“(3) The term ‘working waterfront’ means real property (including support structures over water and other facilities) that provides access to coastal waters to persons engaged in commercial and recreational fishing, recreational fishing and boating businesses, boatbuilding, aquaculture, or other water-dependent, coastal-related business and is used for, or that supports, commercial and recreational fishing, recreational fishing and boating businesses, boatbuilding, aquaculture, or other water-dependent, coastal-related business.

“(4) The term ‘working waterfront covenant’ means an agreement in recordable form between the owner of working waterfront and one or more qualified holders, that provides such assurances as the Secretary may require that—

“(A) the title to or interest in the working waterfront will be held by a grant recipient or qualified holder in perpetuity, except as provided in subparagraph (C);

“(B) the working waterfront will be managed in a manner that is consistent with the purposes for which the property is acquired pursuant to this section, and the property will not be converted to any use that is inconsistent with the purpose of this section;

“(C) if the title to or interest in the working waterfront is sold or otherwise exchanged—

“(i) all working waterfront owners and qualified holders involved in such sale or exchange shall accede to such agreement; and

“(ii) funds equal to the fair market value of the working waterfront or interest in working waterfront shall be paid to the Secretary by parties to the sale or exchange, and such funds shall, at the discretion of the Secretary, be paid to the coastal State in which the working waterfront is located for use in the implementation of the working waterfront plan of the State approved by the Secretary under this section; and

“(D) such covenant is subject to enforcement and oversight by the coastal State or by another person as determined appropriate by the Secretary.

“(n) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Grant Program \$15,000,000.”

AMENDMENT NO. 190 OFFERED BY MS. PLASKETT OF VIRGIN ISLANDS

Page 1668, after line 13, insert the following:

SEC. 71104. SHOVEL-READY RESTORATION GRANTS FOR COASTLINES AND FISHERIES.

(a) ESTABLISHMENT.—The Administrator shall establish a grant program to provide funding and technical assistance to eligible entities for purposes of carrying out a project described in subsection (d).

(b) PROJECT PROPOSAL.—To be considered for a grant under this section, an eligible entity shall submit a grant proposal to the Administrator in a time, place, and manner determined by the Administrator. Such proposal shall include monitoring, data collection, and measurable performance criteria with respect to the project.

(c) DEVELOPMENT OF CRITERIA.—The Administrator shall select eligible entities to receive grants under this section based on criteria developed by the Administrator, in consultation with relevant offices of the National Oceanic and Atmospheric Administration, such as the Office of Habitat Conservation and the Office for Coastal Management.

(d) ELIGIBLE PROJECTS.—A proposal is eligible for a grant under this section if—

(1) the purpose of the project is to restore a marine, estuarine, coastal, or Great Lake habitat, including—

(A) restoration of habitat to protect or recover a species that is threatened, endangered, or a species of concern under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(B) through the removal or remediation of marine debris, including derelict vessels and abandoned, lost, and discarded fishing gear, in coastal and marine habitats; or

(C) for the benefit of—

(i) shellfish;

(ii) fish, including diadromous fish;

(iii) coral reef systems;

(iv) marine wildlife; or

(v) blue carbon ecosystems such as coastal wetlands, beaches, dunes, marshes, coastal forests, oyster beds, kelp forests, and submerged aquatic vegetation; or

(2) provides adaptation to climate change, including sequestering and storing carbon or by constructing, restoring, or protecting ecological features or nature-based infrastructure that protects coastal communities from sea level rise, coastal storms, or flooding.

(e) PRIORITY.—In determining which projects to fund under this section, the Administrator shall give priority to a proposed project—

(1) that would stimulate the economy;

(2) for which the applicant can demonstrate that the grant will fund work that will begin not more than 90 days after the date of award;

(3) for which the applicant can demonstrate that the grant will fund work that will employ fishermen who have been negatively impacted by the COVID-19 pandemic or pay a fisherman for the use of a fishing vessel;

(4) for which the applicant can demonstrate that any preliminary study or permit required before the project can begin has been completed or can be completed shortly after an award is made; or

(5) that includes communities that may not have adequate resources including low income communities, communities of color, Tribal communities, Indigenous communities, and rural communities.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator \$10,000,000,000 for fiscal year 2022 to carry out this section, to remain available until expended.

(g) DEFINITIONS.—In this section, the following definitions apply:

(1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the National Oceanic and Atmospheric Administration.

(2) ELIGIBLE ENTITY.—The term “eligible entity” means a nonprofit, a for-profit business, an institution of higher education, or a State, local, Tribal, or Territorial government.

(3) FISHERMEN.—The term “fishermen” means commercial or for-hire fishermen or oyster farmers.

AMENDMENT NO. 191 OFFERED BY MR. POCAN OF WISCONSIN

At the end add the following:

DIVISION M—AGRICULTURE FOREIGN INVESTMENT DISCLOSURE REFORM

SEC. 120001. SHORT TITLE.

This division may be cited as the “Agriculture Foreign Investment Disclosure Reform Act”.

SEC. 120002. ANNUAL REPORTS.

The matter preceding paragraph (1) of section 2(b) of the Agricultural Foreign Investment Disclosure Act of 1978 (7 U.S.C. 3501(b)) is amended by striking “agricultural land” and all that follows through “effective date.” and inserting “agricultural land on the day before the date of the enactment of the Agricultural Foreign Investment Disclosure Reform Act shall, beginning 180 days after such date of enactment, and annually thereafter, submit to the Secretary a report or certify to the Secretary that there has been no change in status with respect to the information required under paragraphs (1) through (8) since the most recent such report was submitted to the Secretary by such foreign person.”.

SEC. 120003. REPORTS TO CONGRESS.

The Agricultural Foreign Investment Disclosure Act of 1978 (7 U.S.C. 3501 et seq.) is amended by inserting after section 4 the following:

“SEC. 5. REPORTS TO CONGRESS.

“(a) Beginning 180 days after the date of the enactment of the Agricultural Foreign Investment Disclosure Reform Act, and annually thereafter, the Secretary shall, using information obtained under section 2, submit to the Congress a report on foreign investment in agricultural land in the United States.

“(b) Beginning 90 days after the date of the enactment of the Agricultural Foreign Investment Disclosure Reform Act, the Secretary shall, using information obtained under section 2, publish on the internet website of the Department of Agriculture, and update every 90 days thereafter, a database listing the agricultural lands owned by foreign persons. Such listing shall be limited to the information described in paragraphs (1), (3), (4), (5), and (7) of section 2(b), or if applicable, the certification made to the Secretary pursuant to such subsection.

“(c)(1) Not later than 90 days after the end of each covered period, the Secretary shall—

“(A) analyze information obtained by the Secretary under section 2 and determine the effects of foreign persons acquiring, transferring, and holding agricultural land, particularly the effects of such acquisitions, transfers, and holdings on family farms, rural communities and the domestic food supply; and

“(B) transmit to the President and Congress a report on the findings and conclusions of the Secretary regarding—

“(i) each analysis and determination made under subparagraph (A);

“(ii) trends and patterns in foreign acquisitions, transfers, and holdings of agricultural land; and

“(iii) recommendations to Congress with respect to the data and analysis.

“(2) In this subsection, the term ‘covered period’ means each of the following periods:

“(A) The 10-year period beginning on the date of the enactment of Agricultural Foreign Investment Disclosure Reform Act.

“(B) Each 10-year period thereafter.”.

SEC. 120004. CIVIL PENALTY FOR FAILURE TO REPORT OR MISREPORTING.

Section 3(b) of the Agricultural Foreign Investment Disclosure Act of 1978 (7 U.S.C. 3502(b)) is amended by striking “, except that such amount shall not exceed 25 percent of

the fair market value, on the date of the assessment of such penalty, of the interest in agricultural land with respect to which such violation occurred”.

AMENDMENT NO. 192 OFFERED BY MR. POCAN OF WISCONSIN

Page 989, line 7, add at the end before the period the following: “, **DISTRIBUTION, STORAGE, AND DELIVERY**”.

Page 989, line 11, insert after “manufacturing” the following: “, distribution, storage, and delivery”.

Page 989, after line 23, add the following:

(4) Enhancing the cold chain necessary for the production, delivery, storage, and distribution of vaccines.

Page 990, line 7, insert before “and” the following: “, distribution, storage, and delivery”.

Page 990, line 7, insert after “manufacturing” the following: “, distributing, and delivering”.

AMENDMENT NO. 193 OFFERED BY MR. POCAN OF WISCONSIN

Page 106, strike line 4 and insert

“(7) **FUNDING.**—Out of funds authorized to be appropriated under section 306(l) of the Department of Energy Research and Innovation Act (42 U.S.C. 18644(l)), there are authorized to be appropriated to the Secretary \$30,000,000, for each center in existence or established under this subsection, for each of fiscal years 2022 through 2026.”.

AMENDMENT NO. 194 OFFERED BY MS. PORTER OF CALIFORNIA

On page 848, line 6, strike “, and freedom from coercion;” and insert “, freedom from coercion, and a unified response to the threat of climate change;”.

Page 1710, line 22, insert after “physical sciences,” the following: “health professions and related programs.”.

AMENDMENT NO. 207 OFFERED BY MS. ROSS OF NORTH CAROLINA

At the end of title XI of division H, add the following:

SEC. 71104. LEASING ON THE OUTER CONTINENTAL SHELF.

(a) **LEASING AUTHORIZED.**—The Secretary of the Interior is authorized to grant leases pursuant to section 8(p)(1)(C) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)(1)(C)) in the areas withdrawn by the Presidential Memorandum entitled “Memorandum on the Withdrawal of Certain Areas of the United States Outer Continental Shelf from Leasing Disposition” (issued September 8, 2020) and the Presidential Memorandum entitled “Presidential Determination on the Withdrawal of Certain Areas of the United States Outer Continental Shelf from Leasing Disposition” (issued September 25, 2020).

(b) **WITHDRAWALS.**—Any Presidential withdrawal of an area of the Outer Continental Shelf from leasing under section 12(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1341(a)) issued after the date of enactment of this section shall apply only to leasing authorized under subsections (a) and (i) of section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a) and 1337(i)), unless otherwise specified.

AMENDMENT NO. 208 OFFERED BY MS. ROSS OF NORTH CAROLINA

Page 748, strike lines 3 and 4, and insert the following:

(F) Advanced communications technology (including optical transmission components) and educational technology.

AMENDMENT NO. 209 OFFERED BY MR.

RUPPERSBERGER OF MARYLAND

At the end of division E, add the following new section:

SEC. 40103. DEFENSE PRIORITIES EFFECTIVENESS STUDY.

The Comptroller General of the United States shall study the effectiveness of the Defense Priorities and Allocations System (as described in part 700 of title 15, Code of Federal Regulations) at assuring the timely availability of industrial resources, including semiconductor and other microelectronics products, to meet national defense and emergency preparedness program requirements.

AMENDMENT NO. 210 OFFERED BY MR. RUSH OF ILLINOIS

Page 68, strike lines 13 and 14 and insert the following:

(C) by redesignating subparagraph (D) as subparagraph (E) and by inserting at the end of such subparagraph the following: “Any applicant with more than 100 employees shall provide data to the Secretary on the racial diversity of their workforce.”; and

Page 69, after line 11, insert the following:

(4) in subsection (c)(1)(C)(iii), by striking “including efforts to hire individuals from disadvantaged populations; and” and inserting “including—

“(I) efforts to hire individuals from disadvantaged populations; and

“(II) the aggregated racial diversity of workforce data for applicants who received awards made under the program and separately for applicants who unsuccessfully applied for such an award; and”.

Page 69, line 12, strike “(4)” and insert “(5)”.

AMENDMENT NO. 213 OFFERED BY MS. SCANLON
OF PENNSYLVANIA

Page 287, after line 17, insert the following:

(4) COURSE-BASED UNDERGRADUATE RESEARCH EXPERIENCES.—

(A) IN GENERAL.—The Director shall carry out a 4-year pilot program under which the Director shall award grants, on a competitive basis, to institutions of higher education and non-profit organizations (or consortia of such institutions or organizations) to establish a total of not fewer than five Centers to develop and scale up successful models for providing undergraduate students with hands-on, discovery-based research courses.

(B) USE OF FUNDS.—Grants made under this paragraph shall be used to—

(i) develop, assess, and disseminate models for providing undergraduate students with course-based research experiences across STEM disciplines and education levels;

(ii) identify and address opportunities and challenges in facilitating implementation across a broad range of institution types, including minority-serving institutions and community colleges;

(iii) identify and develop best practices to address barriers for faculty, including institutional culture, resources, and incentive structures;

(iv) identify and address factors that may facilitate or discourage participation by students from all backgrounds;

(v) provide faculty with curriculum, professional development, training, networking opportunities, and other support to enable the development, adaptation, or expansion of a discovery-based research course; and

(vi) collect data and carry out research to evaluate the impacts of course-based undergraduate research experiences on the STEM workforce.

(C) PARTNERSHIPS.—In making awards under this paragraph, the Director shall consider the extent to which the proposed Center will establish partnerships among multiple types of academic institutions, including community colleges, emerging research institutions, historically Black colleges and universities, Tribal Colleges or Universities, and minority serving institutions, the private sector, and other relevant stakeholders in supporting programs and activities to facilitate faculty training and the widespread and sustained implementation of promising, evidence-based practices, models, programs, and curriculum.

(D) REPORT.—Not later than 180 days after the date on which the pilot program is completed, the Director shall submit to Congress a report that includes—

(i) an assessment, that includes feedback from the research community, of the effectiveness of the pilot program in increasing the number, diversity, and workforce readiness of STEM graduates; and

(ii) if determined to be effective, a plan for permanent implementation of the pilot program.

AMENDMENT NO. 214 OFFERED BY MS. SCANLON
OF PENNSYLVANIA

Page 579, line 10, by inserting “the top five” before “leading”.

AMENDMENT NO. 215 OFFERED BY MR. SCHNEIDER
OF ILLINOIS

Page 785, after line 11, insert the following:

SEC. 20214. GAO REPORT ON GLOBAL SEMICONDUCTOR SHORTAGE.

Not later than 1 year after the date of the enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on the global semiconductor supply shortage and the impact of

that shortage on manufacturing in the United States.

AMENDMENT NO. 216 OFFERED BY MS. SCHRIER
OF WASHINGTON

Page 607, after line 23, insert the following:

“(4) CLEAN ENERGY TECHNOLOGY.—The term ‘clean energy technology’ means a technology that significantly reduces energy use, increases energy efficiency, reduces greenhouse gas emissions, reduces emissions of other pollutants, or mitigates other negative environmental consequences of energy production, transmission or use.

AMENDMENT NO. 218 OFFERED BY MR. SHERMAN
OF CALIFORNIA

At the end of division G insert the following:

TITLE XI—DISCLOSURE REQUIREMENTS RELATING TO CERTAIN EXEMPTED TRANSACTIONS

SEC. 61101. IN GENERAL.

(a) AMENDMENT.—The Securities Exchange Act of 1934 is amended by inserting after section 13A (15 U.S.C. 78m–1) the following:

“SEC. 13B. DISCLOSURE REQUIREMENTS RELATING TO CERTAIN EXEMPTED TRANSACTIONS.

“(a) IN GENERAL.—Notwithstanding any other provision of law, in the case of an issuer that conducts a covered exempted transaction, such issuer shall provide to the Commission, at such time and in such manner as the Commission may prescribe, the following:

“(1) The identity of the issuer.

“(2) The place of incorporation of the issuer.

“(3) The amount of the issuance and the net proceeds to the issuer.

“(4) The principal beneficial owners of the issuer.

“(5) The intended use of the proceeds from such issuance, including—

“(A) each country in which the issuer intends to invest such proceeds; and

“(B) each industry in which the issuer intends to invest such proceeds.

“(6) The exemption the issuer relies on with respect to such covered exempted transaction.

“(b) AUTHORITY TO REVISE AND PROMULGATE RULES, REGULATIONS, AND FORMS.—The Commission shall, for the protection of investors and fair and orderly markets, revise and promulgate such rules, regulations, and forms as may be necessary to carry out this section. The Commission shall also issue rules to set conditions for future use of the exemptions for those issuers who do not comply with the disclosure requirements of this section.

“(c) COVERED EXEMPTED TRANSACTION.—The term ‘covered exempted transaction’ means an issuance of a security that is exempt from registration under section 5 of the Securities Act of 1933 (15 U.S.C. 77e) that—

“(1) is structured or intended to comply with—

“(A) Rule 506(b) of Regulation D, as promulgated by the Commission;

“(B) Regulation S, as promulgated by the Commission; or

“(C) Rule 144A, as promulgated by the Commission; and

“(2) either—

“(A) has an issuance equal to \$25,000,000 or greater; or

“(B) with respect to any 1-year period, has, together with all covered exempted transactions in that period, an aggregate issuance of \$50,000,000 or greater.”.

(b) APPLICABILITY.—The amendment made by subsection (a) shall apply with respect to issuers of covered exempt transactions on the date that is 270 days after the date of the enactment of this Act.

(c) REPORT.—The Commission shall, each quarter, submit to the Committee of Financial Services of the House of Representatives and Committee of Banking, Housing, and Urban Affairs of the Senate a report that includes all information submitted by an issuer under section 13B of the Securities Exchange Act of 1934, as added by subsection (a), during the previous quarter if such issuer—

(1) is—

(A) incorporated in the People's Republic of China; or

(B) incorporated outside the People's Republic of China and has significant entities within the People's Republic of China being consolidated with the issuer where the assets of those entities within the People's Republic of China constitute the majority of assets of the consolidated entity; or

(2) discloses in a filing made pursuant to section 13B of the Securities Exchange Act of 1934, as added by subsection (a), that the issuer intends to invest the proceeds from issuance of an exempted transaction in the People's Republic of China.

AMENDMENT NO. 219 OFFERED BY MS. SHERRILL
OF NEW JERSEY

At the end of division E, add the following:

SEC. 40103. INFLATION STUDY.

The Comptroller General shall, not later than 1 year after the date of the enactment of this Act, conduct a study and submit to the Congress a report that analyzes—

(1) the impacts of this Act and the amendments made by this Act on inflation; and

(2) how all amounts appropriated pursuant to this Act are spent.

AMENDMENT NO. 220 OFFERED BY MS. SHERRILL
OF NEW JERSEY

Page 199, line 23, strike “Atmospheric Administration and” and insert “Atmospheric Administration.”.

Page 199, line 24, after “Agency” insert the following: “the National Aeronautics and Space Administration, the National Science Foundation, and other Federal agencies, as appropriate.”.

Page 200, line 5, after “systems” insert the following: “placed in-situ and on space-based platforms”.

Page 201, line 4, strike “and”.

Page 201, line 13, strike the period and insert a semicolon.

Page 201, after line 13, insert the following:

“(F) coordinate with the National Oceanic and Atmospheric Administration to ensure data are managed, stewarded, and archived at all levels and promote full and open exchange at Federal and State levels, and with academia, industry, and other users; and

“(G) coordinate with international partners, including international standards organizations, to maintain global greenhouse gas measurement technical standards.”.

Page 201, line 22, insert “from in-situ and space-based platforms” before the period at the end.

Page 204, line 2, after “including”, insert the following “academia”.

Page 204, line 3, strike “and local officials” and insert “local officials, and international partners”.

Page 222, line 16, strike “and agility” and insert “agility, and interference mitigation methods”.

AMENDMENT NO. 221 OFFERED BY MS. SHERRILL
OF NEW JERSEY

At the end of title III of division C, add the following:

SEC. 20303. IMPROVING THE NATURAL GAS DISTRIBUTION SYSTEM.

(a) PROGRAM.—The Secretary of Energy shall establish a grant program to provide financial assistance to States to offset the incremental rate increases paid by low-income

households resulting from the implementation of infrastructure replacement, repair, and maintenance programs that are approved by the rate-setting entity and designed to accelerate the necessary replacement, repair, or maintenance of natural gas distribution systems.

(b) **DATE OF ELIGIBILITY.**—Awards may be provided under this section to offset rate increases described in subsection (a) occurring on or after the date of enactment of this Act.

(c) **PRIORITIZATION.**—The Secretary shall collaborate with States to prioritize the distribution of grants made under this section. At a minimum, the Secretary shall consider prioritizing the distribution of grants to States which have—

(1) authorized or adopted enhanced infrastructure replacement programs or innovative rate recovery mechanisms, such as infrastructure cost trackers and riders, infrastructure base rate surcharges, deferred regulatory asset programs, and earnings stability mechanisms; and

(2) a viable means for delivering financial assistance to low-income households.

(d) **AUDITING AND REPORTING REQUIREMENTS.**—The Secretary shall establish auditing and reporting requirements for States with respect to the performance of eligible projects funded pursuant to grants awarded under this section.

(e) **PREVAILING WAGES.**—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work assisted, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40. With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40.

(f) **DEFINITIONS.**—In this section:

(1) **INNOVATIVE RATE RECOVERY MECHANISMS.**—The term “innovative rate recovery mechanisms” means rate structures that allow State public utility commissions to modify tariffs and recover costs of investments in utility replacement incurred between rate cases.

(2) **LOW-INCOME HOUSEHOLD.**—The term “low-income household” means a household that is eligible to receive payments under section 2605(b)(2) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8624(b)(2)).

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out this section \$250,000,000 in each of fiscal years 2022 through 2031.

AMENDMENT NO. 222 OFFERED BY MS. SHERRILL
OF NEW JERSEY

Page 189, after line 5, insert the following:
SEC. 10115. ADDITIONAL RESEARCH.

(a) **IN GENERAL.**—The Secretary of Energy shall support research to advance adoption of integrated rooftop solar, distributed solar, and microgrid technologies.

(b) **FUNDING.**—There is authorized to be appropriated to carry out this section \$50,000,000.

AMENDMENT NO. 223 OFFERED BY MS. SHERRILL
OF NEW JERSEY

Page 2005, after line 2, insert the following:
**TITLE V—CRITICAL SUPPLY CHAIN
SECTORS APPRENTICESHIPS GRANTS**
SEC. 90501. GRANT REQUIREMENTS.

(a) **AUTHORITY.**—

(1) **IN GENERAL.**—The Secretary of Labor may award grants, contracts, or cooperative

agreements to eligible entities on a competitive basis for the purposes of expanding the offerings of apprenticeship programs registered under the national apprenticeship system in sectors across the national supply chain with workforce shortages.

(2) **COORDINATION AND TECHNICAL ASSISTANCE.**—For the purposes of carrying out paragraph (1), the Secretary of Labor shall coordinate with State Offices of Apprenticeship to provide technical assistance, and take additional actions as warranted to support the workforce needs of such sectors.

(b) **APPLICATION.**—An eligible entity desiring a grant under this section shall submit an application to the Secretary of Labor at such time, in such manner, and containing such information as the Secretary may reasonably require. At a minimum, each application shall include a proposal to—

(1) serve employers and workers in sectors across the national supply chain that have workforce shortages and for whom access to a skilled workforce is critical to the function of the United States supply chain; and

(2) provide opportunities in only nontraditional apprenticeship occupations that are suitable for apprenticeship programs.

(d) **DURATION.**—Each grant awarded under this title shall be for a period not to exceed 4 years.

(e) **DEFINITIONS.**—In this section:

(1) **IN GENERAL.**—Except as otherwise provided, any term used in this title that is defined in section 2 of the National Apprenticeship Act, as amended by section 90103 of this Act shall have the meaning given the term in such section.

(2) **APPRENTICESHIP PROGRAM.**—The term “apprenticeship program” means an apprenticeship program registered under the national apprenticeship system.

(3) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) a program sponsor of an apprenticeship program;

(B) a State workforce development board or State workforce agency, or a local workforce development board or local workforce development agency;

(C) an education and training provider, or a consortium of such providers;

(D) if the applicant is in a State with a State apprenticeship agency, such State apprenticeship agency;

(E) an Indian Tribe or Tribal organization;

(F) an industry or sector partnership, a group of employers, a trade association, or a professional association that sponsors or participates in an apprenticeship program;

(G) a Governor of a State;

(H) a labor organization or joint labor-management organization; or

(I) a qualified intermediary.

(4) **WORKFORCE SHORTAGE.**—The term “workforce shortage” means there are an insufficient number of individuals with the required skills and competencies needed for a particular occupation to meet the current and future demands of employers, as determined by the Secretary of Labor.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this title such sums as may be necessary for fiscal year 2023 and each of the succeeding 4 fiscal years.

AMENDMENT NO. 224 OFFERED BY MS. SHERRILL
OF NEW JERSEY

Page 1453, after line 11, insert the following:

SEC. 40103. GAO REPORT ON INFLATION.

Not later than 18 months after the date of the enactment of this Act, the Comptroller General shall submit to Congress a report that includes the following:

(1) An analysis of the effects of this Act on inflation for the year after the date of the enactment of this Act.

(2) A projection for how this Act will affect inflation during the second year following such date of enactment and for every year thereafter for the next 8 years.

AMENDMENT NO. 225 OFFERED BY MS. SHERRILL
OF NEW JERSEY

At the end of title VI of division B, add the following:

**Subtitle G—Better Energy Storage
Technology**

**SEC. 10671. LONG-DURATION DEMONSTRATION
INITIATIVE AND JOINT PROGRAM.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—Section 3201(h)(3) of the Energy Act of 2020 (42 U.S.C. 17232(h)(3)) is amended by striking “\$30,000,000 for each of fiscal years 2021 through 2025” and inserting “\$45,000,000 for each of fiscal years 2022 through 2026”.

(b) **TECHNICAL CORRECTION.**—Effective as of the enactment of the Infrastructure Investment and Jobs Act, section 40334 of such Act is amended by striking “Energy Policy Act of 2020” and inserting “Energy Act of 2020”.

AMENDMENT NO. 226 OFFERED BY MR. SMITH OF
WASHINGTON

Add at the end of title III of division I the following:

SEC. 80306. CITIZENSHIP FOR CERTAIN CHILDREN BORN OUTSIDE THE UNITED STATES.

(a) **IN GENERAL.**—Section 104 of the Child Citizenship Act of 2000 (8 U.S.C. 1431 note) is amended to read as follows:

“SEC. 104. EFFECTIVE DATE.

“The amendments made by this title shall take effect 120 days after the date of the enactment of this Act and shall apply—

“(1) to individuals who satisfy the requirements of section 320 of the Immigration and Nationality Act (8 U.S.C. 1431), before, on, or after the date of the enactment of this Act; and

“(2) to individuals who satisfy the requirements of section 322 (8 U.S.C. 1433) of the Immigration and Nationality Act, as in effect on such effective date.”.

(b) **EFFECTIVE DATE.**—

(1) **IN GENERAL.**—The amendments made by this section shall take effect on the date of the enactment of this section.

(2) **LIMITATION.**—An individual who, before the date of the enactment of the Child Citizenship Act of 2000 (Public Law 106-395), satisfied the requirements of section 320(a) of the Immigration and Nationality Act (8 U.S.C. 1431(a)), or section 320(b) of such Act, if applicable, is deemed to be a citizen of the United States as of the date of the enactment of this section if such individual is not a citizen of the United States under any other Act.

AMENDMENT NO. 227 OFFERED BY MR. SOTO OF
FLORIDA

Page 76, before line 14, add the following new section:

SEC. 10003. EXPANDING THE SEMICONDUCTOR INCENTIVE PROGRAM TO INCLUDE NONPROFITS.

Section 9901(2) of William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116-283) is amended by inserting “a nonprofit entity” before “a private entity”.

AMENDMENT NO. 228 OFFERED BY MR. SOTO OF
FLORIDA

At the end of division J, add the following new title:

TITLE V—AI JOBS ACT OF 2021

SEC. 90501. SENSE OF CONGRESS.

It is the sense of Congress that technology can improve the lives of individuals, but can also disrupt jobs, and for this reason, innovation should be encouraged while training and retraining American workers for our 21st century economy.

SEC. 90502. REPORT ON ARTIFICIAL INTELLIGENCE.

(a) **REPORT REQUIREMENTS.**—Not later than 1 year after the date of the enactment of this Act, the Secretary of Labor, in collaboration with the individuals and entities described in subsection (b), shall prepare and submit to the Committee on Education and Labor of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate, a report on artificial intelligence and its impact on the workforce, which shall include the following:

(1) Outline the specific data, and the availability of such data, necessary to properly analyze the impact and growth of artificial intelligence.

(2) Identification of industries that are projected to have the most growth in artificial intelligence use, and whether the technology will result in the enhancement of workers' capabilities or their replacement.

(3) Analysis of the expertise and education (including computer science literacy) needed to develop, operate, or work alongside artificial intelligence over the next two decades, as compared to the levels of such expertise and education among the workforce as of the date of enactment of this Act.

(4) Analysis of which demographics (including ethnic, gender, economic, age, and regional) may experience expanded career opportunities, and which such demographics may be vulnerable to career displacement, due to artificial intelligence.

(5) Any recommendations to alleviate workforce displacement, prepare future workforce members for the artificial-intelligence economy, and any other relevant observations or recommendations within the field of artificial intelligence.

(b) **COLLABORATION.**—In preparing the report under subsection (a), the Secretary of Labor shall collaborate, through a series of public meetings, roundtables or other methods, with—

(1) local educational agencies, institutions of higher education (including community colleges), workforce-training organizations, and National Laboratories;

(2) a broad range of industrial stakeholders in the technology, manufacturing, and service sectors, including companies (large and small), think tanks, and industry organizations;

(3) the National Academies of Science, including by sharing relevant information obtained as a result of the study conducted under section 5105 of the National Artificial Intelligence Initiative Act of 2020; and

(4) the Secretary of Commerce, the National Science Foundation, and the heads of any other Federal agency the Secretary of Labor determines appropriate.

SEC. 90503. DEFINITIONS.

In this title:

(1) **ARTIFICIAL INTELLIGENCE.**—The term “artificial intelligence” has the meaning given the term in section 5002 of the National Artificial Intelligence Initiative Act of 2020 (15 U.S.C. 9401).

(2) **COMMUNITY COLLEGE.**—The term “community college” has the meaning given the term “junior or community college” in section 312(f) of the Higher Education Act of 1965 (20 U.S.C. 1058(f)).

(3) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given the term in section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002).

(4) **LOCAL EDUCATIONAL AGENCY.**—The term “local educational agency” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

AMENDMENT NO. 231 OFFERED BY MS. SPANBERGER OF VIRGINIA

Page 1848, line 21, insert “transportation,” before “and other sectors”.

AMENDMENT NO. 232 OFFERED BY MS. SPANBERGER OF VIRGINIA

At the end of subtitle A of title II of division D, add the following:

SEC. 30219H. REPORT ON MULTILATERAL EFFORTS TO ADDRESS LATIN AMERICAN FENTANYL TRAFFICKING AND EFFORTS BETWEEN LATIN AMERICA AND CHINA ON FENTANYL TRAFFICKING.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the Attorney General and the Secretary of the Treasury, shall submit to the appropriate congressional committees a written report that contains—

(1) a description of United States Government efforts to gain a commitment from the governments of Latin American countries to combat the production and flow of illicit fentanyl products and the metrics used to measure the success of existing bilateral agreements with individual Latin American countries;

(2) a plan for future steps the United States Government will take to urge the Latin American governments to combat illicit fentanyl production and trafficking originating in their respective countries;

(3) a description of efforts between China and Latin American countries to combat the production and flow of illicit fentanyl products originating in China and Latin America;

(4) a description of United States Government efforts to urge China and Latin American countries to detect and deter the financing of the production and flow of illicit fentanyl products originating in China and Latin America, to trace the proceeds of their sale, and to combat related corruption; and

(5) a plan for future steps the United States Government will take to urge the Latin American governments and Chinese Government to address transnational criminal organizations and combat illicit fentanyl production and trafficking originating in their respective countries.

(b) **FORM OF REPORT.**—The report required by subsection (a) shall be submitted in unclassified form with a classified annex.

(c) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on the Judiciary, and the Committee on Financial Services of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on the Judiciary, and the Committee on Banking, Housing, and Urban Affairs of the Senate.

AMENDMENT NO. 233 OFFERED BY MS. SPANBERGER OF VIRGINIA

Page 689, line 12, before the period, insert the following: “, including the effect on consumer prices, job losses, national security, or economic competitiveness”.

AMENDMENT NO. 234 OFFERED BY MS. SPEIER OF CALIFORNIA

Page 526, strike line 8.

Page 526, line 12, strike the period and insert “; and”.

Page 526, after line 12, insert the following:

(3) take into consideration any reports filed under subsection (d)(1) when issuing grant awards, cooperative agreements, or contracts.

AMENDMENT NO. 236 OFFERED BY MS. STANSBURG OF NEW MEXICO

Add at the end of title III of division B the following new section:

SEC. 10310. MICROGRAVITY UTILIZATION POLICY.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that space technology and the utilization of the microgravity environment for science, engineering, and technology development is critical to long-term competitiveness with near-peer competitors, including China.

(b) **POLICY.**—To the greatest extent appropriate, the National Science Foundation (in this section referred to as the “Foundation”) shall facilitate access to the microgravity environment for awardees of funding from the Foundation, including in private sector platforms, for the development of science, engineering, and technology.

(c) **REPORT.**—Not later than 180 days after the date of enactment of this Act, the Director of the Foundation shall provide to the appropriate committees of Congress a report on the Foundation's plan for facilitating awardee access to the microgravity environment.

AMENDMENT NO. 241 OFFERED BY MS. STRICKLAND OF WASHINGTON

At the end of title VI of division K, add the following:

SEC. 106005. PROHIBITION ON LARGE SCALE TRANSPORTATION OF SODIUM CYANIDE BRIQUETTES FOR MINING PURPOSES IN THE UNITED STATES.

The Secretary of Commerce, in coordination with the Secretary of Transportation and the Secretary of Homeland Security, shall—

(1) not later than 90 days after the date of enactment of this Act, issue an interim final rule that is effective not later than 30 days after publication in the Federal Register that bans the transportation of sodium cyanide briquettes for mining purposes in the United States, unless such sodium cyanide briquettes are packaged and transported in ISO steel containers and in accordance with the material's authorized packaging and transportation requirements under parts 171 through 180 of title 49, Code of Federal Regulations; and

(2) complete, not later than 1 year after the date of enactment of this Act, a rule-making investigating and evaluating the impact on the supply chain, competitiveness, national security, labor, and safety implications of the transportation of sodium cyanide briquettes for mining purposes in the United States using a transportation method other than ISO steel containers, in accordance with the material's authorized packaging and transportation requirements.

AMENDMENT NO. 242 OFFERED BY MR. SWALLWELL OF CALIFORNIA

At the end of title V of division D, insert the following:

SEC. 30504. REPORT ON SUPPORT FOR BIODEFENSE STEERING COMMITTEE IN IMPLEMENTATION OF NATIONAL BIODEFENSE STRATEGY.

(a) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Director of National Intelligence, in coordination with the heads of such other elements of the intelligence community as the Director may determine relevant, shall submit to the congressional intelligence committees a report on the efforts of the intelligence community to support the Biodefense Steering Committee in the implementation of the National Biodefense Strategy.

(b) **MATTERS.**—The report under subsection (a) shall include the following:

(1) A description of any previous, ongoing, or planned efforts or activities of the intelligence community to support the implementation of the National Biodefense Strategy by the Biodefense Steering Committee.

(2) An inventory and assessment of any existing strategy, plan, or policy of the intelligence community, or interagency agreement entered into by the intelligence community, that relates to the provision of support to the Biodefense Steering Committee, including for the implementation of the National Biodefense Strategy.

(3) A description of assessed opportunities for the intelligence community to further enhance the capabilities and effectiveness of the Biodefense Steering Committee with respect to the implementation of the National Biodefense Strategy.

(4) An assessment of foreign biological threats emanating from the territory of, or sponsored by, a covered country.

(c) FORM.—The report under subsection (a) may be submitted in classified form.

(d) DEFINITIONS.—In this section:

(1) **BIODEFENSE.**—The term “biodefense” includes actions to counter biological threats, reduce risks relating to biological threats, and prepare for, respond to, and recover from, biological incidents.

(2) **BIODEFENSE STEERING COMMITTEE.**—The term “Biodefense Steering Committee” means the committee established pursuant to the presidential memorandum issued on September 18, 2018, and titled “Presidential Memorandum on the Support for National Biodefense”, or any successor to such committee.

(3) **BIOLOGICAL THREAT.**—The term “biological threat” includes biological warfare, bioterrorism, naturally occurring infectious diseases, and accidental exposures.

(4) **CONGRESSIONAL INTELLIGENCE COMMITTEES; INTELLIGENCE COMMUNITY.**—The terms “congressional intelligence committees” and “intelligence community” have the meanings given those terms in section 3 of the National Security Act of 1947 (50 U.S.C. 3003).

(5) **COVERED COUNTRY.**—The term “covered country” means—

- (A) the People’s Republic of China;
- (B) the Russian Federation;
- (C) the Islamic Republic of Iran;
- (D) the Democratic People’s Republic of Korea;

(E) any country with a known history of, or assessed to have conditions present for, infectious disease outbreaks or epidemics; and

(F) any other country the Director of National Intelligence determines appropriate.

(6) **FOREIGN BIOLOGICAL THREAT.**—The term “foreign biological threat” means biological warfare, bioterrorism, naturally occurring infectious diseases, and accidental exposures to biological materials, without regard to whether the threat originates from a state actor, a non-state actor, natural conditions, or an undetermined source.

(7) **NATIONAL BIODEFENSE STRATEGY.**—The term “National Biodefense Strategy” means the strategy specified in section 1086 of the National Defense Authorization Act for Fiscal Year 2017 (6 U.S.C. 104).

AMENDMENT NO. 243 OFFERED BY MR. TAKANO OF CALIFORNIA

At the end of title III of division C, add the following:

SEC. 20303. CONSIDERATION OF ENERGY STORAGE SYSTEMS.

(a) **IN GENERAL.**—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

“(22) **CONSIDERATION OF ENERGY STORAGE SYSTEMS.**—Each State shall consider requiring that, as part of a supply side resource planning process, an electric utility of the State demonstrate to the State that the electric utility considered an investment in energy storage systems based on appropriate factors, including—

“(A) total costs and normalized life cycle costs;

“(B) cost effectiveness;

“(C) improved reliability;

“(D) security; and

“(E) system performance and efficiency.”.

(b) **TIME LIMITATIONS.**—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(9)(A) Not later than 1 year after the date of enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which the State regulatory authority has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for consideration, with respect to the standard established by paragraph (22) of section 111(d).

“(B) Not later than 2 years after the date of enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which the State regulatory authority has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to the standard established by paragraph (22) of section 111(d).”.

(c) **FAILURE TO COMPLY.**—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended—

(1) by striking “subsection (b)(2)” and inserting “subsection (b)”;

(2) by adding at the end the following: “In the case of the standard established by paragraph (22) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of that paragraph.”.

(d) **PRIOR STATE ACTIONS.**—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

“(i) **PRIOR STATE ACTIONS.**—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (22) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard);

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.”.

(e) **PRIOR AND PENDING PROCEEDINGS.**—Section 124 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2634) is amended by adding at the end the following: “In the case of the standard established by paragraph (22) of section 111(d), the reference contained in this section to the date of the enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (22).”.

SEC. 20304. COORDINATION OF PROGRAMS.

To the maximum extent practicable, the Secretary of Energy shall ensure that the funding and administration of the different offices within the Grid Modernization Initiative of the Department of Energy and other programs conducting energy storage research are coordinated and streamlined.

AMENDMENT NO. 245 OFFERED BY MR. TONKO OF NEW YORK

At the end of title III of division C, add the following:

SEC. 20303. STATE FLEX-TECH ENERGY PROGRAM.

(a) **IN GENERAL.**—Part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.) is amended by adding at the end the following:

“SEC. 367. FLEX-TECH ENERGY PROGRAM TO ENHANCE MANUFACTURING COMPETITIVENESS.

“(a) **FINANCIAL ASSISTANCE.**—Upon request from the State energy agency of a State that has in effect an approved State energy conservation plan under this part, or an Indian Tribe, the Secretary shall provide financial assistance to such State energy agency or Indian Tribe to be used for the development, implementation, improvement, or expansion of a flex-tech energy program described in subsection (b) to enhance manufacturing competitiveness.

“(b) **FLEX-TECH ENERGY PROGRAM ELEMENTS.**—

“(1) **IN GENERAL.**—A flex-tech energy program may include—

“(A) provision of technical and administrative assistance to manufacturers through qualified engineering firms, as determined by the State energy agency or Indian Tribe;

“(B) provision of financial assistance to manufacturers—

“(i) for energy studies of manufacturing facilities that are conducted by qualified engineering firms; and

“(ii) to support the implementation of the measures and recommendations identified in energy studies conducted pursuant to clause (i), including the design, acquisition, installation, testing, operation, maintenance, and repair of energy- and water-using systems, resiliency-related measures, emissions reduction-related measures, utility cost savings measures, and measures related to advanced manufacturing technologies and artificial intelligence; and

“(C) reporting on monitoring, tracking, and success metrics of the program.

“(2) **STUDIES.**—An energy study of a manufacturing facility conducted pursuant to paragraph (1)(B) may include—

“(A) an evaluation of the energy-using systems of the facility, including evaluation of the performance of such systems relative to design intent, operational needs of the facility and its occupants, and operation and maintenance procedures;

“(B) an evaluation of emissions related to the facility, including greenhouse gas emissions, and recommendations on sustainability planning and practices;

“(C) an evaluation of potential energy efficiency, water efficiency, greenhouse gas emissions mitigation, and load reduction measures for the facility;

“(D) an evaluation of potential on-site energy measures, including grid-interactive efficiency systems, combined heat and power, efficient compressed air systems, energy storage, energy management systems, renewable thermal systems, and electrification or other forms of fuel switching;

“(E) recommendations on the use of new technologies by the applicable manufacturer; and

“(F) detailed estimates of potential implementation costs, operating cost savings, energy savings, emissions reductions, and simple payback periods, for measures and recommendations identified in such study.

“(3) **QUALIFIED ENGINEERING FIRMS.**—A State energy agency or Indian Tribe administering a flex-tech energy program shall maintain and regularly update a publicly available list of qualified engineering firms that are approved by the State energy agency or Indian Tribe to provide assistance to manufacturers pursuant to this section.

“(c) **FUNDING.**—

“(1) **ALLOCATION.**—Except as provided in paragraph (2), to the extent practicable, the

Secretary shall allocate funding made available to carry out this section in accordance with the formula used for distribution of Federal financial assistance provided pursuant to this part to States that have in effect an approved State energy conservation plan under this part.

“(2) INDIAN TRIBES.—The Secretary shall set aside and distribute not less than 5 percent of amounts made available for each fiscal year to carry out this section to provide financial assistance—

“(A) to Indian Tribes; or

“(B) directly to manufacturers located in Indian Country or, in the case of Alaska, an Alaska Native Village Statistical Area, as identified by the U.S. Census Bureau, for energy studies and implementation of the measures and recommendations identified in such energy studies, as described in subsection (b)(1)(B).

“(3) USE OF FUNDS.—

“(A) ENERGY STUDIES; ADMINISTRATIVE EXPENSES.—A State energy agency or Indian Tribe that receives financial assistance pursuant to this section for a fiscal year may not—

“(i) use more than 50 percent of such financial assistance for energy studies;

“(ii) use more than 50 percent of such financial assistance to support the implementation of recommendations from such energy studies; and

“(iii) use more than 10 percent of such financial assistance for administrative expenses, including for outreach and technical assistance.

“(B) INDIVIDUAL MANUFACTURING FACILITY.—A State energy agency that receives financial assistance pursuant to this section for a fiscal year may not use more than 5 percent of such financial assistance with respect to an individual manufacturing facility.

“(4) SUPPLEMENT.—Financial assistance provided to a State energy agency or Indian Tribe pursuant to this section shall be used to supplement, not supplant, any Federal, State, or other funds otherwise made available to such State under this part.

“(5) FINANCING.—To the extent practicable, a State energy agency or Indian Tribe shall implement a flex-tech energy program described in subsection (b) using funding provided under this Act, public financing, private financing, or any other sources of funds.

“(d) TECHNICAL ASSISTANCE.—

“(1) IN GENERAL.—Upon request of a State energy agency or Indian Tribe, the Secretary shall provide information and technical assistance in the development, implementation, improvement, or expansion of a flex-tech energy program described in subsection (b).

“(2) INCLUSIONS.—Technical assistance provided pursuant to paragraph (1) may include program design options to, with respect to manufacturers that employ fewer than 500 full-time equivalent employees at a manufacturing facility—

“(A) meet the needs of such manufacturers; and

“(B) encourage the use of advanced manufacturing processes by such manufacturers, including use of additive manufacturing, advanced sensors and controls, techniques to reduce embedded emissions, and advanced composite materials.

“(e) DEFINITIONS.—In this section:

“(1) INDIAN COUNTRY.—The term ‘Indian Country’ means—

“(A) all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and, including rights-of-way running through the reservation;

“(B) all dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a State; and

“(C) all Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same.

“(2) INDIAN TRIBE.—The term ‘Indian Tribe’ has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

“(3) STATE ENERGY AGENCY.—The term ‘State energy agency’ has the meaning given such term in section 391(10).”

(b) CONFORMING AMENDMENT.—The table of contents for the Energy Policy and Conservation Act is amended by adding after the item related to section 366 the following:

“Sec. 367. Flex-tech energy program to enhance manufacturing competitiveness.”

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended by adding at the end the following:

“(3) FLEX-TECH ENERGY PROGRAM TO ENHANCE MANUFACTURING COMPETITIVENESS.—In addition to the authorization of appropriations under paragraph (1), for the purposes of carrying out section 367, there is authorized to be appropriated \$100,000,000 for each of fiscal years 2022 through 2026.”

AMENDMENT NO. 246 OFFERED BY MRS. TORRES OF CALIFORNIA

Page 1038, line 5, insert “, including for indigenous and African-descendant communities” before the semicolon.

Page 1038, line 15, insert “, including for indigenous and African-descendant communities” before the semicolon.

Page 1039, line 6, insert “national, regional, and local” after “strengthen”.

AMENDMENT NO. 247 OFFERED BY MRS. TORRES OF CALIFORNIA

In section 30247, add at the end the following:

(d) REPORT ON IMET ACTIVITIES.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall provide a report to the House and Senate Appropriations Committees, House and Senate Armed Services Committee, Senate Foreign Relations Committee, and House Foreign Affairs Committee a report on the use of the International Military Education and Training Program (IMET) in the countries of Latin America since 2012, including relating to the following:

(A) The number of security units trained in each country.

(B) Which security service units, by country and unit, received IMET education and training despite credible allegations of corruption, impeding democratic processes, or involvement in drug trafficking prior to IMET program.

(C) Which security service units, by country and unit, received IMET education and training, and subsequently had credible allegations of corruption, impeding democratic processes, or involvement in drug trafficking.

(D) Which security service units, by country and unit, were involved in violations of human rights subsequent to their involvement in IMET programs.

(2) FORM.—The report required under paragraph (1) shall be submitted in unclassified form but may contain a classified annex if necessary.

AMENDMENT NO. 248 OFFERED BY MRS. TORRES OF CALIFORNIA

Page 1047, line 3, strike “and” after the semicolon.

Page 1047, line 6, strike the period and insert “; and”.

“(4) \$10,948,625,004 for fiscal year 2025; and

“(5) \$11,300,798,345 for fiscal year 2026.”.

AMENDMENT NO. 251 OFFERED BY MRS. TRAHAN OF MASSACHUSETTS

Page 829, after line 23 insert the following:

SEC. 20419. HIGH-QUALITY MASKS FOR CHILDREN.

(a) INCLUSION IN STOCKPILE.—Section 319F-2(a)(1) of the Public Health Service Act (42 U.S.C. 247d-6b(a)(1)) is amended by inserting after “shall maintain a stockpile or stockpiles of drugs, vaccines and other biological products, medical devices, and other supplies (including personal protective equipment)” the following: “(which may include high-quality pediatric masks, a percentage of which may be small adult masks for pediatric use)”.

(b) GUIDANCE FOR PEDIATRIC MASKS.—The Secretary of Health and Human Services, in consultation with the Director of the National Institute for Occupational Safety and Health, pediatricians, child health care provider organizations, manufacturers, and other relevant stakeholders, shall—

(1) develop guidelines for the use of respirators, barrier face coverings, or masks for use in pediatric populations, which may be made available through the Strategic National Stockpile under section 319F-2 of the Public Health Service Act (42 U.S.C. 247d-6b) for public health emergencies declared under section 319 of such Act (42 U.S.C. 247d); and

(2) not later than 180 days after the date of enactment of this Act, submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor and Pensions of the Senate a report on pediatric masks that includes the guidelines developed under paragraph (1).

AMENDMENT NO. 252 OFFERED BY MS.

UNDERWOOD OF ILLINOIS

Page 490, strike line 4.

Page 490, after line 3, insert the following:

(x) creating partnerships with local industries and local educational agencies to tailor STEM curricula and educational experiences to the needs of a particular local or regional economy; and

AMENDMENT NO. 253 OFFERED BY MS. VELÁZQUEZ OF NEW YORK

At the end of title VI of division B, insert the following new subtitle:

Subtitle G—SBIR, STTR, and Pilot Extensions

SEC. 10671. SMALL BUSINESS INNOVATION PROGRAMS AND PILOT EXTENSIONS.

Section 9 of the Small Business Act (15 U.S.C. 638) is amended by striking "2022" each place it appears and inserting "2027".

AMENDMENT NO. 254 OFFERED BY MR. WELCH OF VERMONT

Page 766, after line 18, add the following:

(c) **USE OF FUNDS.**—The Corporation may only use funds provided under subsection (a) to promote travel from countries the citizens and nationals of which are permitted to enter into the United States.

(d) **REPORT REQUIRED.**—Not later than 60 days after the date of the enactment of this Act, Brand USA shall submit to Congress a plan for obligating and expending the amounts described in subsection (a).

AMENDMENT NO. 257 OFFERED BY MS. WILD OF PENNSYLVANIA

Insert after section 30226 the following:

SEC. 30227. PROHIBITION ON CERTAIN ASSISTANCE TO THE PHILIPPINES.

(a) **IN GENERAL.**—No funds authorized to be appropriated or otherwise made available by this Act are authorized to be made available to provide assistance for the Philippine National Police, including assistance in the form of equipment or training, until the Secretary of State certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate that the Government of the Philippines has—

(1) investigated and successfully prosecuted members of the Philippine National Police who have violated human rights, ensured that police personnel cooperated with judicial authorities in such cases, and affirmed that such violations have ceased;

(2) established that the Philippine National Police effectively protects the rights of trade unionists, journalists, human rights defenders, critics of the government, faith and religious leaders, and other civil society activists to operate without interference;

(3) taken effective steps to guarantee a judicial system that is capable of investigating, prosecuting, and bringing to justice members of the police and military who have committed human rights abuses; and

(4) fully complied with domestic and United States audits and investigations regarding the improper use of prior security assistance.

(b) **WAIVER.**—The President may, on a case-by-case basis and for periods not to exceed 180 days each, waive the prohibition under subsection (a) if the President certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate not later than 15 days before such waiver is to take effect that such waiver is vital to the national security interests of the United States or its partners and allies.

AMENDMENT NO. 259 OFFERED BY MS. WILLIAMS OF GEORGIA

Page 504, line 20, after "research," insert "facilitate professional development, and provide mentorship".

Page 508, line 2, after "grant proposals", insert "and how to bolster grant management capacity for the entire grant lifecycle, from application to completion".

The **SPEAKER** pro tempore. Pursuant to House Resolution 900, the gen-

tlewoman from Texas (Ms. JOHNSON) and the gentleman from Texas (Mr. BABIN) each will control 10 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JOHNSON of Texas. Madam Speaker, I yield myself such time as I may consume.

We have examined all of the amendments. I support them all, and I reserve the balance of my time.

Mr. BABIN. Madam Speaker, this bloc of amendments includes nearly every single Democrat amendment that was made in order by the Rules Committee. I can't pretend to know why these particular amendments were made in order because that decision was made behind closed doors rather than in a bipartisan manner.

I will say that the sheer number of amendments being considered en bloc shows that even Members of the Speaker's own party didn't have the chance to contribute to the underlying bill until now.

I will also say that, unfortunately, most of these provisions take a bad bill and simply make it worse. These amendments add studies on declining salmon populations, direct USDA to research fake meat, and establish an entirely new institute to focus on zero-emission locomotives.

Whether or not any of these are worthy policies, I think we can all agree that they do not belong in a legislative package meant to address the threat of the Chinese Communist Party and to make America more competitive globally.

America's economic success for generations has been driven by our investment in transformational basic research. The Chinese Communist Party wants to copy that success and take over as the global leader in science and technology. They are investing more money in R&D than we are and graduating many more STEM professionals than we are as well.

They have a laser focus on surpassing the United States and reaping the economic and national defense benefits that come with technological superiority.

They aren't wasting time on fake meat and trains, and we should not be either.

I urge my colleagues to oppose these amendments, and I yield back the balance of my time.

Ms. JOHNSON of Texas. Madam Speaker, I yield back the balance of my time.

Mr. SHERMAN. Madam Speaker, I include in the **RECORD** the accompanying three letters from Americans for Financial Reform, the Consumer Federation of America, and Public Citizen, which express support for my amendment, No. 573, which was included in En Bloc amendment No. 1 to H.R. 4521.

AMERICANS FOR
FINANCIAL REFORM,
February 2, 2022.

DEAR MEMBERS OF THE COMMITTEE: Americans for Financial Reform support Chairman Sherman's amendments to amend H.R. 4521, the America COMPETES Act.

We support Representative Sherman's amendments that would close some of the gaps that allow covered companies to escape from financial reporting requirements with the Securities and Exchange Commission through exemptions in Regulation D, Regulation S, and Rule 144A. This would increase transparency and accountability.

The amendment would require identification of:

Issuer
Issuer's place of incorporation
Amount of issuance
Principal beneficiaries of issuer
Use of proceeds, including each country and industry where proceeds are invested.

Sincerely,
AMERICANS FOR FINANCIAL REFORM.

CONSUMER FEDERATION OF AMERICA,
February 2, 2022.

Re Support for Amendment #573 to H.R. 4521.
Hon. BRAD SHERMAN,
Washington, DC.

DEAR CONGRESSMAN SHERMAN: On behalf of the Consumer Federation of America (CFA), I am writing to express support for your amendment to H.R. 4521, the America COMPETES Act of 2022. By requiring certain privately held issuers to disclose basic information to the U.S. Securities and Exchange Commission (SEC), your amendment will promote additional transparency in the "private placement" market and enhance investor protection.

CFA has long been concerned about the rapid expansion and relative opacity of the private securities markets. Under the current exempt offering framework, foreign and domestic issuers can access virtually unlimited amounts of private capital without ever having to register with the SEC or engage in ongoing reporting under the Securities Exchange Act of 1934. Moreover, many other stakeholders, including state securities regulators, SEC Commissioners, leading academics and practitioners, and others—have echoed CFA's concerns in this regard.

In December of 2020, Congress passed the Holding Foreign Companies Accountable Act, which requires that any U.S. exchange-listed foreign company be delisted if, for three consecutive years, the PCAOB is unable to inspect the primary auditor of that company. As hearings held by the House Financial Services Subcommittee on Investor Protection, Entrepreneurship and Capital Markets have established, in the event that foreign issuers—and especially issuers based in the People's Republic of China (PRC), are prevented from listing on U.S. securities exchanges pursuant to the Holding Foreign Companies Accountable Act, it is possible and indeed likely that such issuers may attempt to utilize the exempt offering framework as a means to continue to raise large amounts of capital from U.S. investors. Your amendment anticipates this possibility and takes important steps to prevent it.

In summary, your amendment will enact important reforms to the exempt offering framework to enhance transparency for the investing public with respect to privately issued securities sold by foreign issuers. Such reforms are commendable in-and-of themselves. Your amendment would also compliment the Holding Foreign Companies Accountable Act by making it more difficult for foreign issuers to ignore its requirements while continuing to raise capital from U.S. investors. For those reasons, CFA is pleased to support your amendment.

Thank you for your attention to CFA's views. Please do not hesitate to contact me should you have any questions.

Sincerely,
DYLAN BRUCE,
Financial Services Counsel,
Consumer Federation of America.

PUBLIC CITIZEN,

Washington, DC, February 2, 2022.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington DC.

DEAR SPEAKER PELOSI: On behalf of more than 500,000 members and supporters of Public Citizen, we support an amendment sponsored by Rep. BRAD SHERMAN (D-Calif) to the "America COMPETES Act" regarding disclosure requirements of certain securities transactions, including those involving Chinese corporations.

Currently, foreign companies that wish to raise capital in American securities markets may do so through a number of exemptions (Rule 506(b), Regulation S, or Rule 144a) that allow them to avoid basic disclosures that apply to standard securities. In fact, more than 60 percent of capital raised in US securities markets is generated under one of these exemptions, according to a report from the Securities and Exchange Commission (SEC). As a matter of national security and basic investor protection, we believe that improved disclosure is warranted.

The Sherman Amendment would require firms using one of these exemptions to disclose: the place of incorporation of the issuer; the amount of capital raised; the principal beneficial owners; the intended use of the proceeds; each country in which the issuer intends to invest the proceeds; and each industry in which the issuer intends to invest such proceeds. This amendment will apply to transactions of more than \$25 million, or those the aggregate to more than \$50 million in a one-year period. Finally, the SEC must report to the House Financial Services Committee all those transactions that relate either to a firm incorporated in the People's Republic of China or maintains significant entities within China that are consolidated in the parent company.

We believe these additional disclosures will be valuable to investors as well as those responsible for national security to better understand how American capital is deployed.

For questions, please contact Bartlett Naylor.

Sincerely,

PUBLIC CITIZEN.

The SPEAKER pro tempore. Pursuant to House Resolution Number 900, the previous question is ordered on the amendments en bloc offered by the gentlewoman from Texas (Ms. JOHNSON).

The question is on the amendments en bloc.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BABIN. Madam Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENTS EN BLOC NO. 2 OFFERED BY MS. BONAMICI OF OREGON

Ms. BONAMICI. Madam Speaker, as the designee of Chairwoman JOHNSON, pursuant to House Resolution 900, I offer amendments en bloc.

The SPEAKER pro tempore. The Clerk will designate the amendments en bloc.

Amendments en bloc 2 consisting of amendment Nos. 8, 15, 18, 25, 44, 47, 51, 52, 53, 54, 55, 57, 59, 60, 62, 76, 78, 81, 82,

83, 88, 95, 100, 101, 107, 111, 114, 117, 118, 119, 120, 135, 137, 162, 174, 178, 187, 197, 202, 203, 204, 206, 211, 212, 229, 230, 235, 237, 238, 249, 255, 256, and 258 printed in part D of House Report 117-241, offered by Ms. BONAMICI of Oregon:

AMENDMENT NO. 8 OFFERED BY MR. BANKS OF INDIANA

Insert after section 30325 the following:

SEC. 30326. DETERMINATION WITH RESPECT TO THE IMPOSITION OF SANCTIONS ON ENTITIES INVOLVED IN USING UYGHUR FORCED LABOR.

(a) FINDINGS.—Congress finds the following:

(1) U.S. Customs and Border Protection seized a shipment of 40.31 megawatts of modules manufactured by LONGi Green Energy Technology Co. in October 2021 out of the concerns that LONGi used forced Uyghur labor in Xinjiang.

(2) The Department of Commerce added five Chinese entities to the entity list for participating in using forced Uyghur labor in Xinjiang in June 2021, these entities include: Hoshine Silicon Industry (Shanshan) Co., Ltd, Xinjiang Daqo New Energy Co., Ltd, Xinjiang East Hope Nonferrous Metals Co., Ltd, and Xinjiang GCL New Energy, Xinjiang Production and Construction Corps (XPCC).

(3) The Uyghur Human Rights Policy Act of 2021 (Public Law 116-145), as amended by Public Law 117-78, requires the President to impose asset blocking sanctions on foreign persons responsible for serious human rights abuses in connection with forced labor in Xinjiang, China.

(b) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Treasury, in consultation with the Secretary of State, shall report to the appropriate congressional committees a determination, including a detailed justification, regarding whether LONGi Green Energy Technology Co., Hoshine Silicon Industry (Shanshan) Co., Ltd, Xinjiang Daqo New Energy Co., Ltd, Xinjiang East Hope Nonferrous Metals Co., Ltd, and Xinjiang GCL New Energy, each meets the criteria for designation under section 6 of the Uyghur Human Rights Policy Act (Public Law 116-145), as amended by section 5 of the Uyghur Forced Labor Prevention Act (Public Law 117-78).

(b) PUBLIC AVAILABILITY OF INFORMATION.—The report required under this section shall be made available on a publicly available website of the Federal Government.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term "appropriate congressional committees" means—

(1) the Committee on Banking, Housing, and Urban Affairs, the Committee on Finance, the Committee on Foreign Relations, and the Committee on Armed Services of the Senate; and

(2) the Committee on Financial Services, the Committee on Ways and Means, the Committee on Foreign Affairs, and the Committee on Armed Services of the House of Representatives.

AMENDMENT NO. 15 OFFERED BY MS. BONAMICI OF OREGON

Page 641, after line 22, insert the following:

Subtitle G—Coastal and Ocean Acidification Stressors and Threats Research

SECTION 10671. SHORT TITLE.

this subtitle may be cited as the "Coastal and Ocean Acidification Stressors and Threats Research Act of 2021" or the "COAST Research Act of 2021".

SEC. 10672. PURPOSES.

(a) IN GENERAL.—Section 12402(a) of the Federal Ocean Acidification Research and

Monitoring Act of 2009 (33 U.S.C. 3701(a)) is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A), by striking "development and coordination" and inserting "coordination and implementation";

(B) in subparagraph (A), by striking "acidification on marine organisms" and inserting "acidification and coastal acidification on marine organisms"; and

(C) in subparagraph (B), by striking "establish" and all that follows through the semicolon and inserting "maintain and advise an interagency research, monitoring, and public outreach program on ocean acidification and coastal acidification";

(2) in paragraph (2), by striking "establishment" and inserting "maintenance";

(3) in paragraph (3), by inserting "and coastal acidification" after "ocean acidification"; and

(4) in paragraph (4), by inserting "and coastal acidification that take into account other environmental and anthropogenic stressors" after "ocean acidification".

(b) TECHNICAL AND CONFORMING AMENDMENT.—Section 12402 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3701(a)) is amended by striking "(a) PURPOSES.—".

SEC. 10673. DEFINITIONS.

Section 12403 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3702) is amended—

(1) in paragraph (1), by striking "of the Earth's oceans" and all that follows before the period at the end and inserting "and changes in the water chemistry of the Earth's oceans, coastal estuaries, and waterways caused by carbon dioxide from the atmosphere and the breakdown of organic matter";

(2) in paragraph (3), by striking "Joint Subcommittee on Ocean Science and Technology of the National Science and Technology Council" and inserting "National Science and Technology Council Subcommittee on Ocean Science and Technology";

(3) by redesignating paragraphs (1), (2), and (3) as paragraphs (2), (3), and (4), respectively;

(4) by inserting before paragraph (2), as so redesignated, the following new paragraph:

"(1) COASTAL ACIDIFICATION.—The term 'coastal acidification' means the combined decrease in pH and changes in the water chemistry of coastal oceans, estuaries, and other bodies of water from chemical inputs (including carbon dioxide from the atmosphere), freshwater inputs, and excess nutrient run-off from land and coastal atmospheric pollution that result in processes that release carbon dioxide, acidic nitrogen, and sulfur compounds as byproducts which end up in coastal waters.";

(5) by adding at the end the following new paragraph:

"(5) STATE.—The term 'State' means each State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the Virgin Islands of the United States, and any other territory or possession of the United States.".

SEC. 10674. INTERAGENCY WORKING GROUP.

Section 12404 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3703) is amended—

(1) in the heading, by striking "SUB-COMMITTEE" and inserting "WORKING GROUP";

(2) in subsection (a)—

(A) in paragraph (1), by striking “Joint Subcommittee on Ocean Science and Technology of the National Science and Technology Council shall coordinate Federal activities on ocean acidification and establish” and insert “Subcommittee shall establish and maintain”;

(B) in paragraph (2), by striking “Wildlife Service,” and inserting “Wildlife Service, the Bureau of Ocean Energy Management, the Environmental Protection Agency, the Department of Agriculture, the Department of State, the Department of Energy, the Department of the Navy, the National Park Service, the Bureau of Indian Affairs, the National Institute of Standards and Technology, the Smithsonian Institution,”; and

(C) in paragraph (3), in the heading, by striking “CHAIRMAN” and inserting “CHAIR”;

(3) in subsection (b)—

(A) in paragraph (1), by inserting “, including the efforts of the National Oceanic and Atmospheric Administration to facilitate such implementation” after “of the plan”;

(B) in paragraph (2)—

(i) in subparagraph (A), by inserting “and coastal acidification” after “ocean acidification”;

(ii) in subparagraph (B), by inserting “and coastal acidification” after “ocean acidification”;

(C) in paragraph (4), by striking “; and” and inserting a semicolon;

(D) in paragraph (5)—

(i) by striking “developed” and inserting “and coastal acidification developed”;

(ii) by striking the period at the end and inserting “and coastal acidification; and”;

(E) by adding at the end the following new paragraph:

“(6) ensure that each of the Federal agencies represented on the interagency working group—

“(A) participates in the Ocean Acidification Information Exchange established under paragraph (5); and

“(B) delivers data and information to support the data archive system established under section 12406(d).”;

(4) in subsection (c), in paragraph (2)—

(A) by inserting “, and to the Office of Management and Budget,” after “House of Representatives”;

(B) in subparagraph (B), by striking “the interagency research” and inserting “interagency strategic research”;

(5) by redesignating subsection (c) as subsection (d); and

(6) by inserting after subsection (b) the following:

“(c) ADVISORY BOARD.—

“(1) ESTABLISHMENT.—The Chair of the Subcommittee shall establish an Ocean Acidification Advisory Board.

“(2) DUTIES.—The Advisory Board shall—

“(A) not later than 180 days before the Subcommittee submits the most recent report under subsection (d)(2)—

“(i) review such report;

“(ii) submit an analysis of such report to the Subcommittee for consideration in the final report submitted under subsection (d)(2); and

“(iii) concurrently with the Subcommittee’s final submission of the report under subsection (d)(2), the Advisory Board shall submit a copy of the analysis provided to the Subcommittee to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Natural Resources of the House of Representatives;

“(B) not later than 180 days before the Subcommittee submits the most recent strategic research plan under subsection (d)(3) to Congress—

“(i) review such plan;

“(ii) submit an analysis of such plan and the implementation thereof to the Subcommittee for consideration in the final strategic research plan submitted under subsection (d)(3); and

“(iii) concurrently with the Subcommittee’s final submission of the strategic research plan under subsection (d)(3), the Advisory Board shall submit a copy of the analysis provided to the Subcommittee to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Natural Resources of the House of Representatives;

“(C) provide ongoing advice to the Subcommittee and the interagency working group on matters related to Federal activities on ocean acidification and coastal acidification;

“(D) advise the Subcommittee and the interagency working group on—

“(i) efforts to coordinate research and monitoring activities related to ocean acidification and coastal acidification; and

“(ii) the best practices for the standards developed for data archiving under section 12406(e);

“(E) publish in the Federal Register a charter;

“(F) provide the Library of Congress with—

“(i) the charter described in subparagraph (E);

“(ii) any schedules and minutes for meetings of the Advisory Board;

“(iii) any documents that are approved by the Advisory Board; and

“(iv) any reports and analysis prepared by the Advisory Board; and

“(G) establish a publicly accessible web page on the website of the National Oceanic and Atmospheric Administration, that contains the information described in clauses (i) through (iv) of subparagraph (F).

“(3) MEMBERSHIP.—The Advisory Board shall consist of 24 members as follows:

“(A) Two representatives of the shellfish and crab industry.

“(B) One representative of the finfish industry.

“(C) One representative of seafood processors.

“(D) Three representatives from academia, including both natural and social sciences.

“(E) One representative of recreational fishing.

“(F) One representative of a relevant nongovernmental organization.

“(G) Six representatives from relevant State, local, and Tribal governments.

“(H) One representative from the Alaska Ocean Acidification Network or a subsequent entity that represents the same geographical region and has a similar purpose.

“(I) One representative from the California Current Acidification Network or a subsequent entity that represents the same geographical region and has a similar purpose.

“(J) One representative from the Northeast Coastal Acidification Network or a subsequent entity that represents the same geographical region and has a similar purpose.

“(K) One representative from the Southeast Coastal Acidification Network or a subsequent entity that represents the same geographical region and has a similar purpose.

“(L) One representative from the Gulf of Mexico Coastal Acidification Network or a subsequent entity that represents the same geographical region and has a similar purpose.

“(M) One representative from the Mid-Atlantic Coastal Acidification Network or a subsequent entity that represents the same

geographical region and has a similar purpose.

“(N) One representative from the Pacific Islands Ocean Observing System or a subsequent entity that represents the island territories and possessions of the United States in the Pacific Ocean, and the State of Hawaii and has a similar purpose.

“(O) One representative from the Caribbean Regional Association for Coastal Ocean Observing or a subsequent entity that represents Puerto Rico and the United States Virgin Islands and has a similar purpose.

“(P) One representative from the National Oceanic and Atmospheric Administration shall serve as an ex-officio member of the Advisory Board without a vote.

“(4) APPOINTMENT OF MEMBERS.—The Chair of the Subcommittee shall—

“(A) appoint members to the Advisory Board (taking into account the geographical interests of each individual to be appointed as a member of the Advisory Board to ensure that an appropriate balance of geographical interests are represented by the members of the Advisory Board) who—

“(i) represent the interest group for which each seat is designated;

“(ii) demonstrate expertise on ocean acidification or coastal acidification and its scientific, economic, industry, cultural, and community impacts; and

“(iii) have a record of distinguished service with respect to ocean acidification or coastal acidification, and such impacts;

“(B) give consideration to nominations and recommendations from the members of the interagency working group and the public for such appointments; and

“(C) ensure that an appropriate balance of scientific, industry, and geographical interests are represented by the members of the Advisory Board.

“(5) TERM OF MEMBERSHIP.—Each member of the Advisory Board—

“(A) shall be appointed for a 5-year term; and

“(B) may be appointed to more than one term.

“(6) CHAIR.—The Chair of the Subcommittee shall appoint one member of the Advisory Board to serve as the Chair of the Advisory Board.

“(7) MEETINGS.—Not less than once each calendar year, the Advisory Board shall meet at such times and places as may be designated by the Chair of the Advisory Board, in consultation with the Chair of the Subcommittee and the Chair of the interagency working group.

“(8) BRIEFING.—The Chair of the Advisory Board shall brief the Subcommittee and the interagency working group on the progress of the Advisory Board as necessary or at the request of the Subcommittee.

“(9) FEDERAL ADVISORY COMMITTEE ACT.—Section 14 of the Federal Advisory Committee Act shall not apply to the Advisory Board.”.

SEC. 10675. STRATEGIC RESEARCH PLAN.

Section 12405 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3704) is amended—

(1) in subsection (a)—

(A) by striking “acidification” each place it appears and inserting “acidification and coastal acidification”;

(B) in the first sentence—

(i) by inserting “, and not later than every 5 years thereafter” after “the date of enactment of this Act”;

(ii) by inserting “address the socioeconomic impacts of ocean acidification and coastal acidification and to” after “mitigation strategies to”;

(iii) by striking “marine ecosystems” each place it appears and inserting “ecosystems”; and

(C) in the second sentence, by inserting “and recommendations made by the Advisory Board in the review of the plan required under section 12404(c)(2)(B)(i)” after “subsection (d)”;

(2) in subsection (b)—

(A) in paragraph (1), by inserting “and social sciences” after “among the ocean sciences”;

(B) in paragraph (2)—

(i) in subparagraph (A), by striking “impacts” and inserting “impacts, including trends of changes in ocean chemistry”;

(ii) in subparagraph (B)—

(i) by striking “improve the ability to assess the” and inserting “assess the short-term and long-term”;

(II) by striking “; and” at the end and inserting a semicolon;

(iii) by amending subparagraph (C) to read as follows:

“(C) provide information for the—

“(i) development of adaptation and mitigation strategies to address the socioeconomic impacts of ocean acidification and coastal acidification;

“(ii) conservation of marine organisms and ecosystems;

“(iii) assessment of the effectiveness of such adaptation and mitigation strategies; and”;

(iv) by adding at the end the following new subparagraph:

“(D) improve research on—

“(i) ocean acidification and coastal acidification;

“(ii) the interactions between and effects of multiple combined stressors including changes in water chemistry, changes in sediment delivery, hypoxia, and harmful algal blooms, on ocean acidification and coastal acidification; and

“(iii) the effect of environmental stressors on marine resources and ecosystems”;

(C) in paragraph (3)—

(i) in subparagraph (F), by striking “database development” and inserting “data management”;

(ii) in subparagraph (H) by striking “and” at the end; and

(iii) by adding at the end the following new subparagraphs:

“(J) assessment of adaptation and mitigation strategies; and

“(K) education and outreach activities”;

(D) in paragraph (4), by striking “set forth” and inserting “ensure an appropriate balance of contribution in establishing”;

(E) in paragraph (5), by striking “reports” and inserting “the best available peer-reviewed scientific reports”;

(F) in paragraph (6)—

(i) by inserting “and coastal acidification” after “ocean acidification”;

(ii) by striking “of the United States” and inserting “within the United States”;

(G) in paragraph (7), by striking “outline budget requirements” and inserting “estimate costs associated for full implementation of each element of the plan by fiscal year”;

(H) in paragraph (8)—

(i) by inserting “and coastal acidification” after “ocean acidification” each place it appears;

(ii) by striking “its” and inserting “their”;

and

(iii) by striking “; and” at the end and inserting a semicolon;

(I) in paragraph (9), by striking the period at the end and inserting “; and”;

(J) by adding at the end the following new paragraph:

“(11) describe monitoring needs necessary to support potentially affected industry members, coastal stakeholders, fishery management councils and commissions, non-Federal resource managers, and scientific ex-

perts on decision-making and adaptation related to ocean acidification and coastal acidification.”;

(3) in subsection (c)—

(A) in paragraph (1)(C), by striking “surface”;

(B) in paragraph (2), by inserting “and coastal acidification” after “ocean acidification” each place it appears;

(C) in paragraph (3)—

(i) by striking “input, and” and inserting “inputs”;

(ii) by inserting “, marine food webs,” after “marine ecosystems”;

(iii) by inserting “, and modeling that supports fisheries management” after “marine organisms”;

(D) in paragraph (5), by inserting “and coastal acidification” after “ocean acidification”;

(E) by adding at the end the following new paragraph:

“(8) Research to understand related and cumulative stressors and other biogeochemical processes occurring in conjunction with ocean acidification and coastal acidification.”;

(4) by striking subsection (e) and inserting the following:

“(e) ADVISORY BOARD EVALUATION.—Not later than 180 days before a plan is submitted to Congress, the Subcommittee shall provide the Advisory Board established under section 12404(c) a copy of the plan for purposes of review under paragraph (2)(B)(i) of such section.

“(f) PUBLICATION AND PUBLIC COMMENT.—Not later than 90 days before the strategic research plan, or any revision thereof, is submitted to Congress, the Subcommittee shall publish the plan in the Federal Register and provide an opportunity for submission of public comments for a period of not less than 60 days.”.

SEC. 10676. NOAA OCEAN ACIDIFICATION ACTIVITIES.

Section 12406 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3705) is amended—

(1) in subsection (a)—

(A) in the matter preceding paragraph (1), by inserting “coordination,” after “research, monitoring”;

(B) in paragraph (1)—

(i) in subparagraph (B)—

(I) by inserting “including the Integrated Ocean Observing System and the ocean observing assets of other Federal, State, and Tribal agencies,” after “ocean observing assets”;

(II) by inserting “and agency and department missions, prioritizing the location of monitoring instruments, assets, and projects to maximize the efficiency of resources and to optimize understanding of socioeconomic impacts and ecosystem health” after “research program”;

(ii) in subparagraph (C)—

(I) by striking “adaptation” and inserting “adaptation and mitigation”;

(II) by inserting “and supporting socioeconomically vulnerable States, local governments, Tribes, communities, and industries through technical assistance and mitigation strategies” after “marine ecosystems”;

(iii) in subparagraph (E), by striking “its impacts” and inserting “their respective impacts”;

(iv) in subparagraph (F), by striking “monitoring and impacts research” and inserting “research, monitoring, and adaptation and mitigation strategies”;

(v) by adding at the end the following new subparagraph:

“(G) research to improve understanding of the effect of—

“(i) other environmental stressors on ocean acidification and coastal acidification;

“(ii) multiple environmental stressors on living marine resources and coastal ecosystems; and

“(iii) adaptation and mitigation strategies to address the socioeconomic impacts of ocean acidification and coastal acidification.”;

(C) in paragraph (2), by striking “critical research projects that explore” and inserting “critical research, education, and outreach projects that explore and communicate”;

(D) in paragraphs (1) and (2), by striking “acidification” each place it appears and inserting “acidification and coastal acidification”;

(2) by adding at the end the following new subsections:

“(c) RELATIONSHIP TO INTERAGENCY WORKING GROUP.—The National Oceanic and Atmospheric Administration shall serve as the lead Federal agency responsible for coordinating the Federal response to ocean acidification and coastal acidification, by—

“(1) leading the interagency working group in implementing the strategic research plan under section 12405;

“(2) coordinating monitoring and research efforts among Federal agencies in cooperation with State, local, and Tribal government and international partners;

“(3) maintaining an Ocean Acidification Information Exchange described under section 12404(b)(5) to allow for information to be electronically accessible, including information—

“(A) on ocean acidification developed through or used by the ocean acidification program described under section 12406(a); or

“(B) that would be useful to State governments, local governments, Tribal governments, resource managers, policymakers, researchers, and other stakeholders in mitigating or adapting to the impacts of ocean acidification and coastal acidification; and

“(4) establishing and maintaining the data archive system under subsection (d).

“(d) DATA ARCHIVE SYSTEM.—

“(1) MANAGEMENT.—The Secretary, in coordination with members of the interagency working group, shall provide for the long-term stewardship of, and access to, data relating to ocean acidification and coastal acidification by establishing and maintaining a data archive system that the National Center for Environmental Information uses to process, store, archive, provide access to, and incorporate to the extent possible, such data collected—

“(A) through relevant federally-funded research; and

“(B) by a Federal agency, State agency, local agency, Tribe, academic scientist, citizen scientist, or industry organization.

“(2) EXISTING GLOBAL OR NATIONAL DATA ASSETS.—In establishing and maintaining the data archive system under paragraph (1), the Secretary shall ensure that existing global or national data assets (including the data assets maintained by the National Centers for Environmental Information, the Integrated Ocean Observing System, and other existing data systems within Federal agencies) are incorporated to the greatest extent possible.

“(e) STANDARDS, PROTOCOLS, AND PROCEDURES.—With respect to the data described in subsection (d), the Secretary, in coordination with members of the interagency working group, shall establish and revise as necessary the standards, protocols, or procedures for—

“(1) processing, storing, archiving, and providing access to such data;

“(2) the interoperability and intercalibration of such data;

“(3) the collection of any metadata underlying such data; and

“(4) sharing such data with State, local, and Tribal government programs, potentially affected industry members, coastal stakeholders, fishery management councils and commissions, non-Federal resource managers, and academia.

“(f) DISSEMINATION OF OCEAN ACIDIFICATION DATA AND COASTAL ACIDIFICATION DATA.—The Secretary, in coordination with members of the interagency working group, shall disseminate the data described under subsection (d) to the greatest extent practicable by sharing such data on full and open access exchanges.

“(g) REQUIREMENT.—Recipients of grants from the National Oceanic and Atmospheric Administration under this subtitle that collect data described under subsection (d) shall—

“(1) collect such data in accordance with the standards, protocols, or procedures established pursuant to subsection (e); and

“(2) submit such data to the data archive system under subsection (d) after publication, in accordance with any rules promulgated by the Secretary.”.

SEC. 10677. NSF OCEAN ACIDIFICATION ACTIVITIES.

Section 12407 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3706) is amended—

(1) by striking “ocean acidification” each place it appears and inserting “ocean acidification and coastal acidification”;

(2) in subsection (a)—

(A) in the matter preceding paragraph (1), by striking “its impacts” and inserting “their respective impacts”;

(B) in paragraph (3), by striking “and its impacts” and inserting “and their respective impacts”;

(C) in paragraph (4), by striking the period at the end and inserting “; and”;

(D) by adding at the end the following new paragraph:

“(5) adaptation and mitigation strategies to address socioeconomic effects of ocean acidification and coastal acidification.”; and

(3) by adding at the end the following:

“(d) REQUIREMENT.—Recipients of grants from the National Science Foundation under this subtitle that collect data described under section 12406(d) shall—

“(1) collect data in accordance with the standards, protocols, or procedures established pursuant to section 12406(e); and

“(2) submit such data to the Director and the Secretary after publication, in accordance with any rules promulgated by the Director or the Secretary.”.

SEC. 10678. NASA OCEAN ACIDIFICATION ACTIVITIES.

Section 12408 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3707) is amended—

(1) by striking “ocean acidification” each place it appears and inserting “ocean acidification and coastal acidification”;

(2) in subsection (a), by striking “its impacts” and inserting “their respective impacts”;

(3) by adding at the end the following new subsection:

“(d) REQUIREMENT.—Researchers from the National Aeronautics and Space Administration under this subtitle that collect data described under section 12406(d) shall—

“(1) collect such data in accordance with the standards, protocols, or procedures established pursuant to section 12406(e); and

“(2) submit such data to the Administrator and the Secretary, in accordance with any rules promulgated by the Administrator or the Secretary.”.

SEC. 10679. AUTHORIZATION OF APPROPRIATIONS.

Section 12409 of the Federal Ocean Acidification Research and Monitoring Act of 2009 (33 U.S.C. 3708) is amended—

(1) in subsection (a), by striking “sub-title” and all that follows through paragraph (4) and inserting the following: “sub-title—

“(1) \$30,500,000 for fiscal year 2022;

“(2) \$35,000,000 for fiscal year 2023;

“(3) \$40,000,000 for fiscal year 2024;

“(4) \$45,000,000 for fiscal year 2025; and

“(5) \$50,000,000 for fiscal year 2026.”; and

(2) in subsection (b), by striking “sub-title” and all that follows through paragraph (4) and inserting the following: “sub-title \$20,000,000 for each of the fiscal years 2022 through 2026.”.

AMENDMENT NO. 18 OFFERED BY MS. BONAMICI
OF OREGON

Page 1668, after line 13, insert the following:

TITLE XII—BLUE CARBON FOR OUR PLANET

SEC. 71201. INTERAGENCY WORKING GROUP.

(a) ESTABLISHMENT.—The National Science and Technology Council Subcommittee on Ocean Science and Technology shall establish an Interagency Working Group on Coastal Blue Carbon.

(b) PURPOSES.—The Interagency Working Group on Coastal Blue Carbon shall oversee the development of a national map of coastal blue carbon ecosystems, establish national coastal blue carbon ecosystem protection and restoration priorities, assess the biophysical, social, and economic impediments to coastal blue carbon ecosystem restoration, study the effects of climate change, environmental stressors, and human stressors on carbon sequestration rates, and preserve the continuity of coastal blue carbon data.

(c) MEMBERSHIP.—The Interagency Working Group on Coastal Blue Carbon shall be comprised of senior representatives from the National Oceanic and Atmospheric Administration, the Environmental Protection Agency, the National Science Foundation, the National Aeronautics and Space Administration, the United States Geological Survey, the United States Fish and Wildlife Service, the National Park Service, the Bureau of Indian Affairs, the Smithsonian Institution, the Army Corps of Engineers, the Department of Agriculture, the Department of Energy, the Department of Defense, the Department of Transportation, the Department of State, the Federal Emergency Management Agency, and the Council on Environmental Quality.

(d) CHAIR.—The Interagency Working Group shall be chaired by the Administrator.

(e) RESPONSIBILITIES.—The Interagency Working Group shall—

(1) oversee the development, update, and maintenance of a national map and inventory of coastal blue carbon ecosystems, including habitat types with a regional focus in analysis that is usable for local level protection planning and restoration;

(2) develop a strategic assessment of the biophysical, chemical, social, statutory, regulatory, and economic impediments to protection and restoration of coastal blue carbon ecosystems;

(3) develop a national strategy for foundational science necessary to study, synthesize, and evaluate the effects of climate change, environmental, and human stressors on sequestration rates and capabilities of coastal blue carbon ecosystems protection;

(4) establish national coastal blue carbon ecosystem protection and restoration priorities, including an assessment of current Federal funding being used for restoration efforts;

(5) ensure the continuity, use, and interoperability of data assets through the Smithsonian Environmental Research Center's Coastal Carbon Data Clearinghouse; and

(6) assess current legal authorities to protect and restore blue carbon ecosystems.

(f) REPORTS TO CONGRESS.—

(1) IN GENERAL.—Not later than one year after the date of the enactment of this Act, the Interagency Working Group shall provide to the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Natural Resources of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate a report containing the following:

(A) A summary of federally funded coastal blue carbon ecosystem research, monitoring, preservation, and restoration activities, including the budget for each of these activities and describe the progress in advancing the national priorities established in section 71204(a)(4)(A).

(B) An assessment of biophysical, social, and economic impediments to coastal blue carbon ecosystem restoration, including the vulnerability of coastal blue carbon ecosystems to climate impacts, such as sea-level rise, ocean and coastal acidification, and other environmental and human stressors.

(2) STRATEGIC PLAN.—

(A) IN GENERAL.—The Interagency Working group shall create a strategic plan for Federal investments in basic research, development, demonstration, long-term monitoring and stewardship, and deployment of coastal blue carbon ecosystem projects for the 5-year period beginning at the start of the first fiscal year after the date on which the budget assessment is submitted under paragraph (1). The plan shall include an assessment of the use of existing Federal programs to protect and preserve coastal blue carbon ecosystems and identify the need for any additional authorities or programs.

(B) TIMING.—The Interagency Working Group shall—

(i) submit the strategic plan under paragraph (A) to the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Natural Resources of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate on a date that is not later than one year after the enactment of this Act and not earlier than the date on which the report under paragraph (1) is submitted to such committees of Congress; and

(ii) submit a revised version of such plan not less than quinquennially thereafter.

(C) FEDERAL REGISTER.—Not later than 90 days before the strategic plan under this paragraph, or any revision thereof, is submitted under subparagraph (B), the Interagency Working Group shall publish such plan in the Federal Register and provide an opportunity for submission of public comments for a period of not less than 60 days.

SEC. 71202. NATIONAL MAP OF COASTAL BLUE CARBON ECOSYSTEMS.

(a) NATIONAL MAP.—The Interagency Working Group shall—

(1) produce, update at least once every five years, and maintain a national level map and inventory of coastal blue carbon ecosystems, including—

(A) the species and types of habitats and species in the ecosystem;

(B) the condition of such habitats including whether a habitat is degraded, drained, eutrophic, or tidally restricted;

(C) type of public or private ownership and any protected status;

(D) the size of the ecosystem;

(E) the salinity boundaries;
 (F) the tidal boundaries;
 (G) an assessment of carbon sequestration potential, methane production, and net greenhouse gas reductions including consideration of—

(i) quantification;
 (ii) verifiability;
 (iii) comparison to a historical baseline, as available; and

(iv) permanence of those benefits;
 (H) an assessment of cobenefits of ecosystem and carbon sequestration;

(I) the potential for landward migration as a result of sea level rise;

(J) any upstream restrictions detrimental to the watershed process and conditions such as dams, dikes, and levees;

(K) the conversion of coastal blue carbon ecosystems to other land uses and the cause of such conversion; and

(L) a depiction of the effects of climate change, including sea level rise, environmental stressors, and human stressors on the sequestration rate, carbon storage, and potential of coastal blue carbon ecosystems; and

(2) in carrying out paragraph (1)—

(A) incorporate, to the extent possible, existing data collected through federally funded research and by a Federal agency, State agency, local agency, Tribe, including data collected from the National Oceanic and Atmospheric Administration Coastal Change Analysis Program, U.S. Fish and Wildlife Service National Wetlands Inventory, United States Geological Survey LandCarbon program, Federal Emergency Management Agency LiDAR information coordination and knowledge program, Department of Energy Biological and Environmental Research program, and Department of Agriculture National Coastal Blue Carbon Assessment; and

(B) engage regional technical experts in order to accurately account for regional differences in coastal blue carbon ecosystems.

(b) USE.—The Interagency Working Group shall use the national map and inventory—

(1) to assess the carbon sequestration potential of different coastal blue carbon habitats, and account for any regional differences;

(2) to assess and quantify emissions from degraded and destroyed coastal blue carbon ecosystems;

(3) to develop regional assessments and to provide technical assistance to regional, State, Tribal, and local government agencies, and regional information coordination entities as defined in section 123030(6) of the Integrated Coastal and Ocean Observation System Act (33 U.S.C. 3602);

(4) to assess degraded coastal blue carbon ecosystems and their potential for restoration, including developing scenario modeling to identify vulnerable areas where management, protection, and restoration efforts should be focused;

(5) produce future predictions of coastal blue carbon ecosystems and carbon sequestration rates in the context of climate change, environmental stressors, and human stressors; and

(6) use such map to inform the Administrator of the Environmental Protection Agency's creation of the annual Inventory of U.S. Greenhouse Gas Emissions and Sinks.

SEC. 71203. RESTORATION AND PROTECTIONS FOR EXISTING COASTAL BLUE CARBON ECOSYSTEMS.

(a) IN GENERAL.—The Administrator shall—

(1) lead the Interagency Working Group in implementing the strategic plan under section 71202(e)(2);

(2) coordinate monitoring and research efforts among Federal agencies in cooperation with State, local, and Tribal government and

international partners and nongovernmental organizations;

(3) establish a national goal for conserving ocean and coastal blue carbon ecosystems within the territory of the United States, and as appropriate setting targets for restoration of degraded coastal blue carbon ecosystems;

(4) in coordination with the Interagency Working Group and as informed by the report under section 71202(e) on current Federal expenditures on coastal blue carbon ecosystem restoration, identify—

(A) national coastal blue carbon ecosystem protection and restoration priorities that would produce the highest rate of carbon sequestration and greatest ecosystem benefits such as flood protection, soil and beach retention, erosion reduction, biodiversity, water purification, and nutrient cycling in the context of other environmental stressors and climate change; and

(B) ways to improve coordination and to prevent unnecessary duplication of effort among Federal agencies and departments with respect to research on coastal blue carbon ecosystems through existing and new coastal management networks; and

(5) in coordination with State, local, and Tribal governments and coastal stakeholders, develop integrated pilot programs to restore degraded coastal blue carbon ecosystems in accordance with subsection (b).

(b) INTEGRATED PILOT PROGRAMS TO RESTORE AND PROTECT DEGRADED COASTAL BLUE CARBON ECOSYSTEMS.—In carrying out subsection (a)(5), the Administrator shall—

(1) establish integrated pilot programs that develop best management practices, including design criteria and performance functions for coastal blue carbon ecosystem restoration and protection, nature-based adaptation strategies, restoration areas that intersect with the built environments as green-gray infrastructure projects, management practices for landward progression or migration of coastal blue carbon ecosystems, and identify potential barriers to restoration efforts, and increase long-term carbon sequestration and storage;

(2) ensure that the pilot programs cover geographically and ecologically diverse locations with significant ecological, economic, and social benefits, such as flood protection, soil and beach retention, erosion reduction, biodiversity, water purification, and nutrient cycling to reduce hypoxic conditions, and maximum potential for greenhouse gas emission reduction;

(3) establish a procedure for reviewing applications for the pilot program, taking into account—

(A) quantification;
 (B) verifiability;

(C) additionality as compared to a historical baseline, when feasible; and

(D) permanence of those benefits;

(4) ensure, through consultation with the Interagency Working Group, that the goals and metrics for the pilot programs are communicated to the appropriate State, Tribe, and local governments, and to the general public;

(5) coordinate with relevant Federal agencies on the Interagency Working Group to prevent unnecessary duplication of effort among Federal agencies and departments with respect to restoration and protection programs;

(6) give priority to proposed eligible restoration activities that would—

(A) result in long-term protection and sequestration of carbon stored in coastal and marine environments;

(B) protect key habitats for fish, wildlife, and the maintenance of biodiversity;

(C) provide coastal protection from development, storms, flooding, and land-based pollution;

(D) protect coastal resources of national, historical, and cultural significance; and

(E) benefit communities of color, low-income communities, Tribal or Indigenous communities, or rural communities; and

(7) report to the Interagency Working Group, and Committee on Science, Space, and Technology of the House of Representatives, the Committee on Natural Resources of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate on the total number of acres of land or water protected or restored through the program, the status of restoration projects, and the blue carbon sequestration potential of each restoration pilot project.

SEC. 71204. NAS ASSESSMENT OF CONTAINMENT OF CARBON DIOXIDE IN DEEP SEAFLOOR ENVIRONMENT.

Not later than 90 days after the date of the enactment of this Act, the Administrator shall seek to enter into an agreement with the National Academy of Sciences to conduct a comprehensive assessment on the long-term effects of geologic stores of carbon dioxide in a deep seafloor environment, including impacts on marine species and ecosystems.

SEC. 71205. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the National Oceanic and Atmospheric Administration to carry out this title \$15,000,000 for each of the fiscal years 2023 through 2027.

SEC. 71206. DEFINITIONS.

In this title:

(1) ADMINISTRATOR.—The term “Administrator” means the Under Secretary of Commerce for Oceans and Atmosphere in the Under Secretary's capacity as the Administrator of the National Oceanic and Atmospheric Administration.

(2) COASTAL BLUE CARBON ECOSYSTEM.—The term “coastal blue carbon ecosystem” refers to vegetated coastal habitats including mangroves, tidal marshes, seagrasses, kelp forests, and other tidal, freshwater, or salt-water wetlands, and their ability to sequester carbon from the atmosphere, accumulate it in biomass for years to decades, and store it in soils for centuries to millennia. Coastal blue carbon ecosystems include both autochthonous carbon and allochthonous carbon.

(3) STATE.—The term “State” means each State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the Virgin Islands of the United States, and any other territory of the United States.

AMENDMENT NO. 25 OFFERED BY MR. BUDD

Insert after section 30258 the following:

SEC. 30259. INTELLIGENCE ASSESSMENT.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in coordination with the Director of National Intelligence, shall submit to the Committee on Foreign Affairs and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Foreign Relations and the Select Committee on Intelligence of the Senate a classified report, with an unclassified annex if appropriate, that assesses the degree to which, if any, the Russian Federation has coordinated with the People's Republic of China (PRC) regarding a potential further invasion of Ukraine. Such assessment shall also examine ways in which the PRC may have promised to help the Russian Federation offset the costs of prospective economic

sanctions, especially in the financial, technological, and energy sectors.

AMENDMENT NO. 44 OFFERED BY MR. CHABOT OF OHIO

Page 1668, after line 13, insert the following:

SEC. 71104. TROPICAL FOREST AND CORAL REEF CONSERVATION REAUTHORIZATION.

Section 806(d) of the Tropical Forest and Coral Reef Conservation Act of 1998 (22 U.S.C. 2431d(d)) is amended by adding at the end the following new paragraphs:

- “(9) \$20,000,000 for fiscal year 2022.
- “(10) \$20,000,000 for fiscal year 2023.
- “(11) \$20,000,000 for fiscal year 2024.
- “(12) \$20,000,000 for fiscal year 2025.
- “(13) \$20,000,000 for fiscal year 2026.”.

AMENDMENT NO. 47 OFFERED BY MR. COHEN OF TENNESSEE

Add at the end of title III of division I the following:

SEC. 80306. FOREIGN CORRUPTION ACCOUNTABILITY.

(a) FINDINGS.—Congress finds the following:

(1) When public officials and their allies use the mechanisms of government to engage in extortion or bribery, they impoverish their countries’ economic health and harm citizens.

(2) By empowering the United States Government to hold to account foreign public officials and their associates who engage in extortion or bribery, the United States can deter malfeasance and ultimately serve the citizens of fragile countries suffocated by corrupt bureaucracies.

(3) The Special Inspector General for Afghanistan Reconstruction’s 2016 report “Corruption in Conflict: Lessons from the U.S. Experience in Afghanistan” included the recommendation, “Congress should consider enacting legislation that authorizes sanctions against foreign government officials or their associates who engage in corruption.”.

(b) AUTHORIZATION OF IMPOSITION OF SANCTIONS.—

(1) IN GENERAL.—The Secretary of State may impose the sanctions described in paragraph (2) with respect to any foreign person who is an individual the Secretary of State determines—

(A) engages in public corruption activities against a United States person, including—

- (i) soliciting or accepting bribes;
- (ii) using the authority of the state to extort payments; or
- (iii) engaging in extortion; or

(B) conspires to engage in, or knowingly and materially assists, sponsors, or provides significant financial, material, or technological support for any of the activities described in subparagraph (A).

(2) SANCTIONS DESCRIBED.—

(A) INADMISSIBILITY TO UNITED STATES.—A foreign person who is subject to sanctions under this section shall be—

- (i) inadmissible to the United States;
- (ii) ineligible to receive a visa or other documentation to enter the United States; and
- (iii) otherwise ineligible to be admitted or paroled into the United States or to receive any other benefit under the Immigration and Nationality Act (8 U.S.C. 1101 et seq.).

(B) CURRENT VISAS REVOKED.—

(i) IN GENERAL.—The visa or other entry documentation of a foreign person who is subject to sanctions under this section shall be revoked regardless of when such visa or other entry documentation is issued.

(ii) EFFECT OF REVOCATION.—A revocation under clause (i) shall—

- (I) take effect immediately; and
- (II) automatically cancel any other valid visa or entry documentation that is in the foreign person’s possession.

(3) EXCEPTION TO COMPLY WITH LAW ENFORCEMENT OBJECTIVES AND AGREEMENT REGARDING HEADQUARTERS OF UNITED NATIONS.—Sanctions described under paragraph (2) shall not apply to a foreign person if admitting the person into the United States—

(A) would further important law enforcement objectives; or

(B) is necessary to permit the United States to comply with the Agreement regarding the Headquarters of the United Nations, signed at Lake Success June 26, 1947, and entered into force November 21, 1947, between the United Nations and the United States, or other applicable international obligations of the United States.

(4) TERMINATION OF SANCTIONS.—The Secretary of State may terminate the application of sanctions under this subsection with respect to a foreign person if the Secretary of State determines and reports to the appropriate congressional committees not later than 15 days before the termination of the sanctions that—

(A) the person is no longer engaged in the activity that was the basis for the sanctions or has taken significant verifiable steps toward stopping the activity;

(B) the Secretary of State has received reliable assurances that the person will not knowingly engage in activity subject to sanctions under this part in the future; or

(C) the termination of the sanctions is in the national security interests of the United States.

(5) REGULATORY AUTHORITY.—The Secretary of State shall issue such regulations, licenses, and orders as are necessary to carry out this subsection.

(6) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on the Judiciary and the Committee on Foreign Affairs of the House of Representatives; and

(B) the Committee on the Judiciary and the Committee on Foreign Relations of the Senate.

(c) REPORTS TO CONGRESS.—

(1) IN GENERAL.—The Secretary of State shall submit to the appropriate congressional committees, in accordance with paragraph (2), a report that includes—

(A) a list of each foreign person with respect to whom the Secretary of State imposed sanctions pursuant to subsection (b) during the year preceding the submission of the report;

(B) the number of foreign persons with respect to which the Secretary of State—

- (i) imposed sanctions under subsection (b)(1) during that year; and
- (ii) terminated sanctions under subsection (b)(4) during that year;

(C) the dates on which such sanctions were imposed or terminated, as the case may be;

(D) the reasons for imposing or terminating such sanctions;

(E) the total number of foreign persons considered under subsection (b)(3) for whom sanctions were not imposed; and

(F) recommendations as to whether the imposition of additional sanctions would be an added deterrent in preventing public corruption.

(2) DATES FOR SUBMISSION.—

(A) INITIAL REPORT.—The Secretary of State shall submit the initial report under paragraph (1) not later than 120 days after the date of the enactment of this Act.

(B) SUBSEQUENT REPORTS.—The Secretary of State shall submit a subsequent report under paragraph (1) on December 10, or the first day thereafter on which both Houses of Congress are in session, of—

(i) the calendar year in which the initial report is submitted if the initial report is

submitted before December 10 of that calendar year; and

(ii) each calendar year thereafter.

(3) FORM OF REPORT.—

(A) IN GENERAL.—Each report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(B) EXCEPTION.—The name of a foreign person to be included in the list required by paragraph (1)(A) may be submitted in the classified annex authorized by subparagraph (A) only if the Secretary of State—

(i) determines that it is vital for the national security interests of the United States to do so; and

(ii) uses the annex in a manner consistent with congressional intent and the purposes of this section.

(4) PUBLIC AVAILABILITY.—

(A) IN GENERAL.—The unclassified portion of the report required by paragraph (1) shall be made available to the public, including through publication in the Federal Register.

(B) NONAPPLICABILITY OF CONFIDENTIALITY REQUIREMENT WITH RESPECT TO VISA RECORDS.—The Secretary of State shall publish the list required by paragraph (1)(A) without regard to the requirements of section 222(f) of the Immigration and Nationality Act (8 U.S.C. 1202(f)) with respect to confidentiality of records pertaining to the issuance or refusal of visas or permits to enter the United States.

(5) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs, and the Committee on the Judiciary of the House of Representatives; and

(B) the Committee on Foreign Relations, and the Committee on the Judiciary of the Senate.

(d) SUNSET.—

(1) IN GENERAL.—The authority to impose sanctions under subsection (b) and the requirements to submit reports under subsection (c) shall terminate on the date that is 6 years after the date of enactment of this Act.

(2) CONTINUATION IN EFFECT OF SANCTIONS.—Sanctions imposed under subsection (b) on or before the date specified in paragraph (1), and in effect as of such date, shall remain in effect until terminated in accordance with the requirements of subsection (b)(4).

(e) DEFINITIONS.—In this section:

(1) ENTITY.—The term “entity” means a partnership, association, trust, joint venture, corporation, group, subgroup, or other organization.

(2) FOREIGN PERSON.—The term “foreign person” means a person that is not a United States person.

(3) UNITED STATES PERSON.—The term “United States person” means a person that is a United States citizen, permanent resident alien, entity organized under the laws of the United States or any jurisdiction within the United States (including foreign branches), or any person in the United States.

(4) PERSON.—The term “person” means an individual or entity.

(5) PUBLIC CORRUPTION.—The term “public corruption” means the unlawful exercise of entrusted public power for private gain, including by bribery, nepotism, fraud, or embezzlement.

Add at the end of division I the following:

TITLE IV—CRIMINAL PROVISIONS

SEC. 80401. JUSTICE FOR VICTIMS OF KLEPTOCRACY.

(a) FORFEITED PROPERTY.—

(1) IN GENERAL.—Chapter 46 of title 18, United States Code, is amended by adding at the end the following:

“§988. Accounting of certain forfeited property

“(a) ACCOUNTING.—The Attorney General shall make available to the public an accounting of any property relating to foreign government corruption that is forfeited to the United States under section 981 or 982.

“(b) FORMAT.—The accounting described under subsection (a) shall be published on the website of the Department of Justice in a format that includes the following:

“(1) A heading as follows: ‘Assets stolen from the people of _____ and recovered by the United States’, the blank space being filled with the name of the foreign government that is the target of corruption.

“(2) The total amount recovered by the United States on behalf of the foreign people that is the target of corruption at the time when such recovered funds are deposited into the Department of Justice Asset Forfeiture Fund or the Department of the Treasury Forfeiture Fund

“(c) UPDATED WEBSITE.—The Attorney General shall update the website of the Department of Justice to include an accounting of any new property relating to foreign government corruption that has been forfeited to the United States under section 981 or 982 not later than 14 days after such forfeiture, unless such update would compromise an ongoing law enforcement investigation.”.

(2) CLERICAL AMENDMENT.—The table of sections for chapter 46 of title 18, United States Code, is amended by adding at the end the following:

“988. Accounting of certain forfeited property.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that recovered assets be returned for the benefit of the people harmed by the corruption under conditions that reasonably ensure the transparent and effective use, administration and monitoring of returned proceeds.

AMENDMENT NO. 51 OFFERED BY MS. CRAIG OF MINNESOTA

Add at the end of division J the following:

TITLE V—SUPPORTING APPRENTICESHIP COLLEGES ACT OF 2021**SEC. 90501. COMMUNITY OUTREACH GRANT PROGRAM.**

(a) IN GENERAL.—From the amounts appropriated under subsection (f), the Secretary of Education shall provide grants to eligible entities for the purposes of expanding or supporting potential student and employer outreach carried out by such entities with respect to the construction and manufacturing-oriented registered apprenticeship programs offered by such entities.

(b) AMOUNTS.—The total grant amount made to an eligible entity under this section may not exceed \$500,000.

(c) USE OF GRANTS.—An eligible entity that receives a grant under this section shall use such grant for the outreach described in subsection (a), which shall include the following:

(1) Outreach to high schools, for the purpose of educating students, parents, guardians, and faculty on the benefits of enrolling in the construction and manufacturing-oriented registered apprenticeship program offered by the eligible entity.

(2) Outreach to local businesses and other potential employers for the purpose of educating such employers on the benefits of hiring graduates of such program, which shall—

(A) primarily target relationship building with potential employers in rural, exurban, and suburban areas; and

(B) seek to maximize the number of students who work in such areas after completing such program.

(3) Outreach to local workforce development boards for the purpose of reaching non-

traditional student populations and prioritizing local needs.

(d) APPLICATION REQUIREMENTS.—An eligible entity seeking a grant under this section shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(e) PRIORITY.—In awarding grants under this section, the Secretary shall give priority to eligible entities that demonstrate outreach efforts targeted at increasing program enrollment for rural, first generation, minority, and nontraditional students, or other students from underrepresented population.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated \$5,000,000 to carry out this section for each of the fiscal years 2022 through 2026.

SEC. 90502. STUDENT SUPPORT GRANT PROGRAM FOR EXPANDED ACADEMIC ADVISING.

(a) IN GENERAL.—From the amounts appropriated under subsection (g), the Secretary of Education shall provide grants to eligible entities for the activities described in subsection (d).

(b) AMOUNTS.—The total grant amount made to an eligible entity under this section may not exceed \$500,000.

(c) MULTIPLE GRANTS PERMITTED.—An eligible entity may receive a grant under this section and section 90501.

(d) USE OF GRANTS.—

(1) IN GENERAL.—An eligible entity that receives a grant under this section shall use such grant for advising and support services to enrollees of construction and manufacturing-oriented registered apprenticeship programs offered by such entity to increase retention and persistence for students.

(2) REQUIREMENTS.—Such advising and support services shall include the following:

(A) Expanding academic advising programs that provide services to students, including the following:

(i) Career advising and professional development.

(ii) Support for English as a second language students.

(iii) Information and resource systems.

(iv) Mentoring systems.

(v) Other such programs.

(B) Expanding student support programs that provide services to students, including the following:

(i) Health and family-related services, including substance abuse disorder and mental health counseling.

(ii) Support for first-generation students.

(iii) Childcare support.

(iv) Other such programs.

(v) In the case of an eligible entity that is a construction and manufacturing-oriented registered apprenticeship program, maintaining its accreditation by a nationally recognized accrediting agency or association recognized by the Secretary of Education pursuant to part H of title IV of the Higher Education Act of 1965 (20 U.S.C. 1099a et seq.).

(e) APPLICATION REQUIREMENTS.—An eligible entity seeking a grant under this section shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(f) REPORT.—

(1) IN GENERAL.—An eligible entity that receives a grant under this section shall submit to the Secretary a report on—

(A) the activities supported by the grant;

(B) the number of students participating in the activities supported by the grant;

(C) any progress made in achieving the goals of the program supported by the grant, in general, and measuring in particular—

(i) the effectiveness of the grant in expanding overall enrollment and program completion rates; and

(ii) the effectiveness of the grant in expanding enrollment and program completion rates for underrepresented populations; and

(D) such other information as the Secretary determines to be appropriate.

(2) TIMELINE FOR SUBMISSION OF REPORT.—The report under paragraph (1) shall be submitted to the Secretary not later than 180 days after the date on which the eligible entity concludes the activities supported by the grant under this section.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$5,000,000 for each of the fiscal years 2022 through 2026.

SEC. 90503. DEFINITIONS.

In this title:

(1) CONSTRUCTION AND MANUFACTURING-ORIENTED APPRENTICESHIP COLLEGE.—The term “construction and manufacturing-oriented apprenticeship college” means—

(A) an institution of higher education that is a sponsor of a construction and manufacturing-oriented registered apprenticeship program; or

(B) a construction and manufacturing-oriented registered apprenticeship program.

(2) CONSTRUCTION AND MANUFACTURING-ORIENTED REGISTERED APPRENTICESHIP PROGRAM.—The term “construction and manufacturing-oriented registered apprenticeship program” means a registered apprenticeship program that—

(A) provides coursework and training in preparation for employment in the construction or manufacturing industry (such as employment as a painter, drywall finisher, glazier, or glassworker);

(B)(i) leads to a recognized postsecondary credential other than a certificate of completion of an apprenticeship; or

(ii) awards credits that can be applied toward a recognized postsecondary credential; and

(C) is accredited by a nationally recognized accrediting agency or association recognized by the Secretary of Education pursuant to part H of title IV of the Higher Education Act of 1965 (20 U.S.C. 1099a et seq.).

(3) ELIGIBLE ENTITY.—The term “eligible entity” means a construction and manufacturing-oriented apprenticeship college.

(4) FIRST GENERATION COLLEGE STUDENT.—The term “first generation college student” has the meaning given the term in section 402A(h) of the Higher Education Act of 1965 (20 U.S.C. 1070a–11(h)).

(5) HIGH SCHOOL.—The term “high school” has the meaning given the term in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(6) INSTITUTION OF HIGHER EDUCATION.—The term “institution of higher education” has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(7) OUTREACH.—The term “outreach” means communications and relationship-building opportunities undertaken by an eligible entity.

(8) RECOGNIZED POSTSECONDARY CREDENTIAL.—The term “recognized postsecondary credential” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

(9) REGISTERED APPRENTICESHIP PROGRAM.—The term “registered apprenticeship program” means an apprenticeship program registered under the Act of August 16, 1937 (commonly known as the “National Apprenticeship Act”; 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.).

(10) SECOND LANGUAGE.—The term “second language” means any language other than

English, including Braille and American Sign Language.

(11) **SECRETARY.**—The term “Secretary” means the Secretary of Education.

(12) **UNDERREPRESENTED POPULATION.**—The term “underrepresented population” means an individual who is from a group whose gender, ethnic background, or national origin is not traditionally represented in registered apprenticeship programs.

AMENDMENT NO. 52 OFFERED BY MS. CRAIG OF MINNESOTA

Page 743, after line 16, insert the following (and redesignate the succeeding section accordingly):

SEC. 20208. AGRICULTURE AND FOOD SYSTEM SUPPLY CHAIN MONITORING AND ASSESSMENT.

(a) **ACTIVITIES.**—Not later than 270 days after the date of the enactment of this Act, the Assistant Secretary, in consultation with the Secretary of Agriculture, shall identify and evaluate the stability and reliability of the agriculture and food system supply chain, including—

(1) the state of the agriculture and food system workforce and any supply chain vulnerabilities related to the agriculture and food system workforce;

(2) transportation bottlenecks in the distribution of agricultural inputs, processed and unprocessed food and food input products, and consumer-ready food products; and

(3) opportunities to create training and education programs focused on high-quality jobs in the agriculture and food system that—

(A) increase the stability of the agriculture and food system; and

(B) alleviate supply chain bottlenecks in the distribution of agricultural inputs, processed and unprocessed food and food input products, and consumer-ready food products.

(b) **REPORT TO CONGRESS.**—In carrying out subsection (a), the Assistant Secretary shall submit to the Committee on Energy and Commerce and the Committee on Agriculture of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that contains the following:

(1) An identification of the strengths, weaknesses, critical bottlenecks, workforce challenges and opportunities, and overall stability and reliability of the agriculture and food system supply chain.

(2) An assessment of Federal, State, and local laws and regulations that—

(A) increase the stability and reliability of the agriculture and food system supply chain; or

(B) decrease or otherwise negatively impact, both in the present moment and in the future, the stability and reliability of the agriculture and food system supply chain.

(3) Specific recommendations to improve the security, safety, and resilience of the agriculture and food system supply chain. The recommendations shall contain—

(A) long-term strategies;

(B) industry best practices;

(C) risk mitigation actions to prevent future bottlenecks and vulnerabilities at all levels of the agriculture and food system supply chain; and

(D) legislative and regulatory actions that would positively impact the security and resilience of the agriculture and food system supply chain.

AMENDMENT NO. 53 OFFERED BY MR. CRENSHAW OF TEXAS

Insert after section 30219G the following:

SEC. 30219H. REPORT GENERATION AND SHARING ON LONG TERM COST OF BELT AND ROAD INITIATIVE TO THIRD COUNTRIES.

The Secretary of State shall coordinate with the Secretary of Treasury and the heads of other Federal agencies as relevant a report for each country participating or considering participating in the People's Republic of China's One Belt, One Road Initiative to show the full spectrum of negative costs on participant countries. The report shall—

(1) show the long-term financial costs of such participation;

(2) describe China's use of One Belt, One Road to enrich Chinese State Owned Enterprises;

(3) provide examples of China's imposition of political cost on participating countries; and

(4) contain any additional information determined necessary to dissuade future participation with China's debt trap and coercive infrastructure program.

AMENDMENT NO. 54 OFFERED BY MR. CRENSHAW OF TEXAS

Insert after section 30219G the following:

SEC. 30219H. SENSE OF CONGRESS REGARDING THE STATUS OF CHINA.

It is the sense of Congress that—

(1) the People's Republic of China is a fully industrialized nation and no longer a developing nation; and

(2) any international agreement that provides or accords China a favorable status or treatment as a “developing nation” should be updated to reflect the status of China.

AMENDMENT NO. 55 OFFERED BY MR. CRENSHAW OF TEXAS

Insert after section 30219G the following:

SEC. 30219H. REPORT ON PROVIDING ACCESS TO UNCENSORED MEDIA IN CHINA.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall provide to Congress a classified report on what is needed to provide access to free and uncensored media in the Chinese market.

AMENDMENT NO. 57 OFFERED BY MR. CURTIS OF UTAH

Page 1248, after line 15, insert the following:

() develop a framework for reprimanding or disqualifying host cities and the countries in which they are located if the governments of such countries are actively committing mass atrocities—

(A) during the Olympic and Paralympic bidding process; or

(B) between a city's election as a host city and the duration of the Olympic and Paralympic Games that its government is hosting.

AMENDMENT NO. 59 OFFERED BY MR. RODNEY DAVIS OF ILLINOIS

At the end of title I of division C, add the following:

SEC. 20110. CRITICAL INFRASTRUCTURE MANUFACTURING FEASIBILITY.

(a) **STUDY.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Commerce shall conduct a study to—

(1) identify any product that is in high demand within each critical infrastructure sector that is being imported due to a manufacturing, material, or supply chain constraint in the United States;

(2) analyze the costs and benefits of manufacturing the product in the United States, including any effects on—

(A) jobs, employment rates, and labor conditions in the United States; and

(B) the cost of the product;

(3) identify any product described in paragraph (1) that feasibly may be manufactured in the United States; and

(4) analyze the feasibility of, and any impediments to, manufacturing any product identified in paragraph (3) in—

(A) a rural area;

(B) an industrial park; or

(C) an industrial park in a rural area.

(b) **REPORT TO THE CONGRESS.**—Not later than 18 months after the date of enactment of this Act, the Secretary shall—

(1) submit to the Congress a report containing the results of the study required by subsection (a) with recommendations for products described in subsection (a)(1) that feasibly may be manufactured in the United States; and

(2) make the report available to the public on the website of the Department of Commerce.

(c) **LIMITATION ON AUTHORITY.**—This section shall not be interpreted to provide the Secretary of Commerce with authority to compel a person or company to provide information described in this section.

(d) **DEFINITION OF CRITICAL INFRASTRUCTURE SECTOR.**—In this Act, the term “critical infrastructure sector” means each of the 16 designated critical infrastructure sectors identified in Presidential Policy Directive 21 of February 12, 2013 (Critical Infrastructure Security and Resilience).

AMENDMENT NO. 60 OFFERED BY MS. DELAURIO OF CONNECTICUT

On Page 1668, after Line 13, insert the following:

SEC. 71104. PROHIBITION ON SALE OF AMERICAN MINK.

(a) **PROHIBITION.**—No person may possess, acquire, receive, transport, offer for sale, sell, or purchase any American mink (*Neovison vison*) raised in captivity for fur production.

(b) **PENALTY.**—A violation of subsection (a) shall be treated as an act prohibited by section 3 of the Lacey Act Amendments of 1981 (16 U.S.C. 3372) and is subject to penalty pursuant to section 4 of that Act (16 U.S.C. 3373).

(c) **EFFECTIVE DATE.**—This section shall take effect on December 31, 2022.

AMENDMENT NO. 62 OFFERED BY MS. DELBENE OF WASHINGTON

Page 1428, line 21, insert “or aircraft” after “motor vehicle”.

AMENDMENT NO. 76 OFFERED BY MS. ESHOO OF CALIFORNIA

Add at the end of division F the following new section:

SEC. 50105. IMPROVING CYBERSECURITY OF SMALL ENTITIES.

(a) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Small Business Administration.

(2) **ANNUAL CYBERSECURITY REPORT; SMALL BUSINESS; SMALL ENTITY; SMALL GOVERNMENTAL JURISDICTION; SMALL ORGANIZATION.**—The terms “annual cybersecurity report”, “small business”, “small entity”, “small governmental jurisdiction”, and “small organization” have the meanings given those terms in section 2220D of the Homeland Security Act of 2002, as added by subsection (b).

(3) **CISA.**—The term “CISA” means the Cybersecurity and Infrastructure Security Agency.

(4) **COMMISSION.**—The term “Commission” means the Federal Trade Commission.

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Commerce.

(b) **ANNUAL REPORT.**—

(1) **AMENDMENT.**—Subtitle A of title XXII of the Homeland Security Act of 2002 (6 U.S.C. 651 et seq.) is amended by adding at the end the following:

“SEC. 2220D. ANNUAL CYBERSECURITY REPORT FOR SMALL ENTITIES.

“(a) **DEFINITIONS.**—

“(1) ADMINISTRATION.—The term ‘Administration’ means the Small Business Administration.

“(2) ADMINISTRATOR.—The term ‘Administrator’ means the Administrator of the Administration.

“(3) ANNUAL CYBERSECURITY REPORT.—The term ‘annual cybersecurity report’ means the annual cybersecurity report published and promoted under subsections (b) and (c), respectively.

“(4) COMMISSION.—The term ‘Commission’ means the Federal Trade Commission.

“(5) ELECTRONIC DEVICE.—The term ‘electronic device’ means any electronic equipment that is—

“(A) used by an employee or contractor of a small entity for the purpose of performing work for the small entity;

“(B) capable of connecting to the internet or another communication network; and

“(C) capable of sending, receiving, or processing personal information.

“(6) NIST.—The term ‘NIST’ means the National Institute of Standards and Technology.

“(7) SMALL BUSINESS.—The term ‘small business’ has the meaning given the term ‘small business concern’ under section 3 of the Small Business Act (15 U.S.C. 632).

“(8) SMALL ENTITY.—The term ‘small entity’ means—

“(A) a small business;

“(B) a small governmental jurisdiction; and

“(C) a small organization.

“(9) SMALL GOVERNMENTAL JURISDICTION.—The term ‘small governmental jurisdiction’ means governments of cities, counties, towns, townships, villages, school districts, or special districts with a population of less than 50,000.

“(10) SMALL ORGANIZATION.—The term ‘small organization’ means any not-for-profit enterprise that is independently owned and operated and is not dominant in its field.

“(b) ANNUAL CYBERSECURITY REPORT.—

“(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, and not less frequently than annually thereafter, the Director shall publish a report for small entities that documents and promotes evidence-based cybersecurity policies and controls for use by small entities, which shall—

“(A) include basic controls that have the most impact in protecting small entities against common cybersecurity threats and risks;

“(B) include protocols and policies to address common cybersecurity threats and risks posed by electronic devices, regardless of whether the electronic devices are—

“(i) issued by the small entity to employees and contractors of the small entity; or

“(ii) personal to the employees and contractors of the small entity; and

“(C) recommend, as practicable—

“(i) measures to improve the cybersecurity of small entities; and

“(ii) configurations and settings for some of the most commonly used software that can improve the cybersecurity of small entities.

“(2) EXISTING RECOMMENDATIONS.—The Director shall ensure that each annual cybersecurity report published under paragraph (1) incorporates—

“(A) cybersecurity resources developed by NIST, as required by the NIST Small Business Cybersecurity Act (Public Law 115-236); and

“(B) the most recent version of the Cybersecurity Framework, or successor resource, maintained by NIST.

“(3) CONSIDERATION FOR SPECIFIC TYPES OF SMALL ENTITIES.—The Director may include and prioritize the development of cybersecu-

rity recommendations, as required under paragraph (1), appropriate for specific types of small entities in addition to recommendations applicable for all small entities.

“(4) CONSULTATION.—In publishing the annual cybersecurity report under paragraph (1), the Director shall, to the degree practicable and as appropriate, consult with—

“(A) the Administrator, the Secretary of Commerce, the Commission, and the Director of NIST;

“(B) small entities, insurers, State governments, companies that work with small entities, and academic and Federal and non-Federal experts in cybersecurity; and

“(C) any other entity as determined appropriate by the Director.

“(c) PROMOTION OF ANNUAL CYBERSECURITY REPORT FOR SMALL BUSINESSES.—

“(1) PUBLICATION.—The annual cybersecurity report, and previous versions of the report as appropriate, published under subsection (b)(1) shall be—

“(A) made available, prominently and free of charge, on the public website of the Agency; and

“(B) linked to from relevant portions of the websites of the Administration and the Minority Business Development Agency, as determined by the Administrator and the Director of the Minority Business Development Agency, respectively.

“(2) PROMOTION GENERALLY.—The Director, the Administrator, and the Secretary of Commerce shall, to the degree practicable, promote the annual cybersecurity report through relevant resources that are intended for or known to be regularly used by small entities, including agency documents, websites, and events.

“(d) TRAINING AND TECHNICAL ASSISTANCE.—The Director, the Administrator, and the Director of the Minority Business Development Agency shall make available to employees of small entities voluntary training and technical assistance on how to implement the recommendations of the annual cybersecurity report.”.

(2) TECHNICAL AND CONFORMING AMENDMENT.—The table of contents in section 1(b) of the Homeland Security Act of 2002 (Public Law 107-296; 116 Stat. 2135) is amended by inserting after the item relating to section 2220C the following:

“Sec. 2220D. Annual cybersecurity report for small entities.”.

(c) REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and annually thereafter for 10 years, the Secretary shall submit to Congress a report describing methods to improve the cybersecurity of small entities, including through the adoption of policies, controls, and classes of products and services that have been demonstrated to reduce cybersecurity risk.

(2) MATTERS TO BE INCLUDED.—The report required under paragraph (1) shall—

(A) identify barriers or challenges for small entities in purchasing or acquiring classes of products and services that promote the cybersecurity of small entities;

(B) assess market availability, market pricing, and affordability of classes of products and services that promote the cybersecurity of small entities, with particular attention to identifying high-risk and underserved sectors or regions;

(C) estimate the costs and benefits of policies that promote the cybersecurity of small entities, including—

(i) tax breaks;

(ii) grants and subsidies; and

(iii) other incentives as determined appropriate by the Secretary;

(D) describe evidence-based cybersecurity controls and policies that improve the cybersecurity of small entities;

(E) with respect to the incentives described in subparagraph (C), recommend measures that can effectively improve cybersecurity at scale for small entities; and

(F) include any other matters as the Secretary determines relevant.

(3) SPECIFIC SECTORS OF SMALL ENTITIES.—In preparing the report required under paragraph (1), the Secretary may include matters applicable for specific sectors of small entities in addition to matters applicable to all small entities.

(4) CONSULTATION.—In preparing the report required under paragraph (1), the Secretary shall consult with—

(A) the Administrator, the Director of CISA, and the Commission; and

(B) small entities, insurers of risks related to cybersecurity, State governments, cybersecurity and information technology companies that work with small entities, and academic and Federal and non-Federal experts in cybersecurity.

(d) RULE OF CONSTRUCTION.—Nothing in this section or the amendments made by this section shall be construed to provide any additional regulatory authority to CISA.

AMENDMENT NO. 78 OFFERED BY MR. FALLON OF TEXAS

Insert after section 30128 the following:

SEC. 30129. AUTHORIZATION TO HIRE ADDITIONAL STAFF FOR THE OFFICE OF FOREIGN ASSET CONTROL OF THE DEPARTMENT OF THE TREASURY.

The Secretary of the Treasury, acting through the Director of the Office of Foreign Assets Control, is authorized to hire an additional 10 full-time employees to carry out activities of the Office associated with the People's Republic of China.

AMENDMENT NO. 81 OFFERED BY MR. FITZGERALD OF WISCONSIN

Page 1689, after line 4, insert the following:

SEC. 80203. MERGERS INVOLVING FOREIGN GOVERNMENT SUBSIDIES.

(a) ACCOUNTING FOR FOREIGN GOVERNMENT SUBSIDIES.—A person required to file a notification required by section 7A of the Clayton Act (15 U.S.C. 18a) that received a subsidy from a foreign state shall include in such notification a detailed accounting of each such subsidy.

(b) AUTHORITY OF ANTITRUST REGULATORS.—The Federal Trade Commission, with the concurrence of the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice and by rule in accordance with section 553 of title 5, consistent with purposes of this section shall require that the notification required under subsection (a) be in such form and contain such documentary material and information relevant to a proposed acquisition as is necessary and appropriate to enable the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice to determine whether such acquisition may, if consummated, violate the antitrust laws.

(c) DEFINITIONS.—For the purposes of this section:

(1) FOREIGN STATE.—The term “foreign state” shall have the meaning given it in section 1603(a) of title 28, United States Code.

(2) SUBSIDY.—The term “subsidy” includes a direct subsidy, a grant, a loan (including a below-market loan), a loan guarantee, a tax concession, a preferential governmental procurement policy, or other form of economic support including ownership or control by a foreign state.

(d) EFFECTIVE DATE.—This section shall take effect on the date on which the rule described in subsection (b) takes effect.

AMENDMENT NO. 82 OFFERED BY MR.
FORTENBERRY OF NEBRASKA

Page 1668, after line 13, insert the following:

TITLE XII—ELIMINATE, NEUTRALIZE, AND DISRUPT WILDLIFE TRAFFICKING RE-AUTHORIZATION AND IMPROVEMENTS

SEC. 71201. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States Government should continue to work with international partners, including nations, nongovernmental organizations, and the private sector, to identify long-standing and emerging areas of concern in wildlife poaching and trafficking related to global supply and demand; and

(2) the activities and required reporting of the Presidential Task Force on Wildlife Trafficking, established by Executive Order 13648 (78 Fed. Reg. 40621), and modified by sections 201 and 301 of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7621 and 7631) should be reauthorized to minimize the disruption of the work of such Task Force.

SEC. 17202. DEFINITIONS.

Section 2 of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7601) is amended—

(1) in paragraph (3), by inserting “involving local communities” after “approach to conservation”; and

(2) by amending paragraph to read as follows:

“(4) COUNTRY OF CONCERN.—The term ‘country of concern’ means a foreign country specially designated by the Secretary of State pursuant to section 201(b) as a major source of wildlife trafficking products or their derivatives, a major transit point of wildlife trafficking products or their derivatives, or a major consumer of wildlife trafficking products, in which—

“(A) the government has actively engaged in, or knowingly profited from, the trafficking of protected species; or

“(B) the government facilitates such trafficking through conduct that may include a persistent failure to make serious and sustained efforts to prevent and prosecute such trafficking.”; and

(3) in paragraph (11), by striking “section 201” and inserting “section 301”.

SEC. 17203. FRAMEWORK FOR INTERAGENCY RESPONSE AND REPORTING.

(a) REAUTHORIZATION OF REPORT ON MAJOR WILDLIFE TRAFFICKING COUNTRIES.—Section 201 of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7621) is amended—

(1) in subsection (a), by striking “annually thereafter” and inserting “biennially thereafter by June 1 of each year in which a report is required”; and

(2) by amending subsection (c) to read as follows:

“(c) DESIGNATION.—A country may be designated as a country of concern under subsection (b) regardless of such country’s status as a focus country.”.

(b) PRESIDENTIAL TASK FORCE ON WILDLIFE TRAFFICKING RESPONSIBILITIES.—Section 301(a) of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7631(a)) is amended—

(1) in paragraph (4), by striking “and” at the end;

(2) by redesignating paragraph (5) as paragraph (10); and

(3) by inserting after paragraph (4) the following:

“(5) pursue programs and develop a strategy—

“(A) to expand the role of technology for anti-poaching and anti-trafficking efforts, in partnership with the private sector, foreign

governments, academia, and nongovernmental organizations (including technology companies and the transportation and logistics sectors); and

“(B) to enable local governments to develop and use such technologies;

“(6) consider programs and initiatives that address the expansion of the illegal wildlife trade to digital platforms, including the use of digital currency and payment platforms for transactions by collaborating with the private sector, academia, and nongovernmental organizations, including social media, e-commerce, and search engine companies, as appropriate;

“(7)(A) establish and publish a procedure for removing from the list in the biennial report any country of concern that no longer meets the definition of country of concern under section 2(4);

“(B) include details about such procedure in the next report required under section 201;

“(8)(A) implement interventions to address the drivers of poaching, trafficking, and demand for illegal wildlife and wildlife products in focus countries and countries of concern;

“(B) set benchmarks for measuring the effectiveness of such interventions; and

“(C) consider alignment and coordination with indicators developed by the Task Force;

“(9) consider additional opportunities to increase coordination between law enforcement and financial institutions to identify trafficking activity; and”.

(c) PRESIDENTIAL TASK FORCE ON WILDLIFE TRAFFICKING STRATEGIC REVIEW.—Section 301 of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act of 2016 (16 U.S.C. 7631), as amended by subsection (b), is further amended—

(1) in subsection (d)—

(A) in the matter preceding paragraph (1), by striking “annually” and inserting “biennially”; and

(B) in paragraph (4), by striking “and” at the end;

(C) in paragraph (5), by striking the period at the end and inserting “; and”; and

(D) by adding at the end the following:

“(6) an analysis of the indicators developed by the Task Force, and recommended by the Government Accountability Office, to track and measure inputs, outputs, law enforcement outcomes, and the market for wildlife products for each focus country listed in the report, including baseline measures, as appropriate, for each indicator in each focus country to determine the effectiveness and appropriateness of such indicators to assess progress and whether additional or separate indicators, or adjustments to indicators, may be necessary for focus countries.”; and

(2) by striking subsection (e).

SEC. 17204. FUNDING SAFEGUARDS.

(a) PROCEDURES FOR OBTAINING CREDIBLE INFORMATION.—Section 620M(d) of the Foreign Assistance Act of 1961 (22 U.S.C. 2378d(d)) is amended—

(1) by redesignating paragraphs (4), (5), (6), and (7) as paragraphs (5), (6), (7), and (8), respectively; and

(2) by inserting after paragraph (3) the following:

“(4) routinely request and obtain such information from the United States Agency for International Development, the United States Fish and Wildlife Service, and other relevant Federal agencies that partner with international nongovernmental conservation groups.”.

(b) REQUIRED IMPLEMENTATION.—The Secretary of State shall implement the procedures established pursuant to section 620M(d) of the Foreign Assistance Act of 1961, as amended by subsection (a), including vetting individuals and units, whenever the United

States Agency for International Development, the United States Fish and Wildlife Service, or any other relevant Federal agency that partners with international nongovernmental conservation groups provides assistance to any unit of the security forces of a foreign country.

SEC. 17205. ISSUANCE OF SUBPOENAS IN WILDLIFE TRAFFICKING CIVIL PENALTY ENFORCEMENT ACTIONS.

(a) ENDANGERED SPECIES ACT OF 1973.—Section 11(e) of the Endangered Species Act of 1973 (16 U.S.C. 1540(e)) is amended by adding at the end the following:

“(7) ISSUANCE OF SUBPOENAS.—

“(A) IN GENERAL.—For the purposes of any inspection or investigation relating to the import into, or the export from, the United States of any fish or wildlife or plants covered under this Act or relating to the delivery, receipt, carrying, transport, shipment, sale, or offer for sale in interstate or foreign commerce of any such fish or wildlife or plants imported into or exported from the United States, the Secretary, may issue subpoenas for the attendance and testimony of witnesses and the production of any papers, books, or other records relevant to the subject matter under investigation.

“(B) FEES AND MILEAGE FOR WITNESSES.—A witness summoned under subparagraph (A) shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States.

“(C) REFUSAL TO OBEY SUBPOENAS.—

“(i) IN GENERAL.—In the case of a contumacy or refusal to obey a subpoena served on any person pursuant to this paragraph, the district court of the United States for any judicial district in which the person is found, resides, or transacts business, on application by the United States and after notice to that person, shall have jurisdiction to issue an order requiring that person to appear and give testimony before the Secretary, to appear and produce documents before the Secretary, or both.

“(ii) FAILURE TO OBEY.—Any failure to obey an order issued by a court under clause (i) may be punished by that court as a contempt of that court.”.

(b) LACEY ACT AMENDMENTS OF 1981.—Section 6 of the Lacey Act Amendments of 1981 (16 U.S.C. 3375) is amended by adding at the end the following:

“(e) ISSUANCE OF SUBPOENAS.—

“(1) IN GENERAL.—For the purposes of any inspection or investigation relating to the import into, or the export from, the United States of any fish or wildlife or plants covered under the Lacey Act of 1900 (16 U.S.C. 3371 et seq.) or relating to the transport, sale, receipt, acquisition, or purchase in interstate or foreign commerce of any such fish or wildlife or plants imported into or exported from the United States, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of any papers, books, or other records relevant to the subject matter under investigation.

“(2) FEES AND MILEAGE FOR WITNESSES.—A witness summoned under paragraph (1) shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States.

“(3) REFUSAL TO OBEY SUBPOENAS.—

“(A) IN GENERAL.—In the case of a contumacy or refusal to obey a subpoena served on any person pursuant to this subsection, the district court of the United States for any judicial district in which the person is found, resides, or transacts business, on application by the United States and after notice to that person, shall have jurisdiction to issue an order requiring that person to appear and give testimony before the Secretary, to appear and produce documents before the Secretary, or both.

“(B) FAILURE TO OBEY.—Any failure to obey an order issued by a court under subparagraph (A) may be punished by that court as a contempt of that court.”.

(C) BALD AND GOLDEN EAGLE PROTECTION ACT.—

(1) CIVIL PENALTIES.—Subsection (b) of the first section of the Act of June 8, 1940 (16 U.S.C. 668(b)) (commonly known as the “Bald and Golden Eagle Protection Act”), is amended—

(A) by striking “(b) Whoever, within the” and inserting the following:

“(b) CIVIL PENALTIES.—

“(1) IN GENERAL.—Whoever, within the”; and

(B) by adding at the end the following:

“(2) HEARINGS; ISSUANCE OF SUBPOENAS.—

“(A) HEARINGS.—Hearings held during proceedings for the assessment of civil penalties under paragraph (1) shall be conducted in accordance with section 554 of title 5, United States Code.

“(B) ISSUANCE OF SUBPOENAS.—

“(i) IN GENERAL.—For purposes of any hearing held during proceedings for the assessment of civil penalties under paragraph (1), the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths.

“(ii) FEES AND MILEAGE FOR WITNESSES.—A witness summoned pursuant to clause (i) shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States.

“(iii) REFUSAL TO OBEY SUBPOENAS.—

“(I) IN GENERAL.—In the case of a contumacy or refusal to obey a subpoena served on any person pursuant to this subparagraph, the district court of the United States for any judicial district in which the person is found, resides, or transacts business, on application by the United States and after notice to that person, shall have jurisdiction to issue an order requiring that person to appear and give testimony before the Secretary, to appear and produce documents before the Secretary, or both.

“(II) FAILURE TO OBEY.—Any failure to obey an order issued by a court under subsection (I) may be punished by that court as a contempt of that court.”.

(2) INVESTIGATORY SUBPOENAS.—Section 3 of the Act of June 8, 1940 (16 U.S.C. 668b) (commonly known as the “Bald and Golden Eagle Protection Act”), is amended by adding at the end the following:

“(d) ISSUANCE OF SUBPOENAS.—

“(1) IN GENERAL.—For the purposes of any inspection or investigation relating to the import into or the export from the United States of any bald or golden eagles covered under this Act, or any parts, nests, or eggs of any such bald or golden eagles, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of any papers, books, or other records relevant to the subject matter under investigation.

“(2) FEES AND MILEAGE FOR WITNESSES.—A witness summoned under paragraph (1) shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States.

“(3) REFUSAL TO OBEY SUBPOENAS.—

“(A) IN GENERAL.—In the case of a contumacy or refusal to obey a subpoena served on any person pursuant to this subsection, the district court of the United States for any judicial district in which the person is found, resides, or transacts business, on application by the United States and after notice to that person, shall have jurisdiction to issue an order requiring that person to appear and give testimony before the Secretary, to appear and produce documents before the Secretary, or both.

“(B) FAILURE TO OBEY.—Any failure to obey an order issued by a court under subparagraph (A) may be punished by that court as a contempt of that court.”.

AMENDMENT NO. 83 OFFERED BY MR. FOSTER OF ILLINOIS

Page 641, after line 22, insert the following:

Subtitle G—National Nuclear University Research Infrastructure Reinvestment

SEC. 10671. SHORT TITLE.

This subtitle may be cited as the “National Nuclear University Research Infrastructure Reinvestment Act of 2021”.

SEC. 10672. PURPOSES.

The purposes of this subtitle are—

(1) to upgrade the nuclear research capabilities of universities in the United States to meet the research requirements of advanced nuclear energy systems;

(2) to ensure the continued operation of university research reactors;

(3) to coordinate available resources to enable the establishment, including the start and efficient completion of construction, of new nuclear science and engineering facilities; and

(4) to support—

(A) workforce development critical to maintaining United States leadership in nuclear science and engineering and related disciplines; and

(B) the establishment or enhancement of nuclear science and engineering capabilities and other, related capabilities at historically Black colleges and universities, Tribal colleges or universities, minority-serving institutions, EPSCoR universities, junior or community colleges, and associate-degree-granting colleges

SEC. 10673. UNIVERSITY INFRASTRUCTURE COLLABORATION.

Section 954(a) of the Energy Policy Act of 2005 (42 U.S.C. 16274(a)) is amended—

(1) in paragraph (2) by amending subparagraph (D) to read as follows:

“(D) promote collaborations, partnerships, and knowledge sharing between institutions of higher education, National Laboratories, other Federal agencies, industry, and associated labor unions; and”.

(2) by amending paragraph (4) to read as follows:

“(4) STRENGTHENING UNIVERSITY RESEARCH AND TRAINING REACTORS AND ASSOCIATED INFRASTRUCTURE.—

“(A) IN GENERAL.—In carrying out the program under this subsection, the Secretary may support—

“(i) converting research reactors from high-enrichment fuels to low-enrichment fuels and upgrading operational instrumentation;

“(ii) revitalizing and upgrading existing nuclear science and engineering infrastructure that support the development of advanced nuclear technologies and applications;

“(iii) regional or subregional university-led consortia to—

“(I) broaden access to university research reactors;

“(II) enhance existing university-based nuclear science and engineering infrastructure; and

“(III) provide project management, technical support, quality engineering and inspections, manufacturing, and nuclear material support.”;

“(iv) student training programs, in collaboration with the United States nuclear industry, in relicensing and upgrading reactors, including through the provision of technical assistance; and

“(v) reactor improvements that emphasize research, training, and education, including through the Innovations in Nuclear Infra-

structure and Education Program or any similar program.

“(B) Of any amounts appropriated to carry out the program under this subsection, there is authorized to be appropriated to the Secretary to carry out clauses (ii) and (iii) of subparagraph (A) \$55,000,000 for each of fiscal years 2022 through 2026.”.

SEC. 10674. ADVANCED NUCLEAR RESEARCH INFRASTRUCTURE ENHANCEMENT SUBPROGRAM.

Section 954(a) of the Energy Policy Act of 2005 (42 U.S.C. 16274(a)), as amended by section 3, is further amended—

(1) by redesignating paragraphs (5) through (8) as paragraphs (6) through (9), respectively;

(2) by inserting after paragraph (4) the following:

“(5) ADVANCED NUCLEAR RESEARCH INFRASTRUCTURE ENHANCEMENT.—

“(A) IN GENERAL.—The Secretary shall carry out a subprogram to be known as the Advanced Nuclear Research Infrastructure Enhancement Subprogram in order to—

“(i) demonstrate various advanced nuclear reactor and nuclear microreactor concepts;

“(ii) establish medical isotope production reactors or other specialized applications; and

“(iii) advance other research infrastructure that, in the determination of the Secretary, is consistent with the mission of the Department.

“(B) NEW NUCLEAR SCIENCE AND ENGINEERING FACILITIES.—In carrying out the subprogram, the Secretary shall establish—

“(i) not more than 4 new research reactors; and

“(ii) new nuclear science and engineering facilities, as required to address research demand and identified infrastructure gaps.

“(C) LOCATIONS.—New research reactors and facilities established under subparagraph (B) shall be established in a manner that—

“(i) supports the regional or subregional consortia described in paragraph (4)(C); and

“(ii) encourages the participation of—

“(I) historically Black colleges and universities;

“(II) Tribal colleges or universities;

“(III) minority-serving institutions;

“(IV) EPSCoR universities;

“(V) junior or community colleges; and

“(VI) associate-degree-granting colleges.

“(D) FUEL REQUIREMENTS.—New research reactors established under subparagraph (B) shall not use high-enriched uranium, as defined in section 2001 of division Z of the Consolidated Appropriations Act of 2021.

“(E) AUTHORIZATION OF APPROPRIATIONS.—Of any amounts appropriated to carry out the program under this section, there are authorized to be appropriated to the Secretary to carry out the subprogram under this paragraph—

“(i) \$10,000,000 for fiscal year 2022;

“(ii) \$45,000,000 for fiscal year 2023;

“(iii) \$60,000,000 for fiscal year 2024;

“(iv) \$65,000,000 for fiscal year 2025;

“(v) \$80,000,000 for fiscal year 2026;

“(vi) \$140,000,000 for fiscal year 2027;

“(vii) \$120,000,000 for fiscal year 2028; and

“(viii) \$80,000,000 for fiscal year 2029.”; and

(3) by amending paragraph (9), as redesignated by paragraph (1) of this section, to read as follows:

“(9) DEFINITIONS.—In this subsection:

“(A) ASSOCIATE-DEGREE-GRANTING COLLEGE.—The term ‘associate-degree-granting college’ means an institution of higher education (as determined under section 101 of the Higher Education Act of 1965 20 U.S.C. 1001) that—

“(i) is a nonprofit institution that offers a 2-year associate-degree program or a 2-year certificate program; or

“(ii) is a proprietary institution that offers a 2-year associate degree program;

“(B) JUNIOR FACULTY.—The term ‘junior faculty’ means a faculty member who was awarded a doctorate less than 10 years before receipt of an award from the grant program described in paragraph (2)(B);

“(C) JUNIOR OR COMMUNITY COLLEGE.—The term ‘junior or community college’ has the meaning given the term in section 312 of the Higher Education Act of 1965 (20 U.S.C. 1058);

“(D) EPSCOR UNIVERSITY.—The term ‘EPSCoR university’ means an institution of higher education located in a State eligible to participate in the program defined in section 502 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p note);

“(E) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term ‘historically Black college or university’ has the meaning given the term ‘part B institution’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061);

“(F) MINORITY-SERVING INSTITUTION.—The term ‘minority-serving institution’ means a Hispanic-serving institution, an Alaska Native-serving institution, a Native Hawaiian-serving institutions, a Predominantly Black Institution, an Asian American and Native American Pacific Islander-serving institution, or a Native American-serving nontribal institution as described in section 371 of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)); and

“(G) TRIBAL COLLEGE OR UNIVERSITY.—The term ‘Tribal College or University’ has the meaning given such term in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).”.

SEC. 10675. SCIENCE EDUCATION AND HUMAN RESOURCES SCHOLARSHIPS, FELLOWSHIPS, AND RESEARCH AND DEVELOPMENT PROJECTS.

(a) IN GENERAL.—The purpose of this section is to support a diverse workforce for the complex landscape associated with effective and equitable development of advanced nuclear energy technologies, including interdisciplinary research to enable positive impacts and avoid potential negative impacts across the lifespan of nuclear energy technologies.

(b) NONTECHNICAL NUCLEAR RESEARCH.—Section 313 of the Omnibus Appropriations Act, 2009 (Public Law 111–8; 42 U.S.C. 16274a) is amended:

(1) in subsection (b)(2), after “engineering”, by inserting “, which may include non-technical nuclear research.”;

(2) in subsection (c), by inserting after paragraph (2) the following:

“(3) NONTECHNICAL NUCLEAR RESEARCH.—The term ‘nontechnical nuclear research’ means research with specializations such as social sciences or law that can support an increase in community engagement, participation, and confidence in nuclear energy systems, including the navigation of the licensing required for advanced reactor deployment, aligned with the objectives in section 951(a)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16271(a)(2)).”; and

(3) in subsection (d)(1), by striking “\$30,000,000” and inserting “\$45,000,000”.

AMENDMENT NO. 88 OFFERED BY MR. GALLAGHER OF WISCONSIN

At the end of division E of title VI, add the following new section:

SEC. 40103. AMERICAN SECURITY DRONE ACT.

(a) SHORT TITLE.—This section may be cited as the “American Security Drone Act of 2022”.

(b) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the congressional defense committees as defined in section 101(a) of title 10, United States Code;

(B) the Committee on Science, Space, and Technology, and the Committee on Transportation and Infrastructure of the House of Representatives; and

(C) the Committee on Commerce, Science, and Transportation of the Senate.

(2) COVERED FOREIGN ENTITY.—The term “covered foreign entity” means an entity included on a list developed and maintained by the Federal Acquisition Security Council that includes entities in the following categories:

(A) An entity included on the Consolidated Screening List.

(B) Any entity that is subject to extrajudicial direction from a foreign government, as determined by the Secretary of Homeland Security.

(C) Any entity the Secretary of Homeland Security, in coordination with the Director of National Intelligence and the Secretary of Defense, determines poses a national security risk.

(D) Any entity domiciled in the People’s Republic of China or subject to influence or control by the Government of the People’s Republic of China or the Communist Party of the People’s Republic of China, as determined by the Secretary of Homeland Security.

(E) Any subsidiary or affiliate of an entity described in subparagraphs (A) through (D).

(3) EXECUTIVE AGENCY.—The term “executive agency” has the meaning given that term in section 133 of title 41, United States Code.

(4) UNMANNED AIRCRAFT SYSTEM; UAS.—Except as otherwise provided, the terms “unmanned aircraft system” and “UAS” mean an unmanned aircraft and associated elements (consisting of communication links and the components that control the unmanned aircraft) that are required for the operator to operate safely and efficiently in the national airspace system.

(c) PROHIBITION ON PROCUREMENT OF UNMANNED AIRCRAFT SYSTEMS FROM COVERED FOREIGN ENTITIES.—

(1) IN GENERAL.—Except as provided under paragraphs (2) and (3), the head of an executive agency may not procure any unmanned aircraft system that is manufactured, assembled, designed, or patented by a covered foreign entity that are required for the operator to operate safely and efficiently in the national airspace system. The Federal Acquisition Security Council, in coordination with the Secretary of Transportation, shall develop and update a list of associated elements.

(2) EXEMPTION.—The Secretary of Homeland Security, the Secretary of Defense, and the Attorney General are exempt from the restriction under paragraph (1) if the operation or procurement—

(A) is for the sole purposes of research, evaluation, training, testing, or analysis for—

(i) electronic warfare;

(ii) information warfare operations;

(iii) development of UAS or counter-UAS technology;

(iv) counterterrorism or counterintelligence activities; or

(v) Federal criminal investigations, including forensic examinations; and

(B) is required in the national interest of the United States.

(3) WAIVER.—The head of an executive agency may waive the prohibition under paragraph (1)—

(A) with the approval of the Secretary of Homeland Security or the Secretary of Defense; and

(B) upon notification to Congress.

(d) PROHIBITION ON OPERATION OF UNMANNED AIRCRAFT SYSTEMS FROM COVERED FOREIGN ENTITIES.—

(1) PROHIBITION.—

(A) IN GENERAL.—Beginning on the date that is 2 years after the date of the enactment of this Act, an executive agency may not operate an unmanned aircraft system manufactured, assembled, designed, or patented by a covered foreign entity.

(B) APPLICABILITY TO CONTRACTED SERVICES.—The prohibition under subparagraph (A) applies to any unmanned aircraft systems that are being used by any executive agency through the method of contracting for the services of unmanned aircraft systems.

(2) EXEMPTION.—The Secretary of Homeland Security, the Secretary of Defense, and the Attorney General are exempt from the restriction under paragraph (1) if the operation or procurement—

(A) is for the sole purposes of research, evaluation, training, testing, or analysis for—

(i) electronic warfare;

(ii) information warfare operations;

(iii) development of UAS or counter-UAS technology;

(iv) counterterrorism or counterintelligence activities; or

(v) Federal criminal investigations, including forensic examinations; and

(B) is required in the national interest of the United States.

(3) WAIVER.—The head of an executive agency may waive the prohibition under paragraph (1) on a case-by-case basis—

(A) with the approval of the Secretary of Homeland Security or the Secretary of Defense; and

(B) upon notification to Congress.

(4) REGULATIONS AND GUIDANCE.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Homeland Security shall prescribe regulations or guidance to implement this subsection.

(e) PROHIBITION ON USE OF FEDERAL FUNDS FOR PURCHASES AND OPERATION OF UNMANNED AIRCRAFT SYSTEMS FROM COVERED FOREIGN ENTITIES.—

(1) IN GENERAL.—Beginning on the date that is 2 years after the date of the enactment of this Act, except as provided in paragraphs (2) and (3), Federal funds awarded through a contract, grant, or cooperative agreement entered into on or after such effective date, or otherwise made available, may not be used—

(A) to purchase a unmanned aircraft system, or a system to counter unmanned aircraft systems, that is manufactured, assembled, designed, or patented by a covered foreign entity; or

(B) in connection with the operation of such a drone or unmanned aircraft system.

(2) EXEMPTION.—An executive agency is exempt from the restriction under paragraph (1) if the operation or procurement is for the sole purposes of research, evaluation, training, testing, or analysis, as determined by the Secretary of Homeland Security, the Secretary of Defense, or the Attorney General, for—

(A) electronic warfare;

(B) information warfare operations;

(C) development of UAS or counter-UAS technology;

(D) counterterrorism or counterintelligence activities;

(E) Federal criminal investigations, including forensic examinations; or

(F) the safe integration of UAS in the national airspace (as determined in consultation with the Secretary of Transportation); and

(G) is required in the national interest of the United States.

(3) WAIVER.—The head of an executive agency may waive the prohibition under paragraph (1) on a case-by-case basis—

(A) with the approval of the Secretary of Homeland Security or the Secretary of Defense; and

(B) upon notification to Congress.

(4) REGULATIONS.—Not later than 180 days after the date of the enactment of this Act, the Federal Acquisition Regulatory Council shall prescribe regulations or guidance, as necessary, to implement the requirements of this subsection relating to Federal contracts.

(f) PROHIBITION ON USE OF GOVERNMENT-ISSUED PURCHASE CARDS TO PURCHASE UNMANNED AIRCRAFT SYSTEMS FROM COVERED FOREIGN ENTITIES.—Effective immediately, Government-issued Purchase Cards may not be used to procure any unmanned aircraft system from a covered foreign entity.

(g) MANAGEMENT OF EXISTING INVENTORIES OF UNMANNED AIRCRAFT SYSTEMS FROM COVERED FOREIGN ENTITIES.—

(1) IN GENERAL.—Effective immediately, all executive agencies must account for existing inventories of unmanned aircraft systems manufactured, assembled, designed, or patented by a covered foreign entity in their personal property accounting systems, regardless of the original procurement cost, or the purpose of procurement due to the special monitoring and accounting measures necessary to track the items' capabilities.

(2) CLASSIFIED TRACKING.—Due to the sensitive nature of missions and operations conducted by the United States Government, inventory data related to unmanned aircraft systems manufactured, assembled, designed, or patented by a covered foreign entity may be tracked at a classified level.

(3) EXCEPTIONS.—The Department of Defense and Department of Homeland Security may exclude from the full inventory process, unmanned aircraft systems that are deemed expendable due to mission risk such as recovery issues or that are one-time-use unmanned aircraft system due to requirements and low cost.

(h) COMPTROLLER GENERAL REPORT.—Not later than 275 days after the date of the enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on the amount of commercial off-the-shelf drones and unmanned aircraft systems procured by Federal departments and agencies from covered foreign entities.

(i) GOVERNMENT-WIDE POLICY FOR PROCUREMENT OF UNMANNED AIRCRAFT SYSTEMS.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Director of the Office of Management and Budget, in coordination with the Department of Homeland Security, Department of Transportation, the Department of Justice, and other Departments as determined by the Director of the Office of Management and Budget, and in consultation with the National Institute of Standards and Technology, shall establish a government-wide policy for the procurement of UAS—

(A) for non-Department of Defense and non-intelligence community operations; and

(B) through grants and cooperative agreements entered into with non-Federal entities.

(2) INFORMATION SECURITY.—The policy developed under paragraph (1) shall include the following specifications, which to the extent practicable, shall be based on industry standards and technical guidance from the National Institute of Standards and Technology, to address the risks associated with processing, storing and transmitting Federal information in a UAS:

(A) Protections to ensure controlled access of UAS.

(B) Protecting software, firmware, and hardware by ensuring changes to UAS are properly managed, including by ensuring

UAS can be updated using a secure, controlled, and configurable mechanism.

(C) Cryptographically securing sensitive collected, stored, and transmitted data, including proper handling of privacy data and other controlled unclassified information.

(D) Appropriate safeguards necessary to protect sensitive information, including during and after use of UAS.

(E) Appropriate data security to ensure that data is not transmitted to or stored in non-approved locations.

(F) The ability to opt out of the uploading, downloading, or transmitting of data that is not required by law or regulation and an ability to choose with whom and where information is shared when it is required.

(3) REQUIREMENT.—The policy developed under paragraph (1) shall reflect an appropriate risk-based approach to information security related to use of UAS.

(4) REVISION OF ACQUISITION REGULATIONS.—Not later than 180 days after the date on which the policy required under paragraph (1) is issued—

(A) the Federal Acquisition Regulatory Council shall revise the Federal Acquisition Regulation, as necessary, to implement the policy; and

(B) any executive agency or other Federal entity not subject to, or not subject solely to, the Federal Acquisition Regulation shall revise applicable policy, guidance, or regulations, as necessary, to implement the policy.

(5) EXEMPTION.—In developing the policy required under paragraph (1), the Director of the Office of Management and Budget shall incorporate an exemption to the policy for the following reasons:

(A) In the case of procurement for the purposes of training, testing or analysis for—

(i) electronic warfare; or

(ii) information warfare operations.

(B) In the case of researching UAS technology, including testing, evaluation, research, or development of technology to counter UAS.

(C) In the case of a head of the procuring executive agency determining, in writing, that no product that complies with the information security requirements described in paragraph (2) is capable of fulfilling mission critical performance requirements, and such determination—

(i) may not be delegated below the level of the Deputy Secretary of the procuring executive agency;

(ii) shall specify—

(I) the quantity of end items to which the waiver applies, the procurement value of which may not exceed \$50,000 per waiver; and

(II) the time period over which the waiver applies, which shall not exceed 3 years;

(iii) shall be reported to the Office of Management and Budget following issuance of such a determination; and

(iv) not later than 30 days after the date on which the determination is made, shall be provided to the Committee on Homeland Security and Government Affairs of the Senate and the Committee on Oversight and Reform of the House of Representatives.

(j) STUDY ON THE SUPPLY CHAIN FOR UNMANNED AIRCRAFT SYSTEMS AND COMPONENTS.—

(1) REPORT REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Defense for Acquisition and Sustainment, in consultation with the Administrator of the National Aeronautics and Space Administration, shall provide to the appropriate congressional committees a report on the supply chain for covered unmanned aircraft systems, including a discussion of current and projected future demand for covered unmanned aircraft systems.

(2) ELEMENTS.—The report under paragraph (1) shall include the following:

(A) A description of the current and future global and domestic market for covered unmanned aircraft systems that are not widely commercially available except from a covered foreign entity.

(B) A description of the sustainability, availability, cost, and quality of secure sources of covered unmanned aircraft systems domestically and from sources in allied and partner countries.

(C) The plan of the Secretary of Defense to address any gaps or deficiencies identified in subparagraph (B), including through the use of funds available under the Defense Production Act of 1950 (50 U.S.C. 4501 et seq.) and partnerships with the National Aeronautics and Space Administration and other interested persons.

(D) Such other information as the Under Secretary of Defense for Acquisition and Sustainment determines to be appropriate.

(3) COVERED UNMANNED AIRCRAFT SYSTEM DEFINED.—In this subsection, the term “covered unmanned aircraft system” means an unmanned aircraft system (as defined in subsection (b)) and any components of such a system.

AMENDMENT NO. 95 OFFERED BY MISS GONZÁLEZ-COLÓN OF PUERTO RICO

Page 407, after line 25, insert the following:

SEC. 10310. RECOGNITION OF THE ARECIBO OBSERVATORY.

(a) FINDINGS.—Congress finds the following:

(1) The Department of Defense began developing the Arecibo Observatory located in Barrio Esperanza, Arecibo, Puerto Rico, during the 1950s, and its characteristic instrument, a large radio telescope of 305 meters in diameter was completed in 1963.

(2) The facility was later owned by the National Science Foundation, and supported by the National Aeronautics and Space Administration and various university partners.

(3) The Arecibo Observatory's 305-meter fixed spherical radio telescope, was the world's largest single-dish radio telescope until the Five-Hundred-Meter Aperture Spherical Radio Telescope located in Gishou, China, began observing in 2016.

(4) The 305-meter radio telescope made unparalleled contributions to the fields of radio astronomy, planetary, and atmospheric sciences, and played a role in inspiring thousands of students in Puerto Rico, the Nation, and the world to pursue careers in STEM fields through the Arecibo Observatory Education and Public Outreach Programs.

(5) The radio telescope significantly advanced the field of radio astronomy, including the first indirect detection of gravitational waves, the first detection of extrasolar planets, innumerable contributions to the field of time domain astronomy and the study of the interstellar medium, and played a key role in the search for extraterrestrial intelligence.

(6) The Arecibo Observatory had the best planetary radar system in the world, used by the National Aeronautics and Space Administration for near-Earth object detection and was an essential part of the agency's planetary defense program.

(7) The planetary radar at the Arecibo Observatory has contributed fundamentally and significantly to the knowledge of the solar system.

(8) The Arecibo Observatory's Incoherent Scatter Radar and supporting facilities have provided fundamental understanding of the ionosphere and upper atmosphere, and the interface between the atmosphere and space that protects the planet from solar wind, meteors, and other potential threats.

(9) December 1, 2021, marks the 1-year anniversary of the uncontrolled collapse sustained by the radio telescope after a series of cable failures in tower 4.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Congress—

(1) acknowledges the loss of the Arecibo Observatory's radio telescope due to its collapse and its implications for the loss of a unique world-class multidisciplinary science facility which conducted research in the areas of space and atmospheric sciences, radar astronomy and planetary sciences, astronomy, and astrophysics;

(2) acknowledges that the uncontrolled collapse of the 305-meter radio telescope represents a loss of astronomical observation capabilities, scientific research and development, planetary defense capabilities, and applied science capabilities for the United States;

(3) recognizes the rich scientific, educational, and economic benefits that the Arecibo Telescope has made to the people of Puerto Rico, the Nation, and the world;

(4) recognizes the work and contributions made by the thousands of dedicated staff who have supported the Arecibo Observatory for close to 6 decades;

(5) commends the National Science Foundation for convening a virtual workshop in June 2021, to explore ideas for future scientific and educational activities at the Arecibo Observatory; and

(6) encourages the National Science Foundation, the National Aeronautics and Space Administration, and other agencies to explore opportunities for strengthening and expanding the role of the Arecibo Observatory in Puerto Rico through education, outreach, and diversity programs, and future research capabilities and technology at the site.

AMENDMENT NO. 100 OFFERED BY MR. GOTTHEIMER OF NEW JERSEY

Page 1115, after line 6, add the following:

(P) opportunities of potential partnership with Israel and other regional nations in areas such as technological cooperation in areas critical to national security.

AMENDMENT NO. 101 OFFERED BY MR. GOTTHEIMER OF NEW JERSEY

At the end of subtitle D of title I of division D, add the following:

SEC. 30135. REPORT ON LINKS BETWEEN PRIVATE SECTOR CHINESE TECHNOLOGY AND SOCIAL MEDIA COMPANIES AND THE PEOPLE'S LIBERATION ARMY, CHINESE INTELLIGENCE, AND THE CHINESE COMMUNIST PARTY.

(a) IN GENERAL.—The President shall prepare and submit to Congress a report on links between private sector Chinese technology and social media companies and the People's Liberation Army, Chinese intelligence, and the Chinese Communist Party.

(b) MATTERS TO BE INCLUDED.—The report required by subsection (a) shall include a discussion and analysis of—

(1) national security risks from illicit or coercive technology transfer;

(2) Chinese investment in private sector United States and allied nation technology companies in fields such as artificial intelligence, biotechnology, next-generation energy technology and other areas determined to be vital to the national security of the United States by Secretaries of Commerce, Energy, and Defense; and

(3) key technology focus areas (as such term is defined in section 20208(16) of this Act).

(c) FORM.—The report required by subsection (a) shall be submitted in unclassified form and made available to the public, but may contain a classified annex.

AMENDMENT NO. 107 OFFERED BY MRS. HAYES OF CONNECTICUT

At the end of title III of division B, add the following:

SEC. 10310. HANDS-ON LEARNING OPPORTUNITIES IN STEM EDUCATION.

(a) DEFINITIONS.—In this section:

(1) ESEA TERMS.—The terms “elementary school”, “high school”, “secondary school”, and “State” have the meanings given the terms in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(2) ELIGIBLE NONPROFIT PROGRAM.—The term “eligible nonprofit program”—

(A) means a nonprofit program serving prekindergarten, elementary school, or secondary school students; and

(B) includes a program described in subparagraph (A) that covers the continuum of education from prekindergarten through high school and is available in every State.

(3) DIRECTOR.—The term “Director” means the Director of the National Science Foundation.

(4) STEM.—The term “STEM” means science, technology, engineering, and mathematics.

(b) PURPOSES.—The purposes of this section are to—

(1) provide effective, compelling, and engaging means for teaching and reinforcing fundamental STEM concepts and inspiring the youth of the United States to pursue careers in STEM-related fields;

(2) expand the STEM workforce pipeline by developing and training students for careers in United States STEM fields; and

(3) broaden participation in the STEM workforce by underrepresented population groups.

(c) PROGRAM AUTHORIZED.—

(1) IN GENERAL.—The Director shall, subject to the availability of appropriations for such purposes, make awards to eligible nonprofit programs for supporting hands-on learning opportunities in STEM education, including via after-school activities and innovative learning opportunities such as robotics competitions and for the purposes of evaluating the impact of such programs on STEM learning and disseminating the results of such evaluations.

(2) PRIORITY.—In making awards under the program, the Director shall give priority to eligible nonprofit programs serving students that attend elementary schools or secondary schools (including high schools) that—

(A) are implementing comprehensive support and improvement activities or targeted support and improvement activities under paragraph (1) or (2) of section 1111(d) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(d)); or

(B) serve high percentages of students who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) (which, in the case of a high school, may be calculated using comparable data from the schools that feed into the high school).

AMENDMENT NO. 111 OFFERED BY MR. HILL OF ARKANSAS

Add at the end of division I the following:

TITLE IV—OTHER MATTERS

SEC. 80401. REGISTRATION OF AGENT.

(a) IN GENERAL.—Chapter 190 of title 28, United States Code, is amended by adding at the end the following new section:

“§ 5002. Registration of an agent for the service of process on covered entities

“(a) IN GENERAL.—A covered entity conducting business in the United States shall register with the Department of Commerce not less than one agent residing in the United States if the covered entity—

“(1) is organized under the laws of, or has its principal place of business in, a foreign country;

“(2) is traded in shares and such shares are held in majority by any individual or group of individuals reside in a foreign country; or

“(3) is owned by individuals or other entities who reside or are headquartered outside of the United States and the majority of business earnings of the covered entity are derived from commerce outside of the United States.

“(b) FILING.—A registration required under subsection (a) shall be filed with the Department of Commerce not later than 30 days after—

“(1) the date of enactment of this Act; or

“(2) the departure of the previously registered agent from employment or contract with the covered entity.

“(c) PURPOSE OF REGISTERED AGENT.—

“(1) AVAILABILITY.—A covered entity shall ensure that not less than one registered agent on whom process may be served is available at the business address of the registered agent each day from 9 a.m. to 5 p.m. in the time zone of the business address, excluding Saturdays, Sundays, and Federal holidays.

“(2) COMMUNICATION.—The registered agent shall be required to be available to accept service of process on behalf of the covered entity under which the agent is registered by the means of any communication included in the registration submitted to the Department of Commerce.

“(d) COOPERATION.—A registered agent shall cooperate in good faith with the United States Government and representatives of other individuals and entities.

“(e) REQUIRED INFORMATION.—The registration submitted to the Department of Commerce shall include the following information:

“(1) The name of the covered entity registering an agent under this section.

“(2) The name of the Chief Executive Officer, President, Partner, Chairman, or other controlling individual of the covered entity.

“(3) The name of the individual who is being registered as the agent for the service of process.

“(4) The business address of the covered entity registering an agent under this section.

“(5) The business address of the individual who is being registered as the agent for the service of process.

“(6) Contact information, including an email address and phone number for the individual who is being registered as the agent for the service of process.

“(7) The date on which the agent shall begin to accept service of process under this section.

“(f) WEBSITE.—The information submitted to the Department of Commerce pursuant to this section shall be made available on a publicly accessible database on the website of the Department of Commerce.

“(g) PERSONAL JURISDICTION.—A covered entity that registers an agent under this section thereby consents to the personal jurisdiction of the State or Federal courts of the State in which the registered agent is located for the purpose of any regulatory proceeding or civil action relating to such covered entity.

“(h) DEFINITIONS.—In this section:

“(1) COVERED ENTITY.—The term ‘covered entity’ means—

“(A) a corporation, partnership, association, organization, or other combination of persons established for the purpose of commercial activities; or

“(B) a trust or a fund established for the purpose of commercial activities.

“(2) DEPARTMENT OF COMMERCE.—The term ‘Department of Commerce’ means the United States Department of Commerce.”.

(b) CLERICAL AMENDMENT.—The table of sections for chapter 190 of title 28, United States Code, is amended by adding at the end the following:

“5002. Registration of an agent for the service of process on covered entities.”.

AMENDMENT NO. 114 OFFERED BY MS. HOULAHAN OF PENNSYLVANIA

Page 785, insert after line 11 the following:

Subtitle C—Defense Supply Chain Risk Management

SEC. 20221. RISK MANAGEMENT FOR DEPARTMENT OF DEFENSE SUPPLY CHAINS.

(a) RISK MANAGEMENT FOR ALL DEPARTMENT OF DEFENSE SUPPLY CHAINS.—Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Defense for Acquisition and Sustainment shall—

(1) develop and issue implementing guidance for risk management for Department of Defense supply chains for materiel for the Department, including pharmaceuticals;

(2) identify, in coordination with the Commissioner of Food and Drugs, supply chain information gaps regarding reliance on foreign suppliers of drugs, including active pharmaceutical ingredients and final drug products; and

(3) submit to Congress a report regarding—
(A) existing information streams, if any, that may be used to assess the reliance by the Department of Defense on high-risk foreign suppliers of drugs;

(B) vulnerabilities in the drug supply chains of the Department of Defense; and

(C) any recommendations to address—
(i) information gaps identified under paragraph (2); and

(ii) any risks related to such reliance on foreign suppliers.

(b) RISK MANAGEMENT FOR DEPARTMENT OF DEFENSE PHARMACEUTICAL SUPPLY CHAIN.—The Director of the Defense Health Agency shall—

(1) not later than one year after the issuance of the guidance required by subsection (a)(1), develop and publish implementing guidance for risk management for the Department of Defense supply chain for pharmaceuticals; and

(2) establish a working group—

(A) to assess risks to the pharmaceutical supply chain;

(B) to identify the pharmaceuticals most critical to beneficiary care at military treatment facilities; and

(C) to establish policies for allocating scarce pharmaceutical resources in case of a supply disruption.

(c) RESPONSIVENESS TESTING OF DEFENSE LOGISTICS AGENCY PHARMACEUTICAL CONTRACTS.—The Director of the Defense Logistics Agency shall modify Defense Logistics Agency Instructions 5025.03 and 3110.01—

(1) to require Defense Logistics Agency Troop Support to coordinate annually with customers in the military departments to conduct responsiveness testing of the Defense Logistics Agency's contingency contracts for pharmaceuticals; and

(2) to include the results of that testing, as reported by customers in the military departments, in the annual reports of the Warstopper Program.

AMENDMENT NO. 117 OFFERED BY MR. ISSA OF CALIFORNIA

Page 756, after line 12, add the following:

SEC. 20209. SUPPLY CHAIN REPORT REQUIRED.

Not later than 60 days after the date of the enactment of this Act, the Secretary shall conduct a governmentwide study and submit to Congress a report on the steps that can be implemented within 30 days after submitting the report to immediately address the supply chain crisis.

AMENDMENT NO. 118 OFFERED BY MR. JACKSON OF TEXAS

At the end of subtitle B of title I, add the following:

SEC. 30116. REPORT ON FOREIGN INVESTMENT IN THE AGRICULTURE SECTOR OF THE UNITED STATES.

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, and annually thereafter for 10 years, the Secretary of State, in consultation with the Secretary of Agriculture, shall submit to Congress a report on foreign investment in the agriculture sector of the United States and the impact of such investment on the national security of the United States.

(b) PRIORITY.—In preparing the report required by subsection (a), the Secretaries shall prioritize investment by the People's Republic of China in the agriculture sector of the United States.

AMENDMENT NO. 119 OFFERED BY MR. JACKSON OF TEXAS

Page 1218, after line 6, insert the following:

(2) remove Israel as a permanent agenda item and to bring an end to the “Commission of Inquiry” to investigate the State of Israel;

AMENDMENT NO. 120 OFFERED BY MR. JACKSON OF TEXAS

Page 1249, after line 2, insert the following:

(5) not hold future Olympic games in countries that are committing genocide;

AMENDMENT NO. 135 OFFERED BY MR. LAMB OF PENNSYLVANIA

Page 641, after line 22, insert the following:

Subtitle G—Steel Upgrading Partnerships and Emissions Reduction

SEC. 10671. LOW-EMISSIONS STEEL MANUFACTURING RESEARCH PROGRAM.

(a) PROGRAM.—Subtitle D of title IV of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111 et seq.) is amended by inserting after section 454 the following:

“SEC. 454A. LOW-EMISSIONS STEEL MANUFACTURING RESEARCH PROGRAM.

“(a) PURPOSE.—The purpose of this section is to encourage the research and development of innovative technologies aimed at—

“(1) increasing the technological and economic competitiveness of industry and manufacturing in the United States; and

“(2) achieving significant net nonwater greenhouse emissions reductions in the production processes for iron, steel, and steel mill products.

“(b) DEFINITIONS.—In this section:

“(1) **COMMERCIALLY AVAILABLE STEELMAKING.**—The term ‘commercially available steelmaking’ means the current production method of iron, steel, and steel mill products.

“(2) **CRITICAL MATERIAL.**—The term ‘critical material’ has the meaning given such term in section 7002 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116–260).

“(3) **CRITICAL MINERAL.**—The term ‘critical mineral’ has the meaning given such term in section 7002 of division Z of the Consolidated Appropriations Act, 2021 (Public Law 116–260).

“(4) **ELIGIBLE ENTITY.**—The term ‘eligible entity’ means—

“(A) an institution of higher education;

“(B) an appropriate State or Federal entity, including a federally funded research and development center of the Department;

“(C) a nonprofit research institution;

“(D) a private entity;

“(E) any other relevant entity the Secretary determines appropriate; and

“(F) a partnership or consortium of two or more entities described in subparagraphs (A) through (E).

“(5) **LOW-EMISSIONS STEEL MANUFACTURING.**—The term ‘low-emissions steel man-

ufacturing’ means advanced or commercially available steelmaking with the reduction, to the maximum extent practicable, of net nonwater greenhouse gas emissions to the atmosphere from the production of iron, steel, and steel mill products.

“(c) IN GENERAL.—Not later than 180 days after the date of enactment of the America COMPETES Act of 2022, the Secretary shall establish a program of research, development, demonstration, and commercial application of advanced tools, technologies, and methods for low-emissions steel manufacturing.

“(d) REQUIREMENTS.—In carrying out the program under subsection (c), the Secretary shall—

“(1) coordinate this program with the programs and activities authorized in title VI of division Z of the Consolidated Appropriations Act, 2021;

“(2) coordinate across all relevant program offices of the Department, including the Office of Science, Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, and the Office of Nuclear Energy;

“(3) leverage, to the extent practicable, the research infrastructure of the Department, including scientific computing user facilities, x-ray light sources, neutron scattering facilities, and nanoscale science research centers; and

“(4) conduct research, development, and demonstration of low-emissions steel manufacturing technologies that have the potential to increase domestic production and employment in advanced and commercially available steelmaking.

“(e) STRATEGIC PLAN.—

“(1) IN GENERAL.—Not later than 180 days after the date of enactment of the America COMPETES Act of 2022, the Secretary shall develop a 5-year strategic plan identifying research, development, demonstration, and commercial application goals for the program established in subsection (c). The Secretary shall submit this plan to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

“(2) CONTENTS.—The strategic plan submitted under paragraph (1) shall—

“(A) identify programs at the Department related to low-emissions steel manufacturing that support the research, development, demonstration, and commercial application activities described in this section, and the demonstration projects under subsection (h);

“(B) establish technological and programmatic goals to achieve the requirements of subsection (d); and

“(C) include timelines for the accomplishment of goals developed under the plan.

“(3) UPDATES TO PLAN.—Not less than once every two years, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an updated version of the plan under paragraph (1).

“(f) FOCUS AREAS.—In carrying out the program established in subsection (c), the Secretary shall focus on—

“(1) medium- and high-temperature heat generation technologies used for low-emissions steel manufacturing, which may include—

“(A) alternative fuels, including hydrogen and biomass;

“(B) alternative reducing agents, including hydrogen;

“(C) renewable heat generation technology, including solar and geothermal;

“(D) electrification of heating processes, including through electrolysis; and

“(E) other heat generation sources;

“(2) carbon capture technologies for advanced and commercially available steelmaking processes, which may include—

“(A) combustion and chemical looping technologies;

“(B) use of slag to reduce carbon dioxide emissions;

“(C) pre-combustion technologies; and

“(D) post-combustion technologies;

“(3) smart manufacturing technologies and principles, digital manufacturing technologies, and advanced data analytics to develop advanced technologies and practices in information, automation, monitoring, computation, sensing, modeling, and networking to—

“(A) model and simulate manufacturing production lines;

“(B) monitor and communicate production line status; and

“(C) model, simulate, and optimize the energy efficiency of manufacturing processes;

“(4) technologies and practices that minimize energy and natural resource consumption, which may include—

“(A) designing products that enable reuse, refurbishment, remanufacturing, and recycling;

“(B) minimizing waste from advanced and commercially available steelmaking processes, including through the reuse of waste as resources in other industrial processes for mutual benefit;

“(C) increasing resource efficiency; and

“(D) increasing the energy efficiency of advanced and commercially available steelmaking processes;

“(5) alternative materials and technologies that produce fewer emissions during production and result in fewer emissions during use, which may include—

“(A) innovative raw materials;

“(B) high-performance lightweight materials;

“(C) substitutions for critical materials and critical minerals; and

“(D) other technologies that achieve significant carbon emission reductions in low-emissions steel manufacturing, as determined by the Secretary; and

“(6) high-performance computing to develop advanced materials and manufacturing processes contributing to the focus areas described in paragraphs (1) through (5), including—

“(A) modeling, simulation, and optimization of the design of energy efficient and sustainable products; and

“(B) the use of digital prototyping and additive manufacturing to enhance product design.

“(g) TESTING AND VALIDATION.—The Secretary, in consultation with the Director of the National Institute of Standards and Technology, shall support the development of standardized testing and technical validation of advanced and commercially available steelmaking and low-emissions steel manufacturing through collaboration with one or more National Laboratories, and one or more eligible entities.

“(h) DEMONSTRATION.—

“(1) ESTABLISHMENT.—Not later than 180 days after the date of enactment of the America COMPETES Act of 2022, the Secretary, in carrying out the program established in subsection (c), and in collaboration with industry partners, institutions of higher education, and the National Laboratories, shall support an initiative for the demonstration of low-emissions steel manufacturing, as identified by the Secretary, that uses either—

“(A) a single technology; or

“(B) a combination of multiple technologies.

“(2) SELECTION REQUIREMENTS.—Under the initiative established under paragraph (1),

the Secretary shall select eligible entities to carry out demonstration projects and to the maximum extent practicable—

“(A) encourage regional diversity among eligible entities, including participation by rural States;

“(B) encourage technological diversity among eligible entities; and

“(C) ensure that specific projects selected—

“(i) expand on the existing technology demonstration programs of the Department; and

“(ii) prioritize projects that leverage matching funds from non-Federal sources.

“(3) REPORTS.—The Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate—

“(A) not less frequently than once every two years for the duration of the demonstration initiative under this subsection, a report describing the performance of the initiative; and

“(B) if the initiative established under this subsection is terminated, an assessment of the success of, and education provided by, the measures carried out by recipients of financial assistance under the initiative.

“(i) ADDITIONAL COORDINATION.—

“(1) MANUFACTURING U.S.A.—In carrying out this section the Secretary shall consider—

“(A) leveraging the resources of relevant existing Manufacturing USA Institutes described in section 34(d) of the National Institute of Standards and Technology Act (15 U.S.C. 278s(d));

“(B) integrating program activities into a relevant existing Manufacturing USA Institute; or

“(C) establishing a new institute focused on low-emissions steel manufacturing.

“(2) OTHER FEDERAL AGENCIES.—In carrying out this section, the Secretary shall coordinate with other Federal agencies that are carrying out research and development initiatives to increase industrial competitiveness and achieve significant net nonwater greenhouse emissions reductions through low-emissions steel manufacturing, including the Department of Defense, Department of Transportation, and the National Institute of Standards and Technology.

“(j) OTHER REQUIREMENTS.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration or repair work carried out, in whole or in part, with assistance made available under this section shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.”

(b) CLERICAL AMENDMENT.—Section 1(b) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17001 note) is amended in the table of contents by inserting after the item relating to section 454 the following:

“Sec. 454A. Low-Emissions Steel Manufacturing Research Program.”

AMENDMENT NO. 137 OFFERED BY MR. LANGEVIN OF RHODE ISLAND

Add at the end of division F the following:
SEC. 50105. CRITICAL TECHNOLOGY SECURITY CENTERS.

(a) CRITICAL TECHNOLOGY SECURITY CENTERS.—Title III of the Homeland Security Act of 2002 (6 U.S.C. 181 et seq.) is amended

by adding at the end the following new section:

“SEC. 323. CRITICAL TECHNOLOGY SECURITY CENTERS.

“(a) ESTABLISHMENT.—Not later than 180 days after the date of the enactment of this section, the Secretary, acting through the Under Secretary for Science and Technology, and in coordination with the Director of the Cybersecurity and Infrastructure Security Agency, shall award grants, contracts, or cooperative agreements to covered entities for the establishment of not fewer than four cybersecurity-focused Critical Technology Security Centers to evaluate and test the security of devices and technologies that underpin national critical functions.

“(b) INITIAL CENTERS.—With respect to the Critical Technology Security Centers referred to in subsection (a), four of such centers shall be as follows:

“(1) The Center for Network Technology Security, to study the security of information and communications technology that underpins national critical functions related to communications.

“(2) The Center for Connected Industrial Control System Security, to study the security of connected programmable data logic controllers, supervisory control and data acquisition servers, and other networked industrial equipment.

“(3) The Center for Open Source Software Security, to study vulnerabilities in open source software used to support national critical functions.

“(4) The Center for Federal Critical Software Security, to study the security of software used by the Federal Government that performs functions critical to trust (such as affording or requiring elevated system privileges or direct access to networking and computing resources).

“(c) ADDITIONAL CENTERS.—The Under Secretary may, in coordination with the Director, award grants, contracts, or cooperative agreements to covered entities for the establishment of additional Critical Technology Security Centers to address technologies vital to national critical functions.

“(d) SELECTION OF CRITICAL TECHNOLOGIES.—Before awarding a grant, contract, or cooperative agreement to a covered entity to establish a Critical Technology Security Center, the Under Secretary shall consult with the Director, who shall provide the Under Secretary a list of technologies within the remit of the center that support national critical functions.

“(e) RESPONSIBILITIES.—In studying the security of technologies within its remit, each center shall have the following responsibilities:

“(1) Conducting rigorous security testing to identify vulnerabilities in such technologies.

“(2) Reporting new vulnerabilities found and the tools, techniques, and practices used to uncover such vulnerabilities to the developers of such technologies in question and to the Cybersecurity and Infrastructure Security Agency.

“(3) With respect to such technologies, developing new capabilities for vulnerability discovery, management, and mitigation.

“(4) Assessing the security of software essential to national critical functions.

“(5) Supporting existing communities of interest, including by granting funds, in remediating vulnerabilities discovered within such technologies.

“(6) Utilizing findings to inform and support the future work of the Cybersecurity and Infrastructure Security Agency.

“(f) APPLICATION.—To be eligible for an award of a grant, contract, or cooperative agreement as a Critical Technology Security Center pursuant to subsection (a), a covered

entity shall submit to the Secretary an application at such time, in such manner, and including such information as the Secretary may require.

“(g) **PUBLIC REPORTING OF VULNERABILITIES.**—The Undersecretary shall ensure that vulnerabilities identified by a Critical Technology Security Center are publicly reported through the National Vulnerability Database, as appropriate.

“(h) **ADDITIONAL GUIDANCE.**—The Under Secretary, in coordination with the Director, shall develop, and periodically update, guidance, including eligibility and any additional requirements, for how Critical Technology Security Centers may award funds to communities of interest to remediate vulnerabilities under subsection (e)(5).

“(i) **BIENNIAL REPORTS.**—Not later than one year after the date of the enactment of this section and every two years thereafter, the Under Secretary shall submit to the appropriate congressional committees a report that includes, with respect to each Critical Technology Security Center the following:

“(1) A summary of the work performed by each such center.

“(2) Information relating to the allocation of Federal funds at each such center.

“(3) A description of each vulnerability identified, including information relating to the corresponding software weakness.

“(4) An assessment of the criticality of each vulnerability identified pursuant to paragraph (3).

“(5) A list of critical technologies studied by each center, including an explanation by the Under Secretary for any deviations from the list of technologies provided by the Director before the distribution of funding to the center.

“(6) A list of tools, techniques, and procedures used by each such center.

“(j) **CONSULTATION WITH RELEVANT AGENCIES.**—In carrying out this section, the Under Secretary shall consult with the heads of other Federal agencies conducting cybersecurity research, including the following:

“(1) The National Institute of Standards and Technology.

“(2) The National Science Foundation.

“(3) Relevant agencies within the Department of Energy.

“(4) Relevant agencies within the Department of Defense.

“(k) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section—

“(1) \$40,000,000 for fiscal year 2022;

“(2) \$42,000,000 for fiscal year 2023;

“(3) \$44,000,000 for fiscal year 2024;

“(4) \$46,000,000 for fiscal year 2025; and

“(5) \$49,000,000 for fiscal year 2026.

“(l) **DEFINITIONS.**—In this section:

“(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term ‘appropriate congressional committees’ means—

“(A) the Committee on Homeland Security of the House of Representatives; and

“(B) the Committee on Homeland Security and Governmental Affairs of the Senate.

“(2) **COVERED ENTITY.**—The term ‘covered entity’ means a university or federally funded research and development center, including a national laboratory, or a consortia thereof.

“(3) **CRITICAL TECHNOLOGY.**—The term ‘critical technology’ means technology relating to a national critical function.

“(4) **OPEN SOURCE SOFTWARE.**—The term ‘open source software’ means software for which the human-readable source code is freely available for use, study, re-use, modification, enhancement, and redistribution by the users of such software.”.

(b) **IDENTIFICATION OF CERTAIN TECHNOLOGY.**—Paragraph (1) of section 2202(e) of the Homeland Security Act of 2002 (6 U.S.C.

603(e)) is amended by adding at the end the following new subparagraph:

“(S) To identify the technologies within the remits of the Critical Technology Security centers as described in section 322 that are vital to national critical functions.”.

(c) **CLERICAL AMENDMENT.**—The table of contents in section 1(b) of the Homeland Security Act of 2002 is amended by inserting after the item relating to section 321 the following new item:

“Sec. 323. Critical Technology Security Centers.”.

AMENDMENT NO. 162 OFFERED BY MR. MCKINLEY OF WEST VIRGINIA

Page 790, beginning on line 22, amend subsection (e) to read as follows:

(e) **PROHIBITION.**—In carrying out the program, the Secretary may not award grants or direct loans for projects that will source solar components from, or supply their solar components to, any facility that—

(1) uses forced labor; or

(2) is located in—

(A) an area controlled by the Taliban or any entity designated by the Secretary of State as a foreign terrorist organization; or

(B) a foreign country of concern, as defined in section 10306 of this Act.

AMENDMENT NO. 174 OFFERED BY MR. PAPPAS OF NEW HAMPSHIRE

At the end of title VI of division D, add the following:

SEC. 30613. RURAL EXPORT CENTER.

(a) **DEFINITIONS.**—In this section:

(1) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service appointed pursuant to section 2301(a)(2) of the Export Enhancement Act of 1988 (15 U.S.C. 4721(a)(2)).

(2) **COMMERCIAL SERVICE.**—The term “Commercial Service” means the United States and Foreign Commercial Service established under section 2301(a)(1) of the Export Enhancement Act of 1988 (15 U.S.C. 4721(a)(1)).

(b) **ESTABLISHMENT OF THE RURAL EXPORT CENTER.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, the Assistant Secretary shall establish a Rural Export Center (in this section referred to as the “Center”) for the purpose of providing businesses located in rural areas in the United States with resources to help those businesses export their products.

(2) **LOCATION OF THE CENTER.**—

(A) **IN GENERAL.**—The Center shall be established at an office of the Commercial Service in the United States in existence before the date of the enactment of this Act.

(B) **CRITERIA FOR SELECTING LOCATION.**—In selecting a location for the Center, the Assistant Secretary shall give preference—

(i) based on expertise and operations at Commercial Service offices that support rural businesses exporting to new markets before the date of the enactment of this Act; and

(ii) to such offices not located in major metropolitan areas.

(C) **LOCATION OF STAFF.**—Any researcher or staff directly supporting the operation of the Center shall be primarily based at the Center.

(c) **EXPORT CENTER OPERATIONS.**—

(1) **IN GENERAL.**—The Center shall—

(A) provide in-depth, customized, and actionable market research services that—

(i) a business may opt into based on need; and

(ii) are—

(I) focused on actionable and measurable results for a business;

(II) business- and product-specific;

(III) targeted to not more than 3 international markets;

(IV) based on high-quality data, including data from international trade association subscription databases; and

(V) based on market analysis and export services of the Commercial Service available before the date of the enactment of this Act, including the Rural America’s Intelligence Service for Exporters program; and

(B) conduct strategic planning and export support services for rural businesses as needed.

(2) **MEASURE OF EFFECTIVENESS.**—To measure the effectiveness of the Center, the Center shall collect and make available data on—

(A) the number of businesses that sign up for market research assistance;

(B) the number of export assistance services a business engages in following the research assistance, including—

(i) trade shows;

(ii) trade missions; and

(iii) other services facilitated by the Center; and

(C) the total monetary value of exports facilitated by the services provided by the Center.

(3) **WEBSITE FOR THE CENTER.**—The Center shall maintain an internet website that includes—

(A) data collected by the Center;

(B) best practices for rural businesses beginning to evaluate export opportunities; and

(C) appropriate contact information for staff at the Center.

AMENDMENT NO. 178 OFFERED BY MR.

PERLMUTTER OF COLORADO

In division G, add at the end the following:

TITLE XI—SAFE BANKING

SEC. 61101. SHORT TITLE; TABLE OF CONTENTS; PURPOSE.

(a) **SHORT TITLE.**—This title may be cited as the “Secure And Fair Enforcement Banking Act of 2022” or the “SAFE Banking Act of 2022”.

(b) **TABLE OF CONTENTS.**—The table of contents for this title is as follows:

TITLE XI—SAFE BANKING

Sec. 61101. Short title; table of contents; purpose.

Sec. 61102. Safe harbor for depository institutions.

Sec. 61103. Protections for ancillary businesses.

Sec. 61104. Protections under Federal law.

Sec. 61105. Rules of construction.

Sec. 61106. Requirements for filing suspicious activity reports.

Sec. 61107. Guidance and examination procedures.

Sec. 61108. Annual diversity and inclusion report.

Sec. 61109. GAO study on diversity and inclusion.

Sec. 61110. GAO study on effectiveness of certain reports on finding certain persons.

Sec. 61111. Application of this title with respect to hemp-related legitimate businesses and hemp-related service providers.

Sec. 61112. Banking services for hemp-related legitimate businesses and hemp-related service providers.

Sec. 61113. Requirements for deposit account termination requests and orders.

Sec. 61114. Definitions.

Sec. 61115. Discretionary surplus funds.

(c) **PURPOSE.**—The purpose of this title is to increase public safety by ensuring access to financial services to cannabis-related legitimate businesses and service providers

and reducing the amount of cash at such businesses.

SEC. 61102. SAFE HARBOR FOR DEPOSITORY INSTITUTIONS.

(a) IN GENERAL.—A Federal banking regulator may not—

(1) terminate or limit the deposit insurance or share insurance of a depository institution under the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.), the Federal Credit Union Act (12 U.S.C. 1751 et seq.), or take any other adverse action against a depository institution under section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818) solely because the depository institution provides or has provided financial services to a cannabis-related legitimate business or service provider;

(2) prohibit, penalize, or otherwise discourage a depository institution from providing financial services to a cannabis-related legitimate business or service provider or to a State, political subdivision of a State, or Indian Tribe that exercises jurisdiction over cannabis-related legitimate businesses;

(3) recommend, incentivize, or encourage a depository institution not to offer financial services to an account holder, or to downgrade or cancel the financial services offered to an account holder solely because—

(A) the account holder is a cannabis-related legitimate business or service provider, or is an employee, owner, or operator of a cannabis-related legitimate business or service provider;

(B) the account holder later becomes an employee, owner, or operator of a cannabis-related legitimate business or service provider; or

(C) the depository institution was not aware that the account holder is an employee, owner, or operator of a cannabis-related legitimate business or service provider;

(4) take any adverse or corrective supervisory action on a loan made to—

(A) a cannabis-related legitimate business or service provider, solely because the business is a cannabis-related legitimate business or service provider;

(B) an employee, owner, or operator of a cannabis-related legitimate business or service provider, solely because the employee, owner, or operator is employed by, owns, or operates a cannabis-related legitimate business or service provider, as applicable; or

(C) an owner or operator of real estate or equipment that is leased to a cannabis-related legitimate business or service provider, solely because the owner or operator of the real estate or equipment leased the equipment or real estate to a cannabis-related legitimate business or service provider, as applicable; or

(5) prohibit or penalize a depository institution (or entity performing a financial service for or in association with a depository institution) for, or otherwise discourage a depository institution (or entity performing a financial service for or in association with a depository institution) from, engaging in a financial service for a cannabis-related legitimate business or service provider.

(b) SAFE HARBOR APPLICABLE TO DE NOVO INSTITUTIONS.—Subsection (a) shall apply to an institution applying for a depository institution charter to the same extent as such subsection applies to a depository institution.

SEC. 61103. PROTECTIONS FOR ANCILLARY BUSINESSES.

For the purposes of sections 1956 and 1957 of title 18, United States Code, and all other provisions of Federal law, the proceeds from a transaction involving activities of a cannabis-related legitimate business or service provider shall not be considered proceeds from an unlawful activity solely because—

(1) the transaction involves proceeds from a cannabis-related legitimate business or service provider; or

(2) the transaction involves proceeds from—

(A) cannabis-related activities described in section 6114(4)(B) conducted by a cannabis-related legitimate business; or

(B) activities described in section 6114(13)(A) conducted by a service provider.

SEC. 61104. PROTECTIONS UNDER FEDERAL LAW.

(a) IN GENERAL.—With respect to providing a financial service to a cannabis-related legitimate business (where such cannabis-related legitimate business operates within a State, political subdivision of a State, or Indian country that allows the cultivation, production, manufacture, sale, transportation, display, dispensing, distribution, or purchase of cannabis pursuant to a law or regulation of such State, political subdivision, or Indian Tribe that has jurisdiction over the Indian country, as applicable) or a service provider (wherever located), a depository institution, entity performing a financial service for or in association with a depository institution, or insurer that provides a financial service to a cannabis-related legitimate business or service provider, and the officers, directors, and employees of that depository institution, entity, or insurer may not be held liable pursuant to any Federal law or regulation—

(1) solely for providing such a financial service; or

(2) for further investing any income derived from such a financial service.

(b) PROTECTIONS FOR FEDERAL RESERVE BANKS AND FEDERAL HOME LOAN BANKS.—With respect to providing a service to a depository institution that provides a financial service to a cannabis-related legitimate business (where such cannabis-related legitimate business operates within a State, political subdivision of a State, or Indian country that allows the cultivation, production, manufacture, sale, transportation, display, dispensing, distribution, or purchase of cannabis pursuant to a law or regulation of such State, political subdivision, or Indian Tribe that has jurisdiction over the Indian country, as applicable) or service provider (wherever located), a Federal reserve bank or Federal Home Loan Bank, and the officers, directors, and employees of the Federal reserve bank or Federal Home Loan Bank, may not be held liable pursuant to any Federal law or regulation—

(1) solely for providing such a service; or

(2) for further investing any income derived from such a service.

(c) PROTECTIONS FOR INSURERS.—With respect to engaging in the business of insurance within a State, political subdivision of a State, or Indian country that allows the cultivation, production, manufacture, sale, transportation, display, dispensing, distribution, or purchase of cannabis pursuant to a law or regulation of such State, political subdivision, or Indian Tribe that has jurisdiction over the Indian country, as applicable, an insurer that engages in the business of insurance with a cannabis-related legitimate business or service provider or who otherwise engages with a person in a transaction permissible under State law related to cannabis, and the officers, directors, and employees of that insurer may not be held liable pursuant to any Federal law or regulation—

(1) solely for engaging in the business of insurance; or

(2) for further investing any income derived from the business of insurance.

(d) FORFEITURE.—

(1) DEPOSITORY INSTITUTIONS.—A depository institution that has a legal interest in the

collateral for a loan or another financial service provided to an owner, employee, or operator of a cannabis-related legitimate business or service provider, or to an owner or operator of real estate or equipment that is leased or sold to a cannabis-related legitimate business or service provider, shall not be subject to criminal, civil, or administrative forfeiture of that legal interest pursuant to any Federal law for providing such loan or other financial service.

(2) FEDERAL RESERVE BANKS AND FEDERAL HOME LOAN BANKS.—A Federal reserve bank or Federal Home Loan Bank that has a legal interest in the collateral for a loan or another financial service provided to a depository institution that provides a financial service to a cannabis-related legitimate business or service provider, or to an owner or operator of real estate or equipment that is leased or sold to a cannabis-related legitimate business or service provider, shall not be subject to criminal, civil, or administrative forfeiture of that legal interest pursuant to any Federal law for providing such loan or other financial service.

SEC. 61105. RULES OF CONSTRUCTION.

(a) NO REQUIREMENT TO PROVIDE FINANCIAL SERVICES.—Nothing in this title shall require a depository institution, entity performing a financial service for or in association with a depository institution, or insurer to provide financial services to a cannabis-related legitimate business, service provider, or any other business.

(b) GENERAL EXAMINATION, SUPERVISORY, AND ENFORCEMENT AUTHORITY.—Nothing in this title may be construed in any way as limiting or otherwise restricting the general examination, supervisory, and enforcement authority of the Federal banking regulators, provided that the basis for any supervisory or enforcement action is not the provision of financial services to a cannabis-related legitimate business or service provider.

(c) BUSINESS OF INSURANCE.—Nothing in this title shall interfere with the regulation of the business of insurance in accordance with the Act of March 9, 1945 (59 Stat. 33, chapter 20; 15 U.S.C. 1011 et seq.) (commonly known as the “McCarran-Ferguson Act”) and the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301 et seq.).

SEC. 61106. REQUIREMENTS FOR FILING SUSPICIOUS ACTIVITY REPORTS.

Section 5318(g) of title 31, United States Code, is amended by adding at the end the following:

“(5) REQUIREMENTS FOR CANNABIS-RELATED LEGITIMATE BUSINESSES.—

“(A) IN GENERAL.—With respect to a financial institution or any director, officer, employee, or agent of a financial institution that reports a suspicious transaction pursuant to this subsection, if the reason for the report relates to a cannabis-related legitimate business or service provider, the report shall comply with appropriate guidance issued by the Financial Crimes Enforcement Network. Not later than the end of the 180-day period beginning on the date of enactment of this paragraph, the Secretary shall update the February 14, 2014, guidance titled ‘BSA Expectations Regarding Marijuana-Related Businesses’ (FIN-2014-G001) to ensure that the guidance is consistent with the purpose and intent of the SAFE Banking Act of 2022 and does not significantly inhibit the provision of financial services to a cannabis-related legitimate business or service provider in a State, political subdivision of a State, or Indian country that has allowed the cultivation, production, manufacture, transportation, display, dispensing, distribution, sale, or purchase of cannabis pursuant to law or regulation of such State, political

subdivision, or Indian Tribe that has jurisdiction over the Indian country.

“(B) DEFINITIONS.—For purposes of this paragraph:

“(i) CANNABIS.—The term ‘cannabis’ has the meaning given the term ‘marihuana’ in section 102 of the Controlled Substances Act (21 U.S.C. 802).

“(ii) CANNABIS-RELATED LEGITIMATE BUSINESS.—The term ‘cannabis-related legitimate business’ has the meaning given that term in section 61114 of the SAFE Banking Act of 2022.

“(iii) INDIAN COUNTRY.—The term ‘Indian country’ has the meaning given that term in section 1151 of title 18.

“(iv) INDIAN TRIBE.—The term ‘Indian Tribe’ has the meaning given that term in section 102 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 479a).

“(v) FINANCIAL SERVICE.—The term ‘financial service’ has the meaning given that term in section 61114 of the SAFE Banking Act of 2022.

“(vi) SERVICE PROVIDER.—The term ‘service provider’ has the meaning given that term in section 61114 of the SAFE Banking Act of 2022.

“(vii) STATE.—The term ‘State’ means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.”.

SEC. 61107. GUIDANCE AND EXAMINATION PROCEDURES.

Not later than 180 days after the date of enactment of this Act, the Financial Institutions Examination Council shall develop uniform guidance and examination procedures for depository institutions that provide financial services to cannabis-related legitimate businesses and service providers.

SEC. 61108. ANNUAL DIVERSITY AND INCLUSION REPORT.

The Federal banking regulators shall issue an annual report to Congress containing—

(1) information and data on the availability of access to financial services for minority-owned and women-owned cannabis-related legitimate businesses; and

(2) any regulatory or legislative recommendations for expanding access to financial services for minority-owned and women-owned cannabis-related legitimate businesses.

SEC. 61109. GAO STUDY ON DIVERSITY AND INCLUSION.

(a) STUDY.—The Comptroller General of the United States shall carry out a study on the barriers to marketplace entry, including in the licensing process, and the access to financial services for potential and existing minority-owned and women-owned cannabis-related legitimate businesses.

(b) REPORT.—The Comptroller General shall issue a report to the Congress—

(1) containing all findings and determinations made in carrying out the study required under subsection (a); and

(2) containing any regulatory or legislative recommendations for removing barriers to marketplace entry, including in the licensing process, and expanding access to financial services for potential and existing minority-owned and women-owned cannabis-related legitimate businesses.

SEC. 61110. GAO STUDY ON EFFECTIVENESS OF CERTAIN REPORTS ON FINDING CERTAIN PERSONS.

Not later than 2 years after the date of the enactment of this Act, the Comptroller General of the United States shall carry out a study on the effectiveness of reports on suspicious transactions filed pursuant to section 5318(g) of title 31, United States Code, at finding individuals or organizations suspected or known to be engaged with

transnational criminal organizations and whether any such engagement exists in a State, political subdivision, or Indian Tribe that has jurisdiction over Indian country that allows the cultivation, production, manufacture, sale, transportation, display, dispensing, distribution, or purchase of cannabis. The study shall examine reports on suspicious transactions as follows:

(1) During the period of 2014 until the date of the enactment of this Act, reports relating to marijuana-related businesses.

(2) During the 1-year period after date of the enactment of this Act, reports relating to cannabis-related legitimate businesses.

SEC. 61111. APPLICATION OF THIS TITLE WITH RESPECT TO HEMP-RELATED LEGITIMATE BUSINESSES AND HEMP-RELATED SERVICE PROVIDERS.

(a) IN GENERAL.—The provisions of this title (other than sections 61106 and 61110) shall apply with respect to hemp-related legitimate businesses and hemp-related service providers in the same manner as such provisions apply with respect to cannabis-related legitimate businesses and service providers.

(b) DEFINITIONS.—In this section:

(1) CBD.—The term “CBD” means cannabidiol.

(2) HEMP.—The term “hemp” has the meaning given that term under section 297A of the Agricultural Marketing Act of 1946 (7 U.S.C. 1639o).

(3) HEMP-RELATED LEGITIMATE BUSINESS.—The term “hemp-related legitimate business” means a manufacturer, producer, or any person or company that—

(A) engages in any activity described in subparagraph (B) in conformity with the Agricultural Improvement Act of 2018 (Public Law 115-334) and the regulations issued to implement such Act by the Department of Agriculture, where applicable, and the law of a State or political subdivision thereof or Indian Tribe; and

(B) participates in any business or organized activity that involves handling hemp, hemp-derived CBD products, and other hemp-derived cannabinoid products, including cultivating, producing, extracting, manufacturing, selling, transporting, displaying, dispensing, distributing, or purchasing hemp, hemp-derived CBD products, and other hemp-derived cannabinoid products.

(4) HEMP-RELATED SERVICE PROVIDER.—The term “hemp-related service provider”—

(A) means a business, organization, or other person that—

(i) sells goods or services to a hemp-related legitimate business; or

(ii) provides any business services, including the sale or lease of real or any other property, legal or other licensed services, or any other ancillary service, relating to hemp, hemp-derived CBD products, or other hemp-derived cannabinoid products; and

(B) does not include a business, organization, or other person that participates in any business or organized activity that involves handling hemp, hemp-derived CBD products, or other hemp-derived cannabinoid products, including cultivating, producing, manufacturing, selling, transporting, displaying, dispensing, distributing, or purchasing hemp, hemp-derived CBD products, and other hemp-derived cannabinoid products.

SEC. 61112. BANKING SERVICES FOR HEMP-RELATED LEGITIMATE BUSINESSES AND HEMP-RELATED SERVICE PROVIDERS.

(a) FINDINGS.—The Congress finds that—

(1) the Agriculture Improvement Act of 2018 (Public Law 115-334) legalized hemp by removing it from the definition of “marihuana” under the Controlled Substances Act;

(2) despite the legalization of hemp, some hemp businesses (including producers, manu-

facturers, and retailers) continue to have difficulty gaining access to banking products and services; and

(3) businesses involved in the sale of hemp-derived CBD products are particularly affected, due to confusion about the legal status of such products.

(b) FEDERAL BANKING REGULATORS’ HEMP BANKING GUIDANCE.—Not later than the end of the 90-day period beginning on the date of enactment of this Act, the Federal banking regulators shall update their existing guidance, as applicable, regarding the provision of financial services to hemp-related legitimate businesses and hemp-related service providers to address—

(1) compliance with financial institutions’ existing obligations under Federal laws and implementing regulations determined relevant by the Federal banking regulators, including subchapter II of chapter 53 of title 31, United States Code, and its implementing regulation in conformity with this title and the Department of Agriculture’s rules regulating domestic hemp production (7 CFR 990); and

(2) best practices for financial institutions to follow when providing financial services, including processing payments, to hemp-related legitimate businesses and hemp-related service providers.

(c) DEFINITIONS.—In this section:

(1) FINANCIAL INSTITUTION.—The term “financial institution”—

(A) has the meaning given that term under section 5312(a) of title 31, United States Code; and

(B) includes a bank holding company, as defined under section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)).

(2) HEMP TERMS.—The terms “CBD”, “hemp”, “hemp-related legitimate business”, and “hemp-related service provider” have the meaning given those terms, respectively, under section 61111.

SEC. 61113. REQUIREMENTS FOR DEPOSIT ACCOUNT TERMINATION REQUESTS AND ORDERS.

(a) TERMINATION REQUESTS OR ORDERS MUST BE VALID.—

(1) IN GENERAL.—An appropriate Federal banking agency may not formally or informally request or order a depository institution to terminate a specific customer account or group of customer accounts or to otherwise restrict or discourage a depository institution from entering into or maintaining a banking relationship with a specific customer or group of customers unless—

(A) the agency has a valid reason for such request or order; and

(B) such reason is not based solely on reputation risk.

(2) TREATMENT OF NATIONAL SECURITY THREATS.—If an appropriate Federal banking agency believes a specific customer or group of customers is, or is acting as a conduit for, an entity which—

(A) poses a threat to national security;

(B) is involved in terrorist financing;

(C) is an agency of the Government of Iran, North Korea, Syria, or any country listed from time to time on the State Sponsors of Terrorism list;

(D) is located in, or is subject to the jurisdiction of, any country specified in subparagraph (C); or

(E) does business with any entity described in subparagraph (C) or (D), unless the appropriate Federal banking agency determines that the customer or group of customers has used due diligence to avoid doing business with any entity described in subparagraph (C) or (D), such belief shall satisfy the requirement under paragraph (1).

(b) NOTICE REQUIREMENT.—

(1) IN GENERAL.—If an appropriate Federal banking agency formally or informally requests or orders a depository institution to terminate a specific customer account or a group of customer accounts, the agency shall—

(A) provide such request or order to the institution in writing; and

(B) accompany such request or order with a written justification for why such termination is needed, including any specific laws or regulations the agency believes are being violated by the customer or group of customers, if any.

(2) JUSTIFICATION REQUIREMENT.—A justification described under paragraph (1)(B) may not be based solely on the reputation risk to the depository institution.

(c) CUSTOMER NOTICE.—

(1) NOTICE REQUIRED.—Except as provided under paragraph (2) or as otherwise prohibited from being disclosed by law, if an appropriate Federal banking agency orders a depository institution to terminate a specific customer account or a group of customer accounts, the depository institution shall inform the specific customer or group of customers of the justification for the customer's account termination described under subsection (b).

(2) NOTICE PROHIBITED.—

(A) NOTICE PROHIBITED IN CASES OF NATIONAL SECURITY.—If an appropriate Federal banking agency requests or orders a depository institution to terminate a specific customer account or a group of customer accounts based on a belief that the customer or customers pose a threat to national security, or are otherwise described under subsection (a)(2), neither the depository institution nor the appropriate Federal banking agency may inform the customer or customers of the justification for the customer's account termination.

(B) NOTICE PROHIBITED IN OTHER CASES.—If an appropriate Federal banking agency determines that the notice required under paragraph (1) may interfere with an authorized criminal investigation, neither the depository institution nor the appropriate Federal banking agency may inform the specific customer or group of customers of the justification for the customer's account termination.

(d) REPORTING REQUIREMENT.—Each appropriate Federal banking agency shall issue an annual report to the Congress stating—

(1) the aggregate number of specific customer accounts that the agency requested or ordered a depository institution to terminate during the previous year; and

(2) the legal authority on which the agency relied in making such requests and orders and the frequency on which the agency relied on each such authority.

(e) DEFINITIONS.—For purposes of this section:

(1) APPROPRIATE FEDERAL BANKING AGENCY.—The term “appropriate Federal banking agency” means—

(A) the appropriate Federal banking agency, as defined under section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813); and

(B) the National Credit Union Administration, in the case of an insured credit union.

(2) DEPOSITORY INSTITUTION.—The term “depository institution” means—

(A) a depository institution, as defined under section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813); and

(B) an insured credit union.

SEC. 61114. DEFINITIONS.

In this title:

(1) BUSINESS OF INSURANCE.—The term “business of insurance” has the meaning given such term in section 1002 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5481).

(2) CANNABIS.—The term “cannabis” has the meaning given the term “marihuana” in section 102 of the Controlled Substances Act (21 U.S.C. 802).

(3) CANNABIS PRODUCT.—The term “cannabis product” means any article which contains cannabis, including an article which is a concentrate, an edible, a tincture, a cannabis-infused product, or a topical.

(4) CANNABIS-RELATED LEGITIMATE BUSINESS.—The term “cannabis-related legitimate business” means a manufacturer, producer, or any person or company that—

(A) engages in any activity described in subparagraph (B) pursuant to a law established by a State or a political subdivision of a State, as determined by such State or political subdivision; and

(B) participates in any business or organized activity that involves handling cannabis or cannabis products, including cultivating, producing, manufacturing, selling, transporting, displaying, dispensing, distributing, or purchasing cannabis or cannabis products.

(5) DEPOSITORY INSTITUTION.—The term “depository institution” means—

(A) a depository institution as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) a Federal credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752); or

(C) a State credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752).

(6) FEDERAL BANKING REGULATOR.—The term “Federal banking regulator” means each of the Board of Governors of the Federal Reserve System, the Bureau of Consumer Financial Protection, the Federal Deposit Insurance Corporation, the Federal Housing Finance Agency, the Financial Crimes Enforcement Network, the Office of Foreign Asset Control, the Office of the Comptroller of the Currency, the National Credit Union Administration, the Department of the Treasury, or any Federal agency or department that regulates banking or financial services, as determined by the Secretary of the Treasury.

(7) FINANCIAL SERVICE.—The term “financial service” means—

(A) means a financial product or service, as defined in section 1002 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5481), regardless if the customer receiving the product or service is a consumer or commercial entity;

(B) means a financial product or service, or any combination of products and services, permitted to be provided by—

(i) a national bank or a financial subsidiary pursuant to the authority provided under—

(I) the provision designated “Seventh” of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24); or

(II) section 5136A of the Revised Statutes of the United States (12 U.S.C. 24a); and

(ii) a Federal credit union, pursuant to the authority provided under the Federal Credit Union Act;

(C) includes the business of insurance;

(D) includes, whether performed directly or indirectly, the authorizing, processing, clearing, settling, billing, transferring for deposit, transmitting, delivering, instructing to be delivered, reconciling, collecting, or otherwise effectuating or facilitating of payments or funds, where such payments or funds are made or transferred by any means, including by the use of credit cards, debit cards, other payment cards, or other access devices, accounts, original or substitute checks, or electronic funds transfers;

(E) includes acting as a money transmitting business which directly or indirectly

makes use of a depository institution in connection with effectuating or facilitating a payment for a cannabis-related legitimate business or service provider in compliance with section 5330 of title 31, United States Code, and any applicable State law; and

(F) includes acting as an armored car service for processing and depositing with a depository institution or a Federal reserve bank with respect to any monetary instruments (as defined under section 1956(c)(5) of title 18, United States Code.

(8) INDIAN COUNTRY.—The term “Indian country” has the meaning given that term in section 1151 of title 18.

(9) INDIAN TRIBE.—The term “Indian Tribe” has the meaning given that term in section 102 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 479a).

(10) INSURER.—The term “insurer” has the meaning given that term under section 313(r) of title 31, United States Code.

(11) MANUFACTURER.—The term “manufacturer” means a person who manufactures, compounds, converts, processes, prepares, or packages cannabis or cannabis products.

(12) PRODUCER.—The term “producer” means a person who plants, cultivates, harvests, or in any way facilitates the natural growth of cannabis.

(13) SERVICE PROVIDER.—The term “service provider” means—

(A) means a business, organization, or other person that—

(i) sells goods or services to a cannabis-related legitimate business; or

(ii) provides any business services, including the sale or lease of real or any other property, legal or other licensed services, or any other ancillary service, relating to cannabis; and

(B) does not include a business, organization, or other person that participates in any business or organized activity that involves handling cannabis or cannabis products, including cultivating, producing, manufacturing, selling, transporting, displaying, dispensing, distributing, or purchasing cannabis or cannabis products.

(14) STATE.—The term “State” means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

SEC. 61115. DISCRETIONARY SURPLUS FUNDS.

Section 7(a)(3)(A) of the Federal Reserve Act (12 U.S.C. 289(a)(3)(A)) is amended by reducing the dollar figure by \$6,000,000.

AMENDMENT NO. 187 OFFERED BY MR. PFLUGER
OF TEXAS

At the end of title VI of division D, add the following:

SEC. 30613. REPORT ON GLOBAL EXPORTS OF NATURAL GAS PRODUCTION.

Not later than 180 days after the date of enactment of this Act, the Secretary of State shall submit to Congress a report on the following:

(1) The economic policies of foreign countries with natural gas resources and reserves as such policies relate to the development and production of their natural gas resources and reserves and the extent and status of their natural gas resources and reserves.

(2) The potential to export the natural gas production of such foreign countries to the global market and the impact of the export of such natural gas production on the global market.

(3) A description of actions taken by the United States Government to foster natural gas exports to foreign countries that may have an interest in importing natural gas from the United States.

AMENDMENT NO. 197 OFFERED BY MR. POSEY OF FLORIDA

Page 632, line 10, strike “; and” and insert a semicolon.

Page 632, line 18, strike the period and insert “; and”.

Page 632, after line 18, insert the following:
(9) methods and techniques for domestic processing of materials for microelectronics and their components.

AMENDMENT NO. 202 OFFERED BY MR. QUIGLEY OF ILLINOIS

At the end of division D, add the following:

TITLE VII—PREVENTING FUTURE PANDEMICS

SEC. 30701. SHORT TITLE.

This title may be cited as the “Preventing Future Pandemics Act of 2022”.

SEC. 30702. DEFINITIONS.

In this title:

(1) **WILDLIFE MARKET.**—The term “wildlife market”—

(A) means a commercial market or subsection of a commercial market—

(i) where live mammalian or avian wildlife is held, slaughtered, or sold for human consumption as food or medicine whether the animals originated in the wild or in a captive environment; and

(ii) that delivers a product in communities where alternative nutritional or protein sources are readily available and affordable; and

(B) does not include—

(i) markets in areas where no other practical alternative sources of protein or meat exists, such as wildlife markets in rural areas on which indigenous people and rural local communities rely to feed themselves and their families; and

(ii) processors of dead wild game and fish.

(2) **COMMERCIAL TRADE IN LIVE WILDLIFE.**—The term “commercial trade in live wildlife”—

(A) means commercial trade in live wildlife for human consumption as food or medicine; and

(B) does not include—

(i) fish;

(ii) invertebrates;

(iii) amphibians and reptiles; and

(iv) the meat of ruminant game species—

(I) traded in markets in countries with effective implementation and enforcement of scientifically based, nationally implemented policies and legislation for processing, transport, trade, and marketing; and

(II) sold after being slaughtered and processed under sanitary conditions.

(3) **ONE HEALTH.**—The term “One Health” means a collaborative, multi-sectoral, and transdisciplinary approach working at the local, regional, national, and global levels with the goal of achieving optimal health outcomes that recognizes the interconnection between—

(A) people, animals, both wild and domestic, and plants; and

(B) the environment shared by such people, animals, and plants.

(4) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Relations of the Senate;

(B) the Committee on Appropriations of the Senate;

(C) the Committee on Foreign Affairs of the House of Representatives; and

(D) the Committee on Appropriations of the House of Representatives.

SEC. 30703. STUDY ON RISK OF WILDLIFE MARKETS ON THE EMERGENCE OF NOVEL VIRAL PATHOGENS.

(a) **STUDY.**—Not later than 30 days after the date of the enactment of this Act, the

Secretary of State, in consultation with the Administrator of the United States Agency for International Development, the Secretary of Health and Human Services, the Secretary of the Interior, and the Secretary of Agriculture shall enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to evaluate the risk wildlife markets pose to human health through the emergence or reemergence of pathogens and activities to reduce the risk of zoonotic spillover. The study shall evaluate—

(1) the impact of physical proximity to and the role of human use of terrestrial wildlife for food or medicine on the emergence or reemergence of pathogens, including novel pathogens;

(2) the conditions at live wildlife markets and within the associated supply chain that elevate risk factors leading to such emergence, reemergence, or transmission of pathogens, including sanitary conditions and the physical proximity of animals;

(3) animal taxa that present a high risk of contributing to zoonotic spillover and the associated risk factors that increase the emergence, reemergence, or transmission of pathogens;

(4) emerging pathogen risk reduction measures and control options across wildlife markets and the associated supply chain; and

(5) the methods by which the United States might work with international partners to effectively promote diversified, culturally appropriate alternative sources of nutritious food, protein, and related income in communities that currently rely upon the human use of wildlife as food or medicine for subsistence, while ensuring that existing natural habitats are not fragmented, degraded, or destroyed and that human pressure on natural habitats is not increased by this process.

(b) **REPORT.**—Not later than 1 year after the date of the agreement under subsection (a), the Secretaries described in such subsection shall submit a report on the findings of the study described in such subsection to—

(1) the appropriate congressional committees;

(2) the Committee on Health, Education, Labor, and Pensions and the Committee on Agriculture, Nutrition, and Forestry of the Senate; and

(3) the Committee on Energy and Commerce and the Committee on Agriculture of the House of Representatives.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated such sums as are necessary for the development of the study described in this section.

SEC. 30704. COUNTRY-DRIVEN APPROACH TO END THE COMMERCIAL TRADE IN LIVE WILDLIFE AND ASSOCIATED WILDLIFE MARKETS.

(a) **IN GENERAL.**—Not later than 120 days after the completion of the study required by section 30703, the Secretary of State, in coordination with the Administrator of the United States Agency for International Development and the heads of other relevant Federal departments and agencies, including the Centers for Disease Control and Prevention, the Secretary of Agriculture, and the Secretary of the Interior, and after consideration of the results of such study and best available scientific findings of practices and behaviors occurring at the source of zoonoses spillover and spread, shall publicly release a list of countries the governments of which express willingness to end the domestic and international commercial trade in live wildlife and associated wildlife markets for human consumption, as defined for purposes of this Act—

(1) immediately;

(2) after a transitional period; and

(3) aspirationally, over a long-term period.

(b) **GLOBAL HEALTH SECURITY ZOOONOSIS PLANS.**—The Secretary of State and the Administrator of the United States Agency for International Development shall work bilaterally with the governments of the countries listed pursuant to subsection (a) to establish Global Health Security Zoonoses Plans that—

(1) outline actions to address novel pathogens of zoonotic origin that have the potential to become epidemics or pandemics;

(2) identify incentives and strengthened policies; and

(3) provide technical support to communities, policy makers, civil society, law enforcement and other stakeholders to end the domestic and international commercial trade in live wildlife and associated wildlife markets for human consumption immediately, during a transitional period, or aspirationally.

(c) **UPDATES.**—The list of countries required by subsection (a), the corresponding Global Health Security Zoonosis plans established pursuant to subsection (b), and any actions taken under such plans to end the commercial trade in live wildlife and associated wildlife markets for human consumption immediately, during a transitional period, or aspirationally, shall be reviewed, updated, and publicly released annually by the Secretary and Administrator, following review of the most recent scientific data.

SEC. 30705. SENSE OF CONGRESS.

It is the sense of Congress that global institutions, including the Food and Agriculture Organization of the United Nations, the World Organisation for Animal Health, the World Health Organization, and the United Nations Environment Programme, together with leading intergovernmental and nongovernmental organizations, veterinary and medical colleges, the Department of State, and the United States Agency for International Development, should—

(1) promote the paradigm of One Health as an effective and integrated way to address the complexity of emerging disease threats; and

(2) support improved community health, biodiversity conservation, forest conservation and management, sustainable agriculture, and the safety of livestock, domestic animals, and wildlife in developing countries, particularly in tropical landscapes where there is an elevated risk of zoonotic disease spill over.

SEC. 30706. STATEMENT OF POLICY.

It is the policy of the United States to—

(1) support the availability of scalable and sustainable alternative sources of protein and nutrition for local communities, where appropriate, in order to minimize human reliance on the commercial trade in live wildlife for human consumption;

(2) support foreign governments to—

(A) reduce commercial trade in live wildlife for human consumption;

(B) transition from the commercial trade in live wildlife for human consumption to sustainably produced alternate protein and nutritional sources;

(C) establish and effectively manage and protect natural habitat, including protected and conserved areas and the lands of Indigenous peoples and local communities, particularly in countries with tropical forest hotspots for emerging diseases; and

(D) strengthen public health capacity, particularly in countries where there is a high risk of emerging zoonotic viruses and other infectious diseases;

(3) respect the rights and needs of indigenous peoples and local communities dependent on such wildlife for nutritional needs and food security; and

(4) facilitate international cooperation by working with international partners through intergovernmental, international, and nongovernmental organizations such as the United Nations to—

(A) lead a resolution at the United Nations Security Council or General Assembly and World Health Assembly outlining the danger to human and animal health from emerging zoonotic infectious diseases, with recommendations for implementing the closure of wildlife markets and prevention of the commercial trade in live wildlife for human consumption, except where the consumption of wildlife is necessary for local food security or where such actions would significantly disrupt a readily available and irreplaceable food supply;

(B) raise awareness and build stakeholder engagement networks, including civil society, the private sector, and local and regional governments on the dangerous potential of wildlife markets as a source of zoonotic diseases and reduce demand for the consumption of wildlife through evidence-based behavior change programs, while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process;

(C) encourage and support alternative forms of sustainable food production, farming, and shifts to sustainable sources of protein and nutrition instead of terrestrial wildlife, where able and appropriate, and reduce consumer demand for terrestrial and freshwater wildlife through enhanced local and national food systems, especially in areas where wildlife markets play a significant role in meeting subsistence needs while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process; and

(D) strive to increase biosecurity and hygienic standards implemented in farms, gathering centers, transport, and market systems around the globe, especially those specializing in the provision of products intended for human consumption.

SEC. 30707. PREVENTION OF FUTURE ZOOONOTIC SPILLOVER EVENTS.

(a) **IN GENERAL.**—The Secretary of State and the Administrator of the United States Agency for International Development, in consultation with the Director of the United States Fish and Wildlife Service, the Secretary of Agriculture, the Director of the Centers for Disease Control and Prevention, and the heads of other relevant departments and agencies, shall work with foreign governments, multilateral entities, intergovernmental organizations, international partners, private sector partners, and nongovernmental organizations to carry out activities supporting the following objectives, recognizing that multiple interventions will likely be necessary to make an impact, and that interventions will need to be tailored to the situation to—

(1) pursuant to section 30704, close wildlife markets and prevent associated commercial trade in live wildlife, placing a priority focus on countries with significant markets for live wildlife for human consumption, high-volume commercial trade and associated markets, trade in and across urban centers, and trade for luxury consumption or where there is no dietary necessity—

(A) through existing treaties, conventions, and agreements;

(B) by amending existing protocols or agreements;

(C) by pursuing new protocols; or

(D) by other means of international coordination;

(2) improve regulatory oversight and reduce commercial trade in live wildlife and eliminate practices identified to contribute to zoonotic spillover and emerging pathogens;

(3) prevent commercial trade in live wildlife through programs that combat wildlife trafficking and poaching, including by—

(A) providing assistance to improve law enforcement;

(B) detecting and deterring the illegal import, transit, sale, and export of wildlife;

(C) strengthening such programs to assist countries through legal reform;

(D) improving information sharing and enhancing capabilities of participating foreign governments;

(E) supporting efforts to change behavior and reduce demand for such wildlife products;

(F) leveraging United States private sector technologies and expertise to scale and enhance enforcement responses to detect and prevent such trade; and

(G) strengthening collaboration with key private sector entities in the transportation industry to prevent and report the transport of such wildlife and wildlife products;

(4) leverage strong United States bilateral relationships to support new and existing inter-Ministerial collaborations or Task Forces that can serve as regional One Health models;

(5) build local agricultural and food safety capacity by leveraging expertise from the United States Department of Agriculture (USDA) and institutions of higher education with agricultural or natural resource expertise;

(6) work through international organizations to develop a set of objective risk-based metrics that provide a cross-country comparable measure of the level of risk posed by wildlife trade and marketing and can be used to track progress nations make in reducing risks, identify where resources should be focused, and potentially leverage a peer influence effect;

(7) prevent the degradation and fragmentation of forests and other intact ecosystems to minimize interactions between wildlife and human and livestock populations that could contribute to spillover events and zoonotic disease transmission, including by providing assistance or supporting policies to, for example—

(A) conserve, protect, and restore the integrity of such ecosystems;

(B) support the rights and needs of Indigenous People and local communities and their ability to continue their effective stewardship of their traditional lands and territories;

(C) support the establishment and effective management of protected areas, prioritizing highly intact areas; and

(D) prevent activities that result in the destruction, degradation, fragmentation, or conversion of intact forests and other intact ecosystems and biodiversity strongholds, including by governments, private sector entities, and multilateral development financial institutions;

(8) offer appropriate alternative livelihood and worker training programs and enterprise development to wildlife traders, wildlife breeders, and local communities whose members are engaged in the commercial trade in live wildlife for human consumption;

(9) ensure that the rights of Indigenous Peoples and local communities are respected and their authority to exercise these rights is protected;

(10) strengthen global capacity for prevention, prediction, and detection of novel and existing zoonoses with pandemic potential, including the support of innovative technologies in coordination with the United

States Agency for International Development, the Centers for Disease Control and Prevention, and other relevant departments and agencies; and

(11) support the development of One Health systems at the local, regional, national, and global levels in coordination with the United States Agency for International Development, the Centers for Disease Control and Prevention, and other relevant departments and agencies, particularly in emerging infectious disease hotspots, through a collaborative, multisectoral, and transdisciplinary approach that recognizes the interconnections among people, animals, plants, and their shared environment to achieve equitable and sustainable health outcomes.

(b) ACTIVITIES.—

(1) **GLOBAL COOPERATION.**—The United States Government, working through the United Nations and its components, as well as international organization such as Interpol, the Food and Agriculture Organization of the United Nations, and the World Organisation for Animal Health, and in furtherance of the policies described in section 30706, shall—

(A) collaborate with other member states, issue declarations, statements, and communiques urging countries to close wildlife markets, and prevent commercial trade in live wildlife for human consumption; and

(B) urge increased enforcement of existing laws to end wildlife trafficking.

(2) **INTERNATIONAL COALITIONS.**—The Secretary of State shall seek to build new, and support existing, international coalitions focused on closing wildlife markets and preventing commercial trade in live wildlife for human consumption, with a focus on the following efforts:

(A) Providing assistance and advice to other governments in the adoption of legislation and regulations to close wildlife markets and associated trade over such time-frame and in such manner as to minimize the increase of wildlife trafficking and poaching.

(B) Creating economic and enforcement pressure for the immediate shut down of uncontrolled, unsanitary, or illicit wildlife markets and their supply chains to prevent their operation.

(C) Providing assistance and guidance to other governments on measures to prohibit the import, export, and domestic commercial trade in live wildlife for the purpose of human consumption.

(D) Implementing risk reduction interventions and control options to address zoonotic spillover along the supply chain for the wildlife market system.

(E) Engaging and receiving guidance from key stakeholders at the ministerial, local government, and civil society level, including Indigenous Peoples, in countries that will be impacted by this title and where wildlife markets and associated wildlife trade are the predominant source of meat or protein, in order to mitigate the impact of any international efforts on food security, nutrition, local customs, conservation methods, or cultural norms.

(F) Promoting private sector engagement and public-private partnerships with industry groups (such as the transportation industry) to address transport and movement of live wildlife to supply the commercial trade in live wildlife for human consumption.

(c) UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT.—

(1) SUSTAINABLE FOOD SYSTEMS FUNDING.—

(A) **AUTHORIZATION OF APPROPRIATIONS.**—In addition to any other amounts provided for such purposes, there is authorized to be appropriated such sums as necessary for each fiscal year from 2021 through 2030 to the

United States Agency for International Development to reduce demand for consumption of wildlife from wildlife markets and support shifts to diversified alternative and sustainably produced sources of nutritious food and protein in communities that rely upon the consumption of wildlife for food security, while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process, using a multisectoral approach and including support for demonstration programs.

(B) **ACTIVITIES.**—The Bureau for Development, Democracy and Innovation (DDI), the Bureau for Resilience and Food Security (RFS), and the Bureau for Global Health (GH) of the United States Agency for International Development shall, in partnership with United States and international institutions of higher education and nongovernmental organizations, co-develop approaches focused on safe, sustainable food systems that support and incentivize the replacement of terrestrial wildlife in diets, while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process.

(2) **ADDRESSING THREATS AND CAUSES OF ZOOONOTIC DISEASE OUTBREAKS.**—The Administrator of the United States Agency for International Development, in consultation with the Secretary of the Interior, shall increase activities in United States Agency for International Development programs related to conserving biodiversity, combating wildlife trafficking, sustainable landscapes, global health, food security, and resilience in order to address the threats and causes of zoonotic disease outbreaks, including through—

(A) education;

(B) capacity building;

(C) strengthening human, livestock, and wildlife health monitoring systems of pathogens of zoonotic origin to support early detection and reporting of novel and known pathogens for emergence of zoonotic disease and strengthening cross-sectoral collaboration to align risk reduction approaches in consultation with the Director of the Centers for Disease Control and the Secretary of Health and Human Services;

(D) improved domestic and wild animal disease monitoring and control at production and market levels;

(E) development of alternative livelihood opportunities where possible;

(F) preventing degradation and fragmentation of forests and other intact ecosystems and restoring the integrity of such ecosystems, particularly in tropical countries, to prevent the creation of new pathways for zoonotic pathogen transmission that arise from interactions among wildlife, humans, and livestock populations;

(G) minimizing interactions between domestic livestock and wild animals in markets and captive production;

(H) supporting shifts from wildlife markets to diversified, safe, affordable, and accessible alternative sources of protein and nutrition through enhanced local and national food systems while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process;

(I) improving community health, forest management practices, and safety of livestock production in tropical landscapes, particularly in hotspots for zoonotic spillover and emerging infectious diseases;

(J) preventing degradation and fragmentation of forests and other intact ecosystems, particularly in tropical countries, to minimize interactions between wildlife, human, and livestock populations that could contribute to spillover events and zoonotic disease transmission, including by providing assistance or supporting policies to—

(i) conserve, protect, and restore the integrity of such ecosystems; and

(ii) support the rights of Indigenous People and local communities and their ability to continue their effective stewardship of their intact traditional lands and territories; and

(K) supporting development and use of multi-data sourced predictive models and decisionmaking tools to identify areas of highest probability of zoonotic spillover and to determine cost-effective monitoring and mitigation approaches; and

(L) other relevant activities described in section 30706 that are within the mandate of the United States Agency for International Development.

(3) **IMMEDIATE RELIEF FUNDING TO STABILIZE PROTECTED AREAS.**—The Administrator of the United States Agency for International Development and the Secretary of State are authorized to administer immediate relief funding to stabilize protected areas and conservancies.

(d) **STAFFING REQUIREMENTS.**—The Administrator of the United States Agency for International Development, in collaboration with the United States Fish and Wildlife Service, the United States Department of Agriculture Animal and Plant Health Inspection Service, the Centers for Disease Control and Prevention, and other Federal entities as appropriate, is authorized to hire additional personnel—

(1) to undertake programs aimed at reducing the risks of endemic and emerging infectious diseases and exposure to antimicrobial resistant pathogens;

(2) to provide administrative support and resources to ensure effective and efficient coordination of funding opportunities and sharing of expertise from relevant United States Agency for International Development bureaus and programs, including emerging pandemic threats;

(3) to award funding to on-the-ground projects;

(4) to provide project oversight to ensure accountability and transparency in all phases of the award process; and

(5) to undertake additional activities under this title.

(e) **REPORTING REQUIREMENTS.**—

(1) **UNITED STATES DEPARTMENT OF STATE.**—

(A) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, and annually thereafter until 2030, the Secretary of State and the Administrator of the United States Agency for International Development shall submit to the appropriate congressional committees a report—

(i) describing—

(I) the actions taken pursuant to this title, including through the application of findings and recommendations generated from the study required by section 30703 and the provision of United States technical assistance;

(II) the impact and effectiveness of international cooperation on shutting down wildlife markets;

(III) the impact and effectiveness of international cooperation on disrupting, deterring, and ultimately ending wildlife trafficking; and

(IV) the impact and effectiveness of international cooperation on preventing the import, export, and domestic commercial trade in live wildlife for the purpose of human use as food or medicine, while accounting for the differentiated needs of vulnerable populations who depend upon such wildlife as a predominant source of meat or protein; and

(ii) identifying—

(I) foreign countries that continue to enable the operation of wildlife markets as defined by this title and the associated trade of wildlife products for human use as food or medicine that feeds such markets;

(II) foreign governments, networks, or individuals who aid and abet or otherwise facilitate illicit wildlife trafficking; and

(III) recommendations for incentivizing or enforcing compliance with laws and policies to close wildlife markets pursuant to section 30704 and uncontrolled, unsanitary, or illicit wildlife markets and end the associated commercial trade in live wildlife for human use as food or medicine, which may include visa restrictions and other diplomatic or economic tools.

(B) **FORM.**—The report required under this paragraph shall be submitted in unclassified form, but may include a classified annex.

(2) **UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT.**—Not later than 180 days after the date of the enactment of this Act, the Administrator of the United States Agency for International Development shall submit to the appropriate congressional committees a report—

(A) describing the actions taken pursuant to this title;

(B) describing the impact and effectiveness of key strategies for reducing demand for consumption of such wildlife and associated wildlife markets;

(C) summarizing additional personnel hired with funding authorized under this title, including the number hired in each bureau; and

(D) describing partnerships developed with other institutions of higher learning and nongovernmental organizations.

SEC. 30708. ONE HEALTH TASK FORCE.

(a) **ESTABLISHMENT.**—There is established a task force to be known as the “One Health Task Force”.

(b) **DUTIES OF TASK FORCE.**—The duties of the Task Force shall be to—

(1) ensure an integrated approach across the Federal Government and globally to the prevention of, early detection of, preparedness for, and response to zoonotic spillover and the outbreak and transmission of zoonotic diseases that may pose a threat to public health security;

(2) not later than 1 year after the date of the enactment of this Act, develop and publish, on a publicly accessible website, a plan for global biosecurity and zoonotic disease prevention and response that leverages expertise in public health, consumer education and communication, behavior change, wildlife health, wildlife conservation, livestock production, veterinary health, food safety, sustainable forest management, community-based conservation, rural food security, and indigenous rights to coordinate zoonotic disease surveillance internationally, including support for One Health institutions around the world that can prevent and provide early detection of zoonotic outbreaks; and

(3) expand the scope of the implementation of the White House’s Global Health Security Strategy to more robustly support the prevention of zoonotic spillover and respond to zoonotic disease investigations and outbreaks by establishing a 10-year strategy with specific Federal Government domestic and international goals, priorities, and timelines for action, including to—

(A) recommend policy actions and mechanisms in developing countries to reduce the risk of zoonotic spillover and zoonotic disease emergence and transmission, including in support of those activities described in section 30707;

(B) identify new mandates, authorities, and incentives needed to strengthen the global zoonotic disease plan under paragraph (2);

(C) define and list priority areas as countries or regions determined to be of high risk for zoonotic disease emergence, as well as

based on, but not limited to, factors that include wildlife biodiversity, livestock production, human population density, and active drivers of disease emergence such as land use change, including forest degradation and loss, intensification of livestock production, and wildlife trade;

(D) prioritize engagement in programs that target tropical countries and regions experiencing high rates of biodiversity loss, deforestation, forest degradation, and land conversion and countries with significant markets for live wildlife for human consumption; and

(E) identify and recommend actions to address existing gaps in efforts to prevent and respond to domestic zoonotic disease emergence and transmission.

(c) **MEMBERSHIP.**—

(1) **IN GENERAL.**—The members of the Task Force established pursuant to subsection (a) shall be composed of representatives from each of the following agencies:

(A) One permanent Chairperson at the level of Deputy Assistant Secretary or above from the following agencies, to rotate every 2 years in an order to be determined by the Administrator:

(i) The Department of Agriculture or the Animal and Plant Health Inspection Service.

(ii) The Department of Health and Human Services or the Centers for Disease Control and Prevention.

(iii) The Department of the Interior or the United States Fish and Wildlife Service.

(iv) The Department of State.

(v) The United States Agency for International Development.

(vi) The National Security Council.

(B) At least 13 additional members, with at least 1 from each of the following agencies:

(i) The Centers for Disease Control and Prevention.

(ii) The Department of Agriculture.

(iii) The Department of Defense.

(iv) The Department of State.

(v) The Environmental Protection Agency.

(vi) The National Science Foundation.

(vii) The National Institutes of Health.

(viii) The National Institute of Standards and Technology.

(ix) The Office of Science and Technology Policy.

(x) The United States Agency for International Development.

(xi) The United States Fish and Wildlife Service.

(xii) The Department of Homeland Security, FEMA.

(xiii) United States Customs and Border Protection.

(2) **TIMING OF APPOINTMENTS.**—Appointments to the Task Force shall be made not later than 30 days after the date of the enactment of this Act.

(3) **TERMS.**—

(A) **IN GENERAL.**—Each member shall be appointed for a term of 2 years.

(B) **VACANCIES.**—Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A member may serve after the expiration of that term until a successor has been appointed.

(d) **MEETING.**—

(1) **INITIAL MEETING.**—The Task Force shall hold its initial meeting not later than 45 days after the final appointment of all members under subsection (c)(2).

(2) **MEETINGS.**—

(A) **IN GENERAL.**—The Task Force shall meet at the call of the Chairperson.

(B) **QUORUM.**—Eight members of the Task Force shall constitute a quorum, but a lesser number may hold hearings.

(e) **COMPENSATION.**—

(1) **PROHIBITION OF COMPENSATION.**—Except as provided in paragraph (2), members of the Task Force may not receive additional pay, allowances, or benefits by reason of their service on the Task Force.

(2) **TRAVEL EXPENSES.**—Each member shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(f) **REPORTS.**—

(1) **REPORT TO TASK FORCE.**—Not later than 6 months after the date of the enactment of this Act and annually thereafter, the Federal agencies listed in subsection (c) shall submit a report to the Task Force containing a detailed statement with respect to the results of any programming within their agencies that addresses the goals of zoonotic spillover and disease prevention.

(2) **REPORT TO CONGRESS.**—Not later than 1 year after the date of the enactment of this Act and annually thereafter, the Task Force shall submit to the appropriate congressional committees and the National Security Advisor a report containing a detailed statement of the recommendations of the Council pursuant to subsection (b).

(g) **FACA.**—Section 14(a)(2)(B) of the Federal Advisory Committee Act shall not apply to the Task Force. This task force shall be authorized for 7 years after the date of the enactment of this Act and up to an additional 2 years at the discretion of the Task Force Chair.

SEC. 30709. RESERVATION OF RIGHTS.

Nothing in this title shall restrict or otherwise prohibit—

(1) legal and regulated hunting, fishing, or trapping activities for subsistence, sport, or recreation; or

(2) the lawful domestic and international transport of legally harvested fish or wildlife trophies.

AMENDMENT NO. 203 OFFERED BY MR.
RESCHENTHALER OF PENNSYLVANIA

At the end of division B, add the following:

Subtitle G—National Academies Science, Technology, and Security Roundtable

SEC. 10671. AD-HOC COMMITTEE ON RESEARCH SECURITY.

Section 1746(b) of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92; 42 U.S.C. 6601 note) is amended—

(1) in paragraph (3)(B), by striking “involving federally funded research and development” and inserting “facing the United States research enterprise”;

(2) by redesignating paragraph (5) as paragraph (6);

(3) by inserting after paragraph (4) the following new paragraph:

“(5) **AD-HOC COMMITTEE.**—

“(A) **IN GENERAL.**—The roundtable shall convene an ad-hoc committee to study and make recommendations on research security issues consistent with paragraph (3).

“(B) **STUDY AND REPORT.**—Not later than 180 days after the first meeting of the ad-hoc committee convened under subparagraph (A), such committee shall—

“(i) complete a fast-track consensus study on the feasibility of establishing an independent, non-profit entity (referred to in this paragraph as the ‘entity’) to further protect the United States research enterprise against foreign interference, theft, and espionage; and

“(ii) submit to the relevant committees a report on the results of the study.

“(C) **ELEMENTS.**—The report required under subparagraph (B)(ii) shall include analysis and recommendations with respect to each of the following:

“(i) The organizational structure of the entity.

“(ii) The appropriate relationship between the entity and the Federal government, including the interagency working group established under subsection (a).

“(iii) The appropriate level of financial resources needed to establish the entity.

“(iv) A self-sustaining funding model for the entity.

“(v) Whether and how the entity can—

“(I) enable informed, proactive, and unbiased risk assessment for and by the United States research enterprise;

“(II) in coordination with the interagency working group established under subsection (a), the Federal agencies that comprise the working group, and the roundtable under this subsection, promote actionable and timely information sharing among the United States research enterprise about foreign interference, theft, and espionage of research and development;

“(III) provide non-punitive, non-legally binding advice to the United States research enterprise, including frontline researchers, about foreign inference, theft, and espionage including advice with respect to risks associated with international partnerships and foreign talent recruitment programs;

“(IV) secure the trust and active participation of the United States research enterprise;

“(V) regularly conduct open-source intelligence analysis to provide actionable and timely unclassified information to the United States research enterprise about foreign interference, theft, and espionage, including analysis to be tailored specifically for the purpose of assisting frontline researchers in making security-informed decisions; and

“(VI) offer products and services to the United States research enterprise to help inform research security efforts such as analyses of global research and development trends, advice regarding intellectual property production and protection, market analyses, and risk assessment for day-to-day activities such as collaboration, travel, and hiring.

“(vi) Such other information and recommendations as the committee considers necessary to ensure that the entity operates effectively.”; and

(4) in paragraph (6), as so redesignated, by striking “2024” and inserting “2025”.

AMENDMENT NO. 204 OFFERED BY MR.
RESCHENTHALER OF PENNSYLVANIA

Page 697, line 5, strike “and semiconductors” and insert “, semiconductors, and rare earth permanent magnets”.

AMENDMENT NO. 206 OFFERED BY MS. ROSS OF
NORTH CAROLINA

Add at the end of the following:

DIVISION M—EMERGING TECHNOLOGY LEADS

SEC. 120001. EMERGING TECHNOLOGY LEADS.

(a) **DEFINITIONS.**—In this section:

(1) **COVERED INDIVIDUAL.**—The term “covered individual” means—

(A) an individual serving in a Senior Executive Service position, as that term is defined in section 3132(a) of title 5, United States Code;

(B) an individual who—

(i) is serving in a position to which section 5376 of title 5, United States Code, applies; and

(ii) has a significant amount of seniority and experience, as determined by the head of the applicable covered Federal agency; or

(C) another individual who is the equivalent of an individual described in subparagraph (A) or (B), as determined by the head of the applicable covered Federal agency.

(2) **COVERED FEDERAL AGENCY.**—The term “covered Federal agency” means—

(A) an agency listed in section 901(b) of title 31, United States Code; or

(B) an element of the intelligence community, as defined in section 3 of the National Security Act of 1947 (50 U.S.C. 3003).

(b) APPOINTMENT OR DESIGNATION.—Each covered Federal agency that is also substantially engaged in the development, application, or oversight of emerging technologies shall consider appointing or designating a covered individual as an emerging technology lead to advise the agency on the responsible use of emerging technologies, including artificial intelligence, provide expertise on responsible policies and practices, collaborate with interagency coordinating bodies, and provide input for procurement policies.

(c) INFORMING CONGRESS.—Not later than 180 days after the date of the enactment of this Act, the President shall inform Congress of each covered Federal agency in which a covered individual has been appointed or designated as an emerging technology lead under subsection (b) and provide Congress with a description of the authorities and responsibilities of the covered individuals so appointed.

AMENDMENT NO. 211 OFFERED BY MR. RYAN OF OHIO

Page 756, insert after line 12 the following:
SEC. 20209. NATIONAL COMMISSION ON CRITICAL SUPPLY CHAINS.

(a) ESTABLISHMENT.—Congress shall establish a National Commission on Critical Supply Chains (referred to in this section as the “Commission”).

(b) PURPOSES.—The purposes of the Commission shall be to—

(1) convene an independent entity that brings together national experts in a highly visible forum to conduct a systematic study and give guidance to Congress on the complex and strategically important issues related to rebuilding critical American supply chains;

(2) identify the critical supply chains in which the United States is dependent on materials, products, equipment, or services from foreign countries and in which substantial harm would come to U.S. economic security, national defense, or way of life if those supply chains were compromised or no longer available;

(3) investigate in depth and report on existing dependencies, limitations, and risks to the United States for each of these critical supply chains, including considerations for medical supplies, equipment, and medications; rare earth materials; precision-integrated circuits and microchips; machine tools and production equipment; defense components and homeland security capabilities; scientific equipment needed for advanced technology research and development; clothing and textiles; and food and agricultural products;

(4) assess and provide guidance on key questions, including—

(A) which driving forces are pushing U.S. companies to offshore their procurement or their manufacturing operations;

(B) how the United States can predict and prevent future supply chain disruptions;

(C) what the United States can do to reduce future vulnerabilities and risks;

(D) whether the United States can make the American supply chain resilient enough to protect necessary capabilities and resources;

(E) which manufacturing activities should be performed strictly within the United States to ensure economic and national security;

(F) what actions should be taken by the United States to increase domestic manufacturing to meet critical supply chain needs and improve its terms of trade; and

(G) what would be the effects of a new national manufacturing strategy on employment, growth, innovation, and national security; and

(5) develop and propose specific recommendations, submit a biannual comprehensive report (and intermediate updates as necessary to maintain timely and relevant information), and provide Congressional oversight to Congress to be used as a resource for legislative actions to mitigate the risks of future American supply chain disruptions.

(c) MEMBERSHIP.—

(1) MEMBERS.—The Commission shall be composed of 12 members, of whom—

(A) three members shall be appointed by the Speaker of the House of Representatives, in consultation with the chairpersons of relevant committees, including the Committee on Ways and Means, Committee on Energy and Commerce, Committee on Science, Space, and Technology, Committee on Transportation and Infrastructure, Committee on Armed Services, Committee on Natural Resources, Committee on Small Business, Committee on Homeland Security, and Committee on Agriculture of the House of Representatives;

(B) three members shall be appointed by the minority leader of the House of Representatives, in consultation with the ranking minority Members of relevant committees, including the Committees described in subparagraph (A);

(C) three members shall be appointed by the President pro tempore of the Senate upon the recommendation of the majority leader of the Senate, in consultation with the chairpersons of relevant committees, including the Committee on Finance, Committee on Commerce, Science, and Technology, Committee on Armed Services, Committee on Energy and Natural Resources, Committee on Small Business and Entrepreneurship, Committee on Homeland Security and Governmental Affairs, Committee on Environment and Public Works, and Committee on Agriculture, Nutrition, and Forestry of the Senate; and

(D) three members shall be appointed by the President pro tempore of the Senate upon the recommendation of the minority leader of the Senate, in consultation with the ranking minority Members of relevant committees, including the Committees described in subparagraph (C).

(2) CHAIR; VICE CHAIR.—

(A) APPOINTMENT.—Not later than 30 days after the initial meeting of the Commission, the Commission shall elect a Chair and Vice Chair from among the Commission's members by a simple majority vote, and such Chair and Vice Chair shall be members of the Commission who were appointed by appointing authorities from different political parties under paragraph (1).

(B) PRESENCE.—For purposes of appointing the Chair, all 12 members must be present. If all 12 members are not present, appointment of the chair shall be delayed until the next meeting of the Commission at which all 12 members are present.

(C) TIMING.—If a quorum is not present at that initial meeting, the Chair shall be appointed at the first meeting after that at which a quorum is present. If a Vice Chair is elected before the Chair and no Chair is elected, the Vice Chair shall serve as acting Chair until the Chair is elected.

(D) NEW CHAIR AND VICE CHAIR EACH CONGRESS.—A new Chair and Vice Chair shall be elected with respect to each Congress. Any member that was a Chair or Vice Chair in a Congress may not be elected to be a Chair or Vice Chair in a subsequent Congress.

(3) QUALIFICATIONS.—

(A) AREAS OF EXPERTISE.—

(i) IN GENERAL.—Each individual appointed to the Commission shall have substantial expertise in one or more of the following areas:

(I) Supply chain expertise, including the following:

(aa) Advanced manufacturing, with a focus on distributed operations and supply chain management.

(bb) Economics of U.S. manufacturing.

(cc) Supply chain logistics.

(dd) Supplier certification and quality assurance processes.

(ee) Raw materials sourcing and distribution.

(ff) Metrics used by Original Equipment Manufacturer purchasing managers and chief financial officers to make purchasing decisions.

(II) Critical domain expertise, including the following:

(aa) Health care, medical device, and pharmaceutical manufacturing.

(bb) Mining, supply, and usage of rare earth materials.

(cc) Precision-integrated circuits, microchips, and semiconductor manufacturing.

(dd) Defense component manufacturing and homeland security products.

(ee) Advanced machine tools and production equipment.

(ff) Scientific equipment for high-precision research and development.

(gg) Clothing and textiles manufacturing.

(hh) Food production and agricultural products manufacturing.

(III) Industrial policy expertise, including knowledge of industrial organization, development economics, and policy tools that have been used by the United States and other developing or industrial economies in the world.

(ii) COMPOSITION.—The composition of the members of the Commission shall ensure the Commission has substantial expertise in all areas described in clause (i).

(B) NONGOVERNMENT APPOINTEES.—An individual appointed to the Commission may not be an officer or employee of the Federal Government.

(4) APPOINTMENT REQUIREMENTS.—

(A) INITIAL APPOINTMENTS.—Members of the Commission shall be appointed not later than 45 days after the date of the enactment of this Act.

(B) TERM OF APPOINTMENTS.—The term of each member of the Commission shall expire on December 31 of the second session of the Congress in which the member is appointed to the Commission.

(C) APPOINTMENTS WITH EACH CONGRESS.—Appointments to the Commission made after the initial appointments to the Commission under subparagraph (A) shall be made not later than 30 days after the date on which each Congress convenes.

(D) RENEWAL OF APPOINTMENTS.—A member of the Commission may be reappointed for additional terms of service upon mutual agreement between such member and the appointing authority that appointed such member to the Commission.

(E) VACANCIES.—A vacancy in the Commission shall not affect the powers of the Commission and shall be filled by the same appointing authority that made the original appointment. Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A member may serve after the expiration of that member's term until a successor has taken office. A vacancy in the Commission shall be filled in the manner in which the original appointment was made by not later than 30 days after the date such vacancy occurs.

(F) REMOVAL.—A member of the Commission may be removed from the Commission at any time by the appointing authority that appointed such member to the Commission should the member fail to meet Commission responsibilities.

(5) COMPENSATION; TRAVEL EXPENSES.—Each member of the Commission may be compensated at a rate not to exceed the daily equivalent of the annual rate of basic pay in effect for a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day during which the member is engaged in the actual performance of the duties of the Commission. Travel expenses of members of the Commission shall be allowed at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, except that foreign travel for official purposes by members of the Commission is not authorized.

(d) MEETING REQUIREMENTS.—

(1) INITIAL MEETING.—The Commission shall convene for an initial meeting not later than 45 days after the initial members of the Commission are all appointed. An initial meeting may be convened so long as at least 10 members are present.

(2) SUBSEQUENT MEETINGS.—After the initial meeting under paragraph (1), the Commission shall meet upon the call of the Chair or as determined by a majority of Commission members.

(3) EXPECTATIONS FOR ATTENDANCE BY MEMBERS.—Members are expected to attend all Commission meetings. In the case of an absence, members are expected to report to the Chair prior to the meeting and allowance may be made for an absent member to participate remotely. Members will still be responsible for fulfilling prior commitments, regardless of attendance status. If a member is absent from multiple meetings, the member may be reviewed by the Chair and appointing authority that appointed such member to the Commission and further action will be considered, including removal and replacement on the Commission.

(4) QUORUM.—A majority of the members of the Commission shall constitute a quorum.

(5) VOTING.—Each member of the Commission shall be entitled to one vote, which shall be equal to the vote of every other member of the Commission.

(6) MEETING NOTES.—Meetings notes shall be made available to the congressional committees of jurisdiction.

(e) SUBCOMMITTEES AND WORKING GROUPS.—The Commission may choose, at the discretion of the Chair and Vice Chair, to establish subcommittees and working groups for any purpose consistent with the duties of the Commission. Any findings, conclusions, or recommendations made by a subcommittee or working group shall be considered by the full Commission, which shall be responsible for determining any final findings, conclusions, and recommendations. Each such subcommittee or working group shall operate only for the Congressional Session with respect to which such subcommittee or group was established.

(f) ADMINISTRATION AND POWERS OF COMMISSION.—

(1) HEARINGS.—The Commission may, for the purpose of carrying out this Act—

(A) hold such hearings, sit and act at such times and places, take such testimony, receive such evidence, and administer such oaths as the Commission considers appropriate; and

(B) subject to paragraph (2), require the attendance and testimony of witnesses and the production of books, records, correspondence, memoranda, papers, and documents.

(2) OBTAINING OFFICIAL DATA.—

(A) IN GENERAL.—The Commission may secure directly from any executive department, bureau, agency, board, commission, office, independent establishment, or other instrumentality of the Federal Government or a State, local, Tribal, or territorial government any information, suggestions, estimates, and statistics to enable the Commission to carry out this Act. Each such department, bureau, agency, board, commission, office, independent establishment, or instrumentality shall, to the extent authorized by law, furnish such information, suggestions, estimates, and statistics directly to the Commission, upon request of the Chair of the Commission and the Vice Chair of the Commission or any member designated by a majority of the Commission.

(B) RECEIPT, HANDLING, STORAGE, AND DISSEMINATION.—Any information, suggestions, estimates, and statistics submitted under subparagraph (A) shall only be received, handled, stored, and disseminated by members of the Commission and its staff, consistent with applicable Federal law.

(3) PUBLIC HEARINGS AND MEETINGS.—

(A) IN GENERAL.—The Commission shall hold public hearings and meetings as determined appropriate by the Commission.

(B) PROTECTION OF CERTAIN INFORMATION.—Any public hearings and meetings of the Commission shall be conducted in a manner consistent with applicable Federal law regarding the protection of data submitted to the Commission under paragraph (3).

(4) PERSONNEL.—

(A) STAFF.—

(i) APPOINTMENT; COMPENSATION; TRAVEL EXPENSES.—The Chair of the Commission, in consultation with Vice Chair of the Commission, and in accordance with rules agreed upon by the Commission, may appoint and fix the compensation of an executive director and other additional technical and administrative personnel as may be necessary to enable the Commission to carry out its duties, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that no rate of pay fixed under this clause may exceed the equivalent of that payable for a position at level V of the Executive Schedule under section 5316 of title 5, United States Code. Travel expenses of the executive director and other additional technical and administrative personnel of the Commission shall be allowed at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, except that foreign travel for official purposes by such director and personnel of the Commission is not authorized.

(ii) TECHNICAL STAFF EXPERTISE REQUIREMENT.—Technical staff of the Commission shall be individuals with substantial expertise in one or more of the areas described in subsection (c)(2). The expertise of such technical staff shall augment the ability of the Commission to have substantial expertise in all areas so described.

(iii) PERSONNEL AS FEDERAL EMPLOYEES.—

(I) IN GENERAL.—The executive director and any other personnel of the Commission shall be treated as employees under section 2105 of title 5, United States Code, for purposes of chapters 63, 81, 83, 84, 85, 87, 89, and 90 of such title.

(II) MEMBERS OF COMMISSION.—Subclause (I) shall not be construed to apply to members of the Commission.

(iv) DETAILEES.—Any Federal Government employee may be detailed to the Commission without reimbursement from the Commission, and such detailee shall retain the

rights, status, and privileges of his or her regular employment without interruption.

(v) EXPERTS AND CONSULTANTS.—The Commission may procure temporary and intermittent services of experts and consultants in accordance with section 3109 of title 5, United States Code, but at a rate not to exceed the daily equivalent of the annual rate of basic pay in effect for a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code.

(B) ASSISTANCE FROM FEDERAL AGENCIES.—

(i) GENERAL SERVICES ADMINISTRATION.—The Administrator of General Services shall provide to the Commission, on a reimbursable basis, administrative support and other services necessary to carry out the duties of the Commission.

(ii) OTHER DEPARTMENTS AND AGENCIES.—In addition to the assistance described in subparagraph (A), departments and agencies of the Federal Government may provide to the Commission such services, funds, facilities, and staff as such departments and agencies determine appropriate and as authorized by Federal law.

(g) SECURITY CLEARANCES.—The members and staff of the Commission shall obtain, if necessary to carry out the functions of the Commission, appropriate security clearances for access to any classified briefing, records, and materials to be reviewed by such members or staff. The appropriate Federal agencies or departments shall cooperate with the Commission in expeditiously providing to the members and staff of the Commission security clearances pursuant to existing procedures and requirements, except that no person may be provided with access to classified information under this Act without the appropriate security clearance.

(h) REPORTS.—

(1) REPORTS.—Not later than December 1 of each year that the Commission remains active and in operation, the Commission shall submit to the majority and minority leaders of the House of Representatives and Senate a comprehensive report on the findings, conclusions, and recommendations of the Commission with respect to such year and including an executive summary of the Commission's purposes and activities and any relevant references and materials with respect to such year. Notwithstanding the previous sentence, the Commission shall not be required to submit a report under this paragraph with respect to the first year in which such Commission is active and in operation if the Commission is so active and in operation for fewer than six months of such first year.

(2) CLASSIFIED INFORMATION.—In the case that a report submitted under this subsection includes classified information, the Commission shall also submit to the majority and minority leaders of the House of Representatives and Senate a redacted version of such report with such classified information included as a classified annex to such report.

(3) PUBLIC AVAILABILITY.—Reports submitted under this subsection, or the redacted versions of such reports (if applicable), shall be made publicly available on a centralized Federal internet website.

(i) APPLICABILITY OF FACA.—Except as provided in subsection (j), the provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the activities of the Commission.

(j) TERMINATION.—

(1) IN GENERAL.—The Commission, and all the authorities of the Commission under this Act, shall remain active and in operation until the last day of the 10-year period beginning on the date of the enactment of this Act.

(2) ADMINISTRATIVE ACTIVITIES.—The Commission may use the 60-day period following

the date of termination of the Commission for the purpose of concluding its activities, including providing testimony to Congress concerning its results and disseminating the final report of the Commission.

(k) **AUTHORIZATION OF APPROPRIATIONS.**—For purposes of carrying out this section, there is authorized to be appropriated to the Commission \$6,000,000 for fiscal year 2022 and such sums as may be necessary for each fiscal year thereafter through fiscal year 2032, to be available until expended.

AMENDMENT NO. 212 OFFERED BY MS. SALAZAR OF FLORIDA

Add at the end of part 1 of subtitle D of title II of division D the following:

SEC. ____ . REPORT ON MAJOR CHINESE INFRASTRUCTURE INVESTMENTS.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to Congress a report on major Chinese infrastructure investments in Latin America and the Caribbean and the extent to which the countries that host these investments are able to meet the interest and principal payments associated with any outstanding loans.

AMENDMENT NO. 229 OFFERED BY MR. SOTO OF FLORIDA

Page 641, after line 22, insert the following:

Subtitle G—Additional Provisions

SEC. 10671. ESTABLISHMENT OF BLOCKCHAIN AND CRYPTOCURRENCY SPECIALIST POSITION WITHIN OSTP.

The Director of the Office of Science and Technology Policy shall establish a blockchain and cryptocurrencies advisory specialist position within the Office to advise the President on matters relating to blockchain and cryptocurrencies.

AMENDMENT NO. 230 OFFERED BY MS. SPANBERGER OF VIRGINIA

Insert after section 30219G the following

SEC. 30219H. REPORT ON OPEN RADIO ACCESS NETWORKS.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Commerce, in consultation with the Secretary of State, shall submit to the appropriate congressional committees a report on the national security implications of open radio access networks (Open RAN or O-RAN) that—

(1) provides information on the United States Government's international engagement to support United States leadership in Open RAN, including the Department of State's diplomatic efforts to ensure United States leadership in international standard setting bodies for Open RAN;

(2) describes the involvement of China headquartered companies in Open RAN standards setting bodies such as the O-RAN Alliance;

(3) reviews the national security risks posed by the presence of entities included on the Bureau of Industry and Security's "Entity List" in the O-RAN Alliance;

(4) determines whether entities that do business in the United States can participate in the O-RAN Alliance under existing sanctions and export control laws;

(5) analyzes whether United States national security is affected by the limited number of telecommunications equipment vendors, and examines whether the advent and deployment of Open RAN would expand the number of equipment and service providers;

(6) outlines how the United States can work with allies, partners, and other countries to ensure that Open RAN maintains the highest security and privacy standards; and

(7) identifies steps the United States can take to assert leadership in Open RAN.

(b) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term "appropriate congressional committees" means—

(1) the Committee on Foreign Affairs of the House of Representatives;

(2) the Committee on Foreign Relations of the Senate;

(3) the Committee on Energy and Commerce of the House of Representatives; and

(4) the Committee on Commerce, Science, and Transportation of the Senate.

AMENDMENT NO. 235 OFFERED BY MS. STANSBURY OF NEW MEXICO

Page 641, after line 22, insert the following:

Subtitle G—Partnerships for Energy Security and Innovation

SEC. 10671. FOUNDATION FOR ENERGY SECURITY AND INNOVATION.

(a) **DEFINITIONS.**—In this section:

(1) **BOARD.**—The term "Board" means the Board of Directors described in subsection (b)(2)(A).

(2) **DEPARTMENT.**—The term "Department" means the Department of Energy.

(3) **EXECUTIVE DIRECTOR.**—The term "Executive Director" means the Executive Director described in subsection (b)(5)(A).

(4) **FOUNDATION.**—The term "Foundation" means the Foundation for Energy Security and Innovation established under subsection (b)(1).

(5) **HISTORICALLY BLACK COLLEGE AND UNIVERSITY.**—The term "historically Black college and university" has the meaning given the term "part B institution" in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(6) **INDIVIDUAL LABORATORY-ASSOCIATED FOUNDATION.**—The term "Individual Laboratory-Associated Foundation" means a Laboratory Foundation established by an operating contractor of a National Laboratory.

(7) **MINORITY SERVING INSTITUTION.**—The term "minority serving institution" includes the entities described in any of the paragraphs (1) through (7) of section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)).

(8) **NATIONAL LABORATORY.**—The term "National Laboratory" has the meaning given the term in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801).

(9) **SECRETARY.**—The term "Secretary" means the Secretary of Energy.

(10) **TRIBAL COLLEGE AND UNIVERSITY.**—The term "Tribal College and University" has the meaning given in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1059c).

(b) **FOUNDATION FOR ENERGY SECURITY AND INNOVATION.**—

(1) **ESTABLISHMENT.**—

(A) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall establish a nonprofit corporation to be known as the "Foundation for Energy Security and Innovation".

(B) **MISSION.**—The mission of the Foundation shall be—

(i) to support the mission of the Department; and

(ii) to advance collaboration with energy researchers, institutions of higher education, industry, and nonprofit and philanthropic organizations to enable the commercialization of energy technologies.

(C) **LIMITATION.**—The Foundation shall not be an agency or instrumentality of the Federal Government.

(D) **TAX-EXEMPT STATUS.**—The Board shall take all necessary and appropriate steps to ensure that the Foundation is an organization that is described in section 501(c) of the Internal Revenue Code of 1986 and exempt from taxation under section 501(a) of that Code.

(E) **COLLABORATION WITH EXISTING ORGANIZATIONS.**—The Secretary may collaborate

with 1 or more organizations to establish the Foundation and carry out the activities of the Foundation.

(2) **BOARD OF DIRECTORS.**—

(A) **ESTABLISHMENT.**—The Foundation shall be governed by a Board of Directors.

(B) **COMPOSITION.**—

(i) **IN GENERAL.**—The Board shall be composed of the ex officio nonvoting members described in clause (ii) and the appointed voting members described in clause (iii).

(ii) **EX OFFICIO MEMBERS.**—The ex officio members of the Board shall be the following individuals or designees of those individuals:

(I) The Secretary.

(II) The Under Secretary for Science and Energy.

(III) The Under Secretary for Nuclear Security.

(IV) The Chief Commercialization Officer.

(iii) **APPOINTED MEMBERS.**—

(I) **INITIAL MEMBERS.**—The Secretary and the other ex officio members of the Board shall—

(aa) seek to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to develop a list of individuals to serve as members of the Board who are well-qualified and will meet the requirements of subclauses (II) and (III); and

(bb) appoint the initial members of the Board from that list, if applicable, in consultation with the National Academies of Sciences, Engineering, and Medicine.

(II) **REPRESENTATION.**—The appointed members of the Board shall reflect a broad cross-section of stakeholders from academia, National Laboratories, industry, nonprofit organizations, State or local governments, the investment community, and the philanthropic community.

(III) **EXPERIENCE.**—The Secretary shall ensure that a majority of the appointed members of the Board—

(aa)(AA) has experience in the energy sector;

(BB) has research experience in the energy field; or

(CC) has experience in technology commercialization or foundation operations; and

(bb) to the extent practicable, represents diverse regions, sectors, and communities.

(C) **CHAIR AND VICE CHAIR.**—

(i) **IN GENERAL.**—The Board shall designate from among the members of the Board—

(I) an individual to serve as Chair of the Board; and

(II) an individual to serve as Vice Chair of the Board.

(ii) **TERMS.**—The term of service of the Chair and Vice Chair of the Board shall end on the earlier of—

(I) the date that is 3 years after the date on which the Chair or Vice Chair of the Board, as applicable, is designated for the position; and

(II) the last day of the term of service of the member, as determined under subparagraph (D)(i), who is designated to be Chair or Vice Chair of the Board, as applicable.

(iii) **REPRESENTATION.**—The Chair and Vice Chair of the Board—

(I) shall not be representatives of the same area of subject matter expertise, or entity, as applicable, under subparagraph (B)(iii)(II); and

(II) shall not be representatives of any area of subject matter expertise, or entity, as applicable, represented by the immediately preceding Chair and Vice Chair of the Board.

(D) **TERMS AND VACANCIES.**—

(i) **TERMS.**—

(I) **IN GENERAL.**—The term of service of each appointed member of the Board shall be not more than 5 years.

(II) **INITIAL APPOINTED MEMBERS.**—Of the initial members of the Board appointed under subparagraph (B)(iii)(I), half of the

members shall serve for 4 years and half of the members shall serve for 5 years, as determined by the Chair of the Board.

(ii) **VACANCIES.**—Any vacancy in the membership of the appointed members of the Board—

(I) shall be filled in accordance with the bylaws of the Foundation by an individual capable of representing the same area or entity, as applicable, as represented by the vacating board member under subparagraph (B)(iii)(II);

(II) shall not affect the power of the remaining appointed members to execute the duties of the Board; and

(III) shall be filled by an individual selected by the Board.

(E) **MEETINGS; QUORUM.**—

(i) **INITIAL MEETING.**—Not later than 60 days after the Board is established, the Secretary shall convene a meeting of the ex officio and appointed members of the Board to incorporate the Foundation.

(ii) **QUORUM.**—A majority of the appointed members of the Board shall constitute a quorum for purposes of conducting the business of the Board.

(F) **DUTIES.**—The Board shall—

(i) establish bylaws for the Foundation in accordance with subparagraph (G);

(ii) provide overall direction for the activities of the Foundation and establish priority activities;

(iii) carry out any other necessary activities of the Foundation; and

(iv) evaluate the performance of the Executive Director.

(G) **BYLAWS.**—

(i) **IN GENERAL.**—The bylaws established under subparagraph (F)(i) may include—

(I) policies for the selection of Board members, officers, employees, agents, and contractors of the Foundation;

(II) policies, including ethical standards, for—

(aa) the acceptance, solicitation, and disposition of donations and grants to the Foundation, including appropriate limits on the ability of donors to designate, by stipulation or restriction, the use or recipient of donated funds; and

(bb) the disposition of assets of the Foundation;

(III) policies that subject all employees, fellows, trainees, and other agents of the Foundation (including ex officio and appointed members of the Board) to conflict of interest standards; and

(IV) the specific duties of the Executive Director.

(ii) **REQUIREMENTS.**—The Board shall ensure that the bylaws of the Foundation and the activities carried out under those bylaws shall not—

(I) reflect unfavorably on the ability of the Foundation to carry out activities in a fair and objective manner; or

(II) compromise, or appear to compromise, the integrity of any governmental agency or program, or any officer or employee employed by, or involved in, a governmental agency or program.

(H) **COMPENSATION.**—

(i) **IN GENERAL.**—No member of the Board shall receive compensation for serving on the Board.

(ii) **CERTAIN EXPENSES.**—In accordance with the bylaws of the Foundation, members of the Board may be reimbursed for travel expenses, including per diem in lieu of subsistence, and other necessary expenses incurred in carrying out the duties of the Board.

(i) **RESTRICTION ON MEMBERSHIP.**—No employee of the Department shall be appointed as a member of the Board of Directors.

(3) **PURPOSES.**—The purposes of the Foundation are—

(A) to support the Department in carrying out the mission of the Department to ensure the security and prosperity of the United States by addressing civilian energy and environmental challenges through transformative science and technology solutions; and

(B) to increase private and philanthropic sector investments that support efforts to create, characterize, develop, test, validate, and commercialize innovative technologies that address crosscutting national energy challenges, including those affecting minority, rural, and other underserved communities, by methods that include—

(i) fostering collaboration and partnerships with researchers from the Federal Government, State governments, institutions of higher education, including historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions, federally funded research and development centers, industry, and nonprofit organizations for the research, development, or commercialization of transformative energy and associated technologies;

(ii) strengthening and sharing best practices relating to regional economic development through scientific and energy innovation, including in partnership with an Individual Laboratory-Associated Foundation;

(iii) promoting new product development that supports job creation;

(iv) administering prize competitions—

(I) to accelerate private sector competition and investment; and

(II) that complement the use of prize authority by the Department;

(v) supporting programs that advance technology maturation, especially where there may be gaps in Federal or private funding in the commercialization of a prototype technology;

(vi) supporting efforts to broaden participation in energy technology development among individuals from historically underrepresented groups or regions; and

(vii) facilitating access to Department facilities, equipment, and expertise to assist in tackling national challenges.

(4) **ACTIVITIES.**—

(A) **STUDIES, COMPETITIONS, AND PROJECTS.**—The Foundation may conduct and support studies, competitions, projects, and other activities that further the purposes of the Foundation described in paragraph (3).

(B) **FELLOWSHIPS AND GRANTS.**—

(i) **IN GENERAL.**—The Foundation may award fellowships and grants for activities relating to research, development, demonstration, or commercialization of energy and other Department-supported technologies.

(ii) **FORM OF AWARD.**—A fellowship or grant under clause (i) may consist of a stipend, health insurance benefits, funds for travel, and funds for other appropriate expenses.

(iii) **SELECTION.**—In selecting a recipient for a fellowship or grant under clause (i), the Foundation—

(I) shall make the selection based on the technical and commercialization merits of the proposed project of the potential recipient; and

(II) may consult with a potential recipient regarding the ability of the potential recipient to carry out various projects that would further the purposes of the Foundation described in paragraph (3).

(iv) **NATIONAL LABORATORIES.**—A National Laboratory that applies for or accepts an award under clause (i) shall not be considered to be engaging in a competitive process.

(C) **ACCESSING FACILITIES AND EXPERTISE.**—The Foundation may work with the Department—

(i) to leverage the capabilities and facilities of National Laboratories to commercialize technology; and

(ii) to assist with resources, including by providing information on the assets of each National Laboratory that may enable the commercialization of technology.

(D) **TRAINING AND EDUCATION.**—The Foundation may support programs that provide training to researchers, scientists, other relevant personnel at National Laboratories and institutions of higher education, and previous or current recipients of or applicants for Department funding to help research, develop, demonstrate, and commercialize federally funded technology.

(E) **MATURATION FUNDING.**—The Foundation shall support programs that provide maturation funding to researchers to advance the technology of those researchers for the purpose of moving products from a prototype stage to a commercial stage.

(F) **STAKEHOLDER ENGAGEMENT.**—The Foundation shall convene, and may consult with, representatives from the Department, institutions of higher education, National Laboratories, the private sector, and commercialization organizations to develop programs for the purposes of the Foundation described in paragraph (3) and to advance the activities of the Foundation.

(G) **INDIVIDUAL AND FEDERAL LABORATORY-ASSOCIATED FOUNDATIONS.**—

(i) **DEFINITION OF COVERED FOUNDATION.**—In this subparagraph, the term “covered foundation” means each of the following:

(I) An Individual Laboratory-Associated Foundation.

(II) A Federal Laboratory-Associated Foundation established pursuant to subsection (c)(1).

(ii) **SUPPORT.**—The Foundation shall provide support to and collaborate with covered foundations.

(iii) **GUIDELINES AND TEMPLATES.**—For the purpose of providing support under clause (ii), the Secretary shall establish suggested guidelines and templates for covered foundations, including—

(I) a standard adaptable organizational design for responsible management;

(II) standard and legally tenable bylaws and money-handling procedures; and

(III) a standard training curriculum to orient and expand the operating expertise of personnel employed by covered foundations.

(iv) **AFFILIATIONS.**—Nothing in this subparagraph requires—

(I) an existing Individual Laboratory-Associated Foundation to modify current practices or affiliate with the Foundation; or

(II) a covered foundation to be bound by charter or corporate bylaws as permanently affiliated with the Foundation.

(H) **SUPPLEMENTAL PROGRAMS.**—The Foundation may carry out supplemental programs—

(i) to conduct and support forums, meetings, conferences, courses, and training workshops consistent with the purposes of the Foundation described in paragraph (3);

(ii) to support and encourage the understanding and development of data that promotes the translation of technologies from the research stage, through the development and maturation stage, and ending in the market stage;

(iii) for writing, editing, printing, publishing, and vending books and other materials relating to research carried out under the Foundation and the Department; and

(iv) to conduct other activities to carry out and support the purposes of the Foundation described in paragraph (3).

(I) **EVALUATIONS.**—The Foundation shall support the development of an evaluation

methodology, to be used as part of any program supported by the Foundation, that shall—

(i) consist of qualitative and quantitative metrics; and

(ii) include periodic third-party evaluation of those programs and other activities of the Foundation.

(J) COMMUNICATIONS.—The Foundation shall develop an expertise in communications to promote the work of grant and fellowship recipients under subparagraph (B), the commercialization successes of the Foundation, opportunities for partnership with the Foundation, and other activities.

(K) AUTHORITY OF FOUNDATION.—The Foundation shall be the sole entity responsible for carrying out the activities described in this paragraph.

(5) ADMINISTRATION.—

(A) EXECUTIVE DIRECTOR.—The Board shall hire an Executive Director of the Foundation, who shall serve at the pleasure of the Board. Subject to the compliance with the policies and bylaws established by the Board pursuant to paragraph (2)(G), the Executive Director shall be responsible for the daily operations of the Foundation in carrying out the activities of the Foundation described in paragraph (4).

(B) ADMINISTRATIVE CONTROL.—No member of the Board, officer or employee of the Foundation or of any program established by the Foundation, or participant in a program established by the Foundation, shall exercise administrative control over any Federal employee.

(C) STRATEGIC PLAN.—Not later than 1 year after the date of enactment of this Act, the Foundation shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a strategic plan that contains—

(i) a plan for the Foundation to become financially self-sustaining in fiscal year 2023 and thereafter (except for the amounts provided each fiscal year under paragraph (12)(A)(iii));

(ii) a forecast of major crosscutting energy challenge opportunities, including short- and long-term objectives, identified by the Board, with input from communities representing the entities and areas of subject matter expertise, as applicable, described in paragraph (2)(B)(iii)(II);

(iii) a description of the efforts that the Foundation will take to be transparent in the processes of the Foundation, including processes relating to—

(I) grant awards, including selection, review, and notification;

(II) communication of past, current, and future research priorities; and

(III) solicitation of and response to public input on the opportunities identified under clause (ii);

(iv) a description of the financial goals and benchmarks of the Foundation for the following 10 years;

(v) a description of the efforts undertaken by the Foundation to engage historically underrepresented groups or regions, including through collaborations with historically Black colleges and universities, Tribal Colleges and Universities, minority-serving institutions, and minority-owned and women-owned businesses; and

(vi) a description of the efforts undertaken by the Foundation to ensure maximum complementarity and minimum redundancy with investments made by the Department.

(D) ANNUAL REPORT.—Not later than 1 year after the date on which the Foundation is established, and every 2 years thereafter, the Foundation shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Science, Space, and

Technology of the House of Representatives, and the Secretary a report that, for the year covered by the report—

(i) describes the activities of the Foundation and the progress of the Foundation in furthering the purposes of the Foundation described in paragraph (3);

(ii) provides a specific accounting of the source and use of all funds made available to the Foundation to carry out those activities to ensure transparency in the alignment of Department missions and policies with national security;

(iii) describes how the results of the activities of the Foundation could be incorporated into the procurement processes of the General Services Administration; and

(iv) includes a summary of each evaluation conducted using the evaluation methodology described in paragraph (4)(I).

(E) EVALUATION BY COMPTROLLER GENERAL.—Not later than 5 years after the date on which the Foundation is established, the Comptroller General of the United States shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives—

(i) an evaluation of—

(I) the extent to which the Foundation is achieving the mission of the Foundation; and

(II) the operation of the Foundation; and

(ii) any recommendations on how the Foundation may be improved.

(F) AUDITS.—The Foundation shall—

(i) provide for annual audits of the financial condition of the Foundation; and

(ii) make the audits, and all other records, documents, and papers of the Foundation, available to the Secretary and the Comptroller General of the United States for examination or audit.

(G) SEPARATE FUND ACCOUNTS.—The Board shall ensure that any funds received under paragraph (12)(A) are held in a separate account from any other funds received by the Foundation.

(H) INTEGRITY.—

(i) IN GENERAL.—To ensure integrity in the operations of the Foundation, the Board shall develop and enforce procedures relating to standards of conduct, financial disclosure statements, conflicts of interest (including recusal and waiver rules), audits, and any other matters determined appropriate by the Board.

(ii) FINANCIAL CONFLICTS OF INTEREST.—To mitigate conflicts of interest and risks from malign foreign influence, any individual who is an officer, employee, or member of the Board is prohibited from any participation in deliberations by the Foundation of a matter that would directly or predictably affect any financial interest of—

(I) the individual;

(II) a relative (as defined in section 109 of the Ethics in Government Act of 1978 (5 U.S.C. App.)) of that individual; or

(III) a business organization or other entity in which the individual has an interest, including an organization or other entity with which the individual is negotiating employment.

(I) INTELLECTUAL PROPERTY.—The Board shall adopt written standards to govern the ownership and licensing of any intellectual property rights developed by the Foundation or derived from the collaborative efforts of the Foundation.

(J) LIABILITY.—

(i) IN GENERAL.—The United States shall not be liable for any debts, defaults, acts, or omissions of—

(I) the Foundation;

(II) a Federal entity with respect to an agreement of that Federal entity with the Foundation; or

(III) an Individual Laboratory-Associated Foundation with respect to an agreement of that Federal entity with the Foundation.

(ii) FULL FAITH AND CREDIT.—The full faith and credit of the United States shall not extend to any obligations of the Foundation.

(K) NONAPPLICABILITY OF FACA.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Foundation or an Individual Laboratory-Associated Foundation.

(6) DEPARTMENT COLLABORATION.—

(A) NATIONAL LABORATORIES.—The Secretary shall collaborate with the Foundation to develop a process to ensure collaboration and coordination between the Department, the Foundation, and National Laboratories—

(i) to streamline contracting processes between National Laboratories and the Foundation, including by—

(I) streamlining the ability of the Foundation to transfer equipment and funds to National Laboratories;

(II) standardizing contract mechanisms to be used by the Foundation in engaging with National Laboratories; and

(III) streamlining the ability of the Foundation to fund endowed positions at National Laboratories;

(ii) to allow a National Laboratory or site of a National Laboratory—

(I) to accept and perform work for the Foundation, consistent with provided resources, notwithstanding any other provision of law governing the administration, mission, use, or operations of the National Laboratory or site, as applicable; and

(II) to perform that work on a basis equal to other missions at the National Laboratory; and

(iii) to permit the director of any National Laboratory or site of a National Laboratory to enter into a cooperative research and development agreement or negotiate a licensing agreement with the Foundation pursuant to section 12 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3710a).

(B) DEPARTMENT LIAISONS.—The Secretary shall appoint liaisons from across the Department to collaborate and coordinate with the Foundation, including not less than 1 liaison from the Office of Technology Transitions, who shall ensure that the Foundation works in conjunction with and does not duplicate existing activities and programs carried out by the Department including the Technology Commercialization Fund.

(C) ADMINISTRATION.—The Secretary shall leverage appropriate arrangements, contracts, and directives to carry out the process developed under subparagraph (A).

(7) NATIONAL SECURITY.—Nothing in this subsection exempts the Foundation from any national security policy of the Department.

(8) SUPPORT SERVICES.—The Secretary may provide facilities, utilities, and support services to the Foundation if it is determined by the Secretary to be advantageous to the research programs of the Department.

(9) ANTI-DEFICIENCY ACT.—Subsection (a)(1) of section 1341 of title 31, United States Code (commonly referred to as the “Anti-Deficiency Act”), shall not apply to any Federal officer or employee carrying out any activity of the Foundation using funds of the Foundation.

(10) PREEMPTION OF AUTHORITY.—This subsection shall not preempt any authority or responsibility of the Secretary under any other provision of law.

(11) TRANSFER FUNDS.—The Foundation may transfer funds to the Department, which shall be subject to all applicable Federal limitations relating to federally funded research.

(12) AUTHORIZATION OF APPROPRIATIONS.—

(A) IN GENERAL.—There is authorized to be appropriated—

(i) not less than \$1,500,000 for the Secretary for fiscal year 2022 to establish the Foundation;

(ii) not less than \$30,000,000 for the Foundation for fiscal year 2023 to carry out the activities of the Foundation; and

(iii) not less than \$3,000,000 for the Foundation for each of the fiscal years 2024 through 2026, for administrative and operational costs.

(B) LIMITATION.—None of the funds authorized to be appropriated to the Secretary by subparagraph (A)(i) of this paragraph shall be used for construction.

(C) COST SHARE.—Funds made available under subparagraph (A)(ii) shall be required to be cost-shared by a partner of the Foundation other than the Department or a National Laboratory.

(c) NATIONAL ENERGY TECHNOLOGY LABORATORY-ASSOCIATED FOUNDATION.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—Notwithstanding any other provision of law, the National Energy Technology Laboratory may establish, or enter into an agreement with a nonprofit organization to establish, a Federal Laboratory-Associated Foundation (referred to in this subsection as a “Laboratory Foundation”) to support the mission of the National Energy Technology Laboratory.

(B) NOT AGENCY OR INSTRUMENTALITY.—A Laboratory Foundation shall not be an agency or instrumentality of the Federal Government.

(C) GOVERNANCE STRUCTURE.—A Laboratory Foundation established under subparagraph (A) shall have a separate governance structure from, and shall be managed independently of, the National Energy Technology Laboratory.

(2) ACTIVITIES.—Activities of a Laboratory Foundation may include—

(A) conducting support studies, competitions, projects, research, and other activities that further the purpose of the Laboratory Foundation;

(B) carrying out programs to foster collaboration and partnership among researchers from the Federal Government, State governments, institutions of higher education, federally funded research and development centers, and industry and nonprofit organizations relating to the research, development, and commercialization of federally supported technologies;

(C) carrying out programs to leverage technologies to support new product development that supports regional economic development;

(D) administering prize competitions—

(i) to accelerate private sector competition and investment; and

(ii) that complement the use of prize authority by the Department;

(E) providing fellowships and grants to research and development personnel at, or affiliated with, federally funded centers, in accordance with paragraph (3); and

(F) carrying out programs—

(i) that allow scientists from foreign countries to serve in research capacities in the United States or other countries in association with the National Energy Technology Laboratory;

(ii) that provide opportunities for employees of the National Energy Technology Laboratory to serve in research capacities in foreign countries;

(iii) to conduct studies, projects, or research in collaboration with national and international nonprofit and for-profit organizations, which may include the provision of stipends, travel, and other support for personnel;

(iv)(I) to hold forums, meetings, conferences, courses, and training workshops that may include undergraduate, graduate,

post-graduate, and post-doctoral accredited courses; and

(II) for the accreditation of those courses by the Laboratory Foundation at the State and national level for college degrees or continuing education credits;

(v) to support and encourage teachers and students of science at all levels of education;

(vi) to promote an understanding of science amongst the general public;

(vii) for writing, editing, printing, publishing, and vending of relevant books and other materials; and

(viii) for the conduct of other activities to carry out and support the purpose of the Laboratory Foundation.

(3) FELLOWSHIPS AND GRANTS.—

(A) SELECTION.—Recipients of fellowships and grants described in paragraph (2)(E) shall be selected—

(i) by a Laboratory Foundation and the donors to a Laboratory Foundation;

(ii) subject to the agreement of the head of the agency the mission of which is supported by a Laboratory Foundation; and

(iii) in the case of a fellowship, based on the recommendation of the employees of the National Energy Technology Laboratory at which the fellow would serve.

(B) EXPENSES.—Fellowships and grants described in paragraph (2)(E) may include stipends, travel, health insurance, benefits, and other appropriate expenses.

(4) LIABILITY.—The United States shall not be liable for any debts, defaults, acts, or omissions of a Laboratory Foundation.

(5) OTHER LAWS.—This subsection shall not alter or supersede any other provision of law governing the authority, scope, establishment, or use of nonprofit organizations by a Federal agency.

AMENDMENT NO. 237 OFFERED BY MR. STAUBER
OF MINNESOTA

Page 985, after line 10, insert the following:
(5) an assessment of the intersection between illicit fentanyl trafficking originating in China and the illicit fentanyl trafficked over the United States-Mexico border into the United States.

AMENDMENT NO. 238 OFFERED BY MRS. STEEL OF
CALIFORNIA

Page 1341, after line 19, add the following:

(10) the U.S. Special Presidential Envoy for Climate should seek to work with other countries to require China end its classification of “developing nation” within the Paris Agreement.

AMENDMENT NO. 249 OFFERED BY MRS. TORRES
OF CALIFORNIA

Page 256, line 20, after “Database”, insert “, subject to the availability of appropriations”.

Page 257, line 14, after “program”, insert “or its designee”.

Page 257, after line 24, insert the following:

(3) DATABASE CONTENT.—The Database may include the following:

(A) Basic company information.

(B) An overview of capabilities, accreditations, and products.

(C) Proprietary information.

(D) Such other items as the Director considers necessary.

(4) STANDARD CLASSIFICATION SYSTEM.—The Database may use the North American Industry Classification System (NAICS) Codes as follows:

(A) Sector 31-33—Manufacturing.

(B) Sector 54—Professional, Scientific, and Technical Services.

(C) Sector 48-49—Transportation and Warehousing.

(5) LEVELS.—The Database may be multi-leveled as agreed to under terms of mutual disclosure as follows:

(A) Level 1 may have basic company information and shall be available to the public.

(B) Level 2 may have a deeper, nonproprietary overview into capabilities, products, and accreditations and shall be available to all companies that contribute to the Database.

(C) Level 3 may hold proprietary information.

Page 258, line 1, strike “(3)” and insert “(7)”.

Page 258, line 21, insert at the end the following: “The Director may make aggregated, de-identified information available to contributing companies, Centers, or the public, as the Director considers appropriate, in support of the purposes of this section.”

Page 258, strike line 22 through page 259, line 2, and insert the following:

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

(1) \$31,000,000 for fiscal year 2022 to develop and launch the Database; and

(2) \$26,000,000 for each of fiscal years 2023 through 2026 to maintain, update, and support Federal coordination of the State supply chain databases maintained by the Centers.

AMENDMENT NO. 255 OFFERED BY MR. WENSTRUP
OF OHIO

At the appropriate place in division D, insert the following:

SEC. ____ . REPORT ON GLOBAL CCP INVESTMENT IN PORT INFRASTRUCTURE.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Director of National Intelligence, in consultation with the Secretary of State and the Secretary of Defense, shall submit to the appropriate congressional committees a report documenting all Chinese investment in port infrastructure globally, during the period beginning on January 1, 2012, and ending on the date of the submission of the report, and the commercial and economic implications of such investments. The report shall also include the following:

(1) A review of existing and potential or planned future Chinese investments, including investments by government entities, and state-owned enterprises, in port infrastructure at such ports.

(2) Any known Chinese interest in establishing a military presence at or near such ports.

(3) An assessment of China’s current and potential future ability to leverage commercial ports for military purposes and the implications of such ability for the national and economic security of the United States.

(b) FORM.—The report required by subsection (a) shall be submitted in unclassified form but may include a classified annex produced consistent with the protection of sources and methods.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this Act, the term “appropriate congressional committees” means—

(1) the Permanent Select Committee on Intelligence, the Committee on Armed Services, and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Select Committee on Intelligence of the Senate, the Committee on Armed Services, and the Committee on Foreign Relations of the Senate.

AMENDMENT NO. 256 OFFERED BY MS. WILD OF
PENNSYLVANIA

Page 1023, after line 3, add the following:

SEC. 30227. PRIORITIZATION AND PROTECTION OF INTERNATIONAL RESEARCH.

(a) LIST OF ALLIED COUNTRIES.—The Secretary of State, in consultation with the Director of the Office of Science and Technology Policy, the National Security Council, the Secretary of Energy, the Director of the National Science Foundation, and the heads of other relevant agencies, shall create

a list of allied countries with which joint international research and cooperation would advance United States national interests and advance scientific knowledge in key technology focus areas.

(b) **ESTABLISHMENT OF SECURITY PROCEDURES.**—The Secretary of State, in consultation with the individuals and entities listed in subsection (a), shall collaborate with similar entities in the countries appearing on the list created pursuant to subsection (a) to develop, coordinate, and agree to general security policies and procedures for governmental, academic, and private sector research, to prevent sensitive research from being disclosed to adversaries.

(c) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Secretary of State, in consultation with the individuals and entities listed in subsection (a), and allied countries appearing on the list created pursuant to subsection (a), shall submit a report to Congress that identifies the most promising international research ventures that leverage resources and advance research in key technology focus areas.

AMENDMENT NO. 258 OFFERED BY MS. WILLIAMS OF GEORGIA

Add at the end of the bill the following:

DIVISION M—COMMITTEE ON SMALL BUSINESS

SEC. 110001. CHILD CARE RESOURCE GUIDE.

The Small Business Act (15 U.S.C. 631 et seq.) is amended—

(1) by redesignating section 49 as section 50; and

(2) by inserting after section 48 the following new section:

“SEC. 49. CHILD CARE RESOURCE GUIDE.

“(a) **IN GENERAL.**—Not later than 2 years after the date of the enactment of this section and not less frequently than every 5 years thereafter, the Administrator shall publish or update a resource guide, applicable to various business models as determined by the Administrator, for small business concerns operating as child care providers.

“(b) **GUIDANCE ON SMALL BUSINESS CONCERN MATTERS.**—The resource guide required under subsection (a) shall include guidance for such small business concerns related to—

“(1) operations (including marketing and management planning);

“(2) finances (including financial planning, financing, payroll, and insurance);

“(3) compliance with relevant laws (including the Internal Revenue Code of 1986 and this Act);

“(4) training and safety (including equipment and materials);

“(5) quality (including eligibility for funding under the Child Care and Development Block Grant Act of 1990 as an eligible child care provider); and

“(6) any other matters the Administrator determines appropriate.

“(c) **CONSULTATION REQUIRED.**—Before publication or update of the resource guide required under subsection (a), the Administrator shall consult with the following:

“(1) The Secretary of Health and Human Services.

“(2) Representatives from lead agencies designated under section 658D of the Child Care and Development Block Grant Act of 1990.

“(3) Representatives from local or regional child care resource and referral organizations described in section 658E(c)(3)(B)(iii)(I) of the Child Care and Development Block Grant Act of 1990.

“(4) Any other relevant entities as determined by the Administrator.

“(d) **PUBLICATION AND DISSEMINATION REQUIRED.**—

“(1) **PUBLICATION.**—The Administrator shall publish the resource guide required

under subsection (a) on a publicly accessible website of the Administration.

“(2) **DISTRIBUTION.**—

“(A) **ADMINISTRATOR.**—The Administrator shall distribute the resource guide required under subsection (a) to offices within the Administration, including district offices, and to the persons consulted under subsection (c).

“(B) **OTHER ENTITIES.**—Women’s business centers (as described under section 29), small business development centers, chapters of the Service Corps of Retired Executives (established under section 8(b)(1)(B)), and Veteran Business Outreach Centers (as described under section 32) shall distribute to small business concerns operating as child care providers, sole proprietors operating as child care providers, and child care providers that have limited administrative capacity (as determined by the Administrator)—

“(i) the resource guide required under subsection (a); and

“(ii) other resources available that the Administrator determines to be relevant.”

The **SPEAKER pro tempore.** Pursuant to House Resolution 900, the gentlewoman from Oregon (Ms. BONAMICI) and the gentleman from Texas (Mr. BABIN) each will control 10 minutes.

The Chair recognizes the gentlewoman from Oregon.

Ms. BONAMICI. Madam Speaker, I yield myself 1 minute.

Madam Speaker, this is a package of en bloc amendments that are bipartisan. It includes the amendment that I offered with Representative GONZÁLEZ-COLÓN and Representative POSEY for the Federal Ocean Acidification Research and Monitoring Act, which is very important to address ocean acidification, and also the amendment I offered with Mr. POSEY to create an interagency working group on blue carbon led by NOAA to oversee the development of a national map of blue carbon ecosystems.

This package of amendments will improve the very important America COMPETES Act, and I urge its passage.

Madam Speaker, I reserve the balance of my time.

Mr. BABIN. Madam Speaker, I yield myself such time as I may consume.

This bloc of amendments we are now considering includes 51 bipartisan provisions that were handpicked by the Rules Committee and Democrat leadership out of more than 600 amendments that Members submitted for consideration.

I appreciate these Members taking a page out of the Science, Space, and Technology Committee’s playbook and working across the aisle to try to move these provisions forward.

□ 1730

If the entire bill had been done in this way, we would certainly have a more focused and effective legislation that could have garnered bipartisan support.

This block of amendments includes several provisions that have gone through the proper channels of being marked up and reported out of the committee.

Unfortunately, it also includes provisions that have not gone through reg-

ular order. Members weren’t given the opportunity to review, improve, and vote on these policies in committee. Having a Democrat and Republican cosponsor an amendment does not mean they are fully vetted or bipartisan either.

But by tossing together a massive partisan package, the Speaker has made it clear that she does not value regular order. And by ignoring regular order, she has limited Member input. So Members feel the need to take advantage of any opportunity to move their priorities, even if they have nothing to do with increasing our competitiveness with China.

Much like the expansive jurisdictional reach of this legislation, this block of amendments is simply a smorgasbord of policies, and they would best be considered individually rather than en bloc.

I will leave it to the amendment sponsors to explain why Members should support this en bloc.

Madam Speaker, I reserve the balance of my time.

Ms. BONAMICI. Madam Speaker, we have no further speakers, but I want to address the package of en bloc amendments.

Again, these amendments will improve the America COMPETES Act, which is so important for United States leadership and to incentivize and ramp up U.S. manufacturing. It is a very important bill, strengthened by this en bloc amendment, and I urge its passage.

Madam Speaker, I reserve the balance of my time.

Mr. BABIN. Madam Speaker, I yield back the balance of my time.

Ms. BONAMICI. Madam Speaker, I yield back the balance of my time.

The **SPEAKER pro tempore.** Pursuant to House Resolution 900, the previous question is ordered on the amendments en bloc offered by the gentlewoman from Oregon (Ms. BONAMICI).

The question is on the amendments en bloc.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. CLYDE. Madam Speaker, on that I demand the yeas and nays.

The **SPEAKER pro tempore.** Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENTS EN BLOC NO. 3 OFFERED BY MS. LOFGREN OF CALIFORNIA

Ms. LOFGREN. Madam Speaker, as the designee of Chairwoman JOHNSON, pursuant to House Resolution 900, I offer amendments en bloc.

The **SPEAKER pro tempore.** The Clerk will designate the amendments en bloc.

Amendments en bloc No. 3 consisting of amendment Nos. 6, 7, 13, 26, 27, 28, 29, 30, 37, 45, 79, 80, 92, 94, 96, 106, 110, 116, 121, 155, 164, 165, 180, 181, 182, 183, 185,

186, 188, 198, 199, 217, 240, 244 and 261, printed in part D of House Report 117-241, offered by Ms. LOFGREN of California:

AMENDMENT NO. 6 OFFERED BY MR. BALDERSON
OF OHIO

Strike section 30606.
Strike section 30609.

AMENDMENT NO. 7 OFFERED BY MR. BALDERSON
OF OHIO

Add at the end the following:

DIVISION M—COMPRESSED GAS CYLINDER SAFETY AND OVERSIGHT IMPROVEMENTS

SEC. 120001. DEFINITIONS.

In this division, the following definitions apply:

(1) **FOREIGN MANUFACTURER OF CYLINDERS; FMOC.**—The terms “foreign manufacturer of cylinders” and “FMOC” mean an entity that manufactures cylinders outside of the United States intended to be represented, marked, certified, or sold as qualified for use in transporting hazardous material in commerce in the United States.

(2) **IN GOOD STANDING.**—The term “in good standing” means an FMOC that—

(A) is has been authorized by the Secretary pursuant to section 107.807 of title 49, Code of Federal Regulations; and

(B) has demonstrated 3 years of compliance with section 107 of title 49, United States Code, and chapter 51 of title 49, United States Code.

(3) **CYLINDER.**—The term “cylinder” means any cylinder specified under sections 178.36 through 178.68 of title 49, Code of Federal Regulations.

(4) **SECRETARY.**—The term “Secretary” means the Secretary of Transportation.

SEC. 120002. AUTHORIZATION OF FOREIGN MANUFACTURER OF CYLINDERS.

(a) **IN GENERAL.**—The Secretary shall issue regulations to provide that an authorization provided to an FMOC pursuant to section 107.807 of title 49, Code of Federal Regulations, or any similar successor regulation, shall be for a period of not longer than 1 year, except as provided for in subsection (b).

(b) **5-YEAR AUTHORIZATION.**—The Secretary may approve a 5-year authorization of an FMOC pursuant to such section if the following requirements are met:

(1) The FMOC attests that none of the cylinders made by such manufacturer are prohibited from entry to the United States under section 307 of the Tariff Act of 1930 (19 U.S.C. 1307).

(2) The FMOC certifies that—

(A) the information provided pursuant to section 120006 is accurate; and

(B) the FMOC has a proactive responsibility to inform the Secretary if any such information materially changes.

(3) The FMOC provides proof of the minimum financial responsibility required under section 120003.

(4) The Secretary determines the FMOC is in good standing.

(c) **FACILITY INSPECTIONS.**—

(1) **PENALTIES.**—The Secretary may suspend or terminate an authorization of an FMOC described in this division if such FMOC obstructs or prevents the Secretary from carrying out an inspection under section 107.807(c) of title 49, Code of Federal Regulations.

(2) **DEFINITION OF OBSTRUCTS.**—For the purposes of this subsection, the term “obstructs” means taking actions that are known, or reasonably should be known, to prevent, hinder, or impede an inspection.

(d) **INTERACTION WITH OTHER STATUTES, AGREEMENTS, REGULATIONS.**—Nothing in this section may be construed to prevent the har-

monization of cylinder standards otherwise authorized by law or regulation.

(e) **OTHER CAUSE FOR SUSPENSION OR TERMINATION.**—The Secretary may suspend or terminate an authorization of an FMOC described in this division upon determination that the FMOC knowingly or intentionally misrepresented responses to the Secretary required by law or regulation or the requirements of sections 120003 and 120006.

SEC. 120003. PROOF OF MINIMUM FINANCIAL RESPONSIBILITY REQUIRED AT TIME OF APPLICATION.

Not later than 180 days after the date of enactment of this Act, the Secretary shall issue such regulations as are necessary to establish minimum levels of financial responsibility required for entities to receive approval pursuant to section 107.807 of title 49, Code of Federal Regulations.

SEC. 120004. REEVALUATION BY REQUEST FOR RELATED VIOLATIONS.

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall issue such regulations as necessary to establish a process for any interested party to request a reevaluation of the authorization of FMOC cylinders under section 107.807 of title 49, Code of Federal Regulations, to review the accuracy and safety of the actions of such manufacturer.

(b) **PETITION FOR REEVALUATION.**—Such regulations shall allow an interested party to file a petition if such party has evidence of inaccurate, changed, or fraudulent attestations or responses made by an FMOC to the Secretary under section 120002 or 120006.

SEC. 120005. NOTICE AND COMMENT FOR APPLICATIONS BY FOREIGN MANUFACTURERS OF CYLINDERS.

Upon receipt of an application for approval under section 107.807 of title 49, Code of Federal Regulations, or any similar successor regulation, the Secretary shall timely publish notification of such application in the Federal Register and provide 30 days for public comment on such application prior to approval.

SEC. 120006. ADDITIONAL QUESTIONS TO ENSURE SAFETY AND COMPLIANCE WITH DOT PROCESS.

(a) **ADDITIONAL QUESTIONS.**—The Secretary shall require as part of an application for approval pursuant to section 107.807 of title 49, Code of Federal Regulations, or any similar successor regulation, that the applicant answer the following questions:

(1) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, has ever been subject to a civil monetary penalty under title 49, United States Code, relating to any actions carried out as an authorized FMOC or during the application for authorization under such section.

(2) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, has been delinquent in the payment of any civil monetary penalties or other fines or fees under title 49, United States Code.

(3) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, is subject to the Do Not Pay Initiative established under section 3354 of title 31, United States Code, as of the date of application.

(4) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, is listed in the Military End User List of the Department of Commerce as of the date of application.

(5) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, is identified by the Department of Defense as an entity listed under section 1237 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (50 U.S.C. 1701 note) as of the date of application.

(6) Does the FMOC applying certify that the FMOC has the requisite minimum financial responsibility as required in section 120004, and that such financial responsibility will continue throughout entirety of the requested authorization period.

(7) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, has been found guilty of a criminal penalty or assessed a civil penalty under section 1760 John S. McCain National Defense Authorization Act for Fiscal Year 2019 section (50 U.S.C. 4819).

(8) Whether the FMOC applying, or any entity controlling more than 10 percent of such FMOC, is currently subject to a final anti-dumping or countervailing duty order from the Department of Commerce as of the date of application.

(b) **DENIAL OF APPLICATION.**—The Secretary may deny an application for approval under section 107.807 of title 49, Code of Federal Regulations, based on the responses to the questions required under subsection (a).

SEC. 120007. FOREIGN MANUFACTURERS LISTING APPROVALS.

Not less than 1 year after the date of enactment of this Act, and annually thereafter, the Secretary shall publish and maintain on the website of the Department of Transportation, a list of authorized FMOCs and the duration of such authorization.

SEC. 120008. AUTHORIZING FOREIGN INSPECTIONS.

Not less than 180 days after the date of enactment of this Act, the Secretary shall update section 107.807(d) of title 49, Code of Federal Regulations, to—

(1) require that in any case in which the Associate Administrator determines there is good cause, an inspection under such section shall be carried out annually for such duration as the Associated Administrator determines appropriate;

(2) specify that a refusal of inspection under such section shall result in a loss of a status of in good standing;

(3) allow the Associate Administrator to request at the discretion of the Administrator, production of test and production records and random sample testing; and

(4) allow for the recovery of all associated costs of foreign inspections to include travel, time, and other costs, as determined by the Secretary.

AMENDMENT NO. 13 OFFERED BY MRS. BICE OF OKLAHOMA

Page 1393, after line 3, insert the following:
(d) **LIMITATION.**—None of the funds authorized in subsection (b) shall be appropriated until the President submits to Congress a report detailing the processes and analyses used in, and participants to the process of, setting the United States' emissions reduction target as part of the Nationally Determined Contribution to the United Nations Framework Convention on Climate Change.

AMENDMENT NO. 26 OFFERED BY MR. BURGESS OF TEXAS

Page 1689, strike line 7 and all that follows through line 24 on page 1707.

AMENDMENT NO. 27 OFFERED BY MR. BURGESS OF TEXAS

Page 795, line 9, strike “600,000,000” and insert “300,000,000”.

AMENDMENT NO. 28 OFFERED BY MR. BURGESS OF TEXAS

At the end of division C, insert the following new title:

TITLE V—ENVIRONMENTAL PROTECTION AGENCY

SEC. 20501. PUBLIC HEALTH SERVICE ACT HIRING AUTHORITY RESTRICTED.

The Administrator of the Environmental Protection Agency may not hire or pay the

salary or expense of any officer or employee of the Environmental Protection Agency under subsection (f) or (g) of section 207 of the Public Health Service Act (42 U.S.C. 209) who is not already receiving pay under either such subsection on the date of the enactment of this Act.

AMENDMENT NO. 29 OFFERED BY MR. BURGESS
OF TEXAS

Strike section 30609 (relating to building United States economic growth and technological innovation through the Green Climate Fund).

AMENDMENT NO. 30 OFFERED BY MR. BURGESS
OF TEXAS

At the appropriate place in subtitle A of title II of division C, insert the following:

SEC. 20. RESTRICTIONS ON CERTAIN FEDERAL DEPARTMENT OR AGENCY RESPIRATOR MASK ACQUISITIONS.

Notwithstanding any other provision of law, no Federal funds may be used by any Federal department or agency to acquire KN-95 respirator masks produced or manufactured in the People's Republic of China if N-95 respirator masks produced or manufactured in the United States of satisfactory quality with respect to safety standards are available in sufficient and reasonably available commercial quantities.

AMENDMENT NO. 37 OFFERED BY MRS. CAMMACK
OF FLORIDA

Strike section 30609.

AMENDMENT NO. 45 OFFERED BY MS. CHENEY OF
WYOMING

Page 743, insert after line 16 the following (and redesignate the subsequent provisions accordingly):

SEC. 20208. ENSURING CONSIDERATION OF THE NATIONAL SECURITY IMPACTS OF URANIUM AS A CRITICAL MINERAL.

(a) IN GENERAL.—The Secretary of Defense, in coordination with the Secretary of Energy and the Secretary of Commerce, shall conduct an assessment of the effect on national security that would result from uranium ceasing to be designated as a critical mineral by the Secretary of the Interior under section 7002(c) of the Energy Act of 2020 (30 U.S.C. 1606(c)).

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees (as defined in section 101(a) of title 10, United States Code) a report on the findings of the assessment conducted under subsection (a), including—

(1) the effects of the loss of domestic uranium production, conversion, fabrication, and enrichment on—

(A) Federal national security programs, including any existing and potential future uses of unobligated uranium originating from domestic sources; and

(B) the energy security of the United States;

(2) a description of the extent of the reliance of the United States on imports of uranium from foreign sources, including from state-owned entities, to supply fuel for commercial reactors; and

(3) the effects of such reliance and other factors on the domestic production, conversion, fabrication, and enrichment of uranium.

(c) URANIUM CRITICAL MINERAL DESIGNATION CHANGE RESTRICTED.—Notwithstanding section 7002(c) of the Energy Act of 2020 (30 U.S.C. 1606(c)), until the submission of the report required under subsection (b), the designation of uranium as a critical mineral pursuant to such section may not be altered or eliminated.

AMENDMENT NO. 79 OFFERED BY MR. FEENSTRA
OF IOWA

At the end of title III of division C, add the following:

SEC. 20303. SUSTAINABLE AVIATION FUEL WORKING GROUP.

(a) ESTABLISHMENT.—The Secretary of Energy shall establish a Sustainable Aviation Fuel Working Group, in this section referred to as the “Working Group”.

(b) MEMBERSHIP.—In establishing the Working Group, the Secretary shall appoint members representing the following:

(1) The Bioenergy Technologies Office of the Department of Energy.

(2) The Department of Agriculture.

(3) The commercial aviation alternative fuels initiative.

(4) The Federal Aviation Administration.

(5) The national labs.

(6) At least 4 current or future sustainable aviation fuel producers representing 4 of the currently approved ASTM D7566 sustainable aviation fuel production pathways.

(7) A biorefinery.

(8) An engine original equipment manufacturer.

(9) Agriculture research universities.

(10) Canada.

(11) Mexico.

(c) REPORT.—Not later than 1 year after the date of enactment of this section, the Working Group shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that identifies the research and development needs for each partner and cross-fertilization program across Federal agencies necessary for cost-competitive and equivalent safety compared to petroleum-based jet fuel, while offering improved sustainability and energy supply security for aviation.

AMENDMENT NO. 80 OFFERED BY MR.
FITZGERALD OF WISCONSIN

Page 866, line 10, strike “and”.

Page 866, line 18, strike the period and insert “; and”.

Page 866, beginning line 19, insert the following:

(H) include a description of clearly defined program metrics, goals, targets, and planned outcomes for such strategy, a plan to monitor and evaluate such strategy, and progress made toward achieving such goals, targets, and planned outcomes; and

(I) include a description that elaborates how the United States Government will align strategic planning and coordination with key allies and partners to effectively respond to the PRC's Belt and Road Initiative, particularly in the Indo-Pacific.

AMENDMENT NO. 92 OFFERED BY MR. GARCIA OF
CALIFORNIA

Page 2912, after line 4, insert the following:

DIVISION M—PROTECTING U.S. ENERGY SECURITY

SEC. 120001. PROHIBITION ON REDUCING ENERGY INDEPENDENCE.

This Act, and the amendments made by this Act, shall not take effect until the date on which the Secretary of Energy, in consultation with other Federal agencies as appropriate, submits to Congress a certification that implementation of this Act, and the amendments made by this Act, will not reduce the energy security or energy independence of the United States.

AMENDMENT NO. 94 OFFERED BY MR. GIMINEZ OF
FLORIDA

Page 2912, after line 4, insert the following:

DIVISION M—PROTECTING AMERICAN CONSUMERS

SEC. 120001. PROHIBITION ON RAISING ENERGY PRICES.

This Act, and the amendments made by this Act, shall not take effect until the date on which the Secretary of Energy, in con-

sultation with other Federal agencies as appropriate, submits to Congress a certification that implementation of this Act, and the amendments made by this Act, will not increase the average price of energy for American consumers outside of normal market factors.

AMENDMENT NO. 96 OFFERED BY MR. GOODEN OF
TEXAS

Page 1302, line 25, insert “data servicing operations owned by Chinese entities or” before “targeted digital surveillance”.

Page 1304, after line 8, insert the following:

() Whether any Chinese entity that provides cloud computing products or services is engaged in a joint venture or servicing arrangement with a United States entity, and the nature of such operations.

() Whether United States entities can operate freely in the People's Republic of China and what, if any, restrictions apply to the services and operations of such entities.

() Any support the Government of the People's Republic of China provides to cloud computing entities in terms of equipment and services that may act as a subsidy for such operations.

Page 1307, after line 12, add the following:

() CHINESE ENTITY.—The term “Chinese entity” means an entity organized under the laws of China or any jurisdiction within China, including a foreign branch of such entity.

OF WISCONSIN

Page 1384, beginning line 15, strike section 30609.

AMENDMENT NO. 110 OFFERED BY MR. HILL OF
ARKANSAS

Page 1853, line 2, strike “and” and insert “or”.

AMENDMENT NO. 116 OFFERED BY MR. ISSA OF
CALIFORNIA

Strike title I of division J and insert the following:

TITLE I—INDUSTRY-RECOGNIZED APPRENTICESHIP PROGRAMS

SEC. 90101. INDUSTRY-RECOGNIZED APPRENTICESHIP PROGRAMS.

The final rule on “Apprenticeship Programs, Labor Standards for Registration, Amendment of Regulations” (relating to industry-recognized apprenticeship programs) published in the Federal Register by the Department of Labor on March 11, 2020 (85 Fed. Reg. 14294 et seq.) shall have the force and effect of law.

AMENDMENT NO. 121 OFFERED BY MR. JACKSON
OF TEXAS

Strike section 30609.

AMENDMENT NO. 155 OFFERED BY MR.
LUETKEMEYER OF MISSOURI

At the end of division G insert the following:

TITLE XI—STUDY ON LISTED COMPANIES IN UNITED STATES FINANCIAL PRODUCTS

SEC. 61101. IN GENERAL.

(a) STUDY.—Not later than 180 days after the date of the enactment of this Act and annually for the 3 years thereafter, the Securities and Exchange Commission, in consultation with the Secretary of State and the Secretary of the Treasury, shall conduct a study on the presence of listed companies in the United States financial products.

(b) REPORT.—Not later than 30 days after the completion of a study required under subsection (a), the Securities and Exchange Commission shall submit a report to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives that includes—

(1) the name and provider of each exchange-traded fund and index fund that includes a listed company;

(2) the total number of exchange-traded funds and index funds described in paragraph (1);

(3) the total value of all investments in listed companies;

(4) the total number of investors investing in listed companies; and

(5) the number of exchange-traded fund and index fund providers that notified investors that a financial product of the provider included a listed company.

(c) CONGRESSIONAL BRIEFING.—The Chairman of the Commission (or a designee) shall brief the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives with respect to each report submitted under subsection (b).

(d) LISTED COMPANY DEFINED.—In this section, the term “listed company” means a company—

(1) included on—

(A) the Military Encl-User list or the Entity List of the Bureau of Industry and Security of the Department of Commerce;

(B) the Non-SDN Chinese Military-Industrial Complex Companies List of the Office of Foreign Assets Control; or

(C) the Chinese Military Companies list in accordance with section 1260H of the National Defense Authorization Act for Fiscal Year 2021; or

(2) for which sanctions are imposed pursuant to the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656 note).

AMENDMENT NO. 164 OFFERED BY MR. MEUSER OF PENNSYLVANIA

Strike section 50103.

AMENDMENT NO. 165 OFFERED BY MRS. MILLER OF ILLINOIS

Pages 300 through 301, lines 25 through 4, strike “by—” and all that follows through “load;” and insert “by student debt load;”.

AMENDMENT NO. 180 OFFERED BY MR. PERRY OF PENNSYLVANIA

Strike subsection (b) of section 50101.

AMENDMENT NO. 181 OFFERED BY MR. PERRY OF PENNSYLVANIA

Strike division L of the bill.

AMENDMENT NO. 182 OFFERED BY MR. PERRY OF PENNSYLVANIA

Strike section 110001 and insert the following:

SEC. 110001. ECONOMIC DEVELOPMENT ADMINISTRATION SUNSET.

On the date that is 1 year after the date of enactment of this Act, the Economic Development Administration is hereby abolished and any authority provided to such Administration in law shall cease. The Director of the Office of Management and Budget shall take such actions as are necessary to carry out this section.

AMENDMENT NO. 183 OFFERED BY MR. PERRY OF PENNSYLVANIA

Page 1471, line 16, insert “and” after the semicolon.

AMENDMENT NO. 188 OFFERED BY MR. PFLUGER OF TEXAS

In section 30609, strike subsection (c).

AMENDMENT NO. 198 OFFERED BY MR. POSEY OF FLORIDA

At the end of subtitle A of title IV of division C, add the following new section:

SEC. 20405. DEPARTMENT OF DEFENSE PRIORITY FOR DOMESTICALLY SOURCED BOVINE HEPARIN.

In selecting heparin for acquisition by the Department of Defense (regardless of whether the end use of such acquisition involves military or civilian application), the Secretary of Defense shall provide priority for domestically sourced, fully traceable, bovine heparin approved by the Food and Drug Administration when available.

AMENDMENT NO. 199 OFFERED BY MR. POSEY OF FLORIDA

Page 187, line 15, strike “title or the amendments made by this title, the Secretary” and insert “Act or the amendments made by this Act, the relevant agency head”.

Page 188, line 16, strike “Secretary” and insert “relevant agency head”.

AMENDMENT NO. 217 OFFERED BY MR. SCHWEIKERT OF ARIZONA

Strike title X of division G.

AMENDMENT NO. 240 OFFERED BY MRS. STEEL OF CALIFORNIA

At the end of division L, add the following:
SEC. 110002. PROHIBITION ON CERTAIN CONTRACTS FOR PORT OPERATION AND MANAGEMENT.

An owner or operator of a port in the United States may not enter into a contract for the operation or management of such port with an entity that is—

(1) a Chinese, Russian, North Korean, or Iranian state-owned enterprise; or

(2) any foreign entity for which any percentage is owned by a country listed in paragraph (1).

AMENDMENT NO. 244 OFFERED BY MS. TENNEY OF NEW YORK

Page 1149, strike section 30299C.

AMENDMENT NO. 261 OFFERED BY MR. OWENS OF UTAH

Insert after section 30325 the following:

SEC. 30326. DETERMINATION OF SANCTIONS ON UNITED FRONT RELIGIOUS WORK BUREAU.

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate congressional committees a determination, including a detailed justification, on whether the United Front’s Religious Work Bureau of the Chinese Communist Party, or any component or official thereof, meets the criteria for the application of sanctions pursuant to—

(1) section 1263 of the Global Magnitsky Human Rights Accountability Act (subtitle F of title XII of Public Law 114–328; 22 U.S.C. 2656 note); or

(2) section 6 of the Uyghur Human Rights Policy Act of 2020 (Public Law 116–145; 22 U.S.C. 6901 note).

(b) EXCEPTION RELATING TO IMPORTATION OF GOODS.—

(1) IN GENERAL.—Notwithstanding any other provision of this section, the authority or a requirement to impose sanctions under this section shall not include the authority or a requirement to impose sanctions on the importation of goods.

(2) GOOD DEFINED.—In this section, the term “good” means any article, natural or manmade substance, material, supply, or manufactured product, including inspection and test equipment, and excluding technical data.

(c) FORM.—The determination required by subsection (a) shall be submitted in unclassified form but may contain a classified annex.

(d) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Armed Services, the Committee on Foreign Affairs, the Perma-

nent Select Committee on Intelligence, the Committee on Financial Services, and the Committee on the Judiciary of the House of Representatives; and

(2) the Committee on Armed Services, the Committee on Foreign Relations, the Select Committee on Intelligence, the Committee on Banking, Housing, and Urban Affairs, and the Committee on the Judiciary of the Senate.

The SPEAKER pro tempore. Pursuant to House Resolution 900, the gentlewoman from California (Ms. LOFGREN) and the gentleman from Texas (Mr. BABIN) each will control 10 minutes.

The Chair recognizes the gentlewoman from California.

Ms. LOFGREN. Madam Speaker, I yield myself 1 minute.

Madam Speaker, these amendments, although I am sure offered in good faith, diminish the value in the underlying bill. Not only the underlying bill, but the bipartisan amendments just adopted or that we will adopt tomorrow or Friday.

Madam Speaker, I urge my colleagues to oppose these amendments, and I reserve the balance of my time.

Mr. BABIN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, this block of amendments includes nearly every single Republican amendment that was made in order by the Committee on Rules.

Out of more than 600 amendments submitted to the Committee on Rules, only 37 Republican amendments were made in order. There is no rhyme or reason to which amendments were accepted and which were rejected. I want to be very, very clear, that I do not support the underlying legislation here. But that said, the amendments being considered in this block were the only chance that most Republican Members have had to have any impact at all on this massive, nearly 3,000-page bill.

Because so few committees held markup or bipartisan discussions in their provisions in this bill, there have been very few opportunities to review or revise this legislation. Among this block of amendments were safeguards, improvements, and cost-saving measures.

My colleagues, Representatives Garcia and Burgess, offered an amendment that would prohibit the massive climate change provisions in this bill from taking effect until the Secretary of Energy can certify that they will not reduce our energy independence.

Representative GROTHMAN’s amendment that would strike the \$8 billion in taxpayer funds from being given to a U.N. climate fund—a slush fund, if you will—the same fund that has given the Chinese Communist Party already \$100 million. And Representative BICE’s amendment would demand accountability from the administration before allocating any funding to this fund.

Representatives Gimenez and Burgess would require the Secretary of Energy to ensure that no provisions in

this bill will raise energy costs for Americans.

Madam Speaker, unfortunately, these amendments improve on the underlying legislation but cannot ultimately fix this legislation. So while I urge my colleagues to vote for these amendments, I remain opposed to this sprawling partisan bill.

Madam Speaker, I reserve the balance of my time.

Ms. LOFGREN. Madam Speaker, I reserve the balance of my time.

Mr. BABIN. Madam Speaker, we have no further speakers, and I yield back the balance of my time.

Ms. LOFGREN. Madam Speaker, once again, I urge opposition to this en bloc amendment, and I yield back the balance of my time.

Ms. CHENEY. Madam Speaker, I rise in support of my Amendment No. 45 that would prohibit the Secretary of the Interior from altering the designation of uranium as a critical mineral until completing a report assessing the effects of a loss of domestic uranium production. The Secretary of Defense, in coordination with the Secretaries of Energy and Commerce, is to conduct the assessment of the national security impact of removing uranium from the list and submit a follow-up report. The U.S. Geological Survey, which updates the critical minerals list every three years, published its revised methodology in May noting that "Fuel minerals, including uranium, were explicitly excluded from consideration in this analysis." Removing uranium from this list, as the Biden Administration is proposing, is another effort to cave to the whims of environmental groups. The impact of this is not exclusive to national security. Domestic uranium production has almost completely idled and foreign state-owned entities have increasingly become the source of uranium for our reactors. Keeping it as a resource on the list will go a long way to restoring and securing American uranium production.

As we produce less energy at home, our national security enterprise is forced into further reliance on our adversaries for critical resources, emboldening them and weakening our global standing as they attempt to undermine our interests. The United States requires U.S.-origin uranium and nuclear technologies for use in the production of uranium-based products for U.S. defense systems, critical to national defense for the purpose of nuclear weapons and the naval fleet, providing propulsion for 11 aircraft carriers and 70 submarines. The Chinese are buying up mining operations across the globe. Removing uranium from the critical minerals list would be a dangerous and misguided decision as it is a vital component to both our national security and energy security. As China and Russia utilize their state-owned enterprises for energy dominance, we must endeavor to leverage our own resources for geopolitical security. This bill is fundamentally flawed and will not be more competitive or secure. However, the inclusion of this amendment would mark a sincere step in addressing diverse challenges to our national security. I urge adoption of my amendment and the Republican amendments en bloc.

The SPEAKER pro tempore. Pursuant to House Resolution 900, the previous question is ordered on the

amendments en bloc offered by the gentleman from California (Ms. LOFGREN).

The question is on the amendments en bloc.

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Mr. CLYDE. Madam Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

Pursuant to clause 1(c) of rule XIX further consideration of H.R. 4521 is postponed.

THE BIDEN CRISES

The SPEAKER pro tempore (Ms. LEGER FERNANDEZ). Under the Speaker's announced policy of January 4, 2021, the gentleman from Louisiana (Mr. JOHNSON) is recognized for 60 minutes as the designee of the minority leader.

GENERAL LEAVE

Mr. JOHNSON of Louisiana. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. JOHNSON of Louisiana. Madam Speaker, once again, an opportunity for bipartisan work on behalf of the American people has been blocked by the House Democrat leadership.

Madam Speaker, you might have seen last year, the Senate passed a bipartisan bill to help counter the rise of China, and we all recognize that this is the existential threat of our generation. The rise of China is something that should keep all of us up at night and we ought to be acting upon it.

And you might have also seen this year that the House was negotiating in good faith a companion bill to that Senate bill that passed in bipartisan fashion last year. But that was all before the rug was pulled out from underneath all of us by the House Democrat leadership just a few days ago. And it is as if the Democrat leadership here has forgotten how a bill becomes a law.

Now, look, these are the facts. There is not a mandate for radical legislation here. In the election cycle of 2020, what we got was a divided House. We got a divided Senate. The Senate is 50/50.

The Democrat majority in the House has the slimmest margin since World War II, but they seem to have forgotten that. So they are trying to act unilaterally. They are trying to bypass regular procedure. They are trying to skip over the regular committee process to have amendment and debate to legislation. And they are defying the opportunity for Republicans to work

with our colleagues to address these great crises.

Madam Speaker, so we are here to remind the American people tonight—my colleagues will be speaking over this hour—that there is a failure going on here and there are huge consequences to that for the American people. And of course, the failures are not limited to what is happening in this Chamber. It is the Biden administration itself. So we will be talking about these crises tonight.

My colleagues will come up one by one representing people from all across the country to talk about these great dilemmas that we are facing, unprecedented crises because of the policy choices and the actions of the White House and the Democrat leadership in Congress.

□ 1745

One of those that we will be talking about tonight is the passivity that we have seen in addressing the border crisis.

Madam Speaker, I was in my office for the last couple of hours, I got multiple calls from constituents back home who are deeply concerned about what they are watching play out on the television in the news every night. They are seeing the border completely overrun. They are seeing the number of illegal crossings at the border, which has risen, at a faster rate under President Biden than at any time in recent history. The result is truly catastrophic for the country.

We have an historic amount of illegal drugs coming across the border. That is just one aspect of this crisis that affects every American. Today, fentanyl overdoses—listen—fentanyl overdoses are now the leading cause of death for Americans age 18 to 45—the leading cause of death.

What are the Democrats doing to address this? Nothing. They are not allowing us to do anything about it because we can't move our legislation. So we are here to talk about this issue and to raise the alarm, to let the American people know what it is we are facing.

The Biden administration is asleep at the wheel when it comes to their number one job. The first job is to keep this country safe, to secure our borders, to maintain our sovereignty, to protect the American people. If you are an independent voter, it is becoming very clear that these Democrats cannot be trusted to fulfill even the most basic functions of government at any level.

Many public schools remain closed or they are operating part-time. Defunding and demonizing police is leading to crime in our streets, and many Americans can't even get their own tax returns or Social Security checks or veterans benefits because of the Biden administration's Federal Government staffing policies.

Democrats like to call themselves the party of competent government, but it is obviously clear to everyone who is paying attention that the last 12

months have shown us that unified Democrat control is just incompetent. If you put this simply, the Democrats have failed to do their job. I believe, we believe, we are certain, that there is going to be a reckoning for this in the election cycle before us.

Madam Speaker, I thank all my colleagues for being here tonight to discuss this disastrous House Democrat agenda and the Biden administration's shameful management of our government.

Madam Speaker, for the next hour you will hear about a number of crises.

Madam Speaker, I yield to the gentleman from Georgia (Mr. CLYDE).

Mr. CLYDE. Mr. Speaker, since President Biden stepped foot in the White House, over 2 million illegal migrants have invaded our southern border, making the last 12 months an all-time record high. Even DHS Secretary Mayorkas recently admitted that the border is "worse now than it, frankly, has been in at least 20 years, if not ever." Well, that "if not ever" part is certainly the truth. I couldn't agree with him more.

The difference is that my Republican colleagues and I actually want to bring an end to this nonsense, not gaslight the U.S. Customs and Border Protection agents who are tirelessly working around the clock to keep Americans safe.

Unfortunately, the reach of Biden's self-inflicted border crisis extends far beyond our southern border. Illegal migrants, including those with criminal records, are being transported all across the country. I am sure you have seen the videos from this past week of illegals being released with GPS ankle bracelets. You don't put a GPS ankle bracelet on anyone but a criminal.

In fact, TSA is allowing illegal migrants to use arrest warrants as an alternative form of ID to board airplanes. This negligent policy defies logic by allowing criminals to fly across the country at a time when illegal migration is out of control and crime is surging throughout most major cities. We must stop this insanity.

Shame on the Biden administration for putting illegal migrants, human traffickers, drug smugglers, dangerous criminals, and terrorists above the American people. It is long past time that we put an end to this chaos and lawlessness.

Mr. President, what will it take to shut down the illegal border crossings? America is waiting for your answer, sir.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my good friend from Georgia. You are right, the American people are still waiting, and it appears that they will have to wait much longer if we are relying upon this White House.

Madam Speaker, I yield to the gentleman from Texas (Mr. BABIN).

Mr. BABIN. Madam Speaker, my Democrat colleagues have made it absolutely crystal clear that they have

no intention of holding Communist China accountable, for anything. Whether it is stealing our intellectual property, flooding our colleges with Communist propaganda, committing academic espionage, or unleashing COVID-19 onto the world, this malicious regime does whatever it wants to and with zero consequences.

Most shocking of all, is that much of their treacherous behavior is being covered up by the Democrat Party, who are more interested in Beijing's success than our very own American success. Let's be clear, the American COMPETES Act is not about contending with China; it is about surrendering to the Chinese Communist Party.

While our country deteriorates from skyrocketing inflation, raging crime, open borders, crumbling supply chains, over 100,000 American deaths from overdoses on Chinese fentanyl, the Democrats spend their time empowering our adversaries with bad policies and American tax dollars.

Democrats claim to care about human rights, but they will not make the Chinese Communist Party answer for its atrocities against the Uyghurs. Democrats prioritize climate change above everything else, but make no effort to call out China, the world's biggest polluter. Democrats fight to keep COVID-19 in the spotlight, but refuse to hold a single hearing about the virus' origins. Shameful. The list goes on and on.

Americans can see this is hypocrisy, and as my friend from Louisiana said, there will be a reckoning this coming November. The American people deserve better from those that they elect to keep them safe.

Mr. JOHNSON of Louisiana. Madam Speaker, I am grateful for his recognition. The madness of this bill—it is a climate change bill that is masquerading as a China bill. It mentions coral reefs more times in the bill than the word China. Doesn't that say enough? I thank my friend for his comments.

Madam Speaker, I yield to the gentleman from Tennessee (Mrs. HARSHBARGER).

Mrs. HARSHBARGER. Madam Speaker, America's drug epidemic hit a mild sobering milestone recently when last year over 100,000 people died of drug overdoses. There are 275 Americans dying every day. That is the highest level ever.

My home State of Tennessee experienced some 3,400 fatal drug overdoses, which is a 49 percent rise from the previous year.

Having served as a community pharmacist for over 30 years in East Tennessee, this is personal for me. Every one of those people are someone's parents or someone's children. The main driver of this increasing death toll is illegal synthetic fentanyl, which is inexpensive to manufacturer, can be 50 times stronger than heroin, and people can die from doses equal to only a few grains of sand.

Most illegal, counterfeit fentanyl is developed in China and trafficked into the U.S. across the border with Mexico by drug cartels and other criminals. As a Member of the Homeland Security Committee, I have been to the border to see things firsthand.

Customs and Border Protection officials outrightly admit that increasing amounts of illicit fentanyl being smuggled, infecting our communities, and fueling overdoses is largely due to the Biden administration's chaotic open border policies. When you have the drug totals up higher than what the cost is—you can get a dose for \$20 on the street, which is unbelievable right now.

These open border policies are effectively a green light to Mexican drug cartels—looking to exploit an increasingly overloaded immigration system—to trafficking alarming amounts of counterfeit fentanyl across the border.

President Biden must take immediate action to reverse the border crisis his policies created, secure our southern border, and stop the influx of fentanyl pouring into our country and wreaking havoc on our communities.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank the gentlewoman so much for her expertise, especially in pharmacology. This is something that everyone needs to recognize. This fentanyl problem is a problem that is avoidable.

I said in the opening that it is a leading cause of death for Americans aged 18 to 45. We could stop this. This is a policy choice that is perpetuating this crisis, and it is absolutely outrageous that the White House and the Democrat leadership in this House will not address this issue.

Madam Speaker, I yield to the gentleman from Ohio (Mr. LATTI).

Mr. LATTI. Madam Speaker, I thank the gentleman for yielding and hosting this Special Order, it is so important.

Madam Speaker, I rise to bring needed attention to the ongoing overdose crisis in our country that is ruthlessly taking lives. I can't speak on this without focusing on a major culprit: fentanyl. The CDC recently announced 101,263—again, 101,263—Americans died of drug overdoses during a 12-month period ending June 2021. The number of deaths is going up, not down.

The vast majority of these preventable deaths were caused by fentanyl and illicit fentanyl analogs, which are 50 times stronger than heroin and 100 times stronger than morphine. From October 2020 to September 2021, Customs and Border Patrol seized 11,201 pounds of fentanyl, which is enough to kill 2.5 million, or the entire United States population seven times over. This is what they were able to interdict. We don't know how much more got into the country.

Fentanyl is temporarily scheduled as a Schedule I drug, but that is set to expire in just a few weeks on February 18. Congress must act to provide a permanent solution.

That is why I am co-leading legislation with my friend, the gentleman from the Ninth District of Virginia. Our bill, the HALT Fentanyl Act, would permanently schedule fentanyl-related substances as a Schedule I and cut red tape enabling researchers to continue to study Schedule I substances for the purposes of identifying any possible medical benefits.

Let's put politics aside and do what is right. I encourage all of my colleagues to cosponsor this legislation and help us provide immediate assistance to those in need. Madam Speaker, I thank the gentleman for hosting tonight.

Mr. JOHNSON of Louisiana. Madam Speaker, those statistics are shocking indeed, and the fact that we had over 101,000 overdoses in a 12-month period and we hear nothing from the White House about this is just unforgivable.

Madam Speaker, I yield to the gentleman from Tennessee (Mr. BURCHETT).

Mr. BURCHETT. Madam Speaker, when we come to the floor to talk about the border crisis, it is a lot like the film *Groundhog Day*. If you listen closely, I think you can hear "I Got You Babe" by Sonny and Cher, and it is probably echoing through this Chamber as we speak. We expect President Biden to do something about this disaster, Madam Speaker, but just like in the movie, he does the same thing every dadgum day—absolutely nothing.

Two million, thirty-five thousand, ten, that is how many migrants our border agents apprehended at that southern border since President Biden took office last January—over 2 million people. Hiding among the massive crowds of people are smugglers working for drug cartels. They are smuggling in children for all kinds of deviant things. In 2021, over 860,000 pounds of drugs were confiscated from smugglers. More concerning are the smugglers who are not caught.

Fentanyl is among the drugs flooding through the gaps in our southern border. Just a tiny amount of this drug—as small as a pinhead—is enough to kill everyone in this Chamber right now. Opioid-related deaths in the United States topped over 100,000 for the first time last year. 100,000 souls lost. Experts believe fentanyl is responsible for this tragic milestone.

□ 1800

There should be severe punishments for fentanyl trafficking and smuggling this stuff across our borders.

The Fentanyl Trafficker Elimination Act, legislation I recently introduced, oddly enough, sends a clear message to these cartel thugs about their fate if they are caught. Under my bill, convicted smugglers would be locked up in an American prison for the rest of their lives.

More Americans will overdose on fentanyl and die if nothing is done to deter drug smuggling activity or secure our southern border, Madam Speaker,

and our Vice President, the so-called border czar, is, frankly, a joke.

Time is not on our side. President Biden cannot waste another day ignoring the border crisis.

Madam Speaker, I thank the gentleman for his, as always, more than a lackluster attempt at governing.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my friend for keeping me humble.

Madam Speaker, I yield to the distinguished gentleman from Pennsylvania (Mr. THOMPSON), who is the Republican leader on the House Agriculture Committee.

Mr. THOMPSON of Pennsylvania. Madam Speaker, I thank the gentleman for leading the Special Order.

Madam Speaker, President Biden is devastating Pennsylvania families. One year into Joe Biden's Presidency, Pennsylvania voters are concerned about the highest inflation in over 39 years, decreasing real wages, and a supply chain in crisis.

Rising prices are causing families in Pennsylvania to shell out an average of \$3,500 extra a year just to maintain their same standard of living. It is an inflation tax that disproportionately hurts lower income households.

The supply chain issue fueled by Joe Biden's inaction is affecting Pennsylvanians in every corner of the State. Even Vice President KAMALA HARRIS admitted that these crises are "a big issue for western Pennsylvania, throughout the Nation, and actually a global issue."

Madam Speaker, Joe Biden and Pennsylvania Governor Tom Wolf's policies are wreaking havoc on Pennsylvania families and on families across America. Their authoritarian mandates have created a labor shortage that is wreaking havoc on Pennsylvania's economy.

Pennsylvania is in the bottom half of States for the percentage of lost jobs recovered from the coronavirus pandemic. As of the latest Pennsylvania State unemployment report released by the Bureau of Labor Statistics, Pennsylvania's unemployment rate was 5.4 percent. Forty States have an unemployment rate equal to or lower than Pennsylvania.

December's Consumer Price Index rose by 7 percent compared to last year. This is the largest annual increase in over 39 years. In the mid-Atlantic region, prices rose by 5.8 percent, and Pennsylvania families and workers are feeling the squeeze of inflation.

Madam Speaker, Pennsylvania families and families in this great Nation deserve better, and it is not like better is out of reach. What I just shared with you are the statistics provided by the government's own government agencies. It is just an honest evaluation of the failed policy of the Democrat Members of this Congress and of President Joe Biden.

Once again, American families and Pennsylvania families deserve better.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank the gentleman for

that insight. He has been in Congress a while, and he has seen a lot of leadership come and go. But I will tell you, Madam Speaker, what we are having right now is causing these crises. Once again, these crises are created and perpetuated by bad policy choices, and it is hurting the American people.

Madam Speaker, I yield to the gentleman from West Virginia (Mr. MCKINLEY), who is a gentleman with a lot of seniority in Congress.

Mr. MCKINLEY. Madam Speaker, my question is: Why hasn't Speaker PELOSI called for a vote on the HALT Fentanyl Act, which would make the dangerous fentanyl derivatives illegal permanently?

Drug overdoses from fentanyl and derivatives have skyrocketed, hitting a tragically high level. Madam Speaker, 100,000 people died in America last year.

Law enforcement officials in West Virginia are frustrated. From Clarksburg, Parkersburg, and Martinsburg, they are all saying the same thing, Madam Speaker: Enough is enough.

A slap on the wrist, and these fentanyl dealers are back on the street, pushing their deadly poison into the hands of our children.

What is Speaker PELOSI waiting for? Close the border. Put traffickers in jail. Increase sentences for dealers. Keep them out of our neighborhoods.

Madam Speaker, enough is enough. Children are losing their mothers; wives are losing their husbands; and parents are losing their children.

How many more people will lose their lives from fentanyl derivatives before Congress—the Democrats—take action on this legislation?

I will say it one last time: Enough is enough.

Mr. JOHNSON of Louisiana. Madam Speaker, West Virginia is a long way from the southern border, but these drugs make it all the way across the country, and it affects everyone in one way or another. We all know people who have lost their lives because of overdose. I thank the gentleman for his insight.

Madam Speaker, I will go from West Virginia to the other side of the country.

Madam Speaker, I yield to the distinguished gentleman from California (Mr. GARCIA), who served this country so valiantly.

Mr. GARCIA of California. Madam Speaker, the Chinese Communist regime under Chairman Xi is certainly our greatest opponent. His vision and mission is to eliminate the United States by 2050, and his investments are aimed toward this end.

The CCP is not on our team, and we should not encourage competition from China, as the White House has stated. In many domains, they are outpacing us.

In lower altitude hypersonic weapons development; in the advancement and proliferation of high-altitude nuclear ICBMs, such as the DF-41; in the space

domain; in the cyber domain; in ship-building—they are currently building two ships per month; in the construction and networking of UAVs, or unmanned aerial vehicles; and in the advancement of low observable fighter jets both in terms of capacity as well as quantity, China certainly is our greatest threat.

They are not on our team, and their progress and their advantages are designed to be used against us in a coordinated fashion in all of those domains. But the single biggest threat to our Nation is not China alone. It is our own weaknesses within—weaknesses from people who are supposed to be on our team and weaknesses from those who seek to cooperate and profit from the CCP's behavior that ultimately enables the CCP in their atrocities.

Those who may chastise the CCP with Twitter posts in the same day enable them with joint ventures, small words compared to large supporting investments or bills such as the ones brought to the floor this week. This is exactly what Chairman Xi wants: big carrots and small sticks.

We must disentangle all of our interests from China. But above all things, we must disentangle our corporate interests from China as soon as possible.

Disentanglement takes courage, which is often not present in most boardrooms and certainly not present in our own Treasury Department. American corporations and our own Treasury are exchanging their own long-term security and our collective security for the short-term high of profits and business in a market they have been seeking for a long time.

These corporate leaders think they are fishing in knee-high water in a trout farm. But in reality, the water, that market space, is filled with piranhas, leaches, and sharks. The bare and bloodied ankles of our economy and our intellectual property and technology are now fully exposed to these very intelligent predators.

The Chinese Communist Party is not on our side, and our own greed and a willingness to compromise the integrity of our business ethics system in order to profit from endeavors with China are our greatest weaknesses and, I would say, our greatest threat.

We cannot afford to profit from selling the rope to China that will ultimately be used to hang us by 2050.

Mr. JOHNSON of Louisiana. Madam Speaker, these are harsh words about China. The gentleman is correct. It is the number one threat.

This bill that they are proposing and advancing right now—we call it the America concedes act—mentions climate change more than twice as often as the phrase “national security” in the bill. I think that says a lot.

Madam Speaker, I yield to the gentlewoman from Washington (Mrs. RODGERS), who is our Republican lead on the Energy and Commerce Committee.

Mrs. RODGERS of Washington. Madam Speaker, I thank the gen-

tleman for bringing us together to highlight such an important issue, the issue of fentanyl and fentanyl substances that are surging on our southern border. We must take action.

We have legislation, the STOP Fentanyl Act. Why it is not moving forward is the question before us tonight. There have been over 1 million years of life lost because of teenagers and young adults who have died due to overdoses—1 million years.

I think about a 23-year-old young man from Spokane, Washington, Carson, who lost his life. He had his entire life ahead of him. His mom, Molly, told me that all he wanted to do was to make this a better place. When his dad passed away, it was Carson who helped maintain their home. He lent a hand to those in need and did not expect anything in return.

The day after Thanksgiving, he took one pill from a drug dealer on Snapchat who told him it was Xanax. It was laced with illicit fentanyl, and it killed him instantly.

His mom, Molly, is pleading with us to stop fentanyl and stop these weapons-grade poisons so that other parents, other people, and other family members all across this country do not have to feel her grief and pain. She deserves justice.

Let's help end this crisis, save lives, and pass the HALT Fentanyl Act.

Mr. JOHNSON of Louisiana. Madam Speaker, that is so well-said and such a tragic story. Our prayers go out to that family. What a loss, and losses like that are all over the country. Fentanyl is weapons-grade, as Mrs. MCMORRIS RODGERS said. It is a weapon of mass destruction.

Madam Speaker, I yield to the gentleman from Georgia (Mr. CARTER), who has a deep background in pharmacology.

Mr. CARTER of Georgia. Madam Speaker, I thank the gentleman for yielding and hosting tonight. This is extremely important, as we all know.

Madam Speaker, I rise today to hold this administration accountable, to hold them accountable for fueling a public health crisis, and it is not COVID-19.

It is no secret that we are dealing with a serious problem at our border. As apprehensions spike, so is the availability of fentanyl, which is largely coming from South and Central America.

Fentanyl is an extremely potent and deadly chemical that is used to cheaply enhance the highs of other drugs.

Early reports indicate that 2021 was the deadliest year on record for overdoses in my home State of Georgia. As of April 2021, we experienced a 110 percent increase in opioid-related deaths, and that number is expected to climb in 2022.

The neglect at our border has only enabled drug traffickers who wish to do our people harm and make every State a border State. The Biden administration's refusal to act on this crisis has

resulted in thousands of lives lost, including children. As a matter of fact, one of the only things to get cheaper during Joe Biden's term as President is fentanyl.

I am a proud supporter of the HALT Fentanyl Act, which will permanently schedule fentanyl and prevent future mothers, fathers, daughters, and sons from murder at the hands of this lethal drug. The longer we wait, the more people will die from this poison. The time to act is now.

We must commit to those Americans whose families have been forever altered by this administration's unwillingness to even acknowledge the crisis at our border that is quickly becoming a public health crisis.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my friend for his insight.

We were told, and we heard this morning in a briefing, that there are more than 140 derivative drugs that this poisonous fentanyl is being used with, and it is such a crisis.

Madam Speaker, I yield to the gentleman from Tennessee (Mr. ROSE).

Mr. ROSE. Madam Speaker, I thank the gentleman from Louisiana for yielding.

Madam Speaker, Democrats marketed the America COMPETES Act as a bill that would decrease our economic reliance on China and ramp up our domestic production. However, as we have already heard, a more appropriate title for this bill is the America concedes act.

Unfortunately, the Democrats employed the same strategy with this bill as they did with the Build Back Better Act. They used the legislation as a vehicle to ram all their far-left social policies through Congress without any Republican input.

Democrats claim this bill would crack down on the Chinese Communist Party, but it does nothing to prevent them from growing their influence here in the United States and around the world, nor does it hold China accountable for their role in the COVID-19 pandemic.

The America concedes act does more to answer the Democrats' radical social agenda and further their massively expensive climate change schemes than it does to improve domestic production.

Why does this bill, which authorizes or appropriates hundreds of billions of dollars, include \$2 billion in foreign aid to combat climate change or \$8 billion for the United Nations Green Climate Fund?

These provisions, along with many others, have nothing to do with our economy but everything to do with Democrats' obsession with furthering their leftwing agenda. This bill is just another attempt to move toward changing our great Nation into a mythical socialist utopia.

Madam Speaker, I urge my colleagues on the other side of the aisle to stop thinking about their woke political agendas and start focusing on getting our economy back on track.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my friend so much for highlighting that. As Mr. ROSE said, there is \$10.3 billion in this bill for climate funding over the next 2 fiscal years. But there is also \$2 billion in there for a climate program, and it is authorized every fiscal year with no sunsets—no sunsets.

I know that upsets my good friend, Mr. GROTHMAN.

Madam Speaker, I yield to the gentleman from Wisconsin (Mr. GROTHMAN).

□ 1815

Mr. GROTHMAN. Okay. I don't know why the public tolerates President Biden's energy policy. Okay. I think the policy is predicated on the idea that we have some new or booming pollution problem in this country, and that is just not true.

I particularly ask young people to pull up pictures of Pittsburgh, Pennsylvania, or Los Angeles, California, 50 years ago, and you will see how much better things are than they were a relatively short period of time ago. The overall air pollution in this country in the last 40 years has fallen 73 percent.

Meanwhile, in the last 10 years, carbon dioxide, which everybody likes to talk about, has fallen 7 percent. At the same time, CO₂ emissions in China went up 38 percent and, in India, they went up 56 percent.

Right now, what is going on is our European allies make it that much more expensive to produce any energy. Steel plants are flooding to India and China, and China isn't backing off. They are making 43 new coal-fired power plants, as we speak.

So what is the net result of chasing energy-related jobs out of this country and out of western Europe? It means the metal-producing foundries are headed to other countries with their jobs. And as the U.S. and Europe becomes economically weaker, those jobs go to higher polluting countries like India and China. And the clean countries with the clean air and clean water, like the United States, get penalized.

So it is time to treat U.S. as number one again; for President Biden to change his energy policies; and get some more of that good air pollution-free or almost free plants in the United States, and not have the manufacturing done in the polluting countries of India and China.

Mr. JOHNSON of Louisiana. Madam Speaker, what great points. I thank my friend for highlighting the problem. These energy policies from this White House are not only making fuel more expensive, more expensive for every American to put gasoline in their vehicle; it is also harming the environment, harming American interests, and benefitting China and India. What an incredible thing.

Madam Speaker, I am delighted to yield to the gentleman from Utah (Mr. OWENS).

Mr. OWENS. Madam Speaker, the so-called America COMPETES Act is not a genuine attempt to hold Communist China accountable for its aggressions toward American security and prosperity.

If you ask the Democrats, they will say this bill takes strong action to combat the Chinese Government. But in reality, this bill includes zero measures to hold Communist China accountable for the cover-up of COVID-19, human trafficking, torture, forced sterilization, or slave labor. Yes, slavery is alive and well today in Communist China.

This bill provides no resources to enforce our sanction laws or increase our military strength. It omits provisions on export controls, security assistance, to our allies, and it fails to curtail Communist China's military modernization and weapons development.

If there was ever a bipartisan issue, this should be it. This \$325 billion, 3,000-page do-nothing bill developed behind closed doors fails in multiple ways to protect America's interests.

I call upon my colleagues to support meaningful legislation that will achieve enforceable laws and show real results.

This should be called the America Concedes Act; no question; another spend and waste of taxpayer money.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my friend for those comments. He is exactly right. If the Democrats are serious about countering China, they would have worked across the aisle. They would have worked in a bipartisan fashion. They would have sent some of our bipartisan legislation to a committee to work out real solutions.

But instead, they are trying to jam together this massive package full of partisan wish list items that they know the American people don't want, and we don't need, and we are not going to have any part of it.

Madam Speaker, I am happy to yield next to the gentleman from Pennsylvania (Mr. MEUSER).

Mr. MEUSER. Madam Speaker, I thank my very good friend from Louisiana for his leadership.

Madam Speaker, the Biden administration has created a crisis at our southern border. And instead of addressing the problem, they are empowering it.

The administration has been flying illegal immigrants into my home State of Pennsylvania and across the United States on "midnight express flights" in the middle of the night. HHS has conducted these flights with zero forewarning in order to facilitate the Biden administration's open border policies.

After meeting with the Biden administration, Madam Speaker, regarding these flights, I was told—this is incredulous, but I was told it is simply a coincidence that each one of these flights came in in the dark of night.

Madam Speaker, I was born at night, but it wasn't last night. I questioned

that answer. And when questioned regarding these specifics, the administration refused to answer.

This is not right, and the American people deserve better. To address this, I will be introducing the Immigration Transparency and Transit Notification Act, which will bring light to this process, ensuring that the States have a say.

This bill will:

Number 1, require DHS and HHS to notify the appropriate Federal, State, and local officials of the placement and transportation of illegals in their State before the process begins.

Number 2, grant Governors an opportunity to question the placement of illegals in their States.

Number 3, ensure the safety of unaccompanied minors from human trafficking by requiring agencies to provide information about the sponsors of where these young people are being placed to the Governor and other relevant officials.

Madam Speaker, it is time for Congress, all of Congress, Republicans and Democrats, to act. We must control the southern border and take control of the crisis that is truly deteriorating our country.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank the gentleman for highlighting that critical issue. That is a big part of the border crisis that all these illegals are being brought to cities near you.

My hometown of Shreveport, Louisiana, has had dozens of busloads of people dropped off over the last year. They send me a notice from ICE because I demanded it. But this legislation is so important because everyone needs to know what is happening right under our noses.

Madam Speaker, I am delighted to yield to the gentleman from Kentucky (Mr. GUTHRIE).

Mr. GUTHRIE. Madam Speaker, I thank my friend from Louisiana for yielding.

Madam Speaker, I rise today to address the rising number of drug overdoses. It is one of our greatest public health threats, and illicit fentanyl is the main driver.

The class-wide ban of fentanyl analogs expires February 18, and if Congress does not act to extend the ban on fentanyl analogs, many of these illicit drugs would essentially become street legal.

For context, fentanyl analogs have been found to be four to five times more potent than fentanyl, and fentanyl is 50 times stronger than heroin.

In Kentucky, fentanyl was responsible for over 70 percent of all drug overdoses in 2020, and even tragically, took the life of a 2-year-old who ingested opioids laced with fentanyl that he found in his mom's purse.

More recently, a 13-year-old overdosed from fentanyl in Connecticut, and authorities recovered around 1,000 bags of fentanyl in his bedroom.

The purpose of permanently scheduling in a class-wide ban is to save lives by reducing a criminal's incentive to develop new variations of fentanyl analogs to try to evade law enforcement. And we have seen fewer new fentanyl analog encounters during this ban.

I am working to permanently schedule fentanyl analogs by passing the HALT Fentanyl Act. And I am disappointed that today the Democrats blocked consideration of the HALT Fentanyl Act.

Now is not the time to scale back our fight against these deadly drugs. We need to permanently schedule fentanyl analogs and secure our southern border to stop these poisons from reaching our communities, or else thousands more American lives will be at stake.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank my friend for highlighting this terrible tragedy. It is just unimaginable the scope and the scale of this, and it goes on every day.

Madam Speaker, I am happy to yield to the gentleman from Iowa (Mrs. MILLER-MEEKS).

Mrs. MILLER-MEEKS. Madam Speaker, I thank my colleague, the fine gentleman from Louisiana, for organizing this Special Order on such an important topic.

It is no secret that our country has been ravaged by the opioid epidemic for years. Families and communities across the country have been destroyed by opioid abuse and addiction and, unfortunately, Iowans are no exception.

I, and other healthcare providers, correctly predicted in the spring of 2020 that our actions by locking down, social isolation, and shuttering jobs, would lead to increased drug use, drug addiction, and drug overdoses.

The Iowa Department of Public Health recently estimated that fentanyl deaths rose from 31 percent of all overdoses in 2016 to 87 percent in 2021. The CDC reported that from April 2020 to April 2021, more than 100,000 Americans died of drug overdoses, and that nearly 64,000 were related to fentanyl. This is up from 2,000 overdose deaths in 2011.

These numbers are shocking and saddening, and truly underscore the impact the opioid epidemic has had on this country. U.S. Customs and Border Protection seized over twice as much fentanyl in fiscal year 2021 than in fiscal year 2020, and nearly four times as much fentanyl, compared to 2019.

Madam Speaker, 11,201 pounds of fentanyl were seized in fiscal year 2021 alone, enough to kill 2.5 billion people, or the entire U.S. population over seven times.

While it is great we are apprehending so many drugs before they reach our communities, and Border Patrol is doing amazing work, we know so much more is coming across our borders undetected and impacting our communities.

I have visited the border twice and have spoken to law enforcement about

what we can do to help them. The administration needs to address the border crisis as it is and take it seriously.

I have been proud to see this Congress work in a bipartisan manner to pass commonsense and simple bills, like my DUMP Opioids Act, to help curb this epidemic. But we can all agree that there is more work to be done.

I look forward to working with all of my colleagues to help make this country safer for the American people.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank the gentleman so much for highlighting that critically important issue.

Madam Speaker, I yield to the gentleman from Pennsylvania (Mr. KELLER).

Mr. KELLER. Madam Speaker, since his first day in office, President Biden's decisions to halt construction of the border wall and reverse effective Trump border policies have had disastrous consequences. Every day, we see new videos and reports of humanitarian and national security crises at our southern border.

On top of the massive influx of illegal aliens, President Biden's open border policies have also created an equally concerning crisis, the overflow of fentanyl into America. Tragically, every community in our Nation has been impacted.

President Biden's failed policies have turned every State into a border State. This is not a rural or urban issue, it is an American issue, and one that requires the full force of the Federal Government to address.

Fentanyl seizures increased 134 percent in fiscal year 2021. That is enough fentanyl to kill every American, not once, not twice, but seven times.

President Trump's policies were effective. During his administration, Washington Democrats tried to politicize border security. Now that President Biden's policies have created a crisis, they are trying to ignore the issue.

These crises will continue to worsen until the Biden administration is forced to re-implement the Trump policies that worked. We will continue pressuring this administration to do exactly that.

Mr. JOHNSON of Louisiana. Madam Speaker, Pennsylvania has so much wisdom. We are going to bring you a one-two punch.

Madam Speaker, I am delighted next to yield to another gentleman from Pennsylvania (Mr. JOYCE).

Mr. JOYCE of Pennsylvania. Madam Speaker, I thank the gentleman from Louisiana for his leadership on this important issue.

Right now, the clock is ticking. Do you hear it?

Our communities are being destroyed by the illegal fentanyl that continues to pour across our southern border and, tragically, it pours into the hands of many unknowing Americans.

In just 2 weeks from now, the emergency class-wide order that makes it il-

legal to possess this deadly drug will expire, and many forms of fentanyl will become legal on American streets. If this happens, police officers will be powerless to stop this drug from wreaking havoc on our communities.

We know the consequences of leaving this drug. Sadly, fentanyl overdoses are the leading cause of death among 18- to 45-year-olds, the leading cause of death.

Just a half a mile from where we stand here in the Capitol, the fentanyl crisis claimed three more lives last week.

In my district alone in Pennsylvania, over 400 men, women, and children lost their lives to opioid overdoses.

Being a part of a community means taking responsibility for one another. By not bringing this vote to the floor, liberals in this body are failing their responsibility to the American people. Our communities cannot wait any longer.

Madam Speaker, now is the time to permanently ban this deadly drug. Now is the time to give law enforcement the tools that they need to keep our neighbors, our families, and our communities safer. Americans are counting on us.

Can you hear the clock ticking?

Now is the time to act. I thank the gentleman for leading this Special Order Hour this evening.

□ 1830

Mr. JOHNSON of Louisiana. Madam Speaker, I thank Mr. JOYCE for his comments. His insight and expertise are so valued and appreciated here.

This is a crisis just of unspeakable proportions. I mean, over 100,000 people lost their lives to overdoses just in a 12-month period. The White House is doing nothing about it. They seemingly are unconcerned about this, so we have to draw attention to it.

Madam Speaker, I yield to the gentleman from North Carolina (Mr. CAWTHORN), the youngest Member of Congress maybe ever.

Mr. CAWTHORN. Madam Speaker, I thank Mr. JOHNSON, the great conservative champion we have here.

Madam Speaker, the sons and daughters of America are not foot soldiers for your party's inept, geriatric despot. They are not expendable pawns to be dispatched at the whims of an idiot, tossed carelessly around the world to godforsaken caves and bloody sandboxes. They are Americans, worthy of honor and dignity. The only salute from them Joe Biden deserves involves one finger.

American blood is not the currency of the world. It cannot be borrowed, exchanged, or lent to any man or any nation. Its worth is immeasurable. American patriots in uniform all signed a blank check to their Nation, and already under this administration in Afghanistan, Joe Biden cashed it for 13 patriots through his reckless incompetence.

The path to American national security does not lie in American international interventionism. It lies in securing our southern border, not the Russia-Ukraine border.

Our greatness is forged in our resistance to interference. The war lobby has no ally in the America First Republicans. We will preserve our strength through nationalism. We will champion America First today and America First forever.

Madam Speaker, we earned our greatness. Let others earn theirs. If Joe Biden hasn't prostituted our preeminence to the military-industrial complex by the time Donald Trump returns, we will preserve this great city on a hill for the descendants of our grandchildren.

Mr. JOHNSON of Louisiana. Madam Speaker, I thank Mr. CAWTHORN and appreciate his insights.

Madam Speaker, what we have heard here tonight are Members from across the country, across the Republican Conference, who represent Americans all across this great land. They have expressed the people's deep concerns about the multiple crises that we face.

We have pointed out here and made the case and presented the evidence that these crises are the direct result of policy choices by the White House and the Democrat leaders in Congress. It is unconscionable. From the fentanyl crisis to the border crisis to the energy crisis to this mockery of a bill that they are trying to jam through Congress this week, the American people recognize this for what it is.

Madam Speaker, as I conclude, I would just make a couple of reminders about what we call the America concedes to China act.

This is a 2,900-page bill patched together in a back room somewhere with no regular order, no debate, no amendment process, no committee hearings, no input from the other side of the aisle at all. The Democrats went to the back room, put together a 2,900-page bill.

It has a price tag of \$325 billion. It is filled with unvetted policies, partisan poison pills, and provisions totally unrelated to China. It doesn't do anything to address the threat from the Chinese Communist Party as advertised, and it does more harm than good.

Madam Speaker, we could be here all night. We could be here for multiple hours, highlighting all the crises. We don't have to because the American people can see this for themselves. They see China as the greatest threat to our national security and sovereignty and everything else of our lifetime. They see the border. They see the energy. They see the COVID crisis. Everything this White House touches has been a disaster.

Madam Speaker, it is time for a change. I think the American people will let their voices be heard in the next election cycle this fall. I am de-

lighted that will happen. I would say, as I conclude here, it cannot happen soon enough.

Madam Speaker, I yield back.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

SUPPORTING CHIPS FOR AMERICA FUND

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the gentleman from Florida (Mr. SOTO) is recognized for 60 minutes as the designee of the majority leader.

Mr. SOTO. Madam Speaker, you are in luck. I heard a lot of complaints but no solutions. That is why my colleagues across the aisle lost the 2020 election miserably.

We know what they are against. President Biden said it best. What are the Republicans for? What are they for?

Some of them joined us in some of the bills I am about to outline. The rest of them, it has been nothing.

Meanwhile, Democrats delivered the American Rescue Plan, shots in arms, and money in pockets, and we stopped another Great Recession. Can you imagine how we would be able to respond to delta or omicron without passing future relief?

Now, unemployment is below 4 percent. We created nearly 7 million jobs last year. In my district, we were devastated by the Great Recession. Foreclosures devastated central Florida. In 2021, this time around, foreclosures are down from 2020.

Americans in central Florida lost their homes last time around. This time around, we put a stop to it.

House Republicans voted no, yet Republican Governors took the American Rescue Plan money and responded to our Nation's crisis. That is what we should all be doing.

Next, we go to the bipartisan infrastructure framework. There is huge support among all Americans to upgrade America, our roads and bridges, our ports and airports, our clean water, clean and resilient energy, rural broadband. I have urban, suburban, and rural areas in the district. Everyone in my district, regardless of their party background, is excited about this infrastructure. We have had meetings with local officials across the area, and they are looking to work with us to upgrade America.

According to Republican Senator ROB PORTMAN, it helps fix supply chains and is counterinflationary. That is why 22 Senators from the Republican side voted yes and why 10 Republicans colleagues here in the House voted yes.

We applaud these 32 Republicans for joining all Democrats in voting for the infrastructure bill. What did the radical House Republicans do? They attacked their own over infrastructure. What a sad, sad legacy that is.

It didn't stop a few of them from trying to take credit, though, trying to take credit for projects, despite voting no. If you vote no and you try to take credit now, the message is clear. America will shame you every day, every time.

Now, we turn to the America COMPETES Act. Madam Speaker, 32 Republicans joined with Democrats to vote for the Senate's version of this, boosting domestic microchip manufacturing, which we do in our district, and I am going to go into that a little more in a moment; improving supply chains for medical supplies like PPE, like vaccines, telecom, solar, all these critical issues; and, yes, enabling us to compete against economic rivals like China, like Russia, and others who don't share our values.

In the Senate, the vast majority of them are able to come together. In the House, I hope we are. I hope we have a few of our colleagues.

Then, there is going to be a conference. We are going to conference this, make some deals between the House and the Senate, and we are going to get something together. That bill is going to come back.

That is going to be the last shot, the last shot for both Democrats and Republicans to come together to ensure we produce millions of new jobs in domestic manufacturing.

Madam Speaker, I want to commend the America COMPETES Act for including \$52 billion to incentivize private-sector investments and continued American leadership in semiconductor manufacturing and microchip manufacturing to help address supply chain disruptions and to ensure more microchips are produced here at home.

I have heard from my local auto dealers. I have heard from local manufacturers. We need to make these microchips at home, and this bill helps us do that.

Within our district in central Florida, we have the NeoCity technological campus, which is recognized as an emerging microchips, microelectronics, and advanced manufacturing hub. We have ready-made synergies with institutions of higher education across Florida and key partnerships with the U.S. Department of Defense and the U.S. Department of Commerce under both the Trump administration and now under the Biden administration.

NeoCity is home to BRIDG, a nonprofit public-private partnership specializing in domestic semiconductor research, development, and manufacturing.

Imec, a world-renowned international research and development organization active in the semiconductor design and architecture space, also has a presence there.

SUSS MicroTec, a leading supplier of equipment and process solutions for the semiconductor industry, is working at NeoCity.

Then there is SkyWater Technology, the only domestically owned and operated pure play trusted foundry that

works on leading-edge advanced packaging technology for microchips and microelectronics. They are all working in collaboration at the Center for Neovation at NeoCity, one of the most state-of-the-art, advanced manufacturing facilities in the Western Hemisphere.

As envisioned by this important legislation, the facility and experts at BRIDG, imec, SUSS MicroTec, and SkyWater Technology offer immediate capability to accelerate U.S. production of critical semiconductor chips, strengthen the domestic supply chain so chips are made right here in America, and turbocharge our research capacity.

Equally as important, NeoCity Academy, a public STEM magnet high school, is training the leaders of tomorrow's science and technology workforce.

I am proud of the work being undertaken in our district to support domestic semiconductor manufacturing technology development as they work to address the supply chain. I look forward to working with the administration and the U.S. Department of Commerce on implementation of the America COMPETES Act and the CHIPS for America fund.

In this bill, we were able to get an amendment to clarify that chips funding also includes nonprofits in places like NeoCity. We appreciate the House for supporting this, adding nonprofits to the definition of "covered entities" to expand the semiconductor incentive program to include nonprofit entities, clarifying that nonprofit entities like 501(c)(3) facilities in NeoCity are also eligible for funding under the semiconductor incentive program.

We are helping with aerospace there. We are starting to work with commercial space like NASA and SpaceX and Blue Origin.

The bill also includes my second amendment. We know that we are boosting forward on artificial intelligence. We need to make sure, as we are doing that and seeing more autonomous vehicles and other artificial intelligence uses, we are training our labor force ahead of time for the jobs of today and tomorrow.

That is why I am proud that the AI JOBS Act passed as an amendment and directs the Department of Labor to create a report analyzing the future of our artificial intelligence and its impacts on the American workforce.

Specifically, the report would collect data to analyze which industries are projected to have the most growth through artificial intelligence and the demographics which may experience expanded career opportunities and those most vulnerable to job displacement. This is an inclusion of our standalone bill, H.R. 6553, the AI JOBS Act.

Thirdly, we were able to include an amendment for the blockchain and cryptocurrency specialists within the Office of Science and Technology Policy. The Director of the Office of

Science and Technology Policy is required to establish a blockchain and cryptocurrency advisory specialist position within the Office to advise the President on matters related to blockchain and cryptocurrencies.

OSTP advises the President and others within the Executive Office of the President on the scientific, engineering, and technological aspects of the economy, national security, homeland security, health, foreign relations, and the environment. It is critical to create such a position within OSTP to ensure there is a policy expert capable of advising the President and others within the Executive Office on these issues of growing national importance.

Madam Speaker, there is more because we have the Restoring Resilient Reefs Act, which passed through our Committee on Natural Resources to reauthorize the Coral Reef Conservation Act, the CRCA, which expired nearly 15 years ago. It maintains the NOAA coral reef program while also introducing overdue improvements to coral management and restoration efforts and giving new, innovative tools to States, territories, Tribes, communities, and universities, partners who are closest to this crisis.

□ 1845

We know that the Great Florida Reef is in danger, and we are doing everything we can to restore it. This is critical to our recreation, to clean water, to protect habitat, and to tourism.

A few of the provisions included in the Restoring Resilient Reefs Act, a bipartisan bill that passed unanimously out of the Natural Resources Committee, include a 5-year authorization, with the explicit focus on restoration activities where natural disasters and human activities have degraded reef ecosystems. This program is currently funded at \$33 million for 2021, but without further direction from Congress.

It creates a block grant program where States and territories can receive Federal matching funds for the prior year's coral expenditures provided they have an action plan in place, so we are getting action plans in place which will incentivize, increase State and local investment in coral reef management capacity.

We are also helping intergovernmental partnerships that are key for water infrastructure upgrades, pollution mitigation efforts, and regrowing reefs. It allows for the formation of public-private partnerships for coral management called Coral Reef Stewardship Partnerships. Public-private partnerships are critical for sharing research.

It also authorizes the U.S. Coral Reef Task Force to ensure States, territories, and other stakeholders continue to have a voice in U.S. coral reef management. Public feedback is essential.

It establishes a single streamlined set of guidelines for action plans to implement the national strategy, with maximum flexibility given to State

and local authorities. These action plans will focus restoration efforts more effectively. They also allow for emergency grants and emergency funds for coral disasters. This is critical for hurricane-prone areas like Florida and will assist with hurricanes, typhoons, tsunamis, as well as oil spills, and other major pollution events.

We thank all House Members who supported this for its inclusion, along with these technological amendments, these coral reef provisions in this essential piece of legislation that allows us to compete in the 21st century.

It is in the name, Madam Speaker, and together we are going to get this done.

HONORING DR. FAYE BELLAMY

Mr. SOTO. Madam Speaker, in honor of Black History Month, I would like to recognize Dr. Faye Bellamy. Dr. Faye Bellamy is a retired educator. She worked full time in the Polk and Hillsborough County school districts. Presently she works part time as a professor at Polk State College.

In addition to her experience teaching various subjects, she has countless hours organizing and implementing dropout prevention programs, training teachers, and working to improve our local schools.

Dr. Bellamy has a bachelor's degree in social science education, a master's degree in education administration, a specialist degree in administration and supervision, and a doctorate in educational leadership and higher education. She has used the knowledge gained from her research and studies to help students obtain academic excellence.

She has worked many years with civil rights organizations to improve the school system for Black people. Her focus has been on changing unfair disciplinary practices, seeking solutions to low academic performance and low test scores, as well as the lack of diversity in hiring practices.

Dr. Bellamy is the founder and director of Chain of Lakes Achievers, a community tutorial program. COLA was designed to assist the schools in improving students' grades and test scores.

Dr. Bellamy has worked in partnership with government officials at all levels to improve Black neighborhoods. She has been instrumental in bringing about changes that include installing sidewalks and speed bumps, creating recreational programs, increasing sewer connections, decreasing criminal activities, upgrading housing, replacing houses, constructing a restoration park, assisting businesses, and more.

She has contributed to the community by providing housing and employment as an entrepreneur. Dr. Bellamy has also served as a housing commissioner. She is presently affiliated with the Hurst Chapel AME, FAMU alumni, NAACP, and the Concerned Citizens of Polk County.

Dr. Bellamy has received recognition from the National Coalition of 100

Black Women, Polk County Chapter, Inc., the NAACP, COLA, Chain of Lakes Achievers, and Jewett High School Alumni Association, Inc. She also received the key to the city of Winter Haven, Florida.

For this and more, Dr. Faye Bellamy, we honor you.

HONORING DR. EUGENIA AGARD

Mr. SOTO. In honor of Black History Month, I would like to recognize Dr. Eugenia Agard. Dr. Agard's values have a direct impact on influencing her desire to assist communities in crisis. Therefore, it is imperative that she provide services to aid in alleviating debilitating conditions.

Dr. Agard established and operates a private practice, HUGS. Her treatment model is to treat the whole person. Dr. Agard's areas of specialty are treating patients suffering from anxiety, depression, PTSD, and physical health issues co-occurring with depression.

Dr. Agard is a very passionate speaker and a facilitator of education health forums and workshops to promote healthy living from the inside out. Dr. Agard continuously hosts health forums free of charge for the community and schools to prevent barriers to healthcare, from providing topics focused on the prevention of hypertension, diabetes, STDs, obesity, breast cancer, bullying, and more.

Dr. Agard works diligently to abate the stigma of mental health. Dr. Agard educates the community on signs and symptoms of mental health treatment and support options. Dr. Agard has always been on the front line to provide crisis counseling services during both regional crises and world crises.

During the Pulse nightclub shooting, she provided free and confidential counseling to many of the victims and organized healing forums in Osceola County for everyone impacted by this act of terrorism.

Furthermore, during the COVID-19 pandemic, Dr. Agard immediately offered counseling services to frontline workers, creating solutions for self care, prevention of burnout, and anxiety and depression reduction techniques.

For the general public, Dr. Agard immediately created a free community outreach forum, HUGS Healing Hour, via Zoom for individuals and organizations to restore the sense of community amongst the isolation and depression. She provided therapeutic coping skills to combat depression and anxiety and assisted children being home schooled.

Dr. Agard continues to educate the community on COVID-19, creating forums on support, exploring fiction versus fact, and problem-solving vaccination hesitancy.

Dr. Agard serves in leadership roles on many community agencies, boards, and organizations. She serves as health chair and health director of a nonprofit where she provides medical supplies to poor areas to prevent the loss of life.

For this and more, Dr. Eugenia Agard, we honor you.

HONORING KIMBERLY SAUNDERS

Mr. SOTO. In honor of Black History Month, I would like to recognize Kimberly Saunders. Kimberly Saunders is in her fourth year serving as president of the Central Florida chapter of the National Black MBA Association, Inc., a not-for-profit organization whose mission is to lead in the creation of educational, wealth building, and growth opportunities for those historically underrepresented through their careers as students, entrepreneurs, and professionals.

Since 2015, she has served in various volunteer capacities, such as partnerships chair, vice president of operations, and a continuing role as a mentor for the Leaders of Tomorrow program, which serves high school students in the areas of leadership, college and career preparation, financial literacy, and life skills.

She has been instrumental in developing corporate partnerships, securing grants, fund-raising, and facilitating programs to provide the organization with resources to serve its members and community through the central Florida region.

Her dedication and service to the organization and its mission were recognized in 2021, as she was one of two awardees for Chapter President of the Year by the national organization, which currently has 41 chapters nationwide.

Professionally, Kimberly has spent the last 11 years in the financial services industry. She is a managing partner for VestWyze, LLC, a State of Florida registered investment advisory company. In her role as an investment adviser and certified financial planner professional, she serves her clients' best interests by providing sound and knowledgeable advice.

Kimberly also serves as a board member for the Goldsboro Front Porch Council, a Florida-designated community. She is also a member of the local chapter of the National Alumni Association for Florida Agricultural and Mechanical University, otherwise known as FAMU, where she earned her bachelor of science in management and master of business administration.

At the core of Kimberly's heart are her faith and family. She hopes to continue to positively impact lives personally and professionally.

For this and more, Kimberly Saunders, we honor you.

HONORING MELODY TAYLOR

Mr. SOTO. In honor of Black History Month, I would like to recognize Melody Taylor. Melody Taylor is a board-certified registered nurse with years of experience in the healthcare industry. She has earned a master of science in nursing leadership and management. She is currently pursuing a doctoral degree in nursing. Melody serves as a nurse leader at Orlando Health.

Ms. Taylor is recognized as a dedicated community and nurse advocate, having led many initiatives empowering low-income families to succeed

and advancing the field of nursing. From 2007 to 2014, she engaged with the city of Orlando Office of Community Affairs to improve social determinants of health in at-risk populations. During that time, she became a volunteer on the citizens' review panel for the city of Orlando. Her leadership was the key driver in mobilizing low-income families to mainstream society along with the collaborations of nonprofit, faith-based, business, and governmental entities.

Ms. Taylor is a founding member and president of Black Nurses Rock Orlando. She is also a board member of the Black Nurses Rock Foundation, where she has served as the director of chapter development for 23 chapters across the United States. Ms. Taylor was recognized as the Black Nurses Rock Foundation Leader of the Year in 2018.

Community advocacy has always been a priority for Melody. She will continue to empower and inspire innovative leaders to advance in the field of nursing and promote preventative health to decrease healthcare disparities in vulnerable communities.

Melody is the middle child of five children and the mother to a handsome son named John and a beautiful daughter named Katia. She has six beautiful grandchildren: Drevion, Keonte, Sincere, Harmonie, Jayla, and Jaliyah.

Melody will continue her volunteer service to build a better community for the citizens living in central Florida and advance the field of nursing across the globe.

For this and more, Melody Taylor, we honor you.

HONORING CAROL BRADLEY

Mr. SOTO. In honor of Black History Month, I would like to recognize Officer Carol Bradley. Officer Carol Bradley has proudly served and protected the citizens of Winter Haven, Florida, for 30 years.

Officer Bradley served in the U.S. Army from 1980 to 1983. In 1986, she decided to follow her dreams and began her journey in law enforcement. From 1986 to 1991, she worked as a corrections officer at Polk Correctional Institution.

After working with PCI for 5 years, she decided to take her dream a step further and began her career with the Winter Haven Police Department as the first African American female community service officer for the city of Winter Haven.

Officer Bradley immensely enjoys serving as a good will ambassador for the city of Winter Haven and bridging the gap between the city police and the citizens in the community. In 1993 she transitioned from a civilian position to a sworn officer position.

She was promoted to patrol officer II in October of 1997. She then was awarded the chief accommodation for outstanding service to her community in January of 2001.

She enjoys serving her community through her church activities. She also

received the Optimist Club award for her distinguished services.

She received several letters of accommodation from the community in 2009. In addition, she received the bureau accommodation for the protection of residential property in February of 2010.

Officer Bradley received the Circle of Love award for the Ridge Career Center for contributions to single mothers and the homeless.

She was promoted to master officer in May of 2017.

Mentoring the youth in the Orrin Circle community was a rewarding experience as well.

Making history once again in 1998, Officer Bradley became the first HUD and homeless coalition officer for the city of Winter Haven. Implementing that homeless program as an officer was also very rewarding for her.

From 2006 to 2018, Officer Bradley worked in Winter Haven's public schools as a school resource officer. She also worked with two other officers in the DARE program within the elementary schools.

Officer Bradley ended her career as a law enforcement officer with Winter Haven on December 27, 2021, yielding a total amount of 35 years as a law enforcement officer.

Officer Bradley is married to her spouse, Terry Bradley. They have two daughters, one son, and two granddaughters.

For this and more, Officer Carol Bradley, we honor you.

□ 1900

HONORING REGINALD HARDEE

Mr. SOTO. Madam Speaker, in honor of Black History Month, I recognize Reginald Hardee.

Reginald Hardee is the information technology leader for Florida's Turnpike Enterprise and has more than 22 years of State government experience with a focus on strategic planning, budgeting, building, and leading support and development teams in a public-sector setting.

Reginald earned the Ben G. Watts Leader of the Year for the authority in 2020. Reginald currently serves as a member of the board of directors for the Osceola County Council on Aging, the Osceola Historical Society, and a member of the City of Kissimmee Fire Pension Board.

Reginald also serves the community as a member and officer of Bethel AME Church, NAACP, Kissimmee Masonic Lodge 68, and Alpha Phi Alpha Fraternity, Inc.

Reginald has served for 10 years as a member of the board of directors for the Kissimmee Utility Authority and was elected to serve as KUA chairman in 2013, a role he served for 4 years. He was the first African American to serve on the KUA board.

The Kissimmee Utility Authority board of directors established an electrical line worker scholarship in the name of Reginald Hardee and rededi-

cated its employee events building as the Reginald Hardee Employee Pavilion, honoring his decade of service. Reginald was also recognized by the Kissimmee City Commission with a proclamation.

Reginald received the Distinguished Leadership and Service Award from Osceola Visionaries for positively impacting the community in the spirit of the teachings and example of Dr. Martin Luther King, Jr.

Reginald is also a recipient of the American Public Power Association Spence Vanderlinden Public Official Award.

Hardee is a native of Kissimmee, born to a midwife on Kissimmee's Lake Street. Reginald is a veteran of the Army Reserves, a University of Florida alumnus, and a graduate of Florida State University's public manager program.

For this and more, Mr. Reginald Hardee, we honor you.

HONORING TANISHA NUNN GARY

Mr. SOTO. Madam Speaker, in honor of Black History Month, I recognize Tanisha Nunn Gary.

A consummate business professional and accomplished attorney, Tanisha Nunn Gary is the president and CEO of the African American Chamber of Commerce of Central Florida, a leading advocate for business development and economic empowerment.

As head of the established nonprofit, Tanisha is responsible for cultivating strong relationships with key community leaders and corporate entities to enhance opportunities for members and engage partners on initiatives.

Tanisha oversees all outreach efforts for the chamber, which encompasses six counties, and she executes strategic planning to ensure the chamber's voice is included in economic, education, and community conversations that impact the region.

The AACCCF boasts a varied membership and revolves around four pillars: advocacy, access to capital, contracts, and entrepreneur training and development. As a former business owner, Tanisha is intimately familiar with what it takes to thrive as an entrepreneur and is uniquely qualified to lead the AACCCF into its next chapter of growth.

Prior to being named president of the AACCCF, she was the principal of a private law firm focused on all aspects of litigation for wrongful death cases and medical negligence. Her solo practice and early work as a senior associate for Gary, Williams, Parenti, Watson & Gary landed multimillion-dollar settlements.

In addition to her legal prowess, Tanisha served as the executive director of The Gary Foundation, where she identified major donor prospects to help provide scholarships to Florida youth.

Tanisha is an active member of several civic and professional associations, including the Orange County Mayor Jerry Demings Dr. Martin Lu-

ther King Jr. Initiative, Truist Advisory Board, Orlando Economic Partnership Board, United Arts Board, and Florida Association of Chamber Professionals.

In 2021, Tanisha was named as one of the Orlando Business Journal's CEOs of the Year and 50 Central Florida Power Players. Additionally, the Orlando Magic recognized Tanisha as a hometown hero and a social justice game changer.

Tanisha is also a member of Jack and Jill of America, Inc., the Orlando chapter of The Links, Inc., and a life member of Alpha Kappa Alpha Sorority, Incorporated.

A graduate of Spelman College and the Quinnipiac University School of Law, Tanisha enjoys traveling, reading, baking, and spending time with her son.

For this and more, Tanisha Nunn Gary, we honor you.

HONORING TONY JENKINS

Mr. SOTO. Madam Speaker, in honor of Black History Month, I recognize Tony Jenkins.

Tony Jenkins is the Florida Blue market president for the central Florida region, where he provides strategic oversight and leads a team in developing business plans to increase and retain membership, enhance brand visibility, and coordinate employee engagement.

Tony was instrumental in establishing Florida Blue's diversity efforts in 2001. Prior to joining Florida Blue, Jenkins served as the director of diversity for CSX Corporation, the largest rail network in the Eastern United States. He also spent 18 years with the Walt Disney World Company in various leadership roles, specializing in diversity, equity, and inclusion.

Under Tony's leadership in central Florida, Florida Blue has been recognized as a Best Place to Work, an outstanding diverse corporation, and a corporate philanthropy honoree.

Tony is an advocate for several causes throughout the Orlando community. He is the past chair for United Arts of Central Florida and the Florida Commission on Human Relations. Tony currently serves on the board of Florida Citrus Sports and is a board trustee at Stetson University.

Tony is chair-elect for the Orlando Economic Partnership board, where he also serves as chair for their DEI task force, engaging Orlando's business leaders across varied industries.

Tony has been recognized by the Orlando Business Journal as one of central Florida's Top 10 Businessmen to Watch and CEO of the Year. Most recently, Tony received the publication's Diversity in Business Lifetime Achievement Award. Tony is also an I-4 Business Magazine Business Leader of the Year award recipient.

Tony holds a bachelor of arts in hospitality management from Morris Brown College in Atlanta, Georgia.

For this and more, Tony Jenkins, we honor you.

HONORING MARECIA JEFFERSON-LIAS

Mr. SOTO. Madam Speaker, in honor of Black History Month, I recognize Marcia Jefferson-Lias.

Hailing from the great city of Quincy, Florida, Marcia Jefferson-Lias is the daughter of Wilbert Sr. and Janie Jefferson.

Her father's successful fruit contracting business brought the family to Polk County, Florida, where Marcia embarked on an amazing journey of academic excellence. After graduating from Effingham County High School in Savannah, Georgia, Marcia returned to Florida and enrolled in Polk Community College, now Polk State College.

Marcia received an associate's degree in liberal arts. Marcia then matriculated to the all-mighty Bethune Cookman College, now Bethune Cookman University, receiving a bachelor's degree in education.

If the phrase "can't stop, won't stop" was a person, then Marcia would be the titleholder of that mantra. Marcia continued her studies at the University of South Florida, receiving a master of education in organizational leadership.

Marcia took her educational talent to the Polk County School Board, where she spent 16 years as a certified educator, holding various positions such as elementary teacher, reading coach, medical academy director, and health science clinical nurse and instructor.

Marcia's gift of being an educator and a nurturer allowed her to receive her bachelor's degree in nursing from Polk State College. Marcia went to Florida Southern College and obtained her master's degree in nursing, specializing as a family nurse practitioner. Marcia is currently matriculating her doctorate at the same college, with a projected completion date of 2023.

Mrs. Jefferson-Lias truly lives by the words "divinely speaking life one breath at a time." Not only has Marcia achieved everything that she has set her mind to possess, but she is also the epitome of a leader, advocate, nurturer, and mentor. Her compassion for people and helping others stems from a generational line of educators and nurses, including a great-grandmother who was a nurse-midwife.

The same dedication Marcia carries as a nurse and community leader allowed her to recognize the need for more nurses and nursing assistants. Marcia started a company that offers training and prep courses for nurses during the pandemic since that void needs to be filled in her community. Marcia currently is the owner of Divine Essential Medical Academy, LLC, as well as other business ventures.

Marcia is a blessed wife, mother, and godmother. Marcia is an inspiration to her family, friends, and community.

For that and more, Marcia Jefferson-Lias, we honor you.

HONORING VALPARISA J. BAKER

Mr. SOTO. Madam Speaker, in honor of Black History Month, I recognize Valparisa J. Baker.

Valparisa J. Baker, a native Floridian, most recently served as the chief diversity officer at Polk State College. Prior to her recent retirement, Ms. Baker was employed with the college since 1988, where she held multiple positions of advancement.

Ms. Baker has a master's degree in higher education from the National-Louis University, a bachelor's degree from the University of Central Florida, and an associate's degree from Polk State College.

Ms. Baker has a strong commitment to her church, the New Antioch Missionary Baptist Church, where she serves as an active first lady. Ms. Baker serves as the chairperson for the education scholarship ministry, adviser for the women intermediate ministry, pastor's aide ministry, and media ministry.

Ms. Baker is the newly appointed vice president for the ministers' wives and ministers' widows of the First South Florida Missionary Baptist District Association.

Ms. Baker has received numerous citations and awards from area organizations. Most recently, she received the 2021 Drum Major for Justice Award presented by the Haines City NAACP, was the 2021 Juneteenth honoree for the Juneteenth Observance Lakeland Committee, as well as the 2018 Distinguished Citizen for the Greater Tampa Bay Area Council Boy Scouts of America.

Ms. Baker is a graduate of the National Council of Black American Affairs Leadership Program, Florida Chancellor's Leadership Program, Winter Haven Chamber of Commerce Leadership, Winter Haven Class XX, and Polk Vision Leadership Polk Class v. Ms. Baker is very active in civic groups and serves on numerous boards, including the Florence Villa Community Development Center, Polk Vision LIFT Mentor Leadership Council, and the City of Winter Haven Juneteenth Steering Committee.

Ms. Baker has a strong passion for equity, diversity, and inclusion. Through Ms. Baker's community involvement, she continues her commitment to equity, diversity, and inclusion for all.

Ms. Baker enjoys spending time with her family and traveling. She and her husband of 34 years, Reverend Derrick L. Baker, have two children, Stephen and Marquitta, and two grandsons, Gavin and Malachi.

For this and more, Ms. Valparisa J. Baker, we honor you.

Madam Speaker, I yield back the balance of my time.

SECURING THE SOUTHERN BORDER

The SPEAKER pro tempore. Under the Speaker's announced policy of Jan-

uary 4, 2021, the Chair recognizes the gentleman from Pennsylvania (Mr. PERRY) for 30 minutes.

GENERAL LEAVE

Mr. PERRY. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and submit extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

□ 1915

Mr. PERRY. Madam Speaker, ladies and gentlemen, yesterday, the House Freedom Caucus held an offsite unsanctioned hearing on our circumstances at the border.

Now, we did that because we can't have a hearing right here in the Capitol. It is not allowed. The majority won't allow us to talk about it, doesn't want to talk about it themselves.

We are expecting the State of the Union Address from the President in about a month, and I suspect he won't talk about it then either. But the American people want to talk about it. They want to know about it, and they deserve to know about it. It is happening in their country.

Madam Speaker, Article II, Section 3 of the Constitution says that the President shall faithfully execute the laws. We have laws on the books, passed in the House, sent to the Senate, and ratified with a signature by the President of the United States that are being violated. They are being violated—not just disregarded—but actively violated by the President of the United States.

Actively violated. What does that mean? What is that? What would you call it when the Chief Executive Officer, the President of the United States, who takes an oath to uphold and defend the Constitution and the law of the land, not only disregards them but actively works to subvert them? What do you call that? I will let you decide that.

We learned a lot of things at the hearing. It was a great time. One of the things that you might not know as the Speaker's designee, as citizens, is that there is an organization, the International Organization for Migration within the United Nations, the United Nations that your tax dollars pay for. We don't know how much it spends on IOM, but the IOM is counseling people to come across our border illegally, counseling them so they can subvert the laws that your duly-elected legislature has passed, have been signed by the President and should be enforced by the executive branch.

And you are paying. Your tax dollars are going to pay for people to break the law to come into your country illegally, up to 2 million—probably over 2 million—that the border has touched in the last year. Who knows how many there are that they haven't even interacted with? And that is just 1 year.

Madam Speaker, how long? How long will this go on?

Today is Groundhog Day. I am from Pennsylvania. We had the chief prognosticator, Punxsutawney Phil, who is predicting another 6 weeks of winter. Right? This is Groundhog Day in America for every citizen because every day when they wake up, it is not another 6 weeks, it is not another 6 minutes, it is not another 6 months. We hope, the good Lord, it is not going to be another 6 years. But this keeps happening. This keeps happening every single day. It is unacceptable.

There was a movie made about it, which was a comedy, but this isn't a comedy. This is a tragedy. This is horrific for our country. It is undermining the very things that we stand for, and we ask, we beseech our President to make it end.

Madam Speaker, I yield to the gentlewoman from Colorado (Mrs. BOEBERT).

Mrs. BOEBERT. Madam Speaker, I thank the gentleman from Pennsylvania and the chairman of the Freedom Caucus. I thank him for leading on this issue and thank him for putting together a hearing yesterday so we could hear from people who are on the ground at the southern border.

It was so difficult to look these Border Patrol agents in the eye and hear their frustration, to hear their hearts cry, to say that they feel useless in their capacity, in their jobs. They said that they used to work all day and go home feeling like they had accomplished something. But since Biden took office, that is no longer the case. Since January 20, when the so-called President of the United States canceled construction of the border wall, since then these men and women have felt like they are not providing a service to the American people.

When I was talking with these agents, one thing that they said was, This isn't a resource issue. We aren't here to ask for more money. We aren't here to ask for more personnel or more infrastructure. We just need policy. Policy solves this. Returning to the Trump-era policies solves this. Canceling construction of a border wall and still continuing to pay out Federal contracts, \$5 million each day, is not solving this problem.

Nearly 2 million illegal aliens coming into our country, and that is not even counting the hundreds of thousands of got-aways that are not included in that number.

Madam Speaker, I understand that this is a Special Order, but I think it would do you and your party a service if you would lift your head and pay attention to what is being said on the House floor of the United States of Representatives. Maybe that is too much trouble to ask of you, Madam Speaker, but we are here talking about real issues that are impacting America and you still continue to sit and ignore what I am saying.

I think that is very reflective of my colleagues on the other side of the aisle

who have ignored what is going on at the southern border, who have ignored the children who are being trafficked by cartels, who have enriched the cartels, who have smuggled enough fentanyl to kill every American at least seven times over.

Madam Speaker, this should concern you. As a mother of four boys, this certainly concerns me, and all we need to do is implement policy to secure the southern border, allow our Border Patrol agents to do their jobs, have someone in the White House who will faithfully execute the law and uphold it. We are here to hold people accountable who are not doing those things.

Madam Speaker, let the RECORD show that you still have not glanced up one time to acknowledge this humanitarian crisis that is taking place in our country.

Chairman PERRY, I thank you so much for yielding on this issue.

Mr. PERRY. Madam Speaker, I thank the gentlewoman.

Madam Speaker, I yield to the gentleman from Wisconsin (Mr. TIFFANY), a great member of our effort here.

Mr. TIFFANY. Madam Speaker, I am assuming this mike is live. Is that correct? It is, okay. Thank you very much and thank you for sitting in the Chair tonight. We appreciate you being here during this period of time.

I think the person that just appeared before us said he does not know what Republicans stand for. Republicans stand for secure borders. We stand for a strong national security. We stand for an America that we represent Americans first, and that is what we stand for here tonight.

Madam Speaker, the Biden administration has turned the United States Government, our government, whether you are a Republican, Democrat, or any other affiliation, into the largest human trafficking operation in the history of the world. And it is so sad to see that happen. It doesn't have to be that way.

Let's go back to the January 20, just a little over a year ago. What happened?

Remain in Mexico was ended. Border wall construction was ended. Catch-and-release was initiated. And that is exactly what we have seen in our country now over the last year.

I am going to share my story, if I may, tonight. I have been here less than 2 years. The first trip that I took was down to the Arizona border in June of 2020. I saw the successes down there. I saw local units of government working with State and Federal Government to secure our borders, to make sure that those that chose to come into our country legally, they would get in line, and they would go through the process. It was under control. I saw that border wall construction down in Arizona.

Fast forward to just a little less than a year ago, April of 2021. I go down to the Rio Grande, out of control. And from what I understand, it is even worse now than April of 2021.

From there, I went down to Panama at the behest of the Border Patrol saying, You should see that this is not just about Mexico, this is not just about the Northern Triangle. There are people coming from all over the world.

So I went down to the Darien Gap in Panama at the end of May 2021, and what I saw was breathtaking. People coming out of the jungle, having to be wheelbarrowed to the medical tent. Hearing stories of the estimates that 10 percent of the people that tried to get through that jungle—some of the most dense jungle you will find on all of the face of the Earth—10 percent of the people were dying as a result of the actions that a President took on January 20, 2021.

The border is open. That was the message to those people. And it has wreaked havoc on people's lives that thought, If I can just make it to America. Many of them have not done that.

And as the chairman said, we have got an organization that is getting fully funded by the United Nations. What?

We put 25 percent of the money into the United Nations?

Mr. PERRY. Right.

Mr. TIFFANY. The International Organization for Migration, IOM, or sometimes it goes by OIM, I saw them at the Rio Grande. I saw them at the Darien Gap. I saw them at Fort McCoy when the Afghan evacuees came to our country. IOM, every step of the way, giving people remittances, giving them debit cards, being funded by you and me, the American public.

We are funding those people coming here to the United States of America at the behest of an organization that believes in open borders and does not believe in the sovereignty not just of the United States, but of any country on the face of this Earth.

It is time for our Committee on the Judiciary, Chairman NADLER, to have hearings about what this organization is all about. Now, I am not going to hold my breath expecting that to happen, but that is what should happen. And if the American people want to know the truth, you are going to have to take action in this election year of 2022, if you want this to change. Because it is evident by the Secretary, as designated by President Biden, Secretary Mayorkas, he is going to do nothing about it.

We heard it in the video that we saw recently, when the Border Patrol agents proudly stood up and they said, You are the reason, Secretary Mayorkas, for this problem, and you could stop it now.

So here is what we stand for—to the gentleman that was here earlier—here is what we stand for:

We stand for legal immigration. I think about members of my family, my extended family, that came into this country recently, legally. Did it the right way; paid the money. And they didn't pay the money to a cartel. They paid it to the United States Government to do it the right way. That is

what we stand for as legal immigration.

We stand for stopping the flow of drugs that are killing Americans in record numbers.

We stand for respecting our borders. We stand with our Border Patrol and all those people that are in security that just want to make sure that people come into our country legally.

I stand for an America that is great. I stand with America first.

And if the people of the United States of America want to bring this under control, this scourge that has hit our country as a result of the actions of a President on January 20, 2021, you need to stand with us in November of 2022.

Mr. PERRY. Madam Speaker, I thank the gentleman, and so well said.

Look, we all want to help. All of us want to help. We earned this position to speak on behalf of our constituents in our home districts. We all want to help; America is the most generous country on the planet. And we know that there are people that are wanting, that are hurting, that are seeking a better opportunity.

We have a process here. If you ask the American people to obey the law, why is it too hard to ask people that aren't American citizens to obey the law? Yet, that is exactly what is happening. That is exactly what's happening. It is unacceptable.

□ 1930

Mr. PERRY. Madam Speaker, I yield to the gentlewoman from Georgia (Mrs. GREENE).

Mrs. GREENE of Georgia. Madam Speaker, maybe Mr. PERRY and I can discuss together and maybe he can help me with some things. I am new to Congress. I am a freshman Member of Congress. I have been pretty shocked.

I thought Congress' role was to create a budget for the United States for our government, and we are about to run out of money in just a few weeks. The 117th Congress hasn't produced a budget to keep the government open. It is appalling to me as a business owner that we are even in this situation.

Private businesses go out of business when we are not able to produce a budget that makes a profit to be able to pay our employees, to be able to buy our materials and continue. That is something I am struggling with.

Something I am also struggling with, Mr. PERRY, is that I heard the Democrats present a bill today that they are very much wanting to pass, what is called the America COMPETES Act, having to do with our American jobs and economy in relation to China.

But here is the real trouble for me, and this is where I struggle, American jobs are so important, but yet our border is wide open and being invaded every single day. I just can't comprehend why Congress doesn't pass legislation and write into law that illegal aliens should be deported because illegal aliens are competing with Amer-

ican jobs. I find that to be a major problem, especially being in the construction industry where we have to employ legal Americans to do these jobs.

That doesn't seem to be the case, and maybe you can help me out here.

Mr. PERRY. Madam Speaker, I don't know if I can help her with that. I was also in business, we had a mechanical contracting business. It is hard, heavy work, and we too hired American citizens. We had to have documentation for the folks that we hired.

Wouldn't it be great though, since you brought it up, the COMPETES Act, we all want to compete better with China. We know that they are our adversary. They consider us the enemy. First of all, the COMPETES Act doesn't do that, it doesn't do anything to secure America from an aggressive bellicose China.

Shouldn't the COMPETES Act be about a competitive America? What about the competition that American citizens are in in their own country for their own jobs with people that are here illegally. Shouldn't the COMPETES Act be about making sure people don't come here illegally?

Let's face it, some folks already talked about the policy that is—the Border Patrol said, we need the policy. Policy is in place. Laws are in place. Article II, section 3 says the President will faithfully execute. But if the President doesn't faithfully execute the laws that are in place, whether we call the COMPETES Act something against China or whether the COMPETES Act is about American citizens who have to compete in their own country against foreigners, if no one is going to faithfully execute it, it is not going to matter.

Mrs. GREENE of Georgia. Madam Speaker, absolutely. Then we learned yesterday that Border Patrol agents are completely demoralized; that they are not even capable of doing the job that they were hired to do, that our United States Government hired them to do because their authorities are not allowing them to do it.

They are not able to deport illegal aliens so that our American people can have jobs. No. Our American people are having to compete with them. But even worse what we learned is about fentanyl. Fentanyl coming from China. That is what bothered me when I was listening today when the Democrats debated this bill with us. Only in this COMPETES Act bill it mentioned fentanyl only 10 times.

Yet, it is Chinese fentanyl coming from Communist China that is killing young people. It is the number one cause of death with Americans age 18 to 45. That is a tragedy, but yet we have been controlled by COVID-19. Children in schools are forced to wear masks; people are told they have to take vaccines. It is totally out of control, but yet it is fentanyl from China.

Here is something else. Maybe Mr. PERRY can help me out with this since

I am new here. Why doesn't the Joe Biden administration—why don't the Democrats care about doing something about fentanyl, a horrible poison coming in from China, but yet they care more about coral reefs?

Mr. PERRY. Madam Speaker, I think that is a great question. There are over 100,000 dead from overdose due to fentanyl coming through our southern border from Communist China, and yet we are locked down in many places. In the United States in our capital city, people from across the country can't come here and get a meal. You can't even come into the Capitol.

Madam Speaker, I yield to the gentleman from Georgia (Mr. CLYDE), maybe he can answer his colleague's question because I sure can't.

Mr. CLYDE. Madam Speaker, I just think that the Democrats just don't know how to govern this city. That is just a huge issue. We can see that with what is happening on the southern border.

President Biden's raging border crisis and the harm it inflicts on our great country, the dangerous catastrophes that I simply cannot ignore. We are talking about over 2 million illegal crossings in a single year, thousands of pounds of fentanyl seized, as we just talked about, and an unknown number of illegal migrants, some with criminal records, some on the terrorist watch list, released into hundreds of communities across the Nation.

Yet, out of cowardice or complacency, or both, the Democrats remain silent on record high levels of illegal migrant crossings and drug seizures at our southern border.

My Republican colleagues and I have responded to the left's inaction with letters demanding answers, with legislation, and with continuous coverage of what is really happening under Biden's watch.

Furthermore, my House Freedom Caucus colleagues, led by my good friend, Chairman PERRY, held a hearing on the Biden administration's open border policies and inadequate border security just yesterday.

During this hearing we heard numerous witnesses describe the fire of chaos at the border and the policies that have fueled the flames.

Many Americans know about the ongoing border crisis and its root causes—Joe Biden and his crisis-ridden, failed administration, with a 33 percent approval rating. Yet, I don't believe the American people are aware of the United Nations' involvement that aids migrants on their expedition to our southern border.

According to one of the witnesses that participated in our hearing yesterday, Todd Bensman of the Center for Immigration Studies, UN agencies such as the International Office of Migration and the United Nations Commissioner for Refugees and their counterparts are providing assistance, including financial assistance to help migrants on their journey, where they

will eventually attempt to illegally cross the United States border.

This witness further explained that the United Nations' cash-based intervention program supplies reusable plastic cash cards worth hundreds of dollars each, and cash-filled envelopes, among additional resources to individuals on the migrant trail from South America to Texas. This is unbelievable, illogical, criminal, and just plain wrong.

The United Nations is actively subverting the security of our southern border. Just think about that statement for a moment. Just think about it. But guess again who is funding the bill. It is the American taxpayer.

The United States contributes billions of dollars to the United Nations every year, meaning our citizens are paying for fraudulent UN programs that contribute to the very border crisis that is threatening their lives and livelihoods.

It is also absolutely ludicrous that our country is funding programs and then the UN simultaneously derails our national security, sovereignty, and freedoms.

As our national debt just hit \$30 trillion, this senseless spending isn't just fiscally irresponsible, it is also morally bankrupt, as it enables illegal migrants, human traffickers, drug smugglers, dangerous criminals, and terrorists to take advantage of the Biden administration's open border policies.

Well, enough is enough. We must defund all these UN programs, not defund the police, but defund the UN programs that encourage foreigners to violate our laws, breach our border, jeopardize our Nation, and put Americans last.

Mr. PERRY. Madam Speaker, I inquire with the Chair the time remaining.

The SPEAKER pro tempore. The gentleman from Pennsylvania has 5 minutes remaining.

Mr. PERRY. Madam Speaker, I yield to the gentleman from Texas (Mr. ROY), who has been on the front lines of this issue.

Madam Speaker, I don't want to take from his time, but I just want to add this. People often say to me: What would you cut? What would you cut? Well, you know what I would cut from the State and foreign ops budget, money going to the UN to pay for people to come to our country and cross our border illegally. How about cutting that, sir.

Mr. ROY. Madam Speaker, I would agree with my friend from Pennsylvania. I appreciate him having this time on the floor, and I appreciate my colleagues for coming down.

The State of Texas is on the front lines under siege, the communities that I represent, dealing with the scourge of open borders, the dangers that are provided by cartels, and the illegal elements that come across the border on a daily basis—and this body does nothing about it.

This week we are going to entertain legislation that will do nothing to combat China. Nothing to stop China from continuing to run rampant around the world, violating human rights, undermining our national security. We are going to put together a nonsense bill that is a Green New Deal agenda, a pacify and appease China bill. We should be saying what the woman from Texas said to the coach of the Miracle on Ice hockey team: Beat those Commie bastards.

That is what we ought to be saying. That is what we ought to be doing. But no, no, no, here we sit doing nothing. But you know what we are doing, we are sleeping while our border is wide open. But worse than that, the Biden administration and Secretary Mayorkas are taking purposeful steps to open our border, disregard the law, and to fail to faithfully execute the laws of the United States. Our country is in danger and Americans are dying.

Americans are dying specifically because of the actions of the Secretary of Homeland Security. That is what is actually occurring. We have fence rusting in fields in Texas. We have contracts that aren't being paid. In fact, we are paying people not to work—not to build the fences.

We are not using migrant protection protocols. We are not using Title 42. We are releasing people into the United States against Federal law. We are not doing anything to actually secure the border and, therefore, the Secretary of Homeland Security should be impeached for it.

I will make one final point. Jen Psaki, the White House press secretary, stood at a podium and laughed about our commentary about the borders being open and our streets being unsafe. She lied. She lied about Border Patrol agents whipping migrants. It was purposeful and it was done to divide our Nation by race, the same kind of division that has the President of the United States choosing the race and the sex of the Supreme Court justice. This is the same man who blocked Janice Rogers Brown, blocked a Black woman Supreme Court justice. He blocked an Hispanic Miguel Estrada because he was Hispanic and because he is not the right kind of Hispanic.

That is the truth. That is the truth of a President and an administration that wants to divide our country by race, they want to lie about our Border Patrol agents, and they don't want to do a dang thing about it.

Mr. PERRY. Madam Speaker, if Mr. ROY would join me in a colloquy in the remaining 2 minutes. Mr. ROY sent a letter asking for the report on these Border Patrol agents that had been suspended for allegedly whipping these Haitian illegal crossers. Of course it never happened. Even the photographer that took the pictures said that it never happened.

The only thing that was abused or whipped was the truth and the reputation of our fine Border Patrol agents. Where does that stand right now?

Mr. ROY. Madam Speaker, I am glad the gentleman from Pennsylvania asked the question. It stands nowhere. They are not giving us any report. They said it would be a couple weeks away. I can tell you why. Because the report will demonstrate there was no whipping. It was a lie.

They owe an apology to those Border Patrol agents who are being abused on the front lines, having guns fired at them, dealing with COVID. No apology.

Mr. PERRY. Madam Speaker, no apology. What about for lying to the American people and creating this division. Didn't our Chief Executive run and say that he was going to unite the country? Didn't he say that? He was going to unite the country. Isn't this an opportunity. Release the report—look, none of us are perfect, we all fall short. I think that is one thing we can agree on.

Mr. ROY. Amen. Amen.

Mr. PERRY. Madam Speaker, when you fall short, is there something wrong with apologizing for your failures?

Mr. ROY. Madam Speaker, no. And the President should apologize for that and the President should apologize to every parent of a dead American kid who takes Xanax and dies with it laced with fentanyl because we have open borders—and the Secretary knows it.

Mr. PERRY. Madam Speaker, the Secretary knows it and the Secretary just went to the border and talked to Border Patrol. What did they tell him?

Mr. ROY. Madam Speaker, the Border Patrol was saying: What are we doing? We are doing nothing. That is what the Border Patrol is saying. But my colleagues on the other side of the aisle wouldn't know that because they never have hearings inviting the people on the front lines to talk, and actually hold the Secretary accountable.

Mr. PERRY. Madam Speaker, I thank my colleagues from the Freedom Caucus for coming and talking about what is happening on the border. I know that the left and the majority party in this House refuse to do it, certainly the President refuses to do it, but we don't refuse to do it. We are going to do it because our country is in peril; our families are in peril; our communities are in peril, and somebody has got to say something and do something about it.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President. Members are also reminded to direct their remarks to the Chair and not to a perceived viewing audience.

□ 1945

THE PRESS CORPS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the

gentleman from Wisconsin (Mr. GROTHMAN) for 30 minutes.

Mr. GROTHMAN. Madam Speaker, President Biden and the progressives frequently talk about equity and prejudice, and they think we have a lot of discrimination in this country and that some people are treated better than others. I don't think that is a problem. I think his remarks are solely designed to tear down America and create resentments.

I look at my own district of people of non-European descent, and whether I look at the Hmong from Laos or Sikhs from India, I see people who come here and grew up in lands in which their native tongue wasn't even English, mostly their religion was not Christianity, and they are thriving in America.

But there is one group in the United States in general and Joe Biden in particular, if you look at his Build Back Better bill, Madam Speaker, seems to hate overtly, and there is discrimination against this group: married couples with children.

Karl Marx was, of course, against the nuclear family because it was self-supporting and perhaps educated the children in morals and values that may be different from what the government wants. He wanted the government to raise the children.

Black Lives Matter, which played a central role in retaining the majority for the Democrats last November, had on its website that its goal was to get rid of the Western-prescribed nuclear family until it was taken down.

By the way, that is one of the most dishonest statements ever. Families with mom, dad, and kids are from all around the world. They are from Asia, from South America, and from Africa. The idea that an old-fashioned nuclear family is only European is preposterous, but nevertheless, that is what they say.

But I get it. There are people in this world who don't want the father supporting the family.

Now, let's look at what is going on in the Build Back Better bill. Robert Rector of The Heritage Foundation has done a fine analysis of the effect of Build Back Better on nuclear families. Frequently, welfare programs disincentivize work and disincentivize marriage.

How they do it is obvious. If you work harder, you don't get those benefits, be it low-income housing, be it SNAP, be it Medicaid. The harder you work, they begin to take away benefits.

Furthermore, these programs discourage marriage because if a mother—usually the mother—marries a man who has a decent income, then she is no longer considered in poverty. And, again, all the programs—the daycare, the earned income tax credit, and the SNAP—disappear.

This is why I call what happens in the Build Back Better bill a part of the war on marriage. This began with Lyndon Johnson—for my money, the worst

President this country has ever had, and not for the way he conducted the Vietnam war. I am old enough to remember when you talked about Lyndon Johnson, that was the horrible thing you said—but for what developed into a war on marriage.

It is hard to believe, but when they started the welfare system in the 1960s, only 7 percent of children were born out of wedlock. That number is now 40 percent. It has stayed pretty static since the 1990s, but it is clear in the Build Back Better bill that President Biden is trying to push that number up above 40 percent.

I recently heard of a young girl being advised by her mother to get pregnant, not to get pregnant and get married, but to get pregnant because it would open up a variety of government benefits, and mom felt this was the way to go through life.

Build Back Better—and it depends which benefits we are looking at—could increase the number of benefits, when put on everything else, to up to a \$14,000 penalty for getting married. In other words, we do what we can to discourage marriage. SNAP, earned income tax credit, childcare, and low-income housing, as well as more narrowly tailored programs such as Pell grants or TANF, all carry marriage penalties with themselves.

That is exactly what will happen if people come off the waiting list for the generous increases in low-income housing and take the benefit of that low-income housing together with an increase in the earned income tax credit and an increase in the SNAP.

Madam Speaker, you can wind up getting \$11,000 more for making this decision. Just like Karl Marx wanted: get the man out of the household.

I know so much of the focus of the Build Back Better bill is just on the spending package and the effect it will have on inflation, and that is true. People like to focus on giving free college to illegal immigrants, which still amazes me, and that is bad, too. But I really think if the bill were to pass, what it will be remembered for is a big shot in the arm toward the type of people who do not want an old-fashioned nuclear family.

It is something that I haven't heard the press cover. Robert Rector's Heritage Foundation's study is something that we will make public within the next 2 or 3 days. When it is made public, I hope our press corps pays a little bit of attention to the shift that this bill will have toward making it more economically advantageous to not have two parents in the household.

The next topic that I would like to address concerns the issue in the news involving Ukraine. I am not personally the most hawkish Member here regarding Ukraine, but what amazes me about this conflict is that more is not written about the Holodomor. I have talked to people in this building, talked to young people, and they don't even know what the Holodomor is.

In the early 1930s, Joseph Stalin, the Communist dictator of the Soviet Union, had a problem in Ukraine. Some of the people in Ukraine wanted to go back and be an independent country, which it was for a while a few years before that. Some of the people in Ukraine, particularly the farmers, which were called kulaks, didn't like the idea of giving up their land and going to work for the government. Of course, one of the things that Communists like is they want everybody working for the government because they want to have total control over everybody.

I am sure the problem in Ukraine in the early thirties is similar to what we have in Wisconsin. We have a lot of small dairy farmers. They own their own land and their own business, and they wouldn't take kindly to the idea of a Marxist government coming over and saying: This is no longer your land. These are no longer your cows. You are working for us, the government.

So the way Joseph Stalin decided to deal with it is he decided to starve out the people in Ukraine. He decided to put troops around Ukraine so you couldn't escape. And he decided to take the crops and take the produce and put soldiers guarding it, and people began to starve to death.

To this day, we don't have an exact figure in the early thirties of how many people starved to death in Ukraine because of decisions made by Joseph Stalin. When you look online, Madam Speaker, you get numbers from about 4 million on the low side to 15 million on the high side. I am no expert. I would guess it is more like 4 or 5 million. But 4 or 5 million people starving to death is something every American schoolchild ought to be talking about. And when there is a possible conflict between Russia and Ukraine, it is something that the history channels and that the news stations ought to be talking about a whole lot.

Instead, when I walk around here and talk to staffers or talk to all the other people who help us around here, again and again, I find people who don't even know that 4 to 5 million Ukrainians starved to death in the early thirties.

One of the interesting things about this is that efforts were made to hide this almost immediately. The Soviet Union itself banned discussion of all the people who starved to death in Ukraine.

It kind of reminds me of certain people in the United States who don't like everything to appear online and like to take things down so things that are inconvenient for the people in charge are not publicized.

One of the things that everybody should know about—and I once talked to a New York Times reporter who himself didn't know about it—is that a guy by the name of Walter Duranty who worked for The New York Times was given a Pulitzer Prize as he sat over there and knew very well that this

starvation was going on but didn't report it. He probably didn't report it because the cool kids from the liberal media like to think wonderful things about the Soviet Union. In a private letter, he said that the suffering is inflicted with a noble purpose.

So, that is what the readers of The New York Times were getting back in the early thirties, and that man was given a Pulitzer Prize. I might be wrong, but I don't think The New York Times has given it back.

Isn't it amazing that an American newspaper would be so horrible that if one of their reporters knew that millions of people were starving—there is a letter that he wrote at the time in which he guessed it could be as high as 10 million people were starving. But because the Soviet Union was the darling of the leftist intellectuals, apparently, he didn't like to report it for the people back home. And to this day, I believe, The New York Times has yet to apologize or get rid of their Pulitzer.

In any event, as long as Ukraine is in the news, I would hope that American schoolteachers of social studies would begin to educate the American people about the 4 or 5 or 7 or 10 million people who starved to death in the early thirties. After all, unless you know about that, Madam Speaker, you don't know about the reason for the animosity—or at least one of the reasons for the animosity—between the Ukrainians and the Russians.

You don't know why people should be concerned when a Senator from Connecticut goes off and attends an anniversary ceremony for the U.S. Communist Party and is just let off the hook. You don't know why people like me are a little bit concerned when the founders of Black Lives Matter were avowed Marxists. Unless you know about what happened in Ukraine and communism in general, Madam Speaker, you don't know why so many people fought and died in Korea and Vietnam.

Of course, the Holodomor is only one of the things that every American schoolchild should know about. There were plenty of other mass massacres from the Soviet Union. There were a couple of massacres in Red China. We have the horrible taking away of freedoms in Cuba or Venezuela. We talk about the 1 to 2 million people who were murdered in Cambodia.

These are things that every American schoolchild should know because, as I said, right now, we have people kind of in this building and kind of in academia in America who I don't think really have a problem with Marxism. They think it is kind of a cool thing to flirt with.

I do hope that our news stations and our educational institutions at least now do a little to educate the American public on the millions of people who died in Ukraine.

There are two other issues to deal with today. I will follow up a little bit on what my colleagues said before because that is arguably the one area

which—there are many areas—but on which the Biden administration is permanently damaging America.

We recently got the numbers of people who came in this country in December. It took a while to get them. The total, including what they call got-aways, is about 90,000 people who didn't go through appropriate channels, people whom we sometimes refer to as illegal immigrants, 90,000 in December. The December before, it was a little over 20,000. So we have gone up from 20,000 to 90,000 in 1 year.

I guess it is another thing that the press isn't really talking about like it should. I guess the COVID and the inability to get monoclonal antibodies out to people, which isn't talked about enough either, but that is something else we talk about. We can talk about Ukraine, and meanwhile, we aren't paying attention to just 1 more month in which the number of people coming here has shot up from 20,000 to 90,000.

As my colleagues just pointed out, not only is that people coming across, when you have an open border, we recently hit an all-time record of 100,000 Americans dying of illegal drug overdoses in 1 year—100,000.

When I got this job, it was 45,000, and it was a scandal. Everybody in this House was supposed to have a plan to deal with the 45,000 people who died every year of illegal drug overdoses. Well, Madam Speaker, in 7 years, it has gone up to 100,000. The biggest problem is fentanyl, and 100 percent of the fentanyl, I am told, is coming over the southern border.

□ 2000

But for some reason, our comatose press corps is not asking politicians, including the President, do you care?

I mentioned the Vietnam war and the Korean war a second ago. When we talk about 100,000 people dying in 1 year, that is about as many American troops who died in Korea and Vietnam together. Every year people are dying, and all the heartbreak that that causes, we don't care anymore. Or at least our press corps or the people who determine what is on people's minds aren't caring anymore. If it was one of your loved ones who died you would care.

So, I beg the American public and the comatose press corps to publicize the fact that we are now having 4½ times as many people a month come here as when Joe Biden took office and publicize the fact that 100,000 Americans are dying every year of illegal drug overdoses, largely fentanyl, which is frequently given to people who don't even know they have it.

Now, we are going to address one final issue that has not received enough attention with regard to the Build Back Better bill.

I will beg the Chair and anybody else who is listening to pay attention to this. The Build Back Better was a bill—one of these thousands, or at least well over 1,000-page bills—and to be

honest, whenever you pass one of these massive bills up here, people who vote for it don't know all that is in it. It is impossible to know all that is in it.

And I have talked to people about this provision that is in it and, quite frankly, most people don't know what is in it, to a certain extent, because there are sexier issues.

But in Joe Biden's bill, we are giving grants designed, if they are accepted, to phase out 14(c) certificates. The listeners out there may or may not be familiar with work centers, or what used to be called sheltered workshops or CRPs, which are places—they do a lot of packaging in my district—places where people who have different abilities, sometimes are paid under minimum wage to do light manufacturing or packaging.

It always is enjoyable for me to tour these facilities because you deal with people who, I would think, have been dealt a tough lot in life, and they are so overwhelmingly happy to have a job like everybody else; to have a job like their siblings where they go to work.

And maybe, because of their different talents they are making \$5 or \$6 an hour. But they are getting other governmental assistance, and they are very proud every day to go to work and get a paycheck where they can buy some clothes for themselves, where they can buy gifts for their relatives. It is all so wonderful, and now they are under attack.

There are two philosophical reasons, to give the other side its due, for shutting down the work centers and saying these people shouldn't be able to work there anymore.

Some people feel that nobody should be able to work for minimum wage, and if you don't like the minimum wage of \$7.50, you sure don't want people—or you claim you don't want people—working for \$4 or \$5 an hour. But again, these folks are getting other governmental benefits. It is not all they are living on.

What you do when you get rid of 14(c) certificates, which is what you need to work for under minimum wage, you are telling these folks that you won't work at all.

Secondly, there are people who don't like the fact that they feel these people are working in a segregated setting; in other words, they are working with other people with similar abilities to themselves.

It is my experience, having toured or taken dozens of tours in places like this, that—and you can ask them as well—they are very happy to be working in these facilities. There are many people working in these facilities who have abilities similar to people in other facilities. And the people who work in these facilities, I think, like them so much because it is a chance to find lifelong friends.

There was a time when people with different abilities had to stay at home and watch TV and just get to know their family members. But these jobs

allow people to have—because frequently the turnover is not that great—they make friends who they will have for 30 or 40 years.

It breaks my heart that there are people who think that we are going to shut these down because people will be so much better if they work in a facility without anybody with different abilities, and it will be so much better. We must be taking advantage of these people if somebody is making \$5 an hour.

I mean, I deal with the people who work in these facilities, including management. I don't think anybody is getting rich. They are probably, most of them, making a lot less money than a Congressman. But instead, they have to put up with these radicals—I will call them—telling them that they are taking advantage of people because they are being paid 4 bucks an hour, 5 bucks an hour.

So, in any event, I am going to ask people who care about people with different abilities; whether you have a relative in this position; whether you have a child in this position; whether you, yourself work in a work center, please contact your Congressman and say, don't shut down these facilities.

It is what the life of so many of these folks is built around, and it would be crushing if you would try to just send them home or maybe find a business that will take them in for 3 or 4 hours a week, instead of 34 hours a week.

It would be crushing for these people if they lost the ability to work at the work centers or the CRPs.

So I beg the majority party, you are in charge, that if you do get something through on that Build Back Better bill, that this provision which is the end of the work centers is not in it.

Now, I would like to thank you for staying late and listening to my additional analysis.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

ADJOURNMENT

The SPEAKER pro tempore. Pursuant to section 11(b) of House Resolution 188, the House stands adjourned until noon tomorrow.

Thereupon (at 8 o'clock and 7 minutes p.m.), under its previous order, the House adjourned until tomorrow, Thursday, February 3, 2022, at noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

EC-3337. A letter from the Director, Regulation Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule — French Dressing; Revocation of a Standard

of Identity [Docket No.: FDA-2020-N-1807] (RIN: 0910-A116) received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

EC-3338. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule — New Method for the Analysis of Sulfites in Foods [Docket No.: FDA-2019-N-0463] (RIN: 0910-AI02) received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

EC-3339. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule — Revocation of the Regulations for Human Tissue Intended for Transplantation and Human Dura Mater [Docket No.: FDA-2020-N-1519] (RIN: 0910-AI41) received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

EC-3340. A letter from the Director, Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule — Revised Procedures for the Announcement of Approvals and Denials of Premarket Approval Applications and Humanitarian Device Exemption Applications [Docket No.: FDA-2019-N-3101] (RIN: 0910-AI10) received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

EC-3341. A letter from the Acting Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Alcohols, C10-16, Ethoxylated, Sulfates, Mono(hydroxyethyl)ammonium Salts (CAS No. 157627-92-4); Tolerance Exemption [EPA-HQ-OPP-2021-0656; FRL-9326-01-OCSP] received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

EC-3342. A letter from the Acting Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Nitrpyrin; Pesticide Tolerances [EPA-HQ-OPP-2021-0352; FRL-9419-01-OCSP] received January 28, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Ms. ROSS: Committee on Rules. House Resolution 900. Resolution providing for consideration of the bill (H.R. 3485) to impose sanctions on foreign persons responsible for violations of internationally recognized human rights against lesbian, gay, bisexual, transgender, queer and intersex (LGBTQI) individuals, and for other purposes; providing for consideration of the bill (H.R. 4445) to amend title 9 of the United States Code with respect to arbitration of disputes involving sexual assault and sexual harassment; providing for consideration of the bill (H.R. 4521) to provide for a coordinated Federal research initiative to ensure continued United States leadership in engineering biology; and for other purposes (Rept. 117-241). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mrs. AXNE (for herself, Mr. COHEN, Mr. HIGGINS of New York, Mr. LEVIN of Michigan, Mr. MCGOVERN, Mr. PASCRELL, Ms. SANCHEZ, and Ms. WILLIAMS of Georgia):

H.R. 6557. A bill to prohibit an employer from terminating the coverage of an employee under a group health plan while the employee is engaged in a lawful strike, and for other purposes; to the Committee on Education and Labor.

By Mr. BISHOP of North Carolina (for himself, Mr. NORMAN, Mr. POSEY, Mr. HICE of Georgia, Mr. WEBER of Texas, Mr. BUDD, Mr. HARRIS, Mr. TIFFANY, Mr. WILLIAMS of Texas, Mr. STEUBE, Mr. PERRY, Mr. CLOUD, Mrs. MILLER

of Illinois, Mr. GOHMERT, Mr. GOOD of Virginia, Mr. GIBBS, Mr. DESJARLAIS, Mr. GAETZ, Mr. GROTHMAN, Mr. MAST, Mr. BABIN, Mr. CAWTHORN, and Mrs. FISCHBACH):

H.R. 6558. A bill to ensure that the right to vote shall not be impaired due to vaccination status; to the Committee on the Judiciary, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BOWMAN (for himself, Ms. JACKSON LEE, Ms. OCASIO-CORTEZ, Ms. BUSH, Mr. GARCÍA of Illinois, Ms. PRESSLEY, and Ms. JAYAPAL):

H.R. 6559. A bill to amend the Higher Education Act of 1965 to prohibit institutions of higher education participating in Federal student assistance programs from giving preferential treatment in the admissions process to legacy students or donors; to the Committee on Education and Labor.

By Ms. BROWN of Ohio (for herself, Mrs. CAROLYN B. MALONEY of New York, and Mr. KELLER):

H.R. 6560. A bill to eliminate or modify certain mandates of the Government Accountability Office, and for other purposes; to the Committee on Financial Services, and in addition to the Committees on Energy and Commerce, Ways and Means, Transportation and Infrastructure, House Administration, Oversight and Reform, and the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COLE (for himself, Mr. CARTER of Texas, Mr. MULLIN, Mr. HUDSON, Mr. MCHENRY, and Mr. HERN):

H.R. 6561. A bill to amend title 28, United States Code, to provide for the secure storage of a licensed firearm possessed by a Federal judge, and for other purposes; to the Committee on the Judiciary, and in addition to the Committee on Oversight and Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mrs. FLETCHER:

H.R. 6562. A bill to amend the Energy Policy Act of 2005 to require the Secretary of Energy to create a plan for research, development, and commercialization projects capable of making significant reductions in global greenhouse gas emissions or carbon intensity of qualified fuel production facilities, and for other purposes; to the Committee on Science, Space, and Technology, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. GOODEN of Texas (for himself, Mr. SESSIONS, Mr. TIFFANY, Mr. WEBER of Texas, Mr. SMITH of Missouri, Mr. KELLER, Mr. GOSAR, Mr. BURGESS, Mr. ROSENDALE, Mr. BABIN, Mr. BUDD, Mr. PFLUGER, Mr. CAWTHORN, Mrs. HARSHBARGER, Mr. CARTER of Georgia, Mr. NORMAN, Mr. TAYLOR, Mr. RODNEY DAVIS of Illinois, Mr. BACON, Ms. STEFANIK, Mr. MOORE of Alabama, and Mr. DONALDS):

H.R. 6563. A bill to direct the Director of the Office of Management and Budget to require the disclosure of violations of Federal law with respect to human trafficking or alien smuggling, and for other purposes; to the Committee on the Judiciary, and in addition to the Committee on Oversight and Re-

form, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. GREEN of Tennessee (for himself, Mr. DESJARLAIS, Mr. FLEISCHMANN, Mrs. MILLER of Illinois, Mr. TIFFANY, Mrs. BOEBERT, Mr. BUDD, Mr. MOONEY, Mr. WEBER of Texas, Mr. BISHOP of North Carolina, Ms. TENNEY, and Ms. MACE):

H.R. 6564. A bill to require educational agencies and institutions to provide in-person instruction to students as a condition of receiving Federal education funds, and for other purposes; to the Committee on Education and Labor.

By Mr. JACOBS of New York (for himself, Mr. LAMBORN, Mr. CARTER of Georgia, Mr. MOOLENAAR, Mr. TIMMONS, Mr. CURTIS, Mr. DUNCAN, Mr. OWENS, Mr. MOORE of Alabama, Mrs. MILLER of Illinois, Mr. JACKSON, Mr. WEBER of Texas, and Ms. VAN DUYN):

H.R. 6565. A bill to establish an alternative use of certain Federal education funds when in-person instruction is not available; to the Committee on Education and Labor.

By Mr. JONES (for himself and Mrs. SPARTZ):

H.R. 6566. A bill to amend title 17, United States Code, to provide for the diagnosis, maintenance, and repair of certain digital electronic equipment; to the Committee on the Judiciary.

By Mr. LAHOOD (for himself, Mr. CUELLAR, Mr. BALDERSON, and Mr. HARDER of California):

H.R. 6567. A bill to direct the Secretary of Transportation to modify certain regulations relating to the requirements for commercial driver's license testing and commercial learner's permit holders, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. O'HALLERAN:

H.R. 6568. A bill to fulfill the United States Government's trust responsibility to serve the higher education needs of the Navajo people and to clarify, unify, and modernize prior Diné College legislation; to the Committee on Education and Labor.

By Ms. PINGREE:

H.R. 6569. A bill to promote and support the local arts and creative economy in the United States; to the Committee on Education and Labor, and in addition to the Committees on Energy and Commerce, Transportation and Infrastructure, Financial Services, the Judiciary, Veterans' Affairs, Ways and Means, and Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. RUSH:

H.R. 6570. A bill to ensure consumers have access to data relating to their motor vehicles, critical repair information, and tools, and to provide them choices for the maintenance, service, and repair of their motor vehicles, and for other purposes; to the Committee on Energy and Commerce.

By Mr. SMITH of Washington (for himself and Mr. KATKO):

H.R. 6571. A bill to require the Transportation Security Administration to standardize the enrollment process for individuals applying for multiple TSA Security Threat Assessment programs, including the TWIC, HAZMAT Endorsement, and TSA PreCheck programs of the Administration, and for other purposes; to the Committee on Homeland Security.

By Ms. STEFANIK (for herself, Mr. GALLAGHER, and Ms. TENNEY):

H.R. 6572. A bill to amend the Secure and Trusted Communications Networks Act of

2019 to provide for the addition of certain equipment and services produced or provided by DJI Technologies to the list of covered communications equipment or services published under such Act, and for other purposes; to the Committee on Energy and Commerce.

By Mr. TAKANO (for himself, Mr. FOSTER, Mr. CASTEN, and Mr. BEYER):

H.R. 6573. A bill to rename the Office of Technology Assessment as the Congressional Office of Technology, to revise the functions and duties of the Office, and for other purposes; to the Committee on House Administration.

By Mr. VAN DREW:

H.R. 6574. A bill to amend the Help America Vote Act of 2002 to require States to take steps to ensure domestic ownership and control of election service providers, and for other purposes; to the Committee on House Administration.

By Ms. VELÁZQUEZ:

H.R. 6575. A bill to reduce gun violence, fund gun violence research and victim assistance, and enhance the tracking of lost and stolen firearms, and for other purposes; to the Committee on the Judiciary, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. WELCH (for himself and Mr. BURGESS):

H.R. 6576. A bill to amend title XVIII of the Social Security Act to extend the Quality Payment Program-Small Practice, Underserved, and Rural Support program; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MOORE of Utah (for himself and Ms. KUSTER):

H. Res. 901. A resolution expressing the sense of the House of Representatives that BridgeUSA exchange programs are vital to the economy and national interests of the United States, and that Congress should prioritize robust support to ensure equitable opportunities for Americans and people from other countries; to the Committee on the Judiciary.

By Mr. JEFFRIES:

H. Res. 902. A resolution electing a certain Member to certain standing committees of the House of Representatives; considered and agreed to.

By Mr. LANGEVIN (for himself, Mr. PERLMUTTER, Mr. CURTIS, and Ms. STEFANIK):

H. Res. 903. A resolution commemorating the past success of the United States Olympic and Paralympic Teams and supporting the United States Olympic and Paralympic Teams in the 2022 Olympic Games and Paralympic Games; to the Committee on Foreign Affairs, and in addition to the Committee on Oversight and Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. LATURNER (for himself, Mr. ESTES, Mr. MANN, and Ms. DAVIDS of Kansas):

H. Res. 904. A resolution commending and congratulating the Coffeyville Community College Red Ravens men's basketball team on winning the 2021 National Junior College Athletic Association Division I men's basketball championship; to the Committee on Education and Labor.

CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mrs. AXNE:

H.R. 6557.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution

By Mr. BISHOP of North Carolina:

H.R. 6558.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 4, Clause 1

By Mr. BOWMAN:

H.R. 6559.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18

By Ms. BROWN of Ohio:

H.R. 6560.

Congress has the power to enact this legislation pursuant to the following:

Article I Section VIII

By Mr. COLE:

H.R. 6561.

Congress has the power to enact this legislation pursuant to the following:

Second Amendment to the United States Constitution

By Mrs. FLETCHER:

H.R. 6562.

Congress has the power to enact this legislation pursuant to the following:

Article I, section 8 of the Constitution of the United States.

By Mr. GOODEN of Texas:

H.R. 6563.

Congress has the power to enact this legislation pursuant to the following:

The Constitutional authority on which this bill rests is the power of Congress to lay and collect taxes, duties, imposts, and excises to pay the debts and provide for the common Defense and general welfare of the United States, as enumerated in Article I, Section 8, Clause 1. Thus, Congress has the authority not only to increase taxes, but also, to reduce taxes to promote the general welfare of the United States of America and her citizens. Additionally, Congress has the Constitutional authority to regulate commerce among the States and with Indian Tribes, as enumerated in Article I, Section 8, Clause 3.

By Mr. GREEN of Tennessee:

Congressional Record

PROCEEDINGS AND DEBATES OF THE 117th CONGRESS, SECOND SESSION

Vol. 168

WASHINGTON, WEDNESDAY, FEBRUARY 2, 2022

No. 21

Senate

The Senate met at 10 a.m. and was called to order by the Honorable PATTY MURRAY, a Senator from the State of Washington.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

King of kings and Lord of lords, we worship You for great is Your faithfulness. Today, show our lawmakers the way You desire for them to choose. Enable them to know with certainty that You are the God who delivers them.

Lord, inspire them to cultivate such a spirit of humility that they will obey Your commands regardless of the consequences. Let integrity and uprightness preserve them as they discover the joy of fellowship in Your presence.

We pray in Your merciful Name. Amen.

PLEDGE OF ALLEGIANCE

The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. LEAHY).

The senior assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, February 2, 2022.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable PATTY MURRAY, a Senator from the State of Washington, to perform the duties of the Chair.

PATRICK J. LEAHY,
President pro tempore.

Mrs. MURRAY thereupon assumed the Chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session and resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Rupa Ranga Puttagunta, of the District of Columbia, to be Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

TRIBUTE TO BEN RAY LUJÁN

Mr. SCHUMER. Madam President, yesterday, we all received the awful and frightening news that one of our dear friends, Senator BEN RAY LUJÁN of New Mexico, suffered a stroke last Thursday after experiencing dizziness and fatigue while back in his home State. Our thoughts, our prayers, and our most fervent well-wishes go out to BEN RAY and his family.

I was glad and relieved to hear that he is expected to make a full recovery, and all of us are rooting for him every

step of the way between now and the day he makes his return to the Senate.

Senator LUJÁN has served in this Chamber for only a year, but already he has become one of the most beloved Members of this body. Public service literally runs in the family, and you will be hard pressed to find someone who fights for their home State like BEN RAY does for New Mexico.

As Senator LUJÁN begins his path to full recovery, I want to offer encouragement and praise for his superb staff, who will continue their work providing vital constituent services for the people of New Mexico.

In the days to come, we will continue working and communicating with Senator LUJÁN's staff about his recovery process, and all of us are hopeful and optimistic that he will be back to his old self before long. In the meantime, the U.S. Senate will continue to move forward in carrying out its business on behalf of the American people.

BUSINESS BEFORE THE SENATE

Now, Madam President, it is going to be another busy day here on the Senate floor as we confirm more of President Biden's nominees to serve in his administration and on the Federal bench.

For the information of all, we will be holding three votes starting around 11 a.m. this morning to either confirm or invoke cloture on a handful of nominees to serve as associate judges for the District of Columbia.

Later this afternoon, at approximately 2:15, we will hold three more votes on additional judicial nominees. Members should be advised that additional votes may be scheduled as the day progresses. So I ask all of us to be patient and to be flexible. We have a lot of votes to get through today.

Most of these votes, in the old days, would have just occurred by voice, but our colleagues on the other side of the aisle—just a handful—are making us vote even for DC judges, circuit judges. But we have to get through them—the DC courts have come to a standstill—and many other votes.

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Printed on recycled paper.

S463

So we will have a lot of votes to get through today. All of us want to get to them and get them done in a timely manner to respect the schedule of our colleagues.

So in order to move things along, I am urging my colleagues to be ready to vote early when each vote is called so we can prevent extended delays and confirm as many of President Biden's qualified nominees as possible.

BANNING BOOKS

Now, on book banning, an entirely different matter, over the past year a truly Orwellian trend has spread across our schools, libraries, and State legislatures. With an intensity not seen in decades, far-right extremists at the local and State level are engaging in efforts to ban hundreds of book titles from the shelves of schools and public libraries.

These efforts are framed as attempts to regulate obscene or inappropriate content, but if you even take a passing glance at the books under scrutiny, it is clear the goal here is to censor and suppress materials that deal with matters of race, sexual and gender orientation, and, more broadly speaking, social injustice.

In Texas, for instance, State legislators have been demanding that schools send lists of titles to be scrutinized and, in some instances, have already pulled hundreds of titles from their shelves, from mere fear of repercussions.

In Mississippi, one mayor withheld funding from local public libraries and said he would only relent when all books exploring LGBTQ themes were removed. That is patently disgusting.

And in Tennessee, one school even banned a Pulitzer prize-winning graphic novel depicting the Holocaust because some mice weren't wearing clothes.

These new and unprecedented efforts by the far right to ban books that explore matters of injustice and racism are deeply disturbing and downright Orwellian. Many of the titles under attack have been well known for decades. Some are Pulitzer prize-winning works. Others are—get this—children's picture books—children's picture books. The list is broad—dizzily broad. Many of these works are vital to our society because they can do only what literature can do—explore timely social issues and expand people's understanding of the world around us.

We don't need to look that far into history to see what happens when we go down the dangerous road of censorship and suppression. When free expression is weakened, the mob is empowered. The groundwork is laid for further discrimination, intimidation, and, God forbid, increased violence.

It is one thing for families and local communities to have good-faith discussions about the best way to help our students learn and grow, but what we are seeing here today isn't that. These modern-day efforts from the far right to ban hundreds of books from the top

down are dangerous, patently un-American, and this right-wing cancel culture should be resoundingly condemned.

I yield the floor.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

TRIBUTE TO BEN RAY LUJÁN

Mr. McCONNELL. Madam President, first, the entire Senate is praying for and pulling for our colleague Senator LUJÁN. We learned yesterday that our colleague suffered a stroke late last week and has been hospitalized in New Mexico as he recovers. It is certainly encouraging to read that our friend and colleague is expected to make a full recovery.

I know that all 99 of his colleagues are thinking of him every day, rooting for a swift and smooth recovery, and already looking forward to the next time we see him.

CORONAVIRUS

Madam President, this week marks 2 years since the Federal Government first declared the new coronavirus outbreak a public health emergency. I don't need to recount the staggering number of lives lost or the terrible upheaval throughout our society that our citizens have had to endure.

Two years in, it is time for leaders at all levels of our society to take a deep breath, clear the decks, and review where we stand today.

Here is what we know in February of 2022: Thanks to the prior Senate's work with the prior administration, our country is flooded with safe and effective vaccines for all who want them.

We know the vaccines do not prevent us from catching the current variant of the virus or transmitting it to others, so there is no moral justification for vaccine mandates. But it is absolutely clear that vaccines slash the odds of hospitalization and death. They are a powerful personal shield that lowers the fatal risk of COVID beneath other normal background risks that we face regularly in our daily lives.

As the New York Times explained this week, "With a booster shot, COVID resembles other respiratory illnesses that have been around for years," and "[t]he chance that an average American will die in a car crash this week is significantly higher." That is from the New York Times.

The good news goes on. As we have known for months, children are even better off still. Unvaccinated kids seem to face the same extremely low risk as vaccinated people on the younger side of middle age.

In February 2022, we know we are currently facing an Omicron variant that seems both significantly more contagious than its predecessors but also significantly less severe.

Even in hard-hit States like my own, where hospitalizations remain too high, the curve of cases and hospitalizations appears to be starting to bend back down.

I continue to encourage Kentuckians and all Americans to discuss the vaccines with their doctors and take this safe and effective step. It can be the difference literally between life and death.

But from a society-wide perspective, after 2 years on this hellish highway, it appears our country is finally arriving at the off-ramp. The virus appears to be heading endemic. Seventy percent of Americans agree with the statement "It's time we accept that COVID is here to stay and we just need to get on with our lives." It is time for the state of emergency to wind down.

But, disturbingly, whether or not we should trust the science and reclaim normalcy is somehow becoming a partisan question. As a New York Times writer observed this week, "[M]illions of Democrats have decided that organizing their lives around COVID is core to their identity as progressives, even as pandemic isolation and disruption are fueling mental health problems, drug overdoses, violent crime, rising blood pressure and growing educational inequality." Those are not my words; that is the New York Times.

For goodness' sake, nearing 60 percent of partisan Democrats told one survey they would support placing unvaccinated people under a form of house arrest.

Let me say that again. Nearly 60 percent of partisan Democrats told one survey they would support placing unvaccinated people under a form of house arrest. A supermajority of Americans oppose that absurd idea, but most Democrats say they would support it.

A majority of Americans oppose the heavyhanded vaccine mandates where mayors and local politicians are trying to substitute their own judgment for the decisions of free citizens and their doctors. A majority of Americans oppose these vaccine passports, but nearly 80 percent of Democrats want them.

In communities across the country, bureaucrats are still forcing young children to wear a mask to participate in society, when neither kids nor vaccinated adults are remotely—remotely—likely to get gravely ill.

So what exactly are we doing here? Where are the goalposts? What is the end game?

Consider if this variant were its own separate virus that we were just meeting for the very first time, without the scar tissue from the prior 2 years. Nobody would accept anywhere near this much disruption to fight the virus that we are actually facing right now.

Here in Washington, multiple Congresses have spent a staggering \$6 trillion on this crisis. Of the most recent \$2 trillion that our Democratic colleagues rammed through last year, only 9 percent went to healthcare in any form; less than 1 percent went to vaccines. Even within that 9 percent, the Biden administration then diverted important COVID funding to other unrelated crises, like their border crisis.

Now we hear Democrats may request yet another—yet another—huge chunk

of emergency spending. But experts say as much as \$800 billion or \$900 billion of the money that we have already set aside has not even been spent yet. Eight or nine hundred billion of the money that we have already set aside has not been spent yet. What about a full accounting of the \$6 trillion that has already been approved?

If there are urgent needs for true, medical COVID needs, let's discuss it, and let's start the discussion by talking about repurposing the hundreds of billions that are already sitting in the pipeline.

As one report put it, "[T]he vast majority of almost \$200 billion allocated to K-12 schools has not been spent." That is \$200 billion. "The same goes for half of the \$195 billion sent out to state governments. And most city and county governments have not spent much of the \$130 billion they . . . received, either." Many States are swimming in cash and running surpluses. They have had to dream up creative non-COVID-related uses for these windfalls.

So, look, 2 years in, if Democrats call for more giant sums of emergency spending, the burden of proof lies with them to demonstrate that the hundreds of billions of dollars of unspent money already in the system are not sufficient. And unless something changes, so long as COVID continues retreating to the level of risk that we all regularly face in other aspects of daily life, then our leaders' duty to the American people is perfectly clear: Trust the vaccines, follow the data, forget the tribalism, work to assuage people's fears and neuroses with facts instead of feeding into them, and articulate your clear game plan to give the American people back their normalcy in the very near future.

UKRAINE

Madam President, on another matter, today, more than 100,000 Russian troops are holding positions along Ukraine's eastern borders. More have been deployed to Belarus to threaten Ukraine from the north. For the second time in a decade, Vladimir Putin's campaign to forcibly redraw the map of the European continent is on the verge of massive escalation.

For those of us who remember the Cold War, this strongman routine from stale Kremlin autocrats is quite familiar. But Ukraine is not a captive nation trapped behind the Iron Curtain; it is a free, democratic, and sovereign European country.

The proper response from the West should not be a mystery. The United States and our allies need to do four things right now.

First, we need to cut through the bureaucratic caution, inertia, and redtape that is slowing the delivery of military, economic, and humanitarian assistance to Ukraine. This help needs to arrive before—before—a Russian escalation so our friends can defend themselves and prepare for what could be a cold and bloody winter.

Ukraine is a proud, independent nation that wants to defend itself, but

after years of combating Russian aggression while simultaneously trying to tackle major political and economic reform, Ukraine needs help. It needs weapons. It needs communications equipment. It needs logistical and intelligence support.

We should be building the logistical networks now to prepare to keep flowing support to Ukraine in the event of escalation. I have been encouraged by the United Kingdom and other allies who are already making serious commitments to this effort.

Second, we need to bolster the defenses of our Eastern European NATO allies most threatened by Russia. This is a decision that the NATO alliance as a whole should make, but if it doesn't, the United States and other partners should not wait for consensus to act. We should strive for unity but not at the expense of security. Our most nervous allies cannot get unilateral veto power over the policy of the greatest Nation in world history.

Yesterday, I was glad to hear that U.S. forces are finally moving to reinforce our eastern flank allies. I urged President Biden to take the step nearly 2 months ago. I hope this belated action will lead other NATO allies to follow our lead.

Third, we need to impose overdue sanctions now—right now—to confront a litany of Russian threats, including their use of energy as a geostrategic weapon. At the same time, let's make clear we are prepared to impose even more devastating costs should Russia continue its aggression.

Again, we may have differences of opinion with parts of Europe, but we have priorities here that run deeper than matching our most timid allies.

As we consider sanctions, we should be honest about our past mistakes. In 2014, the Obama administration and our EU partners tried to use sanctions to halt the conflict, deter further aggression against Ukraine, and compel Russia to comply with the Minsk accords. Those sanctions are still in place, but they failed on all counts.

For Ukrainians, this is not a frozen conflict but an ongoing one. Russia's continued aggression is self-evident. Its Minsk commitments remain unfulfilled. We need to learn these lessons, avoid empty symbolism, and get ready to impose serious costs that could actually change Putin's calculus. But we also know that sanctions alone are not enough. Putin's behavior is a reminder that there is no substitute for hard power. Deterrence is stronger when our enemies question whether their military plans can succeed.

Fourth and finally, we and our NATO allies need to take a hard look at growing security threats and commit to investing in defense capabilities to actually meet those threats. This means revisiting the 2-percent pledge. It means having hard conversations about building real military capabilities.

When the Biden administration abandoned Afghanistan last year, China and

Russia were paying close attention. Now, Russia is testing our resolve in Eastern Europe, and China once again is taking notes. Our adversaries understand their best path to outmaneuver America is to outspend our commitment to defense.

So I hope President Biden will act swiftly to equip our European friends, reinforce our NATO allies, and punish Russian escalation. We must also pay serious attention to equipping the U.S. military for the next threat. It is past time—past time—to invest in modernization, hypersonic weapons, and our nuclear arsenal, and to encourage our European allies to wake up—wake up—follow our lead, and stand side by side against common threats.

The PRESIDING OFFICER (Mr. CASEY). The assistant majority leader.

Mr. DURBIN. Mr. President, I ask unanimous consent that Senators BRAUN, MURRAY, and I be able to complete our remarks prior to the scheduled votes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

APPROPRIATIONS

Mr. DURBIN. Mr. President, I want to follow up on the statement made by the Republican Senate leader, and I agree with many of the things he said. We disagree with others. But there is a way for us to show our commitment not only to our troops but to the defense of causes that are important to America, and it is in his hands. It is known as the appropriations bill for the Department of Defense. It is known as the appropriations and budget for the United States of America.

Where are we now? We are on something called a continuing resolution. That means we haven't decided. We can't get an agreement from the Republican leader to move forward on the spending bills for this fiscal year, which began October 1. We are spending at last year's levels when the Biden administration has asked for more money for the Nation's defense, and who is stopping him? The Republican leader.

So he can't have it both ways and argue we need to invest more in the defense of America and then stop us from an appropriations process that does just that. Let's get it done. This should have been done before last October 1, and his cooperation means it can be done now.

Now, let me say there is another aspect to it. Many speeches are given about the rise in crime in America. I know this personally, representing the State of Illinois and the great city of Chicago. The number of violent gun crimes in this last calendar year was just shocking. When you look at all of the people who have been hurt and killed with the use of guns in cities across America, it is clear that we need to invest in our police force and law enforcement. Hold them accountable for the right values and the right conduct, but put in their hands the resources to

protect us in our homes and our neighborhoods.

What is holding that up? The same decision by the Republican leader not to bring any appropriations bills forward for approval by the Congress. This is just mindless. You can't preach on one hand that you want to fund the police and then stop the appropriations process, which the Republicans in the Senate have done.

It is time to pass the Omnibus appropriations bill so the resources are going to ATF and to the U.S. Attorney's Offices and other law enforcement agencies that can help the State and local law enforcement efforts to try to suppress this violent crime.

So don't preach about the need for this money and then turn around and stop the effort here on Capitol Hill. Why aren't we voting on an Omnibus appropriations bill this week? Why? Why can't we get this done next week? It was supposed to be done last October, and it is time for us to do it.

UKRAINE

Mr. President, let me say a word about the Ukrainian situation. I feel strongly about this. As the cochair of the bipartisan Ukrainian Caucus, I have followed for years what has been going on in that country. There is one guiding principle that we should acknowledge: The fate and future and decisionmaking for the Ukrainian people should be in the hands of the Ukrainian people—not in Washington, not in Moscow, not in Bonn, not in Minsk, but in Kyiv, and the Ukrainian people across that country should have the right to do it.

The question about their future and their solidarity and defense comes down to the fact that they were invaded 8 years ago by Russia, which took over the Crimean province and then went on to expand their military force, the little green men—the so-called little green men who are just Russian surrogates who are fighting in the eastern part of Ukraine.

Is it any wonder that the Ukrainian people look to NATO and other forces to protect them? They have been invaded. For 7 or 8 years, they have lost thousands of their citizens innocently, who died in defense of their country. For us to stand in defense of Ukraine and their efforts to make their own decisions for their future just makes sense.

Ultimately, we may have theories on what that future should be, but it is their country, they are the people who rule it, and we respect their sovereignty.

I would just say that as far as Vladimir Putin is concerned, I know his style. I have seen it for a long, long time. We see the continuing threats that the Russians have against the Baltics, for example. These are small, independent, democratic countries that fought long and hard for that opportunity, and they are constantly menaced by Vladimir Putin and his Russian forces. The same is true for Poland.

It is important that we stand behind the NATO alliance, and one way to help the NATO alliance is to pass an appropriations bill that would give our resources promised to the alliance to them, instead of being stonewalled as we have been by the Republican leadership on that matter. It is long overdue that we get to that question.

E-CIGARETTES

Mr. President, I am glad that Senator MURRAY is on the floor because the issue I want to raise now is one that she knows well, and I thank her for her leadership.

A little bit of history. In 1964, an advisory committee headed by the U.S. Surgeon General issued a landmark report linking cigarette smoking to lung cancer, heart disease, and other deadly diseases—1964. That was considered to be breakthrough information, that tobacco actually caused cancer.

For decades after that, big tobacco companies denied it. They continued to lie to Congress and to the American people about the products they were selling. Tobacco companies knowingly lied to America when they claimed their products didn't cause cancer and weren't addictive, and they lied when they said they weren't targeting children with their products.

We know they lied because a trove of 14 million internal industry documents that finally were made public in 1998 as part of the settlement of a lawsuit in Minnesota showed what the five major tobacco companies actually knew when they were making public denials.

These same documents provided damning evidence against Big Tobacco in a historic lawsuit brought by attorneys general from 46 States. Let me read you some of the things that executives of Big Tobacco said about children and smoking in their own internal memos they thought would never see the light of day:

A 1981 report by Philip Morris, creator of the Marlboro Man, said: "[T]he overwhelming majority of smokers first begin to smoke while still in their teens. . . . The smoking patterns of teenagers are particularly important to Philip Morris."

"[T]he base of our business is the high school student." That is from a 1978 memo from the makers of Newport cigarettes.

This is from R.J. Reynolds, the brains behind the cartoon character Joe Camel. Here is what the document said: "The fragile, developing self-image of the young person needs all the support and enhancement it can get. Smoking may appear to enhance that image."

"Replacement smokers"—those were the repugnant words used by Big Tobacco executives to describe our kids, America's teenagers. If you can hook them young, you will have them for life—that was their game plan.

All of the tobacco industry's deadly deception about kids and tobacco was supposed to stop.

In 2009, Congress passed a landmark law giving the Food and Drug Adminis-

tration the clear authority and responsibility to regulate tobacco products. That was something Big Tobacco had fought for decades, but they lost. The Tobacco Control Act requires tobacco companies to obtain FDA approval for any new tobacco products. In a specific effort to discourage young people from smoking, the law also bans most flavored cigarettes because of their clear role in hooking kids.

When it comes to traditional cigarettes, we have made amazing strides in the time that I have served in Congress. Twenty years ago, nearly 30 percent of high school kids were smokers of cigarettes; today, fewer than 5 percent.

But tobacco companies didn't take this lying down. They came up with new products to hook kids: e-cigarettes, vaping, little gadgets that turn nicotine-spiked liquids into a vapor that is inhaled. It is powerful stuff. One pod of vaping liquid can contain as much nicotine as a whole pack of cigarettes.

They came up with flavors to entice children. Tell me—they deny it, but listen to the names of these flavors and see if they were made for kids or adults: Gummy Bears, Cotton Candy, Unicorn Poop, Fruit Loops, Skittles, Sweet Tarts. Come on. We know what this is all about. They are enticing kids to take up vaping and e-cigarettes, and it worked.

In 2014, e-cigarettes became the most popular tobacco product used by our kids. Today, nearly 30 percent of all high school students are vaping. The e-cigarette industry is now worth billions of dollars.

Who are the biggest players? Hang on tight. JUUL is the No. 1 seller of e-cigarettes. Altria, the largest seller of traditional cigarettes, bought a 35-percent stake in JUUL—Altria, buying 35 percent of JUUL. Vuse is the second largest seller of e-cigarettes. It is made by R.J. Reynolds, the producer of the Camel cigarettes, which caused my father's lung cancer. R.J. Reynolds is the second biggest seller of traditional cigarettes.

Do you see any patterns here? We all knew that Big Tobacco would try to find new ways to addict children on their deadly products. They never quit, which is why the Tobacco Control Act allowed the FDA to establish authority over e-cigarettes. But what we didn't expect was that the Food and Drug Administration would sit back as Big Tobacco dusted off its playbook to ignite what one former FDA Commissioner called "an epidemic of youth vaping" in America.

For years, teachers warned about kids using JUULs in the classroom. Parents found devices that looked like flash drives in their kids' backpacks. Even kids themselves warned about the highly addictive nature of e-cigarettes.

Many of us in the Senate demanded that the FDA take action. Senator MURRAY, the chair of the HELP Committee, has been one of the leaders of

this. Countless callers, letters, meetings with FDA Commissioners went nowhere. Testimony and alarming data from public health groups and parents yielded no action. The FDA still failed to use its existing statutory authority to police these e-cigarette products, allowing millions of e-cigarettes to flood the market illegally, while the e-cigarette manufacturers made outrageous and unsubstantiated claims downplaying their risk to kids.

In 2019, finally, a Federal judge stepped in and ordered the FDA to do its job, instructing them to finalize the review of e-cigarettes—remember this date—by September 2021, last September. The FDA's court-ordered deadline to act on pending e-cigarette applications passed nearly 5 months ago—5 months. Yet, incredibly, many of the e-cigarettes used mostly by kids—the products fueling the epidemic—are still on the market today.

The law is clear on this issue. Tobacco companies must prove—they have the burden of proving—to the Food and Drug Administration that their product is “appropriate for the protection of the public health.” Why haven't they proved it? Because they can't. There is no evidence of it. So, if they can't meet the burden of proof, how do they continue to sell these products on the open market? Meeting that burden was supposed to be a condition precedent, the first thing they had to do to sell these e-cigarettes. Well, it is because the FDA, the Food and Drug Administration, is sitting on its hands. It is refusing to use its own legal and statutory authority. Big Tobacco continues to target “replacement smokers.” Those are our kids.

The Senate is expected to vote soon on a new FDA Commissioner. In determining who that person will be, we will have the opportunity. Let me change that. We have the responsibility to make it clear that the FDA has to stop dragging its feet. It must use the authority provided by Congress to prohibit tobacco companies from preying on our kids for profit.

As Congress evaluates the nominees, we must be guided by the answer to this question: Do we believe that the incoming FDA leadership will correct the failures that have gone before them in allowing these e-cigarette companies to prey on our kids?

Yesterday, I spoke to Dr. Califf, who is Joe Biden's nominee to be the head of the FDA. I have had serious misgivings about whether he is the right person for the job, but I finally relented yesterday and said: Yes, Dr. Califf, I will support you, but if you make it, I am going to hold you personally responsible for taking control of this issue.

Our kids' lives are at stake. We have waited too long. The FDA has sat on its hands when it should be moving to protect our kids. It is long overdue. In the interest of our children, I sincerely hope that the leadership of the FDA will open its eyes and do its duty.

I yield the floor.

The PRESIDING OFFICER (Ms. SMITH). The Senator from Indiana.

UNANIMOUS CONSENT REQUEST—S. RES. 494

Mr. BRAUN. Madam President, on January 22, 1973, the Supreme Court handed down their decision in *Roe v. Wade*, homogenizing an approach to abortion across the country. It is estimated that over 60 million lives have been lost to abortion since this decision.

This resolution recognizes January 22, into the future, as the Day of Tears. It encourages Americans to lower their flags to halfstaff to mourn the lives lost to abortion.

I am joined on this resolution by Senators DAINES, INHOFE, BLACKBURN, HAGERTY, LANKFORD, HAWLEY, and ROUNDS.

Similar resolutions have passed in Alabama, Arizona, Arkansas, Idaho, Louisiana, and West Virginia. Representative JODY HICE is leading a similar measure in the House. It has 51 cosponsors from 26 States.

Two weeks ago, thousands of Americans joined the March for Life to stand up for the unborn. Later this year, the Supreme Court will issue a decision on a case which strikes at the heart of *Roe v. Wade*. Our current abortion guidelines, we only have five other countries that would be similar. Two of those countries are China and North Korea. What does that say about abortion in America?

Minimally, the Court needs to return this to the States so that we don't have this policy put upon all of the States, at least half of which disagree with it. Whatever that decision may be, we must remember the millions of lives lost to the tragedy of abortion.

Madam President, as if in legislative session, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration and that the Senate now proceed to S. Res. 494. I further ask that the resolution be agreed to, that the preamble be agreed to, and that the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Washington.

Mrs. MURRAY. Madam President, reserving the right to object.

Just weeks ago, we celebrated the anniversary of *Roe v. Wade*—the landmark decision that affirmed the right to abortion and changed so many lives for the better.

Across the country, patients spoke out about their experiences before *Roe*—about how *Roe* meant they could get an abortion they needed or even how, after *Roe*, they still struggled to get access to abortion. But what was present in all of those stories was real fear about what the future holds—the fear of what a country without *Roe* would look like—because that is what Republicans are pushing for all across the country.

Republicans in Texas passed SB 8, which bans abortions after 6 weeks and

allows people to sue anyone who helps someone get an abortion.

In Idaho, bordering my home State of Washington, extreme Republican legislators are trying to pass a law modeled after the Texas abortion ban.

Republicans in Mississippi brought a direct challenge of *Roe* to the Supreme Court and have told the Court, in no uncertain terms, they believe *Roe* should be overturned.

Now, those are just a few examples, and we have got one more here in the Senate today.

The resolution from the Senator from Indiana sends a message that the Republican Party knows best when it comes to some of the most personal decisions people make about their health and their futures, about when and whether to have children, and about what is best for themselves and their families.

Well, they don't.

In fact, the majority of Americans support *Roe* and do not want to see it overturned. They want a country where everyone can control their own bodies and their own futures, and that is exactly what I am fighting for so I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from Indiana.

Mr. BRAUN. Madam President, the Senator from Washington makes the point that this is Republicans. This is not Republicans. Of course, they are for doing what needs to be done, and that is returning this to the States, minimally, taking a decision that was out of context back in 1973, when it was made.

And the opposite of the argument she made would be, Why should the Federal Government, based upon the judiciary ruling that was out of context, force this on the entirety of the country? When it comes to what it allows now—abortions late into a pregnancy—that is not supported by most of the country.

So, minimally, this ought to be returned to the States to reflect the views of the different States in this country—50 of them. Over half disagree with it, and over half of our citizens would say that it makes more sense than what we have now.

I yield the floor.

VOTE ON PUTTAGUNTA NOMINATION

The PRESIDING OFFICER. Under the previous order, all postcloture time has expired.

The question is, Will the Senate advise and consent to the Puttagunta nomination?

Mrs. MURRAY. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN), the Senator from Vermont (Mr. SANDERS), and the Senator from Maryland

(Mr. VAN HOLLEN) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN) and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting: the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The PRESIDING OFFICER (Mr. DURBIN). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 57, nays 38, as follows:

[Rollcall Vote No. 21 Ex.]

YEAS—57

Baldwin	Hassan	Peters
Bennet	Heinrich	Portman
Blumenthal	Hickenlooper	Reed
Blunt	Hirono	Rosen
Booker	Kaine	Rounds
Brown	Kelly	Schatz
Cantwell	King	Schumer
Capito	Klobuchar	Shaheen
Cardin	Leahy	Sinema
Carper	Manchin	Smith
Casey	Markey	Stabenow
Collins	McConnell	Tester
Coons	Menendez	Tillis
Cortez Masto	Merkley	Toomey
Duckworth	Murkowski	Warner
Durbin	Murphy	Warnock
Feinstein	Murray	Warren
Gillibrand	Ossoff	Whitehouse
Graham	Padilla	Wyden

NAYS—38

Barrasso	Fischer	Paul
Blackburn	Grassley	Risch
Boozman	Hagerty	Rubio
Braun	Hawley	Sasse
Burr	Hyde-Smith	Scott (FL)
Cassidy	Inhofe	Scott (SC)
Cornyn	Johnson	Shelby
Cotton	Kennedy	Sullivan
Cramer	Lankford	Thune
Crapo	Lee	Tuberville
Cruz	Lummis	Wicker
Daines	Marshall	Young
Ernst	Moran	

NOT VOTING—5

Hoeven	Romney	Van Hollen
Lujan	Sanders	

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate's action.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 556, Ebony M. Scott, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

Charles E. Schumer, Gary C. Peters, Sheldon Whitehouse, Richard J. Durbin, Richard Blumenthal, Catherine Cortez Masto, Jacky Rosen, Margaret Wood Hassan, Mark Kelly, Benjamin L. Cardin, Brian Schatz, Debbie Stabenow, Angus S. King, Jr., Patrick J. Leahy, Martin Heinrich, Tim Kaine, Chris Van Hollen.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Ebony M. Scott, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Maryland (Mr. VAN HOLLEN) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN), the Senator from Kansas (Mr. MARSHALL), and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay" and the Senator from Kansas (Mr. MARSHALL) would have voted "nay."

The yeas and nays resulted—yeas 58, nays 37, as follows:

[Rollcall Vote No. 22 Ex.]

YEAS—58

Baldwin	Heinrich	Reed
Bennet	Hickenlooper	Rosen
Blumenthal	Hirono	Rounds
Blunt	Kaine	Sanders
Booker	Kelly	Schatz
Brown	King	Schumer
Cantwell	Klobuchar	Shaheen
Capito	Leahy	Sinema
Cardin	Manchin	Smith

Crapo	Lee	Wicker
Cruz	Lummis	Young
Daines	Moran	
Ernst	Paul	

NOT VOTING—5

Hoeven	Marshall	Van Hollen
Lujan	Romney	

The PRESIDING OFFICER (Mr. HICKENLOOPER). The yeas are 58, and the nays are 37.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. The clerk will report the nomination.

The bill clerk reported the nomination of Ebony M. Scott, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 557, Donald Walker Tunnage, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for a term of fifteen years.

Charles E. Schumer, Gary C. Peters, Sheldon Whitehouse, Richard J. Durbin, Richard Blumenthal, Catherine Cortez Masto, Jacky Rosen, Margaret Wood Hassan, Mark Kelly, Benjamin L. Cardin, Brian Schatz, Debbie Stabenow, Angus S. King, Jr., Patrick J. Leahy, Martin Heinrich, Tim Kaine, Chris Van Hollen.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Donald Walker Tunnage, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for a term of fifteen years, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Maryland (Mr. VAN HOLLEN) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN), the Senator from Kansas (Mr. MARSHALL), and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting: the Senator from North Dakota (Mr. HOEVEN) would have voted "nay," and the Senator from Kansas (Mr. MARSHALL) would have voted "nay."

The yeas and nays resulted—yeas 57, nays 38, as follows:

[Rollcall Vote No. 23 Ex.]

YEAS—57

Baldwin	Hassan	Portman
Bennet	Heinrich	Reed
Blumenthal	Hickenlooper	Rosen

Grassley	Moran	Wicker
Hagerty	Paul	Young
Hawley	Risch	

NOT VOTING—5

Hoeven	Marshall	Van Hollen
Lujan	Romney	

(Mr. WHITEHOUSE assumed the Chair.)

The PRESIDING OFFICER (Mr. OSSOFF). On this vote, the yeas are 57, the nays are 38.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. The clerk will report the nomination.

The senior assistant legislative clerk read the nomination of Donald Walker Tunnage, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for a term of fifteen years.

The PRESIDING OFFICER. The Senator from Michigan.

JUDICIAL NOMINATIONS

Mr. PETERS. Mr. President, I rise today to urge my colleagues to confirm several highly qualified nominees to serve on the local District of Columbia courts—the DC Superior Court, which functions as the State-level trial court, and the DC Court of Appeals, which serves as the State-level appellate court right here in our Nation's Capital.

Both courts are currently suffering from a vacancy crisis. There are 16 of the 62 DC Superior Court seats that are currently empty, and 3 of the 9 seats on the DC Court of Appeals are also vacant, slowing justice and impeding public safety for all District residents.

Last year, the Committee on Homeland Security and Governmental Affairs reported seven nominees to serve on the DC courts by a bipartisan voice vote. These include five nominees to serve on the DC Superior Court—Rupa Ranga Puttagunta, Kenia Seoane Lopez, Sean Staples, Ebony Scott, and Donald Tunnage—and two nominees to serve on the DC Court of Appeals—John Howard III and Loren AliKhan.

Judge Puttagunta currently serves as an administrative judge for the DC Rental Housing Commission. She began her legal career as a law clerk in the DC Superior Court and the DC Court of Appeals and practiced for several years in the District of Columbia, focusing on family and criminal law. I am certainly pleased that my colleagues confirmed her earlier today.

Judge Seoane Lopez currently serves as a magistrate judge on the Superior Court of the District of Columbia, a position that she has held for 9 years. She previously served as a bilingual attorney negotiator in the court's domestic violence division and as an assistant

attorney general for the Office of the Attorney General of the District of Columbia.

Judge Staples also currently serves as a magistrate judge for the District of Columbia Superior Court, a position he was appointed to in 2013. Early in his career, he served as a law clerk on the superior court and then worked as a solo practitioner and an assistant public defender. He went on to work as a clinical professor for several years, supervising law students representing criminal defendants in DC Superior Court.

Judge Scott has served as a magistrate judge on DC Superior Court since 2020. She previously served as a deputy director in the DC Mayor's Office of Legal Counsel as general counsel for the District of Columbia Office of Human Rights and the assistant attorney general for the DC Office of the Attorney General's housing and community justice section.

Mr. Tunnage has served as a criminal trial attorney in the Civil Rights Division of the U.S. Department of Justice since 2009 and previously served as an assistant public defender in Miami, FL.

Loren AliKhan has served as the solicitor general for the District of Columbia since 2018. She previously served as deputy solicitor general and spent time in the U.S. Department of Justice and in the appellate practice division of a DC law firm.

John Howard III currently serves as an administrative law judge with the District of Columbia Office of Administrative Hearings. He previously worked in private practice and served as an administrative law judge with the District of Columbia Commission on Human Rights.

All of these nominees are experienced lawyers and adjudicators, and all of them are dedicated to serving the people of the District of Columbia.

These are not controversial nominations. Unlike Federal judicial nominees, these individuals are extensively vetted by an independent, seven-member local commission, which recommends candidates for the President to nominate.

During the last administration, the Senate confirmed 10 local DC judicial nominees, all by voice vote.

I urge my colleagues to join me in confirming these nominees, each of whom has broad and strong bipartisan support.

Thank you.

The PRESIDING OFFICER. The Senator from Texas.

ISSUES FACING AMERICA

Mr. CORNYN. Mr. President, during the last break in our voting schedule here in Washington, DC, I was grateful to have the time back home talking with my constituents about the challenges they are facing on a day-to-day basis and, like we all, I think, try to do, figuring out how we can be helpful to them here in the Senate.

I must note that there is usually a huge disconnect between what seems to

obsess the news media and folks living in the bubble of Washington, DC, and what I hear from my constituents back home, and this time wasn't much different.

When I was back in Austin, I received a briefing on the ongoing pandemic response efforts. Like the rest of the country and the rest of the world, COVID-19 hasn't gone away, and we are trying to slowly but surely both adapt and deal with the pandemic.

Thanks to an overwhelming response by the Federal Government initially back during the Trump administration, during Operation Warp Speed, we have access to vaccines on the fastest timeline that we have ever seen. Medical science and pharmaceutical companies and the government came together to produce effective and safe vaccines at a historic rate of speed. But even as the virus itself has morphed, as viruses, I understand, will likely do, we still continue to need things like personal protective equipment and additional tests and antibiotics treatments for people in my State.

Ironically, President Biden ran in large part in 2020 based on the COVID response of the Trump administration and, as we all recall, was pretty harshly critical. But now he seems to have changed his tune. When asked about things like access to testing, he says: Well, those are really State responsibilities.

Well, passing the buck is a familiar pastime here in Washington, DC, but I don't think anybody is fooled that this is an area where the Federal Government continues to play an essential role. Yes, our State leaders have done by and large, I think, a good job in their respective jurisdictions. The fact of the matter is, we still need a plan to deal with the testing and the ongoing effects of COVID-19.

Interestingly, people who wanted to get access to things like therapeutics, anti-viral drugs, and monoclonal antibiotics were told that the Federal Government would not allow the States to use those particular modalities anymore because the Federal Government had made a decision that this was not effective against the current strain. But, as we know, this virus continues to mutate. We are hoping that we don't go all the way through the Greek alphabet in various forms of this virus, but the fact of the matter is, I think we have all now gotten a little glimpse out of what Washington-run healthcare would look like, starting with rationing based on decisions being made in Washington, DC, about what should be available to people when they get sick or when they see their doctor.

I believe that those decisions are best left to individuals, in consultation with their healthcare provider to make those decisions. But we have gotten a little bit of a glimpse when Washington says no monoclonal antibiotics anymore, no therapeutic anti-virals because they don't work against the current strain of COVID-19, the Omicron.

As I said, the virus is probably not going to stop mutating, and unfortunately, I think the Federal response—rationing access to these therapies and treatment—could well backlash on the government.

I am appreciative of the dedicated work of all of our frontline healthcare workers. As we all know, they have been pushed to the limit, dealing with COVID-19. They are exhausted and, in many instances, burned out.

There are not enough frontline healthcare workers currently. What that means is that many hospitals and healthcare providers have to contract with nursing services, which really are national organizations that hire nurses and then contract out as needed to local hospitals. What that usually means is, because there are not enough local nurses available at the going rate, they have to contract for prices for those nursing services that are many multiples of what ordinarily they would have to do, causing a lot of pain and strain on healthcare providers across Texas and across the Nation.

On my travels, I went to Fort Worth, where I visited with the University of North Texas Health Science Center to discuss legislation that I have introduced, along with Senator LEAHY, a senior member of the Judiciary Committee, called the Justice for All Reauthorization Act. As the name suggests, this is a reauthorization of very important tools that are needed at the local level to support victims and deliver justice and avoid wrongful convictions.

This really focuses on the use of forensic techniques to test DNA and other samples—for example, in a rape kit, which is collected following a sexual assault, by a forensic nurse examiner who can collect a rape kit. Assuming it is done properly and it is provided to a lab that performs the appropriate test, you can identify with almost 100 percent certainty who the assailant is or was. So it is really important for us to make sure those tools remain available, including eliminating further that rape kit backlog.

It used to be that the rape kits were not tested when the identity of the assailant was not in question, because, in fact, many times the identity of the assailant is known to the victim of that assault. But, as we found out, the power of these forensic tests is immense. And we can rule out somebody based on the DNA test. We can identify people who have perpetrated multiple sexual assaults because many of these sexual assault predators are serial offenders. And what we found out is even when the statute of limitations has run, let's say, against a particular sexual assault, many times you will be able to identify with virtual certainty the individual who committed a subsequent sexual assault for which the statute of limitations has not run. So that remains very, very important.

In Houston, which is, we like to say, the energy capital of the world, I sat down with leaders to discuss legisla-

tion that I have introduced with Senator COONS, the Senator from Delaware, to expand the use of hydrogen technologies in energy-intensive sectors. Hydrogen is a unique energy source. As a matter of fact, Toyota, I believe, has developed a fuel cell technology where, if you use hydrogen in the fuel cell, you will not only get propulsion of a vehicle, you will actually get water out the tailpipe. So it is very clean, and it is very safe.

But the problem is, of course, the expense of this new technology and trying to get it used in places where it makes the most sense because the infrastructure is critical both for the storage and the delivery of the hydrogen for use in these energy-intensive sectors.

Texas is already the epicenter of energy production. We believe in all of the above when it comes to energy, and these investments in new clean energy like hydrogen can help us grow and diversify our State's energy portfolio even further while continuing to reduce emissions in many sectors that are currently big emitters of carbon and other emissions.

So it was great to be back home, as I know we all feel when we get back home, and to listen and to learn from your constituents—not just the official talking points and the subjects that are always on cable news or social media but about the challenges and the needs and the hopes and the dreams of the people we represent, real people, the 29 million people I am privileged to represent in the Senate from Texas.

We also hear about some of their problems that they are dealing with like inflation, and we are hearing more about rising crime. And my constituents are looking to Congress for some leadership and some action. They want to see clear and decisive steps made to address the problems that Texas families confront on a regular basis. But, as I said, there isn't a whole lot of overlap, it seems, with the agenda here in Washington by the current majority in the House and the Senate and the priorities of my constituents back home.

So the debates in Congress have largely been detached from their reality. It is like living in an alternate universe, where we spend more time talking about manufactured crises or political agendas than solving real problems.

This year, it began with the \$2 trillion partisan spending bill. Our colleagues abused the rules of the Senate to pass this legislation without a single Republican vote, and clearly they were hooked because partisan legislating became the rule and not the exception last year. Our colleagues scheduled votes on legislation that would exploit the cause of pay fairness in order to help trial lawyers, even though wage discrimination based on sex has been illegal for nearly 60 years.

They scheduled a number of votes on varying versions of legislation to hijack America's elections because of an

alleged voting rights crisis, even though last November 2020 94 percent of respondents to a Pew poll said it was either easy or very easy to cast a ballot in the 2020 election.

Now, I had an interesting exchange with the majority leader on this. I actually had a chart that talked about that Pew poll. And he said: Well, yeah, we agree everything was hunky-dory in November 2020, but then it all went down the tubes when States began passing new election laws.

But I pointed out to him—or I asked him: Well, what is your primary concern?

He said: Well, ballot harvesting.

He thought that there ought to be more permissive ballot harvesting than is allowed in some States. But he didn't talk about the things like eliminating voter ID or making it harder to protect the integrity of the ballot by making sure that the person, whether they were mailing in their ballot or whether they were voting in person, was who they say they were and legally entitled to vote. But, again, we spend a lot of time on those multiple attempts to pass that takeover of State-run and local-run elections.

And then there was the so-called Build Back Better bill. I am sure that was focus group-tested so that it would be appealing to people who maybe didn't know exactly what was in it, but then we found out that it was massive tax increases and massive spending at a time when inflation was as bad as it has been in my lifetime and where the dollar earned by working families goes less and less far and, in fact, diminishes their standard of living because of the effect of inflation.

So the BBB bill—some have called it Build Back Better; I prefer “Build Back Broke” or “Build Back Bankrupt”—which clearly would have thrown gasoline on the problem of inflation, along with raising taxes and depress our economy and job creation, it was so expensive and unnecessary that our colleagues couldn't get all 50 Members of their own conference on board.

And that is what happens when you have a 50-50 Senate with the Vice President breaking a tie. This isn't exactly like FDR's New Deal, where he had huge majorities and could basically move the country in any direction he wanted. What you would ordinarily think with a 50-50 Senate is that requires bipartisan consensus building, not trying to go it alone in a purely partisan manner. And it is no surprise that it wasn't successful.

Well, obviously, economists have something called opportunity cost, and what that means, as I understand it, is that if you are choosing to do one thing, that means there are other things that you necessarily cannot do, and that is an opportunity cost.

And one of the obvious costs to the American people is the border crisis

that has seen more than 2 million individuals encountered at the southwestern border. It is no secret to anybody that the drugs—including fentanyl, methamphetamine, and cocaine, just to mention a few of the drugs—that took the lives of 100,000 Americans last year through drug overdoses, virtually all of those come across the southwestern border.

And the cartels are not dumb. They are actually pretty shrewd. And they figured out that if you flood the zone, you flood the border with massive numbers of unaccompanied children and other vulnerable people, that the Border Patrol will have to leave their station on the border keeping the drugs and the cartels at bay, and that opens up huge avenues of opportunity to smuggling drugs illegally into the United States, in addition to the billions of dollars that they earn bringing people into the United States from more than 150 different countries.

I know most people who don't live in a border State or who haven't been to the border, they think, well, these are economic migrants from Central America. That seems to be what the Vice President, who has been designated as the "immigration czar," so to speak, by President Biden, what she seems to think. And, frankly, from the comments of the President himself, he doesn't understand the dynamic at the border.

But, in reality, what Secretary Mayorkas, at the Department of Homeland Security, and the Biden administration have done is to lay out the red carpet for human smugglers and drug smugglers and migrants coming from around the world. Early on in the Biden administration, I went to the Del Rio Sector of the Border Patrol, and they told us that people who they detained had come from more than 150 different countries.

So this is really a global phenomenon based on how much money you have and how much you are willing to spend—to the smugglers—to get into the United States. And, again, for everybody whom we have no record on, we don't know whether they have been sex offenders; we don't know whether they have been murderers or committed other crimes back in their home country. And we also know that, occasionally, we do catch people who have been deported from the United States because of criminal offenses who then come back into the United States because of the opportunities provided by the lack of border controls.

This doesn't take into account all of the people whom the Border Patrol calls the "get-aways." In other words, we know how many people turn themselves in and try to take advantage of the asylum system by flooding our immigration courts and creating a huge backlog and then melting into the great American landscape, but there are people who do penetrate our borders that the Border Patrol never encounters, and so it is really hard to

know precisely what they are up to. But I can assure you, based on my observation and experience, they are up to no good if they are avoiding the Border Patrol.

Well, in trying to be constructive, which I believe in trying to do—Washington, DC, can be a pretty tough place, and for sure there are going to be things we disagree on, but there are also opportunities to do things on a bipartisan basis. So seeing what was happening at the border, I reached out to another border State Senator, Senator SINEMA from Arizona; and she and I both reached out to a Congressman from Laredo, TX, Congressman CUELLAR, and Congressman TONY GONZALES—CUELLAR, a Democrat, and GONZALES, a Republican.

So we had, literally, a bicameral, bipartisan effort to come up with a piece of legislation that we thought that, assuming the administration wanted some help, this might be a good place to start. It is called the Bipartisan Border Solutions Act. But I am sorry to report that the administration—indeed, the Democratic leadership, particularly on the Judiciary Committee that has jurisdiction over immigration matters—has shown absolutely zero interest in any kind of measures to stop or to reduce the flow of migrants into the United States and solve this problem.

Well, obviously, crime is still a big problem in America, and the border is part of the problem because of the unrestricted flow of people coming across the border. But we know last year, in 2020, murders—that is 2 years ago now, 2 calendar years ago now—murders rose by nearly 30 percent from the year prior, the largest single-year increase on record. So crime has definitely spiked, for whatever reason, and requires a forceful and effective response. We are still waiting on data from 2021, but so far the picture doesn't appear to be much brighter. A number of major cities have experienced their deadliest years on record.

And Americans are taking notice. A poll in November found that more than half of those surveyed believe local crime has gotten worse—a 13-point jump from the previous year. Concerns about national crime rates are even higher. Nearly three-quarters of Americans who were polled believe that crime is up nationally, and they are not wrong.

This, of course, is bad news for our families, our communities, our businesses, and especially for our dedicated law enforcement officials. Within a 5-day span just last week, five Harris County police officers—that is Houston, TX—as well as a police canine officer were killed or injured. During a 5-day span, five were killed.

An officer was shot and killed during a traffic stop. One was killed during a hit-and-run while off duty. Three officers were wounded in a shootout, and a police canine was stabbed with a butcher knife.

Amid this surge of crime and concerning acts of violence against law enforcement and civilians, there is a clear need for Congress to step up and act. We need to pass legislation to ensure that our police forces are well funded, transparent, and held accountable. Unfortunately, this is not a priority for the majority party. The radical left and their base want to defund the police, and most Democrats seem to be intimidated about speaking up and speaking for their constituents when it comes to stopping or abating these crimes.

As I mentioned, families are also being pummeled by the highest inflation in 40 years, and we have all seen prices going up everywhere, from the gas pump to groceries, to cars, to clothes.

Business owners, of course, have been hit with a double whammy, as supply chain issues have made it even more difficult and costly to produce and sell and ship their products.

As I mentioned, gas prices are perhaps the most easily identified area where inflation is eating away at people's paychecks. Drivers are now spending 50 percent more today than they were a year ago on a gallon of gas.

That is not just the big, headline-grabbing crises the Biden administration has failed to address.

The national defense authorization bill is one of the best examples of what we should do here in the Senate—an example of bipartisanship. A version of this bill has passed every year for 61 years, and, last summer, things appeared to be on track, even ahead of schedule. The Armed Services Committee passed a national defense authorization bill by a vote of 23 to 3. You don't get more bipartisan than that.

Unfortunately, for some reason, the majority leader refused to bring the defense authorization bill to the floor and left the bill to collect dust on the Senate calendar before moving it. When he finally allowed it to come to the floor in late November, he tried to limit the normal amendment process by blaming the calendar. But to no one's surprise, that created a lot of issues and a lot of consternation. You simply can't sit on a bipartisan bill for months and then claim there is no time for a robust amendment process.

But eventually the Senate did pass the Defense authorization bill before the end of the year. But we can't get in the habit of delaying bipartisan bills in order to meet a partisan agenda.

Then there is government funding. We are more than a year into the Democratic-controlled majority controlling the government and not a single regular appropriations bill has passed. Our colleagues have kicked the can down the road.

Mr. WHITEHOUSE. Mr. President, will the Senator yield for a question?

The PRESIDING OFFICER. Does the Senator yield for a question?

Mr. CORNYN. As soon as I am through with my remarks, I will be glad to yield.

Mr. WHITEHOUSE. That was the question—how soon that might be, given that we have a 2:15 vote coming up.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. CORNYN. So our colleagues kicked the can down the road when it came to keeping the lights on in the appropriations process in September and December, and now it looks like they are poised to do it again and will not meet the February 18 deadline.

So with the focus on partisan politics rather than bipartisan opportunities, our colleagues in the majority have simply ignored the basic responsibilities of governing. They put the demands of partisanship ahead of the needs of the American people. Rather than reevaluate the strategy and perhaps make a course correction, our colleagues have doubled down. They scheduled another vote on their partisan election takeover bill. And when it failed, they attempted to blow up the rules of the Senate to create an easier pathway to purely partisan legislation.

So there is a massive disconnect between what Democrats in the majority have been trying to accomplish here in Washington, DC, and what the American people are telling me—particularly my constituents—that they actually need.

Families in Texas are struggling to pay their gas and grocery bills, and they are worried about the increase in violent crime. But our colleagues are trying to convince them that they are wrong and that what is important is a Federal takeover of State-run elections and to provide additional tax breaks to millionaires and billionaires from blue States by lifting or eliminating the cap on deductibility of State and local taxes, as they attempted to do.

So a lot of the time we have had this last year—the opportunity to pass good and meaningful legislation—has been lost, and thus the opportunity cost of this partisanship is things that really would make a difference and improve the lives of ordinary Americans.

The American people are not asking for a radical transformation of the country. That was pretty clear by the 50-50 Senate that they elected in 2020, as well as a bare Democratic majority in the House. They want safe communities. They want an affordable standard of living. They want secure borders. They want the right to decide what is best for themselves and their families and not be dictated to or mandated by the Federal Government.

So I continue to hope that our Democratic colleagues will abandon partisanship and use the remainder of this year to support what the American people actually want and need.

Mr. President, I would be glad to yield for a question.

Mr. WHITEHOUSE. No. My question was, simply, how long the Senator was going to proceed, given that the schedule for my remarks was at 1:35. So no further questions. I apologize for inter-

rupting. I was just trying to sort out the timing.

The PRESIDING OFFICER. The Senator from Rhode Island.

CLIMATE CHANGE

Mr. WHITEHOUSE. Mr. President, I am not very happy to be back with my trusty and somewhat battered “Time to Wake Up” poster. Almost exactly a year ago, I delivered what I hoped would be my last “Time to Wake Up” speech and took the poster off the floor.

Things looked good then. The conditions for climate progress were in place. Voters had elected a Democratic President and Democratic majorities in both Houses of Congress. So the malicious grip of the fossil fuel industry on the Republican Party was no longer a stopper.

President Biden ran on a fact-based, uncorrupted climate agenda, and many in our congressional majorities campaigned on climate action. We had reconciliation to work with, and work began on a serious climate bill.

Actually, after I stopped these speeches, the Smithsonian asked me if they could have this old poster. It is the most used poster in Senate history, it turns out. And I came pretty close to turning it over to them, but something made me hesitate. And, well, here it is back again.

We just aren’t making progress, not by the only measurement that matters: greenhouse gas emissions. We are 1 year in—with no bill, no carbon regulation, and no litigation—and look at the climate havoc.

Scientists reported that global temperatures registered between 1.1 and 1.2 Celsius above average in 2021. That is among the hottest years ever observed by human beings, and it is dangerously close to our safety ceiling of 1.5 degrees Celsius. And we are here despite 2021 being a La Nina year, when cold Pacific water usually cools global temperatures. The last 7 years are the 7 hottest years in recorded history.

Republicans may mock and disparage this, but they are paid agents of the polluters causing this. And they are wrong.

In past speeches, I have described how our oceans absorb a massive amount of the heat that is trapped by greenhouse gas pollution. It is the heat equivalent of multiple Hiroshima-sized nuclear bombs being set off in the ocean every second—multiple Hiroshima-sized nuclear devices’ worth of heat per second that we are adding to the ocean.

In the last three decades, our oceans warmed eight times faster than preceding decades. And it is so massive that it has its own measurement term: the zettajoule. The top 2,000 feet of ocean absorbed a record 227 excess zettajoules of energy in 2021.

So what is a zettajoule? Well, a half zettajoule—a half zettajoule—is the total annual energy consumption of the planet. That little line right down there represents a half zettajoule—the

total energy consumption of planet Earth, all humans. And here is the heat that that loaded into the oceans because of the amplification of greenhouse gases—227, one-half—so about 500 times as much heat going into the oceans as our entire energy heat spend as a species.

And ocean temperatures are, of course, now the hottest ever recorded. The excess heat means dying coral reefs and lost fisheries with acidified seas. It means higher sea levels, as heated water expands; and more severe storms, as heated waters supercharge storm systems, including the sort of thunderstorm complexes that spawned Midwestern tornadoes in December.

Republicans may mock and disparage this, but remember: They are paid agents of the polluters causing this. And they are wrong.

This costs lives and dollars. The United States suffered 20 separate billion-dollar weather disasters in 2021—almost 700 deaths and \$100 billion of damage. The year before, we had hit \$22 billion disasters: tropical cyclones, coastal floods, western wildfires. The most spectacular fire didn’t actually even make it on to this list because it ripped through more than a thousand homes and businesses in suburban Denver in December. That fire didn’t even make it onto this top disasters list.

The Pacific Northwest heat wave of June 2021 smashed all records. A town in normally temperate British Columbia saw 116-degree temperatures, beating the previous Canadian national record by 3 degrees. The next day, the thermometer hit 118 degrees; the day after that, 121 degrees. And the day after that, a wildfire burned the town to the ground.

In Washington and Oregon, temperatures shot off the charts. These graphs show maximum daily temperatures in Seattle and Portland. The dots on these charts that form this gray band represent every daily maximum temperature reading over the last 42 years—over 15,000 data points. The red dots here and here reflect for Seattle and for Portland those days—way beyond the norms.

These temperatures aren’t just uncomfortable. They are lethal. Research shows more than 600 excess deaths during the June heat wave in Washington and Oregon. Those 600 people aren’t even counted in that storm death toll I mentioned before.

So why aren’t we doing anything about it? Two primary reasons: fossil fuel obstruction and corporate indifference. To be blunt, the fossil fuel industry controls the Republican Party the way a ventriloquist controls a painted wooden dummy, and the rest of corporate America lets them get away with it.

The fossil fuel obstruction isn’t new. They have been at it for decades. Dozens of colleagues have joined me here on the Senate floor, exposing the web of climate denial the industry wove to perpetrate their obstruction.

The fossil fuel industry is still at it. They have just changed it up a bit. They can't debate the science anymore, and they can't argue against the urgency, but they can still write checks. They can fund phony front groups and fill Republican campaign coffers.

And though they can't sell climate denial, they can buy climate delay. They can hire the biggest PR and advertising firms around—like Edelman, IPG, WPP—to pollute our minds with slippery greenwashing, like they pollute our skies and oceans with their carbon emissions.

Here is an example of this stuff in action. Type “fossil fuels” into Google, and this is the slick, phony paid-for result you get—a fossil fuel giant saying it is “already a willing and able player in the energy transition, read more.”

The Guardian and watchdog group InfluenceMap exposed how fossil fuel PR companies cook up these ads designed to look like Google search results. “Don't do anything, we've got this” is their Big Lie message of these ads. The watchdogs call this “endemic greenwashing.”

The industry doesn't just lie and pay politicians; fossil fuel companies also use trade associations and dark money front groups to whip up opposition to climate legislation.

Coal-heavy electric utilities and their dark money cohort mobilized against the Clean Electricity Performance Plan that would have helped decarbonize the power grid. Republicans did their bidding.

The American Petroleum Institute and other fossil fuel industry groups fight paying a price on methane emissions from their oil and gas facilities. They want to pollute for free, knowing full well the harm. Republicans do their bidding.

The CEO of that 800-pound, climate-obstructing gorilla, the U.S. Chamber of Commerce, said the group would “do everything [it] can to prevent” Build Back Better and its climate provisions from becoming law. Republicans do their bidding.

These groups spent millions on political ads. They unleashed a deluge of lobbying and campaign contributions. They are almost certainly behind big super PAC spending. They pull out all the stops. And against them in corporate America to push back against the polluters stands who? No one. Corporate CEOs talk a big game about decarbonizing their supply chains and transitioning to renewables, and they wield enormous influence in Washington when they want to, but here in this building, where the legislative rubber hits the road, corporate America has been totally, utterly, completely MIA on climate.

One set of lobbyists even told my staff that once the corporate tax stuff they cared about got squared away in Build Back Better and was taken off the table, they didn't want to “rock the boat” by supporting climate provisions, even though they are provisions

the company publicly claims to support.

Not one corporate trade group is lifting a finger here in this building on climate—not the banks, despite their own warnings of an economic crash; not the insurance companies, despite the huge checks they write for climate disasters; not Big Tech; not Big Pharma; not anyone.

The fossil fuel industry has its choke chain around the Republican Party so tight that industry folks have told me they are scared to press for climate measures, that they might be punished by Republicans working for the fossil fuel industry—punished on the tax and deregulatory and business stuff they really care about. So they are not here. They just aren't.

The frustrating thing is that there actually is a way to get to a safe place, to get to where we can hold warming below 1.5 degrees Celsius. The key policy is a border-adjustable price on carbon. To get to safety, we need to do more than just that, but there is no pathway to safety without that. It is the necessary but not sufficient safety measure.

Take a look at this chart. This was prepared in conjunction with the White House and the leader's office. A lot of eyeballs have looked at this.

The green line here is business as usual. We do nothing, and carbon emissions do mostly nothing.

This next line down, the orange line, represents our emissions trajectory if we pass the Finance Committee's clean energy tax credit package. That gets us to here.

The gray line right below it, the third one down here, is if we could pass a clean electricity standard.

The yellow one here is the emissions trajectory if we do both of those things, both the tax credit package and a clean electricity standard.

This one—light blue—is a carbon price alone. By the way, it is a modest carbon price that starts at only \$15 per ton in 2023 and increases to \$70 per ton in 2032 and doesn't cover unleaded gasoline at all.

The dark blue line here, the safest line, is all those policies together. To get to safety, we must deploy all of these policies.

The more policies you have, the deeper the emissions reductions, the better the chance of safety. But the center pole in the climate policy tent is a carbon price. Pricing carbon reaches every corner of the economy, which will be all-important when the power sector has switched to zero-carbon generation and we need to remedy other polluting sectors.

A carbon price fuels innovation. Suddenly, every carbon-reduction strategy has a revenue proposition—no more government-chosen winners and losers.

A carbon price raises investment. Growing a low-carbon economy will take trillions in job-producing investment, maybe about \$575 billion a year from now until 2050. Carbon pricing

sends an investment market signal and produces revenues to support those billions of dollars in private job-creating investment.

A carbon price is exportable through a border adjust that will keep China and others from cheating.

Last, a carbon price helps to unravel what the International Monetary Fund says is a \$660 billion annual subsidy propping up fossil fuels in the United States. Do you want to know why the fossil fuel industry can so easily corrupt American politics? That is your answer. That is 660 billion answers. A \$660 billion subsidy every year is one hell of a motive.

Once your policies are assembled surrounding the carbon price, you then need a battle plan and the leadership to carry it out. We cannot win legislative victory without setting the conditions for victory. We are up against a fossil fuel armada of dishonest PR campaigns, phony front groups, co-opted trade associations, fake science, and political dark money. We cannot overcome the corrupting forces of the fossil fuel industry without sound countermeasures.

Step one is what I am doing here—call out the dark money mischief of the fossil fuel industry. It is a compelling story, actually, and people—voters—don't like being lied to, especially not by big, corrupt, polluting interests. They have been lied to for decades, and they need to know that. If we all exposed the fossil fuel industry pattern of deception the way we years ago exposed as fraud the tobacco industry's pattern of deception, that would open up real political space for the kind of legislative progress the times demand.

Over in the House, Representatives MALONEY and KHANNA are on the case. They are investigating. Hearings are underway. Let's support and amplify them.

Next, stop the flow of polluter dark money into our politics. In politics, money corrupts, and dark money corrupts absolutely.

Next, rally the rest of corporate America to the banner. If they are too chicken to go first and face the risk of Republican punishment on the stuff they really care about, join together. They can't punish everyone. Corporate America is actually rich enough, if it wanted to, to buy the damned fossil fuel industry, fire the crooks and the PR firms, shut off the money to the front groups and the trade associations, and clean up the industry from the inside. But corporate America not only doesn't do that, it does nothing here in Congress.

However we go, we have to get going. Either we act now or we pollute our way to oblivion. Either we summon a serious response or we “meh” our way to catastrophe. Either we enact a serious effective climate bill or we lose our chance at a safe climate pathway. I will promise you, that will earn the merited disgust of future generations.

We have a moment here to measure up to. We are failing catastrophically,

and we are failing for the worst and smallest and most dishonorable of reasons. So when we reignite work on a real climate bill, when we are starting to see real administration climate progress, I will see about sending this battered poster over to the Smithsonian, but if we don't, I will be back here again and again and again to call this Chamber to wake up.

I yield the floor.

The PRESIDING OFFICER (Ms. ROSEN). The Senator from Ohio.

Mr. PORTMAN. I ask unanimous consent that Senators BLUNT, BLACKBURN, and I be permitted to speak for up to 5 minutes each prior to the scheduled vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

BORDER SECURITY

Mr. PORTMAN. Madam President, I am here today to discuss the crisis at the border. Unfortunately, it is not getting any better. In fact, it is getting worse by any measurement. The flow of illegal drugs and illegal migration continues to surge.

As the lead Republican on the Homeland Security and Governmental Affairs Committee, I recently traveled to the U.S.-Mexican border in Nogales, AZ, just south of Tucson, to learn firsthand from Border Patrol and Customs officials and Border Patrol agents who are on duty 24-7 trying to protect our Nation from illicit narcotics, unlawful immigration, and terrorism.

It was my third trip to the border in the last year, and, like other trips, what I saw was alarming. Officials at the port of entry told me about the increasing and more sophisticated efforts to smuggle illegal and deadly drugs into the United States. They showed me some of the x rays that have been taken of some of the vehicles where the smugglers are cleverly hiding these illicit narcotics into compartments.

By the way, this is deadly stuff. This is mostly now the illicit drug called fentanyl, which is a synthetic form of opioid that, according to the Centers for Disease Control, is probably killing two-thirds of the people who are dying from overdoses. The number of overdose deaths in this country is at record levels. During the year of 2021, we believe it is going to exceed 100,000 individuals—record levels.

So why aren't we scanning more of these vehicles for drugs and other contraband? The best numbers we have are that, currently, less than 2 percent of the passenger vehicles and less than 20 percent of the commercial vehicles coming into the United States are scanned for illegal drugs like this deadly fentanyl we talk about.

That is just unacceptable. A smuggler with multiple pounds of fentanyl concealed in hidden compartments needs to know that there is no chance of getting across our border without some kind of search. It is not just a gap in our security; it is a gaping hole in our security, and it is resulting in lives being lost in my home State of Ohio,

where we have a big issue with opioids, and also all across America. In a sense, every State is a border State now.

Last year, Customs and Border Protection seized nearly 10,000 pounds of deadly fentanyl. That is a 40-percent increase from 2020. But, as officers on the line told me when I was down there recently, most of it is getting through.

A year ago, Congress mandated that the Department of Homeland Security give us a plan and a strategy to scan all vehicles at the ports of entry for deadly narcotics such as fentanyl. Unfortunately, even with this crisis that demands these new approaches, the Biden administration has failed to deliver this report, which was due more than 6 months ago. Let's get that report done. Whether it is crystal meth or cocaine or whether it is fentanyl—sometimes pressed into pills to make it look like something else—it is flowing across the southern border. Let's have a plan to stop this.

We also face challenges between the ports of entry. In Nogales, the Border Patrol agent in charge rode with me to look at the border. What he described was an overwhelming, recordbreaking number of unlawful migrants and a recordbreaking number of drugs like fentanyl and these other drugs coming into the United States. He talked about the urgent need for more Border Patrol agents to be able to cover the border; new vehicles—vehicle maintenance is a huge issue for Border Patrol right now; and technology, particularly cameras and sensors.

There is a lot of discussion here always about the wall, but what is really important about a fence or a wall is the technology that goes along with it. When the Biden administration came in and they stopped construction of the wall, what they really did was they stopped the technology.

In the El Paso Sector where I have been, as an example, only about 10 percent of the technology had been completed for the fence that was being erected there. So they stopped building the fence—and you can see all the metal on the ground, which is very demoralizing for the Border Patrol because they have to fill the gaps 24-7 or figure out other ways to stop people—but most importantly, only 10 percent of the technology had been done, and they cut off all of that. We have already paid for it, by the way. Taxpayers have paid for all of that.

My thinking is, Democrats and Republicans alike talk about the need for technology—this is, again, monitors of some kind; there are various kinds out there that are very effective—cameras, and the ability to respond quickly.

I toured the border area that had huge gaps in the fencing, too, which I don't get. Why would you want to spend all this money to build the border barriers and then leave the gaps in the middle? I saw broken areas of fencing that need repairs. I saw the need for new fencing in some areas.

I walked up to one large gap only several miles from the city of Nogales.

There is 15- to 20-foot fencing on either side of this gap, and then there is about 40 feet with just a four-strand barbed wire fence to keep cattle from coming into the United States and vice versa. So that is where human smugglers go. They know about these gaps.

I saw lots of evidence of foot traffic, lots of plastic bottles and plastic bags discarded in the area from migrants who crossed right there.

Leaving these gaps is one of the reasons we face a crisis.

We just learned in December that the Border Patrol apprehended more than 170,000 unlawful migrants in December. That is the highest number ever in December. And the Biden people say: Well, this is seasonal so it will stop in December and January because it is colder and people aren't going to go or when it is really hot in July and August. That has not happened.

For the first time ever, we see a continual flow of people. It is not slowing down at all. These dramatic increases in unlawful entries and illegal drugs in the last year are clearly due to the policy changes, again, that were put in place on day 1 of the Biden administration—not just fewer deportations and a more lax approach to immigration generally but a specific issue of stopping the installation of this technology and fencing.

Also, they made a major change immediately with regard to asylum policy. So now people know if they claim asylum, they will be released in the United States pending a court date, which, on average, is going to be 5 or 6 years away. They say the backlog is at least 1.3 million people now—the backlog.

Now, is there any wonder that when people come to my home State of Ohio or go to my colleague's State in Missouri or go to Nevada, with 5 or 6 years ahead of them, that it is sometimes not possible to find them when the court date comes up, and that is happening, obviously, increasingly.

So we need a policy that just makes sense, that doesn't tell the smugglers, hey, if you get somebody in the United States, you can tell them that they can get in; they can work; they can get their kids in school. And that is what the smugglers do to people all over the world. It is not just Central America. In fact, there are more people coming from Ecuador now than there are from Honduras. I am told in the last week there were five Syrians who were apprehended coming across the border.

It is a lot of people from around the world who are being told by these smugglers who are exploiting them and their families, hey, just come on with me, and we can get you in. Pay me 10,000 bucks or whatever it is. That is one reason we have right now this pull factor because of a policy issue we have got to address.

The administration also chose to end the "Remain in Mexico" policy, which says to people, hey, you can come and apply for asylum, but you have got to

wait over in Mexico until we adjudicate this. That discouraged a lot of people. A lot of folks went home because they were trying, obviously, to come to the United States, but that policy was ended.

But, generally speaking, the right policy is adjudicate these cases immediately. Let people know, we don't want to have a 1.3 million backlog of people in the United States, 5 or 6 years waiting for a court case. It just doesn't make sense.

Anyway, with these policy changes since the President's inauguration, the southern border has faced the worst unlawful migration crisis in decades and the worst drug crisis ever. To help the Border Patrol do their job, we are working on bipartisan legislation to increase the number of agents, address retention challenges of the existing workforce, and respond faster to these humanitarian crises that come up by doing things like having a Border Patrol reserve that can respond to surges.

I am always impressed with the men and women of Customs and Border Protection and the Border Patrol that I meet on my trips. They have tough jobs right now—really tough jobs. A lot of them are overworked. A lot of them are being pressed into doing processing and other things that they weren't hired to do or trained to do. It is tough. And we are making it even tougher with policies that we are putting out here in Washington.

The ongoing crisis is clear and persistent, no longer seasonal. I urge the Biden administration to change course, stop the policies that send the green light to these human smugglers to be able to exploit migrants and families from all over this hemisphere and elsewhere now and stop giving a green light to the drug traffickers. Instead, provide Congress with a plan to deter illegal immigration, to detect and deny deadly drugs from crossing our border. America's national security depends on it. American lives depend on it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BLUNT. The ability to secure your border—to follow my good friend from Ohio, the ability to secure your border is actually one of the fundamental responsibilities of a legitimate government.

Even former President Obama, within the last few months, has looked at what was happening at the border, and I believe the word he used was "unsustainable." We cannot continue to let this happen. It is a border crisis, whether the administration is willing to call it a border crisis or not.

There are drugs coming across, and I know my friend from Tennessee is going to talk about that, as the Senator from Ohio did. More than 2 million people were apprehended trying to cross the border last year. Of that number, more than 171,000 were unaccompanied children. The year before it had been 37,000. In 2020, it was 37,000 people.

It should have been a warning sign. Thirty-seven thousand children is bad enough, let alone 171,000—almost four times the number who came the year before.

We need to ask ourselves, what are we doing to encourage that? Why would parents let their children come or send their children or why would children come on their own to the border at the numbers of 171,000?

Obviously, we don't know exactly how many people actually entered the country illegally. So if 2 million people were apprehended entering the country, some of them may have been making repeat efforts to come into the country, but there is no real evidence that very many people get sent back, but let's assume some do.

So some of the apprehended people may have been multiple offenders, if you will, of trying to violate our law by coming in. I think it is more reasonable to believe that more people weren't apprehended than were apprehended multiple times, so we have a huge problem here.

The policies have already been discussed. Why would the number—just over 2,035,000 last year—be 272 percent greater than the year before?

Things happening in the countries they come from aren't different, substantially, than they were the year before. The weather is not in crisis in any way different than it was the year before.

So let's look at day 1 of the Biden administration, where one of the first decisions is, we are going to stop building the barrier that is in the process of being built—not we are going to debate whether we should do more of it or not, but we are going to stop building the barrier that Congress has appropriated the money for, that the equipment has been bought for, that the necessary metal and fencing and other things have been bought for, and they are delivered, and after we get that up, let's decide if we need to do more.

I have never been of the view that every inch of the border needs to have a barrier, but I have always been of the view that a barrier or a fence or a wall, whatever you want to call it, has to be helpful, particularly if it has the technology that was going into this fence.

So, you know, just watching that great investment that the American people made sit there and not be completed is a problem. Some wall and fence had been torn down already so the new wall and fence could be put back up. We have areas that don't have the kind of fence they had 5 years ago or 10 years ago or under the Clinton administration because we said, no, we are just going to stop doing what the Congress has already provided money and the authority to do.

And then the "Remain in Mexico" policy, which, frankly, I thought was one of the most amazing things that our government got the Government of Mexico to agree to. It was a major step on their part to help us not only secure

our border but discourage people from needlessly coming all the way through Mexico. You know, most of our immigrants are not Mexican immigrants anymore; they are Central American immigrants; they are the immigrants whom others have talked about today from all over the world. But they come through Mexico, and Mexico doesn't like that either.

So why would "Remain in Mexico" work? "Remain in Mexico" was working because people, when they see that they are not going to be let loose in the United States or delivered somewhere in the United States and told to come back in 90 days or 5 years later, when they see that is not going to happen, and they talk to anybody who understands the law, 9 out of 10 of them know that they have no chance for an asylum claim.

And they are in Mexico. It is not that they have no chance for an asylum claim and they have arrived and been taken somewhere in the United States and told to return at a later date. It clearly just did not work. The "Remain in Mexico"—we could have put more money there. In fact, we put quite a bit of money there but then walked away from the facilities that were just about to begin to serve the purpose in the way that the American people—the most generous people in the world about people coming to our country and some of the, I think, most liberal immigration laws in the world for legal immigration.

We could have made an investment so that people could have safely and securely understood that you are not going to be able to advance this asylum claim.

The easiest thing in the world to do is show up at the border and say we are claiming asylum. The U.S. Government sends you somewhere in the United States to wait and come back later for a hearing. Now we see people—single adults—getting on planes in the middle of the night and being flown to other airports and getting off in the middle of the night.

I have even heard—surely this can't be really accurate—that you are told to use your arrest papers as your identification to get on the plane. If we have come to the point where our border policy is use the arrest papers to get on the plane so wherever we take you, you are able to then be part of our society until somebody catches you and tells you, you can't be part of our society, it is a huge problem.

The border is out of control. There is clearly a border crisis. I am a major supporter of legal immigration. I am a major supporter of kids who were brought here by their parents illegally, grown up in America and not gotten in trouble. I think they should be able to stay, and we should want them to stay.

I am not a supporter of this blatant violation of the law and sending a message to the whole world, here is how you get done what you want to get done, even though it is against the

laws of the United States to do what we are clearly helping you do.

I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mrs. BLACKBURN. Madam President, it was such a joy to be in Tennessee last week and visit with so many of our local officials, and I had the opportunity to spend some time with some of our sheriffs. And one of the sheriffs made a point that I think deserves attention in this body today.

He said: Marsha, for years, we have measured the drugs we have apprehended in grams or ounces, but today everything is in pounds. That is the uptick in volume that our local law enforcement is seeing in our communities.

Now, the question is, Why is this happening? How is it that so much more is getting across that southern border? And my colleague from Ohio and my colleague from Missouri have each mentioned the problems that exists there—no “Remain in Mexico,” no wall.

And we are at a time here in this country where our supply chains are really being stressed, but the supply chains of the cartels seem to be doing just fine. Fortunately, our Border Patrol has been able to cause some blips and some problems with those supply chains, and they have been able to apprehend some of the drugs coming across our border.

In January, in a period of 7 days—1 week—our Border Patrol caught 47 pounds of methamphetamine in California, 3,800 pounds of marijuana in two raids in Texas, and 20 pounds of cocaine in Texas.

The street value was about \$7 million that they pulled off of the street, but this is, unfortunately, a blip for the cartels—just a blip on their radar. These thousands of pounds of drugs are a footnote in the long history of the “got-aways” and the drug mules who keep these cartel supply lines flowing from South and Central America and into the United States.

Now, as my colleagues have said, until this administration decides they want to get serious about protecting our Nation’s sovereignty and securing this southern border, this is going to continue.

Now, what does this cause in our country? What it means is every town is a border town, and every State is a border State. Until the Biden administration decides they are going to get serious on that border, it means that your town will function like a border town, your State like a border State. Nashville, Knoxville, Memphis are all experiencing some of the same problems that you are seeing on our Nation’s borders.

And whether the State is Maryland or Wisconsin or Nevada, whether these are other States—Illinois, Colorado—what you are seeing are these problems that are brought about by an open border: gangs, cartels, human smuggling, sex trafficking.

So I would ask my Democratic colleagues, and I would hope they would ask the President: Where else do they think these thousands of pounds of drugs are being headed?

That is right. It is a rhetorical question, but they are coming to your neighborhoods, and your local law enforcement agencies are going to find themselves dealing with this.

Now, the Biden administration has said, repeatedly, that they want to focus their border policy on finding the root causes of illegal immigration. So Vice President HARRIS recently took her second trip to the Northern Triangle so she could try and figure out what the root causes are.

But while she is there and meeting with diplomats, the cartels’ drug trade, along with their human trafficking trade, is booming. It is booming. The number of apprehensions across this southern border are at an alltime high.

And as my colleague mentioned, the “got-aways”—the hundreds of thousands of “got-aways” that are now in your communities—the hundreds or maybe even thousands of pounds of different drugs are coming into your communities.

We have been down this road before. We have made investments in the Northern Triangle to try and beat back the poverty, the corruption, and we are having the same problems. They are the same that they were years ago.

There is no buy-in on a policy. The only buy-in that this administration has managed to earn is the buy-in of corrupt officials and drug lords who have invested in our wide-open border.

Why is it that you have to pay the cartel to come in? Why is it that the cartels are moving these sex trafficking rings onto U.S. shores? Why is it that the cartels are setting up distribution centers in our cities? It is because this administration has that border wide open, and they see the opportunity to make big bucks, to really enrich themselves.

How can we expect to fight corruption when we encourage them to set up these business operations?

I would encourage my Democratic colleagues to take a look at the numbers that are coming from that southern border, look at numbers that were there from 2021, look at the numbers of not grams and ounces but pounds of illicit drugs that are being apprehended, talk to their local law enforcement about what they are finding on their streets, and then ask themselves: Are you doing everything you can to keep our communities safe? Are you doing everything that you can to keep our children and our grandchildren safe in their communities?

If you had to answer that question today, if the administration had to answer that question today, the answer would be an emphatic, no, they are not because the border is open. That policy is failing the American people; it is failing our communities that are truly

struggling to keep drugs out of the hands of kids; and it is failing the thousands upon thousands of people who took you at your word—and then you have seen this border turned over to the cartels.

I yield the floor.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the Lopez nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Kenia Seoane Lopez, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

VOICE ON LOPEZ NOMINATION

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the Lopez nomination?

Mr. CARDIN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) is necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN) and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted “nay”.

The result was announced—yeas 59, nays 38, as follows:

[Rollcall Vote No. 24 Ex.]

YEAS—59

Baldwin	Hickenlooper	Rosen
Bennet	Hirono	Rounds
Blumenthal	Kaine	Sanders
Blunt	Kelly	Schatz
Booker	King	Schumer
Brown	Klobuchar	Shaheen
Cantwell	Leahy	Sinema
Capito	Manchin	Smith
Cardin	Markey	Stabenow
Carper	McConnell	Tester
Casey	Menendez	Tillis
Collins	Merkley	Toomey
Coons	Murkowski	Van Hollen
Cortez Masto	Murphy	Warner
Duckworth	Murray	Warnock
Durbin	Ossoff	Warren
Feinstein	Padilla	Whitehouse
Gillibrand	Peters	Wyden
Hassan	Portman	Young
Heinrich	Reed	

NAYS—38

Barrasso	Fischer	Moran
Blackburn	Graham	Paul
Boozman	Grassley	Risch
Braun	Hagerty	Rubio
Burr	Hawley	Sasse
Cassidy	Hyde-Smith	Scott (FL)
Cornyn	Inhofe	Scott (SC)
Cotton	Johnson	Shelby
Cramer	Kennedy	Sullivan
Crapo	Lankford	Thune
Cruz	Lee	Tuberville
Daines	Lummis	Wicker
Ernst	Marshall	

NOT VOTING—3

Hoeven Luján Romney

The nomination was confirmed.

Mr. DURBIN. Madam President, may I make an inquiry of the Chair?

How long was that last rollcall?

The PRESIDING OFFICER (Ms. BALDWIN). Approximately 55 minutes.

Mr. DURBIN. Can the Chair report the last Senator who voted?

The PRESIDING OFFICER. The Chair does not have that information.

Mr. DURBIN. Thank you, Madam Chair.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will immediately be notified of the Senate's actions.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the Staples nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Sean C. Staples, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

VOTE ON STAPLES NOMINATION

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the Staples nomination?

Mr. DURBIN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient question?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) is necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN) and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The result was announced—yeas 59, nays 38, as follows:

[Rollcall Vote No. 25 Ex.]

YEAS—59

Baldwin	Hickenlooper	Rosen

NOT VOTING—3

Hoeven Luján Romney

The nomination was confirmed.

The PRESIDING OFFICER (Mr. HICKENLOOPER). Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate's action.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 613, John P. Howard III, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for the term of fifteen years.

Charles E. Schumer, Richard J. Durbin, Richard Blumenthal, Gary C. Peters, Robert P. Casey, Jr., Sheldon Whitehouse, Martin Heinrich, Sherrod Brown, Patty Murray, Tammy Duckworth, Tim Kaine, Elizabeth Warren, Mazie Hirono, Alex Padilla, Tina Smith, Christopher A. Coons, Amy Klobuchar, Jon Tester.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of John P. Howard III, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for the term of fifteen years, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from New Jersey (Mr. MENENDEZ) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. HOEVEN) and the Senator from Utah (Mr. ROMNEY).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The yeas and nays resulted—yeas 62, nays 34, as follows:

[Rollcall Vote No. 26 Ex.]

YEAS—62

Baldwin	Hawley	Portman
Bennet	Heinrich	Reed
Blumenthal	Hickenlooper	Rosen
Blunt	Hirono	Rounds
Booker	Inhofe	Sanders
Brown	Kaine	Schatz

NOT VOTING—4

Hoeven Menendez
Luján Romney

The PRESIDING OFFICER (Ms. SMITH). On this vote, the yeas are 62, the nays are 34.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. The clerk will report the nomination.

The bill clerk read the nomination of John P. Howard III, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for the term of fifteen years.

The PRESIDING OFFICER. The Senator from Alabama.

SCHOOL CHOICE

Mr. TUBERVILLE. Madam President, my colleagues across the aisle spent the first part of this year laser-focused on voting rights and the filibuster. Democrats at all levels, including President Biden, spoke of nothing else, claiming that this was the most important issue facing Americans and that the future of our country was at stake. But this was not a righteous crusade; it was a march into complete delusion—a message completely out of touch with the struggles of real Americans.

While Democrats lectured, Americans confronted reality. Across the country, inflation is squeezing paychecks, and COVID cases are skyrocketing. These are the issues that families are focusing on. Omicron's surge has sent students home from classrooms and back in front of computer screens. This is where parents' minds have been these last few weeks—not on Senate rules, not on the filibuster, but on their children's educations because when parents think

about the future of our country, they think about their children and the opportunities that they will have and that all starts with education.

During my four decades of coaching, I saw firsthand how education provides an unparalleled opportunity to uplift students from all different backgrounds, races, and religions. Education is the key to opportunity and freedom. It empowers students to create futures for themselves, to make better lives for themselves. It is a way to achieve the American dream. In short, education is our country's future. Ensuring the next generation receives a quality education is the most important investment—the most important investment—we can make in the future success of our country.

But before I talk about where we should go when it comes to education, it is important to note where we are today in education.

Right now, the United States of America is slipping. It is slipping in the classroom. When it comes to our global standing, we are 37th in the world—37th in the world—in math, and we are 13th in the world in reading. Just over half of the young people in our country today can read over the sixth grade reading level. That is simply not good enough for the most powerful country on the face of the Earth. Our students are falling behind.

At no time was this more important than in the last 2 years. COVID turned our living rooms into classrooms, bringing lesson plans to kitchen tables in homes all across the country. This gave parents a front row seat to what their children were and were not learning, and many parents did not like what they saw. Students weren't being taught how to think; they were being taught what to think. This shift from what is right to what is "woke" has startled parents, but it was also startling for parents to see what isolation did to their developing children.

As kids saw less of their friends, they retreated into darkness. Rates of depression and anxiety rose dramatically. Since the start of the pandemic, hospitals have seen more mental emergencies among kids than in the history of our country. In young girls, the suicide rate has jumped over 50 percent compared to the prepandemic levels—50 percent.

While we are nearly 2 years into the pandemic, the digital divide still creates profound roadblocks in learning for many children who lack access to rural broadband and even a laptop. Learning by low-income and minority students was disrupted the most by school closures.

The pandemic compounded existing problems in our education system, and every child has felt the effects of this pandemic from not having been in the classroom, but it has also highlighted a key piece of the educational puzzle: parents. Parents are the key to education for our kids. Parents realized the power of their collective voices

during the pandemic, and they are using it to advocate for improvements in the education of their kids in the classroom. Time and time again, we have seen parents stand against restrictive mandates and unnecessary school shutdowns.

Now, as we look toward the future of education, we need to remember what the pandemic taught us—that one size does not fit all. It rarely works, and it certainly does not work in education. That is why, moving forward, when we talk about education, we will have an opportunity to revisit the conversation about the importance of choice. Parents know their child best. They understand the unique needs of their children and can serve as the best advocates for those needs, especially now that the needs may be different than they were 2 years ago, before COVID.

A child's education shouldn't be defined by their ZIP Code or financial limitations. A child and their parents should have a choice about education. School choice increases options through vouchers or tax credit scholarships, allowing parents to select the best learning environment for their child. School choice breaks down barriers and allows the funds to follow the student.

School choice embraces the truth that different children learn in different ways and in different environments, whether it be in a charter school, a public school, a private school, or a home school. There are school choice successes, and there are stories everywhere we look.

Just take this story about a young man from Alabama. His name is Nicholas West. Without Alabama's tax credit scholarship, Nicholas and his brothers would have had no option but to have attended a high school that they were zoned for, which was a school that was unable to deliver the individualized instruction that they needed. Thanks to the school choice programs, Nicholas and his brothers were able to thrive in different learning environments based on their unique needs and interests. By being in an environment that set him up for success, Nicholas was able to earn college credits during high school, and he went on to start his own business upon graduating from high school.

I believe that this country owes you one thing: It owes you an opportunity. Yet what you do with that opportunity is up to the individual. For Nicholas, he used this opportunity—presented to him through the school choice—to tap his full potential. It makes sense that we should increase access to the opportunities for young men and women just like Nicholas. We must deliver the same opportunities to other students who have skills and drive but who need a path forward.

Alabama is making strides in opportunity and creation. Charter schools continue to grow in popularity in our State. Last year, enrollment increased over 65 percent—the second highest en-

rollment percentage in the Nation. If I sound like I am proud of the steps Alabama has taken to ensure we give our students opportunity, I am. I believe other States can learn from the emphasis Alabama has put on "choice."

As we learn more about how the pandemic has impacted students, educational choice will become that much more important. In fact, choice may make all the difference. When we look forward and discuss the future of our country, we have to get back to talking about education. The future of our country depends on the educational opportunities we make available to the next generation.

That is why I am proud that the resolution I helped to introduce, to recognize National School Choice Week, passed the Senate last night. I am glad my colleagues recognize how important it is to encourage parents and students to explore all available educational opportunities.

Conversations about the importance of school choice should continue to drive our priorities throughout this year. If we join together to make that commitment, our future for this country and our kids in this country will be much brighter.

I yield the floor.

THE PRESIDING OFFICER. The Senator from Indiana.

UNANIMOUS CONSENT REQUEST—S. 2132

Mr. BRAUN. Madam President, last year, I introduced a handful of bills that would help the IRS do its job better. One of those bills is called the IRS Customer Service Improvement Act. This bill simply says that IRS staffers cannot perform any union tasks during the tax season, which seems to make sense. It doesn't keep them from doing it through the rest of the year. It is just not during the busy tax season.

According to the Treasury, in fiscal year 2019, 1,400 Treasury employees used over 350,000 hours of taxpayer-funded union time. It cost \$17 million. Of course, that is kind of like chump change in this day and age. Back in Indiana, \$17 million is a lot of money. It should be everywhere. Of these employees, 350 of the jobs were IRS customer service representatives and 204 were IRS agents. The American public deserves out of our Agencies, I think, service better than that.

We can debate how much money the IRS needs to do its job, but we need commonsense policies like this to where we are not trying to restrict what already, to many, would seem unusual—that when you are on the dime, when you are being paid by the Federal Government, you maybe shouldn't be able to do union activities at the same time. Anyway, a lot of things don't make sense here. This will immediately add value to the American taxpayer.

The IRS is warning Americans to prepare for delays and long hold times when filing their taxes this year. I would say that most folks would say that you need improvement.

Here are a couple of other particulars: They received more than 100 million calls but only answer 1 out of 4. Calls averaged 18 minutes of hold time. In my own business, if you add 18 minutes of hold time, you just gave the order to one of your four or five competitors. None of us likes that.

Face-to-face assistance declined from 4.4 million in fiscal 2016 to only 1 million in 2020. The IRS is now telling us to buckle up for service even to get worse.

Let's use some common sense. Before you raise prices in a business or you ask your customers to even be more forbearing when you are delivering bad service, your competitors would take you out. Here, in the Federal Government, you don't have that kind of inherent competition, and, sadly, the public—American taxpayers—have to put up with it. And when your default position is always to spend more money, I know the American public is interested in something better than this. Sadly, for whatever we do that is above and beyond the ordinary, we were borrowing 23 cents of every dollar we spend here. Now it is up closer to 30 cents, and it is in the context that we are \$30 trillion in debt to boot.

This is something, what I am proposing here, since it doesn't eliminate your ability to do it, let's just take it out of the tax season.

Madam President, as if in legislative session, I ask unanimous consent that the Committee on Finance be discharged from further consideration of S. 2132, and that the Senate proceed to its immediate consideration. I further ask that the bill be considered read a third time and passed, and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Mr. WYDEN. Madam President.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Madam President, reserving the right to object, I certainly agree with the proposition that was advanced by my colleague to improve service at the Internal Revenue Service. The fact, however, is the effect of this proposal is to demean IRS workers and distract from the real challenges facing the IRS. And the real challenge can be embodied by the fact that, for years and years, my colleagues on the other side of the aisle have been squeezing and downsizing critical enforcement services at the IRS to the point where the wealthy cheats basically can get a free ride. They can get a free ride.

About the other day, in the context of talking about tax cheats and wealthy partnerships that aren't getting audited, I said the chance that they are going to be subject to real enforcement, when they are a wealthy tax cheat, is about the same likelihood of being hit by a meteor, and it is because of these policies that have been downsizing resources at the IRS to deal

with these wealthy tax cheats for years.

Now, Commissioner Rettig, who is a Trump appointee—an appointee of former President Trump—recently said there are fewer auditors to deal with these wealthy tax cheats today than at any point since World War II.

So they have got that challenge, and then they have an enormous IT challenge because the IRS, by their admission, is still using some systems that are practically dated back to the Dark Ages.

According to the National Taxpayer Advocate, during the last fiscal year, the IRS received a record 282 million customer service phone calls and, with limited staff, was only able to answer 11 percent of them. Commissioner Rettig told the Finance Committee, in a remarkable statement, that it was his opinion that the amount of taxes that go unpaid each year could now be as high as a trillion dollars.

To just wrap up, I want to describe how this all is connected. My colleagues on the other side of the aisle have repeatedly attacked the IRS. They cut, they squeeze, and they have constantly reduced the IRS budget. Wealthy tax cheats are out basically celebrating the decline of real tax enforcement. Law-abiding Americans—the vast majority of Americans—are, of course, frustrated by the declining customer service.

So then we have our colleagues on the other side of the aisle attack the IRS, and the cycle just repeats: more cuts, less enforcement targeted to wealthy tax cheats, and, unfortunately, inadequate customer service. That has been the pattern now for decades.

In my view, this is a gift to tax cheats and an annual headache for just about everyone else.

There is no question the pandemic—and this has been true for every aspect of government—has brought new challenges, just like it has for every business, every school, every government agency around the country. And, in my view, instead of misplacing what the target really ought to be, which is inadequate resources so we can't go after the wealthy tax cheats, somehow we are hearing that it is the workers, these union members, who are at fault. That is not my take.

For the reasons I have outlined, I object.

The PRESIDING OFFICER. The objection is heard.

Mr. BRAUN. Madam President.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. BRAUN. Briefly, respecting what the Senator says about wealthy tax cheats, I agree with him 100 percent. Everybody should pay their fair share. But I guarantee you, there wasn't one wealthy tax cheat that was on hold for 18 minutes. They are not calling in. They hired a lawyer or somebody to do it.

This is impacting Americans, mom-and-pop business owners, folks who

just need to talk to someone. It is not a wealthy tax cheat who would have made 1 of 100 million calls. They don't do that. There is another way to go after that.

All I am saying is, during the busiest time of the year, let's take the resources that we have got, whether they need to be enhanced or not, and let's let them focus on the job of answering the phone and not making a small taxpayer suffer. They are the ones wrestling with the IRS by numbers, not wealthy tax cheats.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. WYDEN. Madam President, I ask unanimous consent that notwithstanding rule XXII, at 6:30 p.m. tonight, the Senate vote on the cloture motions with respect to Executive Calendar Nos. 614, 644, 649, 627, 616, 473, and 474; that at 12:30 p.m. tomorrow, Thursday, February 3, the Senate vote on the cloture motions with respect to Executive Calendar Nos. 495, 496, 673, and 654; further, that if cloture is invoked on any of these nominations, the Senate vote on confirmation of the nominations at a time to be determined by the majority leader, or his designee, following consultation with the Republican leader.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Iowa.

HUNTER BIDEN

Mr. GRASSLEY. Madam President, this week, news reports made public a May 2019 subpoena from the Justice Department. That subpoena requested financial records relating to Hunter Biden as part of the Department's criminal investigation into his activities.

Notably, that subpoena also requested records relating to James Biden, Devon Archer, and Eric Schwerin. That subpoena sought records relating to companies that Senator JOHNSON and I discussed in our Biden report.

If the reports are accurate, this subpoena is yet another stake in the heart of a totally unsubstantiated claim made by the liberal media and Democrats that the Grassley-Johnson report on Biden was Russia disinformation.

Today, I come here to speak about a matter directly related to the recent news—specifically, the Biden Justice Department's failure to answer fundamental questions related to Hunter's criminal investigation.

I have asked serious ethical questions of the Justice Department that the Department so far has refused to answer. In fact, the Department has actually publicly contradicted itself.

Just one example of contradiction: On May 31, 2021, Senator JOHNSON and I wrote to Attorney General Garland. Our letter noted that Hunter Biden had a close association with Patrick Ho, an individual who is associated with the

communist Chinese Government and its intelligence services. Patrick Ho was also charged and convicted of international bribery and money laundering offenses relating to his work for companies connected to that communist regime.

After his arrest, his first call was reportedly to James Biden, President Biden's brother. Hunter Biden reportedly represented Patrick Ho for \$1 million.

In our letter, we noted that a Justice Department Federal court filing said DOJ had FISA information on Patrick Ho. Not only did they possess this information, the Department informed the court that they intended to use it to prosecute that person.

Senator JOHNSON and I asked the Justice Department for that FISA information as well as FISA information for other Chinese nationals linked to Hunter Biden. In response, I quote the Justice Department:

Unfortunately, under the circumstances described in your letter, we aren't in a position to confirm the existence of the information that is sought (if it exists in the Department's possession).

Now, get that—"if it exists in the Department's possession."

Simply put, that is not a true and accurate statement unless the Department's statement to the Federal court in the Patrick Ho matter wasn't true and accurate.

So, then, as we naturally followed up, on November 15, 2021, we asked Attorney General Garland to explain the discrepancy. No response to this very day.

Both statements can't be true. Either the Department possesses the information or it doesn't possess the information.

So we can legitimately ask Attorney General Garland again: What is your answer?

Now, this doesn't end there with that question. On February 3, 2021, and March 9, 2021, Senator JOHNSON and I asked Attorney General Garland if Nicholas McQuaid is recused from the Hunter Biden criminal case. Now, this McQuaid works in the Department's Criminal Division but worked with Hunter Biden's criminal attorneys before joining the Department. This poses a clear conflict of interest. Attorney General Garland has refused to answer to this very day.

On June 29, 2021, Senator JOHNSON and I asked Attorney General Garland whether Susan Hennessey, a National Security Division employee, is recused from the Durham investigation. Before working for the Department, she made negative comments about the Durham investigation.

In Attorney General Garland's July 13, 2021, response letter, he failed to answer our questions. However, at the Senate Judiciary Committee's oversight hearing October 27, 2021, the Attorney General said she "has nothing whatsoever to do with the Durham investigation."

Although this statement doesn't fully answer our questions, such as

whether she has been formally recused from the matter, it is more than what we were provided in the Department's letter response.

Likewise, the Justice Department said that Margaret Goodlander "has no role in Mr. Durham's investigation." She is married to Biden's National Security Advisor, Jake Sullivan. Sullivan worked for the Clinton Presidential campaign. While there, he peddled the false Alfa-Bank story about the Trump Organization having a secret back channel to this Russian bank. Those false allegations were reviewed as part of Crossfire Hurricane.

Now, with all that said, let's take stock of where we are. On the one hand, Attorney General Garland has publicly said Susan Hennessey and Margaret Goodlander have no roles in the Durham investigation. On the other hand, Attorney General Garland refuses to say the same for McQuaid and the Hunter Biden criminal investigation.

So we can really ask, "Why is it that way? Why won't the Attorney General say that McQuaid has no role in the criminal case involving the President's son?" because this is a fundamental ethical question.

Our letters have provided Attorney General Garland the opportunity to hit the ball right out of the park. Instead, he doesn't even try to make a swing.

What is the Biden Justice Department hiding? This blatantly inconsistent treatment has cast a cloud over Hunter Biden's criminal case.

Just imagine if this fact pattern had evolved between President Trump and his sons. The media would have gone nuts over it. You wouldn't hear the end of it—also from my Democratic colleagues here in the Senate. Yet not a sound from them, not a peep.

The American people are rightly skeptical of how the Justice Department is handling the Hunter Biden criminal investigation. And the secrecy and the lack of public transparency will only increase the skepticism that the American people have.

So I and Senator JOHNSON won't stop doing good government oversight on this issue. The American people deserve answers, one way or another.

COUNTERFEITS

Madam President, on another point and a shorter point, I would like to take a moment to update my colleagues on a bill that I introduced in 2021 designed to fight counterfeits.

As we all know, counterfeits are a threat to the U.S. economic and national security interests. Most counterfeits originate in China, one of our largest competitors. Counterfeits are dangerous to consumers. And, lastly, counterfeits rip off American ingenuity and result in billions of dollars in losses.

For these reasons, Congress must ensure the Federal Government arms its partners with the tools and the resources that these people need to combat the bad guys who sell these fake goods.

My bill has the number S. 1159, and it does just that. It gives the partners the tools and resources they need to combat the bad guys. Now, it happens that S. 1159 was incorporated in the United States Innovation and Competition Act of 2021 that passed this Senate on a very bipartisan vote. The bill with that title, Innovation and Competition Act, was an effort, in a bipartisan way, to crack down on China.

Now, the bill that I am telling you I cosponsored and is part of that gives our U.S. Customs and Border Protection, CBP, authority to share more information with the private sector on counterfeits identified at the border. It also gives Customs and Border Protection the authority to share information with other parties, like e-commerce parties and shipping carriers.

Sharing information then creates a more secure trade ecosystem that keeps counterfeits out of our country. This is good, commonsense policy.

Now, my colleagues may be asking themselves: Why is this really needed? Well, Customs and Border Protection believes that the Trade Secrets Act keeps this Agency from sharing certain types of information with the private sector. This keeps American companies, then, in the dark and prevents these companies from pursuing the bad guys who rip them off.

Indeed, companies have repeatedly told me that if they just had more information from the Federal Government, they would and could keep more counterfeits out of the United States. So my bill removes this barrier and specifically gives Customs and Border Protection the authority that it needs to share information with the private sector.

Now, here is the icing on the cake. Recently, Customs and Border Protection confirmed that my bill would resolve their concerns about violating the Trade Secrets Act and would permit the sharing of more information on counterfeits.

A few weeks ago, the Congressional Budget Office confirmed that my bill will cost absolutely nothing. So good government legislation that costs the taxpayers zero dollars ought to not raise any questions when it protects the consumer and protects our businesspeople. That is what I like to call a slam dunk, and I hope my colleagues will join me in making sure that it gets passed this Congress.

Now, since this has become an issue in the House of Representatives, I hope that the House wakes up to this commonsense policy being included in the China package as negotiations continue because they left it out in the version that has come to the House floor now.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. CANTWELL. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RESEARCH AND DEVELOPMENT

Ms. CANTWELL. Madam President, I come to the floor because this week, hopefully, our House colleagues will be taking up legislation that they have named America COMPETES. My colleague was just here on the Senate floor talking about the legislation we passed last year, and we are glad our colleagues are finally addressing this in the House of Representatives.

I said “glad” they are “addressing”—we are happy about that because, between 1996 and 2015, federally funded research led to over \$1 trillion in economic growth and millions of new jobs. So we know that when we invest, we see a big return in our economy.

What we know, however, is that R&D investment is at its lowest point in nearly 45 years, as measured as a percentage of GDP. That is where we have been going. And the rest of the world isn't waiting.

Overall, U.S. R&D spending places us ninth globally, behind advanced economies like South Korea, Japan, and Germany, and far below the fifth place ranking that we held in the 1990s.

So this is why we need to do something, and that is why we passed what was called the United States Innovation and Competition Act last year and why we encouraged our colleagues to take it up. There is a competition for global leadership in technology in a range of areas—semiconductors, manufacturing, artificial intelligence, low-Earth orbit satellites. And there are countries that are very eager to make investments to try to capture those jobs that I mentioned that come as a result of investment in technology.

We know that we tried to solve this problem before; that is, to stay competitive. We passed an America COMPETES Act in 2007, and we passed one in 2010. And we were trying to stay competitive with changing economies and the information age that we now are in. These acts were intended to double the key research accounts at the National Science Foundation and the Department of Energy, but, unfortunately, the appropriations authorized did not materialize. In large part, we had a 2008 recession and subsequent fiscal sequestration, and we reduced the NSF and DOE budgets.

So we had the right idea. We had a year or so of activity that really tried to get us on the right track, and then fiscal issues put us behind.

So job openings today and the opportunities for us to grow our economy by making this investment are just monumental. And that is why we hope that this is a bipartisan effort by the Senate and, ultimately, a bipartisan effort by the House to come together to make the investments to help fill these jobs of the future.

Job openings in computer science occupations are expected to exceed 1 million in the next few years, nearly 400,000 just in the area of cyber security alone.

The Wall Street Journal reported that planned growth in the U.S. semiconductor industry will require up to 90,000 more workers by 2025—90,000 more workers just in that 1 sector. And these are very well-paying jobs.

According to the National Science Board, the only way that the United States can fill the gaps in these STEM workers is to double the number of women in the STEM workforce and double the number of other underrepresented minorities in these jobs. And that is exactly what we are trying to do with this legislation.

On our manufacturing sector—which we have a very large manufacturing sector in the Northwest, driven by aerospace but also other forms of transportation, and it also includes small and medium-sized manufacturing—but one organization estimated that it will take up to \$250 billion over 10 years to help us upgrade our existing infrastructure in manufacturing and equipment to be competitive.

So that means we must do our part. Many of these industries will do their part. But on the R&D side, we must continue to do our part.

Other countries are investing heavily. On the semiconductor advanced manufacturing facilities, which are very, very expensive to build, we just heard of a major announcement by Intel a few weeks ago about their investment in the State of Ohio. These facilities can cost \$30 billion over 10 years, including \$20 billion in just the capital expenses. Other countries are making huge investments to help build cheaper foundries, anywhere from 30 to 50 percent of the investment in Asia.

So, as a result, over the last several decades, the United States has lost a big share of what they had in the semiconductor manufacturing chip sector, going from about 37 percent of the market for production from the United States down to 12 percent today.

So the United States must respond, and we must continue to make investments in these sectors. My colleagues, as we had this floor debate, will remember, we talked about a \$52 billion investment—an enormous amount of money. But I asked my colleagues who helped us get this legislation and those who weren't with us at that moment to consider this information: The semiconductor shortage cost vehicle manufacturers, just in 2021, \$210 billion. In 1 year, our shortage cost us \$210 billion.

So I think making this investment in chip production in the United States is critical. It is time we try again with our House colleagues. It is time that we engage in a bipartisan legislative process to get this legislation to the President's desk.

I know the House will consider many amendments on Friday when they are supposed to take up this bill. We in the Commerce Committee had over 230 amendments filed. We approved 130 amendments. We had a 6-hour markup. We had healthy debate on amendments, and then the Senate proceeded to an

open-floor debate and hundreds of amendments were filed here on the Senate floor.

So I encourage our colleagues in the House to have their amendments, to consider these ideas, and to come to an effort with us to get this legislation passed.

We know that this would be the largest 5-year commitment to public R&D in our Nation's history. We need it for the job growth. We need it to stay competitive.

This legislation would also make a \$15 billion investment in growing and diversifying that STEM workforce. As I said, given the large amount of job openings in this sector, we are not going to find the people to take them unless we are diversifying our workforce.

This would establish a Senate-confirmed position on improving STEM diversity and make sure that NSF and the investments we would make would help us not only assure diversity but geographic diversity within the United States.

This legislation would also create a first-of-a-kind NSF—National Science Foundation—tech directorate to help accelerate the development and translation of new technologies within the United States to the future and helping those jobs grow more quickly.

Now, I know a lot of people, probably at the beginning: If NSF was already doing a good job, if DOE was already doing a good job, why do we have to do something different?

Well, the issue is the United States is producing a lot of R&D, and that R&D is being used by other people. It is actually documented public information that ends up getting used and translated by somebody else hungrier, faster moving, with opportunity, and thereby getting translated. So this bill addresses that. This bill, with the creation of a tech directorate, is about accelerating the R&D that we do and turning it into real manufacturing at a faster rate.

We call this tech transfer. And if you have any kind of university in your State, you know exactly what I am talking about, and these universities play a key role in tech transfer. In fact, tech transfer in this realm of university has been responsible for about 4 million jobs over the last 20 years, I think it is—the last 20 years. So these are big investments that they have supported. They have supported over 4 million jobs.

So USICA would make an investment of 17 billion in the Department of Energy and authorize the tripling of the manufacturing extension partnership to help with those manufacturing opportunities and also make investments in tech hubs to help create private sector investment and the same kind of workforce opportunities for the future.

As I mentioned, the announcement by Intel in Ohio to build a new foundry and the expensive cost of building a new foundry was interesting news because it wasn't in the same places that

investments in chip fabrication has been done so far. And yet the CEO of the company said, if we pass this legislation, there could be 100 billion in investment.

That is important because we have to understand how important chip fabrication is, semiconductors are, to the information age that we live in today—how important it is that we not lose market share any lower than 12 percent and we actually start going back in the other direction so that we can grow these jobs in the future.

So I just want to emphasize: There is a lot to agree on with House colleagues. Both bills call for a \$52 billion investment in the semiconductor industry. Both bills call for major investment, about \$160 billion, in critical R&D Agencies like the National Science Foundation and the Department of Energy. Both bills recognize the need to invest in creating tech hubs and making investments in the domestic supply chain. Both bills call for growing the diversity of our STEM workforce to meet workforce gaps. Both bills attempt to address disparities in our trade and research policies that I was just mentioning—trying to not let people just grab the R&D that the United States does and translate that, but make sure that we have strong laws in preventing intellectual property theft where it occurs and making investments in American businesses. And we know that there are other provisions that we will be able to agree on as well. So with our investment in R&D reaching a 45-year low, now is the time to grow our economy.

I hope our colleagues in the House will join in a bipartisan effort. We stand ready in the Senate to join a serious discussion to get this legislation onto the President's desk and grow these jobs. It is a very important economic opportunity for the United States and continues our leadership.

I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

UNANIMOUS CONSENT REQUEST—S. 3565

Mr. SCOTT of Florida. Madam President, as our Nation continues to battle against COVID-19, we know that the best way forward for defeating this virus is making sure Americans have adequate prevention and treatment options against this terrible illness.

While I understand that we are still learning about COVID-19 every day, I share the frustrations of public health leaders and the American people at the Federal Government's lack of proactive leadership in fighting this virus. Even with a vaccine developed under the previous administration, President Biden has not been able to slow COVID-19's spread.

The Federal Government's most important role during a public health crisis is to provide accurate information to the American people. Unfortunately, over the past year, there has been mixed messaging, cruel and unfair finger-pointing, baseless censorship, and a

striking lack of effort put into comprehensive public health education efforts.

You should be able to get a test, period, but many Americans have been frustrated at the lack of at-home tests as the virus has continued to spread under President Biden. However, as we seek to ensure the health and well-being of American families, we must do so while using taxpayer dollars responsibly.

It is imperative that the Federal Government do everything in its power to complete our public health mission in a manner that prioritizes support for domestic manufacturing. That is why, as soon as I learned about the administration's intent to purchase 500 million at-home COVID-19 rapid tests for the public earlier this year, I wrote to the HHS Secretary and urged him to prioritize the purchase of American-made COVID tests and prohibit the purchase of tests made in communist China.

We know that at least two FDA-authorized at-home COVID-19 antigen tests are manufactured in communist China and imported into the United States. The last thing the American tax dollars should go towards is funding a country that is guilty of starting the pandemic, covering up and lying about the origins of COVID-19, committing genocide again millions of Uighurs, destroying democracy in Hong Kong, persecuting Tibetans, harassing and threatening Taiwan, stealing American technology and research, and engaging in illegal and unfair trade practices.

Giving communist China taxpayer money would be a complete abuse of the public trust. Sadly, although unsurprisingly, that is exactly what the Biden administration has done in its decision to funnel \$1.28 billion to Andon Health, a Chinese company. That is right—instead of supporting American manufacturing and exclusively ordering American-made tests, the Biden administration is handing nearly \$1.3 billion of taxpayer funds to a company in communist China. This isn't a secret; it was widely reported by Reuters last month.

I am sure we all remember Biden's promise to "Buy American." It is a commitment I and many of my colleagues in the Senate applauded. But, like so many promises made by this President, it has been broken.

That is why I introduced the No Taxpayer Dollars for Communist China COVID Tests Act—a bill to right the wrongs of the Biden administration and prohibit buying or importing COVID-19 tests made in communist China with U.S. tax dollars. I would like to thank Senator ROGER MARSHALL for cosponsoring this bill.

We need this legislation because President Biden has announced that the government will be purchasing 500 million more at-home tests, and just last week, the Department of Defense announced it was buying more than 100

million tests from Andon Health to achieve Biden's goal. That is more money for communist China's economy and less investment in our own economy.

The Federal Government has a responsibility to support American manufacturers, especially as our economy recovers from COVID-19. We cannot turn a blind eye to the fact that it was the Chinese Communist Party that lied about this deadly virus, tried to hide it, and has continuously covered up the origins of COVID-19. We know that every dollar spent on COVID-19 tests manufactured in communist China goes directly to supporting General Secretary Xi and his genocidal regime.

People in this town think taxpayer money is free money to use as they want. They forget that for every dollar collected, there is a hard-working American who earned that money by the sweat of their brow. We have a duty and obligation to ensure that we spend that money wisely.

Thankfully, we won't lose anything or experience shortages by not giving these contracts to Chinese companies. It means HHS will have to work harder to get good, responsible contracts. But the Biden administration's willingness to fund the communist Chinese economy instead of the American economy is an absolute disgrace. It is another example of Joe Biden's willingness to appease dictators and forsake democracy, freedom, and human rights.

So, with many of these tests already repurchased and the Biden administration planning to spend billions more taxpayers dollars, it is important that Congress act on this immediately, which is why I will be asking to pass this good and commonsense bill today.

As if in legislative session, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3565, which is at the desk; further, I ask unanimous consent that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER (Mr. OSSOFF). Is there objection?

Mr. WYDEN. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. I will offer another proposal shortly as an alternative to Senator SCOTT's unanimous consent request, and I am going to make a few brief points before I do that.

I want to make clear that on this side, nobody—nobody—takes a backseat to anyone else when it comes to standing up to the horrific abuses of the Chinese Government against its people as well as its economic cheating that has ripped off American jobs and our prosperity.

That is why I worked with our colleague from Ohio, Senator BROWN, to close once and for all an immoral and unjustifiable loophole that allowed some products made with forced labor to enter into the United States.

That is why I have also worked with Senator CRAPO on a bipartisan effort to build on that progress with respect to forced labor and crack down on the rest of China's playbook of abuses and rip-offs. We wrote a bipartisan amendment that deals with forced labor investigations, with intellectual property protection, and with counterfeiting. It helps level the playing field in the fight against China. It helps strengthen and speed up trade enforcement and increases transparency in trade agreements and trade law. These have been priorities of mine throughout my time in the U.S. Senate.

Obviously, I was very pleased when our bipartisan amendment with Senator CRAPO was included in the China competition bill. Overall, the bill—and it was bipartisan—is all about creating jobs by building up supply chains within the United States, investing in sensible science, and battling some of the key cost drivers—cost drivers—in inflation.

Mr. President, colleagues, Senator SCOTT voted against that bipartisan bill. The bipartisan bill passed by a vote of 68 to 32, but my colleague from Florida voted no. So I just want—as people reflect on this debate—to note for the record who exactly was working to make progress in the fight against China's worst practices and who is making speeches about them.

Second, America needs as much manufacturing capacity as possible as soon as possible here for antigen tests to meet our needs. Unfortunately, we are not there yet. The Biden administration recently launched a free-to-order testing system—free-to-order testing system—online. Sixty million households have ordered tests. That is nearly half the total number of households in the country, so there is big demand.

The President has committed to making a billion tests available through that particular program. That is on top of other programs sending millions of tests each week and month to nursing homes, rural health clinics, schools, and elsewhere. The administration is buying all the American-made COVID tests it can get its hands on, but it is not enough to meet demand.

Let's make no mistake—all steps are being taken to make these crucially needed tests available to Americans.

The Scott bill would create a shortage of COVID tests. So, in addition to voting against the bipartisan bill that really would have tackled the big issues dealing with China, my colleague has an effort to create a shortage of tests. That would be a mistake. It would prolong an Omicron wave and put lives in danger. That just isn't common sense.

The American people want the supply of COVID tests to be large enough that nobody has to camp out in a drugstore parking lot waiting for the next delivery. That doesn't mean they are in league with the Chinese Government's horrible genocide against the Uighur

people, but that is essentially what this bill is saying.

After we have dealt with the Scott proposal, which doesn't do anything to help America's working families and our children, I am going to propose something that does and does it quickly.

The fact is, there are tens of millions of families across the country who need help paying for housing and childcare and the other basic necessities of life. That is what the Senate ought to be focused on. That is what we ought to be zeroing in on because that is going to make life better for families and for kids. So when this legislation is disposed of, I am going to propose that the Senate pass a 1-year extension of the expanded child tax credit, which expired on January 1. That is something, colleagues, which really helps families, and they are hurting right now. The Senate knows they are walking on an economic tightrope, balancing the food bill against the fuel bill, and the reality is, a lot of them had extra expenses due to the variant.

I have been trying to get colleagues on the other side of the aisle for well over a month to support the child tax credit. Our colleagues on this side of the aisle have been relentless in their support for it. Child tax credit payments cut child poverty nearly in half; food insecurity among families dropped by 25 percent—story after story from parents across the country talking about how the program helped them put food on the table, how it helped them buy their kids' school clothes and helped them avoid financial ruin when a parent was laid off.

The fact is, Social Security was a bond between the government and elders. What the child tax credit has been all about is creating a new bond to try to help families, vulnerable families and their kids—an economic lifeline to them.

What I am going to propose, I think, as we move to this debate—because we will hear from our colleague from Florida—we have a choice. If you want to do something that does absolutely nothing but put Americans in a tougher spot in terms of getting the help they need to deal with COVID, that is what happens under the proposal by my colleague from Florida, or do you want to do something that will put cash into the pockets of parents so they can help their kids?

I can tell the Presiding Officer, I am sure he, as a new parent, hears this from his contemporaries: The child tax credit is going for luxuries.

I was just home. I had six townhall meetings—by the way, in mostly conservative areas—and families were using those child tax credits for buying shoes and food and essentials.

So that is what the choice here is going to be.

For the reasons that I describe now, I object to the unanimous consent request from our colleague from Florida.

The PRESIDING OFFICER. Objection is heard.

The Senator from Florida.

Mr. SCOTT of Florida. First off, if my colleague actually wanted to help American families, he would do whatever he could to get American families jobs.

I can't understand why my colleague would object to this bill. When did the Democrats decide that they no longer care about the oversight authority of Congress?

My colleague never said that HHS couldn't find American manufacturers for these tests. He didn't go back and check to see if they did. It seems like every one of my colleagues on the other side of the aisle is just another member of the Biden administration focused on covering up for Joe Biden and his appeasement of General Secretary Xi.

I am actually trying to support American jobs and American families so they can support themselves.

I want to support American manufacturers and the American supply chain. The Biden administration is actively choosing to support the communist Chinese regime and their economy instead. This is what he was elected to do, and this is the last thing American families want to see their tax dollars go for.

As stewards of taxpayer dollars, it is our duty to make sure we are doing everything we can to support the American economy, not the communist Chinese economy, especially following the pandemic and during this time of record-high inflation.

So I think objecting to this bill is a choice just to appease communist China, and it is deeply disappointing that we couldn't pass this good, commonsense bill today.

The PRESIDING OFFICER. The Senator from Oregon.

UNANIMOUS CONSENT REQUEST

Mr. WYDEN. As if in legislative session, I ask unanimous consent that if the Senate receives a message from the House of Representatives that the House has passed a bill that is identical to the text of the Wyden bill that is at the desk to extend and modify the special rules for the child tax credit and the advanced payments of the child tax credit for 1 year, that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table without intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Senator from Florida.

Mr. SCOTT of Florida. Reserving the right to object, look, I get it. I understand why my colleague is anxious. He has got to distract from the bill I came here to pass today. Democrats have shown again and again that they will do anything to cover up for Joe Biden and his weak appeasement of communist China. From the start of the COVID-19 pandemic, my focus has been on providing targeted help to families who truly need it. That is where my focus remains.

My colleague is well aware that this program that he is talking about is actively being debated, and there are concerns on both sides of the aisle. Just one of the many issues being discussed in the program is the program's lack of work requirements and insufficient means testing. It would be irresponsible to cut those discussions short and pass a measure that does not have the unanimous support of the Senate tonight. Therefore, I object.

The PRESIDING OFFICER. The objection is heard.

The Senator from Oregon.

Mr. WYDEN. Mr. President, just very briefly, I would like to note that this has been the second time in about 6 weeks when I have tried to get the urgently needed child tax credit extended for another year here on the floor of the U.S. Senate—the second time.

We are hearing all over this country about families who are really having trouble making ends meet right now and how valuable to them the child tax credit would be. And twice in the last 6 weeks, here on the floor of the U.S. Senate, I have tried to get the child tax credit extended for 1 year. And I would just like to note that twice—in the last 6 weeks, Republicans have objected to the idea of extending the child tax credit for 1 year.

I don't think that is in the interest of American families and American kids. We will continue this debate.

And with that, I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. KENNEDY. Mr. President, I ask unanimous consent that I be able to speak for up to 15 minutes, Senator MARSHALL for up to 5 minutes, and Senator MENENDEZ for up to 5 minutes before the scheduled rollcall votes.

The PRESIDING OFFICER. Without objection, it is so ordered.

INFLATION

Mr. KENNEDY. I want to speak on two topics.

First, on inflation, President Biden's economic policies, unfortunately, have water-boarded the budgets of most Americans and most Louisianians. We see the official statistics, and the statistics are that inflation is going up 7 percent. I understand that is what the experts say, but most Americans and most Louisianians know that inflation is much worse, much worse.

I am sure that has been the experience of the good people of Georgia as well. I mean, I did some calculations before I came down today. From December of 2020 to December of 2021, the most recent numbers we have, gasoline is up 49.6 percent.

In my State, in Louisiana, it costs Louisianians \$27 more than it did last year to fill up the tank of a Chevy truck. That is every time they fill up the tank.

Used car and truck prices have increased by 37.3 percent. In New Orleans, for example, in my State, used car prices were up 38.2 percent through last September.

We all have to eat. Meat, poultry, fish, eggs, up 12.5 percent.

New vehicles, if you can find one, up 11.8 percent.

Household furnishings and furniture, up 7.4 percent. Electricity, up 6.3 percent and headed higher. Clothes, 5.8 percent. Fruits and vegetables, 5 percent. Cereals and bakery products, 4.8 percent. And I could keep going.

The truth is that most Americans are having to spend, on average, about \$3,500 more per year because of President Biden's inflation.

Now, to some people, that may not sound like much, that is a lot of money for people in my State. An extra \$3,500 out of the budget of most working Americans is a lot.

You know, I wish it weren't so, but this inflation has been caused by the Biden administration's economic policies. Inflation is not complicated. It is too much money chasing too few goods.

President Biden's coronavirus bill was the tipping point. That is clear. Now, we all voted for a number of coronavirus bills, but the last coronavirus bill was way too expensive. It was unnecessary, and it wasn't a coronavirus bill.

The President said: Oh, we have got an emergency. We have got an emergency.

And then you read the bill and find out that the bill has got nothing to do with the coronavirus and the money is going to be spent over like a 10-year period. That is not an emergency.

The current inflation has characteristics—I have not seen this—of both cost-push and demand-pull inflation, and it can be traced directly to the economic policies of the Biden administration.

And the Biden administration keeps pushing. He keeps trying to stuff more diapers down the toilet. The Biden administration wants to throw another \$5 trillion—not billion, not million, but trillion—of gasoline on the fire in the Build Back Better bill. And if we pass that, there will be another trillion dollars.

I mean, this administration spends money like it was gully dirt. I have never seen anything like it.

And then we have inflation. We have all this liquidity, which leads to inflation, and the Biden administration will not accept responsibility.

President Biden has blamed inflation—he blamed it first on COVID. Now, I will admit COVID is spreading, but I don't see people walking around coughing inflation on each other. Then he blamed it—I think he blamed it on China for a while. Then President Biden blamed it on greedy corporations. I expect next he will say that inflation originated in a bat.

But the truth of the matter is, it is not complicated. It originated with his spending policies, and it is just killing my people. It is killing them.

And, as you know, we have a lot going on here in Washington and a lot of issues in front of us that are impor-

tant—Ukraine, for example. The President shortly is going to nominate a new member to our U.S. Supreme Court. We have a multitude of bills that we are considering, and all of those are important.

But inflation is important too, and it is hurting the American people, and it is hurting the least among us the most. Yes, we are seeing inflation in terms of services, but we are seeing inflation more in terms of goods, and low-income Americans, as you well know, spend proportionately more of their income on goods than they do on services.

The President's policies, I regret to have to say, have administered a sucking chest wound on the budgets of the people in my State and the people of America, and it has got to stop.

REMEMBERING WILLIAM CLIFFORD SMITH

Mr. President, let me say one more thing, if I could. I lost a good friend in Louisiana, and Louisiana lost a good friend last week: Mr. Clifford Smith. Clifford happened to be a civil engineer, but he was so much more. Clifford was born in New Orleans, but he lived his entire life in Terrebonne Parish. Terrebonne Parish in my State is one of the southernmost parishes. It has been experiencing, for a variety of reasons, wetlands loss for decades after decades.

We started experiencing wetlands loss as soon as we levied the Mississippi River. Now, I am not saying we shouldn't have levied it, because it has obviously created a lot of commerce for America and Louisiana. But the river could no longer overflow and deposit the sediment, and the sediment has not been replenished, and the current sediment has sunk. And when your land sinks and the ocean rises, then you are going to have wetlands loss.

Clifford Smith was one of the first Louisianians, if not the first, to talk about the need for coastal restoration in my State. Clifford Smith, throughout his career at T. Baker Smith, the name of his company, created jobs for thousands of the people in my State.

He was on every board imaginable. When his church burned down in Houma, Clifford said: I will be responsible for raising the money and can rebuild the church.

It took him 5 years, and he did it. And Houma is not—it is a wonderful place, but it is not a wealthy place. But Clifford did it. He had a lot of help, but Clifford was the quarterback.

He was whip smart, and he was visionary. He was wise. He was very charming.

I have known Clifford 30-plus years. I remember when I first decided to run for office, I called Clifford and said: Will you support me? Because everybody knew Clifford Smith. Everybody respected Clifford Smith. Everybody admired Clifford Smith. And I knew if I had his support in his area of my State, it would be critical.

And he said: Yeah, Kennedy. I will support you.

And I said: Well, Clifford, you know the question that is coming next. I can't run a campaign without financial resources. Will you give me money?

He said: No.

I was shocked. This is my friend.

He said: I will not give you money.

He said: But I will tell you what I will do, Kennedy. I will—since you have decided to run for office, I will buy you a gift certificate for a psychiatrist.

Well, that was Clifford—what a poignant statement. Of course, he ended up supporting me financially, but he went on to give me advice and say: Are you sure you want to do this? Politics is a rough business.

I miss Clifford. I am going to miss him. He has a wonderful family, wonderful kids, wonderful grandkids, wonderful great-grandkids. Jo-Anne, his wife, is just a lovely person. And I know that they will continue to spread the truths that were so important to Clifford Smith.

I went down to the funeral home Monday to say goodbye, but I wanted to say goodbye on the floor of the U.S. Senate and recognize my friend and a Louisiana favorite son, William Clifford Smith.

We celebrate his life, but his loss Louisiana weeps.

I yield the floor to my good friend from Kansas.

The PRESIDING OFFICER. The Senator from Kansas.

BORDER SECURITY

Mr. MARSHALL. Mr. President, it was just a couple weeks ago that President Biden asked the Nation—he asked Republicans: What are Republicans for?

I want to make it clear tonight that I am for border security. I am for law and order.

I have been to the border three times in the past 4 to 5 years, and what I saw there was a crisis. And if I could, I just want to paint just for a minute what that crisis looks like.

Having been overseas doing medical mission work, I think I know a humanitarian, a health crisis when I see it, and this was a humanitarian crisis, a health crisis—thousands of people sleeping underneath a bridge. They just traveled across Mexico for days, maybe weeks, maybe months.

And as a physician, I looked out there, and what did I see? I saw people who were dehydrated, malnourishment, dehydration from diarrhea, from dysentery, scabies, tuberculosis.

The Border Patrol was overwhelmed. The doctors were overwhelmed, the nurses, the dentists—everybody was overwhelmed. That is what I would call a humanitarian crisis.

One of the biggest humanitarian crises going on, though, is human trafficking. As an obstetrician/gynecologist in Kansas, believe it or not, we would have to take care of young women who had been abused from human trafficking. Maybe they had chlamydia, maybe they were having a miscarriage, but I am just shocked at

the amount of human trafficking going on across the border.

In fiscal year 2021, 145,000 unaccompanied minors were apprehended at the southern border. And I want to emphasize, this is young girls and young boys that are being abused and sold into sex slavery.

Of that 145,000, about a third of the minors that were released to a sponsor we lost contact with. Are we turning children over to human trafficking? I think that is what we are all concerned about.

So I think certainly there is indeed a humanitarian crisis, a health crisis there.

Just to talk a little bit more about the border—and we will put that up here and renegotiate the microphone.

Look at the statistics from last year alone. Two million people were apprehended at the border last year—2 million people. Do you realize that there are 14 States in this country with less than 2 million people?

And beyond that, as I spoke with the Border Patrol there, they told me for every person they apprehend that two got across the lines, so probably an additional 4 million people came across, a total of 6 million. There are 30 States in our country with a population of 6 million people.

Furthermore, what we are doing is making the cartel rich. Again, what I was told by Texas Rangers and Border Patrol officers is the cartel is making \$3,000 to \$9,000 per person. And, of course, if it was some person maybe from the Middle East, a little bit harder to get across the border, they were getting \$20 to \$30,000 a person as well.

I haven't talked yet about the national security crisis. I think we have all seen the films and the reports of single adult males being flown on nighttime flights across the Nation being released, migrants using arrest warrants as forms of identification. I think, you know, America is not stupid. We see what is going on.

I want to talk about fentanyl for a second. So probably 90, 95 percent of the fentanyl coming into this country is made in China, coming across our southern border.

An average month of fentanyl being seized at the border was over 800 pounds. That is almost a half a ton of fentanyl. That would kill 200 million people. Now, this is a drug that if a drug dog sniffs it, it kills them. It makes them stop breathing. Most normal people, if they just had a small, small amount in it, it would make them stop breathing.

This is the national security crisis going on—more young people dying from fentanyl overdose than from COVID—and that is just part of the national security crisis.

You know, I kind of started off this discussion saying what I am for; that I am for border security. I want to tell you how we can fix the problems there, and these are solutions every American knows.

DHS, several years ago, came up with a \$25 billion budget to control the border. I couldn't think of a better way to invest \$25 billion of American dollars—to build a wall where it needs to be built, to finish the wall, to put the gates in that are sitting there rusting away. We could start with that.

We, of course, need more boots on the ground, more technology, more drug dogs—but \$25 billion would significantly improve the situation on the southern border.

Next, the administration can fully and in good faith enforce the "Remain in Mexico" policy and then catch-and-release practices.

And, finally, this, of course: work with Mexico. Let's go back and ask Mexico to help us to get the control, the security on the border; ask them to work on their southern border, which is much easier to control and, of course, work with our Border Patrol on our common border.

This is a crisis that America sees. Every townhall I do, someone is going to bring it up. Every one of them, without any question, someone is going to ask me—they say: Why does President Biden want this crisis?

I say: Well, what do you mean, he wants it?

They say: Well, obviously, he wants this crisis because it would still—it would be so easy to fix.

So if we see the problem, we know the solution—that would be my question for President Biden. Do you have the will to fix this crisis?

I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

NOMINATIONS

Mr. MENENDEZ. Mr. President, I come to the floor today to voice my strong support for four highly qualified nominees whom we are soon to vote on: Dr. Amy Gutmann to be the U.S. Ambassador to Germany; Mr. Scott Nathan to be the Chief Executive Officer of the U.S. International Development Finance Corporation; Ms. Lisa Carty to be the U.S. Representative to the United Nations Economic and Social Council; and Ms. Chantale Wong to be the U.S. Director of the Asian Development Bank.

They are all highly qualified. I will speak for a minute or two on Dr. Gutmann and Mr. Nathan, in particular.

Our partnership with European allies is evermore critical as we attempt to deter further Russian escalation and aggressive behavior toward Ukraine. Germany is key to this effort—absolutely critical to the work we need to do to prevent Vladimir Putin from furthering his aims to reclaim a sphere of influence and destabilize Europe.

So while it was beyond irresponsible for some of our Republican colleagues to bottle up Dr. Gutmann's nomination for months, I am pleased that we are close to getting a confirmed ambassador in Berlin; an ambassador who will help coordinate our joint efforts to

stop a Russian invasion of Ukraine; an ambassador who will help repair the previous administration's damage to the U.S.-German relationship; and an ambassador who will represent the United States with great skill and determination.

I would also note that Dr. Gutmann's personal and professional background are a compelling fit for this position and for this moment. As the daughter of a German Jewish refugee who fled the Nazis and as an academic who has devoted her career to advancing freedom and democracy, she is the right person for the job in a moment where anti-Semitism is on the rise and dictators and autocrats around the world are emboldened.

I urge all of my colleagues to support Dr. Gutmann's nomination, and I look forward to her arrival in Berlin in short order.

President Biden also made an excellent decision in nominating Scott Nathan to be the next Chief Executive Officer of the Development Finance Corporation.

The DFC, as that entity is known, is a critical tool for improving economic development outcomes in developing countries, advancing U.S. economic competitiveness, and creating new opportunities in underserved countries and communities.

And while the DFC is only 2 years old, its importance to the advancement of U.S. foreign policy and international development priorities cannot be overstated.

Mr. Nathan will be able to draw on his leadership experience in both the private sector and in public service to ensure the DFC effectively leverages public-private partnerships and maximizes strategic development opportunities around the globe. He has the skills necessary to lead the Agency to be competitive with China's Belt and Road Initiative, to promote renewable energy development, and to support COVID-19 recovery, and, at the same time, to recognize and grapple with the complexity of these challenges.

I strongly support confirming Mr. Nathan, and I am eager to work with him once confirmed.

So all of these nominees deserve a positive, strong vote.

With that, I yield the floor.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 614, Loren L. AliKhan, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for a term of fifteen years.

Charles E. Schumer, Richard J. Durbin, Richard Blumenthal, Gary C. Peters, Robert P. Casey, Jr., Sheldon Whitehouse, Martin Heinrich, Sherrod Brown, Patty Murray, Tammy Duckworth, Tim Kaine, Elizabeth Warren, Mazie K. Hirono, Alex Padilla, Tina Smith, Christopher A. Coons, Amy Klobuchar, Jon Tester.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Loren L. AliKhan, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for a term of fifteen years, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Maryland (Mr. VAN HOLLEN) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from North Dakota (Mr. CRAMER), the Senator from Montana (Mr. DAINES), and the Senator from North Dakota (Mr. HOEVEN).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The yeas and nays resulted—yeas 55, nays 40, as follows:

(Rollcall Vote No. 27 Ex.)

YEAS—55

Baldwin	Heinrich	Reed
Bennet	Hickenlooper	Romney
Blumenthal	Hirono	Rosen
Blunt	Kaine	Sanders
Booker	Kelly	Schatz
Brown	King	Schumer
Cantwell	Klobuchar	Shaheen
Cardin	Leahy	Sinema
Carper	Manchin	Smith
Casey	Markey	Stabenow
Collins	Menendez	Tester
Coons	Merkley	Tillis

Grassley	Risch	

NOT VOTING—5

Cramer	Hoeven	Van Hollen
Daines	Luján	

The PRESIDING OFFICER (Mr. KELLY). The yeas are 55, the nays are 40.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. The clerk will report the nomination.

The senior assistant legislative clerk read the nomination of Loren L. AliKhan, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for a term of fifteen years.

The PRESIDING OFFICER. The majority leader.

ORDER OF BUSINESS

Mr. SCHUMER. Mr. President, I ask unanimous consent that the previous order be modified so that the cloture vote on Executive Calendar No. 495 occur following the cloture vote on Calendar No. 474 and that all other provisions of the previous order remain in effect.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I am asking the Members to stay here in the Chamber or in close proximity of the Chamber so we can get these votes done expeditiously. And, in that regard, I ask unanimous consent that we move the remaining votes from 15 minutes down to 10.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SCHUMER. Thank you.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 644, Amy Gutmann, of Pennsylvania, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federal Republic of Germany.

Charles E. Schumer, Robert Menendez, Richard Blumenthal, Gary C. Peters, Robert P. Casey, Jr., Sheldon Whitehouse, Martin Heinrich, Richard J. Durbin, Sherrod Brown, Patty Murray, Tammy Duckworth, Tim Kaine, Elizabeth Warren, Mazie K. Hirono, Alex Padilla, Tina Smith, Christopher A. Coons, Amy Klobuchar, Jon Tester.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Amy Gutmann, of Pennsylvania, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federal Republic of Germany, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. COONS),

the Senator from New Mexico (Mr. LUJÁN), and the Senator from Maryland (Mr. VAN HOLLEN) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Texas (Mr. CORNYN), the Senator from North Dakota (Mr. CRAMER), the Senator from Montana (Mr. DAINES), the Senator from North Dakota (Mr. HOEVEN), the Senator from Florida (Mr. RUBIO), and the Senator from Alabama (Mr. TUBERVILLE).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The yeas and nays resulted—yeas 54, nays 37, as follows:

[Rollcall Vote No. 28 Ex.]

YEAS—54

Baldwin	Heinrich	Reed
Bennet	Hickenlooper	Romney
Blumenthal	Hirono	Rosen
Blunt	Kaine	Rounds
Booker	Kelly	Sanders
Brown	Kennedy	Schatz

NOT VOTING—9

Coons	Daines	Rubio
Cornyn	Hoeven	Tuberville
Cramer	Luján	Van Hollen

The PRESIDENT pro tempore. On this vote, the yeas are 54, the nays are 37.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDENT pro tempore. The clerk will report the nomination.

The senior assistant legislative clerk read the nomination of Amy Gutmann, of Pennsylvania, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federal Republic of Germany.

CLOTURE MOTION

The PRESIDENT pro tempore. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby

move to bring to a close debate on the nomination of Executive Calendar No. 649, Lisa A. Carty, of Maryland, to be Representative of the United States of America on the Economic and Social Council of the United Nations, with the rank of Ambassador.

Charles E. Schumer, Robert Menendez, Jack Reed, Jacky Rosen, Benjamin L. Cardin, Margaret Wood Hassan, Tina Smith, Robert P. Casey, Jr., Alex Padilla, Michael F. Bennet, Tammy Duckworth, Cory A. Booker, Debbie Stabenow, Christopher Murphy, Ben Ray Luján, Angus S. King, Jr., Martin Heinrich.

The PRESIDENT pro tempore. By unanimous consent, the quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Lisa A. Carty, of Maryland, to be Representative of the United States of America on the Economic and Social Council of the United Nations, with the rank of Ambassador, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Vermont (Mr. SANDERS) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Texas (Mr. CORNYN), the Senator from North Dakota (Mr. CRAMER), the Senator from Montana (Mr. DANES), and the Senator from North Dakota (Mr. HOEVEN).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The yeas and nays resulted—yeas 66, nays 28, as follows:

[Rollcall Vote No. 29 Ex.]

YEAS—66

Baldwin	Grassley	Portman

NOT VOTING—6

Cornyn	Daines	Luján
Cramer	Hoeven	Sanders

The PRESIDENT pro tempore. On this vote, the yeas are 68, the nays are 26.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDENT pro tempore. The clerk will report the nomination.

The senior assistant legislative clerk read the nomination of Scott A. Nathan, of Massachusetts, to be Chief Executive Officer of the United States International Development Finance Corporation.

CLOTURE MOTION

The PRESIDENT pro tempore. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 616, Chantale Yokmin Wong, of the District of Columbia, to be United States Director of the Asian Development Bank, with the rank of Ambassador.

Charles E. Schumer, Robert Menendez, Jack Reed, Jacky Rosen, Benjamin L. Cardin, Margaret Wood Hassan, Tina Smith, Robert P. Casey, Jr., Alex Padilla, Michael F. Bennet, Tammy Duckworth, Cory A. Booker, Debbie Stabenow, Christopher Murphy, Ben Ray Lujan, Angus S. King, Jr., Martin Heinrich.

The PRESIDENT pro tempore. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination

of Chantale Yokmin Wong, of the District of Columbia, to be United States Director of the Asian Development Bank, with the rank of Ambassador, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Vermont (Mr. SANDERS) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Texas (Mr. CORNYN), the Senator from North Dakota (Mr. CRAMER), the Senator from Montana (Mr. DAINES), and the Senator from North Dakota (Mr. HOEVEN).

Further, if present and voting, the Senator from North Dakota (Mr. HOEVEN) would have voted "nay."

The yeas and nays resulted—yeas 64, nays 30, as follows:

[Rollcall Vote No. 31 Ex.]

NOT VOTING—6

Cornyn	Daines	Luján
Cramer	Hoeven	Sanders

The PRESIDENT pro tempore. On this vote, the yeas are 64, the nays are 30.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDENT pro tempore. The clerk will report the nomination.

The legislative clerk read the nomination of Chantale Yokmin Wong, of the District of Columbia, to be United States Director of the Asian Development Bank, with the rank of Ambassador.

The PRESIDENT pro tempore. The Senator from New York.

UNANIMOUS CONSENT AGREEMENT

Mr. SCHUMER. Yes, Mr. President, it is good news. People will want to hear it.

I ask unanimous consent to withdraw the cloture motions with respect to the Camarillo and Hunter nominations and that the Senate resume consideration of the nominations and the Senate now vote on the confirmation of the nominations in the order listed, with all other provisions of the previous order in effect.

The PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

Mr. SCHUMER. For the information of the Senators, we have one vote tonight; there will be three votes tomorrow at 12:30.

I yield the floor.

EXECUTIVE CALENDAR

The PRESIDENT pro tempore. The clerk will report the nomination.

The legislative clerk read the nomination of Gabriel Camarillo, of Texas, to be Under Secretary of the Army.

Thereupon, the Senate proceeded to consider the nomination.

The PRESIDENT pro tempore. The question is, Will the Senate advise and consent to the Camarillo nomination?

The nomination was confirmed.

EXECUTIVE CALENDAR

The PRESIDENT pro tempore. The clerk will report the nomination.

The legislative clerk read the nomination of Andrew Philip Hunter, of Virginia, to be an Assistant Secretary of the Air Force.

Thereupon, the Senate proceeded to consider the nomination.

The PRESIDENT pro tempore. The question is, Will the Senate advise and consent to the Hunter nomination?

The nomination was confirmed.

The PRESIDENT pro tempore. Under the previous order, the motions to reconsider are considered made and laid upon the table, and the President will be immediately notified of the Senate's action.

CLOTURE MOTION

The PRESIDENT pro tempore. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 495, John Patrick Coffey, of New York, to be General Counsel of the Department of the Navy.

Charles E. Schumer, Jack Reed, Sheldon Whitehouse, Richard Blumenthal, Richard J. Durbin, Catherine Cortez Masto, Jacky Rosen, Margaret Wood Hassan, Mark Kelly, Benjamin L. Cardin, Brian Schatz, Debbie Stabenow, Angus S. King, Jr., Patrick J. Leahy, Martin Heinrich, Tim Kaine, Gary C. Peters, Chris Van Hollen.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of John Patrick Coffey, of New York, to be General Counsel of the Department of the Navy, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New Mexico (Mr. LUJÁN) and the Senator from Vermont (Mr. SANDERS) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Texas (Mr. CORNYN), the Senator from North Dakota (Mr. CRAMER), the Senator from Montana (Mr. DAINES), and the Senator from North Dakota (Mr. HOEVEN).

The yeas and nays resulted—yeas 76, nays 18, as follows:

[Rollcall Vote No. 32 Ex.]

YEAS—76

NOT VOTING—6

Cornyn	Daines	Luján
Cramer	Hoeven	Sanders

The PRESIDING OFFICER (Mr. KELLY). On this vote, the yeas are 76, the nays are 18.

The motion is agreed to.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. The clerk will report the nomination.

The legislative clerk read the nomination of John Patrick Coffey, of New York, to be General Counsel of the Department of the Navy.

The PRESIDING OFFICER. The majority leader.

EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate consider the following nomination: Calendar No. 571, Shelly C. Lowe, of Ar-

izona, to be Chairperson of the National Endowment for the Humanities for a term of four years; that the Senate vote on the nomination without intervening action or debate; that the motion to reconsider be considered made and laid upon the table with no intervening action or debate; that any statements related to the nomination be printed in the RECORD; and that the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is, Will the Senate advise and consent to the nomination of Shelly C. Lowe, of Arizona, to be Chairperson of the National Endowment for the Humanities for a term of four years?

The nomination was confirmed.

EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate consider the following nominations: Calendar Nos. 695 through 700 and all nominations on the Secretary's Desk in the Air Force, Army, Coast Guard, Marine Corps, and Navy; that the nominations be confirmed en bloc; that the motions to reconsider be considered made and laid upon the table with no intervening action or debate; that no further motions be in order to any of the nominations; and that the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

IN THE AIR FORCE

The following named officers for appointment in the United States Air Force to the grade indicated under title 10, U.S.C., section 624:

To be brigadier general

Col. Jeffrey W. Nelson

IN THE MARINE CORPS

The following named officers for appointment in the United States Marine Corps Reserve to the grade indicated under title 10, U.S.C., section 12203:

To be brigadier general

Col. Mark A. Cunningham

Col. Valerie A. Jackson

The following named officers for appointment in the United States Marine Corps Reserve to the grade indicated under title 10, U.S.C., section 12203:

To be major general

Brig. Gen. Karl D. Pierson

IN THE AIR FORCE

The following named officers for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general

Maj. Gen. Stephen L. Davis

IN THE ARMY

The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general

Maj. Gen. Charles R. Hamilton

IN THE NAVY

The following named officer for appointment in the United States Navy to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be vice admiral

Vice Adm. Frank D. Whitworth, III

PN1627 MARINE CORPS nominations (6) beginning ANDREW M. ADKINS, and ending JOSHUA E. WILLIAMS, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1628 MARINE CORPS nominations (7) beginning IAN M. COLE, and ending CHRISTOPHER T. SILLS, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1629 MARINE CORPS nominations (2) beginning ELI J. BRESSLER, and ending JONATHAN R. CAPE, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1632 MARINE CORPS nomination of Christopher M. Dilport, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1634 MARINE CORPS nomination of John F. Bathon, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1635 MARINE CORPS nominations (4) beginning CHRISTOPHER L. JOHNSON, and ending BRAD C. SWANSON, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1638 MARINE CORPS nominations (5) beginning SERGIO ABREU, and ending CHRISTOPHER J. REQUEJO, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1639 MARINE CORPS nomination of Termaine R. Babers, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1640 MARINE CORPS nomination of Vicente Fregoso, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1641 MARINE CORPS nominations (3) beginning MICHAEL E. CATES, and ending ANDREW L. SMITH, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1642 MARINE CORPS nominations (2) beginning DARRYL L. ELLIS, and ending WILLIAM J. MUELLER, which nominations were received by the Senate and appeared in the Congressional Record of January 5, 2022.

IN THE NAVY

PN1644 NAVY nomination of Anastasia S. Abid, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1645 NAVY nomination of Mariya V. George, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1646 NAVY nomination of Takeru A. Tajiri, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1647 NAVY nomination of Dawn C. Allen, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

PN1648 NAVY nomination of David J. Fauste, which was received by the Senate and appeared in the Congressional Record of January 5, 2022.

LEGISLATIVE SESSION

MORNING BUSINESS

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to legislative session and be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO JOANNA CAPPS

Mr. LEAHY. Mr. President, I join with the vice chairman of the Appropriations Committee, Senator SHELBY, in honoring Joanna Capps on her retirement on January 21, 2022, after more than 33 years of distinguished service to the Congress. Joanna, better known as Jodi, has supported the annual appropriations process throughout her career. Republican and Democratic staff of both Chambers hold Jodi in high esteem for her deep expertise of appropriations law and budget process and for her steady, even-keeled collegiality.

Jodi came to Capitol Hill in 1989, joining the staff of the Senate Appropriations Committee. For 4 years she worked as a professional staff member of the full committee, productively and reliably working for lawmakers on both sides of the aisle to support the orderly development of appropriation bills by coordinating the compilation and presentation of scoring data across all subcommittees. During her time at the committee, Jodi gained invaluable expertise and insight into the highly detailed and fast-paced nature of appropriations-related work, as well as the myriad budget-related rules and procedures that govern Senate consideration of those bills.

In 1994, Jodi transitioned to a new role within the Congressional Budget Office's Budget Analysis Division, where she has worked as a scorekeeper for the past 28 years. In that capacity, she has been a valuable asset to eight CBO Directors. Initially tasked with scoring the Energy-Water and Interior appropriation bills, Jodi served as the

primary or backup scorekeeper for multiple bills, expanding her substantive expertise and institutional knowledge along the way. For the past several years, she has handled both the vast Labor, Health and Human Services, and Education bill and the legislative branch bill, coordinating CBO's analyses of the President's budget request for those bills and compiling scores for countless versions at each stage of Congressional consideration. She also supported the production of baseline projections, cost estimates for authorizing legislation, CBO's annual report on Expired and Expiring Authorizations of Appropriations, and other vital efforts related to the Budget Analysis Division functions.

Throughout her congressional career, Jodi nurtured strong, collaborative relationships that enabled her to act as a trusted and effective liaison between appropriations staff and CBO analysts. Staff of the Senate Appropriations Committee value her candor and ability to juggle multiple requests with a calm, steady demeanor. Within CBO, Jodi is regarded as a generous and amiable team player who goes out of her way to support colleagues, both professionally and personally.

Jodi is also known for her many creative talents and her civic-mindedness. From setting out trays of homemade scones for CBO colleagues to enjoy with their morning coffee to leading lunch-time tutorials on how to create a floral centerpiece, Jodi has an eye for elegance and enjoys sharing her gifts. She is a committed volunteer who makes time to support causes that benefit her community and boost people's spirits. But perhaps above all, Jodi is famously known as an avid animal lover, a passion she shares with her husband of many years, Alan.

Jodi's expertise, institutional knowledge, and generous spirit will be sorely missed throughout Capitol Hill. We are grateful for her 33 years of exemplary service to the Congress and wish her the best in the years to come.

VOTE EXPLANATION

Mr. HAWLEY. Mr. President, had there been a recorded vote, I would have voted no on the confirmation of Andrew Philip Hunter, of Virginia, to be an Assistant Secretary of the Air Force.

Mr. President, had there been a recorded vote, I would have voted no on the confirmation of Gabriel Camarillo, of Texas, to be Under Secretary of the Army.

REMEMBERING ROBERT J. DOLE

Mr. MORAN. Mr. President, today former majority leader and Kansas Senator Bob Dole was buried at Arlington National Cemetery.

On December 11, 2021, Senator Dole's hometown of Russell, KS, said their final goodbyes to their favorite son and celebrated his life.

I ask unanimous consent that the remarks I gave that day be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

All of my political life, I've had to follow Bob Dole and Pat Roberts. It's a challenge and they have a sense of humor and wit that I have never been able to replicate, and they have big shoes to fill that are impossible to accomplish.

Never in my time in public life, and therefore in any portion of my life, have I felt more nervous, less capable, of delivering a message. But it is an important one, and I'm honored so much, so privileged to be able to speak in this setting. I am delighted that our minority leader, the Republican leader of the Senate, and his wife Elaine are with us.

From day one, Mitch has said "I will be in Kansas." I ask him, "so did you have a relationship with Bob Dole, did you like him?" To which he said, "Jerry, I voted for him five times. When I arrived in the United States Senate, there was a leadership election going on and it took five ballots to elect Bob Dole, the majority leader, and I did it one, two, three, four, five times."

Then he went on to say what I think is the important point of that story. He said, "I was a new staffer for a new Senator when Bob Dole was in the Senate, and I was leaning against the back wall of the U.S. Senate and the only one of those five candidates who ever visited with me was Bob Dole. And I repaid the favor for him paying attention to somebody he had no necessity of talking to by voting for him. And he became the majority leader, as I understand it, by one vote."

It tells us a story about Mitch's loyalty, but it tells us a story about Bob Dole. You may remember, I don't know if it's done these days, but there used to be polls of people who worked in the Capitol. The question was, "who's your favorite Senator; who the politest person is; who's respectful . . . Bob Dole every time." To the elevator operator, the person who drives the train, to the staff up and down the halls, Bob Dole was their favorite.

And Senator Kassebaum, I am delighted you're here. There are many people who appreciate and long for the days in which Bob Dole and Nancy Kassebaum were their Senators. Those were days of glory for Kansas because we were represented so well.

There's lots of Dole alumni in this room, people whose lives were affected by the fact they worked for Bob Dole, therefore they worked for Kansas; they worked for Americans. They have done so many good things in their life, and they come to pay respect to their mentor, the person that gave them a chance, who brought them from Kansas to the nation's capital and changed their lives.

Chaplain Black, I certainly appreciated what you said yesterday at the National Cathedral, but what you said today in St. Mary's in Russell, Kansas, is meaningful. This is a place in which you can preach the gospel, the gospel of salvation, and people are receptive. And Elizabeth Dole, we have so many things we could compliment you on in your public service, your service to the United States Senate, your service to the cabinet. But I have no doubt that the ability for Chaplain Black to say, "a brother in Christ" has a lot to do with your relationship with Senator Dole. And there is no better thing that could be said today. All the accolades about Bob Dole's life are irrelevant until you get to the point that the Chaplain made: "my brother in Christ."

" . . . We rejoice in our sufferings, knowing that suffering produces endurance, and en-

durance produces character, and character produces hope. . . ." (Romans 5:3-4).

I travel Kansas a lot and there are so many stories about Bob Dole. Each of us, we'd love to tell them. . . I've suggested that we ought to get a group together, get a cup of coffee, have a sandwich and just tell Dole's stories.

Bob Dole is the first United States Senator I ever met. My home town of Plainville neighboring county knew of him, but then the first Senator I ever had the chance to shake a hand with. And I have been in awe of Bob Dole for 52 years since then. I know him personally, but I know him from the way Kansans talk about him. The way they express their views about what he did for them, what he meant to them, how important he was to them. If there is a role model in public service, isn't it about getting to the point in which people say "you meant something to me"? I hope those days are not passed in which the connection between elected officials and the people they represent are about what we've done to make their lives better.

My story with Bob Dole begins when he was serving our nation in uniform in the spring of 1945. Not me, but in the spring of 1945, a worried mother, Bina Dole called my grandma. My grandparents lived south of here on the Russell-Barton county line. The way it was described to me, the conversation took place on a party line and Mrs. Dole was asking my grandmother, "could you please ask your son to see what happened to Bob in the battlefields of Italy?"

My dad was also serving in Italy. He was serving in the Army and she hoped she expressed this hope to my grandmother, my dad's mom that maybe my dad could learn something about what happened to Bob Dole and how he was doing and what his chances were. My dad took leave and made the effort to find Bob Dole only to discover that he had been transported, evacuated out the day before. He missed seeing him by a day.

I walked out of church last Sunday, a week ago tomorrow, only to learn the news of Senator Dole's passing. And I want folks to know that every time that I think about Bob Dole, I think of Russell. I think of places like Russell. Towns like Russell, some a little bit bigger, some a little bit smaller dot our state.

In each of these towns, there are differences of opinions. There are Republicans and there are Democrats. There's people who go to this church or that church. But you know, when it comes to communities in Kansas—communities like Russell—we set aside our differences and try to solve problems. Maybe in a place like Russell, you could actually have a kid who grew up in the Kennedy Methodist Church have his funeral service in St. Mary's Catholic Church. Maybe you could actually have the Methodists and the Lutherans singing in the choir together.

I've tried to explain this to my colleagues in Washington, D.C. more than once, but there is something about small towns where we still get along, and get along well enough to solve our problems. Less so, unfortunately, in the nation's capital. We respect our neighbors. We see them in the grocery store, and we see them at the football game on Friday night, and if we fought among ourselves all the time like sometimes national politics exhibits today, our towns would be a thing of the past. It's only that community working together that keeps the place alive. And we put our hands over our heart when the flag goes by, and we love our country.

Following the attack of December 7th, 80 years ago this week, the values Bob Dole learned growing up in Russell led him to sign up and swear an oath to protect and defend our nation. In the fall of 1944, Lieutenant Dole shipped out, and on April 14th of the next year, 1945, on a battlefield in the hills of

Italy, his life almost ended. He began here in Russell and almost ended in a place he probably never envisioned ever seeing—some set of hills and some country called Italy. And sadly, his injuries occurred three weeks before the war came to an end. Those injuries he suffered were horrific, and they were permanent, but he survived. He endured a long road to recovery. Three years of healing, therapy, rehabilitation still left him with a severely paralyzed right arm.

As we've heard Senator Dole wanted to be a doctor. He was a great track star in Russell and at the University of Kansas. But after that event in 1945, his life, even the basic tasks of living, they were not the story of a track star or a young man who saw stability in being a doctor in a small town. His dreams were crippled.

All of us grow up with dreams; his were shattered on one day. He endured these disabilities throughout his life. You could never see and talk about Bob Dole without knowing the experience of his disability which he never let be one. It took us a number of times to figure out in my life, particularly as a teenager, "how do I get to shake Bob Dole's hand, how does this work?" He lived with these disabilities and rather than asking for help; he decided to commit his life to offering help. His disabilities developed his character. It developed an empathy for other people, and he turned his adversities into public service. His circumstances altered the course of his life, leading him to Congress where he championed bills to provide hope, hope to people like him. There may be no more important thing that any of us can give anyone else, maybe with the exception of what the Chaplain offers, but the hope. And maybe what the Chaplain offers is hope.

In addition to his World War II service, Senator Dole's character developed due to his upbringing here in Kansas, here in Russell, Kansas. His family and this community endured the Dust Bowl and the Great Depression. In Russell, you could feel and see the challenges, the obstacles, the barriers that were put in people's lives—nothing was easy. He wanted to be a doctor because it looked to him like the doctor was the only one who had a stable income . . . Roger.

Even after Bob Dole became a household name across the country, he always returned to Russell. Following his injuries, he returned to Russell. After receiving the Vice Presidential nomination, he and the President came to Russell. The three presidential campaigns, he came to Russell; I went to Iowa, three times on a bus, as lots of Kansans did. After the death of Kenny, his brother, he came to Russell. In 1996, members of his hometown gathered here to celebrate his birthday just after he had been defeated by Bill Clinton.

Though a national leader, he would always be a son of the Kansas plains. This is what Bob Dole said: "The first thing you learn on the prairie is the relative size of a man compared to the lay of the land." The Chaplain talked about our distances, the sky, the horizons. "The first thing you learn on the prairie is the relative size of a man compared to the lay of the land and under the immense sky where I was born and raised, a man is very small, and if he thinks otherwise, he is wrong." This place where many of us call home is a place that puts us in perspective.

Russ Townsley, who Senator Roberts mentioned, the former Publisher of the Russell Daily News, wrote regarding Senator Dole's decision to make his announcement to run for President from a stage in Russell. The national media was making fun of this kind of thing, "why would you announce your Presidency in Russell? You're going to carry Russell County." And here is what Russ Townsley had to say: "Skeptics ask what

Bob Dole can hope to gain from this public show of professionally staged rally. And this is where skeptics find themselves traveling blind. There is no need to look for ulterior motives for there are none. Dole and his town gained from each other while one draws on unseen reserves that have nurtured him from childhood, the other grows strong from the aura reflected from his image of leadership and stature by the other."

To the people of Russell, to the people of Kansas, thank you for the manner in which you have shaped, treated, respected a man now so worthy of our admiration. This town should be so proud because none of us come from places and become anything but from what we came from. We never escape; we don't become somebody different than where our roots lie.

We mourn our man, Bob. It can feel like the sun is setting on both a man and the Greatest Generation that he embodied. Bob Dole, perhaps the greatest man of the Greatest Generation.

On Thursday, I stood in the Rotunda of the United States Capitol as Senator Dole lied in State. He was on a platform, incidentally that President Lincoln laid on upon his death. Only 33 people have lied in State in that Rotunda. Your hometown boy, Bob Dole, is one of them. The statue of his hero, his commanding general, Dwight D. Eisenhower, looks over that room and looked over all of us as we gathered to pay tribute to Bob Dole. I have debated whether to express concern, always be optimistic, but I am worried. I'm concerned if America, ever again, will experience the civility, the bravery, the empathy, the character of people like President Eisenhower and Senator Dole. What happens when the greatest generation is absent?

But, I am relieved—I wrote in my notes 'think,' but I think the word is 'know.' I'm relieved to know that Bob Dole would disagree. Bob Dole would disagree with my worry.

Bob Dole was a man of hope—hope for recovery, hope for those disabilities to have full access to the world around them, hope that no child would go to bed hungry, hope that every veteran would receive the care and benefits they deserve, hope that the aged would live their remaining years with dignity. In the 1996 comments from the senator on the Senate floor as he left the United States Senate for the last time, as a senator he said, "I agree with the prairie poet," he was speaking of Carl Sandburg, "who said, 'yesterday, is a wind gone down, a sun dropped in the west, I tell you that there is nothing in the world only an ocean of tomorrows; only a sky of tomorrows. And like everybody here I'm an optimist, and I believe our best tomorrows are yet to be lived.'"

My hope is that the life of Senator Bob Dole will be remembered—carried on in towns across America, the hearts and minds of here and around the world. Brave enough to find freedom worth defending and in the halls of our government where there is a new generation. Where that new generation, like Senator Dole, will help make tomorrow better for their fellow citizen.

I started my remarks by sharing how much Bob Dole meant to Kansans. This week, we're also reminded how much Bob Dole meant to Americans. One of the places Senator Robert's mentioned, the World War II Memorial. We saw this week thousands of people gathered to pay their respects to Bob Dole at the World War II Memorial. You see it every day, hundreds of Americans, veterans, their families, citizens who respected and admired their service they're there at the World War II memorial to say, "thanks."

I did mention earlier as I described my first connection to Senator Dole, but the first time I heard the story of my dad search-

ing for Bob Dole in Italy was when my dad told the story to Bob Dole because my dad was on an honor flight at the World War II Memorial. My dad in his early 90s, Senator Dole in his 80s, just two old veterans talking about the past. That memorial that Senator Dole gave us creates a point in which we all come together and it helps change lives now, today, and in the future. Senator Dole had this memorial built in honor of veterans like my dad, and because of that we will be reminded of the service and sacrifice for generations to come across the nation.

When I get frustrated with things in the nation's capital, I'll walk down to the Lincoln Memorial and on that trip, I'll go by the World War II memorial, I'll go by the Vietnam Wall, and see the Lincoln Memorial and come back by the Korean War Memorial. I was there one day, this was right before the World War II Memorial opened and I found the Kansas pillar and I stepped away from the memorial and used my cellphone to call my dad. This is something that this memorial does, because I would never tell my dad this in person. I wouldn't voluntarily say what I said to my dad that day and fortunately for me I got the answering machine so it was not a problem to leave a message. But I said, "Dad, I'm at the World War II Memorial. This memorial was built in your honor, and dad I want you to know: I thank you for your service; I respect you, and dad, I love you. That memorial caused that conversation to occur, which probably was not ever going to. Incidentally, I was walking back to my office and my cellphone rings and I answer it. It's my dad's voice and he says, "Gerald?" I said, "yes?" and he said, "you left me a message, but I couldn't understand it. Would you repeat it?"

Across the nation, people will remember Bob Dole for campaigns and presidential races and service to the Senate and legislation passed. I will always remember Bob Dole as the serviceman. The person who sacrificed so much, for the rest of us, in the military. And we'll always remember his roots.

David Rogers, who covered Congress for The Wall Street Journal, traveled to Russell in 1988 and he said, "Like the outcroppings of bleached stone in the prairie grass, there is a hardness to this land, and it shows in Russell's native son, Senate Majority Leader Robert Dole." Pat mentioned he spoke to the high school class graduation in 1986 and Senator Dole said—of his own powerful ambition to chase flat horizons and grasp the dreams that lie beyond—he said, "The horizon is out there somewhere, and you just keep chasing it, looking for it, working for it . . . to make your mark not only on Kansas but America."

Bob Dole suffered; he endured, and he developed character that gave him and us hope.

I'm honored to serve in the Dole seat in the United States Senate and use the Dole desk where I see his name etched into the bottom of the desk drawer every day. It reminds me of the man who went before me, and that each of us, each of us can chase the horizon and make our mark on Kansas and the country.

Bob Dole has reached his final horizon. He promised us he'd be sitting up above us; he's watching. And he said he'd be full of optimism and hope. CJ Mahoney, who was my first intern in the House of Representatives—a Russell native—sent me a comic, a cartoon that appeared in some nation's paper today, and it teased me up this morning. The cartoon is Bob Dole standing in front of the pearly gates and he's talking to St. Peter. And the caption is "For the first time, Bob Dole can again salute his country with his right arm." Isn't that something that is to celebrate?

Robert J. Dole gives us hope for a brighter and better tomorrow. We say, "thank you."

I can't say it to my dad, Bob Dole, and I can't say it to you, except in this symbolic way. But we can say it to all those who served our country. We say this today, "Senator Dole, I respect you, I thank you for your service, and we love you." Thank you.

(At the request of Mr. CRAMER, the following statement was ordered to be printed in the RECORD.)

REMEMBERING WAYNE STENEHJEM

● Mr. HOEVEN. Mr. President, today I would like to pay tribute to the late North Dakota Attorney General Wayne Stenehjem, a dedicated public servant, a colleague, and a true friend. Attorney General Stenehjem spent four decades serving the people of North Dakota. He was a fierce advocate for the rule of law and the rights of North Dakotans.

His was a tremendous and impactful career that clearly demonstrated his devotion to our State, which he called home for the entirety of his life. Wayne was born in Mohall, ND. He graduated from the University of North Dakota and received his law degree from the University of North Dakota School of Law. He is survived by his wife, Beth Bakke Stenehjem, and his son, Andrew, along with many other loved ones.

Wayne started his career in public service in the State legislature, where he served for 24 years, first as a member of the North Dakota House of Representatives and then as a member of the North Dakota Senate. He then ran for the position of attorney general in 2000, the same year I was elected Governor and the first time either of us sought statewide office. I had the benefit of traveling much of the State with Wayne that year, where I came to know him as a solid, reliable individual with a tremendous sense of humor.

Wayne capped off his career in public office as our State's longest serving attorney general. Throughout my time as Governor and as a U.S. Senator, I had many opportunities to work with Wayne on keeping our communities safe, supporting our law enforcement officials, and protecting the rights of North Dakotans. He worked tirelessly to advance these important goals, and I will always be proud of our shared efforts in these matters. Moreover, I am grateful for our time together, both as colleagues and as friends.

He will be greatly missed and remembered well for the meaningful legacy he has left behind. Mikey and I send our sincerest condolences to Beth, Andrew, and the entire Stenehjem family.●

HONORING BALTIMORE FIRE-FIGHTERS PAUL BUTRIM, KELSEY SADLER, AND KENNETH LACAYO

Mr. CARDIN. Mr. President, today is a sad day. While we gather here in session, a memorial service is being held to honor three Baltimore, MD, firefighters who gave their lives in service to their community. These tragedies

are a stark reminder of the commitment and sacrifice that firefighters throughout our great Nation make on a daily basis serving communities large and small. They are truly our domestic defenders and epitomize their moniker of “America’s Bravest.”

International Association of Fire Fighters—IAFF—Baltimore Fire Officers Local 964 Lieutenant Paul Butrim and Baltimore Firefighters IAFF Local 734 Acting Lieutenant Kelsey Sadler and Firefighter/Paramedic Kenneth Lacayo died after a partial collapse trapped them in a burning rowhouse in west Baltimore last Monday. These fallen brothers and sister leave behind grieving family members, a devastated firefighter family, and a community in mourning. We owe them the deepest gratitude and respect.

During this difficult time, I ask my Senate colleagues to hold in their prayers the families and friends of the victims, the members of the Baltimore City Fire Department, and the citizens of Baltimore. This tragedy affects us all. Families lost a mom, a dad, a sister, a brother, an aunt, an uncle, a firefighter, a friend. In the pre-dawn hours of Monday, January 24, 2022, Baltimore City firefighters were dispatched to the 200 block of South Stricker Street for a reported rowhouse fire. As the firefighters responded, the dispatcher relayed that there was a “report of persons trapped.” Shortly after they arrived at the scene, the building partially collapsed, killing Lieutenant Butrim, Acting Lieutenant Sadler, and Firefighter/Paramedic Lacayo. A fourth firefighter, Baltimore IAFF Local 734 member John McMaster, was transported to Shock Trauma and has since been released to recover from his injuries. Please keep him and his family in your prayers, too.

Lieutenant Butrim was just 37, but already a 16-year veteran of the Baltimore City Fire Department. He was no stranger to putting himself in harm’s way. He was called to the job in 2005 when he began his training as a firefighter/paramedic. Immediately after completing his training, he joined the Baltimore City Fire Department. He was always looking to improve his skills as a firefighter/paramedic, eventually earning the rank of lieutenant. Those who knew him say that he was not just an excellent firefighter; he was also an all-around good guy and always willing to help. Paul was a big sports fan and especially liked following NASCAR, baseball, and hockey. He married Rachel, his best friend and love of his life, in 2015. Their son, Nolan, was born in 2016. Tragically, Nolan passed suddenly in February 2019, leaving the family heartbroken.

Ms. Sadler, 33, a firefighter for 15 years, was serving as an acting lieutenant for the department when she was killed in the partial rowhouse collapse. Three days after her death, the Baltimore City Fire Department officially promoted Kelsey to the rank of lieutenant. Lieutenant Sadler began her

career with the Baltimore City Fire Department after graduating from high school in 2006. Lieutenant Sadler had a big heart, a strong will, and the determination to get any task done. Family was her priority. Her presence in any room made everything better and brighter. She was an amazing wife to Brandon, an incredible stepmom to Mila, and the best aunt to Lily and Emmett. When it came to the job, she earned the respect of her colleagues doing what she did best. Everyone who witnessed the beauty and dedication in how she lived her life will remember her.

Firefighter/Paramedic Lacayo, 30, was a native of Montgomery County, MD. He became a firefighter in 2012 and a paramedic in 2014, serving first with the Wheaton Volunteer Rescue Squad, where he received multiple citations for going above and beyond the call of duty. He joined the Baltimore Fire Department in 2014 and was assigned to Engine 14 in August 2021. All those who knew Firefighter/Paramedic Lacayo well describe him as the pinnacle of what a good person should be: kind and humble, always putting others before himself. His exceptional skills as a firefighter and paramedic were matched by his bright smile and his unfailing good nature.

Kurt Vonnegut said, “I can think of no more stirring symbol of man’s humanity to man than a fire engine.” I agree. There are no adequate words to describe the pain and the severity of these losses. But today, this tribute remembers and celebrates their lives, memorializes their sacrifice, and commemorates their service. These public servants worked every day on the frontlines, answering the call whenever sudden danger occurred until the very end. On January 24, these brave men and woman made the ultimate sacrifice.

Knowing what I know about these fire fighters is best described with words like service, sense of duty, response, commitment, courage, and sacrifice. And while those are strong reasons by which to live, sadly, in the firefighting profession, they are also the reasons by which they die. It is important to rejoice in the lives and contributions these lost souls have given, knowing that this world is a safer place because of the men and women across this country who continue to give their lives so others may live. From this moment forward, we will honor these three firefighters who lost their lives for their bravery and courage. Today, I ask that, in their honor—and for firefighters everywhere—please help protect our firefighters in their heroic efforts to save lives.

36TH ANNIVERSARY OF THE “CHALLENGER” SPACE SHUTTLE DISASTER

Mrs. SHAHEEN. Mr. President, I rise in recognition of the 36th anniversary of the *Challenger* Space Shuttle Dis-

aster and to pay tribute to the memory of all seven *Challenger* crewmembers: Gregory Jarvis, Judith Resnik, Francis Scobee, Ronald McNair, Michael Smith, Ellison Onizuka, and Christa McAuliffe.

On January 28, 1986, the world witnessed a fatal accident that claimed the lives of all seven of the *Challenger*’s crewmembers. As many of my colleagues will remember, just moments after launch, the shuttle exploded, never having left the Earth’s atmosphere. It was later determined that unusually cold temperatures caused several seals within the shuttle’s right rocket booster to fail, ultimately resulting in this devastating tragedy.

This anniversary is a particularly difficult day for the people of New Hampshire as we pause to remember the *Challenger* crew, including Granite Stater Christa McAuliffe. The *Challenger* mission had been chosen to pilot President Reagan’s Teacher in Space Program, and Concord schoolteacher Christa McAuliffe was selected to be the program’s first participant. Christa looked forward to the opportunity to teach two lessons from space and share her once-in-a-lifetime experience with students across the country.

Although the Teacher in Space program was discontinued following the accident, the families of the *Challenger*’s crew established the first *Challenger* Center for Space Science Education to promote science, technology, engineering, and math—STEM—education. The center is a nonprofit that engages with students and teachers, providing hands-on education in science, technology, engineering, and mathematics. Today, 40 *Challenger* learning centers have opened globally, and they are continuing to expand opportunities for innovative programs and activities in STEM. Though we lost five dedicated astronauts, a hard-working engineer, and a passionate and devoted educator 36 years ago, the *Challenger*’s poignant legacy continues to live on.

So many of our students and teachers can point to Christa McAuliffe and *Challenger* learning centers as having inspired them to pursue careers in education, science, mathematics, and innovation. New Hampshire has both the McAuliffe-Shepard Discovery Center, an air and space museum and planetarium, as well as the Christa McAuliffe School, an elementary school in Concord. I have no doubt Christa would be glad to know that a great number of young women have chosen to follow in her footsteps and embrace the values she worked so hard to espouse. Christa lived by the words, “I touch the future. I teach.” More than three decades later, her enduring impact on the future is clear.

In 2019, the Senate passed the Christa McAuliffe Commemorative Coin Act, legislation I sponsored with the late Senator Mike Enzi of Wyoming. The legislation was advanced through Congress with overwhelming bipartisan

support and was subsequently signed into law. The enactment of this legislation meant that a commemorative coin in Christa's honor was minted by the U.S. Treasury in 2021. Proceeds from the sale of this coin are going to support STEM education, helping to cultivate a new generation of scientists, engineers, and educators.

Today, we take pause to honor the seven outstanding professionals lost in the *Challenger* accident and acknowledge that this is a very difficult day for their colleagues at NASA, family and friends. Our hearts are with them on this day of remembrance.

ADDITIONAL STATEMENTS

REMEMBERING CHERYL A. HICKMON

• Mr. VAN HOLLEN. Mr. President, I rise today to honor the life and legacy of Cheryl A. Hickmon, national president of Delta Sigma Theta Sorority, Incorporated and chair of the national board of directors. A native of Hartford, CT, Cheryl, the youngest of three children, was born in 1962 to the late Dr. Ned Hickmon and Consuella Anderson Hickmon. Cheryl passed away peacefully on Thursday, January 20, 2022, at the age of 60, following a battle with a recent illness. She leaves to cherish her memory two brothers, Ned N. Hickmon and David W. Hickmon of Hartford, CT, many cousins throughout the United States, coworkers, many friends, and sorority sisters internationally, including members of the Hartford Alumnae Chapter.

Cheryl was deeply devoted to Delta Sigma Theta, and her loss will be felt by many. An active member for 39 years, Cheryl's devotion to Delta Sigma Theta began in 1982 with her initiation into the Alpha Xi Chapter at South Carolina State University. She served in multiple leadership positions at the local, regional, and national levels, including as Alpha Xi chapter president in 1983, South Atlantic regional representative in 1984, Hartford Alumnae chapter president in 2009, and was ultimately elected the 27th national president and chair of the national board of directors in November 2021. Her leadership has shaped generations of women across this country and was inspired by a deep belief in Delta's core values of sisterhood, scholarship, service, and social action.

Cheryl shared her wisdom, care, and compassion with all who crossed her path. Her unwavering commitment to making the world a better place meant Cheryl always sought new opportunities to uplift Americans, especially Black women. Her passion enabled her to have a profound impact on many through Delta Sigma Theta and her service with the National Association for the Advancement of Colored People, the Children's Defense Fund, and the National Council of Negro Women. Cheryl will be remembered as a true

champion for civil rights and social justice.

Cheryl's motivation to lend a helping hand to others in need also shaped her career of more than 30 years as a licensed clinical laboratory technologist. She supervised the In Vitro Fertilization Laboratories for andrology and endocrinology at Montefiore's Institute for Reproductive Medicine and Health. One of her greatest joys was supporting couples in their journey to become parents.

Cheryl was guided by the motto, "Don't measure life by the number of breaths you take but by the number of moments that take your breath away." Her servant leadership in every endeavor she pursued will leave a lasting and meaningful legacy across this country. I extend my deepest condolences to her family, friends, and the entire sisterhood of Delta Sigma Theta. I join each of them in honoring Cheryl's life by holding up her work as an example, one rooted in mentorship, enthusiasm, and service to our community.

Rest in peace, Cheryl. •

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Swann, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

In executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

At 10:46 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1298. An act to designate the facility of the United States Postal Service located at 1233 North Cedar Street in Owasso, Oklahoma, as the "Technical Sergeant Marshal Roberts Post Office Building".

H.R. 3579. An act to designate the facility of the United States Postal Service located at 200 East Main Street in Maroa, Illinois, as the "Jeremy L. Ridlen Post Office".

H.R. 3613. An act to designate the facility of the United States Postal Service located at 202 Trumbull Street in Saint Clair, Michigan, as the "Corporal Jeffrey Robert Standfest Post Office Building".

H.R. 4168. An act to designate the facility of the United States Postal Service located at 6223 Maple Street, in Omaha, Nebraska, as the "Petty Officer 1st Class Charles Jackson French Post Office".

H.R. 5577. An act to designate the facility of the United States Postal Service located at 3900 Crown Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building".

The message further announced that pursuant to section 1004(b)(2)(C) of the National Defense Authorization Act for Fiscal Year 2022 (Public Law 117-81), and the order of the House of January 4, 2021, the Speaker appoints the following individual on the part of the House of Representatives to the Commission on Planning, Programming, Budgeting, and Execution Reform: Mrs. Susan Davis of San Diego, California.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1298. An act to designate the facility of the United States Postal Service located at 1233 North Cedar Street in Owasso, Oklahoma, as the "Technical Sergeant Marshal Roberts Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3579. An act to designate the facility of the United States Postal Service located at 200 East Main Street in Maroa, Illinois, as the "Jeremy L. Ridlen Post Office"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3613. An act to designate the facility of the United States Postal Service located at 202 Trumbull Street in Saint Clair, Michigan, as the "Corporal Jeffrey Robert Standfest Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 4168. An act to designate the facility of the United States Postal Service located at 6223 Maple Street, in Omaha, Nebraska, as the "Petty Officer 1st Class Charles Jackson French Post Office"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 5577. An act to designate the facility of the United States Postal Service located at 3900 Crown Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-104. A resolution adopted by the House of Representatives of the Commonwealth of Pennsylvania urging the United States Congress to oppose the Treasury Department's proposal to change Internal Revenue Service reporting requirements, which would unnecessarily and harmfully affect financial institutions and their customers in this Commonwealth; to the Committee on Finance.

HOUSE RESOLUTION NO. 150

Whereas, The Treasury Department has proposed a change to Internal Revenue Service reporting requirements that would require financial institutions to report the total dollar amount of incoming and outgoing transactions from each customer account with gross inflows and outflows THAT HAVE REACHED A CERTAIN THRESHOLD in a tax year to the Internal Revenue Service; and

Whereas, Under the proposed reporting requirement, a financial institution must report an itemization of physical cash, transactions with foreign accounts and transfers to and from another account with the same

customer when the transactions to and from the account have reached a certain gross total threshold in a tax year; and

Whereas, The proposed reporting requirement would apply to personal or business savings, transactional, loan and investment accounts for a financial institution subject to the proposed reporting requirement; and

Whereas, It is not known how a financial institution would report the gross inflows and outflows for each customer account under the proposed reporting requirement; and

Whereas, Maintaining the privacy and security of customer account information is a primary goal of each financial institution in this Commonwealth; and

Whereas, The proposed reporting requirement could jeopardize the privacy and security of customer account information; and

WHEREAS, Financial institutions are already subject to many burdensome regulatory requirements; and

Whereas, The proposed reporting requirement would only exacerbate that burden, particularly for smaller financial institutions; therefore be it

Resolved, That the House of Representatives of the Commonwealth of Pennsylvania urge the Congress of the United States to oppose the Treasury Department's proposal to change Internal Revenue Service reporting requirements, which would unnecessarily and harmfully affect financial institutions and their customers in this Commonwealth; and be it further

Resolved, That copies of this resolution be transmitted to the following:

- (1) The President of the United States.
- (2) The President pro tempore of the United States Senate.
- (3) The chairperson of the Committee on Finance of the United States Senate.
- (4) The Speaker of the United States House of Representatives.
- (5) The chairperson of the Committee on Ways and Means of the United States House of Representatives.
- (6) Each member of Congress from Pennsylvania

POM-105. A resolution adopted by the Senate of the Commonwealth of Pennsylvania urging the United States Congress to oppose the proposal to make an unnecessary and harmful change to Internal Revenue Service reporting requirements that affect financial institutions and their customers in this Commonwealth; to the Committee on Finance.

SENATE RESOLUTION No. 195

Whereas, The Biden Administration has proposed a change to Internal Revenue Service reporting requirements that would require financial institutions to report the total dollar amount of incoming and outgoing transactions from each customer account with gross inflows and outflows in common amounts to the Internal Revenue Service; and

Whereas, Under the proposed reporting requirement, a financial institution must report an itemization of physical cash, transactions with foreign accounts and transfers to and from another account with the same customer when the transactions to and from the account have a gross total amount threshold that would commonly impose a significant burden on ordinary citizens and small businesses; and

Whereas, The proposed reporting requirement would apply to personal or business savings, transactional, loan and investment accounts for a financial institution subject to the proposed reporting requirement; and

Whereas, It is not known how a financial institution would report the gross inflows

and outflows for each customer account under the proposed reporting requirement; and

Whereas, Maintaining the privacy and security of customer account information is a primary goal of each financial institution in this Commonwealth; and

Whereas, The proposed reporting requirement could jeopardize the privacy and security of customer account information; and

Whereas, financial institutions are already subject to many burdensome regulatory requirements; and

Whereas, The proposed reporting requirement would only exacerbate that burden, particularly for smaller financial institutions; therefore be it

Resolved, That the Senate of the Commonwealth of Pennsylvania urge the Congress of the United States to oppose the proposal to make an unnecessary and harmful change to Internal Revenue Service reporting requirements that affect financial institutions and their customers in this Commonwealth; and be it further

Resolved, That copies of this resolution be transmitted to all the following:

- (1) The President of the United States.
- (2) The President pro tempore of the United States Senate.
- (3) The chairperson of the Committee on Finance of the United States Senate.
- (4) The Speaker of the United States House of Representatives.
- (5) The chairperson of the Committee on Ways and Means of the United States House of Representatives.
- (6) Each member of Congress from Pennsylvania.

POM-106. A concurrent resolution adopted by the Legislature of the State of North Dakota recognizing parents as the chief stakeholders of the future and education of their children; to the Committee on Health, Education, Labor, and Pensions.

HOUSE CONCURRENT RESOLUTION No. 3049

Whereas, in most instances, the parents are the primary caretakers and guardians of their children; and

Whereas, parents should be recognized as the primary stakeholders in their children's futures; and

Whereas, parents should repudiate weaponizing labels and government agencies for merely participating in the political process; and

Whereas, it is necessary to restore the balance of respect and power between parents and the government for the benefit of children by recognizing parents as the chief stakeholders of children's futures; Now, therefore, be it

Resolved by the House of Representatives of North Dakota, the Senate Concurring therein, That the Sixty-seventh Legislative Assembly recognizes parents as the chief stakeholders of the future and education of the their children; and

Resolved, That the Secretary of State forward copies of this resolution to the President of the United States, the Speaker of the United States House of Representatives, the President Pro Tempore of the United States Senate, each member of the North Dakota Congressional Delegation, the Attorney General of the United States, and the Executive Director of the National School Boards Association.

POM-107. A resolution adopted by the House of Representatives of the State of Michigan urging the United States Congress to clarify its position on the legality of marijuana under the Controlled Substances Act of 1970; to the Committee on the Judiciary.

HOUSE RESOLUTION No. 158

Whereas, Despite federal law criminalizing marijuana, many states have exercised their authority to enact marijuana laws that reflect the needs and interests of their citizens. Currently, the state of Michigan is among a majority of states that have chosen to regulate marijuana under state law; and

Whereas, The federal government's lack of clarity and inconsistency in its interpretation of the legality of marijuana under the Controlled Substances Act of 1970 has created confusion and uncertainty for states legislating marijuana operations. This, in turn, affects law enforcement, banking, taxation, and zoning; now, therefore, be it

Resolved by the House of Representatives, That we urge the Congress of the United States to clarify its position on the legality of marijuana under the Controlled Substances Act of 1970; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-108. A concurrent resolution adopted by the Legislature of the State of New Jersey rescinding all applications previously transmitted by the New Jersey Legislature to the Congress of the United States calling for a convention for the purpose of proposing amendments to the Constitution of the United States; to the Committee on the Judiciary.

SENATE CONCURRENT RESOLUTION No. 161

Be it Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

1. All applications previously transmitted by the New Jersey Legislature to the Congress of the United States calling for a convention for the purpose of proposing an amendment to the United States Constitution are hereby rescinded.

2. Copies of this resolution, as filed with the Secretary of State, shall be transmitted by the Clerk of the General Assembly or the Secretary of the Senate to the Clerk of the United States House of Representatives and to the Secretary of the United States Senate in Washington, D.C.

POM-109. A concurrent resolution adopted by the Legislature of the State of Texas urging the United States Congress to pass legislation that would grant licensing authority for public school bus drivers to the states; to the Committee on Commerce, Science, and Transportation.

SENATE CONCURRENT RESOLUTION No. 3

Whereas, Each day, more than 26 million students rely on school buses for safe transportation, and many school districts have experienced difficulty in keeping up with this demand due to federal licensing requirements that have exacerbated the shortage of school bus drivers; and

Whereas, Part 383 of the Federal Motor Carrier Safety Regulations requires school bus drivers to obtain a Commercial Driver's License, but the application process has included unnecessary obstacles to meeting this obligation; for example, the testing and training portions of the CDL application were previously handled by different third-party skills examiners, which limited applicants' ability to complete the exams if they did not have access to both a tester and a trainer; a recent change to this rule helps states streamline the process of obtaining a CDL by allowing the same examiner to both test and train an applicant, revealing that with less federal interference, states can license school bus drivers more efficiently; and

Whereas, According to a survey conducted by School Bus Fleet Magazine, most school districts have endured some degree of bus driver shortage, and data from the National Association for Pupil Transportation reveals that many school districts consider CDL requirements to be a major factor in their ability to recruit and retain bus drivers; one Texas school district has successfully overcome its shortage, but only through costly training programs that compensate new drivers as they complete the CDL application; and

Whereas, School districts that provide valuable transportation services are burdened by a flawed federal system with inefficient licensing requirements, and Congress should solve this problem by allowing states to establish regulations according to their own needs: Now, therefore, be it

Resolved, That the 87th Legislature of the State of Texas, 3rd Called Session, hereby respectfully urge the Congress of the United States to pass legislation that would grant licensing authority for public school bus drivers to the states; and, be it further

Resolved, That the Texas secretary of state forward official copies of this resolution to the president of the United States, to the president of the Senate and the speaker of the House of Representatives of the United States Congress, and to all the members of the Texas delegation to Congress with the request that this resolution be entered in the Congressional Record as a memorial to the Congress of the United States of America.

POM-110. A notification from the Acting Governor of the State of New Jersey to inform the United States Congress of New Jersey's intention to withdraw from the Waterfront Commission Compact; to the Committee on the Judiciary.

POM-111. A motion adopted by the Legislature of Chautauqua County, New York, urging the President of the United States, and the United States Congress to support, uphold, and preserve the principles set forth in the Constitutions of the United States and State of New York, and exercise their legislative and executive powers within the bounds of their constitutional authority; to the Committee on the Judiciary.

POM-112. A petition from a citizen of the State of Missouri making an official request for review of the Ripley County Court in Case Numbers (375), (376), (377), January 1973; to the Committee on the Judiciary.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. SCHATZ, from the Committee on Indian Affairs, without amendment:

H.R. 1688. An act to amend the Indian Child Protection and Family Violence Prevention Act (Rept. No. 117-63).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Ms. CANTWELL for the Committee on Commerce, Science, and Transportation.

*Kathy K. Im, of Illinois, to be a Member of the Board of Directors of the Corporation for Public Broadcasting for a term expiring January 31, 2024.

*Thomas E. Rothman, of California, to be a Member of the Board of Directors of the Corporation for Public Broadcasting for a term expiring January 31, 2026.

*Elizabeth M. Sembler, of Florida, to be a Member of the Board of Directors of the Cor-

poration for Public Broadcasting for a term expiring January 31, 2026.

*John Edward Putnam, of Colorado, to be General Counsel of the Department of Transportation.

*Max Vekich, of Washington, to be a Federal Maritime Commissioner for a term expiring June 30, 2026.

*Jed David Kolko, of California, to be Under Secretary of Commerce for Economic Affairs.

*Steven Scott Cliff, of California, to be Administrator of the National Highway Traffic Safety Administration.

*Ann Claire Phillips, of Virginia, to be Administrator of the Maritime Administration.

*Laura Gore Ross, of New York, to be a Member of the Board of Directors of the Corporation for Public Broadcasting for a term expiring January 31, 2028.

*Victoria Marie Baecher Wassmer, of the District of Columbia, to be Chief Financial Officer, Department of Transportation.

Ms. CANTWELL. Mr. President, for the Committee on Commerce, Science, and Transportation I report favorably the following nomination lists which were printed in the Records on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

*Coast Guard nominations beginning with Capt. Wayne R. Arguin and ending with Capt. John C. Vann, which nominations were received by the Senate and appeared in the Congressional Record on September 13, 2021.

*Coast Guard nominations beginning with Capt. Franklin H. Schaefer and ending with Capt. Tiffany G. Danko, which nominations were received by the Senate and appeared in the Congressional Record on October 28, 2021.

*Coast Guard nominations beginning with Rear Adm. (lh) Christopher A. Bartz and ending with Rear Adm. (lh) Jonathan P. Hickey, which nominations were received by the Senate and appeared in the Congressional Record on December 1, 2021.

*Coast Guard nomination of Peter F. Bosma, to be Captain.

By Mr. PETERS for the Committee on Homeland Security and Governmental Affairs.

*Margaret A. Burnham, of Massachusetts, to be a Member of the Civil Rights Cold Case Records Review Board.

*Gabrielle M. Dudley, of Georgia, to be a Member of the Civil Rights Cold Case Records Review Board.

*Henry Klibanoff, of Georgia, to be a Member of the Civil Rights Cold Case Records Review Board.

*Brenda E. Stevenson, of California, to be a Member of the Civil Rights Cold Case Records Review Board.

*Tovah R. Calderon, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for the term of fifteen years.

*Adrienne Jennings Noti, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

*Cathy Ann Harris, of Maryland, to be Chairman of the Merit Systems Protection Board.

*Cathy Ann Harris, of Maryland, to be a Member of the Merit Systems Protection Board for the term of seven years expiring March 1, 2028.

*Susan Tsui Grundmann, of Virginia, to be a Member of the Federal Labor Relations

Authority for a term of five years expiring July 1, 2025.

*Ed Gonzalez, of Texas, to be an Assistant Secretary of Homeland Security.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. RUBIO (for himself and Mr. COONS):

S. 3553. A bill to review domestic biopharmaceutical manufacturing capabilities in order to improve public health and medical preparedness and response capabilities and domestic biopharmaceutical manufacturing capabilities; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SCOTT of South Carolina (for himself, Mr. CASSIDY, and Mr. BURR):

S. 3554. A bill to establish an alternative use of certain Federal education funds when in-person instruction is not available; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SCOTT of Florida (for himself, Ms. ERNST, Mr. RUBIO, Mr. PAUL, Ms. LUMMIS, Mr. BARRASSO, and Mr. SUL-LIVAN):

S. 3555. A bill to amend the Occupational Safety and Health Act of 1970 to clarify the scope of the authority for emergency temporary standards, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Ms. LUMMIS (for herself and Mr. KELLY):

S. 3556. A bill to direct the Secretary of Transportation to modify certain regulations relating to the requirements for commercial driver's license testing and commercial learner's permit holders, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. BENNET (for himself and Mr. CASSIDY):

S. 3557. A bill to amend title XVIII of the Social Security Act to extend the Quality Payment Program-Small Practice, Underserved, and Rural Support Program; to the Committee on Finance.

By Mrs. MURRAY:

S. 3558. A bill to amend the Arms Export Control Act to provide for better monitoring and verification of the use of defense articles and defense services by countries of concern, and for other purpose; to the Committee on Foreign Relations.

By Mr. MERKLEY (for himself and Mr. CASEY):

S. 3559. A bill to amend the Higher Education Act of 1965 to prohibit institutions of higher education participating in Federal student assistance programs from giving preferential treatment in the admissions process to legacy students or donors; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SCHATZ (for himself, Mrs. GILLIBRAND, Mrs. FEINSTEIN, Ms. KLOBUCHAR, and Mr. WHITEHOUSE):

S. 3560. A bill to promote and support the local arts and creative economy in the United States; to the Committee on Finance.

By Mrs. GILLIBRAND:

S. 3561. A bill to require owners of covered federally assisted rental dwelling units to install temperature sensors in such units, and

for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. SCOTT of South Carolina (for himself and Ms. HASSAN):

S. 3562. A bill to amend the Federal Deposit Insurance Act to ensure that certain custodial deposits of well capitalized insured depository institutions are not considered to be funds obtained by or through deposit brokers, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. SCOTT of Florida (for himself, Mr. COTTON, and Mr. RUBIO):

S. 3563. A bill to amend the Secure and Trusted Communications Networks Act of 2019 to provide for the addition of certain equipment and services produced or provided by DJI Technologies to the list covered communications equipment or services published under such Act, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Ms. DUCKWORTH (for herself and Ms. ERNST):

S. 3564. A bill to amend the Small Business Act to codify the Boots to Business Program, and for other purposes; to the Committee on Small Business and Entrepreneurship.

By Mr. SCOTT of Florida (for himself and Mr. MARSHALL):

S. 3565. A bill to prohibit the use of Federal funds to purchase at-home tests for SARS-CoV-2 that are imported from, or manufactured in, the People's Republic of China; to the Committee on Health, Education, Labor, and Pensions.

By Mr. REED (for himself and Mr. MORAN):

S. 3566. A bill to amend the Public Health Service Act with respect to trauma care; to the Committee on Health, Education, Labor, and Pensions.

By Mr. RUBIO (for himself, Mr. SCOTT of Florida, Mr. BRAUN, Mr. CRUZ, Mr. HAGERTY, and Mr. HAWLEY):

S. 3567. A bill to modify the limitation on military-to-military exchanges and contacts with the People's Liberation Army to cover all logistical operations and remove the exception for search-and-rescue and humanitarian operations and exercises; to the Committee on Foreign Relations.

By Mr. PORTMAN (for himself and Mr. JOHNSON):

S. 3568. A bill to prohibit the Administrator of the Transportation Security Administration from accepting warrants for the arrest of aliens as valid proof of identification at airport security checkpoints, and for other purposes; to the Committee on Commerce, Science, and Transportation.

ADDITIONAL COSPONSORS

S. 212

At the request of Mr. CARDIN, the name of the Senator from New Hampshire (Ms. HASSAN) was added as a cosponsor of S. 212, a bill to amend the Internal Revenue Code of 1986 to allow a refundable tax credit against income tax for the purchase of qualified access technology for the blind.

S. 265

At the request of Ms. SMITH, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 265, a bill to establish a grant program to provide amounts to public housing agencies to install automatic sprinkler systems in public housing, and for other purposes.

S. 407

At the request of Mr. RUBIO, the name of the Senator from Illinois (Ms.

DUCKWORTH) was added as a cosponsor of S. 407, a bill to provide redress to the employees of Air America.

S. 617

At the request of Mr. THUNE, the name of the Senator from Wyoming (Ms. LUMMIS) was added as a cosponsor of S. 617, a bill to amend the Internal Revenue Code of 1986 to repeal the estate and generation-skipping transfer taxes, and for other purposes.

S. 1315

At the request of Ms. CANTWELL, the name of the Senator from Colorado (Mr. HICKENLOOPER) was added as a cosponsor of S. 1315, a bill to amend title XVIII of the Social Security Act to provide for coverage of certain lymphedema compression treatment items under the Medicare program.

S. 1574

At the request of Mr. SCOTT of South Carolina, the name of the Senator from Mississippi (Mrs. HYDE-SMITH) was added as a cosponsor of S. 1574, a bill to codify a statutory definition for long-term care pharmacies.

S. 3074

At the request of Mr. BRAUN, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 3074, a bill to establish the Payroll Audit Independent Determination program in the Department of Labor.

S. 3481

At the request of Mr. COTTON, the names of the Senator from Indiana (Mr. BRAUN) and the Senator from Mississippi (Mrs. HYDE-SMITH) were added as cosponsors of S. 3481, a bill to secure the dignity and safety of incarcerated women.

S. 3505

At the request of Mr. MERKLEY, the names of the Senator from Vermont (Mr. SANDERS) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 3505, a bill to amend the Internal Revenue Code of 1986 to exclude certain Nurse Corps payments from gross income.

S. 3512

At the request of Mr. SCOTT of Florida, the name of the Senator from Nevada (Ms. ROSEN) was added as a cosponsor of S. 3512, a bill to establish an advisory group to encourage and foster collaborative efforts among individuals and entities engaged in disaster recovery relating to debris removal, and for other purposes.

S. 3518

At the request of Mr. SCHATZ, the names of the Senator from Ohio (Mr. BROWN), the Senator from Maryland (Mr. CARDIN), the Senator from Maryland (Mr. VAN HOLLEN), the Senator from Hawaii (Ms. HIRONO), the Senator from Pennsylvania (Mr. CASEY), the Senator from California (Mr. PADILLA), the Senator from Vermont (Mr. SANDERS), the Senator from Massachusetts (Mr. MARKEY), the Senator from Massachusetts (Ms. WARREN), the Senator from Wisconsin (Ms. BALDWIN) and the

Senator from Connecticut (Mr. BLUMENTHAL) were added as cosponsors of S. 3518, a bill to increase the rates of pay under the statutory pay systems and for prevailing rate employees by 5.1 percent, and for other purposes.

S. 3546

At the request of Mr. HAGERTY, the name of the Senator from North Dakota (Mr. HOEVEN) was added as a cosponsor of S. 3546, a bill to amend the Internal Revenue Code of 1986 to repeal the amendments made to reporting of third party network transactions by the American Rescue Plan Act of 2021.

S. RES. 499

At the request of Mr. DURBIN, the name of the Senator from Michigan (Mr. PETERS) was added as a cosponsor of S. Res. 499, a resolution celebrating 100 years of diplomatic relations between the United States and the Baltic States.

S. RES. 500

At the request of Mrs. FEINSTEIN, the names of the Senator from West Virginia (Mrs. CAPITO), the Senator from Illinois (Mr. DURBIN) and the Senator from Texas (Mr. CRUZ) were added as cosponsors of S. Res. 500, a resolution supporting the observation of National Trafficking and Modern Slavery Prevention Month during the period beginning on January 1, 2022, and ending on February 1, 2022, to raise awareness of, and opposition to, human trafficking and modern slavery.

AMENDMENT NO. 3892

At the request of Mr. WARNER, his name was withdrawn as a cosponsor of amendment No. 3892 intended to be proposed to H.R. 4350, to authorize appropriations for fiscal year 2022 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED (for himself and Mr. MORAN):

S. 3566. A bill to amend the Public Health Service Act with respect to trauma care; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, today I am pleased to introduce the Improving Trauma Systems and Emergency Care Act with Senator MORAN.

Nationally, trauma is the leading cause of death in the United States for individuals aged 44 and younger, and according to the Coalition for National Trauma Research, trauma accounts for 41 million emergency room visits and 2 million hospital admissions across the country each year.

For anyone who experiences sudden, major injuries in a car crash, a house fire, and any other dangerous incident, timely and effective trauma care can make a significant difference. The Nation's trauma and emergency medical

systems are designed to provide that expert care. These systems respond quickly and efficiently to get seriously injured individuals to the appropriate trauma center hospital within the “golden hour,” the time period when medical intervention is most effective in saving lives and preventing permanent injury. Achieving this standard of access requires maintenance and careful coordination between organized systems of trauma care.

We must continually improve and invest in this essential component of our healthcare system. In 2014, President Obama signed the Improving Trauma Care Act into law, legislation that I introduced to add burn injuries to the definition of “trauma care” and ensure that burn centers are eligible for funding under trauma and emergency care programs.

The legislation we are introducing today takes another important step by authorizing \$24 million each year for pilot program grants to strengthen coordination and communication among trauma systems, improve access to trauma care, and facilitate clinical research. The legislation would also require the Assistant Secretary for Preparedness and Response at the Department of Health and Human Services, HHS, to support States in improving emergency medical services and trauma care during a public health emergency. Lastly, the legislation would allow HHS to award grants to improve trauma care in rural areas.

I am pleased to have the support of the Trauma Center Association of America for this bill, and I urge our colleagues on both sides of the aisle to join us in cosponsoring this legislation and working toward its expeditious passage.

AUTHORITY FOR COMMITTEES TO MEET

Mr. PETERS. Mr. President, I have 10 requests for committees to meet during today's session of the Senate. They have the approval of the Majority and Minority Leaders.

Pursuant to rule XXVI, paragraph 5(a), of the Standing Rules of the Senate, the allowing committees are authorized to meet during today's session of the Senate:

COMMITTEES ON ARMED SERVICES AND FOREIGN RELATIONS

The Committees on Armed Services and Foreign Relations are authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 10 a.m., to receive a joint briefing.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

The Committee on Commerce, Science, and Transportation is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 10 a.m., to conduct a hearing on nominations.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

The Committee on Environment and Public Works is authorized to meet

during the session of the Senate on Wednesday, February 2, 2022, at 10 a.m., to conduct a hearing.

COMMITTEES ON FOREIGN RELATIONS AND ARMED SERVICES

The Committees on Foreign Relations and Armed Services are authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 10 a.m., to receive a joint briefing.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

The Committee on Homeland Security and Governmental Affairs is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 11 a.m., to conduct a business meeting.

COMMITTEE ON INDIAN AFFAIRS

The Committee on Indian Affairs is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 2:30 p.m., to conduct a hearing.

COMMITTEE ON VETERANS' AFFAIRS

The Committee on Veterans' Affairs is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 3 p.m., to conduct a business meeting.

SELECT COMMITTEE ON INTELLIGENCE

The Select Committee on Intelligence is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 2 p.m., to conduct a closed briefing.

SUBCOMMITTEE ON COMPETITION POLICY, ANTITRUST, AND CONSUMER RIGHTS

The Subcommittee on Competition Policy, Antitrust, and Consumer Rights of the Committee on the Judiciary is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 2:30 p.m., to conduct a hearing.

SUBCOMMITTEE ON FISCAL RESPONSIBILITY AND ECONOMIC GROWTH

The Subcommittee on Fiscal Responsibility and Economic Growth of the Committee on Finance is authorized to meet during the session of the Senate on Wednesday, February 2, 2022, at 2:30 p.m., to conduct a hearing.

ORDERS FOR THURSDAY, FEBRUARY 3, 2022

Mr. SCHUMER. Mr. President, finally, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. on Thursday, February 3; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and morning business be closed; that upon the conclusion of morning business, the Senate proceed to executive session and resume consideration of the Baker nomination, notwithstanding rule XXII; and further, that the Senate recess from 11 a.m. to 12:30 p.m. for the all-Senators briefing.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, for the information of Senators, there will be three rollcall votes beginning at 12:30 p.m.

ORDER FOR ADJOURNMENT

Mr. SCHUMER. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order following the remarks of Senator LANKFORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Oklahoma.

BORDER SECURITY

Mr. LANKFORD. Mr. President, last weekend, I spent time down at the southwest border, an area the Presiding Officer is very familiar with.

This time, I was in the Rio Grande Valley. The Rio Grande Valley area has the highest area of illegal crossings across our entire 2,000-mile southwest border. In fact, it is interesting to be able to track just the movement across that border.

This is from 2014 to 2022. It is what has happened along this area of the border, just this one specific area, what is called the Rio Grande Valley area. It is around McAllen and Brownsville—that area. This shows, each year, what happens.

It starts in October, way down here with the numbers low. In some years, it came up, but just about every year, it went up and down. It was down significantly in November and December because, again, in Central America, they celebrate Christmas as well, and a lot of folks want to head back home, even, or be there. So immigration doesn't cross from south to north significantly in most years in October, November, December, January, except for this really odd line right here that seems really out of balance with all the rest of the lines from the last decade.

It is this line right here. This line is actually from last year. This line shows a number of 2 million people who illegally crossed our southwest border last year whom we know of—2 million. That is this line.

Typically, every other year, it is way down low when you get to October, November, December. That is over here. Here are the low months—but not this year. It has already started way up high. In fact, what is interesting is, for October, November, December, if you take any one of those months, there are as many people illegally crossing the border in the Rio Grande Valley in October, November, or December as over the last 3 years in that month combined.

Let me run that past everybody again. If you take any month—October, November, December—there were higher illegal crossings that we know of than over the last 3 years combined in any year that we know of.

My fear is, as some people have said, we have a problem on our southern border. I actually believe the Biden administration's policy is working exactly as they designed it to work—exactly. They created a structure in a system to allow as many people as possible to be able to cross our southern border, and it is working exactly.

Why would I say that? Well, in the first days of the Biden Presidency, when you stop border wall construction, when you announce they are going to change dramatically every policy in how we are interdicting individuals, when they cancel all foreign agreements with Mexico and with Central America that are actually limiting the number of people there, and then you don't replace them with anything, you have got to know that this is what is going to happen. Then, a year later, when nothing has changed, this is what is going to happen.

The agents in the Rio Grande Valley whom I talked to anticipate that by the time we get to the summer, we are going to be at 9,000 people a day who are illegally crossing our southern border—a day. There are many months in the past that we didn't have that many people crossing the border illegally. They are anticipating, on this trend line, 9,000 a day who will be coming. So far, what has the Biden administration done? They have stuck with their plan because it is doing exactly what they thought it was going to do.

I am amazed at the number of people I have talked to who have grown numb to what is happening on our southern border, and the media has just looked away and said: We have talked about how bad it is for a year; that is old news now. So they no longer talk about the 2 million people who have illegally crossed our border.

But, in going down last weekend and spending time with the Border Patrol, the CBP, ICE, and other leaders who were there, they could tell me firsthand the stories from last week, late at night, of the five Syrians they picked up who were crossing the southern border in the brush. Those 5 Syrians were part of the count of the 2 million people from last year that will now be who knows how big this year. They told me directly the story of a Nicaraguan single adult male whom they picked up crossing the border in the Rio Grande Valley, who told them under questioning that he was a member of the Nicaraguan military. Within 48 hours, he was released into the United States, and they were furious about it. Their question was very, very simple. A single adult male, member of a foreign military is now somewhere in our country, and they have no idea why, because they are doing their job but the policies that they have to work with right now of how many people they have to be able to cut loose, and how hard it is to be able to detain people, and the limiting policies of the Biden administration are fulfilling exactly what they are designed to do.

There has been a lot of conversation on the floor, and I have brought several times to this body the construction of the border barriers down in the southwest. This is something that members of the Border Patrol have asked for again and again and again: Close the gaps. They always say: Close the gaps.

There are these massive gaps where it was under construction. On January 20th of last year, construction stopped. Over and over again, people have said: Close the gaps. Close the gaps—those gaps we have to patrol.

Let me give you an example. When I got down there, they had now announced, by the way, they are closing the gaps. And everyone went: Great, the gaps are being closed.

But I got down there to be able to look at the gaps being closed, and let me show you what it looks like. This is an aerial shot when we were up in a helicopter with CBP, getting a chance to be able to literally watch people crossing the border illegally. From this aerial shot, I hope you can see. This was the existing wall that was constructed during the Trump administration—this tall, 30-foot wall with the anti-climb portion on it. Here is where the construction stopped. It was all the way through here, and then there was a gap, and then they had started another section here. They were getting ready to be able to put up the other sections, but they had to stop.

The Biden administration has now announced that they are going to close the gaps. I hope you don't miss it. They have announced the gaps are closed. Can you see this tiny, little picket fence on the bottom here? Probably not. This tiny, little picket fence that is at the bottom, that is what they say is "close the gaps." So it is no longer just open. They have a tiny, little decorative fence there, and that is their announced "we have closed the gap."

That is not going to deter anyone. They know it full well. It is not designed to deter anyone. It is designed to allow the administration to say, "We closed the gap," and hope no one looks at it because that gap will fulfill exactly what it is designed to fulfill; that is, to allow people in, not keep people out.

That doesn't help the Border Patrol. And they know it because it is not designed to be able to help the Border Patrol, and they know it.

Federal courts require the Biden administration to put in place what was a Trump policy before dealing with those individuals coming to seek asylum in the United States. It is called MPP. Some people call it "Remain in Mexico." This policy basically said, if you want to be able to come into the country, you had to pause, get in line, register so we know who you are. We would set up an orderly process, and then you would have to stay in the border region until it was time for your hearing to occur. There was a dramatic drop in individuals who were illegally crossing our border because they knew

they wouldn't automatically get in—what is called catch and release—that they wouldn't just come across, be released into the country, and wait 2 years until the hearing. Two years, that is what it used to be, to be able to wait until the hearing, until they shifted to the "Remain in Mexico" policy, and they said you have to stay here in the border region until it is time for your hearing. Within months they would come forward, they would get their hearing and get to make their determination, whether they fulfilled the asylum or not.

The Federal courts have said to the Biden administration: You have to put that policy back in place. So after months of delay, they have agreed to do it. It is one of the places I wanted to stop in and see.

This is an overview of the Brownsville location for the "Remain in Mexico" policy. This overview shows the setup that they have created there in Brownsville to do the hearings. There is an intake area for processing, a gathering area, a medical area. There are six courtrooms that are set up. The courtrooms that are set up are all set up as large courtrooms where up to 22 different defendants could be here with their attorneys. All the courtrooms have videoconferencing set up as a full-on courtroom for that location. There are, in each location, 120 individual office spaces set up—120—where individuals that had illegally crossed the border could meet with their lawyer. So 6 courtrooms, 120 meeting spaces, all the ancillary space—this is a massive complex.

When I was down there last week, they have, so far, handled three people—three—and they weren't sure how many they were going to handle this week. Why? Because on the "Remain in Mexico" policy—MPP, whatever you want to be able to call it—they have created a system with so many exceptions in it that they could tell the Federal courts, "Yes, we are doing it," but, in reality, they are not—realizing that this month they have had about 45,000 people illegally cross the border in this zone just in January, but only 3 they made eligible to go through this process, of the 45,000.

Why? Well, they made a whole set of stipulations. They said: If you come in a family group, you are not eligible to come in here. If you declare that you have a medical issue of any type, no matter how minor it may be, you are not eligible to be able to go through this program. If you are LGBT, you are not eligible to be able to go through this program. If you are 75 years or older, you are not eligible to be able to go through this program. If you are Nicaraguan, you are not eligible to go through this program. If you are Venezuelan, you are not eligible to go through this program.

Do you get the hint? They set so many criteria up to be able to list out—no, no, no, no, no, no—that the poor three people who were left who

didn't fit in those categories, they are going through. By the way, each person is given 24 hours with their lawyer before they actually have to go through this process, so counsel could give them the full list of all the items that they could select and say: If you meet any of the criteria, verbally, if you just say you meet any of these criteria, then you are out. And what does "you are out" mean? You are released into the United States, and you await your hearing.

Remember when I said that during the Trump administration those hearings would take up to 2 years before you got to an asylum hearing? Well, when I met with DHS officials this week, it is not 2 years anymore; it is now 6 years. You illegally cross the border, you get a paper, they release you into the country, you get on a bus or on a plane, literally go anywhere you want to go in the country, and set a date 6 years from now to show up at your court hearing. That is on average, by the way. Some are longer than that.

Now, you tell me, what happens if someone illegally crosses the border, they are processed within 48 hours, given a document that says you can be here 6 years to go anywhere you want to go in the country—what do you think they are going to do when they pick up their cell phone? I will tell you what is happening. They are texting a family member back home. They are texting friends back home and saying: I got in, and here is how I did it. Come join me.

And they are—2 million people last year. And the response so far has been decorative fencing, what they actually call guardrails in the area, and empty courtrooms.

By the way, this was the middle of the day when I was there—empty courtrooms with no one being processed, all so they can say they did something.

American taxpayers paid millions of dollars for this setup so they could say they are doing something when they are actually doing nothing, getting the results exactly as they planned.

Oh, but, of course, everyone is being required to be vaccinated correctly before they reach the country. Of course, everyone is being required to be vaccinated, except they are not.

If you are a legal green card holder, you are required to be vaccinated. President Biden is trying to vaccinate everyone in private businesses, in the Federal workforce, Federal contractors. Members of the military are being kicked out of the military this week if they are not vaccinated. Oh, but if you cross the border illegally, you are given the option whether you want a vaccine or not. It is offered to you for free, but it is not mandated; it is voluntary.

What is the result? Well, some of the results are pretty obvious. The numbers are skyrocketing. As I showed you before, these are record numbers of individuals crossing the border illegally. That is seeable.

Let me tell you what is not seeable at this point. The drug cartels in Mexico are getting richer and richer and richer. They are moving record amounts of drugs across our border, making an incredible amount of money for the cartels, continuing to strengthen those drug cartels on the border. But each of the individuals who cross our southern border also pay a fee to the cartels—each of them.

You don't cross the southern border into the United States without crossing through one of the cartel areas, and each one of them has to pay. It is somewhere around \$4,000 to \$30,000 per person to be able to cross through Mexico and into the United States—\$4,000 if you are from Guatemala; \$30,000 if you are from China.

And none of us should be surprised.

Just last year, people from more than 100 countries crossed into the United States, that we picked up and interdicted, illegally—more than 100 countries. This common conversation about, well, it is all folks from Central America—there are a lot of folks from Central America coming, but it is people from over 100 countries, including those five Syrians who were picked up just last week.

Do some rough math. If people pay between \$4,000 and \$30,000 a person and there were 2 million people who crossed illegally last year that we know of, that is \$10 billion paid to the cartels—\$10 billion. And our open borders are allowing the cartels to rake in that kind of cash.

When I visited with the Border Patrol and got a chance to be able to talk to them, their morale is awful, as you can imagine. They are doing their job. They are busting it every day, but they are frustrated. They are frustrated at the policies that they are having to enforce, when they are used to being law enforcement folks enforcing our southern border, and now, they are hotel check-in staff who are just greeting people at the border, processing them, and releasing them into the country.

That is not what they signed up for. They signed up to protect our country, and, literally, they cannot. In this case, law enforcement is handcuffed, and the criminals are released. It shouldn't be that way, and they know it.

Usually, October, November, December, and January are lower months—not so this time. They are exhausted from a record amount of illegal crossings last year, and they were hoping to get a bit of a break. But with the policies in place, it didn't matter how cold it is. People are still coming.

On top of all of that, here is what else happened last month, just one example. This is a Border Patrol vehicle that had just interdicted a group of folks at the border. I don't know whether you can see it or not, but that is a giant bullet hole in the front of it, and that is another bullet hole in it, and that is another bullet hole right behind the passenger window. By the

way, at this particular moment, they had actually already picked somebody up, and they were sitting in that back seat.

The Border Patrol every day risk their lives to be able to enforce the law. And for this group of folks they pick up, within hours, they are released, and they are somewhere in the country waiting on a court hearing 6 years from now, if they ever show up for the hearing.

Do you want to know how frustrated this group of law enforcement is? They risk their lives for nothing because this is the policy of the Biden administration.

This is not an accident. This is what it has brought. As they run through, tonight, the heavy brush, along a very cold Texas-Mexico border, they will pick people up, and they will faithfully do their job because they have over and over again, only to have a policy that cuts them loose.

How long?

Listen, Border Patrol agents have families too. Their families matter as well. And all this talk about we are going to be compassionate to the families of people who are illegally crossing the border—what we are really doing as a policy is enriching the cartels in Mexico; encouraging people to make a very dangerous journey; releasing them into the country with not a legal status, to live in the shadows of our Nation; and putting law enforcement at risk for their life.

This should not be.

And while the country just seems to move on and ignore the chaos at our border, this is still what is going on tonight, and it needs to stop. This administration has the ability to change policy and to change direction on our southern border, and they are not. They are not doing it on purpose, and the results are chaos. I wish I were wrong on this.

There is something called title 42. Title 42 means we have a COVID epidemic happening. OK. And under a COVID epidemic or under any kind of epidemic, law enforcement is able to take some individuals, single adults from certain countries, and turn them around and send them right back in and say: You can't come in because of the epidemic.

We have enormous numbers of those individuals coming, and right now some of those individuals from some of those countries are being turned around, thankfully.

And when I have asked DHS: What is your plan for those individuals once the COVID epidemic ends? And it does, God willing, end one day. When it ends, what is your plan?

We are now 13 months into this administration, and they still have no plan. That is not just my guess; that is my point-blank asking: What is the plan to turn people around once the COVID epidemic ends for that small group of folks that you are turning around?

They don't have one. It doesn't take 13 months to be able to determine what you are going to do. That just tells me the plan is, when the COVID epidemic ends, those folks get in too.

When does this end? Who is going to stand up and help us?

Just enforce the laws of our country. I yield the floor.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

The PRESIDING OFFICER. Under the previous order, the Senate stands adjourned until 10 a.m. tomorrow.

Thereupon, the Senate, at 9:32 p.m., adjourned until Thursday, February 3, 2022, at 10 a.m.

COAST GUARD NOMINATION OF PETER F. BOSMA, TO BE CAPTAIN.

EXTENSIONS OF REMARKS

RECOGNIZING THE LIFE OF RICKY ALLEN PEEBLES

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. KELLY of Mississippi. Madam Speaker, I rise today to celebrate the life of Ricky Allen Peebles who passed away Tuesday, January 4 at North Mississippi Medical Center in Tupelo. I join his family, friends, and loved ones in mourning his loss.

Born November 8, 1955 to Reverend Billy Allen Peebles and Earlene Edwards Peebles, Ricky grew up to earn his Bachelor's degree in Pastoral Ministry from Southern Assemblies of God in Waxahachie, Texas. He was a fan of Ole Miss Football and enjoyed traveling with family and friends. He served as the pastor of Canaan Assembly of God in Booneville and was also employed as the deputy jail administrator for the Prentiss County Sheriff's Department. He has served in a variety of churches and received many awards for his service to the sheriff's office.

Left to cherish his memory are his wife of 47 years, Sarah McNair Peebles; daughter, Erica and Rachel; brother, Mark; sisters, Martha and Mitze; and granddaughter Katie.

I am grateful for Ricky's life of service to the state of Mississippi and the kingdom of God. My deepest condolences are with his loved ones.

HONORING JOHN KILGORE, SR.

HON. H. MORGAN GRIFFITH

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. GRIFFITH. Madam Speaker, I rise in honor of John H. Kilgore, Sr. of Gate City, Virginia, who passed away on January 29, 2022. John had a faithful and enduring presence in Southwest Virginia's public life.

John was born on April 20, 1938, in Nickelsville, Virginia, to Glen C. and Pasty Akers Kilgore. He served in the United States Navy and worked for 33 years at the Eastman Chemical Company. Over the course of his life, John served numerous community causes. He was the chairman of the Scott County Republican Party for more than 30 years, served several terms on the party's State Central Committee, and regularly attended county, district, and state conventions. He was on the Scott County Telephone Co-op Board beginning in 1986 and served as chairman for fifteen years. Virginia Governors George Allen and Jim Gilmore appointed him to the statewide Department of Housing and Community Development Board. John brought his talents as a singer to his family quartet and the Smith's Chapel United Methodist Church, where he also taught Sunday School. He belonged to the Copper Creek Ruritan since the 1970s.

I was able to attend his visitation. His funeral was attended by Virginia Governor Glenn Youngkin, Attorney General Jason Miyares, Speaker of the House of Delegates Todd Gilbert, and many current and former members of the General Assembly, a sign of the high esteem in which John was held.

John took great pride in his family and was blessed to see his children and grandchildren embark on careers in public service. Terry Kilgore now serves as the Majority Leader of the Virginia House of Delegates, Jerry Kilgore served as Virginia's Attorney General and Secretary of Public Safety, John Kilgore Jr. serves as Executive Director of Scott County's Economic Development Authority, and Kyle Kilgore recently took office as Commonwealth's Attorney of Scott County.

The faith, kindness, and wisdom of John inspired his family. Fortunately, these qualities were shared generously with the rest of us, too. He leaves behind a great legacy as a family man, neighbor, and citizen.

John is survived by his wife Willie; sons Terry and wife Debbie, Jerry and wife Marty, and John Jr. and wife Rhonda; grandchildren Kandace Haigler, Kayla Dickenson, Klarke Kilgore, Kyle Kilgore, Kaden Kilgore, and Kelsey Kilgore; great grandchildren Holston Haigler and Hendrix Haigler; great grandchild on the way Nola Kilgore; sisters Joyce Hillman, Joann Penley and husband Sam, and Glenna Carter and husband Norman; and brother-in-law Otis K. Hill. I would like to offer my condolences to his loved ones on the loss of this fine Southwest Virginian.

HONORING DR. VINCENT M. MILLER, II AS A DISTINGUISHED LEADER IN CENTRAL FLORIDA FOR BLACK HISTORY MONTH

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. SOTO. Madam Speaker, Dr. Vincent M. Miller II currently serves as a Secondary Math Teacher at Winter Haven High School and was the first black male Math Teacher named as Polk County Teacher of The Year. Dr. Miller is a newly published author with one of the top-selling books on Amazon, "21st Century Education In The Lens Of Covid-19." As an accomplished, visionary leader in the academic sector with 10 years in the Polk County School system, he has had many roles in administration but found his love back in the classroom. Some of his most notable accomplishments in education include decreasing academic suspension rates by over 50 percent and establishing a variety of innovative academic programs to attract and retain students, energize academic offerings, and enhance career and professional development outcomes for students.

He holds an Ed.D. in Educational Leadership from Lynn University, a Masters of Busi-

ness Administration from Webster University, a Bachelor of Science, with a music minor in vocal performance from University of South Florida. Dr. Miller is known for his community work, through his nonprofit Filling The Lane. Filling The Lane's mission is to bridge the gaps between education, sports, 'arts,' and community for at-risk youth. He is also known for performing locally and internationally in such shows as Porgy & Bess and Broadway production KaTonga.

RECOGNIZING THE LIFE OF MIKE DOSS

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. KELLY of Mississippi. Madam Speaker, I rise today to celebrate the life and service of Mr. Mike Doss who recently passed away after serving the great state of Mississippi as a member of the Pontotoc Police Department. Since 1999 Mr. Doss has been a great servant to the Police Force and community spending most of his time in the narcotics division of the department.

Mr. Doss hails from Houston, Mississippi. He is predeceased by; Arthuer Lee his father, and survived by Eva Criddle Doss his mother, Elizabeth Ann Walters Doss his wife, Jonathan Doss his son, and Leann Nabors his sister. He also had a grandson Conner Doss.

I am so thankful for Mr. Doss' years of service to the great state of Mississippi. I send my deepest condolences to the extended Doss family.

HONORING PROSPECT HEIGHTS MAYOR NICHOLAS J. HELMER

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. SCHAKOWSKY. Madam Speaker, I rise today to share my deepest condolences with the family and friends of Prospect Heights Mayor Nicholas J. Helmer, who passed away on January 26. Nick was a wonderful person, a talented leader, and a great friend. My heart goes out to his wife of 57 years, Gail Ann, his children, Rebecca and Nicholas Jr., and all those who knew and loved him.

Nick spent ten years as the Mayor of Prospect Heights. He lovingly referred to his community as "Prosperous Heights" and worked hard each and every day to make that label ring true. Over the course of Mayor Helmer's tenure, I have had many opportunities to work closely with him. Nick was level-headed, intelligent, and committed to the people he represented. He truly exemplified the best of public service. Nick provided sound leadership and guidance as the City navigated challenges

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

and continued to grow and flourish. Nick loved Prospect Heights. He was always eager to participate in the ribbon cuttings and festivals and grand openings. When a 2018 fire displaced hundreds of Prospect Heights residents, Nick was in the thick of it, ensuring that displaced families received the assistance they so desperately needed. I am proud to have worked alongside him.

In many ways, Nick Helmer's life is an example of the "American Dream" that so many of us strive to achieve. He was born in 1942 in the former Yugoslavia and moved to the United States at the age of ten. Nick married his high school sweetheart, Gail, and raised a family here. He was an Army veteran, spending time stationed in France where he worked as a newspaper reporter, a photographer, and a radio broadcaster.

Nick was recognized as a leader at whatever he dedicated his time to. He worked as a licensed real estate broker and a certified property manager and rose to prominence in both fields. Nick spent time as the Director of the Chicago Board of Realtors and spent two terms as President of the Institute of Real Estate Management's Chicago Chapter, winning "CPM of the Year" during his service. He served as both the President of Inland Residential Sales Corporation and the Chairman of Inland Bank. Nick spent time working as an Asset Manager for the Chicago Executive Airport and ended up serving fourteen years on the Airport's Board of Directors. Nick spent thirty-five years coaching basketball at St. Viator High School, where he also served on the Distinguished Alumni Committee. The pattern here is obvious: when Nick Helmer did something, he did it well.

Nick Helmer may have been soft spoken, but there was never any question whether he was a leader. We are all worse off with his passing. On behalf of a grateful nation, I thank Mayor Helmer, for all his hard work on behalf of others. We will miss him.

RECOGNIZING JAIDEN, KEANU,
AND MILAAN SEELIGER AS MY
CONSTITUENTS OF THE MONTH

HON. MIKE LEVIN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. LEVIN of California. Madam Speaker, it is my great honor to recognize the Seeliger brothers, Jaiden, Keanu, and Milaan, for their creative and inspiring nonprofit, Tech-Angels, where they collect gently used cell phones, iPads and tablets to give to elderly people in nursing homes so they can stay connected with their loved ones.

The coronavirus pandemic brought unprecedented changes to our lives, especially to older generations who are most susceptible to the virus. Inspired after their 97-year-old great-grandmother broke her leg and had to move to a nursing home in New York, the boys realized how fortunate they were to be able to see and speak with her on FaceTime on a regular basis.

Knowing others may not have the same opportunity, they decided to find a way for others in similar circumstances to see their friends and family with the help of technology, creating their non-profit, Tech-Angels. The three

brothers soon realized that although their great grandmother knew how to use her devices, many other seniors in nursing homes did not.

With Tech-Angels, participants not only receive a device to contact their loved ones, but also instructions on how to do it. The brothers also focused their efforts on the veteran community, feeling that veterans have done so much for our country and communities, that this access and service was the least they could do for them.

For their ingenuity, kindness, and big hearts, I'm proud to honor Jaiden, Keanu, and Milaan as my January Constituents of the Month. Having young people in the district so encouraged to help their neighbors and those in need are the perfect example of how California's 49th Congressional District is so incredibly special. I am grateful for their generosity and bright smiles that ensure our community grows stronger every day.

HONORING THE 50TH ORDINATION
ANNIVERSARY OF FATHER TER-
RENCE KERNER

HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mrs. DINGELL. Madam Speaker, I rise today to recognize Father Terrence "Terry" David Kerner on the occasion of the 50th anniversary of his ordination. His significant contributions to our community are worthy of commendation.

Father Kerner was born on October 3, 1945 to La Verne and Imelda Kerner in Ypsilanti, Michigan. The middle child of the Kerner family, he has two siblings, older brother Torn and younger sister Diane. He knew from a young age that the church was his calling, and his family proudly supported his wishes. Father Kerner studied at Sacred Heart Seminary in Detroit, St. John's Provincial Seminary in Plymouth Township, and at the University of Detroit. He was granted the John Farrell Award which allowed him to study Theology in Rome. He was ordained on February 4, 1972, at his home parish, St. John the Baptist Catholic Church in Ypsilanti. Since then, he has served at various churches in Michigan.

Father Kerner began his career in faith as associate pastor of Presentation in Detroit and then St. Raymond's in Detroit, and later St. Lawrence's in Utica. He became pastor of St. Christopher's in 1982 and moved to Monroe, Michigan to become pastor of St. John the Baptist Parish in 1986. In Monroe, he served as vicar of the Monroe Vicariate and as administrator of St. Michael's. In 2003, he became pastor at Our Lady of Victory in Northville. Father Kerner has been pastor of St. Martha and St. Joseph in Dearborn—now St. Kateri Tekakwitha Catholic Church, since 2006. Father Kerner is a trusted leader in our state and has used his ministry to uplift and support others, no matter where his vocation has taken him. From providing the invocation in the Michigan House of Representatives to being an ever-present member of our community, all who know him know his kindness and generosity. He resides in Dearborn and is a proud uncle to three nephews, one niece, one great nephew and one great niece.

Madam Speaker, I ask my colleagues to join me in honoring Father Terrence Kerner on this special day. He is a man of true faith who knows the importance of loving your neighbor as yourself. We are grateful for his work in Dearborn and throughout Southeastern Michigan and join with his friends, family, and congregation at St. Kateri Tekakwitha Catholic Church in wishing him nothing but the best in the coming years.

RECOGNIZING THE LIFE OF
MARTHA ANN SEGARS

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. KELLY of Mississippi. Madam Speaker, I rise today to celebrate the life of Martha Ann Segars who passed on January 19. I join her family, friends, and loved ones in mourning his loss.

Born on September 16, 1931 to Due and Ruby Nabers Thompson in Red Bay, Alabama, she graduated from Red Bay High School in 1949 and enrolled at the University of Alabama. She proved to be a talented seamstress in her fashion design classes, though she was a dietetics major. In 1952, she married Kelly Segars, her high school sweetheart. In 1953 she received her Bachelor of Science Degree in Institutional Management and accepted an internship at Vanderbilt University in Nashville. Her husband was soon called to serve in the Korean War.

When her husband returned in 1955, she finished her internship and he worked as a pharmacist to prepare for Medical School. Their first son was born at Vanderbilt Hospital, and soon after Kelly was accepted into the University of Mississippi Medical School. Martha became a dietician at the VA medical center in Jackson. They soon settled in luka with their two sons and daughter. She continued to sew, work as a dietician, and manage the family farm.

Martha was dedicated to the Tishomingo County community and served in a variety of roles: she has served on the boards of the Yellow Creek Port Authority, Yellow Creek Watershed Authority, Tishomingo County Economic Development, Tishomingo County Tourism Council, and dozens more. She has also served as the President of the luka Chamber of Commerce and Chair of the Arts and Historical Committee. She spearheaded the 'Trash and Treasures along the Tenn-Tom,' and served as a tour guide for the Eagle Watch Cruises and the Fall Foliage Cruises on Pickwick Lake.

Left to cherish her memory are her children Scott, Mark, and Leigh; grandchildren Tyler, Jackson, Thompson, Annie and James; nieces, nephews, and countless community members whose lives she impacted.

Martha Ann Segars was a selfless community leader and an outstanding Mississippian. My thoughts and condolences are with those who knew and loved her.

RECOGNIZING THE SERVICE OF
JAMES “J” BOBO

HON. RALPH NORMAN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. NORMAN. Madam Speaker, I rise today to recognize the outstanding service of James “J” Bobo. James is a senior at Indian Land High School and currently serves as the President of the South Carolina Society of the Children of the American Revolution, the oldest patriotic youth organization in the Nation.

Children of the American Revolution was founded in 1895 and trains civic-minded citizens, develops strong leaders, and promotes a love of our great Nation. As part of his role in the society, James participates in community service projects and learns about his American heritage. He also organized a state project called “Finding Fields of Freedom” which supports learning about lesser-known battles and conflicts that took place in South Carolina during the American Revolutionary War.

Many of these lesser-known battles rallied support for the Patriot cause and served as important steppingstones to the Patriot victories that secured our Nation’s independence. The courageous men who fought in these battles deserve to be remembered and recognized. In addition to sharing and preserving these important stories, James is also raising funds to erect historical markers at some of these American Revolution battlefields such as Rugeley’s Mill and Fort Galphin. He is on track to raise enough funds to erect at least three historical markers.

James’ leadership in the Children of the American Revolution organization and his dedication to this project has taught countless others about our rich history and the role South Carolina played in the American Revolution. He rightly believes one of the best ways we can maintain our freedom is by telling the stories of the conflicts, skirmishes, and battles in which our brave patriots first fought for independence. On behalf of the 5th District of South Carolina, it is my most sincere pleasure to recognize James for his outstanding leadership and service to our state. I wish him the best of luck throughout his future endeavors, as I know he will continue to find great success in all that he does.

REMEMBERING DR. SYED
LATAFAT HUSAIN HAMZAVI

HON. HALEY M. STEVENS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. STEVENS. Madam Speaker, I rise today to honor the incredible life of Dr. S. L. Husain Hamzavi, an influential resident of Michigan who passed away on January 15th. Dr. Hamzavi was proud to be the devoted husband of Aquela and loving father of Iftefat, Fasahat, and Asra. He will also be remembered by many as a caring healthcare provider, passionate academic, and noble servant to the community.

Syed Latafat Husain Hamzavi was born in Aurangabad, India in 1940. After earning a de-

gree from Nizam College, Syed Hamzavi attended Liaquat Medical School in Hyderabad, Pakistan, and then continued his education at the University of Glasgow in Scotland. At the University of Glasgow, Dr. Hamzavi earned his PhD, researching the usage of Zinc for the treatment of leg ulcers, and was trained in dermatology. He fondly recalled his time in Glasgow, sharing memories of how the British dermatology community embraced him despite the prevailing ethnic biases of the time.

In 1969, Dr. Hamzavi married Aquela. In 1977, the family moved to Detroit as one of the first South Asian and Muslim physicians to become an American Board of Dermatology-certified physician, working with Dr. Herman Pinkus to develop the Contact Dermatitis Unit. Dr. Hamzavi began his full-time academic practice at Wayne State University in 1980, and his commitment to the education of aspiring medical professionals persisted for decades thereafter. He and his wife were also the founders of Hamzavi Dermatology, growing the practice to include dozens of healthcare providers, across many locations in Southeast Michigan over the course of their careers and inspiring their children to pursue a career in the medical field. Those who knew him say that he cared deeply about his patients and staff alike, following his beloved Aquela’s lead in treating his staff like family.

Beyond the many significant contributions that Dr. Hamzavi made to the medical profession, he was also an active philanthropist and organization leader. His passion for education was further evidenced by his generous support of the Pinkus Chair and the Aronson lectureship at Wayne State University, The Henry Lim research Chair at Henry Ford Hospital, and multiple student scholarships at The University of Michigan, in addition to leading the weekend Islamic school activities at the IAGD mosque in Rochester, Michigan. Proud of his Indian and Pakistani heritage, Dr. Hamzavi served on the board of various cultural organizations such as APPNA, the Pakistani American Association, and was a member of the Indian medical group, AAPI. Dr. Hamzavi was a man of deep religious conviction who believed in an inclusive world. Leading by example, he was generous to all and always sought to improve himself.

Madam Speaker, Dr. Syed Latafat Husain Hamzavi will be truly missed by his family and all who knew him and benefitted from his many contributions to the community. His incredible legacy will continue to improve the lives of others for a long time to come, and we are truly grateful.

CONGRATULATING THE CALI-
FORNIA STATE UNIVERSITY
LONG BEACH MOOT COURT PRO-
GRAM ON ITS NATIONAL CHAM-
PIONSHIP

HON. ALAN S. LOWENTHAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. LOWENTHAL. Madam Speaker, I rise today to congratulate the California State University Long Beach (CSULB) Moot Court Program, which for the fifth time and second straight year has produced a national cham-

This year, over the January 21–23 weekend, CSULB Seniors Vaishalee Chaudhary and Marco Romero won the American Moot Court Association’s (AMCA) Oral Advocacy National Championship. This also makes CSULB one of just four public universities to win a national title for oral advocacy in AMCA’s 22-year history. This is CSULB’s second national championship in oral advocacy, putting the CSULB team in rarified company with only one other school having won more. CSULB is the only public university to advance to the national finals more than once and the only public university to win the national title for oral advocacy more than once. CSULB has been the national finals three times (third all-time) and to the national semifinals four times.

The competition, which was held on Zoom, featured 100 teams from schools in the United States and Canada. Chaudhary and Romero, the only team in AMCA history to win three regional tournaments, won five of five competitions in 2021–22 and went undefeated on the season. In addition to winning the national title for oral advocacy they finished 4th in the Nation in respondent written advocacy. They graduate as the most winning team in the CSULB Moot Court Program’s history.

During their run at the national championship, Chaudhary and Romero won eight rounds, including one against 12-time champion Patrick Henry College and three rounds against teams from the runners-up—the University of Chicago. Two other CSULB teams qualified for the national quarterfinals, giving CSULB three of the top eight teams in the Nation. The other quarterfinalists from the team were Aleece Hanson, Celeste Sanchez, Kelton Munch and Georgina Tierney.

In addition to the national win by Chaudhary and Romero this year, CSULB won a national oral advocacy title in 2003 and three written advocacy national titles in 2004, 2014, and 2021.

The tremendous success of the CSULB Moot Court Program in these competitions speaks volumes about the quality and leadership of the CSULB instructors, led by head coach Lewis Ringel, as well as the dedication and determination of the students in the program. Go Beach.

IN RECOGNITION OF THE LIFE
AND MEMORY OF BOBBY
CONTRERAS

HON. EMANUEL CLEAVER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. CLEAVER. Madam Speaker, I rise today with a heavy heart to commemorate the life of Bobby Contreras and to pay tribute to his lasting legacy in Kansas City, Missouri. The world that Bobby Contreras has left is brighter, kinder, and more joyful because of the sixty-seven years of life that he shared with us. I am grateful to God for giving Bobby to his family and friends, and I am grateful to them for sharing Bobby with us.

Father. Grandfather. Union member. “DJ Bobby C.” Bobby Contreras was a man who seemed to be everywhere, both physically and spiritually. Somehow, all at one time, Bobby managed to be truly present—as an outgoing

coworker at Kansas City Power & Light and Aramco Steel; as a Board Member and volunteer at Fiesta Hispana; as a passionate member of the International Brotherhood of Electrical Workers Local 1464; as a weekend DJ; and as an extraordinarily loving and playful father and grandfather. But Bobby was also spiritually pervasive. His light, his smile, his very presence could fill any room, any venue, and any party. Bobby instilled this light in his children, and despite his physical absence, his spirit will continue to be felt anywhere the two of them appear. Through the joy he spread, Bobby's presence could be felt throughout the community, and the reverberations of his life—a life well lived for nearly seven decades—will continue to be felt for years.

In all parts of his life, Bobby combined that vibrant presence with pure dedication. He was religious about Joseph's and Jackson's ballgames—both in attendance and in fervor. He kept every ticket, every recital program. He passionately campaigned to bring Tejano artists to Kansas City as a part of his lifelong effort to celebrate the Mexican American heritage he valued so deeply. He worked tirelessly to provide a better future for his children and grandchildren, blazing a path through an industry where few Hispanic individuals had trod before. He volunteered both inside and outside of his community. He brought his DJing skills from large gigs to backyard Bar-B-Ques, sharing with others his love for Kool & The Gang, Santana, and Jay Perez. His adventurous spirit was a vestige of his younger days, and like so many parts of Bobby's youth, it only grew more brilliant with age. Bringing together the adventurous and dedicated sides of his soul, Bobby charted a life course we should all hope to emulate.

The pain that accompanies the death of a loved one can be especially difficult for children to understand, and I can imagine how Joseph, Jackson, and Jada will be missing their grandfather's spontaneous visits and groovy tunes. I hope they know that he is still, and will always remain, just over their shoulders, right behind home plate, cheering them on. To Patrick and Jessica, as you witness your father trek up far beyond the "City of the Sun," I know you understand that he leaves you with an unmistakable guide to living life the right way. Today, he enters the "Land of 1000 Dances," and it will be a long time before we join him. But he's certainly left us with plenty of moves to practice.

Since I learned of Bobby's passing, I have been listening to the wonderful "living" play list you have been putting together of "DJ Bobby C" standards. One song in particular has stood out to me. I'm not sure why. I'm not sure if it's the bouncy accordion, the smooth, airy vocals, or its feeling of togetherness so sorely lacking in the world today. Regardless, I've been thinking about it all week. It's Track 12: Michael Salgado's 1994 song "Cruz De Madera" off the album *Nuevas Y Favoritas*. "... Cuando yo me muera," Salgado sings, "Yo no quiero lujos ni mesas de adobe/ No quiero una caja que valga millones/ Lo único que quiero es que canten canciones." Lo único que quiero es que canten canciones. I think we can swing that, don't you?

Madam Speaker, my prayers are with Bobby's family and friends as they adjust to this momentous loss. In death, Bobby has found peace in the arms of his parents and in the arms of God. I don't know what playlist he's

cooking up right now or how he plans to get Heaven on its feet tonight, but I do know there isn't a place in the universe Bobby couldn't make better. Like the speaker in Salgado's song, Bobby never asked much of anyone, but he did ask us to feel the music, let go of tomorrow, and dance along—for him, yes, but mostly for us. The pain of mortality may have dimmed the lights, but Bobby's party will go on forever.

IN RECOGNITION OF SHERIFF RON ANDERSON

HON. JOHN JOYCE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. JOYCE of Pennsylvania. Madam Speaker, I rise today to recognize Sheriff Ron Anderson and congratulate him on his retirement as Cumberland County Sheriff.

For 44 years, Sheriff Anderson dedicated his life to serving the people of Cumberland County. Sheriff Anderson began his career as a uniformed corrections officer in Carlisle, Pennsylvania, in 1977, and went on to serve with both the Newville Police Department, and North Middleton Police Department, before becoming Cumberland Counties Deputy Sheriff and later Sheriff. Throughout his time as a police officer and sheriff, Ron Anderson remained a cornerstone of the Cumberland County community.

Aside from his work in law enforcement he served as a criminal justice advisory board member to Cumberland—Perry Vocational Technical School; as a committee member for the Criminal Justice Subcommittee of the South-Central Task Force; and a representative to the Pennsylvania Association of Elected Officials for the Pennsylvania Sheriffs' Association.

On behalf of the people of Pennsylvania's 13th Congressional District, I congratulate Sheriff Anderson on a well-earned retirement, and express our gratitude for his four decades of public service.

I thank Sheriff Ron Anderson for his tireless work to protect and serve our community.

IN SUPPORT OF THE NATIONAL SCIENCE FOUNDATION'S ESTABLISHED PROGRAM TO STIMULATE COMPETITIVE RESEARCH

HON. SHARICE DAVIDS

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. DAVIDS of Kansas. Madam Speaker, I rise today in support of the National Science Foundation's (NSF) Established Program to Stimulate Competitive Research (EPSCoR). For decades, the EPSCoR program has been instrumental in supporting groundbreaking research and development in states that don't receive a majority of federal science funding. 28 states and territories benefit from this program, including my home state of Kansas.

Nationwide, EPSCoR has inspired a generation of STEM professionals and created new opportunities for student researchers to succeed. Through its most recent award, the Kan-

sas EPSCoR program has been researching microbiomes in our water, plants, and soil to enable more sustainable food production and lasting ecosystem protections. This federal funding has also allowed recipients to launch an internship program, a summer course for high school teachers, and more. From the University of Kansas to Haskell Indian Nations University, students and faculty that benefit from EPSCoR will help ensure that the United States leads well into the future when it comes to science, sustainability, and life-saving research.

As the House and Senate consider legislation to make our nation more competitive, bolster our supply chains, and boost domestic manufacturing, I urge the inclusion of robust funding for the EPSCoR program. In 2020, EPSCoR states received just \$190 million in federal funding—only two percent of the NSF's budget. Increasing dedicated EPSCoR funding to 20 percent of the NSF's budget, along with the large investments in research and development we are considering, will spur innovation in underserved communities without sacrificing support to states that have historically received high amounts of federal science funding.

Student researchers in Kansas and other smaller states have so much to offer. I urge my colleagues to continue supporting them, their work, and the EPSCoR program with increased dedicated funding in the America COMPETES Act.

HONORING BEACON HILL VILLAGE'S 20TH ANNIVERSARY

HON. STEPHEN F. LYNCH

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. LYNCH. Madam Speaker, I rise today to commemorate the 20th anniversary of Beacon Hill Village in Boston. It's an anniversary with significance for the whole Nation and they are to be congratulated on reaching this special milestone.

Madam Speaker, Beacon Hill Village was created by, and for, neighbors determined to continue to thrive and grow in the neighborhood they loved, as they aged. There was no ready model when they began. A core goal of Beacon Hill Village members was living active, independent, and healthy lives. There is not much choice about growing old, but there are choices about where and how to do so. The Village offers those choices to its members and so much more, including maintaining and enhancing quality of life, providing peace of mind, enabling purposeful lives, and helping to navigate the transitions of growing older.

From its start in 2002 Beacon Hill Village has spawned a movement that continues to spread across the U.S. and in other countries. Today there are 263 open and 70 developing Villages serving thousands of older adults from major cities to small, rural communities. These Villages are all across the nation—in 43 states and the District of Columbia—and in four countries abroad. While many Villages were formed through grass roots efforts led by a few passionate people, Villages have also grown from faith-based groups, social service partnerships, and through existing community service organizations.

Beacon Hill Village was the chief force behind the creation of the Village to Village Network which remains dedicated to helping communities everywhere design their own Villages reflecting local needs and using local resources. Local Villages connect members to a full range of practical support services to help with non-medical household tasks, services, programs and transportation. Villages also promote staying active by coordinating recreational, social, educational and cultural programs. These social activities minimize isolation and promote interaction amongst their peers.

Madam Speaker, I am convinced, that the best days of Beacon Hill Village, the Village-to-Village Network and the Villages of the Nation, are still ahead of them. Their message is simple, forceful and optimistic: aging should be individual, and person-centered. Villages can help their members take responsibility for their own aging and make choices resulting in vibrant, purposeful lives lived on their own terms, in their own homes and communities. With this message the Villages are changing how elders experience aging and how our society perceives aging. Every American benefits from these changes. This community-based movement offers an economically efficient model for aging.

The COVID-19 pandemic has shown a bright light on the power of Villages to deliver essential services, keep members engaged and connected safely, and provide critical information during a time of great stress and confusion. Seemingly overnight, Villages turned in-person events and activities into virtual programming, trained their members to use Zoom, and partnered with existing services and resources to ensure members had what they needed, especially during lockdown. Not only did Villages and their members thrive during the pandemic, they demonstrated the power of community.

By 2030, every Baby Boomer will be age 65 or older, which means that 1 out of every 5 U.S. citizens will be of retirement age. The numbers are even larger in many countries around the world. The Village model and the importance of community and choice offer valuable insights and solutions for this challenging phenomenon.

Madam Speaker, in recognition of the positive impact that the village movement has had on the experience of aging, I ask that my colleagues join me in congratulating Beacon Hill Village on its 20th anniversary and saluting all villages throughout the Nation.

RECOGNIZING THE LIFE OF JUDGE KENNETH COLEMAN

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. KELLY of Mississippi. Madam Speaker, I rise today to celebrate the life and accomplishments of Circuit Judge Kenneth Coleman, as he passed away on January 25, 2022.

Judge Coleman was born in Montpelier in Clay county. He was the son of Robert W. Coleman and Maurine Anderson Coleman. He attended both Itawamba Community College and the University of Mississippi. He later went on to earn a juris doctor degree from

Samford University. He also served the great state of Mississippi in the Army National Guard and Reserves, reaching the rank of sergeant First Class.

Judge Coleman is survived by his wife of 61 years, Patsy McKee Coleman, his daughter Catherine Coleman McClinton, his son Robert W. Coleman, and eight grandchildren. Judge Coleman's dedication to the state of Mississippi and kind heart towards the community will be greatly missed.

IN RECOGNITION OF CYNTHIA ABBOTT'S RETIREMENT

HON. DORIS O. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. MATSUI. Madam Speaker, I rise today to congratulate Cynthia Abbott on her upcoming retirement from the U.S. Department of Housing and Urban Development's Field Policy and Management program in the San Francisco Regional Office's Northern California jurisdiction. The Sacramento and Northern California region are thankful for her years of service, and we wish her well in her next chapter.

In March 1999, she joined HUD as a Community Builder Fellow in the Sacramento-area and served as the Sacramento Field Office Director until 2014. Throughout her time with HUD, Ms. Abbott worked closely with local leaders and non-profits and was an integral advocate for transformative Sacramento-area, place-based initiatives such as the Sacramento Promise Zone designation, the MiraSol Village Redevelopment project (HUD Choice Neighborhoods grant) and the Local Foods, Local Places project (EPA grant). Many Sacramento residents have been served important resources because of her dedication and hard work.

Madam Speaker, I ask my fellow colleagues to join me today as we thank Ms. Abbott for her service with the federal government and her dedication to the residents of Northern California.

JOHN R. LEWIS POST OFFICE BUILDING

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 1, 2022

Ms. JACKSON LEE. Mr. Speaker, I rise in enthusiastic support of H.R. 5577, which designates the United States Postal Service facility located at 3900 Crown Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building."

As a senior member of this body, a former colleague of the great and beloved John Lewis, and as a member of a generation that engaged in direct action inspired by his work in the Civil Rights Movement, I am proud to vote for H.R. 5577 in this tribute to an American original.

I thank my colleague, Congresswoman WILLIAMS of Georgia, for introducing this historic legislation to honor the memory of our dear

friend and one of the greatest Americans, the beloved Congressman John Robert Lewis, who died in July 2020, leaving a big hole in the hearts of freedom loving people everywhere.

To honor John's outstanding contributions to the civil rights community in Atlanta and his extraordinary life of service to others, it is both fitting and proper to designate the facility of the United States Postal Service located at 3900 Crown Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building."

John Lewis was a lifelong warrior for a more just, equitable, fairer, and better America, one of the Original Big Six, and a giant of the Civil Rights Movement.

John Lewis was one of the original Freedom Riders, who in 1961 challenged segregated interstate travel in the South.

He was a founder and early leader of the Student Nonviolent Coordinating Committee, which coordinated lunch-counter sit-ins.

He helped organize and was the last surviving person who addressed the multitude at the March on Washington, where Dr. King delivered his immortal "I Have A Dream" speech on the steps of the Lincoln Memorial.

John Robert Lewis was born on February 21, 1940, the third of ten children, to Eddie and Willie Mae (Carter) Lewis near the town of Troy on a sharecropping farm owned by a white man.

John was a child when his parents bought their own farm—110 acres for \$300.

He performed farm work, leaving school at harvest time to pick cotton, peanuts, and corn.

John Lewis's family members called him "Preacher," and becoming one seemed to be his destiny.

John often said he drew inspiration by listening to a young minister named Martin Luther King on the radio and reading about the 1955–56 Montgomery bus boycott.

John Lewis did not just listen to Martin Luther King, Jr., he took action to follow his example.

The first time John Lewis was arrested was in February 1960, he and other students demanded service at whites-only lunch counters in Nashville, the first prolonged battle of the movement that evolved into the Student Nonviolent Coordinating Committee.

John Lewis's advocacy was fierce and joyful, as embodied in his common refrain to involve oneself in the actions and passions of one's time, 'to get in the way, make necessary trouble.'

Less than two years after, in the shadow of the Lincoln Memorial, John led over 600 peaceful demonstrators across the Edmund Pettus Bridge, in Selma, Alabama, in a march demanding the right to vote.

That protest was met with violence by Alabama State Troopers, as John Lewis was beaten and his skull left bloodied, the horror left bare for a nation to see on television.

That incident, forever remembered as Bloody Sunday, led to the passage and enactment of the Voting Rights Act of 1965.

It was my personal honor to accompany John Lewis on countless pilgrimages to the Edmund Pettus Bridge to remember and acknowledge those common persons with common dreams and uncommon courage and love for the promise of the country.

In 1986, John Lewis was elected to the United States House of Representatives from

Georgia's 6th District and served in that role for 17 terms until the sun set on his heroic and extraordinary life.

John Lewis's moral authority was colossal because he had seen the worst of us, but he always appealed to the best of us and never ceased to inspire us to strive to create the beloved community.

John Lewis was the conscience of the Congress, widely beloved and revered on both sides of the aisle and the Capitol, he became the first African American lawmaker to lie in the rotunda of the U.S. Capitol.

John Lewis' moral authority in the United States House of Representatives was in full display when he led members in a 24-hour sit in on the floor of the House of Representatives.

In John Lewis' final act of civic engagement and civil disobedience, he stood in the middle of Black Lives Matter Plaza showing solidarity and the continuity with the now global movement fighting galvanized by the horrific murder of George Floyd to peacefully protest for justice and equal treatment in the criminal justice system.

Mr. Speaker, John Lewis was among the finest Americans this country ever produced, it is no exaggeration to say he was a man, the likes of which we shall not see again.

In 2011, at a White House ceremony, President Barack Obama awarded John Lewis the Presidential Medal of Freedom, the nation's highest civilian honor.

John Lewis also received the Martin Luther King Jr. Nonviolent Peace Prize, the John F. Kennedy Profile in Courage Award, and the National Association for the Advancement of Colored People's (NAACP) Spingarn Medal.

John Lewis was a true man of honor who dedicated his life to civil and human rights, as he broke down racial barriers while maintaining imperishable perseverance.

John Lewis lived a consequential life, and his legacy is all around us, in the realization of talent and opportunity of millions of persons who walked through the doors of progress that John Lewis helped open.

I hope it is comfort to the family and loved ones of John Lewis that people around the world are celebrating his life, including the act of Congress designating a post office in his name.

PERSONAL EXPLANATION

HON. MARK POCAN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. POCAN. Madam Speaker, I was unable to be present in Washington, D.C. on February 1, 2022. Had I been present, I would have voted YEA on Roll Call No. 15, H.R. 5577, designating the facility of the United States Postal Service located at 3900 Crown Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building".

PERSONAL EXPLANATION

HON. JOHN H. RUTHERFORD

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. RUTHERFORD. Madam Speaker, I was unavailable and missed Roll Call votes 2, 3, 7, 8, 9, and 10.

Had I been present, I would have voted NAY on Roll Call No. 2; NAY on Roll Call No. 3; NAY on Roll Call No. 7; NAY on Roll Call No. 8; NAY on Roll Call No. 9; and YEA on Roll Call No. 10.

ARTHUR LUIS IBLETO POST OFFICE BUILDING

SPEECH OF

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 1, 2022

Mr. THOMPSON of California. Mr. Speaker, I rise today in support of H.R. 735, my legislation to rename the Cotati Post Office in honor of the Pasta King, Arturo Luis Ibleto.

Art was the embodiment of the American Dream. Born in Italy, Art fought for resistance groups at the age of 17 against Nazi Germany and Fascists during World War II.

After valiantly serving his home country, Art immigrated to Sonoma County where he met his wife Vicki and they began a new life. They built a successful restaurant and catering business that became an institutional landmark and local residents affectionally started to refer to him as the "Pasta King."

During his time in Sonoma County, he raised over \$500,000 for charitable causes. His commitment to the people of Sonoma County and our communities cannot be overlooked.

His work and philanthropy have left an indelible mark on Sonoma County which is why the City of Cotati asked that we recognize the legacy of Mr. Ibleto, and I am honored to help make this tribute possible.

HONORING THE LIFE AND SERVICE OF SARAH GIBLIN SIMONET ON THE 100TH ANNIVERSARY OF HER PASSING

HON. ELISE M. STEFANIK

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. STEFANIK. Madam Speaker, I rise today to honor the life of Sarah Giblin Simonet on the 100th anniversary of her passing.

Sarah Giblin was born in Carthage, New York on July 25, 1854, to two Irish immigrants. In 1871, Sarah married August Simonet and together, they moved to Croghan. Sarah and August had four children by the time she was twenty-three.

In 1881, Sarah enrolled in the first ever class of the Albany College of Pharmacy. There were twenty-one students in the class, twenty men and Sarah. Following her graduation from the Albany College of Pharmacy, Sarah returned to Croghan and opened a pharmaceutical practice in her general store.

While working as a pharmacist, Sarah noticed the lack of adequate healthcare within her community. Sarah took it upon herself to fix this problem and enrolled at the University of Buffalo to pursue a medical degree. Upon her graduation, she returned to Croghan and became known as the "lady physician." Sarah dedicated the rest of her life to treating her medically underserved community.

Sarah had a remarkable career serving Croghan. Doctors and pharmacists have just recently begun prioritizing merging their practices to one location to create a more convenient and equitable medical experience. However, Dr. Simonet was doing this over a hundred years ago. The practice of merging pharmacy and medical expertise to one location is now seen as an optimal solution to provide service in rural areas.

Sarah Simonet died on February 2, 1922, after a lifetime of serving her community. Even one hundred years after her death, the legacy of her work remains deeply impactful. The historical marker at the site of her former office and pharmacy on Main Street in Croghan is a testament to her lasting impact. I am proud to honor Sarah Giblin Simonet on behalf of New York's 21st Congressional District.

PERSONAL EXPLANATION

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. WITTMAN. Madam Speaker, had I been present, I would have voted YEA on Roll Call No. 15.

RECOGNIZING JOANNA CAPPS ON HER RETIREMENT

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Ms. DeLAURO. Madam Speaker, I, along with Representative GRANGER and Representative COLE, rise today to recognize and congratulate Joanna "Jodi" Capps, who retired from the Congressional Budget Office (CBO) on January 21, 2022, after more than 33 years of exemplary service to the Congress.

During her career, Jodi came to be highly respected by Congressional staff on both sides of the aisle for her deep institutional knowledge and expertise regarding the annual appropriations process.

In 1994, four years after beginning her Congressional career as a professional staff member for the Senate Appropriations Committee, Jodi moved to the Scorekeeping unit within the Budget Analysis Division of the Congressional Budget Office. For the next 28 years, she provided timely, informative, and reliable analysis for hundreds of iterations of appropriation bills while also supporting the agency's other core budgetary analysis functions.

During her tenure Jodi developed a breadth of substantive expertise across many of the annual appropriation bills. In carrying out her duties, Jodi has earned a reputation for being a dependable and trustworthy colleague, and

her efforts to foster strong, collaborative working relationships within CBO and with Congressional staff have strengthened both entities from an institutional perspective.

We are particularly grateful to her for the last 17 years she spent doing crucial work to support the legislative efforts of the House and Senate Appropriations Committees' Subcommittees on Labor, Health and Human Services, and Education. Jodi's tireless contributions to the Subcommittees—including countless nights and weekends—have been indispensable to drafting annual appropriations bills and emergency supplementals that benefit millions of American families. The Subcommittees' work spans a vast array of incredibly important topics, and the legislation from those subcommittees that has been enacted by this institution are better for the efforts Jodi has made to keep the Congress informed.

Outside of her work responsibilities, Jodi is known for her creative talents, generous civic attitude, and famous love of animals. She is a bighearted volunteer who makes it a priority to contribute her time and resources to support a wide variety of community groups that benefit people of all walks of life—and animals, too. She and her husband of many years, Alan, share a particular passion for four-footed friends, several of which are in their care at any given time. In the years ahead, we know that Jodi's community will benefit tremendously from her newfound time to devote to pursuing her passions.

We are grateful for Jodi's distinguished service to the Congress and know she will be missed throughout Capitol Hill. We celebrate her tremendous contributions to this institution, and wish her the best in her retirement.

RECOGNIZING MR. THOMAS FOREMAN'S LIFE OF SERVICE TO MIDDLETOWN BOROUGH

HON. SCOTT PERRY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. PERRY. Madam Speaker, I am honored to recognize Mr. Thomas Foreman for his life of service to Middletown Borough. Mr. Foreman has dedicated 25 years of service as the director of the Emergency Management Agency (EMA), 55 years to the Middletown Volunteer Fire Department, and over 30 years with the Pennsylvania Lottery. Mr. Foreman has become a pillar of the community through more than five decades of service.

Mr. Foreman's work with the Liberty Fire Company in Middletown began in November of 1966, where he's served as secretary, vice president, and president. While executing countless hours as a volunteer firefighter, he also maintained his involvement with the Emergency Management Agency, helping prepare the Borough for its next emergency. In the performance of his duties, he assists residents during natural disasters—to include floods, snow, and TMI events, and myriad other situations that require his oversight and assistance. He works regularly in the EMA office, attends monthly preparedness and borough meetings, and his dedication to the residents of Middletown is tireless and unmatched.

Mr. Foreman is a lifelong resident of the Borough of Middletown. Upon his retirement

from the Pennsylvania Lottery in 2004, he maintained his tireless commitment to the residents and Middletown community at large. Tom has two beautiful children—Michael, a fireman, and Kelly—and four grandchildren.

I am privileged to honor Mr. Thomas Foreman and recognize his significant contributions to our community throughout more than five decades of selfless and honorable service to Middletown Borough, Dauphin County, and the Commonwealth of Pennsylvania. On behalf of the citizens of the 10th Congressional District of Pennsylvania, I wish him Godspeed as he embarks upon his next adventure.

RECOGNIZING THE LIFE OF JEFFERY CLAYTON SHORT

HON. TRENT KELLY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. KELLY of Mississippi. Madam Speaker, I rise today to celebrate the life of Jeffery Clayton Short who passed away January 22, 2022 in Tupelo, Mississippi. My deepest condolences are with his family, friends, and loved ones.

Jeffery was born in Booneville, Mississippi to William Clayton and Havis Owens Short. He graduated from Tishomingo High School in 1961. He joined the National Guard and then the Army in 1964. He served for 15 years on active duty and then in the National Guard and Army Reserve. He was promoted to Captain after completing Officer Training School. He served in Southeast Asia during the Vietnam Conflict. He was awarded the Bronze Stars for Valor, the Purple Heart, the Army Commendation Medal, the Vietnamese Cross of Gallantry, the Combat Infantryman Badge, the Parachutist Badge, and the Parachute Riggers Patch. He was awarded the Green Beret after completing the Special Forces Qualification Course at Fort Bragg.

Jeffery also completed the Mississippi Highway Patrol Academy in 1969 and served on the Mississippi Gulf Coast during Hurricane Camille. He graduated from Ole Miss with a degree in business and then earned his Masters in Real Estate from Lindwood University in Missouri. He was a guest lecturer in eminent domain and went on to own a real estate appraisal business. He was a dedicated member of First Methodist Tupelo and a beloved youth soccer and baseball coach. He was a gifted photographer.

Left to cherish his memory are wife, Ellen Tate Short; children Clay, Andy, and Elizabeth; and eight grandchildren.

Jeffery Clayton Short was a dedicated servant of God, country, and state. My prayers will be with those mourning his loss.

PERSONAL EXPLANATION

HON. RON ESTES

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 2, 2022

Mr. ESTES. Madam Speaker, I was not present for Roll Call vote No. 15 on H.R. 5557, to designate the facility of the United States Postal Service located at 3900 Crown

Road Southwest in Atlanta, Georgia, as the "John R. Lewis Post Office Building." Had I been present, I would have voted Yes.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, February 3, 2022 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

Pursuant to the Rule, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-31, modified by the amendment printed in part C of H. Rept. 117-241, shall be considered as adopted, in lieu of the amendment in the nature of a substitute recommended by the Committee on Science, Space, and Technology now printed in the bill. **Pages H358–H806**

Proceedings Postponed:

Eddie Bernice Johnson (TX) en bloc amendment No. 1 consisting of the following amendments printed in part D of H. Rept. 117-241: Adams (No. 1) that seeks to increase funding for the Capacity Building Program for Developing Universities, ensure that like institutions only compete with like institutions, and expand eligibility to ensure that HBCU's and MSIs that do not have R1 status can receive funds; Auchincloss (No. 2) that seeks to amend Division D Section 30241 Subtitle G to read "to counter the PRC Government's efforts to spread disinformation and disburse vaccines in exchange for exploitative concessions in low- to middle-income countries while maintaining US engagement with and support for multilateral vaccine procurement and equitable distribution"; Auchincloss (No. 3) that seeks to amend Division D Section 30216 line 22 and insert "auto-disable syringes," after "diagnostics,"; Auchincloss (No. 4) that seeks to amend Division B, Title IV to require that NIST, as part of the proposed National Engineering Biology Research and Development Initiative, support discovery, innovation, and production that will encourage shared protocols and interoperability in engineering biology innovation; Auchincloss (No. 5) that seeks to direct the Treasury Department and the State Department to conduct a study on the management of sanctions against specific Afghan individuals in order to operate a foreign trade zone in Afghanistan while maintaining the United States' national security interests; Bass (No. 9) that seeks to require feasibility of expanding YALI to northern African countries in initial annual report; says YALI should

network with other similar programs); add a diversity requirement to implementation plan so more strategic locations in Africa are represented; and change the age of the Mandela program from 18-35 to 25-35 and include Mandela Washington Fellowship, YALI network, and Regional Leadership Centers as the three main programs of the Initiative; Beatty (No. 10) that seeks to add to Division A a Sense of Congress that CHIPS Act funds should be allocated in a manner that, in consultation with the Director of the Minority Business Development Agency, adequately addresses the inclusion of economically disadvantaged individuals and small businesses; Beatty (No. 11) that seeks to establish an Office of Opportunity and Inclusion in the Dept. of Commerce to develop standards related to existing CHIPS Act obligations regarding economically disadvantaged individuals; Bera (No. 12) that seeks to replace Section 30124, the "Strategy on Deterrence of Economic Coercion" with legislation creating a task force to counter China's economic coercion; Blunt Rochester (No. 14) that seeks to ensure NIST is supporting educational activities with the Manufacturing Extension Partnership for HBCUs, TCUs, and other minority serving institutions; Bonamici (No. 16) that seeks to direct the OSTP Director to develop a national circular economy that includes: a vision for how the science and technology enterprise should support the development of a circular economy, identification of key public and private stakeholders that may contribute to or benefit from a transition to a circular economy, and recommendations on specific Federal policies needed to drive this transition; Bonamici (No. 17) that seeks to direct the National Science Foundation to award Mathematics and Science Education Partnerships grants to develop STEM educational curriculums that incorporate art and design to promote creativity and innovation; Bonamici (No. 19) that seeks to direct existing ocean-focused interagency committees to coordinate overlapping data collection, align supercomputing and data storage efforts, develop cross-agency databases, and support consistent archiving practices, and assesses the potential for an Advanced Research Project Agency-Oceans (ARPA-O); Bonamici (No. 20) that seeks to direct the Secretary of Labor to award funding to eligible entities, including sector partnerships, in the infrastructure industry; Bowman (No. 21) that seeks to waive cost-sharing requirements for certain National Science Foundation grant programs related to STEM education for a period of 5 years; Brownley (No. 24) that seeks to add "alternative proteins" to USDA research and development list; Bush (No. 31) that seeks to direct the Secretary of State, in coordination with the USAID Administrator, to expand global testing capacity, vaccination

distribution, and acquisition needed medical supplies, including available COVID-19 vaccines, to ensure success in ending the pandemic globally; Bush (No. 32) that seeks to conduct a comprehensive assessment to measure the impact of oil spills and plastic ingestion on sea life; Bush (No. 33) that seeks to encourage public colleges and universities to facilitate the seamless transfer of course credit earned in the postsecondary STEM pathway directly to out-of-state public institutions and private, nonprofit HBCUs, TCUs, and MSIs; Bush (No. 34) that seeks to codify the Biden Administration's commitment to deploy 30 gigawatts of offshore wind energy in the United States by 2030; Bush (No. 35) that seeks to revise the Solar Component Manufacturing Supply Chain Assistance Program to permit support for facilities that have the ability to manufacture solar components; Bush (No. 36) that seeks to study the impacts of US and multilateral regulations and sanctions, including the environmental and public health impacts of natural resource exploitation.; Case (No. 38) that seeks to order a comprehensive study into offshore aquaculture including the environmental impact, identification of control technologies and practices to minimize environmental impacts, and assessment on the impact of international offshore aquaculture industries on the US seafood market; Case (No. 39) that seeks to direct the Secretary of State, in coordination with the Secretary of the Interior and in consultation with other relevant Federal departments and agencies, to submit to the appropriate congressional committees a report on international indigenous engagement; Case (No. 40) that seeks to establish a program for the professional development of young adult leaders and professionals in the Pacific Islands similar to the Young Southeast Asian Leaders Initiative (YSEALI) and the Young African Leaders Initiative (YALI); Casten (IL) (No. 41) that seeks to enable alternative financing to accelerate maintenance and general infrastructure projects at Department of Energy laboratories; Castor (FL) (No. 42) that seeks to enhance domestic manufacturing competitiveness by supporting the first three commercial-scale implementations of transformative industrial technologies; Chu (No. 46) that seeks to express the sense of Congress on the importance of opposing the targeting of Chinese researchers and academics based on race; Connolly (No. 48) that seeks to create an E-4 treaty trader visa category for up to 15,000 nationals of South Korea each fiscal year who are coming to the United States solely to perform specialty occupation services, subject to various requirements; Costa (No. 49) that seeks to require a report within 180 days reviewing the involvement of the People's Republic of China, state sponsored companies, and companies incorporated in

the PRC in the ownership, operation, or otherwise involvement in mining or processing facilities in countries from which the United States imports minerals, metals, and materials, and evaluating the strategic and national security implications for the United States of such involvement; Courtney (No. 50) that seeks to express a Sense of Congress that it is in the national interest for the United States to become a formal signatory of the United Nations Convention on the Law of the Sea (UNCLOS); Davids (No. 58) that seeks to add that HHS must consider small and medium sized manufacturers when establishing partnerships and cooperative agreements with manufacturers and distributors in the supply chain flexibility manufacturing pilot for the Strategic National Stockpile; DeLauro (No. 61) that seeks to add "immersive technology" as a key technology focus area; DelBene (No. 63) that seeks to strengthen existing GAO reporting requirements by requiring GAO to examine how semiconductor projects are supporting the needs of critical infrastructure industries in the United States; Delgado (No. 64) that seeks to amend technology and innovation hub eligibility to support modernization and innovation in the manufacturing sector; Dingell (No. 65) that seeks to establish a Climate Change Education Program at the National Oceanic and Atmospheric Administration to increase climate literacy, and it also establishes a grant program for climate change education; Doyle (No. 66) that seeks to amend the Clean Industrial Technology Act to add Commercial Deployment of new efficient technologies for industrial facilities and authorizes funding for the deployment; Escobar (No. 67) that seeks to include environmental defenders to mitigate the impacts of climate change and work with allies and partners to ensure a level playing field exists when it comes to climate action; Escobar (No. 68) that seeks to direct CBP to develop metrics to measure how procured technologies have helped deter or address irregular migration along the southern border, including ways in which technologies have altered migration routes and patterns; Escobar (No. 69) that seeks to direct the Secretary of Homeland Security, in coordination with the Secretary of Commerce, to submit to Congress a report that contains an assessment of the current standards and guidelines for managing ports of entry under the control of the Department of Homeland Security; Escobar (No. 70) that seeks to require a report to Congress on the implementation of measurable and sustainable development practices and an assessment of resources related to achieving carbon dioxide emission reduction targets for 2025 and 2030; Escobar (No. 71) that seeks to express a sense of Congress that the United States' engagement with the leaders of the Western Hemisphere is critical to

addressing our region's shared challenges and opportunities; Escobar (No. 72) that seeks to require the Director of National Intelligence in coordination with other departments and agencies to submit a report to Congress on the existence of any security risks and threats posed by China to upcoming U.S. Federal elections; Escobar (No. 73) that seeks to create a set aside for small businesses in economically disadvantaged areas within the Solar Component Manufacturing Supply Chain Assistance program; Escobar (No. 74) that seeks to prohibit the use of any funds authorized to be appropriated or otherwise made available under this Act to be used for publicity or propaganda purposes not authorized by the Congress; Eshoo (No. 75) that seeks to amend a requirement for an existing GAO study to include an evaluation of demand-side incentives for alleviating semiconductor shortages; Eshoo (No. 77) that seeks to direct the President to ensure that the provisions of the America COMPETES Act which are aimed at countering the influence of the Chinese Communist Party are implemented in a manner that does not result in discrimination against people of Asian descent; Foster (IL) (No. 84) that seeks to authorize the Secretary of Energy to fund restoration and modernization projects at the National Laboratories; Foster (IL) (No. 85) that seeks to allow dual intent for STEM doctoral students, allowing them to transition to a green card as provided under this bill without first needing to leave the country and start the visa process over; Foster (IL) (No. 86) that seeks to allow Office of Science funds to be used for the National Virtual Biotechnology Laboratory; Foster (IL) (No. 87) that seeks to Directs NIST to create guidelines for digital identity validation services within its digital identity Technical Roadmap; Garamendi (No. 90) that seeks to insert the "Special Immigrant Visas for Afghan Fulbright Scholars Act of 2021," which provides SIV's for those Fulbrighters currently studying at American universities and former scholars who returned to Afghanistan; Garamendi (No. 91) that seeks to add the Democratic People's Republic of North Korea, People's Republic of China, Russian Federation, and Islamic Republic of Iran to the list of prohibited "countries of concern" for the loans and loan guarantees under the proposed Critical Supply Chain Resilient Program; Garcia (No. 93) that seeks to authorize the Department of Transportation (DOT) to award maritime career training grants to institutions of higher education and postsecondary vocational institutions for the purpose of developing, offering, or improving educational or career training programs for American workers related to the maritime workforce; Gottheimer (No. 97) that seeks to require a GAO report on the possibility of the establishment of an automated supply-chain tracking ap-

plication that provides near real-time insight into the amount of critical medical and health supplies available in the Strategic National Stockpile; Gottheimer (No. 98) that seeks to require a 30-day time-limited study by the U.S. Departments of Commerce and Transportation to report to Congress and the public on the major current chokepoints in our nation's supply chain; Gottheimer (No. 99) that seeks to establish an interagency task force to address Chinese market manipulation in the United States and expands the study and strategy on money laundering by the People's Republic of China to include risks of contributing to corruption; Gottheimer (No. 102) that seeks to direct the National Science Foundation to prioritize grant awards to institutions that demonstrate effective strategies for recruiting and providing career and technical education to veterans and Members of the Armed Forces transitioning to the private sector workforce; Gottheimer (No. 103) that seeks to provide a Statement of Policy outlining that the U.S. shall prioritize the Indo-Pacific in its foreign policy and authorizes \$655 million for foreign military financing activities within the region as well as additional funding for the Southeast Asia Maritime Law Enforcement Initiative and other diplomatic activities, and authorizes an additional \$40 million for a Foreign Military Financing Compact Pilot Program; Gottheimer (No. 104) that seeks to require the National Manufacturing Advisory Council to solicit input from communities where foreign competition resulted in mass factory layoffs or economically disadvantaged areas; Grijalva (No. 105) that seeks to establish an Office of Education Technology in the Bureau of Indian Education; Hayes (No. 108) that seeks to authorize the National Science Foundation to include private sector entities as potential recipients for awards distributed; Hayes (No. 109) that seeks to encourage greater geographic diversity of Manufacturing USA Institutes by encouraging the expansion of these institutes in low income and disadvantaged areas; Horsford (No. 112) that seeks to revise the Office of Science diversity language to include Historically Black Colleges, Tribal Colleges, Minority Serving Institutions, emerging research institutions, and scientific societies; Horsford (No. 113) that seeks to help bolster the telecommunications workforce in rural areas by encouraging greater participation of students in those areas; Huffman (No. 115) that seeks to direct the Secretary of Commerce to increase the number and diversity, equity, and inclusion of STEM professionals working in the National Oceanic and Atmospheric Administration mission-relevant disciplines via a nonpartisan and independent 501(c)(3) organization to build the public-private partnerships necessary to achieve these priorities; Jacobs (No. 122)

that seeks to repeal the 25% cap pending a written commitment from the Under-Secretary-General of Peace Operations they will engage regularly with the US on peacekeeping reforms; Jacobs (No. 123) that seeks to ensure no IMET program funds are authorized to be appropriated to any foreign security forces unit if the Secretary of State determines that such forces have engaged in a pattern of gross violations of internationally recognized human rights; Jayapal (No. 125) that seeks to require the Comptroller General to submit a report to Congress on the number and amount of rewards under the CHIPS for America Fund and Public Wireless Supply Chain Innovation Fund disaggregated by recipients of each such award that are majority owned and controlled by minority individuals and majority owned and controlled by women; Johnson (GA) (No. 126) that seeks to create the Dr. David Satcher Cybersecurity Education Grant Program at NIST to fund enhancements to cybersecurity education and training programs at HBCUs, minority-serving institutions, and institutions that serve a high percentage of Pell Grant-receiving students; Kaptur (No. 127) that seeks to clarify the “economically distressed regions or localities” that can benefit from the solar component manufacturing supply chain assistance program; Kaptur (No. 128) that seeks to specify that the Great Lakes region is a region for which “the Secretary shall, to the maximum extent practicable, prioritize funding (for) clean energy incubators”; Kildee (No. 129) that seeks to extend the authorization of ARPA-E to 2026; Kildee (No. 130) that seeks to define microelectronics to make sure that DOE’s capabilities are being leveraged to the fullest extent possible; Krishnamoorthi (No. 132) that seeks to require the Director of National Intelligence to produce a National Intelligence Estimate on the nature of gray zone activities/hybrid warfare, including threats to the United States and actions that escalate and de-escalate conflict; Lamb (No. 134) that seeks to direct the Government Accountability Office (GAO) to conduct a technology assessment on the benefits and potential drawbacks of using predictive analytic tools, such as Artificial Intelligence (AI), to address the opioid epidemic; Lamb (No. 136) that seeks to establish a Freight Rail Innovation Institute, comprised of a university research partner and locomotive manufacturer, with the goal of developing zero-emission locomotives; Langevin (No. 138) that seeks to allow for admission of essential scientists and technical experts to promote and protect the national security innovation base; Langevin (No. 139) that seeks to promote the integration of art and design into the National Science Foundation’s (NSF’s) Advancing Informal STEM Learning program, which supports research and development related to innova-

tive out-of-school STEM programing; Larsen (No. 140) that seeks to restore Fulbright exchange program for participants traveling both from and to China or Hong Kong; Larsen (No. 141) that seeks to exempt residents of the Xinjiang Uyghur Autonomous Region who are granted refugee status from annual cap on refugee admissions; Larsen (No. 142) that seeks to state that the U.S. International Development Finance Corporation should prioritize support for projects that increase digital connectivity where countries have the greatest need or where competing proposals lack high standards for data security and human rights; Lawrence (No. 143) that seeks to add an additional ask that universities report promising practices regarding ethical and equitable AI research; Lawrence (No. 144) that seeks to clarify that research into urban and rural water and wastewater systems also includes low-income, disadvantaged, and underserved communities; Lee (NV) (No. 145) that seeks to update text to remove exact language that was enacted as part of the Infrastructure Investment and Jobs Act. Includes language to improve the Department of Energy’s coordination and management of demonstration projects; Leger Fernandez (No. 146) that seeks to amend the Regional Technology and Innovation Hub Program to more clearly include Tribes and Tribal Colleges and Universities; Leger Fernandez (No. 147) that seeks to direct the Secretary of Energy to carry out a report that examines the technical and economic potential, and potential ancillary impacts, of direct methane removal technologies and approaches; Leger Fernandez (No. 148) that seeks to authorize \$240 million in Economic Adjustment Assistance funding to promote economic development for communities reliant on the energy and industrial sectors; Leger Fernandez (No. 149) that seeks to revise the National Apprenticeship Program for the 21st Century Grants to include individuals recently employed in carbon-intensive industries as a targeted group; Levin (CA) (No. 150) that seeks to add the text of the Public Land Renewable Energy Development Act, which promotes the responsible development of wind, solar, and geothermal resources on public lands by prioritizing development in strategic areas; Lofgren (No. 151) that seeks to add to the quadrennial science and technology review: identification, assessment, and recommendations on science and technology gaps that would not be met without federal investment and identification and recommendations on policies to ensure a level playing field for small- and medium-sized businesses; Lofgren (No. 152) that seeks to establish the Supercomputing for Safer Chemicals (SUPERSAFE) Consortium to use supercomputing and artificial intelligence to improve our

understanding of the adverse human and environmental effects associated with industrial chemical use and to shift towards the safer and sustainable use of chemicals in manufacturing and consumer products; Lofgren (No. 153) that seeks to add to the Sense of Congress in Division D that the United States must maintain key environmental, labor, and social responsibility standards across the technology supply chain that align with the values and interests of the nation and our allies; Lowenthal (No. 154) that seeks to amend the High Seas Driftnet Fishing Moratorium Protection Act to include seabirds as a protected living marine resource; Luria (No. 156) that seeks to prohibit the use of American Rescue Plan funds to purchase telecommunications equipment manufactured by Chinese firms Huawei and ZTE; Malinowski (No. 157) that seeks to amend the Export Control Reform Act to right-size the Secretary of Commerce's scope of authority to regulate exports by US persons to foreign military, security, and intelligence agencies; Carolyn B. Maloney (NY) (No. 158) that seeks to encourage the recruitment and retention of women and minority students into STEM field; Manning (No. 159) that seeks to direct the Departments of Commerce, Energy, Defense, and other Federal agencies determined by the Secretary of Commerce to take steps to ensure Historically Black Colleges and Universities (HBCUs), Tribal Colleges and Universities (TCUs), and other Minority Serving Institutions (MSIs) are active members of Manufacturing USA institutes; Manning (No. 160) that seeks to add graduates with advanced degrees in STEM who work in a critical industry to the exemption from numerical visa limitations for doctoral STEM graduates; McEachin (No. 161) that seeks to include the identification of opportunities to reuse and recycle critical goods as a specific recommendation required in the quadrennial report on supply chain resilience and domestic manufacturing; Miller (IL) (No. 165) that seeks to strike specific language regarding graduate education research grants. Specifically striking, gender, race and ethnicity, sexual orientation, gender identity, and citizenship; Morelle (No. 166) that seeks to include technologies based on organic and inorganic materials in the priorities for research and development to accelerate the advancement and adoption of innovative microelectronics and new uses of microelectronics and components; Newman (No. 167) that seeks to expand the Small Business Vouchers (SBV) program used by National Laboratories to include vouchers for skills training and workforce development; Newman (No. 168) that seeks to require the Assistant Secretary to prioritize small and mid-size manufacturers when leveraging mechanisms to provide supply chain solutions in collaboration with the Manufacturing USA

institutes and the Manufacturing Extension Partnership as described in section 34(d); Norcross (No. 169) that seeks to add domestic production to regional innovation strategies; Ocasio-Cortez (No. 170) that seeks to prevent companies from using any of the funds allocated under Creating Helpful Incentives to Produce Semiconductors (CHIPS) fund from being used on stock buybacks or the payment of dividends to shareholders; O'Halleran (No. 172) that seeks to amend the quadrennial study to be prepared by the Assistant Secretary of the Supply Chain Resilience and Crisis Response to include information on how supply chain shocks impact rural, Tribal, and underserved communities; Pappas (No. 173) that seeks to require DHS to prioritize purchasing uniforms and related gear from American small businesses that manufacture, produce, or assemble goods, and to only purchase items from American small businesses that serve as a pass through to supply foreign-manufactured goods when domestic manufacturing does not meet all the criteria identified in the bill; Pappas (No. 175) that seeks to direct the National and Oceanic and Atmospheric Administration (NOAA) to establish and regularly update a publicly available website; Pappas (No. 176) that seeks to encourage greater collaboration in rural and remote areas with teachers and scientists; Payne (No. 177) that seeks to add libraries among eligible sub-grantee partner with the local education agency or educational service agency to partner with and enrich Elementary and Secondary Computer Science Education; Pingree (No. 189) that seeks to establish both a Working Waterfronts Grant Program and a Working Waterfront Task Force within the Department of Commerce to help preserve and expand access to coastal waters for persons engaged in commercial and recreational fishing businesses, aquaculture, boatbuilding, shipping, or other water-dependent coastal-related business; Plaskett (No. 190) that seeks to add the Shovel-Ready Restoration Grants for Coastlines and Fisheries Act of 2021 to authorize National Oceanic and Atmospheric Administration grants to implement projects that restore a marine, estuarine, coastal, or Great Lakes habitat in the United States, create jobs for fishermen in the United States, or provide adaptation to climate change; Pocan (No. 191) that seeks to update disclosures required in current law of foreign ownership of U.S. farmland to make such disclosures to USDA an annual requirement; Pocan (No. 192) that seeks to authorize the U.S. International Development Finance Corporation to invest in the vaccine cold chain (the refrigerated supply chain needed for vaccine production, storage, distribution and delivery) as well as vaccine manufacturing so that less developed countries are equipped to deliver COVID

vaccines produced by the global community; Pocan (No. 193) that seeks to authorize \$30 million in appropriations for Bioenergy Research Centers; Porter (No. 194) that seeks to incorporate national security threats related to climate change into a statement of policy on U.S. international priorities; Porter (No. 195) that seeks to incorporate national security threats related to climate change into a reporting requirement on security assistance to Pacific Island nations; Porter (No. 196) that seeks to authorize NOAA to conduct a study on the effects of 6PPD-quinone, including an economic analysis of declining salmon populations in the United States and the effect of such declining populations have on importation of salmon from other countries; Pressley (No. 200) that seeks to require the GAO to submit a report on the impact of biometric identification systems on historically marginalized populations; Pressley (No. 201) that seeks to require the Director of the National Institute of Standards and Technology to create an office to study bias in the use of artificial intelligence systems and publish guidance to reduce disparate impacts on historically marginalized communities; Ross (No. 205) that seeks to Add health professions and related programs to the definition of STEM fields in section 80303: Doctoral STEM Graduates; Ross (No. 207) that seeks to restore the Department of Interior's authority to hold offshore wind lease sales in federal waters in the Eastern Gulf of Mexico and off the coasts of North Carolina, South Carolina, Georgia, and Florida; Ross (No. 208) that seeks to add "educational technology" as a key technology focus area; Ruppersberger (No. 209) that seeks to require the Comptroller General of the United States study the effectiveness of the Defense Priorities and Allocations System's at ensuring the timely availability of micro-electronics products to meet national defense and emergency preparedness program requirements; Rush (No. 210) that seeks to require covered entities with over 100 employees that apply for semiconductor incentives to provide data on the racial diversity of their workforce to the Department of Commerce; Scanlon (No. 213) that seeks to require the director of the National Science Foundation to award up to five competitive grants to institutions of higher education and non-profit organizations to establish centers to develop and scale up successful models for providing undergraduate STEM students with hands-on discovery-based research courses; Scanlon (No. 214) that seeks to clarify the designation process for the Regional Technology and Innovation Hub Program to focus on localities that are not the top five leading technology centers; Schneider (No. 215) that seeks to require the Comptroller General to report to Congress on the impact of the global semiconductor

supply shortage on manufacturing in the United States within one year of enactment; Schrier (No. 216) that seeks to add the definition of clean energy tech to the regional innovation section; Sherman (No. 218) that seeks to require issuers of securities which fulfill certain exemptions from registration with the Securities and Exchange Commission (SEC) to submit basic information to the SEC regarding the issuer and the country in which it is based; Sherrill (No. 219) that seeks to require the Comptroller General, within 1 year, to conduct a study and submit to Congress a report analyzing the impacts of H.R. 4521 on inflation, and how all amounts appropriated pursuant to this Act are spent; Sherrill (No. 220) that seeks to provide additional clarifying language that would help facilitate NIST's work with other federal agencies on developing, managing, and maintaining greenhouse gas emissions measurements and technical standards; Sherrill (No. 221) that seeks to create a grant program for states that can be used to offset the impact of rate increases to low-income households and provides incentives for natural gas distribution companies to accelerate, expand, and enhance improvement to the distribution system; Sherrill (No. 222) that seeks to include research to advance adoption of integrated rooftop solar, distributed solar, and microgrid technologies; Sherrill (No. 223) that seeks to create the Critical Supply Chain Sectors Apprenticeships Grants program, which will provide funding and technical assistance through the national apprenticeship system to support key supply chain sectors facing workforce shortages; Sherrill (No. 224) that seeks to require the Government Accountability Office to complete a study detailing the impact of the America COMPETES Act on inflation; Sherrill (No. 225) that seeks to increase funding for the Long-Duration Demonstration Initiative and Joint Program at DOD and DOE for fiscal years 2022 through 2026; Smith (WA) (No. 226) that seeks to fix a loophole in the Child Citizenship Act of 2000 to grant citizenship to certain international adoptees; Soto (No. 227) that seeks to add nonprofits to the definition of "covered entities" to expand the semiconductor incentive program to include nonprofit entities; Soto (No. 228) that seeks to direct the Department of Labor to create a report analyzing the future of artificial intelligence and its impact on the American Workforce; Spanberger (No. 231) that seeks to Add transportation as a key sector to receive intermediary grants for national industry intermediaries to establish or expand sector-based partnerships for registered apprenticeships; Spanberger (No. 232) that seeks to require the Secretary of State, with the Attorney General, to share a report with Congress on multilateral

efforts to address fentanyl trafficking in Latin America, efforts between Latin America and China on fentanyl trafficking, and a plan for future steps the United States Government will take to urge Latin American governments and the Chinese government to address transnational criminal organizations and illicit fentanyl production and trafficking originating in the respective countries; Spanberger (No. 233) that seeks to require the Critical Supply Chain Monitoring program to focus on the effects on consumer prices, job losses, national security, or economic competitiveness; Speier (No. 234) that seeks to direct federal science agencies to take into consideration reports of administrative actions, findings, and determinations related to allegations of sexual harassment or gender harassment against grant personnel when awarding grants; Stansbury (No. 236) that seeks to authorize the National Science Foundation to facilitate access to the microgravity environment for awardees of funding from the Foundation; Strickland (No. 241) that seeks to direct the Secretary of Commerce, in coordination with the Secretary of Transportation and the Secretary of Homeland Security to issue an Interim Final Rule that will ban the transportation of sodium cyanide briquettes intended for mining purposes within the United States, unless packaged and transported in ISO steel containers and in accordance with the material's authorized packaging and transportation requirements under the Hazardous Materials Regulations; Swalwell (No. 242) that seeks to require the Director of National Intelligence to submit a report on the efforts of the Intelligence Community to support the Biodefense Steering Committee in the implementation of the National Biodefense Strategy; Takano (No. 243) that seeks to add energy storage systems to the list of strategies states should consider when developing energy plans and exercising its utility ratemaking authority; Tonko (No. 245) that seeks to authorize \$100 million for each of FY22 through FY26 for the Department of Energy to provide financial assistance to States and Indian Tribes for the purposes of improving the energy efficiency, carbon intensity, and other sustainability measures of manufacturing facilities; Torres (CA) (No. 246) that seeks to insert language on indigenous communities to the Latin America section to ensure these traditionally overlooked communities are included in U.S. strategy, and adds language on judicial independence; Torres (CA) (No. 247) that seeks to increase oversight of the International MET program through a report focusing on corruption, drug trafficking, and impeding democratic processes; Torres (CA) (No. 248) that seeks to direct the State Department to support programs in Latin America to strengthen judicial independence, anti-corruption, rule of law, and good

governance; Trahan (No. 250) that seeks to invest in fusion research through the milestone-based fusion energy development program as well as the through fusion materials R&D; Trahan (No. 251) that seeks to allow the Strategic National Stockpile to include high-quality pediatric masks, a percentage of which may be small adult masks for pediatric use; Underwood (No. 252) that seeks to encourage research into how to tailor rural STEM education for local communities; Velazquez (No. 253) that seeks to extend for five years the Small Business Innovation Research (SBIR) and Small Business Technology Transfer programs (STTR) programs and related pilots, which expire September 30, 2022; Welch (No. 254) that seeks to clarify that Brand USA funds must be used to promote travel from countries the citizens and nationals of which are permitted to enter into the US and requires Brand USA to submit to Congress a plan for obligating these funds; Wild (No. 257) that seeks to state that no funds authorized to be appropriated or otherwise made available by this Act are authorized to be made available to provide assistance for the police of the Philippines, including assistance in the form of equipment or training, until the Secretary of State certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate that the Government of the Philippines has met basic human rights standards; and Williams (No. 259) that seeks to ensure grants from the National Science Foundation can be used for the professional development and mentorship of student and faculty researchers at HBCUs, TCUs, and MSIs; **Pages H828–65**

Bonamici amendment en bloc No. 2 consisting of the following amendments printed in part D of H. Rept. 117–241: Banks (No. 8) that seeks to require a determination into whether certain Chinese companies implicated in using Uyghur forced labor meet the criteria for sanctions under the Uyghur Human Rights Policy Act of 2020, and the Uyghur Forced Labor Prevention Act; Bonamici (No. 15) that seeks to reauthorize the Federal Ocean Acidification Research and Monitoring Act funding for NOAA and the NSF; Bonamici (No. 18) that seeks to create an Interagency Working Group on Blue Carbon, led by NOAA, to oversee the development of a national map of blue carbon ecosystems; Budd (No. 25) that seeks to require an intelligence assessment to determine the degree to which, if any, the Russian Federation has coordinated with the People's Republic of China regarding a potential further invasion of Ukraine; Chabot (No. 44) that seeks to add the text of the Tropical Forest and Coral Reef Conservation Reauthorization Act which authorizes funding for the Tropical Forest and Coral Reef Conservation Act of 1998 for FY2022–2026; Cohen (No. 47) that

seeks to mandate a public listing by country of stolen assets recovered in the United States and authorizes public visa bans against foreign individuals who demand bribes; Craig (No. 51) that seeks to insert the full text of the bipartisan Supporting Apprenticeship Colleges Act, which authorizes Department of Education grants for academic advising and community outreach to construction and manufacturing oriented apprenticeship colleges; Craig (No. 52) that seeks to direct the newly created position of the Assistant Secretary for Supply Chain Resilience and Crisis Response to evaluate the stability of the Agriculture and Food System supply chain; Crenshaw (No. 53) that seeks to require a report on the negative impacts One Belt, One Road (OBOR) participation has on countries that take part; Crenshaw (No. 54) that seeks to express the sense of Congress that China is not a developing nation, but is industrialized and therefore any agreements that advantage China as a “developing nation” should be updated to reflect China’s actual status as industrialized; Crenshaw (No. 55) that seeks to require a classified report on what is needed to bypass China’s “great firewall” and provide uncensored media to the Chinese people; Crenshaw (No. 57) that seeks to strengthen the Olympic section by stating the IOC should develop a framework for reprimanding or disqualifying host cities and the countries in which they are located if the governments of such countries are actively committing mass atrocities during the Olympic and Paralympic bidding process or between a city’s election as a host city and the duration of the Olympic and Paralympic Games that its government is hosting; Rodney Davis (IL) (No. 59) that seeks to add the text of the Critical Infrastructure Manufacturing Feasibility Act to the bill which directs the Secretary of Commerce to conduct a study on the feasibility of manufacturing more goods in the United States; DeLauro (No. 60) that seeks to prohibit the possession, transport, and sale of captively raised mink for fur production; DelBene (No. 62) that seeks to amend Section 30612 to clarify the exemption for aircraft from the definition of electronic waste; Eshoo (No. 76) that seeks to direct CISA to publish an annual report to promote evidence-based policies and controls that small entities (i.e., small businesses, nonprofits, local governments) may employ to improve cybersecurity; and requires a Commerce Department annual report on barriers small entities face in implementing cybersecurity policies and controls; Fallon (No. 78) that seeks to authorize the hiring of 10 additional staff for the Treasury Department’s Office of Foreign Assets Control to carry out activities associated with the People’s Republic of China; Fitzgerald (No. 81) that seeks to require the Federal Trade Commission (FTC) and the De-

partment of Justice (DOJ) Antitrust Division to monitor and take foreign government subsidies into account in the premerger notification processes; Fortenberry (No. 82) that seeks to add the text of the Eliminate, Neutralize, and Disrupt Wildlife Trafficking Act, which continues the work with international partners, including nations, nongovernmental organizations, and the private sector, to identify long-standing and emerging challenges related to wildlife poaching and trafficking; Foster (No. 83) that seeks to authorize the Secretary of Energy to upgrade the nuclear research capabilities of universities in the United States to meet the research requirements of advanced nuclear energy systems; Gallagher (No. 88) that seeks to add the text of the American Security Drone Act of 2022, which prohibits federal operation or procurement of certain foreign-made unmanned aircraft systems; González-Colón (No. 95) that seeks to recognize the contributions made by the 305-meter radio telescope at the Arecibo Observatory in Puerto Rico; Gottheimer (No. 100) that seeks to add potential opportunities for partnership with Israel and other regional nations in areas such as technological cooperation critical to national security as an element of the U.S. strategy for countering China in the Middle East; Gottheimer (No. 101) that seeks to require a report to Congress focusing on links between private sector Chinese technology and social media companies and the Chinese government including potential risks related to technology transfer and Chinese investment in U.S. and allied nation technology companies; Hayes (No. 107) that seeks to enable the Director of the National Science Foundation to make awards to eligible nonprofit programs for supporting hands-on learning opportunities in STEM education, prioritizing vulnerable students; Hill (No. 111) that seeks to require foreign business entities to assign and register an agent with the Department of Commerce as a prerequisite to doing business in the United States, and require foreign business agents to be responsible and liable for any regulatory proceeding or civil action relating to such covered foreign entity; Houlahan (No. 114) that seeks to codify recommendations included in the September 2021 DoD OIG report to address pharmaceutical supply chain weaknesses; Issa (No. 117) that seeks to require a report to Congress from the Department of Commerce outlining steps that can be implemented within 30 days to immediately address the supply chain crisis; Jackson (No. 118) that seeks to add a reporting requirement under Division D regarding Chinese investment in the agriculture sector; Jackson (No. 119) that seeks to direct the Permanent Representative of the United States to the United Nations to use the

voice, vote, and influence of the United States to remove Israel as a permanent agenda item and to bring an end to the “Commission of Inquiry” to investigate the State of Israel; Jackson (No. 120) that seeks to add a Sense of Congress that future Olympic games should not be held in countries that are committing genocide; Lamb (No. 135) that seeks to establish specific research and development program at Department of Energy to reduce the carbon footprint in steel production; Langevin (No. 137) that seeks to require the Department of Homeland Security to designate four Critical Technology Security Centers to evaluate and test the security of technologies essential to national critical functions; McKinley (No. 162) that seeks to extend the prohibition in section 20302 (“Solar Component Manufacturing Supply Chain Assistance”) to any facility that is located in: an area controlled by the Taliban, or another entity designated by the Secretary of State as a foreign terrorist organization; or a foreign country of concern; Pappas (No. 174) that seeks to establish the Rural Export Center to assist rural businesses seeking to export their products; Perlmutter (No. 178) that seeks to add the bipartisan SAFE Banking Act which allows state-legal cannabis businesses to access the banking system and help improve public safety by reducing the amount of cash at these businesses; Pfluger (No. 187) that seeks to require a report from the Department of State on global exports of natural gas and a description of actions taken by the United States to foster natural gas exports to foreign countries; Posey (No. 197) that seeks to support the methods and techniques for domestic processing of materials for microelectronics and their components; Quigley (No. 202) that seeks to add the text of the Preventing Future Pandemics Act of 2022, which establishes the foreign policy of the United States to work with state and non-state partners to shut down certain commercial wildlife markets, end the trade in terrestrial wildlife for human consumption, and build international coalitions to reduce the demand for wildlife as food, to prevent the emergence of future zoonotic pathogens; Reschenthaler (No. 203) that seeks to direct the National Academies to study the feasibility of providing enhanced research security services to further protect the United States research enterprise against foreign interference, theft, and espionage; Reschenthaler (No. 204) that seeks to require the quadrennial report on supply chain resilience and domestic manufacturing to include a description of the manufacturing base and supply chains for rare earth permanent magnets; Ross (No. 206) that seeks to encourage federal agencies substantially engaged in the development, application, or oversight of emerging technologies to consider designating an individual as an emerging technology

lead to advise the agency on the responsible use of emerging technologies, including artificial intelligence; Ryan (No. 211) that seeks to create a congressionally chartered commission to make recommendations to Congress on how best to maintain and bolster the U.S. supply chains; Salazar (No. 212) that seeks to require a report from the Department of State on major Chinese infrastructure projects in Latin America and the Caribbean and the ability of the host countries to service the debt associated with them; Soto (No. 229) that seeks to require the Director of the Office of Science and Technology Policy to establish a blockchain and cryptocurrencies advisory specialist position within the Office to advise the President on matters related to blockchain and cryptocurrencies; Spanberger (No. 230) that seeks to require a report on the national security implications of open radio access networks (Open RAN or O-RAN), including descriptions of U.S. efforts to ensure we are leading in standards development and assessments of national security risks associated with certain dynamics in the O-RAN industry; Stansbury (No. 235) that seeks to establish a Foundation for Energy Security and Innovation; Stauber (No. 237) that seeks to require the Report on Bilateral Effort to Address Chinese Fentanyl Trafficking to include an assessment on the intersection between illicit fentanyl trafficking originating in China and the illicit fentanyl trafficked over the southern border into the United States; Steel (No. 238) that seeks to establish that China should end its classification of “developing nation” within the Paris Agreement; Torres (CA) (No. 249) that seeks to add the “National MEP Supply Chain Database Act of 2021” to the bill, creating an effective database to aid small manufacturers across the country and strengthen our manufacturing supply chain; Wenstrup (No. 255) that seeks to require DNI, in consultation with DOD and State, to report on CCP investments in port infrastructure since Jan. 1, 2012; Wild (No. 256) that seeks to direct State Department, in consultation with Office of Science and Technology Policy and other scientific agencies’ leaders, to work with U.S. ally countries to establish international security policies and procedures for protecting research in key technology areas from adversaries; and Williams (GA) (No. 258) that seeks to task the Small Business Administration with maintaining a resource guide to help childcare small businesses start and grow, strengthening the competitiveness of our workforce by improving access to childcare; and
