paragraph (6)(C).

(F) In the case of an eligible activity described in subsection (c)(2) (B) or (C), relocation of a manufacturing facility or operations into the United States is uneconomical.

(G) The eligible activity does not support the production of a critical good subject to an antidumping or countervailing duty order imposed by the United States.

(6) **PERFORMANCE MEASURES.**—For loans and loan guarantees provided under this subsection, the Assistant Secretary shall—

(A) develop metrics to assess the extent to which manufacturing investment companies meet the criteria established under paragraph (4);

(B) assess the extent to which each manufacturing investment company awarded a loan or loan guarantee is meeting the criteria established under paragraph (4); and

(C) require the manufacturing investment company to provide to the Assistant Secretary any information relating to the loan or loan guarantee that the Assistant Secretary determines to be necessary to conduct the assessment under subparagraph (B).

(7) **EQUITY CAPS.**—The Assistant Secretary may, as a condition of providing a loan or loan guarantee under this subsection, establish limits on—

(A) the maximum amount of equity or quasi-equity securities, shares, or financial interests a manufacturing investment company may purchase, make and fund commitments to purchase, invest in, make pledges in respect of, or otherwise acquire from an eligible entity; and

(B) the maximum amount of assets a manufacturing investment company may hold to be eligible for a loan or loan guarantee under this subsection.

(8) **CONDITIONS.**—The Assistant Secretary may prescribe either specifically or by maximum limits or otherwise, rates of interest, guarantee and commitment fees, and other charges which may be made in connection with equity capital made under this subsection.

(9) **RELOCATION CONSIDERATION.**—In making a determination to provide a loan or loan guarantee to a manufacturing investment company for an eligible activity described under subparagraph (B) or (C) of subsection (c)(2), the Assistant Secretary may take into consideration labor

and environmental standards of the ally or key international partner when considering the siting locations for the eligible activity.

(10) **RELOCATION LIMITATIONS.**—As a condition of receiving a loan or loan guarantee from a manufacturing investment company for an eligible activity described under subparagraph (B) or (C) of subsection (c)(2), the manufacturing investment company shall prohibit an eligible entity from making capital or labor investments in the manufacturing facility or operation in the country of concern for the duration of the equity capital.

(1) **CREDITWORTHINESS.**—

(1) **IN GENERAL.**—For a loan or loan guarantee provided under this section, the manufacturing investment company or eligible entity and eligible activity receiving such loan or loan guarantee shall be creditworthy, which shall be determined by the Assistant Secretary.

(2) **CONSIDERATIONS.**—In determining the creditworthiness of a manufacturing investment company or an eligible entity and eligible activity under paragraph (1), the Assistant Secretary shall take into consideration relevant factors, including the following:

(A) The terms, conditions, financial structure, and security features of the loan or loan guarantee.

(B) The revenue sources that will secure or fund any note, bond, debenture, or other debt obligation issued in connection with the loan or loan guarantee.

(C) The financial assumptions upon which the loan or loan guarantee is based.

(D) The ability of—

(i) the manufacturing investment company to provide a source of equity capital for eligible entities; or

(ii) the eligible entity to successfully achieve the goal of the eligible activity.

(E) The financial soundness and credit history of the manufacturing investment company or eligible entity.

(m) **CONDITIONS.**—The Assistant Secretary may prescribe—

(1) either specifically or by maximum limits or otherwise, rates of interest, guarantee and commitment fees, and other charges which may be made in connection with a loan or loan guarantee made under this section; and

(2) regulations governing the forms and procedures (which shall be uniform to the extent practicable) to be used in connection with such loans and loan guarantees.

(n) **SELECTION OF RECIPIENTS.**—

(1) **ABILITY TO MEET CRITERIA.**—To the extent practicable, in awarding grants, loans, and loan guarantees under this section, the Assistant Secretary shall—

(A) select—

(i) manufacturing investment companies that best meet the criteria established under subsection (k)(4); and

(ii) eligible entities and eligible activities that best meet the criteria established under subsection (f); and

(B) serve the greatest needs for a diverse array of critical industries.

(2) **PRIORITY.**—In awarding grants, loans, and loan guarantees under this section, the Assistant Secretary shall prioritize—

(A) eligible activities that—

(i) are within the United States and employ citizens of the United States; and

(ii) will result in the production of critical goods that relate to the strategic needs of the Federal Government in preparing for and responding to supply chain shocks; and

(B) eligible entities that agree to coordinate with the Assistant Secretary to assist the United States in preparing for and responding to supply chain shocks, including through the manufacture of critical goods, as necessary.

(o) **PERFORMANCE MEASURES.**—For grants, loans, and loan guarantees provided under this section to eligible entities, the Assistant Secretary shall—

(1) develop metrics to assess the extent to which the criteria established under subsection (f) are met;

(2) assess the extent to which the criteria established under subsection (f) are met; and

(3) require the eligible entity to provide to the Assistant Secretary any information that the Assistant Secretary determines to be necessary to conduct the assessment under paragraph (2).

(p) **CONSTRUCTION PROJECTS.**—The requirements of section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply to a construction project that receives financial assistance from the Assistant Secretary under this section in the same manner as such requirements apply to a project assisted by the Secretary under such Act.

(q) **WORKFORCE PROTECTIONS.**—Any eligible entity and manufacturing investment company applying for a grant, loan, or loan guarantee under this section, in any case in which the eligible entity has 100 or more employees, shall make a good-faith certification to the Assistant Secretary that—

(1) the eligible entity will not abrogate existing collective bargaining agreements, as applicable, for—

(A) the term of the grant; or

(B) the term of the loan or loan guarantee and 2 years after completing repayment of the loan; and

(2) the eligible entity will remain neutral in any union organizing effort for the term of the grant, loan, or loan guarantee.

(r) **CONSISTENCY WITH INTERNATIONAL AGREEMENTS.**—This section shall be applied in a manner consistent with United States obligations under international agreements.

(s) **LIMITATION.**—To the extent practicable, none of the funds made available to carry out this section may be used to support manufacturing in a country of concern.

(t) **REGULATIONS.**—The Assistant Secretary may promulgate such regulations as the Assistant Secretary determines to be appropriate to carry out this section.

(u) **SUPPLY CHAINS FOR CRITICAL MANUFACTURING INDUSTRIES FUND.**—

(1) **ESTABLISHMENT.**—There is established in the Treasury of the United States a fund to be known as the “Supply Chains for Critical Manufacturing Industries Fund” (in this section referred to as the “Fund”), which shall solely be used by the Assistant Secretary to carry out this section.

(2) **REVOLVING LOAN FUND.**—The proceeds of any conditions prescribed under subsection (k)(1) shall be deposited into the Fund.

(v) **RULE OF CONSTRUCTION.**—Nothing in this section may be construed to permit the proceeds of a grant, loan, loan guarantee, or equity investment to support activities that offshore manufacturing capacity from the United States.

(w) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—There is authorized to be appropriated to the Fund \$45,000,000,000 for fiscal years 2022 through 2027. Such amount is authorized to remain available until expended.

(2) **PURPOSES.**—Of the amount authorized to be appropriated under paragraph (1), not more than—

(A) \$31,000,000,000 is authorized to be appropriated for loans and loan guarantees to eligible entities;

(B) \$10,000,000,000 is authorized to be appropriated for grants to eligible entities; and

(C) \$4,000,000,000 is authorized to be appropriated for loans and loan guarantees to manufacturing investment companies.

(3) **ADMINISTRATIVE COSTS.**—Of the amounts authorized to be appropriated under paragraph (2), up to 2 percent per fiscal year is authorized to be appropriated for administrative costs associated with carrying out this section.

SEC. 20205. SUPPLY CHAIN INNOVATION AND BEST PRACTICES.

(a) **IN GENERAL.**—The Assistant Secretary, in consultation with the Director of the National

Institute of Standards and Technology, shall, on an ongoing basis, facilitate and support the development of a voluntary set of standards, guidelines, best practices, management strategies, methodologies, procedures, and processes for domestic manufacturers and entities manufacturing, purchasing, or using a critical good to—

(1) measure the resilience, diversity, security, and strength of supply chains;

(2) evaluate the value of the resilience, diversity, security, and strength of supply chains; and

(3) design organizational processes and incentives to reduce the risks of disruption, strain, compromise, or elimination of a supply chain.

(b) **REQUIREMENTS.**—In carrying out subsection (a), the Assistant Secretary shall do the following:

(1) Coordinate closely and regularly with relevant private sector personnel and entities, manufacturing extension centers established as part of the Hollings Manufacturing Extension Partnership, Manufacturing USA institutes as described in section 34(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278s(d)), and other relevant stakeholders and incorporate industry expertise.

(2) Consult with the head of any relevant Federal agency, including those with jurisdiction over supply chains, States, local governments, Tribal governments, the governments of other nations, and international organizations, as necessary.

(3) Collaborate with private sector stakeholders to identify a prioritized, flexible, repeatable, performance-based, and cost-effective approach that may be voluntarily adopted by domestic manufacturers and entities purchasing or using a critical good to help them—

(A) identify, assess, and manage risks to supply chains; and

(B) value the resilience, diversity, security, and strength of their supply chain.

(4) Facilitate the design of—

(A) voluntary processes for selecting suppliers that support the resilience, diversity, security, and strength of supply chains; and

(B) methodologies to identify and mitigate the effects of a disruption, strain, compromise, or elimination of a supply chain.

(5) Disseminate research and information to assist domestic manufacturers redesign products, expand manufacturing capacity, and improve capabilities to meet domestic needs for critical goods and supply chains.

(6) Incorporate relevant voluntary standards and industry best practices.

(7) Consider small business concerns.

(8) Any other elements the Assistant Secretary determines to be necessary.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Office \$500,000,000 for fiscal years 2022 through 2027, to remain available until expended, for the Assistant Secretary to carry out this section, of which not more than 2 percent per fiscal year may be used for administrative costs.

SEC. 20206. PROGRAM EVALUATION BY THE INSPECTOR GENERAL OF THE DEPARTMENT OF COMMERCE.

(a) **PROGRAM EVALUATION.**—Not later than 4 years after the date of the enactment of this Act, and every 4 years thereafter, the Inspector General of the Department of Commerce shall conduct an audit of the Office to—

(1) evaluate the performance of the activities supported by a grant, loan, or loan guarantee under section 20204;

(2) evaluate the extent to which the requirements and criteria under this subtitle are met; and

(3) provide recommendations on any proposed changes to improve the effectiveness of the Office on meeting the mission described under section 20201(b).

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Inspector General of the Department of Commerce

\$5,000,000 for fiscal years 2022 through 2027, to remain available until expended, to carry out subsection (a).

SEC. 20207. SUPPLY CHAIN DATABASE AND TOOLKIT.

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Commerce shall establish a database and online toolkit under which—

(A) United States businesses may voluntarily submit to the Secretary information on—

(i) the products produced by such businesses in the United States, which may be finished goods or inputs for other goods;

(ii) the inputs required for such products, which may include, with respect to such an input—

(I) the specific geographic location of the production of the input, including if the input is sourced from the United States or a foreign country;

(II) the business name of a supplier of the input;

(III) information related to perceived or realized challenges in securing the input;

(IV) information related to the suspected vulnerabilities or implications of a disruption in securing the input, whether related to national security or the effect on the United States business; or

(V) in the case of an input sourced from a foreign country, information on—

(aa) why the input is sourced from a foreign country rather than in the United States; and

(bb) if the United States business would be interested in identifying an alternative produced in the United States;

(B) United States businesses may request and receive contact information or general information about a United States source or a foreign source for an input;

(C) United States businesses are able to specify—

(i) what information can be shared with other United States businesses;

(ii) what information should be shared only with the Department of Commerce; and

(iii) what information could be submitted to Congress or made available to the public; and

(D) the Secretary makes information provided under this paragraph available, subject to subparagraph (C), to enable other United States businesses to identify inputs for their products produced in the United States.

(2) **FORMAT; PUBLIC AVAILABILITY.**—The Secretary shall—

(A) provide the database and online toolkit established under paragraph (1) on a publicly available website of the Department of Commerce; and

(B) ensure that the database and online toolkit are—

(i) searchable and filterable according to the type of information; and

(ii) presented in a user-friendly format.

(3) **EXEMPTION FROM PUBLIC DISCLOSURE.**—Information submitted to the Secretary in relation to the database and online toolkit established under paragraph (1)—

(A) shall be exempt from disclosure under section 552(b)(3) of title 5, United States Code; and

(B) shall not be made available by any Federal, State, political subdivision, or Tribal authority pursuant to any Federal, State, political subdivision, or Tribal law requiring public disclosure of information or records.

(4) **REPORTING.**—

(A) **REPORT TO CONGRESS.**—Not later than 180 days after the date of the enactment of this Act, and every days thereafter, the Secretary shall submit to Congress a report that includes—

(i) an assessment of the effectiveness of the database and online toolkit established under paragraph (1), including statistics regarding the number of new entries, total businesses involved, and any change in participation rate during the preceding 180-day period;

(ii) recommendations for additional actions to improve the database and online toolkit and participation in the database and online toolkit; and

(iii) such other information as the Secretary considers appropriate.

(B) **PUBLIC REPORT.**—Not later than one year after the date of the enactment of this Act, and annually thereafter, the Secretary shall post on a publicly available website of the Department of Commerce a report that sets forth—

(i) general statistics related to foreign and domestic sourcing of inputs used by United States businesses;

(ii) an estimate of the percentage of total inputs used by United States businesses obtained from foreign countries;

(iii) data on such inputs disaggregated by industry, geographical location, and size of operation; and

(iv) a description of the methodology used to calculate the statistics and estimates required by this paragraph.

(b) **PUBLIC OUTREACH CAMPAIGN.**—

(1) **IN GENERAL.**—The Secretary shall carry out a national public outreach campaign—

(A) to educate United States businesses about the existence of the database and online toolkit established under subsection (a); and

(B) to facilitate and encourage the participation of such businesses in the database and online toolkit.

(2) **OUTREACH REQUIREMENT.**—In carrying out the campaign under paragraph (1), the Secretary shall—

(A) establish an advertising and outreach program directed to businesses, industries, State and local agencies, chambers of commerce, and labor organizations—

(i) to facilitate understanding of the value of an aggregated demand mapping system; and

(ii) to advertise that the database and online toolkit established under subsection (a) are available for that purpose;

(B) notify appropriate State agencies not later than 10 days after the date of the enactment of this Act regarding the development of the database and online toolkit; and

(C) post a notice on a publicly available website of the Department of Commerce and establish a social media awareness campaign to advertise the database and online toolkit.

(3) **COORDINATION.**—In carrying out the campaign under paragraph (1), the Secretary may coordinate with other Federal agencies and State or local agencies as appropriate.

(4) **SEPARATE ACCOUNTING.**—

(A) **BUDGETARY LINE ITEM.**—The Secretary shall include in the budget justification materials submitted to Congress in support of the Department of Commerce budget for fiscal years 2023 and 2024 (as submitted with the budget of the President under section 1105(a) of title 31, United States Code) specific identification, as a budgetary line item, of the amounts required to carry out the campaign under paragraph (1).

(B) **PROHIBITION ON COMMINGLING.**—Amounts appropriated to carry out this subsection may not be commingled with any other amounts appropriated to the Department of Commerce.

(c) **USE OF DEPARTMENT OF COMMERCE RESOURCES.**—

(1) **IN GENERAL.**—The Secretary—

(A) shall, to the maximum extent practicable, construct the database and online toolkit required by subsection (a), and related analytical features, using expertise within the Department of Commerce; and

(B) may, as appropriate, adopt new technologies and hire additional employees to carry out this section.

(2) **MINIMIZATION OF CONTRACTING.**—If the activities described in subparagraphs (A) and (B) of paragraph (1) cannot be completed without the employment of contractors, the Secretary should seek to minimize the number of contractors and the scope of the contract.

(d) **TERMINATION.**—This section shall terminate on September 30, 2025.

SEC. 20208. DEFINITIONS.

In this subtitle:

(1) **ALLY OR KEY INTERNATIONAL PARTNER.**—The term “ally or key international partner” does not include—

(A) a country that poses a significant national security or economic security risk to the United States; or

(B) a country of concern.

(2) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Manufacturing Security and Resilience appointed pursuant to section 20201(c).

(3) **COUNTRY OF CONCERN.**—The term “country of concern” means a country in which a concentrated supply chain is located and—

(A) that poses a significant national security or economic security threat to the United States; or

(B) whose government, or elements of such government, has proven to have, or has been credibly alleged to have, committed crimes against humanity or genocide.

(4) **COVERED WESTERN HEMISPHERE COUNTRIES.**—The term “covered Western Hemisphere countries” means the following countries: Anguilla, Antigua and Barbuda, Argentina, Aruba, The Bahamas, Barbados, Belize, Bermuda, Bolivia, Brazil, the British Virgin Islands, Canada, Chile, Colombia, Costa Rica, Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Montserrat, Netherlands Antilles, Panama, Paraguay, Peru, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Suriname, Trinidad and Tobago, Turks and Caicos Islands, Uruguay, and the sovereign government recognized by the United States in Venezuela.

(5) **CRITICAL GOOD.**—The term “critical good” means any raw, in process, or manufactured material (including any mineral, metal, or advanced processed material), article, commodity, supply, product, or item of supply the absence of which would have a significant effect on—

(A) the national security or economic security of the United States; and

(B) critical infrastructure.

(6) **CRITICAL INDUSTRY.**—The term “critical industry” means an industry that is critical for the national security or economic security of the United States, considering key technology focus areas and critical infrastructure.

(7) **CRITICAL INFRASTRUCTURE.**—The term “critical infrastructure” has the meaning given to that term in the Critical Infrastructures Protection Act of 2001 (42 U.S.C. 5195c).

(8) **DOMESTIC ENTERPRISE.**—The term “domestic enterprise” means an enterprise that conducts business in the United States and procures a critical good.

(9) **DOMESTIC MANUFACTURER.**—The term “domestic manufacturer” means a business that—

(A) conducts in the United States the research and development, engineering, or production activities necessary or incidental to manufacturing; or

(B) if provided a grant, loan, loan guarantee, or equity investment under section 20204, will conduct in the United States the research and development, engineering, or production activities necessary or incidental to manufacturing.

(10) **ECONOMICALLY DISTRESSED AREA.**—The term “economically distressed area” means an area that meets 1 or more of the requirements described in section 301(a) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3161(a)).

(11) **ELIGIBLE ACTIVITY.**—The term “eligible activity” means an activity described under section 20204(c).

(12) **ELIGIBLE ENTITY.**—The term “eligible entity” means an entity described under section 20204(d).

(13) **FEDERAL AGENCY.**—The term “Federal agency” has the meaning given the term “agency” in section 551 of title 5, United States Code.

(14) **INDUSTRIAL EQUIPMENT.**—The term “industrial equipment” means any component, subsystem, system, equipment, tooling, accessory,

part, or assembly necessary for the manufacturing of a critical good.

(15) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given that term under section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(16) **KEY TECHNOLOGY FOCUS AREAS.**—The term “key technology focus areas” means the following:

(A) Artificial intelligence, machine learning, autonomy, and related advances.

(B) High performance computing, semiconductors, and advanced computer hardware and software.

(C) Quantum information science and technology.

(D) Robotics, automation, and advanced manufacturing.

(E) Natural and anthropogenic disaster prevention or mitigation.

(F) Advanced communications technology, including optical transmission components.

(G) Biotechnology, medical technology, genomics, and synthetic biology.

(H) Data storage, data management, distributed ledger technologies, and cybersecurity, including biometrics.

(I) Advanced energy and industrial efficacy technologies, such as batteries, advanced nuclear technologies, and polysilicon for use in solar photovoltaics, including for the purposes of electric generation (consistent with section 15 of the National Science Foundation Act of 1950 (42 U.S.C. 1874)).

(J) Advanced materials science, including composites and 2D materials and equipment, aerospace grade metals, and aerospace specific manufacturing enabling chemicals.

(17) **LABOR ORGANIZATION.**—The term “labor organization” has the meaning given the term in section 2(5) of the National Labor Relations Act (29 U.S.C. 152(5)), except that such term shall also include—

(A) any organization composed of labor organizations, such as a labor union federation or a State or municipal labor body; and

(B) any organization which would be included in the definition for such term under such section 2(5) but for the fact that the organization represents—

(i) individuals employed by the United States, any wholly owned Government corporation, any Federal Reserve Bank, or any State or political subdivision thereof;

(ii) individuals employed by persons subject to the Railway Labor Act (45 U.S.C. 151 et seq.); or

(iii) individuals employed as agricultural laborers.

(18) **LENDER.**—The term “lender” means any non-Federal qualified institutional buyer (as defined in section 230.144A(a) of title 17, Code of Federal Regulations or a successor regulation).

(19) **LOAN.**—The term “loan” means a direct loan or other debt obligation issued by an eligible entity or a manufacturing investment company and funded by the Assistant Secretary in connection with the financing of an eligible activity under section 20204.

(20) **LOAN GUARANTEE.**—The term “loan guarantee” means any guarantee or other pledge by the Assistant Secretary under section 20204 to pay all or part of the principal of, and interest on, a loan or other debt obligation entered into by an eligible entity or a manufacturing investment company and funded by a lender.

(21) **MANUFACTURE.**—The term “manufacture” means any activity that is necessary for or incidental to the development, production, processing, distribution, or delivery of any raw, in process, or manufactured material (including any mineral, metal, and advanced processed material), article, commodity, supply, product, critical good, or item of supply.

(22) **MANUFACTURING FACILITY.**—The term “manufacturing facility” means any type of building, structure, or real property necessary or incidental to the manufacturing of a critical good.

(23) **MANUFACTURING INVESTMENT COMPANY.**—The term “manufacturing investment company” means an incorporated body, a limited liability company, or a limited partnership, including a consortium of public and private entities, organized and chartered or otherwise existing under State law.

(24) **MANUFACTURING TECHNOLOGY.**—The term “manufacturing technology” means technologies that are necessary or incidental to the manufacturing of a critical good.

(25) **NONPROFIT ORGANIZATION.**—The term “nonprofit organization” means an organization that is described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from taxation under section 501(a) of such Code.

(26) **OFFICE.**—The term “Office” means the Office of Manufacturing Security and Resilience established under section 20201.

(27) **OFFSHORE.**—The term “offshore” means the transfer or relocation of manufacturing capacity that is occurring or otherwise would occur in the United States to another country.

(28) **RELEVANT COMMITTEES OF CONGRESS.**—The term “relevant committees of Congress” means the following:

(A) The Committee on Commerce, Science, and Transportation of the Senate.

(B) The Committee on Appropriations of the Senate.

(C) The Committee on Finance of the Senate.

(D) The Committee on Homeland Security and Governmental Affairs of the Senate.

(E) The Committee on Armed Services of the Senate.

(F) The Committee on Energy and Natural Resources of the Senate.

(G) The Select Committee on Intelligence of the Senate.

(H) The Committee on Science, Space, and Technology of the House of Representatives.

(I) The Committee on Energy and Commerce of the House of Representatives.

(J) The Committee on Appropriations of the House of Representatives.

(K) The Committee on Ways and Means of the House of Representatives.

(L) The Committee on Homeland Security of the House of Representatives.

(M) The Committee on Armed Services of the House of Representatives.

(N) The Permanent Select Committee on Intelligence of the House of Representatives.

(O) The Committee on Agriculture of the House of Representatives.

(P) The Committee on Agriculture, Nutrition, and Forestry of the Senate.

(29) **RESILIENT SUPPLY CHAIN.**—The term “resilient supply chain” means a supply chain that—

(A) ensures that the United States can sustain critical industry production, supply chains, services, and access to critical goods, industrial equipment, and manufacturing technology during supply chain shocks; and

(B) has key components of resilience that include—

(i) effective private sector risk management and mitigation planning to sustain supply chains and supplier networks during a supply chain shock;

(ii) minimized or managed exposure to supply chain shocks; and

(iii) the financial and operational capacity to—

(I) sustain supply chains during supply chain shocks; and

(II) recover from supply chain shocks.

(30) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce.

(31) **SMALL BUSINESS CONCERN.**—The term “small business concern” has the meaning given that term in section 3(a) of the Small Business Act (15 U.S.C. 632(a)).

(32) **STATE.**—The term “State” means each State of the United States, the District of Columbia, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto

Rico, the Virgin Islands of the United States, and any other territory of the United States.

(33) **SUPPLY CHAIN.**—The term “supply chain” means a supply chain for a critical good.

(34) **SUPPLY CHAIN INFORMATION.**—The term “supply chain information” means information that is not customarily in the public domain and relating to—

(A) sustaining and adapting supply chains during a supply chain shock;

(B) supply chain risk mitigation and recovery planning with respect to a supply chain shock, including any planned or past assessment, projection, or estimate of a vulnerability within the supply chain, including testing, supplier network assessments, production flexibility, risk evaluations thereto, risk management planning, or risk audits; or

(C) operational best practices, planning, and supplier partnerships that enable enhanced resilience of supply chains during a supply chain shock, including response, repair, recovery, reconstruction, insurance, or continuity.

(35) **SUPPLY CHAIN SHOCK.**—The term “supply chain shock” includes the following:

(A) A natural disaster or extreme weather event.

(B) An accidental or human-caused event.

(C) An economic disruption.

(D) A pandemic.

(E) A biological threat.

(F) A cyber attack.

(G) A great power conflict.

(H) A terrorist or geopolitical attack.

(I) A public health emergency declared by the Secretary of Health and Human Services pursuant to section 319 of the Public Health Service Act (42 U.S.C. 247d).

(J) An event for which the President declares a major disaster or an emergency under section 401 or 501, respectively, of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 and 5191).

(K) A national emergency declared by the President under the National Emergencies Act (50 U.S.C. 1601 et seq.).

(L) Any other supply chain disruption or threat that affects the national security or economic security of the United States.

(36) **TRIBAL GOVERNMENT.**—The term “Tribal government” means the governing body of a federally recognized Indian Tribe, an Alaska Native tribal entity, or a Native Hawaiian community.

Subtitle B—Strengthening Consumer Protections, Tourism, and Manufacturing

SEC. 20211. NATIONAL MANUFACTURING ADVISORY COUNCIL.

(a) **DEFINITIONS.**—In this section:

(1) **ADVISORY COUNCIL.**—The term “Advisory Council” means the National Manufacturing Advisory Council established under subsection (b)(1).

(2) **APPROPRIATE COMMITTEES OF CONGRESS.**—The term “appropriate committees of Congress” means—

(A) the Committee on Health, Education, Labor, and Pensions, the Committee on Commerce, Science, and Transportation, the Committee on Energy and Natural Resources, the Committee on Armed Services, and the Committee on Appropriations of the Senate; and

(B) the Committee on Education and Labor, the Committee on Science, Space, and Technology, the Committee on Energy and Commerce, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives.

(3) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce.

(b) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—The Secretary, in consultation with the Secretary of Labor, the Secretary of Defense, the Secretary of Energy, the United States Trade Representative, and the Secretary of Education, shall establish within the Department of Commerce the National Manufacturing Advisory Council.

(2) **PURPOSE.**—The purpose of the Advisory Council shall be to provide recommendations to the Secretary and Federal Government on ways to—

(A) provide worker education, training, development, and entrepreneurship training;

(B) connect individuals and business with the services described in subparagraph (A) that are offered in the community of the individuals or businesses;

(C) coordinate services relating to employee engagement, including employee ownership and workforce training;

(D) connect manufacturers with career and technical education entities, institutions of higher education, community colleges, workforce development boards, labor organizations, and nonprofit job training providers to develop and support training and job placement services and apprenticeship and online learning platforms for new and incumbent workers;

(E) develop programming to prevent job losses as entities adopt new technologies and processes; and

(F) develop best practices for employee ownership.

(c) **MISSION.**—The mission of the Advisory Council shall be to—

(1) provide a forum for regular communication between the Federal Government and the manufacturing sector in the United States;

(2) advise the Federal Government regarding policies and programs of the Federal Government that affect manufacturing in the United States;

(3) provide a forum for discussing and proposing solutions to problems relating to the manufacturing industry in the United States; and

(4) provide advice and recommendations to the Federal Government to help the United States remain the preeminent destination throughout the world for investment in manufacturing.

(d) **DUTIES.**—The duties of the Advisory Council shall include—

(1) meeting not less frequently than every 180 days to provide independent advice and recommendations to the Secretary regarding issues involving manufacturing in the United States;

(2) completing specific tasks requested by the Secretary;

(3) conveying input to the Assistant Secretary of the Office of Supply Chain Resiliency and Crisis Response from key industry, labor, academic, defense, governmental, and other stakeholders to aid in the development of a national strategic plan for manufacturing in the United States;

(4) monitoring the status of technological developments, critical production capacity, skill availability, investment patterns, emerging defense needs, and other key indicators of manufacturing competitiveness to provide foresight for periodic updates to the national strategic plan for manufacturing developed under paragraph (3);

(5) soliciting input from the public and private sectors and academia relating to emerging trends in manufacturing, the responsiveness of Federal programming with respect to manufacturing, and suggestions for areas of increased Federal attention with respect to manufacturing;

(6) monitoring global manufacturing trends and global threats to manufacturing sectors in the United States;

(7) providing advice and recommendations to the Federal Government on matters relating to investment in and support of the manufacturing workforce relating to—

(A) worker participation, including through labor organizations and through other methods determined by the Advisory Council, in the planning for deployment of new technologies across an industry and within workplaces;

(B) training and education priorities for the Federal Government and for employers to assist workers in adapting the skills and experiences

of those workers to fit the demands of the 21st century economy;

(C) innovative suggestions from workers on the development of new technologies and processes and, as appropriate, assessing the impact of those technologies and processes on the workforce and economy of the United States;

(D) management practices that lead to worker employment, job quality, worker protection, worker participation and power in decision making, and investment in worker career success;

(E) policies and procedures to prioritize diversity and inclusion in the manufacturing and technology workforce by expanding access to job, career advancement, and management opportunities for underrepresented populations; and

(F) advice on how to improve access to demand-driven education, training, and re-training for workers, including community and technical colleges, higher education, apprenticeships and work-based learning opportunities;

(8) with respect to the manufacturing.gov website, or any successor thereto, providing advice and recommendations to the Secretary in order to—

(A) make that website more user-friendly to enhance the ability of that website to—

(i) provide information to manufacturers; and

(ii) receive feedback from manufacturers;

(B) assist that website in becoming the principal place of interaction between manufacturers in the United States and Federal programs relating to manufacturing; and

(C) enable that website to provide assistance to manufacturers relating to—

(i) international trade and investment matters;

(ii) research and technology development opportunities;

(iii) workforce development and training programs and opportunities;

(iv) small and medium manufacturer needs; and

(v) industrial commons and supply chain needs.

(e) **MEMBERSHIP.**—

(1) **IN GENERAL.**—The Advisory Council shall—

(A) consist of individuals appointed by the Secretary with a balance of backgrounds, experiences, and viewpoints; and

(B) include an equal proportion of individuals with manufacturing experience who represent private industry, academia, and labor organizations.

(2) **PUBLIC PARTICIPATION.**—The Secretary shall, to the maximum extent practicable, accept recommendations from the public regarding the appointment of individuals under paragraph (1).

(3) **PERIOD OF APPOINTMENT; VACANCIES.**—

(A) **IN GENERAL.**—Each member of the Advisory Council shall be appointed by the Secretary for a term of 3 years.

(B) **RENEWAL.**—The Secretary may renew an appointment made under subparagraph (A) not more than 2 additional terms.

(C) **STAGGER TERMS.**—The Secretary may stagger the terms of the members of the Advisory Council to ensure that the terms of the members expire during different years.

(D) **VACANCIES.**—Any member appointed to fill a vacancy on the Advisory Council occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A member may serve after the expiration of that term until a successor has been appointed.

(f) **TRANSFER OF FUNCTIONS.**—

(1) **IN GENERAL.**—All functions of the United States Advanced Manufacturing Council of the International Trade Administration of the Department of Commerce, including the personnel, assets, and obligations of the United States Manufacturing Council of the International Trade Administration of the Department of

Commerce, as in existence on the day before the date of the enactment of this Act, shall be transferred to the Advisory Council.

(2) **DEEMING OF NAME.**—Any reference in law, regulation, document, paper, or other record of the United States to the United States Advanced Manufacturing Council of the International Trade Administration of the Department of Commerce shall be deemed a reference to the Advisory Council.

(3) **UNEXPENDED BALANCES.**—Unexpended balances of appropriations, authorization, allocations, or other funds related to the United States Advanced Manufacturing Council of the International Trade Administration of the Department of Commerce shall be available for use by the Advisory Council for the purpose for which the appropriations, authorizations, allocations, or other funds were originally made available.

(g) **REPORT.**—Not later than 180 days after the date on which the Advisory Council holds the initial meeting of the Advisory Council and annually thereafter, the Advisory Council shall submit to the appropriate committees of Congress a report containing a detailed statement of the advice and recommendations of the Advisory Council required under subsection (d)(7).

(h) **DEPARTMENTAL SUPPORT.**—Notwithstanding any other provision of law and subject to confidentiality requirements, the Secretary shall furnish to the advisory committee relevant information in the possession of the Department of Commerce relating to the mission of the Advisory Council.

SEC. 20212. AVAILABILITY OF TRAVEL PROMOTION FUND FOR BRAND USA.

(a) **IN GENERAL.**—Not later than 30 days after the date of the enactment of this Act, the Secretary of the Treasury, subject to subsection (b), and notwithstanding any other provision of law, shall make available, from unobligated balances remaining available from fees collected before October 1, 2020, and credited to Travel Promotion Fund established under subsection (d) of the Travel Promotion Act of 2009 (22 U.S.C. 2131(d)), \$250,000,000 for the Corporation for Travel Promotion (commonly known as "Brand USA"). Such amounts shall remain available until expended.

(b) **INAPPLICABILITY OF CERTAIN REQUIREMENTS AND LIMITATIONS.**—The limitations and requirements set forth in paragraphs (2)(B) and (3) of subsection (d) of such Act shall not apply to amounts made available under subsection (a).

SEC. 20213. COLLECTION, VERIFICATION, AND DISCLOSURE OF INFORMATION BY ONLINE MARKETPLACES TO INFORM CONSUMERS.

(a) **COLLECTION AND VERIFICATION OF INFORMATION.**—

(1) **COLLECTION.**—

(A) **IN GENERAL.**—An online marketplace shall require any high-volume third party seller on such online marketplace's platform to provide, not later than 10 days after qualifying as a high-volume third party seller on the platform, the following information to the online marketplace:

(i) **BANK ACCOUNT.**—

(I) **IN GENERAL.**—A bank account number, or, if such seller does not have a bank account, the name of the payee for payments issued by the online marketplace to such seller.

(II) **PROVISION OF INFORMATION.**—The bank account or payee information required under subclause (I) may be provided by the seller in the following ways:

(aa) To the online marketplace.

(bb) To a payment processor or other third party contracted by the online marketplace to maintain such information, provided that the online marketplace ensures that it can obtain such information on demand from such payment processor or other third party.

(ii) **CONTACT INFORMATION.**—Contact information for such seller as follows:

(I) With respect to a high-volume third party seller that is an individual, the individual's name.

(II) With respect to a high-volume third party seller that is not an individual, one of the following forms of contact information:

(aa) A copy of a valid government-issued identification for an individual acting on behalf of such seller that includes the individual's name.

(bb) A copy of a valid government-issued record or tax document that includes the business name and physical address of such seller.

(iii) TAX ID.—A business tax identification number, or, if such seller does not have a business tax identification number, a taxpayer identification number.

(iv) WORKING EMAIL AND PHONE NUMBER.—A current working email address and phone number for such seller.

(B) NOTIFICATION OF CHANGE; ANNUAL CERTIFICATION.—An online marketplace shall—

(i) periodically, but not less than annually, notify any high-volume third party seller on such online marketplace's platform of the requirement to keep any information collected under subparagraph (A) current; and

(ii) require any high-volume third party seller on such online marketplace's platform to, not later than 10 days after receiving the notice under clause (i), electronically certify that—

(I) the seller has provided any changes to such information to the online marketplace, if any such changes have occurred;

(II) there have been no changes to such seller's information; or

(III) such seller has provided any changes to such information to the online marketplace.

(C) SUSPENSION.—In the event that a high-volume third party seller does not provide the information or certification required under this paragraph, the online marketplace shall, after providing the seller with written or electronic notice and an opportunity to provide such information or certification not later than 10 days after the issuance of such notice, suspend any future sales activity of such seller until such seller provides such information or certification.

(2) VERIFICATION.—

(A) IN GENERAL.—An online marketplace shall—

(i) verify the information collected under paragraph (1)(A) not later than 10 days after such collection; and

(ii) verify any change to such information not later than 10 days after being notified of such change by a high-volume third party seller under paragraph (1)(B).

(B) PRESUMPTION OF VERIFICATION.—In the case of a high-volume third party seller that provides a copy of a valid government-issued tax document, any information contained in such document shall be presumed to be verified as of the date of issuance of such document.

(3) DATA USE LIMITATION.—Data collected solely to comply with the requirements of this section may not be used for any other purpose unless required by law.

(4) DATA SECURITY REQUIREMENT.—An online marketplace shall implement and maintain reasonable security procedures and practices, including administrative, physical, and technical safeguards, appropriate to the nature of the data and the purposes for which the data will be used, to protect the data collected to comply with the requirements of this section from unauthorized use, disclosure, access, destruction, or modification.

(b) DISCLOSURE REQUIRED.—

(1) REQUIREMENT.—

(A) IN GENERAL.—An online marketplace shall—

(i) require any high-volume third party seller with an aggregate total of \$20,000 or more in annual gross revenues on such online marketplace, and that uses such online marketplace's platform, to provide the information described in subparagraph (B) to the online marketplace; and

(ii) disclose the information described in subparagraph (B) to consumers in a clear and conspicuous manner—

(I) in the order confirmation message or other document or communication made to a consumer after a purchase is finalized; and

(II) in the consumer's account transaction history.

(B) INFORMATION DESCRIBED.—The information described in this subparagraph is the following:

(i) Subject to paragraph (2), the identity of the high-volume third party seller, including—

(I) the full name of the seller, which may include the seller name or seller's company name, or the name by which the seller or company operates on the online marketplace;

(II) the physical address of the seller; and

(III) contact information for the seller, to allow for the direct, unhindered communication with high-volume third party sellers by users of the online marketplace, including—

(aa) a current working phone number;

(bb) a current working email address; or

(cc) other means of direct electronic messaging (which may be provided to such seller by the online marketplace).

(ii) Whether the high-volume third party seller used a different seller to supply the consumer product to the consumer upon purchase, and, upon the request of an authenticated purchaser, the information described in clause (i) relating to any such seller that supplied the consumer product to the purchaser, if such seller is different than the high-volume third party seller listed on the product listing prior to purchase.

(2) EXCEPTION.—

(A) IN GENERAL.—Subject to subparagraph (B), upon the request of a high-volume third party seller, an online marketplace may provide for partial disclosure of the identity information required under paragraph (1)(B)(i) in the following situations:

(i) If such seller certifies to the online marketplace that the seller does not have a business address and only has a residential street address, or has a combined business and residential address, the online marketplace may—

(I) disclose only the country and, if applicable, the State in which such seller resides; and

(II) inform consumers that there is no business address available for the seller and that consumer inquiries should be submitted to the seller by phone, email, or other means of electronic messaging provided to such seller by the online marketplace.

(ii) If such seller certifies to the online marketplace that the seller is a business that has a physical address for product returns, the online marketplace may disclose the seller's physical address for product returns.

(iii) If such seller certifies to the online marketplace that the seller does not have a phone number other than a personal phone number, the online marketplace shall inform consumers that there is no phone number available for the seller and that consumer inquiries should be submitted to the seller's email address or other means of electronic messaging provided to such seller by the online marketplace.

(B) LIMITATION ON EXCEPTION.—If an online marketplace becomes aware that a high-volume third party seller has made a false representation to the online marketplace in order to justify the provision of a partial disclosure under subparagraph (A) or that a high-volume third party seller who has requested and received a provision for a partial disclosure under subparagraph (A) has not provided responsive answers within a reasonable time frame to consumer inquiries submitted to the seller by phone, email, or other means of electronic messaging provided to such seller by the online marketplace, the online marketplace shall, after providing the seller with written or electronic notice and an opportunity to respond not later than 10 days after the issuance of such notice, suspend any future sales activity of such seller unless such seller consents to the disclosure of the identity information required under paragraph (1)(B)(i).

(3) REPORTING MECHANISM.—An online marketplace shall disclose to consumers in a clear

and conspicuous manner on the product listing of any high-volume third party seller a reporting mechanism that allows for electronic and telephonic reporting of suspicious marketplace activity to the online marketplace.

(4) COMPLIANCE.—If a high-volume third party seller does not comply with the requirements to provide and disclose information under this subsection, the online marketplace shall, after providing the seller with written or electronic notice and an opportunity to provide or disclose such information not later than 10 days after the issuance of such notice, suspend any future sales activity of such seller until the seller complies with such requirements.

(c) ENFORCEMENT BY FEDERAL TRADE COMMISSION.—

(1) UNFAIR AND DECEPTIVE ACTS OR PRACTICES.—A violation of subsection (a) or (b) by an online marketplace shall be treated as a violation of a rule defining an unfair or deceptive act or practice prescribed under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(2) POWERS OF THE COMMISSION.—

(A) IN GENERAL.—The Commission shall enforce subsections (a) and (b) in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this section.

(B) PRIVILEGES AND IMMUNITIES.—Any person that violates subsection (a) or (b) shall be subject to the penalties, and entitled to the privileges and immunities, provided in the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(3) REGULATIONS.—The Commission may promulgate regulations under section 553 of title 5, United States Code, with respect to the collection, verification, or disclosure of information under this section, provided that such regulations are limited to what is necessary to collect, verify, and disclose such information.

(4) AUTHORITY PRESERVED.—Nothing in this section shall be construed to limit the authority of the Commission under any other provision of law.

(d) ENFORCEMENT BY STATE ATTORNEYS GENERAL.—

(1) IN GENERAL.—If the attorney general of a State has reason to believe that any online marketplace has violated or is violating this section or a regulation promulgated under this section that affects one or more residents of that State, the attorney general of the State may bring a civil action in any appropriate district court of the United States, to—

(A) enjoin further such violation by the defendant;

(B) enforce compliance with this section or such regulation;

(C) obtain civil penalties in the amount provided for under subsection (c);

(D) obtain other remedies permitted under State law; and

(E) obtain damages, restitution, or other compensation on behalf of residents of the State.

(2) NOTICE.—The attorney general of a State shall provide prior written notice of any action under paragraph (1) to the Commission and provide the Commission with a copy of the complaint in the action, except in any case in which such prior notice is not feasible, in which case the attorney general shall serve such notice immediately upon instituting such action.

(3) INTERVENTION BY THE FTC.—Upon receiving notice under paragraph (2), the Commission shall have the right—

(A) to intervene in the action;

(B) upon so intervening, to be heard on all matters arising therein; and

(C) to file petitions for appeal.

(4) LIMITATION ON STATE ACTION WHILE FEDERAL ACTION IS PENDING.—If the Commission has instituted a civil action for violation of this section or a regulation promulgated under this section, no State attorney general, or official or

agency of a State, may bring a separate action under paragraph (1) during the pendency of that action against any defendant named in the complaint of the Commission for any violation of this section or a regulation promulgated under this section that is alleged in the complaint. A State attorney general, or official or agency of a State, may join a civil action for a violation of this section or regulation promulgated under this section filed by the Commission.

(5) **RULE OF CONSTRUCTION.**—For purposes of bringing a civil action under paragraph (1), nothing in this section shall be construed to prevent the chief law enforcement officer, or official or agency of a State, from exercising the powers conferred on such chief law enforcement officer, official or agency of a State, by the laws of the State to conduct investigations, administer oaths or affirmations, or compel the attendance of witnesses or the production of documentary and other evidence.

(6) **ACTIONS BY OTHER STATE OFFICIALS.**—

(A) **IN GENERAL.**—In addition to civil actions brought by attorneys general under paragraph (1), any other officer of a State who is authorized by the State to do so, except for any private person on behalf of the State attorney general, may bring a civil action under paragraph (1), subject to the same requirements and limitations that apply under this subsection to civil actions brought by attorneys general.

(B) **SAVINGS PROVISION.**—Nothing in this subsection may be construed to prohibit an authorized official of a State from initiating or continuing any proceeding in a court of the State for a violation of any civil or criminal law of the State.

(e) **SEVERABILITY.**—If any provision of this section, or the application thereof to any person or circumstance, is held invalid, the remainder of this section and the application of such provision to other persons not similarly situated or to other circumstances shall not be affected by the invalidation.

(f) **DEFINITIONS.**—In this section:

(1) **COMMISSION.**—The term “Commission” means the Federal Trade Commission.

(2) **CONSUMER PRODUCT.**—The term “consumer product” has the meaning given such term in section 101 of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act (15 U.S.C. 2301) and section 700.1 of title 16, Code of Federal Regulations.

(3) **HIGH-VOLUME THIRD PARTY SELLER.**—

(A) **IN GENERAL.**—The term “high-volume third party seller” means a participant on an online marketplace’s platform who is a third party seller and who, in any continuous 12-month period during the previous 24 months, has entered into 200 or more discrete sales or transactions of new or unused consumer products and an aggregate total of \$5,000 or more in gross revenues.

(B) **CLARIFICATION.**—For purposes of calculating the number of discrete sales or transactions or the aggregate gross revenues under subparagraph (A), an online marketplace shall only be required to count sales or transactions made through the online marketplace and for which payment was processed by the online marketplace, either directly or through its payment processor.

(4) **ONLINE MARKETPLACE.**—The term “online marketplace” means any person or entity that operates a consumer-directed electronically based or accessed platform that—

(A) includes features that allow for, facilitate, or enable third party sellers to engage in the sale, purchase, payment, storage, shipping, or delivery of a consumer product in the United States;

(B) is used by one or more third party sellers for such purposes; and

(C) has a contractual or similar relationship with consumers governing their use of the platform to purchase consumer products.

(5) **SELLER.**—The term “seller” means a person who sells, offers to sell, or contracts to sell

a consumer product through an online marketplace’s platform.

(6) **THIRD PARTY SELLER.**—

(A) **IN GENERAL.**—The term “third party seller” means any seller, independent of an online marketplace, who sells, offers to sell, or contracts to sell a consumer product in the United States through such online marketplace’s platform.

(B) **EXCLUSIONS.**—The term “third party seller” does not include, with respect to an online marketplace—

(i) a seller who operates the online marketplace’s platform; or

(ii) a business entity that has—

(I) made available to the general public the entity’s name, business address, and working contact information;

(II) an ongoing contractual relationship with the online marketplace to provide the online marketplace with the manufacture, distribution, wholesaling, or fulfillment of shipments of consumer products; and

(III) provided to the online marketplace identifying information, as described in subsection (a), that has been verified in accordance with that subsection.

(7) **VERIFY.**—The term “verify” means to confirm information provided to an online marketplace pursuant to this section, which may include the use of one or more methods that enable the online marketplace to reliably determine that any information and documents provided are valid, corresponding to the seller or an individual acting on the seller’s behalf, not misappropriated, and not falsified.

(g) **RELATIONSHIP TO STATE LAWS.**—No State or political subdivision of a State, or territory of the United States, may establish or continue in effect any law, regulation, rule, requirement, or standard that conflicts with the requirements of this section.

(h) **EFFECTIVE DATE.**—This section shall take effect 180 days after the date of the enactment of this Act.

TITLE III—ENERGY

SEC. 20301. STRATEGIC TRANSFORMER RESERVE AND RESILIENCE PROGRAM.

(a) **ESTABLISHMENT.**—The Secretary shall establish a program to reduce the vulnerability of the electric grid to physical attack, cyber attack, electromagnetic pulse, geomagnetic disturbances, severe weather, climate change, and seismic events, including by—

(1) ensuring that large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment are strategically located to ensure timely replacement of such equipment as may be necessary to restore electric grid function rapidly in the event of severe damage to the electric grid due to physical attack, cyber attack, electromagnetic pulse, geomagnetic disturbances, severe weather, climate change, or seismic events; and

(2) establishing a coordinated plan to facilitate transportation of large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment.

(b) **TRANSFORMER RESILIENCE.**—In carrying out the program established under subsection (a), the Secretary shall—

(1) improve large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment by reducing their vulnerabilities;

(2) develop, test, and deploy innovative equipment designs that are more flexible and offer greater resiliency of electric grid functions;

(3) coordinate with industry and manufacturers to standardize large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment;

(4) monitor and test large power transformers, generator step-up transformers, power conver-

sion equipment, and other critical electric grid equipment that the Secretary determines may pose a risk to the bulk-power system or national security; and

(5) facilitate the domestic manufacturing of large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment through the issuance of grants and loans, and through the provision of technical support.

(c) **STRATEGIC EQUIPMENT RESERVES.**—

(1) **AUTHORIZATION.**—In carrying out the program established under subsection (a), the Secretary may establish one or more federally owned strategic equipment reserves, as appropriate, to ensure nationwide access to large power transformers, generator step-up transformers, power conversion equipment, and other critical electric grid equipment.

(2) **CONSIDERATION.**—In establishing any federally owned strategic equipment reserve, the Secretary may consider existing spare transformer and equipment programs and requirements established by the private sector, Regional Transmission Organizations, Independent System Operators, and State regulatory authorities.

(d) **CONSULTATION.**—The program established under subsection (a) shall be carried out in consultation with the Federal Energy Regulatory Commission, the Electricity Subsector Coordinating Council, the Electric Reliability Organization, manufacturers, and owners and operators of critical electric infrastructure and defense and military installations.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$75,000,000 for each of fiscal years 2022 through 2026. Such amounts shall remain available until expended.

(f) **CONSTRUCTION PROJECTS.**—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration or repair work carried out, in whole or in part, with financial assistance made available under this section shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(f) **DEFINITIONS.**—In this section:

(1) **BULK-POWER SYSTEM; ELECTRIC RELIABILITY ORGANIZATION.**—The terms “bulk-power system” and “Electric Reliability Organization” have the meaning given such terms in section 215 of the Federal Power Act (16 U.S.C. 824o).

(3) **INDEPENDENT SYSTEM OPERATOR; REGIONAL TRANSMISSION ORGANIZATION STATE REGULATORY AUTHORITY.**—The terms “Regional Transmission Organization”, “Independent System Operator”, and “State regulatory authority” have the meaning given such terms in section 3 of the Federal Power Act (16 U.S.C. 796).

(4) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

SEC. 20302. SOLAR COMPONENT MANUFACTURING SUPPLY CHAIN ASSISTANCE.

(a) **FINDINGS.**—The Congress finds that it is in the interest of the United States—

(1) to have a viable solar component manufacturing supply chain; and

(2) to reduce the reliance of United States manufacturers on solar components made in the People’s Republic of China.

(b) **ESTABLISHMENT.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall establish and carry out a program to award grants and direct loans to eligible entities to carry out projects in the United States for—

(1) the construction of new facilities that manufacture solar components; and

(2) retooling, retrofitting, or expanding existing facilities that manufacture solar components.

(c) **CONSIDERATIONS.**—In awarding grants and direct loans under the program, the Secretary shall take into consideration whether a project—

(1) is strategically located near manufacturers in the solar component manufacturing supply chain to create a geographic concentration of manufacturers in the solar component manufacturing supply chain;

(2) has the potential to materially reduce the reliance of United States manufacturers on solar components, including photovoltaic cells and photovoltaic wafers, made in the People's Republic of China;

(3) will provide the potential for both direct and indirect domestic job creation, including jobs for low-income communities, dislocated workers, and workers from groups that are underrepresented in the manufacturing industry; and

(4) will result in economic development or economic diversification in economically distressed regions or localities.

(d) **ADVANCED SOLAR TECHNOLOGY.**—The Secretary may issue a written finding on whether any advanced solar technology has significant potential to reduce the reliance of United States manufacturers on traditional solar components made in the People's Republic of China.

(e) **PROHIBITION.**—In carrying out the program, the Secretary may not award grants or direct loans for projects that will source solar components from, or supply their solar components to, facilities that use forced labor.

(f) **APPLICATION.**—To be eligible to receive a grant or direct loan under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(g) **DIRECT LOAN CONDITIONS.**—A direct loan made under the program shall—

(1) bear interest at a rate that does not exceed a level that the Secretary determines appropriate; and

(2) be subject to such other terms and conditions as the Secretary determines appropriate.

(h) **COST SHARING FOR GRANTS.**—Section 988(c) of the Energy Policy Act of 2005 (42 U.S.C. 16352(c)) shall apply to a grant made under this section.

(i) **PREVAILING WAGES.**—Any laborer or mechanic employed by any contractor or subcontractor in the performance of work funded directly, or assisted in whole or in part, by the Federal Government pursuant to this section shall be paid wages at rates not less than those prevailing on work of a similar character in the locality, as determined by the Secretary of Labor under subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the Davis-Bacon Act). With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(j) **LABOR-MANAGEMENT COOPERATION.**—

(1) **IN GENERAL.**—Notwithstanding any contrary provision of law, including the National Labor Relations Act (29 U.S.C. 151 et seq.), paragraphs (2) through (7) shall apply with respect to any funding recipient who is an employer and any labor organization who represents or seeks to represent employees of a funding recipient, as those terms are defined in section 2 of the National Labor Relations Act (29 U.S.C. 152).

(2) **LABOR PEACE.**—Any employer receiving funds under this section shall recognize for purposes of collective bargaining a labor organization that demonstrates that a majority of the employees in a unit appropriate for bargaining who perform or will perform funded work have signed valid authorizations designating the

labor organization as their bargaining representative and that no other labor organization is currently certified or recognized as the exclusive representative of any of the employees in the unit pursuant to the National Labor Relations Act (29 U.S.C. 151 et seq.). Upon such showing of majority status, the employer shall notify the labor organization and the National Labor Relations Board (the Board) that it has determined that the labor organization represents a majority of the employees and that it is recognizing the labor organization as the exclusive representative of the employees for the purposes of collective bargaining pursuant to section 9 of the National Labor Relations Act (29 U.S.C. 159).

(3) **CERTIFICATION.**—Should a dispute over majority status or the appropriateness of the unit arise between the employer and the labor organization, either party may request that the Board investigate and resolve the dispute. If the Board finds that a majority of the employees in a unit appropriate for bargaining has signed valid authorizations designating the labor organization as their bargaining representative and that no other individual or labor organization is currently certified or recognized as the exclusive representative of any of the employees in the unit, the Board shall not direct an election but shall certify the labor organization as the representative described in section 9(a) of the National Labor Relations Act (29 U.S.C. 159(a)).

(4) **COMMENCEMENT OF BARGAINING.**—Not later than 10 days after receiving a written request for collective bargaining from a recognized or certified labor organization, or within such period as the parties agree upon, the labor organization and employer shall meet and commence to bargain collectively and shall make every reasonable effort to conclude and sign a collective bargaining agreement.

(5) **MEDIATION.**—If after the expiration of the 90-day period beginning on the date on which bargaining is commenced, or such additional period as the parties may agree upon, the parties have failed to reach an agreement, either party may notify the Federal Mediation and Conciliation Service of the existence of a dispute and request mediation. Whenever such a request is received, it shall be the duty of the Service promptly to put itself in communication with the parties and to use its best efforts, by mediation and conciliation, to bring them to agreement.

(6) **ARBITRATION.**—If after the expiration of the 30-day period beginning on the date on which the request for mediation is made under paragraph (5), or such additional period as the parties may agree upon, the Service is not able to bring the parties to agreement by conciliation, the Service shall refer the dispute to a tripartite arbitration panel established in accordance with such regulations as may be prescribed by the Service, with one member selected by the labor organization, one member selected by the employer, and one neutral member mutually agreed to by the parties. The labor organization and employer must each select the members of the tripartite arbitration panel within 14 days of the Service's referral; if the labor organization or employer fail to do so, the Service shall designate any members not selected by the labor organization or the employer. A majority of the tripartite arbitration panel shall render a decision settling the dispute as soon as practicable and not later than within 120 days, absent extraordinary circumstances or by agreement or permission of the parties, and such decision shall be binding upon the parties for a period of 2 years, unless amended during such period by written consent of the parties. Such decision shall be based on—

(A) the employer's financial status and prospects;

(B) the size and type of the employer's operations and business;

(C) the employees' cost of living;

(D) the employees' ability to sustain themselves, their families, and their dependents on

the wages and benefits they earn from the employer; and

(E) the wages and benefits other employers in the same business provide their employees.

(7) **SUBCONTRACTORS.**—Any employer receiving funds under this section shall require any subcontractor whose employees perform or will perform funded work to comply with the requirements set forth in paragraphs (1) through (6) above.

(k) **COSTS OF DIRECT LOANS.**—The Secretary may use any amounts made available under this section to pay the costs of providing direct loans under the program.

(l) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$600,000,000 for each of fiscal years 2022 through 2026.

(m) **DEFINITIONS.**—In this section:

(1) **ADVANCED SOLAR TECHNOLOGY.**—The term "advanced solar technology" means any new or emerging technology, system, or mechanism that uses solar radiation to generate electrical energy, and any component thereof.

(2) **DIRECT CURRENT OPTIMIZER.**—The term "direct current optimizer" means a product which converts direct current electricity from one or more solar modules or advanced solar technologies to a different direct current voltage that is matched to the input requirements of an inverter.

(3) **DIRECT LOAN.**—The term "direct loan" means a disbursement of funds by the Government to a non-Federal borrower under a contract that requires the repayment of such funds with or without interest. The term includes the purchase of, or participation in, a loan made by another lender and financing arrangements that defer payment for more than 90 days, including the sale of a Government asset on credit terms.

(4) **ELIGIBLE ENTITY.**—The term "eligible entity" means a private entity, including a manufacturer, or a partnership of private entities.

(5) **FORCED LABOR.**—The term "forced labor" has the meaning given such term in section 307 of the Tariff Act of 1930 (19 U.S.C. 1307).

(6) **INTEGRATED MODULE.**—The term "integrated module" means a solar module produced by a single manufacturer through the conversion of a photovoltaic wafer or other semiconductor material into an end product which is—

(A) suitable to generate electricity when exposed to sunlight; and

(B) ready for installation without additional manufacturing processes.

(7) **INVERTER.**—The term "inverter" means a product which converts direct current electricity from one or more solar modules or advanced solar technologies into alternating current electricity.

(8) **LABOR ORGANIZATION.**—The term "labor organization" has the meaning given the term in section 2 of the National Labor Relations Act (29 U.S.C. 152).

(9) **PARTIES.**—The term "parties" means a labor organization that is newly recognized or certified as a representative under section 9(a) of the National Labor Relations Act (29 U.S.C. 159(a)) and the employer of the employees represented by such organization.

(10) **PHOTOVOLTAIC CELL.**—The term "photovoltaic cell" means the smallest semiconductor element of a solar module which performs the immediate conversion of light into electricity.

(11) **PHOTOVOLTAIC WAFER.**—The term "photovoltaic wafer" means a thin slice, sheet, or layer of semiconductor material of at least 240 square centimeters produced by a single manufacturer—

(A) either—

(i) directly from molten or evaporated solar grade polysilicon or deposition of solar grade thin film semiconductor photon absorber layer; or

(ii) through formation of an ingot from molten polysilicon and subsequent slicing; and

(B) which comprises the substrate or absorber layer of one or more photovoltaic cells.

(12) **PROGRAM.**—The term “program” means the program established under subsection (b).

(13) **RACKING.**—The term “racking” means a structural steel or aluminum support element, of any cross-section shape and which may be assembled from individually manufactured segments, spanning longitudinally, on which solar modules are supported.

(14) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(15) **SOLAR COMPONENT.**—The term “solar component” includes an integrated module, a photovoltaic cell, a photovoltaic wafer, solar grade polysilicon, a solar module, an inverter, racking, a tracker, a direct current optimizer, and any advanced solar technology for which the Secretary has issued a written finding under subsection (d) that such advanced solar technology has significant potential to reduce the reliance of United States manufacturers on traditional solar components made in the People's Republic of China.

(16) **SOLAR GRADE POLYSILICON.**—The term “solar grade polysilicon” means silicon which is—

(A) suitable for use in photovoltaic manufacturing; and

(B) purified to a minimum purity of 99.999999 percent silicon by mass.

(17) **SOLAR MODULE.**—The term “solar module” means the connection and lamination of photovoltaic cells into an environmentally protected final assembly which is—

(A) suitable to generate electricity when exposed to sunlight; and

(B) ready for installation without an additional manufacturing process.

(18) **TRACKER.**—The term “tracker” means—

(A) a structural steel support on which solar modules are supported; and

(B) the mechanism by which that support is oriented to varying angles with respect to the sun's position.

(19) **TRADITIONAL SOLAR COMPONENT.**—The term “traditional solar component” means an integrated module, a photovoltaic cell, a photovoltaic wafer, solar grade polysilicon, and a solar module.

TITLE IV—MEDICAL PRODUCT SUPPLY CHAIN IMPROVEMENTS

Subtitle A—Medical Product Innovation, Transparency, and Safety

SEC. 20401. NATIONAL CENTERS OF EXCELLENCE IN ADVANCED AND CONTINUOUS PHARMACEUTICAL MANUFACTURING.

(a) **IN GENERAL.**—Section 3016 of the 21st Century Cures Act (21 U.S.C. 399h) is amended to read as follows:

“SEC. 3016. NATIONAL CENTERS OF EXCELLENCE IN ADVANCED AND CONTINUOUS PHARMACEUTICAL MANUFACTURING.

“(a) **IN GENERAL.**—The Secretary of Health and Human Services, acting through the Commissioner of Food and Drugs—

“(1) shall solicit and, beginning not later than one year after the date of enactment of the America COMPETES Act of 2022, receive requests from institutions of higher education, or consortia of institutions of higher education, to be designated as a National Center of Excellence in Advanced and Continuous Pharmaceutical Manufacturing (in this section referred to as a ‘National Center of Excellence’) to support the advancement, development, and implementation of advanced and continuous pharmaceutical manufacturing; and

“(2) shall so designate not more than 5 institutions of higher education or consortia of such institutions that—

“(A) request such designation; and

“(B) meet the criteria specified in subsection (c).

“(b) **REQUEST FOR DESIGNATION.**—A request for designation under subsection (a) shall be made to the Secretary at such time, in such

manner, and containing such information as the Secretary may require. Any such request shall include a description of how the institution of higher education, or consortium of institutions of higher education, meets or plans to meet each of the criteria specified in subsection (c).

“(c) **CRITERIA FOR DESIGNATION DESCRIBED.**—The criteria specified in this subsection with respect to an institution of higher education, or consortium of institutions of higher education, are that the institution or consortium has, as of the date of the submission of a request under subsection (a) by such institution or consortium—

“(1) physical and technical capacity for research, development, implementation, and demonstration of advanced and continuous pharmaceutical manufacturing;

“(2) manufacturing knowledge-sharing networks with other institutions of higher education, large and small pharmaceutical manufacturers, generic and nonprescription manufacturers, contract manufacturers, and other relevant entities;

“(3) proven capacity to design, develop, implement, and demonstrate new, highly effective technologies for use in advanced and continuous pharmaceutical manufacturing;

“(4) a track record for creating, preserving, and transferring knowledge with respect to advanced and continuous pharmaceutical manufacturing;

“(5) the proven ability to facilitate training of an adequate future workforce for research on, and implementation of, advanced and continuous pharmaceutical manufacturing; and

“(6) experience in participating in and leading advanced and continuous pharmaceutical manufacturing technology partnerships with other institutions of higher education, large and small pharmaceutical manufacturers, generic and nonprescription manufacturers, contract manufacturers, and other relevant entities—

“(A) to support companies seeking to implement advanced and continuous pharmaceutical manufacturing in the United States;

“(B) to support Federal agencies with technical assistance and employee training, which may include regulatory and quality metric guidance as applicable, and hands-on training, for advanced and continuous pharmaceutical manufacturing;

“(C) with respect to advanced and continuous pharmaceutical manufacturing, to organize and conduct research and development activities needed to create new and more effective technology, develop and share knowledge, create intellectual property, and maintain technological leadership;

“(D) to develop best practices for designing and implementing advanced and continuous pharmaceutical manufacturing processes; and

“(E) to assess and respond to the national workforce needs for advanced and continuous pharmaceutical manufacturing, including the development and implementing of training programs.

“(d) **TERMINATION OF DESIGNATION.**—The Secretary may terminate the designation of any National Center of Excellence designated under this section if the Secretary determines such National Center of Excellence no longer meets the criteria specified in subsection (c). Not later than 90 days before the effective date of such a termination, the Secretary shall provide written notice to the National Center of Excellence, including the rationale for such termination.

“(e) **CONDITIONS FOR DESIGNATION.**—As a condition of designation as a National Center of Excellence under this section, the Secretary shall require that an institution of higher education or consortium of institutions of higher education enter into an agreement with the Secretary under which the institution or consortium agrees—

“(1) to collaborate directly with the Food and Drug Administration to publish the reports required by subsection (g);

“(2) to share data with the Food and Drug Administration regarding best practices and research generated through the funding under subsection (f);

“(3) to develop, along with industry partners (which may include large and small biopharmaceutical manufacturers, generic and nonprescription manufacturers, and contract research organizations or contract manufacturers that carry out drug development and manufacturing activities) and another institution or consortium designated under this section, if any, a roadmap for developing an advanced and continuous pharmaceutical manufacturing workforce;

“(4) to develop, along with industry partners and other institutions or consortia of such institutions designated under this section, a roadmap for strengthening existing, and developing new, relationships with other institutions of higher education or consortia thereof; and

“(5) to provide an annual report to the Food and Drug Administration regarding the institution's or consortium's activities under this section, including a description of how the institution or consortium continues to meet and make progress on the criteria specified in subsection (c).

“(f) **FUNDING.**—

“(1) **IN GENERAL.**—The Secretary shall award funding, through grants, contracts, or cooperative agreements, to the National Centers of Excellence designated under this section for the purpose of studying and recommending improvements to advanced and continuous pharmaceutical manufacturing, including such improvements as may enable the Centers—

“(A) to continue to meet the conditions specified in subsection (e);

“(B) to expand capacity for research on, and development of, advanced and continuous pharmaceutical manufacturing; and

“(C) to implement research infrastructure in advanced and continuous pharmaceutical manufacturing suitable for accelerating the development of drug products needed to respond to emerging medical threats, such as emerging drug shortages, quality issues disrupting the supply chain, epidemics and pandemics, and other such situations requiring the rapid development of new products or new manufacturing processes.

“(2) **CONSISTENCY WITH FDA MISSION.**—As a condition on receipt of funding under this subsection, a National Center of Excellence shall agree to consider any input from the Secretary regarding the use of funding that would—

“(A) help to further the advancement of advanced and continuous pharmaceutical manufacturing through the National Center of Excellence; and

“(B) be relevant to the mission of the Food and Drug Administration.

“(3) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed as precluding a National Center for Excellence designated under this section from receiving funds under any other provision of this Act or any other Federal law.

“(g) **ANNUAL REVIEW AND REPORTS.**—

“(1) **ANNUAL REPORT.**—Beginning not later than one year after the date on which the first designation is made under subsection (a), and annually thereafter, the Secretary shall—

“(A) submit to Congress a report describing the activities, partnerships and collaborations, Federal policy recommendations, previous and continuing funding, and findings of, and any other applicable information from, the National Centers of Excellence designated under this section;

“(B) include in such report an accounting of the Federal administrative expenses described in subsection (i)(2) over the reporting period; and

“(C) make such report available to the public in an easily accessible electronic format on the website of the Food and Drug Administration.

“(2) **REVIEW OF NATIONAL CENTERS OF EXCELLENCE AND POTENTIAL DESIGNEES.**—The Secretary shall periodically review the National

Centers of Excellence designated under this section to ensure that such National Centers of Excellence continue to meet the criteria for designation under this section.

“(3) **REPORT ON LONG-TERM VISION OF FDA ROLE.**—Not later than 2 years after the date on which the first designation is made under subsection (a), the Secretary, in consultation with the National Centers of Excellence designated under this section, shall submit a report to the Congress on the long-term vision of the Department of Health and Human Services on the role of the Food and Drug Administration in supporting advanced and continuous pharmaceutical manufacturing, including—

“(A) a national framework of principles related to the implementation and regulation of advanced and continuous pharmaceutical manufacturing;

“(B) a plan for the development of Federal regulations and guidance for how advanced and continuous pharmaceutical manufacturing can be incorporated into the development of pharmaceuticals and regulatory responsibilities of the Food and Drug Administration;

“(C) a plan for development of Federal regulations or guidance for how advanced and continuous pharmaceutical manufacturing will be reviewed by the Food and Drug Administration; and

“(D) appropriate feedback solicited from the public, which may include other institutions of higher education, large and small biopharmaceutical manufacturers, generic and non-prescription manufacturers, and contract manufacturers.

“(h) **DEFINITIONS.**—In this section:

“(1) **ADVANCED.**—The term ‘advanced’, with respect to pharmaceutical manufacturing, refers to an approach that incorporates novel technology, or uses an established technique or technology in a new or innovative way, that enhances drug quality or improves the performance of a manufacturing process.

“(2) **CONTINUOUS.**—The term ‘continuous’, with respect to pharmaceutical manufacturing, refers to a process—

“(A) where the input materials are continuously fed into and transformed within the process, and the processed output materials are continuously removed from the system; and

“(B) that consists of an integrated process that consists of a series of two or more simultaneous unit operations.

“(3) **INSTITUTION OF HIGHER EDUCATION.**—The term ‘institution of higher education’ has the meaning given such term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

“(4) **SECRETARY.**—The term ‘Secretary’ means the Secretary of Health and Human Services, acting through the Commissioner of Food and Drugs.

“(i) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—There is authorized to be appropriated to carry out this section \$100,000,000 for the period of fiscal years 2022 through 2026.

“(2) **FEDERAL ADMINISTRATIVE EXPENSES.**—Of the amounts made available to carry out this section for a fiscal year, the Secretary shall not use more than eight percent for Federal administrative expenses, including training, technical assistance, reporting, and evaluation.”

(b) **TRANSITION RULE.**—Section 3016 of the 21st Century Cures Act (21 U.S.C. 399h), as in effect on the day before the date of the enactment of this section, shall apply with respect to grants awarded under such section before such date of enactment.

(c) **CLERICAL AMENDMENT.**—The item relating to section 3016 in the table of contents in section 1(b) of the 21st Century Cures Act (Public Law 114–255) is amended to read as follows:

“Sec. 3016. National Centers of Excellence in Advanced and Continuous Pharmaceutical Manufacturing.”

SEC. 20402. NOTIFICATION, NONDISTRIBUTION, AND RECALL OF DRUGS.

(a) **ORDER TO CEASE DISTRIBUTION AND RECALL.**—Section 569D of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360bbb–8d) is amended—

(1) in the section heading, by striking “**CONTROLLED SUBSTANCES**” and inserting “**DRUGS**”;

(2) by striking “controlled substance” each place such term appears and inserting “drug”;

(3) in subsection (b)—

(A) by striking “controlled substances” and inserting “drugs”; and

(B) by inserting “of subsection (a)” after “an order pursuant to paragraph (1) or an amended order pursuant to subparagraph (B) or (C) of paragraph (3)”; and

(4) in subsection (c), by striking “or an official senior to such Director” and inserting “or the Director of the Center for Biologics Evaluation and Research (or an official senior to either such Director)”.

(b) **IMPORTS AND EXPORTS.**—Section 801(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(a)) is amended by striking “is a controlled substance subject to an order under section 569D” and inserting “is a drug subject to an order under section 569D”.

SEC. 20403. REPORTING REQUIREMENT FOR DRUG MANUFACTURERS.

(a) **ESTABLISHMENTS IN A FOREIGN COUNTRY.**—Section 510(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360(i)) is amended by inserting at the end the following:

“(5) The requirements of paragraphs (1) and (2) shall apply to establishments within a foreign country engaged in the manufacture, preparation, propagation, compounding, or processing of any drug, including the active pharmaceutical ingredient, that is required to be listed pursuant to subsection (j). Such requirements shall apply regardless of whether the drug or active pharmaceutical ingredient undergoes further manufacture, preparation, propagation, compounding, or processing at a separate establishment or establishments outside the United States prior to being imported or offered for import into the United States.”

(b) **LISTING OF DRUGS.**—Section 510(j)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360(j)(1)) is amended—

(1) in subparagraph (D), by striking “and” at the end;

(2) in subparagraph (E), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(F) in the case of a drug contained in the applicable list, a certification that the registrant has—

“(i) identified every other establishment where manufacturing is performed for the drug; and

“(ii) notified each known foreign establishment engaged in the manufacture, preparation, propagation, compounding, or processing of the drug, including the active pharmaceutical ingredient, of the inclusion of the drug in the list and the obligation to register.”

(c) **QUARTERLY REPORTING ON AMOUNT OF DRUGS MANUFACTURED.**—Section 510(j)(3)(A) of the Federal Food, Drug, and Cosmetic Act (as added by section 3112 of the CARES Act (Public Law 116–136)) is amended by striking “annually” and inserting “once during the month of March of each year, once during the month of June of each year, once during the month of September of each year, and once during the month of December of each year”.

SEC. 20404. ENHANCED PENALTIES FOR FALSE INFORMATION AND RECORDS DESTRUCTION.

(a) **PROHIBITION OF FALSE INFORMATION AND RECORD DESTRUCTION.**—Section 301 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331) is amended by adding at the end the following:

“(fff) The intentional material falsification, fabrication, destruction, omission, or removal of the whole or any part of records or information that is—

“(1) required under this Act—

“(A) to be produced during the development or manufacture of a drug; or

“(B) to be produced or maintained by the sponsor of an application for the approval of a drug under section 505 or the holder of an approved application for a drug under section 505; or

“(2) subject to inspection under this Act by the Secretary.”

(b) **PENALTIES.**—Section 303(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 333(f)) is amended—

(1) in subparagraphs (A) and (C) of paragraph (5), by striking or “or (9)” each place it appears and inserting “(9), or (10)”; and

(2) by adding at the end the following: “(10) Notwithstanding subsection (a), any person who violates section 301(fff) shall be subject to—

“(A) a civil monetary penalty not to exceed—

“(i) \$1,000,000 per violation; and

“(ii) \$10,000,000 for all violations (excluding those described in subparagraph (B)) adjudicated in a single proceeding; and

“(B) in case of a violation that continues after the Secretary provides written notice to such person, if such person does not sufficiently remedy the violation, including by producing corrected records or information, additional civil penalties not to exceed—

“(i) \$1,000,000 for the first 30-day period (or any portion thereof) following such notice during which such person continues to be in violation; and

“(ii) for each such 30-day period thereafter, the amount that is double the amount actually imposed for the preceding 30-day period, not to exceed \$2,000,000 for any 30-day period; and

“(iii) \$20,000,000 for all violations described in this subparagraph adjudicated in a single proceeding.”

Subtitle B—Strengthening America's Strategic National Stockpile

SEC. 20411. REIMBURSABLE TRANSFERS.

Section 319F–2(a) of the Public Health Service Act (42 U.S.C. 247d–6b(a)) is amended by amending paragraph (6) to read as follows:

“(6) **TRANSFERS AND REIMBURSEMENTS.**—

“(A) **IN GENERAL.**—Without regard to chapter 5 of title 40, United States Code, the Secretary may transfer to any Federal department or agency, on a reimbursable basis, any drugs, vaccines and other biological products, medical devices, and other supplies in the stockpile if—

“(i) the transferred supplies are less than one year from expiry;

“(ii) the stockpile is able to replenish the supplies, as appropriate; and

“(iii) the Secretary decides the transfer is in the best interest of the United States Government.

“(B) **USE OF REIMBURSEMENT.**—Reimbursement derived from the transfer of supplies pursuant to subparagraph (A) may, to the extent and in the amounts made available in advance in appropriations Acts, be used by the Secretary to carry out this section. Funds made available pursuant to the preceding sentence are in addition to any other funds that may be made available for such purpose.

“(C) **RULE OF CONSTRUCTION.**—This paragraph shall not be construed to preclude transfers of products in the stockpile under other authorities.

“(D) **REPORT.**—Not later than September 30, 2023, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report on each transfer made under this paragraph and the amount received by the Secretary in exchange for that transfer.

“(E) **SUNSET.**—The authority to make transfers under this paragraph shall cease to be effective on September 30, 2024.”

SEC. 20412. EQUIPMENT MAINTENANCE.

Section 319F–2 of the Public Health Service Act (42 U.S.C. 247d–6b) is amended—

(1) in subsection (a)(3)—

(A) in subparagraph (I), by striking “; and” and inserting a semicolon;

(B) in subparagraph (J), by striking the period at the end and inserting a semicolon; and

(C) by inserting the following new subparagraph at the end:

“(K) ensure contents of the stockpile remain in good working order and, as appropriate, conduct maintenance services on contents of the stockpile; and”;

(2) in subsection (c)(7)(B), by adding at the end the following new clause:

“(ix) EQUIPMENT MAINTENANCE SERVICE.—In carrying out this section, the Secretary may enter into contracts for the procurement of equipment maintenance services.”.

SEC. 20413. SUPPLY CHAIN FLEXIBILITY MANUFACTURING PILOT.

(a) IN GENERAL.—Section 319F-2(a)(3) of the Public Health Service Act (42 U.S.C. 247d-6b(a)(3)), as amended by section 20412, is further amended by adding at the end the following new subparagraph:

“(L) enhance medical supply chain elasticity and establish and maintain domestic reserves of critical medical supplies (including personal protective equipment, ancillary medical supplies, and other applicable supplies required for the administration of drugs, vaccines and other biological products, and other medical devices (including diagnostic tests)) by—

“(i) increasing emergency stock of critical medical supplies;

“(ii) geographically diversifying domestic production of such medical supplies, as appropriate;

“(iii) entering into cooperative agreements or partnerships with respect to manufacturing lines, facilities, and equipment for the domestic production of such medical supplies; and

“(iv) managing, either directly or through cooperative agreements with manufacturers and distributors, domestic reserves established under this subparagraph by refreshing and replenishing stock of such medical supplies.”.

(b) REPORTING; SUNSET.—Section 319F-2(a) of the Public Health Service Act (42 U.S.C. 247d-6b(a)), as amended by section 20411, is further amended by adding at the end the following:

“(7) REPORTING.—Not later than September 30, 2023, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor and Pensions of the Senate a report on the details of each cooperative agreement or partnership entered into under paragraph (3)(L), including the amount expended by the Secretary on each such cooperative agreement or partnership.

“(8) SUNSET.—The authority to enter into cooperative agreements or partnerships pursuant to paragraph (3)(L) shall cease to be effective on September 30, 2024.”.

(c) FUNDING.—Section 319F-2(f) of the Public Health Service Act (42 U.S.C. 247d-6b(f)) is amended by adding at the end the following:

“(3) SUPPLY CHAIN ELASTICITY.—

“(A) IN GENERAL.—For the purpose of carrying out subsection (a)(3)(L), there is authorized to be appropriated \$500,000,000 for each of fiscal years 2022 through 2024, to remain available until expended.

“(B) RELATION TO OTHER AMOUNTS.—The amount authorized to be appropriated by subparagraph (A) for the purpose of carrying out subsection (a)(3)(L) is in addition to any other amounts available for such purpose.”.

SEC. 20414. GAO STUDY ON THE FEASIBILITY AND BENEFITS OF A USER FEE AGREEMENT.

(a) IN GENERAL.—The Comptroller General of the United States shall conduct a study to investigate the feasibility of establishing user fees to offset certain Federal costs attributable to the procurement of single-source materials for the Strategic National Stockpile under section 319F-2 of the Public Health Service Act (42 U.S.C.

247d-6b) and distributions of such materials from the Stockpile. In conducting this study, the Comptroller General shall consider, to the extent information is available—

(1) whether entities receiving such distributions generate profits from those distributions;

(2) any Federal costs attributable to such distributions;

(3) whether such user fees would provide the Secretary with funding to potentially offset procurement costs of such materials for the Strategic National Stockpile; and

(4) any other issues the Comptroller General identifies as relevant.

(b) REPORT.—Not later than February 1, 2024, the Comptroller General of the United States shall submit to the Congress a report on the findings and conclusions of the study under subsection (a).

SEC. 20415. GRANTS FOR STATE STRATEGIC STOCKPILES.

Title III of the Public Health Service Act is amended by inserting after section 319F-4 of such Act (42 U.S.C. 247d-6e) the following new section:

“SEC. 319F-5. GRANTS FOR STATE STRATEGIC STOCKPILES.

“(a) IN GENERAL.—The Secretary may establish a pilot program consisting of awarding grants to States to expand or maintain a strategic stockpile of commercially available drugs, devices, personal protective equipment, and other products deemed by the State to be essential in the event of a public health emergency.

“(b) ALLOWABLE USE OF FUNDS.—

“(1) USES.—A State receiving a grant under this section may use the grant funds to—

“(A) acquire commercially available products listed pursuant to paragraph (2) for inclusion in the State’s strategic stockpile;

“(B) store, maintain, and distribute products in such stockpile; and

“(C) conduct planning in connection with such activities.

“(2) LIST.—The Secretary shall develop and publish a list of the products that are eligible, as described in subsection (a), for inclusion in a State’s strategic stockpile using funds received under this section.

“(3) CONSULTATION.—In developing the list under paragraph (2) and otherwise determining the allowable uses of grant funds under this section, the Secretary shall consult with States and relevant stakeholders, including public health organizations.

“(c) FUNDING REQUIREMENT.—The Secretary may not obligate or expend any funds to award grants or fund any previously awarded grants under this section for a fiscal year unless the total amount made available to carry out section 319F-2 for such fiscal year is equal to or greater than the total amount of funds made available to carry out section 319F-2 for fiscal year 2022.

“(d) MATCHING FUNDS.—

“(1) IN GENERAL.—With respect to the costs of expanding and maintaining a strategic stockpile through a grant under this section, as a condition on receipt of the grant, a State shall make available (directly) non-Federal contributions in cash toward such costs in an amount that is equal to not less than the amount of Federal funds provided through the grant.

“(2) WAIVER.—The Secretary may waive the requirement of paragraph (1) with respect to a State for the first two years of the State receiving a grant under this section if the Secretary determines that such waiver is needed for the State to establish a strategic stockpile described in subsection (a).

“(e) TECHNICAL ASSISTANCE.—The Secretary shall provide technical assistance to States in establishing, expanding, and maintaining a stockpile described in subsection (a).

“(f) DEFINITION.—In this section, the term ‘drug’ has the meaning given to that term in section 201 of the Federal Food, Drug, and Cosmetic Act.

“(g) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there is authorized to be appropriated \$3,500,000,000 for each of fiscal years 2022 through 2024, to remain available until expended.

“(h) SUNSET.—The authority vested by this section terminates at the end of fiscal year 2024.”.

SEC. 20416. ACTION REPORTING.

(a) IN GENERAL.—The Secretary of Health and Human Services or the Assistant Secretary for Preparedness and Response, in consultation with the Administrator of the Federal Emergency Management Agency, shall—

(1) not later than 30 days after the date of enactment of this Act, issue a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate regarding all State, local, Tribal, and territorial requests for supplies from the Strategic National Stockpile related to COVID-19; and

(2) not less than every 30 days thereafter through the end of the emergency period (as such term is defined in section 1135(g)(1)(B) of the Social Security Act (42 U.S.C. 1320b-5(g)(1)(B))), submit to such committees an updated version of such report.

(b) REPORTING PERIOD.—

(1) INITIAL REPORT.—The initial report under subsection (a) shall address all requests described in such subsection made during the period—

(A) beginning on January 31, 2020; and

(B) ending on the date that is 30 days before the date of submission of the report.

(2) UPDATES.—Each update to the report under subsection (a) shall address all requests described in such subsection made during the period—

(A) beginning at the end of the previous reporting period under this section; and

(B) ending on the date that is 30 days before the date of submission of the updated report.

(c) CONTENTS OF REPORT.—The report under subsection (a) (and updates thereto) shall include—

(1) the details of each request described in such subsection, including—

(A) the specific medical countermeasures, devices, personal protective equipment, and other materials requested; and

(B) the amount of such materials requested; and

(2) the outcomes of each request described in subsection (a), including—

(A) whether the request was wholly fulfilled, partially fulfilled, or denied;

(B) if the request was wholly or partially fulfilled, the fulfillment amount; and

(C) if the request was partially fulfilled or denied, a rationale for such outcome.

SEC. 20417. IMPROVED, TRANSPARENT PROCESSES.

(a) IN GENERAL.—Not later than January 1, 2023, the Secretary of Health and Human Services shall develop and implement improved, transparent processes for the use and distribution of drugs, vaccines and other biological products, medical devices, and other supplies (including personal protective equipment, ancillary medical supplies, and other applicable supplies required for the administration of drugs, vaccines and other biological products, medical devices, and diagnostic tests) in the Strategic National Stockpile under section 319F-2 of the Public Health Service Act (42 U.S.C. 247d-6b) (in this section referred to as the “Stockpile”).

(b) PROCESSES.—The processes developed under subsection (a) shall include—

(1) the form and manner in which States, localities, Tribes, and territories are required to submit requests for supplies from the Stockpile;

(2) the criteria used by the Secretary of Health and Human Services in responding to such requests, including the reasons for fulfilling or denying such requests;

(3) what circumstances result in prioritization of distribution of supplies from the Stockpile to States, localities, Tribes, or territories;

(4) clear plans for future, urgent communication between the Secretary and States, localities, Tribes, and territories regarding the outcome of such requests; and

(5) any differences in the processes developed under subsection (a) for geographically related emergencies, such as weather events, and national emergencies, such as pandemics.

(c) **CLASSIFICATION.**—The processes developed under subsection (a) shall be unclassified to the greatest extent possible consistent with national security. The Secretary of Health and Human Services may classify portions of such processes as necessary to protect national security.

(d) **REPORT TO CONGRESS.**—Not later than January 1, 2024, the Secretary of Health and Human Services shall—

(1) submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate regarding the improved, transparent processes developed under this section;

(2) include in such report recommendations for opportunities for communication (by telebriefing, phone calls, or in-person meetings) between the Secretary and States, localities, Tribes, and territories regarding such improved, transparent processes; and

(3) submit such report in unclassified form to the greatest extent possible, except that the Secretary may include a classified appendix if necessary to protect national security.

SEC. 20418. AUTHORIZATION OF APPROPRIATIONS.

Section 319F–2(f)(1) of the Public Health Service Act (42 U.S.C. 247d–6b(f)(1)) is amended by striking “\$610,000,000 for each of fiscal years 2019 through 2023” and inserting “\$705,000,000 for each of fiscal years 2022 through 2024”.

DIVISION D—COMMITTEE ON FOREIGN AFFAIRS

SEC. 30000. SHORT TITLE.

(a) **SHORT TITLE.**—This division may be cited as the “Ensuring American Global Leadership and Engagement Act” or the “EAGLE Act”.

SEC. 30001. DEFINITIONS.

In this division:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—Unless otherwise defined, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs of the House of Representatives; and

(B) the Committee on Foreign Relations of the Senate.

(2) **CCP.**—The term “CCP” means the Chinese Communist Party.

(3) **PEOPLE’S LIBERATION ARMY; PLA.**—The terms “People’s Liberation Army” and “PLA” mean the armed forces of the People’s Republic of China.

(4) **PRC; CHINA.**—The terms “PRC” and “China” mean the People’s Republic of China.

SEC. 30002. FINDINGS.

Congress makes the following findings:

(1) The People’s Republic of China (PRC) is leveraging its political, diplomatic, economic, military, technological, and ideological power to become a strategic, near-peer, global competitor of the United States. The policies increasingly pursued by the PRC in these domains are contrary to the interests and values of the United States, its partners, and much of the rest of the world.

(2) A number of policies being pursued by the PRC—

(A) threaten the future character of the international order and are shaping the rules, norms, and institutions that govern relations among states;

(B) will put at risk the ability of the United States to secure its national interests; and

(C) will put at risk the future peace, prosperity, and freedom of the international community in the coming decades.

(3) After normalizing diplomatic relations with the PRC in 1979, the United States actively worked to advance the PRC’s economic and social development to ensure that it participated in, and benefited from, the free and open international order. The United States pursued these goals and contributed to the welfare of the Chinese people by—

(A) increasing the PRC’s access to global capital markets;

(B) promoting the PRC’s accession to the World Trade Organization;

(C) providing development finance and technical assistance;

(D) promoting research collaboration;

(E) educating the PRC’s top students;

(F) permitting transfers of cutting-edge technologies and scientific knowledge; and

(G) providing intelligence and military assistance.

(4) It is now clear that the PRC has chosen to pursue state-led, mercantilist economic policies, an increasingly authoritarian governance model at home through increased restrictions on personal freedoms, and an aggressive and assertive foreign policy. These policies frequently and deliberately undermine United States interests and are contrary to core United States values and the values of other nations, both in the Indo-Pacific and beyond. In response to this strategic decision of the CCP, the United States has been compelled to reexamine and revise its strategy towards the PRC and reanimate its defense of the international order.

(5) The General Secretary of the CCP and the Chairman of the People’s Republic of China, Xi Jinping, has elevated the “Great Rejuvenation of the Chinese Nation” as central to the domestic and foreign policy of the PRC. His program demands—

(A) strong, centralized CCP leadership;

(B) concentration of military power;

(C) a dominant role for the CCP in the state and the economy;

(D) an aggressive foreign policy seeking control over broadly asserted territorial claims; and

(E) the denial of any universal values and individual rights that are deemed to threaten the CCP.

(6) The PRC views its Leninist model of governance as superior to, and at odds with, the constitutional models of the United States and other democracies. This approach to governance is lauded by the CCP as essential to securing the PRC’s status as a global leader, and to shaping the future of the world. In a 2013 speech, General Secretary Xi said, “We firmly believe that as socialism with Chinese characteristics develops further . . . it is . . . inevitable that the superiority of our socialist system will be increasingly apparent . . . [and] our country’s road of development will have increasingly greater influence on the world.”

(7) The PRC’s objectives are to first establish regional hegemony over the Indo-Pacific and then to use that dominant position to propel the PRC to become the “leading world power”, shaping an international order that is conducive to its interests. Achieving these objectives requires turning the PRC into a wealthy nation under strict CCP rule by using a strong military and advanced technological capability to pursue the PRC’s objectives, regardless of other countries’ interests.

(8) The PRC is reshaping the current international order, which is built upon the rule of law and free and open ideals and principles, by conducting global information and influence operations, seeking to redefine international laws and norms to align with the objectives of the CCP, rejecting the legitimacy of internationally recognized human rights, and seeking to co-opt the leadership and agenda of multinational organizations for the benefit of the PRC and other authoritarian regimes at the expense of the interests of the United States and the international community.

(9) The PRC is encouraging other countries to follow its model of development and governance.

During the 19th Party Congress in 2017, General Secretary Xi said that the PRC could serve as a model of development for other countries by utilizing “Chinese wisdom” and a “Chinese approach to solving problems”.

(10) The PRC is promoting its governance model and attempting to weaken other models of governance by—

(A) undermining democratic institutions;

(B) subverting financial institutions;

(C) coercing businesses to accommodate the policies of the PRC; and

(D) using disinformation to disguise the nature of the actions described in subparagraphs (A) through (C).

(11) The PRC is progressing toward becoming the global leader in science and technology. In May 2018, General Secretary Xi said that for the PRC to reach “prosperity and rejuvenation”, it needs to “endeavor to be a major world center for science and innovation”. The PRC has invested the equivalent of billions of dollars into education and research and development and established joint scientific research centers and science universities.

(12) The PRC’s drive to become a “manufacturing and technological superpower” and to promote “innovation with Chinese characteristics” is coming at the expense of human rights and longstanding international rules and norms with respect to economic competition, and presents a challenge to United States national security and the security of allies and like-minded countries. In particular, the PRC advances its illiberal political and social policies through mass surveillance, social credit systems, and a significant role of the state in internet governance. Through these means, the PRC increases direct and indirect government control over its citizens’ everyday lives. Its national strategy of “civil-military fusion” mandates that civil and commercial research, which increasingly drives global innovation, is leveraged to develop new military capabilities.

(13) The PRC is using legal and illegal means to achieve its objective of becoming a manufacturing and technological superpower. The PRC uses state-directed industrial policies in anti-competitive ways to ensure the dominance of PRC companies. The CCP engages in and encourages actions that actively undermine a free and open international market, such as intellectual property theft, forced technology transfers, regulatory and financial subsidies, and mandatory CCP access to proprietary data as part of business and commercial agreements between Chinese and foreign companies.

(14) The policies referred to in paragraph (13) are designed to freeze United States and other foreign firms out of the PRC market, while eroding competition in other important markets. The heavy subsidization of Chinese companies includes potential violation of its World Trade Organization commitments. In May 2018, General Secretary Xi said that the PRC aims to keep the “initiatives of innovation and development security . . . in [China’s] own hands”.

(15) The PRC is advancing its global objectives through a variety of avenues, including its signature initiative, the Belt and Road Initiative (referred to in this subsection as “BRI”), which is enshrined in the Chinese Constitution and includes the Digital Silk Road and Health Silk Road. The PRC describes BRI as a straightforward and wholly beneficial plan for all countries. Eventually, it seeks to create a web of economic relations with the PRC at its center, making it the most concrete geographical representation of the PRC’s global ambitions. BRI increases the economic influence of state-owned PRC firms in global markets, enhances the PRC’s political leverage with government leaders around the world, and provides greater access to strategic nodes such as ports and railways. Through BRI, the PRC seeks political deference through economic dependence.

(16) The PRC is executing a plan to establish regional hegemony over the Indo-Pacific and

displace the United States from the region. As a Pacific power, the United States has built and supported enduring alliances and economic partnerships that secure peace and prosperity and promote the rule of law and political pluralism in a free and open Indo-Pacific. In contrast, the PRC uses economic and military coercion in the region to secure its own interests.

(17) The PRC's military strategy seeks to keep the United States military from operating in the Western Pacific and erodes United States security guarantees.

(18) The PRC is aggressively pursuing exclusive control of critical land routes, sea lanes, and air space in the Indo-Pacific in the hopes of eventually exercising greater influence beyond the region. This includes lanes crucial to commercial activity, energy exploration, transport, and the exercise of security operations in areas permitted under international law.

(19) The PRC seeks so-called "reunification" with Taiwan through whatever means may ultimately be required. The CCP's insistence that so-called "reunification" is Taiwan's only option makes this goal inherently coercive. In January 2019, General Secretary Xi stated that the PRC "make[s] no promise to renounce the use of force and reserve[s] the option of taking all necessary means". Taiwan's embodiment of democratic values and economic liberalism challenges General Secretary Xi's goal of achieving national rejuvenation. The PRC plans to exploit Taiwan's dominant strategic position in the First Island Chain and to project power into the Second Island Chain and beyond.

(20) In the South China Sea, the PRC has executed an illegal island-building campaign that threatens freedom of navigation and the free flow of commerce, damages the environment, bolsters the PLA power projection capabilities, and coerces and intimidates other regional claimants in an effort to advance its unlawful claims and control the waters around neighboring countries. Despite General Secretary Xi's September 2015 speech, in which he said the PRC was not militarizing the South China Sea, during the 2017 19th Party Congress, General Secretary Xi announced that "construction on islands and reefs in the South China Sea have seen steady progress".

(21) The PRC is rapidly modernizing the PLA to attain a level of capacity and capability superior to the United States in terms of equipment and conduct of modern military operations by shifting its military doctrine from having a force "adequate [for] China's defensive needs" to having a force "commensurate with China's international status". Ultimately, this transformation could enable China to impose its will in the Indo-Pacific region through the threat of military force. In 2017, General Secretary Xi established the following developmental benchmarks for the advancement of the PLA:

(A) A mechanized force with increased informatized and strategic capabilities by 2020.

(B) The complete modernization of China's national defense by 2035.

(C) The full transformation of the PLA into a world-class force by 2050.

(22) The PRC's strategy and supporting policies described in this subsection undermine United States interests, such as—

(A) upholding a free and open international order;

(B) maintaining the integrity of international institutions with liberal norms and values;

(C) preserving a favorable balance of power in the Indo-Pacific;

(D) ensuring the defense of its allies;

(E) preserving open sea and air lanes;

(F) fostering the free flow of commerce through open and transparent markets; and

(G) promoting individual freedom and human rights.

(23) The global COVID-19 pandemic has intensified and accelerated these trends in the PRC's behavior and therefore increased the need for United States global leadership and a

competitive posture. The PRC has capitalized on the world's focus on the COVID-19 pandemic by—

(A) moving rapidly to undermine Hong Kong's autonomy, including imposing a so-called "national security law" on Hong Kong;

(B) aggressively imposing its will in the East and South China Seas;

(C) increasing its territorial aggression in South Asia, including against India; and

(D) engaging in a widespread and government-directed disinformation campaign to obscure the PRC Government's efforts to cover up the seriousness of COVID-19, sow confusion about the origination of the outbreak, and discredit the United States, its allies, and global health efforts.

(24) The CCP's disinformation campaign referred to in paragraph (23)(D) has included—

(A) concerted efforts, in the early days of the pandemic, to downplay the nature and scope of the outbreak in Wuhan in the PRC, as well as cases of person-to-person transmission;

(B) claims that the virus originated in United States biological defense research at Fort Detrick, Maryland;

(C) Chinese state media reports insinuating a possible link between the virus and other United States biological facilities; and

(D) efforts to block access to qualified international infectious disease experts who might contradict the CCP's narrative.

(25) In response to the PRC's strategy and policies, the United States must adopt a policy of strategic competition with the PRC to protect and promote our vital interests and values.

(26) The United States policy of strategic competition with respect to the People's Republic of China is part of a broader strategic approach to the Indo-Pacific and the world that aligns with cooperation with United States allies and partners to advance shared values and interests and to preserve and enhance a free, open, democratic, inclusive, rules-based, stable, and diverse region.

(27) The Asia Reassurance Initiative Act of 2018 (Public Law 115–409) contributed to a comprehensive framework for promoting United States security interests, economic interests, and values in the Indo-Pacific region, investing \$7,500,000,000 over 5 years—

(A) to support greater security and defense cooperation between the United States and allies and partners in the Indo-Pacific region;

(B) to advance democracy and the protection and promotion of human rights in the Indo-Pacific region;

(C) to enhance cybersecurity cooperation between the United States and partners in the Indo-Pacific;

(D) to deepen people-to-people engagement through programs such as the Young Southeast Asian Leaders Initiative and the ASEAN Youth Volunteers program; and

(E) to enhance energy cooperation and energy security in the Indo-Pacific region.

SEC. 30003. STATEMENT OF POLICY.

(a) **OBJECTIVES.**—It is the policy of the United States to pursue the following objectives:

(1) The United States global leadership role is sustained and its political system and major foundations of national power are secured for the long-term in the political, economic, technological, and military domains.

(2) The United States position as an indispensable power in the Indo-Pacific and globally is sustained through diplomacy, multilateralism, and engagement.

(3) The United States deters military confrontation with the PRC and both nations work to reduce the risk of conflict.

(4) The United States and its allies maintain a stable balance of power in the Indo-Pacific with China. The United States and its allies maintain unfettered access to the region, including through freedom of navigation, consistent with international law and practice.

(5) The allies and partners of the United States—

(A) maintain confidence in United States leadership and its commitment to the Indo-Pacific region;

(B) can withstand and combat subversion by the PRC; and

(C) work closely with the United States in setting global rules, norms, and standards that benefit the international community.

(6) The combined economic and military strength of the United States and its allies and partners demonstrates to the PRC that the risks of attempts to dominate other states outweigh the potential benefits.

(7) The United States leads the free, open, and rules-based international order, which comprises resilient states and institutions that uphold and defend principles, such as sovereignty, rule of law, individual freedom, and human rights. The international order is strong enough to withstand attempts at destabilization by illiberal and authoritarian actors.

(8) The key rules, norms, and standards of international engagement in the 21st century are maintained, including—

(A) the protection of human rights, commercial engagement and investment, and technology; and

(B) that such rules, norms, and standards are in alignment with the values and interests of the United States, its allies and partners, and other stakeholders in the liberal international order.

(9) The United States counters attempts by the PRC to—

(A) undermine open and democratic societies;

(B) distort global markets;

(C) coerce other nations via economic, cyber, and military means; or

(D) use its technological advantages to undermine individual freedoms or other states' national security interests.

(10) The United States deters military confrontation with the PRC and both nations work to reduce the risk of conflict.

(b) **POLICY.**—It is the policy of the United States, in pursuit of the objectives set forth in subsection (a)—

(1) to strengthen the United States domestic foundation by reinvesting in market-based economic growth, education, scientific and technological innovation, democratic institutions, and other areas that improve the ability of the United States to pursue its vital economic, foreign policy, and national security interests;

(2) to pursue a strategy of strategic competition with the PRC in the political, diplomatic, economic, development, security, informational, and technological realms to maximize the United States' strengths and increase the costs for the PRC of harming the interests and values of the United States and its partners and allies;

(3) to lead a free, open, and secure international system characterized by the rule of law, open markets and the free flow of commerce, and a shared commitment to security and peaceful resolution of disputes, human rights, good and transparent governance, and freedom from coercion;

(4) to strengthen and deepen United States alliances and partnerships by pursuing greater bilateral and multilateral cooperative initiatives that advance shared interests and values and bolster partner countries' confidence that the United States is and will remain a strong, committed, and reliable partner that respects the views and interests of its allies and friends;

(5) to encourage and collaborate with United States allies and partners in boosting their own capabilities and resiliency to pursue, defend, and protect shared interests and values, free from coercion and external pressure;

(6) to pursue fair, reciprocal treatment and healthy, constructive competition in United States-China economic relations by improving United States laws and regulations as necessary to prevent any PRC attempts to harm United States economic competitiveness;

(7) to demonstrate the value of private sector-led growth in emerging markets around the world, including through the use of United States Government tools that—

(A) support greater private sector investment and advance capacity-building initiatives that are grounded in the rule of law;

(B) promote open markets;

(C) establish clear policy and regulatory frameworks;

(D) improve the management of key economic sectors;

(E) combat corruption;

(F) foster and support greater collaboration with and among partner countries and the United States private sector to develop secure and sustainable infrastructure; and

(G) support American workers and create American jobs;

(8) to conduct vigorous commercial diplomacy in support of United States companies and businesses in partner countries that seek fair competition;

(9) to ensure that the United States is second to none in the innovation of critical and emerging technologies, such as next-generation telecommunications, artificial intelligence, quantum computing, semiconductors, and biotechnology, by—

(A) providing necessary investment and concrete incentives for the private sector to accelerate development of such technologies;

(B) modernizing export controls and investment screening regimes and associated policies and regulations;

(C) enhancing the role of the United States in technical standards-setting bodies;

(D) reducing United States barriers and increasing incentives for collaboration with allies and partners on the research and co-development of critical technologies;

(E) collaborating with allies and partners to protect critical technologies by—

(i) coordinating and aligning export control measures;

(ii) building capacity for defense technology security;

(iii) safeguarding chokepoints in strategically critical supply chains; and

(iv) ensuring diversification; and

(F) designing major defense capabilities for export to vetted allies and partners;

(10) to collaborate with like-minded democracies and other willing partners to promote ideals and principles that—

(A) advance a free and open international order;

(B) strengthen democratic institutions;

(C) protect and promote human rights; and

(D) uphold a free press and fact-based reporting;

(11) to develop comprehensive strategies and policies to counter PRC disinformation campaigns;

(12) to demonstrate effective leadership at the United Nations, its associated agencies, and other multilateral organizations and ensure the integrity and effectiveness of these organizations in facilitating solutions to global challenges;

(13) to advocate for the defense of fundamental freedoms and human rights in the United States relationship with the PRC;

(14) to cooperate with allies, partners, and multilateral organizations that sustain and strengthen a free and open order and address regional and global challenges posed by the Government of the PRC regarding—

(A) violations and abuses of human rights;

(B) restrictions on religious practices; and

(C) the undermining and abrogation of treaties, other international agreements, and other international norms related to human rights;

(15) to expose the PRC's use of corruption, repression, and coercion to attain unfair economic advantages or compel other nations to defer to its political and strategic objectives in ways that threaten the United States or its allies and partners;

(16) to maintain United States access to the Western Pacific, including through necessary investments in United States military capabilities, policies, and concepts in the Indo-Pacific, as well as robust cooperation, exercises, and interoperability with allies and partners;

(17) to deter the PRC from—

(A) initiating armed conflict;

(B) coercing nations; or

(C) using grey-zone tactics below the level of armed conflict;

(18) to strengthen United States-PRC military-to-military communication and improve both military and civilian crisis avoidance and management procedures to de-conflict operations and reduce the risk of unwanted conflict, including through high-level visits and recurrent exchanges between civilian and military officials and other measures, in alignment with United States interests; and

(19) to strengthen stability and reduce suspicions, cooperate with the PRC when interests align, including through bilateral or multilateral means and at the United Nations, as appropriate, and especially in the following areas—

(A) global fight against climate change;

(B) nuclear security; and

(C) global financial stability.

SEC. 30004. SENSE OF CONGRESS.

It is the sense of Congress that the execution of the policy described in section 30003(b) requires the following actions:

(1) Revitalizing American leadership globally and in the Indo-Pacific will require the United States—

(A) to marshal sustained political will to protect its vital interests, promote its values, and advance its economic and national security objectives; and

(B) to achieve this sustained political will, persuade the American people and United States allies and partners of—

(i) the current challenges facing the international rules based order; and

(ii) the need for long-term investments and engagement to defend shared interests and values.

(2) The United States must coordinate closely with allies and partners to compete effectively with the PRC, including to encourage allies and partners to assume, as appropriate, greater roles in balancing and checking aggressive PRC behavior.

(3) Effective United States strategy toward China requires—

(A) bipartisan cooperation within Congress; and

(B) frequent, sustained, and meaningful collaboration and consultation between the executive branch and Congress.

(4) The United States must ensure close integration among economic and foreign policymakers and provide support to the private sector, civil society, universities and academic institutions, and other relevant actors in free and open societies to enable such actors—

(A) to collaborate to advance common interests; and

(B) to identify appropriate policies—

(i) to strengthen the United States and its allies; and

(ii) to promote a compelling vision of a free and open order.

(5) The United States must ensure that all Federal departments, agencies, and overseas missions are organized and resourced to effectively defend and advance United States interests, by—

(A) dedicating more personnel in the Indo-Pacific region, at posts around the world, and in Washington, DC;

(B) placing greater numbers of foreign service officers, international development professionals, members of the foreign commercial service, intelligence professionals, and other United States Government personnel in the Indo-Pacific region; and

(C) ensuring that this workforce has the training, demonstrated proficiency in language

and culture, technical skills, and other competencies required to advance a successful strategy in relation to the PRC.

(6) The United States must place renewed priority and emphasis on strengthening the non-military instruments of national power, including diplomacy, information, technology, economics, foreign assistance and development finance, commerce, intelligence, and law enforcement, which are crucial for addressing the challenges posed by the PRC.

(7) The United States must sustain military capabilities necessary to achieve United States political objectives in the Indo-Pacific, including—

(A) promoting regional security in the Indo-Pacific;

(B) reassuring allies and partners while protecting them from coercion; and

(C) deterring PRC aggression and preventing unwanted conflict.

(8) Competition with the PRC requires skillful adaptation to the information environment of the 21st century. United States public diplomacy and messaging efforts must effectively—

(A) promote the value of partnership with the United States; and

(B) counter CCP propaganda and disinformation that threatens United States interests.

SEC. 30005. RULES OF CONSTRUCTION.

(a) **APPLICABILITY OF EXISTING RESTRICTIONS ON ASSISTANCE TO FOREIGN SECURITY FORCES.**—Nothing in this division shall be construed to diminish, supplant, supersede, or otherwise restrict or prevent responsibilities of the United States Government under section 620M of the Foreign Assistance Act of 1961 (22 U.S.C. 2378d) or section 362 of title 10, United States Code.

(b) **NO AUTHORIZATION FOR THE USE OF MILITARY FORCE.**—Nothing in this division may be construed as authorizing the use of military force.

TITLE I—INVESTING IN AMERICAN COMPETITIVENESS

Subtitle A—Science and Technology

SEC. 30101. AUTHORIZATION TO ASSIST UNITED STATES COMPANIES WITH GLOBAL SUPPLY CHAIN DIVERSIFICATION AND MANAGEMENT.

(a) **AUTHORIZATION TO CONTRACT SERVICES.**—The Secretary of State, in coordination with the Secretary of Commerce, is authorized to establish a program to facilitate the contracting by the Department of State for the professional services of qualified experts, on a reimbursable fee for service basis, to assist interested United States persons and business entities with supply chain management issues related to the People's Republic of China (PRC), including—

(1) exiting from the PRC market or relocating certain production facilities to locations outside the PRC;

(2) diversifying sources of inputs, and other efforts to diversify supply chains to locations outside of the PRC;

(3) navigating legal, regulatory, or other challenges in the course of the activities described in paragraphs (1) and (2); and

(4) identifying alternative markets for production or sourcing outside of the PRC, including through providing market intelligence, facilitating contact with reliable local partners as appropriate, and other services.

(b) **CHIEF OF MISSION OVERSIGHT.**—The persons contracted to perform the services described in subsection (a) shall—

(1) be under the authority of the United States Chief of Mission in the country in which they are hired, in accordance with existing United States laws;

(2) coordinate with Department of State and Department of Commerce officers; and

(3) coordinate with United States missions and relevant local partners in other countries as needed to carry out the services described in subsection (a).

(c) **PRIORITIZATION OF MICRO-, SMALL-, AND MEDIUM-SIZED ENTERPRISES.**—The services described in subsection (a) shall be prioritized for assisting micro-, small-, and medium-sized enterprises with regard to the matters described in subsection (a).

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$15,000,000 for each of fiscal years 2022 through 2026 for the purposes of carrying out this section.

(e) **PROHIBITION ON ACCESS TO ASSISTANCE BY FOREIGN ADVERSARIES.**—None of the funds appropriated pursuant to this section may be provided to an entity—

(1) under the foreign ownership, control, or influence of the Government of the PRC or the CCP, or other foreign adversary;

(2) determined to have beneficial ownership from foreign individuals subject to the jurisdiction, direction, or influence of foreign adversaries; and

(3) that has any contract in effect at the time of the receipt of such funds, or has had a contract within the previous one year that is no longer in effect, with—

(A) the Government of the PRC;

(B) the CCP;

(C) the PLA;

(D) an entity majority-owned, majority-controlled, or majority-financed by the Government of the PRC, the CCP, or the PLA; or

(E) a parent, subsidiary, or affiliate of an entity described in subparagraph (D).

(f) **DEFINITIONS.**—The terms “foreign ownership, control, or influence” and “FOCI” have the meanings given to those terms in part 117 of title 32, Code of Federal Regulations, or a successor document.

SEC. 30102. REPORT ON NATIONAL TECHNOLOGY AND INDUSTRIAL BASE.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) a more streamlined, shared, and coordinated approach, which leverages economies of scale with major allies, is necessary for the United States to retain its lead in defense technology;

(2) allowing for the export, re-export, or transfer of defense-related technologies and services to members of the national technology and industrial base (as defined in section 2500 of title 10, United States Code) would advance United States security interests by helping to leverage the defense-related technologies and skilled workforces of trusted allies to reduce the dependence on other countries, including countries that pose challenges to United States interests around the world, for defense-related innovation and investment; and

(3) it is in the interest of the United States to continue to increase cooperation with Australia, Canada, and the United Kingdom of Great Britain and Northern Ireland to protect critical defense-related technology and services and leverage the investments of like-minded, major ally nations in order to maximize the strategic edge afforded by defense technology innovation.

(b) **REPORT.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, the Committees on Armed Services of the Senate and the House of Representatives, the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate, and any other appropriate congressional committees that—

(A) describes the Department of State’s efforts to facilitate access among the national technology and industrial base to defense articles and services subject to the United States Munitions List under section 38(a)(1) of the Arms Export Control Act (22 U.S.C. 2778(a)(1)); and

(B) identifies foreign legal, regulatory, foreign policy, or other challenges or considerations

that prevent or frustrate these efforts, to include any gaps in the respective export control regimes implemented by United Kingdom of Great Britain and Northern Ireland, Australia, or Canada.

(2) **FORM.**—This report required under paragraph (1) shall be unclassified, but may include a classified annex.

Subtitle B—Global Infrastructure and Energy Development

SEC. 30111. APPROPRIATE COMMITTEES OF CONGRESS DEFINED.

In this subtitle, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives.

SEC. 30112. SENSE OF CONGRESS ON INTERNATIONAL QUALITY INFRASTRUCTURE INVESTMENT STANDARDS.

(a) **SENSE OF CONGRESS ON COLLABORATIVE STANDARDS.**—It is the sense of Congress that the United States should initiate collaboration among governments, the private sector, and civil society to encourage the adoption of the standards for quality global infrastructure development advanced by the G20 at Osaka in 2018, including with respect to the following issues:

(1) Respect for the sovereignty of countries in which infrastructure investments are made.

(2) Anti-corruption.

(3) Rule of law.

(4) Human rights and labor rights.

(5) Fiscal and debt sustainability.

(6) Social and governance safeguards.

(7) Transparency.

(8) Environmental and energy standards.

(b) **SENSE OF CONGRESS ON COMMITMENT TO COOPERATION.**—It is the sense of Congress that the United States should launch a series of fora around the world showcasing the commitment of the United States and partners of the United States to high-quality development cooperation, including with respect to the issues described in subsection (a).

SEC. 30113. SUPPORTING ECONOMIC INDEPENDENCE FROM THE PEOPLE’S REPUBLIC OF CHINA.

(a) **FINDING.**—It is in the national interest of the United States to establish a coordinated interagency strategy to marshal the resources of the United States Government to provide foreign countries with financing that strengthens independent economic capacity and therefore reduces a foreign government’s need to enter into agreements with the People’s Republic of China (PRC), including to obtain support from its Belt and Road Initiative.

(b) **STRATEGY.**—

(1) **AUTHORITY.**—Not later than 180 days after the date of the enactment of this Act, the President shall develop and submit a strategy to the relevant congressional committees to use the resources of Federal agencies to counteract offers of assistance and financing from the PRC to foreign governments that are of strategic importance to the United States.

(2) **COMPONENTS OF STRATEGY.**—The strategy shall—

(A) identify primary sectors where the United States could provide a competitive advantage to increase a country’s economic independence;

(B) select countries with corresponding economic needs, with priority given to those who are vulnerable to Chinese economic influence;

(C) identify any corresponding existing financing available from United States Government entities to prioritize and devise specific financing tailored to the needs of such foreign governments if none are currently available;

(D) identify any cooperative and complementary assistance and financing from friendly foreign governments, including coordinated assistance and co-financing;

(E) create a streamlined decision-making process, directed by the National Security Council, to devise financing and make agency decisions and commitments on a timely basis to support United States competitive offers;

(F) establish a formal G7+European Commission Working Group to develop a comprehensive strategy to develop alternatives to the PRC’s Belt and Road Initiative for development finance; and

(G) integrate existing efforts into the strategy, including efforts to address the Government of the PRC’s use of the United Nations to advance the Belt and Road Initiative, including the proliferation of memoranda of understanding between the PRC and United Nations funds and programs regarding the implementation of the Belt and Road Initiative.

(3) **PARTICIPATING AGENCIES.**—Participating Federal agencies should include the Department of State, Department of the Treasury, United States Agency for International Development (USAID), United States International Development Finance Corporation, Millennium Challenge Corporation, United States Trade and Development Agency, Department of Commerce, the Office of the Director of National Intelligence, and other Federal departments and agencies as appropriate.

(4) **EXECUTION OF STRATEGY.**—The President should issue an Executive Order to implement the strategy and make such changes in agency regulations and procedures as are necessary to put the strategy into effect.

(5) **RELEVANT CONGRESSIONAL COMMITTEES.**—In this section, the term “relevant congressional committees” means—

(A) the Committee on Appropriations, the Committee on Foreign Affairs, the Committee on Financial Services, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(B) the Committee on Appropriations, the Committee on Foreign Relations, the Committee on Banking, Housing, and Urban Affairs, and the Select Committee of Intelligence of the Senate.

(c) **AUTHORITY.**—The Secretary of State, in coordination with the Administrator of the USAID, is authorized to establish or continue an initiative, to be known as the “Infrastructure Transaction and Assistance Network”, under which the Secretary of State, in consultation with other relevant Federal agencies, including those represented on the Global Infrastructure Coordinating Committee, may carry out various programs to advance the development of sustainable, transparent, and high-quality infrastructure worldwide in the Indo-Pacific region by—

(1) strengthening capacity-building programs to improve project evaluation processes, regulatory and procurement environments, and project preparation capacity of countries that are partners of the United States in such development;

(2) providing transaction advisory services and project preparation assistance to support sustainable infrastructure; and

(3) coordinating the provision of United States assistance for the development of infrastructure, including infrastructure that uses United States manufactured goods and services, and catalyzing investment led by the private sector.

(d) **TRANSACTION ADVISORY FUND.**—As part of the “Infrastructure Transaction and Assistance Network” described under subsection (c), the Secretary of State is authorized to provide support, including through the Transaction Advisory Fund, for advisory services to help boost the capacity of partner countries to evaluate contracts and assess the financial and environmental impacts of potential infrastructure projects, including through providing services such as—

(1) legal services;

(2) project preparation and feasibility studies;

(3) debt sustainability analyses;

(4) bid or proposal evaluation; and
 (5) other services relevant to advancing the development of sustainable, transparent, and high-quality infrastructure.

(e) **STRATEGIC INFRASTRUCTURE FUND.**—

(1) **IN GENERAL.**—As part of the “Infrastructure Transaction and Assistance Network” described under subsection (c), the Secretary of State is authorized to provide support, including through the Strategic Infrastructure Fund, for technical assistance, project preparation, pipeline development, and other infrastructure project support.

(2) **JOINT STRATEGIC INFRASTRUCTURE PROJECTS.**—Funds authorized for the Strategic Infrastructure Fund should be used in coordination with the Department of Defense, the International Development Finance Corporation, like-minded donor partners, and multilateral banks, as appropriate, to support joint infrastructure projects that are in the national security interest of the United States and vulnerable to strategic competitors.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated, for each of fiscal years 2022 to 2026, \$75,000,000 to the Infrastructure Transaction and Assistance Network, of which \$20,000,000 should be made available for the Transaction Advisory Fund.

SEC. 30114. STRATEGY FOR ADVANCED AND RELIABLE ENERGY INFRASTRUCTURE.

(a) **IN GENERAL.**—The President shall direct a comprehensive, multi-year, whole of government effort, in consultation with the private sector, to counter predatory lending and financing, including in the form of providing support to companies incorporated in the People’s Republic of China (PRC) that engage in such activities, by the Government of the PRC in the energy sectors of developing countries.

(b) **POLICY.**—It is the policy of the United States to—

(1) regularly evaluate current and forecasted energy needs and capacities of developing countries, and analyze the presence and involvement of PRC state-owned industries and other companies incorporated in the PRC, Chinese nationals providing labor, and financing of energy projects, including direct financing by the PRC government, PRC financial institutions, or direct state support to state-owned enterprises and other companies incorporated in the PRC;

(2) pursue strategic support and investment opportunities, and diplomatic engagement on power sector reforms, to expand the development and deployment of advanced energy technologies in developing countries;

(3) offer financing, loan guarantees, grants, and other financial products on terms that advance domestic economic and local employment opportunities, utilize advanced energy technologies, encourage private sector growth, and, when appropriate United States equity and sovereign lending products as alternatives to the predatory lending tools offered by Chinese financial institutions;

(4) pursue partnerships with likeminded international financial and multilateral institutions to leverage investment in advanced energy technologies in developing countries; and

(5) pursue bilateral partnerships focused on the cooperative development of advanced energy technologies with countries of strategic significance, particularly in the Indo-Pacific region, to address the effects of energy engagement by the PRC through predatory lending or other actions that negatively impact other countries.

(c) **ADVANCED ENERGY TECHNOLOGIES EXPORTS.**—Not later than 180 days after the date of the enactment of this Act, and annually thereafter for 5 years, the Secretary of State, in consultation with the Secretary of Energy, shall submit to the appropriate committees of Congress a United States Government strategy to increase United States exports of advanced energy technologies to—

(1) improve energy security in allied and developing countries;

(2) create open, efficient, rules-based, and transparent energy markets;

(3) improve free, fair, and reciprocal energy trading relationships; and

(4) expand access to affordable, reliable energy.

SEC. 30115. REPORT ON THE PEOPLE’S REPUBLIC OF CHINA’S INVESTMENTS IN FOREIGN ENERGY DEVELOPMENT.

(a) **IN GENERAL.**—No later than 180 days after the date of the enactment of this Act, and annually thereafter for 5 years, the Secretary of State shall submit to the appropriate committees of Congress (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) a report that—

(1) identifies priority countries for deepening United States engagement on energy matters, in accordance with the economic and national security interests of the United States and where deeper energy partnerships are most achievable;

(2) describes the involvement of the Government of the People’s Republic of China (PRC) and companies incorporated in the PRC in the development, operation, financing, or ownership of energy generation facilities, transmission infrastructure, or energy resources in the countries identified in paragraph (1);

(3) evaluates strategic or security concerns and implications for United States national interests and the interests of the countries identified in paragraph (1), with respect to the PRC’s involvement and influence in developing country energy production or transmission; and

(4) outlines current and planned efforts by the United States to partner with the countries identified in paragraph (1) on energy matters that support shared interests between the United States and such countries.

(b) **PUBLICATION.**—The assessment required in subsection (a) shall be published on the Department of State’s website.

Subtitle C—Economic Diplomacy and Leadership

SEC. 30121. FINDINGS ON REGIONAL ECONOMIC ORDER.

Congress makes the following findings:

(1) The United States played a leadership role in constructing the architecture, rules, and norms governing the international economic order following the Second World War, yielding decades of domestic economic and geopolitical prosperity and stability.

(2) It is in the United States’ vital interest to upgrade its economic engagement and leadership in the Indo-Pacific and develop concrete steps to strengthen its commercial diplomacy to fully participate in the region’s economic dynamism.

SEC. 30122. REPORT ON ENTRENCHING AMERICAN ECONOMIC DIPLOMACY IN THE INDO-PACIFIC.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that United States national interests and the primacy of United States power in the Indo-Pacific are intimately tied to the following economic objectives:

(1) Confirming American leadership and participation in global regional economic organizations and fora, including the Asia-Pacific Economic Cooperation (APEC) and the World Trade Organization (WTO).

(2) Building secure and resilient supply chains for industries critical for United States national interest, including semiconductors, vaccines, and personal protective equipment.

(3) Showcasing the benefits and appeal of a market-based economic model.

(b) **REPORTING.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the United States Trade Representative and the Secretary of Commerce, shall submit a report to the appropriate committees of Congress that presents the steps the United States is taking and plans to take to achieve the objectives outlined in sub-

section (a) and includes specific action plans for the following:

(1) Reenergizing APEC as a critical component of the region’s economic architecture.

(2) Working with allies and partners to build resilient and trusted supply chains especially for critical and emerging technologies, including semiconductors, and products and components critical for national health, including vaccines and related materials and personal protective equipment.

(c) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Banking, Housing and Urban Affairs, and the Committee on Finance of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Energy and Commerce, and the Committee on Ways and Means of the House of Representatives.

SEC. 30123. SENSE OF CONGRESS ON THE NEED TO BOLSTER AMERICAN LEADERSHIP IN THE ASIA PACIFIC ECONOMIC COOPERATION.

It is the sense of Congress that—

(1) the United States has benefitted from the regional economic integration agenda of the Asia Pacific Economic Cooperation (APEC) forum since its inception in 1989;

(2) APEC is a hub of commerce for 21 member economies that, as of 2018, accounted for 60 percent of global GDP and 48 percent of global trade;

(3) APEC has contributed to the economic growth in the region and enhanced access to global value chains, while raising the profile of critical topics such as fair trade, sustainability, gender parity, and inclusive growth;

(4) it is in the United States interest to engage and lead at APEC to push for an open and inclusive regional economy that benefits United States workers, consumers, and businesses and better integrates the United States economy with others in the region;

(5) when the United States last hosted APEC in 2011, it was able to promote United States interests, while reassuring allies and partners about its strong commitment to the region in the economic arena;

(6) today, APEC can again be used as a forum to make progress on several United States priorities, that are shared by United States allies and partners, including—

(A) making regional commerce more inclusive;

(B) fostering innovation and digitization; and

(C) addressing climate change and environmental protection;

(7) hosting APEC would provide a tremendous opportunity to leverage American leadership to shape the regional economic agenda;

(8) hosting APEC would allow the United States to advance several of its own priorities in the region, including to—

(A) expand the participation of APEC stakeholders to include labor groups, environmental advocates, and other part of civil society;

(B) upgrade APEC’s work to empower and promote small and medium enterprises;

(C) spotlight best practices and plans to upgrade skills for the next-generation of technology jobs;

(D) advance a climate and sustainable trade and development agenda with a focus on green technologies, infrastructure and finance; and

(E) advance work on digital issues; and

(9) with no host confirmed for 2023, the United States should immediately announce its interest to host APEC in 2023 and work with the APEC Secretariat and like-minded APEC members to build support.

SEC. 30124. STRATEGY ON DETERRENCE OF ECONOMIC COERCION.

(a) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a whole-of-government strategy to deter Chinese economic coercion against third countries that includes the following:

(1) An explanation of the means available to the United States, with the cooperation of allies, to enable a country with a smaller economy to withstand such coercion.

(2) A description of the role that the Secretary of State, acting through the Under Secretary of State for Public Diplomacy and Public Affairs, will play in the imposition of reputational costs on the PRC for conducting economic coercion.

(3) Role clarity for the Secretary of State, the Administrator of the United States Agency for International Development, the Secretary of Defense, the head of each element of the intelligence community (as such term is defined by section 3 of the National Security Act of 1947 (50 U.S.C. 3003)), the Secretary of the Treasury, the Secretary of Commerce, the United States Trade Representative, and the United States International Development Finance Corporation in implementing such strategy.

(b) UPDATE.—Not later than 2 years after the date of the submission of the strategy under subsection (a), and every 2 years thereafter for 8 years, the President shall submit to the appropriate congressional committees an assessment of the implementation and effectiveness of the strategy, lessons learned from the past year, and planned changes to the strategy.

(c) FORM.—The strategy and update required by subsections (a) and (b), respectively, shall be submitted in classified form with an unclassified summary.

(d) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on Energy and Commerce, the Committee on Ways and Means, the Committee on Oversight and Reform, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Commerce, Science, and Transportation, the Committee on Banking, Housing, and Urban Affairs, the Committee on Homeland Security and Governmental Affairs, and the Select Committee on Intelligence of the Senate.

SEC. 30125. SENSE OF CONGRESS ON DIGITAL TECHNOLOGY ISSUES.

(a) LEADERSHIP IN INTERNATIONAL STANDARDS SETTING.—It is the sense of Congress that the United States must lead in international bodies that set the governance norms and rules for critical digitally enabled technologies in order to ensure that these technologies operate within a free, secure, interoperable, and stable digital domain.

(b) COUNTERING DIGITAL AUTHORITARIANISM.—It is the sense of Congress that the United States, along with allies and partners, should lead an international effort to combat the expanding use of information and communications technology products and services to surveil, repress, and manipulate populations (also known as “digital authoritarianism”).

(c) FREEDOM OF INFORMATION IN THE DIGITAL AGE.—It is the sense of Congress that the United States should lead a global effort to ensure that freedom of information, including the ability to safely consume or publish information without fear of undue reprisals, is maintained as the digital domain becomes an increasingly integral mechanism for communication.

(d) EFFORTS TO ENSURE TECHNOLOGICAL DEVELOPMENT DOES NOT THREATEN DEMOCRATIC GOVERNANCE OR HUMAN RIGHTS.—It is the sense of Congress that the United States should lead a global effort to develop and adopt a set of common principles and standards for critical technologies to ensure that the use of such technologies cannot be abused by malign actors, whether they are governments or other entities, and that they do not threaten democratic governance or human rights.

SEC. 30126. DIGITAL DIALOGUE AND COOPERATION.

It is the sense of Congress that—

(1) as the COVID-19 pandemic accelerated United States dependence on digital tools, international rules around digital rules have remained largely piecemeal; and

(2) the People's Republic of China is operating under and advancing a set of digital rules that are contrary to United States values and interests, and those of United States allies and partners.

SEC. 30127. DIGITAL CONNECTIVITY AND CYBERSECURITY PARTNERSHIP.

(a) DIGITAL CONNECTIVITY AND CYBERSECURITY PARTNERSHIP.—The President is authorized to establish a program, to be known as the “Digital Connectivity and Cybersecurity Partnership” to help foreign countries—

(1) expand and increase secure Internet access and digital infrastructure;

(2) promote and protect human rights and counter corruption and predatory behavior throughout communications and cybersecurity policy and implementation;

(3) guard against privacy abuses, cybercrime, disinformation and misinformation, and the use of digital technology and services to carry out criminal activity or human rights violations;

(4) bolster the role of civil society in informing ICT policy and regulations;

(5) promote exports of United States ICT goods and services and increase United States company market share in target markets;

(6) promote the innovation and diversification of ICT goods and supply chain services to be less reliant on imports from the People's Republic of China;

(7) build cybersecurity capacity, expand interoperability, and promote best practices for a national approach to cybersecurity; and

(8) enhance the security of their digital infrastructure to facilitate better information sharing with the United States and United States allies and partners, as appropriate.

(b) IMPLEMENTATION PLAN.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State and the Administrator of the United States Agency for International Development, in consultation with the United States Trade Representative and the National Cyber Director, shall jointly submit to the appropriate congressional committees an implementation plan for the 3-year period beginning on the date of the submission of the plan to advance the goals identified in subsection (a). The implementation plan shall also include a description of interagency responsibilities to carry out implementation, a description of any barriers to successful implementation, and a description of any additional resources or authorities needed for successful implementation.

(c) CONSULTATION.—In developing the implementation plan required by subsection (b), the Secretary of State and the Administrator of the United States Agency for International Development shall consult with—

(1) the appropriate congressional committees;

(2) the Committee on Ways and Means, the Committee on Oversight and Reform, and the Permanent Select Committee on Intelligence of the House of Representatives;

(3) the Committee on Finance, the Committee on Homeland Security and Governmental Affairs, and the Select Committee on Intelligence of the Senate;

(4) leaders of the United States industry;

(5) civil society leaders with expertise in technology, telecommunications, cybersecurity, economic development and competitiveness, and human rights, including from the Open Technology Fund;

(6) representatives from relevant United States Government agencies; and

(7) representatives from like-minded allies and partners.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated such sums as necessary for each of fiscal years 2022 through 2026 to carry out this section.

SEC. 30128. SENSE OF CONGRESS ON IDEOLOGICAL COMPETITION.

It is the sense of Congress that National Security Advisor Jake Sullivan correctly observed that the United States and likeminded democracies are in an ideological competition with the People's Republic of China, under the direction and control of the Chinese Communist Party, when he stated, “China is essentially making the case that the Chinese model is better than the American model. . . . This is not any longer some kind of implied contrast. It is an explicit statement that there is an alternative model to the democratic market economy model that the United States has been advancing over the course of decades.”

Subtitle D—Financial Diplomacy and Leadership

SEC. 30131. FINDINGS ON CHINESE FINANCIAL INDUSTRIAL POLICY.

Congress makes the following findings:

(1) The People's Republic of China operates a system of state-owned financial institutions including retail banks, investment banks, asset managers, and insurers which are given favorable treatment under Chinese law while foreign financial institutions have strict restrictions on their ability to operate in the PRC.

(2) In order to join the World Trade Organization (WTO) in 2001, the PRC Government committed to opening the credit card payment business to foreign firms by 2006.

(3) The PRC continues to maintain aggressive capital controls, limiting access to the Chinese market to foreign investors while hamstringing its own citizens ability to control their money.

(4) On November 5, 2018, Chinese President Xi Jinping announced that the PRC would launch a technology innovation stock exchange. The Shanghai Stock Exchange STAR Market launched on July 22, 2019.

(5) On October 24, 2020, Chinese billionaire Jack Ma referred to “paunshop mentality” of state-owned banks. Shortly thereafter, the initial public offering of his firm Ant Financial was canceled by Chinese regulators.

(6) The PRC Government is pioneering the use of a fully digitized yuan, which is set to be the world's first central bank backed digital currency, and the People's Bank of China and the Hong Kong Monetary Authority have already begun testing the cross-border functionality of the digital currency.

SEC. 30132. REPORT ON IMPORTANCE OF AMERICAN FINANCIAL STRENGTH FOR GLOBAL LEADERSHIP.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the dominance of the dollar as the global reserve currency has yielded significant benefits to the United States and the American people by allowing the United States to maintain economic independence, better control its monetary policy, and finance government outlays;

(2) American global leadership has benefited from the United States monetary stability, creditworthiness, deep capital markets, and financial technology innovations;

(3) effective diplomacy and safeguarding of American national security rely on the United States role as the global financial leader, hub of global trade, and source of economic opportunity;

(4) by cracking down on dissent in the key financial center of Hong Kong, driving the creation of a technology focused stock exchange, and pushing forward a Central Bank digital currency, the People's Republic of China is attempting to become the leading hub of finance in the world; and

(5) the United States must maintain its position as a global financial leader to continue its broader global leadership role around the world.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Secretary of the Treasury, shall submit to the appropriate committees of Congress a report that—

(1) lists and examines the benefits to American foreign policy that derive from the United States financial leadership and the dollar's status as the world's global reserve currency;

(2) describes the actions taken by the People's Republic of China that could cement China's role as the world's leading financial center;

(3) analyzes the possible impact on American national security and foreign policy were the yuan to supplant the dollar as the world's leading reserve currency;

(4) outlines how the United States can work diplomatically with allies, partners, and other nations to preserve a financial system that is free, open, and fair; and

(5) identifies steps the United States can take to preserve its status as the world's leading financial center and maintain the dollar's position as the global reserve currency.

(c) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Affairs, the Committee on Financial Services, the Committee on Ways and Means, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Banking, Housing, and Urban Affairs, the Committee on Finance, and the Select Committee on Intelligence of the Senate.

SEC. 30133. REVIEW OF CHINESE COMPANIES ON UNITED STATES CAPITAL MARKETS.

(a) **REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Secretary of State and in consultation with and with support from the Securities and Exchange Commission, shall submit a report to the Committees on Financial Services, Foreign Affairs, and the Permanent Select Committee on Intelligence of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs, Foreign Relations, and the Select Committee on Intelligence of the Senate that describes the capital raising activities in the United States of companies incorporated in the PRC and companies incorporated outside PRC that predominantly invest in companies incorporated in the PRC. The report should discuss risks to the United States national security posed by the capital raising activities of these companies.

(2) **MATTERS TO BE INCLUDED.**—The report shall—

(A) identify companies that—

(i) are incorporated in the PRC that issue registered securities or are listed or traded on one or several stock exchanges within the United States, including through the use of American depository receipts, variable interest entity structures, over-the-counter market, or “A Shares”, or are otherwise added to indexes and exchange-traded funds out of mainland exchanges in the PRC;

(ii) are incorporated in the PRC that issue unregistered securities within the United States;

(iii) are incorporated outside of PRC but predominantly invest in companies incorporated within the PRC, including companies that raise capital through the various exemptions available under the securities laws of the United States; or

(iv) based on the factors for consideration described in paragraph (3), have knowingly and materially contributed to—

(I) activities that undermine United States national security;

(II) serious abuses of internationally recognized human rights; or

(III) a substantially increased financial risk exposure for United States-based investors;

(B) describe the activities of the companies identified pursuant to subparagraph (A), and their implications for the United States; and

(C) develop policy recommendations for the United States Government and State govern-

ments to address the risks posed by companies identified pursuant to subparagraph (A).

(3) **FACTORS FOR INCLUSION OF A COMPANY.**—In completing the report under paragraph (1), the Secretary shall consider whether a company identified pursuant to paragraph (2)(A)—

(A) has materially contributed to the development or manufacture, or sold or facilitated procurement by the People's Liberation Army, of lethal military equipment or component parts of such equipment;

(B) has contributed to the construction and militarization of features in the South China Sea;

(C) has been sanctioned by the United States or has been determined to have conducted business with sanctioned entities;

(D) has engaged in an act or a series of acts of intellectual property theft;

(E) has engaged in corporate or economic espionage;

(F) has contributed to the proliferation of nuclear or missile technology in violation of United Nations Security Council resolutions or United States sanctions;

(G) has contributed to the repression of religious and ethnic minorities within the PRC, including in the Xinjiang Uyghur Autonomous Region or the Tibet Autonomous Region;

(H) has contributed to the development of technologies that enable censorship directed or directly supported by the Government of the PRC; and

(I) has contributed to other activities or behavior determined to be relevant by the President.

(b) **REPORT FORM.**—The report required under this section shall be submitted in unclassified form.

(c) **PUBLICATION.**—The unclassified portion of the report required under this section shall be made accessible to the public online through relevant United States Government websites.

SEC. 30134. REPORT ON THE IMPLICATIONS OF CHANGES TO CROSS-BORDER PAYMENT AND FINANCIAL MESSAGING SYSTEMS.

(a) **REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Treasury, in coordination with the Secretary of State, shall submit a report to the Committees on Financial Services and Foreign Affairs of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and Foreign Relations of the Senate on the implications of cross-border payment systems.

(2) **MATTERS TO BE INCLUDED.**—The report shall—

(A) examine the benefits and concerns related to the use of the current cross-border payments system, including the messaging systems;

(B) review and analyze ways in which the Cross Border Interbank Payment Systems (CIPS), cryptocurrencies, and foreign central bank digital currencies could erode this system; and

(C) analyze how changes to global cross-border payment systems could undermine United States national security interests including impacts on the efficacy of sanctions, the countering of terrorist finance, and the enforcement of anti-money laundering provisions.

(b) **REPORT FORM.**—The report required under subsection (a)(1) shall be submitted in classified form.

TITLE II—INVESTING IN ALLIANCES AND PARTNERSHIPS

Subtitle A—Strategic and Diplomatic Matters

SEC. 30201. APPROPRIATE COMMITTEES OF CONGRESS DEFINED.

In this subtitle, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, the Committee on Appropriations, and the Select Committee on Intelligence of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, the Committee on Appropriations, and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 30202. UNITED STATES COMMITMENT AND SUPPORT FOR ALLIES AND PARTNERS IN THE INDO-PACIFIC.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the United States treaty alliances in the Indo-Pacific provide a unique strategic advantage to the United States and are among the Nation's most precious assets, enabling the United States to advance its vital national interests, defend its territory, establish enduring cooperation with allies while seeking to establish new partnerships, prevent the domination of the Indo-Pacific and its surrounding maritime and air lanes by a hostile power or powers, and deter potential aggressors;

(2) the Governments of the United States, Japan, South Korea, Australia, the Philippines, and Thailand are critical allies in advancing a free and open order in the Indo-Pacific region and tackling challenges with unity of purpose, and have collaborated to advance specific efforts of shared interest in areas such as defense and security, infrastructure connectivity, and fundamental freedoms;

(3) the United States greatly values other partnerships in the Indo-Pacific region, including with India, Singapore, Indonesia, Taiwan, New Zealand, and Vietnam, as well as its trilateral and quadrilateral dialogues, and regional architecture such as the Association of Southeast Asian Nations (ASEAN), and the Asia-Pacific Economic Cooperation, which are essential to further shared interests;

(4) the security environment in the Indo-Pacific demands consistent United States and allied commitment to strengthening and advancing alliances so that they are postured to meet these challenges, and will require sustained political will, concrete partnerships, economic, commercial, technological, and security cooperation, consistent and tangible commitments, high-level and extensive consultations on matters of mutual interest, mutual and shared cooperation in the acquisition of key capabilities important to allied defenses, and unified mutual support in the face of political, economic, or military coercion;

(5) fissures in the United States alliance relationships and partnerships benefit United States adversaries and weaken the collective ability to advance shared interests;

(6) the United States must work with allies to prioritize human rights throughout the Indo-Pacific region;

(7) as the report released in August 2020 by the Expert Group of the International Military Council on Climate and Security (IMCCS), entitled “Climate and Security in the Indo-Asia Pacific” noted, the Indo-Pacific region is one of the regions most vulnerable to climate impacts, and as former Deputy Under Secretary of Defense for Installations and Environment Sherri Goodman, Secretary General of IMCCS, noted, climate shocks act as a threat multiplier in the Indo-Pacific region, increasing humanitarian response costs and impacting security throughout the region as sea levels rise, fishing patterns shift, food insecurity rises, and storms grow stronger and more frequent;

(8) the United States should continue to engage on and deepen cooperation with allies and partners of the United States in the Indo-Pacific region, as laid out in the Asia Reassurance Initiative Act (Public Law 115-409), in the areas of—

(A) forecasting environmental challenges;

(B) assisting with transnational cooperation on sustainable uses of forest and water resources with the goal of preserving biodiversity and access to safe drinking water;

(C) fisheries and marine resource conservation; and

(D) meeting environmental challenges and developing resilience;

(9) the Secretary of State, in coordination with the Secretary of Defense and the Administrator of the United States Agency for International Development, should facilitate a robust interagency Indo-Pacific climate resiliency and adaptation strategy focusing on internal and external actions needed—

(A) to facilitate regional early recovery, risk reduction, and resilience to weather-related impacts on strategic interests of the United States and partners and allies of the United States in the region; and

(B) to address humanitarian and food security impacts of weather-related changes in the region; and

(10) ASEAN centrality and ASEAN-led mechanisms remain essential to the evolving institutional architecture of the Indo-Pacific region.

(b) **STATEMENT OF POLICY.**—It shall be the policy of the United States—

(1) to deepen diplomatic, economic, and security cooperation with and among United States allies in the Indo-Pacific, as appropriate, including through diplomatic engagement, regional development, energy security and development, scientific and health partnerships, educational and cultural exchanges, intelligence-sharing, and other diplomatic and defense-related initiatives;

(2) to uphold the United States multilateral and bilateral treaty obligations, including—

(A) defending Japan consistent with the Treaty of Mutual Cooperation and Security Between the United States of America and Japan, done at Washington, January 19, 1960, and all related and subsequent bilateral security agreements and arrangements concluded on or before the date of enactment of this Act;

(B) defending the Republic of Korea consistent with the Mutual Defense Treaty Between the United States and the Republic of Korea, done at Washington, October 1, 1953, and all related and subsequent bilateral security agreements and arrangements concluded on or before the date of enactment of this Act;

(C) defending the Philippines consistent with article IV of the Mutual Defense Treaty Between the United States and the Republic of the Philippines, done at Washington, August 30, 1951, and all related and subsequent bilateral security agreements and arrangements concluded on or before the date of enactment of this Act;

(D) defending Thailand consistent with the Southeast Asia Collective Defense Treaty (“Manila Pact”), done at Manila, September 8, 1954, understanding thereto the Thanat-Rusk communique of 1962, and all related and subsequent bilateral security agreements and arrangements concluded on or before the date of enactment of this Act; and

(E) defending Australia consistent with the Security Treaty Between Australia and the United States of America, done at San Francisco, September 1, 1951, and all related and subsequent bilateral security agreements and arrangements concluded on or before the date of enactment of this Act;

(3) to strengthen and deepen the United States’ bilateral and regional partnerships, including with India, Taiwan, ASEAN, and New Zealand;

(4) to cooperate with allies and partners to promote human rights across the Indo-Pacific region bilaterally and through regional and multilateral fora and pacts;

(5) to strengthen and advance diplomatic, economic, and security cooperation with regional partners, such as Taiwan, Vietnam, Malaysia, Singapore, Indonesia, and India; and

(6) to collaborate and cooperate on the sustainable development of the Mekong River Basin, including by providing support for environmental conservation and protection initiatives in the Mekong sub-region and through assistance to Cambodia, Laos, Thailand, and Vietnam, whose governments comprise the Mekong River Commission (MRC). United States efforts should focus on increasing MRC member coun-

tries’ capacity in the sustainable conservation and management of natural resources.

SEC. 30203. BOOSTING QUAD COOPERATION.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) as a Pacific power, the United States should continue to strengthen its cooperation with Australia, India, and Japan, (commonly referred to as the Quadrilateral Security Dialogue or “Quad”) to enhance and implement a shared vision to meet regional challenges and to promote a free, open, inclusive, resilient, and healthy Indo-Pacific, characterized by respect for democratic norms, rule of law, and market-driven economic growth, and that is free from undue influence and coercion;

(2) the United States should expand dialogue and cooperation through the Quad with a range of partners to support the rule of law, freedom of navigation and overflight, peaceful resolution of disputes, democratic values, and territorial integrity, and to uphold peace and prosperity and strengthen democratic resilience in the Indo-Pacific;

(3) the recent pledge from the first-ever Quad leaders meeting on March 12, 2021, to respond to the economic and health impacts of COVID-19, including expanding safe, affordable, and effective vaccine production and equitable access, and to address shared challenges, including in cyberspace, critical technologies, counterterrorism, quality infrastructure investment, and humanitarian assistance and disaster relief, as well as maritime domains, further advances the important cooperation among Quad nations that is so critical to the Indo-Pacific region;

(4) building upon their announced commitment to finance 1,000,000,000 or more COVID-19 vaccines by the end of 2022 for use in the Indo-Pacific region, the United States International Development Finance Corporation, the Japan International Cooperation Agency, and the Japan Bank for International Cooperation, including through partnerships other multilateral development banks, should also venture to finance development and infrastructure projects in the Indo-Pacific region that are competitive, transparent, and sustainable;

(5) the United States should participate in the Resilient Supply Chain Initiative launched by Australia, Japan, and India in 2020, along with similar initiatives that relocate supply chains in the health, economic, and national security sectors to the United States, its Quad partners, and other like-minded countries; and

(6) the formation of a Quad Intra-Parliamentary Working Group could—

(A) sustain and deepen engagement between senior officials of the Quad countries on a full spectrum of issues; and

(B) be modeled on the successful and longstanding bilateral intra-parliamentary groups between the United States and Mexico, Canada, and the United Kingdom, as well as other formal and informal parliamentary exchanges.

(b) **REPORTING REQUIREMENT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) a strategy for bolstering engagement and cooperation with the Quad.

(2) **MATTERS TO BE INCLUDED.**—The strategy required by paragraph (1) shall include the following:

(A) A description of how the United States intends to demonstrate democratic leadership in the Indo-Pacific through quadrilateral engagement with India, Japan, and Australia on shared interests and common challenges.

(B) A summary of—

(i) current and past Quad initiatives across the whole of the United States Government, including to promote broad based and inclusive

economic growth and investment, and to advance technology cooperation, energy innovation, climate mitigation and adaptation, physical and digital infrastructure development, education, disaster management, and global health security;

(ii) proposals shared among Quad countries to deepen existing security cooperation, intelligence sharing, economic partnerships, and multilateral coordination; and

(iii) initiatives and agreements undertaken jointly with Quad countries, in addition to other like-minded partners in the Indo-Pacific, on areas of shared interest.

(C) A description of efforts to jointly—

(i) expand ongoing COVID-19 cooperation to prepare for the next pandemic by focusing on medium-term vaccine and medical supply production and building a broader dialogue on global public health;

(ii) combat economic coercion, deepen regional economic engagement and integration, and strengthen regional rules and standards around investment;

(iii) strengthen climate actions on mitigation, adaptation, resilience, technology, capacity-building, and climate finance;

(iv) facilitate the development of quality infrastructure in the Indo-Pacific through joint financing, investment, technical assistance, and standards setting;

(v) enhance joint maritime security and maritime domain awareness initiatives to protect the maritime commons and support international law and freedom of navigation in the Indo-Pacific; and

(vi) develop international technology standards and share or co-develop new innovative technologies of the future.

SEC. 30204. ESTABLISHMENT OF QUAD INTRA-PARLIAMENTARY WORKING GROUP.

(a) **ESTABLISHMENT.**—Not later than 30 days after the date of the enactment of this Act, the Secretary of State shall seek to enter into negotiations with the governments of Japan, Australia, and India (collectively, with the United States, known as the “Quad”) with the goal of reaching a written agreement to establish a Quad Intra-Parliamentary Working Group to facilitate closer cooperation on shared interests and values.

(b) **UNITED STATES GROUP.**—

(1) **IN GENERAL.**—At such time as the governments of the Quad countries enter into a written agreement described in subsection (a) to establish a Quad Intra-Parliamentary Working Group, there shall be established a United States Group, which shall represent the United States at the Quad Intra-Parliamentary Working Group.

(2) **MEMBERSHIP.**—

(A) **IN GENERAL.**—The United States Group shall be comprised of not more than 24 Members of Congress.

(B) **APPOINTMENT.**—Of the Members of Congress appointed to the United States Group under subparagraph (A)—

(i) half shall be appointed by the Speaker of the House of Representatives from among Members of the House, not fewer than four of whom shall be members of the Committee on Foreign Affairs; and

(ii) half shall be appointed by the President Pro Tempore of the Senate, based on recommendations of the majority leader and minority leader of the Senate, from among Members of the Senate, not fewer than four of whom shall be members of the Committee on Foreign Relations (unless the majority leader and minority leader determine otherwise).

(3) **MEETINGS.**—

(A) **IN GENERAL.**—The United States Group shall seek to meet not less frequently than annually with representatives and appropriate staff of the legislatures of Japan, Australia, and India, and any other country invited by mutual agreement of the Quad countries.

(B) **LIMITATION.**—A meeting described in subparagraph (A) may be held—

- (i) in the United States;
- (ii) in another Quad country during periods when Congress is not in session; or
- (iii) virtually.

(4) **CHAIRPERSON AND VICE CHAIRPERSON.**—

(A) **HOUSE DELEGATION.**—The Speaker of the House of Representatives shall designate the chairperson or vice chairperson of the delegation of the United States Group from the House from among members of the Committee on Foreign Affairs.

(B) **SENATE DELEGATION.**—The President Pro Tempore of the Senate shall designate the chairperson or vice chairperson of the delegation of the United States Group from the Senate from among members of the Committee on Foreign Relations.

(5) **AUTHORIZATION OF APPROPRIATIONS.**—

(A) **IN GENERAL.**—There is authorized to be appropriated \$1,000,000 for each fiscal year 2022 through 2025 for the United States Group.

(B) **DISTRIBUTION OF APPROPRIATIONS.**—

(i) **IN GENERAL.**—For each fiscal year for which an appropriation is made for the United States Group, half of the amount appropriated shall be available to the delegation from the House of Representatives and half of the amount appropriated shall be available to the delegation from the Senate.

(ii) **METHOD OF DISTRIBUTION.**—The amounts available to the delegations of the House of Representatives and the Senate under clause (i) shall be disbursed on vouchers to be approved by the chairperson of the delegation from the House of Representatives and the chairperson of the delegation from the Senate, respectively.

(6) **PRIVATE SOURCES.**—The United States Group may accept gifts or donations of services or property, subject to the review and approval, as appropriate, of the Committee on Ethics of the House of Representatives and the Committee on Ethics of the Senate.

(7) **CERTIFICATION OF EXPENDITURES.**—The certificate of the chairperson of the delegation from the House of Representatives or the delegation of the Senate of the United States Group shall be final and conclusive upon the accounting officers in the auditing of the accounts of the United States Group.

(8) **ANNUAL REPORT.**—The United States Group shall submit to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report for each fiscal year for which an appropriation is made for the United States Group, including a description of its expenditures under such appropriation.

SEC. 30205. STATEMENT OF POLICY ON COOPERATION WITH ASEAN.

It is the policy of the United States to—

(1) stand with the nations of the Association of Southeast Asian Nations (ASEAN) as they respond to COVID-19 and support greater cooperation in building capacity to prepare for and respond to pandemics and other public health challenges;

(2) support high-level United States participation in the annual ASEAN Summit held each year;

(3) reaffirm the importance of United States-ASEAN economic engagement and support the ASEAN Economic Community's (AEC) goals, including strong, inclusive, and sustainable long-term economic growth and cooperation with the United States that focuses on innovation and capacity-building efforts in technology, education, disaster management, food security, and human rights, particularly for ASEAN's poorest countries;

(4) urge ASEAN to continue its efforts to foster greater integration and unity within the ASEAN community, as well as to foster greater integration and unity with non-ASEAN economic, political, and security partners, including Japan, the Republic of Korea, Australia, the European Union, and India;

(5) recognize the value of strategic economic initiatives such as United States-ASEAN Con-

nect, which demonstrates a commitment to ASEAN and the AEC and builds upon economic relationships in the region;

(6) support ASEAN nations in addressing maritime and territorial disputes in a constructive manner and in pursuing claims through peaceful, diplomatic, and, as necessary, legitimate regional and international arbitration mechanisms, consistent with international law, including through the adoption of a code of conduct in the South China Sea that represents the interests of all parties and promotes peace and stability in the region;

(7) urge all parties involved in the maritime and territorial disputes in the Indo-Pacific region, including the Government of the People's Republic of China—

(A) to cease any current activities, and avoid undertaking any actions in the future, that undermine stability, or complicate or escalate disputes through the use of coercion, intimidation, or military force;

(B) to demilitarize islands, reefs, shoals, and other features, and refrain from new efforts to militarize, including the construction of new garrisons and facilities and the relocation of additional military personnel, material, or equipment;

(C) to oppose actions by any country that prevent other countries from exercising their sovereign rights to the resources in their exclusive economic zones and continental shelves by enforcing claims to those areas in the South China Sea that lack support in international law; and

(D) to oppose unilateral declarations of administrative and military districts in contested areas in the South China Sea;

(8) urge parties to refrain from unilateral actions that cause permanent physical damage to the marine environment and support the efforts of the National Oceanic and Atmospheric Administration and ASEAN to implement guidelines to address the illegal, unreported, and unregulated fishing in the region;

(9) urge ASEAN nations to develop a common approach to encourage China and the Philippines to comply with the decision of the Permanent Court of Arbitration's 2016 ruling in favor of the Republic of the Philippines in the case against the People's Republic of China's excessive maritime claims;

(10) reaffirm the commitment of the United States to continue joint efforts with ASEAN to halt human smuggling and trafficking in persons and urge ASEAN to create and strengthen regional mechanisms to provide assistance and support to refugees and migrants;

(11) support the Mekong-United States Partnership;

(12) support newly created initiatives with ASEAN nations, including the United States-ASEAN Smart Cities Partnership, the ASEAN Policy Implementation Project, the United States-ASEAN Innovation Circle, and the United States-ASEAN Health Futures;

(13) encourage the President to communicate to ASEAN leaders the importance of promoting the rule of law and open and transparent government, strengthening civil society, and protecting human rights, including releasing political prisoners, ceasing politically motivated prosecutions and arbitrary killings, and safeguarding freedom of the press, freedom of assembly, freedom of religion, and freedom of speech and expression;

(14) support efforts by organizations in ASEAN that address corruption in the public and private sectors, enhance anti-bribery compliance, enforce bribery criminalization in the private sector, and build beneficial ownership transparency through the ASEAN-USAID PROSPECT project partnered with the South East Asia Parties Against Corruption (SEAPAC);

(15) support the Young Southeast Asian Leaders Initiative as an example of a people-to-people partnership that provides skills, networks, and leadership training to a new generation

that will create and fill jobs, foster cross-border cooperation and partnerships, and rise to address the regional and global challenges of the future;

(16) support the creation of initiatives similar to the Young Southeast Asian Leaders Initiative for other parts of the Indo-Pacific to foster people-to-people partnerships with an emphasis on civil society leaders;

(17) acknowledge those ASEAN governments that have fully upheld and implemented all United Nations Security Council resolutions and international agreements with respect to the Democratic People's Republic of Korea's nuclear and ballistic missile programs and encourage all other ASEAN governments to do the same; and

(18) allocate appropriate resources across the United States Government to articulate and implement an Indo-Pacific strategy that respects and supports the crucial role of ASEAN and supports ASEAN as a source of well-functioning and problem-solving regional architecture in the Indo-Pacific community.

SEC. 30206. YOUNG SOUTHEAST ASIAN LEADERS INITIATIVE.

(a) **SHORT TITLE.**—This section may be cited as the “Young Southeast Asian Leaders Initiative Act” or the “YSEALI Act”.

(b) **YOUNG SOUTHEAST ASIAN LEADERS INITIATIVE.**—

(1) **ESTABLISHMENT.**—There is established in the Department of State the Young Southeast Asian Leaders Initiative (“YSEALI”) program.

(2) **GOALS.**—The YSEALI program shall seek to build to capacity of young leaders in Southeast Asia to—

(A) support young leaders from Southeast Asia by offering professional development and a global network to share expertise, including in the areas of civic engagement, economic empowerment and social entrepreneurship, education and environmental issues; and

(B) further strengthen the enduring partnership between the United States and Southeast Asia and connect United States experts with YSEALI participants.

(3) **YSEALI PROGRAMS.**—

(A) **YSEALI ACADEMIC FELLOWS PROGRAM.**—There is established the YSEALI Academic Fellows Program to bring students from YSEALI partner countries to the United States for the purposes of building practical expertise, leadership skills, and professional networks relating to one or more of the YSEALI themes. The Secretary of State may award fellowships under the Academic Fellows Program to eligible individuals based on the following:

(i) Citizenship and residency in a YSEALI partner country.

(ii) Status as a full-time undergraduate student, or recent graduate of college, university, or other institutions of higher learning.

(iii) Other criteria determined appropriate by the Secretary.

(B) **YSEALI PROFESSIONAL FELLOWS PROGRAM.**—There is established the YSEALI Professional Fellows Program to bring professionals from YSEALI partner countries to the United States for the purposes of building practical expertise, leadership skills, and professional networks relating to one or more of the YSEALI themes. The Secretary of State may award fellowships under the Professional Fellows Program to eligible individuals based on the following:

(i) Citizenship and residency in a YSEALI partner country.

(ii) Status as an emerging leader in government, civil society, or the private sector, and demonstrated expertise relating to one or more of the YSEALI themes.

(iii) Current employment, and two or more years of professional work experience relevant to one or more YSEALI themes.

(iv) Other criteria determined appropriate by the Secretary.

(C) **OTHER INITIATIVES.**—The Secretary of State may designate other initiatives as YSEALI

initiatives under this section if they advance the goals of the YSEALI program as described in paragraph (2).

(4) **ACTIVITIES.**—

(A) **UNITED STATES-BASED ACTIVITIES.**—The Secretary of State shall oversee all United States-based activities carried out under the YSEALI program, including the participation of YSEALI Academic Fellows in a program at a United States university or college, and the participation of YSEALI Professional Fellows at United States private and public sector organizations for individually-tailored work placements. Both fellowships may include site visits, professional networking opportunities, leadership training, community service, and organized cultural activities, as appropriate.

(B) **SOUTHEAST ASIA-BASED ACTIVITIES.**—The Secretary of State should continue to support overseas initiatives of the program, including the following:

(i) Quality leadership training, professional development, and networking opportunities for YSEALI alumni.

(ii) Reciprocal exchanges for YSEALI Professional Fellows Program's United States professional hosts and interlocutors to support post-United States exchange action plans and other related public diplomacy goals, as appropriate.

(iii) Opportunities for networking with YSEALI alumni and professionals and experts who are American and Southeast Asian.

(iv) The YSEALI Regional Workshop program, offering networking, mentoring, hands-on training, and the tools necessary to lead communities in addressing economic, environmental, educational, and civic engagement issues.

(v) The YSEALI Seeds for the Future program, providing small, competitive grants to young leaders in Southeast Asia to improve their communities, countries, and the region towards one or more of the themes of civic engagement, economic empowerment and social entrepreneurship, education, or environmental issues.

(vi) The YSEALI Academy at Fulbright University Vietnam, offering executive-level seminars for entry to mid-level professionals around the themes of technology and innovation, public policy, and entrepreneurship.

(vii) The YSEALI Women's Leadership Academy Program, enhancing people-to-people ties and engagement with young and emerging leaders by promoting gender equality and advancing the status of women and girls, such as in the public health sector.

(C) **ALUMNI PLATFORM.**—The Secretary of State is authorized to convene current YSEALI participants and YSEALI alumni through a platform to promote networking opportunities within the YSEALI community.

(D) **IMPLEMENTATION.**—To carry out this paragraph, United States diplomatic and consular posts, the Secretary of State, and agency external partners managing and implementing the YSEALI program—

(i) shall promote United States policy goals in Southeast Asia by providing tools and resources to help young Southeast Asian leaders develop important skills and connections, including through online campaigns and public diplomacy initiatives;

(ii) shall establish a system for monitoring, evaluating, and improving the YSEALI program; and

(iii) may accept financial contributions from foundations, corporations, private donors, program partners, and implementing agency external partners intended to foster the goals of the YSEALI program.

(5) **REPORTS.**—

(A) **STRATEGY.**—The Secretary of State shall submit to the appropriate congressional committees a strategy for implementing the YSEALI program, including the following:

(i) YSEALI program goals, targets, and planned outcomes for each year and, separately, for the YSEALI program generally during the duration of its implementation.

(ii) The continuation of YSEALI program monitoring and evaluation plan, including metrics for measuring YSEALI program progress identification of annual YSEALI program goals, and targets.

(B) **ANNUAL REPORTS.**—Not later than 1 year after the date of the enactment of this section, and annually thereafter for 4 years, the Secretary of State shall submit to the appropriate congressional committees and publish on a publicly available website of the Department a report on—

(i) YSEALI program progress and an assessment of the metrics, goals, targets, and outcomes described in subparagraph (A)(i), including information relating to YSEALI program implementation and outcome activities during the year covered by each report; and

(ii) recommendations for improvements or amendments to the YSEALI program and strategy, if any, that would improve their effectiveness during subsequent years of YSEALI program implementation.

(C) **FINAL REPORT.**—Not later than the date of the submission of the last report required under subparagraph (B), the Secretary of State shall submit to the appropriate congressional committees a final assessment report that evaluates YSEALI program implementation and outcomes during the entire duration of YSEALI program operation, including recommendations regarding whether the YSEALI program should be reauthorized and any changes that would improve its effectiveness.

(6) **DEFINITIONS.**—In this section:

(A) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(i) the Committee on Foreign Affairs of the House of Representatives;

(ii) the Committee on Appropriations of the House of Representatives;

(iii) the Committee on Foreign Relations of the Senate; and

(iv) the Committee on Appropriations of the Senate.

(B) **IMPLEMENTING AGENCY EXTERNAL PARTNERS.**—The term “implementing agency external partners” means any external partner that is not a United States Government agency, and may include one or more of the following entities:

(i) Local or multinational corporations.

(ii) Nongovernmental organizations.

(iii) Universities.

(iv) Regional institutions.

(C) **YSEALI THEME.**—The term “YSEALI theme” means—

(i) civic engagement;

(ii) economic empowerment and social entrepreneurship;

(iii) education;

(iv) environmental issues; or

(v) any other theme included by the Secretary of State.

(D) **YSEALI PARTNER COUNTRIES.**—The term “YSEALI partner countries” includes each member country of the Association of Southeast Asian Nations and each other country or political entity the Secretary of State determines appropriate to include in the programs established under this section.

SEC. 30207. SENSE OF CONGRESS ON ENGAGEMENT WITH G7 AND G20 COUNTRIES.

It is the sense of Congress that the President, acting through the Secretary of State, should initiate an agenda with G7 and G20 countries on matters relevant to economic and democratic freedoms, including relating to the following:

(1) Building support for international infrastructure standards, including standards agreed to at the G20 summit in Osaka in 2018.

(2) The erosion of democracy and human rights.

(3) The security of 5G telecommunications.

(4) Anti-competitive behavior, such as intellectual property theft, massive subsidization of companies, and other policies and practices.

(5) Predatory international sovereign lending that is inconsistent with Organisation for Economic Cooperation and Development and Paris Club principles.

(6) International influence campaigns.

(7) Environmental standards.

(8) Coordination with like-minded regional partners that are not in the G7 and G20.

SEC. 30208. ENHANCING THE UNITED STATES-TAIWAN PARTNERSHIP.

(a) **STATEMENT OF POLICY.**—It is the policy of the United States—

(1) to support the close economic, political, and security relationship between Taiwan and the United States and recognize Taiwan as a vital part of the approach to the United States Indo-Pacific;

(2) to advance the security of Taiwan and its democracy a vital national security interest of the United States;

(3) to reinforce all existing United States Government commitments to Taiwan, consistent with the Taiwan Relations Act (Public Law 96–8) and the “Six Assurances”;

(4) to support Taiwan's implementation of its asymmetric defense strategy, including the priorities identified in Taiwan's Overall Defense Concept;

(5) to urge Taiwan to increase its defense spending in order to fully resource its defense strategy;

(6) to conduct regular transfers of defense articles to Taiwan in order to enhance Taiwan's self-defense capabilities, particularly its efforts to develop and integrate asymmetric capabilities, such as anti-ship, coastal defense, anti-armor, air defense, advanced command, control, communications, computers, intelligence, surveillance, and reconnaissance, and resilient command and control capabilities, into its military forces;

(7) to advocate and actively advance Taiwan's meaningful participation in international organizations, including the World Health Assembly, the International Civil Aviation Organization, the International Criminal Police Organization, and other international bodies as appropriate;

(8) to advocate for information sharing with Taiwan in the International Agency for Research on Cancer;

(9) to promote meaningful cooperation among the United States, Taiwan, and other like-minded partners;

“(10) to enhance bilateral trade, through resumption of talks under the Trade and Investment Framework Agreement;

(11) to expand bilateral economic and technological cooperation, including improving supply chain security;

(12) to support United States educational and exchange programs with Taiwan, including by promoting the study of Chinese language, culture, history, and politics in Taiwan; and

(13) to expand people-to-people exchanges between the United States and Taiwan.

(b) **SUPPORTING UNITED STATES EDUCATIONAL AND EXCHANGE PROGRAMS WITH TAIWAN.**—

(1) **ESTABLISHMENT OF THE UNITED STATES-TAIWAN CULTURAL EXCHANGE FOUNDATION.**—The Secretary of State should consider establishing an independent nonprofit entity that—

(A) is dedicated to deepening ties between the future leaders of Taiwan and the United States; and

(B) works with State and local school districts and educational institutions in the United States to send high school and university students to Taiwan to study the Chinese language, culture, history, politics, and other relevant subjects.

(2) **PARTNER.**—State and local school districts and educational institutions, including public universities, in the United States are encouraged to partner with the Taipei Economic and Cultural Representative Office in the United States to establish programs to promote an increase in educational and cultural exchanges.

SEC. 30209. TAIWAN DIPLOMATIC REVIEW.

(a) **FINDINGS.**—Congress finds the following:

(1) Pursuant to the Taiwan Relations Act (22 U.S.C. 3301(b)(1)), it is the policy of the United States to “promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people of Taiwan”.

(2) In May 2019, the Taiwanese counterpart to the American Institute in Taiwan, the Coordination Council for North American Affairs, was renamed the “Taiwan Council for U.S. Affairs”.

(3) It is the policy of the United States to refer to Taiwan as “Taiwan”, not “Taipei” or “Chinese Taipei”.

(4) The Taipei Economic and Cultural Representative Office is inaptly named as it works to cultivate the extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people, organizations, and enterprises of Taiwan, not merely those in Taipei.

(b) NEGOTIATIONS TO RENAME TECRO.—Reflective of the substantively deepening ties between Taiwan and the United States, the Secretary of State shall seek to enter into negotiations with appropriate officials of the Taipei Economic and Cultural Representative Office in the United States with the objective of renaming its office in Washington, D.C., the Taiwan Representative Office in the United States, and its subsidiary offices in the United States, accordingly.

SEC. 30210. TAIWAN PEACE AND STABILITY ACT.

(a) SHORT TITLE.—This section may be cited as the “Taiwan Peace and Stability Act”.

(b) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs of the House of Representatives; and

(B) the Committee on Foreign Relations of the Senate.

(2) INTERNATIONAL ORGANIZATION.—The term “international organization” includes United Nations funds, programs, specialized agencies, entities, and bodies, as well as other organizations outside of the United Nations system that the Secretary of State determines appropriate, in consultation with other relevant Federal departments and agencies.

(3) ONE-CHINA PRINCIPLE.—The term “One-China Principle” means only the PRC’s policy toward Taiwan.

(4) CIVIL SOCIETY ORGANIZATIONS.—The term “civil society organizations” means international civil society organizations that are critical to maintaining Taiwan’s international space and enabling Taiwan to play a positive and constructive role in the global community.

(5) POTENTIAL PLA CAMPAIGNS.—The term “potential PLA campaigns” means—

(A) a naval blockade of Taiwan;

(B) an amphibious assault and ground invasion of Taiwan, especially such invasion designed to accomplish a fiat accompli before intervention is possible; or

(C) a seizure of one or more of Taiwan’s outlying islands.

(c) FINDINGS.—Congress makes the following findings:

(1) The United States has consistently sought to advance peace and stability in East Asia as a central element of United States foreign policy toward the region.

(2) The Government of the People’s Republic of China (PRC), especially since the election of Tsai Ing-Wen in 2016, has conducted a coordinated campaign to weaken Taiwan diplomatically, economically, and militarily in a manner that threatens to erode United States policy and create a fait accompli on questions surrounding Taiwan’s future.

(3) In order to ensure the longevity of United States policy and preserve the ability of the people of Taiwan to determine their future independently, it is necessary to reinforce Taiwan’s diplomatic, economic, and physical space.

(4) Taiwan has provided monetary, humanitarian, and medical assistance to combat diseases such as AIDS, tuberculosis, Ebola, and dengue fever in countries around the world. During the COVID-19 pandemic, Taiwan donated millions of pieces of personal protective equipment and COVID-19 tests to countries in need.

(5) Since 2016, the Gambia, São Tomé and Príncipe, Panama, the Dominican Republic, Burkina Faso, El Salvador, the Solomon Islands, and Kiribati have severed diplomatic relations with Taiwan in favor of diplomatic relations with China.

(6) Taiwan was invited to participate in the World Health Assembly (WHA), the decision-making body of the World Health Organization, as an observer annually between 2009 and 2016. Since the 2016 election of President Tsai, the PRC has increasingly resisted Taiwan’s participation in the WHA. Taiwan was not invited to attend the WHA in 2017, 2018, 2019, 2020, or 2021.

(7) The Taipei Flight Information Region reportedly served 1,750,000 flights and 68,900,000 passengers in 2018 and is home to Taiwan Taoyuan International Airport, the 11th busiest airport in the world. Taiwan has been excluded from participating at the International Civil Aviation Organization since 2013.

(8) United Nations General Assembly Resolution 2758 (1971) does not address the issue of representation of Taiwan and its people at the United Nations, nor does it give the PRC the right to represent the people on Taiwan.

(d) STATEMENT OF POLICY.—It is the policy of the United States to—

(1) maintain the position that peace and stability in the Western Pacific are in the political, security, and economic interests of the United States, and are matters of international concern; and

(2) work with allies and partners to promote peace and stability in the Indo-Pacific and deter military acts or other forms of coercive behavior that would undermine regional stability.

(e) SENSE OF CONGRESS ON TAIWAN’S MEANINGFUL PARTICIPATION IN THE INTERNATIONAL COMMUNITY.—It is the sense of Congress that—

(1) Taiwan is free, democratic, and prosperous, is home to 23,500,000 people, and is an important contributor to the global community;

(2) multiple United States Government Administrations have taken important steps to advance Taiwan’s meaningful participation in international organizations and to enhance cooperation with Taiwan to provide global public goods, including through development assistance, humanitarian assistance, and disaster relief in trilateral and multilateral fora;

(3) nonetheless, significant structural, policy, and legal barriers remain to advancing Taiwan’s meaningful participation in the international community; and

(4) efforts to share Taiwan’s expertise with other parts of the global community could be further enhanced through a systematic approach, along with greater attention from Congress and the American public to such efforts.

(f) STRATEGY TO SUPPORT TAIWAN’S MEANINGFUL PARTICIPATION IN INTERNATIONAL ORGANIZATIONS.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this section, the Secretary of State, in consultation with other Federal departments and agencies as appropriate, shall submit to the appropriate congressional committees a strategy—

(A) to advance Taiwan’s meaningful participation in a prioritized set of international organizations; and

(B) that responds to growing pressure from the PRC on foreign governments, international organizations, commercial actors, and civil society organizations to comply with its “One-China Principle” with respect to Taiwan.

(2) MATTERS TO BE INCLUDED.—The strategy required under paragraph (1) shall include—

(A) an assessment of the methods the PRC uses to coerce actors to into adhering to its

“One-China Principle”, including those employed against governments, international organizations, and civil society organizations and pressure on commercial actors, to the extent relevant in the context of Taiwan’s meaningful participation international organizations;

(B) an assessment of the policies of foreign governments toward the PRC and Taiwan, to identify likeminded allies and partners who might become public or private partners in the strategy;

(C) a systematic analysis of all international organizations, as practicable, to identify those that best lend themselves to advancing Taiwan’s participation, including—

(i) the organization’s policy on the requirements to obtain membership and observer status, as well as the foundational documents defining membership requirements and observer status within the organization;

(ii) the organization’s participation rules;

(iii) the processes for developing membership requirements and participation rules;

(iv) the policies of current members regarding Taiwan’s political status; and

(v) the organization’s relative reliance on contributions from the PRC and how it may affect internal decision-making;

(D) an evaluation of the feasibility and advisability of expanding economic, security, and diplomatic engagement with countries that have demonstrably strengthened, enhanced, or upgraded relations with Taiwan, where it aligns with United States interests;

(E) a survey of international organizations that have allowed Taiwan’s meaningful participation, including an assessment of whether any erosion in Taiwan’s engagement has occurred within those organizations and how Taiwan’s participation has positively strengthened the capacity and activity of these organizations, providing positive models for Taiwan’s inclusion in other similar forums;

(F) a list of not more than 20 international organizations at which the United States Government will prioritize using its voice, vote, and influence to advance Taiwan’s meaningful participation over the three-year period following the date of enactment of this Act, to be derived from the organizations identified pursuant to subparagraph (C); and

(G) a description of the diplomatic strategies and the coalitions the United States Government plans to develop to implement subparagraph (F).

(3) FORM.—The strategy required under paragraph (1) shall be submitted in classified form but may include an unclassified summary.

(4) CONSULTATION.—The Secretary of State and the heads of other Federal departments and agencies as appropriate shall consult with the appropriate congressional committees and the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate—

(A) not later than 90 days after the date of enactment of this Act, with respect to the international organizations identified pursuant to paragraph (2)(C); and

(B) not later than 180 days after the date of the submission of the strategy required under paragraph (1), and every 180 days thereafter for 2 years, regarding the development and implementation of the strategy required.

(g) EXPANDING UNITED STATES-TAIWAN DEVELOPMENT COOPERATION.—

(1) IN GENERAL.—No later than 120 days after the date of the enactment of this Act, the Administrator of the United States Agency for International Development (USAID), in consultation with the United States International Development Finance Corporation (DFC), shall submit to the appropriate congressional committees a report on cooperation with Taiwan on trilateral and multilateral development initiatives, through the American Institute in Taiwan as appropriate.

(2) MATTERS TO BE INCLUDED.—The report required in paragraph (1) shall include the following:

(A) A comprehensive review of existing cooperation mechanisms and initiatives between USAID or DFC and relevant departments and agencies in Taiwan, including, but not limited to Taiwan's International Cooperation and Development Fund (ICDF).

(B) An assessment of how USAID and DFC development cooperation with relevant departments and agencies in Taiwan compares to comparable cooperation with partners of similar economic size and foreign assistance capacity.

(C) An analysis of the opportunities and challenges the cooperation described in subparagraph (A) has offered to date, including—

(i) opportunities collaboration has offered to expand USAID's and DFC's ability to deliver assistance into a wider range communities;

(ii) sectors where USAID, DFC, ICDF, other relevant agencies and departments in Taiwan, or the organizations' implementing partners, have a comparative advantage in providing assistance; and

(iii) opportunities to transition virtual capacity building events relevant departments and agencies in Taiwan, through the Global Cooperation and Training Framework and other forums, into in-person, enduring forms of development cooperation.

(D) An assessment of any legal, policy, logistical, financial, or administrative barriers to expanding cooperation in trilateral or multilateral development, including—

(i) availability of personnel at the American Institute in Taiwan responsible for coordinating development assistance cooperation;

(ii) volume of current cooperation initiatives and barriers to expanding it;

(iii) diplomatic, policy, or legal barriers facing the United States or other partners to including Taiwan in formal and informal multilateral development cooperation mechanisms;

(iv) resource or capacity barriers to expanding cooperation facing the United States or Taiwan; and

(v) geopolitical barriers that complicate United States-Taiwan cooperation in third countries.

(E) Recommendations to address the challenges identified in subparagraph (D).

(F) A description of any additional resources or authorities that expanding cooperation might require.

(3) FORM.—The strategy required in paragraph (1) shall be submitted in unclassified form but may include a classified annex.

(h) SENSE OF CONGRESS ON EXPANDING UNITED STATES ECONOMIC RELATIONS WITH TAIWAN.—It is the sense of the Congress that—

(1) expanding United States economic relations with Taiwan has benefited the people of both the United States and Taiwan; and

(2) the United States should explore opportunities to deepen, and where possible expand, economic ties between Taiwan and the United States.

(i) SENSE OF CONGRESS ON PEACE AND STABILITY IN THE TAIWAN STRAIT.—It is the sense of Congress that—

(1) PRC attempts to intimidate Taiwan, including through high rates of PRC sorties into air space near Taiwan, and PRC amphibious assault exercises near Taiwan, jeopardizes the long-standing United States position that differences in cross-strait relations must be resolved peacefully;

(2) given the potential for a cross-strait conflict to be highly destructive and destabilizing, any increase in the risk of conflict demands attention and obligates leaders to reinforce deterrence, as the most viable means to prevent war;

(3) Taiwan should continue to implement its asymmetric defense strategy, including investing in cost-effective and resilient capabilities, while also strengthening recruitment and training of its reserve and civil defense forces, and those capabilities include, but are not limited to, coastal defense cruise missiles; and

(4) while enhancing deterrence, it is also essential to maintain open and effective crisis

communication and risk reduction mechanisms, as a means to reduce the risk of misunderstanding and ultimately, conflict.

(j) STRATEGY TO ENHANCE DETERRENCE OVER A CROSS-STRAIT CONFLICT.—

(1) IN GENERAL.—No later than 90 days after the date of enactment of this Act, the President shall submit to the appropriate congressional committees a whole-of-government strategy to enhance deterrence over a cross-strait military conflict between the PRC and Taiwan.

(2) MATTERS TO BE INCLUDED.—The strategy shall include the following:

(A) A comprehensive review of existing diplomatic, economic, and military tools to establish deterrence over a cross-strait conflict and an assessment of their efficacy.

(B) An examination of the present and future capabilities of the United States and Taiwan to respond to the potential PLA campaigns against Taiwan in 5, 10, and 15 years. The analysis shall include an assessment of the progress Taiwan has made in developing the cost-effective and resilient capabilities needed to respond to its strategic environment, as well as any additional personnel, procurement, or training reforms required.

(C) An evaluation of the feasibility of expanding coordination with United States allies and partners to enhance deterrence over a cross-strait conflict. The review shall include a review of the following matters:

(i) Expanding coordination of public or private messaging on deterrence vis-à-vis Taiwan.

(ii) Coordinating use of economic tools to raise the costs of PRC military action that could precipitate a cross-strait conflict.

(iii) Enhancing codevelopment and codeployment of military capabilities related to deterrence over a cross-strait conflict, or enhancing coordination on training of Taiwan's military forces.

(D) Recommendations on significant additional diplomatic, economic, and military steps available to the United States Government, unilaterally and in concert with United States allies and partners, to enhance the clarity and credibility of deterrence over a cross-strait conflict.

(E) A description of any additional resources or authorities needed to implement the recommendations identified in subparagraph (D).

(3) FORM.—The strategy required in paragraph (1) shall be submitted classified form but may include an unclassified annex.

(4) CONSULTATION.—Not later than 90 days after the date of enactment of this Act, and not less frequently than every 180 days thereafter for 7 years, the President (or a designee), as well as representatives from the agencies and departments involved in developing the strategy required in paragraph (1), shall consult with the appropriate congressional committees regarding the development and implementation of the strategy required in this subsection. The representatives from the relevant agencies and departments shall be at the Under Secretary level or above.

(k) STRENGTHENING TAIWAN'S CIVILIAN DEFENSE PROFESSIONALS.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Secretary of Defense, shall present to the appropriate congressional committees a plan for strengthening the community of civilian defense professionals in Taiwan, facilitated through the American Institute in Taiwan as appropriate.

(2) MATTERS TO BE INCLUDED.—The plan required by paragraph (1) shall include the following:

(A) A comprehensive review of existing United States Government and non-United States Government programmatic and funding modalities to support Taiwan's civilian defense professionals in pursuing professional development, educational, and cultural exchanges in the United States, including—

(i) opportunities through Department of State-supported programs, such as the International Visitor Leaders Program; and

(ii) opportunities offered through nongovernmental institutions, such as think tanks, to the extent the review can practicably make such an assessment.

(B) A description of the frequency that civilian defense professionals from Taiwan pursue or are selected for the programs reviewed pursuant to subparagraph (A).

(C) An analysis of any funding, policy, administrative, or other barriers preventing greater participation from Taiwan's civilian defense professionals in the opportunities identified pursuant to subparagraph (A).

(D) An evaluation of the value expanding the opportunities reviewed pursuant to subparagraph (A) would offer for strengthening Taiwan's existing civilian defense community, and for increasing the perceived value of the field for young professionals in Taiwan.

(E) An assessment of options the United States Government could take individually, with partners in Taiwan, or with foreign governments, or nongovernmental partners, to expand the opportunities reviewed pursuant to subparagraph (A).

(F) A description of additional resources and authorities required by the options assessed pursuant to subparagraph (E).

(3) FORM.—The plan required by paragraph (1) shall be submitted in unclassified form but may include a classified annex.

SEC. 30211. TAIWAN INTERNATIONAL SOLIDARITY ACT.

(a) SHORT TITLE.—This section may be cited as the "Taiwan International Solidarity Act".

(b) CLARIFICATION REGARDING UNITED NATIONS GENERAL ASSEMBLY RESOLUTION 2758.—Subsection (a) of section 2 of the Taiwan Allies International Protection and Enhancement Initiative (TAIPEI) Act of 2019 (Public Law 116-135) (relating to diplomatic relations with Taiwan) is amended by adding at the end the following new paragraphs:

"(10) United Nations General Assembly Resolution 2758 (1971) established the representatives of the Government of the People's Republic of China as the only lawful representatives of China to the United Nations. The resolution did not address the issue of representation of Taiwan and its people in the United Nations or any related organizations, nor did the resolution take a position on the relationship between the People's Republic of China and Taiwan or include any statement pertaining to Taiwan's sovereignty.

"(11) The United States opposes any initiative that seeks to change Taiwan's status without the consent of the people."

(c) UNITED STATES ADVOCACY FOR INTERNATIONAL ORGANIZATIONS TO RESIST THE PEOPLE'S REPUBLIC OF CHINA'S EFFORTS TO DISTORT THE "ONE CHINA" POSITION.—Section 4 of the Taiwan Allies International Protection and Enhancement Initiative (TAIPEI) Act of 2019 (relating to the policy of the United States regarding Taiwan's participation in international organizations) is amended—

(1) in paragraph (2), by striking "and" after the semicolon at the end;

(2) in paragraph (3), by striking the period at the end and inserting "and"; and

(3) by adding at the end the following new paragraph:

"(4) to instruct, as appropriate, representatives of the United States Government in all organizations described in paragraph (1) to use the voice, vote, and influence of the United States to advocate such organizations to resist the People's Republic of China's efforts to distort the decisions, language, policies, or procedures of such organizations regarding Taiwan."

(d) OPPOSING THE PEOPLE'S REPUBLIC OF CHINA'S EFFORTS TO UNDERMINE TAIWAN'S TIES AND PARTNERSHIPS INTERNATIONALLY.—Subsection (a) of section 5 of the Taiwan Allies

International Protection and Enhancement Initiative (TAIPEI) Act of 2019 (relating to strengthening ties with Taiwan) is amended—

(1) in paragraph (2), by striking “and” after the semicolon at the end;

(2) in paragraph (3), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(4) encourage, as appropriate, United States allies and partners to oppose the People’s Republic of China’s efforts to undermine Taiwan’s official diplomatic relationships and its partnerships with countries with which it does not maintain diplomatic relations.”.

(e) REPORT ON THE PEOPLE’S REPUBLIC OF CHINA’S ATTEMPTS TO PROMOTE ITS “ONE CHINA” POSITION.—

(1) IN GENERAL.—Subsection (b) of section 5 of the Taiwan Allies International Protection and Enhancement Initiative (TAIPEI) Act of 2019 (relating to strengthening ties with Taiwan) is amended by inserting before the period at the end the following: “, as well as information relating to any prior or ongoing attempts by the People’s Republic of China to undermine Taiwan’s membership or observer status in all organizations described in section 4(1) and Taiwan’s ties and relationships with other countries in accordance with subsection (a) of this section”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act and apply beginning with the first report required under subsection (b) of section 5 of the Taiwan Allies International Protection and Enhancement Initiative (TAIPEI) Act of 2019, as amended by paragraph (1), that is required after such date.

SEC. 30212. TAIWAN FELLOWSHIP PROGRAM.

(a) SHORT TITLE.—This section may be cited as the “Taiwan Fellowship Act”.

(b) FINDINGS; PURPOSES.—

(1) FINDINGS.—Congress finds the following:

(A) The Taiwan Relations Act (Public Law 96-8; 22 U.S.C. 3301 et seq.) affirmed United States policy “to preserve and promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people on Taiwan, as well as the people on the China mainland and all other peoples of the Western Pacific area”.

(B) Consistent with the Asia Reassurance Initiative Act of 2018 (Public Law 115-409), the United States has grown its strategic partnership with Taiwan’s vibrant democracy of 23,000,000 people.

(C) Despite a concerted campaign by the People’s Republic of China to isolate Taiwan from its diplomatic partners and from international organizations, including the World Health Organization, Taiwan has emerged as a global leader in the coronavirus global pandemic response, including by donating more than 2,000,000 surgical masks and other medical equipment to the United States.

(D) The creation of a United States fellowship program with Taiwan would support—

(i) a key priority of expanding people-to-people exchanges, which was outlined in President Donald J. Trump’s 2017 National Security Strategy;

(ii) President Joseph R. Biden’s commitment to Taiwan, “a leading democracy and a critical economic and security partner”, as expressed in his March 2021 Interim National Security Strategic Guidance; and

(iii) April 2021 guidance from the Department of State based on a review required under the Taiwan Assurance Act of 2020 (subtitle B of title III of division FF of Public Law 116-260) to “encourage U.S. government engagement with Taiwan that reflects our deepening unofficial relationship”.

(2) PURPOSES.—The purposes of this section are—

(A) to further strengthen the United States-Taiwan strategic relationship and broaden un-

derstanding of the Indo-Pacific region by temporarily assigning officials of agencies of the United States Government to Taiwan for intensive study in Mandarin Chinese and placement as Fellows with the governing authorities on Taiwan or a Taiwanese civic institution;

(B) to expand United States Government expertise in Mandarin Chinese language skills and understanding of the politics, history, and culture of Taiwan and the Indo-Pacific region by providing eligible United States personnel the opportunity to acquire such skills and understanding through the Taiwan Fellowship Program established under subsection (c); and

(C) to better position the United States to advance its economic, security, and human rights interests and values in the Indo-Pacific region.

(c) TAIWAN FELLOWSHIP PROGRAM.—

(1) DEFINITIONS.—In this section:

(A) AGENCY HEAD.—The term “agency head” means, in the case of the executive branch of United States Government, or in the case of a legislative branch agency specified in subparagraph (B), the head of the respective agency.

(B) AGENCY OF THE UNITED STATES GOVERNMENT.—The term “agency of the United States Government” includes the Government Accountability Office, the Congressional Budget Office, the Congressional Research Service, and the United States-China Economic and Security Review Commission of the legislative branch, as well as any agency of the executive branch.

(C) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(i) the Committee on Appropriations, the Committee on Foreign Affairs, and the Committee on Armed Services of the House of Representatives; and

(ii) the Committee on Appropriations and the Committee on Foreign Relations of the Senate.

(D) DETAILEE.—The term “detailee” means an employee of an agency of the United States Government on loan to the American Institute in Taiwan, without a change of position from the agency at which such employee is employed.

(E) IMPLEMENTING PARTNER.—The term “implementing partner” means any United States organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code that—

(i) is selected through a competitive process;

(ii) performs logistical, administrative, and other functions, as determined by the Department of State and the American Institute of Taiwan, in support of the Taiwan Fellowship Program; and

(iii) enters into a cooperative agreement with the American Institute in Taiwan to administer the Taiwan Fellowship Program.

(2) ESTABLISHMENT OF TAIWAN FELLOWSHIP PROGRAM.—

(A) ESTABLISHMENT.—The Secretary of State shall establish the “Taiwan Fellowship Program” (referred to in this section as the “Program”) to provide a fellowship opportunity in Taiwan of up to two years for eligible United States citizens through the cooperative agreement established in subparagraph (B). The Secretary of State, in consultation with appropriate counterparts at the American Institute in Taiwan and the implementing partner, may modify the name of the Program.

(B) COOPERATIVE AGREEMENTS.—

(i) IN GENERAL.—The American Institute in Taiwan shall use amounts appropriated pursuant to the authorization under paragraph (6)(A) to enter into an annual or multi-year cooperative agreement with an appropriate implementing partner.

(ii) FELLOWSHIPS.—The Secretary of State, in consultation with the American Institute in Taiwan and, as appropriate, the implementing partner, shall award to eligible United States citizens, subject to available funding—

(I) not fewer than five fellowships during the first two years of the Program; and

(II) not fewer than ten fellowships during each of the remaining years of the Program.

(C) INTERNATIONAL AGREEMENT; IMPLEMENTING PARTNER.—Not later than 30 days after the date of the enactment of this Act, the American Institute in Taiwan, in consultation with the Secretary of State, shall—

(i) begin negotiations with the Taipei Economic and Cultural Representative Office, or with another appropriate entity, for the purpose of entering into an agreement to facilitate the placement of fellows in an agency of the governing authorities on Taiwan; and

(ii) begin the process of selecting an implementing partner, which—

(I) shall agree to meet all of the legal requirements required to operate in Taiwan; and

(II) shall be composed of staff who demonstrate significant experience managing exchange programs in the Indo-Pacific region.

(D) CURRICULUM.—

(i) FIRST YEAR.—During the first year of each fellowship under this subsection, each fellow should study—

(I) the Mandarin Chinese language;

(II) the people, history, and political climate on Taiwan; and

(III) the issues affecting the relationship between the United States and the Indo-Pacific region.

(ii) SECOND YEAR.—During the second year of each fellowship under this section, each fellow, subject to the approval of the Secretary of State, the American Institute in Taiwan, and the implementing partner, and in accordance with the purposes of this section, shall work in—

(I) a parliamentary office, ministry, or other agency of the governing authorities on Taiwan; or

(II) an organization outside of the governing authorities on Taiwan, whose interests are associated with the interests of the fellow and the agency of the United States Government from which the fellow had been employed.

(E) FLEXIBLE FELLOWSHIP DURATION.—Notwithstanding any requirement under this section, the Secretary of State, in consultation with the American Institute in Taiwan and, as appropriate, the implementing partner, may award fellowships that have a duration of between nine months and two years, and may alter the curriculum requirements under subparagraph (D) for such purposes.

(F) SUNSET.—The Program shall terminate ten years after the date of the enactment of this section.

(3) PROGRAM REQUIREMENTS.—

(A) ELIGIBILITY REQUIREMENTS.—A United States citizen is eligible for a fellowship under this section if he or she—

(i) is an employee of the United States Government;

(ii) has at least two years of experience in any branch of the United States Government;

(iii) has received at least one exemplary performance review in his or her current United States Government role within at least the last three years prior to beginning the fellowship;

(iv) has a demonstrated professional or educational background in the relationship between the United States and countries in the Indo-Pacific region; and

(v) has demonstrated his or her commitment to further service in the United States Government.

(B) RESPONSIBILITIES OF FELLOWS.—Each recipient of a fellowship under this section shall agree, as a condition of such fellowship—

(i) to maintain satisfactory progress in language training and appropriate behavior in Taiwan, as determined by the Department of State, the American Institute in Taiwan and, as appropriate, its implementing partner;

(ii) to refrain from engaging in any intelligence or intelligence-related activity on behalf of the United States Government; and

(iii) to continue Federal Government employment for a period of not less than four years after the conclusion of the fellowship, or for not less than two years for a fellowship that is one year or shorter.

(C) RESPONSIBILITIES OF IMPLEMENTING PARTNER.—

(i) SELECTION OF FELLOWS.—The implementing partner, in close coordination with the Secretary of State and the American Institute in Taiwan, shall—

(I) make efforts to recruit fellowship candidates who reflect the diversity of the United States;

(II) select fellows for the Program based solely on merit, with appropriate supervision from the Department of State and the American Institute in Taiwan; and

(III) prioritize the selection of candidates willing to serve a fellowship lasting one year or longer.

(ii) FIRST YEAR.—The implementing partner should provide each fellow in the first year (or shorter duration, as jointly determined by the Secretary of State and the American Institute in Taiwan, for those who are not serving a two-year fellowship) with—

(I) intensive Mandarin Chinese language training; and

(II) courses in the politic, culture, and history of Taiwan, China, and the broader Indo-Pacific.

(iii) WAIVER OF REQUIRED TRAINING.—The Secretary of State, in coordination with the American Institute in Taiwan and, as appropriate, the implementing partner, may waive any of the training required under clause (ii) to the extent that a fellow has Mandarin Chinese language skills, knowledge of the topics described in clause (ii)(II), or for other related reasons approved by the Secretary of State and the American Institute in Taiwan. If any of the training requirements are waived for a fellow serving a two-year fellowship, the training portion of his or her fellowship may be shortened to the extent appropriate.

(iv) OFFICE; STAFFING.—The implementing partner, in consultation with the Secretary of State and the American Institute in Taiwan, shall maintain an office and at least one full-time staff member in Taiwan to—

(I) liaise with the American Institute in Taiwan and the governing authorities on Taiwan; and

(II) serve as the primary in-country point of contact for the recipients of fellowships under this section and their dependents.

(v) OTHER FUNCTIONS.—The implementing partner should perform other functions in association in support of the Program, including logistical and administrative functions, as included in the cooperative agreement entered into pursuant to paragraph (2)(B) by the Secretary of State and the American Institute in Taiwan.

(D) NONCOMPLIANCE.—

(i) IN GENERAL.—Any fellow who fails to comply with the requirements under this section shall reimburse the American Institute in Taiwan for—

(I) the Federal funds expended for the fellow's participation in the fellowship, as set forth in clauses (ii) and (iii); and

(II) interest accrued on such funds (calculated at the prevailing rate).

(ii) FULL REIMBURSEMENT.—Any fellow who violates clause (i) or (ii) of subparagraph (B) shall reimburse the American Institute in Taiwan in an amount equal to the sum of—

(I) all of the Federal funds expended for the fellow's participation in the fellowship; and

(II) interest on the amount specified in subparagraph (I), which shall be calculated at the prevailing rate.

(iii) PRO RATA REIMBURSEMENT.—Any fellow who violates subparagraph (B)(iii) shall reimburse the American Institute in Taiwan in an amount equal to the difference between—

(I) the amount specified in clause (ii); and

(II) the product of—

(aa) the amount the fellow received in compensation during the final year of the fellowship, including the value of any allowances and benefits received by the fellow; multiplied by

(bb) the percentage of the period specified in subparagraph (B)(iii) during which the fellow did not remain employed by the United States Government.

(E) ANNUAL REPORT.—Not later than 90 days after the selection of the first class of fellows under this section and annually thereafter for 10 years, the Secretary of State shall offer to brief the appropriate congressional committees regarding the following:

(i) An assessment of the performance of the implementing partner in fulfilling the purposes of this section.

(ii) The number of applicants each year, the number of applicants willing to serve a fellowship lasting one year or longer, and the number of such applicants selected for a fellowship.

(iii) The names and sponsoring agencies of the fellows selected by the implementing partner and the extent to which such fellows represent the diversity of the United States.

(iv) The names of the parliamentary offices, ministries, other agencies of the governing authorities on Taiwan, and nongovernmental institutions to which each fellow was assigned.

(v) Any recommendations, as appropriate, to improve the implementation of the Program, including added flexibilities in the administration of the program.

(vi) An assessment of the Program's value upon the relationship between the United States and Taiwan or the United States and Asian countries.

(F) ANNUAL FINANCIAL AUDIT.—

(i) IN GENERAL.—The financial records of any implementing partner shall be audited annually in accordance with generally accepted auditing standards by independent certified public accountants or independent licensed public accountants who are certified or licensed by a regulatory authority of a State or another political subdivision of the United States.

(ii) LOCATION.—Each audit under clause (i) shall be conducted at the place or places where the financial records of the implementing partner are normally kept.

(iii) ACCESS TO DOCUMENTS.—The implementing partner shall make available to the accountants conducting an audit under clause (i)—

(I) all books, financial records, files, other papers, things, and property belonging to, or in use by, the implementing partner that are necessary to facilitate the audit; and

(II) full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians.

(iv) REPORT.—

(I) IN GENERAL.—Not later than 180 days after the end of each fiscal year, the implementing partner shall provide a report of the audit conducted for such fiscal year under clause (i) to the Secretary of State and the American Institute in Taiwan.

(II) CONTENTS.—Each audit report under subparagraph (I) shall—

(aa) set forth the scope of the audit at issue;

(bb) include such statements, along with the auditor's opinion of those statements, as may be necessary to present fairly the implementing partner's assets and liabilities, surplus or deficit, with reasonable detail;

(cc) include a statement of the implementing partner's income and expenses during the year; and

(dd) include a schedule of—

(AA) all contracts and cooperative agreements requiring payments greater than \$5,000; and

(BB) any payments of compensation, salaries, or fees at a rate greater than \$5,000 per year.

(III) COPIES.—Each audit report shall be produced in sufficient copies for distribution to the public.

(4) TAIWAN FELLOWS ON DETAIL FROM GOVERNMENT SERVICE.—

(A) IN GENERAL.—

(i) DETAIL AUTHORIZED.—With the approval of the Secretary of State, an agency head may de-

tail, for a period of not more than two years, an employee of the agency of the United States Government who has been awarded a fellowship under this Act, to the American Institute in Taiwan for the purpose of assignment to the governing authorities on Taiwan or an organization described in paragraph (2)(D)(ii)(II).

(ii) AGREEMENT.—Each detailee shall enter into a written agreement with the Federal Government before receiving a fellowship, in which the fellow shall agree—

(I) to continue in the service of the sponsoring agency at the end of fellowship for a period of at least four years (or at least two years if the fellowship duration is one year or shorter) unless such detailee is involuntarily separated from the service of such agency; and

(II) to pay to the American Institute in Taiwan any additional expenses incurred by the United States Government in connection with the fellowship if the detailee voluntarily separates from service with the sponsoring agency before the end of the period for which the detailee has agreed to continue in the service of such agency.

(iii) EXCEPTION.—The payment agreed to under clause (ii)(II) may not be required of a detailee who leaves the service of the sponsoring agency to enter into the service of another agency of the United States Government unless the head of the sponsoring agency notifies the detailee before the effective date of entry into the service of the other agency that payment will be required under this subsection.

(B) STATUS AS GOVERNMENT EMPLOYEE.—A detailee under this paragraph—

(i) is deemed, for the purpose of preserving allowances, privileges, rights, seniority, and other benefits, to be an employee of the sponsoring agency;

(ii) is entitled to pay, allowances, and benefits from funds available to such agency, which is deemed to comply with section 5536 of title 5, United States Code; and

(iii) may be assigned to a position with an entity described in paragraph (2)(D)(ii)(I) if acceptance of such position does not involve—

(I) the taking of an oath of allegiance to another government; or

(II) the acceptance of compensation or other benefits from any foreign government by such detailee.

(C) RESPONSIBILITIES OF SPONSORING AGENCY.—

(i) IN GENERAL.—The agency of the United States Government from which a detailee is detailed should provide the fellow allowances and benefits that are consistent with Department of State Standardized Regulations or other applicable rules and regulations, including—

(I) a living quarters allowance to cover the cost of housing in Taiwan;

(II) a cost of living allowance to cover any possible higher costs of living in Taiwan;

(III) a temporary quarters subsistence allowance for up to seven days if the fellow is unable to find housing immediately upon arriving in Taiwan;

(IV) an education allowance to assist parents in providing the fellow's minor children with educational services ordinarily provided without charge by public schools in the United States;

(V) moving expenses to transport personal belongings of the fellow and his or her family in their move to Taiwan, which is comparable to the allowance given for American Institute in Taiwan employees assigned to Taiwan; and

(VI) an economy-class airline ticket to and from Taiwan for each fellow and the fellow's immediate family.

(ii) MODIFICATION OF BENEFITS.—The American Institute in Taiwan and its implementing partner, with the approval of the Department of State, may modify the benefits set forth in clause (i) if such modification is warranted by fiscal circumstances.

(D) NO FINANCIAL LIABILITY.—The American Institute in Taiwan, the implementing partner,

and any governing authorities on Taiwan or nongovernmental entities in Taiwan at which a fellow is detailed during the second year of the fellowship may not be held responsible for the pay, allowances, or any other benefit normally provided to the detailee.

(E) **REIMBURSEMENT.**—Fellows may be detailed under clause (A)(ii) without reimbursement to the United States by the American Institute in Taiwan.

(F) **ALLOWANCES AND BENEFITS.**—Detailees may be paid by the American Institute in Taiwan for the allowances and benefits listed in subparagraph (C).

(5) **GAO REPORT.**—Not later than one year before the sunset of the Program pursuant to paragraph (2)(F), the Comptroller General of the United States shall transmit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report that includes the following:

(A) An analysis of United States Government participants in the Program, including the number of applicants and the number of fellowships undertaken, and the places of employment.

(B) An assessment of the costs and benefits for participants in the Program and for the United States Government of such fellowships.

(C) An analysis of the financial impact of the fellowship on United States Government offices that have detailed fellows to participate in the Program.

(D) Recommendations, if any, on how to improve the Program.

(6) **FUNDING.**—

(A) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the American Institute in Taiwan—

(i) for fiscal year 2022, \$2,900,000, of which \$500,000 should be made available to an appropriate implementing partner to launch the Program; and

(ii) for fiscal year 2023, and each succeeding fiscal year, \$2,400,000.

(B) **PRIVATE SOURCES.**—The implementing partner selected to implement the Program may accept, use, and dispose of gifts or donations of services or property in carrying out such program, subject to the review and approval of the American Institute in Taiwan.

SEC. 30213. INCREASING DEPARTMENT OF STATE PERSONNEL AND RESOURCES DEVOTED TO THE INDO-PACIFIC.

(a) **FINDINGS.**—Congress makes the following findings:

(1) In fiscal year 2020, the Department of State allocated \$1,500,000,000 to the Indo-Pacific region in bilateral and regional foreign assistance resources, including as authorized by section 201(b) of the Asia Reassurance Initiative Act of 2018 (Public Law 115-409; 132 Stat. 5391), and \$798,000,000 in the fiscal year 2020 diplomatic engagement budget. These amounts represent only 5 percent of the diplomatic engagement budget and only 4 percent of the total Department of State-USAID budget.

(2) Over the last 5 years the diplomatic engagement budget and personnel levels in the Indo-Pacific averaged only 5 percent of the total, while foreign assistance resources averaged only 4 percent of the total.

(3) In 2020, the Department of State began a process to realign certain positions at posts to ensure that its personnel footprint matches the demands of great-power competition, including in the Indo-Pacific.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the size of the United States diplomatic corps must be sufficient to meet the current and emerging challenges of the 21st century, including those in the Indo-Pacific region and elsewhere;

(2) robust Chinese-language skills are necessary for the success of the United States diplomatic corps and integral to its ability to meet national security objectives;

(3) the increase must be designed to meet the objectives of an Indo-Pacific strategy focused on strengthening the good governance and sovereignty of countries that adhere to and uphold the rules-based international order; and

(4) the increase must be implemented with a focus on increased numbers of economic, political, and public diplomacy officers, representing a cumulative increase of at least 200 Foreign Service officer generalists, to—

(A) advance free, fair, and reciprocal trade and open investment environments for United States entities, and engaged in increased commercial diplomacy in key markets;

(B) better articulate and explain United States policies, strengthen civil society and democratic principles, enhance reporting on global activities, promote people-to-people exchanges, and advance United States influence; and

(C) increase capacity at small- and medium-sized embassies and consulates in the Indo-Pacific and other regions around the world, as necessary.

(c) **STATEMENT OF POLICY.**—It shall be the policy of the United States to—

(1) ensure Department of State funding levels and personnel footprint in the Indo-Pacific reflect the region's high degree of importance and significance to United States political, economic, and security interests; and

(2) increase diplomatic engagement and foreign assistance funding and the quantity of personnel dedicated to the Indo-Pacific region respectively to the Department of State's total budget.

(d) **ACTION PLAN.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall provide to the appropriate congressional committees (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) of Congress an action plan that includes the following elements:

(1) Identification of requirements to advance United States strategic objectives in the Indo-Pacific and the personnel and budgetary resources for the Department of State needed to satisfy such objectives, assuming an unconstrained resource environment.

(2) A plan to increase the portion of the Department's budget dedicated to the Indo-Pacific in terms of DE and FA focused on development, economic, and security assistance.

(3) A plan to increase the number of positions at posts in the Indo-Pacific region and bureaus with responsibility for the Indo-Pacific region, including a description of increases at each post or bureau, a breakdown of increases by cone, and a description of how such increases in personnel will advance United States strategic objectives in the Indo-Pacific region.

(4) A plan to increase the number of Chinese-language speakers and translation specialists at posts in the Indo-Pacific region and within bureau offices with responsibility for the Indo-Pacific region, including in INR.

(5) A description of any staffing or other training or personnel reforms that may be required to quickly increase departmental capacity to address the inter-disciplinary, interconnected opportunities and challenges presented in the Indo-Pacific, including but not limited to issues related to climate change, public health, supply chains, cybersecurity, and digital technology issues.

(6) Defined concrete and annual benchmarks that the Department will meet in implementing the action plan.

(7) A description of any barriers to implementing the action plan and recommendations to address these barriers, noting whether additional authorities or resources from Congress is needed to address these barriers.

(e) **UPDATES TO REPORT AND BRIEFING.**—Every 180 days after the submission of the action plan described in subsection (d) for not more than 3 years, the Secretary of State shall

submit an update and brief the appropriate congressional committees (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) on the implementation of such action plan, with supporting data and including a detailed assessment of benchmarks reached.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated, for fiscal year 2022, \$2,000,000,000 in bilateral and regional foreign assistance resources to carry out the purposes of part I and chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq., 2346 et seq.) to the Indo-Pacific region and \$1,250,000,000 in diplomatic engagement resources to the Indo-Pacific region.

(g) **INCLUSION OF AMOUNTS APPROPRIATED PURSUANT TO ASIA REASSURANCE INITIATIVE ACT OF 2018.**—Amounts authorized to be appropriated under subsection (f) include funds authorized to be appropriated pursuant to section 201(b) of the Asia Reassurance Initiative Act of 2018 (Public Law 115-409).

(h) **BENCHMARKS UPDATE.**—Not later than 2 years after the date of the enactment of this Act, the Secretary of State shall report to the appropriate congressional committees on the extent to which the strategic objectives described in the action plan in subsection (d) have been satisfied or progress toward such satisfaction has been made.

SEC. 30214. REPORT ON BILATERAL EFFORTS TO ADDRESS CHINESE FENTANYL TRAFFICKING.

(a) **CHINA'S CLASS SCHEDULING OF FENTANYL AND SYNTHETIC OPIOID PRECURSORS.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State and Attorney General shall submit to the appropriate congressional committees a written report detailing—

(1) a description of United States Government efforts to gain a commitment from the Government of the People's Republic of China (PRC) to submit unregulated fentanyl precursors such as 4-AP to controls;

(2) a plan for future steps the United States Government will take to urge the PRC to combat illicit fentanyl production and trafficking originating in the PRC;

(3) an assessment of the intersection between illicit fentanyl trafficking originating in China and illicit environmental trade and possible relationships of trade-based money laundering; and

(4) an assessment of the intersection between illicit fentanyl trafficking originating in China and counterfeit medicines and medical supplies in the United States.

(b) **FORM OF REPORT.**—The report required under subsection (a) shall be submitted in unclassified form with a classified annex.

SEC. 30215. FACILITATION OF INCREASED EQUITY INVESTMENTS UNDER THE BETTER UTILIZATION OF INVESTMENTS LEADING TO DEVELOPMENT ACT OF 2018.

(a) **APPLICABILITY OF FEDERAL CREDIT REFORM ACT OF 1990.**—Section 1421(c) of the Better Utilization of Investments Leading to Development Act of 2018 (22 U.S.C. 9621(c)) is amended by adding at the end the following:

“(7) **APPLICABILITY OF FEDERAL CREDIT REFORM ACT OF 1990.**—

“(A) **IN GENERAL.**—Subject to subparagraphs (B) and (C), support provided under paragraph (1) with respect to a project shall be considered to be a Federal credit program that is subject to the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.) for purposes of applying the requirements of such Act to such support.

“(B) **DETERMINATION OF COST.**—

“(i) **IN GENERAL.**—For purposes of section 502(5) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5) et seq.) the cost of support provided under paragraph (1) with respect to a project shall be the net present value, at the time when funds are disbursed to provide the support, of the following estimated cash flows:

“(I) The purchase price of the support.

“(II) Dividends, redemptions, and other shareholder distributions during the term of the support.

“(III) Proceeds received upon a sale, redemption, or other liquidation of the support.

“(IV) Adjustments for risk of estimated losses, if any.

“(ii) CHANGES IN TERMS INCLUDED.—The estimated cash flows described in subclauses (I) through (IV) of clause (i) shall include the effects of changes in terms resulting from the exercise of options included in the agreement to provide the support.

“(C) REESTIMATE OF COST.—When the estimated cost of support provided under paragraph (1) with respect to a project made in a single fiscal year is reestimated in a subsequent year, the difference between the reestimated cost and the previous cost estimate shall be paid from the balances available in the Corporate Capital Account established under section 1434.”.

(b) MAXIMUM CONTINGENT LIABILITY.—Section 1433 of the Better Utilization of Investments Leading to Development Act of 2018 (22 U.S.C. 9633) is amended by striking “\$60,000,000,000” and inserting “\$100,000,000,000”.

(c) FUNDING FOR CORPORATE CAPITAL ACCOUNT.—Section 1434(b) of the Better Utilization of Investments Leading to Development Act of 2018 (22 U.S.C. 9634(b)) is amended—

(1) in paragraph (5), by striking “and” at the end;

(2) by redesignating paragraph (6) as paragraph (7); and

(3) by inserting after paragraph (5) the following:

“(6) receipts of reestimated costs received pursuant to section 1421(c); and”.

(d) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Chief Executive Officer of the United States International Development Finance Corporation shall submit to the appropriate congressional committees and the Committee on Appropriations of the House of Representatives and the Senate a report on—

(1) a plan to expand the Corporation’s financing to support United States national security and development priorities in critical regions; and

(2) the budgetary, staffing, and programmatic resources that would be required in order to carry out the plan required by this subsection.

SEC. 30216. EXPANDING INVESTMENT BY UNITED STATES INTERNATIONAL DEVELOPMENT FINANCE CORPORATION FOR VACCINE MANUFACTURING.

(a) IN GENERAL.—The Development Finance Corporation is authorized to provide financing to entities in India and in other less developed countries to increase vaccine manufacturing capacity for the following purposes:

(1) Manufacturing Stringent Regulatory Authorization (SRA) or World Health Organization (WHO) Emergency Use Listing COVID-19 vaccines.

(2) Manufacturing SRA or WHO Emergency Use Listing therapeutics used to treat symptoms related to COVID-19.

(3) Manufacturing critical medical supplies needed for preventing, detecting and treating COVID-19, including ventilators, personal protective equipment, oxygen, diagnostics, therapeutics and vaccines.

(b) REPORTING REQUIREMENT.—Not later than 180 days after the date of the enactment of this Act, the Chief Executive Officer of the Development Finance Corporation, in coordination with the Secretary of State, shall provide a report to the appropriate congressional committees—

(1) outlining the countries where DFC financing could be most impactful for vaccine manufacturing and to achieve the goal of manufacturing 1 billion COVID-19 vaccines by 2022;

(2) including a detailed explanation of the United States and partner country interests served by the United States providing support to such projects;

(3) including a detailed description of any support provided by other United States allies and partners to expand the initiatives outlined in subsection (a); and

(4) including a detailed description of any support provided by the People’s Republic of China in support of the initiatives outlined in subsection (a).

(c) FORM OF REPORT.—The report required by subsection (b) shall be submitted in unclassified form with a classified annex if necessary.

SEC. 30217. ENSURING UNITED STATES DIPLOMATIC POSTS ALIGN WITH AMERICAN STRATEGIC NATIONAL SECURITY AND ECONOMIC OBJECTIVES.

(a) FINDING.—With 276 embassies and other representative offices globally, China now has more diplomatic posts around the world than any other country, including the United States. Many of Beijing’s new missions can be found in countries that recently broke ties with Taiwan (Burkina Faso, the Dominican Republic, El Salvador, the Gambia, and São Tomé and Príncipe) or do not have any United States diplomatic physical presence despite these countries asking for increased United States engagement and investment (Antigua and Barbuda and Dominica).

(b) SENSE OF CONGRESS.—It is the sense of Congress, that the Department of State should conduct an assessment of all United States diplomatic missions and posts to verify such missions and posts align with United States national security and economic interests, as well as ensuring that these locations position the United States appropriately with its strategic competitors to advance the national interest in every country worldwide, including those countries currently lacking any physical United States diplomatic presence, whether an embassy, consulate general, or principal officer post.

(c) REPORTING.—Not later than 180 days after the date of the enactment of this Act and biennially thereafter for 4 years, the Secretary of State shall submit to the appropriate congressional committees (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) a report assessing the number, location, and objectives of each of its diplomatic missions and posts worldwide, including an assessment of any gaps that exist compared to other country strategic competitors. The Secretary of State shall coordinate with the heads of other Federal departments and agencies having an overseas presence at any United States diplomatic mission or post to ensure such assessment reflects all Federal Government equities and viewpoints.

SEC. 30218. AUTHORIZATION OF APPROPRIATIONS FOR THE FULBRIGHT-HAYS PROGRAM.

There are authorized to be appropriated, for the 5-year period beginning on October 1, 2021, \$105,500,000, to promote education, training, research, and foreign language skills through the Fulbright-Hays Program, in accordance with section 102(b) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)).

SEC. 30219. SUPPORTING INDEPENDENT MEDIA AND COUNTERING DISINFORMATION.

(a) AUTHORIZATION OF USAGM APPROPRIATIONS.—There is authorized to be appropriated for the United States Agency for Global Media \$100,000,000 for each of fiscal years 2022 through 2026, for ongoing and new programs to support local media, build independent media, combat CCP disinformation inside and outside of the People’s Republic of China, invest in technology to subvert censorship, and monitor and evaluate such programs, of which—

(1) not less than \$70,000,000 shall be directed to a grant to Radio Free Asia language services;

(2) not less than \$20,000,000 shall be made available to serve populations in China through Mandarin, Cantonese, Uyghur, and Tibetan language services; and

(3) not less than \$5,500,000 shall be made available for digital media services—

(A) to counter propaganda of non-Chinese populations in foreign countries; and

(B) to counter propaganda of Chinese populations in China through “Global Mandarin” programming.

(b) SUPPORT FOR LOCAL MEDIA.—The Secretary of State, acting through the Assistant Secretary of State for Democracy, Human Rights, and Labor, and the Administrator of the United States Agency for International Development, acting through the Assistant Administrator for Development, Democracy, and Innovation, shall jointly support and train foreign journalists on investigative techniques necessary to ensure public accountability, promote transparency, fight corruption, and support the ability of the public to develop informed opinions about pressing issues facing their countries.

(c) INTERNET FREEDOM PROGRAMS.—The Bureau of Democracy, Human Rights, and Labor shall continue to support internet freedom programs.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Department of State and United States Agency for International Development \$170,000,000 for each of fiscal years 2022 through 2026, for ongoing and new programs in support of press freedom, training, and protection of journalists. Amounts appropriated pursuant to this authorization are authorized to remain available until expended and shall be in addition to amounts otherwise authorized to be appropriated to support press freedom, training, and protection of journalists.

SEC. 30219A. GLOBAL ENGAGEMENT CENTER.

(a) FINDING.—Congress established the Global Engagement Center to “direct, lead, and coordinate efforts” of the Federal Government to “recognize, understand, expose, and counter foreign state and non-state propaganda and disinformation globally”.

(b) EXTENSION.—Section 1287(j) of the National Defense Authorization Act for Fiscal Year 2017 (22 U.S.C. 2656 note) is amended by striking “the date that is 8 years after the date of the enactment of this Act” and inserting “December 31, 2027”.

(c) SENSE OF CONGRESS.—It is the sense of Congress that the Global Engagement Center should expand its coordinating capacity of diplomatic messaging through the exchange of liaison officers with Federal departments and agencies that manage aspects of identifying and countering foreign disinformation, including the Office of the Director of National Intelligence and Special Operations Command’s Joint MISO Web Operations Center.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$150,000,000 for fiscal year 2022 for the Global Engagement Center to counter foreign state and non-state sponsored propaganda and disinformation.

SEC. 30219B. REPORT ON ORIGINS OF THE COVID-19 PANDEMIC.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) understanding the origins of the COVID-19 pandemic may help the United States better prepare, prevent, and respond to pandemic health threats in the future;

(2) given the impact of the COVID-19 pandemic on all Americans, the American people deserve to know what information the United States Government possesses about the origins of COVID-19, as appropriate;

(3) it is critical for independent experts to have full access to all pertinent human, animal, and environmental data, biological sample, research, and personnel involved in the early stages of the outbreak relevant to determining how this pandemic emerged;

(4) Congress shares the concerns expressed by the United States Government and 13 other foreign governments that the international team of

experts dispatched to the People's Republic of China by the World Health Organization (WHO) to study the origins of the SARS-CoV-2 virus was “significantly delayed and lacked access to complete, original data and samples”;

(6) the G7 communique expressing support for full implementation of the International Health Regulations, including “a timely, transparent, expert-led, and science-based WHO-convened Phase 2 COVID-19 Origins study including, as recommended by the experts’ report, in China” is a valuable commitment by the United States and its allies to investigating the origins of COVID-19 in order to better prepare for future pandemics; and

(7) Congress supports the effort announced by President Biden, directing the intelligence community to conduct a 90 day review to further analyze information pointing to the origins of COVID-19, which resulted in broad intelligence community agreement that the ‘virus was not developed as a biological weapon’ and ‘two hypotheses remain plausible: natural exposure to an infected animal and a laboratory-associated incident’.

(b) **REPORT REQUIRED.**—Not later than 180 days after enactment of this Act, the President shall submit to the appropriate committees of Congress a report consisting of—

(1) an assessment of the most likely source or origin of the SARS-CoV-2 virus, including a detailed review of all information the United States possesses that it has identified as potentially relevant to the source or origin of the SARS-CoV-2 virus, including zoonotic transmission and spillover, or other sources of origin, transmission, or spillover, based on the information the United States Government has to date;

(2) its level of confidence in its assessment; and

(3) challenges identified to its ability to make such an assessment.

(c) **FORM.**—The report required by subsection (b) shall be submitted in unclassified form but may include a classified annex.

(d) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations of the Senate;

(2) the Select Committee on Intelligence of the Senate;

(3) the Committee on Health, Education, Labor, and Pensions of the Senate;

(4) the Committee on Energy and Natural Resources of the Senate;

(5) the Committee on Foreign Affairs of the House of Representatives;

(6) the Permanent Select Committee on Intelligence of the House of Representatives; and

(7) the Committee on Energy and Commerce of the House of Representatives.

SEC. 30219C. EXTENSION OF ASIA REASSURANCE INITIATIVE ACT OF 2018.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Indo-Pacific region is home to many of the world’s most dynamic democracies, economic opportunities, as well as many challenges to United States interests and values as a result of the growth in authoritarian governance in the region and by broad challenges posed by nuclear proliferation, the changing environment, and deteriorating adherence to human rights principles and obligations;

(2) the People’s Republic of China poses a particular threat as it repeatedly violates internationally recognized human rights, engages in unfair economic and trade practices, disregards international laws and norms, coerces its neighbors, engages in malign influence operations, and enables global digital authoritarianism;

(3) the Asia Reassurance Initiative Act of 2018 (“ARIA”) enhances the United States’ commitment in the Indo-Pacific region by—

(A) expanding its defense cooperation with its allies and partners;

(B) investing in democracy and the protection of human rights;

(C) engaging in cybersecurity initiatives; and

(D) supporting people-to-people engagement and other shared priorities; and

(4) the 2019 Department of Defense Indo-Pacific Strategy Report concludes that ARIA “enshrines a generational whole-of-government policy framework that demonstrates U.S. commitment to a free and open Indo-Pacific region”.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—The Asia Reassurance Initiative Act of 2018 (Public Law 115-409) is amended—

(1) in section 201(b), by striking “\$1,500,000,000 for each of the fiscal years 2019 through 2023” and inserting “\$2,000,000,000 for each of fiscal years 2022 through 2026”;

(2) in section 215(b), by striking “2023” and inserting “2026”;

(3) in section 306(a)—

(A) in paragraph (1), by striking “5 years” and inserting “8 years”;

(B) in paragraph (2), by striking “2023” and inserting “2026”;

(4) in section 409(a)(1), by striking “2023” and inserting “2026”;

(5) in section 410—

(A) in subsection (c), by striking “2023” and inserting “2026”;

(B) in subsection (d), in the matter preceding paragraph (1), by striking “2023” and inserting “2026”;

(6) in section 411, by striking “2023” and inserting “2026”.

SEC. 30219D. CHINA WATCHER PROGRAM.

(a) **IN GENERAL.**—The Secretary of State, acting through the Assistant Secretary of State for East Asian and Pacific Affairs, and in coordination with relevant offices and bureaus of the Department of State, shall implement a “China Watcher Program” within the Department of State to—

(1) monitor and combat Chinese malign influence across economic and political sectors in foreign countries; and

(2) augment the capacity of United States Government engagement with foreign countries and regional and international economic and political organizations and institutions relating to policy coordination regarding China and such Chinese malign influence.

(b) **PLACEMENT.**—In carrying out the China Watcher Program under this section, the Secretary of State shall place Foreign Service officers in positions in select United States diplomatic and consular posts, at the discretion of the Secretary of State, to engage both Chinese and third-country nationals, including host governments, on the matters described in subsection (a).

(c) **ANNUAL REPORT.**—Each diplomatic or consular post with a China Watcher Program shall produce an annual report outlining the steps each such post has taken to advance the mission, trends observed, and the nature and extent of Chinese foreign direct investment and influence in key economic and political sectors, including technology, manufacturing, transportation, energy, metals, agriculture, and real estate.

(d) **AUTHORIZATION OF ANNUAL APPROPRIATIONS.**—There is authorized to be appropriated \$5,000,000 for fiscal year 2022 and each fiscal year thereafter to carry out this section.

SEC. 30219E. LIU XIAOBO FUND FOR STUDY OF THE CHINESE LANGUAGE.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) as a substitute to Confucius Institutes, the United States Government should invest heavily into alternative programs and institutions that ensure there remains a robust pipeline of Americans learning China’s many languages; and

(2) in a 21st century that will be dominated by a strategic competition between the United States and China, it is in the national security interests of the United States to ensure that Americans continue to invest in Chinese language skills, as well as Tibetan, Uyghur, and

Mongolian languages, while ensuring they can do so in a context free of malign political influence from foreign state actors.

(b) **ESTABLISHMENT OF THE LIU XIAOBO FUND FOR STUDY OF THE CHINESE LANGUAGE.**—The Secretary of State shall establish in the Department of State the “Liu Xiaobo Fund for Study of the Chinese Language” to fund study by United States persons of Mandarin and Cantonese Chinese, Tibetan, Uyghur, Mongolian, and other contemporary spoken languages of China, abroad or in the United States.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Department of State for fiscal year 2021 and every fiscal year thereafter, \$10,000,000 to carry out the Liu Xiaobo Fund for Study of the Chinese Language.

(d) **REQUIRED ACTIVITIES.**—Amounts authorized to be appropriated pursuant to subsection (c) shall—

(1) be designed to advance the national security and foreign policy interests of the United States, as determined by the Secretary of State;

(2) favor funding mechanisms that can maximize the total number of United States persons given the opportunity to acquire full conversational linguistic proficiency in Mandarin and Cantonese Chinese, Tibetan, Uyghur, Mongolian, and other contemporary spoken languages of China;

(3) favor funding mechanisms that provide opportunities for such language study to areas traditionally under-served by such opportunities;

(4) be shaped by an ongoing consultative process taking into account design inputs of—

(A) civil society institutions, including Chinese diaspora community organizations;

(B) language experts in Mandarin and Cantonese Chinese, Tibetan, Uyghur, Mongolian, and other contemporary spoken languages of China;

(C) organizations representing historically disadvantaged socioeconomic groups in the United States; and

(D) human rights organizations; and

(5) favor opportunities to fund the study of Mandarin and Cantonese Chinese, Tibetan, Uyghur, Mongolian, and other contemporary spoken languages of China at Alaska Native-serving institutions, Asian American and Native American Pacific Islander-serving institutions, Hispanic-serving institutions, historically Black college or universities, Native American-serving nontribal institutions, Native Hawaiian-serving institutions, Predominantly Black institutions, Tribal Colleges or Universities.

(e) **REPORT.**—

(1) **IN GENERAL.**—Not later than 120 days after the date of the enactment of this Act and annually thereafter for five years, the Secretary of State, in consultation with the heads of appropriate Federal departments and agencies, as appropriate, shall submit to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report detailing activities and disbursements made to carry out this Act over the immediately preceding academic year.

(2) **REPORT CONTENTS.**—Each report required under paragraph (1) shall include details on—

(A) which institutions, programs, or entities received funds through the Liu Xiaobo Fund for Study of the Chinese Language;

(B) funds distribution disaggregated by institution, program, or entity, including identification of the State or country in which such institution, program, or entity is located;

(C) the number of United States persons who received language study under the Liu Xiaobo Fund for Study of the Chinese Language, and the average amount disbursed per person for such study;

(D) a comparative analysis of per dollar program effectiveness and efficiency in allowing United States persons to reach conversational proficiency Mandarin or Cantonese Chinese, Tibetan, Uyghur, Mongolian, or other contemporary spoken languages of China;

(E) an analysis of which of the languages referred to in subparagraph (D) were studied through the funding from the Liu Xiaobo Fund for Study of the Chinese Language; and

(F) any recommendations of the Secretary of State for improvements to the authorities, priorities, or management of the Liu Xiaobo Fund for Study of the Chinese Language.

(f) **INTERAGENCY FUNDS TRANSFERS AUTHORIZATION.**—Amounts authorized to be appropriated to the Secretary of State to carry out this Act are authorized to be transferred to the heads of other appropriate Federal departments and agencies for similar purposes, subject to prior notification to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate. Such heads shall consult with the Secretary in the preparation of the report required under subsection (e).

(g) **LIMITATIONS.**—Amounts authorized to be appropriated to carry out this Act may only be made available for the costs of language study funded and administration incurred by the Department of State or programs carried out by the Department of State (or by another Federal department or agency pursuant to subsection (f)) to carry out this section.

(h) **DEFINITIONS.**—In this section:

(1) **ALASKA NATIVE-SERVING INSTITUTION.**—The term “Alaska Native-serving institution” has the meaning given such term in section 317(b) of the Higher Education Act of 1965 (20 U.S.C. 1059d(b)).

(2) **ASIAN AMERICAN AND NATIVE AMERICAN PACIFIC ISLANDER-SERVING INSTITUTION.**—The term “Asian American and Native American Pacific Islander-serving institution” has the meaning given such term in section 371(c) of the Higher Education Act of 1965 (20 U.S.C. 1067q(c)).

(3) **HISPANIC-SERVING INSTITUTION.**—The term “Hispanic-serving institution” has the meaning given such term in section 502 of the Higher Education Act of 1965 (20 U.S.C. 1101a).

(4) **HISTORICALLY BLACK COLLEGE OR UNIVERSITY.**—The term “historically Black college or university” means a part B institution described in section 322(2) of the Higher Education Act of 1965 (22 U.S.C. 1061(2)).

(5) **NATIVE AMERICAN-SERVING NONTRIBAL INSTITUTION.**—The term “Native American-serving nontribal institution” has the meaning given such term in section 371(c) of the Higher Education Act of 1965 (20 U.S.C. 1067q(c)).

(6) **NATIVE HAWAIIAN-SERVING INSTITUTION.**—The term “Native Hawaiian-serving institution” has the meaning given such term in section 317(b) of the Higher Education Act of 1965 (20 U.S.C. 1059d(b)).

(7) **PREDOMINANTLY BLACK INSTITUTION.**—The term “Predominantly Black institution” has the meaning given such term in section 371(c) of the Higher Education Act of 1965 (20 U.S.C. 1067q(c)).

(8) **TRIBAL COLLEGE OR UNIVERSITY.**—The term “Tribal College or University” has the meaning given such term in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b)).

SEC. 30219F. OVERSIGHT OF FUNDS MADE AVAILABLE THROUGH THE AMERICAN RESCUE PLAN ACT OF 2021.

(a) **AUTHORITIES AND CONDITIONS.**—Amounts authorized and appropriated under title X of the American Rescue Plan Act of 2021 (Public Law 117–2) to carry out the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) shall be subject to the applicable authorities and conditions for funds made available to carry out the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) and division K of Public Law 116–260.

(b) **OVERSIGHT AND ACCOUNTABILITY.**—Amounts authorized and appropriated under sections 10001 and 10002 of American Rescue Plan Act of 2021 may be transferred to the Inspector General of the Department of State and the Inspector General of the United States Agency for International Development to expand the capacity of such Inspectors General to

conduct effective oversight of the foreign assistance programs and activities under such Act.

(c) **UNITED STATES CONTRIBUTIONS TO THE GLOBAL FUND TO FIGHT AIDS, TUBERCULOSIS, AND MALARIA COVID–19 RESPONSE MECHANISM.**—United States contributions to the Global Fund to Fight AIDS, Tuberculosis, and Malaria COVID–19 Response Mechanism under section 10003(a)(2) of American Rescue Plan Act of 2021—

(1) shall be meaningfully leveraged in a manner that incentivizes other public and private donor contributions; and

(2) shall be subject to the reporting and withholding requirements under subsections (c), (d)(4)(A)(ii), (d)(4)(C), (d)(5), (d)(6), (f), and (g) of section 202 of the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (22 U.S.C. 7622).

SEC. 30219G. REQUIREMENTS RELATING TO VACCINE BRANDING.

The President shall ensure that every vaccine donated or otherwise procured and financed by the United States Government shall be clearly branded with the United States flag.

Subtitle B—International Security Matters

SEC. 30221. APPROPRIATE COMMITTEES OF CONGRESS.

In this subtitle, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives.

SEC. 30222. ADDITIONAL FUNDING FOR INTERNATIONAL MILITARY EDUCATION AND TRAINING IN THE INDO-PACIFIC.

There is authorized to be appropriated for each of fiscal years 2022 through fiscal year 2026 for the Department of State, out of amounts authorized to be appropriated or otherwise made available for assistance under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.) (relating to international military education and training assistance), \$45,000,000 for activities in the Indo-Pacific region in accordance with this subtitle. Funds may be disbursed only after vetting of individuals proposed to be trained, consistent with sections 502B and 620M of the Foreign Assistance Act of 1961 (22 U.S.C. 2304 and 2378d).

SEC. 30223. STATEMENT OF POLICY ON MARITIME FREEDOM OF OPERATIONS IN INTERNATIONAL WATERWAYS AND AIRSPACE OF THE INDO-PACIFIC AND ON ARTIFICIAL LAND FEATURES IN THE SOUTH CHINA SEA.

(a) **SENSE OF CONGRESS.**—Congress—

(1) condemns coercive and threatening actions or the use of force to impede freedom of navigation operations in international airspace by military or civilian aircraft, to alter the status quo, or to destabilize the Indo-Pacific region;

(2) urges the Government of the People's Republic of China to refrain from implementing the declared East China Sea Air Defense Identification Zone (ADIZ), or an ADIZ in the South China Sea, where contrary to freedom of overflight in international airspace, and to refrain from taking similar provocative actions elsewhere in the Indo-Pacific region;

(3) reaffirms that the 2016 Permanent Court of Arbitration decision is final and legally binding on both parties and that the People's Republic of China's claims to offshore resources across most of the South China Sea are unlawful; and

(4) condemns the People's Republic of China for failing to abide by the 2016 Permanent Court of Arbitration ruling, despite the PRC's obligations as a state party to the United Nations Convention on the Law of the Sea.

(b) **STATEMENT OF POLICY.**—It shall be the policy of the United States to—

(1) reaffirm its commitment and support for allies and partners in the Indo-Pacific region, in-

cluding with respect to the mutual defense treaties with Indo-Pacific allies;

(2) oppose claims that impinge on the rights, freedoms, and lawful use of the sea, or the airspace above it, that are available to all countries, and oppose the militarization of new and reclaimed land features in the South China Sea;

(3) continue certain policies with respect to the PRC claims in the South China Sea, specifically—

(A) that PRC claims in the South China Sea, including to offshore resources across most of the South China Sea, are unlawful;

(B) that the PRC cannot lawfully assert a maritime claim vis-à-vis the Philippines in areas that the Permanent Court of Arbitration found to be in the Philippines' Exclusive Economic Zone (EEZ) or on its continental shelf;

(C) to reject any PRC claim to waters beyond a 12 nautical mile territorial sea derived from islands it claims in the Spratly Islands; and

(D) that the PRC has no lawful territorial or maritime claim to James Shoal;

(4) urge all parties to refrain from engaging in destabilizing activities, including environmentally harmful and provocative land reclamation;

(5) ensure that disputes are managed without intimidation, coercion, or force;

(6) call on all claimants to clarify or adjust claims in accordance with international law;

(7) uphold the principle that territorial and maritime claims, including territorial waters or territorial seas, must derive from land features and otherwise comport with international law;

(8) oppose the imposition of new fishing regulations covering disputed areas in the South China Sea, regulations which have raised tensions in the region;

(9) support an effective Code of Conduct, if that Code of Conduct reflects the interests of Southeast Asian claimant countries and does not serve as a vehicle for the People's Republic of China to advance its unlawful maritime claims;

(10) reaffirm that an existing body of international rules and guidelines, including the International Regulations for Preventing Collisions at Sea, done at London October 12, 1972 (COLREGs), is sufficient to ensure the safety of navigation between the United States Armed Forces and the forces of other countries, including the People's Republic of China;

(11) support the development of regional institutions and bodies, including the ASEAN Regional Forum, the ASEAN Defense Minister's Meeting Plus, the East Asia Summit, and the expanded ASEAN Maritime Forum, to build practical cooperation in the region and reinforce the role of international law;

(12) encourage the deepening of partnerships with other countries in the region for maritime domain awareness and capacity building, as well as efforts by the United States Government to explore the development of appropriate multilateral mechanisms for a “common operating picture” in the South China Sea among Southeast Asian countries that would serve to help countries avoid destabilizing behavior and deter risky and dangerous activities;

(13) oppose actions by any country to prevent any other country from exercising its sovereign rights to the resources of the exclusive economic zone (EEZ) and continental shelf by making claims to those areas in the South China Sea that have no support in international law; and

(14) assure the continuity of operations by the United States in the Indo-Pacific region, including, when appropriate, in cooperation with partners and allies, to reaffirm freedom of navigation and overflight and other lawful uses of the sea.

SEC. 30224. REPORT ON CAPABILITY DEVELOPMENT OF INDO-PACIFIC ALLIES AND PARTNERS.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Secretary of State should expand and strengthen existing measures under the United

States Conventional Arms Transfer Policy to provide capabilities to allies and partners consistent with agreed-on division of responsibility for alliance roles, missions and capabilities, prioritizing allies and partners in the Indo-Pacific region in accordance with United States strategic imperatives;

(2) the United States should design for export to Indo-Pacific allies and partners capabilities critical to maintaining a favorable military balance in the region, including long-range precision fires, air and missile defense systems, anti-ship cruise missiles, land attack cruise missiles, conventional hypersonic systems, intelligence, surveillance, and reconnaissance capabilities, and command and control systems consistent with law, regulation, policy, and international commitments;

(3) the United States should pursue, to the maximum extent possible, anticipatory technology security and foreign disclosure policy on the systems described in paragraph (2);

(4) the Secretary of State, in coordination with the Secretary of Defense, should—

(A) urge allies and partners to invest in sufficient quantities of munitions to meet contingency requirements and avoid the need for accessing United States stocks in wartime; and

(B) cooperate with allies to deliver such munitions, or when necessary, to increase allies' capacity to produce such munitions; and

(5) it is in the United States interest to not authorize arms transfers or security cooperation to governments that demonstrate patterns of gross violations of human rights if such arms or security cooperation could be used to commit or support such violations.

(b) **APPROPRIATE COMMITTEES OF CONGRESS.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Secretary of Defense, shall submit to the appropriate committees of Congress a report that describes United States priorities for building more capable security partners in the Indo-Pacific region.

(2) **MATTERS TO BE INCLUDED.**—The report required under paragraph (1) shall—

(A) provide a priority list of defense and military capabilities that Indo-Pacific allies and partners must possess for the United States to be able to achieve its military objectives in the Indo-Pacific region;

(B) identify, from the list referred to in subparagraph (A), the capabilities that are best provided, or can only be provided, by the United States;

(C) identify—

(i) actions required to expedite fielding the capabilities identified in subparagraph (B); and

(ii) steps needed to fully account for and a plan to integrate all means of United States foreign military sales, direct commercial sales, security assistance, and all applicable authorities of the Department of State and the Department of Defense;

(D) assess the requirements for United States security assistance, including International Military Education and Training, in the Indo-Pacific region, as a part of the means to deliver critical partner capability requirements identified in subparagraph (B);

(E) assess the resources necessary to meet the requirements for United States security assistance, and identify resource gaps;

(F) assess the major obstacles to fulfilling requirements for United States security assistance in the Indo-Pacific region, including resources

and personnel limits, foreign legislative and policy barriers, and factors related to specific partner countries;

(G) identify limitations on the ability of the United States to provide such capabilities, including capabilities identified under subparagraph (B), because of existing United States treaty obligations, United States policies, including sections 502B and 620M of the Foreign Assistance Act of 1961 (22 U.S.C. 2304 and 2378d), or other regulations;

(H) recommend improvements to the process for developing requirements for United States partner capabilities; and

(I) identify required jointly agreed recommendations for infrastructure and posture, based on any ongoing mutual dialogues.

(3) **FORM.**—The report required under this subsection shall be unclassified, but may include a classified annex.

SEC. 30225. STATEMENT OF POLICY REGARDING THE THREAT POSED BY THE CHINESE COMMUNIST PARTY TO THE NORTH ATLANTIC TREATY ORGANIZATION.

It is the policy of the United States to—

(1) urge NATO allies to work closely with like-minded partners, in particular with the European Union, to protect critical infrastructure, strengthen resilience, maintain a technological edge, and address the challenges to the rules-based international order posed by the Chinese Communist Party;

(2) encourage NATO allies to explore how to monitor and defend against any activity of the Chinese Communist Party that could impact collective defense, military readiness, or resilience in the Supreme Allied Commander Europe's Area of Responsibility, including by identifying vulnerabilities of key sectors and supply chains, in coordination with the European Union;

(3) push for NATO allies to establish a consultative body to bring together such allies, and other institutions and partners as relevant, to exchange information, share experiences, and discuss all aspects of such allies' security interests with respect to the Chinese Communist Party; and

(4) prioritize urging all NATO allies to share the burden that comes with collective security in an increasingly complex security environment by reaching by 2024 the pledge set at the 2014 Wales Summit to spend two percent of GDP on defense spending and 20 percent of annual defense spending on major new equipment.

SEC. 30226. IDENTIFICATION OF PLA-SUPPORTED INSTITUTIONS.

(a) **IN GENERAL.**—Not later than 60 days after the date of the enactment of this Act, and annually thereafter, the Secretary of State shall publish and disseminate to United States institutions and places of study a list identifying the research, engineering, and scientific institutions that the Secretary determines are affiliated with, or funded by, the Chinese People's Liberation Army.

(b) **FORM.**—The list published and disseminated under subsection (a) shall be unclassified and publicly accessible, but may include a classified annex.

Subtitle C—Multilateral Strategies to Bolster American Power

SEC. 30231. FINDINGS ON MULTILATERAL ENGAGEMENT.

Congress finds the following:

(1) Every UN member state is legally required to finance the UN's core budget in order to ensure that these missions are properly resourced, and assessment rates are renegotiated every three years by the UN General Assembly.

(2) While the United States is the largest single financial contributor to the UN system, the current model is beneficial because it requires all UN member states, no matter how big or small, to help shoulder the UN's regular and peacekeeping budgets at specified levels.

(3) Failing to meet our financial commitments to the UN also empowers the PRC, which has

raised our annual shortfalls to claim we are not a reliable partner and is seeking to leverage its own contributions to the regular budget and peacekeeping in ways that run counter to United States interests and values.

(4) The People's Republic of China is now the second largest financial contributor to UN peacekeeping, having gone from an assessment rate of just 3 percent in 2008 to more than 15 percent today, and is the ninth largest troop-contributor to UN missions, providing more personnel than the other four permanent members of the Security Council combined.

(5) With greater engagement comes greater influence, and PRC diplomats have sought to use their expanded clout to push back against the human rights, civilian protection, and gender-based violence aspects of UN peacekeeping mandates, using United States funding shortfalls as a pretext.

(6) The PRC has also used its growing clout to fill key posts at UN agencies: Chinese nationals currently occupy the top posts of four of the UN's 15 specialized agencies, while the United States occupies only one.

(7) From 2021 to 2022, there will be 15 elections for the heads of UN specialized agencies and five for major UN funds and programs. With the exception of the World Food Programme, none are currently led by Americans.

(8) A 2020 Department of State Inspector General Inspection found that the Bureau for International Organizations did not have a standard operating procedure for tracking and promoting the employment of American Citizens in the UN system, and their recommendation to the department to establish one remains open.

SEC. 30232. STATEMENT OF POLICY ON AMERICA'S MULTILATERAL ENGAGEMENT.

It is the policy of the United States that—

(1) the Permanent Representative of the United States to the United Nations serves as a standing member of the cabinet;

(2) assessed dues to multilateral organizations be paid in full in a timely fashion;

(3) Federal agencies utilize all the authorities under section 3343 of title 5, United States Code, and subpart C of title 5, Code of Federal Regulations (relating to detail and transfer of Federal employees to international organizations), to detail or transfer employees to relevant international organizations;

(4) the Secretary of State should assist the Department of State and other Federal agencies in carrying out paragraph (3) to the fullest extent;

(5) the Secretary of State should support qualified American candidates in their bid to win election to United Nations-related leadership positions; and

(6) the Secretary of State should support the placement of Junior Professional Officers sponsored by the United States in United Nations-affiliated agencies.

SEC. 30233. SUPPORT FOR AMERICANS AT THE UNITED NATIONS.

(a) **ESTABLISHMENT.**—The Secretary of State is authorized to establish within the Department of State's Bureau of International Organization Affairs an Office of Multilateral Strategy and Personnel.

(b) **DUTIES.**—The office established under subsection (a) of this section shall be responsible for—

(1) promoting United States leadership and participation in the United Nations system, with a focus on issue areas where authoritarian nations are exercising increased influence in and determining the agenda of the United Nations system;

(2) establishing and implementing a standard operating procedure for the promotion and efficient tracking of United States citizen employment at the United Nations and other international organizations that includes Mission Geneva;

(3) monitoring the pipeline of United Nations jobs and identifying qualified United States citizens and other qualified nationals to promote for such positions;

(4) tracking leadership changes in United Nations Secretariat, funds, programs, and agencies, and developing strategies to ensure that coalitions of like-minded countries are assembled to ensure leadership races are not won by countries that do not share United States interests;

(5) eliminating current barriers to the employment of United States citizens in the United Nations Secretariat, funds, programs, and agencies; and

(6) increasing the number of qualified United States candidates for leadership and oversight positions at the United Nations Secretariat, funds, programs, agencies, and at other international organizations.

SEC. 30234. JUNIOR PROFESSIONAL OFFICERS.

(a) INCREASE IN JUNIOR PROFESSIONAL OFFICER POSITIONS.—The Secretary of State should increase the number of Junior Professional Officer positions sponsored by the United States within the United Nations system.

(b) REPORT.—Not later than December 31 of each year, the Secretary of State shall provide the appropriate congressional committees information regarding the amount of funding each bureau has designated during the immediately preceding fiscal year for Junior Professional Officer positions in the United Nations system and the number of such positions that exist as of the end of the prior fiscal year.

SEC. 30235. REPORT ON AMERICAN EMPLOYMENT IN INTERNATIONAL ORGANIZATIONS.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the Secretary of State, in consultation with the heads of other Federal departments and agencies as appropriate, shall develop and submit to the appropriate congressional committees a report on how many Federal employees are currently detailed or transferred to an international organization during the immediately preceding 1-year period and a strategy for increasing the number of Federal employees so detailed or transferred.

(b) MATTERS TO BE INCLUDED.—Each report required by subsection (a) shall include the following:

(1) The number of Federal employees detailed or transferred to an international organization under section 3343 of title 5, United States Code, and subpart C of title 5, Code of Federal Regulations (relating to the detail and transfer of Federal employees to international organizations), including—

(A) an identification of the Federal agency from which such employees were detailed or transferred; and

(B) an identification of the international organizations to and from which such employees have been so detailed or transferred.

(2) A list of international organizations to and from which the United States previously detailed or transferred Federal employees.

Subtitle D—Regional Strategies to Bolster American Power

SEC. 30241. STATEMENT OF POLICY ON COOPERATION WITH ALLIES AND PARTNERS AROUND THE WORLD.

It is the policy of the United States—

(1) to strengthen alliances and partnerships with like-minded countries around the globe; and

(2) to work in collaboration with such allies and partners—

(A) to address significant diplomatic, economic, and military challenges posed by the People's Republic of China (PRC);

(B) to deter the PRC from pursuing military aggression;

(C) to promote the peaceful resolution of territorial disputes in accordance with international law;

(D) to promote private sector-led long-term economic development while countering efforts by the Government of the PRC to leverage pred-

atory economic practices as a means of political and economic coercion in the Indo-Pacific region and beyond;

(E) to promote the values of democracy and human rights, including through efforts to end the repression by the PRC of political dissidents, Uyghurs and other Muslim minorities, Tibetan Buddhists, Christians, and other ethnic minorities;

(F) to respond to the crackdown by the PRC, in contravention of the commitments made under the Sino-British Joint Declaration of 1984 and the Basic Law of Hong Kong, on the legitimate aspirations of the people of Hong Kong; and

(G) to counter the PRC Government's efforts to spread disinformation in the PRC and beyond with respect to its response to COVID-19.

PART 1—WESTERN HEMISPHERE

SEC. 30242. SENSE OF CONGRESS REGARDING UNITED STATES-CANADA RELATIONS.

It is the sense of Congress that—

(1) the United States and Canada have a unique relationship based on shared geography, extensive personal connections, deep economic ties, mutual defense commitments, and a shared vision to uphold democracy, human rights, and the rules based international order established after World War II;

(2) the United States and Canada can better address the People's Republic of China's economic, political, and security influence through closer cooperation on counternarcotics, environmental stewardship, transparent practices in public procurement and infrastructure planning, the Arctic, energy and connectivity issues, commercial relations, bilateral legal matters, and support for democracy, good governance, and human rights;

(3) amidst the COVID-19 pandemic, the United States and Canada should maintain joint initiatives to address border management, commercial relations and infrastructure, a shared approach with respect to the People's Republic of China, and transnational challenges, including pandemics, energy security, and environmental stewardship;

(4) the United States and Canada should enhance cooperation to counter Chinese disinformation, influence operations, economic espionage, and propaganda efforts;

(5) the People's Republic of China's infrastructure investments, particularly in 5G telecommunications technology, extraction of natural resources, and port infrastructure, pose national security risks for the United States and Canada;

(6) the United States should share, as appropriate, intelligence gathered regarding—

(A) Huawei's 5G capabilities; and

(B) the PRC government's intentions with respect to 5G expansion;

(7) the United States and Canada should continue to advance collaborative initiatives to implement the January 9, 2020, United States-Canada Joint Action Plan on Critical Minerals Development Collaboration; and

(8) the United States and Canada should prioritize cooperation on continental defense and in the Arctic, including by modernizing the North American Aerospace Defense Command (NORAD) sensor architecture to provide effective warning and tracking of threats by peer competitors, including long-range missiles and high-precision weapons, to the Northern Hemisphere.

SEC. 30243. SENSE OF CONGRESS REGARDING CHINA'S ARBITRARY IMPRISONMENT OF CANADIAN CITIZENS.

It is the sense of Congress that—

(1) the Government of the People's Republic of China's apparent arbitrary detention and abusive treatment of Canadian nationals Michael Spavor and Michael Kovrig in apparent retaliation for the Government of Canada's arrest of Meng Wanzhou is deeply concerning;

(2) the Government of Canada has shown international leadership by—

(A) upholding the rule of law and complying with its international legal obligations, including obligations pursuant to the Extradition Treaty Between the United States of America and Canada, signed at Washington December 3, 1971; and

(B) launching the Declaration Against Arbitrary Detention in State-to-State Relations, which has been endorsed by 57 countries and the European Union, and reaffirms well-established prohibitions under international human rights conventions against the arbitrary detention of foreign nationals to be used as leverage in country-to-country relations; and

(3) the United States continues to join the Government of Canada in calling for the immediate release of Michael Spavor and Michael Kovrig and for due process for Canadian national Robert Schellenberg.

SEC. 30244. STRATEGY TO ENHANCE COOPERATION WITH CANADA.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees, and the Committee on Ways and Means of the House of Representatives, the Committee on Finance of the Senate, and the Committees on Armed Services of the Senate and the House of Representatives, the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate, a strategy that describes how the United States will enhance cooperation with the Government of Canada in managing relations with the Government of the People's Republic of China.

(b) ELEMENTS.—The strategy required under subsection (a) shall—

(1) identify key policy points of convergence and divergence between the United States and Canada in managing relations with the People's Republic of China in the areas of technology, economic practices, cyber security, secure supply chains and critical minerals, and illicit narcotics;

(2) include a description of United States development and coordination efforts with Canadian counterparts to enhance the cooperation between the United States and Canada with respect to—

(A) managing economic relations with the People's Republic of China;

(B) democracy and human rights in the People's Republic of China;

(C) technology issues involving the People's Republic of China;

(D) defense issues involving the People's Republic of China; and

(E) international law enforcement and transnational organized crime issues;

(3) detail diplomatic efforts and future plans to work with Canada to counter the People's Republic of China's projection of an authoritarian governing model around the world;

(4) detail diplomatic, defense, and intelligence cooperation to date and future plans to support Canadian efforts to identify cost-effective alternatives to Huawei's 5G technology;

(5) detail diplomatic and defense collaboration—

(A) to advance joint United States-Canadian priorities for responsible stewardship in the Arctic Region; and

(B) to counter the People's Republic of China's efforts to project political, economic, and military influence into the Arctic Region; and

(6) detail diplomatic efforts to work with Canada to track and counter the People's Republic of China's attempts to exert influence across the multilateral system.

(c) FORM.—The strategy required under this section shall be submitted in an unclassified form that can be made available to the public, but may include a classified annex, if necessary.

(d) CONSULTATION.—Not later than 90 days after the date of the enactment of this Act and

not less frequently than every 180 days thereafter for five years, the Secretary of State shall consult with the appropriate congressional committees, and the Committees on Armed Services of the Senate and the House of Representatives, regarding the development and implementation of the strategy required under this section.

SEC. 30245. STRATEGY TO STRENGTHEN ECONOMIC COMPETITIVENESS, GOVERNANCE, HUMAN RIGHTS, AND THE RULE OF LAW IN LATIN AMERICA AND THE CARIBBEAN.

(a) *IN GENERAL.*—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation, as appropriate, with the Secretary of the Treasury, the Secretary of Commerce, the Administrator of the United States Agency for International Development (USAID), the Attorney General, the United States Trade Representative, and the Chief Executive Officer of the United States International Development Finance Corporation, shall submit to the appropriate congressional committees, the Committee on Ways and Means and the Committee on Appropriations of the House of Representatives, and the Committee on Finance and the Committee on Appropriations of the Senate a multi-year strategy for increasing United States economic competitiveness and promoting good governance, human rights, and the rule of law in Latin American and Caribbean countries, particularly in the areas of—

- (1) investment;
- (2) equitable, inclusive, and sustainable development;
- (3) commercial relations;
- (4) anti-corruption activities; and
- (5) infrastructure projects.

(b) *ADDITIONAL ELEMENTS.*—The strategy required under subsection (a) shall include a plan of action, including benchmarks to achieve measurable progress, to—

- (1) enhance the technical capacity of Latin American and Caribbean countries to advance the sustainable and inclusive development of equitable economies;
- (2) facilitate a more open, transparent, and competitive environment for United States businesses in the region;
- (3) establish frameworks or mechanisms to review long term financial sustainability and security implications of foreign investments in strategic sectors or services, including transportation, communications, natural resources, and energy;
- (4) establish competitive, transparent, and inclusive infrastructure project selection and procurement processes that promote transparency, supplier diversity, open competition, financial sustainability, adherence to robust global standards, and the employment of a diverse local workforce and management;
- (5) strengthen legal structures critical to robust democratic governance, fair competition, combatting corruption, and ending impunity; and
- (6) enhance transparent, affordable, and equitable access to the internet and digital infrastructure in the Western Hemisphere.

(c) *BRIEFING REQUIREMENT.*—Not later than one year after the date of the enactment of this Act and annually thereafter for five years, the Secretary of State, after consultation with the Secretary of the Treasury, the Secretary of Commerce, the Attorney General, the United States Trade Representative, and the leadership of the United States International Development Finance Corporation, shall brief the congressional committees specified in subsection (a) regarding the implementation of this section, including examples of successes and challenges.

SEC. 30246. ENGAGEMENT IN INTERNATIONAL ORGANIZATIONS AND THE DEFENSE SECTOR IN LATIN AMERICA AND THE CARIBBEAN.

(a) *APPROPRIATE COMMITTEES OF CONGRESS DEFINED.*—In this section, the term “appropriate committees of Congress” means—

- (1) the Committee on Foreign Relations of the Senate;
- (2) the Select Committee on Intelligence of the Senate;
- (3) the Committee on Armed Services of the Senate;
- (4) the Committee on Foreign Affairs of the House of Representatives;
- (5) the Permanent Select Committee on Intelligence of the House of Representatives; and
- (6) the Committee on Armed Services of the House of Representatives.

(b) *REPORTING REQUIREMENT.*—

(1) *IN GENERAL.*—Not later than 90 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Director of National Intelligence, the Director of the Central Intelligence Agency, and the Defense Intelligence Agency, shall submit to the appropriate committees of Congress a report that assesses the nature, intent, and impact on United States strategic interests of Chinese diplomatic activity aimed at influencing the decisions, procedures, and programs of multilateral organizations in Latin America and the Caribbean, including the World Bank, International Monetary Fund, Organization of American States, and the Inter-American Development Bank.

(2) *DEFENSE SECTOR.*—The report required under paragraph (1) shall include an assessment of the nature, intent, and impact on United States strategic interests of Chinese military activity in Latin America and the Caribbean, including military education and training programs, weapons sales, and space-related activities in the military or civilian spheres, such as—

(A) the satellite and space control station the People's Republic of China constructed in Argentina; and

(B) defense and security cooperation carried out by the People's Republic of China in Latin America and the Caribbean, including sales of surveillance and monitoring technology to governments in the region such as Venezuela, Cuba, Ecuador, and Colombia, and the potential use of such technologies as tools of Chinese intelligence services.

(3) *FORM.*—The report required under paragraph (1) shall be submitted in unclassified form and include classified annexes.

SEC. 30247. DEFENSE COOPERATION IN LATIN AMERICA AND THE CARIBBEAN.

(a) *IN GENERAL.*—There is authorized to be appropriated to the Department of State \$13,500,000 for the International Military Education and Training Program for Latin America and the Caribbean for each of fiscal years 2022 through 2026.

(b) *MODERNIZATION.*—The Secretary of State shall modernize and strengthen the programs receiving funding in accordance with subsection (a) to ensure that such programs are vigorous, substantive, and the preeminent choice for international military education and training for Latin American and Caribbean partners.

(c) *REQUIRED ELEMENTS.*—The programs referred to in subsection (a) shall—

(1) provide training and capacity-building opportunities to Latin American and Caribbean security services;

(2) provide practical skills and frameworks for—

(A) improving the functioning and organization of security services in Latin America and the Caribbean;

(B) creating a better understanding of the United States and its values; and

(C) using technology for maximum efficiency and organization;

(3) promote and ensure that security services in Latin America and the Caribbean respect civilian authority and operate in compliance with international norms, standards, and rules of engagement, including a respect for human rights, and full compliance with requirements under section 620M of the Foreign Assistance Act of 1961 (22 U.S.C. 2378d; commonly referred to as the “Leahy law”); and

(4) receive funds only after vetting of individuals proposed to be trained, consistent with sections 502B and 620M of the Foreign Assistance Act of 1961 (22 U.S.C. 2304 and 2378d).

SEC. 30248. ENGAGEMENT WITH CIVIL SOCIETY IN LATIN AMERICA AND THE CARIBBEAN REGARDING ACCOUNTABILITY, HUMAN RIGHTS, AND THE RISKS OF PERVASIVE SURVEILLANCE TECHNOLOGIES.

(a) *SENSE OF CONGRESS.*—It is the sense of Congress that—

(1) the Government of the People's Republic of China is exporting its model for internal security and state control of society through advanced technology and artificial intelligence; and

(2) the inclusion of communication networks and communications supply chains with equipment and services from companies with close ties to or that are susceptible to pressure from governments or security services without reliable legal checks on governmental powers can lead to breaches of citizens' private information, increased censorship, violations of human rights, and harassment of political opponents.

(b) *DIPLOMATIC ENGAGEMENT.*—The Secretary of State shall conduct diplomatic engagement with governments and civil society organizations in Latin America and the Caribbean to—

(1) help identify and mitigate the risks to civil liberties posed by technologies and services described in subsection (a); and

(2) offer recommendations on ways to mitigate such risks.

(c) *INTERNET FREEDOM PROGRAMS.*—The Chief Executive Officer of the United States Agency for Global Media, who may work through the Open Technology Fund of the Agency, and the Secretary of State, working through the Bureau of Democracy, Human Rights, and Labor's Internet Freedom and Business and Human Rights Section, shall expand and prioritize efforts to provide anti-censorship technology and services to journalists in Latin America and the Caribbean, in order to enhance their ability to safely access or share digital news and information.

(d) *SUPPORT FOR CIVIL SOCIETY.*—The Secretary of State, in coordination with the Administrator of the United States Agency for International Development, shall work through nongovernmental organizations to—

(1) support and promote programs that support internet freedom and the free flow of information online in Latin America and the Caribbean;

(2) protect open, interoperable, secure, and reliable access to internet in Latin America and the Caribbean;

(3) provide integrated support to civil society for technology, digital safety, policy and advocacy, and applied research programs in Latin America and the Caribbean;

(4) train journalists and civil society leaders in Latin America and the Caribbean on investigative techniques necessary to ensure public accountability and prevent government overreach in the digital sphere;

(5) assist independent media outlets and journalists in Latin America and the Caribbean to build their own capacity and develop high-impact, in-depth news reports covering governance and human rights topics;

(6) provide training for journalists and civil society leaders on investigative techniques necessary to improve transparency and accountability in government and the private sector;

(7) provide training on investigative reporting of incidents of corruption and unfair business and commercial practices;

(8) assist nongovernmental organizations to strengthen their capacity to monitor the incidents and practices described in paragraph (7); and

(9) identify local resources to support the preponderance of activities that would be carried out under this subsection.

SEC. 30249. CARIBBEAN ENERGY INITIATIVE AS ALTERNATIVE TO CHINA'S BELT AND ROAD INITIATIVE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The countries of the Caribbean are heavily reliant upon imported oil to provide for approximately 90 percent of their energy production.

(2) The level of dependence is even higher including—

(A) Jamaica, which relies on oil for 95.9 percent of its electricity;

(B) Barbados, which relies on oil for 96 percent of its electricity;

(C) The Virgin Islands, which relies on oil for nearly 100 percent of its electricity; and

(D) St. Lucia, which relies on oil for 100 percent of its electricity.

(3) Overreliance on imported fossil fuels has had a detrimental effect on economic development, growth, and competitiveness in the Caribbean.

(4) Since 1970, more than 80 percent of Caribbean coral reefs have been lost due to coastal development and pollution. Soot particulates and climate change caused by burning fossil fuels have seriously damaged coral reefs, which are a significant source of tourism dollars, fishing, biodiversity, and natural beauty.

(5) Air pollution caused by burning oil for electricity—

(A) has serious health impacts in the form of higher rates of asthma and other lung ailments; and

(B) can also exacerbate climate change.

(6) The Caribbean region is particularly vulnerable to sea level rise and stronger storms.

(7) Between 2005 and 2018, the dependence of the countries of the Caribbean on oil was perpetuated by the Venezuelan-led Petrocaribe oil alliance, which—

(A) offered preferential terms for oil sales; and

(B) supplies some countries with up to 40 percent of their energy production needs.

(8) The ongoing domestic economic crisis and political turmoil in Venezuela has forced the Government of Venezuela to retract its commitments to the Petrocaribe oil alliance and step away as a regional power. Only Cuba still receives preferential Petrocaribe pricing on fuel exports from Venezuela, while other Petrocaribe member countries are experiencing a destabilized flow of oil.

(9) China has spent more than \$244,000,000,000 on energy projects worldwide since 2000, 25 percent of which was spent in Latin America and the Caribbean. Although the majority of this spending was for oil, gas, and coal, China has also been the largest investor in clean energy globally for almost a decade.

(10) The World Bank estimates that the Caribbean will need \$12,000,000,000 in power investments through 2035.

(11) Renewable energy technology costs have decreased dramatically in recent years, offering a more viable economic alternative for energy production. Solar energy prices have fallen by 80 percent since 2008, causing significant market growth, and according to data released by the International Renewable Energy Agency, 1/3 of global power capacity is based in renewable energy.

(12) In 2016, the International Monetary Fund estimated that transportation accounted for 36 percent of the total primary energy consumed in the Caribbean subregion.

(13) According to the United Nations Environment Programme, Latin America and the Caribbean could achieve annual savings of \$621,000,000,000 and a reduction of 1,100,000,000 tons of CO₂ by 2050 if the region's energy and transport sectors reach net zero emissions.

(14) The Caribbean has an abundance of on-shore and offshore resources needed for renewable energy, including sun, wind, geothermal, and some hydropower production capacity.

(15) The United States Government is deeply engaged in providing technical and policy as-

sistance to countries of the Caribbean on energy issues through—

(A) the Energy and Climate Partnership of the Americas;

(B) Connecting the Americas 2022; and

(C) bilateral assistance programs.

(16) On February 19, 2014, at the North American Leaders' Summit, President Barack Obama, Prime Minister Stephen Harper of Canada, and President Enrique Peña Nieto of Mexico reaffirmed their commitment to bring affordable, reliable, and increasingly renewable power to the Caribbean, while opening wider markets for clean energy and green technology.

(17) On June 19, 2015, President Barack Obama announced the Caribbean Energy Security Initiative, which would partner with individual countries—

(A) to transform its energy sector;

(B) to work to increase access to finance, good governance, and diversification; and

(C) to maximize the impact of existing donor effects.

(18) On May 4, 2016, at the United States-Caribbean-Central American Energy Summit, the energy security task force formally launched the Caribbean Sustainable Energy Roadmap and Strategy (C-SERMS) as a mechanism to manage regional coordination and action on energy security and agreed to expand the regional market and transmission system.

(19) The United States has an important opportunity—

(A) to deepen this engagement;

(B) to work as a partner with Caribbean countries on a more regional and coordinated basis;

(C) to help ease the region's dependence on imported oil; and

(D) to promote affordable alternative sources of energy.

(b) **DEFINITIONS.**—In this section:

(1) **CARIBBEAN COUNTRIES.**—The term “Caribbean countries” means countries in the Caribbean region, but does not include Cuba or Venezuela.

(2) **CARIBBEAN GOVERNMENTS.**—The term “Caribbean governments” means the national governments of the Caribbean countries.

(c) **STATEMENT OF POLICY.**—It is the policy of the United States to help Caribbean countries—

(1) achieve greater energy security and improve domestic energy resource mobilization;

(2) lower their dependence on imported fuels;

(3) eliminate the use of diesel, heavy fuel oil, other petroleum products, and coal for the generation of electricity;

(4) increase production of renewable energy; and

(5) meet the greenhouse gas mitigation goals of their national determined contributions to the Paris Agreement.

(d) **STRATEGY.**—

(1) **SUBMISSION.**—Not later than 120 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Administrator of the United States Agency for International Development (USAID), shall submit to the appropriate congressional committees a multi-year strategy that describes how the Department of State will promote regional cooperation with Caribbean countries—

(A) to lower dependence on imported fuels, grow domestic clean energy production in the region, strengthen regional energy security, and lower energy sector greenhouse gas emissions;

(B) to decrease dependence on oil in the transportation sector;

(C) to increase energy efficiency, energy conservation, and investment in alternatives to imported fuels;

(D) to improve grid reliability and modernize electricity transmission networks;

(E) to advance deployment of innovative solutions to expand community and individuals' access to electricity;

(F) to help reform energy markets to encourage good regulatory governance and to promote a climate of private sector investment; and

(G) to mitigate greenhouse gas emissions from the energy and transportation sector.

(2) **ELEMENTS.**—The strategy required under subsection (a) shall include—

(A) a thorough review and inventory of United States Government activities that are being carried out bilaterally, regionally, and in coordination with multilateral institutions—

(i) to promote energy and climate security in the Caribbean region; and

(ii) to reduce the region's reliance on oil for electricity generation;

(B) opportunities for marshaling regional cooperation—

(i) to overcome market barriers resulting from the small size of Caribbean energy markets;

(ii) to address the high transportation and infrastructure costs faced by Caribbean countries;

(iii) to ensure greater donor coordination between governments, multilateral institutions, multilateral banks, and private investors; and

(iv) to expand regional financing opportunities to allow for lower cost energy entrepreneurship;

(C) measures to ensure that each Caribbean government has—

(i) an independent utility regulator or equivalent;

(ii) affordable access by third party investors to its electrical grid with minimal regulatory interference;

(iii) effective energy efficiency and energy conservation;

(iv) programs to address technical and non-technical issues;

(v) a plan to eliminate major market distortions; and

(vi) other taxes on clean energy solutions; and

(D) recommendations for how United States policy, technical, and economic assistance can be used in the Caribbean region—

(i) to advance renewable energy development and the incorporation of renewable technologies into existing energy grids and the development and deployment of micro-grids where appropriate and feasible to boost energy security and reliability, particularly to underserved communities;

(ii) to increase the generation of clean energy sufficiently to replace and allow for the retirement of obsolete fossil fuel energy generation units in Caribbean countries;

(iii) to create regional financing opportunities to allow for lower cost energy entrepreneurship;

(iv) to deploy transaction advisors in the region to help attract private investment and break down any market or regulatory barriers; and

(v) to establish a mechanism for each host government to have access to independent legal advice—

(I) to speed the development of energy-related contracts; and

(II) to better protect the interests of Caribbean governments and citizens.

(3) **CONSULTATION.**—In devising the strategy under this subsection, the Secretary of State shall work with the Secretary of Energy and shall consult with—

(A) the Secretary of the Interior;

(B) the Secretary of Commerce;

(C) the Secretary of the Treasury;

(D) the Board of Directors of the Export-Import Bank of the United States;

(E) the Board of Directors of the Development Finance Corporation;

(F) the Administrator of the United States Agency for International Development;

(G) the Caribbean governments;

(H) the Inter-American Development Bank;

(I) the World Bank Group; and

(J) the Caribbean Electric Utility Services Corporation.

SEC. 30250. UNITED STATES-CARIBBEAN RESILIENCE PARTNERSHIP.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States shares with the Caribbean a collective vulnerability to natural disasters, which affects the lives and the economies of our citizens.

(2) The April 9, 2021, eruption of the La Soufriere volcano is another reminder of the devastation caused by the many natural disasters the Caribbean confronts each year and the region's vulnerability to external shocks. Hurricane Dorian, the largest storm to hit the region, wiped out large parts of the northern Bahamas in 2019, and Hurricanes Maria and Irma devastated multiple islands across the region in 2017, including Puerto Rico. According to IMF research, of the 511 plus disasters worldwide to hit small states since 1950, around two-thirds (324) have been in the Caribbean.

(3) This region is seven times more likely to experience a natural disaster than elsewhere. And, when one occurs, it will incur as much as six times more damage.

(4) Extreme weather events and other environmental impacts will only worsen over the coming years, and if not addressed, we will see only increasing economic shocks on these countries, driving irregular migration.

(5) While the United States has considerable expertise and capacity in assisting countries with disaster response, there remains a need for stronger partnerships that build regional resilience through efficient and interoperable platforms, protecting people and speeding recovery.

(6) The People's Republic of China has dramatically increased its engagement in the Caribbean in the past five years, including offering loans and grants related to disaster response and resilience and sought to acquire property rights in the Caribbean that would be detrimental to United States national security interests.

(7) In 2019, the United States launched a new U.S.-Caribbean Resilience Partnership to deepen cooperation and investment to strengthen our disaster resilience throughout the Caribbean region, including—

(A) to streamline early warning response networks and formalize communication channels;

(B) to enhance, encourage, and work collaboratively on further developing aviation disaster resilience plans and partnerships;

(C) to prioritize regional technical exchange in energy planning, risk reduction, and resilience;

(D) to increase communications network interoperability between Caribbean partners and the United States;

(E) to utilize storm surge mapping data and share real-time information in preparation for potential damage resulting from tropical cyclones and tsunamis;

(F) to use meteorological services to strengthen and deepen physical and communications infrastructure, data collection networks, and human and technical capacity throughout the region, as well as interactions with the public;

(G) to understand that while the use of international and military and civil defense assets in disaster response may only be considered as a last resort, when local, national, and international civilian capabilities are overwhelmed, civil-military coordination should occur, in support of the affected nation;

(H) to develop a framework that would govern the deployment of international military and civil defense assets in disaster response when local, national, and international civilian capabilities are overwhelmed, in support of the affected nation;

(I) to seek common mechanisms for ensuring rapid disaster response and recovery, including waiving or expediting diplomatic clearances, waiving of or reducing customs fees, streamlining overflight and airspace clearance, and ensuring that the first responders have the ability to rapidly respond to disasters in other countries;

(J) to promote the integration and coordination of regional response mechanisms in the Caribbean, including through the Caribbean Disaster Emergency Management Agency, the Regional Security System, United States Government Agencies, and allies in ways that facili-

tate more effective and efficient planning, mitigation, response, and resilience to natural disasters;

(K) to share best practices in improved building codes with national disaster organizations, including building better programs, at regional, national and community levels; and

(L) to promote community-based disaster preparedness and mitigation activities, particularly in underserved communities, with the aim of increasing broad public participation and resilience.

(b) **POLICY.**—It is the policy of the United States to help Caribbean countries—

(1) increase their resilience and adapt to natural disasters and the impacts of severe weather events and a changing environment;

(2) partner with United States Federal, State, and local agencies and engage in technical cooperation, dialogue, and assistance activities;

(3) harmonize standards and practices related to paragraphs (1) and (2) to promote increased investment and integration;

(4) increase investment from United States companies in the Caribbean on resilience-building, adaptation, and climate-related mitigation efforts;

(5) promote regional cooperation and ensure efforts by the United States, Caribbean countries, and international partners complement each other; and

(6) further assist with the efforts described in subsection (a)(7).

(c) **STRATEGY.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the heads of other Federal departments and agencies, shall submit to the appropriate congressional committees a multi-year strategy that describes how the Department of State will achieve the policies described in subsection (b).

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated for activities, programs, technical assistance, and engagement under this section the following:

(1) \$20,000,000 for fiscal year 2022.

(2) \$25,000,000 for fiscal year 2023.

(3) \$30,000,000 for fiscal year 2024 and each fiscal year thereafter.

(e) **REPORTING AND MONITORING.**—

(1) **IN GENERAL.**—Of the amounts authorized to be appropriated each fiscal year pursuant to subsection (d), at least five percent of all programming funding allocation shall support and be directed toward reporting, monitoring, and assessment of effectiveness.

(2) **ENGAGEMENT AND COLLABORATION.**—The Department of State shall ensure that at least 20 percent of amounts authorized to be appropriated pursuant to subsection (d) directly support the training of, engagement with, collaboration with, and exchange of expertise on resilience between United States Federal, State, and local officials and their Caribbean government counterparts. Such amounts should also support, as appropriate, increased academic, civil society, media, and private sector engagement in the fields of resilience-building, adaptation, and mitigation.

SEC. 30251. COUNTERING CHINA'S EDUCATIONAL AND CULTURAL DIPLOMACY IN LATIN AMERICA.

(a) **FINDINGS.**—Congress finds the following:

(1) According to a report by the National Endowment for Democracy, China has spent the equivalent of billions of dollars to shape public opinion and perceptions around the world through thousands of people-to-people exchanges, cultural activities, educational programs, and the development of media enterprises and information initiatives with global reach.

(2) Educational and exchange programs are a core element of United States public diplomacy, elevating our culture, policies, and interests worldwide.

(3) These programs provide students with access to international knowledge, an opportunity to learn foreign languages, and a unique envi-

ronment for developing cultural understanding, all of which are valuable skills in today's global economy.

(4) 90 percent of ECA's appropriation is spent in the United States or invested directly in American citizens or American organizations.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) China's efforts to mold public opinion and influence educational institutions undermine United States' influence in Latin America and the Caribbean and threaten democratic institutions and practices in the region;

(2) the United States Government should expand current educational and cultural exchange programs in Latin America and the Caribbean, which are cost-effective and strengthen people-to-people diplomacy, to promote national security and foreign policy interests of the United States; and

(3) educational exchanges foster linguistic, cultural, and educational skills that advance United States economic competitiveness, strengthen alliances, and support democracies worldwide.

(c) **STRATEGY.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, acting through the Assistant Secretary of State for Educational and Cultural Affairs, and in coordination with the Assistant Administrator for the Bureau of Economic Growth, Education, and Environment at the United States Agency for International Development, shall devise a strategy—

(1) to evaluate and expand existing programs and, as necessary, design and implement new educational, professional, and cultural exchanges and other programs to—

(A) create and sustain mutual understanding with other countries necessary to advance United States foreign policy goals by cultivating people-to-people ties among current and future global leaders that build enduring networks and personal relationships; and

(B) promote United States national security interests and values, including through the expansion of exchange visitor programs such as international visitor leadership programs and the Young Leaders of the Americas Initiative, as well as professional capacity building programs that prioritize building skills in entrepreneurship, promoting transparency, and technology;

(2) to ensure that exchange programs for Americans abroad and international visitors attract a diverse pool of participants, including from underrepresented, marginalized, and low-income communities; and

(3) to evaluate, expand, and strengthen existing programs, and, as necessary, design and implement new basic and higher education programs in Latin America and the Caribbean, in accordance with the United States Strategy on International Basic Education and the United States Agency for International Development Education Policy, to enable all young adults, youth, and children to acquire the quality education and skills needed to be productive members in society, which will lead to better individual and societal outcomes.

(d) **REPORT WITH INTELLIGENCE ASSESSMENT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall, in coordination with the Director of National Intelligence, submit to the appropriate congressional committees (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) a report that assesses the nature and impact of the People's Republic of China's educational and cultural sector activity in Latin America and the Caribbean, its impact on United States' strategic interests, and recommendations for the United States Government to expand people-to-people ties.

SEC. 30252. NARCOTICS TRAFFICKING IN LATIN AMERICA AND THE CARIBBEAN.

It is the sense of Congress that—

(1) narcotics trafficking continues to pose a security threat to the countries and peoples of Latin America and the Caribbean;

(2) other forms of transnational organized crime, including arms trafficking, human smuggling, money laundering, and illicit financing, are drivers of irregular migration;

(3) narcotics trafficking is fueled by governments that fail to curb the illicit drug trade by adequately regulating the legal trade of non-fentanyl opioids and precursor chemicals used to produce fentanyl, fentanyl analogs, and other synthetic drugs;

(4) further, governments that do not cooperate sufficiently on financial investigations and prosecutions, withhold information with respect to money laundering crimes, or are determined to facilitate illicit activities, particularly by transnational organized criminal organizations, should be held accountable;

(5) as noted in the International Narcotics Control Strategy Report 2020, China “has not cooperated sufficiently on financial investigations and does not provide adequate responses to requests for financial investigation information”;

(6) the United States should apply economic and other targeted financial sanctions with respect to individuals engaged in financial crimes and money laundering that fosters narcotics trafficking in the countries of Latin America and the Caribbean; and

(7) the United States should look to policies to hold accountable countries that fail to sufficiently investigate financial crimes and money laundering that foster narcotics trafficking in the countries of Latin America and the Caribbean.

PART 2—TRANSATLANTIC RELATIONSHIPS

SEC. 30255. SENSE OF CONGRESS ON TRANSATLANTIC RELATIONSHIPS.

It is the sense of Congress that—

(1) the United States, the European Union, the United Kingdom, and other European countries are close partners, sharing values grounded in democracy, human rights, transparency, and the rules-based international order established after World War II;

(2) without a common approach by the United States, the European Union, the United Kingdom, and other European countries on connectivity, transnational challenges, and support for democracy and human rights, the People's Republic of China will continue to increase its economic, political, and security leverage in Europe and globally;

(3) the People's Republic of China's deployment of assistance to European countries following the COVID-19 outbreak showcased a coercive approach to aid, but it also highlighted Europe's deep economic ties to the People's Republic of China;

(4) as European countries seek to recover from the economic toll of the COVID-19 outbreak, the United States must stand in partnership with Europe to support our collective economic recovery, reinforce our collective national security, and defend shared values;

(5) the United States, the European Union, the United Kingdom, and other European countries should coordinate on joint strategies to diversify reliance on supply chains away from the People's Republic of China, especially in the medical and pharmaceutical sectors;

(6) the United States, the European Union, the United Kingdom, and other European countries should leverage their respective economic innovation capabilities to support the global economic recovery from the COVID-19 recession and draw a contrast with the centralized economy of the People's Republic of China;

(7) the United States, the European Union, Japan, and other like-minded countries should continue efforts to address the security, economic, democracy, and human rights challenges posed by the People's Republic of China;

(8) the United States, the European Union, the United Kingdom, and other European coun-

tries should enhance cooperation to counter People's Republic of China disinformation, influence operations, and propaganda efforts;

(9) the United States and Europe share serious concerns with the repressions being supported and executed by the Government of the People's Republic of China, and should continue implementing measures to address the Government of the People's Republic of China's specific abuses in Tibet, Hong Kong, and Xinjiang, and should build joint mechanisms and programs to prevent the export of China's authoritarian governance model to countries around the world;

(10) the United States and Europe should remain united in their shared values against attempts by the Government of the People's Republic of China at the United Nations and other multilateral organizations to promote efforts that erode the Universal Declaration of Human Rights, like the “community of a shared future for mankind” and “democratization of international relations”;

(11) the People's Republic of China's infrastructure investments around the world, particularly in 5G telecommunications technology and port infrastructure, could threaten democracy across Europe and the national security of key countries;

(12) as appropriate, the United States should share intelligence with European allies and partners on Huawei's 5G capabilities and the intentions of the Government of the People's Republic of China with respect to 5G expansion in Europe;

(13) the European Union's Investment Screening Regulation, which came into force in October 2020, is a welcome development, and member states should closely scrutinize PRC investments in their countries through their own national investment screening measures;

(14) the President should actively engage the European Union on the implementation of the Export Control Reform Act regulations and to better harmonize United States and European Union policies with respect to export controls;

(15) the President should strongly advocate for the listing of more items and technologies to restrict dual use exports controlled at the National Security and above level to the People's Republic of China under the Wassenaar Arrangement;

(16) the United States should explore the value of establishing a body akin to the Coordinating Committee for Multilateral Export Controls (CoCom) that would specifically coordinate United States and European Union export control policies with respect to limiting exports of sensitive technologies to the People's Republic of China; and

(17) the United States should work with counterparts in Europe to—

(A) evaluate United States and European overreliance on goods originating in the People's Republic of China, including in the medical and pharmaceutical sectors, and develop joint strategies to diversify supply chains;

(B) develop a common strategy for promoting energy security and economic growth in eastern Europe and the Balkans that addresses shared concerns related to China's Belt and Road Initiative in these regions, including complementary investments in the Three Seas Initiative Fund for clean energy and digital connectivity projects;

(C) counter PRC efforts to use COVID-19-related assistance as a coercive tool to pressure developing countries by offering relevant United States and European expertise and assistance; and

(D) leverage the United States and European private sectors to advance the post-COVID-19 economic recovery.

SEC. 30256. STRATEGY TO ENHANCE TRANSATLANTIC COOPERATION WITH RESPECT TO THE PEOPLE'S REPUBLIC OF CHINA.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the

President shall brief the appropriate congressional committees, the Committee on Armed Services of the Senate, and the Committee on Armed Services of the House of Representatives on a strategy for how the United States will enhance cooperation with the European Union, NATO, and European partner countries with respect to the People's Republic of China.

(b) ELEMENTS.—The briefing required under subsection (a) shall include the following elements with respect to the strategy referred to in such subsection:

(1) An identification of the senior Senate-confirmed Department of State official who leads United States efforts to cooperate with the European Union, NATO, and European partner countries to advance a shared approach with respect to the People's Republic of China.

(2) An identification of key policy points of convergence and divergence between the United States and European allies and partners with respect to the People's Republic of China in the areas of technology and economic practices.

(3) A description of efforts to advance shared interests with European counterparts on—

(A) security and economic challenges with respect to the People's Republic of China;

(B) democracy and human rights challenges with respect to the People's Republic of China;

(C) technology issues with respect to the People's Republic of China;

(D) defense issues with respect to the People's Republic of China; and

(E) developing a comprehensive strategy to respond to the Belt and Road Initiative (BRI) established by the Government of the People's Republic of China.

(4) A description of the coordination mechanisms among key regional and functional bureaus within the Department of State and Department of Defense tasked with engaging with European allies and partners on the People's Republic of China.

(5) A detailing of diplomatic efforts up to the date of the briefing and future plans to work with European allies and partners to counter the Government of the People's Republic of China's advancement of an authoritarian governance model around the world.

(6) A detailing of the diplomatic efforts made up to the date of the briefing and future plans to support European efforts to identify cost-effective alternatives to Huawei's 5G technology.

(7) A detailing of how United States public diplomacy tools, including the Global Engagement Center of the Department of State, will coordinate efforts with counterpart entities within the European Union to counter Chinese propaganda.

(8) A description of the staffing and budget resources the Department of State dedicates to engagement between the United States and the European Union on the People's Republic of China and provide an assessment of out-year resource needs to execute such strategy.

(9) A detailing of diplomatic efforts to work with European allies and partners to track and counter Chinese attempts to exert influence across multilateral fora, including at the World Health Organization.

(c) FORM.—The briefing required under section (a) shall be classified.

(d) CONSULTATION.—Not later than 180 days after the date of the enactment of this Act and annually thereafter for three years, the Secretary of State shall consult with the appropriate congressional committees, the Committee on Armed Services of the Senate, and the Committee on Armed Services of the House of Representatives regarding the development and implementation of the elements described in subsection (b).

SEC. 30257. ENHANCING TRANSATLANTIC COOPERATION ON PROMOTING PRIVATE SECTOR FINANCE.

(a) IN GENERAL.—The President should work with transatlantic partners to build on the agreement among the Development Finance Corporation, FinDev Canada, and the European

Development Finance Institutions (referred to as the “DFI Alliance”) to enhance coordination on shared objectives to foster private sector-led development and provide market-based alternatives to state-directed financing in emerging markets, particularly as related to the People’s Republic of China’s Belt and Road Initiative (BRI), including by integrating efforts such as—

(1) the European Union Strategy on Connecting Europe and Asia;

(2) the Three Seas Initiative and Three Seas Initiative Fund;

(3) the Blue Dot Network among the United States, Japan, and Australia; and

(4) a European Union-Japan initiative that has leveraged \$65,000,000,000 for infrastructure projects and emphasizes transparency standards.

(b) **STANDARDS.**—The United States and the European Union should coordinate and develop a strategy to enhance transatlantic cooperation with the OECD and the Paris Club on ensuring the highest possible standards for Belt and Road Initiative contracts and terms with developing countries.

SEC. 30258. REPORT AND BRIEFING ON COOPERATION BETWEEN CHINA AND IRAN AND BETWEEN CHINA AND RUSSIA.

(a) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Select Committee on Intelligence, the Committee on Armed Services, the Committee on Commerce, Science, and Transportation, the Committee on Energy and Natural Resources, the Committee on Banking, Housing, and Urban Affairs, the Committee on Finance, and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs, the Permanent Select Committee on Intelligence, the Committee on Armed Services, the Committee on Energy and Commerce, the Committee on Financial Services, the Committee on Ways and Means, and the Committee on Appropriations of the House of Representatives.

(b) **REPORT AND BRIEFING REQUIRED.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Director of National Intelligence shall, in coordination with the Secretary of State, the Secretary of Defense, the Secretary of Commerce, the Secretary of Energy, the Secretary of the Treasury, and such other heads of Federal agencies as the Director considers appropriate, submit to the appropriate committees of Congress a report and brief such committees on cooperation between—

(A) the People’s Republic of China and the Islamic Republic of Iran; and

(B) the People’s Republic of China and the Russian Federation.

(2) **CONTENTS.**—The report and briefing under paragraph (1) shall include the following elements:

(A) An identification of major areas of diplomatic energy, infrastructure, banking, financial, economic, military, and space cooperation—

(i) between the People’s Republic of China and the Islamic Republic of Iran; and

(ii) between the People’s Republic of China and the Russian Federation.

(B) An assessment of the effect of the COVID-19 pandemic on such cooperation.

(C) An assessment of the effect that United States compliance with the Joint Comprehensive Plan of Action (JCPOA) starting in January 14, 2016, and United States withdrawal from the JCPOA on May 8, 2018, had on the cooperation described in subparagraph (A)(i).

(D) An assessment of the effect on the cooperation described in subparagraph (A)(i) that would be had by the United States reentering compliance with the JCPOA or a successor agreement and the effect of the United States not reentering compliance with the JCPOA or reaching a successor agreement.

(3) **FORM.**—The report submitted under paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(c) **SENSE OF CONGRESS ON SHARING WITH ALLIES AND PARTNERS.**—It is the sense of Congress that the Director of National Intelligence and the heads of other appropriate Federal departments and agencies should share with important allies and partners of the United States, as appropriate, the findings of the report required under subsection (b).

PART 3—SOUTH AND CENTRAL ASIA

SEC. 30261. SENSE OF CONGRESS ON SOUTH AND CENTRAL ASIA.

It is the sense of Congress that—

(1) the United States should continue to stand with friends and partners, while also working to establish new partners in South and Central Asia as they contend with efforts by the Government of the People’s Republic of China to interfere in their respective political systems and encroach upon their sovereign territory; and

(2) the United States should reaffirm its commitment to the Comprehensive Global Strategic Partnership with India and further deepen bilateral defense consultations and collaboration with India commensurate with its status as a major defense partner.

SEC. 30262. STRATEGY TO ENHANCE COOPERATION WITH SOUTH AND CENTRAL ASIA.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees, the Committee on Armed Services of the Senate and, the Committee on Armed Services of the House of Representatives a strategy for how the United States will engage with the countries of South and Central Asia, including through the C5+1 mechanism, with respect to the People’s Republic of China.

(b) **ELEMENTS.**—The strategy required under subsection (a) shall include the following elements:

(1) A detailed description of the security and economic challenges that the People’s Republic of China (PRC) poses to the countries of South and Central Asia, including border disputes with South and Central Asian countries that border the People’s Republic of China, and PRC investments in land and sea ports, transportation infrastructure, and energy projects across the region.

(2) A detailed description of United States efforts to provide alternatives to PRC investment in infrastructure and other sectors in South and Central Asia.

(3) A detailed description of bilateral and regional efforts to work with countries in South Asia on strategies to build resilience against PRC efforts to interfere in their political systems and economies.

(4) A detailed description of the challenges posed by PRC investment in the Afghan mineral sector.

(5) A detailed description of United States diplomatic efforts with the Government of Pakistan with respect to matters relevant to the People’s Republic of China, including investments by the People’s Republic of China in Pakistan through the Belt and Road Initiative.

(6) In close consultation with the Government of India, identification of areas with respect to which the United States Government can provide diplomatic and other support as appropriate for India’s efforts to address economic and security challenges posed by the People’s Republic of China in the region.

(7) A description of the coordination mechanisms among key regional and functional bureaus within the Department of State and Department of Defense tasked with engaging with the countries of South and Central Asia on issues relating to the People’s Republic of China.

(8) A detailed description of United States diplomatic efforts with Central Asian countries, Turkey, and any other countries with significant populations of Uyghurs and other ethnic minorities fleeing persecution in the People’s

Republic of China to press those countries to refrain from deporting ethnic minorities to the People’s Republic of China, protect ethnic minorities from intimidation by Chinese Government authorities, and protect the right to the freedoms of assembly and expression.

(c) **FORM.**—The strategy required under section (a) shall be submitted in an unclassified form that can be made available to the public, but may include a classified annex as necessary.

(d) **CONSULTATION.**—Not later than 120 days after the date of the enactment of this Act and not less often than annually thereafter for five years, the Secretary of State shall consult with the appropriate congressional committees, the Committee on Armed Services of the Senate, and the Committee on Armed Services of the House of Representatives regarding the development and implementation of the strategy required under subsection (a).

SEC. 30263. INDIAN OCEAN REGION STRATEGIC REVIEW.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Indian Ocean region is a vitally important part of the Indo-Pacific where the United States has political, economic, and security interests.

(2) The United States has an interest in working with partners in the Indo-Pacific, including India, Japan, and Australia, to address regional governance, economic connectivity, and security challenges including threats to freedom of navigation.

(b) **STATEMENT OF POLICY.**—As a part of the United States engagement in the Indo-Pacific, it shall be the policy of the United States to strengthen engagement with the countries in the Indian Ocean region, including with governments, civil society, and private sectors in such countries to—

(1) promote United States political engagement with such region, including through active participation in regional organizations, and strengthened diplomatic relations with United States partners in such region;

(2) enhance United States economic connectivity and commercial exchange with such region;

(3) defend freedom of navigation in such region from security challenges, including related to piracy;

(4) support the ability of governments and organizations in such region to respond to natural disasters;

(5) support and facilitate the role of regional allies and partners as net providers of security to such region and as partners to the United States in addressing security challenges in such region, including through assistance to such allies and partners to build capacity in maritime security and maritime domain awareness;

(6) continue to build the United States-India relationship in order to regularize security cooperation through the negotiation of agreements concerning access, communication, and navigation, including through foundational agreements; and

(7) promote cooperation with United States allies in the Indo-Pacific, including Japan and Australia, and major defense partners, including India, and NATO allies, including the United Kingdom and France, to support a rules-based order in such region.

(c) **STRATEGY.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Secretary of Defense and the Administrator of the United States Agency for International Development (USAID), shall submit to the appropriate committees of Congress a multi-year strategy for United States engagement to support United States interests in the Indian Ocean region. Such strategy shall—

(A) define United States political, economic, and security interests in the Indian Ocean region;

(B) outline challenges to the interests of the United States in such region;

(C) outline efforts to improve cooperation between the United States and members of the Quad, including India, Japan, and Australia, through coordination in diplomacy and development priorities, joint military exercises and operations, and other activities that promote United States political, economic, and security interests;

(D) outline efforts to support economic connectivity in such region, including through the United States-India-Japan Trilateral Infrastructure Working Group, the Asia-Africa Growth Corridor, and other efforts to expand and enhance connectivity across the Indo-Pacific, including with the countries of Southeast Asia, that maintain high standards of investment and support for civil society and people-to-people connectivity;

(E) describe how the United States can engage with regional intergovernmental organizations and entities, including the Indian Ocean Rim Association, to promote United States political, economic, and security interests in such region;

(F) review the United States diplomatic posture in such region, including an assessment of United States diplomatic engagement in countries without a permanent United States embassy or diplomatic mission, and an assessment of ways to improve the cooperation with the Maldives, the Seychelles, and Comoros;

(G) review United States diplomatic agreements with countries in such region that facilitate United States military operations in such region, including bilateral and multilateral agreements, and describe efforts to expand United States cooperation with such countries through the negotiation of additional agreements; and

(H) include a security assistance strategy for such region that outlines priorities, objectives, and actions for United States security assistance efforts to governments of countries in such region to promote United States political, economic, and security interests in such region.

(2) **INCLUSION.**—The strategy required under paragraph (1) may be submitted as a part of any other strategy relating to the Indo-Pacific.

(3) **REPORT ON IMPLEMENTATION.**—Not later than one year after the submission of the strategy required under paragraph (1) and one year thereafter, the Secretary of State shall submit to the appropriate congressional committees a report on progress made toward implementing such strategy.

(d) **UNITED STATES-CHINA ECONOMIC AND SECURITY REVIEW COMMISSION.**—

(1) **IN GENERAL.**—Subparagraph (E) of section 1238(c)(2) of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (22 U.S.C. 7002(c)(2)) is amended—

(A) by inserting “, including in the Indian Ocean region” after “deployments of the People’s Republic of China military”; and

(B) by adding at the end the following new sentence: “In this subparagraph, the term ‘Indian Ocean region’ means the Indian Ocean, including the Arabian Sea and the Bay of Bengal, and the littoral areas surrounding the Indian Ocean.”.

(2) **EFFECTIVE DATE.**—The amendments made by paragraph (1) shall take effect on the date of the enactment of this Act and apply beginning with the first report required under section 1238 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as amended by such paragraph) that is submitted after such date.

(e) **DEFINITIONS.**—In this section:

(1) **APPROPRIATE COMMITTEES OF CONGRESS.**—The term “appropriate committees of Congress” means the Committee on Foreign Affairs and the Committee on Armed Services of the House of Representatives and the Committee on Foreign Relations and the Committee on Armed Services of the Senate.

(2) **INDIAN OCEAN REGION.**—The term “Indian Ocean region” means the Indian Ocean, includ-

ing the Arabian Sea and the Bay of Bengal, and the littoral areas surrounding the Indian Ocean.

PART 4—AFRICA

SEC. 30271. ASSESSMENT OF POLITICAL, ECONOMIC, AND SECURITY ACTIVITY OF THE PEOPLE’S REPUBLIC OF CHINA IN AFRICA.

(a) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Select Committee on Intelligence of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Permanent Select Committee on Intelligence of the House of Representatives.

(b) **INTELLIGENCE ASSESSMENT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall, in coordination with the Director of National Intelligence, submit to the appropriate committees of Congress a report that assesses the nature and impact of the People’s Republic of China’s political, economic, socio-cultural, and security sector activity in Africa, and its impact on United States strategic interests, including information relating to—

(1) the amount and impact of direct investment, loans, development financing, oil-for-loans deals, and other preferential trading arrangements;

(2) the involvement of People’s Republic of China (PRC) state-owned enterprises in Africa;

(3) the amount of African debt held by the PRC;

(4) the involvement of PRC private security, technology and media companies in Africa;

(5) the scale and impact of PRC arms sales to African countries;

(6) the scope of PRC investment in and control of African energy resources and minerals critical for emerging and foundational technologies;

(7) an analysis on the linkages between PRC’s aid and assistance to African countries and African countries supporting PRC geopolitical goals in international fora;

(8) the methods, tools, and tactics used to facilitate illegal and corrupt activity, including trade in counterfeit and illicit goods, to include smuggled extractive resources and wildlife products, between Africa and the PRC;

(9) the methods and techniques that the PRC uses to exert undue influence on African governments and facilitate corrupt activity in Africa, including through the CCP’s party-to-party training program, and to influence African multilateral organizations; and

(10) an analysis of the soft power, cultural and educational activities undertaken by the PRC and CCP to seek to expand its influence in Africa.

SEC. 30272. INCREASING THE COMPETITIVENESS OF THE UNITED STATES IN AFRICA.

(a) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Appropriations, and the Committee on Finance of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Appropriations, and the Committee on Ways and Means of the House of Representatives.

(b) **STRATEGY REQUIREMENT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall, in consultation with the Secretary of the Treasury, the Secretary of Commerce, the Attorney General, the United States Trade Representative, the Administrator of the United States Agency for International Development, and the leadership of the United States International Development Finance Corporation, submit to the appropriate committees of Congress a report setting forth a multi-year strategy for increasing United States

economic competitiveness and promoting improvements in the investment climate in Africa, including through support for—

(1) democratic institutions and the rule of law, including property rights; and

(2) improved transparency, anti-corruption efforts, and good governance.

(c) **ELEMENTS.**—The strategy submitted pursuant to subsection (a) shall include—

(1) a description and assessment of barriers to United States investment in Africa for United States businesses, including a clear identification of the different barriers facing small-sized and medium-sized businesses, and an assessment of whether existing programs effectively address such barriers;

(2) a description and assessment of barriers to African diaspora investment in Africa, and recommendations to overcome such barriers;

(3) an identification of the economic sectors in the United States that have a comparative advantage in African markets;

(4) an assessment of additional foreign assistance needs, including democracy and governance and rule of law support, to promote a conducive operating environment in priority countries;

(5) establishing a dialogue on security, development, and environmental issues of mutual interest; and

(6) a plan to regularly host a United States-Africa Leaders Summit to promote strategic engagement and security in Africa.

(d) **ASSESSMENT OF UNITED STATES GOVERNMENT HUMAN RESOURCES CAPACITY.**—The Comptroller General of the United States shall—

(1) conduct a review of the number of Foreign Commercial Service Officers and Department of State Economic Officers at United States embassies in sub-Saharan Africa; and

(2) develop and submit to the appropriate congressional committees an assessment of whether human resource capacity in such embassies is adequate to meet the goals of the various trade and economic programs and initiatives in Africa, including the African Growth and Opportunity Act and Prosper Africa.

SEC. 30273. DIGITAL SECURITY COOPERATION WITH RESPECT TO AFRICA.

(a) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, the Select Committee on Intelligence of the Senate, and the Committee on Homeland Security and Governmental Affairs; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, the Permanent Select Committee on Intelligence, and the Committee on Oversight and Reform of the House of Representatives.

(b) **INTERAGENCY WORKING GROUP TO COUNTER PRC CYBER AGGRESSION IN AFRICA.**—

(1) **IN GENERAL.**—The President shall establish an interagency Working Group, which shall include the National Cyber Director and representatives of the Department of State, the Department of Defense, the Office of the Director of National Intelligence, and such other agencies of the United States Government as the President considers appropriate, on means to counter PRC cyber aggression with respect to Africa.

(2) **DUTIES.**—The Working Group established pursuant to this subsection shall develop and submit to the appropriate congressional committees a set of recommendations, such as for—

(A) bolstering the capacity of governments in Africa to ensure the integrity of their data networks and critical infrastructure, where applicable;

(B) providing alternatives to Huawei;

(C) an action plan for United States embassies in Africa to provide assistance to host-country governments with respect to protecting their vital digital networks and infrastructure from PRC espionage, including an assessment of

staffing resources needed to implement the action plan in embassies in Africa;

(D) utilizing interagency resources to counter PRC disinformation and propaganda in traditional and digital media targeted to African audiences; and

(E) helping civil society in Africa counter digital authoritarianism and identifying tools and assistance to enhance and promote digital democracy.

SEC. 30274. SUPPORT FOR YOUNG AFRICAN LEADERS INITIATIVE.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Young African Leaders Initiative, launched in 2010, is a signature effort to invest in the next generation of African leaders;

(2) Africa is a continent of strategic importance and it is vital for the United States to support strong and enduring partnerships with the next generation of African leaders; and

(3) the United States Government should prioritize investments to build the capacity of emerging young African leaders in sub-Saharan Africa, including through efforts to enhance leadership skills, encourage entrepreneurship, strengthen public administration and the role of civil society, and connect young African leaders continentally and globally across the private, civic, and public sectors.

(b) YOUNG AFRICAN LEADERS INITIATIVE PROGRAM.—

(1) IN GENERAL.—There is established in the Department of State the Young African Leaders Initiative (“YALI”) program.

(2) PURPOSE.—The YALI program shall seek to build the capacity of young African leaders in sub-Saharan Africa in the areas of business, civic engagement, or public administration, including through efforts to—

(A) support young African leaders by offering professional development, training, and networking opportunities, particularly in the areas of leadership, innovation, civic engagement, elections, human rights, entrepreneurship, good governance, and public administration; and

(B) provide increased economic and technical assistance to young African leaders to promote economic growth and strengthen ties between United States and African businesses.

(3) FELLOWSHIPS.—The YALI program shall award fellowships under the Mandela Washington Fellowship for Young African Leaders program to young African leaders ages 18 to 35 who have demonstrated strong capabilities in entrepreneurship, innovation, public service, and leadership, and who have had a positive impact in their communities, organizations, or institutions.

(4) REGIONAL LEADERSHIP CENTERS.—The YALI program shall seek to establish regional leadership centers in sub-Saharan Africa to offer training to young African leaders ages 18 to 35 who have demonstrated strong capabilities in entrepreneurship, innovation, public service and leadership, and who have had a positive impact in their communities, organizations, or institutions.

(5) ACTIVITIES.—

(A) UNITED STATES-BASED ACTIVITIES.—The Secretary of State, in coordination with the Administrator for the United States Agency for International Development and the heads of other relevant Federal departments and agencies, shall oversee all United States-based activities carried out under the YALI program, including the following:

(i) The participation of Mandela Washington fellows in a six-week Leadership Institute at a United States university or college in business, civic engagement, or public management, including academic sessions, site visits, professional networking opportunities, leadership training, community service, and organized cultural activities.

(ii) The participation by Mandela Washington fellows in an annual Mandela Washington Fellowship Summit, to provide such Fellows the op-

portunity to meet with United States leaders from the private, public, and non-profit sectors.

(B) AFRICA-BASED ACTIVITIES.—The Secretary of State, in coordination with the Administrator for the United States Agency for International Development and the heads of other relevant Federal departments and agencies, should continue to support YALI programs in sub-Saharan Africa, including the following:

(i) Access to continued leadership training and other professional development opportunities for Mandela Washington Fellowship for Young African Leaders alumni upon their return to their home countries, including online courses, technical assistance, and access to funding.

(ii) Training for young African leaders at regional leadership centers established in accordance with paragraph (4), and through online and in-person courses offered by such centers.

(iii) Opportunities for networking and engagement with—

(I) other alumni of the Mandela Washington Fellowship for Young African Leaders;

(II) alumni of programs at regional leadership centers established in accordance with paragraph (4); and

(III) United States and like-minded diplomatic missions, business leaders, and others as appropriate.

(C) IMPLEMENTATION.—To carry out this paragraph, the Secretary of State, in coordination with the Administrator of the United States Agency for International Development and the heads of other relevant Federal departments and agencies shall seek to partner with the private sector to pursue public-private partnerships, leverage private sector expertise, expand networking opportunities, and identify funding opportunities as well as fellowship and employment opportunities for participants in the YALI program.

(6) IMPLEMENTATION PLAN.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Administrator of the United States Agency for International Development and the heads of other relevant Federal departments and agencies, shall submit to the appropriate congressional committees a plan for implementing the YALI program, including the following:

(A) A description of clearly defined program goals, targets, and planned outcomes for each year and for the duration of implementation of the program.

(B) A strategy to monitor and evaluate the program and progress made toward achieving such goals, targets, and planned outcomes.

(C) A strategy to ensure the program is promoting United States foreign policy goals in Africa, including ensuring that the program is clearly branded and paired with robust public diplomacy efforts.

(7) REPORT.—Not later than 1 year after the date of the enactment of this Act, and annually thereafter for 5 years, the Secretary of State, in coordination with the Administrator of the United States Agency for International Development, shall submit to the appropriate congressional committees and publish in a publicly accessible, internet-based form, a report on the following:

(A) The progress made toward achieving the goals, targets, and planned outcomes described in paragraph (6)(A), including an overview of the program implemented in the previous year and an estimated number of beneficiaries.

(B) An assessment of how the YALI program is contributing to and promoting United States-Africa relations, particularly in areas of increased private sector investment, trade promotion, support to civil society, improved public administration, and fostering entrepreneurship and youth empowerment.

(C) Recommendations for improvements or changes to the program and implementation plan, if any, that would improve their effectiveness during subsequent years of implementation of the program.

(8) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives; and

(B) the Committee on Foreign Relations and the Committee on Appropriations of the Senate.

(9) SUNSET.—The requirements of this section shall terminate on the date that is 5 years after the date of the enactment of this Act.

SEC. 30275. AFRICA BROADCASTING NETWORKS.

Not later than 180 days after the date of the enactment of this Act, the Chief Executive Officer of the United States Agency for Global Media shall submit to the appropriate congressional committees a report on the resources and timeline needed to establish within the Agency an organization the mission of which shall be to promote democratic values and institutions in Africa by providing objective, accurate, and relevant news and information to the people of Africa and counter disinformation from malign actors, especially in countries in which a free press is banned by the government or not fully established, about the region, the world, and the United States through uncensored news, responsible discussion, and open debate.

SEC. 30276. AFRICA ENERGY SECURITY AND DIVERSIFICATION.

(a) STATEMENT OF POLICY.—It is the policy of the United States to support increased access to energy in Africa and reduce Africa's energy dependence on countries that use energy reliance for undue political influence such as the Russian Federation and the People's Republic of China.

(b) FINDINGS.—Congress finds the following:

(1) Lack of access to energy remains a significant barrier to economic advancement and opportunity in Africa. As of 2018, an estimated 789,000,000 people, the vast majority of them in sub-Saharan Africa, lacked access to any modern electricity. Even in the region's most advanced economies, average annual per capita electricity consumption is often under 200 kilowatt-hours, less than what is needed to power a typical refrigerator. Only a small fraction of the 12,000,000 young Africans who enter the job market each year find employment; and the cost and reliability of electricity remain top constraints to job creation and economic competitiveness.

(2) The United States' global strategic competitors have stepped in to address this disparity and finance energy sector development across Africa. China is the single largest trading partner for African countries in aggregate, and the largest bilateral lender for public sector loans across Africa. Approximately 65 percent of Chinese lending to Africa goes to infrastructure, and between 2013–2020, the energy sector consistently accounted for the largest share of all investment under China's Belt and Road Initiative.

(3) Reliable, affordable, and sustainable power is the foundation for all modern economies and necessary for increasing growth and employment.

(4) Increasing energy supply in low- and lower middle-income countries is necessary in the next decades in order to meet human, social, security, and economic needs.

(5) Addressing energy poverty, powering inclusive economies, and making energy systems resilient in low- and lower middle-income countries will require diversified power systems and a mix of technologies that align with local conditions, resources, and needs.

(c) SENSE OF CONGRESS.—It is the sense of Congress that countries in Africa continue to be important partners to the United States and the DFC should continue to make investments in sub-Saharan Africa to facilitate technologies that contribute to energy security and reliable, affordable, and sustainable power in low and lower middle-income countries.

(d) AMENDMENT.—Section 3 of the Electrify Africa Act of 2015 (Public Law 114-121; 22 U.S.C. 2293 note) is amended—

(1) in paragraph (8), by striking “and” at the end;

(2) in paragraph (9), by striking the period and inserting a semicolon; and

(3) by inserting after paragraph (9) the following:

“(10) advance United States foreign policy and development goals by assisting African countries to reduce their dependence on energy resources from countries that use energy dependence for undue political influence, such as the Russian Federation or the People’s Republic of China, which have used energy and financial resources to influence other countries;

“(11) promote the energy security of allies and partners of the United States by encouraging the development of accessible, transparent, and competitive energy markets that provide diversified sources and reliable, affordable, and sustainable power;

“(12) encourage United States public and private sector investment in African energy infrastructure projects to bridge the gap between energy security requirements and commercial demand in a way that is consistent with the region’s capacity; and

“(13) help facilitate the export of United States energy resources, technology, and expertise to global markets in a way that benefits the energy security of allies and partners of the United States, including in Africa.”.

PART 5—MIDDLE EAST AND NORTH AFRICA

SEC. 30281. STRATEGY TO COUNTER CHINESE INFLUENCE IN, AND ACCESS TO, THE MIDDLE EAST AND NORTH AFRICA.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the People’s Republic of China is upgrading its influence in the Middle East and North Africa through its energy and infrastructure investments, technology transfer, and arms sales;

(2) the People’s Republic of China seeks to establish military or dual use facilities in geographically strategic locations in the Middle East and North Africa to further its Belt and Road Initiative at the expense of United States national security interests; and

(3) the export of certain communications infrastructure from the People’s Republic of China degrades the security of partner networks, exposes intellectual property to theft, threatens the ability of the United States to conduct security cooperation with compromised regional partners, and furthers China’s authoritarian surveillance model.

(b) STRATEGY REQUIRED.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Secretary of Defense, the Administrator of the United States Agency for International Development, and the heads of other appropriate Federal agencies, shall jointly develop and submit to the appropriate congressional committees and the Committees on Armed Services of the Senate and the House of Representatives a strategy for countering and limiting the People’s Republic of China’s influence in, and access to, the Middle East and North Africa.

(2) ELEMENTS.—The strategy required under paragraph (1) shall include—

(A) an assessment of the People’s Republic of China’s intent with regards to increased cooperation with Middle East and North African countries and how such cooperation fits into its broader global strategic objectives;

(B) an assessment of how governments across the region are responding to the People’s Republic of China’s efforts to increase its military presence in their countries;

(C) efforts to improve regional cooperation through foreign military sales, financing, and efforts to build partner capacity and increase interoperability with the United States;

(D) an assessment of the People’s Republic of China’s joint research and development with the Middle East and North Africa, impacts on the United States’ national security interests, and recommended steps to mitigate the People’s Republic of China’s influence in such area;

(E) an assessment of arms sales and weapons technology transfers from the People’s Republic of China to the Middle East and North Africa, impacts on United States’ national security interests, and recommended steps to mitigate the People’s Republic of China’s influence in such area;

(F) an assessment of the People’s Republic of China’s military sales to the region, including lethal and non-lethal unmanned aerial systems;

(G) an assessment of People’s Republic of China military basing and dual-use facility initiatives across the Middle East and North Africa, impacts on United States’ national security interests, and recommended steps to mitigate the People’s Republic of China’s influence in such area;

(H) efforts to improve regional security cooperation with United States allies and partners with a focus on—

(i) maritime security in the Arabian Gulf, the Red Sea, and the Eastern Mediterranean;

(ii) integrated air and missile defense;

(iii) cyber security;

(iv) border security; and

(v) critical infrastructure security, to include energy security;

(I) increased support for government-to-government engagement on critical infrastructure development projects, including ports and water infrastructure;

(J) efforts to encourage United States private sector and public-private partnerships in healthcare technology and foreign direct investment in non-energy sectors;

(K) efforts to expand youth engagement and professional education exchanges with key partner countries;

(L) specific steps to counter increased investment from the People’s Republic of China in telecommunications infrastructure and diplomatic efforts to stress the political, economic, and social benefits of a free and open internet;

(M) efforts to promote United States private sector engagement in and public-private partnerships on renewable energy development;

(N) the expansion of public-private partnership efforts on water, desalination, and irrigation projects; and

(O) efforts to warn United States partners in the Middle East and North Africa of the risks associated with the People’s Republic of China’s telecommunications infrastructure and provide alternative “clean paths” to the People’s Republic of China’s technology.

(c) FORM.—The strategy required under section (b) shall be submitted in an unclassified form that can be made available to the public, but may include a classified annex as necessary.

SEC. 30282. SENSE OF CONGRESS ON MIDDLE EAST AND NORTH AFRICA ENGAGEMENT.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States and the international community have long-term interests in the stability, security, and prosperity of the people of the Middle East and North Africa.

(2) In addition to and apart from military and security efforts, the United States should harness a whole of government approach, including bilateral and multilateral statecraft, economic lines of effort, and public diplomacy to compete with and counter PRC influence.

(3) A clearly articulated positive narrative of United States engagement, transparent governance structures, and active civil society engagement help counter predatory foreign investment and influence efforts.

(b) STATEMENT OF POLICY.—It is the policy of the United States that the United States and the international community should continue diplo-

matic and economic efforts throughout the Middle East and North Africa that support reform efforts to—

(1) promote greater economic opportunity;

(2) foster private sector development;

(3) strengthen civil society;

(4) promote transparent and democratic governance and the rule of law; and

(5) promote greater regional integration and intraregional cooperation, including with Israel.

SEC. 30283. SENSE OF CONGRESS ON PEOPLE’S REPUBLIC OF CHINA-IRAN RELATIONSHIP.

It is the sense of Congress that the People’s Republic of China’s economic relationship with Iran, including oil purchases in violation of United States sanctions, undermines United States efforts to compel Iran to abandon its malign activities.

PART 6—ARCTIC REGION

SEC. 30285. ARCTIC DIPLOMACY.

(a) SENSE OF CONGRESS ON ARCTIC SECURITY.—It is the sense of Congress that—

(1) the rapidly changing Arctic environment—

(A) creates new national and regional security challenges due to increased military activity in the Arctic;

(B) heightens the risk of the Arctic emerging as a major theater of conflict in ongoing strategic competition;

(C) threatens maritime safety as Arctic littoral countries have inadequate capacity to patrol the increased vessel traffic in this remote region, which is a result of diminished annual levels of sea ice;

(D) impacts public safety due to increased human activity in the Arctic region where search and rescue capacity remains very limited; and

(E) threatens the health of the Arctic’s fragile and pristine environment and the unique and highly sensitive species found in the Arctic’s marine and terrestrial ecosystems; and

(2) the United States should reduce the consequences described in paragraph (1) by—

(A) evaluating the wide variety and dynamic set of security and safety risks developing in the Arctic;

(B) developing policies and making preparations to mitigate and respond to threats and risks in the Arctic, including by continuing to work with allies and partners in the Arctic region to deter potential aggressive activities and build Arctic competencies;

(C) adequately funding the National Earth System Prediction Capability to substantively improve weather, ocean, and ice predictions on the time scales necessary to ensure regional security and trans-Arctic shipping;

(D) investing in resources, including a significantly expanded icebreaker fleet, to ensure that the United States has adequate capacity to prevent and respond to security threats in the Arctic region; and

(E) pursuing diplomatic engagements with all states in the Arctic region to reach an agreement for—

(i) maintaining peace and stability in the Arctic region;

(ii) fostering cooperation on stewardship and safety initiatives in the Arctic region;

(iii) ensuring safe and efficient management of commercial maritime traffic in the Arctic;

(iv) promoting responsible natural resource management and economic development; and

(v) countering China’s Polar Silk Road initiative;

(vi) examining the possibility of reconvening the Arctic Chiefs of Defense Forum; and

(vii) reducing black carbon and methane emissions in the Arctic Region, including by working with observers of the Arctic Council, including India and the People’s Republic of China, to adopt mitigation plans consistent with the findings and recommendations of the Arctic Council’s Framework for Action on Black Carbon and Methane.

(b) **STATEMENT OF POLICY.**—It is the policy of the United States—

(1) to recognize only the states specified in subsection (c)(1) as Arctic states, and to reject all other claims to such status; and

(2) that the militarization of the Arctic poses a serious threat to Arctic peace and stability, and the interests of United States allies and partners.

(c) **DEFINITIONS.**—In this section:

(1) **ARCTIC STATES.**—The term “Arctic states” means Russia, Canada, the United States, Norway, Denmark (including Greenland), Finland, Sweden, and Iceland.

(2) **ARCTIC REGION.**—The term “Arctic Region” means the geographic region north of the 66.56083 parallel latitude north of the equator.

(d) **DESIGNATION OF AMBASSADOR AT LARGE FOR ARCTIC AFFAIRS.**—There is established within the Department of State an Ambassador at Large for Arctic Affairs (referred to in this section as the “Ambassador”), appointed in accordance with paragraph (1).

(1) **APPOINTMENT.**—The Ambassador shall be appointed by the President, by and with the advice and consent of the Senate.

(2) **DUTIES.**—

(A) **DIPLOMATIC REPRESENTATION.**—Subject to the direction of the President and the Secretary of State, the Ambassador is authorized to represent the United States in matters and cases relevant to the Arctic Region in—

(i) contacts with foreign governments, intergovernmental organizations, and specialized agencies of the United Nations, the Arctic Council, and other international organizations of which the United States is a member; and

(ii) multilateral conferences and meetings relating to Arctic affairs.

(B) **CHAIR OF THE ARCTIC COUNCIL.**—The Ambassador shall serve as the Chair of the Arctic Council when the United States holds the Chairmanship of the Arctic Council.

(3) **POLICIES AND PROCEDURES.**—The Ambassador shall coordinate United States policies related to the Arctic Region, including—

(A) meeting national security, economic, and commercial needs pertaining to Arctic affairs;

(B) protecting the Arctic environment and conserving its biological resources;

(C) promoting environmentally sustainable natural resource management and economic development;

(D) strengthening institutions for cooperation among the Arctic states;

(E) involving Arctic indigenous people in decisions that affect them;

(F) enhancing scientific monitoring and research on local, regional, and global environmental issues;

(G) integrating scientific data on the current and projected effects of climate change in the Arctic Region and ensure that such data is applied to the development of security strategies for the Arctic Region;

(H) making available the methods and approaches on the integration of climate science to other regional security planning programs in the Department of State to better ensure that broader decision-making processes may more adequately account for the effects of climate change; and

(I) reducing black carbon and methane emissions in the Arctic Region.

(e) **ARCTIC REGION SECURITY POLICY.**—The Ambassador shall develop a policy, to be known as the “Arctic Region Security Policy”, to assess, develop, budget for, and implement plans, policies, and actions—

(1) to bolster the diplomatic presence of the United States in Arctic states, including through enhancements to diplomatic missions and facilities, participation in regional and bilateral dialogues related to Arctic security, and coordination of United States initiatives and assistance programs across agencies to protect the national security of the United States and its allies and partners;

(2) to enhance the resilience capacities of Arctic states to the effects of environmental change and increased civilian and military activity by Arctic states and other states that may result from increased accessibility of the Arctic Region;

(3) to assess specific added risks to the Arctic Region and Arctic states that—

(A) are vulnerable to the changing Arctic environment; and

(B) are strategically significant to the United States;

(4) to coordinate the integration of environmental change and national security risk and vulnerability assessments into the decision making process on foreign assistance awards with Greenland;

(5) to advance principles of good governance by encouraging and cooperating with Arctic states on collaborative approaches—

(A) to responsibly manage natural resources in the Arctic Region;

(B) to share the burden of ensuring maritime safety in the Arctic Region;

(C) to prevent the escalation of security tensions by mitigating against the militarization of the Arctic Region;

(D) to develop mutually agreed upon multilateral policies among Arctic states on the management of maritime transit routes through the Arctic Region and work cooperatively on the transit policies for access to and transit in the Arctic Region by non-Arctic states; and

(E) to facilitate the development of Arctic Region Security Action Plans to ensure stability and public safety in disaster situations in a humane and responsible fashion;

(6) to evaluate the vulnerability, security, survivability, and resiliency of United States interests and non-defense assets in the Arctic Region; and

(7) to reduce black carbon and methane emissions in the Arctic.

SEC. 30286. STATEMENT OF POLICY REGARDING OBSERVER STATUS FOR TAIWAN ON THE ARCTIC COUNCIL.

It is the policy of the United States to urge that Taiwan be given observer status on the Arctic Council.

PART 7—OCEANIA

SEC. 30291. STATEMENT OF POLICY ON UNITED STATES ENGAGEMENT IN OCEANIA.

It shall be the policy of the United States—

(1) to elevate the countries of Oceania as a strategic national security and economic priority of the United States Government;

(2) to promote civil society, the rule of law, and democratic governance across Oceania as part of a free and open Indo-Pacific region;

(3) to broaden and deepen relationships with the Freely Associated States of the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia through robust defense, diplomatic, economic, and development exchanges that promote the goals of individual countries and the entire region;

(4) to work with the Governments of Australia, New Zealand, and Japan to advance shared alliance goals of the Oceania region concerning health, environmental protection, disaster resilience and preparedness, illegal, unreported and unregulated fishing, maritime security, and economic development;

(5) to participate, wherever possible and appropriate, in existing regional organizations and international structures to promote the national security and economic goals of the United States and countries of Oceania;

(6) to invest in a whole-of-government United States strategy that will enhance youth engagement and advance long-term growth and development throughout the region, especially as such relates to protecting marine resources that are critical to livelihoods and strengthening the resilience of the countries of Oceania against current and future threats resulting from extreme weather and severe changes in the environment;

(7) to deter and combat acts of malign foreign influence and corruption aimed at undermining the political, environmental, social, and economic stability of the people and governments of the countries of Oceania;

(8) to improve the local capacity of the countries of Oceania to address public health challenges and improve global health security;

(9) to help the countries of Oceania access market-based private sector investments that adhere to best practices regarding transparency, debt sustainability, and environmental and social safeguards as an alternative to state-directed investments by authoritarian governments;

(10) to ensure the people and communities of Oceania remain safe from the risks of old and degrading munitions hazards and other debris that threaten health and livelihoods;

(11) to cooperate with Taiwan by offering United States support for maintaining Taiwan’s diplomatic partners in Oceania; and

(12) to work cooperatively with all governments in Oceania to promote the dignified return of the remains of members of the United States Armed Forces who are missing in action from previous conflicts in the Indo-Pacific region.

SEC. 30292. OCEANIA STRATEGIC ROADMAP.

(a) **OCEANIA STRATEGIC ROADMAP.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a strategic roadmap for strengthening United States engagement with the countries of Oceania, including an analysis of opportunities to cooperate with Australia, New Zealand, and Japan, to address shared concerns and promote shared goals in pursuit of security and resiliency in the countries of Oceania.

(b) **ELEMENTS.**—The strategic roadmap required by subsection (a) shall include the following:

(1) A description of United States regional goals and concerns with respect to Oceania and increasing engagement with the countries of Oceania.

(2) An assessment, based on paragraph (1), of United States regional goals and concerns that are shared by Australia, New Zealand, and Japan, including a review of issues related to anti-corruption efforts, maritime and other security issues, environmental protection, fisheries management, economic growth and development, and disaster resilience and preparedness.

(3) A review of ongoing programs and initiatives by the Governments of the United States, Australia, New Zealand, and Japan in pursuit of shared regional goals and concerns.

(4) A review of ongoing programs and initiatives by regional organizations and other related intergovernmental structures aimed at addressing shared regional goals and concerns.

(5) A plan for aligning United States programs and resources in pursuit of shared regional goals and concerns, as appropriate.

(6) Recommendations for additional United States authorities, personnel, programs, or resources necessary to execute the strategic roadmap.

(7) Any other elements the Secretary of State considers appropriate.

SEC. 30293. OCEANIA SECURITY DIALOGUE.

(a) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Secretary of State shall brief the appropriate committees of Congress on the feasibility and advisability of establishing a United States-based public-private sponsored security dialogue (to be known as the “Oceania Security Dialogue”) among the countries of Oceania for the purposes of jointly exploring and discussing issues affecting the economic, diplomatic, and national security of the Indo-Pacific countries of Oceania.

(b) **REPORT REQUIRED.**—The briefing required by subsection (a) shall, at a minimum, include the following:

(1) A review of the ability of the Department of State to participate in a public-private sponsored security dialogue.

(2) An assessment of the potential locations for conducting an Oceania Security Dialogue in the jurisdiction of the United States.

(3) Consideration of dates for conducting an Oceania Security Dialogue that would maximize participation of representatives from the Indo-Pacific countries of Oceania.

(4) A review of the funding modalities available to the Department of State to help finance an Oceania Security Dialogue, including grant-making authorities available to the Department of State.

(5) An assessment of any administrative, statutory, or other legal limitations that would prevent the establishment of an Oceania Security Dialogue with participation and support of the Department of State.

(6) An analysis of how an Oceania Security Dialogue could help to advance the Boe Declaration on Regional Security, including its emphasis on the changing environment as the greatest existential threat to countries of Oceania.

(7) An evaluation of how an Oceania Security Dialogue could help amplify the issues and work of existing regional structures and organizations dedicated to the security of the Oceania region, such as the Pacific Island Forum and Pacific Environmental Security Forum.

(8) An analysis of how an Oceania Security Dialogue would help with implementation of the strategic roadmap required by section 30292 and advance the National Security Strategy of the United States.

(c) **INTERAGENCY CONSULTATION.**—To the extent practicable, the Secretary of State may consult with the Secretary of Defense and, where appropriate, evaluate the lessons learned of the Regional Centers for Security Studies of the Department of Defense to determine the feasibility and advisability of establishing the Oceania Security Dialogue.

SEC. 30294. OCEANIA PEACE CORPS PARTNERSHIPS.

(a) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Director of the Peace Corps shall submit to the appropriate congressional committees a report on strategies to reasonably and safely expand the number of Peace Corps volunteers in Oceania, with the goals of—

(1) expanding the presence of the Peace Corps to all currently feasible locations in Oceania; and

(2) working with regional and international partners of the United States to expand the presence of Peace Corps volunteers in low-income Oceania communities in support of climate resilience initiatives.

(b) **ELEMENTS.**—The report required by subsection (a) shall—

(1) assess the factors contributing to the current absence of the Peace Corps and its volunteers in Oceania;

(2) examine potential remedies that include working with United States Government agencies and regional governments, including governments of United States allies—

(A) to increase the health infrastructure and medical evacuation capabilities of the countries of Oceania to better support the safety of Peace Corps volunteers while in such countries;

(B) to address physical safety concerns that have decreased the ability of the Peace Corps to operate in Oceania; and

(C) to increase transportation infrastructure in the countries of Oceania to better support the travel of Peace Corps volunteers and their access to necessary facilities;

(3) evaluate the potential to expand the deployment of Peace Corps Response volunteers to help the countries of Oceania address social, economic, and development needs of their communities that require specific professional expertise; and

(4) explore potential new operational models to address safety and security needs of Peace Corps volunteers in the countries of Oceania, including—

(A) changes to volunteer deployment durations; and

(B) scheduled redeployment of volunteers to regional or United States-based healthcare facilities for routine physical and behavioral health evaluation.

(c) VOLUNTEERS IN LOW-INCOME OCEANIA COMMUNITIES.

(1) **IN GENERAL.**—In examining the potential to expand the presence of Peace Corps volunteers in low-income Oceania communities under subsection (a)(2), the Director of the Peace Corps shall consider the development of initiatives described in paragraph (2).

(2) **INITIATIVES DESCRIBED.**—Initiatives described in this paragraph are volunteer initiatives that help the countries of Oceania address social, economic, and development needs of their communities, including by—

(A) addressing, through appropriate resilience-based interventions, the vulnerability that communities in Oceania face as result of extreme weather, severe environmental change, and other climate related trends; and

(B) improving, through smart infrastructure principles, access to transportation and connectivity infrastructure that will help address the economic and social challenges that communities in Oceania confront as a result of poor or nonexistent infrastructure.

(d) **OCEANIA DEFINED.**—In this section, the term “Oceania” includes the following:

- (1) Easter Island of Chile.
- (2) Fiji.
- (3) French Polynesia of France.
- (4) Kiribati.
- (5) New Caledonia of France.
- (6) Nieu of New Zealand.
- (7) Papua New Guinea.
- (8) Samoa.
- (9) Vanuatu.
- (10) The Ashmore and Cartier Islands of Australia.
- (11) The Cook Islands of New Zealand.
- (12) The Coral Islands of Australia.
- (13) The Federated States of Micronesia.
- (14) The Norfolk Island of Australia.
- (15) The Pitcairn Islands of the United Kingdom.
- (16) The Republic of the Marshall Islands.
- (17) The Republic of Palau.
- (18) The Solomon Islands.
- (19) Tokelau of New Zealand.
- (20) Tonga.
- (21) Tuvalu.
- (22) Wallis and Futuna of France.

PART 8—PACIFIC ISLANDS

SEC. 30295. SHORT TITLE.

This part may be cited as the “Boosting Long-term U.S. Engagement in the Pacific Act” or the “BLUE Pacific Act”.

SEC. 30296. FINDINGS.

Congress finds the following:

(1) The Pacific Islands—

(A) are home to roughly 10 million residents, including over 8.6 million in Papua New Guinea, constituting diverse and dynamic cultures and peoples;

(B) are spread across an expanse of the Pacific Ocean equivalent to 15 percent of the Earth’s surface, including the three sub-regions of Melanesia, Micronesia, and Polynesia; and

(C) face shared challenges in development that have distinct local contexts, including climate change and rising sea levels, geographic distances from major markets, and vulnerability to external shocks such as natural disasters.

(2) The United States is a Pacific country with longstanding ties and shared values and interests with the Pacific Islands, including through the Compacts of Free Association with the Freely Associated States, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

(3) The United States has vital national security interests in the Pacific Islands, including—

(A) protecting regional peace and security that fully respects the sovereignty of all nations;

(B) advancing economic prosperity free from coercion through sustainable development; and

(C) supporting democracy, good governance, the rule of law, and human rights and fundamental freedoms.

(4) Successive United States administrations have recognized the importance of the Pacific region, including the Pacific Islands, in high-level strategic documents, including the following:

(A) The 2015 National Security Strategy, which first declared the rebalance to Asia and the Pacific, affirmed the United States as a Pacific nation, and paved the way for subsequent United States engagement with the Pacific Islands, including several new policies focused on conservation and resilience to climate change announced in September 2016.

(B) The 2017 National Security Strategy, which includes a commitment to “shore up fragile partner states in the Pacific Islands region to reduce their vulnerability to economic fluctuations and natural disasters”.

(C) The 2019 Indo-Pacific Strategy Report, which identified the Pacific Islands as “critical to U.S. strategy because of our shared values, interests, and commitments” and committed the United States to “building capacity and resilience to address maritime security; Illegal, Unreported, and Unregulated fishing; drug trafficking; and resilience to address climate change and disaster response”.

(5) The United States has deepened its diplomatic engagement with the Pacific Islands through several recent initiatives, including—

(A) the *Pacific Pledge*, which provided an additional \$100,000,000 in 2019 and \$200,000,000 in 2020, on top of the approximately \$350,000,000 that the United States provides annually to the region to support shared priorities in economic and human development, climate change, and more; and

(B) the *Small and Less Populous Island Economies (SALPIE) Initiative* launched in March 2021 to strengthen United States collaboration with island countries and territories, including in the Pacific Islands, on COVID-19 economic challenges, long-term economic development, climate change, and other shared interests.

(6) The Boe Declaration on Regional Security, signed by leaders of the Pacific Islands Forum in 2018, affirmed that climate change “remains the single greatest threat to the livelihoods, security, and wellbeing of the peoples of the Pacific” and asserted “the sovereign right of every Member to conduct its national affairs free of external interference and coercion”.

(7) The Asian Development Bank has estimated that the Pacific Islands region needs upwards of \$2.8 billion a year in investment needs through 2030, in addition to \$300 million a year for climate mitigation and adaptation over the same period.

(8) The Pacific Islands swiftly enacted effective policies to prevent and contain the spread of the Coronavirus Disease 2019 (commonly referred to as “COVID-19”) pandemic to their populations. The United States has provided over \$130,000,000 in assistance to the Pacific Islands for their COVID-19 response. However, priorities must be met to ensure continued success in preventing the spread of the COVID-19 pandemic, achieving swift and widespread vaccinations, and pursuing long-term economic recovery in the Pacific Islands, including through—

(A) expanding testing capacity and acquisition of needed medical supplies, including available COVID-19 vaccines and supporting vaccination efforts, through a reliable supply chain;

(B) planning for lifting of lockdowns and reopening of economic and social activities; and

(C) mitigating and recovering from the impacts of the COVID-19 pandemic on the health system and the reliance on food and energy imports as well as lost tourism revenue and other economic and food security damages caused by the pandemic.

(9) Since 1966, thousands of Peace Corps volunteers have proudly served in the Pacific Islands, building strong people-to-people relationships and demonstrating the United States commitment to peace and development in the region. Prior to the COVID-19 pandemic, the Peace Corps maintained presence in four countries of the Pacific Islands. Peace Corps volunteers continue to be in high demand in the Pacific Islands and have been requested across the region.

SEC. 30297. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to develop and commit to a comprehensive, multifaceted, and principled United States policy in the Pacific Islands that—

(A) promotes peace, security, and prosperity for all countries through a rules-based regional order that respects the sovereignty and political independence of all nations;

(B) preserves the Pacific Ocean as an open and vibrant corridor for international maritime trade and sustainable development that supports inclusive economic growth and autonomy for all nations and addresses socioeconomic challenges related to public health, education, renewable energy, digital connectivity, and more;

(C) supports regional efforts to address the challenges posed by climate change, including by strengthening resilience to natural disasters and through responsible stewardship of natural resources;

(D) improves civil society, strengthens democratic governance and the rule of law, and promotes human rights and the preservation of the region's unique cultural heritages;

(E) assists the Pacific Islands in preventing and containing the spread of the COVID-19 pandemic and in pursuing long-term economic recovery; and

(F) supports existing regional architecture and international norms;

(2) to support the vision, values, and objectives of existing regional multilateral institutions and frameworks, such as the Pacific Islands Forum and the Pacific Community, including—

(A) the 2014 Framework for Pacific Regionalism;

(B) the 2018 Boe Declaration on Regional Security; and

(C) the Boe Declaration Action Plan;

(3) to extend and renew the provisions of the Compacts of Free Association and related United States law that will expire in 2023 for the Republic of the Marshall Islands and the Federated States of Micronesia and in 2024 for the Republic of Palau unless they are extended and renewed; and

(4) to work closely with United States allies and partners with existing relationships and interests in the Pacific Islands, such as Australia, Japan, New Zealand, and Taiwan, in advancing common goals.

SEC. 30298. DEFINITION.

In this part, the terms “Pacific Islands” means the Cook Islands, the Republic of Fiji, the Republic of Kiribati, the Republic of the Marshall Islands, the Federated States of Micronesia, the Republic of Nauru, Niue, the Republic of Palau, the Independent State of Papua New Guinea, the Independent State of Samoa, the Solomon Islands, the Kingdom of Tonga, Tuvalu, and the Republic of Vanuatu.

SEC. 30299. AUTHORITY TO CONSOLIDATE REPORTS; FORM OF REPORTS.

(a) **AUTHORITY TO CONSOLIDATE REPORTS.**—Any reports required to be submitted to the appropriate congressional committees under this part that are subject to deadlines for submission

consisting of the same units of time may be consolidated into a single report that is submitted to the appropriate congressional committees pursuant to such deadlines and that contains all information required under such reports.

(b) **FORM OF REPORTS.**—Each report required by this part shall be submitted in unclassified form but may contain a classified annex.

SEC. 30299A. DIPLOMATIC PRESENCE IN THE PACIFIC ISLANDS.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the strategic importance of the Pacific Islands necessitates an examination of whether United States diplomatic, economic, and development engagement and presence in the Pacific Islands region is sufficient to effectively support United States objectives and meaningful participation in regional fora;

(2) improving shared understanding of and jointly combatting the transnational challenges pertinent to the Pacific Islands region with countries of the Pacific Islands and regional partners such as Australia, New Zealand, Japan, and Taiwan is vitally important to our shared long-term interests of stability, security, and prosperity;

(3) the United States should seek to participate in and support efforts to coordinate a regional response toward maritime security, including through continued United States and Pacific Islands participation in the Pacific Fusion Centre in Vanuatu and Information Fusion Centre in Singapore, and robust cooperation with regional allies and partners; and

(4) the United States Government should commit to sending appropriate levels of representation to regional events.

(b) **REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act and annually thereafter for five years, the Secretary of State, in consultation with the Secretary of Commerce and the Administrator of the United States Agency for International Development, shall submit to the appropriate congressional committees a report on the diplomatic and development presence of the United States in the Pacific Islands.

(2) **ELEMENTS.**—The report required by paragraph (1) shall include the following:

(A) A description of the Department of State, United States Agency for International Development, United States International Development Finance Corporation, Millennium Challenge Corporation, and United States Commercial Service presence, staffing, programming, and resourcing of operations in the Pacific Islands, including programming and resourcing not specifically allocated to the Pacific Islands.

(B) A description of gaps in such presence, including unfilled full-time equivalent positions.

(C) A description of limitations and challenges such gaps pose to United States strategic objectives, including—

(i) gaps in support of the Pacific Islands due to operations being conducted from the United States Agency for International Development offices in Manila and Suva; and

(ii) gaps in programming and resourcing.

(D) A strategy to expand and elevate such presence to fill such gaps, including by establishing new missions, expanding participation in regional forums, and elevating United States representation in regional forums.

(c) **AUTHORITY TO ENHANCE DIPLOMATIC AND ECONOMIC ENGAGEMENT.**—The Secretary of State and the Secretary of Commerce are authorized to hire locally employed staff in the Pacific Islands for the purpose of promoting increased diplomatic engagement and economic and commercial engagement between the United States and the Pacific Islands.

(d) **REGIONAL DEVELOPMENT COOPERATION STRATEGY.**—Not later than 180 days after the date of the enactment of this Act, and every five years thereafter, the Administrator of the United States Agency for International Develop-

ment shall submit to the appropriate congressional committees a regional development cooperation strategy for the Pacific Islands.

SEC. 30299B. COORDINATION WITH REGIONAL ALLIES AND PARTNERS.

(a) **IN GENERAL.**—The Secretary of State shall consult and coordinate with regional allies and partners, such as Australia, Japan, New Zealand, Taiwan, and regional institutions such as the Pacific Islands Forum and the Pacific Community, with respect to programs to provide assistance to the Pacific Islands, including programs established by this Act, including for purposes of—

(1) deconflicting programming;

(2) ensuring that any programming does not adversely affect the absorptive capacity of the Pacific Islands; and

(3) ensuring complementary programs benefit the Pacific Islands to the maximum extent practicable.

(b) **FORMAL CONSULTATIVE PROCESS.**—The Secretary of State shall establish a formal consultative process with such regional allies and partners to coordinate with respect to such programs and future-years programming.

(c) **REPORT.**—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the Secretary of State shall submit to the appropriate congressional committees and the Armed Services Committees of the Senate and the House of Representatives a report that includes—

(1) a review of ongoing efforts, initiatives, and programs undertaken by regional allies and partners, including multilateral organizations, to advance priorities identified in this Act;

(2) a review of ongoing efforts, initiatives, and programs undertaken by non-allied foreign actors that are viewed as being potentially harmful or in any way detrimental to one or more countries of the Pacific Islands;

(3) an assessment of United States programs in the Pacific Islands and their alignment and complementarity with the efforts of regional allies and partners identified in paragraph (1); and

(4) a review of the formal consultative process required in subsection (b) to summarize engagements held and identify opportunities to improve coordination with regional allies and partners.

SEC. 30299C. CLIMATE RESILIENT DEVELOPMENT IN THE PACIFIC ISLANDS.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the United States Government should leverage the full range of authorities and programs available to assist the Pacific Islands in achieving their development goals;

(2) United States development assistance should seek to build on existing public and private sector investments while creating new opportunities toward a favorable environment for additional such investments; and

(3) United States development efforts should be coordinated with and seek to build on existing efforts by like-minded partners and allies and regional and international multilateral organizations.

(b) **STRATEGY.**—The Secretary of State, in coordination with the Administrator of the United States Agency for International Development, the Secretary of the Treasury, and the Chief Executive Officer of the United States International Development Finance Corporation, shall develop and implement a strategy to—

(1) invest in and improve critical infrastructure, including transport connectivity, information and communications technology, food security, coastal zone management, marine and water resource management, and energy security and access to electricity in the Pacific Islands, with an emphasis on climate resiliency and sustainable development;

(2) provide technical assistance to assist local government and civil society leaders assess risks

to local infrastructure, especially those posed by climate change, consider and implement risk mitigation efforts and policies to strengthen resilience, and evaluate proposed projects and solutions for their efficacy and sustainability; and

(3) support investment and improvement in ecosystem conservation and protection for the long-term sustainable use of ecosystem services, especially those that mitigate effects of climate change and those that support food security and livelihoods.

(c) **CONDUCT OF STRATEGY.**—The strategy developed under this section shall be coordinated with like-minded partners and allies, regional and international multilateral organizations, and regional frameworks for development in the Pacific Islands.

(d) **INTERNATIONAL FINANCIAL INSTITUTIONS.**—The Secretary of the Treasury shall direct the representatives of the United States to the World Bank Group, the International Monetary Fund, and the Asian Development Bank to use the voice and vote of the United States to support climate resilient infrastructure projects in the Pacific Islands.

(e) **REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the Secretary of State shall submit to the appropriate congressional committees, the Committee on Natural Resources of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate a report on foreign infrastructure developments in the Pacific Islands.

(2) **MATTERS TO BE INCLUDED.**—The report required by paragraph (1) shall include—

(A) a review of foreign infrastructure developments in the Pacific Islands by non-United States allies and partners;

(B) assessments of the environmental impact and sustainability of such developments; and

(C) an analysis of the financial sustainability of such developments and their impacts on the debt of host countries in the Pacific Islands.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated \$50,000,000 for each of the fiscal years 2022 through 2026 to carry out this section.

SEC. 30299D. INTERNATIONAL LAW ENFORCEMENT ACADEMY FOR THE PACIFIC ISLANDS.

(a) **IN GENERAL.**—The Secretary of State shall develop and implement a plan to expand coverage of the International Law Enforcement Academies (ILEA) program for the Pacific Islands, including by—

(1) expanding coverage of the regional program located in Bangkok, Thailand, to the Pacific Islands; or

(2) establishing a new regional program for the Pacific Islands.

(b) **MATTERS TO BE INCLUDED.**—The plan required by subsection (a) shall include consultation and coordination with existing regional law enforcement entities, including the Pacific Islands Chiefs of Police and civil society, including those focused on human rights and specializing in victim-centered approaches, and take into consideration costs of implementation, effectiveness, and capacity of the Pacific Islands to participate in the ILEA program.

(c) **BRIEFING REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall provide the appropriate congressional committees a briefing on the plan developed under this section.

SEC. 30299E. SECURITY ASSISTANCE FOR THE PACIFIC ISLANDS.

(a) **STRATEGY.**—

(1) **IN GENERAL.**—The Secretary of State, with the concurrence of the Secretary of Defense and in coordination with the Secretary of Homeland Security, shall develop and implement a comprehensive strategy to provide assistance to and build the capacity of local civilian and national security institutions of the Pacific Islands for purposes of—

(A) enhancing maritime security and maritime domain awareness to address challenges such as illegal, unreported, and unregulated fishing;

(B) assisting local law enforcement in detecting, preventing, and combatting human and drug trafficking and other forms of transnational crime;

(C) participating in efforts by regional institutions and frameworks to coordinate and facilitate cooperation on shared security challenges; and

(D) expanding information sharing and to work toward operational coordination and interoperability among Pacific Island maritime security forces, including through regional fusion centers.

(2) **PROGRAMS AND AUTHORITIES DESCRIBED.**—The strategy required by this subsection shall build on but not be limited to the following programs and authorities:

(A) The International Military Education and Training program.

(B) The Foreign Military Financing program.

(C) The authority to build the capacity of foreign security forces under section 333 of title 10, United States Code.

(D) The authority to provide excess defense articles under section 516 of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j).

(E) The Department of Defense State Partnership Program.

(3) **NATIONAL POLICE FORCES AND COAST GUARDS.**—The national police forces and coast guards of the Pacific Islands are eligible to receive assistance under the programs and authorities described in paragraph (2) (other than the programs and authorities described in subparagraphs (A), (D), and (F) of paragraph (2)) for purposes of the strategy required by this subsection.

(b) **MATTERS TO BE INCLUDED.**—The strategy required by subsection (a) shall seek to preserve peace and regional stability in the Pacific Islands and take into consideration and seek to build upon but not duplicate existing assistance provided by United States allies and partners.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report that contains the strategy developed under this section.

(2) **MATTERS TO BE INCLUDED.**—The report required by paragraph (1) shall include—

(A) an assessment of security challenges to the Pacific Islands;

(B) an analysis of demonstrated needs of the Pacific Islands for assistance;

(C) a review of existing security assistance programs in the Pacific Islands, including programs and efforts provided by United States allies and partners;

(D) a plan for programs for training, equipping, and sustainment, including excess defense equipment and related materials;

(E) a list of militaries, national police forces, coast guards, and other national security forces of the Pacific Islands receiving assistance under the strategy;

(F) a review of existing cross-border maritime law enforcement operations (commonly known as “shiprider agreements”) with the Pacific Islands, an assessment of additional resourcing needs to enhance operational capacity, and a plan to improve on these programs and operations;

(G) a review of existing Department of Defense State Partnership Programs with the Pacific Islands and an assessment of additional opportunities to leverage Department of Defense State Partnership Programs to address national security, law enforcement, disaster relief and emergency management, and related priorities;

(H) a review of current efforts and progress in removing unexploded ordnance in the Pacific Islands and an assessment of additional resourcing needed to ensure continued progress, including to support coordination with regional

efforts and those of United States allies and partners;

(I) a review of existing regional fusion centers and other cooperative intelligence sharing efforts in the Pacific Islands to address maritime security, transnational crime, natural disasters, and other security challenges and an assessment of opportunities for the United States to participate in such efforts, including by allocating staff and supplying resourcing;

(J) measures to evaluate success for the strategy; and

(K) a detailed assessment of appropriations required to achieve the objectives for the strategy in future years.

(3) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Transportation and Infrastructure of the House of Representatives; and

(B) the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 30299F. COUNTERING TRANSNATIONAL CRIME.

(a) **RATIFICATION OF INTERNATIONAL LEGAL INSTRUMENTS.**—

(1) **IN GENERAL.**—The Secretary of State shall prioritize efforts to assist the Pacific Islands in ratifying and implementing international legal conventions related to transnational crime, such as—

(A) the Convention on International Trade in Endangered Species of Wildlife Fauna and Flora;

(B) the Agreement on Port State Measures; and

(C) relevant protocols supplementing the United Nations Convention Against Transnational Organized Crime, such as—

(i) the Protocol to Prevent, Suppress, and Punish Trafficking in Person, Especially Women and Children; and

(ii) the Protocol Against the Smuggling of Migrants by Land, Sea, and Air.

(2) **BIENNIAL REPORT.**—Not later than 180 days after the date of the enactment of this Act and every two years thereafter as appropriate, the Secretary of State shall submit to the appropriate congressional committees a report on—

(A) the status of the progress of each country of the Pacific Islands toward ratifying and implementing international legal conventions related to transnational crime; and

(B) United States plans for assisting those countries that have yet to fully ratify such conventions with their respective ratification efforts.

(b) **UPDATES OF CERTAIN REPORTS.**—The Secretary of State, in coordination with other Federal agencies as appropriate, shall identify and update existing reports to include forms of transnational crime affecting the Pacific Islands, such as—

(1) the International Narcotics Control Strategy report;

(2) the Improving International Fisheries Management report; and

(3) the Trafficking in Persons report.

(c) **ILLEGAL LOGGING AND ASSOCIATED TRADE.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the Secretary of State, in coordination with the heads of relevant Federal agencies, shall submit to appropriate congressional committees a report that identifies countries of the Pacific Islands that are countries of concern with respect to illegal logging and associated trade.

(2) **ELEMENTS.**—The report required by paragraph (1) shall include the following:

(A) A description of the impact illegal logging and associated trade have had on local communities, good governance, and biodiversity, including an identification of those foreign countries that may be financing or in any other manner supporting illegal logging activities.

(B) A description of efforts taken by countries identified under paragraph (1) to comply and take appropriate corrective action to mitigate illegal logging, and an evaluation of the progress of those efforts.

(C) A description of steps taken by the heads of relevant Federal agencies to assist the Pacific Islands in adopting and implementing international measures comparable to those of the United States, such as the Lacey Act, to reduce impacts of illicit logging.

(3) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on Ways and Means of the House of Representatives; and

(B) the Committee on Foreign Relations and the Committee on Finance of the Senate.

(d) **ILLEGAL, UNREPORTED, AND UNREGULATED FISHING.**—Section 3553 of the National Defense Authorization Act for Fiscal Year 2020 (16 U.S.C. 8033) is amended—

(1) in paragraph (7), by striking “and” at the end;

(2) by redesignating paragraph (8) as paragraph (9); and

(3) by inserting after paragraph (7) (as amended) the following:

“(8) an assessment of gaps or limitations in the ability of the United States to effectively assist priority regions and priority flag states relating to IUU fishing due to resource constraints and the additional resources necessary to overcome those constraints; and”.

SEC. 30299G. EMERGENCY PREPAREDNESS INITIATIVE FOR THE PACIFIC ISLANDS.

(a) **IN GENERAL.**—The Administrator of the United States Agency for International Development shall develop and implement an initiative to assist the Pacific Islands in enhancing their preparedness for and resilience to natural disasters and other emergencies.

(b) **CONDUCT OF PROGRAM.**—The program developed under this section shall include—

(1) education and training programs on natural disaster prevention and preparedness for emergency management professionals in the Pacific Islands, including by leveraging the expertise of nonprofit organizations and institutions of higher education in the United States;

(2) technical assistance, including through grants and cooperative agreements for qualified United States and local nongovernmental organizations, to enhance early warning systems, emergency management and preparedness procedures, and post-disaster relief and recovery; and

(3) coordination of existing disaster mitigation and response plans in the region, including by United States allies and partners in the region.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Administrator shall submit to the appropriate congressional committees a report on the program developed under this section.

(2) **MATTERS TO BE INCLUDED.**—The report required by paragraph (1) shall include—

(A) an assessment of disaster risks in the Pacific Islands and existing local and regional capacity to respond to such risks;

(B) a review of existing efforts by United States allies and partners to provide assistance and training for natural disaster preparedness and emergency management; and

(C) objectives, means of implementation, and measures of success for the initiative.

(3) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on Natural Resources of the House of Representatives; and

(B) the Committee on Foreign Relations and the Committee on Energy and Natural Resources of the Senate.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated \$40,000,000 for each of the fiscal years 2022 through 2026 to carry out this section.

SEC. 30299H. PEACE CORPS IN THE PACIFIC ISLANDS.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the presence of the Peace Corps in the Pacific Islands should be expanded and the Peace Corps should reopen its programs in as many of the Pacific Islands as possible, including where it has previously operated but has suspended operations;

(2) consulting like-minded regional allies and partners, such as Australia, New Zealand, Japan, and Taiwan is crucial for identifying and overcoming challenges for increased Peace Corps presence in the Pacific Islands;

(3) the Peace Corps, whose mission is to promote world peace and friendship in part by helping the people of interested countries in meeting their need for trained men and women, provides an invaluable opportunity to connect the American people with the people of the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau; and

(4) the Peace Corps should promptly reopen its programs in the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

(b) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Director of the Peace Corps shall submit to the appropriate congressional committees a report that includes—

(1) a comparative analysis of the Peace Corps presence in the Pacific Islands region to other regions of the world, including a cost-benefit analysis of placement in the region versus elsewhere globally;

(2) analysis of current impediments to Peace Corps expansion in the Pacific Islands region;

(3) outcomes of consultations among United States agencies, and with regional allies and partners, on areas in which cooperation can reduce factors limiting Peace Corps expansion, particularly those related to medical transportation and personal safety; and

(4) a plan and timeline for implementing outcomes identified in paragraph (3) to facilitate expansion of Peace Corps presence in the region, where appropriate.

TITLE III—INVESTING IN OUR VALUES

SEC. 30301. SENSE OF CONGRESS ON THE CONTINUED VIOLATION OF RIGHTS AND FREEDOMS OF THE PEOPLE OF HONG KONG.

(a) **FINDINGS.**—Congress finds the following:

(1) Despite international condemnation, the Government of the People's Republic of China (“PRC”) continues to disregard its international legal obligations under the Joint Declaration of the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the People's Republic of China on the Question of Hong Kong (“Joint Declaration”), in which the PRC committed that—

(A) Hong Kong would enjoy a high degree of autonomy;

(B) for at least 50 years the “social and economic systems in Hong Kong” would remain unchanged; and

(C) the personal rights and freedoms of the people of Hong Kong would be protected by law.

(2) As part of its continued efforts to undermine the established rights of the Hong Kong people, the PRC National People's Congress Standing Committee (“Standing Committee”) passed and imposed upon Hong Kong oppressive and intentionally vague national security legislation on June 30, 2020, that grants Beijing sweeping powers to punish acts of “separating

the country, subverting state power, and organizing terrorist activities”.

(3) The legislative process by which the Standing Committee imposed the national security law on Hong Kong bypassed Hong Kong's local government in a potential violation of the Basic Law of the Hong Kong Special Administrative Region of the People's Republic of China (“Basic Law”), and involved unusual secrecy, as demonstrated by the fact that the legislation was only the second law since 2008 that the Standing Committee has passed without releasing a draft for public comment.

(4) On July 30, 2020, election officials of the Hong Kong Special Administrative Region (HKSAR) disqualified twelve pro-democracy candidates from participating in the September 6 Legislative Council elections, which were subsequently postponed for a year until September 5, 2021, by citing the public health risk of holding elections during the COVID-19 pandemic.

(5) On July 31, 2020, in an attempt to assert extraterritorial jurisdiction, the HKSAR Government announced indictments of and arrest warrants for six Hong Kong activists living overseas, including United States citizen Samuel Chu, for alleged violations of the national security law.

(6) On November 11, 2020, the HKSAR Government removed four lawmakers from office for allegedly violating the law after the Standing Committee passed additional legislation barring those who promoted or supported Hong Kong independence and refused to acknowledge PRC sovereignty over Hong Kong, or otherwise violates the national security law, from running for or serving in the Legislative Council.

(7) On December 2, 2020, pro-democracy activists Joshua Wong, Agnes Chow, and Ivan Lam were sentenced to prison for participating in 2019 protests.

(8) Ten of the twelve Hong Kong residents (also known as “the Hong Kong 12”) who sought to flee by boat from Hong Kong to Taiwan on August 23, 2020, were taken to mainland China and sentenced on December 30, 2020, to prison terms ranging from seven months to three years for illegal border crossing.

(9) On December 31, 2020, Hong Kong's highest court revoked bail for Jimmy Lai Chee-Ying, a pro-democracy figure and publisher, who was charged on December 12 with colluding with foreign forces and endangering national security under the national security legislation.

(10) On January 4, 2021, the Departments of Justice in Henan and Sichuan province threatened to revoke the licenses of two lawyers hired to help the Hong Kong 12.

(11) On January 5, 2021, the Hong Kong Police Force arrested more than fifty opposition figures, including pro-democracy officials, activists, and an American lawyer, for their involvement in an informal July 2020 primary to select candidates for the general election originally scheduled for September 2020, despite other political parties having held similar primaries without retribution.

(12) On April 22, 2021, a Hong Kong court convicted Choy Yuk-ling, a video producer with Radio Television Hong Kong, in relation to her investigative reporting on the Hong Kong police.

(13) On June 24, 2021, Apple Daily, Hong Kong's only surviving pro-democracy newspaper, published its final edition following months of intimidation and repression by the HKSAR Government, including through the arrest of its senior editors, police raids on its offices, and the freezing of its financial assets.

(b) **STATEMENT OF CONGRESS.**—Congress—

(1) condemns the actions taken by the Government of the People's Republic of China (“PRC”) and the Government of the Hong Kong Special Administrative Region (“HKSAR”), including the adoption and implementation of national security legislation for Hong Kong through irregular procedures, that violate the rights and freedoms of the people of Hong Kong that are guaranteed by the Joint Declaration and its implementing document, the Basic Law;

(2) reaffirms its support for the people of Hong Kong, who face grave threats to their rights and freedoms;

(3) calls on the Governments of the PRC and HKSAR to—

(A) respect and uphold—

(i) commitments made to the international community and the people of Hong Kong under the Joint Declaration; and

(ii) the judicial independence of the Hong Kong legal system; and

(B) release pro-democracy activists and politicians arrested under the national security law; and

(4) encourages the President, the Secretary of State, and the Secretary of the Treasury to coordinate with allies and partners and continue United States efforts to respond to developments in Hong Kong, including by—

(A) providing protection for Hong Kong residents who fear persecution;

(B) supporting those who may seek to file a case before the International Court of Justice to hold the Government of the PRC accountable for violating its binding legal commitments under the Joint Declaration;

(C) encouraging allies and partner countries to instruct, as appropriate, their respective representatives to the United Nations to use their voice, vote, and influence to press for the appointment of a United Nations special mandate holder to monitor and report on human rights developments in Hong Kong;

(D) ensuring the private sector, particularly United States companies with economic interests in Hong Kong, is aware of risks the national security legislation poses to the security of United States citizens and to the medium and long-term interest of United States businesses in Hong Kong;

(E) continuing to implement sanctions authorities, especially authorities recently enacted to address actions undermining the rights and freedoms of the Hong Kong people, such as the Hong Kong Autonomy Act (Public Law 116-149) and the Hong Kong Human Rights and Democracy Act of 2019 (Public Law 116-76), with respect to officials of the Chinese Communist Party, the Government of the PRC, or the Government of the HKSAR who are responsible for undermining such rights and freedoms; and

(F) coordinating with allies and partners to ensure that such implementation of sanctions is multilateral.

SEC. 30302. AUTHORIZATION OF APPROPRIATIONS FOR PROMOTION OF DEMOCRACY IN HONG KONG.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$10,000,000 for fiscal year 2022 for the Bureau of Democracy, Human Rights, and Labor of the Department of State to promote democracy in Hong Kong.

(b) **ADMINISTRATION.**—The Secretary of State shall designate an office with the Department of State to administer and coordinate the provision of such funds described in subsection (a) within the Department of State and across the United States Government.

SEC. 30303. HONG KONG PEOPLE'S FREEDOM AND CHOICE.

(a) **DEFINITIONS.**—For purposes of this section:

(1) **JOINT DECLARATION.**—The term “Joint Declaration” means the Joint Declaration of the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the People's Republic of China on the Question of Hong Kong, signed on December 19, 1984, and entered into force on May 27, 1985.

(2) **PRIORITY HONG KONG RESIDENT.**—The term “Priority Hong Kong resident” means—

(A) a permanent resident of Hong Kong who—

(i) holds no right to citizenship in any country or jurisdiction other than the People's Republic of China (referred to in this section as the “PRC”), Hong Kong, or Macau as of the date of enactment of this Act;

(ii) has resided in Hong Kong for not less than the last ten years as of the date of enactment of this Act; and

(iii) has been designated by the Secretary of State or Secretary of Homeland Security as having met the requirements of this subparagraph, in accordance with the procedures described in subsection (f) of this section; or

(B) the spouse of a person described in subparagraph (A), or the child of such person as such term is defined in section 101(b)(1) of the Immigration and Nationality Act (8 U.S.C. 101(b)(1)), except that a child shall be an unmarried person under twenty-seven years of age.

(3) **HONG KONG NATIONAL SECURITY LAW.**—The term “Hong Kong National Security Law” means the Law of the People's Republic of China on Safeguarding National Security in the Hong Kong Special Administrative Region that was passed unanimously by the National People's Congress and signed by President Xi Jinping on June 30, 2020, and promulgated in the Hong Kong Special Administrative Region (referred to in this section as “Hong Kong SAR”) on July 1, 2020.

(4) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on the Judiciary of the House of Representatives; and

(B) the Committee on Foreign Relations and the Committee on the Judiciary of the Senate.

(b) **FINDINGS.**—Congress finds the following:

(1) The Hong Kong National Security Law promulgated on July 1, 2020—

(A) contravenes the Basic Law of the Hong Kong Special Administrative Region (referred to in this Act as “the Basic Law”) that provides in Article 23 that the Legislative Council of Hong Kong shall enact legislation related to national security;

(B) violates the PRC's commitments under international law, as defined by the Joint Declaration; and

(C) causes severe and irreparable damage to the “one country, two systems” principle and further erodes global confidence in the PRC's commitment to international law.

(2) On July 14, 2020, in response to the promulgation of the Hong Kong National Security Law, President Trump signed an Executive order on Hong Kong normalization that, among other policy actions, suspended the special treatment of Hong Kong persons under U.S. law with respect to the issuance of immigrant and nonimmigrant visas.

(3) The United States has a long and proud history as a destination for refugees and asylees fleeing persecution based on race, religion, nationality, political opinion, or membership in a particular social group.

(4) The United States also shares deep social, cultural, and economic ties with the people of Hong Kong, including a shared commitment to democracy, to the rule of law, and to the protection of human rights.

(5) The United States has sheltered, protected, and welcomed individuals who have fled authoritarian regimes, including citizens from the PRC following the violent June 4, 1989, crackdown in Tiananmen Square, deepening ties between the people of the United States and those individuals seeking to contribute to a free, open society founded on democracy, human rights, and the respect for the rule of law.

(6) The United States has reaped enormous economic, cultural, and strategic benefits from welcoming successive generations of scientists, doctors, entrepreneurs, artists, intellectuals, and other freedom-loving people fleeing fascism, communism, violent Islamist extremism, and other repressive ideologies, including in the cases of Nazi Germany, the Soviet Union, and Soviet-controlled Central Europe, Cuba, Vietnam, and Iran.

(7) A major asymmetric advantage of the United States in its long-term strategic competi-

tion with the Communist Party of China is the ability of people from every country in the world, irrespective of their race, ethnicity, or religion, to immigrate to the United States and become American citizens.

(c) **STATEMENT OF POLICY.**—It is the policy of the United States—

(1) to reaffirm the principles and objectives set forth in the United States-Hong Kong Policy Act of 1992 (Public Law 102-383), specifically that—

(A) the United States has “a strong interest in the continued vitality, prosperity, and stability of Hong Kong”;

(B) “support for democratization is a fundamental principle of United States foreign policy”, and therefore “naturally applies to United States policy toward Hong Kong”;

(C) “the human rights of the people of Hong Kong are of great importance to the United States and are directly relevant to United States interests in Hong Kong and serve as a basis for Hong Kong's continued economic prosperity”; and

(D) Hong Kong must remain sufficiently autonomous from the PRC to “justify treatment under a particular law of the United States, or any provision thereof, different from that accorded the People's Republic of China”;

(2) to continue to support the high degree of autonomy and fundamental rights and freedoms of the people of Hong Kong, as enumerated by—

(A) the Joint Declaration;

(B) the International Covenant on Civil and Political Rights, done at New York, December 19, 1966; and

(C) the Universal Declaration of Human Rights, done at Paris, December 10, 1948;

(3) to continue to support the democratic aspirations of the people of Hong Kong, including the “ultimate aim” of the selection of the Chief Executive and all members of the Legislative Council by universal suffrage, as articulated in the Basic Law;

(4) to urge the Government of the PRC, despite its recent actions, to uphold its commitments to Hong Kong, including allowing the people of Hong Kong to govern Hong Kong with a high degree of autonomy and without undue interference, and ensuring that Hong Kong voters freely enjoy the right to elect the Chief Executive and all members of the Hong Kong Legislative Council by universal suffrage;

(5) to support the establishment of a genuine democratic option to freely and fairly nominate and elect the Chief Executive of Hong Kong, and the establishment of open and direct democratic elections for all members of the Hong Kong Legislative Council;

(6) to support the robust exercise by residents of Hong Kong of the rights to free speech, the press, and other fundamental freedoms, as provided by the Basic Law, the Joint Declaration, and the International Covenant on Civil and Political Rights;

(7) to support freedom from arbitrary or unlawful arrest, detention, or imprisonment for all Hong Kong residents, as provided by the Basic Law, the Joint Declaration, and the International Covenant on Civil and Political Rights;

(8) to draw international attention to any violations by the Government of the PRC of the fundamental rights of the people of Hong Kong, as provided by the International Covenant on Civil and Political Rights, and any encroachment upon the autonomy guaranteed to Hong Kong by the Basic Law and the Joint Declaration;

(9) to protect United States citizens and long-term permanent residents living in Hong Kong, as well as people visiting and transiting through Hong Kong;

(10) to maintain the economic and cultural ties that provide significant benefits to both the United States and Hong Kong, including the reinstatement of the Fulbright exchange program with regard to Hong Kong at the earliest opportunity;

(11) to coordinate with allies, including the United Kingdom, Australia, Canada, Japan, and the Republic of Korea, to promote democracy and human rights in Hong Kong; and

(12) to welcome and protect in the United States residents of Hong Kong fleeing persecution or otherwise seeking a safe haven from violations by the Government of the PRC of the fundamental rights of the people of Hong Kong.

(d) **TEMPORARY PROTECTED STATUS FOR HONG KONG RESIDENTS IN THE UNITED STATES.**—

(1) **DESIGNATION.**—

(A) **IN GENERAL.**—For purposes of section 244 of the Immigration and Nationality Act (8 U.S.C. 1254a), Hong Kong shall be treated as if it had been designated under subsection (b)(1)(C) of such section, subject to the provisions of this section.

(B) **PERIOD OF DESIGNATION.**—The initial period of the designation referred to in subparagraph (A) shall be for the 18-month period beginning on the date of enactment of this Act.

(2) **ALIENS ELIGIBLE.**—As a result of the designation made under subsection (a), an alien is deemed to satisfy the requirements under paragraph (1) of section 244(c) of the Immigration and Nationality Act (8 U.S.C. 1254a(c)), subject to paragraph (3) of such section, if the alien—

(A) was a permanent resident of Hong Kong at the time such individual arrived into the United States and is a national of the PRC (or in the case of an individual having no nationality, is a person who last habitually resided in Hong Kong);

(B) has been continuously physically present in the United States since the date of the enactment of this Act;

(C) is admissible as an immigrant, except as otherwise provided in paragraph (2)(A) of such section, and is not ineligible for temporary protected status under paragraph (2)(B) of such section; and

(D) registers for temporary protected status in a manner established by the Secretary of Homeland Security.

(3) **CONSENT TO TRAVEL ABROAD.**—

(A) **IN GENERAL.**—The Secretary of Homeland Security shall give prior consent to travel abroad, in accordance with section 244(f)(3) of the Immigration and Nationality Act (8 U.S.C. 1254a(f)(3)), to an alien who is granted temporary protected status pursuant to the designation made under paragraph (1) if the alien establishes to the satisfaction of the Secretary of Homeland Security that emergency and extenuating circumstances beyond the control of the alien require the alien to depart for a brief, temporary trip abroad.

(B) **TREATMENT UPON RETURN.**—An alien returning to the United States in accordance with an authorization described in subparagraph (A) shall be treated as any other returning alien provided temporary protected status under section 244 of the Immigration and Nationality Act (8 U.S.C. 1254a).

(e) **TREATMENT OF HONG KONG RESIDENTS FOR IMMIGRATION PURPOSES.**—Notwithstanding any other provision of law, during the five fiscal year period beginning on the first day of the first full fiscal year after the date of enactment of this Act, Hong Kong shall continue to be considered a foreign state separate and apart from the PRC as mandated under section 103 of the Immigration and Nationality Act of 1990 (Public Law 101-649) for purposes of the numerical limitations on immigrant visas under sections 201, 202, and 203 of the Immigration and Nationality Act (8 U.S.C. 1151, 1152, and 1153).

(f) **VERIFICATION OF PRIORITY HONG KONG RESIDENTS.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Secretary of Homeland Security, shall publish in the Federal Register, an interim final rule establishing procedures for designation of Priority Hong Kong Residents. Notwithstanding section 553 of title 5, United States Code, the rule shall

be effective, on an interim basis, immediately upon publication, but may be subject to change and revision after public notice and opportunity for comment. The Secretary of State shall finalize such rule not later than one year after the date of the enactment of this Act. Such rule shall establish procedures—

(A) for individuals to register with any United States embassy or consulate outside of the United States, or with the Department of Homeland Security in the United States, and request designation as a Priority Hong Kong Resident; and

(B) for the appropriate Secretary to verify the residency of registered individuals and designate those who qualify as Priority Hong Kong Residents.

(2) **DOCUMENTATION.**—The procedures described in paragraph (1) shall include the collection of—

(A) biometric data;

(B) copies of birth certificates, residency cards, and other documentation establishing residency; and

(C) other personal information, data, and records deemed appropriate by the Secretary.

(3) **GUIDANCE.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall issue guidance outlining actions to enhance the ability of the Secretary to efficiently send and receive information to and from the United Kingdom and other like-minded allies and partners for purposes of rapid verification of permanent residency in Hong Kong and designation of individuals as Priority Hong Kong Residents.

(4) **REPORT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees, the Committee on the Judiciary of the House of Representatives, and the Committee on the Judiciary of the Senate a report detailing plans to implement the requirements described in this subsection.

(5) **PROTECTION FOR REFUGEES.**—Nothing in this section may be construed to prevent a Priority Hong Kong Resident from seeking refugee status under section 207 of the Immigration and Nationality Act (8 U.S.C. 1157) or requesting asylum under section 208 of such Act (8 U.S.C. 1158).

(g) **REPORTING REQUIREMENTS.**—

(1) **IN GENERAL.**—On an annual basis, the Secretary of State and the Secretary of Homeland Security, in consultation with other Federal agencies, as appropriate, shall submit to the appropriate congressional committees, the Committee on the Judiciary of the House of Representatives, and the Committee on the Judiciary of the Senate a report detailing for the previous fiscal year—

(A) the number of Hong Kong SAR residents who have applied for United States visas or immigration benefits, disaggregated by visa type or immigration benefit, including asylum, refugee status, temporary protected status, and lawful permanent residence;

(B) the number of approvals, denials, or rejections of applicants for visas or immigration benefits described in subparagraph (A), disaggregated by visa type or immigration benefit and basis for denial;

(C) the number of pending refugee and asylum applications for Hong Kong SAR residents, and the length of time and reason for which such applications have been pending; and

(D) other matters determined relevant by the Secretaries relating to efforts to protect and facilitate the resettlement of refugees and victims of persecution in Hong Kong.

(2) **FORM.**—Each report under paragraph (1) shall be submitted in unclassified form and published on a text-searchable, publicly available website of the Department of State and the Department of Homeland Security.

(h) **STRATEGY FOR INTERNATIONAL COOPERATION ON HONG KONG.**—

(1) **IN GENERAL.**—It is the policy of the United States—

(A) to support the people of Hong Kong by providing safe haven to Hong Kong SAR residents who are nationals of the PRC following the enactment of the Hong Kong National Security Law that places certain Hong Kong persons at risk of persecution; and

(B) to encourage like-minded nations to make similar accommodations for Hong Kong people fleeing persecution by the Government of the PRC.

(2) **PLAN.**—The Secretary of State, in consultation with the heads of other Federal agencies, as appropriate, shall develop a plan to engage with other countries, including the United Kingdom, on cooperative efforts to—

(A) provide refugee and asylum protections for victims of, and individuals with a fear of, persecution in Hong Kong, either by Hong Kong authorities or other authorities acting on behalf of the PRC;

(B) enhance protocols to facilitate the resettlement of refugees and displaced persons from Hong Kong;

(C) identify and prevent the exploitation of immigration and visa policies and procedures by corrupt officials; and

(D) expedite the sharing of information, as appropriate, related to the refusal of individual applications for visas or other travel documents submitted by residents of the Hong Kong SAR based on—

(i) national security or related grounds under section 212(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)); or

(ii) fraud or misrepresentation under section 212(a)(6)(C) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(6)(C)).

(3) **REPORT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of State, in consultation with the heads of other Federal agencies, as appropriate, shall submit to the appropriate congressional committees, the Committee on the Judiciary of the House of Representatives, and the Committee on the Judiciary of the Senate a report on the plan described in paragraph (2).

(i) **REFUGEE STATUS FOR CERTAIN RESIDENTS OF HONG KONG.**—

(1) **IN GENERAL.**—Aliens described in paragraph (2) may establish, for purposes of admission as a refugee under sections 207 of the Immigration and Nationality Act (8 U.S.C. 1157) or asylum under section 208 of such Act (8 U.S.C. 1158), that such alien has a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion by asserting such a fear and a credible basis for concern about the possibility of such persecution.

(2) **ALIENS DESCRIBED.**—

(A) **IN GENERAL.**—An alien is described in this subsection if such alien—

(i) is a Priority Hong Kong Resident and—

(I) had a significant role in a civil society organization supportive of the protests in 2019 and 2020 related to the Hong Kong National Security Law and the encroachment on the autonomy of Hong Kong by the PRC;

(II) was arrested, charged, detained, or convicted of an offense arising from their participation in an action as described in section 206(b)(2) of the United States-Hong Kong Policy Act of 1992 (22 U.S.C. 5726(b)(2)) that was not violent in nature; or

(III) has had their citizenship, nationality, or residency revoked for having submitted to any United States Government agency a nonfrivolous application for refugee status, asylum, or any other immigration benefit under the immigration laws (as defined in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)));

(ii) is a Priority Hong Kong Resident spouse or child of an alien described in clause (i); or

(iii) is the parent of an alien described in clause (i), if such parent is a citizen of the PRC and no other foreign state.

(B) **OTHER CATEGORIES.**—The Secretary of Homeland Security, in consultation with the

Secretary of State, may designate other categories of aliens for purposes of establishing a well-founded fear of persecution under paragraph (1) if such aliens share common characteristics that identify them as targets of persecution in the PRC on account of race, religion, nationality, membership in a particular social group, or political opinion.

(C) **SIGNIFICANT ROLE.**—For purposes of subclause (1) of paragraph (2)(A)(i), a significant role shall include, with respect to the protests described in such clause—

- (i) an organizing role;
- (ii) a first aid responder;
- (iii) a journalist or member of the media covering or offering public commentary;
- (iv) a provider of legal services to one or more individuals arrested for participating in such protests; or
- (v) a participant who during the period beginning on June 9, 2019, and ending on June 30, 2020, was arrested, charged, detained, or convicted as a result of such participation.

(3) **AGE OUT PROTECTIONS.**—For purposes of this subsection, a determination of whether an alien is a child shall be made using the age of the alien on the date an application for refugee or asylum status in which the alien is a named beneficiary is filed with the Secretary of Homeland Security.

(4) **EXCLUSION FROM NUMERICAL LIMITATIONS.**—Aliens provided refugee status under this subsection shall not be counted against the numerical limitation on refugees established in accordance with the procedures described in section 207 of the Immigration and Nationality Act (8 U.S.C. 1157).

(5) **REPORTING REQUIREMENTS.**—

(A) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act and every 90 days thereafter, the Secretary of State and the Secretary of Homeland Security shall submit to the appropriate congressional committees, the Committee on the Judiciary of the House of Representatives, and the Committee on the Judiciary of the Senate a report on the matters described in subparagraph (B).

(B) **MATTERS TO BE INCLUDED.**—Each report required by subparagraph (A) shall include, with respect to applications submitted under this section—

- (i) the total number of refugee and asylum applications that are pending at the end of the reporting period;
- (ii) the average wait-times for all applicants for refugee status or asylum pending—
- (I) a prescreening interview with a resettlement support center;
- (II) an interview with United States Citizenship and Immigration Services; and
- (III) the completion of security checks;
- (iii) the number of approvals, referrals including the source of the referral, denials of applications for refugee status or asylum, disaggregated by the reason for each such denial; and
- (iv) the number of refugee circuit rides to interview populations that would include Hong Kong SAR completed in the last 90 days, and the number planned for the subsequent 90-day period.

(C) **FORM.**—Each report required by subparagraph (A) shall be submitted in unclassified form, but may include a classified annex.

(D) **PUBLIC REPORTS.**—The Secretary of State shall make each report submitted under this paragraph available to the public on the internet website of the Department of State.

(j) **ADMISSION FOR CERTAIN HIGHLY SKILLED HONG KONG RESIDENTS.**—

(1) **IN GENERAL.**—Subject to subsection (c), the Secretary of Homeland Security, or, notwithstanding any other provision of law, the Secretary of State in consultation with the Secretary of Homeland Security, may provide an alien described in subsection (b) with the status of a special immigrant under section 101(a)(27) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)), if the alien—

(A) or an agent acting on behalf of the alien, submits a petition for classification under section 203(b)(4) of such Act (8 U.S.C. 1153(b)(4));

(B) is otherwise eligible to receive an immigrant visa;

(C) is otherwise admissible to the United States for permanent residence (excluding the grounds for inadmissibility specified in section 212(a)(4) of such Act (8 U.S.C. (a)(4))); and

(D) clears a background check and appropriate screening, as determined by the Secretary of Homeland Security.

(2) **ALIENS DESCRIBED.**—

(A) **PRINCIPAL ALIENS.**—An alien is described in this subsection if—

- (i) the alien—
- (I) is a Priority Hong Kong Resident; and
- (II) has earned a bachelor's or higher degree from an institution of higher education; and
- (ii) the Secretary of Homeland Security determines that such alien's relocation to the United States would provide a significant benefit to the United States.

(B) **SPOUSES AND CHILDREN.**—An alien is described in this subsection if the alien is the spouse or child of a principal alien described in paragraph (1).

(3) **NUMERICAL LIMITATIONS.**—

(A) **IN GENERAL.**—The total number of principal aliens who may be provided special immigrant status under this section may not exceed 5,000 per year for each of the five fiscal years beginning after the date of the enactment of this Act. The Secretary of Homeland Security may, in consultation with the Secretary of State, prioritize the issuance of visas to individuals with a bachelor's or higher degree in science, technology, engineering, mathematics, medicine, or health care.

(B) **EXCLUSION FROM NUMERICAL LIMITATIONS.**—Aliens provided immigrant status under this section shall not be counted against any numerical limitation under section 201, 202, 203, or 207 of the Immigration and Nationality Act (8 U.S.C. 1151, 1152, 1153, and 1157).

(4) **ELIGIBILITY FOR ADMISSION UNDER OTHER CLASSIFICATION.**—No alien shall be denied the opportunity to apply for admission under this section solely because such alien qualifies as an immediate relative or is eligible for any other immigrant classification.

(5) **TIMELINE FOR PROCESSING APPLICATIONS.**—

(A) **IN GENERAL.**—The Secretary of State and the Secretary of Homeland Security shall ensure that all steps under the control of the United States Government incidental to the approval of such applications, including required screenings and background checks, are completed not later than one year after the date on which an eligible applicant submits an application under subsection (a).

(B) **EXCEPTION.**—Notwithstanding paragraph (1), the relevant Federal agencies may take additional time to process applications described in paragraph (1) if satisfaction of national security concerns requires such additional time, provided that the Secretary of Homeland Security, or the designee of the Secretary, has determined that the applicant meets the requirements for status as a special immigrant under this section and has so notified the applicant.

(k) **TERMINATION.**—Except as provided in section 30300(f) of this Act, this section shall cease to have effect on the date that is five years after the date of the enactment of this Act.

SEC. 30304. EXPORT PROHIBITION OF MUNITIONS ITEMS TO THE HONG KONG POLICE FORCE.

Section 3 of the Act entitled “An Act to prohibit the commercial export of covered munitions items to the Hong Kong Police Force”, approved November 27, 2019 (Public Law 116-77; 133 Stat. 1173), is amended by striking “on December 31, 2021.” and inserting the following: “on the date on which the President certifies to the appropriate congressional committees that—

“(1) the Secretary of State has, on or after the date of the enactment of this paragraph, cer-

tified under section 205 of the United States-Hong Kong Policy Act of 1992 that Hong Kong warrants treatment under United States law in the same manner as United States laws were applied to Hong Kong before July 1, 1997;

“(2) the Hong Kong Police have not engaged in gross violations of human rights during the 1-year period ending on the date of such certification; and

“(3) there has been an independent examination of human rights concerns related to the crowd control tactics of the Hong Kong Police and the Government of the Hong Kong Special Administrative Region has adequately addressed those concerns.”.

SEC. 30305. SENSE OF CONGRESS ON TREATMENT OF UYGHURS AND OTHER ETHNIC MINORITIES IN THE XINJIANG UYGHUR AUTONOMOUS REGION.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Uyghurs are one of several predominantly Muslim Turkic groups living in the Xinjiang Uyghur Autonomous Region (XUAR) in the northwest of the People's Republic of China (PRC).

(2) Following Uyghur demonstrations and unrest in 2009 and clashes with government security personnel and other violent incidents in subsequent years, PRC leaders sought to “stabilize” the XUAR through large-scale arrests and extreme security measures, under the pretext of combatting alleged terrorism, religious extremism, and ethnic separatism.

(3) In May 2014, the PRC launched its “Strike Hard Against Violent Extremism” campaign, which placed further restrictions on and facilitated additional human rights violations against minorities in the XUAR under the pretext of fighting terrorism.

(4) In August 2016, Chinese Communist Party (CCP) Politburo member Chen Quanguo, former Tibet Autonomous Region (TAR) Party Secretary, known for overseeing intensifying security operations and human rights abuses in the TAR, was appointed as Party Secretary of the XUAR.

(5) Beginning in 2017, XUAR authorities have sought to forcibly “assimilate” Uyghurs and other Turkic minorities into Chinese society through a policy of cultural erasure known as “Sinicization”.

(6) Since 2018, credible reporting including from the BBC, France24, and the New York Times has shown that the Government of the PRC has built mass internment camps in the XUAR, which it calls “vocational training” centers, and detained Uyghurs and other groups in them and other facilities.

(7) Since 2015, XUAR authorities have arbitrarily detained an estimated 1,500,000 Uyghurs—12.5 percent of the XUAR's official Uyghur population of 12,000,000—and a smaller number of other ethnic minorities in the “vocational training” centers and other detention and pre-detention facilities.

(8) In 2017, the XUAR accounted for less than two percent of the PRC's total population but 21 percent of all arrests in China.

(9) The Atlantic, Radio Free Asia, and other sources have revealed that detainees are forced to renounce many of their Islamic beliefs and customs and repudiate Uyghur culture, language, and identity.

(10) Investigations by Human Rights Watch and other human rights organizations have documented how detainees are subject to political indoctrination, forced labor, crowded and unsanitary conditions, involuntary biometric data collection, both medical neglect and intrusive medical interventions, food and water deprivation, beatings, sexual violence, and torture.

(11) Research by the Australian Strategic Policy Institute suggests that, since late 2019, many detainees have been placed in higher security facilities and convicted of formal crimes.

(12) Human Rights Watch has reported that the PRC uses data collection programs, including facial recognition technology, to surveil

Uyghurs in the XUAR and to identify individuals whom authorities may detain.

(13) PRC authorities have placed countless children whose parents are detained or in exile in state-run institutions and boarding schools without the consent of their parents.

(14) New York Times reporting revealed that numerous local PRC officials who did not agree with the policies carried out in XUAR have been fired and imprisoned.

(15) Associated Press reporting documented widespread and systemic efforts by PRC authorities to force Uyghur women to take contraceptives or to subject them to sterilization or abortion, threatening to detain those who do not comply.

(16) PRC authorities prohibit family members and advocates inside and outside China from having regular communications with relatives and friends imprisoned in the XUAR, such as journalist and entrepreneur Ekpar Asat.

(17) PRC authorities have imposed pervasive restrictions on the peaceful practice of Islam in the XUAR, to the extent that Human Rights Watch asserts the PRC “has effectively outlawed the practice of Islam”.

(18) Individuals who are not detained in camps have been forced to attend political indoctrination sessions, subjected to movement restrictions, mass surveillance systems, involuntary biometric data collection, and other human rights abuses.

(19) International media, nongovernmental organizations, scholars, families, and survivors have reported on the systemic nature of many of these abuses.

(20) On June 26, 2020, a group of 50 independent United Nations experts jointly expressed alarm over China’s deteriorating human rights record, including its repression in Xinjiang, and called on the international community “to act collectively and decisively to ensure China respects human rights and abides by its international obligations”.

(21) On October 6, 2020, 39 United Nations member countries issued a public statement condemning human rights violations by PRC authorities and calling on the PRC to allow the United Nations High Commissioner for Human Rights unfettered access to Xinjiang.

(22) The United States Congress passed the Uyghur Human Rights Policy Act of 2020 (Public Law 116–145).

(23) The United States Congress passed the Global Magnitsky Human Rights Accountability Act (subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note), which has been used to sanction PRC officials and entities for their activities in the XUAR.

(24) The United States Government has implemented additional targeted restrictions on trade with Xinjiang and imposed visa and economic sanctions on PRC officials and entities for their activities in the XUAR.

(25) The United States Government has documented human rights abuses and violations of individual freedoms in the XUAR, including in the 2019 Department of State Report on International Religious Freedom.

(26) On January 19, 2021, during his confirmation hearing, Secretary of State Antony Blinken testified that “forcing men, women, and children into concentration camps, trying to in effect reeducate them to be adherents to the Chinese Communist Party—all of that speaks to an effort to commit genocide”.

(27) On January 19, 2021, Secretary of the Treasury Janet L. Yellen, during her confirmation hearing, publicly stated that China is guilty of “horrendous human rights abuses”.

(28) On January 27, 2021, in response to a question from the press regarding the Uyghurs, Secretary Blinken stated that his “judgement remains that genocide was committed against the Uyghurs”.

(29) On March 10, 2021, in response to a question on Xinjiang during his testimony before the Committee on Foreign Affairs of the House of

Representatives, Secretary Blinken reiterated, “We’ve been clear, and I’ve been clear, that I see it as genocide, other egregious abuses of human rights, and we’ll continue to make that clear.”.

(30) The 2020 Department of State Country Reports on Human Rights Practices: China states that “[g]enocide and crimes against humanity occurred during the year against the predominantly Muslim Uyghurs and other ethnic and religious minority groups in Xinjiang”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the atrocities committed by the PRC against Uyghurs and other predominantly Muslim Turkic groups in Xinjiang, including forced labor, sexual violence, the internment of over 1,000,000 individuals, and other horrific abuses must be condemned;

(2) the President, the Secretary of State, and the United States Ambassador to the United Nations should speak publicly about the ongoing human rights abuses in the XUAR, including in formal speeches at the United Nations and other international fora;

(3) the President, the Secretary of State, and the United States Ambassador to the United Nations should appeal to the United Nations Secretary-General to take a more proactive and public stance on the situation in the XUAR, including by supporting calls for an investigation and accountability for individuals and entities involved in abuses against the people of the XUAR;

(4) the United States should continue to use targeted sanctions and all diplomatic tools available to hold those responsible for the atrocities in Xinjiang to account;

(5) United States agencies engaged with China on trade, climate, defense, or other bilateral issues should include human rights abuses in the XUAR as a consideration in developing United States policy;

(6) the United States supports Radio Free Asia Uyghur, the only Uyghur-language news service in the world independent of Chinese government influence; and

(7) the United States recognizes the repeated requests from the United Nations High Commissioner for Human Rights for unfettered access to the XUAR and the PRC’s refusal to comply, and therefore—

(A) PRC authorities must allow unfettered access by the United Nations Office of the High Commissioner for Human Rights to the XUAR;

(B) the United States should urge collaborative action between the United States Government and international partners to pressure PRC authorities to allow unfettered access to the XUAR;

(C) the President, the Secretary of State, and the United States Ambassador to the United Nations should simultaneously outline a strategy to investigate the human rights abuses and crimes that have taken place in the XUAR, collect evidence, and transfer the evidence to a competent court; and

(D) United States partners and allies should undertake similar strategies in an effort to build an international investigation outside of the PRC if PRC authorities do not comply with a United Nations investigation in the XUAR.

SEC. 30306. UYGHUR HUMAN RIGHTS PROTECTION.

(a) SHORT TITLE.—This section may be cited as the “Uyghur Human Rights Protection Act”.

(b) FINDINGS.—Congress makes the following findings:

(1) The Government of the People’s Republic of China (PRC) has a long history of repressing Turkic Muslims and other Muslim minority groups, particularly Uyghurs, in the Xinjiang Uyghur Autonomous Region (commonly referred to as “Xinjiang” or “XUAR”), also known as East Turkestan. Central and regional PRC government policies have systematically discriminated against these minority groups by denying them a range of civil and political rights, par-

ticularly freedom of religion. Senior Chinese Communist Party (CCP) officials bear direct responsibility for these gross human rights violations.

(2) PRC government abuses include the arbitrary detention of more than 1,000,000 Uyghurs, ethnic Kazakhs, Kyrgyz, and members of other Muslim minority groups, separation of working age adults from their children and elderly parents, and the integration of forced labor into supply chains. Those held in detention facilities and internment camps in the XUAR have described forced political indoctrination, torture, beatings, food deprivation, sexual assault, coordinated campaigns to reduce birth rates among Uyghurs and other Turkic Muslims through forced sterilization, and denial of religious, cultural, and linguistic freedoms. Recent media reports indicate that since 2019, the PRC government has newly constructed, expanded, or fortified at least 60 detention facilities with higher security or prison-like features in Xinjiang.

(3) The PRC government’s actions against Uyghurs, ethnic Kazakhs, Kyrgyz, and members of other Muslim minority groups in the XUAR violate international human rights laws and norms, including—

(A) the International Convention on the Elimination of All Forms of Racial Discrimination, to which the PRC has acceded;

(B) the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, which the PRC has signed and ratified;

(C) The Convention on the Prevention and Punishment of the Crime of Genocide, which the PRC has signed and ratified;

(D) the International Covenant on Civil and Political Rights, which the PRC has signed; and

(E) the Universal Declaration of Human Rights and the International Labor Organization’s Force Labor Convention (no. 29) and the Abolition of Forced Labor Convention (no. 105).

(c) REFUGEE PROTECTIONS FOR CERTAIN RESIDENTS OF THE XUAR.—

(1) POPULATIONS OF SPECIAL HUMANITARIAN CONCERN.—The Secretary of State, in consultation with the Secretary of Homeland Security, shall designate, as Priority 2 refugees of special humanitarian concern—

(A) aliens who were nationals of the PRC and residents of the XUAR on January 1, 2021;

(B) aliens who fled the XUAR after June 30, 2009, and reside in other provinces of the PRC or in a third country where such alien is not firmly resettled; and

(C) the spouses, children, and parents (as such terms are defined in subsections (a) and (b) of section 101 of the Immigration and Nationality Act (8 U.S.C. 1101)) of individuals described in subparagraphs (A) and (B), except that a child shall be an unmarried person under 27 years of age.

(2) PROCESSING OF XUAR REFUGEES.—The processing of individuals described in paragraph (1) for classification as refugees may occur in the PRC or a third country.

(3) ELIGIBILITY FOR ADMISSION AS A REFUGEE.—

(A) IN GENERAL.—Aliens described in subparagraph (B) may establish, for purposes of admission as a refugee under section 207 of the Immigration and Nationality Act (8 U.S.C. 1157) or asylum under section 208 of such Act (8 U.S.C. 1158), that such alien has a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion by asserting such a fear and asserting a credible basis for concern about the possibility of such persecution.

(B) ALIENS DESCRIBED.—An alien is described in this subsection if such alien has been identified as a person of special humanitarian concern pursuant to paragraph (1) and—

(i) has experienced persecution in the XUAR by the PRC government, including—

(I) forced and arbitrary detention including in an internment or re-education camp;

(II) forced political indoctrination, torture, beatings, food deprivation, and denial of religious, cultural, and linguistic freedoms;

(III) forced labor;

(IV) forced separation from family members;

(V) other forms of systemic threats, harassment, and gross human rights violations; or

(VI) has been formally charged, detained, or convicted on account of their peaceful actions as described in the Uyghur Human Rights Policy Act of 2020 (Public Law 116-145).

(ii) is currently a national of the PRC whose residency in the XUAR, or any other area within the jurisdiction of the PRC, was revoked for having submitted to any United States Government agency a nonfrivolous application for refugee status, asylum, or any other immigration benefit under United States law.

(C) **ELIGIBILITY FOR ADMISSION UNDER OTHER CLASSIFICATION.**—An alien may not be denied the opportunity to apply for admission as a refugee or asylum under this section solely because such alien qualifies as an immediate relative of a national of the United States or is eligible for admission to the United States under any other immigrant classification.

(4) **PRIORITY.**—The Secretary of State shall prioritize bilateral diplomacy with third countries hosting former residents of the XUAR and who face significant diplomatic pressures from the PRC government.

(5) **REPORTING REQUIREMENTS.**—

(A) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act and every 90 days thereafter, the Secretary of State and the Secretary of Homeland Security shall submit to the appropriate congressional committees, the Committee on the Judiciary of the House of Representatives, and the Committee on the Judiciary of the Senate a report on the matters described in subparagraph (B).

(B) **MATTERS TO BE INCLUDED.**—Each report required by subparagraph (A) shall include, with respect to applications submitted under this section—

(i) the total number of applications that are pending at the end of the reporting period;

(ii) the average wait-times and number of applicants who are currently pending—

(I) a pre-screening interview with a resettlement support center;

(II) an interview with United States Citizenship and Immigration Services;

(III) the completion of security checks;

(IV) receipt of a final decision after completion of an interview with United States Citizenship and Immigration Services; and

(iii) the number of denials of applications for refugee status, disaggregated by the reason for each such denial.

(C) **FORM.**—Each report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(D) **PUBLIC REPORTS.**—The Secretary of State shall make each report submitted under this subsection available to the public on the internet website of the Department of State.

(d) **STATEMENT OF POLICY ON ENCOURAGING ALLIES AND PARTNERS TO MAKE SIMILAR ACCOMMODATIONS.**—It is the policy of the United States to encourage United States allies and partners to make accommodations similar to the accommodations made in this section for residents of the XUAR who are fleeing oppression by the PRC Government.

(e) **TERMINATION.**—This section shall terminate on the date that is ten years after the date of the enactment of this Act.

SEC. 30307. REMOVAL OF MEMBERS OF THE UNITED NATIONS HUMAN RIGHTS COUNCIL THAT COMMIT HUMAN RIGHTS ABUSES.

The President shall direct the Permanent Representative of the United States to the United Nations to use the voice, vote, and influence of the United States to—

(1) reform the process for removing Member States of the United Nations Human Rights

Council that commit gross and systemic violations of human rights, including—

(A) lowering the threshold vote at the United Nations General Assembly for removal to a simple majority;

(B) ensuring information detailing the Member State's human rights record is publicly available before the vote on removal; and

(C) making the vote of each country on the removal from the United Nations Human Rights Council publicly available;

(2) reform the rules on electing members to the United Nations Human Rights Council to ensure United Nations Member States that have committed gross and systemic violations of human rights are not elected to the Human Rights Council; and

(3) oppose the election to the United Nations Human Rights Council of any United Nations Member State—

(A) currently designated as a country engaged in a consistent pattern of gross violations of internationally recognized human rights pursuant to section 116 or section 502B of the Foreign Assistance Act of 1961 (22 U.S.C. 2151n or 2304);

(B) the government of which the Secretary of State currently determines has repeatedly provided support for international terrorism pursuant to—

(i) section 1754(c) of the National Defense Authorization Act for Fiscal Year 2019;

(ii) section 620A of the Foreign Assistance Act of 1961 (22 U.S.C. 2371);

(iii) section 40 of the Arms Export Control Act (22 U.S.C. 2779A); or

(iv) any other provision of law;

(C) currently designated as a Tier 3 country under the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.);

(D) the government of which is identified on the list published by the Secretary of State pursuant to section 404(b) of the Child Soldiers Prevention Act of 2008 (22 U.S.C. 2370c-1(b)) as a government that recruits and uses child soldiers; or

(E) the government of which the United States determines to have committed genocide or crimes against humanity.

SEC. 30308. POLICY WITH RESPECT TO TIBET.

(a) **RANK OF UNITED STATES SPECIAL COORDINATOR FOR TIBETAN ISSUES.**—Section 621 of the Tibetan Policy Act of 2002 (22 U.S.C. 6901 note) is amended—

(1) by redesignating subsections (b), (c), (d), and (e), as subsections (c), (d), (e), and (f), respectively; and

(2) by inserting after subsection (a) the following new subsection:

“(b) **RANK.**—The Special Coordinator shall either be appointed by the President, with the advice and consent of the Senate, or shall be an individual holding the rank of Under Secretary of State or higher.”.

(b) **TIBET UNIT AT UNITED STATES EMBASSY IN BEIJING.**—

(1) **IN GENERAL.**—The Secretary of State shall establish a Tibet Unit in the Political Section of the United States Embassy in Beijing, People's Republic of China (PRC).

(2) **OPERATION.**—The Tibet Unit established under paragraph (1) shall operate until such time as the Government of the PRC permits—

(A) the United States Consulate General in Chengdu, PRC, to reopen; or

(B) a United States Consulate General in Lhasa, Tibet, to open.

(3) **STAFF.**—

(A) **IN GENERAL.**—The Secretary shall—

(i) assign not fewer than two United States direct-hire personnel to the Tibet Unit established under paragraph (1); and

(ii) hire not fewer than one locally engaged staff member for such unit.

(B) **LANGUAGE TRAINING.**—The Secretary shall make Tibetan language training available to the personnel assigned under subparagraph (A), consistent with the Tibetan Policy Act of 2002 (22 U.S.C. 6901 note).

SEC. 30309. UNITED STATES POLICY AND INTERNATIONAL ENGAGEMENT ON THE SUCCESSION OR REINCARNATION OF THE DALAI LAMA AND RELIGIOUS FREEDOM OF TIBETAN BUDDHISTS.

(a) **REAFFIRMATION OF POLICY.**—It is the policy of the United States, as provided under section 342(b) of division FF of the Consolidated Appropriations Act, 2021 (Public Law 116-260), that any “interference by the Government of the People's Republic of China or any other government in the process of recognizing a successor or reincarnation of the 14th Dalai Lama and any future Dalai Lamas would represent a clear abuse of the right to religious freedom of Tibetan Buddhists and the Tibetan people”.

(b) **INTERNATIONAL EFFORTS TO PROTECT RELIGIOUS FREEDOM OF TIBETAN BUDDHISTS.**—The Secretary of State should engage with United States allies and partners to—

(1) support Tibetan Buddhist religious leaders' sole religious authority to identify and install the 15th Dalai Lama;

(2) oppose claims by the Government of the People's Republic of China (PRC) that the PRC has the authority to decide for Tibetan Buddhists the 15th Dalai Lama; and

(3) reject interference by the Government of the PRC in the religious freedom of Tibetan Buddhists.

SEC. 30310. DEVELOPMENT AND DEPLOYMENT OF INTERNET FREEDOM AND GREAT FIREWALL CIRCUMVENTION TOOLS FOR THE PEOPLE OF HONG KONG.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The People's Republic of China (PRC) has repeatedly violated its obligations under the Joint Declaration by suppressing the basic rights and freedoms of the people of Hong Kong.

(2) On June 30, 2020, the National People's Congress passed a “National Security Law” that further erodes Hong Kong's autonomy and enables authorities to suppress dissent.

(3) The Government of the PRC continues to utilize the National Security Law to undermine the fundamental rights of the Hong Kong people through suppression of the freedom of speech, assembly, religion, and the press.

(4) Article 9 of the National Security Law authorizes unprecedented regulation and supervision of internet activity in Hong Kong, including expanded police powers to force internet service providers to censor content, hand over user information, and block access to platforms.

(5) On January 13, 2021, the Hong Kong Broadband Network blocked public access to HK Chronicles, a website promoting pro-democracy viewpoints, under the authorities of the National Security Law.

(6) On February 12, 2021, internet service providers blocked access to the Taiwan Transitional Justice Commission website in Hong Kong.

(7) Major tech companies, including Facebook, Twitter, WhatsApp and Google, have stopped reviewing requests for user data from Hong Kong authorities.

(8) On February 28, 2021, 47 pro-democracy activists in Hong Kong were arrested and charged under the National Security Law on the charge of “conspiracy to commit subversion”.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the United States should—

(1) support the ability of the people of Hong Kong to maintain their freedom to access information online; and

(2) focus on investments in technologies that facilitate the unhindered exchange of information in Hong Kong in advance of any future efforts by the Chinese Communist Party—

(A) to suppress internet access;

(B) to increase online censorship; or

(C) to inhibit online communication and content-sharing by the people of Hong Kong.

(c) **HONG KONG INTERNET FREEDOM PROGRAM.**—

(1) WORKING GROUP.—

(A) IN GENERAL.—The Secretary of State is authorized to establish a working group to develop a strategy to bolster internet resiliency and on-line access in Hong Kong.

(B) MEMBERSHIP.—The working group under subparagraph (A) shall consist of—

(i) the Under Secretary of State for Civilian Security, Democracy, and Human Rights;

(ii) the Assistant Secretary of State for East Asian and Pacific Affairs;

(iii) the Chief Executive Officer of the United States Agency for Global Media and the President of the Open Technology Fund of the Agency; and

(iv) the Administrator of the United States Agency for International Development.

(2) HONG KONG INTERNET FREEDOM PROGRAMS.—

(A) DEPARTMENT OF STATE.—The Secretary of State shall establish a Hong Kong Internet Freedom Program in the Bureau of Democracy, Human Rights, and Labor in the Department of State.

(B) OPEN TECHNOLOGY FUND.—The President of the Open Technology Fund of the United States Agency for Global Media is authorized to establish a Hong Kong Internet Freedom Program.

(C) OPERATION.—The Programs referred to in subparagraphs (A) and (B) shall operate independently, but in strategic coordination with other entities in the working group under paragraph (1). The Open Technology Fund shall remain independent from Department of State direction in its implementation of the Program of such Fund, and any other internet freedom programs.

(3) INDEPENDENCE.—During the period beginning on the date of the enactment of this Act and ending on September 30, 2023, the Hong Kong Internet Freedom Programs described in paragraph (2) shall be carried out independently from any other internet freedom programs relating to the People's Republic of China carried out by the Department of State or the Open Technology Fund of the United States Agency for Global Media, as the case may be, in order that such Hong Kong Internet Freedom Programs may focus on supporting liberties presently enjoyed by the people of Hong Kong.

(4) CONSOLIDATION OF DEPARTMENT OF STATE PROGRAM.—Beginning on October 1, 2023, the Secretary of State may—

(A) consolidate the Hong Kong Internet Freedom Program of the Department of State with any other internet freedom programs relating to the People's Republic of China carried out by the Bureau of Democracy, Human Rights, and Labor; or

(B) continue to carry out the Program in accordance with paragraph (3).

(5) CONSOLIDATION OF OPEN TECHNOLOGY FUND PROGRAM.—Beginning on October 1, 2023, the President of the Open Technology Fund of the United States Agency for Global Media may—

(A) consolidate the Hong Kong Internet Freedom Program of the Fund with any other internet freedom programs relating to the People's Republic of China carried out by the Fund; or

(B) continue to carry out the Program in accordance with paragraph (3).

(d) SUPPORT FOR INTERNET FREEDOM TECHNOLOGY PROGRAMS.—

(1) GRANTS AUTHORIZED.—

(A) IN GENERAL.—The Secretary of State, working through the Bureau of Democracy, Human Rights, and Labor, and President of the Open Technology Fund of the United States Agency for Global Media, are each separately and independently authorized to award grants and contracts to private organizations to support and develop programs in Hong Kong that promote or expand—

(i) an open, interoperable, reliable and secure internet; and

(ii) the online exercise of human rights and fundamental freedoms of individual citizens, ac-

tivists, human rights defenders, independent journalists, civil society organizations, and marginalized populations in Hong Kong.

(B) GOALS.—The goals of the programs developed pursuant to grants awarded pursuant to subparagraph (A) should be—

(i) to make the internet available in Hong Kong;

(ii) to increase the number of the tools in the technology portfolio;

(iii) to promote the availability of such technologies and tools in Hong Kong;

(iv) to encourage the adoption of such technologies and tools by the people of Hong Kong;

(v) to scale up the distribution of such technologies and tools throughout Hong Kong;

(vi) to prioritize the development of tools, components, code, and technologies that are fully open-source, to the extent practicable;

(vii) to conduct research on repressive tactics that undermine internet freedom in Hong Kong;

(viii) to ensure digital safety guidance and support is available to repressed individual citizens, human rights defenders, independent jour-

nalists, civil society organizations and marginalized populations in Hong Kong; and

(ix) to engage United States private industry, including e-commerce firms and social networking companies, on the importance of preserving internet access in Hong Kong.

(C) GRANT RECIPIENTS.—Grants awarded pursuant to subparagraph (A) shall be distributed to multiple vendors and suppliers through an open, fair, competitive, and evidence-based decision process—

(i) to diversify the technical base; and

(ii) to reduce the risk of misuse by bad actors.

(D) SECURITY AUDITS.—New technologies developed using grants awarded pursuant to subparagraph (A) shall undergo comprehensive security audits to ensure such technologies are secure and have not been compromised in a manner detrimental to the interests of the United States or to individuals or organizations benefiting from programs supported by the Open Technology Fund.

(2) FUNDING SOURCE.—The Secretary of State is authorized to expend funds made available to the Human Rights and Democracy Fund of the Bureau of Democracy, Human Rights, and Labor of the Department of State for each of fiscal years 2022 and 2023 for grants authorized under paragraph (1) by any entity in the working group established under subsection (c)(1).

(3) AUTHORIZATION OF APPROPRIATIONS.—

(A) OPEN TECHNOLOGY FUND.—In addition to the funds authorized to be expended pursuant to paragraph (2), there are authorized to be appropriated to the Open Technology Fund of the United States Agency for Global Media \$5,000,000 for each of fiscal years 2022 and 2023 for grants to carry out this subsection. Such amounts are in addition to any amounts authorized to be appropriated for the Open Technology Fund under section 1299P of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283).

(B) BUREAU OF DEMOCRACY, HUMAN RIGHTS, AND LABOR.—In addition to the funds authorized to be expended pursuant to paragraph (2), there are authorized to be appropriated to the Office of Internet Freedom Programs of the Bureau of Democracy, Human Rights, and Labor of the Department of State \$10,000,000 for each of fiscal years 2022 and 2023 to carry out this subsection.

(C) AVAILABILITY.—Amounts authorized to be appropriated pursuant to subparagraphs (A) and (B) shall remain available until expended.

(e) STRATEGIC PLANNING REPORT.—Not later than 120 days after the date of the enactment of this Act, the Secretary of State and the working group under subsection (c)(1) shall submit to the appropriate congressional committees a classified report that—

(1) describes the Federal Government's plan to bolster and increase the availability of Great Firewall circumvention and internet freedom

technology in Hong Kong during fiscal year 2022;

(2) outlines a plan for—

(A) supporting the preservation of an open, interoperable, reliable, and secure internet in Hong Kong;

(B) increasing the supply of the technology referred to in paragraph (1);

(C) accelerating the dissemination of such technology;

(D) promoting the availability of internet freedom in Hong Kong;

(E) utilizing presently-available tools in the existing relevant portfolios for further use in the unique context of Hong Kong;

(F) expanding the portfolio of tools in order to diversify and strengthen the effectiveness and resiliency of the circumvention efforts;

(G) providing training for high-risk groups and individuals in Hong Kong; and

(H) detecting analyzing, and responding to new and evolving censorship threats;

(3) includes a detailed description of the technical and fiscal steps necessary to safely implement the plans referred to in paragraphs (1) and (2), including an analysis of the market conditions in Hong Kong;

(4) describes the Federal Government's plans for awarding grants to private organizations for the purposes described in subsection (d)(1)(A);

(5) outlines the working group's consultations regarding the implementation of this section to ensure that all Federal efforts are aligned and well coordinated; and

(6) outlines the Department of State's strategy to influence global internet legal standards at international organizations and multilateral fora.

(f) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Relations, the Committee on Appropriations, and the Select Committee on Intelligence of the Senate; and

(B) the Committee on Foreign Affairs, the Committee on Appropriations, and the Permanent Select Committee on Intelligence of the House of Representatives.

(2) JOINT DECLARATION.—The term “Joint Declaration” means the Joint Declaration of the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the People's Republic of China on the Question of Hong Kong, done at Beijing on December 19, 1984.

SEC. 30311. AUTHORIZATION OF APPROPRIATIONS FOR PROTECTING HUMAN RIGHTS IN THE PEOPLE'S REPUBLIC OF CHINA.

(a) IN GENERAL.—Amounts authorized to be appropriated or otherwise made available to carry out section 409 of the Asia Reassurance Initiative Act of 2019 (Public Law 115-409) should include programs that prioritize the protection and advancement of the freedoms of association, assembly, religion, and expression for women, human rights activists, and ethnic and religious minorities in the People's Republic of China (PRC).

(b) USE OF FUNDS.—Amounts appropriated pursuant to section 409 of the Asia Reassurance Initiative Act of 2019 (Public Law 115-409) may be used to fund nongovernmental agencies within the Indo-Pacific region that are focused on the issues described in subsection (a).

(c) CONSULTATION REQUIREMENT.—In carrying out this section, the Assistant Secretary of Democracy, Human Rights and Labor shall consult with the appropriate congressional committees and representatives of civil society regarding—

(1) strengthening the capacity of the organizations referred to in subsection (b);

(2) protecting members of the groups referred to in subsection (a) who have been targeted for arrest, harassment, forced sterilizations, coercive abortions, forced labor, or intimidation, including members residing outside of the PRC; and

(3) messaging efforts to reach the broadest possible audiences within the PRC about United States Government efforts to protect freedom of association, expression, assembly, and the rights of ethnic minorities.

SEC. 30312. MODIFICATIONS TO AND REAUTHORIZATION OF SANCTIONS WITH RESPECT TO HUMAN RIGHTS VIOLATIONS.

(a) **DEFINITIONS.**—Section 1262 of the Global Magnitsky Human Rights Accountability Act (Subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note) is amended by striking paragraph (2).

(b) **SENSE OF CONGRESS.**—(1) The Global Magnitsky Human Rights Accountability Act (Subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note) is amended by inserting after section 1262 the following new section:

“SEC. 1262A. SENSE OF CONGRESS.

“It is the sense of Congress that the President should establish and regularize information sharing and sanctions-related decision making with like-minded governments possessing human rights and anti-corruption sanctions programs similar in nature to those authorized under this subtitle.”; and

(2) The table of contents in section 2(b) and in title XII of division A of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) are each amended by inserting after the items relating to section 1262 the following:

“Sec. 1262A. Sense of Congress.”.

(c) **IMPOSITION OF SANCTIONS.**—

(1) **IN GENERAL.**—Subsection (a) of section 1263 of the Global Magnitsky Human Rights Accountability Act (Subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note) is amended to read as follows:

“(a) **IN GENERAL.**—The President may impose the sanctions described in subsection (b) with respect to any foreign person that the President determines, based on credible information—

“(1) is responsible for or complicit in, or has directly or indirectly engaged in, serious human rights abuse or any violation of internationally recognized human rights;

“(2) is a current or former government official, or a person acting for or on behalf of such an official, who is responsible for or complicit in, or has directly or indirectly engaged in—

“(A) corruption; or

“(B) the transfer or facilitation of the transfer of the proceeds of corruption;

“(3) is or has been a leader or official of—

“(A) an entity, including a government entity, that has engaged in, or whose members have engaged in, any of the activities described in subparagraph (A) or (B) related to the tenure of the leader or official; or

“(B) an entity whose property and interests in property are blocked pursuant to this section as a result of activities related to the tenure of the leader or official;

“(4) has materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of—

“(A) an activity described in subparagraph (A) or (B) that is conducted by a foreign person;

“(B) a person whose property and interests in property are blocked pursuant to this section; or

“(C) an entity, including a government entity, that has engaged in, or whose members have engaged in, an activity described in subparagraph (A) or (B) conducted by a foreign person; or

“(5) is owned or controlled by, or acts or is purported to act for or on behalf of, directly or indirectly, a person whose property and interests in property are blocked pursuant to this section.”.

(2) **CONSIDERATION OF CERTAIN INFORMATION.**—Subsection (c)(2) of such section is amended by inserting “corruption and” after “monitor”.

(3) **REQUESTS BY CONGRESS.**—Subsection (d) of such section is amended—

(A) in paragraph (1), in the matter preceding subparagraph (A), by striking “subsection (a)” and inserting “subsection (a)(1)”; and

(B) in paragraph (2)—
(i) in subparagraph (A)—

(I) in the subparagraph heading, by striking “HUMAN RIGHTS VIOLATIONS” and inserting “SERIOUS HUMAN RIGHTS ABUSE OR VIOLATIONS OF INTERNATIONALLY RECOGNIZED HUMAN RIGHTS”; and

(II) by striking “described in paragraph (1) or (2) of subsection (a)” and inserting “described in subsection (a)(1) relating to serious human rights abuse or any violation of internationally recognized human rights”; and

(ii) in subparagraph (B)—

(I) in the matter preceding clause (i), by striking “described in paragraph (3) or (4) of subsection (a)” and inserting “described in subsection (a)(1) relating to corruption or the transfer or facilitation of the transfer of the proceeds of corruption”; and

(II) by striking “ranking member of” and all that follows through the period at the end and inserting “ranking member of one of the appropriate congressional committees.”.

(d) **REPORTS TO CONGRESS.**—Section 1264(a) of the Global Magnitsky Human Rights Accountability Act (Subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note) is amended—

(1) in paragraph (5), by striking “; and” and inserting a semicolon;

(2) in paragraph (6), by striking the period at the end and inserting “;”; and

(3) by adding at the end the following:

“(7) a description of additional steps taken by the President through diplomacy, international engagement, and assistance to foreign or security sectors to address persistent underlying causes of serious human rights abuse, violations of internationally recognized human rights, and corruption in each country in which foreign persons with respect to which sanctions have been imposed under section 1263 are located; and

“(8) a description of additional steps taken by the President to ensure the pursuit of judicial accountability in appropriate jurisdictions with respect to those foreign persons subject to sanctions under section 1263 for serious human rights abuse, violations of internationally recognized human rights, and corruption.”.

(e) **REPEAL OF SUNSET.**—(1) Section 1265 of the Global Magnitsky Human Rights Accountability Act (Subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note) is repealed.

(2) The table of contents in section 2(b) and in title XII of division A of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) are each amended by striking the items relating to section 1265.

SEC. 30313. SENSE OF CONGRESS CONDEMNING ANTI-ASIAN RACISM AND DISCRIMINATION.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Since the onset of the COVID–19 pandemic, crimes and discrimination against Asians and those of Asian descent have risen dramatically worldwide. In May 2020, United Nations Secretary-General Antonio Guterres said “the pandemic continues to unleash a tsunami of hate and xenophobia, scapegoating and scare-mongering” and urged governments to “act now to strengthen the immunity of our societies against the virus of hate”.

(2) Asian American and Pacific Island (AAPI) workers make up a large portion of the essential workers on the frontlines of the COVID–19 pandemic, making up 8.5 percent of all essential healthcare workers in the United States. AAPI workers also make up a large share—between 6 percent and 12 percent based on sector—of the biomedical field.

(3) The United States Census notes that Americans of Asian descent alone made up nearly 5.9 percent of the United States population in 2019, and that Asian Americans are the fastest-grow-

ing racial group in the United States, projected to represent 14 percent of the United States population by 2065.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the reprehensible attacks on people of Asian descent and concerning increase in anti-Asian sentiment and racism in the United States and around the world have no place in a peaceful, civilized, and tolerant world;

(2) the United States is a diverse country with a proud tradition of immigration, and the strength and vibrancy of the United States is enhanced by the diverse ethnic backgrounds and tolerance of its citizens, including Asian Americans and Pacific Islanders;

(3) the United States Government should encourage foreign governments to use the official and scientific names for the COVID–19 pandemic, as recommended by the World Health Organization and the Centers for Disease Control and Prevention; and

(4) the United States Government and other governments around the world must actively oppose racism and intolerance, and use all available and appropriate tools to combat the spread of anti-Asian racism and discrimination.

SEC. 30314. ANNUAL REPORTING ON CENSORSHIP OF FREE SPEECH WITH RESPECT TO INTERNATIONAL ABUSES OF HUMAN RIGHTS.

Section 116(d) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151n(d)) is amended—

(1) in paragraph (11)(C), by striking “and” at the end;

(2) in paragraph (12)(C)(ii), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

“(13) wherever applicable, instances in which the government of each country has attempted to extraterritorially intimidate or pressure a company or entity to censor or self-censor the speech of its employees, contractors, customers, or associated staff with regards to the abuse of human rights in such country, or sought retaliation against such employees or contractors for the same, including any instance in which the Government of the People’s Republic of China has sought to extraterritorially censor or punish speech that is otherwise legal in the United States on the topics of—

“(A) repression and violation of fundamental freedoms in Hong Kong;

“(B) repression and persecution of religious and ethnic minorities in China, including in the Xinjiang Uyghur Autonomous Region and the Tibet Autonomous Region;

“(C) efforts to proliferate and use surveillance technologies to surveil activists, journalists, opposition politicians, or to profile persons of different ethnicities; and

“(D) other gross violations of human rights; and

“(14) wherever applicable, instances in which a company or entity located in or based in a third country has censored or self-censored the speech of its employees, contractors, customers, or associated staff on the topic of abuse of human rights in each country or sought to retaliate against such employees for the same, due to intimidation or pressure from or the fear of intimidation by the foreign government.”.

SEC. 30315. POLICY TOWARD THE XXIV OLYMPIC WINTER GAMES AND THE XIII PARALYMPIC WINTER GAMES.

(a) **FINDINGS.**—Congress finds the following:

(1) In October 2020, 39 countries at the United Nations Third Committee of the General Assembly appealed for action on the mass arbitrary detentions and other crimes against the Uyghur Muslim population of the Xinjiang Uyghur Autonomous Region.

(2) The 2018 concluding observations of the United Nations Committee on the Elimination of Racial Discrimination decried reports of mass arbitrary detention of Uyghurs.

(3) Over 400 international nongovernmental organizations have joined together to decry the

mass arbitrary detentions of Uyghurs in the Xinjiang Uyghur Autonomous Region.

(4) The Olympic Charter states that the practice of sport “is a human right” that “shall be secured without discrimination of any kind, such as race, colour, sex, sexual orientation, language, religion, political or other opinion, national or social origin, property, birth or other status”, a right that by definition cannot be secured in a country in which over 1,000,000 people are imprisoned in camps because of their race, language, and religion.

(5) The 2008 Olympics in Beijing were accompanied by widespread tracking, arrest, and intimidation of foreign journalists and bloggers, as well as restrictions on movement of journalists, contrary to explicit commitments made by the Government of the People’s Republic of China (PRC) to the International Olympic Committee.

(6) The Government of the PRC denied visas for some journalists granted press accreditation for the 2008 Olympic Games, and the Beijing Organising Committee of the Olympic Games repeatedly refused to address incidents involving freedom of expression.

(7) The International Olympic Committee faced broad criticism for failing to adequately anticipate infringements by the Government of the PRC’s on freedom of expression and press for international media and 2008 Olympics participants, and failing to hold the Government of the PRC to their own commitments to safeguard human rights during the 2008 games.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the International Olympic Committee should—

(1) consider that the Olympic Charter’s principles of solidarity and nondiscrimination are hard to reconcile with holding the 2022 Winter Games in a country the government of which stands credibly accused of perpetrating crimes against humanity and genocide against ethnic and religious minorities;

(2) take into account the recent precedent of the 2008 games, at which Olympic athletes, spectators, and international media had their fundamental freedoms severely challenged, and the likely limitations the Government of the PRC will seek to enforce on participants speaking out about ongoing persecution of the Uyghurs and other human rights abuses in the PRC, despite repeated commitments by the Government of the PRC;

(3) emphasize that the International Olympic Committee is not opposed to moving an Olympic competition in all circumstances, and should immediately rebid the 2022 Winter Olympic Games to be hosted by a country that recognizes and respects human rights;

(4) affirm the International Olympic Committee’s—

(A) desire to stay above politics does not permit turning a blind eye to mass atrocity crimes, which cannot and should not be dismissed as mere political concerns; and

(B) commitment to the fundamental rights instruments of the international system, which are beyond partisan or domestic policy, and upon which the success of the entire Olympic project depends;

(5) propose a set of clear, executable actions to be taken by the International Olympic Committee upon infringement of freedom of expression by a host country’s government during any Olympics event, including the 2022 Winter Olympics, against athletes, participants, and international media; and

(6) rescind Rule 50 of the Olympic Charter, which restricts the freedom of expression by athletes when competing during Olympics events, and affirm the rights of athletes to political and other speech during athletic competitions, including speech that is critical of their host countries.

(c) STATEMENT OF POLICY.—It shall be the policy of the United States—

(1) to implement a presidential and cabinet level diplomatic boycott of the XXIV Olympic

Winter Games and the XIII Paralympic Winter Games in the PRC;

(2) to encourage other nations, especially democratic partners and allies, to do the same; and

(3) to call for an end to the Chinese Communist Party’s ongoing human rights abuses, including the Uyghur genocide.

SEC. 30316. REVIEW AND CONTROLS ON EXPORT OF ITEMS WITH CRITICAL CAPABILITIES TO ENABLE HUMAN RIGHTS ABUSES.

(a) STATEMENT OF POLICY.—It is the policy of the United States to use export controls to the extent necessary to further the protection of internationally recognized human rights.

(b) REVIEW OF ITEMS WITH CRITICAL CAPABILITIES TO ENABLE HUMAN RIGHTS ABUSES.—Not later than 180 days after the date of the enactment of this Act, and as appropriate thereafter, the Secretary, in coordination with the Secretary of State, the Director of National Intelligence, and the heads of other Federal agencies as appropriate, shall conduct a review of items subject to controls for crime control reasons pursuant to section 742.7 of the Export Administration Regulations.

(c) CONTROLS.—In furtherance of the policy set forth in subsection (a), not later than 60 days after completing the review required by subsection (b), the Secretary, in coordination with the heads of other Federal agencies as appropriate, shall determine whether additional export controls are needed to protect human rights, including whether—

(1) controls for crime control reasons pursuant to section 742.7 of the Export Administration Regulations should be imposed on additional items, including items with critical capabilities to enable human rights abuses involving—

(A) censorship or social control;

(B) surveillance, interception, or restriction of communications;

(C) monitoring or restricting access to or use of the internet;

(D) identification of individuals through facial or voice recognition or biometric indicators; or

(E) DNA sequencing; or

(2) end-use and end-user controls should be imposed on the export, reexport, or in-country transfer of certain items with critical capabilities to enable human rights abuses that are subject to the Export Administration Regulations if the person seeking to export, reexport, or transfer the item has knowledge, or the Secretary determines and so informs that person, that the end-user or ultimate consignee will use the item to enable human rights abuses.

(d) COOPERATION OF OTHER AGENCIES.—Upon request from the Secretary, the head of a Federal agency shall provide full support and cooperation to the Secretary in carrying out this section.

(e) INTERNATIONAL COORDINATION ON CONTROLS TO PROTECT HUMAN RIGHTS.—It shall be the policy of the United States to seek to secure the cooperation of other governments to impose export controls that are consistent, to the extent possible, with the controls imposed under this section.

(f) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate committees of Congress (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) a report on the matters covered by this section. The report shall be submitted in unclassified form, but may include a classified annex.

(g) CONFORMING AMENDMENT.—Section 1752(2)(A) of the Export Control Reform Act of 2018 (50 U.S.C. 20 4811(2)(A)) is amended—

(1) in clause (iv), by striking “; or” and inserting a semicolon;

(2) in clause (v), by striking the period and inserting “; or”; and

(3) by adding at the end the following:

“(vi) serious human rights abuses.”.

(h) DEFINITIONS.—In this section:

(1) END-USER; KNOWLEDGE; ULTIMATE CONSIGNEE.—The terms “end-user”, “knowledge”, and “ultimate consignee” have the meanings given those terms in section 772.1 of the Export Administration Regulations.

(2) EXPORT; EXPORT ADMINISTRATION REGULATIONS; IN-COUNTRY TRANSFER; ITEM; REEXPORT.—The terms “export”, “Export Administration Regulations”, “in-country transfer”, “item”, and “reexport” have the meanings given those terms in section 1742 of the Export Control Reform Act of 2018 (50 U.S.C. 4801).

(3) SECRETARY.—The term “Secretary” means the Secretary of Commerce.

SEC. 30317. SENSE OF CONGRESS ON COMMERCIAL EXPORT CONTROL POLICY.

It is the sense of Congress that the President should reexamine United States commercial export control policy for any country, including the People’s Republic of China, that is known to supply arms or dual use items to any country the government of which has been designated pursuant to any applicable provision of law as a state sponsor of terrorism or to any entity designated by the Secretary of State as a foreign terrorist organization.

SEC. 30318. IMPOSITION OF SANCTIONS WITH RESPECT TO SYSTEMATIC RAPE, COERCIVE ABORTION, FORCED STERILIZATION, OR INVOLUNTARY CONTRACEPTIVE IMPLANTATION IN THE XINJIANG UYGHUR AUTONOMOUS REGION.

(a) IN GENERAL.—Section 6(a)(1) of the Uyghur Human Rights Policy Act of 2020 (Public Law 116-145; 22 U.S.C. 6901 note) is amended by inserting after subparagraph (E) the following:

“(F) Systematic rape, coercive abortion, forced sterilization, or involuntary contraceptive implantation policies and practices.”.

(b) EFFECTIVE DATE; APPLICABILITY.—The amendment made by subsection (a)—

(1) takes effect on the date of the enactment of this Act; and

(2) applies with respect to the first report required by section 6(a)(1) of the Uyghur Human Rights Policy Act of 2020 submitted after such date of enactment.

SEC. 30319. SENSE OF CONGRESS REGARDING CENSORSHIP OF POLITICAL SPEECH.

(a) FINDINGS.—Congress finds the following:

(1) The People’s Republic of China censors political speech of throughout the country through many means including through mass censorship of the Internet, the Great Firewall, radical curtailment of the freedom of the press.

(2) The PRC employs several other means to stifle dissent including instigating private person to target dissenting individuals and private companies to target offending companies.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) censorship of political speech in China is contrary to the human rights of the Chinese people;

(2) censorship of political speech, whether conducted by the government, or private or quasi-private entities is antithetical to United States values and interests; and

(3) the democratic way to conduct political disputes is through argument and persuasion, not force or political speech.

SEC. 30320. REPORT ON MANNER AND EXTENT TO WHICH THE GOVERNMENT OF CHINA EXPLOITS HONG KONG TO CIRCUMVENT UNITED STATES LAWS AND PROTECTIONS.

Title III of the United States-Hong Kong Policy Act of 1992 (22 U.S.C. 5731 et seq.) is amended by adding at the end the following:

“SEC. 303. REPORT ON MANNER AND EXTENT TO WHICH THE GOVERNMENT OF CHINA EXPLOITS HONG KONG TO CIRCUMVENT UNITED STATES LAWS AND PROTECTIONS.

“(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this section,

the Secretary of State shall submit to the appropriate congressional committees a report on the manner and extent to which the Government of China uses the status of Hong Kong to circumvent the laws and protections of the United States.

“(b) ELEMENTS.—The report required by subsection (a) shall include the following:

“(1) In consultation with the Secretary of Commerce, the Secretary of Homeland Security, and the Director of National Intelligence—

“(A) an assessment of how the Government of China uses Hong Kong to circumvent United States export controls; and

“(B) a list of all significant incidents in which the Government of China used Hong Kong to circumvent such controls during the reporting period.

“(2) In consultation with the Secretary of the Treasury and the Secretary of Commerce—

“(A) an assessment of how the Government of China uses Hong Kong to circumvent duties on merchandise exported to the United States from the People's Republic of China; and

“(B) a list of all significant incidents in which the Government of China used Hong Kong to circumvent such duties during the reporting period.

“(3) In consultation with the Secretary of the Treasury, the Secretary of Homeland Security, and the Director of National Intelligence—

“(A) an assessment of how the Government of China uses Hong Kong to circumvent sanctions imposed by the United States or pursuant to multilateral regimes; and

“(B) a list of all significant incidents in which the Government of China used Hong Kong to circumvent such sanctions during the reporting period.

“(4) In consultation with the Secretary of Homeland Security and the Director of National Intelligence, an assessment of how the Government of China uses formal or informal means to extradite or coercively move individuals, including United States persons, from Hong Kong to the People's Republic of China.

“(5) In consultation with the Secretary of Defense, the Director of National Intelligence, and the Director of Homeland Security—

“(A) an assessment of how the intelligence, security, and law enforcement agencies of the Government of China, including the Ministry of State Security, the Ministry of Public Security, and the People's Armed Police, use the Hong Kong Security Bureau and other security agencies in Hong Kong to conduct espionage on foreign nationals, including United States persons, conduct influence operations, or violate civil liberties guaranteed under the laws of Hong Kong; and

“(B) a list of all significant incidents of such espionage, influence operations, or violations of civil liberties during the reporting period.

“(c) FORM OF REPORT; AVAILABILITY.—

“(1) FORM.—The report required by subsection (a) shall be submitted in unclassified form, but may include a classified index.

“(2) AVAILABILITY.—The unclassified portion of the report required by subsection (a) shall be posted on a publicly available internet website of the Department of State.

“(d) DEFINITIONS.—In this section:

“(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ‘appropriate congressional committees’ means—

“(A) the Committee on Foreign Relations, the Committee on Banking, Housing, and Urban Affairs, the Committee on Finance, and the Select Committee on Intelligence of the Senate; and

“(B) the Committee on Foreign Affairs, the Committee on Financial Services, the Permanent Select Committee on Intelligence, and the Committee on Ways and Means of the House of Representatives.

“(2) FOREIGN NATIONAL.—The term ‘foreign national’ means a person that is neither—

“(A) an individual who is a citizen or national of the People's Republic of China; or

“(B) an entity organized under the laws of the People's Republic of China or of a jurisdiction within the People's Republic of China.

“(3) REPORTING PERIOD.—The term ‘reporting period’ means the 5-year period preceding submission of the report required by subsection (a).

“(4) UNITED STATES PERSON.—The term ‘United States person’ means—

“(A) a United States citizen or an alien lawfully admitted for permanent residence to the United States; or

“(B) an entity organized under the laws of the United States or of any jurisdiction within the United States, including a foreign branch of such an entity.”.

SEC. 30321. SENSE OF CONGRESS REGARDING ANNUAL COUNTRY REPORTS ON HUMAN RIGHTS PRACTICES.

It is the sense of Congress that the Department of State's annual Country Reports on Human Rights Practices should include relevant information regarding whether a particular country has provided assistance to the PRC or any entity under the influence of the Chinese Communist Party in its genocide against the Uyghurs, including through the forcible repatriation of Uyghurs to the PRC without reasonable opportunity for them to be assessed and protected as refugees.

SEC. 30322. SENSE OF CONGRESS REGARDING PRESS FREEDOM IN THE PEOPLE'S REPUBLIC OF CHINA.

(a) FINDINGS.—Congress finds that the People's Republic of China maintains one of the worst media environments in the world and seeks to curtail political speech inside and outside the country, including by—

(1) targeting independent and foreign media in China through systematic harassment including the denial of visas to foreign journalists, imprisonment, the denial of medical care to imprisoned journalists, and curtailing access to legal representation;

(2) pervasively monitoring and censoring online and social media content, including through the banning of virtual private networks;

(3) using the full force of the State to stifle internal dissent including dissent online, particularly dissent that could lead to political change and content that criticizes China's leaders, however trivial, reportedly even to the point of censoring comparisons of Xi Jinping's looks with Winnie the Pooh;

(4) spreading propaganda to foreign audiences through the United Front Work Department and related activities;

(5) seeking to intimidate American-based journalists working for Radio Free Asia and reporting on gross human rights violations in China's Xinjiang Uyghur Autonomous Region by jailing or otherwise harassing members of their families; and

(6) championing a “sovereign Internet” model and exporting technology to enhance the ability of like-minded authoritarian regimes to suppress dissent online and monitor the activity of their people.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the freedom of the press is an unalienable right that is necessary for citizens to hold their government to account;

(2) the PRC should cease its repression of journalists, citizen journalists, news organizations; and

(3) the PRC should cease the censorship of political satire, including comparisons of Xi Jinping's looks with Winnie the Pooh.

SEC. 30323. UNITED STATES SPECIAL ENVOY FOR XINJIANG PROVINCE.

(a) IN GENERAL.—The Secretary of State shall establish within the Department of State the position of United States Special Envoy for Xinjiang Province (in this section referred to as the “Special Envoy”).

(b) APPOINTMENT.—The Secretary may appoint an individual to the position of Special

Envoy from among officers and employees of the Department of State. The Secretary may allow such officer or employee to retain the position (and the responsibilities associated with such position) held by such officer or employee prior to the appointment of such officer or employee to the position of Special Envoy.

(c) DUTIES.—The Special Envoy shall coordinate diplomatic, political, public diplomacy, financial assistance, sanctions, counterterrorism, security resources, and congressional reporting requirements within the United States Government to respond to the gross violations of universally recognized human rights occurring in Xinjiang Province of the People's Republic of China, including by addressing—

(1) the mass detentions of Uyghurs and other predominantly Muslim ethnic minorities;

(2) the deployment of technologically advanced surveillance and police detection methods; and

(3) the counterterrorism and counter-radicalism claims used to justify the policies of the Chinese Government in Xinjiang Province.

SEC. 30324. CHINA CENSORSHIP MONITOR AND ACTION GROUP.

(a) REPORT ON CENSORSHIP AND INTIMIDATION OF UNITED STATES PERSONS BY THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF CHINA.—

(1) REPORT.—

(A) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall select and seek to enter into an agreement with a qualified research entity that is independent of the Department of State to write a report on censorship and intimidation in the United States and its possessions and territories of United States persons, including United States companies that conduct business in the People's Republic of China, which is directed or directly supported by the Government of the People's Republic of China.

(B) MATTERS TO BE INCLUDED.—The report required under subparagraph (A) shall—

(i) assess major trends, patterns, and methods of the Government of the People's Republic of China's efforts to direct or directly support censorship and intimidation of United States persons, including United States companies that conduct business in the People's Republic of China, which are exercising their right to freedom of speech;

(ii) assess, including through the use of illustrative examples, as appropriate, the impact on and consequences for United States persons, including United States companies that conduct business in the People's Republic of China, that criticize—

(I) the Government of the People's Republic of China;

(II) the Chinese Communist Party;

(III) the authoritarian model of government of the People's Republic of China; or

(IV) a particular policy advanced by the Chinese Communist Party or the Government of the People's Republic of China;

(iii) identify the implications for the United States of the matters described in clauses (i) and (ii);

(iv) assess the methods and evaluate the efficacy of the efforts by the Government of the People's Republic of China to limit freedom of expression in the private sector, including with respect to media, social media, film, education, travel, financial services, sports and entertainment, technology, telecommunication, and internet infrastructure interests;

(v) include policy recommendations for the United States Government, including recommendations regarding collaboration with United States allies and partners, to address censorship and intimidation by the Government of the People's Republic of China; and

(vi) include policy recommendations for United States persons, including United States companies that conduct business in China, to address censorship and intimidation by the Government of the People's Republic of China.

(C) **APPLICABILITY TO UNITED STATES ALLIES AND PARTNERS.**—To the extent practicable, the report required under subparagraph (A) should identify implications and policy recommendations that are relevant to United States allies and partners facing censorship and intimidation directed or directly supported by the Government of the People's Republic of China.

(2) **SUBMISSION OF REPORT.**—

(A) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Secretary of State shall submit the report written by the qualified research entity selected pursuant to paragraph (1)(A) to the appropriate congressional committees.

(B) **PUBLICATION.**—The report referred to in subparagraph (A) shall be made accessible to the public online through relevant United States Government websites.

(3) **FEDERAL GOVERNMENT SUPPORT.**—The Secretary of State and other Federal agencies selected by the President shall provide the qualified research entity selected pursuant to paragraph (1)(A) with timely access to appropriate information, data, resources, and analyses necessary for such entity to write the report described in paragraph (1) in a thorough and independent manner.

(b) **CHINA CENSORSHIP MONITOR AND ACTION GROUP.**—

(1) **CERTIFICATION.**—Upon receipt and review of the report described in subsection (a), the President shall make a determination on whether the Government of the People's Republic of China engages in the censorship and intimidation of United States persons, including United States companies that conduct business in the People's Republic of China, which are exercising their right to freedom of speech, taking into account the contents of the report and other information available to the government of the United States.

(2) **IN GENERAL.**—If there is a determination under paragraph (1) that the Government of the People's Republic of China engages in the censorship and intimidation of United States persons, including United States companies that conduct business in the People's Republic of China, which are exercising their right to freedom of speech, the President shall establish an interagency task force, which shall be known as the “China Censorship Monitor and Action Group” (referred to in this section as the “Task Force”).

(3) **MEMBERSHIP.**—If, upon receipt and review of the report described in subsection (a), he deems it in the national interest, the President shall—

(A) appoint the chair of the Task Force from among the staff of the National Security Council;

(B) appoint the vice chair of the Task Force from among the staff of the National Economic Council; and

(C) direct the head of each of the following executive branch agencies to appoint personnel to participate in the Task Force:

(i) The Department of State.

(ii) The Department of Commerce.

(iii) The Department of the Treasury.

(iv) The Department of Justice.

(v) The Office of the United States Trade Representative.

(vi) The Office of the Director of National Intelligence, and other appropriate elements of the intelligence community (as defined in section 3 of the National Security Act of 1947 (50 U.S.C. 3003)).

(vii) The Federal Communications Commission.

(viii) The United States Agency for Global Media.

(ix) Other agencies designated by the President.

(4) **RESPONSIBILITIES.**—The Task Force shall—

(A) oversee the development and execution of an integrated Federal Government strategy to monitor and address the impacts of efforts di-

rected, or directly supported, by the Government of the People's Republic of China to censor or intimidate, in the United States or in any of its territories, any United States person, including United States companies that conduct business in the People's Republic of China, which are exercising their right to freedom of speech; and

(B) submit the strategy developed pursuant to subparagraph (A) to the appropriate congressional committees not later than 120 days after the date of the enactment of this Act.

(5) **MEETINGS.**—The Task Force shall meet not less frequently than twice per year.

(6) **CONSULTATIONS.**—The Task Force should regularly consult, to the extent necessary and appropriate, with—

(A) Federal agencies that are not represented on the Task Force;

(B) independent agencies of the United States Government that are not represented on the Task Force;

(C) relevant stakeholders in the private sector and the media; and

(D) relevant stakeholders among United States allies and partners facing similar challenges related to censorship or intimidation by the Government of the People's Republic of China.

(7) **REPORTING REQUIREMENTS.**—

(A) **ANNUAL REPORT.**—The Task Force shall submit an annual report to the appropriate congressional committees that describes, with respect to the reporting period—

(i) the strategic objectives and policies pursued by the Task Force to address the challenges of censorship and intimidation of United States persons while in the United States or any of its territories, which is directed or directly supported by the Government of the People's Republic of China;

(ii) the activities conducted by the Task Force in support of the strategic objectives and policies referred to in clause (i); and

(iii) the results of the activities referred to in clause (ii) and the impact of such activities on the national interests of the United States.

(B) **FORM OF REPORT.**—Each report submitted pursuant to subparagraph (A) shall be unclassified, but may include a classified annex.

(C) **CONGRESSIONAL BRIEFINGS.**—Not later than 90 days after the date of the enactment of this Act, and annually thereafter, the Task Force shall provide briefings to the appropriate congressional committees regarding the activities of the Task Force to execute the strategy developed pursuant to paragraph (3)(A).

(c) **SUNSET.**—This section shall terminate on the date that is five years after the date of the enactment of this Act.

(d) **DEFINITIONS.**—In this section:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” includes the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate.

(2) **QUALIFIED RESEARCH ENTITY.**—The term “qualified research entity” means an entity that—

(A) is a nonpartisan research organization or a federally funded research and development center;

(B) has appropriate expertise and analytical capability to write the report required under subsection (a); and

(C) is free from any financial, commercial, or other entanglements, which could undermine the independence of such report or create a conflict of interest or the appearance of a conflict of interest, with—

(i) the Government of the People's Republic of China;

(ii) the Chinese Communist Party;

(iii) any company incorporated in the People's Republic of China or a subsidiary of such company; or

(iv) any company or entity incorporated outside of the People's Republic of China that is believed to have a substantial financial or com-

mercial interest in the People's Republic of China.

(3) **UNITED STATES PERSON.**—The term “United States person” means—

(A) a United States citizen or an alien lawfully admitted for permanent residence to the United States; or

(B) an entity organized under the laws of the United States or any jurisdiction within the United States, including a foreign branch of such an entity.

SEC. 30325. PUBLIC DISCLOSURE ON BIS LICENSING INFORMATION.

The Committee on Foreign Affairs of the House of Representatives shall make aggregate statistics on licensing information, ensuring all confidential business information is protected, for PRC companies on the Entity List contained in the Export Administration Regulations available to the public.

TITLE IV—INVESTING IN OUR ECONOMIC STATECRAFT

SEC. 30401. SENSE OF CONGRESS REGARDING THE PEOPLE'S REPUBLIC OF CHINA'S INDUSTRIAL POLICY.

It is the sense of Congress that—

(1) the challenges presented by a nonmarket economy like the economy of the People's Republic of China (PRC), which has captured such a large share of global economic exchange, are in many ways unprecedented and require sufficiently elevated and sustained long-term focus and engagement;

(2) in order to truly address the most detrimental aspects of Chinese Communist Party (CCP)-directed mercantilist economic strategy, the United States must adopt policies that—

(A) expose the full scope and scale of intellectual property theft and mass subsidization of Chinese firms, and the resulting harm to the United States, foreign markets, and the global economy;

(B) ensure that PRC companies face costs and consequences for anticompetitive behavior;

(C) provide options for affected United States persons to address and respond to unreasonable and discriminatory CCP-directed industrial policies; and

(D) strengthen the protection of critical technology and sensitive data, while still fostering an environment that provides incentives for secure but open investment, innovation, and competition;

(3) the United States must work with its allies and partners and multilateral venues and fora—

(A) to reinforce long-standing generally accepted principles of fair competition and market behavior and address the PRC's anticompetitive economic and industrial policies that undermine decades of global growth and innovation;

(B) to ensure that the PRC is not granted the same treatment as that of a free-market economy until it ceases the implementation of laws, regulations, policies, and practices that provide unfair advantage to PRC firms in furtherance of national objectives and impose unreasonable, discriminatory, and illegal burdens on market-based international commerce; and

(C) to align policies with respect to curbing state-directed subsidization of the private sector, such as advocating for global rules related to transparency and adherence to notification requirements, including through the efforts currently being advanced by the United States, Japan, and the European Union;

(4) the United States and its allies and partners must collaborate to provide incentives to their respective companies to cooperate in areas such as—

(A) advocating for protection of intellectual property rights in markets around the world;

(B) fostering open technical standards; and

(C) increasing joint investments in overseas markets; and

(5) the United States should develop policies that—

(A) insulate United States entities from PRC pressure against complying with United States laws;

(B) together with the work of allies and partners and multilateral institutions, counter the potential impact of the blocking regime of the PRC established by the Ministry of Commerce of the PRC on January 9, 2021, when it issued Order No. 1 of 2021, entitled “Rules on Countering Unjustified Extraterritorial Application of Foreign Legislation and other Measures”; and

(C) plan for future actions that the Government of the PRC may take to undermine the lawful application of United States legal authorities, including with respect to the use of sanctions.

SEC. 30402. ECONOMIC DEFENSE RESPONSE TEAMS.

(a) **PILOT PROGRAM.**—Not later than 180 days after the date of the enactment of this Act, the President shall develop and implement a pilot program for the creation of deployable economic defense response teams to help provide emergency technical assistance and support to a country subjected to the threat or use of coercive economic measures (in this section referred to as a “partner country”) and to play a liaison role between the legitimate government of that country and the United States Government. Such assistance and support may include the following activities:

(1) Reducing the partner country’s vulnerability to coercive economic measures.

(2) Minimizing the damage that such measures by an adversary could cause to the partner country.

(3) Implementing any bilateral or multilateral contingency plans that may exist for responding to the threat or use of such measures.

(4) In coordination with the partner country, developing or improving plans and strategies by the country for reducing vulnerabilities and improving responses to such measures in the future.

(5) Assisting the partner country in dealing with foreign sovereign investment in infrastructure or related projects that may undermine the partner country’s sovereignty.

(6) Assisting the partner country in responding to specific efforts from an adversary attempting to employ economic coercion that undermines the partner country’s sovereignty, including efforts in the cyber domain, such as efforts that undermine cybersecurity or digital security of the partner country or initiatives that introduce digital technologies in a manner that undermines freedom, security, and sovereignty of the partner country.

(7) Otherwise providing direct and relevant short-to-medium term economic or other assistance from the United States and marshalling other resources in support of effective responses to such measures.

(b) **REPORTS REQUIRED.**—

(1) **REPORT ON ESTABLISHMENT.**—Upon establishment of the pilot program required by subsection (a), the Secretary of State, in consultation with other relevant Federal agencies and offices, shall provide the appropriate congressional committees with a detailed report and briefing describing the pilot program, the major elements of the program, the personnel and institutions involved, and the degree to which the program incorporates the elements described in subsection (a).

(2) **FOLLOW-UP REPORT.**—Not later than one year after the date on which the report required by paragraph (1) is submitted, the Secretary of State, in consultation with other relevant Federal agencies and offices, shall provide the appropriate congressional committees with a detailed report and briefing describing the operations over the previous year of the pilot program established pursuant to subsection (a), as well as the Secretary’s assessment of its performance and suitability for becoming a permanent program.

(3) **FORM.**—Each report required under this subsection shall be submitted in unclassified form, but may include a classified annex.

(c) **DECLARATION OF AN ECONOMIC CRISIS REQUIRED.**—

(1) **NOTIFICATION.**—The President may activate an economic defense response team for a period of 180 days under the authorities of this section to assist a partner country in responding to an unusual and extraordinary economic coercive threat by an adversary of the United States upon the declaration of a coercive economic emergency, together with notification to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives.

(2) **EXTENSION AUTHORITY.**—The President may activate the response team for an additional 180 days upon the submission of a detailed analysis to the committees described in paragraph (1) justifying why the continued deployment of the economic defense response team in response to the economic emergency is in the national security interest of the United States.

(d) **SUNSET.**—The authorities provided under this section shall expire on December 31, 2026.

(e) **RULE OF CONSTRUCTION.**—Neither the authority to declare an economic crisis provided for in subsection (d), nor the declaration of an economic crisis pursuant to subsection (d), shall confer or be construed to confer any authority, power, duty, or responsibility to the President other than the authority to activate an economic defense response team as described in this section.

(f) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Relations, the Committee on Banking, Housing, and Urban Affairs, the Committee on Commerce, Science, and Transportation, the Committee on Energy and Natural Resources, the Committee on Agriculture, Nutrition, and Forestry, and the Committee on Finance of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Financial Services, the Committee on Energy and Commerce, the Committee on Agriculture, and the Committee on Ways and Means of the House of Representatives.

SEC. 30403. COUNTERING OVERSEAS KLEPTOCRACY.

(a) **FINDINGS.**—Congress finds the following:

(1) Authoritarian leaders in foreign countries abuse their power to steal assets from state institutions, enrich themselves at the expense of their countries’ economic development, and use corruption as a strategic tool both to solidify their grip on power and to undermine democratic institutions abroad.

(2) Global corruption harms the competitiveness of United States businesses, weakens democratic governance, feeds terrorist recruitment and transnational organized crime, enables drug smuggling and human trafficking, and stymies economic growth.

(3) Illicit financial flows often penetrate countries through what appear to be legitimate financial transactions, as kleptocrats launder money, use shell companies, amass offshore wealth, and participate in a global shadow economy.

(4) The Government of the Russian Federation is a leading model of this type of kleptocratic system, using state-sanctioned corruption to both erode democratic governance from within and discredit democracy abroad, thereby strengthening the authoritarian rule of Vladimir Putin.

(5) Corrupt individuals and entities in the Russian Federation, often with the backing and encouragement of political leadership, use stolen money—

(A) to purchase key assets in other countries, often with a goal of attaining monopolistic control of a sector;

(B) to gain access to and influence the policies of other countries; and

(C) to advance Russian interests in other countries, particularly those that undermine confidence and trust in democratic systems.

(6) Systemic corruption in the People’s Republic of China (PRC), often tied to, directed by, or backed by the leadership of the Chinese Communist Party (CCP) and the Government of the PRC is used—

(A) to provide unfair advantage to certain PRC economic entities;

(B) to increase other countries’ economic dependence on the PRC to secure greater deference to the PRC’s diplomatic and strategic goals; and

(C) to exploit corruption in foreign governments and among other political elites to enable PRC state-backed firms to pursue predatory and exploitative economic practices.

(7) Thwarting these tactics by Russian, Chinese, and other kleptocratic actors requires the international community to strengthen democratic governance and the rule of law. International cooperation in combating corruption and illicit finance is vital to such efforts, especially by empowering reformers in foreign countries during historic political openings for the establishment of the rule of law in those countries.

(8) Technical assistance programs that combat corruption and strengthen the rule of law, including through assistance provided by the Department of State’s Bureau of International Narcotics and Law Enforcement Affairs and the United States Agency for International Development, and through programs like the Department of Justice’s Office of Overseas Prosecutorial Development, Assistance and Training and the International Criminal Investigative Training Assistance Program, can have lasting and significant impacts for both foreign and United States interests.

(9) There currently exist numerous international instruments to combat corruption, kleptocracy, and illicit finance, including—

(A) the Inter-American Convention against Corruption of the Organization of American States, done at Caracas March 29, 1996;

(B) the Convention on Combating Bribery of Foreign Public Officials in International Business Transactions of the Organisation of Economic Co-operation and Development, done at Paris December 21, 1997 (commonly referred to as the “Anti-Bribery Convention”);

(C) the United Nations Convention against Transnational Organized Crime, done at New York November 15, 2000;

(D) the United Nations Convention against Corruption, done at New York October 31, 2003;

(E) Recommendation of the Council for Further Combating Bribery of Foreign Public Officials in International Business Transactions, adopted November 26, 2009; and

(F) recommendations of the Financial Action Task Force comprising the International Standards on Combating Money Laundering and the Financing of Terrorism and Proliferation.

(b) **DEFINITIONS.**—In this section:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Relations, the Committee on Banking, Housing, and Urban Affairs, the Committee on Finance, the Committee on the Judiciary, and the Select Committee on Intelligence, and the Committee on Appropriations of the Senate;

(B) the Committee on Foreign Affairs, the Committee on Financial Services, the Committee on Ways and Means, the Committee on the Judiciary, and the Permanent Select Committee on Intelligence, and the Committee on Appropriations of the House of Representatives.

(2) **FOREIGN ASSISTANCE.**—The term “foreign assistance” means foreign assistance authorized under the Foreign Assistance Act of 1961 (22 U.S.C. 2251 et seq.).

(3) **FOREIGN STATE.**—The term “foreign state” has the meaning given such term in section 1603(a) of title 28, United States Code.

(4) **INTELLIGENCE COMMUNITY.**—The term “intelligence community” has the meaning given

such term in section 3(4) of the National Security Act of 1947 (50 U.S.C. 3003(4)).

(5) **PUBLIC CORRUPTION.**—The term “public corruption” includes the unlawful exercise of entrusted public power for private gain, such as through bribery, nepotism, fraud, extortion, or embezzlement.

(6) **RULE OF LAW.**—The term “rule of law” means the principle of governance in which all persons, institutions, and entities, whether public or private, including the state, are accountable to laws that are—

(A) publicly promulgated;

(B) equally enforced;

(C) independently adjudicated; and

(D) consistent with international human rights norms and standards.

(c) **STATEMENT OF POLICY.**—It is the policy of the United States—

(1) to leverage United States diplomatic engagement and foreign assistance to promote the rule of law;

(2)(A) to promote international instruments to combat corruption, kleptocracy, and illicit finance, including instruments referred to in subsection (a)(9), and other relevant international standards and best practices, as such standards and practices develop; and

(B) to promote the adoption and implementation of such laws, standards, and practices by foreign states;

(3) to support foreign states in promoting good governance and combating public corruption;

(4) to encourage and assist foreign partner countries to identify and close loopholes in their legal and financial architecture, including the misuse of anonymous shell companies and other legal structures, that are enabling illicit finance to penetrate their financial systems;

(5) to help foreign partner countries to investigate, prosecute, adjudicate, and more generally combat the use of corruption by malign actors, including authoritarian governments, particularly the Government of the Russian Federation and the Government of the People's Republic of China, as a tool of malign influence worldwide;

(6) to assist in the recovery of kleptocracy-related stolen assets for victims, including through the use of appropriate bilateral arrangements and international agreements, such as the United Nations Convention against Corruption, done at New York October 31, 2003, and the United Nations Convention against Transnational Organized Crime, done at New York November 15, 2000;

(7) to use sanctions authorities, such as the Global Magnitsky Human Rights Accountability Act (substitute F of title XII of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328; 22 U.S.C. 2656 note)) and section 7031(c) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2020 (division G of Public Law 116-94), to identify and take action against corrupt foreign actors;

(8) to ensure coordination between relevant Federal departments and agencies with jurisdiction over the advancement of good governance in foreign states; and

(9) to lead the creation of a formal grouping of like-minded states—

(A) to coordinate efforts to counter corruption, kleptocracy, and illicit finance; and

(B) to strengthen collective financial defense.

(d) **ANTI-CORRUPTION ACTION FUND.**—

(1) **ESTABLISHMENT.**—There is established in the United States Treasury a fund, to be known as the “Anti-Corruption Action Fund”, only for the purposes of—

(A) strengthening the capacity of foreign states to prevent and fight public corruption;

(B) assisting foreign states to develop rule of law-based governance structures, including accountable civilian police, prosecutorial, and judicial institutions;

(C) supporting foreign states to strengthen domestic legal and regulatory frameworks to com-

bat public corruption, including the adoption of best practices under international law; and

(D) supplementing existing foreign assistance and diplomacy with respect to efforts described in subparagraphs (A), (B), and (C).

(2) **FUNDING.**—

(A) **TRANSFERS.**—Beginning on or after the date of the enactment of this Act, if total criminal fines and penalties in excess of \$50,000,000 are imposed against a person under the Foreign Corrupt Practices Act of 1977 (Public Law 95-213) or section 13, 30A, or 32 of the Securities Exchange Act of 1934 (15 U.S.C. 78m, 78dd-1, and 78ff), whether pursuant to a criminal prosecution, enforcement proceeding, deferred prosecution agreement, nonprosecution agreement, a declination to prosecute or enforce, or any other resolution, the court (in the case of a conviction) or the Attorney General shall impose an additional prevention payment equal to \$5,000,000 against such person, which shall be deposited in the Anti-Corruption Action Fund established under paragraph (1). Amounts deposited into such Fund under this subparagraph shall be credited as discretionary offsetting collections.

(B) **AVAILABILITY OF FUNDS.**—Amounts deposited into the Anti-Corruption Action Fund pursuant to subparagraph (A) shall be available to the Secretary of State only to the extent and in such amounts as provided in advance in appropriations Acts for the purposes described in paragraph (1).

(C) **LIMITATION.**—None of the amounts made available to the Secretary of State from the Anti-Corruption Action Fund may be used inside the United States, except for administrative costs related to overseas program implementation pursuant to paragraph (1).

(3) **SUPPORT.**—The Anti-Corruption Action Fund—

(A) may support governmental and non-governmental parties in advancing the purposes described in paragraph (1); and

(B) shall be allocated in a manner complementary to existing United States foreign assistance, diplomacy, and anti-corruption activities.

(4) **ALLOCATION AND PRIORITIZATION.**—In programming foreign assistance made available through the Anti-Corruption Action Fund, the Secretary of State, in coordination with the Attorney General, shall prioritize projects that—

(A) assist countries that are undergoing historic opportunities for democratic transition, combating corruption, and the establishment of the rule of law; and

(B) are important to United States national interests.

(5) **TECHNICAL ASSISTANCE PROVIDERS.**—For any technical assistance to a foreign governmental party under this section, the Secretary of State, in coordination with the Attorney General, shall prioritize United States Government technical assistance providers as implementers, in particular the Office of Overseas Prosecutorial Development, Assistance and Training and the International Criminal Investigative Training Assistance Program at the Department of Justice.

(6) **PUBLIC DIPLOMACY.**—The Secretary of State shall announce that funds deposited in the Anti-Corruption Action Fund are derived from actions brought under the Foreign Corrupt Practices Act to demonstrate that the use of such funds are—

(A) contributing to international anti-corruption work; and

(B) reducing the pressure that United States businesses face to pay bribes overseas, thereby contributing to greater competitiveness of United States companies.

(7) **REPORTING.**—Not later than 1 year after the date of the enactment of this Act and not less frequently than annually thereafter, the Secretary of State shall submit a report to the appropriate congressional committees that contains—

(A) the balance of the funding remaining in the Anti-Corruption Action Fund;

(B) the amount of funds that have been deposited into the Anti-Corruption Action Fund; and

(C) a summary of the obligation and expenditure of such funds.

(8) **NOTIFICATION REQUIREMENTS.**—None of the amounts made available to the Secretary of State from the Anti-Corruption Action Fund pursuant to this section shall be available for obligation, or for transfer to other departments, agencies, or entities, unless the Secretary of State notifies the Committee on Foreign Relations of the Senate, the Committee on Appropriations of the Senate, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Appropriations of the House of Representatives, not later than 15 days in advance of such obligation or transfer.

(e) **INTERAGENCY ANTI-CORRUPTION TASK FORCE.**—

(1) **IN GENERAL.**—The Secretary of State, in cooperation with the Interagency Anti-Corruption Task Force established pursuant to paragraph (2), shall manage a whole-of-government effort to improve coordination among Federal departments and agencies and donor organizations with a role in—

(A) promoting good governance in foreign states; and

(B) enhancing the ability of foreign states to combat public corruption.

(2) **INTERAGENCY ANTI-CORRUPTION TASK FORCE.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall establish and convene the Interagency Anti-Corruption Task Force (referred to in this section as the “Task Force”), which shall be composed of representatives appointed by the President from appropriate departments and agencies, including the Department of State, the United States Agency for International Development, the Department of Justice, the Department of the Treasury, the Department of Homeland Security, the Department of Defense, the Department of Commerce, the Millennium Challenge Corporation, and the intelligence community.

(3) **ADDITIONAL MEETINGS.**—The Task Force shall meet not less frequently than twice per year.

(4) **DUTIES.**—The Task Force shall—

(A) evaluate, on a general basis, the effectiveness of existing foreign assistance programs, including programs funded by the Anti-Corruption Action Fund, that have an impact on—

(i) promoting good governance in foreign states; and

(ii) enhancing the ability of foreign states to combat public corruption;

(B) assist the Secretary of State in managing the whole-of-government effort described in paragraph (1);

(C) identify general areas in which such whole-of-government effort could be enhanced; and

(D) recommend specific programs for foreign states that may be used to enhance such whole-of-government effort.

(5) **BRIEFING REQUIREMENT.**—Not later than 1 year after the date of the enactment of this Act and not less frequently than annually thereafter through the end of fiscal year 2026, the Secretary of State shall provide a briefing to the appropriate congressional committees regarding the ongoing work of the Task Force. Each briefing shall include the participation of a representative of each of the departments and agencies described in paragraph (2), to the extent feasible.

(f) **DESIGNATION OF EMBASSY ANTI-CORRUPTION POINTS OF CONTACT.**—

(1) **EMBASSY ANTI-CORRUPTION POINT OF CONTACT.**—The chief of mission of each United States embassy shall designate an anti-corruption point of contact for each such embassy.

(2) **DUTIES.**—The designated anti-corruption points of contact designated pursuant to paragraph (1) shall—

(A) coordinate, in accordance with guidance from the Interagency Anti-Corruption Task Force established pursuant to subsection (e)(2), an interagency approach within United States embassies to combat public corruption in the foreign states in which such embassies are located that is tailored to the needs of such foreign states, including all relevant Federal departments and agencies with a presence in such foreign states, such as the Department of State, the United States Agency for International Development, the Department of Justice, the Department of the Treasury, the Department of Homeland Security, the Department of Defense, the Millennium Challenge Corporation, and the intelligence community;

(B) make recommendations regarding the use of the Anti-Corruption Action Fund and other foreign assistance funding related to anti-corruption efforts in their respective countries of responsibility that aligns with United States diplomatic engagement; and

(C) ensure that anti-corruption activities carried out within their respective countries of responsibility are included in regular reporting to the Secretary of State and the Interagency Anti-Corruption Task Force, including United States embassy strategic planning documents and foreign assistance-related reporting, as appropriate.

(3) **TRAINING.**—The Secretary of State shall develop and implement appropriate training for the designated anti-corruption points of contact.

(g) **REPORTING REQUIREMENTS.**—

(1) **REPORT OR BRIEFING ON PROGRESS TOWARD IMPLEMENTATION.**—Not later than 180 days after the date of the enactment of this Act, and annually thereafter for the following 3 years, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development, the Attorney General, and the Secretary of the Treasury, shall submit a report or provide a briefing to the appropriate congressional committees that summarizes progress made in combating public corruption and in implementing this Act, including—

(A) identifying opportunities and priorities for outreach with respect to promoting the adoption and implementation of relevant international law and standards in combating public corruption, kleptocracy, and illicit finance;

(B) describing—

(i) the bureaucratic structure of the offices within the Department of State and the United States Agency for International Development that are engaged in activities to combat public corruption, kleptocracy, and illicit finance; and

(ii) how such offices coordinate their efforts with each other and with other relevant Federal departments and agencies;

(C) providing a description of how the provisions under paragraphs (4) and (5) of subsection (d) have been applied to each project funded by the Anti-Corruption Action Fund;

(D) providing an explanation as to why a United States Government technical assistance provider was not used if technical assistance to a foreign governmental entity is not implemented by a United States Government technical assistance provider;

(E) describing the activities of the Interagency Anti-Corruption Task Force established pursuant to subsection (e)(2);

(F) identifying—

(i) the designated anti-corruption points of contact for foreign states; and

(ii) any training provided to such points of contact; and

(G) recommending additional measures that would enhance the ability of the United States Government to combat public corruption, kleptocracy, and illicit finance overseas.

(2) **ONLINE PLATFORM.**—The Secretary of State, in conjunction with the Administrator of the United States Agency for International Development, should consolidate existing reports with anti-corruption components into a single online, public platform that includes—

(A) the Annual Country Reports on Human Rights Practices required under section 116 of the Foreign Assistance Act of 1961 (22 U.S.C. 2151n);

(B) the Fiscal Transparency Report required under section 7031(b) of the Department of State, Foreign Operations and Related Programs Appropriations Act, 2019 (division F of Public Law 116-6);

(C) the Investment Climate Statement reports;

(D) the International Narcotics Control Strategy Report;

(E) any other relevant public reports; and

(F) links to third-party indicators and compliance mechanisms used by the United States Government to inform policy and programming, as appropriate, such as—

(i) the International Finance Corporation's Doing Business surveys;

(ii) the International Budget Partnership's Open Budget Index; and

(iii) multilateral peer review anti-corruption compliance mechanisms, such as—

(I) the Organisation for Economic Co-operation and Development's Working Group on Bribery in International Business Transactions;

(II) the Follow-Up Mechanism for the Inter-American Convention Against Corruption; and

(III) the United Nations Convention Against Corruption, done at New York October 31, 2003.

SEC. 30404. ANNUAL REPORT ON CHINESE SURVEILLANCE COMPANIES.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, and annually thereafter until 2040, the Secretary of State, in coordination with the Director of National Intelligence, shall submit to the Committee on Foreign Affairs and Permanent Select Committee on Intelligence of the House of Representatives, and the Committee on Foreign Relations and the Select Committee on Intelligence of the Senate, a report with respect to persons in China that the Secretary determines—

(1) have operated, sold, leased, or otherwise provided, directly or indirectly, items or services related to targeted digital surveillance to—

(A) a foreign government or entity located primarily inside a foreign country where a reasonable person would assess that such transfer could result in a use of the items or services in a manner contrary to human rights; or

(B) a country or any governmental unit thereof, entity, or other person determined by the Secretary of State, in a notice published in the Federal Register, to have used items or services for targeted digital surveillance in a manner contrary to human rights; or

(2) have materially assisted, sponsored, or provided financial, material, or technological support for, or items or services to or in support of, the activities described in paragraph (1).

(b) **MATTERS TO BE INCLUDED.**—The report required by subsection (a) shall include the following:

(1) The name of each foreign person that the Secretary determines—

(A) meets the requirements of subsection (a)(1); and

(B) meets the requirements of subsection (a)(2).

(2) The name of each intended and actual recipient of items or services described in subsection (a).

(3) A detailed description of such items or services.

(4) An analysis of the appropriateness of including the persons listed in (b)(1) on the entity list maintained by the Bureau of Industry and Security.

(c) **CONSULTATION.**—In compiling data and making assessments for the purposes of preparing the report required by subsection (a), the Secretary of State shall consult with a wide range of organizations, including with respect to—

(1) classified and unclassified information provided by the Director of National Intelligence;

(2) information provided by the Bureau of Democracy, Human Rights, and Labor's Internet Freedom, Business and Human Rights section;

(3) information provided by the Department of Commerce, including the Bureau of Industry and Security;

(4) information provided by the advisory committees established by the Secretary to advise the Under Secretary of Commerce for Industry and Security on controls under the Export Administration Regulations, including the Emerging Technology and Research Advisory Committee;

(5) information on human rights and technology matters, as solicited from civil society and human rights organizations through regular consultative processes; and

(6) information contained in the Country Reports on Human Rights Practices published annually by the Department of State.

(d) **FORM AND PUBLIC AVAILABILITY OF REPORT.**—The report required by subsection (a) shall be submitted in unclassified form. The report shall be posted by the President not later than 14 days after being submitted to Congress on a text-based, searchable, and publicly available internet website.

(e) **DEFINITIONS.**—In this section:

(1) **TARGETED DIGITAL SURVEILLANCE.**—The term “targeted digital surveillance” means the use of items or services that enable an individual or entity to detect, monitor, intercept, collect, exploit, preserve, protect, transmit, retain, or otherwise gain access to the communications, protected information, work product, browsing data, research, identifying information, location history, or online and offline activities of other individuals, organizations, or entities, with or without the explicit authorization of such individuals, organizations, or entities.

(2) **FOREIGN PERSON.**—The term “foreign person” means an individual or entity that is not a United States person.

(3) **IN A MANNER CONTRARY TO HUMAN RIGHTS.**—The term “in a manner contrary to human rights”, with respect to targeted digital surveillance, means engaging in targeted digital surveillance—

(A) in violation of basic human rights, including to silence dissent, sanction criticism, punish independent reporting (and sources for that reporting), manipulate or interfere with democratic or electoral processes, persecute minorities or vulnerable groups, or target advocates or practitioners of human rights and democratic rights (including activists, journalists, artists, minority communities, or opposition politicians); or

(B) in a country in which there is lacking a minimum legal framework governing its use, including established—

(i) authorization under laws that are accessible, precise, and available to the public;

(ii) constraints limiting its use under principles of necessity, proportionality, and legitimacy;

(iii) oversight by bodies independent of the government's executive agencies;

(iv) involvement of an independent and impartial judiciary branch in authorizing its use; or

(v) legal remedies in case of abuse.

TITLE V—ENSURING STRATEGIC SECURITY

SEC. 30501. COOPERATION ON A STRATEGIC NUCLEAR DIALOGUE.

(a) **STATEMENT OF POLICY.**—It is the policy of the United States—

(1) to pursue, in coordination with United States allies and partners, arms control negotiations and sustained and regular engagement with the People's Republic of China (PRC)—

(A) to enhance understanding of each other's respective nuclear policies, doctrine, and capabilities;

(B) to improve transparency; and

(C) to help manage the risks of miscalculation and misperception;

(2) to formulate a strategy to engage the Government of the PRC on relevant issues that lays the groundwork for a constructive arms control framework, including—

(A) fostering dialogue on arms control leading to the convening of strategic security talks;

(B) negotiating norms for outer space;

(C) developing pre-launch notification regimes aimed at reducing nuclear miscalculation; and

(D) expanding lines of communication between both governments for the purposes of reducing the risks of conventional war and increasing transparency;

(3) to pursue relevant negotiations in coordination with United States allies and partners to ensure the security of United States and allied interests to slow the PRC's military modernization and expansion, including on—

(A) ground-launched cruise and ballistic missiles;

(B) integrated air and missile defense;

(C) hypersonic missiles;

(D) intelligence, surveillance, and reconnaissance;

(E) space-based capabilities;

(F) cyber capabilities; and

(G) command, control, and communications; and

(4) to ensure that the United States policy continues to reassure United States allies and partners.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) it is in the interest of the United States and China to cooperate in reducing risks of conventional and nuclear escalation;

(2) a physical, cyber, electronic, or any other People's Liberation Army (PLA) attack on United States early warning satellites, other portions of the nuclear command and control enterprise, or critical infrastructure poses a high risk to inadvertent but rapid escalation;

(3) the United States and its allies and partners should promote international norms on military operations in space, the employment of cyber capabilities, and the military use of artificial intelligence, as an element of risk reduction regarding nuclear command and control; and

(4) United States allies and partners should share the burden of promoting and protecting norms regarding the weaponization of space, highlighting unsafe behavior that violates international norms, such as in rendezvous and proximity operations, and promoting responsible behavior in space and all other domains.

SEC. 30502. REPORT ON UNITED STATES EFFORTS TO ENGAGE THE PEOPLE'S REPUBLIC OF CHINA ON NUCLEAR ISSUES AND BALLISTIC MISSILE ISSUES.

(a) **REPORT ON THE FUTURE OF UNITED STATES-PRC ARMS CONTROL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Secretary of Defense and the Secretary of Energy, shall submit to the appropriate congressional committees a report, and if necessary a separate classified annex, that outlines the approaches and strategies such Secretaries will pursue to engage the Government of the People's Republic of China (PRC) on arms control and risk reduction, including—

(1) areas of potential dialogue between the Governments of the United States and the PRC, including on ballistic, hypersonic glide, and cruise missiles, conventional forces, nuclear, space, and cyberspace issues, as well as other new strategic domains, which could reduce the likelihood of war, limit escalation if a conflict were to occur, and constrain a destabilizing arms race in the Indo-Pacific region;

(2) how the United States Government can engage the Government of the PRC in a constructive arms control dialogue;

(3) identifying strategic military capabilities of the PRC that the United States Government is most concerned about and how limiting these

capabilities may benefit United States and allied security interests;

(4) mechanisms to avoid, manage, or control nuclear, conventional, and unconventional military escalation between the United States and the PRC;

(5) the personnel and expertise required to effectively engage the PRC in strategic stability and arms control dialogues; and

(6) opportunities and methods to encourage transparency from the PRC.

(b) **REPORT ON ARMS CONTROL TALKS WITH PRC.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Secretary of Defense and the Secretary of Energy, shall submit to the appropriate congressional committees a report that describes—

(1) a concrete plan for arms control talks with the PRC;

(2) if a bilateral arms control dialogue does not arise, what alternative plans the Department of State envisages for ensuring the security of the United States and its allies through international arms control negotiations;

(3) effects on the credibility of United States extended deterrence assurances to allies and partners if arms control negotiations do not materialize and the implications for regional security architectures;

(4) efforts at engaging the PRC to join arms control talks, whether on a bilateral or international basis; and

(5) the interest level of the Government of PRC in joining arms control talks, whether on a bilateral or international basis, including through—

(A) a formal invitation to appropriate officials from the PRC, and to each of the permanent members of the United Nations Security Council, to observe a United States-Russian Federation New START Treaty on-site inspection to demonstrate the security benefits of transparency into strategic nuclear forces;

(B) discussions on how to advance international negotiations on the fissile material cut-off;

(C) an agreement with the PRC that allows for advance notifications of ballistic missile launches, through the Hague Code of Conduct or other data exchanges or doctrine discussions related to strategic nuclear forces;

(D) an agreement not to target or interfere in nuclear command, control, and communications (commonly referred to as “NC3”) infrastructure; or

(E) any other cooperative measure that benefits United States-PRC strategic stability.

(c) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Energy and Natural Resources of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Energy and Commerce of the House of Representatives.

SEC. 30503. COUNTERING THE PEOPLE'S REPUBLIC OF CHINA'S PROLIFERATION OF BALLISTIC MISSILES AND NUCLEAR TECHNOLOGY TO THE MIDDLE EAST.

(a) **MTCR TRANSFERS.**—Not later than 30 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a written determination, and any documentation to support that determination detailing—

(1) whether any foreign person in the People's Republic of China (PRC) knowingly exported, transferred, or engaged in trade of any item designated under Category I of the MTCR Annex to any foreign person in the previous three fiscal years; and

(2) the sanctions the President has imposed or intends to impose pursuant to section 11B(b) of the Export Administration Act of 1979 (50 U.S.C.

4612(b)) against any foreign person who knowingly engaged in the export, transfer, or trade of that item or items.

(b) **PRC'S NUCLEAR FUEL CYCLE COOPERATION.**—Not later than 30 days after the date of the enactment of this Act, the President shall submit to the appropriate committees of Congress a report detailing—

(1) whether any foreign person in the PRC engaged in cooperation with any other foreign person in the previous three fiscal years in the construction of any nuclear-related fuel cycle facility or activity that has not been notified to the International Atomic Energy Agency and would be subject to complementary access if an Additional Protocol was in force; and

(2) the policy options required to prevent and respond to any future effort by the PRC to export to any foreign person an item classified as “plants for the separation of isotopes of uranium” or “plants for the reprocessing of irradiated nuclear reactor fuel elements” under Part 110 of the Nuclear Regulatory Commission export licensing authority.

(c) **FORM OF REPORT.**—The determination required under subsection (b) and the report required under subsection (c) shall be unclassified with a classified annex.

(d) **DEFINITIONS.**—In this section:

(1) The term “appropriate congressional committees” means—

(A) the Select Committee on Intelligence and the Committee on Foreign Relations of the Senate; and

(B) the Permanent Select Committee on Intelligence and the Committee on Foreign Affairs of the House of Representatives.

(2) **FOREIGN PERSON; PERSON.**—The terms “foreign person” and “person” mean—

(A) a natural person that is an alien;

(B) a corporation, business association, partnership, society, trust, or any other nongovernmental entity, organization, or group, that is organized under the laws of a foreign country or has its principal place of business in a foreign country;

(C) any foreign governmental entity operating as a business enterprise; and

(D) any successor, subunit, or subsidiary of any entity described in subparagraph (B) or (C).

TITLE VI—INVESTING IN A SUSTAINABLE FUTURE

SEC. 30601. ENSURING NATIONAL SECURITY AND ECONOMIC PRIORITIES WITH THE PEOPLE'S REPUBLIC OF CHINA AND OTHER COUNTRIES ACCOUNT FOR ENVIRONMENTAL ISSUES AND CLIMATE CHANGE.

(a) **FINDINGS.**—Congress finds the following:

(1) The Special Report: Global Warming of 1.5°C, published by the Intergovernmental Panel on Climate Change on October 8, 2018, and the Fourth National Climate Assessment, first published by the United States Global Change Research Program in 2018, concluded that—

(A) the release of greenhouse gas emissions, most notably the combustion of fossil fuels and the degradation of natural resources that absorb atmospheric carbon from human activity, are the dominant causes of climate change during the past century;

(B) changes in the Earth's climate are—

(i) causing sea levels to rise;

(ii) increasing the global average temperature of the Earth;

(iii) increasing the incidence and severity of wildfires; and

(iv) intensifying the severity of extreme weather, including hurricanes, cyclones, typhoons, flooding, droughts, and other disasters that threaten human life, healthy communities, and critical infrastructure.

(2) An increase in the global average temperature of 2 degrees Celsius compared to pre-industrialized levels would cause—

(A) the displacement, and the forced internal migration, of an estimated 143,000,000 people in Latin America, South Asia, and Sub-Saharan

Africa by 2050 if insufficient action is taken (according to the World Bank);

(B) the displacement of an average of 17,800,000 people worldwide by floods every year (according to the Internal Displacement Monitoring Centre) because of the exacerbating effects of climate change;

(C) more than \$500,000,000,000 in lost annual economic output in the United States (a 10 percent contraction from 2018 levels) by 2100 (according to the Fourth National Climate Assessment);

(D) an additional 100,000,000 people worldwide to be driven into poverty by 2030 (according to the World Bank);

(E) greater food insecurity and decreased agricultural production due to climate change's effects on the increased frequency and intensity of extreme weather events;

(F) the proliferation of agricultural pests and crop diseases, loss of biodiversity, degrading ecosystems, and water scarcity; and

(G) more than 350,000,000 additional people worldwide to be exposed to deadly heat stress by 2050.

(3) According to the International Energy Agency, the United States, China, India, and the European Union (including the United Kingdom) account for more than 58 percent of global greenhouse gas emissions. China, which is the world's top greenhouse gases emitter and has an outsized impact on the United States' core interest in climate stability—

(A) is likely to achieve its carbon emissions mitigation pledge to the Paris Agreement, contained in its 2015 nationally determined contribution, to “peak” emissions around 2030 ahead of schedule;

(B) announced, on September 22, 2020, and restated on April 22, 2021, a pledge to achieve carbon neutrality by 2060;

(C) announced on April 22, 2021, its intent to strictly control coal fired power generation projects, as well as strictly limit the increase in coal consumption over the 14th five year plan period and phase it down in the 15th five year plan period; and

(D) however, remains uncommitted to internationally recognized metrics for achieving these goals.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) to address the climate crisis, the United States must leverage the full weight of its diplomatic engagement and foreign assistance to promote our national security and economic interests related to climate change;

(2) in the absence of United States leadership on global issues driving international climate-related policymaking, it would lead to a substantial and harmful decline in the Nation's global competitiveness;

(3) promoting international instruments on climate action and other relevant international standards and best practices, as such standards and practices develop, serve the interests of the American people and protect United States environmental resources and the planet;

(4) promoting the adoption and implementation of international climate-related agreements, standards, and practices by foreign states ensures a level playing field for United States businesses and other stakeholders;

(5) working with international allies and partners to promote environmental justice and climate justice serves the American people's interests;

(6) finding common ground with the People's Republic of China (PRC) on climate action where possible is important, but the United States must also continue to hold the PRC accountable where its actions undermine the interests of the United States and its allies and partners;

(7) and in furtherance of the previous clauses, the United States should—

(A) explore opportunities for constructive cooperation on climate action initiatives with the

PRC and other countries while ensuring the United States maintains its competitive advantage in climate-related fields of expertise and industry, including—

(i) support for international cooperative policies, measures, and technologies to decarbonize industry and power, including through circular economy, energy storage and grid reliability, carbon capture, and green hydrogen; and

(ii) increased deployment of clean energy, including renewable and advanced nuclear power; green and climate resilient agriculture; energy efficient buildings; green, and low-carbon transportation;

(B) cooperate on addressing emissions of methane and other non-CO₂ greenhouse gases;

(C) cooperate on addressing emissions from international civil aviation and maritime activities;

(D) reduce emissions from coal, oil, and gas;

(E) implement the Paris Agreement that significantly advances global climate ambition on mitigation, adaptation, and support;

(F) coordinate among relevant Federal, State, and local departments and agencies on climate action related initiatives;

(G) provide resources, authorities and support for enhancing United States ambition and commitment to solving the climate crisis including climate action specific assistance and multilateral fund contributions; and

(H) integrate considerations for climate change into broader United States foreign policy decision-making and the United States national security apparatus.

(c) PURPOSE.—The purpose of this section is to provide authorities, resources, policies, and recommended administrative actions—

(1) to restore United States global leadership on addressing the climate crisis and make United States climate action and climate diplomacy a more central tenet of United States foreign policy;

(2) to improve the United States commitment to taking more ambitious action to help mitigate global greenhouse gas emission and improve developing countries' resilience and adaptation capacities to the effects of climate change;

(3) to ensure the United States maintains competitive advantage over global strategic competitors in diplomacy and new technological development;

(4) to encourage the pursuit of new bilateral cooperation agreements with other world powers on initiatives to advance global clean energy innovation and other measures to mitigate global greenhouse gas emissions and improve climate change adaptation capacities;

(5) to ensure that the United States national security apparatus integrates critically important data on the compounding effects that climate change is having on global security risks by enhancing our understanding of how, where, and when such effects are destabilizing countries and regions in ways that may motivate conflict, displacement, and other drivers of insecurity; and

(6) to authorize funding and programs to support a reaffirmation of the United States' commitments to international cooperation and support for developing and vulnerable countries to take climate action.

(d) DEFINITIONS.—In this title:

(1) CLEAN ENERGY.—The term “clean energy” means—

(A) renewable energy and related systems;

(B) energy production processes that emit zero greenhouse gas emissions, including nuclear power; and

(C) systems and processes that capture and permanently store greenhouse gas emissions from fossil fuel production and electricity generation units.

(2) CLIMATE ACTION.—The term “climate action” means enhanced efforts to reduce greenhouse gas emissions and strengthen resilience and adaptive capacity to climate-induced impacts, including—

(A) climate-related hazards in all countries;

(B) integrating climate change measures into national policies, strategies and planning; and

(C) improving education, awareness-raising, and human and institutional capacity with respect to climate change mitigation, adaptation, impact reduction, and early warning.

(3) CLIMATE CRISIS.—The term “climate crisis” means the social, economic, health, safety, and security impacts on people, and the threats to biodiversity and natural ecosystem health, which are attributable to the wide-variety of effects on global environmental and atmospheric conditions as a result of disruptions to the Earth's climate from anthropogenic activities that generate greenhouse gas emissions or reduce natural resource capacities to absorb and regulate atmospheric carbon.

(4) CLIMATE DIPLOMACY.—The term “climate diplomacy” means methods of influencing the decisions and behavior of foreign governments and peoples through dialogue, negotiation, cooperation, and other peaceful measures on or about issues related to addressing global climate change, including—

(A) the mitigation of global greenhouse gas emissions;

(B) discussion, analysis, and sharing of scientific data and information on the cause and effects of climate change;

(C) the security, social, economic, and political instability risks associated with the effects of climate change;

(D) economic cooperation efforts that are related to or associated with climate change and greenhouse gas mitigation from the global economy;

(E) building resilience capacities and adapting to the effects of change;

(F) sustainable land use and natural resource conservation;

(G) accounting for loss and damage attributed to the effects of climate change;

(H) just transition of carbon intense economies to low or zero carbon economies and accounting for laborers within affected economies;

(I) technological innovations that reduce or eliminate carbon emissions; and

(J) clean energy and energy systems.

(5) CLIMATE FINANCING.—The term “climate financing” means the transfer of new and additional public funds from developed countries to developing countries for projects and programs that—

(A) reduce or eliminate greenhouse gas emissions;

(B) enhance and restore natural carbon sequestration; and

(C) promote adaptation to climate change.

(6) CLIMATE SECURITY.—The term “climate security” means the effects of climate change on—

(A) United States national security concerns and subnational, national, and regional political stability; and

(B) overseas security and conflict situations that are potentially exacerbated by dynamic environmental factors and events, including—

(i) the intensification and frequency of droughts, floods, wildfires, tropical storms, and other extreme weather events;

(ii) changes in historical severe weather, drought, and wildfire patterns;

(iii) the expansion of geographical ranges of droughts, floods, and wildfires into regions that had not regularly experienced such phenomena;

(iv) global sea level rise patterns and the expansion of geographical ranges affected by drought; and

(v) changes in marine environments that effect critical geostrategic waterways, such as the Arctic Ocean, the South China Sea, the South Pacific Ocean, the Barents Sea, and the Beaufort Sea.

(7) GREEN CLIMATE FUND.—The term “Green Climate Fund” means the independent, multilateral fund—

(A) established by parties to the United Nations Framework Convention on Climate Change; and

(B) adopted by decision as part of the financial mechanism of the United Nations Framework Convention on Climate Change.

(8) **PARIS AGREEMENT.**—The term “Paris Agreement” means the annex to Decision 1/CP.21 adopted by the 21st Conference of Parties of the United Nations Framework Convention on Climate Change in Paris, France, on December 12, 2015.

(9) **RESILIENCE.**—The term “resilience” means the ability of human made and natural systems (including their component parts) to anticipate, absorb, cope, accommodate, or recover from the effects of a hazardous event in a timely and efficient manner, including through ensuring the preservation, restoration, or improvement of its essential basic structures and functions. It is not preparedness or response.

SEC. 30602. ENHANCING SECURITY CONSIDERATIONS FOR GLOBAL CLIMATE DISRUPTIONS.

(a) **IN GENERAL.**—The Secretary of State, in consultation with the heads of other relevant Federal agencies, shall conduct biennial comprehensive evaluations of present and ongoing disruptions to the global climate system, including—

(1) the intensity, frequency, and range of natural disasters;

(2) the scarcity of global natural resources, including fresh water;

(3) global food, health, and energy insecurities;

(4) conditions that contribute to—

(A) intrastate and interstate conflicts;

(B) foreign political and economic instability;

(C) international migration of vulnerable and underserved populations;

(D) the failure of national governments; and

(E) gender-based violence; and

(5) United States and allied military readiness, operations, and strategy.

(b) **PURPOSES.**—The purposes of the evaluations conducted under subsection (a) are—

(1) to support the practical application of scientific data and research on climate change’s dynamic effects around the world to improve resilience, adaptability, security, and stability despite growing global environmental risks and changes;

(2) to ensure that the strategic planning and mission execution of United States international development and diplomatic missions adequately account for heightened and dynamic risks and challenges associated with the effects of climate change;

(3) to improve coordination between United States science agencies conducting research and forecasts on the causes and effects of climate change and United States national security agencies;

(4) to better understand the disproportionate effects of global climate disruptions on women, girls, indigenous communities, and other historically marginalized populations; and

(5) to inform the development of the climate security strategy described in subsection (d).

(c) **SCOPE.**—The evaluations conducted under subsection (a) shall—

(1) examine developing countries’ vulnerabilities and risks associated with global, regional, and localized effects of climate change; and

(2) assess and make recommendations on necessary measures to mitigate risks and reduce vulnerabilities associated with effects, including—

(A) sea level rise;

(B) freshwater resource scarcity;

(C) wildfires; and

(D) increased intensity and frequency of extreme weather conditions and events, such as flooding, drought, and extreme storm events, including tropical cyclones.

(d) **CLIMATE SECURITY STRATEGY.**—The Secretary shall use the evaluations required under subsection (a)—

(1) to inform the development and implementation of a climate security strategy for the Bu-

reau of Conflict and Stabilization Operations, the Bureau of Political-Military Affairs, embassies, consulates, regional bureaus, and other offices and programs operating chief of mission authority, including those with roles in conflict avoidance, prevention and security assistance, or humanitarian disaster response, prevention, and assistance; and

(2) in furtherance of such strategy, to assess, develop, budget for, and (upon approval) implement plans, policies, and actions—

(A) to account for the impacts of climate change to global human health, safety, governance, oceans, food production, fresh water and other critical natural resources, settlements, infrastructure, marginalized groups, and economic activity;

(B) to evaluate the climate change vulnerability, security, susceptibility, and resiliency of United States interests and non-defense assets abroad;

(C) to coordinate the integration of climate change risk and vulnerability assessments into all foreign policy and security decision-making processes, including awarding foreign assistance;

(D) to evaluate specific risks to certain regions and countries that are—

(i) vulnerable to the effects of climate change; and

(ii) strategically significant to the United States;

(E) to enhance the resilience capacities of foreign countries to the effects of climate change as a means of reducing the risks of conflict and instability;

(F) to advance principles of good governance by encouraging foreign governments, particularly nations that are least capable of coping with the effects of climate change—

(i) to conduct climate security evaluations; and

(ii) to facilitate the development of climate security action plans to ensure stability and public safety in disaster situations in a humane and responsible fashion;

(G) to evaluate the vulnerability, security, susceptibility, and resiliency of United States interests and nondefense assets abroad;

(H) to build international institutional capacity to address climate security implications and to advance United States interests, regional stability, and global security; and

(I) other activities that advance—

(i) the utilization and integration of climate science in national security planning; and

(ii) the clear understanding of how the effects of climate change can exacerbate security risks and threats.

(e) **REPORT.**—Not later than 180 days after the date of the enactment of this Act and every two years thereafter for the following 20 years, the Secretary of State, in consultation with the heads of other relevant Federal departments and agencies shall submit to the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives an unclassified report, with a classified annex if necessary, that includes—

(1) a review of the efforts, initiatives, and programs in support of the strategy in subsection (c), as well as—

(A) an assessment of the funding expended by relevant Federal departments and agencies on emerging events exacerbated by climate change and the legal, procedural, and resource constraints faced by the Department of State and the United States Agency for International Development throughout respective budgeting, strategic planning, and management cycles to support the prevention of and response to emerging events exacerbated by climate change;

(B) current annual global assessments of emerging events exacerbated by climate change;

(C) recommendations to further strengthen United States capabilities described in this section; and

(D) consideration of analysis, reporting, and policy recommendations by civil society, academic, and nongovernmental organizations and institutions, and partner countries to prevent and respond to emerging events exacerbated by climate change;

(2) recommendations to ensure shared responsibility by—

(A) enhancing multilateral mechanisms for preventing, mitigating, and responding to emerging events exacerbated by climate change; and

(B) strengthening regional organizations; and

(3) the implementation status of the recommendations included in the review under paragraph (1).

(f) **REPORT BY THE DIRECTOR OF NATIONAL INTELLIGENCE.**—The Director of National Intelligence is encouraged to include, in the Director’s annual (or more often as appropriate) unclassified testimony, accompanied by a classified annex, if necessary, to Congress (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) on threats to United States national security—

(1) a review of countries and regions at risk of emerging events exacerbated by climate change; and

(2) whenever possible, specific identification of countries and regions at immediate risk of emerging events exacerbated by climate change.

SEC. 30603. BALANCING ACCOUNTABILITY AND COOPERATION WITH CHINA.

It is the sense of Congress that—

(1) successful mitigation of global greenhouse gas emissions and changes to the environment require global cooperation and coordination of efforts, as well as holding other countries such as the People’s Republic of China (PRC) accountable for their actions and commitments to ensure a level playing field with the United States and its allies and partners;

(2) other countries look toward the United States and the PRC, as the world’s largest emitters and largest economies, for leadership by example to effectively mitigate greenhouse gas emissions, develop and deploy energy generation technologies, and integrate sustainable adaptation solutions to the inevitable effects of climate change;

(3) given the volume of the PRC’s greenhouse gas emissions and the scientific imperative to swiftly reduce global greenhouse gas emissions to net-zero emissions around 2050, China should—

(A) revise its long-term pledge;

(B) seek to immediately peak its emissions;

(C) begin reducing its greenhouse gas emissions significantly to meet a more ambitious long-term 2050 reductions target; and

(D) update its nationally determined contribution along a trajectory that aligns with achieving a more ambitious net-zero by 2050 emissions target;

(4) it is in the United States national interest to emphasize the environment and climate change in its bilateral engagement with the PRC, as global climate risks cannot be mitigated without a significant reduction in PRC domestic and overseas emissions;

(5) the United States and the PRC, to the extent practicable, should coordinate on making and delivering ambitious pledges to reduce greenhouse gas emissions, with aspirations towards achieving net zero greenhouse gas emissions by 2050;

(6) the United States and its allies and partners should work together, using diplomatic and economic tools, to hold the PRC accountable for any failure by the PRC—

(A) to increase ambition in its 2030 nationally determined contribution, in line with net zero greenhouse gas emissions by 2050 before the 26th Conference of the Parties to the UNFCCC scheduled for November 2021 and meeting a more ambitious nationally determined contribution;

(B) to work faithfully to uphold the principles, goals, and rules of the Paris Agreement;

(C) to avoid and prohibit efforts to undermine or devolve the Paris Agreement's rule or underlying framework, particularly within areas of accountability transparency, and shared responsibility among all parties;

(D) to eliminate greenhouse gas intensive projects from the PRC's Belt and Road Initiative and other overseas investments, including—

(i) working with United States allies and partners to eliminate support for coal power production projects in the Belt and Road Initiative;

(ii) providing financing and project support for cleaner and less risky alternatives; and

(iii) undertaking "parallel initiatives" to enhance capacity building programs and overseas sustainable investment criteria, including in areas such as integrated energy planning, power sector reform, just transition, distributed generation, procurement, transparency, and standards to support low-emissions growth in developing countries; and

(E) to phase out existing coal power plants and reduce net coal power production;

(7) the United States should pursue confidence-building opportunities for the United States and the PRC to undertake "parallel initiatives" on clean energy research, development, finance, and deployment, including through economic and stimulus measures with clear, mutually agreed upon rules and policies to protect intellectual property, ensure equitable, non-punitive provision of support, and verify implementation, which would provide catalytic progress towards delivering a global clean energy transformation that benefits all people;

(8) the United States should pursue cooperative initiatives to reduce global deforestation, including efforts to shift toward the import and consumption of forest and agricultural commodities that are produced in a manner that does not contribute to deforestation; and

(9) the United States should pursue appropriate scientific cooperative exchanges and research that align with United States interests and those of its international partners and allies, provide reciprocity of access, protect intellectual property rights, and preserve the values and human rights interests of the American people.

SEC. 30604. PROMOTING RESPONSIBLE DEVELOPMENT ALTERNATIVES TO THE PEOPLE'S REPUBLIC OF CHINA'S BELT AND ROAD INITIATIVE.

(a) IN GENERAL.—The President should seek opportunities to partner with multilateral development finance institutions to develop financing tools based on shared development finance criteria and mechanisms to support investments in developing countries that—

(1) support low carbon economic development; and

(2) promote resiliency and adaptation to environmental changes and natural disasters.

(b) PARTNERSHIP AGREEMENT.—The Chief Executive Officer of the United States International Development Finance Corporation should seek to partner with other multilateral development finance institutions and development finance institutions to leverage the respective available funds to support low carbon economic development, which may include clean energy including renewable and nuclear energy projects, environmental adaptation, and resilience activities in countries.

(c) CO-FINANCING OF INFRASTRUCTURE PROJECTS.—

(1) AUTHORIZATION.—Subject to paragraph (2), the Secretary of State, the Administrator of the United States Agency for International Development, and the heads of other relevant Federal agencies are authorized to co-finance infrastructure, resilience, and environmental adaptation projects that advance the development objectives of the United States overseas and provide viable alternatives to projects that would otherwise be included within the People's Republic of China's Belt and Road Initiative.

(2) CONDITIONS.—Co-financing arrangements authorized pursuant to paragraph (1) may not be approved unless—

(A) the projects to be financed—

(i) promote the public good;

(ii) promote United States national security or economic interests;

(iii) promote low carbon emissions, including clean energy renewable and nuclear energy projects; and

(iv) will have substantially lower environmental impact than the proposed Belt and Road Initiative alternative; and

(B) the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, as well as the relevant committees of jurisdiction for the House of Representatives and Senate with oversight of the Federal agency engaged in the co-financing relationship, are notified not later than 15 days in advance of entering into such co-financing arrangements.

SEC. 30605. USING CLIMATE DIPLOMACY TO BETTER SERVE NATIONAL SECURITY AND ECONOMIC INTERESTS.

(a) IN GENERAL.—The President and the Secretary of State shall prioritize climate action and climate diplomacy in United States foreign policy by—

(1) ensuring diplomacy, support, and inter-agency coordination for bilateral and multilateral actions to address the climate crisis; and

(2) improving coordination and integration of climate action across all bureaus and United States missions abroad.

(b) CLIMATE ACTION INTEGRATION.—The Secretary of State shall—

(1) prioritize climate action and clean energy within the bureaus and offices under the leadership of the Under Secretary for Economic Growth, Energy, and the Environment;

(2) ensure that such bureaus and offices are coordinating with other bureaus of the Department of State regarding the integration of climate action and climate diplomacy as a cross-cutting imperative across the Department of State;

(3) encourage all Under Secretaries of State—

(A) to assess how issues related to climate change and United States climate action are integrated into their operations and programs;

(B) to coordinate crosscutting actions and diplomatic efforts that relate to climate action; and

(C) to make available the technical assistance and resources of the bureaus and offices with relevant expertise to provide technical assistance and expert support to other bureaus within the Department of State regarding climate action, clean energy development, and climate diplomacy;

(4) manage the integration of scientific data on the current and anticipated effects of climate change into applied strategies and diplomatic engagements across programmatic and regional bureaus of the Department of State and into the Department of State's decision making processes;

(5) ensure that the relevant bureaus and offices provide appropriate technical support and resources—

(A) to the President, the Secretary of State, and their respective designees charged with addressing climate change and associated issues;

(B) to United States diplomats advancing United States foreign policy related to climate action; and

(C) for the appropriate engagement and integration of relevant domestic agencies in international climate change affairs, including United States participation in multilateral fora; and

(6) carry out other activities, as directed by the Secretary of State, that advance United States climate-related foreign policy objectives, including global greenhouse gas mitigation, climate change adaptation activities, and global climate security.

(c) RESPONSIBILITIES OF THE UNDER SECRETARY OF STATE FOR POLITICAL AFFAIRS.—The

Under Secretary of State for Political Affairs shall ensure that all foreign missions are—

(1) advancing United States bilateral climate diplomacy;

(2) engaging strategically on opportunities for bilateral climate action cooperation with foreign governments; and

(3) utilizing the technical resources and coordinating adequately with the bureaus reporting to the Under Secretary of State for Economic Growth, Energy and the Environment.

(d) REPORT.—Not later than 200 days after the date of the enactment of this Act, the Under Secretary of State for Economic Growth, Energy, and the Environment, in cooperation with the Under Secretary of State for Political Affairs, shall submit to the appropriate congressional committees a report that—

(1) assesses how climate action and United States climate diplomacy is integrated across the Bureaus of the Department of State; and

(2) includes recommendations on strategies to improve cross bureau coordination and understanding of United States climate action and climate diplomacy.

(e) EFFECT OF ELIMINATION OF POSITIONS.—If the positions of Under Secretary of State for Economic Growth, Energy, and the Environment and the Undersecretary of State for Political Affairs are eliminated or undergo name changes, the responsibilities of such Under Secretaries under this section shall be reassigned to other Under Secretaries of State, as appropriate.

(f) CLIMATE CHANGE OFFICERS.—

(1) IN GENERAL.—The Secretary of State shall establish and staff Climate Change Officer positions. Such Officers shall serve under the supervision of the appropriate chief of mission or the Under Secretary for Economic Growth, Energy, and the Environment of the Department of State, as the case may be. The Secretary shall ensure each embassy, consulate, and diplomatic mission to which such Officers are assigned pursuant to paragraph (2) has sufficient additional and appropriate staff to support such Officers.

(2) ASSIGNMENT.—Climate Change Officers shall be assigned to the following posts:

(A) United States embassies, or, if appropriate, consulates.

(B) United States diplomatic missions to, or liaisons with, regional and multilateral organizations, including the United States diplomatic missions to the European Union, African Union, Organization of American States, Arctic Council, and any other appropriate regional organization, and the United Nations and its relevant specialized agencies.

(C) Other posts as designated by the Secretary.

(3) RESPONSIBILITIES.—Each Climate Change Officer shall—

(A) provide expertise on effective approaches to—

(i) mitigate the emission of gases which contribute to global climate change and formulate national and global plans for reducing such gross and net emissions; and

(ii) reduce the detrimental impacts attributable to global climate change, and adapt to such impacts;

(B) engage and convene, in a manner that is equitable, inclusive, and just, with individuals and organizations which represent a government office, a nongovernmental organization, a social or political movement, a private sector entity, an educational or scientific institution, or any other entity concerned with—

(i) global climate change; the emission of gases which contribute to global climate change; or

(ii) reducing the detrimental impacts attributable to global climate change;

(C) facilitate engagement by United States entities in bilateral and multilateral cooperation on climate change; and

(D) carry out such other responsibilities as the Secretary may assign.

(4) RESPONSIBILITIES OF UNDER SECRETARY.—The Under Secretary for Economic Growth, Energy, and the Environment of the Department of

State shall, including by acting through the Bureau of Oceans and International Environmental and Scientific Affairs of the Department of State—

(A) provide policy guidance to Climate Change Officers established under this subsection;

(B) develop relations with, consult with, and provide assistance to relevant individuals and organizations concerned with studying, mitigating, and adapting to global climate change, or reducing the emission of gases which contribute to global climate change; and

(C) assist officers and employees of regional bureaus of the Department of State to develop strategies and programs to promote studying, mitigating, and adapting to global climate change, or reducing the emission of gases which contribute to global climate change.

(g) ACTIONS BY CHIEFS OF MISSION.—Each chief of mission in a foreign country shall—

(1) develop, as part of annual joint strategic plans or equivalent program and policy planning, a strategy to promote actions to improve and increase studying, mitigating, and adapting to global climate change, or reducing the emission of gases which contribute to global climate change by—

(A) consulting and coordinating with and providing support to relevant individuals and organizations, including experts and other professionals and stakeholders on issues related to climate change; and

(B) holding periodic meetings with such relevant individuals and organizations relating to such strategy; and

(2) hold ongoing discussions with the officials and leaders of such country regarding progress to improve and increase studying, mitigating, and adapting to global climate change, or reducing the emission of gases which contribute to global climate change in a manner that is equitable, inclusive, and just in such country; and

(3) certify annually to the Secretary of State that to the maximum extent practicable, considerations related to climate change adaptation and mitigation, sustainability, and the environment were incorporated in activities, management, and operations of the United States embassy or other diplomatic post under the director of the chief of mission.

(h) TRAINING.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall establish curriculum at the Department of State's Foreign Service Institute that supplements political and economic reporting tradecraft courses in order to provide employees of the Department with specialized training with respect to studying, mitigating, and adapting to global climate change, or reducing the emission of gases which contribute to global climate change. Such training shall include the following:

(1) Awareness of the full range of national and subnational agencies, offices, personnel, statutory authorities, funds, and programs involved in the international commitments of the United States regarding global climate change and the emission of gases which contribute to global climate change, the science of global climate change, and methods for mitigating and adapting to global climate change.

(2) Awareness of methods for mitigating and adapting to global climate change and reducing the emission of gases which contribute to global climate change that are equitable, inclusive, and just.

(3) Familiarity with United States agencies, multilateral agencies, international financial institutions, and the network of donors providing assistance to mitigate and adapt to global climate change.

(4) Awareness of the most frequently announced goals and methods of the entities specified in subsection (f)(3)(B).

(i) CONTRACTING.—Contracting and agreements officers of the Department of State, and other United States embassy personnel respon-

sible for contracts, grants, or acquisitions, shall receive training on evaluating proposals, solicitations, and bids, for considerations related to sustainability and adapting to or mitigating impacts from climate change.

(j) REPORTING.—Not later than 180 days after the date of the enactment of this Act and biennially thereafter, the Secretary of State shall submit to the appropriate congressional committees a report that includes a detailed breakdown of posts at which staff are assigned the role of Climate Change Officer, the responsibilities to which they have been assigned, and the strategies developed by the chief of mission, as applicable.

(k) CLIMATE CHANGE SUPPORT AND FINANCING.—The Secretary of State shall facilitate the coordination among the Department of State and other relevant Federal departments and agencies toward contributing technical cooperation, engagement, development finance, or foreign assistance relevant to United States international climate action and in support of United States climate diplomacy.

(l) SENSE OF CONGRESS.—It is the sense of Congress that climate diplomacy tools as described in this section are critical for demonstrating the commitment to include climate changes issues as core tenets of foreign policy priorities, as well as preserving the United States' role as a global leader on climate change action.

SEC. 3606. DRIVING A GLOBAL CLIMATE CHANGE RESILIENCE STRATEGY.

(a) AMENDMENT.—Section 117 of the Foreign Assistance Act of 1961 (22 U.S.C. 2151p) is amended—

(1) in subsection (b)—

(A) by inserting “(1)” after “(b)”;

(B) by adding at the end the following:

“(2)(A) The President is authorized to furnish assistance to programs and initiatives that—

“(i) promote resilience among communities facing harmful impacts from climate change; and

“(ii) reduce the vulnerability of persons affected by climate change.

“(B) There shall be, in the Department of State, a Coordinator of Climate Change Resilience.”;

(2) by adding at the end the following:

“(d)(1) The Secretary of State, in consultation with the Administrator of the United States Agency for International Development, in consultation with the Administrator of the Environmental Protection Agency, the Secretary of Energy, and any other Federal agency the President determines appropriate, shall establish a comprehensive, integrated, 10-year strategy, which shall be referred to as the ‘Global Climate Change Resilience Strategy’, to mitigate the impacts of climate change on displacement and humanitarian emergencies.

“(2) The Global Climate Change Resilience Strategy shall—

“(A) focus on addressing slow-onset and rapid-onset effects of events caused by climate change, consider the effects of events caused by climate change, and describe the key features of successful strategies to prevent such conditions;

“(B) include specific objectives and multisectoral approaches to the effects of events caused by climate change;

“(C) promote United States national security and economic interests while leading international climate-related policymaking efforts, on which the absence of United States leadership would lead to a substantial and harmful decline in the nation's global competitiveness;

“(D) promote international instruments on climate action and other relevant international standards and best practices, as such standards and practices develop, that serve the interests of the American people and protect United States environmental resources and the planet;

“(E) promote the adoption and implementation of such international climate-related agreements, standards, and practices by foreign states;

“(F) work with United States allies and partners to ensure a level playing field exists when it comes to climate action and to encourage and assist foreign countries to make similar or even greater commitments than the United States;

“(G) describe approaches that ensure national leadership, as appropriate, and substantively engage with civil society, local partners, and the affected communities, including marginalized populations and underserved populations, in the design, implementation, and monitoring of climate change programs to best safeguard the future of those subject to displacement;

“(H) assign roles for relevant Federal agencies to avoid duplication of efforts, while ensuring that—

“(i) the Department of State is responsible for—

“(I) leading the Global Climate Change Resilience Strategy;

“(II) establishing United States foreign policy;

“(III) advancing diplomatic and political efforts; and

“(IV) guiding security assistance and related civilian security efforts to mitigate climate change threats;

“(ii) the United States Agency for International Development is—

“(I) responsible for overseeing programs to prevent the effects of events caused by climate change;

“(II) the lead implementing agency for development and related nonsecurity program policy related to building resilience and achieving recovery; and

“(III) responsible for providing overseas humanitarian assistance to respond to international and internal displacement caused by climate change and to coordinate the pursuit of durable solutions for climate-displaced persons; and

“(iii) other Federal agencies support the activities of the Department of State and the United States Agency for International Development, as appropriate, with the concurrence of the Secretary of State and the Administrator of the United States Agency for International Development;

“(I) describe programs that agencies will undertake to achieve the stated objectives, including descriptions of existing programs and funding by fiscal year and account;

“(J) identify mechanisms to improve coordination between the United States, foreign governments, and international organizations, including the World Bank, the United Nations, regional organizations, and private sector organizations;

“(K) address efforts to expand public-private partnerships and leverage private sector resources;

“(L) describe the criteria, metrics, and mechanisms for monitoring and evaluation of programs and objectives in the Global Climate Change Resilience Strategy;

“(M) describe how the Global Climate Change Resilience Strategy will ensure that programs are country-led and context-specific;

“(N) establish a program to monitor climate and social conditions to anticipate and prevent climate and environmental stressors from evolving into national security risks;

“(O) include an assessment of climate risks in the Department of State's Quadrennial Diplomacy and Development Review; and

“(P) prioritize foreign aid, to the extent practicable, for international climate resilience in support of this Global Climate Change Resilience Strategy.

“(3) Not later than 270 days after the date of the enactment of this subsection, and annually thereafter, the President shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, based in part on the information collected pursuant to this section, that details the Global Climate Change Resilience Strategy. The report shall be submitted in

unclassified form, but may include a classified annex, if necessary.

“(4) Not later than 180 days after the date of the enactment of this subsection, the Secretary of State and the Coordinator of Global Climate Change Resilience shall brief the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives regarding the progress made by the Federal Government in implementing the Global Climate Change Resilience Strategy.

“(5)(A) Not later than 270 days after the date of the enactment of this subsection, and annually thereafter, the Comptroller General of the United States, in cooperation and consultation with the Secretary of State, shall produce a report evaluating the progress that the Federal Government has made toward incorporating climate change into department and agency policies, including the resources that have been allocated for such purpose.

“(B) The report required under subparagraph (A) shall assess—

“(i) the degree to which the Department of State and the United States Agency for International Development (USAID) are—

“(I) developing climate change risk assessments; and

“(II) providing guidance to missions on how to include climate change risks in their integrated country strategies;

“(ii) whether the Department of State and USAID have sufficient resources to fulfill the requirements described in paragraph (2); and

“(iii) any areas in which the Department of State and USAID may lack sufficient resources to fulfill such requirements.”

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary to carry out this Global Climate Change Resilience Strategy.

SEC. 30607. ADDRESSING INTERNATIONAL CLIMATE CHANGE MITIGATION, ADAPTATION, AND SECURITY.

(a) **DEFINITIONS.**—In this section:

(1) **CONVENTION.**—The term “Convention” means the United Nations Framework Convention on Climate Change, done at New York May 9, 1992, and entered into force March 21, 1994.

(2) **MOST VULNERABLE COMMUNITIES AND POPULATIONS.**—The term “most vulnerable communities and populations” means communities and populations that are at risk of substantial adverse effects of climate change and have limited capacity to respond to such effects, including women, impoverished communities, children, indigenous peoples, and informal workers.

(3) **MOST VULNERABLE DEVELOPING COUNTRIES.**—The term “most vulnerable developing countries” means, as determined by the Administrator of the United States Agency for International Development, developing countries that are at risk of substantial adverse effects of climate change and have limited capacity to respond to such effects, considering the approaches included in any international treaties and agreements.

(4) **PROGRAM.**—The term “Program” means the International Climate Change Adaptation, Mitigation, and Security Program established pursuant to subsection (c).

(b) **PURPOSE.**—The purpose of this section is to provide authorities for additional, new, current, and ongoing bilateral and regional international development assistance, and, as appropriate, to leverage private resources, in support of host country driven projects, planning, policies, and initiatives designed to improve the ability of host countries—

(1) to primarily produce reliable renewable energy and reduce or mitigate carbon emissions from the power sector while facilitating the transition in key global markets from electricity generated from fossil fuel power to low-cost clean energy sources, in a manner that is equitable for workers and communities;

(2) to adapt and become more resilient to current and forecasted effects of climate change; and

(3) to employ—

(A) sustainable land use practices that mitigate desertification and reduce greenhouse gas emissions from deforestation and forest degradation; and

(B) agricultural production practices that reduce poverty while improving soil health, protecting water quality, and increasing food security and nutrition.

(c) **ESTABLISHMENT OF PROGRAM.**—The Secretary of State, in coordination with the Secretary of the Treasury and the Administrator of the United States Agency for International Development (USAID), shall establish a program, to be known as the “International Climate Change Adaptation, Mitigation, and Security Program”, to provide bilateral and regional assistance to developing countries for programs, projects, and activities described in subsection (e).

(d) **SUPPLEMENT NOT SUPPLANT.**—Assistance provided under this section shall be used to supplement, and not to supplant, any other Federal, State, or local resources available to carry out activities that fit the characteristics of the Program.

(e) **POLICY.**—It shall be the policy of the United States to ensure that the Program provides resources to developing countries, particularly the most vulnerable communities and populations in such countries, to support the development and implementation of programs, projects, and activities that—

(1) reduce greenhouse gas emissions through the integration and deployment of clean energy, including transmission, distribution, and interconnections to renewable energy, while facilitating the transition from electricity generated from fossil fuel power to low-cost renewable energy sources, in a manner that is equitable for workers and communities;

(2) address financial or other barriers to the widespread deployment of clean energy technologies that reduce, sequester, or avoid greenhouse gas emissions;

(3) improve the availability, viability, and accessibility of zero emission vehicles, including support for design and development of transportation networks and land use practices that mitigate carbon emissions in the transportation sector;

(4) support building capacities that may include—

(A) developing and implementing methodologies and programs for measuring greenhouse gas emissions and verifying emissions mitigation, including building capacities to conduct emissions inventories and meet reporting requirements under the Paris Agreement;

(B) assessing, developing, and implementing technology and policy options for greenhouse gas emissions mitigation and avoidance of future emissions, including sector-based and cross-sector mitigation strategies;

(C) enhancing the technical capacity of regulatory authorities, planning agencies, and related institutions in developing countries to improve the deployment of clean energy technologies and practices, including through increased transparency;

(D) training and instruction regarding the installation and maintenance of renewable energy technologies; and

(E) activities that support the development and implementation of frameworks for intellectual property rights in developing countries;

(5) improve resilience, sustainable economic growth, and adaptation capacities in response to the effects of climate change;

(6) promote appropriate job training and access to new job opportunities in new economic sectors and industries that emerge due to the transition from fossil fuel energy to clean energy;

(7) reduce the vulnerability and increase the resilience capacities of communities to the effects of climate change, including effects on—

(A) water availability;

(B) agricultural productivity and food security;

(C) flood risk;

(D) coastal resources;

(E) biodiversity;

(F) economic livelihoods;

(G) health and diseases;

(H) housing and shelter; and

(I) human migration;

(8) help countries and communities adapt to changes in the environment through enhanced community planning, preparedness, and growth strategies that take into account current and forecasted regional and localized effects of climate change;

(9) conserve and restore natural resources, ecosystems, and biodiversity threatened by the effects of climate change to ensure such resources, ecosystems, and biodiversity are healthy and continue to provide natural protections from the effects of climate change such as extreme weather;

(10) provide resources, information, scientific data and modeling, innovative best practices, and technical assistance to support vulnerable developing countries to adapt to the effects of climate change;

(11) promote sustainable and climate-resilient societies, including through improvements to make critical infrastructure less vulnerable to the effects of climate change;

(12) encourage the adoption of policies and measures, including sector-based and cross-sector policies and measures, that substantially reduce, sequester, or avoid greenhouse gas emissions from the domestic energy and transportation sectors of developing countries;

(13) reduce deforestation and land degradation to reduce greenhouse gas emissions and implement sustainable forestry practices;

(14) promote sustainable land use activities, including supporting development planning, design, and construction with respect to transportation systems and land use;

(15) promote sustainable agricultural practices that mitigate carbon emissions, conserve soil, and improve food and water security of communities;

(16) foster partnerships with private sector entities and nongovernmental international development organizations to assist with developing solutions and economic opportunities that support projects, planning, policies, and initiatives described in subsection (b);

(17) provide technical assistance and strengthen capacities of developing countries to meet the goals of the conditional nationally determined contributions of those countries;

(18) establish investment channels designed to leverage private sector financing in—

(A) clean energy;

(B) sustainable agriculture and natural resource management; and

(C) the transportation sector as described in paragraph (3); and

(19) provide technical assistance and support for non-extractive activities that provide alternative economic growth opportunities while preserving critical habitats and natural carbon sinks.

(f) **PROVISION OF ASSISTANCE.**—

(1) **IN GENERAL.**—The Administrator of USAID, in consultation with other Federal departments and agencies, shall provide assistance under the Program—

(A) in the form of bilateral assistance pursuant to the requirements under subsection (g);

(B) to multilateral funds or international institutions with programs for climate mitigation or adaptation in developing countries consistent with the policy described in subsection (e); or

(C) through a combination of the mechanisms specified in subparagraphs (A) and (B).

(2) **LIMITATION.**—

(A) **CONDITIONAL DISTRIBUTION TO MULTILATERAL FUNDS OR INTERNATIONAL INSTITUTIONS.**—In any fiscal year, the Administrator of USAID may provide up to 40 percent of the assistance

available to carry out the Program to 1 or more multilateral funds or international institutions that meet the requirements of subparagraph (B).

(B) **MULTILATERAL FUND OR INTERNATIONAL INSTITUTION ELIGIBILITY.**—A multilateral fund or international institution is eligible to receive assistance under subparagraph (A)—

(i) if—

(I) such fund or institution is established pursuant to—

(aa) the Convention; or

(bb) an agreement negotiated under the Convention; or

(II) the assistance is directed to 1 or more multilateral funds or international development institutions, pursuant to an agreement negotiated under the Convention; and

(ii) if such fund or institution—

(I) specifies the terms and conditions under which the United States is to provide assistance to the fund or institution, and under which the fund or institution is to provide assistance to recipient countries;

(II) ensures that assistance from the United States to the fund or institution and the principal and income of the fund or institution are disbursed only—

(aa) to support projects, planning, policies, and initiatives described in subsection (b);

(bb) consistent with the policy described in subsection (e); and

(cc) in regular consultation with relevant governing bodies of the fund or institution that—

(AA) include representation from countries among the most vulnerable developing countries; and

(BB) provide public access.

(C) **CONGRESSIONAL NOTIFICATION.**—The Secretary of State, the Administrator of USAID, or the Secretary of the Treasury shall notify the appropriate congressional committees not later than 15 days before providing assistance to a multilateral fund or international institution under this subsection.

(3) **LOCAL CONSULTATIONS.**—Programs, projects, and activities supported by assistance provided under this subsection shall require consultations with local communities, particularly the most vulnerable communities and populations in such communities, and indigenous peoples in areas in which any programs, projects, or activities are planned to engage such communities and peoples through adequate disclosure of information, public participation, and consultation, including full consideration of the interdependence of vulnerable communities and ecosystems to promote the resilience of local communities.

(g) **BILATERAL ASSISTANCE.**—

(1) **IN GENERAL.**—Except to the extent inconsistent with this subsection, the administrative authorities under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) shall apply to the implementation of this subsection to the same extent and in the same manner as such authorities apply to the implementation of such Act in order to provide the Administrator of USAID with the authority to provide assistance to countries, including the most vulnerable developing countries, for programs, projects, and activities consistent with the purposes described in subsection (b) and the policy described in subsection (e).

(2) **CONSIDERATIONS.**—In carrying out this subsection, the Administrator shall ensure that—

(A) the environmental impact of proposed programs, projects, and activities is considered through adequate consultation, public participation, and public disclosure of relevant information; and

(B) programs, projects, and activities under this subsection—

(i) avoid environmental degradation, to the maximum extent practicable; and

(ii) are aligned, to the maximum extent practicable, with broader development, poverty alleviation, or natural resource management objectives and initiatives in the recipient country.

(3) **COMMUNITY ENGAGEMENT.**—The Administrator shall seek to ensure that—

(A) local communities, particularly the most vulnerable communities and populations in areas in which any programs, projects, or activities are carried out under this subsection, are engaged in the design, implementation, monitoring, and evaluation of such programs, projects, and activities through disclosure of information, public participation, and consultation; and

(B) the needs and interests of the most vulnerable communities and populations are addressed in national or regional climate change adaptation plans developed with USAID support.

(4) **CONSULTATION AND DISCLOSURE.**—For each country receiving assistance under this subsection, the Administrator shall establish a process for consultation with, and disclosure of information to, local, national, and international stakeholders regarding any programs, projects, or activities carried out under this subsection.

(h) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$2,000,000,000 for fiscal year 2022 and each fiscal year thereafter.

SEC. 30608. REDUCING THE NEGATIVE IMPACTS FROM SHORT-LIVED CLIMATE POLLUTANTS.

(b) **IN GENERAL.**—The President shall direct the United States representatives to appropriate international bodies and conferences to use the voice, vote, and influence of the United States, consistent with the broad foreign policy goals of the United States, to advocate that each such body or conference—

(1) commit to significantly increasing efforts to reduce short-lived climate pollutants;

(2) invest in and develop alternative energy sources, industrial and agricultural processes, appliances, and products to replace sources of short-lived climate pollutants;

(3) enhance coordination with the private sector—

(A) to increase production and distribution of clean energy alternatives, industrial processes, and products that will replace sources of short-lived climate pollutants;

(B) to develop action plans to mitigate short-lived climate pollutants from various private sector operations;

(C) to encourage best technology, methods, and management practices for reducing short-lived climate pollutants;

(D) to craft or enhance specific financing mechanisms for the incremental costs associated with mitigating short-lived climate pollutants; and

(E) to grow economic opportunities and develop markets, as appropriate, for reducing short-lived climate pollutants;

(4) provide technical assistance to foreign regulatory authorities and governments to remove unnecessary barriers to investment in short-lived climate pollutant mitigation solutions, including—

(A) the use of safe and affordable clean energy;

(B) the implementation of policies requiring industrial and agricultural best practices for capturing or mitigating the release of methane from extractive, agricultural, and industrial processes; and

(C) climate assessment, scientific research, monitoring, and technological development activities;

(5) develop and implement clear, accountable, and metric-based targets to measure the effectiveness of projects described in paragraph (4); and

(6) engage international partners in an existing multilateral forum (or, if necessary, establish through an international agreement a new multilateral forum) to improve global cooperation for—

(A) creating tangible metrics for evaluating efforts to reduce short-lived climate pollutants;

(B) developing and implementing best practices for significantly reducing emissions of

short-lived climate pollutants, including expanding capacity for innovative instruments to effectively mitigate short-lived climate pollutants at the national and subnational levels of foreign countries, particularly countries with little capacity to reduce greenhouse gas emissions and deploy clean energy facilities, and countries that lack sufficient policies to advance such development;

(C) encouraging the development of standards and practices, and increasing transparency and accountability efforts for the reduction of short-lived climate pollutants;

(D) integrating tracking and monitoring systems into industrial processes;

(E) fostering research to improve scientific understanding of—

(i) how high concentrations of short-lived climate pollutants affect human health, safety, and our environment;

(ii) changes in the amount and regional concentrations of black carbon and methane emissions, based on scientific modeling and forecasting;

(iii) effective means to sequester short-lived climate pollutants; and

(iv) other related areas of research the United States representatives deem necessary;

(F) encouraging the World Bank, the International Monetary Fund, and other international finance organizations—

(i) to prioritize efforts to combat short-lived climate pollutants; and

(ii) to enhance or maintain transparency by providing sufficient and adequate information to facilitate independent verification of their climate finance reporting;

(G) encouraging observers of the Arctic Council (including India and China) to adopt mitigation plans consistent with the findings and recommendations of the Arctic Council's Framework for Action on Black Carbon and Methane;

(H) collaborating on technological advances in short-lived climate pollutants mitigation, sequestration and reduction technologies; and

(I) advising foreign countries, at both the national and subnational levels, regarding the development and execution of regulatory policies, services, and laws pertaining to reducing the creation and the collection and safe management of short-lived climate pollutants.

(c) **ENHANCING INTERNATIONAL OUTREACH AND PARTNERSHIP OF UNITED STATES AGENCIES INVOLVED IN GREENHOUSE GAS REDUCTIONS.**—

(1) **FINDING.**—Congress recognizes the success of the United States Climate Alliance and the greenhouse gas reduction programs and strategies established by the Environmental Protection Agency's Center for Corporate Climate Leadership.

(2) **AUTHORIZATION OF EFFORTS TO BUILD FOREIGN PARTNERSHIPS.**—The Secretary of State, in coordination with the Administrator of the Environmental Protection Agency, shall build partnerships, as appropriate, with the governments of foreign countries and to support international efforts to reduce short-lived climate pollutants.

(e) **CONSIDERATION OF BLACK CARBON, METHANE, AND HIGH-GWP HFC IN NEGOTIATING INTERNATIONAL AGREEMENTS.**—In negotiating any relevant international agreement with any country or countries after the date of the enactment of this Act, the President shall—

(1) consider the impact short-lived climate pollutants are having on the increase in global average temperatures and the resulting global climate change;

(2) consider the effects that climate change is having on the environment; and

(3) ensure that the agreement strengthens efforts to significantly reduce short-lived climate pollutants from such country or countries.

(f) **PLAN TO REDUCE BLACK CARBON EMISSIONS FROM SHIPS.**—The Administrator of the Environmental Protection Agency, in consultation with the Secretary of State, the Secretary of Energy, the Secretary of Transportation, the Secretary of Commerce, and the Commandant of

the Coast Guard, shall develop a comprehensive plan to reduce black carbon emissions from ships based on appropriate emissions data from oceangoing vessels. The plan shall provide for such reduction through—

- (1) a clean freight partnership;
- (2) limits on black carbon emissions; and
- (3) efforts that include protection of access to critical fuel shipments and emergency needs of coastal communities.

(g) **ESTABLISHMENT OF INTERAGENCY WORKING GROUP ON BLACK CARBON, METHANE, AND HIGH-GWP HFC MITIGATION.**—

(1) **ESTABLISHMENT.**—Not later than 90 days after the date of enactment of this Act, the President shall establish a task force, to be known as the Interagency Working Group on Short-Lived Climate Pollutant Mitigation.

(2) **MEMBERSHIP.**—The members of the Working Group shall include the head (or a designee thereof) of—

- (A) the Department of Agriculture;
- (B) the Department of Commerce;
- (C) the Department of Defense;
- (D) the Department of Energy;
- (E) the Department of Health and Human Services;

- (F) the Department of the Interior;
- (G) the Department of State;
- (H) the Department of Transportation;
- (I) the Environmental Protection Agency;
- (J) the National Oceanic and Atmospheric Administration;

- (K) the Council on Environmental Quality;
- (L) the United States Agency for International Development; and

(M) any other Federal agency the President determines appropriate.

(3) **DUTIES.**—The Working Group shall—

- (C) review the policy recommendations made by—

(i) the Intergovernmental Panel on Climate Change;

(ii) the United States Climate Alliance;

(iii) the Interagency Strategy to Reduce Methane Emissions;

(iv) the Council on Climate Preparedness and Resilience;

(v) the Clean Cooking Alliance;

(vi) the International Maritime Organization; and

(vii) other relevant organizations and institutions; and

(D) develop an action plan to reduce short-lived climate pollutants that incorporates any appropriate proposals or recommendations made by the entities referred to in subparagraph (C).

SEC. 30609. BUILDING UNITED STATES ECONOMIC GROWTH AND TECHNOLOGICAL INNOVATION THROUGH THE GREEN CLIMATE FUND.

(a) **GREEN CLIMATE FUND.**—

(1) **FINDINGS.**—Congress finds that—

(A) climate change most severely impacts vulnerable and disadvantaged communities in the United States and around the world;

(B) it is the responsibility of the United States Government to work with and press other countries to address environmental justice and climate justice;

(C) the report of the United Nations Environment Programme entitled “Climate Change and the Cost of Capital in Developing Countries”, dated May 2018, found that, in the 10 years prior to the publication of the report, climate vulnerability has cost the 20 nations most affected by catastrophes rooted in climate change an additional \$62,000,000,000 in interest payments alone;

(D) individuals and families, particularly communities of color, indigenous communities, and low-income communities, that are on the frontlines of climate change across the globe are often in close proximity to environmental stressors or sources of pollution;

(E) the communities described in subparagraph (D)—

(i) are often the first exposed to the causes and impacts of climate change; and

(ii) have the fewest resources with which to mitigate those impacts or to relocate;

(F) all efforts to adapt to and mitigate climate change must include specific protections for and acknowledgment of the harm of climate change to communities of color, indigenous peoples, women, and other frontline communities and marginalized peoples around the world;

(G) in Paris, on December 12, 2015, the parties to the United Nations Framework Convention on Climate Change adopted the Paris Agreement, a benchmark agreement—

(i) to combat climate change;

(ii) to accelerate and intensify the actions and investments needed for a sustainable low carbon future; and

(iii) that acknowledges, “Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights, the right to health, the rights of indigenous peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity”;

(H) the Paris Agreement—

(i) notes the importance of “climate justice” when mitigating and adapting to climate change; and

(ii) recognizes “the need for an effective and progressive response to the urgent threat of climate change”;

(I) it is imperative for all countries to undertake mitigation activities to rapidly meet the goal of limiting global warming to not more than 1.5 degrees Celsius;

(J) developed countries have the greatest capacity to mitigate their greenhouse gas emissions, while—

(i) developing countries have the least capacity to engage in mitigation activities; and

(ii) the capacity of developing countries to engage in mitigation activities is less than the national mitigation potential of those developing countries;

(K) the determination for the fair share of mitigation and adaptation activities for each country must take into account—

(i) the historic greenhouse gas emissions of each country; and

(ii) the current capacity of each country to both mitigate greenhouse gas emissions and adapt to climate impacts;

(L) developed countries that have historically emitted a disproportionately high share of greenhouse gas emissions, and reaped the economic benefits of those polluting activities, have a corresponding disproportionately greater responsibility to engage in global mitigation and adaptation activities, as compared to less industrialized countries that have historically polluted far less;

(M) the only realistic way for less industrialized countries to meet their full mitigation potential is through international climate financing by more developed countries;

(N) in the 2009 Copenhagen Accord, developed countries committed to jointly mobilize, starting in 2020, \$100,000,000,000 per year in public climate financing (as well as private investment and other alternative forms of finance), for developing countries, a commitment reaffirmed in 2015 in Decision 1/CP.21 of the United Nations Framework Convention on Climate Change, Adoption of the Paris Agreement;

(O) the \$100,000,000,000 commitment described in subparagraph (N) was a political compromise that falls short of the actual financing needs for climate action in developing countries;

(P) Bloomberg New Energy Finance has estimated that the transition to renewable energy sources in developing countries will require hundreds of billions of dollars annually;

(Q) the United Nations Environment Programme has estimated that adaptation needs relating to climate change in developing countries may be as much as \$300,000,000,000 annually by 2030;

(R) the Green Climate Fund was created in 2010 by 194 countries to serve as a crucial financing mechanism to help developing countries limit or reduce greenhouse gas emissions and adapt to climate change;

(S) in 2015, the United Nations Framework Convention on Climate Change agreed that the Green Climate Fund should serve the goals of the Paris Agreement, which states that “developed country Parties shall provide financial resources to assist developing country Parties with respect to both mitigation and adaptation in continuation of their existing obligations under the Convention”;

(T) the Green Climate Fund is an essential institution for climate financing, as the Green Climate Fund ensures—

(i) balanced governance between developed and developing countries;

(ii) stakeholder engagement and discourse;

(iii) a balanced approach between mitigation and adaptation;

(iv) fair and equal labor and working conditions;

(v) conservation of biodiversity and critical habitats; and

(vi) strong environmental, social, and gender protections;

(U) the Green Climate Fund—

(i) promotes and protects human rights and the rights of marginalized groups, including indigenous peoples, women, children, and people with disabilities; and

(ii) continues to take steps to strengthen protection for marginalized groups;

(iii) the United States committed \$3,000,000,000 of the first \$10,000,000,000 raised for the initial resource mobilization period of the Green Climate Fund, though only $\frac{1}{3}$ of this pledge was fulfilled, leaving the United States the only country to fall substantially short of a commitment of a country to the Green Climate Fund; and

(V) the Green Climate Fund is a fully operational and proven institution supporting well over 100 projects and programs in developing countries around the world.

(2) **STATEMENT OF POLICY.**—It is the policy of the United States to provide climate financing—

(A) as an essential part of the global effort to combat climate change; and

(B) that—

(i) upholds the principles of environmental justice and climate justice;

(ii) supports programs and projects developed by recipient countries and communities;

(iii) is designed and implemented with the free, prior, and informed consent of indigenous peoples and other impacted communities;

(iv) promotes gender equality as essential in all of the projects and programs supported by climate financing;

(v) includes best practices for environmental and social safeguards to ensure that projects and programs supported by climate financing respect fundamental human rights; and

(vi) addresses both mitigation and adaptation as essential aspects of responding to climate change.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated for contributions to the Green Climate Fund \$4,000,000,000 for each of the fiscal years 2022 and 2023.

(c) **SENSE OF CONGRESS.**—It is the sense of Congress that the climate financing needs to achieve the greenhouse gas emissions reductions required to keep the planet at or below 1.5 degrees Celsius of global warming are significantly greater than the amount of funds authorized to be appropriated under subsection (a).

SEC. 30610. ENSURING A WHOLE-OF-GOVERNMENT RESPONSE TO CLIMATE ACTION.

(a) **ESTABLISHMENT.**—The Secretary of State shall establish a Climate Impacts Task Force (referred to in this section as the “Task Force”) with the mandate to—

(1) monitor international climate and related impacted social conditions to anticipate and prevent climate and environmental stressors from evolving into national security risks;

(2) monitor and assess climate action undertaken by other countries in response to national strategies and international commitments, and coordinate closely with allies and partners to ensure a coordinated response against any state or non-state actors, including the People's Republic of China (PRC) and PRC companies, undermining global climate objectives, norms, and practices;

(3) strengthen the efforts of the Department of State and the United States Government to act proactively to mitigate the human harms and potential for national security risks resulting from international emerging events exacerbated by climate change; and

(4) assist other Federal departments and agencies, foreign partners, and multilateral organizations in their efforts to do the same.

(b) **LEADERSHIP.**—The Secretary of State shall designate a senior career official, as appropriate, of the Department of State to serve as the Chair of the Task Force. Such official shall report to the Secretary of State.

(c) **RESPONSIBILITIES.**—Under the direction of the Chair, the Task Force shall—

(1) meet regularly to ensure that events exacerbated by climate change and the risk of emerging events exacerbated by climate change throughout the world are adequately considered and addressed;

(2) facilitate the development and execution of policies and tools to enhance the capacity of the United States to prevent and respond to emerging events exacerbated by climate change worldwide;

(3) monitor developments throughout the world that heighten the risk of emerging events exacerbated by climate change;

(4) identify gaps in United States foreign policy related to the prevention of and response to emerging events exacerbated by climate change with respect to certain regions or particular countries;

(5) incorporate lessons learned from past United States efforts to prevent and respond to emerging events exacerbated by climate change and other impacts that are comparable in scope or severity;

(6) provide the Secretary of State with recommendations and potential improvements to policies, programs, resources, and tools related to the prevention of and response to emerging events exacerbated by climate change;

(7) coordinate the Department of State's engagement in interagency processes led by the National Security Council that share the Task Force's objectives;

(8) conduct outreach not less frequently than biannually, with representatives of nongovernmental organizations dedicated to the prevention of and response to emerging events exacerbated by climate change and other appropriate parties, to—

(A) receive assistance relating to the Task Force's efforts to address emerging events exacerbated by climate change and develop new or improved policies, programs, resources, and tools; and

(B) provide a public understanding of the work of the Task Force;

(9) in carrying out paragraphs (1) through (9), focus on particular ways for the United States to develop, strengthen, and enhance its capabilities to—

(A) monitor, receive early warning of, and coordinate responses to potential emerging events exacerbated by climate change;

(B) engage allies and partners, including multilateral and regional institutions, to build capacities and mobilize action for preventing and responding to emerging events exacerbated by climate change;

(C) encourage the deployment of civilian advisors to prevent and respond to emerging events exacerbated by climate change;

(D) increase the capacity of and develop doctrine for the United States Foreign Service, civil service, Armed Forces, development professionals, and other actors to engage in the full spectrum of activities to prevent and respond to emerging events exacerbated by climate change;

(E) develop and implement tailored foreign assistance programs that address and mitigate the risks of emerging events exacerbated by climate change;

(F) ensure intelligence collection, analysis, and sharing of appropriate information; and

(G) address any other issues that the Task Force determines appropriate;

(10) in carrying out paragraphs (1) through (9), receive support from bureaus and offices of the Department of State, as the Secretary of State determines appropriate; and

(11) facilitate annual coordination between the Department of State and other appropriate departments and agencies to ensure international and domestic climate change objectives are aligned.

(d) **COMPOSITION.**—The Task Force shall—

(1) seek to ensure that its efforts complement and support interagency processes led by the National Security Council that share the Task Force's objectives; and

(2) operate with regular consultation and participation of designated representatives, at the Assistant Secretary level or higher, from all such executive departments, agencies, or offices as the Chair may designate.

(e) **REPORT.**—Not later than 180 days after the date of the enactment of this Act and every 2 years thereafter for the following 10 years, the Secretary of State, in consultation with the Task Force, shall submit to the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives an unclassified report, with a classified annex if necessary, that includes—

(1) a review, in consultation with the designated representatives specified in subsection (d), consisting of—

(A) an evaluation of the efficacy of current efforts based on United States and locally identified indicators, including capacities and constraints for United States Government-wide detection, early warning and response, information-sharing, contingency planning, and coordination of efforts to prevent and respond to emerging events exacerbated by climate change;

(B) an assessment of the funding expended by relevant Federal departments and agencies on emerging events exacerbated by climate change and the legal, procedural, and resource constraints faced by the Department of State and the United States Agency for International Development throughout respective budgeting, strategic planning, and management cycles to support the prevention of and response to emerging events exacerbated by climate change;

(C) current annual global assessments of emerging events exacerbated by climate change;

(D) recommendations to further strengthen United States capabilities described in subparagraph (A); and

(E) consideration of analysis, reporting, and policy recommendations by civil society, academic, and other nongovernmental organizations and institutions to prevent and respond to emerging events exacerbated by climate change;

(2) recommendations to ensure shared responsibility by—

(A) enhancing multilateral mechanisms for preventing, mitigating, and responding to emerging events exacerbated by climate change; and

(B) strengthening regional organizations; and

(3) the implementation status of the recommendations included in the review under paragraph (1).

(f) **BRIEFINGS AND MATERIALS.**—The Chair and members of the Task Force shall, not less frequently than annually, provide briefings and

materials to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives.

(g) **REPORT BY THE DIRECTOR OF NATIONAL INTELLIGENCE.**—The Director of National Intelligence is encouraged to include, in his or her annual (or more often as appropriate) unclassified testimony, accompanied by a classified annex, if necessary, to Congress (including the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate) on threats to United States national security—

(1) a review of countries and regions at risk of emerging events exacerbated by climate change; and

(2) whenever possible, specific identification of countries and regions at immediate risk of emerging events exacerbated by climate change.

(h) **SENSE OF CONGRESS.**—It is the sense of Congress that rapid and robust climate change response mechanisms, including the establishment of the Task Force, are critical for ensuring other countries remain accountable to their climate action commitments as well as preserving the national security and economic interests of the United States.

SEC. 30611. WORKING WITH INTERNATIONAL PARTNERS TO REDUCE DEFORESTATION.

(a) **FINDINGS.**—Congress finds the following:

(1) The People's Republic of China (PRC) is having a substantial impact on the most important forest ecosystems in the world, and illegal logging and agricultural expansion have caused the massive forest loss. According to the World Resources Institute, the PRC has become the world's leading importer and consumer of timber products, soybeans, and palm oil, as well as the largest manufacturing and export country of forest products.

(2) In 2016, the PRC imported logs from more than 100 countries in the world. According to a Global Witness report, between January 2013 and April 2020, Chinese financial institutions provided more than \$22.5 billion to major companies that produce and trade commodities at high risk of driving deforestation. These commodities include beef, soy, palm oil, paper, pulp, rubber, and timber.

(3) Further, the growing international demand for such agricultural commodities causes the majority of deforestation emissions globally, and most of the associated land-clearing violates applicable national or local laws. According to a 2021 Forest Trends report, at least 69 percent of forest land converted to pasture or cropland was cleared illegally.

(4) The growing demand for timber and agricultural commodities has accelerated unsustainable—and often illegal—logging and the trade of timber products, which harms the countries in which it takes place by siphoning away government tax revenue, transforming the livelihoods of communities dependent on forests, and hurting legal businesses' competitiveness. Further, illegal logging and illegal conversion of forest to agricultural land threatens biodiversity and accelerates deforestation and forest degradation in key timber supply countries, undermining United States and global climate goals.

(5) The United States should work with international partners to ensure that Chinese and other banks factor into lending practices the environmental and social impact of the companies they finance. This should include pressuring the PRC and other countries to revise regulations to require the banking sector not to finance companies linked to deforestation and include rigorous checks on the companies operating in sectors or regions where there is a high risk of deforestation to ensure they are not associated with deforestation.

(b) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—Except as otherwise expressly provided, the term "Administrator" means the Administrator of the United States Agency for International Development.

(2) **DEFORESTATION.**—The term “deforestation” means a change in land use from a forest (including peatlands) to any other land use.

(3) **DEVELOPING COUNTRY.**—The term “developing country” means a country eligible to receive official development assistance according to the income guidelines of the Development Assistance Committee of the Organisation for Economic Co-operation and Development.

(4) **EMISSIONS REDUCTIONS.**—The term “emissions reductions” means greenhouse gas emissions reductions achieved from reduced or avoided deforestation under this section.

(5) **FOREST.**—

(A) **IN GENERAL.**—The term “forest” means a terrestrial ecosystem, including wetland forests, comprised of native tree species generated and maintained primarily through natural ecological and evolutionary processes.

(B) **EXCLUSION.**—The term “forest” does not include plantations, such as crops of trees planted by humans primarily for the purposes of harvesting.

(6) **FOREST DEGRADATION.**—The term “forest degradation” is any reduction in the carbon stock of a forest due to the effects of human land-use activities, including such land-use activities on peatlands.

(7) **INTACT FOREST.**—The term “intact forest” means an unbroken expanse of natural ecosystems within the global extent of forest cover that—

(A) covers an area of at least 500 square kilometers and is at least 10 kilometers in each direction; and

(B) contains forest and non-forest ecosystems minimally influenced by human economic activity and large enough that all native biodiversity, including viable populations of wide-ranging species, could be maintained.

(8) **LEAKAGE.**—The term “leakage” means the unexpected loss of anticipated carbon benefits due to the displacement of activities in a project area to areas outside the project, resulting in carbon emissions.

(9) **LEAKAGE PREVENTION ACTIVITIES.**—The term “leakage prevention activities” means activities in developing countries that are directed at preserving existing forest carbon stocks, including forested wetlands and peatlands that might, absent such activities, be lost through leakage.

(10) **NATIONAL DEFORESTATION REDUCTION ACTIVITIES.**—The term “national deforestation reduction activities” means activities in developing countries that reduce a quantity of greenhouse gas emissions from deforestation that is calculated by measuring actual emissions against a national deforestation baseline established pursuant to subparagraphs (B) and (C) of subsection (d)(4).

(11) **SUBNATIONAL DEFORESTATION AND FOREST DEGRADATION REDUCTION ACTIVITIES.**—The term “subnational deforestation and forest degradation reduction activities” means activities in developing countries that reduce a quantity of greenhouse gas emissions from deforestation and forest degradation that is calculated by measuring actual emissions using an appropriate baseline, or an alternative determined under subsection (d)(4)(B)(ii), established by the Administrator at the State or provincial level.

(c) **PURPOSES.**—The purposes of this section are to provide United States assistance to developing countries to develop, implement, and improve actions that reduce deforestation and forest degradation or conserve or restore forest ecosystems—

(1) to protect the value of forest ecosystems with respect to permanent carbon capture and sequestration in a manner in which such value is measurable, reportable, and verifiable; and

(2) in a manner that—

(A) is consistent with and enhances the implementation of complementary United States policies that support the good governance of forests, biodiversity conservation, and environmentally sustainable development;

(B) takes into consideration the views and participation of local communities and most vulnerable communities and populations, particularly forest-dependent communities; and

(C) incorporates the right to free prior and informed consent of indigenous peoples.

(d) **EMISSIONS REDUCTIONS THROUGH REDUCED DEFORESTATION.**—

(1) **ESTABLISHMENT OF PROGRAM.**—Not later than 1 year after the date of the enactment of this Act, the Administrator, in consultation with other appropriate agencies, shall establish a program to provide assistance to reduce deforestation in developing countries and its impacts, in accordance with this section.

(2) **OBJECTIVES.**—The objectives of the program established under paragraph (1) shall be—

(A) to achieve—

(i) emissions reductions of at least 7,000,000,000 tons of carbon dioxide equivalent in 2025;

(ii) cumulative emissions reductions of at least 11,000,000,000 tons of carbon dioxide equivalent by December 31, 2030; and

(iii) additional emissions reductions in subsequent years;

(B) to build capacity to reduce deforestation at a national level in developing countries experiencing deforestation, which may include—

(i) preparing developing countries to participate in international markets for international offset credits for reduced emissions from deforestation;

(ii) supporting the development of overseas domestic policy frameworks to ensure effective, efficient, and equitable benefit-sharing of the proceeds of such credits issued by national and subnational governments; and

(iii) promoting and expanding land titling initiatives and programs in other countries;

(C) to preserve forest carbon stocks in countries where such forest carbon may be vulnerable to leakage, particularly in developing countries with largely intact native forests;

(D) to build the scientific knowledge and institutional capacity to help developing countries—

(i) monitor the effects of climate change on their forests;

(ii) develop and implement strategies to conserve their forests; and

(iii) support forest-dependent communities adapt to climate change;

(E) to the extent practicable, to reduce deforestation in ways that reduce the vulnerability and increase the resilience to climate effects for forests and forest-dependent communities;

(F) to prevent degradation and fragmentation of forests and other intact ecosystems, particularly in tropical countries, including by providing assistance or supporting policies to—

(i) conserve, protect, and restore the integrity of such ecosystems; and

(ii) support the rights of Indigenous People and local communities and their ability to continue their effective stewardship of their intact traditional lands and territories;

(G) to build capacity to address illegal deforestation for agricultural commodities; and

(H) to remove subsidies that favor deforestation;

(e) **REQUIREMENTS FOR INTERNATIONAL DEFORESTATION REDUCTION PROGRAM.**—

(1) **ELIGIBLE COUNTRIES.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), the Administrator may provide assistance under this section only with respect to a developing country that—

(i) the Administrator, in consultation with other appropriate agencies, determines—

(I) is experiencing deforestation or forest degradation; or

(II) has standing forest carbon stocks that may be at risk of deforestation or degradation;

(ii) has the legal regimes, standards, and safeguards to ensure that the rights and interests of indigenous peoples and forest-dependent communities are protected in accordance with the standards established under paragraph (4); and

(iii) has entered into a bilateral or multilateral agreement or arrangement with the United States, or is part of an international program supported by the United States to prevent deforestation, that establishes the conditions of participation by the country in the program established under this section, which shall include an agreement to meet the standards established under paragraph (4) for the activities to which such standards apply.

(B) **EXCEPTION.**—A developing country that does not meet the requirement described in paragraph (1)(A)(ii) may receive assistance under this section for the purpose of building capacity to meet such requirement.

(2) **AUTHORIZED ACTIVITIES.**—Subject to the requirements of this section, in providing assistance under this section, the Administrator may support activities to achieve the objectives described in subsection (c)(2), such as—

(A) national deforestation reduction activities;

(B) subnational deforestation and forest degradation reduction activities, including pilot activities, policies, and measures that reduce greenhouse gas emissions and are subject to significant uncertainty;

(C) activities to measure, monitor, and verify deforestation, avoided deforestation, and rates of deforestation, including, if applicable, spatially explicit land use plans that identify intact and primary forest areas and managed forest areas;

(D) leakage prevention activities;

(E) the development and implementation of measurement, monitoring, reporting, and verification capacities and governance structures, including legal regimes, standards, processes, and safeguards, as established under paragraph (4), to enable a country to quantify emissions reductions for purposes of purchasing or trading subnational emissions reduction credits in carbon markets;

(F) the identification of, and actions to address, the drivers of land use emissions;

(G) programs that would exclude from the United States illegally harvested timber or products made from illegally harvested timber, in accordance with and consistent with the objectives of the Lacey Act Amendments of 1981 (16 U.S.C. 3371 et seq.);

(H) the development and strengthening of governance capacities to reduce deforestation and other land use emissions and to combat illegal logging and associated trade, including the development of systems for independent monitoring of the efficacy of forest law enforcement and increased enforcement cooperation, including joint efforts with Federal agencies, to enforce the Lacey Act Amendments of 1981 (16 U.S.C. 3371 et seq.);

(I) programs to help countries strengthen the necessary governance and technological capacity to trace and make publicly available the origin of agricultural commodities associated with tropical deforestation, such as beef, soy, palm oil, paper, pulp, cocoa, and rubber;

(J) the development and strengthening of governance capacities and associated implementation activities to combat illegal deforestation related to the production of agricultural commodities, such as those described in subparagraph (I);

(K) the provision of incentives for policy reforms to achieve the objectives described in subsection (c)(2);

(L) the development of pilot projects—

(i) to examine where mitigation and adaptation activities in forest ecosystems coincide; and

(ii) to explore means for enhancing the resilience of forest ecosystems and forest-dependent communities;

(M) the promotion of mechanisms to deliver resources for local action and to address the needs, rights, interests, and participation of local and indigenous communities;

(N) the promotion of land tenure and titling programs, including legal recognition and effective protection of the land tenure, access and

use rights of Indigenous People and local communities; and

(O) the monitoring and evaluation of the results of the activities conducted under this section.

(3) **MECHANISMS.**—The Administrator shall apply the administrative authorities under the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.), except to the extent inconsistent with the provisions of this section, to the same extent and in the same manner as such authorities apply to the implementation of such Act in order to support activities to achieve the objectives described in subsection (c)(2) by—

(A) developing and implementing programs and project-level activities that achieve such objectives;

(B) to the extent practicable, giving priority in any review process to activities under paragraph (2)(A); and

(C) as appropriate, considering multi-year funding arrangements in carrying out the purposes of this section.

(4) **STANDARDS.**—The Administrator, in consultation with other appropriate agencies, shall establish program standards that—

(A) ensure that emissions reductions achieved through supported activities—

(i) are additional, measurable, verifiable, and monitored;

(ii) account for leakage, uncertainty, and permanence; and

(iii) at a minimum, meet the standards established under the emissions unit criteria of the Carbon Offsetting and Reduction Scheme for International Aviation (CORSA) developed by the International Civil Aviation Organization (ICAO);

(B) require—

(i) the establishment of a national deforestation baseline for each country with national deforestation reduction activities that is used to account for reductions achieved from such activities; or

(ii) if a developing country has established policies and taken measures to reduce emissions from disturbed peatlands, deforestation, or forest degradation, but has not established a national baseline, the provision of a credible, transparent, accurate, and conservative alternative for quantifying emissions;

(C) provide that each national deforestation baseline established under subparagraph (B)(i)—

(i) is national, or subnational on an interim basis, in scope; and

(ii) is consistent with nationally appropriate mitigation commitments or actions with respect to deforestation, taking into consideration—

(I) the average annual historical deforestation rates of the country during a period of at least 5 years; and

(II) the applicable drivers of deforestation and other factors to ensure additionality;

(iii) establishes a trajectory that would result in zero net deforestation by not later than 20 years after the date on which the baseline is established;

(iv) is adjusted over time to account for changing national circumstances; and

(v) is designed to account for all significant sources of greenhouse gas emissions from deforestation in the country;

(D) with respect to assistance provided for activities described in subparagraph (A) or (B) of paragraph (2), require emissions reductions to be achieved and verified before the provision of any assistance under this section;

(E) with respect to accounting for subnational deforestation and forest degradation reduction activities that lack the standardized or precise measurement and monitoring techniques needed for a full accounting of changes in emissions or baselines, or are subject to other sources of uncertainty, apply a conservative discount factor to reflect the uncertainty regarding the levels of reductions achieved;

(F) ensure that activities under this section are designed, carried out, and managed—

(i) using forest management practices that, in an open and transparent process—

(I) improve the livelihoods of forest communities in a manner that promotes the maintenance of intact forests, protects associated biodiversity, and restores native forest species and ecosystems while avoiding the introduction of invasive nonnative species;

(II) maintain natural biodiversity, resilience, and carbon storage capacity of forests;

(III) to the extent practicable, do not adversely affect the permanence of forest carbon stocks or emissions reductions;

(IV) include broad stakeholder participation and the free prior and informed consent of affected indigenous peoples; and

(V) take into account the needs and interests of local communities, forest-dependent communities, indigenous peoples, and vulnerable social groups;

(ii) in consultation with, and with the full and effective participation of, local communities, indigenous peoples, and forest-dependent communities in affected areas, as partners and primary stakeholders, before and during the design, planning, implementation, monitoring, and evaluation of activities; and

(iii) with equitable sharing of profits and benefits derived from the activities with local communities, indigenous peoples, and forest-dependent communities; and

(G) with respect to assistance for all activities under this section, seek to ensure the establishment and enforcement of legal regimes, standards, processes, and safeguards by the country in which the activities are conducted, as a condition of such assistance or as a proposed activity for which such assistance may be provided, which—

(i) protect the rights and interests of local communities, indigenous peoples, forest-dependent communities, human rights defenders, and vulnerable social groups; and

(ii) promote consultations with local communities, indigenous peoples, and forest-dependent communities in affected areas, as partners and primary stakeholders, before and during the design, planning, implementation, monitoring, and evaluation of activities under this section; and

(iii) ensure equitable sharing of profits and benefits from incentives for emissions reductions or leakage prevention with local communities, indigenous peoples, and forest-dependent communities.

(5) **SCOPE.**—

(A) **REDUCED EMISSIONS.**—The Administrator shall include reduced emissions from forest degradation and disturbance of peatlands within the scope of activities under this section.

(B) **EXPANSION OF AUTHORIZED ACTIVITIES.**—If the Administrator determines, in consultation with other appropriate agencies, that sufficient methodologies and technical capacities exist to measure, monitor, and account for the emissions referred to in subparagraph (A), the Administrator may expand the authorized activities under this section, as appropriate, to include reduced soil carbon-derived emissions associated with deforestation and degradation of forested wetlands and peatlands, consistent with a comprehensive approach to maintaining and enhancing forests, increasing climate resiliency, reducing emissions, and increasing removals of greenhouse gases.

(6) **ACCOUNTING.**—The Administrator shall use a publicly accessible registry to account for and register the emissions reductions achieved through assistance provided under this section each year, after appropriately discounting for uncertainty and other relevant factors as required by the standards established under paragraph (4).

(7) **INTERNATIONAL DEFORESTATION REDUCTION PROGRAM INSURANCE ACCOUNT FOR NONCOMPLETION OR REVERSAL.**—In furtherance of the objectives described in subsection (c)(2), the Administrator shall develop and implement a program that—

(A) addresses noncompletion or reversal with respect to any greenhouse gas emissions that were not, or are no longer, sequestered; and

(B) may include a mechanism to hold in reserve a portion of the amount allocated for projects to support the program.

(8) **EXTENSION OF ASSISTANCE.**—

(A) **IN GENERAL.**—The Administrator may extend, for an additional 5 years, the period during which assistance is authorized for activities supported by assistance under this section, if the Administrator determines that—

(i) the country in which the activities are conducted is making substantial progress toward adopting and implementing a program to achieve reductions in deforestation measured against a national baseline;

(ii) the greenhouse gas emissions reductions achieved as a result of the activities are not resulting in significant leakage;

(iii) such greenhouse gas emissions reductions are being appropriately discounted to account for any leakage that is occurring; and

(iv) such extension would further advance or ensure achievement of the objectives of the activities.

(B) **ASSISTANCE FOR SUBNATIONAL DEFORESTATION AND FOREST DEGRADATION REDUCTION ACTIVITIES.**—

(i) **IN GENERAL.**—If the Administrator extends the period during which assistance is authorized for activities under subparagraph (A), the Administrator shall determine, based on the criteria specified that subparagraph, whether such assistance should include assistance for subnational deforestation and forest degradation reduction activities.

(ii) **CONTINUED ASSISTANCE.**—The Administrator may extend the period during which assistance is authorized for subnational deforestation and forest degradation reduction activities beyond the 5-year period described in subparagraph (A) in order to further the objectives described in subparagraph (B) or (C) of subsection (c)(2).

(9) **COORDINATION WITH FOREIGN ASSISTANCE.**—Subject to the direction of the President, the Administrator shall, to the extent practicable and consistent with the objectives described in subsection (c)(2), seek to align activities under this section with broader development, poverty alleviation, or natural resource management objectives and initiatives in countries receiving assistance under this section.

(10) **ASSISTANCE AS SUPPLEMENT.**—The provision of assistance for activities under this section shall be used to supplement, and not to supplant, any other Federal, State, or local support available to carry out activities under this section.

(11) **FUNDING LIMITATION.**—Of the funds made available to carry out this section in any fiscal year, not more than 7 percent may be used for the administrative expenses of the United States Agency for International Development in support of activities described in paragraph (2). Such amount shall be in addition to other amounts otherwise available for such purposes.

(f) **LEGAL EFFECT.**—

(1) **IN GENERAL.**—Nothing in this section may be construed to supersede, limit, or otherwise affect any restriction imposed by Federal law (including regulations) on any interaction between an entity located in the United States and an entity located in a foreign country.

(2) **ROLE OF THE SECRETARY OF STATE.**—Nothing in this section may be construed to affect the role of the Secretary of State or the responsibilities of the Secretary under section 622(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2382(c)).

(g) **INTERNATIONAL FINANCIAL INSTITUTIONS.**—The President shall direct the United States representatives to the World Bank, the International Monetary Fund, and other international financial institutions (as defined in section 1701(c) of the International Financial Institutions Act (22 U.S.C. 262r(c))) to prioritize efforts to combat deforestation.

SEC. 30612. CONTROLLING THE EXPORT OF ELECTRONIC WASTE TO PROTECT UNITED STATES SUPPLY CHAINS.

(a) FINDINGS.—Congress finds the following:

(1) It is in the national security interests of the United States to ensure that the export of electronic waste does not become the source of counterfeit goods that may reenter electronics supply chains in the United States, and for other purposes.

(2) A 2012 Senate Armed Services Committee Report “discovered counterfeit electronic parts from China in the Air Force’s largest cargo plane, in assemblies intended for Special Operations helicopters, and in a Navy surveillance plane among 1,800 cases of bogus parts”.

(3) Further, exporting such material has often resulted in environmental damage because of illegal dumping or inadequate environmental regulations in other countries for ensuring their safe and secure disposal.

(4) China, the single largest producer of electronic waste, is on track for its e-waste industry to total \$23,800,000,000 by 2030, given its high supply of used products, demand for recycled materials, and capacity to transport these materials.

(5) As the second largest producer of electronic waste, the United States has a strong economic and national security incentive to enhance domestic e-waste recycling capacity rather than exporting to China and other countries.

(6) Given China’s lack of regulations and worker protections, workers in the e-waste industry have been exposed to over 1,000 harmful substances, including lead and mercury, endangering the health and wellbeing of workers.

(b) DEFINITIONS.—In this section:

(1) ELECTRONIC WASTE.—

(A) IN GENERAL.—The term “electronic waste” means any of the following used items containing electronic components, or fragments thereof, including parts or subcomponents of such items:

(i) Computers and related equipment.

(ii) Data center equipment (including servers, network equipment, firewalls, battery backup systems, and power distribution units).

(iii) Mobile computers (including notebooks, notebooks, tablets, and e-book readers).

(iv) Televisions (including portable televisions and portable DVD players).

(v) Video display devices (including monitors, digital picture frames, and portable video devices).

(vi) Digital imaging devices (including printers, copiers, facsimile machines, image scanners, and multifunction machines).

(vii) Consumer electronics—

(I) including digital cameras, projectors, digital audio players, cellular phones and wireless internet communication devices, audio equipment, video cassette recorders, DVD players, video game systems (including portable systems), video game controllers, signal converter boxes, and cable and satellite receivers; and

(II) not including appliances that have electronic features.

(viii) Portable global positioning system navigation devices.

(ix) Other used electronic items that the Secretary determines to be necessary to carry out this section.

(B) EXEMPT ITEMS.—The term “electronic waste” does not include—

(i) exempted electronic waste items;

(ii) electronic parts of a motor vehicle; or

(iii) electronic components, or items containing electronic components, that are exported or reexported to an entity under the ownership or control of the person exporting or reexporting the components or items, with the intent that the components or items be used for the purpose for which the components or items were used in the United States.

(2) EXEMPTED ELECTRONIC WASTE ITEMS.—

(A) IN GENERAL.—The term “exempted electronic waste items” means the following:

(i) Tested, working used electronics.

(ii) Low-risk counterfeit electronics.

(iii) Recalled electronics.

(B) DEFINITIONS.—In this paragraph:

(1) TESTED, WORKING USED ELECTRONICS.—The term “tested, working used electronics” means any used electronic items that—

(I) are determined, through testing methodologies established by the Secretary, to be—

(aa) fully functional for the purpose for which the items were designed; or

(bb) in the case of multifunction devices, fully functional for at least one of the primary purposes for which the items were designed;

(II) are exported with the intent to reuse the products as functional products; and

(III) are appropriately packaged for shipment to prevent the items from losing functionality as a result of damage during shipment.

(ii) LOW-RISK COUNTERFEIT ELECTRONICS.—The term “low-risk counterfeit electronics” means any electronic components or items that—

(I) have been subjected to destruction processes that render the items unusable for their original purpose; and

(II) are exported as a feedstock, with no additional mechanical or hand separation required, in a reclamation process to render the electronic components or items recycled consistent with the laws of the foreign country performing the reclamation process.

(iii) RECALLED ELECTRONICS.—The term “recalled electronics” means any electronic items that—

(I) because of a defect in the design or manufacture of the items—

(aa) are subject to a recall notice issued by the Consumer Product Safety Commission or other pertinent Federal authority and have been received by the manufacturer or its agent and repaired by the manufacturer or its agent to cure the defect; or

(bb) have been recalled by the manufacturer as a condition of the validity of the warranty on the items and have been repaired by the manufacturer or its agent to cure the defect; and

(II) are exported by the manufacturer of the items.

(iv) FEEDSTOCK.—The term “feedstock” means any raw material constituting the principal input for an industrial process.

(3) COUNTERFEIT GOOD.—The term “counterfeit good” means any good on which, or in connection with which, a counterfeit mark is used.

(4) COUNTERFEIT MILITARY GOOD.—The term “counterfeit military good” means a counterfeit good that—

(A) is falsely identified or labeled as meeting military specifications; or

(B) is intended for use in a military or national security application.

(5) COUNTERFEIT MARK.—The term “counterfeit mark” has the meaning given that term in section 2320 of title 18, United States Code.

(6) EXPORT ADMINISTRATION REGULATIONS.—The term “Export Administration Regulations” means the regulations set forth in subchapter C of chapter VII of title 15, Code of Federal Regulations, or successor regulations.

(7) EXPORT; REEXPORT.—The terms “export” and “reexport” have the meanings given such terms in section 1742 of the Export Control Reform Act of 2018 (50 U.S.C. 4801).

(8) SECRETARY.—The term “Secretary” means the Secretary of Commerce.

(9) USED.—The term “used”, with respect to an item, means the item has been operated or employed.

(c) PROHIBITION.—Except as provided in subsections (c) and (d), no person or entity may export or reexport electronic waste or exempted electronic waste items.

(d) EXPORT PROHIBITION EXEMPTIONS.—A person or entity may export or reexport exempted electronic waste items, but only if the following requirements are met:

(1) REGISTRATION.—The person or entity is listed on a publicly available registry maintained by the Secretary.

(2) FILING OF EXPORT INFORMATION.—For each export transaction, the person or entity files in the Automated Export System, in accordance with part 758 of the Export Administration Regulations (or any corresponding similar regulation or ruling), electronic export information that contains at least the following information:

(A) A description of the type and total quantity of exempted electronic waste items exported.

(B) The name of each country that received the exempted electronic waste items for reuse or recycling.

(C)(i) The name of the ultimate consignee to which the exempted electronic waste items were received for reclamation, recall, or reuse; and

(ii) documentation and a declaration that such consignee has the necessary permits, resources, and competence to manage the exempted electronic waste items as reusable products or recyclable feedstock and prevent its release as a counterfeit good or counterfeit military good.

(3) COMPLIANCE WITH EXISTING LAWS.—The export or reexport of exempted electronic waste items otherwise comply with applicable international agreements to which the United States is a party and with other trade and export control laws of the United States.

(4) EXPORT DECLARATIONS AND REQUIREMENTS.—The exempted electronic waste items are accompanied by—

(A) documentation of the registration of the exporter required under paragraph (1);

(B) a declaration signed by an officer or designated representative of the exporter asserting that the exempted electronic waste items meet the applicable requirements for exempted electronic waste items under this section;

(C) a description of the contents and condition of the exempted electronic waste items in the shipment;

(D) for tested, working electronics, a description of the testing methodologies and test results for each item;

(E) the name of the ultimate consignee and declaration of the consignee’s applicable permits, resources, and competence to process or use the items as intended; and

(F) with respect to low-risk counterfeit electronics only and when required by the importing country, the written consent of the competent authority of the receiving country to allow the products in such country.

(e) EXCEPTION FOR PERSONAL USE.—The Secretary may provide for an exception to the requirements of this section, subject to such recordkeeping requirements as the Secretary may impose, for the export or reexport of 5 or fewer items that are or contain electronic components intended for personal use.

(f) EFFECTIVE DATE.—

(1) IN GENERAL.—Subject to paragraph (2), this section shall take effect upon the expiration of the 1-year period beginning on the date of the enactment of this Act.

(2) MODIFICATION OF EAR.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall, not later than the effective date under paragraph (1), ensure that the Export Administration Regulations are modified to carry out this section.

(g) PENALTIES FOR VIOLATIONS.—Any person who violates this section or the regulations issued under subsection (e)(2) shall be subject to the same penalties as those that apply to any person violating any other provision of the Export Administration Regulations.

DIVISION E—COMMITTEE ON OVERSIGHT AND REFORM

SEC. 40101. FEDERAL ROTATIONAL CYBER WORKFORCE PROGRAM.

(a) DEFINITIONS.—In this section:

(1) AGENCY.—The term “agency” has the meaning given the term “Executive agency” in section 105 of title 5, United States Code, except that the term does not include the Government Accountability Office.

(2) COMPETITIVE SERVICE.—The term “competitive service” has the meaning given that

term in section 2102 of title 5, United States Code.

(3) **COUNCILS.**—The term “Councils” means—
(A) the Chief Human Capital Officers Council established under section 1303 of the Chief Human Capital Officers Act of 2002 (5 U.S.C. 1401 note); and

(B) the Chief Information Officers Council established under section 3603 of title 44, United States Code.

(4) **CYBER WORKFORCE POSITION.**—The term “cyber workforce position” means a position identified as having information technology, cybersecurity, or other cyber-related functions under section 303 of the Federal Cybersecurity Workforce Assessment Act of 2015 (5 U.S.C. 301 note).

(5) **DIRECTOR.**—The term “Director” means the Director of the Office of Personnel Management.

(6) **EMPLOYEE.**—The term “employee” has the meaning given the term in section 2105 of title 5, United States Code.

(7) **EMPLOYING AGENCY.**—The term “employing agency” means the agency from which an employee is detailed to a rotational cyber workforce position.

(8) **EXCEPTED SERVICE.**—The term “excepted service” has the meaning given that term in section 2103 of title 5, United States Code.

(9) **ROTATIONAL CYBER WORKFORCE POSITION.**—The term “rotational cyber workforce position” means a cyber workforce position with respect to which a determination has been made under subsection (b)(1).

(10) **ROTATIONAL CYBER WORKFORCE PROGRAM.**—The term “rotational cyber workforce program” means the program for the detail of employees among rotational cyber workforce positions at agencies.

(11) **SECRETARY.**—The term “Secretary” means the Secretary of Homeland Security.

(b) **ROTATIONAL CYBER WORKFORCE POSITIONS.**—

(1) **DETERMINATION WITH RESPECT TO ROTATIONAL SERVICE.**—

(A) **IN GENERAL.**—The head of each agency may determine that a cyber workforce position in that agency is eligible for the rotational cyber workforce program, which shall not be construed to modify the requirement under subsection (c)(2)(C) that participation in the rotational cyber workforce program by an employee shall be voluntary.

(B) **NOTICE PROVIDED.**—The head of an agency shall submit to the Director—

(i) notice regarding any determination made by the head of the agency under subparagraph (A); and

(ii) for each position with respect to which the head of the agency makes a determination under subparagraph (A), the information required under paragraph (2)(A).

(2) **PREPARATION OF LIST.**—The Director, with assistance from the Councils and the Secretary, shall develop a list of rotational cyber workforce positions that—

(A) with respect to each such position, to the extent that the information does not disclose sensitive national security information, includes—

(i) the title of the position;

(ii) the occupational series with respect to the position;

(iii) the grade level or work level with respect to the position;

(iv) the agency in which the position is located;

(v) the duty location with respect to the position; and

(vi) the major duties and functions of the position; and

(B) shall be used to support the rotational cyber workforce program.

(3) **DISTRIBUTION OF LIST.**—Not less frequently than annually, the Director shall distribute an updated list developed under paragraph (2) to the head of each agency and other appropriate entities.

(c) **ROTATIONAL CYBER WORKFORCE PROGRAM.**—

(1) **OPERATION PLAN.**—

(A) **IN GENERAL.**—Not later than 270 days after the date of enactment of this section, and in consultation with the Councils, the Secretary, representatives of other agencies, and any other entity as the Director determines appropriate, the Director shall develop and issue a Federal Rotational Cyber Workforce Program operation plan providing policies, processes, and procedures for a program for the detailing of employees among rotational cyber workforce positions at agencies, which may be incorporated into and implemented through mechanisms in existence on the date of enactment of this section.

(B) **UPDATING.**—The Director may, in consultation with the Councils, the Secretary, and other entities as the Director determines appropriate, periodically update the operation plan developed and issued under subparagraph (A).

(2) **REQUIREMENTS.**—The operation plan developed and issued under paragraph (1) shall, at a minimum—

(A) identify agencies for participation in the rotational cyber workforce program;

(B) establish procedures for the rotational cyber workforce program, including—

(i) any training, education, or career development requirements associated with participation in the rotational cyber workforce program;

(ii) any prerequisites or requirements for participation in the rotational cyber workforce program; and

(iii) appropriate rotational cyber workforce program performance measures, reporting requirements, employee exit surveys, and other accountability devices for the evaluation of the program;

(C) provide that participation in the rotational cyber workforce program by an employee shall be voluntary;

(D) provide that an employee shall be eligible to participate in the rotational cyber workforce program if the head of the employing agency of the employee, or a designee of the head of the employing agency of the employee, approves of the participation of the employee;

(E) provide that the detail of an employee to a rotational cyber workforce position under the rotational cyber workforce program shall be on a nonreimbursable basis;

(F) provide that agencies may agree to partner to ensure that the employing agency of an employee that participates in the rotational cyber workforce program is able to fill the position vacated by the employee;

(G) require that an employee detailed to a rotational cyber workforce position under the rotational cyber workforce program, upon the end of the period of service with respect to the detail, shall be entitled to return to the position held by the employee, or an equivalent position, in the employing agency of the employee without loss of pay, seniority, or other rights or benefits to which the employee would have been entitled had the employee not been detailed;

(H) provide that discretion with respect to the assignment of an employee under the rotational cyber workforce program shall remain with the employing agency of the employee;

(I) require that an employee detailed to a rotational cyber workforce position under the rotational cyber workforce program in an agency that is not the employing agency of the employee shall have all the rights that would be available to the employee if the employee were detailed under a provision of law other than this section from the employing agency to the agency in which the rotational cyber workforce position is located;

(J) provide that participation by an employee in the rotational cyber workforce program shall not constitute a change in the conditions of the employment of the employee; and

(K) provide that an employee participating in the rotational cyber workforce program shall re-

ceive performance evaluations relating to service in the rotational cyber workforce program in a participating agency that are—

(i) prepared by an appropriate officer, supervisor, or management official of the employing agency, acting in coordination with the supervisor at the agency in which the employee is performing service in the rotational cyber workforce position;

(ii) based on objectives identified in the operation plan with respect to the employee; and

(iii) based in whole or in part on the contribution of the employee to the agency in which the employee performed such service, as communicated from that agency to the employing agency of the employee.

(3) **PROGRAM REQUIREMENTS FOR ROTATIONAL SERVICE.**—

(A) **IN GENERAL.**—An employee serving in a cyber workforce position in an agency may, with the approval of the head of the agency, submit an application for detail to a rotational cyber workforce position that appears on the list developed under subsection (b)(2).

(B) **OPM APPROVAL FOR CERTAIN POSITIONS.**—An employee serving in a position in the excepted service may only be selected for a rotational cyber workforce position that is in the competitive service with the prior approval of the Office of Personnel Management, in accordance with section 300.301 of title 5, Code of Federal Regulations, or any successor thereto.

(C) **SELECTION AND TERM.**—

(i) **SELECTION.**—The head of an agency shall select an employee for a rotational cyber workforce position under the rotational cyber workforce program in a manner that is consistent with the merit system principles under section 2301(b) of title 5, United States Code.

(ii) **TERM.**—Except as provided in clause (iii), and notwithstanding section 3341(b) of title 5, United States Code, a detail to a rotational cyber workforce position shall be for a period of not less than 180 days and not more than 1 year.

(iii) **EXTENSION.**—The Chief Human Capital Officer of the agency to which an employee is detailed under the rotational cyber workforce program may extend the period of a detail described in clause (ii) for a period of 60 days unless the Chief Human Capital Officer of the employing agency of the employee objects to that extension.

(D) **WRITTEN SERVICE AGREEMENTS.**—

(i) **IN GENERAL.**—The detail of an employee to a rotational cyber workforce position shall be contingent upon the employee entering into a written service agreement with the employing agency under which the employee is required to complete a period of employment with the employing agency following the conclusion of the detail that is equal in length to the period of the detail.

(ii) **OTHER AGREEMENTS AND OBLIGATIONS.**—A written service agreement under clause (i) shall not supersede or modify the terms or conditions of any other service agreement entered into by the employee under any other authority or relieve the obligations between the employee and the employing agency under such a service agreement. Nothing in this clause prevents an employing agency from terminating a service agreement entered into under any other authority under the terms of such agreement or as required by law or regulation.

(d) **REPORTING BY GAO.**—Not later than the end of the third fiscal year after the fiscal year in which the operation plan under subsection (c)(1) is issued, the Comptroller General of the United States shall submit to Congress a report assessing the operation and effectiveness of the rotational cyber workforce program, which shall address, at a minimum—

(1) the extent to which agencies have participated in the rotational cyber workforce program, including whether the head of each such participating agency has—

(A) identified positions within the agency that are rotational cyber workforce positions;

(B) had employees from other participating agencies serve in positions described in subparagraph (A); and

(C) had employees of the agency request to serve in rotational cyber workforce positions under the rotational cyber workforce program in participating agencies, including a description of how many such requests were approved; and

(2) the experiences of employees serving in rotational cyber workforce positions under the rotational cyber workforce program, including an assessment of—

(A) the period of service;

(B) the positions (including grade level and occupational series or work level) held by employees before completing service in a rotational cyber workforce position under the rotational cyber workforce program;

(C) the extent to which each employee who completed service in a rotational cyber workforce position under the rotational cyber workforce program achieved a higher skill level, or attained a skill level in a different area, with respect to information technology, cybersecurity, or other cyber-related functions; and

(D) the extent to which service in rotational cyber workforce positions has affected intra-agency and interagency integration and coordination of cyber practices, functions, and personnel management.

(e) **SUNSET.**—Effective 5 years after the date of enactment of this Act, this section is repealed.

SEC. 40102. AI IN COUNTERTERRORISM OVERSIGHT ENHANCEMENT.

(a) **AMENDMENTS TO AUTHORITIES AND RESPONSIBILITIES OF PRIVACY AND CIVIL LIBERTIES OFFICERS.**—Section 1062 of the Intelligence Reform and Terrorism Prevention Act of 2004 (42 U.S.C. 2000ee–1) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5); and

(B) by inserting after paragraph (2) the following new paragraph:

“(3) provide to the Privacy and Civil Liberties Oversight Board, with respect to covered artificial intelligence-enabled technologies—

“(A) not later than 180 days after the date on which this paragraph takes effect, and every 6 months thereafter, written notice of the use of such technologies or planned evaluation, use, development, acquisition, retention of services for, or repurposing of such technologies;

“(B) access to associated impact statements, including system of record notices, privacy impact assessments, and civil liberties impact assessments;

“(C) access to associated information and materials documenting—

“(i) the processes for data collection related to such technologies, for obtaining consent related to the use of such technologies, or for the disclosure of the use of such technologies;

“(ii) the algorithms and models of such technologies;

“(iii) the data resources used, or to be used, in the training of such technologies, including a comprehensive listing of any data assets or public data assets (or any combination thereof) used, or to be used, in the training of such technologies;

“(iv) data governance processes and procedures, including acquisition, protection, retention, sharing, and access, related to data resources associated with such technologies; and

“(v) processes for training and testing, evaluating, validating, and modifying such technologies; and

“(D) access to all other associated information and materials.”;

(2) in subsection (d)(1), by inserting “(including as described under subsection (a)(3))” after “officer”; and

(3) by adding at the end the following:

“(i) **DEFINITIONS.**—In this section:

“(1) **ARTIFICIAL INTELLIGENCE.**—The term ‘artificial intelligence’ has the meaning given that term in section 238(g) of the John S. McCain Na-

tional Defense Authorization Act for Fiscal Year 2019 (Public Law 115–232; 10 U.S.C. 2358 note).

“(2) **COVERED ARTIFICIAL INTELLIGENCE-ENABLED TECHNOLOGY.**—The term ‘covered artificial intelligence-enabled technology’ means an artificial intelligence-enabled technology (including a classified technology)—

“(A) in use by the applicable department, agency, or element, to protect the Nation from terrorism; or

“(B) that the applicable department, agency, or element plans to evaluate, develop, acquire, retain, or repurpose to protect the Nation from terrorism.

“(3) **DATA ASSET: PUBLIC DATA ASSET.**—The terms ‘data asset’ and ‘public data asset’ have the meaning given those terms in section 3502 of title 44, United States Code.”

(b) **SELF-ASSESSMENT BY PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD.**—Not later than one year after the date of the enactment of this Act, the Privacy and Civil Liberties Oversight Board under section 1061 of the Intelligence Reform and Terrorism Prevention Act of 2004 (42 U.S.C. 2000ee) shall provide to the appropriate committees (as described in subsection (e) of such section) a self-assessment of any change in authorities, resources, or organizational structure that may be necessary to carry out the functions described in subsection (d) of such section related to artificial intelligence-enabled technologies.

(c) **DEFINITION.**—In this section, the term “artificial intelligence” has the meaning given that term in section 238(g) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115–232; 10 U.S.C. 2358 note).

(d) **EFFECTIVE DATE.**—Subsections (a) and (b), and the amendments made by such subsections, shall take effect on the date that is one year after the date of the enactment of this Act.

DIVISION F—COMMITTEE ON HOMELAND SECURITY

SEC. 50101. HOMELAND PROCUREMENT REFORM.

(a) **IN GENERAL.**—Subtitle D of title VIII of the Homeland Security Act of 2002 (6 U.S.C. 391 et seq.) is amended by adding at the end the following:

“SEC. 836. REQUIREMENTS TO BUY CERTAIN ITEMS RELATED TO NATIONAL SECURITY INTERESTS.

“(a) **DEFINITIONS.**—In this section:

“(1) **COVERED ITEM.**—The term ‘covered item’ means any of the following:

“(A) Footwear provided as part of a uniform.

“(B) Uniforms.

“(C) Holsters and tactical pouches.

“(D) Patches, insignia, and embellishments.

“(E) Chemical, biological, radiological, and nuclear protective gear.

“(F) Body armor components intended to provide ballistic protection for an individual, consisting of one or more of the following:

“(i) Soft ballistic panels.

“(ii) Hard ballistic plates.

“(iii) Concealed armor carriers worn under a uniform.

“(iv) External armor carriers worn over a uniform.

“(G) Any other item of clothing or protective equipment as determined appropriate by the Secretary.

“(2) **FRONTLINE OPERATIONAL COMPONENT.**—The term ‘frontline operational component’ means any of the following of the Department:

“(A) U.S. Customs and Border Protection.

“(B) U.S. Immigration and Customs Enforcement.

“(C) The United States Secret Service.

“(D) The Transportation Security Administration.

“(E) The Coast Guard.

“(F) The Federal Protective Service.

“(G) The Federal Emergency Management Agency.

“(H) The Federal Law Enforcement Training Centers.

“(I) The Cybersecurity and Infrastructure Security Agency.

“(b) **REQUIREMENTS.**—

“(1) **IN GENERAL.**—The Secretary shall ensure that any procurement of a covered item for a frontline operational component satisfies the following criteria:

“(A) To the maximum extent possible, not less than one-third of funds obligated in a specific fiscal year for the procurement of such covered items shall be covered items that are manufactured or supplied in the United States by entities that qualify as small business concerns, as such term is described under section 3 of the Small Business Act (15 U.S.C. 632).

“(B) Each contractor with respect to the procurement of such a covered item, including the end-item manufacturer of such a covered item—

“(i) is an entity registered with the System for Award Management (or successor system) administered by the General Services Administration; and

“(ii) is in compliance with ISO 9001:2015 of the International Organization for Standardization (or successor standard) or a standard determined appropriate by the Secretary to ensure the quality of products and adherence to applicable statutory and regulatory requirements.

“(C) Each supplier of such a covered item with an insignia (such as any patch, badge, or emblem) and each supplier of such an insignia, if such covered item with such insignia or such insignia, as the case may be, is not produced, applied, or assembled in the United States, shall—

“(i) store such covered item with such insignia or such insignia in a locked area;

“(ii) report any pilferage or theft of such covered item with such insignia or such insignia occurring at any stage before delivery of such covered item with such insignia or such insignia; and

“(iii) destroy any such defective or unusable covered item with insignia or insignia in a manner established by the Secretary, and maintain records, for three years after the creation of such records, of such destruction that include the date of such destruction, a description of the covered item with insignia or insignia destroyed, the quantity of the covered item with insignia or insignia destroyed, and the method of destruction.

“(2) **WAIVER.**—

“(A) **IN GENERAL.**—In the case of a national emergency declared by the President under the National Emergencies Act (50 U.S.C. 1601 et seq.) or a major disaster declared by the President under section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170), the Secretary may waive criteria specified in subparagraph (A), (B) or (C) of paragraph (1) if the Secretary determines there is an insufficient supply of a covered item that satisfies such criteria.

“(B) **NOTICE.**—Not later than 60 days after the date on which the Secretary determines a waiver under subparagraph (A) is necessary, the Secretary shall provide to the Committee on Homeland Security and Governmental Affairs and the Committee on Appropriations of the Senate and the Committee on Homeland Security, the Committee on Oversight and Reform, and the Committee on Appropriations of the House of Representatives notice of such determination, which shall include—

“(i) identification of the national emergency or major disaster at issue declared by the President;

“(ii) identification of the covered item for which the Secretary intends to issue the waiver; and

“(iii) a description of the demand for the covered item and corresponding lack of supply from contractors able to satisfy criteria specified in subparagraph (B) or (C) of paragraph (1).

“(c) **PRICING.**—The Secretary shall ensure that covered items are purchased at a fair and

reasonable price, consistent with the procedures and guidelines specified in the Federal Acquisition Regulation.

“(d) **REPORT.**—Not later than one year after the date of enactment of this section and annually thereafter, the Secretary shall provide to the Committee on Homeland Security, the Committee on Oversight and Reform, and the Committee on Appropriations of the House of Representatives, and the Committee on Homeland Security and Governmental Affairs and the Committee on Appropriations of the Senate a briefing on instances in which vendors have failed to meet deadlines for delivery of covered items and corrective actions taken by the Department in response to such instances.

“(e) **EFFECTIVE DATE.**—This section applies with respect to a contract entered into by the Department or any frontline operational component on or after the date that is 180 days after the date of the enactment of this section.”.

(b) **STUDY.**—

(1) **IN GENERAL.**—Not later than 18 months after the date of the enactment of this Act, the Secretary of Homeland Security shall submit to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Homeland Security of the House of Representatives a study of the adequacy of uniform allowances provided to employees of frontline operational components (as such term is defined in section 836 of the Homeland Security Act of 2002, as added by subsection (a)).

(2) **REQUIREMENTS.**—The study conducted under paragraph (1) shall—

(A) be informed by a Department-wide survey of employees from across the Department of Homeland Security who receive uniform allowances that seeks to ascertain what, if any, improvements could be made to the current uniform allowances and what, if any, impacts current allowances have had on employee morale and retention;

(B) assess the adequacy of the most recent increase made to the uniform allowance for first year employees; and

(C) consider increasing by 50 percent, at minimum, the annual allowance for all other employees.

(c) **ADDITIONAL REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Homeland Security shall provide a report with recommendations on how the Department of Homeland Security could procure additional items from domestic sources and bolster the domestic supply chain for items related to national security to—

(A) the Committee on Homeland Security and Governmental Affairs and the Committee on Appropriations of the Senate; and

(B) the Committee on Homeland Security, the Committee on Oversight and Reform, and the Committee on Appropriations of the House of Representatives.

(2) **CONTENTS.**—The report required under paragraph (1) shall include the following:

(A) A review of the compliance of the Department of Homeland Security with the requirements under section 604 of title VI of division A of the American Recovery and Reinvestment Act of 2009 (6 U.S.C. 453b) to buy certain items related to national security interests from sources in the United States.

(B) An assessment of the capacity of the Department of Homeland Security to procure the following items from domestic sources:

(i) Personal protective equipment and other items necessary to respond to a pandemic such as that caused by COVID-19.

(ii) Helmets that provide ballistic protection and other head protection and components.

(iii) Rain gear, cold weather gear, and other environmental and flame resistant clothing.

(d) **CLERICAL AMENDMENT.**—The table of contents in section 1(b) of the Homeland Security Act of 2002 (Public Law 107-296; 116 Stat. 2135) is amended by inserting after the item relating to section 835 the following new item:

“Sec. 836. Requirements to buy certain items related to national security interests.”.

SEC. 50102. DHS SOFTWARE SUPPLY CHAIN RISK MANAGEMENT.

(a) **GUIDANCE.**—The Secretary of Homeland Security, acting through the Under Secretary, shall issue guidance with respect to new covered contracts.

(b) **NEW COVERED CONTRACTS.**—In developing guidance under subsection (a), with respect to each new covered contract, as a condition on the award of such a contract, each contractor responding to a solicitation for such a contract shall submit to the covered officer—

(1) a planned bill of materials when submitting a bid proposal; and

(2) the certification and notifications described in subsection (d).

(c) **UPDATING BILL OF MATERIALS.**—With respect to a covered contract, in the case of a change to the information included in a bill of materials submitted pursuant to subsection (b)(1), each contractor shall submit to the covered officer in a timely manner the update to such bill of materials.

(d) **CERTIFICATION AND NOTIFICATIONS.**—The certification and notifications referred to in subsection (b)(2), with respect to a covered contract, are the following:

(1) A certification that each item listed on the submitted bill of materials is free from all known vulnerabilities or defects affecting the security of the end product or service identified in—

(A) the National Institute of Standards and Technology National Vulnerability Database; and

(B) any database designated by the Under Secretary, in coordination with the Director of the Cybersecurity and Infrastructure Security Agency, that tracks security vulnerabilities and defects in open source or third-party developed software.

(2) A notification of each vulnerability or defect affecting the security of the end product or service, if identified, through—

(A) the certification of such submitted bill of materials required under paragraph (1); or

(B) any other manner of identification.

(3) A notification relating to the plan to mitigate, repair, or resolve each security vulnerability or defect listed in the notification required under paragraph (2).

(e) **ENFORCEMENT.**—In developing guidance under subsection (a), the Secretary of Homeland Security shall instruct covered officers with respect to—

(1) the processes available to such officers enforcing subsections (b) and (c); and

(2) when such processes should be used.

(f) **EFFECTIVE DATE.**—The guidance required under subsection (a) shall take effect on the date that is one year after the date of the enactment of this section.

(g) **REGULATIONS.**—The Department shall prescribe such regulations as may be necessary to carry out this section.

(h) **GAO REPORT.**—Not later than two years after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the Secretary of Homeland Security, the Committee on Homeland Security of the House of Representatives, and the Committee on Homeland Security and Governmental Affairs of the Senate a report that includes—

(1) a review of the implementation of this section;

(2) information relating to the engagement of the Department of Homeland Security with industry;

(3) an assessment of how the guidance issued pursuant to subsection (a) complies with Executive Order 14208 (86 Fed. Reg. 26633; relating to improving the nation's cybersecurity); and

(4) any recommendations relating to improving the supply chain with respect to covered contracts.

(i) **DEFINITIONS.**—In this section:

(1) **BILL OF MATERIALS.**—The term “bill of materials” means a list of the parts and components (whether new or reused) of an end product or service, including, with respect to each part and component, information relating to the origin, composition, integrity, and any other information as determined appropriate by the Under Secretary.

(2) **COVERED CONTRACT.**—The term “covered contract” means a contract relating to the procurement of covered information and communications technology or services for the Department of Homeland Security.

(3) **COVERED INFORMATION AND COMMUNICATIONS TECHNOLOGY OR SERVICES.**—The term “covered information and communications technology or services” means the terms—

(A) “information technology” (as such term is defined in section 11101(6) of title 40, United States Code);

(B) “information system” (as such term is defined in section 3502(8) of title 44, United States Code);

(C) “telecommunications equipment” (as such term is defined in section 3(52) of the Communications Act of 1934 (47 U.S.C. 153(52))); and

(D) “telecommunications service” (as such term is defined in section 3(53) of the Communications Act of 1934 (47 U.S.C. 153(53))).

(4) **COVERED OFFICER.**—The term “covered officer” means—

(A) a contracting officer of the Department of Homeland Security; and

(B) any other official of the Department as determined appropriate by the Under Secretary.

(5) **SOFTWARE.**—The term “software” means computer programs and associated data that may be dynamically written or modified during execution.

(6) **UNDER SECRETARY.**—The term “Under Secretary” means the Under Secretary for Management of the Department of Homeland Security.

SEC. 50103. DEPARTMENT OF HOMELAND SECURITY MENTOR-PROTÉGÉ PROGRAM.

(a) **IN GENERAL.**—Subtitle H of title VIII of the Homeland Security Act of 2002 (6 U.S.C. 451 et seq.) is amended by adding at the end the following new section:

“SEC. 890B. MENTOR-PROTÉGÉ PROGRAM.

“(a) **ESTABLISHMENT.**—There is established in the Department a mentor-protégé program (in this section referred to as the ‘Program’) under which a mentor firm enters into an agreement with a protégé firm for the purpose of assisting the protégé firm to compete for prime contracts and subcontracts of the Department.

“(b) **ELIGIBILITY.**—The Secretary shall establish criteria for mentor firms and protégé firms to be eligible to participate in the Program, including a requirement that a firm is not included on any list maintained by the Federal Government of contractors that have been suspended or debarred.

“(c) **PROGRAM APPLICATION AND APPROVAL.**—

“(1) **APPLICATION.**—The Secretary, acting through the Office of Small and Disadvantaged Business Utilization of the Department, shall establish a process for submission of an application jointly by a mentor firm and the protégé firm selected by the mentor firm. The application shall include each of the following:

“(A) A description of the assistance to be provided by the mentor firm, including, to the extent available, the number and a brief description of each anticipated subcontract to be awarded to the protégé firm.

“(B) A schedule with milestones for achieving the assistance to be provided over the period of participation in the Program.

“(C) An estimate of the costs to be incurred by the mentor firm for providing assistance under the Program.

“(D) Attestations that Program participants will submit to the Secretary reports at times specified by the Secretary to assist the Secretary in evaluating the protégé firm's developmental progress.

“(E) Attestations that Program participants will inform the Secretary in the event of a change in eligibility or voluntary withdrawal from the Program.

“(2) APPROVAL.—Not later than 60 days after receipt of an application pursuant to paragraph (1), the head of the Office of Small and Disadvantaged Business Utilization shall notify applicants of approval or, in the case of disapproval, the process for resubmitting an application for reconsideration.

“(3) RESCISSION.—The head of the Office of Small and Disadvantaged Business Utilization may rescind the approval of an application under this subsection if it determines that such action is in the best interest of the Department.

“(d) PROGRAM DURATION.—A mentor firm and protégé firm approved under subsection (c) shall enter into an agreement to participate in the Program for a period of not less than 36 months.

“(e) PROGRAM BENEFITS.—A mentor firm and protégé firm that enter into an agreement under this section may receive the following Program benefits:

“(1) With respect to an award of a contract that requires a subcontracting plan, a mentor firm may receive evaluation credit for participating in the Program.

“(2) With respect to an award of a contract that requires a subcontracting plan, a mentor firm may receive credit for a protégé firm performing as a first tier subcontractor or a subcontractor at any tier in an amount equal to the total dollar value of any subcontracts awarded to such protégé firm.

“(3) A protégé firm may receive technical, managerial, financial, or any other mutually agreed upon benefit from a mentor firm, including a subcontract award.

“(f) REPORTING.—Not later than one year after the date of the enactment of this section and annually thereafter, the head of the Office of Small and Disadvantaged Business Utilization shall submit to the Committee on Homeland Security and Governmental Affairs and the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Homeland Security and the Committee on Small Business of the House of Representatives a report covering the immediately preceding 12 month period that—

“(1) identifies each agreement between a mentor firm and a protégé firm entered into under this section, including the number of protégé firm participants that are—

“(A) small business concerns;

“(B) small business concerns owned and controlled by veterans;

“(C) small business concerns owned and controlled by service-disabled veterans;

“(D) qualified HUBZone small business concerns;

“(E) small business concerns owned and controlled by socially and economically disadvantaged individuals;

“(F) small business concerns owned and controlled by women;

“(G) historically Black colleges and universities; and

“(H) minority-serving institutions;

“(2) describes the type of assistance provided by mentor firms to protégé firms;

“(3) identifies contracts within the Department in which a mentor firm serving as the prime contractor provided subcontracts to a protégé firm under the Program; and

“(4) assesses the degree to which there has been—

“(A) an increase in the technical capabilities of protégé firms; and

“(B) an increase in the quantity and estimated value of prime contract and subcontract awards to protégé firms for the period covered by each such report.

“(g) RULE OF CONSTRUCTION.—Nothing in this section may be construed to limit, diminish, impair, or otherwise affect the authority of the Department to participate in any program carried

out by or requiring approval of the Small Business Administration or adopt or follow any regulation or policy that the Administrator of the Small Business Administration may promulgate, except that, to the extent that any provision of this section conflicts with any other provision of law, regulation, or policy, this section shall control.

“(h) DEFINITIONS.—In this section:

“(1) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term ‘historically Black college or university’ has the meaning given the term ‘part B institution’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

“(2) MENTOR FIRM.—The term ‘mentor firm’ means a for-profit business concern that is not a small business concern that—

“(A) has the ability to assist and commits to assisting a protégé to compete for Federal prime contracts and subcontracts; and

“(B) satisfies any other requirements imposed by the Secretary.

“(3) MINORITY-SERVING INSTITUTION.—The term ‘minority-serving institution’ means an institution of higher education described in section 371 of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

“(4) PROTÉGÉ FIRM.—The term ‘protégé firm’ means a small business concern, a historically Black college or university, or a minority-serving institution that—

“(A) is eligible to enter into a prime contract or subcontract with the Department; and

“(B) satisfies any other requirements imposed by the Secretary.

“(5) SMALL BUSINESS ACT DEFINITIONS.—The terms ‘small business concern’, ‘small business concern owned and controlled by veterans’, ‘small business concern owned and controlled by service-disabled veterans’, ‘qualified HUBZone small business concern’, ‘and small business concern owned and controlled by women’ have the meanings given such terms, respectively, under section 3 of the Small Business Act (15 U.S.C. 632). The term ‘small business concern owned and controlled by socially and economically disadvantaged individuals’ has the meaning given such term in section 8(d)(3)(C) of the Small Business Act (15 U.S.C. 637(d)(3)(C)).”

(b) CLERICAL AMENDMENT.—The table of contents in section 1(b) of the Homeland Security Act of 2002 is amended by inserting after the item relating to section 890A the following new item:

“Sec. 890B. Mentor-protégé program.”.

SEC. 50104. UNMANNED AERIAL SECURITY.

(a) PROHIBITION ON AGENCY OPERATION OR PROCUREMENT.—Except as provided in subsection (b) and subsection (c)(3), the Secretary of Homeland Security may not operate, provide financial assistance for, or enter into or renew a contract for the procurement of—

(1) an unmanned aircraft system (UAS) that—

(A) is manufactured in a covered foreign country or by a corporation domiciled in a covered foreign country;

(B) uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in a covered foreign country or by a corporation domiciled in a covered foreign country;

(C) uses a ground control system or operating software developed in a covered foreign country or by a corporation domiciled in a covered foreign country; or

(D) uses network connectivity or data storage located in a covered foreign country or administered by a corporation domiciled in a covered foreign country;

(2) a software operating system associated with a UAS that uses network connectivity or data storage located in a covered foreign country or administered by a corporation domiciled in a covered foreign country; or

(3) a system for the detection or identification of a UAS, which system is manufactured in a covered foreign country or by a corporation domiciled in a covered foreign country.

(b) WAIVER.—

(1) IN GENERAL.—The Secretary of Homeland Security is authorized to waive the prohibition under subsection (a) if the Secretary certifies in writing to the Committee on Homeland Security of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate that a UAS, a software operating system associated with a UAS, or a system for the detection or identification of a UAS referred to in any of subparagraphs (A) through (C) of paragraph (1) of such subsection that is the subject of such a waiver is required—

(A) in the national interest of the United States;

(B) for counter-UAS surrogate research, testing, development, evaluation, or training; or

(C) for intelligence, electronic warfare, or information warfare operations, testing, analysis, and or training.

(2) NOTICE.—The certification described in paragraph (1) shall be submitted to the Committees specified in such paragraph by not later than the date that is 14 days after the date on which a waiver is issued under such paragraph.

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—This section shall take effect on the date that is 120 days after the date of the enactment of this Act.

(2) WAIVER PROCESS.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Homeland Security shall establish a process by which the head of an office or component of the Department of Homeland Security may request a waiver under subsection (b).

(3) EXCEPTION.—Notwithstanding the prohibition under subsection (a), the head of an office or component of the Department of Homeland Security may continue to operate a UAS, a software operating system associated with a UAS, or a system for the detection or identification of a UAS described in any of paragraphs (1) through (3) of such subsection that was in the inventory of such office or component on the day before the effective date of this section until—

(A) such time as the Secretary of Homeland Security has—

(i) granted a waiver relating thereto under subsection (b), or

(ii) declined to grant such a waiver, or

(B) one year after the date of the enactment of this Act, whichever is later.

(d) DRONE ORIGIN SECURITY REPORT TO CONGRESS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Homeland Security shall submit to the Committee on Homeland Security of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate a terrorism threat assessment and report that contains information relating to the following:

(1) The extent to which the Department of Homeland Security has previously analyzed the threat that a UAS, a software operating system associated with a UAS, or a system for the detection or identification of a UAS from a covered foreign country operating in the United States poses, and the results of such analysis.

(2) The number of UAS, software operating systems associated with a UAS, or systems for the detection or identification of a UAS from a covered foreign country in operation by the Department, including an identification of the component or office of the Department at issue, as of such date.

(3) The extent to which information gathered by such a UAS, a software operating system associated with a UAS, or a system for the detection or identification of a UAS from a covered foreign country could be employed to harm the national or economic security of the United States.

(e) **DEFINITIONS.**—In this section:

(1) **COVERED FOREIGN COUNTRY.**—The term “covered foreign country” means a country that—

(A) the intelligence community has identified as a foreign adversary in its most recent Annual Threat Assessment; or

(B) the Secretary of Homeland Security, in coordination with the Director of National Intelligence, has identified as a foreign adversary that is not included in such Annual Threat Assessment.

(2) **INTELLIGENCE COMMUNITY.**—The term “intelligence community” has the meaning given such term in section 3(4) of the National Security Act of 1947 (50 U.S.C. 3003(4)).

(3) **UNMANNED AIRCRAFT SYSTEM; UAS.**—The terms “unmanned aircraft system” and “UAS” have the meaning given the term “unmanned aircraft system” in section 341 of the FAA Modernization Act of 2018 (Public Law 115–254).

DIVISION G—COMMITTEE ON FINANCIAL SERVICES

TITLE I—U.S. POLICY ON WORLD BANK GROUP AND ASIAN DEVELOPMENT BANK LOANS TO CHINA

SEC. 60101. U.S. POLICY ON WORLD BANK GROUP AND ASIAN DEVELOPMENT BANK LOANS TO CHINA.

Title XVI of the International Financial Institutions Act (22 U.S.C. 262p et seq.) is amended by adding at the end the following:

“SEC. 1632. U.S. POLICY ON WORLD BANK GROUP AND ASIAN DEVELOPMENT BANK LOANS TO CHINA.

“(a) **IN GENERAL.**—The Secretary of the Treasury shall instruct the United States Executive Directors at the World Bank Group and the Asian Development Bank to use the voice and vote of the United States at the respective institution to vote against any assistance to the People’s Republic of China unless the Secretary of the Treasury has certified to the appropriate congressional committees that—

“(1) the Government of the People’s Republic of China and any lenders owned or controlled by the Government of the People’s Republic of China have credibly committed—

“(A) to participate in multilateral debt relief initiatives on terms at least comparable to other Group of 20 governments;

“(B) to the practice of presumptive public disclosure of the terms and conditions on which they extend credit to other governments (without regard to the form of any such extension of credit);

“(C) not to enforce any agreement terms that may impair their own or the borrowers’ capacity fully to implement commitments described under subparagraphs (A) and (B); and

“(D) not to enter into any agreement containing terms that may impair their own or the borrowers’ capacity fully to implement commitments described under subparagraphs (A) and (B); and

“(2) such assistance contributes significantly to the provision of a global public good that serves the national interest of the United States, such as limiting the negative impacts of climate change.

“(b) **DEFINITIONS.**—In this section:

“(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means the Committee on Financial Services of the House of Representatives and the Committee on Foreign Relations of the Senate.

“(2) **WORLD BANK GROUP DEFINED.**—The term “World Bank Group” means the International Bank for Reconstruction and Development, the International Finance Corporation, and the Multilateral Investment Guarantee Agency.”.

TITLE II—PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS

SEC. 60201. FINDINGS.

Congress finds the following:

(1) The Financial Crimes Enforcement Network (FinCEN) is the Financial Intelligence Unit of the United States tasked with safeguarding the financial system from illicit use, combating money laundering and its related crimes including terrorism, and promoting national security.

(2) Per statute, FinCEN may require domestic financial institutions and financial agencies to take certain “special measures” against jurisdictions, institutions, classes of transactions, or types of accounts determined to be of primary money laundering concern, providing the Secretary with a range of options, such as enhanced record-keeping, that can be adapted to target specific money laundering and terrorist financing and to bring pressure on those that pose money laundering threats.

(3) This special-measures authority was granted in 2001, when most cross-border transactions occurred through correspondent or payable-through accounts held with large financial institutions which serve as intermediaries to facilitate financial transactions on behalf of other banks.

(4) Innovations in financial services have transformed and expanded methods of cross-border transactions that could not have been envisioned 20 years ago when FinCEN was given its special-measures authority.

(5) These innovations, particularly through digital assets and informal value transfer systems, while useful to legitimate consumers and law enforcement, can be tools abused by bad actors like sanctions evaders, fraudsters, money launderers, and those who commit ransomware attacks on victimized U.S. companies and which abuse the financial system to move and obscure the proceeds of their crimes.

(6) Ransomware attacks on U.S. companies requiring payments in cryptocurrencies have increased in recent years, with the U.S. Treasury estimating that ransomware payments in the United States reached \$590 million in just the first half of 2021, compared to a total of \$416 million in 2020.

(7) In July 2021, the White House, with support of U.S. allies, asserted that the People’s Republic of China was responsible for ransomware operations against private companies that included demands of millions of dollars, including the 2021 ransomware attacks that breached Microsoft email systems and affected thousands of consumers, State and local municipalities, and government contractors attributed to a cyber espionage group with links to the Chinese Ministry of State Security.

(8) As ransomware attacks organized by Chinese and other foreign bad actors continue to grow in size and scope, modernizing FinCEN’s special measure authorities will empower FinCEN to adapt its existing tools, monitor and obstruct global financial threats, and meet the challenges of combating 21st century financial crime.

SEC. 60202. PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.

Section 5318A of title 31, United States Code, is amended—

(1) in subsection (a)(2)(C), by striking “subsection (b)(5)” and inserting “paragraphs (5) and (6) of subsection (b)”;

(2) in subsection (b)—

(A) in paragraph (5), by striking “for or on behalf of a foreign banking institution”;

and

(B) by adding at the end the following:

“(6) **PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.**—If the Secretary finds a jurisdiction outside of the United States, 1 or more financial institutions operating outside of the United States, 1 or more types of accounts within, or involving, a jurisdiction outside of the United States, or 1 or more classes of transactions within, or involving, a jurisdiction outside of the United States to be of primary money laundering concern, the Secretary, in consultation with the Secretary of the State, the Attorney General, and the Chairman of the Board of

Governors of the Federal Reserve System, may prohibit, or impose conditions upon certain transmittals of funds (as such term may be defined by the Secretary in a special measure issuance, by regulation, or as otherwise permitted by law), to or from any domestic financial institution or domestic financial agency if such transmittal of funds involves any such jurisdiction, institution, type of account, or class of transaction.”.

TITLE III—U.S. STOCK EXCHANGE TRADING PROHIBITION FOR 2 CONSECUTIVE AUDITOR NON-INSPECTION YEARS

SEC. 60301. TRADING PROHIBITION FOR 2 CONSECUTIVE NON-INSPECTION YEARS.

Section 104(i) of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7214(i)) is amended—

(1) in paragraph (2)(A)(ii), by striking “the foreign jurisdiction described in clause (i)” and inserting “a foreign jurisdiction”; and

(2) in paragraph (3)—

(A) in the paragraph heading, by striking “3” and inserting “2”; and

(B) in subparagraph (A), in the matter preceding clause (i), by striking “3” and inserting “2”.

TITLE IV—COMBATING WILDLIFE TRAFFICKING FINANCING AND PROCEEDS STUDY ACT

SEC. 60401. FINDINGS.

Congress finds the following:

(1) The 2017 report by the think tank, Global Financial Integrity, entitled “Transnational Crime and the Developing World”, determined that the annual global retail value of illegal wildlife trade is between \$5 billion to \$23 billion, and when losses to ecosystem services are considered, the World Bank estimates the cost of environmental crime is between \$1 trillion and \$2 trillion, annually.

(2) Wildlife traffickers do not prefer particular species or commodities, but instead, according to the non-governmental organization, United for Wildlife, wildlife traffickers focus on the demand, availability, profit potential, and relatively low risk associated with acquiring, trading, and distributing wildlife globally.

(3) The trafficking of wildlife affects human health because of undetected spread of zoonotic diseases, scarcity in food resources, and the environmental results of degraded ecosystems.

(4) Also, the trafficking of illicit wildlife such as pangolins from Africa, macaws from Peru, turtles from the United States, and rosewood species smuggled globally threatens our national security at home and American interests abroad because rogue organizations, including transnational criminal organizations, use the proceeds to fund illegal and violent acts throughout the world, fueling corruption and benefiting from corrupt government officials, weakening the rule of law, and distorting commercial markets.

(5) Many of these supply chains are affected by Chinese activity, from the criminal organizations involved in the initial poaching of targeted commodities to the demand for goods produced from endangered plants and animals.

(6) The Organized Crime Drug Enforcement Task Forces conducted an investigation known as “Operation Apex” which identified extensive overlaps among drug trafficking organizations, professional money launderers, and wildlife trafficking syndicates.

(7) A study conducted by Federal entities that examined wildlife trafficking networks determined that—

(A) more than two-thirds of persons trafficking wildlife also trafficked narcotics;

(B) 10 percent of persons trafficking wildlife were doing so to finance terrorism; and

(C) a small percentage of persons trafficking wildlife were doing so to finance the proliferation of nuclear materials.

(8) Because wildlife trafficking is executed as part of a commodity-agnostic global enterprise, the United States and allies of the United States

should focus efforts to reduce wildlife trafficking on curtailing the expansive networks that traffic wildlife and other goods and on bringing enforcement actions against persons who launder the proceeds of those persons who traffic wildlife rather than pursue specific nations, groups, or commodities.

(9) In the past decade, the illicit wildlife trade has moved online, mainly to social media platforms, creating jurisdictional and technical challenges for law enforcement.

SEC. 60402. STUDY.

(a) IN GENERAL.—The Secretary of the Treasury and the Secretary of the Interior, acting through the U.S. Fish and Wildlife Service, shall jointly, not later than 2 years after the date of the enactment of this Act, conduct a study with respect to wildlife trafficking financing and proceeds and submit a report on such study to—

(1) the Committees on Financial Services and Natural Resources and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committees on Banking, Housing, and Urban Affairs and Energy and Natural Resources and the Permanent Select Committee on Intelligence of the Senate.

(b) CONSULTATION.—In conducting the study required under subsection (a), the Secretary of the Treasury and the Secretary of the Interior shall consult with such other Federal officials as the Secretaries determine appropriate, including the Secretary of State, the Director of National Intelligence, the Director of Homeland Security Investigations, the Attorney General, and the Secretary of Defense.

(c) INPUT.—In conducting the study required under subsection (a), the Secretary of the Treasury and the Secretary of the Interior shall solicit and incorporate, where possible and as determined appropriate by the Secretaries, input from—

(1) domestic, foreign, and multilateral law enforcement organizations,

(2) the intelligence community;

(3) wildlife advocates;

(4) experts in transnational organized crime, cyber-crime, and illicit finance; and

(5) nongovernmental organizations, academia, foundations, and other public and private entities.

(d) CONTENTS OF REPORT.—The report required under subsection (a) shall include—

(1) an overview of the criminal and complicit actors, including individuals, organizations, corrupt networks, and nations, that participate in wildlife trafficking from source to market, both proactively and permissively.

(2) an overview of the types of wildlife trafficked, for what purposes, and from where;

(3) an overview of the roles of professional money launderers, corporate and trust formation agents, kleptocrats, and other supply chain and financial facilitators with respect to wildlife trafficking;

(4) a discussion, based on a consideration of relevant prior studies and investigations, of the convergence of wildlife trafficking with other types of trafficking, including trafficking in persons, timber trafficking, and narcotics trafficking, including shared supply chains and financial facilitators;

(5) an overview of the national security implications associated with wildlife trafficking and the financing and proceeds of wildlife trafficking, including—

(A) potential threats to security, including corruption and State instability resulting from wildlife trafficking; and

(B) potential threats to public health, including global pandemic and ecosystem collapse;

(6) an examination of how anti-corruption activities might be leveraged with respect to mitigating the ways in which corrupt officials and politically exposed persons enable and engage in wildlife trafficking financing and proceeds;

(7) an examination of payments methods used to facilitate the trafficking of wildlife, including its financing and proceeds;

(8) an examination of how online platforms are used to facilitate trafficking and trafficking-related payments that—

(A) describes the extent to which illicit wildlife trade occurs online, including through social media platforms, ecommerce sites, and encrypted messaging and other surface web platforms;

(B) identifies payments- and proceeds-related reasons that different online platforms may be chosen by persons trafficking in wildlife; and

(C) identifies online platforms that are used most for transactions and payments involving trafficking in wildlife;

(9) an examination of private-sector best practices for combating wildlife trafficking financing and proceeds (including those found in the financial services industry), as well as any practices that have not had success combating wildlife trafficking financing and proceeds;

(10) a discussion of ways in which existing laws, multilateral agreements, and forums could be expanded or modified to combat wildlife trafficking financing and disrupt its proceeds;

(11) an identification of tools of international and national engagement, including partnerships with private sector and international financial institutions, that could be coordinated to combat wildlife trafficking financing and disrupt its proceeds;

(12) recommendations about ways in which interdisciplinary collaboration across Federal agencies could be incentivized to maximize information and analysis from investigations into other types of trafficking and which may benefit from the information and analysis gleaned from wildlife trafficking investigations;

(13) an examination of how data collection, collaboration, analysis, and technology tools, including artificial intelligence and machine learning might be leveraged to combat wildlife trafficking and its proceeds;

(14) a recommendation of whether Congress should renew the wildlife trafficking task force authorized in the END Act and sunset in December 2021; and

(15) an examination of how anti-corruption activities and practices could be included in existing Federal and international wildlife trafficking prevention and enforcement efforts.

(e) CLASSIFICATION OF REPORT.—The report required under subsection (a) may be submitted in classified form but shall have an unclassified annex or executive summary.

TITLE V—STUDY ON CHINESE SUPPORT FOR AFGHAN ILLICIT FINANCE

SEC. 60501. STUDY ON CHINESE SUPPORT FOR AFGHAN ILLICIT FINANCE.

(a) FINDINGS.—Congress finds the following:

(1) Though China and Afghanistan share only a small land border, when it comes to illicit financial activity between the two countries, China has a demonstrated history of permissiveness regarding trafficking and money laundering that could support both the Taliban and its associates.

(2) A 2014 Financial Action Task Force report titled, “Financial Flows Linked to the Production and Trafficking of Afghan Opiates” found evidence of import/export companies registered in China that were transferring funds to Afghanistan, likely as part of trade-based money laundering schemes centered around illicit opium production and trafficking, which, per the United Nations Office on Drugs and Crime (UNODC), is one of the Taliban’s main sources of income.

(3) Since the U.S. withdrawal from Afghanistan in August 2021, China has announced its willingness to lend financial support and legitimacy to the Taliban-led government in Afghanistan, including Afghan Interior Minister, Sirajuddin Haqqani, a member of the U.S.-sanctions designated Foreign Terrorist Organization, the Haqqani Network.

(4) China’s permissive policies regarding Afghan illicit finance run counter to the strategic interests of the United States with respect to countering trafficking and preventing terrorist groups from accessing the international financial system.

(5) China’s role as a critical source of financial wherewithal for the Taliban and its associates to process and implement drug and other illicit-activity transactions warrants further study as these actions pose a threat both to the safety and security of the people of Afghanistan and the international community.

(6) Congress needs to better understand how China could leverage its relationships and resources within Afghanistan and how these activities could directly or indirectly provide financial support to terrorist organizations, including the Taliban and its associates.

(b) STUDY.—

(1) REQUIREMENT.—Not later than one year after the date of the enactment of this Act, the Secretary of Treasury shall provide to the Committee on Financial Services and the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate a report on the financial activities of China and Chinese entities in connection with the finances of Afghanistan and the Taliban.

(2) MATTERS INCLUDED.—The report under paragraph (1) shall include the following:

(A) An assessment of the activities undertaken by the People’s Republic of China and Chinese-registered companies to support illicit financial networks in Afghanistan, particularly such networks involved in narcotics trafficking, illicit financial transactions, official corruption, natural resources exploitation, and terrorist networks.

(B) An assessment of financial, commercial, and economic activities undertaken by China and Chinese companies in Afghanistan to support Chinese policies counter to American strategic interests.

(C) Any recommendations to Congress regarding legislative or regulatory improvements necessary to support the identification and disruption of Chinese-supported illicit financial networks in Afghanistan.

(3) FORM.—The report under paragraph (1) may include a classified annex.

TITLE VI—U.S. POLICY ON MULTILATERAL DEVELOPMENT BANK CO-FINANCING ARRANGEMENTS WITH CHINA’S INFRASTRUCTURE BANK

SEC. 60601. U.S. POLICY ON CO-FINANCING ARRANGEMENTS AT THE MULTILATERAL DEVELOPMENT BANKS.

Title XVI of the International Financial Institutions Act (22 U.S.C. 262p et seq.), as amended by section 60101, is further amended by adding at the end the following:

“SEC. 1633. U.S. POLICY ON CO-FINANCING ARRANGEMENTS AT THE MULTILATERAL DEVELOPMENT BANKS.

“The Secretary of the Treasury shall instruct the United States Executive Directors at the multilateral development banks (as defined in section 1701(c)(4)) to use the voice and vote of the United States to vote against any program or project at the respective institution if it includes joint or parallel financing provided by the Asian Infrastructure Investment Bank unless the Secretary of the Treasury has certified to the Committee on Financial Services of the House of Representatives and the Committee on Foreign Relations of the Senate that the Asian Infrastructure Investment Bank—

“(1) has the authority and the resources to provide grants and concessional assistance to countries eligible to borrow from the International Development Association on terms similar to those provided to these countries by the International Development Association; and

“(2) has demonstrated a track record of providing such assistance to these countries.”.

TITLE VII—CHINA FINANCIAL THREAT MITIGATION

SEC. 60701. CHINA FINANCIAL THREAT MITIGATION.

(a) **REPORT.**—The Secretary of the Treasury shall conduct a study and issue a report that includes a description and analysis of any risks to the financial stability of the United States and the global economy emanating from the People's Republic of China, along with any recommendations to the United States representatives at relevant international organizations as appropriate to strengthen international cooperation to monitor and mitigate such financial stability risks.

(b) **TRANSMISSION OF REPORT.**—The Secretary of the Treasury shall transmit the report required under subsection (a) no later than December 31, 2022, to the Committees on Financial Services and Foreign Affairs of the House of Representatives, the Committees on Banking, Housing, and Urban Affairs and Foreign Relations of the Senate, and to the United States representatives at relevant international organizations, as appropriate.

(c) **CLASSIFICATION.**—The report required under subsection (a) shall be unclassified, but may contain a classified annex.

(d) **PUBLICATION OF REPORT.**—The Secretary of the Treasury shall publish the report required under subsection (a) (other than any classified annex) on the website of the Department of the Treasury no later than December 31, 2022.

TITLE VIII—SUPPORT FOR DEBT RELIEF FOR DEVELOPING COUNTRIES

SEC. 60801. SUPPORT FOR INTERNATIONAL INITIATIVES TO PROVIDE DEBT RELIEF TO DEVELOPING COUNTRIES WITH UNSUSTAINABLE LEVELS OF DEBT.

(a) **DEBT RELIEF.**—The Secretary of the Treasury, in consultation with the Secretary of State, shall—

(1) engage with international financial institutions and official and commercial creditors to advance support for prompt and effective implementation and improvement of the Common Framework for Debt Treatments beyond the Debt Service Suspension Initiative (in this section referred to as the “Common Framework”), and any successor framework or similar coordinated international debt treatment process through the establishment and publication of clear and accountable—

(A) debt treatment benchmarks designed to achieve debt sustainability for each participating debtor;

(B) standards for equitable burden sharing among all creditors with material claims on each participating debtor, without regard for their official, private, or hybrid status;

(C) robust debt disclosure, including but not limited to inter-creditor data sharing and a broad presumption in favor of public disclosure of material terms and conditions of claims on participating debtors;

(D) expanded eligibility criteria to include all countries with unsustainable levels of sovereign debt;

(E) standards for comprehensive creditor participation consistent with robust application of the policies of the International Monetary Funds relating to lending into arrears; and

(F) consistent enforcement and improvement of the policies of multilateral institutions relating to asset-based and revenue-based borrowing by participating debtors, and coordinated standards on restructuring collateralized debt;

(2) engage with international financial institutions and official and commercial creditors to advance support for a comprehensive and effective debt payment standstill for each participating debtor from the time of its application for, and until the completion of its negotiations under, the Common Framework, or any successor framework or similar coordinated inter-

national debt treatment process: provided, however, that any such standstill should incentivize prompt and comprehensive debt restructuring agreement and provide temporary cash flow relief for the debtor, without exacerbating its vulnerability to debt distress; and

(3) instruct the United States Executive Director at the International Monetary Fund and the United States Executive Director at the World Bank to use the voice and vote of the United States to advance the efforts described in paragraphs (1) and (2), including by urging international financial institutions to participate in debt relief, without undermining their ability to continue to provide new and additional flows of aid and assistance.

(b) **REPORTING REQUIREMENT.**—Not later than 120 days after the date of the enactment of this Act, and annually thereafter until the end of the COVID-19 pandemic, as determined by the World Health Organization, the Secretary of the Treasury, in coordination with the Secretary of State, shall submit to the Committees on Banking, Housing, and Urban Affairs and Foreign Relations of the Senate and the Committees on Financial Services and Foreign Affairs of the House of Representatives a report that describes—

(1) actions that have been taken, in coordination with international financial institutions, by official creditors, including the government of, and state-owned enterprises in, the People's Republic of China, and relevant commercial creditor groups to advance debt relief for countries with unsustainable debt that have sought relief under the Common Framework, any successor framework or mechanism, or under any other coordinated international arrangement for sovereign debt restructuring;

(2) any implementation challenges that hinder the ability of the Common Framework to provide timely debt restructuring for any country with unsustainable debt that seeks debt relief or debt payment relief, including any refusal of any creditors to participate in equitable burden sharing, including but not limited to failure to share (or publish, as appropriate) all material information needed to assess debt sustainability and inter-creditor equity;

(3) recommendations on how to address challenges identified in paragraph (2);

(4) any United States policy concerns with respect to providing debt relief to specific countries; and

(5) the transparency and accountability measures established or proposed to ensure that resources freed up by the debt relief described in paragraph (1) are used for activities that respond to the health, economic, and social effects of the COVID-19 pandemic, climate change resiliency, or help ensure equitable recoveries and growth.

TITLE IX—SECURING AMERICA'S VACCINES FOR EMERGENCIES

SEC. 60901. SHORT TITLE.

This title may be cited as the “Securing America's Vaccines for Emergencies Act of 2022” or the “SAVE Act of 2022”.

SEC. 60902. SECURING ESSENTIAL MEDICAL MATERIALS.

(a) **STATEMENT OF POLICY.**—Section 2(b) of the Defense Production Act of 1950 (50 U.S.C. 4502) is amended—

(1) by redesignating paragraphs (3) through (8) as paragraphs (4) through (9), respectively; and

(2) by inserting after paragraph (2) the following:

“(3) authorities under this Act should be used when appropriate to ensure the availability of medical materials essential to national defense, including through measures designed to secure the drug supply chain, and taking into consideration the importance of United States competitiveness, scientific leadership and cooperation, and innovative capacity.”.

(b) **STRENGTHENING DOMESTIC CAPABILITY.**—Section 107 of the Defense Production Act of 1950 (50 U.S.C. 4517) is amended—

(1) in subsection (a), by inserting “(including medical materials)” after “materials”; and

(2) in subsection (b)(1), by inserting “(including medical materials such as drugs, devices, and biological products to diagnose, cure, mitigate, treat, or prevent disease that are essential to national defense)” after “essential materials”.

(c) **STRATEGY ON SECURING SUPPLY CHAINS FOR MEDICAL MATERIALS.**—Title I of the Defense Production Act of 1950 (50 U.S.C. 4511 et seq.) is amended by adding at the end the following:

“SEC. 109. STRATEGY ON SECURING SUPPLY CHAINS FOR MEDICAL MATERIALS.

“(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this section, the President, in consultation with the Secretary of Health and Human Services, the Secretary of Commerce, the Secretary of Homeland Security, and the Secretary of Defense, shall transmit a strategy to the appropriate Members of Congress that includes the following:

“(1) A detailed plan to use the authorities under this title and title III, or any other provision of law, to ensure the supply of medical materials (including drugs, devices, and biological products (as that term is defined in section 351 of the Public Health Service Act (42 U.S.C. 262)) to diagnose, cure, mitigate, treat, or prevent disease) essential to national defense, to the extent necessary for the purposes of this Act.

“(2) An analysis of vulnerabilities to existing supply chains for such medical materials, and recommendations to address the vulnerabilities.

“(3) Measures to be undertaken by the President to diversify such supply chains, as appropriate and as required for national defense.

“(4) A discussion of—

“(A) any significant effects resulting from the plan and measures described in this subsection on the production, cost, or distribution of biological products (as that term is defined in section 351 of the Public Health Service Act (42 U.S.C. 262)) or any other devices or drugs (as defined under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.));

“(B) a timeline to ensure that essential components of the supply chain for medical materials are not under the exclusive control of a foreign government in a manner that the President determines could threaten the national defense of the United States; and

“(C) efforts to mitigate any risks resulting from the plan and measures described in this subsection to United States competitiveness, scientific leadership, and innovative capacity, including efforts to cooperate and proactively engage with United States allies.

“(b) **PROGRESS REPORT.**—Following submission of the strategy under subsection (a), the President shall submit to the appropriate Members of Congress an annual progress report until September 30, 2025, evaluating the implementation of the strategy, and may include updates to the strategy as appropriate. The strategy and progress reports shall be submitted in unclassified form but may contain a classified annex.

“(c) **APPROPRIATE MEMBERS OF CONGRESS.**—The term ‘appropriate Members of Congress’ means the Speaker, majority leader, and minority leader of the House of Representatives, the majority leader and minority leader of the Senate, the Chairman and Ranking Member of the Committee on Financial Services of the House of Representatives, the Chairman and Ranking Member of the Committee on Energy and Commerce and the Chairman and Ranking Member of the Committee on Banking, Housing, and Urban Affairs of the Senate.”.

SEC. 60903. INVESTMENT IN SUPPLY CHAIN SECURITY.

(a) **IN GENERAL.**—Section 303 of the Defense Production Act of 1950 (50 U.S.C. 4533) is amended by adding at the end the following:

“(h) **INVESTMENT IN SUPPLY CHAIN SECURITY.**—

“(1) *IN GENERAL.*—In addition to other authorities in this title, the President may make available to an eligible entity described in paragraph (2) payments to increase the security of supply chains and supply chain activities, if the President certifies to Congress not less than 30 days before making such a payment that the payment is critical to meet national defense requirements of the United States.

“(2) *ELIGIBLE ENTITY.*—An eligible entity described in this paragraph is an entity that—

“(A) is organized under the laws of the United States or any jurisdiction within the United States; and

“(B) produces—

“(i) one or more critical components;

“(ii) critical technology; or

“(iii) one or more products or raw materials for the security of supply chains or supply chain activities.

“(3) *DEFINITIONS.*—In this subsection, the terms ‘supply chain’ and ‘supply chain activities’ have the meanings given those terms by the President by regulation.”.

(b) *REGULATIONS.*—

(1) *IN GENERAL.*—Not later than 90 days after the date of the enactment of this Act, the President shall prescribe regulations setting forth definitions for the terms “supply chain” and “supply chain activities” for the purposes of section 303(h) of the Defense Production Act of 1950 (50 U.S.C. 4533(h)), as added by subsection (a).

(2) *SCOPE OF DEFINITIONS.*—The definitions required by paragraph (1)—

(A) shall encompass—

(i) the organization, people, activities, information, and resources involved in the delivery and operation of a product or service used by the Government; or

(ii) critical infrastructure as defined in Presidential Policy Directive 21 (February 12, 2013; relating to critical infrastructure security and resilience); and

(B) may include variations as determined necessary and appropriate by the President for purposes of national defense.

TITLE X—COVID-19 EMERGENCY MEDICAL SUPPLIES ENHANCEMENT

SEC. 61001. SHORT TITLE.

This title may be cited as the “COVID-19 Emergency Medical Supplies Enhancement Act of 2022”.

SEC. 61002. DETERMINATION ON EMERGENCY SUPPLIES AND OTHER PUBLIC HEALTH EMERGENCIES.

(a) *COVID-19 PANDEMIC RESPONSE.*—For the purposes of section 101 of the Defense Production Act of 1950 (50 U.S.C. 4511), the following materials may be deemed by the President, during the COVID-19 emergency period, to be scarce and critical materials essential to the national defense and otherwise meet the requirements of section 101(b) of such Act, and funds available to implement such Act may be used for the purchase, production (including the construction, repair, and retrofitting of government-owned facilities as necessary), or distribution of such materials:

(1) *In vitro* diagnostic products (as defined in section 809.3(a) of title 21, Code of Federal Regulations) for the detection of SARS-CoV-2 or the diagnosis of the virus that causes COVID-19, and the reagents and other materials necessary for producing, conducting, or administering such products, and the machinery, equipment, laboratory capacity, or other technology necessary to produce such products.

(2) Face masks and personal protective equipment, including non-surgical isolation gowns, face shields, nitrile gloves, N-95 filtering facepiece respirators, and any other masks or equipment (including durable medical equipment) determined by the Secretary of Health and Human Services to be needed to respond to the COVID-19 pandemic, and the materials, machinery, additional manufacturing lines or facilities, or

other technology necessary to produce such equipment.

(3) *Drugs and devices* (as those terms are defined in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.)) and biological products (as that term is defined by section 351 of the Public Health Service Act (42 U.S.C. 262)) that are approved, cleared, licensed, or authorized under either of such Acts for use in treating or preventing COVID-19 and symptoms related to COVID-19, and any materials, manufacturing machinery, additional manufacturing or fill-finish lines or facilities, technology, or equipment (including durable medical equipment) necessary to produce or use such drugs, biological products, or devices (including syringes, vials, or other supplies or equipment related to delivery, distribution, or administration).

(4) Any other medical equipment or supplies determined by the Secretary of Health and Human Services or the Secretary of Homeland Security to be scarce and critical materials essential to the national defense for purposes of section 101 of the Defense Production Act of 1950 (50 U.S.C. 4511).

(b) *FUTURE PREPAREDNESS FOR HEALTH EMERGENCIES.*—Section 702(14) of the Defense Production Act of 1950 is amended by striking “and critical infrastructure protection and restoration” and inserting “, critical infrastructure protection and restoration, and public health emergency preparedness and response activities”.

SEC. 61003. EXERCISE OF TITLE I AUTHORITIES IN RELATION TO CONTRACTS BY STATE, LOCAL, OR TRIBAL GOVERNMENTS.

(a) *IN GENERAL.*—In exercising authorities under title I of the Defense Production Act of 1950 (50 U.S.C. 4511 et seq.) during the COVID-19 emergency period, the President (and any officer or employee of the United States to which authorities under such title I have been delegated)—

(1) may exercise the prioritization or allocation authority provided in such title I to exclude any materials described in section 61002 ordered by a State, local, or Tribal government that are scheduled to be delivered within 15 days of the time at which—

(A) the purchase order or contract by the Federal Government for such materials is made; or

(B) the materials are otherwise allocated by the Federal Government under the authorities contained in such Act; and

(2) shall, within 24 hours of any exercise of the prioritization or allocation authority provided in such title I—

(A) to the extent practicable notify any State, local, or Tribal government if the President determines that the exercise of such authorities would delay the receipt of such materials ordered by such government; and

(B) take such steps as may be necessary, and as authorized by law, to ensure that such materials ordered by such government are delivered in the shortest possible period, consistent with the purposes of the Defense Production Act of 1950.

(b) *UPDATE TO FEDERAL REGULATIONS.*—

(1) *DPAS.*—Not later than 30 days after the date of enactment of this Act, the Defense Property Accountability System regulations (15 C.F.R. part 700) shall be revised to reflect the requirements of subsection (a).

(2) *FAR.*—Not later than 30 days after the revisions required by paragraph (1) are made, the Federal Acquisition Regulation shall be revised to reflect the requirements of subsection (a), consistent with the revisions made pursuant to paragraph (1).

SEC. 61004. ENGAGEMENT WITH THE PRIVATE SECTOR.

(a) *OUTREACH REPRESENTATIVE.*—Consistent with the authorities in title VII of the Defense Production Act of 1950 (50 U.S.C. 4551 et seq.), the Administrator of the Federal Emergency

Management Agency, in consultation with the Secretary of Health and Human Services, may designate or appoint, pursuant to section 703 of such Act (50 U.S.C. 4553), an individual to be known as the “Outreach Representative” for the COVID-19 emergency period. Such individual shall—

(1) be appointed from among individuals with substantial experience in the production or distribution of medical supplies or equipment; and

(2) act as the Government-wide single point of contact during the COVID-19 emergency for outreach to manufacturing companies and their suppliers who may be interested in producing medical supplies or equipment, including the materials described under section 61002.

(b) *ENCOURAGING PARTNERSHIPS.*—During the COVID-19 emergency period, the Outreach Representative shall seek to develop partnerships between companies, in coordination with any overall coordinator appointed by the President to oversee the response to the COVID-19 emergency, including through the exercise of the authorities delegated by the President under section 708 of the Defense Production Act of 1950 (50 U.S.C. 4558).

SEC. 61005. ENHANCEMENT OF SUPPLY CHAIN PRODUCTION.

In exercising authority under title III of the Defense Production Act of 1950 (50 U.S.C. 4531 et seq.) with respect to materials described in section 61002, the President shall seek to ensure that support is provided to companies that comprise the supply chains for reagents, components, raw materials, and other materials and items necessary to produce or use the materials described in section 61002 to the extent necessary for the national defense during the COVID-19 emergency period.

SEC. 61006. ENHANCED REPORTING DURING COVID-19 EMERGENCY.

(a) *REPORT ON EXERCISING AUTHORITIES UNDER THE DEFENSE PRODUCTION ACT OF 1950.*—

(1) *IN GENERAL.*—Not later than 90 days after the date of the enactment of this Act, the President, in consultation with the Administrator of the Federal Emergency Management Agency, the Secretary of Defense, and the Secretary of Health and Human Services, shall submit to the appropriate congressional committees a report on the exercise of authorities under titles I, III, and VII of the Defense Production Act of 1950 (50 U.S.C. 4501 et seq.) prior to the date of such report for the purposes of the COVID-19 response.

(2) *CONTENTS.*—The report required under subsection (a) and the update required under paragraph (3) shall include the following:

(A) *IN GENERAL.*—With respect to each exercise of such authority—

(i) an explanation of the purpose of the applicable contract, purchase order, or other exercise of authority (including an allocation of materials, services, and facilities under section 101(a)(2) of the Defense Production Act of 1950 (50 U.S.C. 4511(a)(2)));

(ii) the cost of such exercise of authority; and

(iii) if applicable—

(I) the amount of goods that were purchased or allocated;

(II) an identification of the entity awarded a contract or purchase order or that was the subject of the exercise of authority; and

(III) an identification of any entity that had shipments delayed by the exercise of any authority under the Defense Production Act of 1950 (50 U.S.C. 4501 et seq.).

(B) *CONSULTATIONS.*—A description of any consultations conducted with relevant stakeholders on the needs addressed by the exercise of the authorities described in paragraph (1).

(3) *UPDATE.*—The President shall provide an additional briefing to the appropriate congressional committees on the matters described under paragraph (2) no later than four months after the submission of the report.

(b) EXERCISE OF LOAN AUTHORITIES.—

(1) IN GENERAL.—Any loan made pursuant to section 302 or 303 of the Defense Production Act of 1950, carried out by the United States International Development Finance Corporation pursuant to the authorities delegated by Executive Order No. 13922, shall be subject to the notification requirements contained in section 1446 of the BUILD Act of 2018 (22 U.S.C. 9656).

(2) APPROPRIATE CONGRESSIONAL COMMITTEES.—For purposes of the notifications required by paragraph (1) the term “appropriate congressional committees”, as used section 1446 of the BUILD Act of 2018, shall be deemed to include the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing and Urban Development of the Senate.

(c) SUNSET.—The requirements of this section shall terminate on the end of the COVID-19 emergency period.

SEC. 61007. REPORT ON ACTIVITIES INVOLVING SMALL BUSINESS.

The report required by section 304(f)(3) of the Defense Production Act of 1950 (50 U.S.C. 4534(f)(3)) for fiscal years 2023 and 2024 shall include the percentage of contracts awarded using funds to carry out the Defense Production Act of 1950 for each of the fiscal years 2023 and 2024, respectively, to small business concerns (as defined under section 702 of such Act).

SEC. 61008. DEFINITIONS.

In this title:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means the Committees on Appropriations, Armed Services, Energy and Commerce, Financial Services, and Homeland Security of the House of Representatives and the Committees on Appropriations, Armed Services, Banking, Housing, and Urban Affairs, Health, Education, Labor, and Pensions, Homeland Security and Governmental Affairs, and Veterans Affairs of the Senate.

(2) COVID-19 EMERGENCY PERIOD.—The term “COVID-19 emergency period” means the period beginning on the date of enactment of this Act and ending on the earlier of—

(A) the end of the incident period for the emergency declared on March 13, 2020, by the President under section 501 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 4121 et seq.) relating to the Coronavirus Disease 2019 (COVID-19) pandemic; or

(B) September 30, 2025.

(3) RELEVANT STAKEHOLDER.—The term “relevant stakeholder” means—

(A) representative private sector entities;

(B) representatives of the nonprofit sector;

(C) representatives of primary and secondary school systems; and

(D) representatives of organizations representing workers, including health workers, manufacturers, teachers, other public sector employees, and service sector workers.

(4) STATE.—The term “State” means each of the several States, the District of Columbia, Puerto Rico, and any territory of the United States.

DIVISION H—COMMITTEE ON NATURAL RESOURCES

TITLE I—ILLEGAL FISHING AND FORCED LABOR PREVENTION

SEC. 70101. DEFINITIONS.

In this title, the following definitions apply:

(1) OPPRESSIVE CHILD LABOR.—The term “oppressive child labor” has the meaning given such term in section 3 of the Fair Labor Standards Act of 1938 (29 U.S.C. 203).

(2) FORCED LABOR.—The term “forced labor” means any labor or service provided for or obtained by any means described in section 1589(a) of title 18, United States Code.

(3) HUMAN TRAFFICKING.—The term “human trafficking” has the meaning given the term

“severe forms of trafficking in persons” in section 103 of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7102).

(4) ILLEGAL, UNREPORTED, OR UNREGULATED FISHING.—The term “illegal, unreported, or unregulated fishing” has the meaning given such term in section 609 of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j(e)), as amended by this title.

(5) SEAFOOD.—The term “seafood” means fish meal, and all marine animal and plant life meant for consumption as food other than marine mammals and birds, including fish, shellfish, shellfish products, and processed fish.

(6) SEAFOOD IMPORT MONITORING PROGRAM.—The term “Seafood Import Monitoring Program” means the Seafood Traceability Program established under section 300.324 of title 50, Code of Federal Regulations.

(7) SECRETARY.—The term “Secretary” means the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration.

SEC. 70102. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Secretary \$20,000,000 for each of fiscal years 2022 through 2027 to carry out subtitle A, subtitle B, and the amendments made by those subtitles.

Subtitle A—Combating Human Trafficking Through Seafood Import Monitoring

SEC. 70111. DEFINITIONS.

In this subtitle, the following additional definitions apply:

(1) COMPETENT AUTHORITY.—The term “competent authority” means government and any third party that meets certain governing criteria. Such criteria shall be established by regulation, after outreach to key environmental and labor stakeholders.

(2) UNIQUE VESSEL IDENTIFIER.—The term “unique vessel identifier” means a unique number that stays with a vessel for the duration of the vessel’s life, regardless of changes in flag, ownership, name, or other changes to the vessel.

SEC. 70112. EXPANSION OF SEAFOOD IMPORT MONITORING PROGRAM TO ALL SPECIES.

The Secretary shall, not later than 2 years after the date of enactment of this Act, expand the Seafood Import Monitoring Program to apply to all seafood and seafood products imported into the United States.

SEC. 70113. ENHANCEMENT OF SEAFOOD IMPORT MONITORING PROGRAM AUTOMATED COMMERCIAL ENVIRONMENT MESSAGE SET.

The Secretary, in coordination with the Commissioner of U.S. Customs and Border Protection, shall, not later than 6 months after the date of enactment of this Act, develop a strategy to improve the quality and verifiability of already collected Seafood Import Monitoring Program Message Set data elements in the Automated Commercial Environment system that prioritizes the use of enumerated data types, such as checkboxes, dropdown menus, or radio buttons, and any additional elements the Agency finds necessary, among other options, rather than open text fields, for—

(1) authorization to fish;

(2) unique vessel identifier (if available);

(3) catch document identifier;

(4) location of wild-capture harvest and landing or aquaculture location;

(5) type of fishing gear used to harvest the fish;

(6) name of farm or aquaculture facility, if applicable; and

(7) location of aquaculture facility, if applicable.

SEC. 70114. ADDITIONAL DATA REQUIREMENTS FOR SEAFOOD IMPORT MONITORING PROGRAM DATA COLLECTION.

(a) IN GENERAL.—Not later than 1 year after date of enactment of this Act, the Secretary shall revise section 300.324 of title 50, Code of Federal Regulations, to—

(1) require at the time of entry for imported seafood and seafood products—

(A) location of catch or cultivation, including—

(i) geographic location at a resolution of not less than 1 degree latitude by 1 degree longitude;

(ii) the country code of the International Organization for Standardization if the catch was within the exclusive economic zone or territorial waters of a country;

(iii) if appropriate, the regional fisheries management organization or organizations having jurisdiction over the catch, if it occurs within the jurisdiction of any regional fisheries management organization; and

(iv) the Food and Agriculture Organization major fishing area codes;

(B) electronic reports of chain-of-custody records that identify, including with unique vessel identifiers when applicable, each custodian of the seafood, including transshippers, processors, storage facilities, and distributors and the physical address of such facilities;

(C) maritime mobile service identity number of harvesting and transshipment vessels; and

(D) beneficial owner of each harvesting and transshipment vessel or aquaculture facility, when applicable;

(2) require all importers submitting seafood import data to require prior notification and submission of seafood import data at least 72 hours and no more than 15 days prior to entry; and

(3) require verification and certification of harvest information by competent authorities at all major transfer points in the supply chain, including harvest, landing, processing, and transshipment at the time of entry.

(b) FORCED LABOR.—The Secretary, working in consultation with the Secretary of Homeland Security, the Secretary of Labor, and the Secretary of State, shall, not later than 1 year after the date of enactment of this Act, complete a regulatory process to establish additional key data elements for the Seafood Import Monitoring Program, that collect information about labor conditions in the harvest, transshipment, and processing of imported fish and fish products.

(c) INTERNATIONAL FISHERIES TRADE PERMIT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall—

(1) publish and maintain on the website of the National Marine Fisheries Service a list of all current International Fisheries Trade Permit holders, including the name of the permit holder and expiration date of the permit;

(2) begin to revoke, modify, or deny issuance of an International Fisheries Trade Permit with respect to a permit holder or applicant that has violated any requirement of section 300.322, 300.323, 300.324, or 300.325 of title 50, Code of Federal Regulations; and

(3) require an International Fisheries Trade Permit for importers.

SEC. 70115. IMPORT AUDITS.

(a) AUDIT PROCEDURES.—The Secretary shall, not later than 1 year after the date of enactment of this Act, implement procedures to audit information and supporting records of sufficient numbers of imports of seafood and seafood products subject to the Seafood Import Monitoring Program to support statistically robust conclusions that the samples audited are representative of all seafood imports with respect to a given year.

(b) ANNUAL REVISION.—In developing the procedures required in subsection (a), the Secretary shall, not less frequently than once each year, revise such procedures to prioritize for audit those imports originating from countries—

(1) identified pursuant to sections 609(b) or 610(a) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j(b) or 1826k(a)) that have not yet received a subsequent positive certification pursuant to sections 609(d) or 610(c) of such Act, respectively;

(2) identified by an appropriate regional fishery management organization as being the flag state or landing location of vessels identified by other countries or regional fisheries management organizations as engaging in illegal, unreported, or unregulated fishing;

(3) identified as having human trafficking, including forced labor, in any part of the seafood supply chain, including on vessels flagged in such country and including feed for cultured production, in the most recent Trafficking in Persons Report issued by the Department of State in accordance with the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.);

(4) identified as producing goods that contain seafood using forced labor or oppressive child labor in the most recent List of Goods Produced by Child Labor or Forced Labor in accordance with the Trafficking Victims Protection Act (22 U.S.C. 7101 et seq.); and

(5) identified as at risk for human trafficking, including forced labor, in their seafood catching and processing industries by the report required in section 3563 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92).

SEC. 70116. AVAILABILITY OF FISHERIES INFORMATION.

(a) IN GENERAL.—Section 402(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1881a(b)(1)) is amended by striking “or” after the semicolon at the end of subparagraph (G), by striking the period at the end of subparagraph (H) and inserting “; or”, and by adding at the end the following:

“(I) to Federal agencies responsible for screening of imported seafood and for the purpose of carrying out the duties under or with respect to—

“(i) the Seafood Import Monitoring Program;

“(ii) the Antarctic Marine Living Resources Program;

“(iii) the Tuna Tracking and Verification Program;

“(iv) the Atlantic Highly Migratory Species International Trade Program;

“(v) the List of Goods Produced by Child Labor or Forced Labor in accordance with the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.);

“(vi) the Trafficking in Persons Report required by section 110 of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7107);

“(vii) enforcement activities and regulations authorized under section 307 of the Tariff Act of 1930 (19 U.S.C. 1307); and

“(viii) the taking and related acts in commercial fishing operations under section 216.24 of title 50, Code of Federal Regulations;

“(J) to Federal, State and local agencies for the purposes of verification and enforcement of title II of this Act; or

“(K) information that pertains to catch documentation and legality of catch, if disclosure of that information would not materially damage the value of catch or business.”.

(b) IMPLEMENTATION DEADLINE.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue regulations implementing the amendments in this section.

SEC. 70117. AUTHORITY TO HOLD FISH PRODUCTS.

Section 311(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1861(b)) is amended—

(1) in subparagraph (B), striking “; and” and inserting a semicolon;

(2) in subparagraph (C), striking the period and inserting “; and”; and

(3) by adding at the end the following a new subparagraph:

“(D) detain, for a period of up to 14 days, any shipment of fish or fish product imported into, landed on, introduced into, exported from, or transported within the jurisdiction of the United

States, or, if such fish or fish product is deemed to be perishable, sell and retain the proceeds therefrom for a period of up to 21 days.”.

SEC. 70118. REPORT ON SEAFOOD IMPORT MONITORING.

(a) REPORT TO CONGRESS AND PUBLIC AVAILABILITY OF REPORTS.—The Secretary shall, not later than 120 days after the end of each fiscal year, submit to the Committee on Natural Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that summarizes the National Marine Fisheries Service's efforts to prevent the importation of seafood harvested through illegal, unreported, or unregulated fishing, particularly with respect to seafood harvested, produced, processed, or manufactured by forced labor. Each such report shall be made publicly available on the public website of the National Oceanic and Atmospheric Administration.

(b) CONTENTS.—Each report submitted under subsection (a) shall include—

(1) the volume and value of seafood species subject to the Seafood Import Monitoring Program, described in section 300.324 of title 50, Code of Federal Regulations, reported by 10-digit Harmonized Tariff Schedule of the United States codes, imported during the previous fiscal year;

(2) the enforcement activities and priorities of the National Marine Fisheries Service with respect to implementing the requirements under the Seafood Import Monitoring Program;

(3) the percentage of import shipments subject to this program selected for inspection or the information or records supporting entry selected for audit, as described in section 300.324(d) of title 50, Code of Federal Regulations;

(4) the number and types of instances of non-compliance with the requirements of the Seafood Import Monitoring Program;

(5) the number and types of instances of violations of State or Federal law discovered through the Seafood Import Monitoring Program;

(6) the seafood species with respect to which violations described in paragraphs (4) and (5) were most prevalent;

(7) the location of catch or harvest with respect to which violations described in paragraphs (4) and (5) were most prevalent; and

(8) such other information as the Secretary considers appropriate with respect to monitoring and enforcing compliance with the Seafood Import Monitoring Program.

SEC. 70119. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Commissioner of U.S. Customs and Border Protection to carry out enforcement actions pursuant to section 307 of the Tariff Act \$20,000,000 for each of fiscal years 2022 through 2026.

Subtitle B—Strengthening International Fisheries Management to Combat Human Trafficking

SEC. 70121. DENIAL OF PORT PRIVILEGES.

Section 101(a)(2) of the High Seas Driftnet Fisheries Enforcement Act (16 U.S.C. 1826a(a)(2)) is amended to read as follows:

“(2) DENIAL OF PORT PRIVILEGES.—The Secretary of Homeland Security shall, in accordance with international law—

“(A) withhold or revoke the clearance required by section 60105 of title 46, United States Code, for any large-scale driftnet fishing vessels of a nation that receives a negative certification under sections 609(d) or 610(c) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j(d) or 1826k(c)), or fishing vessels of a nation that has been listed pursuant to sections 609(b) or 610(a) of such Act (16 U.S.C. 1826j(b) or 1826k(a)) in 2 or more consecutive reports as described under section 607 of such Act (16 U.S.C. 1826h), until a positive certification has been received;

“(B) withhold or revoke the clearance required by section 60105 of title 46, United States

Code, for fishing vessels of a nation that has been listed pursuant to sections 609(b) or 610(a) of such Act (16 U.S.C. 1826j(b) or 1826k(a)) in 2 or more consecutive reports as described under section 607 of such Act (16 U.S.C. 1826h); and

“(C) deny entry of that vessel to any place in the United States and to the navigable waters of the United States, except for the purposes of inspecting such vessel, conducting an investigation, or taking other appropriate enforcement action.”.

SEC. 70122. IDENTIFICATION AND CERTIFICATION CRITERIA.

(a) DENIAL OF PORT PRIVILEGES.—Section 609 of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j) is amended—

(1) by striking subsections (a) and (b); and

(2) by inserting before subsection (c) the following:

“(a) COOPERATION WITH GOVERNMENTS.—

“(1) INFORMATION COLLECTION.—The Secretary, in consultation with the Secretary of State, shall engage with each flag, coastal, port, and market nation that exports seafood to the United States to collect information sufficient to evaluate the effectiveness of such nation's management of fisheries and control systems to prevent illegal, unreported, or unregulated fishing.

“(2) RECOMMENDATIONS.—The Secretary, in consultation with the Secretary of State, shall provide recommendations to such nations to resolve compliance gaps and improve fisheries management and control systems in order to assist such nations in preventing illegal, unreported, or unregulated fishing.

“(b) IDENTIFICATION AND WARNING.—

“(1) FOR ACTIONS OF A FISHING VESSEL.—The Secretary shall identify and list in the report required by section 607 a nation if a fishing vessel of such nation is engaged or has, in the preceding 3 years, engaged in illegal, unreported, or unregulated fishing. The Secretary shall include all nations that qualify for identification, regardless of whether the Secretary has engaged in the process described in this subsection or under subsection (a). Any of the following relevant information is sufficient to form the basis of an identification:

“(A) Compliance reports.

“(B) Data or information from international fishery management organizations, a foreign government, or an organization or stakeholder group.

“(C) Information submitted by the public.

“(D) Information submitted to the Secretary under section 402(a) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1881a(a)).

“(E) Import data collected by the Secretary pursuant to part 300.324 of title 50, Code of Federal Regulations.

“(F) Information compiled from a Federal agency, including, the Coast Guard and agencies within the Interagency Working Group on Illegal, Unreported, and Unregulated Fishing.

“(2) FOR ACTIONS OF A NATION.—The Secretary shall identify, and list in such report, a nation engaging in or endorsing illegal, unreported, or unregulated fishing, including the following:

“(A) Any nation that is failing, or has failed in the preceding 3-year period, to cooperate with the United States Government in providing information about such nation's fisheries management and control systems described in subsection (a).

“(B) Any nation that is violating, or has violated at any point during the preceding 3 years, conservation and management measures, including catch and other data reporting obligations and requirements, required under an international fishery management agreement.

“(C) Any nation that is failing, or has failed in the preceding 3-year period, to effectively address or regulate illegal, unreported, or unregulated fishing within its fleets in any areas where its vessels are fishing.

“(D) Any nation that fails to discharge duties incumbent upon it under international law or

practice as a flag, port, or coastal state to take action to prevent, deter, and eliminate illegal, unreported, or unregulated fishing.

“(E) Any nation that provides subsidies that—

“(i) contribute to illegal, unreported, or unregulated fishing or increased capacity and overfishing at proportionally higher rates than subsidies that promote fishery resource conservation and management; or

“(ii) that otherwise undermine the effectiveness of any international fishery conservation program.

“(F) Any nation that has been identified as having human trafficking, including forced labor, in any part of the seafood supply chain in the most recent Trafficking in Persons Report issued by the Department of State in accordance with the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.).

“(G) Any nation that has been identified as producing seafood-related goods through forced labor or oppressive child labor in the most recent List of Goods Produced by Child Labor or Forced Labor in accordance with the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.).

“(H) Any nation that has been identified as at risk for human trafficking, including forced labor, in their seafood catching and processing industries in the report required in section 3563 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92).

“(3) WARNING.—The Secretary shall issue a warning to each nation identified under this subsection.

“(4) TIMING.—The Secretary shall make an identification under paragraph (1) or (2) at any time that the Secretary has sufficient information to make such identification.”.

(b) ILLEGAL, UNREPORTED, OR UNREGULATED CERTIFICATION DETERMINATION.—Section 609(d) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j(d)) is amended to read as follows:

“(d) IUU CERTIFICATION PROCEDURE.—

“(1) CERTIFICATION DETERMINATION.—

“(A) IN GENERAL.—The Secretary shall establish a procedure for certifying whether a nation identified under subsection (b) has taken appropriate corrective action with respect to the offending activities identified under section (b) that has led to measurable improvements in the reduction of illegal, unreported, or unregulated fishing and any underlying regulatory, policy, or practice failings or gaps that may have contributed to such identification.

“(B) OPPORTUNITY FOR COMMENT.—The Secretary shall ensure that the procedure established under subparagraph (A) provides for notice and an opportunity for comment by the identified nation.

“(C) DETERMINATION.—The Secretary shall, consistent with such procedure, determine and certify to the Congress not later than 90 days after the date on which the Secretary issues a final rule containing the procedure, and biennially thereafter—

“(i) whether the government of each nation identified under subsection (b) has provided documentary evidence that such nation has taken corrective action with respect to such identification; or

“(ii) whether the relevant international fishery management organization has taken corrective action that has ended the illegal, unreported, or unregulated fishing activity by vessels of that nation.

“(2) ALTERNATIVE PROCEDURE.—The Secretary may establish a procedure to authorize, on a shipment-by-shipment, shipper-by-shipper, or other basis the importation of fish or fish products from a fishery within a nation issued a negative certification under paragraph (1) if the Secretary—

“(A) determines the fishery has not engaged in illegal, unreported, or unregulated fishing under an international fishery management agreement to which the United States is a party;

“(B) determines the fishery is not identified by an international fishery management organization as participating in illegal, unreported, or unregulated fishing activities; and

“(C) ensures that any such seafood or seafood products authorized for entry under this section are imported consistent with the reporting and the recordkeeping requirements of Seafood Import Monitoring Program described in part 300.324(b) of title 50, Code of Federal Regulations (or any successor regulation).

“(3) EFFECT OF CERTIFICATION DETERMINATION.—

“(A) EFFECT OF NEGATIVE CERTIFICATION.—The provisions of subsections (a) and (b)(3) and (4) of section 101 of the High Seas Driftnet Fisheries Enforcement Act (16 U.S.C. 1826a(a) and (b)(3) and (4)) shall apply to any nation that, after being identified and warned under subsection (b) has failed to take the appropriate corrective actions for which the Secretary has issued a negative certification under this subsection.

“(B) EFFECT OF POSITIVE CERTIFICATION.—The provisions of subsections (a) and (b)(3) and (4) of section 101 of the High Seas Driftnet Fisheries Enforcement Act (16 U.S.C. 1826a(a) and (b)(3) and (4)) shall not apply to any nation identified under subsection (a) for which the Secretary has issued a positive certification under this subsection.”.

SEC. 70123. ILLEGAL, UNREPORTED, OR UNREGULATED FISHING DEFINED.

(a) DEFINITION OF ILLEGAL, UNREPORTED, OR UNREGULATED FISHING IN THE HIGH SEAS DRIFTNET FISHING MORATORIUM PROTECTION ACT.—Section 609(e) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826j(e)) is amended to read as follows:

“(e) ILLEGAL, UNREPORTED, OR UNREGULATED FISHING DEFINED.—In this title, the term ‘illegal, unreported, or unregulated fishing’ means any activity set out in paragraph 3 of the 2001 Food and Agriculture Organization International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported, and Unregulated Fishing.”.

(b) DEFINITION OF ILLEGAL, UNREPORTED, OR UNREGULATED FISHING IN THE MAGNUSON-STEVENS FISHERY CONSERVATION AND MANAGEMENT ACT.—Section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802) is amended by adding at the end the following:

“(51) The term ‘illegal, unreported, or unregulated fishing’ means any activity set out in paragraph 3 of the 2001 Food and Agriculture Organization International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported, and Unregulated Fishing.”.

(c) RULE OF CONSTRUCTION.—In construing the term ‘illegal, unreported, or unregulated fishing’ for purposes of the High Seas Driftnet Fishing Moratorium Protection Act and the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary shall follow internationally recognized labor rights stated in the International Labour Organization Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998), including—

(1) freedom of association and the effective recognition of the right to collective bargaining;

(2) the elimination of all forms of forced or compulsory labor;

(3) the effective abolition of oppressive child labor, a prohibition on the worst forms of child labor, and other labor protections for children and minors;

(4) the elimination of discrimination in respect of employment and occupation; and

(5) acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health.

SEC. 70124. EQUIVALENT CONSERVATION MEASURES.

(a) IDENTIFICATION.—Section 610(a) of the High Seas Driftnet Fishing Moratorium Protec-

tion Act (16 U.S.C. 1826k(a)) is amended to read as follows:

“(a) IDENTIFICATION.—

“(1) IN GENERAL.—The Secretary shall identify and list in the report under section 607—

“(A) a nation if—

“(i) any fishing vessel of that country is engaged, or has been engaged during the preceding 3 years in fishing activities or practices on the high seas or within the exclusive economic zone of any country, that have resulted in bycatch of a protected living marine resource; and

“(ii) the vessel’s flag state has not adopted, implemented, and enforced a regulatory program governing such fishing designed to end or reduce such bycatch that is comparable to the regulatory program of the United States; and

“(B) a nation if—

“(i) any fishing vessel of that country is engaged, or has engaged during the preceding 3 years, in fishing activities on the high seas or within the exclusive economic zone of another country that target or incidentally catch sharks; and

“(ii) the vessel’s flag state has not adopted, implemented, and enforced a regulatory program to provide for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark, including the tail, before landing the shark in port that is comparable to that of the United States.

“(2) TIMING.—The Secretary shall make an identification under paragraph (1) at any time that the Secretary has sufficient information to make such identification.”.

(b) CONSULTATION AND NEGOTIATION.—Section 610(b) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826k(b)) is amended to read as follows:

“(b) CONSULTATION AND NEGOTIATION.—The Secretary of State, acting in conjunction with the Secretary, shall—

“(1) notify, as soon as possible, the President, nations that have been identified under subsection (a), and other nations whose vessels engage in fishing activities or practices described in subsection (a), about the provisions of this Act;

“(2) initiate discussions as soon as possible with all foreign countries which are engaged in, or a fishing vessel of which has engaged in, fishing activities described in subsection (a), for the purpose of entering into bilateral and multilateral treaties with such countries to protect such species and to address any underlying failings or gaps that may have contributed to identification under this Act;

“(3) seek agreements calling for international restrictions on fishing activities or practices described in subsection (a) through the United Nations, the Food and Agriculture Organization’s Committee on Fisheries, and appropriate international fishery management bodies; and

“(4) initiate the amendment of any existing international treaty for the protection and conservation of such species to which the United States is a party in order to make such treaty consistent with the purposes and policies of this section.”.

(c) CONSERVATION CERTIFICATION PROCEDURE.—Section 610(c) of the High Seas Driftnet Fishing Moratorium Protection Act (16 U.S.C. 1826k(c)) is amended—

(1) in subparagraph (A) of paragraph (1), by striking “, taking into account different conditions.”;

(2) in paragraph (2), by inserting “the public and” after “comment by”;

(3) in paragraph (4)—

(A) in subparagraph (A), by striking “, taking into account different conditions”;

(B) in subparagraph (B), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(C) ensures that any such fish or fish products authorized for entry under this section are imported consistent with the reporting and the

recordkeeping requirements of the Seafood Import Monitoring Program established by part 300.324(b) of title 50, Code of Federal Regulations (or any successor regulations).”; and

(4) in paragraph (5), by striking “(except to the extent that such provisions apply to sport fishing equipment or fish or fish products not caught by the vessels engaged in illegal, unreported, or unregulated fishing)”.

SEC. 70125. REGULATIONS.

Not later than 1 year after the date of enactment of this Act, the Secretary shall promulgate regulations implementing this title.

Subtitle C—Maritime Awareness

SEC. 70131. AUTOMATIC IDENTIFICATION SYSTEM REQUIREMENTS.

(a) REQUIREMENT FOR FISHING VESSELS TO HAVE AUTOMATIC IDENTIFICATION SYSTEMS.—Section 70114(a)(1) of title 46, United States Code, is amended—

(1) by striking “, while operating on the navigable waters of the United States,”

(2) by redesignating subparagraphs (A) through (D) as clauses (i) through (iv);

(3) by inserting before clauses (i) through (iv), as redesignated by paragraph (2), the following:

“(A) While operating on the navigable waters of the United States.”; and

(4) by adding at the end the following:

“(B) A vessel of the United States that is more than 65 feet overall in length, while engaged in fishing, fish processing, or fish tendering operations on the navigable waters of the United States or in the United States exclusive economic zone.”.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of Commerce for fiscal year 2022, \$5,000,000, to remain available until expended, to purchase automatic identification systems for fishing vessels, fish processing vessels, fish tender vessels more than 50 feet in length, as described under this title and the amendments made by this title.

TITLE II—DRIFTNET MODERNIZATION AND BYCATCH REDUCTION

SEC. 70201. DEFINITION.

Section 3(25) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(25)) is amended by inserting “, or with a mesh size of 14 inches or greater,” after “more”.

SEC. 70202. FINDINGS AND POLICY.

(a) FINDINGS.—Section 206(b) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1826(b)) is amended—

(1) in paragraph (6), by striking “and” at the end;

(2) in paragraph (7), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(8) within the exclusive economic zone, large-scale driftnet fishing that deploys nets with large mesh sizes causes significant entanglement and mortality of living marine resources, including myriad protected species, despite limitations on the lengths of such nets.”.

(b) POLICY.—Section 206(c) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1826(c)) is amended—

(1) in paragraph (2), by striking “and” at the end;

(2) in paragraph (3), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(4) prioritize the phase-out of large-scale driftnet fishing in the exclusive economic zone and promote the development and adoption of alternative fishing methods and gear types that minimize the incidental catch of living marine resources.”.

SEC. 70203. TRANSITION PROGRAM.

Section 206 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1826) is amended by adding at the end the following:

“(i) FISHING GEAR TRANSITION PROGRAM.—

“(1) IN GENERAL.—During the 5-year period beginning on the date of enactment of the America COMPETES Act of 2022, the Secretary shall conduct a transition program to facilitate the phase-out of large-scale driftnet fishing and adoption of alternative fishing practices that minimize the incidental catch of living marine resources, and shall award grants to eligible permit holders who participate in the program.

“(2) PERMISSIBLE USES.—Any permit holder receiving a grant under paragraph (1) may use such funds only for the purpose of covering—

“(A) any fee originally associated with a permit authorizing participation in a large-scale driftnet fishery, if such permit is surrendered for permanent revocation, and such permit holder relinquishes any claim associated with the permit;

“(B) a forfeiture of fishing gear associated with a permit described in subparagraph (A); or

“(C) the purchase of alternative gear with minimal incidental catch of living marine resources, if the fishery participant is authorized to continue fishing using such alternative gears.

“(3) CERTIFICATION.—The Secretary shall certify that, with respect to each participant in the program under this subsection, any permit authorizing participation in a large-scale driftnet fishery has been permanently revoked and that no new permits will be issued to authorize such fishing.”.

SEC. 70204. EXCEPTION.

Section 307(1)(M) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)(M)) is amended by inserting before the semicolon the following: “, unless such large-scale driftnet fishing—

“(i) deploys, within the exclusive economic zone, a net with a total length of less than 2½ kilometers and a mesh size of 14 inches or greater; and

“(ii) is conducted not later than 5 years after the date of enactment of the America COMPETES Act of 2022.”.

SEC. 70205. FEES.

(a) IN GENERAL.—The North Pacific Fishery Management Council may recommend, and the Secretary of Commerce may approve, regulations necessary for the collection of fees from charter vessel operators who guide recreational anglers who harvest Pacific halibut in International Pacific Halibut Commission regulatory areas 2C and 3A as those terms are defined in part 300 of title 50, Code of Federal Regulations (or any successor regulations).

(b) USE OF FEES.—Any fees collected under this section shall be available for the purposes of—

(1) financing administrative costs of the Recreational Quota Entity program;

(2) the purchase of halibut quota shares in International Pacific Halibut Commission regulatory areas 2C and 3A by the recreational quota entity authorized in part 679 of title 50, Code of Federal Regulations (or any successor regulations);

(3) halibut conservation and research; and

(4) promotion of the halibut resource by the recreational quota entity authorized in part 679 of title 50, Code of Federal Regulations (or any successor regulations).

(c) LIMITATION ON COLLECTION AND AVAILABILITY.—Fees shall be collected and available pursuant to this section only to the extent and in such amounts as provided in advance in appropriations Acts, subject to subsection (d).

(d) FEE COLLECTED DURING START-UP PERIOD.—Notwithstanding subsection (c), fees may be collected through the date of enactment of an Act making appropriations for the activities authorized under this title through September 30, 2022, and shall be available for obligation and remain available until expended.

TITLE III—MARINE MAMMAL RESEARCH AND RESPONSE

SEC. 70301. DATA COLLECTION AND DISSEMINATION.

Section 402 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421a) is amended—

(1) in subsection (b)—

(A) in paragraph (1)(A), by inserting “or entangled” after “stranded”;

(B) in paragraph (3)—

(i) by striking “strandings,” and inserting “strandings and entanglements, including unusual mortality events,”;

(ii) by inserting “stranding” before “region”; and

(iii) by striking “marine mammals; and” and inserting “marine mammals and entangled marine mammals to allow comparison of the causes of illness and deaths in stranded marine mammals and entangled marine mammals with physical, chemical, and biological environmental parameters; and”; and

(C) in paragraph (4), by striking “analyses, that would allow comparison of the causes of illness and deaths in stranded marine mammals with physical, chemical, and biological environmental parameters.” and inserting “analyses.”; and

(2) by striking subsection (c) and inserting the following:

“(c) INFORMATION REQUIRED TO BE SUBMITTED AND COLLECTED.—

“(1) IN GENERAL.—After each response to a stranding or entanglement event, the Secretary shall collect (including from any staff of the National Oceanic and Atmospheric Administration that respond directly to such an event), and shall require each stranding network participant who responds to that stranding or entanglement to submit to the Administrator of the National Oceanic and Atmospheric Administration—

“(A) data on the stranding event, including NOAA Form 89-864 (OMB #0648-0178), NOAA Form 89-878 (OMB #0648-0178), similar successor forms, or similar information in an appropriate format required by the United States Fish and Wildlife Service for species under its management authority;

“(B) supplemental data to the data described in subparagraph (A), which may include, as available, relevant information about—

“(i) weather and tide conditions;

“(ii) offshore human, predator, or prey activity;

“(iii) morphometrics;

“(iv) behavior;

“(v) health assessments;

“(vi) life history samples; or

“(vii) stomach and intestinal contents; and

“(C) data and results from laboratory analysis of tissues, which may include, as appropriate and available—

“(i) histopathology;

“(ii) toxicology;

“(iii) microbiology;

“(iv) virology; or

“(v) parasitology.

“(2) TIMELINE.—A stranding network participant shall submit—

“(A) the data described in paragraph (1)(A) not later than 30 days after the date of a response to a stranding or entanglement event;

“(B) the compiled data described in paragraph (1)(B) not later than 30 days after the date on which the data is available to the stranding network participant; and

“(C) the compiled data described in paragraph (1)(C) not later than 30 days after the date on which the laboratory analysis has been reported to the stranding network participant.

“(d) AVAILABILITY OF DATA.—

“(1) IN GENERAL.—The Secretary shall develop a program to make information, including any data and metadata collected under paragraphs (3) or (4) of subsection (b) or subsection (c), available to researchers, stranding network participants, and the public—

“(A) to improve real-time coordination of response to stranding and entanglement events across geographic areas and between stranding coordinators;

“(B) to identify and quickly disseminate information on potential public health risks;

“(C) to facilitate integrated interdisciplinary research;

“(D) to facilitate peer-reviewed publications;

“(E) to archive regional data into 1 national database for future analyses; and

“(F) for education and outreach activities.

“(2) **ACCESS TO DATA.**—The Secretary shall ensure that any data or metadata collected under subsection (c)—

“(A) by staff of the National Oceanic and Atmospheric Administration that responded directly to a stranding or entanglement event is available to the public through the Health MAP and the Observation System not later than 30 days after that data or metadata is collected by, available to, or reported to the Secretary; and

“(B) by a stranding network participant that responded directly to a stranding or entanglement event is made available to the public through the Health MAP and the Observation System not later than 2 years after the date on which that data is submitted to the Secretary under subsection (c).

“(3) **EXCEPTIONS.**—

“(A) **WRITTEN RELEASE.**—Notwithstanding paragraph (2)(B), the Secretary may make data described in paragraph (2)(B) publicly available earlier than 2 years after the date on which that data is submitted to the Secretary under subsection (c), if the stranding network participant has completed a written release stating that such data may be made publicly available.

“(B) **LAW ENFORCEMENT.**—Notwithstanding paragraph (2), the Secretary may withhold data for a longer period than the period of time described in paragraph (2) in the event of a law enforcement action or legal action that may be related to that data.

“(e) **STANDARDS.**—The Secretary, in consultation with the marine mammal stranding community, shall—

“(1) make publicly available guidance about uniform data and metadata standards to ensure that data collected in accordance with this section can be archived in a form that is readily accessible and understandable to the public through the Health MAP and the Observation System; and

“(2) periodically update such guidance.

“(f) **MANAGEMENT POLICY.**—In collaboration with the regional stranding networks, the Secretary shall develop, and periodically update, a data management and public outreach collaboration policy for stranding or entanglement events.”.

SEC. 70302. STRANDING OR ENTANGLEMENT RESPONSE AGREEMENTS.

(a) **IN GENERAL.**—Section 403 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421b) is amended—

(1) in the section heading by inserting “**OR ENTANGLEMENT**” before “**RESPONSE**”;

(2) in subsection (a), by striking the period at the end and inserting “or entanglement.”; and

(3) in subsection (b)—

(A) in paragraph (1), by striking “and” after the semicolon;

(B) in paragraph (2), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(3) include a description of the data management and public outreach policy established under section 402(f).”.

(b) **TABLE OF CONTENTS AMENDMENT.**—The table of contents in the first section of the Marine Mammal Protection Act of 1972 (Public Law 92–522; 86 Stat. 1027) is amended by striking the item related to section 403 and inserting the following:

“Sec. 403. Stranding or entanglement response agreements.”.

SEC. 70303. UNUSUAL MORTALITY EVENT ACTIVITY FUNDING.

Section 405 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421d) is amended—

(1) by striking subsection (b) and inserting the following:

“(b) **USES.**—Amounts in the Fund—

“(1) shall be available only for use by the Secretary, in consultation with the Secretary of the Interior, and dispersed among claimants based on budgets approved by the Secretary prior to expenditure—

“(A) to make advance, partial, or progress payments under contracts or other funding mechanisms for property, supplies, salaries, services, and travel costs incurred in acting in accordance with the contingency plan issued under section 404(b) or under the direction of an Onsite Coordinator for an unusual mortality event designated under section 404(a)(2)(B)(iii);

“(B) for reimbursing any stranding network participant for costs incurred in the collection, preparation, analysis, and transportation of marine mammal tissues and samples collected with respect to an unusual mortality event for the Tissue Bank; and

“(C) for the care and maintenance of a marine mammal seized under section 104(c)(2)(D); and

“(2) shall remain available until expended.”; and

(2) in subsection (c)—

(A) in paragraph (2), by striking “and” at the end;

(B) in paragraph (3), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

“(4) not more than \$250,000 per year, as determined by the Secretary of Commerce, from sums collected as fines, penalties, or forfeitures of property by the Secretary of Commerce for violations of any provision of this Act; and

“(5) sums received from emergency declaration grants for marine mammal conservation.”.

SEC. 70304. LIABILITY.

Section 406(a) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421e(a)) is amended, in the matter preceding paragraph (1)—

(1) by inserting “or entanglement” after “to a stranding”; and

(2) by striking “government” and inserting “Government”.

SEC. 70305. NATIONAL MARINE MAMMAL TISSUE BANK AND TISSUE ANALYSIS.

Section 407 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421f) is amended—

(1) in subsection (c)(2)(A), by striking “the health of marine mammals and” and inserting “marine mammal health and mortality and the health of”; and

(2) in subsection (d), in the matter preceding paragraph (1), by inserting “public” before “access”.

SEC. 70306. MARINE MAMMAL RESCUE AND RESPONSE GRANT PROGRAM AND RAPID RESPONSE FUND.

(a) **IN GENERAL.**—Section 408 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421f–1) is amended—

(1) by striking the section heading and inserting “**MARINE MAMMAL RESCUE AND RESPONSE GRANT PROGRAM AND RAPID RESPONSE FUND**”;

(2) by striking subsections (a) through (d) and subsections (f) through (h);

(3) by redesignating subsection (e) as subsection (f); and

(4) by inserting before subsection (f), as redesignated by paragraph (3), the following:

“(a) **DEFINITIONS.**—In this section:

“(1) **EMERGENCY ASSISTANCE.**—

“(A) **IN GENERAL.**—The term ‘emergency assistance’ means—

“(i) financial assistance provided to respond to, or that results from, a stranding event or entanglement event that—

“(I) causes an immediate increase in the cost of a response, recovery, or rehabilitation that is greater than the usual cost of a response, recovery, or rehabilitation;

“(II) is cyclical or endemic; or

“(III) involves a marine mammal that is out of the normal range for that marine mammal; or

“(ii) financial assistance provided to respond to, or that results from, a stranding event or an entanglement event that the appropriate Secretary or State or Tribal government considers to be an emergency.

“(B) **EXCLUSIONS.**—The term ‘emergency assistance’ does not include financial assistance to respond to an unusual mortality event.

“(2) **SECRETARY.**—The term ‘Secretary’ has the meaning given that term in section 3(12)(A).

“(3) **STRANDING REGION.**—The term ‘stranding region’ means a geographic region designated by the applicable Secretary for purposes of administration of this title.

“(b) **JOHN H. PRESCOTT MARINE MAMMAL RESCUE AND RESPONSE GRANT PROGRAM.**—

“(1) **IN GENERAL.**—Subject to the availability of appropriations or other funding, the applicable Secretary shall carry out a grant program, to be known as the ‘John H. Prescott Marine Mammal Rescue and Response Grant Program’ (referred to in this section as the ‘grant program’), to award grants to eligible stranding network participants or stranding network collaborators, as described in this subsection.

“(2) **PURPOSES.**—The purposes of the grant program are to provide for—

“(A) the recovery, care, or treatment of sick, injured, or entangled marine mammals;

“(B) responses to marine mammal stranding events that require emergency assistance;

“(C) the collection of data and samples from living or dead stranded marine mammals for scientific research or assessments regarding marine mammal health;

“(D) facility operating costs that are directly related to activities described in subparagraph (A), (B), or (C); and

“(E) development of stranding network capacity, including training for emergency response, where facilities do not exist or are sparse.

“(3) **CONTRACT, GRANT, AND COOPERATIVE AGREEMENT AUTHORITY.**—

“(A) **IN GENERAL.**—The applicable Secretary may enter into a contract, grant, or cooperative agreement with any eligible stranding network participant or stranding network collaborator, as the Secretary determines to be appropriate, for the purposes described in paragraph (2).

“(B) **EMERGENCY AWARD FLEXIBILITY.**—Following a request for emergency award flexibility and analysis of the merits of and necessity for such a request, the applicable Secretary may—

“(i) amend any contract, grant, or cooperative agreement entered into under this paragraph, including provisions concerning the period of performance; or

“(ii) waive the requirements under subsection (f) for grant applications submitted during the provision of emergency assistance.

“(4) **EQUITABLE DISTRIBUTION OF FUNDS.**—

“(A) **IN GENERAL.**—The Secretary shall ensure, to the extent practicable, that funds awarded under the grant program are distributed equitably among the stranding regions.

“(B) **CONSIDERATIONS.**—In determining priorities among the stranding regions under this paragraph, the Secretary may consider—

“(i) equitable distribution within the stranding regions, including the subregions (including the Gulf of Mexico);

“(ii) any episodic stranding, entanglement, or mortality events, except for unusual mortality events, that occurred in any stranding region in the preceding year;

“(iii) any data with respect to average annual stranding, entanglements, and mortality events per stranding region;

“(iv) the size of the marine mammal populations inhabiting a stranding region;

“(v) the importance of the region’s marine mammal populations to the well-being of indigenous communities; and

“(vi) the conservation of protected, depleted, threatened, or endangered marine mammal species.

“(C) STRANDINGS.—For the purposes of the grant program, priority is to be given to applications focusing on marine mammal strandings.

“(5) APPLICATION.—To be eligible for a grant under the grant program, a stranding network participant shall—

“(A) submit an application in such form and manner as the applicable Secretary prescribes; and

“(B) be in compliance with the data reporting requirements under section 402(d) and any applicable reporting requirements of the United States Fish and Wildlife Service for species under its management jurisdiction.

“(6) GRANT CRITERIA.—The Secretary shall, in consultation with the Marine Mammal Commission, a representative from each of the stranding regions, and other individuals who represent public and private organizations that are actively involved in rescue, rehabilitation, release, scientific research, marine conservation, and forensic science with respect to stranded marine mammals under that Department’s jurisdiction, develop criteria for awarding grants under their respective grant programs.

“(7) LIMITATIONS.—

“(A) MAXIMUM GRANT AMOUNT.—No grant made under the grant program for a single award may exceed \$150,000 in any 12-month period.

“(B) UNEXPENDED FUNDS.—Any funds that have been awarded under the grant program but that are unexpended at the end of the 12-month period described in subparagraph (A) shall remain available until expended.

“(8) ADMINISTRATIVE COSTS AND EXPENSES.—The Secretary’s administrative costs and expenses related to reviewing and awarding grants under the grant program, in any fiscal year may not exceed the greater of—

“(A) 6 percent of the amounts made available each fiscal year to carry out the grant program; or

“(B) \$80,000.

“(9) TRANSPARENCY.—The Secretary shall make publicly available a list of grant proposals for the upcoming fiscal year, funded grants, and requests for grant flexibility under this subsection.

“(c) JOSEPH R. GERACI MARINE MAMMAL RESCUE AND RAPID RESPONSE FUND.—

“(1) IN GENERAL.—There is established in the Treasury of the United States an interest-bearing fund, to be known as the ‘Joseph R. Geraci Marine Mammal Rescue and Rapid Response Fund’ (referred to in this section as the ‘Rapid Response Fund’).

“(2) USE OF FUNDS.—Amounts in the Rapid Response Fund shall be available only for use by the Secretary to provide emergency assistance.

“(d) AUTHORIZATION OF APPROPRIATIONS.—

“(1) IN GENERAL.—

“(A) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the grant program \$7,000,000 for each of fiscal years 2021 through 2026, to remain available until expended, of which for each fiscal year—

“(i) \$6,000,000 is authorized to be appropriated to the Secretary of Commerce; and

“(ii) \$1,000,000 is authorized to be appropriated to the Secretary of the Interior.

“(B) DERIVATION OF FUNDS.—Funds to carry out the activities under this section shall be derived from amounts authorized to be appropriated pursuant to subparagraph (A) that are enacted after the date of enactment of the America COMPETES Act of 2022.

“(2) JOSEPH R. GERACI MARINE MAMMAL RESCUE AND RAPID RESPONSE FUND.—There is authorized to be appropriated to the Rapid Response Fund \$500,000 for each of fiscal years 2022 through 2026.

“(e) ACCEPTANCE OF DONATIONS.—For the purposes of carrying out this section, the Secretary may solicit, accept, hold, administer, and use gifts, devises, and bequests without any further approval or administrative action.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents in the first section of the Marine Mammal Protection Act of 1972 (Public Law 92-522) is further amended by striking the item related to section 408 and inserting the following:

“Sec. 408. Marine Mammal Rescue and Response Grant Program and Rapid Response Fund.”.

SEC. 70307. HEALTH MAP.

(a) IN GENERAL.—Title IV of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421 et seq.) is amended by inserting after section 408 the following:

“SEC. 408A. MARINE MAMMAL HEALTH MONITORING AND ANALYSIS PLATFORM (HEALTH MAP).

“(a) IN GENERAL.—Not later than 1 year after the date of enactment of the America COMPETES Act of 2022, the Secretary, acting through the Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Secretary of the Interior and the Marine Mammal Commission, shall—

“(1) establish a marine mammal health monitoring and analysis platform (referred to in this Act as the ‘Health MAP’);

“(2) incorporate the Health MAP into the Observation System; and

“(3) make the Health MAP—

“(A) publicly accessible through the web portal of the Observation System; and

“(B) interoperable with other national data systems or other data systems for management or research purposes, as practicable.

“(b) PURPOSES.—The purposes of the Health MAP are—

“(1) to promote—

“(A) interdisciplinary research among individuals with knowledge and experience in marine mammal science, marine mammal veterinary and husbandry practices, medical science, and oceanography, and with other marine scientists;

“(B) timely and sustained dissemination and availability of marine mammal health, stranding, entanglement, and mortality data;

“(C) identification of spatial and temporal patterns of marine mammal mortality, disease, and stranding;

“(D) evaluation of marine mammal health in terms of mortality, as well as sublethal marine mammal health impacts;

“(E) improved collaboration and forecasting of marine mammal and larger ecosystem health events;

“(F) rapid communication and dissemination of information regarding marine mammal strandings that may have implications for human health, such as those caused by harmful algal blooms; and

“(G) increased accessibility of data in a user friendly visual interface for public education and outreach; and

“(2) to contribute to an ocean health index that incorporates marine mammal health data.

“(c) REQUIREMENTS.—The Health MAP shall—

“(1) integrate in situ, remote, and other marine mammal health, stranding, and mortality data, including visualizations and metadata, collected by marine mammal stranding networks, Federal, State, local, territorial and Tribal governments, private partners, and academia; and

“(2) be designed—

“(A) to enhance data and information availability, including data sharing among stranding network participants, scientists, and the public within and across stranding network regions;

“(B) to facilitate data and information access across scientific disciplines, scientists, and managers;

“(C) to facilitate public access to national and regional marine mammal health, stranding, entanglement, and mortality data, including visualizations and metadata, through the national and regional data portals of the Observation System; and

“(D) in collaboration with, and with input from, States and stranding network participants.

“(d) PROCEDURES AND GUIDELINES.—The Secretary shall establish and implement policies, protocols, and standards for—

“(1) reporting marine mammal health data collected by stranding networks consistent with subsections (c) and (d) of section 402;

“(2) promptly transmitting health data from the stranding networks and other appropriate data providers to the Health MAP;

“(3) disseminating and making publicly available data on marine mammal health, stranding, entanglement, and mortality data in a timely and sustained manner; and

“(4) integrating additional marine mammal health, stranding, or other relevant data as the Secretary determines appropriate.

“(e) CONSULTATION.—The Administrator of the National Oceanic and Atmospheric Administration shall maintain and update the Health MAP in consultation with the Secretary of the Interior and the Marine Mammal Commission.

“(f) CONTRIBUTIONS.—For purposes of carrying out this section, the Secretary may solicit, accept, receive, hold, administer, and use gifts, devises, and bequests without any further approval or administrative action.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents in the first section of the Marine Mammal Protection Act of 1972 (Public Law 92-522) is further amended by inserting after the item related to section 408 the following:

“Sec. 408A. Marine Mammal Health Monitoring and Analysis Platform (Health MAP).”.

SEC. 70308. REPORTS TO CONGRESS.

(a) IN GENERAL.—Title IV of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421 et seq.) is further amended by inserting after section 408A the following:

“SEC. 408B. REPORTS TO CONGRESS.

“(a) DEFINITION OF APPROPRIATE COMMITTEES OF CONGRESS.—In this section, the term ‘appropriate committees of Congress’ means—

“(1) the Committee on Commerce, Science, and Transportation of the Senate; and

“(2) the Committee on Natural Resources of the House of Representatives.

“(b) HEALTH MAP STATUS REPORT.—

“(1) IN GENERAL.—Not later than 2 year after the date of enactment of the America COMPETES Act of 2022, the Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Marine Mammal Commission, the Secretary of the Interior, and the National Ocean Research Leadership Council, shall submit to the appropriate committees of Congress a report describing the status of the Health MAP.

“(2) REQUIREMENTS.—The report under paragraph (1) shall include—

“(A) a detailed evaluation of the data made publicly available through the Health MAP;

“(B) a detailed list of any gaps in data collected pursuant to the Health MAP, a description of the reasons for those gaps, and recommended actions to close those gaps;

“(C) an analysis of the effectiveness of using the website of the Observation System as the platform to collect, organize, visualize, archive, and disseminate marine mammal stranding and health data;

“(D) a list of publications, presentations, or other relevant work product resulting from, or produced in collaboration with, the Health MAP;

“(E) a description of emerging marine mammal health concerns and the applicability of those concerns to human health;

“(F) an analysis of the feasibility of the Observation System being used as an alert system during stranding events, entanglement events, and unusual mortality events for the stranding network, Observation System partners, Health MAP partners, Federal and State agencies, and local, territorial, and Tribal governments;

“(G) an evaluation of the use of Health MAP data to predict broader ecosystem events and changes that may impact marine mammal or human health and specific examples of proven or potential uses of Observation System data for those purposes; and

“(H) recommendations for the Health MAP with respect to—

“(i) filling any identified data gaps;

“(ii) standards that could be used to improve data quality, accessibility, transmission, interoperability, and sharing;

“(iii) any other strategies that would contribute to the effectiveness and usefulness of the Health MAP; and

“(iv) the funding levels needed to maintain and improve the Health MAP.

“(c) DATA GAP ANALYSIS.—

“(1) IN GENERAL.—Not later than 5 years after the date on which the report required under subsection (b)(1) is submitted, and every 10 years thereafter, the Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Marine Mammal Commission and the Secretary of Commerce, shall—

“(A) make publicly available a report on the data gap analysis described in paragraph (2); and

“(B) provide a briefing to the appropriate committees of Congress concerning that data gap analysis.

“(2) REQUIREMENTS.—The data gap analysis under paragraph (1) shall include—

“(A) an overview of existing participants within a marine mammal stranding network;

“(B) an identification of coverage needs and participant gaps within a network;

“(C) an identification of data and reporting gaps from members of a network; and

“(D) an analysis of how stranding and health data are shared and made available to scientists, academics, State, local, territorial, and Tribal governments, and the public.

“(d) MARINE MAMMAL RESPONSE CAPABILITIES IN THE ARCTIC.—

“(1) IN GENERAL.—Not later than 1 year after the date of enactment of the America COMPETES Act of 2022, the Administrator of the National Oceanic and Atmospheric Administration, the Director of the United States Fish and Wildlife Service, and the Director of the United States Geologic Survey, in consultation with the Marine Mammal Commission and the Secretary of the Interior, shall—

“(A) make publicly available a report describing the response capabilities for sick and injured marine mammals in the Arctic regions of the United States; and

“(B) provide a briefing to the appropriate committees of Congress on that report.

“(2) ARCTIC.—The term ‘Arctic’ has the meaning given the term in section 112 of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4111).

“(3) REQUIREMENTS.—The report under paragraph (1) shall include—

“(A) a description, developed in consultation with the Director of the United States Fish and Wildlife Service, of all marine mammal stranding agreements in place for the Arctic region of the United States, including species covered, response capabilities, facilities and equipment, and data collection and analysis capabilities;

“(B) a list of State and local government agencies that have personnel trained to respond to marine mammal strandings in the Arctic region of the United States;

“(C) an assessment of potential response and data collection partners and sources of local information and knowledge, including Alaska Native people and villages;

“(D) an analysis of spatial and temporal trends in marine mammal strandings and unusual mortality events that are correlated with changing environmental conditions in the Arctic region of the United States;

“(E) a description of training and other resource needs to meet emerging response requirements in the Arctic region of the United States;

“(F) an analysis of oiled marine mammal response and rehabilitation capabilities in the Arctic region of the United States, including personnel, equipment, facilities, training, and husbandry capabilities, and an assessment of factors that affect response and rehabilitation success rates; and

“(G) recommendations to address future stranding response needs for marine mammals in the Arctic region of the United States.”

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents in the first section of the Marine Mammal Protection Act of 1972 (Public Law 92–522) is further amended by inserting after the item related to section 408A the following:

“Sec. 408B. Reports to Congress.”

SEC. 70309. AUTHORIZATION OF APPROPRIATIONS.

Section 409 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421g) is amended—

(1) in paragraph (1), by striking “1993 and 1994;” and inserting “2022 through 2026;”; and

(2) in paragraph (2), by striking “1993 and 1994;” and inserting “2022 through 2026;”; and

(3) in paragraph (3), by striking “fiscal year 1993.” and inserting “for each of fiscal years 2022 through 2026.”

SEC. 70310. DEFINITIONS.

Section 410 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1421h) is amended—

(1) by redesignating paragraphs (1) through (6) as paragraphs (2), (5), (6), (7), (8), and (9), respectively;

(2) by inserting before paragraph (2) (as so redesignated) the following:

“(1) The term ‘entangle’ or ‘entanglement’ means an event in the wild in which a living or dead marine mammal has gear, rope, line, net, or other material wrapped around or attached to the marine mammal and is—

“(A) on lands under the jurisdiction of the United States, including beaches and shorelines; or

“(B) in waters under the jurisdiction of the United States, including any navigable waters.”;

(3) in paragraph (2) (as so redesignated) by striking “The term” and inserting “Except as used in section 408, the term”; and

(4) by inserting after paragraph (2) (as so redesignated) the following:

“(3) The term ‘Health MAP’ means the Marine Mammal Health Monitoring and Analysis Platform established under section 408A(a)(1).

“(4) The term ‘Observation System’ means the National Integrated Coastal and Ocean Observation System established under section 12304 of the Integrated Coastal and Ocean Observation System Act of 2009 (33 U.S.C. 3603).”

SEC. 70311. STUDY ON MARINE MAMMAL MORTALITY.

(a) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Undersecretary of Commerce for Oceans and Atmosphere shall, in consultation with the Secretary of the Interior and the Marine Mammal Commission, conduct a study evaluating the connections among marine heat waves, frequency and intensity of harmful algal blooms, prey availability, and habitat degradation, and the impacts of these conditions on marine mammal mortality.

(b) REPORT.—The Undersecretary of Commerce for Oceans and Atmosphere, in consultation with the Secretary of the Interior and the Marine Mammal Commission, shall prepare, post to a publicly available website, and brief the appropriate committees of Congress on, a report containing the results of the study described in subsection (a). The report shall identify priority research activities, opportunities for collaboration, and current gaps in effort and resource limitations related to advancing scientific understanding of how ocean heat waves, harmful algae blooms, availability of prey, and habitat degradation impact marine mammal mortality. The report shall include recommenda-

tions for policies needed to mitigate and respond to mortality events.

TITLE IV—REAUTHORIZATION OF CORAL REEF CONSERVATION ACT OF 2000

SEC. 70401. REAUTHORIZATION OF CORAL REEF CONSERVATION ACT OF 2000.

(a) PURPOSES; FEDERAL CORAL REEF MANAGEMENT AND RESTORATION ACTIVITIES.—The Coral Reef Conservation Act of 2000 (16 U.S.C. 6401 et seq.) is amended by striking sections 202 and 203 and inserting the following:

“SEC. 202. PURPOSES.

“The purposes of this title are—

“(1) to conserve and restore the condition of United States coral reef ecosystems challenged by natural and human-accelerated changes, including increasing ocean temperatures, ocean acidification, coral bleaching, coral diseases, water quality degradation, invasive species, and illegal, unreported, and unregulated fishing;

“(2) to promote the science-based management and sustainable use of coral reef ecosystems to benefit local communities and the Nation, including through improved integration and cooperation among Federal, State, and locally managed jurisdictions with coral reef equities;

“(3) to develop sound scientific information on the condition of coral reef ecosystems, continuing and emerging threats to such ecosystems, and the efficacy of innovative tools, technologies, and strategies to mitigate stressors and restore such ecosystems, including evaluation criteria to determine the effectiveness of management interventions, and accurate mapping for coral reef restoration;

“(4) to assist in the preservation of coral reefs by supporting science-based, consensus-driven State, Tribal, Pacific Islander, territorial, and community-based coral reef management, including monitoring, conservation, and restoration projects that empower local communities, small businesses, and nongovernmental organizations;

“(5) to provide financial resources, technical assistance, and scientific expertise to supplement and strengthen State, Tribal, Indigenous, and community-based management programs and conservation and restoration projects;

“(6) to establish a formal mechanism for collecting and allocating monetary donations from the private sector to be used for coral reef conservation and restoration projects;

“(7) to support the rapid and effective, science-based assessment and response to emergencies that imminently threaten coral reefs, such as coral disease outbreaks, invasive species, hurricanes, marine heat waves, coral bleaching, and other natural disasters, vessel groundings or chemical spills, and other exigent circumstances; and

“(8) to serve as a model for advancing similar international efforts to monitor, conserve, and restore coral reef ecosystems in the jurisdictions of United States allies and trading partners.

“SEC. 203. FEDERAL CORAL REEF MANAGEMENT AND RESTORATION ACTIVITIES.

“(a) IN GENERAL.—The Administrator or the Secretary of the Interior may conduct activities described in subsection (b) to conserve and restore coral reefs and coral reef ecosystems that are consistent with—

“(1) all applicable laws governing resource management in Federal and State waters, including this Act;

“(2) the national coral reef resilience strategy in effect under section 204A;

“(3) coral reef action plans in effect under section 205, as applicable; and

“(4) coral reef emergency plans in effect under section 209, as applicable.

“(b) ACTIVITIES DESCRIBED.—Activities described in this subsection are activities to conserve, research, monitor, assess, and restore coral reefs and coral reef ecosystems in waters managed under the jurisdiction of a Federal agency specified in subsection (c) or in coordination with a State in waters managed under the jurisdiction of such State, including—

“(1) developing, including through the collection of requisite data, high-quality and digitized maps reflecting—

“(A) current and historical live coral cover data;

“(B) coral reef habitat quality data;

“(C) priority areas for coral reef conservation to maintain biodiversity and ecosystem structure and function, including the reef matrix itself, that benefit coastal communities and living marine resources;

“(D) priority areas for coral reef restoration to enhance biodiversity and ecosystem structure and function, including the reef matrix itself, to benefit coastal communities and living marine resources; and

“(E) areas of concern that may require enhanced monitoring of coral health and cover;

“(2) enhancing compliance with Federal laws that prohibit or regulate—

“(A) the taking of coral products or species associated with coral reefs; or

“(B) the use and management of coral reef ecosystems;

“(3) long-term ecological monitoring of coral reef ecosystems;

“(4) implementing species-specific recovery plans for listed coral species consistent with the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

“(5) restoring degraded coral reef ecosystems;

“(6) promoting ecologically sound navigation and anchorages, including mooring buoy systems to promote enhanced recreational access, near coral reefs;

“(7) monitoring and responding to severe bleaching or mortality events, disease outbreaks, invasive species outbreaks, and significant maritime accidents, including chemical spill cleanup and the removal of grounded vessels;

“(8) conducting scientific research that contributes to the understanding, sustainable use, and long-term conservation of coral reefs;

“(9) enhancing public awareness, understanding, and appreciation of coral reefs and coral reef ecosystems;

“(10) preventing or minimizing the likelihood of vessel impacts or other physical damage to coral reefs through navigational aids and expansion of reef-safe anchorages; and

“(11) centrally archiving, managing, and distributing data sets and coral reef ecosystem assessments and publishing such information on publicly available internet websites of—

“(A) the Coral Reef Conservation Program of the National Oceanic and Atmospheric Administration; and

“(B) the Task Force.

“(c) **FEDERAL AGENCIES SPECIFIED.**—A Federal agency specified in this subsection is one of the following:

“(1) The National Oceanic and Atmospheric Administration.

“(2) The National Park Service.

“(3) The United States Fish and Wildlife Service.

“(4) The Office of Insular Affairs.”.

(b) **ADDITIONAL PROVISIONS.**—The Coral Reef Conservation Act of 2000 (16 U.S.C. 6401 et seq.) is amended by striking sections 205 through 210 and inserting the following:

“SEC. 204A. NATIONAL CORAL REEF RESILIENCE STRATEGY.

“(a) **IN GENERAL.**—The Administrator shall—

“(1) develop a national coral reef resilience strategy; and

“(2) periodically, but not less frequently than every 15 years, review and revise the strategy.

“(b) **ELEMENTS.**—The strategy required by subsection (a) shall include the following:

“(1) A discussion addressing—

“(A) continuing and emerging threats to the resilience of United States coral reef ecosystems;

“(B) remaining gaps in coral reef ecosystem research, monitoring, and assessment;

“(C) the status of management cooperation and integration among Federal, State, Tribal, and locally managed jurisdictions with coral reef equities;

“(D) the status of efforts to manage and disseminate critical information, and enhance interjurisdictional data sharing, related to research, reports, datasets, and maps;

“(E) areas of special focus, which may include—

“(i) improving natural coral recruitment;

“(ii) preventing avoidable losses of corals and their habitat;

“(iii) enhancing the resilience of coral populations;

“(iv) supporting a resilience-based management approach;

“(v) developing, coordinating, and implementing watershed management plans;

“(vi) building and sustaining watershed management capacity at the local level;

“(vii) providing data essential for coral reef fisheries management;

“(viii) building capacity for coral reef fisheries management;

“(ix) increasing understanding of coral reef ecosystem services;

“(x) educating the public on the importance of coral reefs, threats to coral reefs, and solutions to such threats; and

“(xi) evaluating intervention efficacy;

“(F) the status of conservation efforts, including the use of marine protected areas to serve as replenishment zones developed consistent with local practices and traditions and in cooperation with, and with respect for the scientific, technical, and management expertise and responsibilities of, State fish and wildlife management agencies; and

“(G) science-based adaptive management and restoration efforts.

“(2) A statement of national goals and objectives designed to guide—

“(A) future Federal coral reef management and restoration activities authorized under section 203;

“(B) conservation and restoration priorities for grants awarded under section 213; and

“(C) research priorities for the cooperative institutes established under section 215(c).

“(3) General templates for use by covered reef managers to guide the development of—

“(A) coral reef action plans under section 205; and

“(B) coral reef emergency plans under section 209.

“(c) **CONSULTATIONS.**—In developing all elements of the strategy required by subsection (a), the Administrator shall—

“(1) consult with the Secretary of the Interior, the Task Force, covered States, and Tribal organizations;

“(2) engage stakeholders, including coral reef stewardship partnerships, coral reef institutes and research centers described in section 215(c), and coral reef conservation grant awardees; and

“(3) solicit public review and comment regarding scoping and the draft strategy.

“(d) **SUBMISSION TO CONGRESS; PUBLICATION.**—The Administrator shall—

“(1) submit the strategy required by subsection (a) and any revisions to the strategy to the appropriate congressional committees; and

“(2) publish the strategy and any such revisions on publicly available internet websites of—

“(A) the Coral Reef Conservation Program of the National Oceanic and Atmospheric Administration; and

“(B) the Task Force.

“(e) **TRANSITION RULE.**—On and after the date of the enactment of the America COMPETES Act of 2022, the 2018 Coral Reef Conservation Program Strategic Plan of the National Oceanic and Atmospheric Administration shall be considered to be the national coral reef resilience strategy in effect under this section until the earlier of—

“(1) September 30, 2033; or

“(2) the date on which the Administrator develops a national coral reef resilience strategy under this section.

“SEC. 205. CORAL REEF ACTION PLANS.

“(a) **CORAL REEF ACTION PLANS.**—Except as provided in subsection (h), not later than 3

years after the date of the enactment of the America COMPETES Act of 2022, and not later than 2 years after the publication of a revised national coral reef resilience strategy under section 204A, each covered reef manager shall prepare and submit to the Task Force a coral reef action plan to guide management and restoration activities to be undertaken within the responsibilities and jurisdiction of the manager.

“(b) **REQUIREMENTS.**—A covered reef manager preparing a coral reef action plan under subsection (a) shall—

“(1) ensure that the plan is consistent with all elements of the national coral reef resilience strategy in effect; and

“(2) revise the plan not less frequently than once every 5 years.

“(c) **PLAN ELEMENTS.**—A coral reef action plan under subsection (a) shall include a discussion of the following elements:

“(1) Short- and mid-term coral reef conservation and restoration objectives within the applicable jurisdiction.

“(2) An updated adaptive management framework to inform research, monitoring, and assessment needs.

“(3) The status of any coral reef emergency plans in effect under section 209 covering coral reef ecosystems within the applicable jurisdiction.

“(4) Tools, strategies, and partnerships necessary to identify, monitor, and redress the impacts of pollution, diminished water quality, temperature fluctuations, acidification, overfishing, disease, and other disturbances to coral reef ecosystems within the applicable jurisdiction.

“(5) The status of efforts to improve coral reef ecosystem management cooperation and integration among neighboring Federal, State, Tribal, or locally managed jurisdictions, including the identification of existing research and monitoring activities that can be leveraged for coral reef status and trends assessments within the applicable jurisdiction.

“(6) An accounting of annual expenditures on coral reef management and restoration activities within the applicable jurisdiction while the preceding action plan, if any, was in effect.

“(7) Estimated budgetary and resource considerations necessary to carry out the proposed action plan.

“(d) **TECHNICAL ASSISTANCE.**—The Administrator and the Task Force shall make all reasonable efforts to provide technical assistance upon request by a covered reef manager developing a coral reef action plan under subsection (a).

“(e) **ADOPTION OF CORAL REEF ACTION PLANS.**—A covered reef manager may adopt a coral reef action plan developed by another covered reef manager, in full or in part, as relevant to the adopting manager's applicable jurisdiction.

“(f) **PUBLIC REVIEW.**—The development of a coral reef action plan by a covered reef manager under subsection (a), and the adoption of a plan under subsection (e), shall be subject to public review and comment.

“(g) **PUBLICATION.**—The Administrator shall publish each coral reef action plan prepared and submitted to the Task Force under this section on publicly available internet websites of—

“(1) the Coral Reef Conservation Program of the National Oceanic and Atmospheric Administration; and

“(2) the Task Force.

“(h) **APPLICABILITY TO COVERED STATES AND CORAL REEF STEWARDSHIP PARTNERSHIPS.**—A covered State or non-Federal coral reef stewardship partnership is not required to develop a coral reef action plan under subsection (a), but may do so in its own discretion. In developing a coral reef action plan, a covered State or non-Federal coral reef stewardship partnership is encouraged, but not mandated, to comply with the requirements of this section.

“(i) **PLAN IN EFFECT.**—A coral reef action plan shall be deemed to be in effect if the plan was

submitted to the Task Force under this section during the preceding 6 years.

“SEC. 206. CORAL REEF STEWARDSHIP PARTNERSHIPS.

“(a) **CORAL REEF STEWARDSHIP PARTNERSHIPS.**—The Administrator shall establish standards for the identification of coral reefs and the formation of partnerships among government and community members for the stewardship of coral reefs (in this title referred to as ‘coral reef stewardship partnerships’) in accordance with this section, including guidance for preparation and submission of coral reef action plans under section 205 for review and approval by the Administrator.

“(b) **IDENTIFICATION OF CORAL REEFS.**—Each coral reef stewardship partnership shall identify with particularity the coral reef or ecologically significant component of a coral reef that will be the subject of its stewardship activities.

“(c) **MEMBERSHIP FOR FEDERAL CORAL REEFS.**—A coral reef stewardship partnership that has identified, as the subject of its stewardship activities, a coral reef or ecologically significant component of a coral reef that is fully or partially under the management jurisdiction of any Federal agency specified in section 203(c) shall, at a minimum, include the following:

“(1) That Federal agency, a representative of which shall serve as chair of the coral reef stewardship partnership.

“(2) A State, county, or Tribal organization’s resource management agency.

“(3) A coral reef research center described in section 215(c)(4) or another institution of higher education.

“(4) A nongovernmental organization.

“(5) Such other members as the partnership considers appropriate, such as interested stakeholder groups.

“(d) **MEMBERSHIP FOR NON-FEDERAL CORAL REEFS.**—

“(1) **IN GENERAL.**—A coral reef stewardship partnership that has identified, as the subject of its stewardship activities, a coral reef or ecologically significant component of a coral reef that is not under the management jurisdiction of any Federal agency specified in section 203(c) shall, at a minimum, include the following:

“(A) A State, county, or Tribal organization’s resource management agency, a representative of which shall serve as the chair of the coral reef stewardship partnership.

“(B) A coral reef research center described in section 215(c)(4) or another institution of higher education.

“(C) A nongovernmental organization.

“(D) Such other members as the partnership considers appropriate, such as interested stakeholder groups.

“(2) **ADDITIONAL MEMBERS.**—

“(A) **IN GENERAL.**—Subject to subparagraph (B), a coral reef stewardship partnership described in paragraph (1) may also include representatives of one or more Federal agencies that have management responsibility in the coral reef that is the subject of the partnership’s stewardship activities.

“(B) **REQUESTS; APPROVAL.**—A representative of a Federal agency described in subparagraph (A) may become a member of a coral reef stewardship partnership described in paragraph (1) if—

“(i) the representative submits a request to become a member to the chair of the partnership referred to in paragraph (1)(A); and

“(ii) the chair consents to the request.

“(e) **NONAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.**—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to coral reef stewardship partnerships.

“SEC. 207. BLOCK GRANTS AND COOPERATIVE AGREEMENTS.

“(a) **IN GENERAL.**—The Administrator shall provide block grants of financial assistance to covered States to support management and restoration activities and further the implementa-

tion of coral reef action plans in effect under section 205 by covered States and non-Federal coral reef stewardship partnerships.

“(b) **ELIGIBILITY FOR ADDITIONAL AMOUNTS.**—

“(1) **IN GENERAL.**—A covered State shall qualify for and receive additional grant amounts beyond the base award specified in subsection (c)(1) if there is at least one coral reef action plan in effect within the jurisdiction of the covered State developed by that covered State or a non-Federal coral reef stewardship partnership.

“(2) **WAIVER.**—In any fiscal year before fiscal year 2025, the Administrator shall waive the requirement to qualify for and receive additional grant amounts described in paragraph (1).

“(c) **FUNDING FORMULA.**—The amount of each block grant awarded to a covered State under this section shall be the sum of—

“(1) a base award of \$100,000; and

“(2) if the State is eligible under subsection (b)—

“(A) an amount that is equal to non-Federal expenditures of up to \$3,000,000 on coral reef management and restoration activities within the jurisdiction of the State during the previous fiscal year, and

“(B) an additional amount, from any funds appropriated for activities under this section that remain after distribution under subparagraph (A), paragraph (1), and subsection (g) based on the proportion of the State’s share of total non-Federal expenditures on coral reef management and restoration activities, as reported within the previous fiscal year, in excess of \$3,000,000, relative to other covered States.

“(d) **EXCLUSIONS.**—For the purposes of calculating block grant amounts under subsection (c), Federal funds provided to a covered State or non-Federal coral reef stewardship partnership shall not be considered as qualifying non-Federal expenditures, but non-Federal matching funds used to leverage Federal awards may be considered as qualifying non-Federal expenditures.

“(e) **RESPONSIBILITIES OF THE ADMINISTRATOR.**—The Administrator is responsible for—

“(1) providing guidance on qualifying non-Federal expenditures and the proper documentation of such expenditures;

“(2) issuing annual solicitations to covered States for additional awards under this section; and

“(3) determining the appropriate allocation of additional amounts among covered States in accordance with this section.

“(f) **RESPONSIBILITIES OF COVERED STATES.**—Each covered State is responsible for documenting non-Federal expenditures within the jurisdiction of the State and formally reporting those expenditures for review in response to annual solicitations by the Administrator under subsection (e).

“(g) **COOPERATIVE AGREEMENTS.**—The Administrator may enter into cooperative agreements with States to fund coral reef conservation and restoration activities in waters managed under the jurisdiction of such States that are consistent with the national coral reef resilience strategy in effect under section 204A.

“SEC. 208. CORAL REEF STEWARDSHIP FUND.

“(a) **AUTHORITY TO ENTER INTO AGREEMENTS.**—The Administrator may enter into an agreement with the National Fish and Wildlife Foundation (in this section referred to as the ‘Foundation’), authorizing the Foundation to receive, hold, and administer funds received under this section.

“(b) **FUND.**—The Foundation shall invest, reinvest, and otherwise administer the funds received under this section and maintain such funds and any interest or revenues earned in a separate interest-bearing account, to be known as the ‘Coral Reef Stewardship Fund’ (in this section referred to as the ‘Fund’, and known before the date of the enactment of the America COMPETES Act of 2022 as the Coral Reef Conservation Fund administered through a public-

private partnership with the Foundation), established by the Foundation solely to support coral reef stewardship partnership activities that—

“(1) further the purposes of this title; and

“(2) are consistent with—

“(A) the national coral reef resilience strategy in effect under section 204A; and

“(B) coral reef action plans in effect, if any, under section 205 covering a coral reef or ecologically significant component of a coral reef to be impacted by such activities, if applicable.

“(c) **AUTHORIZATION TO SOLICIT DONATIONS.**—

“(1) **IN GENERAL.**—Pursuant to an agreement entered into under subsection (a), the Foundation may accept, receive, solicit, hold, administer, and use any gift (including, notwithstanding section 1342 of title 31, United States Code, donations of services) to further the purposes of this title.

“(2) **DEPOSITS IN FUND.**—Notwithstanding section 3302 of title 31, United States Code, any funds received as a gift shall be deposited and maintained in the Fund.

“(3) **NOTIFICATION REQUIRED.**—Not later than 30 days after funds are deposited in the Fund under paragraph (2), the Foundation shall notify the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives of the source and amount of such funds.

“(d) **REVIEW OF PERFORMANCE.**—The Administrator shall conduct a continuing review of all deposits into, and disbursements from, the Fund. Each review shall include a written assessment concerning the extent to which the Foundation has implemented the goals and requirements of—

“(1) this section; and

“(2) the national coral reef resilience strategy in effect under section 204A.

“(e) **ADMINISTRATION.**—Under an agreement entered into pursuant to subsection (a), the Administrator may transfer funds appropriated to carry out this title to the Foundation. Amounts received by the Foundation under this subsection may be used for matching, in whole or in part, contributions (whether in money, services, or property) made to the Foundation by private persons, State or local government agencies, or Tribal organizations.

“SEC. 209. CORAL REEF EMERGENCY PLANS.

“(a) **IN GENERAL.**—A covered reef manager may develop and periodically update a plan (in this title referred to as a ‘coral reef emergency plan’) consistent with the template described in section 204A(b)(3) to guide the rapid and effective response to circumstances that pose an urgent and immediate threat to the coral reef ecosystems within the manager’s responsibilities and jurisdictions, and consistent with any applicable coral reef action plan.

“(b) **CORAL REEF EMERGENCIES.**—The Administrator shall develop a list of, and criteria for, circumstances that pose an urgent and immediate threat to coral reefs (in this title referred to as ‘coral reef emergencies’), including—

“(1) new and ongoing outbreaks of disease;

“(2) new and ongoing outbreaks of invasive or nuisance species;

“(3) new and ongoing coral bleaching events;

“(4) natural disasters;

“(5) man-made disasters, including vessel groundings, hazardous spills, or coastal construction accidents; and

“(6) other exigent circumstances.

“(c) **BEST RESPONSE PRACTICES.**—The Administrator shall develop guidance on best practices to respond to coral reef emergencies that can be adopted within coral reef emergency plans. Such best practices shall be—

“(1) based on the best available science and integrated with evolving innovative technologies; and

“(2) revised not less frequently than once every 5 years.

“(d) **PLAN ELEMENTS.**—A coral reef emergency plan shall include the following elements:

“(1) A description of particular threats, and the proposed responses, consistent with the best practices developed under subsection (d).

“(2) A delineation of roles and responsibilities for executing the plan.

“(3) Evidence of engagement with interested stakeholder groups, as applicable, in the development of the plan.

“(4) Any other information the Administrator considers to be necessary for the plan.

“(e) TECHNICAL ASSISTANCE.—The Administrator and the Task Force shall make all reasonable efforts to provide technical assistance upon request by a covered reef manager developing a coral reef emergency plan under subsection (a).

“(f) ADOPTION OF CORAL REEF EMERGENCY PLANS.—A covered reef manager may adopt a coral reef emergency plan developed by another covered reef manager, in full or in part, as relevant to the adopting manager’s applicable jurisdiction.

“(g) PUBLIC REVIEW.—The development of a coral reef action plan by a covered reef manager under subsection (a), and the adoption of a plan under subsection (f), shall be subject to public review and comment.

“(h) PUBLICATION.—The Administrator shall publish each coral reef emergency plan prepared and submitted to the Task Force under this section on publicly available internet websites of—

“(1) the Coral Reef Conservation Program of the National Oceanic and Atmospheric Administration; and

“(2) the Task Force.

“(i) PLAN IN EFFECT.—A coral reef emergency plan shall be deemed to be in effect if the plan was submitted to the Task Force under this section during the preceding 6 years.

“SEC. 210. CORAL REEF EMERGENCY FUND.

“(a) ESTABLISHMENT OF FUND.—There is established in the Treasury an interest-bearing fund to be known as the ‘Coral Reef Emergency Fund’, consisting of such amounts as are appropriated to the Fund.

“(b) USES.—Amounts in the Fund—

“(1) shall be available only for use by the Administrator to compensate covered coral reef managers to implement a coral reef emergency plan in effect under sections 210 and 212; and

“(2) shall remain available until expended.

“(c) ACCEPTANCE OF DONATIONS.—

“(1) IN GENERAL.—For purposes of carrying out this title, the Administrator may accept, receive, solicit, hold, administer, and use any gift (including, notwithstanding section 1342 of title 31, United States Code, donations of services).

“(2) DEPOSITS IN FUND.—Notwithstanding section 3302 of title 31, United States Code, any funds received as a gift shall be deposited and maintained in the Fund.

“SEC. 211. EMERGENCY ASSISTANCE.

“(a) CORAL REEF EMERGENCY DECLARATIONS.—

“(1) SUA SPONTE DECLARATION.—

“(A) IN GENERAL.—The Administrator may determine and declare a coral reef emergency, including at the recommendation of the Secretary of the Interior.

“(B) REQUIREMENTS.—In declaring a coral reef emergency under subparagraph (A), the Administrator shall—

“(i) certify that an emergency has occurred that is ecologically significant and harmful to coral reefs; and

“(ii) submit to the appropriate congressional committees findings and analysis to justify the declaration.

“(2) PETITIONS.—If a covered State or non-Federal coral reef stewardship partnership believes that a coral reef emergency has occurred, and is impacting coral reefs or ecologically significant components of coral reefs subject to the responsibilities or jurisdiction of the State or partnership, the State or partnership may petition the Administrator for a declaration of a coral reef emergency.

“(3) EVALUATION AND ACTION.—

“(A) IN GENERAL.—Not later than 30 days after receiving a petition under paragraph (2) (except as provided in subparagraph (B)), the Administrator shall—

“(i) evaluate the petition to determine whether a coral reef emergency has occurred; and

“(ii) declare a coral reef emergency or deny the petition.

“(B) EXTENSION.—The Administrator may extend the deadline provided for under subparagraph (A) by not more than 15 days.

“(4) APPEAL.—If the Administrator denies a petition for an emergency declaration submitted under paragraph (2), the State or partnership that submitted the petition may, not later than 15 days after receiving notice of the denial, appeal the denial to the Administrator. Not later than 15 days after receiving an appeal under this paragraph, the Administrator shall grant or deny the appeal.

“(5) REVOCATION.—The Administrator may revoke any declaration of a coral reef emergency in whole or in part after determining that circumstances no longer require an emergency response.

“(6) RECOVERY OF EMERGENCY FUNDING.—The Administrator may seek compensation from negligent parties to recover emergency funds expended in excess of \$500,000 under this section as a result of an emergency declaration arising from direct impacts to coral reefs from man-made disasters or accidents.

“(b) FINANCIAL ASSISTANCE AUTHORITY.—

“(1) IN GENERAL.—Upon the declaration of a coral reef emergency under subsection (a), the Administrator shall provide grants to carry out proposals that meet the requirements of paragraph (2) to implement coral reef emergency plans in effect under section 209.

“(2) REQUIREMENTS.—A proposal for a grant under this subsection to implement a coral reef emergency plan in effect under section 209 shall include—

“(A) the name of the entity submitting the proposal;

“(B) a copy of the coral reef emergency plan;

“(C) a description of the qualifications of the individuals and entities who will implement the plan;

“(D) an estimate of the funds and time required to complete the implementation of the plan; and

“(E) any other information the Administrator considers to be necessary for evaluating the eligibility of the proposal for a grant under this subsection.

“(3) REVIEW.—Not later than 30 days after receiving a proposal for a grant under this subsection, the Administrator shall review the proposal and determine if the proposal meets the requirements of paragraph (2).

“(4) CONCURRENT REVIEW.—An entity seeking a grant under this subsection may submit a proposal under paragraph (2) to the Administrator at any time following the submission of a petition for an emergency declaration under subsection (a)(2) that is applicable to coral reefs or ecologically significant components of coral reefs subject to the responsibilities or jurisdiction of the entity.

“SEC. 212. VESSEL GROUNDING INVENTORY.

“The Administrator, in coordination with the heads of other Federal agencies, shall establish and maintain an inventory of all vessel grounding incidents involving United States coral reefs, including a description of—

“(1) the impacts of each such incident to coral reefs and related natural resources;

“(2) vessel and ownership information relating to each such incident, if available;

“(3) the estimated cost of removal of the vessel, remediation, or restoration relating to each such incident;

“(4) the response actions taken by the owner of the vessel, the Administrator, the Commandant of the Coast Guard, or representatives of other Federal or State agencies;

“(5) the status of the response actions, including the dates of—

“(A) vessel removal;

“(B) remediation or restoration activities, including whether a coral reef emergency plan was implemented; and

“(C) any actions taken to prevent future grounding incidents; and

“(6) recommendations for additional navigational aids or other mechanisms for preventing future grounding incidents.

“SEC. 213. RUTH D. GATES CORAL REEF CONSERVATION GRANT PROGRAM.

“(a) GRANTS.—The Administrator shall establish a program (to be known as the ‘Ruth D. Gates Coral Reef Conservation Grant Program’) to provide grants for projects for the conservation and restoration of coral reef ecosystems (in this section referred to as ‘coral reef projects’) pursuant to proposals approved by the Administrator in accordance with this section.

“(b) ELIGIBILITY.—

“(1) IN GENERAL.—An entity described in paragraph (2) may submit to the Administrator a proposal for a coral reef project.

“(2) ENTITIES DESCRIBED.—An entity described in this paragraph is—

“(A) a natural resource management authority of a State or local government or Tribal organization—

“(i) with responsibility for coral reef management; or

“(ii) the activities of which directly or indirectly affect coral reefs or coral reef ecosystems;

“(B) a regional fishery management council established under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.);

“(C) a coral reef stewardship partnership seeking to implement a coral reef action plan in effect under section 205;

“(D) a coral reef research center designated under section 215(c)(4); or

“(E) another nongovernmental organization or research institution with demonstrated expertise in the conservation or restoration of coral reefs in practice or through significant contributions to the body of existing scientific research on coral reefs.

“(c) PROJECT PROPOSALS.—Each proposal for a grant under this section for a coral reef project shall include the following:

“(1) The name of the individual or entity responsible for conducting the project.

“(2) A description of the qualifications of the individual or entity.

“(3) A succinct statement of the purposes of the project.

“(4) An estimate of the funds and time required to complete the project.

“(5) Evidence of support for the project by appropriate representatives of States or other government jurisdictions in which the project will be conducted.

“(6) Information regarding the source and amount of matching funding available to the applicant.

“(7) A description of how the project meets one or more of the criteria under subsection (e)(2).

“(8) In the case of a proposal submitted by a coral reef stewardship partnership, a description of how the project aligns with the applicable coral reef action plan in effect under section 205.

“(9) Any other information the Administrator considers to be necessary for evaluating the eligibility of the project for a grant under this subsection.

“(d) PROJECT REVIEW AND APPROVAL.—

“(1) IN GENERAL.—The Administrator shall review each coral reef project proposal submitted under this section to determine if the project meets the criteria set forth in subsection (e).

“(2) PRIORITIZATION OF CONSERVATION PROJECTS.—The Administrator shall prioritize the awarding of grants for projects that meet the criteria for approval under subparagraphs

(A) through (G) of subsection (e)(2) that are proposed to be conducted within priority areas identified for coral reef conservation by the Administrator and consistent with the national coral reef resilience strategy in effect under section 204A.

“(3) **PRIORITIZATION OF RESTORATION PROJECTS.**—The Administrator shall prioritize the awarding of grants for projects that meet the criteria for approval under subparagraphs (E) through (L) of subsection (e)(2) that are proposed to be conducted within priority areas identified for coral reef restoration by the Administrator and consistent with the national coral reef resilience strategy in effect under section 204A.

“(4) **REVIEW; APPROVAL OR DISAPPROVAL.**—Not later than 180 days after receiving a proposal for a coral reef project under this section, the Administrator shall—

“(A) request and consider written comments on the proposal from each Federal agency, State government, Tribal organization, or other government jurisdiction, including the relevant regional fishery management councils established under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), or any National Marine Sanctuary or Marine National Monument, with jurisdiction or management authority over coral reef ecosystems in the area where the project is to be conducted, including the extent to which the project is consistent with locally established priorities, unless such entities were directly involved in the development of the project proposal;

“(B) provide for the merit-based peer review of the proposal and require standardized documentation of that peer review;

“(C) after considering any written comments and recommendations based on the reviews under subparagraphs (A) and (B), approve or disapprove the proposal; and

“(D) provide written notification of that approval or disapproval, with summaries of all written comments, recommendations, and peer reviews, to the entity that submitted the proposal, and each of those States, Tribal organizations, and other government jurisdictions that provided comments under subparagraph (A).

“(e) **CRITERIA FOR APPROVAL.**—The Administrator may not approve a proposal for a coral reef project under this section unless the project—

“(I) is consistent with—

“(A) the national coral reef resilience strategy in effect under section 204A; and

“(B) any Federal or non-Federal coral reef action plans in effect under section 205 covering a coral reef or ecologically significant component of a coral reef to be affected by the project; and

“(2) will enhance the conservation and restoration of coral reefs by—

“(A) addressing conflicts arising from the use of environments near coral reefs or from the use of corals, species associated with coral reefs, and coral products, including supporting consensus-driven, community-based planning and management initiatives for the protection of coral reef ecosystems;

“(B) improving compliance with laws that prohibit or regulate the taking of coral products or species associated with coral reefs or regulate the use and management of coral reef ecosystems;

“(C) designing and implementing networks of real-time water quality monitoring along coral reefs, including data collection related to turbidity, nutrient availability, harmful algal blooms, and plankton assemblages, with an emphasis on coral reefs impacted by agriculture and urban development;

“(D) promoting ecologically sound navigation and anchorages, including mooring buoy systems to promote enhanced recreational access, near coral reefs;

“(E) furthering the goals and objectives of coral reef action plans in effect under section

205 and coral reef emergency plans in effect under section 209;

“(F) mapping the location and distribution of coral reefs and potential coral reef habitat;

“(G) stimulating innovation to advance the ability of the United States to understand, research, or monitor coral reef ecosystems, or to develop management or adaptation options to preserve, sustain, and restore coral reef ecosystems;

“(H) implementing research to ensure the population viability of listed coral species in United States waters as detailed in the population-based recovery criteria included in species-specific recovery plans consistent with the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

“(I) developing and implementing cost-effective methods to restore degraded coral reef ecosystems or to create geographically appropriate coral reef ecosystems in suitable waters, including by improving habitat or promoting success of keystone species, with an emphasis on novel restoration strategies and techniques to advance coral reef recovery and growth near population centers threatened by rising sea levels and storm surge;

“(J) translating and applying coral genetics research to coral reef ecosystem restoration, including research related to traits that promote resilience to increasing ocean temperatures, ocean acidification, coral bleaching, coral diseases, and invasive species;

“(K) developing and maintaining in situ native coral propagation sites;

“(L) developing and maintaining ex situ coral propagation nurseries and land-based coral gene banks to—

“(i) conserve or augment genetic diversity of native coral populations;

“(ii) support captive breeding of rare coral species; or

“(iii) enhance resilience of native coral populations to increasing ocean temperatures, ocean acidification, coral bleaching, and coral diseases through selective breeding, conditioning, or other approaches that target genes, gene expression, phenotypic traits, or phenotypic plasticity; or

“(M) maintaining the structure and function of coral reefs, including the reef matrix itself.

“(f) **FUNDING REQUIREMENTS.**—To the extent practicable based upon proposals for coral reef projects submitted to the Administrator, the Administrator shall ensure that funding for grants awarded under this section during a fiscal year is distributed as follows:

“(1) Not less than 40 percent of funds available shall be awarded for projects in the Pacific Ocean within the maritime areas and zones subject to the jurisdiction or control of the United States.

“(2) Not less than 40 percent of the funds available shall be awarded for projects in the Atlantic Ocean, the Gulf of Mexico, or the Caribbean Sea within the maritime areas and zones subject to the jurisdiction or control of the United States.

“(g) **PROJECT REPORTING.**—Each entity receiving a grant under this section shall submit to the Administrator such reports at such times and containing such information for evaluating project performance as the Administrator may require.

“(h) **TASK FORCE.**—The Administrator may consult with the Secretary of the Interior and the Task Force to obtain guidance in establishing priorities and evaluating proposals for coral reef projects under this section.

“SEC. 214. REPORTS ON ADMINISTRATION.

“(a) **IN GENERAL.**—Not later than 2 years after the date of the enactment of the America COMPETES Act of 2022, and every 2 years thereafter, the Administrator shall submit to the committees specified in subsection (b) a report on the administration of this title during the 2-year period preceding submission of the report, including—

“(1) a description of all activities undertaken to implement the most recent national coral reef resilience strategy under section 204A;

“(2) a statement of all funds obligated under the authorities of this title; and

“(3) a summary, disaggregated by State, of Federal and non-Federal contributions toward the costs of each project or activity funded, in full or in part, under the authorities of this title.

“(b) **COMMITTEES SPECIFIED.**—The committees specified in this subsection are—

“(1) the Committee on Commerce, Science, and Transportation and the Committee on Appropriations of the Senate; and

“(2) the Committee on Natural Resources and the Committee on Appropriations of the House of Representatives.

“SEC. 215. AUTHORITY TO ENTER INTO AGREEMENTS.

“(a) **IN GENERAL.**—The Administrator may enter into and perform such contracts, leases, grants, or cooperative agreements as may be necessary to carry out the purposes of this title.

“(b) **COOPERATIVE INSTITUTES.**—

“(1) **DESIGNATION.**—The Administrator shall designate 2 cooperative institutes for the purpose of advancing and sustaining essential capabilities in coral reef research, to be known as the ‘Atlantic Coral Reef Institute’ and the ‘Pacific Coral Reef Institute’.

“(2) **MEMBERSHIP.**—Each institute established under paragraph (1) shall be housed within a single coral reef research center designated by the Administrator under paragraph (4) in the Atlantic and Pacific basins, respectively, and may contract with other coral reef research centers within the same basin to support each institute’s capacity and reach.

“(3) **FUNCTIONS.**—The institutes established under paragraph (1) shall—

“(A) conduct federally directed research to fill national and regional coral reef ecosystem research gaps and improve understanding of, and responses to, continuing and emerging threats to the resilience of United States coral reef ecosystems consistent with the national coral reef resilience strategy in effect under section 204A;

“(B) support ecological research and monitoring to study the effects of conservation and restoration activities funded by this title on promoting more effective coral reef management and restoration; and

“(C) through agreements—

“(i) collaborate directly with governmental resource management agencies, coral reef stewardship partnerships, nonprofit organizations, and other coral reef research centers designated under paragraph (4);

“(ii) assist in the development and implementation of—

“(I) the national coral reef resilience strategy under section 204A;

“(II) coral reef action plans under section 205; and

“(III) coral reef emergency plans under section 209;

“(iii) build capacity within governmental resource management agencies to establish research priorities and translate and apply research findings to management and restoration practices; and

“(iv) conduct public education and awareness programs for policymakers, resource managers, and the general public on—

“(I) coral reefs and coral reef ecosystems;

“(II) best practices for coral reef ecosystem management and restoration;

“(III) the value of coral reefs; and

“(IV) the threats to the sustainability of coral reef ecosystems.

“(4) **CORAL REEF RESEARCH CENTERS.**—

“(A) **IN GENERAL.**—The Administrator shall periodically solicit applications and designate all qualifying institutions in a covered State as coral reef research centers.

“(B) **CRITERIA.**—An institution qualifies for designation as a coral reef research center

under subparagraph (A) if the Administrator determines that the institution—

“(i) is operated by an institution of higher education;

“(ii) has established management-driven national or regional coral reef research or restoration programs;

“(iii) has demonstrated abilities to coordinate closely with appropriate Federal and State agencies, as well as other academic and nonprofit organizations; and

“(iv) maintains significant local community engagement and outreach programs related to coral reef ecosystems.

“(c) **USE OF RESOURCES OF OTHER AGENCIES.**—The Administrator may use, with consent and with or without reimbursement, the land, services, equipment, personnel, and facilities of any agency or instrumentality of—

“(1) the United States;

“(2) any State or local government;

“(3) any Indian Tribe; or

“(4) any foreign government not subject to economic sanctions imposed by the United States.

“SEC. 216. CORAL REEF PRIZE COMPETITIONS.

“(a) **IN GENERAL.**—The head of any Federal agency with a representative serving on the U.S. Coral Reef Task Force established by Executive Order 13089 (16 U.S.C. 6401 note; relating to coral reef protection), may, individually or in cooperation with one or more agencies, carry out a program to award prizes competitively under section 24 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3719).

“(b) **PURPOSES.**—Any program carried out under this section shall be for the purpose of stimulating innovation to advance the ability of the United States to understand, research, or monitor coral reef ecosystems, or to develop management or adaptation options to preserve, sustain, and restore coral reef ecosystems.

“(c) **PRIORITY PROGRAMS.**—Priority shall be given to establishing programs under this section that address communities, environments, or industries that are in distress as a result of the decline or degradation of coral reef ecosystems, including—

“(1) scientific research and monitoring that furthers the understanding of causes behind coral reef decline and degradation and the generally slow recovery following disturbances;

“(2) the development of monitoring or management options for communities or industries that are experiencing significant financial hardship;

“(3) the development of adaptation options to alleviate economic harm and job loss caused by damage to coral reef ecosystems;

“(4) the development of measures to help vulnerable communities or industries, with an emphasis on rural communities and businesses; and

“(5) the development of adaptation and management options for impacted tourism industries.

“SEC. 217. AUTHORIZATION OF APPROPRIATIONS.

“(a) **IN GENERAL.**—There is authorized to be appropriated to the Administrator \$38,000,000 for each of fiscal years 2022 through 2026 to carry out this title, which shall remain available until expended.

“(b) **ADMINISTRATION.**—Of the amounts authorized to be appropriated under subsection (a), not more than the lesser of \$1,500,000 or 10 percent of such amounts is authorized to be appropriated for program administration or for overhead costs incurred by the National Oceanic and Atmospheric Administration or the Department of Commerce and assessed as an administrative charge.

“(c) **FEDERALLY DIRECTED RESEARCH AND CORAL REEF CONSERVATION PROGRAM GRANTS.**—From the amounts authorized to be appropriated under subsection (a), not less than \$8,000,000 is authorized to be appropriated for each of fiscal years 2022 through 2026 to support purposes consistent with this title, of which—

“(1) not less than \$3,500,000 is authorized to be appropriated for each such fiscal year for authorized activities under section 213; and

“(2) not less than \$4,500,000 is authorized to be appropriated for each such fiscal year through cooperative agreements with the cooperative institutes designated under section 215(c).

“(d) **BLOCK GRANTS AND COOPERATIVE AGREEMENTS.**—There is authorized to be appropriated to the Administrator, \$15,000,000 for each of fiscal years 2022 through 2026, which shall remain available until expended, to carry out section 207.

“SEC. 218. DEFINITIONS.

“In this title:

“(1) **ADMINISTRATOR.**—The term ‘Administrator’ means the Administrator of the National Oceanic and Atmospheric Administration.

“(2) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term ‘appropriate congressional committees’ means the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Natural Resources of the House of Representatives.

“(3) **CONSERVATION.**—The term ‘conservation’ means the use of methods and procedures necessary to preserve or sustain geographically appropriate corals and associated species as diverse, viable, and self-perpetuating coral reef ecosystems with minimal impacts from invasive species, including—

“(A) all activities associated with resource management, such as monitoring, assessment, protection, restoration, sustainable use, management of habitat, and maintenance or augmentation of genetic diversity;

“(B) mapping;

“(C) scientific expertise and technical assistance in the development and implementation of management strategies for marine protected areas and marine resources consistent with the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.) and the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.);

“(D) law enforcement;

“(E) conflict resolution initiatives;

“(F) community outreach and education; and

“(G) promotion of safe and ecologically sound navigation and anchoring.

“(4) **CORAL.**—The term ‘coral’ means species of the phylum Cnidaria, including—

“(A) all species of the orders Antipatharia (black corals), Scleractinia (stony corals), Alcyonacea (soft corals, organ pipe corals, gorgonians), and Helioporacea (blue coral), of the class Anthozoa; and

“(B) all species of the order Anthothecata (fire corals and other hydrocorals) of the class Hydrozoa.

“(5) **CORAL PRODUCTS.**—The term ‘coral products’ means any living or dead specimens, parts, or derivatives, or any product containing specimens, parts, or derivatives, of any species referred to in paragraph (4).

“(6) **CORAL REEF.**—The term ‘coral reef’ means calcium carbonate structures in the form of a reef or shoal, composed in whole or in part by living coral, skeletal remains of coral, crustose coralline algae, and other associated sessile marine plants and animals.

“(7) **CORAL REEF ECOSYSTEM.**—The term ‘coral reef ecosystem’ means—

“(A) corals and other geographically and ecologically associated marine communities of other reef organisms (including reef plants and animals) associated with coral reef habitat; and

“(B) the biotic and abiotic factors and processes that affect coral physiology, coral-algal symbiosis, and biodiversity in such habitat.

“(8) **CORAL REEF ECOSYSTEM SERVICES.**—The term ‘coral reef ecosystem services’ means the attributes and benefits provided by coral reef ecosystems including—

“(A) protection of coastal beaches, structures, and infrastructure;

“(B) habitat for organisms of economic, ecological, biomedical, medicinal, and cultural value;

“(C) serving as centers for the promulgation, performance, and training of cultural practices representative of traditional ecological knowledge; and

“(D) aesthetic value.

“(9) **COVERED REEF MANAGER.**—

“(A) **IN GENERAL.**—The term ‘covered reef manager’ means a management unit of a Federal agency specified in subparagraph (B) with jurisdiction over a coral reef ecosystem, covered State, or coral reef stewardship partnership.

“(B) **FEDERAL AGENCIES SPECIFIED.**—A Federal agency specified in this subparagraph is one of the following:

“(i) The National Oceanic and Atmospheric Administration.

“(ii) The National Park Service.

“(iii) The United States Fish and Wildlife Service.

“(iv) The Office of Insular Affairs.

“(10) **COVERED STATE.**—The term ‘covered State’ means Florida, Hawaii, and the territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the United States Virgin Islands.

“(11) **INDIAN TRIBE.**—The term ‘Indian Tribe’ has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

“(12) **INSTITUTION OF HIGHER EDUCATION.**—The term ‘institution of higher education’ has the meaning given that term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

“(13) **INTERESTED STAKEHOLDER GROUPS.**—The term ‘interested stakeholder groups’ includes community members such as businesses, commercial and recreational fishermen, other recreationalists, Federal, State, Tribal, and local government units with related jurisdiction, institutions of higher education, and nongovernmental organizations.

“(14) **NONPROFIT ORGANIZATION.**—The term ‘nonprofit organization’ means an organization that is described in section 501(c) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code.

“(15) **RESTORATION.**—The term ‘restoration’ means the use of methods and procedures necessary to enhance, rehabilitate, recreate, or create a functioning coral reef or coral reef ecosystem, in whole or in part, within suitable waters of the historical geographic range of such ecosystems, to provide ecological, economic, cultural, or coastal resiliency services associated with healthy coral reefs and benefit native populations of coral reef organisms.

“(16) **RESILIENCE.**—The term ‘resilience’ means the capacity for corals within their native range, coral reefs, or coral reef ecosystems to resist and recover from natural and human disturbances, and maintain structure and function to provide coral reef ecosystem services as determined by clearly identifiable, measurable, and science-based standards.

“(17) **STATE.**—The term ‘State’ means—

“(A) any State of the United States that contains a coral reef ecosystem within its seaward boundaries;

“(B) American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, or the United States Virgin Islands; or

“(C) any other territory of the United States or separate sovereign in free association with the United States that contains a coral reef ecosystem within its seaward boundaries.

“(18) **STEWARDSHIP.**—The term ‘stewardship’, with respect to a coral reef, includes conservation, restoration, and public outreach and education.

“(19) **TASK FORCE.**—The term ‘Task Force’ means the United States Coral Reef Task Force established under section 70501 of the America COMPETES Act of 2022.

“(20) **TRIBAL ORGANIZATION.**—The term ‘Tribal organization’ has the meaning given the term

'tribal organization' in section 3765 of title 38, United States Code."

(c) **CONFORMING AMENDMENT TO NATIONAL OCEANS AND COASTAL SECURITY ACT.**—Section 905(a) of the National Oceans and Coastal Security Act (16 U.S.C. 7504(a)) is amended by striking "and coastal infrastructure" and inserting ", coastal infrastructure, and ecosystem services provided by natural systems such as coral reefs".

SEC. 70402. MODIFICATION TO SECTION 204 OF THE CORAL REEF CONSERVATION ACT OF 2000.

Section 204 of the Coral Reef Conservation Act of 2000 (16 U.S.C. 6403) is amended—

- (1) in subsection (a), by striking "this section" and inserting "section 213"; and
- (2) by striking subsections (c) through (j).

TITLE V—UNITED STATES CORAL REEF TASK FORCE

SEC. 70501. ESTABLISHMENT.

There is established a task force to lead, coordinate, and strengthen Federal Government actions to better preserve, conserve, and restore coral reef ecosystems, to be known as the "United States Coral Reef Task Force" (in this title referred to as the "Task Force").

SEC. 70502. DUTIES.

The duties of the Task Force shall be—

- (1) to coordinate, in cooperation with State, Tribal, and local government partners, coral reef research centers designated under section 215(c) of the Coral Reef Conservation Act of 2000 (as amended by this Act), and other nongovernmental and academic partners as appropriate, activities regarding the mapping, monitoring, research, conservation, mitigation, and restoration of coral reefs and coral reef ecosystems;
- (2) to monitor and advise regarding implementation of the policy and Federal agency responsibilities set forth in—

(A) Executive Order 13089 (63 Fed. Reg. 32701; relating to coral reef protection); and

(B) the national coral reef resilience strategy developed under section 204A of the Coral Reef Conservation Act of 2000, as amended by this Act;

- (3) to work with the Secretary of State and the Administrator of the United States Agency for International Development, and in coordination with the other members of the Task Force—

(A) to assess the United States role in international trade and protection of coral species;

(B) to encourage implementation of appropriate strategies and actions to promote conservation and sustainable use of coral reef resources worldwide; and

(C) to collaborate with international communities successful in managing coral reefs;

- (4) to provide technical assistance for the development and implementation, as appropriate, of—

(A) the national coral reef resilience strategy under section 204A of the Coral Reef Conservation Act of 2000, as amended by this Act;

(B) coral reef action plans under section 205 of that Act; and

(C) coral reef emergency plans under section 209 of that Act; and

- (5) to produce a report each year, for submission to the appropriate congressional committees and publication on a publicly available internet website of the Task Force, highlighting the status of the coral reef equities of a covered State on a rotating basis, including—

(A) a summary of recent coral reef management and restoration activities undertaken in that State; and

(B) updated estimates of the direct and indirect economic activity supported by, and other benefits associated with, those coral reef equities.

SEC. 70503. MEMBERSHIP.

(a) **VOTING MEMBERSHIP.**—The Task Force shall have the following voting members:

- (1) The Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration, and the Secretary of the Interior, who shall be co-chairs of the Task Force.

(2) The Administrator of the United States Agency for International Development.

(3) The Secretary of Agriculture.

(4) The Secretary of Defense.

(5) The Secretary of the Army, acting through the Assistant Secretary of the Army for Civil Works.

(6) The Secretary of Homeland Security, acting through the Administrator of the Federal Emergency Management Agency.

(7) The Commandant of the Coast Guard.

(8) The Attorney General.

(9) The Secretary of State.

(10) The Secretary of Transportation.

(11) The Administrator of the Environmental Protection Agency.

(12) The Ambassador of the United States Trade Representative.

(13) The Administrator of the National Aeronautics and Space Administration.

(14) The Director of the National Science Foundation.

(15) The Governor, or a representative of the Governor, of each covered State.

(b) **NONVOTING MEMBERS.**—The Task Force shall have the following nonvoting members:

(1) A member appointed by the President of the Federated States of Micronesia.

(2) A member appointed by the President of the Republic of the Marshall Islands.

(3) A member appointed by the President of the Republic of Palau.

SEC. 70504. RESPONSIBILITIES OF FEDERAL AGENCY MEMBERS.

(a) **IN GENERAL.**—A member of the Task Force specified in paragraphs (1) through (14) of section 70503(a) shall—

- (1) identify the actions of the agency that member represents that may affect coral reef ecosystems;

(2) utilize the programs and authorities of that agency to protect and enhance the conditions of such ecosystems, including through the promotion of basic and applied scientific research;

(3) collaborate with the Task Force to appropriately reflect budgetary needs for coral reef conservation and restoration activities in all agency budget planning and justification documents and processes; and

(4) engage in any other coordinated efforts approved by the Task Force.

(b) **CO-CHAIRS.**—In addition to their responsibilities under subsection (a), the co-chairs of the Task Force shall administer performance of the functions of the Task Force and facilitate the coordination of the members of the Task Force specified in paragraphs (1) through (14) of section 70503(a).

SEC. 70505. WORKING GROUPS.

(a) **IN GENERAL.**—The co-chairs of the Task Force may establish working groups as necessary to meet the goals and carry out the duties of the Task Force.

(b) **REQUESTS FROM MEMBERS.**—The members of the Task Force may request that the co-chairs establish a working group under subsection (a).

(c) **PARTICIPATION BY NONGOVERNMENTAL ORGANIZATIONS.**—The co-chairs may allow nongovernmental organizations as appropriate, including academic institutions, conservation groups, and commercial and recreational fishing associations, to participate in a working group established under subsection (a).

(d) **NONAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.**—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to working groups established under this section.

SEC. 70506. DEFINITIONS.

In this title:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term "appropriate congressional committees" means the Committee on Commerce, Science, and Transportation of the Senate and

the Committee on Natural Resources of the House of Representatives.

(2) **CONSERVATION, CORAL, CORAL REEF, ETC.**—The terms "conservation", "coral", "coral reef", "coral reef ecosystem", "covered State", "restoration", "resilience", and "State" have the meaning given those terms in section 218 of the Coral Reef Conservation Act of 2000, as amended by this Act.

TITLE VI—DEPARTMENT OF THE INTERIOR CORAL REEF AUTHORITIES

SEC. 70601. CORAL REEF CONSERVATION AND RESTORATION ASSISTANCE.

(a) **IN GENERAL.**—The Secretary of the Interior, in addition to activities authorized under section 203 of the Coral Reef Conservation Act of 2000, as amended by this Act, may provide scientific expertise, technical assistance, and financial assistance for the conservation and restoration of coral reefs consistent with all applicable laws governing resource management in Federal, State, and Tribal waters, including—

(1) the national coral reef resilience strategy in effect under section 204A of the Coral Reef Conservation Act of 2000, as amended by this Act;

(2) coral reef action plans in effect under section 205 of that Act, as applicable; and

(3) coral reef emergency plans in effect under section 209 of that Act, as applicable.

(b) **OFFICE OF INSULAR AFFAIRS CORAL REEF INITIATIVE.**—The Secretary may establish within the Office of Insular Affairs a Coral Reef Initiative Program—

(1) to provide grant funding to support local management, conservation, and protection of coral reef ecosystems in—

(A) insular areas of covered States; and

(B) Freely Associated States;

(2) to complement the other conservation and assistance activities conducted under this title; and

(3) to provide other technical, scientific, and financial assistance and conduct conservation activities that advance the purpose of this title.

(c) **CONSULTATION WITH THE DEPARTMENT OF COMMERCE.**—The Secretary of the Interior may consult with the Secretary of Commerce regarding the conduct of any activities to conserve and restore coral reefs and coral reef ecosystems in waters managed under the jurisdiction of the Federal agencies specified in paragraphs (2) and (3) of section 203(c) of the Coral Reef Conservation Act of 2000, as amended by this Act.

(d) **COOPERATIVE AGREEMENTS.**—The Secretary of the Interior may enter into cooperative agreements with covered reef managers to fund coral reef conservation and restoration activities in waters managed under the jurisdiction of such managers that—

(1) are consistent with the national coral reef resilience strategy in effect under section 204A of the Coral Reef Conservation Act of 2000, as amended by this Act; and

(2) support and enhance the success of—

(A) coral reef action plans in effect under section 205 of that Act; and

(B) coral reef emergency plans in effect under section 209 of that Act.

(e) **DEFINITIONS.**—In this section, the terms "conservation", "coral reef", "covered reef manager", "covered State", "restoration", and "State" have the meaning given those terms in section 218 of the Coral Reef Conservation Act of 2000, as amended by this Act.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary to carry out this title for each of fiscal years 2022 to 2026, \$4,000,000.

TITLE VII—SUSAN L. WILLIAMS NATIONAL CORAL REEF MANAGEMENT FELLOWSHIP

SEC. 70701. DEFINITIONS.

In this title:

(1) **ADMINISTRATOR.**—The term "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration.

(2) **FELLOW.**—The term "fellow" means a National Coral Reef Management Fellow.

(3) **FELLOWSHIP.**—The term “fellowship” means the National Coral Reef Management Fellowship established in section 70702.

(4) **INDIAN TRIBE; TRIBAL ORGANIZATION.**—The terms “Indian Tribe” and “Tribal organization” have the meanings given those terms in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

SEC. 70702. ESTABLISHMENT OF FELLOWSHIP PROGRAM.

(a) **IN GENERAL.**—There is established a National Coral Reef Management Fellowship Program.

(b) **PURPOSES.**—The purposes of the fellowship are—

(1) to encourage future leaders of the United States to develop additional coral reef management capacity in States and local communities with coral reefs;

(2) to provide management agencies of States, Tribal organizations, and Freely Associated States with highly qualified candidates whose education and work experience meet the specific needs of each State, Indian Tribe, and Freely Associated State; and

(3) to provide fellows with professional experience in management of coastal and coral reef resources.

SEC. 70703. FELLOWSHIP AWARDS.

(a) **IN GENERAL.**—The Administrator, in coordination with the Secretary of the Interior, shall award the fellowship in accordance with this section.

(b) **TERM OF FELLOWSHIP.**—A fellowship awarded under this section shall be for a term of not more than 24 months.

(c) **QUALIFICATIONS.**—The Administrator, in coordination with the Secretary of the Interior, shall award the fellowship to individuals who have demonstrated—

(1) an intent to pursue a career in marine services and outstanding potential for such a career;

(2) leadership potential, actual leadership experience, or both;

(3) a college or graduate degree in biological science, experience that correlates with aptitude and interest for marine management, or both;

(4) proficient writing and speaking skills; and

(5) such other attributes as the Administrator, in coordination with the Secretary of the Interior, consider appropriate.

SEC. 70704. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Administrator to carry out this title for each of fiscal years 2022–2026, \$1,500,000, to remain available until expended.

TITLE VIII—BUY AMERICAN SEAFOOD

SEC. 70801. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) American wild-caught seafood is integral to the Nation’s food supply and to American food security;

(2) the seafood supply chain is often long and complex;

(3) American caught and American-processed seafood especially from small-scale fishery operations, can be a sustainable healthy source of protein and micronutrients;

(4) fresh, frozen, dried, and canned domestic seafood can be produced, processed, packaged, and transported in a manner that has a low carbon footprint;

(5) marine species that are small, at lower trophic levels, and pelagic typically have the smallest carbon footprint; and

(6) therefore, any executive agency that purchases seafood products should, to the extent practicable, buy local American-caught or American-harvested and American-processed seafood products from fisheries that are not overfished or experiencing overfishing, in order to support sustainable local seafood businesses, reduce greenhouse gas emissions associated with the seafood product supply chain, and reduce dependence on imported seafood products.

SEC. 70802. CAUGHT IN THE USA.

Section 2(c)(1) of the Act of August 11, 1939 (15 U.S.C. 713c–3(c)(1)) is amended to read as follows:

“(1) The Secretary shall make grants from the fund established under subsection (b) to—

“(A) assist persons in carrying out research and development projects addressed to any aspect of United States marine fisheries, including harvesting, processing, packaging, marketing, and associated infrastructures; or

“(B) assist persons to market and promote the consumption of—

“(i) local or domestic marine fishery products;

“(ii) environmentally and climate-friendly marine fishery products that minimize and employ efforts to avoid bycatch and impacts on marine mammals;

“(iii) invasive species; or

“(iv) well-managed but less known species.”.

TITLE IX—INSULAR AFFAIRS

SEC. 70901. OCEAN AND COASTAL MAPPING INTEGRATION ACT.

Section 12204 of the Ocean and Coastal Mapping Integration Act (33 U.S.C. 3503) is amended—

(1) in paragraph (12) by striking “and”;

(2) in paragraph (13) by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(14) the study of insular areas and the effects of climate change.”.

TITLE X—STUDIES AND REPORTS

SEC. 71001. DEEP SEA MINING.

Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration, shall seek to enter into an agreement with the National Academies of Science, Engineering, and Medicine to conduct a comprehensive assessment of the environmental impacts of deep seabed mining, including—

(1) characterization of deep seabed ecosystems;

(2) assessment of potential impacts to deep seabed habitat and species from exploratory or extractive activities;

(3) assessment of the potential impacts of sediment plumes from disturbance of the deep seabed on the pelagic food chain; and

(4) approximate quantification of the greenhouse gas emissions associated with deep seabed mining, including emissions possibly from the release of greenhouse gases sequestered in the seabed.

SEC. 71002. NATIONAL ACADEMIES ASSESSMENT OF OCEANIC BLUE CARBON.

Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration shall seek to enter into an agreement with the National Academies of Science, Engineering, and Medicine to conduct a comprehensive assessment of oceanic blue carbon, including—

(1) the impacts of marine species decline on carbon sequestration potential in ocean ecosystems, an estimate of the global carbon dioxide mitigation potential of protecting or recovering populations of fish and marine mammals, and the ecological considerations of such conservation strategies;

(2) an analysis of the geologic stores of carbon and deep sea storage of dissolved carbon in the deep seafloor environment, including current and potential natural long-term carbon storage, identification of gaps in scientific understanding, observations, and data regarding such geologic and deep sea carbon storage; and

(3) the potential impacts to oceanic blue carbon storage by human activities including energy development activities, deep sea mining, deep sea carbon capture technology, and other disturbances to the sea floor and gas hydrate disruption atop the seabed.

TITLE XI—MISCELLANEOUS

SEC. 71101. LAW ENFORCEMENT ATTACHE DEPLOYMENT.

(a) **IN GENERAL.**—Beginning in fiscal year 2022, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, in consultation with the Secretary of State, shall require the Chief of Law Enforcement of the United States Fish and Wildlife Service to hire, train, and deploy not fewer than 50 new United States Fish and Wildlife Service law enforcement attaches, and appropriate additional support staff, at one or more United States embassies, consulates, commands, or other facilities—

(1) in one or more countries designated as a focus country or a country of concern in the most recent report submitted under section 201 of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7621); and

(2) in such additional countries or regions, as determined by the Secretary of Interior, that are known or suspected to be a source of illegal trade of species listed—

(A) as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); or

(B) under appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora, done at Washington March 3, 1973 (27 UST 1087; TIAS 8249).

(b) **FUNDING.**—There is authorized to be appropriated to carry out this section \$150,000,000 for each of fiscal years 2022 through 2031.

SEC. 71102. LACEY ACT AMENDMENTS.

(a) **IN GENERAL.**—Section 42 of title 18, United States Code, is amended—

(1) in subsection (a)(1)—

(A) by inserting “or any interstate transport within the United States,” after “or any possession of the United States” the first place it appears; and

(B) by inserting after the first sentence the following: “Notwithstanding any other provision of law, the Secretary of the Interior may prescribe by regulation an emergency designation prohibiting the importation of any species of wild mammals, wild birds, fish (including mollusks and crustacea), amphibians, or reptiles, or the offspring or eggs of any such species, as injurious to human beings, to the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States, for not more than 3 years, under this subsection, if the Secretary of the Interior determines that such regulation is necessary to address an imminent threat to human beings, to the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States. An emergency designation prescribed under this subsection shall take effect immediately upon publication in the Federal Register, unless the Secretary of the Interior prescribes an effective date that is not later than 60 days after the date of publication. During the period during which an emergency designation prescribed under this subsection for a species is in effect, the Secretary of the Interior shall evaluate whether the species should be designated as an injurious wildlife species under the first sentence of this paragraph.”; and

(C) in subsection (b), inserting “knowingly” before “violates”; and

(2) by adding at the end the following:

“(d) **PRESUMPTIVE PROHIBITION ON IMPORTATION.**—

“(1) **IN GENERAL.**—Importation into the United States of any species of wild mammals, wild birds, fish (including mollusks and crustacea), amphibians, or reptiles, or the offspring or eggs of any such species, that is not native to the United States and, as of the date of enactment of the America COMPETES Act of 2022, is not prohibited under subsection (a)(1), is prohibited, unless—

“(A) during the 1-year period preceding the date of enactment of the America COMPETES

Act of 2022, the species was, in more than minimal quantities—

“(i) imported into the United States; or

“(ii) transported between the States, any territory of the United States, the District of Columbia, Puerto Rico, or any territory of the United States; or

“(B) the Secretary of the Interior determines, after an opportunity for public comment, that the species does not pose a significant risk of invasiveness to the United States and publishes a notice in the Federal Register of the determination.

“(2) **RULE OF CONSTRUCTION.**—Nothing in paragraph (1) shall be construed to limit the authority of the Secretary of the Interior under subsection (a)(1).”.

(b) **CONFORMING AMENDMENTS.**—Section 42(a) of title 18, United States Code, is amended—

(1) in paragraph (2), by inserting “and subsection (d)” after “this subsection”;

(2) in paragraph (3)—

(A) by striking “the foregoing” and inserting “paragraph (1) or subsection (d)”;

(B) by striking “this Act” each place the term appears and inserting “this section”;

(3) in paragraph (4), by inserting “or subsection (d)” after “this subsection”;

(4) in paragraph (5)—

(A) by inserting “and subsection (d)” after “this subsection”;

(B) by striking “hereunder” and inserting “under such provisions”.

(c) **REGULATIONS; EFFECTIVE DATE.**—

(1) **REGULATIONS.**—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior shall promulgate regulations to define the term “minimal quantities” for purposes of subsection (d)(1)(A) of section 42 of title 18, United States Code, as added by subsection (a)(2).

(2) **EFFECTIVE DATE.**—Subsection (d) of section 42 of title 18, United States Code, as added by subsection (a)(2), shall take effect on the date that is 1 year after the date of enactment of this Act.

SEC. 71103. SHARK FIN SALES ELIMINATION.

(a) **PROHIBITION ON SALE OF SHARK FINS.**—

(1) **PROHIBITION.**—Except as provided in subsection (c), no person shall possess, acquire, receive, transport, offer for sale, sell, or purchase shark fins or products containing shark fins.

(2) **PENALTY.**—A violation of paragraph (1) shall be treated as an act prohibited by section 307 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857) and shall be penalized pursuant to section 308 of that Act (16 U.S.C. 1858).

(b) **EXCEPTIONS.**—A person may possess a shark fin that was taken lawfully under a State, territorial, or Federal license or permit to take or land sharks, if the shark fin was separated after the first point of landing in a manner consistent with the license or permit and is—

(1) destroyed or disposed of immediately upon separation from the carcass;

(2) used for noncommercial subsistence purposes in accordance with State or territorial law; or

(3) used solely for display or research purposes by a museum, college, or university, or other person under a State or Federal permit to conduct noncommercial scientific research.

(c) **DOGFISH.**—

(1) **IN GENERAL.**—It shall not be a violation of subsection (b) for any person to possess, acquire, receive, transport, offer for sale, sell, or purchase any fresh or frozen unprocessed fin or tail from any stock of the species *Mustelus canis* (smooth dogfish) or *Squalus acanthias* (spiny dogfish).

(2) **REPORT.**—By not later than January 1, 2027, the Secretary of Commerce shall review the exemption contained in paragraph (1) and shall prepare and submit to Congress a report that includes a recommendation on whether the exemp-

tion contained in paragraph (1) should continue or be terminated. In preparing such report and making such recommendation, the Secretary shall analyze factors including—

(A) the economic viability of dogfish fisheries with and without the continuation of the exemption;

(B) the impact to ocean ecosystems of continuing or terminating the exemption;

(C) the impact on enforcement of the ban contained in subsection (b) caused by the exemption; and

(D) the impact of the exemption on shark conservation.

(d) **DEFINITION OF SHARK FIN.**—In this section, the term “shark fin” means—

(1) the unprocessed or dried or otherwise processed detached fin of a shark; or

(2) the unprocessed or dried or otherwise processed detached tail of a shark.

(e) **ENFORCEMENT.**—The provisions of this section, and any regulations issued pursuant thereto, shall be enforced by the Secretary of Commerce. The Secretary may use by agreement, with or without reimbursement, the personnel, services, equipment, and facilities of any other Federal agency or any State agency or Indian Tribe for purposes of enforcing this section.

(f) **STATE AUTHORITY.**—Nothing in this section may be construed to preclude, deny, or limit any right of a State or territory to adopt or enforce any regulation or standard that is more stringent than a regulation or standard in effect under this section.

(g) **SEVERABILITY.**—If any provision of this section or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

DIVISION I—COMMITTEE ON THE JUDICIARY

TITLE I—SUBCOMMITTEE ON COURTS, INTELLECTUAL PROPERTY, AND THE INTERNET

SEC. 80101. BASIC RESEARCH.

Notwithstanding any other provision of law, each agency that awards a Federal research grant shall not disclose, either publicly or privately, to an applicant for such grant the identity of any member of the grant review panel for such applicant.

SEC. 80102. COLLECTION OF DEMOGRAPHIC INFORMATION FOR PATENT INVENTORS.

(a) **AMENDMENT.**—Chapter 11 of title 35, United States Code, is amended by adding at the end the following:

“§ 124. Collection of demographic information for patent inventors

“(a) **VOLUNTARY COLLECTION.**—The Director shall provide for the collection of demographic information, including gender, race, military or veteran status, and any other demographic category that the Director determines appropriate, related to each inventor listed with an application for patent, that may be submitted voluntarily by that inventor.

“(b) **PROTECTION OF INFORMATION.**—The Director shall—

“(1) keep any information submitted under subsection (a) confidential and separate from the application for patent; and

“(2) establish appropriate procedures to ensure—

“(A) the confidentiality of any information submitted under subsection (a); and

“(B) that demographic information is not made available to examiners or considered in the examination of any application for patent.

“(c) **RELATION TO OTHER LAWS.**—

“(1) **FREEDOM OF INFORMATION ACT.**—Any demographic information submitted under subsection (a) shall be exempt from disclosure under section 552(b)(3) of title 5.

“(2) **FEDERAL INFORMATION POLICY LAW.**—Subchapter 1 of chapter 35 of title 44 shall not apply to the collection of demographic information under subsection (a).

“(d) **PUBLICATION OF DEMOGRAPHIC INFORMATION.**—

“(1) **REPORT REQUIRED.**—Not later than 1 year after the date of enactment of this section, and not later than January 31 of each year thereafter, the Director shall make publicly available a report that, except as provided in paragraph (3)—

“(A) includes the total number of patent applications filed during the previous year disaggregated—

“(i) by demographic information described in subsection (a); and

“(ii) by technology class number, technology class title, country of residence of the inventor, and State of residence of the inventor in the United States;

“(B) includes the total number of patents issued during the previous year disaggregated—

“(i) by demographic information described in subsection (a); and

“(ii) by technology class number, technology class title, country of residence of the inventor, and State of residence of the inventor in the United States; and

“(C) includes a discussion of the data collection methodology and summaries of the aggregate responses.

“(2) **DATA AVAILABILITY.**—In conjunction with issuance of the report under paragraph (1), the Director shall make publicly available data based on the demographic information collected under subsection (a) that, except as provided in paragraph (3), allows the information to be cross-tabulated to review subgroups.

“(3) **PRIVACY.**—The Director—

“(A) may not include personally identifying information in—

“(i) the report made publicly available under paragraph (1); or

“(ii) the data made publicly available under paragraph (2); and

“(B) in making publicly available the report under paragraph (1) and the data under paragraph (2), shall anonymize any personally identifying information related to the demographic information collected under subsection (a).

“(e) **BIENNIAL REPORT.**—Not later than 2 years after the date of enactment of this section, and every 2 years thereafter, the Director shall submit to Congress a biennial report that evaluates the data collection process under this section, ease of access to the information by the public, and recommendations on how to improve data collection.”.

(b) **TECHNICAL AND CONFORMING AMENDMENT.**—The table of sections at the beginning of chapter 11 of title 35, United States Code, is amended by adding at the end the following:

“124. Collection of demographic information for patent inventors.”.

SEC. 80103. STOPPING HARMFUL OFFERS ON PLATFORMS BY SCREENING AGAINST FAKES IN E-COMMERCE.

(a) **CONTRIBUTORY LIABILITY FOR ELECTRONIC COMMERCE PLATFORMS.**—Section 32 of the Act entitled “An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes”, approved July 5, 1946 (commonly known as the “Trademark Act of 1946”) (15 U.S.C. 1114), is amended by adding at the end the following:

“(4)(A) An electronic commerce platform shall be contributorily liable in a civil action under paragraph (1) for a case in which a third-party seller uses in commerce a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods that implicate health and safety on the platform, unless the platform demonstrates that the platform took each of the following steps to prevent such use on the platform before any infringing act by the third-party seller:

“(i) Determined after a reasonable investigation, and reasonably periodically confirmed—

“(I) that the third-party seller designated a registered agent in the United States for service of process; or

“(II) in the case of third-party seller located in the United States that has not designated a registered agent under subclause (I), that the third-party seller has designated a verified address for service of process in the United States.

“(ii) Verified through reliable documentation, including to the extent possible some form of government-issued identification, the identity, principal place of business, and contact information of the third-party seller.

“(iii) Except as provided for in subparagraph (C), required the third-party seller to—

“(I) take reasonable steps to verify the authenticity of goods on or in connection with which a registered mark is used; and

“(II) attest to the platform that the third-party seller has taken reasonable steps under subclause (I) to verify the authenticity of the goods.

“(iv) Imposed on the third-party seller as a condition of participating on the platform contractual requirements that—

“(I) the third-party seller agrees not to use a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods on the platform; and

“(II) the third-party seller consents to the jurisdiction of United States courts with respect to claims related to participation by the third-party seller on the platform; and

“(III) the third-party seller designates an agent for service of process in the United States, or, in the case of third-party seller located in the United States, the third-party seller designates a verified address for service of process in the United States.

“(v) Displayed conspicuously on the platform the verified principal place of business, contact information, and identity of the third-party seller, and the country from which the goods were originally shipped from the third-party seller, except the platform shall not be required to display any such information that constitutes the personal identity of an individual, a residential street address, or personal contact information of an individual, and in such cases shall instead provide alternative, verified means of contacting the third-party seller.

“(vi) Except as provided for in subparagraph (C), displayed conspicuously in each listing the country of origin and manufacture of the goods as identified by the third-party seller, unless such information was not reasonably available to the third-party seller and the third-party seller has identified to the platform the steps it undertook to identify the country of origin and manufacture of the goods and the reasons it was unable to identify the same.

“(vii) Required each third-party seller to use images that accurately depict the goods sold, offered for sale, distributed, or advertised on the platform.

“(viii) Implemented at no charge from the platform to the registrant reasonable proactive measures for screening goods before displaying the goods to the public to prevent the use by any third-party seller of a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods on the platform. The determination of whether proactive measures are reasonable shall consider the size and resources of a platform, the available technological and non-technological solutions at the time of screening, the information provided by the registrant to the platform, and any other factor considered relevant by a court.

“(ix) Provided reasonably accessible electronic means by which a registrant and consumer can notify the platform of suspected use of a counterfeit mark.

“(x) Implemented at no charge from the platform to the registrant a program to expeditiously disable or remove from the platform any

listing for which a platform has reasonable awareness of use of a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods. Reasonable awareness of use of a counterfeit mark may be inferred based on information regarding the use of a counterfeit mark on the platform generally, general information about the third-party seller, identifying characteristics of a particular listing, or other circumstances as appropriate. A platform may reinstate a listing disabled or removed under this clause if, after an investigation, the platform reasonably determines that a counterfeit mark was not used in the listing. A reasonable decision to reinstate a listing shall not be a basis for finding that a platform failed to comply with this clause.

“(xi) Implemented a publicly available, written policy that requires termination of a third-party seller that reasonably has been determined to have engaged in repeated use of a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods on the platform. Use of a counterfeit mark by a third-party seller in 3 separate listings within 1 year typically shall be considered repeated use, but a platform may allow a third-party seller to remain active after repeated use of a counterfeit mark when reasonable mitigating circumstances exist. The determination of whether reasonable mitigating circumstances exist shall consider the overall activity of the third-party seller, efforts the third-party seller has taken to cure supply-chain concerns, efforts the third-party takes to resolve disputes once notified of a concern, and any other factor considered relevant by a court. A platform may reinstate a third-party seller if, after an investigation, the platform reasonably determines that the third-party seller did not engage in repeated use of a counterfeit mark or that reasonable mitigating circumstances existed. A reasonable decision to reinstate a third-party seller shall not be a basis for finding that a platform failed to comply with this clause.

“(xii) Implemented at no charge from the platform to the registrant reasonable measures for screening third-party sellers to ensure that sellers who have been terminated do not rejoin or remain on the platform under a different seller identity or alias. The determination of whether screening measures are reasonable shall consider the size and resources of a platform, the available technological and non-technological solutions at the time of screening, and any other factor considered relevant by a court.

“(xiii) Provided a verified basis to contact a third-party seller upon request by a registrant that has a bona fide belief that the seller has used a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods on the platform except that the platform is not required to provide information that constitutes the personal identity of an individual, a residential street address, or personal contact information of an individual (in such case, the provider shall provide an alternative means of contacting the third-party seller).

“(B)(i) This paragraph shall apply—

“(I) to an electronic commerce platform that has sales on the platform in the previous calendar year of not less than \$500,000; or

“(II) to an electronic commerce platform with less than \$500,000 in sales in the previous calendar year, 6 months after the platform has received 10 notices, in aggregate, that qualify under clause (ii).

“(ii) To count toward the aggregate 10-notice threshold under clause (i)(II), a notice shall—

“(I) include a reference to this paragraph; and

“(II) include an explicit notification of the 10-notice limit and the requirement of the platform to publish the information in clause (ii); and

“(III) identify a listing on the platform that reasonably could be determined to have used a counterfeit mark in connection with the sale, offering for sale, distribution, or advertising of goods that implicate health and safety.

“(iii) Not later than 1 month after the date on which a platform described in clause(i)(II) receives the first notice described under clause (ii), the platform shall make publicly available an attestation that the sales on the platform in the previous calendar year were less than \$500,000 and an aggregate count of the notices that qualify under clause (ii). Such count shall be updated upon receipt of additional notices.

“(C) Notwithstanding clauses (iii) and (vi) of subparagraph (A), a platform is exempt from the requirements of such clauses for goods, on or in connection with which a registered mark is used, sold, offered for sale, or advertised by a third-party seller for less than \$5,000 if the third-party seller sells, offers for sale, or advertises on the platform 5 or fewer goods of the same type in connection with the same mark in a 1-year period.

“(D) This paragraph may not be construed to limit liability in contexts other than those described in this paragraph, including any cause of action available under any other provision of this Act, notwithstanding that the same facts may give rise to a claim under this paragraph.

“(E) With respect to fiscal year 2024, and each fiscal year thereafter, the amounts in subparagraphs (B) and (C) shall be increased each year by an amount equal to the percentage increase, if any, in the Consumer Price Index.

“(F) In this paragraph:

“(i) The term ‘counterfeit mark’ has the meaning given that term in section 34(d)(1)(B).
